MESSAGES FROM HIS HONOR THE MAYOR.

The Vice-Chairman laid before the Board the following message from his

Honor the Mayor:

No. 641.

Resolved, That permission be and the same is hereby given to B. A. Meyers to parade with a steam calliope on wheels through the streets and thoroughfares of the Borough of Manhattan, under the supervision of the Police Department; such permission to continue only for the period of thirty days from the receipt hereof from his Honor the Mayor.

City of New York, Office of the Mayor, March 26, 1912.

To the Honorable the Board of Aldermen:

Gentlemen—I return herewith disapproved proposed resolution No. 641, entitled: "Resolution to permit B. A. Meyers to parade with a steam calliope on wheels."

This resolution is even worse than those which would permit advertising wagons. Very truly yours,

W. J. GAYNOR, Mayor.

Which was laid over, ordered to be printed in the minutes and published in full in the CITY RECORD.

PETITIONS AND COMMUNICATIONS.

No. 698.

New York, March 19, 1912.

The Honorable Board of Aldermen, New York City:

Gentlemen—As a citizen and taxpayer of this City, I respectfully beg to protest to your honorable body against allowing the request of Hon. Rhinelander Waldo, Commissioner of Police, in which he asks for "an issue of special revenue bonds for the amount of ninety-five thousand dollars (\$95,000) to pay the salaries of one hundred and fifty (150) additional Patrolmen for the remainder of the current year." The reasons for my protest are:

First—Commissioner Waldo's request cannot be made in good faith while he can be so liberal in the disposition of some members of the force under his command. He permits a detail of forty (40) Patrolmen and one (1) Lieutenant to the Permanent Census Board, of which he is a member; this detail is designated as the "Census Squad," whose supposed duty it is to amend the school census; around the hall of the Board of Education they are dubbed the "Pinochle Squad," as that is supposed to make up the greater part of their activities.

I have consulted two able lawyers, and both have advised that this detail of Police to the Census Board has no authority in law; that there is no provision made in the Charter or by statute for such use of the Police. They point out to me that the only excuse for such detail was that the education law of 1909, in which (article 47, section 1,000), the school census were embodied, directed the Police Commissioners in all the cities of the first class to cause a census to be taken of the school children in their respective cities in the month of October, 1909. "Thereafter the census shall be amended from day to day, precinct by precinct, by the Police as changes occur in the residence of such children, and as other children arrive at the ages prescribed in these provisions, etc., and parents, and persons in parental relation to children within the prescribed age shall report at the Police station houses in the precincts in which they severally reside when a child arrives at the age of seven years; when a child is removed from one Police precinct to another, from one school to another, etc."

Now, my contention is that it is through reports of this kind, made at the station houses, by the parents and persons in parental relation to children, that the law intended that the school census should be amended, and through the Patrolmen noting changes of residence in children of school age on their posts—that would be precinct work as the law clearly states, and not by "Squad" detail as it is being carried out. The census as taken required two years of canvassing, and by the time that it was considered completed twenty-five per cent of the children first canvassed were out of school, removed, married or gone to work, and it is only last month that the Committee on Compulsory Education of the Board of Superintendents condemned the whole Permanent Census "outfit" as absolutely worthless, and a gross waste of the taxpayers' money, and recommended that it be abolished by the Legislature in two positive statements in the public press.

The Police Commissioner should withdraw this detail and send them to the sections which he now says are not properly policed.

Second—Another indication that the Commissioner of Police is not acting in good

faith is the introduction in the Senate at Albany a few days ago by Senator Timothy D. Sullivan, who we will all concede has his thumb on the Police pulse, of a bill to amend sections 632 and 633 of the Education Law, providing that "every Policeman shall be vested with all the powers of attendance officers, and shall be subject to all the rules and regulations governing attendance officers in the performing of their duties."

This is preparing the way for the creation of a "truant squad," which, if so empowered, as this bill desires it should be, and if your Honorable Board conveniently provides the men, will have the right to inspect factories, department stores and shops, and while doing this would be under no authority or control of the Board of Education, and practically under no authority by reason of divided responsibility. A political party would be able to use this squad in a political way, as they dominate the liquor interests and criminal element today, and they would use the "truant squad" in showing favors to vicious and ignorant parents who were violating the compulsory laws.

A standing army has always been the backbone of entrenched monarchy and autocracy in monarchies of the old countries; a Police force so large as to be used to dominate, not to regulate, our democracy, is as dangerous and vicious as it would be unwise and wasteful.

The majority in your Honorable Board today is there, because you are expected to prevent just such extravagance, if indeed you do not, by acquiescing, open a new field for Police graft. Very respectfully yours,

THOMAS W. KILGANNON, 713 3d Avenue, Manhattan, New York City.

No. 699.

United Boot-Blacks Protective League of Greater New York, March 19, 1912.
President of the Board of Aldermen, Aldermanic Chamber, City Hall, New York City:

Dear Sir—At a regular meeting of the Boot-Blacks Protective League, held on Friday evening, March 15, the following resolution was unanimously passed:

"Owing to the difficulty experienced by some of our members in securing the consent of their respective Aldermen, to their applications for a license, therefore be it

"Resolved, That we, the members of the United Boot-Blacks Protective League, of Greater New York, petition his Honor the Mayor, and the Board of Aldermen, of this City, to do away with the necessity of securing the sanction of the local representative of the Board, and place the entire matter in the hands of the Bureau of Licenses, where it properly belongs."

Trusting you will lend your valuable aid in bringing about this reform.

Very respectfully yours,

PASQUALE RUSSO, 408 6th Ave., Manhattan, President; EMILIO TARI, 139 Navy St., Brooklyn, Secretary.

Which was referred to the Committee on Laws and Legislation.

No. 700.

100 Concord St., Brooklyn, N. Y., March 19, 1912.
Honorable Board of Aldermen, New York City:

Gentlemen—In reference to the request of the Hon. Rhinelander Waldo, Police Commissioner, to the Board of Aldermen, for the issue of special revenue bonds to pay the salaries of one hundred and fifty additional Policemen to be appointed by him, I wish to protest as a taxpayer against this needless expense to the City. The Police Commissioner, as already appears in the public press of the 19th inst., has sent back to patrol duty thirty-eight Patrolmen that have been doing clerical work, having had easy berths, with holidays and Sundays off. If the Commissioner will keep up the practice already started and send back to patrol duty the men on details, such as those in the Permanent Census Board at the headquarters of the Board of Education, where there are forty Patrolmen and a Lieutenant detailed, with practically no duty to perform but to draw their pay, there would not be any necessity for the immediate appointment of the one hundred and fifty additional Patrolmen asked for by the Police Commissioner, as that many could easily be taken from the numerous details without any inconvenience to the Department. Hoping the Honorable Board will consider the taxpayers' interest in this matter, I remain,

Yours respectfully,

FRANK J. LEWIS, Taxpayer.

The American Society for the Prevention of Cruelty to Animals, Headquarters, Madison Ave. and 26th St., New York, March 20, 1912.

Hon. P. J. SCULLY, City Clerk, City Hall, New York:

My Dear Mr. Scully—Will you please have the enclosed resolution, authorizing this Society to erect a drinking fountain in Catherine Slip, introduced at the next meeting of the Board of Aldermen, and oblige. Yours very truly,

ALFRED WAGSTAFF, President.

