DEPARTMENT OF PARKS.

BOROUGH OF THE BRONX.

REPORT FOR THE QUARTER ENDING DECEMBER 31, 1907.

Hon. GEORGE B. McCLELLAN, Mayor of The City of New York, City Hall, New York City:

Sir—Herewith is transmitted report of the designs for improvement, work accomplished, and finances of the Department of Parks, Borough of The Bronx, for the three months ending December 31, 1907.

This report must necessarily be somewhat meagre, owing to the fact that, early in December, a request was received from the Finance Department to discontinue all work paid for from Corporate Stock. This put an immediate stop to all construction work being done by park labor, which was chargeable to the above account, also to all contract work which was not already well under way and approaching completion.

Respectfully yours,  
JOSEPH I. BERRY,  
Commissioner of Parks, Borough of The Bronx.

BRONX PARK.

Botanical Garden, Bronx Park.

Greenhouses, Boiler House and Steam Trench, Kelly & Kelley, Contractors—On these contracts, the masonry of the foundations of six of the range of greenhouses is about half completed, and the steam trenches are very nearly completed.

Public Comfort Station—The contract for this building was advertised and bids were received during the last quarter, but the work was not awarded, owing to the financial conditions.

Museum Cases, Abramson-Engesser Company, Contractors—This contract for the sixty-five museum cases is all completed, with the exception of some rearrangement of locks, and a small amount of cleaning to be done. Final payment will be rendered early in January.

Stone Wall—On October 3, a contract was awarded to Guidone & Galardi for the erection of a stone wall surmounted by an iron fence, to be built between the Botanical Garden and St. John's College property. This contract has not yet received the approval of the Comptroller, owing to financial conditions.

Zoological Park, Bronx Park.

Concourse and Approaches, John V. Schaefer, Jr., & Co., Contractors—On this contract, the telford road system is completed, with the exception of some retouching, which will be done in the spring; the west approach, the balustrade and the drainage system are all completed, and the contract will probably be finished early in the spring.

Public Comfort Station, Wm. Whisten's Son, Contractor—The stucco work on this contract is completed; the marble wainscot is in place, and the building will probably be completed and ready for occupancy early in the coming year.

Elephant House, Nesbit & Co., Contractors—On this contract a large portion of the cage iron work is in place; the limestone and granite are set and the walls are up to the roof, but the roof has not as yet been completed.

Concourse Entrance, John V. Schaefer, Jr., & Co., Contractors—With the exception of some interior painting and touching up, the two gate buildings on this contract are completed, and the work will be finished early in the spring.

Soda Pavilion, Kelly & Kelley, Contractors—On this contract the excavation and masonry have been finished, the frame work of the building has been erected and the contract should be completed about April 1, 1908.

Sidewalks in Baird Court—The contract for this work of constructing granolithic and brick sidewalks in Baird court was advertised, but it has not as yet been awarded, owing to the financial stringency.

VAN CORTLANDT PARK.

Comfort Station, Thos. Buckley Construction Company, Contractors—This contract has been completed and final payment was rendered on October 19, 1907.

Gun Hill Road—Gun Hill road has been put in first class shape during the last quarter by park labor, the work consisting of grading, sloping and terracing. About sixty lengths of 18-inch pipe were used to drain this road; trenches were dug at some points and fill hauled to cover the drain at other points.

Near Gun Hill road and paralleling it, from Mosholu parkway to Grand avenue a new path was constructed about 1,800 feet long and 8 feet wide, which necessitated the building of a dry wall about 150 feet long, from 2 to 6 feet high, to sustain the pathway. Most of this pathway has been spread with screenings, and only a little touching up is necessary, which will be done in the spring as soon as the weather conditions will permit.

Gutters—Gutters were excavated and relaid with new granite blocks on the Deer Field road, the Golf road, Mosholu avenue, Gun Hill road, Van Cortlandt avenue and at the depot, aggregating about 1,200 linear feet of gutters repaired and new gutters laid.

General Maintenance—The skate house and pathways surrounding it have been put in first-class shape for the skating season; the lake has been cleared for skating, and everything has been put in readiness for the large number of skaters who visit this park during the skating season.

