DSNY Issues ‘Snow Alert’ for Sunday, February 7, 2021 beginning at 3:00 a.m.

Roadway Dining is Suspended all day Sunday

Alternate Side Parking Suspended Through February 12; Meters will be in effect

The New York City Department of Sanitation has issued a Snow Alert for Sunday, February 7, 2021 beginning at 3:00 a.m.

Based on current forecasts, the Department expects snowfall beginning early on Sunday and continuing in Sunday evening. According to the National Weather Service, accumulations of up to 8 inches are expected, with locally higher amounts possible. All winter weather information and information about the City’s response to the storm can be found by visiting the City’s Severe Weather website at www.nyc.gov/severeweather or by calling 311.

In a Snow Alert, the Department coordinates with NYC Emergency Management and the Department of Transportation on snow clearing protocol in accordance with each agency’s written snow plan. All relevant city agencies have been notified of the snow alert.

Operations Update

The Department is expecting substantial snowfall, and its Workers and equipment are prepared. Salt spreaders are filled and ready to go and will start pretreating roadways ahead of the snowfall on Saturday night. Additionally, the Department’s collection trucks have again been turned into snow plows, ready to plow once two inches of snow has fallen. The Department has more than 2,000 total vehicles equipped with plows, including salt spreaders. The Department has more than 200,000 tons of salt on hand.

Trash/Recycling Collection:

The Sanitation Workers who collect trash and recycling are the same Sanitation Workers who plow and salt the streets, therefore trash and recycling collection remain delayed. While residents may put material out at the curb following their normal schedule, snow operations take priority and collection delays are to be expected. The Department will return to collection operations as soon as operations allow. We thank residents for their patience as we work to battle significant back-to-back snow storms.

Alternate Side Parking

In order to facilitate snow removal operations, Alternate Side Parking regulations, previously suspended through February 6, will also be suspended February 7 through February 10. Due to the Lunar New Year and Lincoln's Birthday, the regulations are already suspended Thursday, February 11 and Friday, February 12. Regulations resume Saturday, February 13. Parking meters will remain in effect.

Guidance for Open Restaurants

Open Restaurants roadway dining is **SUSPENDED all day on Sunday, February 7.**

Additionally, restaurants should remove or secure furniture, and remove electric heaters. Remove the tops of structures if possible or regularly clear snow off of structures to prevent damage. The City will notify restaurants when they may reopen roadway seating for outdoor dining. Based on the current forecast, the City estimates that roadway dining may resume Monday, February 8, but this may change based on actual accumulations and roadway conditions.

Restaurant owners may find additional information to prepare their spaces for snow at <https://www1.nyc.gov/html/dot/html/pedestrians/openrestaurants.shtml>.

Protected Bike Lanes

The City takes the safe passage of our bicycle facilities seriously, especially for the essential workers who need to be out in any weather. However, the Department's initial focus during an active snow event is to keep our roadways clear for emergency vehicles to ensure New Yorkers never lose access to critical medical, fire and police services. Plowing and salting of bike facilities will begin after the emergency roadway work is underway. Protected bike lanes on main avenues will be addressed first after the end of snowfall, and PBLs on other streets will be addressed within 24-72 hours.

Snow Clearing Information

As a reminder, property owners, including restaurants with outdoor dining structures, may NOT push snow into the street, including bike lanes. This impedes snow clearing operations and is illegal. Snow may be moved against the building, to the curb line, or areas on private property. Sidewalks should be passable for all pedestrians, including a minimum 4-foot clear path, where possible.

New Yorkers are also encouraged to sign up for Notify NYC, the City's free emergency notification system. Through Notify NYC, New Yorkers can sign up to receive phone calls, text messages, and emails alerts about severe weather events and emergencies. To sign up for Notify NYC, call 311, visit www.nyc.gov or follow [@NotifyNYC](https://twitter.com/NotifyNYC) on Twitter.

About the New York City Department of Sanitation

The Department of Sanitation (DSNY) keeps New York City healthy, safe and clean by collecting, recycling and disposing of waste, cleaning streets and vacant lots, and clearing snow and ice. The Department operates 59 district garages and manages a fleet of more than 2,000 rear-loading collection trucks, 450 mechanical brooms and 705 salt spreaders. The Department

clears litter, snow and ice from approximately 6,500 miles of City streets and removes debris from vacant lots as well as abandoned vehicles from City streets.