Resolved, That permission be and the same is hereby given to The American Society for the Prevention of Cruelty to Animals to erect and place a rectangular granite trough for horses in the centre of Catherine Slip, opposite No. 6 Catherine Slip, Borough of Manhattan, the said trough to be paid for by the said American Society for the Prevention of Cruelty to Animals, and to be of a pattern and design approved by the Art Commission of The City of New York. The said trough is to be erected under the supervision of the Commissioner of Water Supply, Gas and Electricity, and the water therefor shall be supplied by the Department of Water Supply, Gas and Electricity.

No. 702.

Flatbush Board of Trade, Brooklyn, New York, March 28, 1912.
The Board of Aldermen, City of New York:

Gentlemen—At a meeting of the Flatbush Board of Trade the enclosed resolution was passed. May I ask that you give this serious subject your usual prompt and careful consideration, to the end that the needed police protection will be furnished at the earliest possible moment?

The numerous and continued burglaries occurring in the Flatbush district are a positive disgrace to the City, without considering the monetary loss and feeling of insecurity of the citizens living in that section. Very truly yours,

HOWARD T. VAN TASSEL, Secretary.

Copy of Resolution Passed by the Flatbush Board of Trade.

Whereas, The numerous burglaries and acts of violence within the Flatbush district of Brooklyn reflect a serious lack of police protection and an intolerable condition of mismanagement on the part of the City government, and

Whereas, The citizens of this locality are obliged to pay heavy taxes, a large proportion of which are to support a police organization from which they derive little benefit, in that they no longer feel a sense of security in their homes, which a modern civilized city should afford, therefore be it

Resolved, That The Flatbush Board of Trade herewith demands that the City authorities furnish this district with the police protection to which it is entitled, and that enough additional Patrolmen be assigned to the local precincts to make unnecessary the hiring of private watchmen, and be it further

Resolved, That a copy of these resolutions be forwarded to the Mayor, the Commissioner of Police, the Board of Estimate and Apportionment, the Board of Aldermen, and the Alderman from this district.

Which was ordered on file.

No. 703.

New York City, March 8, 1912.
Board of Aldermen, City of New York, City Hall, New York City:

Dear Sirs—For nearly twenty years the children of this City have enjoyed the privilege of taking rides in little goat carts along the Mall in Central Park, upon the payment of a 5-cent fare. I am informed that the proprietor of these goats during all this time has been allowed to stable these goats in the park without charge, in a building which could not well be used for any other purpose. This free stabling privilege for the goats has now been withdrawn by the present Park Commissioner, and as a result the children of this City are deprived of the opportunity of enjoying these goat rides.

I am told that the present Park Commissioner called for bids for the privilege of running these goat carriages on the Mall in Central Park; but under the terms which he offered, he failed to receive a single bid.

It seems so deplorable that the children of this City should be deprived for some technical reason of this innocent enjoyment, which they have had for so many years, that I beg to inquire if something cannot be done in order to restore these goat carriages on the Mall in Central Park. Yours truly,

C. C. STILLMAN.

Gentlemen—I herewith request that your Honorable Board recommend to the Board of Estimate and Apportionment, pursuant to the provisions of subdivision 8 of section 188 of the amended Greater New York Charter, that the Comptroller be authorized to issue special revenue bonds in the amount of one hundred and thirty-eight thousand seven hundred dollars (\$138,700), the proceeds thereof to be used for the maintenance of the Williamsburg Bridge for the year 1912.
This request is made necessary by reason of abolishment of the roadway tolls on said bridge on July 18, 1911.

The estimated revenues for 1912 are \$131,000, together with a preliminary allowance of \$50,000 special revenue bonds authorized February 29, 1912, whereas the estimated cost of the maintenance of the bridge during the current year is \$319,700. The estimated deficit is therefore \$138,700.
Attached hereto is a memorandum showing the estimated receipts and expenditures for the maintenance of the Williamsburg Bridge during 1912.
Respectfully,
ARTHUR J. O'KEEFE, Commissioner.

Department of Bridges, City of New York, 13-21 Park Row, Manhattan, March 18, 1912.
To the Honorable Board of Aldermen of The City of New York:
Gentlemen—I herewith request that your Honorable Board recommend to the Board of Estimate and Apportionment, pursuant to the provisions of subdivision 8 of section 188 of the amended Greater New York Charter, that the Comptroller be authorized to issue special revenue bonds in the amount of one hundred and three thousand dollars (\$103,000), the proceeds thereof to replenish the revenues of the Brooklyn Bridge for the year 1912.
This request is made necessary by reason of abolishment of the roadway tolls on said bridge, and loss of rentals from real estate due to reconstruction of the Manhattan terminal, and erection of new shops and buildings in the Brooklyn anchorage yard.
The estimated revenues for 1912 are \$301,000, whereas the estimated cost of the maintenance of the bridge during the current year is \$404,000. The estimated deficit is, therefore, \$103,000.
Attached hereto is a memorandum showing the estimated receipts and expenditures for maintenance of the Brooklyn Bridge during 1912. Respectfully,

The Vice-Chairman laid before the Board the following communication from the Commissioner of Accounts:
No. 710.

City of New York, Office of the Commissioners of Accounts, 280 Broadway, March 22, 1912.
To the Honorable Board of Aldermen:
Sirs—Request is hereby made for the issuance of special revenue bonds amounting to \$9,865, to cover the cost of the following increases in the number of employees, and the supplies for the equipment of this force, made necessary by the increased demand for analytical work at the Standard Testing Laboratory under the jurisdiction of this Commission:

Salaries and Wages.	
1 Engineering Chemist, at \$1,800 per annum	\$1,800 00
1 Fuel Engineering Chemist, at \$1,500 per annum	1,500 00
2 Junior Engineering Chemists, at \$1,200 per annum	2,400 00
3 Coal Samplers, at \$1,200 per annum	3,600 00

1 Stenographer and Typewriter, at \$1,200 per annum	1,200 00
1 Cleaner (male), at \$720 per annum	720 00
	\$11,220 00
Less three months expired, from January 1 to April 1, 1912	2,805 00
	\$8,415 00
Supplies and Materials	1,000 00
Telephone	150 00
Contingencies	300 00

Total \$9,865 00
The necessity for increasing the force in this laboratory is presented in detail in the attached communication from the Laboratory Director, Mr. Otto H. Klein.
The situation has been carefully canvassed by the Commission on Standardization, a sub-committee of the Committee on Standardization of your Honorable Board, and is endorsed by its members. Respectfully submitted,
RAYMOND B. FOSDICK, Commissioner of Accounts.

City of New York, Standard Testing Laboratory, Office of the Commissioners of Accounts, 127 Franklin Street, Telephone 2943 Franklin, 1200 Worth, New York, March 12, 1912.

Hon. RAYMOND B. FOSDICK, Commissioner of Accounts, 280 Broadway, New York City:

Dear Sir—Owing to continually increasing demands for analytical work at the Standard Testing Laboratory, and the insufficient force to cope with this work at the present time, I respectfully ask that you make an application to the Board of Estimate and Apportionment for the following additional force:

1 Engineering Chemist, at \$1,800 per annum	\$1,800 00
1 Fuel Engineering Chemist, at \$1,500 per annum	1,500 00
2 Junior Engineering Chemists, at \$1,200 per annum	2,400 00
3 Coal Samplers, at \$1,200 per annum	3,600 00
1 Stenographer, at \$1,200 per annum	1,200 00
1 Cleaner (male), at \$720 per annum	720 00
	\$11,220 00

Also the following amounts:
Supplies and equipment \$1,000 00
Contingencies 300 00
Telephone service (additional) 150 00
Total \$1,450 00

Total \$12,670 00
As will be noticed from a perusal of the attached tabulated statement of work done from January 1, 1912, until and including March 8, 1912, the analytical work requested of this Laboratory has tripled in amount, while the force has only been increased over that of last year by the addition of one Engineering Chemist and four Coal Samplers.