The golf links were maintained in good condition during the fall and were patronized by large numbers of players. They were closed early in December to admit of necessary repairs and to place them in good condition for the next season.

Eight new tennis courts were laid out and put in condition for playing, and a number of new baseball diamonds were laid out in order to better meet the demands for next season.

Around the comfort house in the parade grounds considerable work was done in grading, filling in and resurfacing, and all of the lawns were mowed and kept in good condition.

MOSHOLU PARKWAY.

The Glen—Work on the improvement of the Glen at the junction of Mosholu parkway and Webster avenue was prosecuted during the first part of the quarter until stopped by order of the Finance Department.

SPUYTEN DUYVIL PARKWAY.

Retaining Wall—A contract was awarded for the erection of 105 feet of retaining wall on this parkway, but it has not yet received the approval of the Comptroller, owing to financial troubles.

General Improvement—The work of improving this parkway, laying gutters, etc., has been stopped. About 4,050 linear feet of gutters 3 feet wide, and 1,855 linear feet 18 inches wide, which were in bad shape and insufficient to drain the roadway, were excavated and relaid with new Belgian blocks. Fifty thousand Belgian blocks were delivered on contract for the completion of these gutters, and most of them are now distributed along portions of the roadway, a great source of inconvenience and danger. It is hoped that this work may be continued at the earliest possible moment.

The land west of the railroad, on both sides of Two Hundred and Forty-second street, was cleaned up and put in good shape during the last quarter; the banks on the north side were terraced and sodded; on the southwest side of Two Hundred and Forty-second street the land was graded, and the fill taken from there was hauled to the Gun Hill road to cover a newly constructed drain at that point.

Resurfacing—A contract was awarded in October for furnishing broken stone and screenings to resurface the greater portion of this parkway, and the distance between Broadway and Riverdale avenue had been resurfaced, by park labor, when all work was stopped on account of financial conditions.

Bridle Path—Application was made in the fall for the construction of a bridle path along the southerly side of this parkway, and investigations are now being made to ascertain whether this will be practicable or whether its construction would destroy other more desirable parkway features.

PELHAM BAY PARK.

Draining Swamp Lands—The necessary vitrified drain pipe was delivered on contract for draining the swamp lands near the athletic field in this park, and about 900 linear feet of trenches had been dug and drain pipes laid and covered with brush, when all work was stopped by order of the Finance Department.

Shelter Pavilion—The lumber for building this comfort pavilion, which was delivered by contract, was nearly all framed and prepared for erection, and part of the framework was erected, by park labor, when the work was stopped.

Bridges—On the four bridges being built by the New York, New Haven and Hartford Railroad Company in this park, the abutments are about completed, and about half of some of the approaches have been finished.

BRONX AND PELHAM PARKWAY.

Trenches, Planting, etc.—The trench which was dug along the whole of one side and about one-half of the other side of this parkway, from the Eastchester road to the New York, New Haven and Hartford Railroad, and filled with top soil, has been planted with choice shrubs, the number planted, including those along the parkway easterly of the railroad bridge, being upward of 5,000.

Fountain—The handsome rustic stone fountain on this parkway has been completed, all work, including the plumbing, fittings, the construction of adjacent paths at each end of the roadway, etc., excepting the modeling and molding of the two lions' heads, being done by park labor.

New Roadway—The work of constructing a new roadway and path, to the width of 48 feet, along the southerly boundary of this parkway, was vigorously pushed by such park employees as could be spared from other work, up to the time we were ordered to discontinue. Most of the excavation has been completed, and about 3,550 linear feet has been rough graded and made ready for the trap rock surface.

Resurfacing—The resurfacing of the main driveway and the Eastern boulevard has been vigorously pushed during the last quarter, and was completed as far east as Split Rock road, when all work was stopped on it.

Gutters—The work of laying gutters on this parkway was also discontinued; about 3,000 linear feet has been laid.

