NEW YORK, June 3, 1891.

The above-mentioned bills having been read and passed on separately, on motion, the same were approved and ordered transmitted to the Finance Department for payment, by the following vote:

Ayes—Commissioners Gallup, Dana, Tappen—3.

The President presented the following report:

The President reports as follows:

In order that the work of resurfacing the drives in the Central Park, which have for the past four years been allowed to run down, in some cases the gravel being worn entirely down to the foundation stones, and also to finish the work of cleaning out the ponds, twenty-five laborers were appointed for thirty days. The condition of the appropriation will permit this, as economy has been practiced during the first part of the year.

On May 29 a communication was received from the office of the Chief of Engineers, U. S. A., at Washington, requesting this Board to consent to an agreement indicating approval by the Secretary of War, under section 7 of the River and Harbor Act of September 19, 1890, of the plan and location of the bridge to be built across Harlem river, at Seventh avenue, which, together with the said communication, was referred to the Corporation Counsel for his advice.

Since the last report to this Board, an opinion has been received from the Corporation Counsel, dated May 29, in which the verbal advice which was given to this Department by one of the Assistants in his office to the effect that it would be proper for the Department to commence the construction of the Pelham Park dock, in spite of the fact that it might run out beyond high water-mark, has not been approved. The opinion states that the lands acquired by the City for the Pelham Bay Park extend only to high water; that Mr. Marshall, upon whose property it is proposed to build the dock, had not any riparian rights, and hence, that the City got no title to the lands under water; that proceedings to acquire the grant of lands under water have been instituted. The Department was further advised that it would not be lawful for the construction of a dock to be commenced; therefore, though the contract will be printed in order to save time, it will not be advertised until further instructions from the Board. The opinion of the Corporation Counsel is submitted.

Concerning the cleaning of the Transverse roads, of which a report was made heretofore to the Board, I have made a contract for \$100 with J. Holland, who is the contractor employed by the Department of Street Cleaning, and who has undertaken to clean all three Transverse roads thoroughly for \$100. The estimated cost of having Transverse road No. 3 alone cleaned by the Street Cleaning Department was \$70, and the arrangement with Holland is undoubtedly an economical one.

I have noticed frequently and complaints have been made that bicycles in the park at night are dangerous, because they do not always carry lights. Pursuant to chapter 744 of the Laws of 1887, I recommend that a resolution be passed that bicycles and tricycles be not allowed in the parks at night unless they have lights and bells.

The Society for Instruction of First Aid to the Injured have offered this Board badges to be given to such of the officers as have shown extraordinary aptitude and intelligence in treating accidents which have occurred in the parks; and if the Board concur, I suggest that they be awarded upon the certificate of the physician showing extraordinary merit.

Owing to incompetency two foremen have been requested to resign.

Pursuant to authority conferred by the Board heretofore, I have granted a temporary privilege to the Hack Drivers' Association to occupy the asphaltic sidewalk at the north side of Fifty-eighth street, corner of Fifth avenue. This permission to continue temporarily, to ascertain if such hack stand will be disagreeable to surrounding property owners.

On motion, the report and action of the President was approved, by the following vote:

Ayes—Commissioners Gallup, Dana, Tappen—3.

Commissioner Gallup offered the following:

Resolved, That all bicycles and tricycles using the parks at night shall be required to be provided with proper lights and bells.

Which was adopted by the following vote:

Ayes—Commissioners Gallup, Dana, Tappen—3.

On motion, at 12.20 P. M. the Board went into executive session.

On motion of Commissioner Dana, the application of Charles B. Stover for permission to use one of the houses in Pelham Bay Park, was taken from the table and denied, the Board being of opinion that the parks are intended for excursions or day use, and cannot properly be used in the manner asked for by Mr. Stover.

On motion, at 12.30 P. M. the executive session arose and the Board adjourned to Friday, 5th instant, at 11 A. M.

CHARLES DE F. BURNS, Secretary.

FRIDAY, JUNE 5, 1891—ADJOURNED MEETING, 11 A. M.

Present—Commissioners Gallup (President), Dana, Tappen.

Commissioner Tappen offered the following:

Resolved, That James Long, Patrick Murray and Daniel Kelly be reinstated as Laborers in the employment of the Board of Parks upon their discontinuing the proceeding brought by them for a mandamus against said Board without cost, and signing a stipulation waiving any claim for alleged pay up to the present time. This resolution is offered for the purpose of allowing the above-named veterans to show their good faith, and to test the question whether or not they are capable of doing the work of the Department on which they were employed.

In case the stipulation above referred to is not signed by the said Long, Murray and Kelly this resolution to be of no effect.

Which was adopted by the following vote:

Ayes—Commissioners Gallup, Dana, Tappen—3.

Commissioner Gallup offered the following:

Resolved, That the contract for which proposals were received on 3d instant for improving the public place or plaza at Fifth avenue and One Hundred and Tenth street be awarded to Joseph

Moore, the lowest bidder; that his proposal be sent to the Comptroller for approval of the sureties thereon, and when so approved that the President be authorized to sign the contract for and on behalf of the Department.