It is also apparent that notwithstanding the working hours of this Laboratory have been extended beyond the regular hours, including holidays and sometimes Sundays, we are falling considerably behind, and 86 samples are on our waiting list at the present time, thereby reducing the efficiency of this institution to a large extent.

It is a well known fact that the chemical analysis of any material of construction or any article of supply will be of value only if such analysis can be made and results furnished without delay, in order to enable the respective departments by which these materials are being purchased to reject or accept such supplies at the proper time.

Fully thirty per cent of the samples analyzed and reported upon during the last two months were found to be below specification requirements or adulterated, and as a consequence, either condemned or a proportionate deduction made.

Between January 1 and this date, four additional departments to the 21 have been added as clients to the Standard Testing Laboratory. That is: City Record, Department of Health, Department of Street Cleaning, Trustees, Bellevue and Allied Hospitals.

In the promulgation and study of new specifications for the various supplies of The City of New York by the Commission on Standardization, the Standard Testing Laboratory has been continuously engaged in research work and advice, and the work of the Standard Testing Laboratory in this direction will be vastly increased as the work of the Commission on Standardization is extended.

Other work of research relating to pavement materials, paints, etc., which are urgently needed, cannot be taken up owing to lack of force.

The physical and chemical examination of coal is at the present time being done for all City Departments except the Board of Education and the Department of Water Supply, Gas and Electricity; and three Chemists of the Standard Testing Laboratory must devote their entire time and energy to the analyzing of coal alone, which leaves only two Chemists and the Director to attend to all other analytical work, as shown on accompanying schedule.

Several requests to take up the analyzing of coal for the Board of Education had to be denied owing to the insufficient force available at the Standard Testing Laboratory.

If the coal testing and sampling for the Board of Education, together with the coal work for all the other Departments on hand at the present time, shall be taken up and reports promptly made, it will require the undivided services of four Chemists and ten coal samplers. All the other analytical work will have to be done by four Chemists and the Director, providing this request is complied with by the Board of Estimate and Apportionment.

I do not intend to make the statement that even with the increased force asked for that we will be able to handle all of the work in all its details, as laid out by the Commission on Standardization; but this is the staff that can be advantageously employed in our present quarters, and until such time as the Laboratory at the new Municipal Building is ready for occupancy. Respectfully yours,
OTTO H. KLEIN, Director.

City of New York, Standard Testing Laboratory, Office of the Commissioner of Accounts, 127 Franklin St., New York, March 12, 1912.
Hon. RAYMOND B. FOSDICK, Commissioner of Accounts, 280 Broadway, New York City:

Dear Sir—In addition to my report of even date requesting additional Chemists, etc., to be added to the staff of the Standard Testing Laboratory, I beg to mention in explanation as to the charges for supplies and equipment, contingencies and telephone services, the following:

The addition of \$1,000 to cover supplies and equipment for the coming nine months is to be expended for additional balances and apparatus, new work tables, including plumbing and electrical connections, and maintenance of new automobile crusher.

A contingency fund of \$300 is required for additional carfares, trips of inspection and other contingencies caused by a larger force and a more extended service.

Increased demands at this Laboratory require a better telephone service; that is, an additional trunk line and extensions at this Laboratory; also the fees for calls in the outlying Boroughs of The City of New York, and an addition of \$150 is requested for that purpose.

In my report submitted to you this morning I notice a slight error has entered in the second paragraph of the second page, commencing "Fully twenty-four per cent * * *"; this should read "Fully thirty per cent * * *", as of the total of 441 samples examined, 132 did not comply with the specifications, which amounts to 30 per cent, and not 24 per cent.

Requesting you to have this matter corrected, which strengthens our argument for an additional appropriation, I remain, yours very truly,

OTTO H. KLEIN, Director.

Mayor's Bureau of Weights and Measures, City Hall, City of New York, March 25, 1912.

To the Honorable Board of Aldermen of The City of New York:

Gentlemen—As per your request, I am submitting herewith a corrected request for amendment of the ordinances as they relate to the Mayor's Bureau of Weights and Measures. I also desire to withdraw at this time the request made in relation to sections 384C and 395C.

Any person violating the provisions of this section shall forfeit and pay for every such offense the sum of twenty-five dollars.

To amend Section 384A by striking out that part found underlined herein:

The Commissioner shall, when said types are approved, designate a serial number, which serial number shall be used in identifying the type approved. A record of the serial numbers and to whom furnished shall be kept in the office of the Commissioner of the Mayor's Bureau of Weights and Measures.

No. 713.

Board of Estimate and Apportionment, City of New York, Office of the Secretary, 277 Broadway, March 24, 1912.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen:

Dear Sir—I transmit herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment March 21, 1912, amending resolution adopted June 3, 1910, which authorized the issue of \$8,500 corporate stock for the construction of storage houses and the improvement of a storage yard in connection with the Bureau of Buildings in the Borough of Richmond, by including therein the acquisition of a site.

Yours very truly, JOSEPH HAAG, Secretary.

Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment hereby approves of the issue of corporate stock of The City of New York to an amount not exceeding eight thousand five hundred dollars (\$8,500), to provide means for the construction of storage houses and the improvement of a storage yard in connection with the Bureau of Highways, in the Borough of Richmond, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue corporate stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter,

A true copy of resolution adopted by the Board of Estimate and Apportionment March 21, 1912.

JOSEPH HAAG, Secretary.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, March 18, 1912.

To the Honorable the Board of Estimate and Apportionment:

Gentlemen—On June 3, 1910, a resolution was adopted by your Board approving of the issue of corporate stock amounting to \$8,500, to provide means for the construction of storage houses and the improvement of a storage yard in connection with the Bureau of Highways, under the jurisdiction of the President of the Borough of Richmond. This resolution was concurred in by the Board of Aldermen on June 28, 1910. There is now remaining of said appropriation an unexpended balance of \$4,914.49.

At a meeting of your Board held June 1, 1911, there was referred to the Comptroller a communication from the President of the Borough of Richmond, stating that he proposed the establishment of a corporation yard for the Bureau of Highways, in the district known as Mariners Harbor, and suggesting as the most desirable site a plot of ground on the westerly side of Harbor road, south of Richmond terrace, known as lots 47 and 49, having a frontage of 100 feet on Harbor road, a depth of 114 feet and a frontage of about 100 feet on a public lane in the rear of Harbor road, and further requesting that the Comptroller be authorized to acquire this property, charging the cost against a balance in the corporate stock fund above referred to.

The acquiring of this plot of ground will save to the City the sum of \$360, the present rental for a plot of ground under lease at the southwest corner of Richmond terrace and Nicholas avenue, in Port Richmond, Borough of Richmond. The premises are undesirable for the reason that they are not located in the section where most of the new work is being carried on.

The new site consists of four lots, 25 by 114, which, after negotiation by the Comptroller, may be purchased for \$3,000. The property is in two ownerships.