#### CROTONA PARK.

Improvement of Grounds North of Municipal Building, Guidone & Galardi, Contractors—On this contract all of the steps have been completed with the exception of the limestone coping and cheek pieces; about 250 feet of the wall on the sidewalk is built; about one-half of the rock excavation is made, and some of the drainage is completed.

Improvement Around Music Stand—About 800 feet of sod was laid in front of and around the music stand; two flights of steps, twelve steps each, were built, leading up from Crotona avenue to the music stand, and two small telford paths 25 feet long and 12 feet wide were built, leading to the new stone steps.

#### CLAREMONT PARK.

Improvement of Clay Avenue Side—That portion of the easterly side lying north of the Wendover avenue entrance has been nearly all graded and put into first-class shape, except seeding and the construction of one path. It will be impossible to complete the portion south of the entrance with the funds available.

Walks—The sidewalk on the west side of Clay avenue, north and south of One Hundred and Seventy-first street, was regulated and graded for a distance of 200 feet.

A walk was constructed from Clay avenue and One Hundred and Seventy-first street for a distance of 250 feet, connecting with the steps west of Clay avenue.

#### ST. MARYS PARK.

Grading, Filling In, etc.—Portions of the eastern part of this park were filled in and graded during the last quarter and a new ball field was laid out.

The excavation made by razing the old stable in this park was filled in with 2,000 feet of dirt, and 1,000 feet of top soil was placed on the same.

Paths—A cinder path, 150 feet long and 3 feet wide, with two gutters, was laid in the northeastern part of this park, on Trinity avenue.

Paths were also built on St. Anns avenue, from One Hundred and Forty-eighth to One Hundred and Forty-ninth street, 420 feet long; on the old Passage road, from Trinity avenue to One Hundred and Forty-ninth street, 420 feet long, and from Trinity avenue to St. Marys street, 150 feet long.

Fencing—Funds were appropriated for fencing a portion of this park, and the work was about to be begun, the material to be furnished by contract and the work to be done by park labor, when all work was stopped by order of the Finance Department.

#### ST. JAMES PARK.

Fence Wall—This work was begun by park labor, nearly all of the foundation material was delivered, and most of the excavation for the wall was made, when the Finance Department ordered the work stopped.

#### SMALL PARKS.

A contract was awarded to the New Jersey Foundry and Machine Company, during the last quarter, for 10,000 additional feet of railing for fencing the small parks, but this contract has not as yet received the approval of the Comptroller, owing to financial conditions; and all work of erecting and painting fences has been stopped.

#### TREE PLANTING, TREE GUARDS, ETC.

The contract for planting trees in the City streets, and erecting tree guards around trees on the parkways and streets, was vigorously pushed during the last quarter, and the work was continued until the weather became too severe. Up to January 1, about 650 trees had been planted, and over 400 tree guards erected around trees on the parkways and streets. This work will be continued as soon as the weather conditions will permit, in the spring.

#### BRONX SHOPS.

The usual work of construction and repairs was carried on in the Bronx shops during the quarter, consisting of painting railings in the small parks, painting the outside and varnishing the inside of the comfort station in Macombs Dam Park, painting the stairs of the Municipal Building, and the ball stand in Crotona Park; setting up fence railing around small parks; building catch basins; building rustic fences; repairing tools, lawn mowers, wagons, carts, sleighs, etc.

#### PLANS, SPECIFICATIONS, ETC.

In the office, plans, specifications, sketches, etc., have been prepared for the following:

Pursuant to a resolution of the Commissioners of the Sinking Fund, the sale of the above-described buildings and appurtenances thereto will be held, by the direction of the Comptroller, on

**FRIDAY, MAY 29, 1908,**

at 12 o'clock m., on the premises, upon the following

#### TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of the City of New York, and must also at the time of sale, give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of fifty dollars, the sum of fifty dollars shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

All the materials of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the sidewalk and curb in front of said buildings extending within the described area and down to the level of the cellar bottom, shall be torn down and removed from the premises. The permits for all openings in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances or any portion thereof within sixty days from the day of the sale will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner and must be completed within sixty days from the day of sale, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down.