Which was adopted by the following vote:

Ayes—Commissioners Gallup, Dana, Tappen—3.

Commissioner Gallup offered the following:

Resolved, That all the bids or proposals received on 3d instant for constructing an entrance to the Central Park at West One Hundred and Sixth street be and the same hereby are rejected.

Which was adopted by the following vote:

Ayes—Commissioners Gallup, Dana, Tappen—3.

From A. L. Tuckerman, Architect, recommending the removal of the old elevator on the northerly side of the Metropolitan Museum of Art.

On motion, the elevator was ordered sold at public auction by the following vote:

Ayes—Commissioners Gallup, Dana, Tappen—3.

Commissioner Dana, to whom was referred the subject of a proposed children's playground in the Central Park, presented an adverse report in relation thereto. Which was received and ordered placed on file.

The hearing in the matter of the elevated railroad at the Battery was then continued.

Petitions favoring the removal of the railway structure from the Battery Park were received and ordered filed.

Messrs. Edwin M. Wright, John Jay Chapman, Charles B. Stover, L. J. Callanan, E. G. Byrnes and Thomas Barrett were heard in favor of the removal, and Mr. Julien T. Davies in opposition thereto.

Commissioner Gallup offered the following:

Resolved, That the Secretary be directed to report to the Board of Aldermen that the safety, health and convenience of the public require that the flagging and curb now on the sidewalk on the north side of West Seventy-second street, extending one hundred feet east of Amsterdam avenue, be relaid and reset where necessary, and that new flagging and curb be furnished where the present flagging and curb are defective.

Which was adopted by the following vote:

Ayes—Commissioners Gallup, Dana, Tappen—3.

Mr. McLane, representing the "Morning Journal," appeared and asked whether, in case private citizens furnished necessary funds, the Board would authorize the use of Castle Garden for concerts.

On motion, the matter was referred to Commissioner Dana.

On motion of Commissioner Dana, the Engineer of Construction was directed to make an examination of the flooring and foundation of the Castle Garden building, and report as to its safety.

The President, from the Auditing Committee, presented the following report:

In the Matter of
The application of John H. Starin to rebuild the shed between Piers 19 and 20, North river.

The President, to whom the above matter was referred Thursday, May 28, 1891, respectfully reports:

On the 30th of April and 15th of May, 1873, permits were granted to John H. Starin to build a platform and shed over the land under water belonging to the City at the location referred to. Under these permits a platform and shed were built. The said Starin now pays to this Department \$1,200 per annum for these privileges. As the present application is for permission to rebuild on premises on which permits to build have already been granted, the President thinks it should be allowed and proposes the following resolution for the consideration of the Board:

Resolved, That a permit be and hereby is granted to John H. Starin to rebuild a shed upon the platform between Piers, old 19 and 20, North river (permits for which were originally granted on the 30th April and 15th May, 1873), said shed to be erected under the direction and supervision of the Engineer-in-Chief of this Department, and in accordance with the regulations of the Fire Department in relation to such structures. Said shed to remain only during the will and pleasure of the Board.

On motion, the report of the President was approved and the aforesaid resolution adopted.

The President, to whom the above matter was referred, May 28, 1891, reported that in his opinion permit should be granted.

On motion, the application was denied, and the report ordered to be placed on file.

The Treasurer, to whom was referred the application of the New York Steam Company for the purchase of the exclusive privilege of filling in the water front between Fulton and Barclay streets, North river, reported that inasmuch as this Department is not in possession of the above premises, their request cannot be granted.

On motion, the report was approved, and the Secretary directed to notify said company of the action of the Board.

The Treasurer, to whom was referred the matter of compensation to be charged M. Koenig, for berth for bath at the foot of East Fifty-sixth street, permit for which was granted on May 28, 1891, reported that he had fixed the amount of compensation to be paid at the rate of one hundred and twelve dollars and fifty cents (\$112.50) per annum, payable monthly at the end of each month to the Dock Master of the District, commencing June 1, 1891.

On motion, the report was approved and the following resolution adopted:

Resolved, That the compensation to be charged for locating a swimming bath at the foot of East Fifty-sixth street, permit for which was granted May 28, 1891, be and hereby is fixed at the rate of one hundred and twelve dollars and fifty cents per annum, payable at the end of each month to the Dock Master of the District, commencing June 1, 1891.

The Treasurer moved that the subject-matter be tabled until Thursday, June 18, 1891, which was adopted by the following vote:

Affirmative—President Post, Commissioner Phelan.
Negative—Commissioner Cram.

Commissioner Cram gave notice that he would, at the next meeting of the Board, move to amend section 1, article VII. of the By-Laws, by adding thereto the following:

DEPARTMENT OF PUBLIC CHARITIES AND CORRECTION,
No. 66 THIRD AVENUE.

TO CONTRACTORS.

PROPOSALS FOR FLOUR.