I therefore respectfully recommend that the resolution adopted by your Board on June 3, 1910, and concurred in by the Board of Aldermen on June 28, 1910, be amended, subject to the concurrence of the Board of Aldermen, to read as follows:

Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment hereby approves of the issue of corporate stock of The City of New York to an amount not exceeding eight thousand five hundred dollars (\$8,500), to provide means for the acquisition of a site, the construction of storage houses and the improvement of storage yards in connection with the Bureau of Highways, in the Borough of Richmond, and that when authority therefor shall have been obtained from the Board of Aldermen the Comptroller is authorized to issue corporate stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding eight thousand five hundred dollars (\$8,500), the proceeds whereof to be applied to the purposes aforesaid.

—and I further recommend, after the amendment of this resolution and its concurrence by the Board of Aldermen, the price being reasonable and just, that the Comptroller be authorized to enter into contract for the acquisition of the following described property, at private sale, for use of the Bureau of Highways, Borough of Richmond:

Parcel No. 1.

All that certain lot, piece or parcel of land situated, lying and being on the westerly side of Harbor road (now Summerfield avenue) at Mariners Harbor, in the 3d Ward of the Borough of Richmond, County of Richmond, City and State of New York, bounded and described as follows:

Beginning at the southeasterly corner of land now owned by Esther and William H. Taylor; thence running westerly along the southerly line of their land one hundred and fourteen feet, more or less, to a lane; thence running southerly along the easterly side of said lane fifty feet to the northerly line of land conveyed to La Grange Jones; thence running easterly along the northerly line of his land one hundred and fourteen feet, more or less, to the westerly side of Summerfield avenue; thence running northerly along the westerly side of said Summerfield avenue fifty feet to the point or place of beginning; bounded northerly by land of Esther and William H. Taylor, westerly by a lane, southerly by La Grange Jones and easterly by Summerfield avenue; said property being known on the tax maps of the Borough of Richmond, City of New York, as block 105, lot 47; together with all the right, title and interest, if any, of the owner, of, in and to the streets in front thereof to the centre thereof.

—at a price not exceeding \$1,500, said contract to be submitted to the Corporation Counsel for his approval as to form; also

Parcel No. 2.

All those two certain lots, pieces or parcels of land situate, lying and being on the westerly side of Harbor road, in the 3d Ward of the Borough of Richmond, County of Richmond, City and State of New York, bounded and described as follows:

Beginning at a point on the westerly side of Harbor road, at the north-easterly corner of land of Abraham D. Jones, and running thence westerly along the northerly line of said Abraham D. Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, recommends to the Board of

Aldermen the establishment in the office of the Commissioner of Licenses of the grade of position, in addition to those heretofore established, as follows:

JOSEPH HAAG, Secretary.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, March 8, 1912.

To the Board of Estimate and Apportionment:

Gentlemen—On February 17, 1912, the Commissioner of Licenses requested the establishment, pursuant to the provisions of section 56 of the Greater New York Charter, of the grade of position of Law and Complaint Clerk, at \$2,300 per annum. In connection therewith we report as follows:

The grade is proposed to increase Henry N. Steinert, appointed Law and Complaint Clerk on December 31, 1904, at \$1,500 per annum. On April 1, 1907, he was increased to his present rate of \$2,000.

The Commissioner states that Mr. Steinert is a lawyer of twelve years' standing and is of particular value to the office because of knowledge of its past history, and of the persons with whom it deals. While his duties are described as for Law and Complaint clerical work, it is stated that he is mostly engaged on the legal work attached to the office. He keeps the records of all complaints, conducts the hearings upon such complaints, examines the witnesses, and sees that proper legal minutes are made in each case. He also represents the office in the prosecution of violations of the Employment Agency Law.

The Commissioner proposes to make the \$300 for the increase available from an unassigned balance of \$300 created by the decrease in a position of Telephone Operator, from \$900 to \$600.

The \$2,300 rate is not in conformity with the regular schedule of salaries.

We recommend, therefore, that establishment of the regular grade of \$2,250 per annum be approved for one incumbent by the adoption of the attached resolution.

Respectfully,

(Signed) WM. A. PRENDERGAST, Comptroller; (Signed) A. L. KLINE, Acting President, Board of Aldermen, Select Committee.

No. 715.

JOSEPH HAAG, Secretary.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, March 11, 1912.

To the Board of Estimate and Apportionment:

Gentlemen—On February 27 and 29, 1912, the Board of Trustees of Bellevue and Allied Hospitals requested the establishment, pursuant to the provisions of section 56 of the Greater New York Charter, of the following grades of positions for the Department:

	Rate Per Annum.
Hospital Helper.....	\$600 00
Hospital Helper.....	312 00
Hospital Helper.....	288 00
Hospital Helper.....	270 00
Hospital Helper.....	192 00

On February 13, 1912, the Board of Trustees requested the substitution of lump sum appropriations for line items in various grades of Hospital Helpers in 1912 schedules of salaries for temporary employees. The request was not approved by your Board. However, to make more elastic the appropriations for low-priced help, your Board on March 7 transferred positions of "Waitress," "Seamstress," etc., calling for \$360 per annum, or less, to line items of "Hospital Helper," of similar grades. The change makes necessary the establishment of the grades of positions of Hospital Helper, as requested, with the exception of the \$600 rate. Regarding this item in the request the Board of Trustees states the following:

In April, 1909, the Civil Service Commission limited the maximum wage for Hospital Helpers to \$480. In consequence the salary of a number of employees who were then receiving \$600 were reduced. On July 12, 1911, the Civil Service Commission restored the maximum wage for Hospital Helpers to \$600.

The number of Hospital Helpers fluctuates from month to month, and for that reason establishment should be unlimited, except for the \$600 grade.

In No. 202, Bellevue Hospital, Operation, a lump sum is provided for lecturers. It is proposed to establish the rates at which the lecturers may be employed, namely, \$3, \$5, \$8 and \$10 a lecture, as per oral request of the Board of Trustees.

We recommend the adoption of the attached resolution approving the requests.

To the Board of Estimate and Apportionment:

Gentlemen—On February 19, 1912, the Commissioner of Parks, Borough of The Bronx, requested the establishment in his Department, pursuant to the provisions of section 56 of the Greater New York Charter, of the grade of position of Clerk, at \$600 per annum, for one incumbent. In connection therewith we report as follows:

The establishment is for the substitution of an incumbent at the \$600 rate for one at \$750 per annum; or a decrease of \$150. A request for the necessary schedule modification has been made, but no action can be taken in this connection pending establishment.

We recommend the adoption of the attached resolution approving the request.

Respectfully,

WM. A. PRENDERGAST, Comptroller; A. L. KLINE, Acting President, Board of Aldermen; Committee on Salaries and Grades.

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the office of the President of the Borough of Manhattan of the grades of positions, in addition to those heretofore established, as follows:

Title.	Rate Per Annum.	Number of Incumbents.
Chief Engineer of Highways.....	\$5,000 00	1

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the office of the President of the Borough of Manhattan of the position, in addition to those heretofore established, as follows:

Title.	Rate Per Annum.	Number of Incumbents.
Librarian	\$1,200 00	1

A true copy of resolution adopted by the Board of Estimate and Apportionment March 21, 1912. JOSEPH HAAG, Secretary.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, March 18, 1912.

To the Board of Estimate and Apportionment:

Gentlemen—On February 21, 1912, the President of the Borough of Manhattan requested the establishment in his office, pursuant to the provisions of section 56 of the Greater New York Charter, of a new position and grades of positions as follows:

New Position.

Title.	Rate Per Annum.	Number of Incumbents.
Librarian	\$1,200 00	1
<i>Grades of Positions.</i>		
Chief Engineer of Highways.....	\$5,000 00	1
Assistant Engineer	1,500 00	2
Leveler	1,650 00	1
Rodman	1,650 00	1

The position of Librarian is for an incumbent to arrange, classify, index and file maps and other data now in possession of the Bureau of Design and Survey, which was recently organized; to prepare all maps relating to public streets, and improvements therein; and to have custody of all data relating to the streets. There are at present about fifteen thousand maps, some of them very old and valuable as records, but they have not been classified or filed. The funds necessary for the position are to be provided by eliminating a Topographical Draftsman, at \$1,200.

In the Budget for 1912, allowance was made for one Chief Engineer of Highways at \$6,000 per annum. The President states that he can secure a competent Engineer for the position at \$5,000, or a decrease of \$1,000.

The lowest established grade for Assistant Engineer is \$1,800 per annum. It is proposed to make two appointments, at \$1,500 each. Funds to meet the salaries of the two incumbents are to be provided by eliminating a Draftsman and Transitter, at \$1,500 each.

The grade of Leveler at \$1,650 is to increase an incumbent from \$1,500. It is stated that the work done by the incumbent is very responsible, as he is in immediate charge of sheet asphalt pavement maintenance and repairs.

The grade of Rodman at \$1,650 is to increase an incumbent from \$1,200. This employee is in immediate charge of the maintenance and repair work on asphalt block and wood block pavement.

The \$600 needed for these two increases is made available by the decrease of \$1,000 in the rate for the Chief Engineer of Highways.

We recommend the adoption of the attached resolution approving the request.

Respectfully,

WM. A. PRENDERGAST, Comptroller; A. L. KLINE, Acting President, Board of Aldermen, Committee on Salaries and Grades.

No. 718.

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the Board of City Record of the grades of positions, in addition to those heretofore established, as follows:

Title.	Rate Per Annum.	Number of Incumbents.
Editor	\$2,700 00	1
Bookkeeper	2,250 00	2

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, March 18, 1912.

To the Board of Estimate and Apportionment:

Gentlemen—On March 5, 1912, the Supervisor of the City Record requested the establishment in his office, pursuant to the provisions of section 56 of the Greater New York Charter, of the following grades of positions:

Title.	Rate Per Annum.	Number of Incumbents.
Editor	\$2,700 00	1
Bookkeeper	2,250 00	2

The present rate for the position of Editor is \$3,000 per annum. The \$300 decrease is to be used to increase William Viertel and Edward J. McPike, Bookkeepers, from \$2,100 to the \$2,250 rate. The proposed changes conform to the provisions of the resolution governing salary increases adopted by your Board on October 5, 1911.

The Supervisor states that the new grades are necessary to provide for the re-distribution of certain work connected with the publication of the City Record.

We recommend the adoption of the attached resolution approving the request.

Respectfully,

WM. A. PRENDERGAST, Comptroller; A. L. KLINE, Acting President, Board of Aldermen, Select Committee.

No. 719.

District Attorney's Office, Queens County, N. Y., Long Island City, March 25, 1912.

P. J. SCULLY, Esq., City Clerk, City Hall, New York:

My Dear Sir—There is a deficiency of approximately \$2,000 left over from the last administration of this office. It is made up of unpaid bills for services rendered, telephone services, supplies and other expenses incurred during the year 1911, and the attached list will give you a general statement of the items. Mr. De Witt, the former District Attorney, is out of the State and is seriously ill, and I am informed that he will not be able to return until next fall.

The present District Attorney, Mr. Matthew J. Smith, naturally has only slight information regarding these claims, but the writer was a Deputy Assistant and the Assistant District Attorney under Mr. De Witt, and is therefore more or less familiar with the facts herein stated.

Will you be good enough to present the matter to the Board of Aldermen so that funds can be obtained with which to pay these claims. Very truly yours,

JOHN HETHERINGTON, Assistant District Attorney.

The Vice-Chairman laid before the Board the following communication from the Commissioner of Public Charities:

No. 720.

Department of Public Charities of The City of New York, Foot of E. 26th St., March 29, 1912.

To the Honorable the Board of Aldermen:

Gentlemen—On March 22 we opened bids for a three months' supply of coal. The following table shows the lowest bidder on the different grades and quantities of coal asked for:

Manhattan.

Egg coal..... \$6 79

Buckwheat coal..... 5 69

Pea coal..... 7 22

Stove coal..... 6 79

B. T. coal..... 3 73

Gas coal..... 3 73

Brooklyn.

Pea coal..... 7 22

Stove coal..... 8 52

The prices received on pea, buckwheat and stove coal I consider excessive.

These high prices we feel are due to the fact that there was an unsettled feeling among the coal dealers, owing to the fear that there would be a coal strike on the first of April. Several Departments advertised for coal lately and received no bids at all. We do not therefore believe that should we re-advertise any better prices will be received.

I would therefore respectfully request permission to purchase in the open market, without public advertisement, the following quantities of coal, at a total sum not exceeding \$20,002.50:

Manhattan—500 tons of egg coal; 1,000 tons of buckwheat coal; 100 tons of pea coal; 250 tons of stove coal.

Brooklyn—1,000 tons of pea coal; 150 tons of stove coal.

We have been offered in the open market coal at a less price per ton than the lowest price received at this opening on March 22.

I therefore feel that the City would save money if permission is granted this Department to purchase the above mentioned quantity of coal at this time.

Trusting that this matter will have favorable and prompt consideration at your next month's meeting, because we have not a month's supply of coal on hand, and that a resolution in the enclosed form, or some other suitable form, will be passed by the Board at an early date, I remain, respectfully yours,

MICHAEL J. DRUMMOND, Commissioner.

Resolved, That, pursuant to section 419 of the Greater New York Charter, the Commissioner of the Department of Public Charities be and he is hereby authorized to purchase, without public letting, for the use of said Department, the following:

For Manhattan—500 tons of egg coal; 1,000 tons of buckwheat coal; 100 tons of pea coal; 250 tons of stove coal.

For Brooklyn—1,000 tons of pea coal; 150 tons of stove coal.

—the total expense of which shall not exceed the sum of \$20,002.50.

Alderman Dowling moved the adoption of this resolution.

The Vice-Chairman put the question whether the Board would agree with said resolution.

Which was unanimously decided in the affirmative by the following vote:

Affirmative—Aldermen Becker, Bedell, Bolles, Boschen, Bosse, Brush, Carberry, Coleman, Cunningham Curran, Davis, Delaney, Devine, Diemer, Dixon, Dotzler, Dowling Downing, Drescher, Eagan, Eichhorn, Esterbrook, Fink, Folks, Gaynor, Gelbke, Gilmore, Grimm, Hagenmiller, Hannon, Herbst, Kenneally, Kenney, Lieberman, Loos, McCann, McCourt, McGarry, McGrath, Marks, Moore, Morrison, Mulligan, Nicoll, Nugent, O'Connor, O'Rourke, Pendry, Reardon, Shipley, Smith, Stevenson, Walsh, Weil, White and Willard—56.

The Vice-Chairman laid before the Board the following communication from the President of the Borough of Richmond:

No. 721.

The City of New York, Office of the President of the Borough of Richmond, Borough Hall, New Brighton, New York City, March 28, 1912.

Board of Aldermen, City Hall, New York:

Gentlemen—The Clifton Refuse Destructor in the Borough of Richmond will be ready for operation on or about May 1, 1912, and no working force for the plant has been provided in the 1912 appropriations for the Bureau of Street Cleaning in my office. The construction of the refuse destructor was authorized by the Board of Aldermen in resolutions adopted June 28, 1910 (No. 1257), and January 10, 1911.