SEALED BIDS OR ESTIMATES FOR FURNISHING and delivering, free of all expense, at the Bake-house pier, Blackwell's Island (east side), 12,000 Barrels Extra Wheat Flour, Nos. 1 and 2, will be received at the office of the Department of Public Charities and Correction, No. 66 Third avenue, until 10 o'clock A. M., Friday, July 10, 1891, said flour to be delivered in lots of 500 to 1,000 barrels (1,000 barrels fortnightly), one-half of each quality, and all to be delivered as required during the remainder of the year 1891, to be delivered in barrels only, viz.:

6,500 barrels like sample No. 1.
6,500 barrels like sample No. 2.
Empty barrels to be returned, and the price bid for the same by the contractor to be deducted from the price of the flour.

The person or persons making any bid or estimate shall furnish the same in a sealed envelope, indorsed "Bid or Estimate for Flour," and with his or their name or names, and the date of presentation, to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened by the President of said Department and read.

The contractor shall furnish a certificate of inspection by the Flour Inspector of the New York Produce Exchange, also an award from the Committee on Flour of the Exchange, that the flour offered is equal to the standards of the Department, and which certificate shall accompany each delivery of flour, the expense of such inspection and award to be borne by the contractor, also certificate of weight and tare to be furnished with each delivery.

THE BOARD OF PUBLIC CHARITIES AND CORRECTION RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 64, CHAPTER 410, LAWS OF 1882.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Delivery will be required to be made from time to time, and in such quantities as may be directed by the said Commissioners.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, each in the penal amount of fifty (50) per cent. of the ESTIMATED amount of the contract.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the VERIFICATION be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in

the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion, and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to him, or their bid or proposal, or if he or they accept, but do not execute, the contract and give the proper security, he or they shall be considered as having abandoned it, and as in default to the Corporation; and the contract will be readvertised and let as provided by law.

The quality of the articles, supplies, goods, wares, and merchandise must conform in every respect to the samples of the same on exhibition at the office of the said Department. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required before making their estimates.

Bidders will state the price for each article, by which the bids will be tested.

Bidders will write out the amount of their estimates in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, or from time to time, as the Commissioners may determine.

The form of the contract, including the specifications, and showing the manner of payment, will be furnished at the office of the Department; and bidders are cautioned to examine each and all of its provisions carefully, as the Board of Public Charities and Correction will insist upon its absolute enforcement in every particular.

Every man must attend to his own notice. It is a misdemeanor to give any jury paper to another to answer. CROTON WATER RATES.

NOTICE IS HEREBY GIVEN THAT THE annual Water Rates for 1891 are now due and payable at this office.

THOMAS F. GILROY,
Commissioner of Public Works.

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE,
No. 31 CHAMBERS STREET,
NEW YORK, August 14, 1889.

TO OWNERS OF LANDS ORIGINALLY ACQUIRED BY WATER GRANTS.

ATTENTION IS CALLED TO THE RECENT act of the Legislature (chapter 449, Laws of 1889), which provides that whenever any streets or avenues in the city, described in any grant of land under water, from the Mayor, Aldermen and Commonalty containing covenants requiring the grantees and their successors to pave, repave, keep in repair or maintain such streets, shall be in need of repairs, pavement or repavement the Common Council may, by ordinance, require the same to be paved, repaved or repaired, and the expense thereof to be assessed on the property benefited; and whenever the owner of a lot so assessed shall have paid the assessment levied for such paving, repaving or repairing, such payment shall release and discharge such owner from any and every covenant and obligation as to paving, repaving and repairing, contained in the water grant under which the premises are held, and no further assessment shall be imposed on such lot for paving, repaving or repairing such street or avenue, unless it shall be petitioned for by a majority of the owners of the property (who shall also be the owners of a majority of the property in frontage) on the line of the proposed improvement.

The act further provides that the owner of any such lot may notify the Commissioner of Public Works, in writing, specifying the ward number and street number of the lot that he desires, for himself, his heirs and

assigns, to be released from the obligation of such covenants, and elects and agrees that said lot shall be thereafter liable to be assessed as above provided, and thereupon the owner of such lot, his heirs and assigns shall thenceforth be relieved from any obligation to pave, repair, uphold or maintain said street, and the lot in respect of which such notice was given shall be liable to assessment accordingly.

The Commissioner of Public Works desires to give the following explanation of the operation of this act: When notice, as above described, is given to the Commissioner of Public Works, the owner of the lot or lots therein described, and his heirs and assigns, are forever released from all obligation under the grant in respect to paving, repaving or repairing the street in front of or adjacent to said lot or lots, except one assessment for such paving, repaving or repairs, as the Common Council may, by ordinance direct to be made thereafter.

No street or avenue within the limits of such grants can be paved, repaved or repaired until said work is authorized by ordinance of the Common Council, and when the owners of such lots desire their streets to be paved, repaved or repaired, they should state their desire and make their application to the Board of Aldermen and not to the Commissioner of Public Works, who has no authority in the matter until directed by ordinance of the Common Council to proceed with the pavement, repavement or repairs.

THOS. F. GILROY,
Commissioner of Public Works.