In order that the work of refuse disposal at the plant can be started in May of

this year, I would ask the Board of Aldermen to authorize the issuance of special revenue bonds (in accordance with section 188, subdivision 8 of the Charter) to the amount of \$4,141, estimated as follows:

One Stationary Engineer, 214 days, at \$4.50 per day.....	\$963 00
Two Licensed Firemen, 214 days, at \$3.50 per day.....	1,498 00
Two Laborers, 8 months, at \$900 per annum.....	1,200 00
One Laborer, 8 months, at \$720 per annum.....	480 00

Of the above titles, all except that of Licensed Firemen have been duly authorized, and to meet this condition I am asking the Board of Estimate and Apportionment to create the position required. Yours very truly,
GEORGE CROMWELL, President of the Borough.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, March 16, 1912.

To the Board of Estimate and Apportionment:
Gentlemen—On February 27, 1912, the President of the Borough of Richmond requested the establishment in his office of the grade of position of Junior Clerk at the rate of \$300 per annum. In connection therewith we report as follows:

The President states that he proposes to employ a Clerk at the rate to do work ordinarily performed by an office boy, including the indexing of letter books, meeting people in the outer offices and incidental duties. The title for the position as designated by the Municipal Civil Service Commission is Clerk.

The President has made application to the Board of Aldermen for an issue of special revenue bonds for payment of a Junior Clerk for the part of the year he may be employed. An examination, in connection with this request, developed the fact that in this as well as nearly every other Department the lowest position of a clerical nature at \$300 per annum is established under the old civil service title of Office Boy, as this title has been changed by the Civil Service Commission it would seem appropriate to bring the established grades into conformity with such title.

We therefore recommend the adoption of the attached resolution approving of establishment of the grade of Clerk at \$300 for all City Departments. Respectfully,
WM. A. PRENDERGAST, Comptroller; A. L. KLINE, Acting President, Board of Aldermen, Select Committee.

No. 725.
Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the Department of Finance of the grade of position, in addition to those heretofore established, as follows:

Title.	Rate Per Annum.	Number of Incumbents.
Medical Examiner	\$4,000 00	1

A true copy of resolution adopted by the Board of Estimate and Apportionment, March 28, 1912.

JOSEPH HAAG, Secretary.
Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, March 26, 1912.

To the Board of Estimate and Apportionment:
Gentlemen—In reference to a request of the Comptroller for establishment in the Department of Finance, pursuant to the provisions of section 56 of the Greater New York Charter, of the grade of position of Medical Examiner at \$4,000 per annum, for one incumbent, we report as follows:

The grade is proposed for Dr. Joseph H. Byrne, the present incumbent, at \$2,500 per annum. Dr. Byrne was appointed on January 16, 1910, at his present rate of compensation.

The principal duty of the Medical Examiner of the Department of Finance is to represent the Comptroller at the physical examination of persons who have presented claims against the City for personal injuries alleged to have been sustained through the negligence of officials or employees of the City. At present these examinations are conducted in the office of the Corporation Counsel.

The personal injury claims filed in the Department of Finance average about \$3,500,000 annually.

A great majority of these claims are fraudulent, the damages claimed being excessive and the injuries exaggerated. Many of the lawyers who file claims of this nature are known as "ambulance chasers." They send out "runners" to obtain the claim clients, the "runners," if necessary, manufacturing evidence to be used against the City. For this reason it is particularly essential that the employees of the Department of Finance examining this class of claims should be honest and competent investigators.

While the examiners of the Department of Finance make investigations to meet manufactured evidence, in so far as it relates to witnesses, location of accidents, etc., the City is bound to rely entirely as to the injury of the claimant upon the findings of the Medical Examiner. Frequently an accident occurs for which the City is liable. Such an accident may be trivial, but frequently an attempt is made to show permanent injury. In many cases long-standing physical defects, such as deafness, blindness, etc., have been the basis of a claim for an alleged accident.

It is therefore an urgent necessity for the Department of Finance to have a competent Medical Examiner. For the same reasons his compensation should be fixed at a figure releasing him from the exactions of private practice.

Dr. Byrne's services since his appointment have been eminently satisfactory. In claim cases he has saved the City many thousands of dollars. His reports of examinations, etc., cover more than 1,200 cases.

In 1910 Dr. Byrne examined 457 claimants for damages, while in 1911 the number of this class of claimants increased to 520.

Dr. Byrne's examination of claimants takes him to all parts of the City and points outside the City limits, some of the necessary trips taking several hours. Part of his duties is the examination of employees in the Finance Department who have reported ill. These examinations also frequently take him to distant parts of the City.

In addition, Dr. Byrne has made examinations of applicants for retirement, pursuant to the provisions of chapter 669 of the Laws of 1911. This work has been considered necessary by your Committee. It is important that an official certification on the physical condition of employees for pensions should be made to your Board, and Dr. Byrne has performed this work satisfactorily. He has examined more than thirty applicants, and new applicants are being regularly referred to him.

Dr. Byrne saves considerable cost to the City by typewriting his reports, which are filed and indexed in the Department of Finance. His work has increased materially and the proposed compensation is reasonable in comparison with the rates for the medical services in other City Departments.

The \$1,500 necessary to provide for the increase in salary will be obtained by modification of existing schedules and will involve no increase in appropriation.

We recommend the adoption of the attached resolution approving the request. Respectfully,

WM. A. PRENDERGAST, Comptroller; A. L. KLINE, Acting President, Board of Aldermen, Select Committee

The Vice-Chairman laid before the Board the following communication from the Commissioner of Docks:

No. 726.
Department of Docks and Ferries, City of New York, Pier "A," North River, New York, March 20, 1912.
Hon. JOHN PURROY MITCHEL, President, Board of Aldermen:

Sir—In the Budget for this Department for the year 1912 the sum of \$25,000 is provided for music on the recreation piers during the 1912 season.

Last year the appropriation for this purpose was \$50,000, and it was then possible to have music on the various recreation piers each evening, and to also provide dance music in the afternoon on four of the piers for three days each week.

With the appropriation of \$25,000 this year it will be necessary to eliminate the afternoon music, and the best that can be done would be to have music in the evening on but three days each week for the same period as was covered last year—ten weeks.

Pursuant to the provisions of subdivision 8 of section 188 of the Charter, I ask that resolution be adopted by you requesting the Board of Estimate and Apportionment to authorize the Comptroller to issue special revenue bonds in the sum of \$25,000 to provide additional funds for furnishing music on the recreation piers during the 1912 season, in order that the same conditions may prevail this year as were in force during the 1911 season. Very truly yours,

CALVIN TOMKINS, Commissioner of Docks.

No. 727.
The City of New York, Department of Parks, Office of Commissioner for the Borough of The Bronx, Zbrowski Mansion, Claremont Park, March 20, 1912.
Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, 51 Chambers St., New York:

Sir—Application is hereby respectfully made for revenue bonds in an amount not exceeding \$10,000, for the purpose of replacing the present roof of the elephant house in the Zoological Park. This work was done under contract and a bond given as a guarantee against leaks and other imperfections in the roof for a period of three years, the contractor to make any necessary repairs during that time.

Repeated efforts on the part of this Department have been unsuccessful in getting the contractor to repair the roof in accordance with the provisions of the guarantee bond, and the matter was finally taken up with the Corporation Counsel, who instructed me to have the roof put in proper repair and then he would begin action against the contractor and the bonding company to recover the cost of the work.

I send you herewith copy of letter received from Mr. Madison Grant, the Secretary of the Zoological Society, in which the matter is more fully set forth.

Something should be done in the immediate future, as great damage is being done the building at each rain storm, owing to the bad condition of the roof.

Yours respectfully,

T. J. HIGGINS, Commissioner of Parks, Borough of The Bronx.
New York Zoological Society, General Office, 11 Wall St., New York, March 14, 1912.

Hon. T. J. HIGGINS, Park Department, Borough of The Bronx, Claremont Park, City.

Dear Sir—The condition of the roof of the elephant house is so serious that immediate steps should be taken to prevent the spread of damage, due to the faulty construction of the roof and the leaks which have ensued.

Under advice of the Corporation Counsel, having notified the contractor, we are to proceed to repair the damage and to sue on his bond. Under these circumstances, will you be kind enough to make an emergency application to the honorable Board of Aldermen of The City of New York for the sum of ten thousand dollars (\$10,000) special revenue bonds to repair the roof of the elephant house in the New York Zoological Park. If we can obtain their approval, and I have little doubt that they will realize the absolute urgency of this matter, it can then go to the Board of Estimate and Apportionment, and we can obtain the money in time to prevent a serious increase in the damage. Yours very truly,

MADISON GRANT, Chairman, Executive Committee.

P.S.—I may add that the contractor has received due notice and has failed to make good the damage.

No. 728.

Bellevue and Allied Hospitals, Office of the Board of Trustees, 1st Ave. and 26th St., New York, March 16, 1912.

Hon. JOHN PURROY MITCHELL, President, Board of Aldermen, New York City:

Sir—The Trustees of Bellevue and Allied Hospitals have the honor to request the Board of Aldermen to authorize the issue of special revenue bonds to an amount not exceeding \$5,000 to pay for the salary of 20 Trained Nurses, at \$50 each per month, for five months, from June 1 to October 31, 1912. These additional Nurses are required to relieve the other Nurses in the Department while they are on vacation. The facts are set forth in a communication received from the General Superintendent of Training Schools, a copy of which is attached. Respectfully,

J. K. PAULDING, Secretary, Board of Trustees.

Bellevue and Allied Hospitals, Bellevue Hospital, Office of Training School, 1st Ave. and 26th St., New York, February 19, 1912.

GEORGE O'HANLON, M. D., General Medical Superintendent, Bellevue and Allied Hospitals:

Dear Sir—One hundred and seventy-five vacations fall due between June 1 and November 1, varying in length from ten days to one month; this means that we must have from 15 to 20 away all the time during this period. As we have an inadequate nursing force at all times, it seems impossible to give a single vacation unless a substitute is provided. I therefore beg that we be allowed 20 graduates at \$50 a month for five months (June 1 to October 31), \$5,000.

Last year 35 Nurses were allowed, thereby enabling us to give these vacations without closing any of the wards. Lest the fact that I am asking for but 20 this year against 35 last year cause comment, I beg leave to explain that I am asking in another communication for sufficient funds to enable us to increase our permanent graduate staff at \$50 per month by 15; unless these be allowed, 20 for "vacation relief" will not be sufficient. We also have a larger pupil nursing staff than we did last year.

It is our constant aim to give our patients the best possible care, but I feel confident that we cannot hope to do this, unless we can give our nursing staff, once a year, preferably during the summer, a respite from the constant strain of hard work required by the acute nature of the service here.

It must also be borne in mind that our nursing staff reach the summer, after an exhausting winter's work, over-tired. During the winter the wards are overcrowded; the medical schools are holding constant clinics in the wards, and the classes and lectures for the Pupil Nurses are in progress; therefore it has been impossible to give vacations during the winter. Respectfully submitted,

CLARA D. NOYES, General Superintendent of Training Schools.

The Vice-Chairman laid before the Board the following communication from the President of the Borough of Queens:

No. 732.

The City of New York, Office of the President of the Borough of Queens, Long Island City, March 28, 1912.

To the Honorable Board of Aldermen, City of New York:

Gentlemen—Pursuant to subdivision 8, section 188 of the Charter of The City of New York, application is hereby made for an issue of special revenue bonds to an amount not exceeding eleven thousand four hundred dollars (\$11,400), proceeds whereof to be expended by the President of the Borough of Queens for the purchase of three (3) automobiles, for the hire of the necessary chauffeurs by reason thereof and for the maintenance and storage of same during the balance of the year 1912.

It is absolutely necessary for the proper transaction of the business of the Bureaus of Sewers, Buildings and Topographical Bureau to have this means of transportation throughout this Borough for the proper performance of the functions devolving thereon by law.

The fact is well known that the public transportation facilities in the Borough of Queens are very meagre as to the greater percentage of its vast territory, some parts of it being entirely inaccessible except by steam railroad, with trains hours apart, a walk of four or five miles is a common occurrence for the Inspectors to reach certain points after disembarking from the railroad trains. From a standpoint of economy this condition should be abolished.

The office of the President of the Borough of Queens has under its jurisdiction the following Bureaus: Topographical, Street Cleaning, Highways, Buildings, Public Buildings and Offices and Sewers in this undeveloped territory of approximately 80,000 acres, or about 129 square miles, with 1,000 miles of streets, miles of sewers and a vast territory yet to be surveyed for the purposes of the topographical maps and maps in connection with street opening proceedings and improvements, for which there is a great and insistent demand from the growing population of this Borough. There is at present attached to this office three automobiles, one for the use of the President, one small automobile for Highways and one small automobile for Street Cleaning.

The Bureaus for which I desire new machines have no means of transportation of this nature and the Comptroller's office refuses to audit bills for the hire of automobiles, except where special provision has been made therefor. Resolution herewith inclosed. Yours respectfully,

MAURICE E. CONNOLLY, President of the Borough of Queens.

Resolved, That pursuant to subdivision 8, section 188 of the Charter of The City of New York, the Comptroller is hereby authorized to issue special revenue bonds to an amount not exceeding eleven thousand four hundred dollars (\$11,400), proceeds whereof to be expended by the President of the Borough of Queens for the purchase of three (3) automobiles and for the operation and maintenance thereof for the year 1912.

Resolution herewith inclosed. Yours respectfully,

MAURICE E. CONNOLLY, President of the Borough of Queens.

Resolved, That pursuant to section 419 of the Charter of The City of New York, the Board of Aldermen deeming it for the public interests, do hereby authorize the President of the Borough of Queens to expend, without public letting, an amount not exceeding twenty-five hundred dollars (\$2,500), for the purpose of purchasing one automobile for the transaction of public business.

No. 734.

Board of Estimate and Apportionment, City of New York, Office of the Secretary, 277 Broadway, April 1, 1912.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Dear Sir—In accordance with the direction of the Board of Estimate and Apportionment given at its meeting held March 28, 1912, I transmit herewith for your information copy of report of the Select Committee on Salaries and Grades, together with copy of resolution adopted on said date, recommending the establishment of the grade of position of Clerk in all City departments, etc., with salary at the rate of \$300 per annum for an unlimited number of incumbents, and the abolishment of the grade of position of Office Boy or Office Girl, with salary at the rate of \$300 per annum.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, March 16, 1912.

To the Board of Estimate and Apportionment:

Gentlemen—On February 27, 1912, the President of the Borough of Richmond requested the establishment in his office of the grade of position of Junior Clerk, at the rate of \$300 per annum. In connection therewith we report as follows:

The President states that he proposes to employ a Clerk at the rate to do work ordinarily performed by an office boy, including the indexing of letter books, meeting people in the outer offices and incidental duties. The title for the position as designated by the Municipal Civil Service Commission is Clerk.

The President has made application to the Board of Aldermen for an issue of special revenue bonds for payment of a Junior Clerk for the part of the year he may be employed. An examination, in connection with this request, developed the fact that in this as well as nearly every other Department the lowest position of a clerical nature at \$300 is established under the old civil service title of Office Boy. As this title has been changed by the Civil Service Commission it would seem appropriate to bring the established grades into conformity with such title.

We, therefore, recommend the adoption of the attached resolution approving of establishment of the grade of Clerk at \$300 for all City departments.

Respectfully,

WM. A. PRENDERGAST, Comptroller; A. L. KLINE, Acting President, Board of Aldermen, Select Committee.

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the

Board of Aldermen the establishment in all departments, bureaus or offices of the city or county government of the grade of position, in addition to those heretofore established, as follows:

Title.	Rate per Annum.	Number of Incumbents.
Clerk	\$300	Unlimited.

—and that the grade of position of Office Boy or Office Girl at \$300 per annum be abolished in all departments, bureaus or offices of the city or county government.
Yours very truly,
JOSEPH HAAG, Secretary.

The Vice-Chairman laid before the Board the following communication from the Department of Docks:

No. 735.

The City of New York, Department of Parks, Arsenal, Central Park, April 1, 1912.

To the Honorable The Board of Aldermen, The City of New York:

Gentlemen—I respectfully request that you recommend to the Board of Estimate and Apportionment an authorization of special revenue bonds to the amount of ten thousand dollars (\$10,000), the proceeds whereof to be used for the purpose of making necessary repairs to the American Museum of Natural History under the jurisdiction of the Department of Parks, Boroughs of Manhattan and Richmond.

In the Corporate Stock Budget for the year 1911 an appropriation of \$75,000 was included in the account entitled C. D. P.—3C, Equipment and Construction of Permanent Improvements. It was intended to charge the necessary repairs to this account, in fact, the allowance of \$75,000 made included an estimated amount for same. An examination of the class of work to be done, however, discloses the fact that no part of same should be charged to the corporate stock account for the reason that they are not permanent improvements.

A conference was held with the Director of the Museum, terminating in this request for an issue of special revenue bonds, with the understanding that \$10,000 of the corporate stock account would be rescinded and returned to the general fund.

I transmit herewith a copy of a communication received from Henry Fairfield Osborn, President of the Museum, which includes a list of the necessary repairs to be made, and the estimated cost of each.

In view of the fact that the request means only a change from corporate stock to revenue bonds entailing no additional cost to the City, I request that you give the matter your immediate consideration so that the work may be started at the earliest possible moment. Respectfully,

CHARLES B. STOVER, Commissioner of Parks, Boroughs of Manhattan and Richmond.

American Museum of Natural History, Office of the President, New York, March 29, 1912.

Dear Sir—Owing to the fact that for many years the appropriations by the City have been insufficient to defray the entire cost of maintenance of the American Museum of Natural History, we have been obliged to defer many pieces of work necessary for the proper up-keep of the building. The point has now been reached, however, where many of these repairs can be deferred no longer without very serious detriment to the building.

The first section of the building to be constructed, namely, the north wing, was completed in 1877, more than thirty years ago and many parts of this section are in need of repair or renewal.

This is especially true of the window sashes, which are weather worn and decayed and must be replaced. This is estimated to cost.....	\$3,100 00
The old iron smokestack in this wing, now unused, is in such a dangerous condition that it must be removed. This will cost at least.....	400 00
The renewal of the steam pipes and plumbing will cost.....	1,000 00
To prevent further deterioration, the fire escapes and other exposed iron work on the exterior of the building are badly in need of painting. This will cost	1,000 00
The roof, particularly in the older parts of the building, is leaky and requires prompt attention. The amount needed for this purpose is.....	2,000 00
The brick and stone work of nearly all of the sections of the building is in need of "pointing up." This will require the expenditure of.....	2,500 00
For repainting the exhibition halls and miscellaneous repairs, we require a further sum of.....	2,000 00

The contract between the Museum and the Department of Parks, dated February 12, 1877, in addition to providing for the maintenance of the Museum, also states (see paragraph marked "Secondly") that "the said party of the first part (Department of Parks) will keep said building, from time to time, in repair." In view of the terms of this contract and the necessity of attending to the urgent repairs to the building, we would respectfully request the issue of special revenue bonds to the amount of \$10,000, to be applied to this purpose. If the City will make this appropriation we will be willing to request the Board of Estimate and Apportionment to cancel \$10,000 of our corporate stock appropriation, C. D. P.—3C. Very respectfully yours,
HENRY FAIRFIELD OSBORN, President.

No. 736.

City of New York, Office of the President of the Borough of Manhattan, City Hall, April 1, 1912.

To the Honorable Board of Aldermen:

Dear Sirs—Under date of December 29, 1911, your Board adopted a resolution authorizing the Superintendent of Buildings for the Borough of Manhattan to make contracts without public letting for metal furniture for his Bureau to the extent of \$5,000. At that time the Superintendent believed that \$5,000 would cover all his needs. It now appears that this will not take care of all the filing cabinets required to put the records in proper shape, and I would therefore respectfully request the adoption of the enclosed resolution authorizing him to buy without public letting metal furniture to the extent of \$4,000. The necessary funds have already been provided in an issue of corporate stock in 1910. Yours respectfully,

GEORGE McANENY, President, Borough of Manhattan.

Resolved, That, pursuant to the provisions of section 419 of the Greater New York Charter, the Superintendent of Buildings for the Borough of Manhattan be and he is hereby authorized to enter into a contract or contracts, without public letting, for the installation of metal furniture for the Bureau of Buildings to the extent of four thousand (\$4,000) dollars, under the corporate stock appropriation approved by this Board under date of June 30, 1910.

In January last, this office made requisition to Mr. Woody, Superintendent of the Bureau of Public Buildings and Offices of the Borough of Brooklyn, for various items, a copy of the same being hereunto annexed. The estimated cost for these improvements was made by the above named Bureau and I am informed by the said Bureau that while they realize the necessity for these improvements, they did not have sufficient funds to make the same and I have been referred to your Honorable Board by Mr. Woody to take such action as would give to this office these necessary improvements.

Yours respectfully,

ALFRED T. HOBLEY, Deputy Register.

Reports of Committee on Salaries and Offices—

No. 217—(G. O. No. 146).

The Committee on Salaries and Offices, to which was referred on January 23, 1912 (Minutes, page 231), the annexed resolution recommending increases in salary of Police Patrolmen, respectfully

REPORTS:

That the Committee has given this resolution careful and minute consideration and has held a public hearing to ascertain the feeling of the community at large toward the proposed increases. The public hearing was one of the largest ever held by a committee of the Board of Aldermen, and, with one exception, all the speakers thereat were unqualifiedly in favor of the resolution. Persons in all walks of life and representing in a marked degree the sentiment of the public appeared at the hearing and endorsed the terms of the resolution, and the committee is in receipt of a number of communications from clergymen, business men, bankers, taxpayers' associations and representatives of the press recommending that a favorable report be made.

In its investigation of this matter the committee has received information from various sources, official and semi-official, which it believes cannot be controverted, which shows that the expenses which must be incurred by a Patrolman in his compliance with the rules and regulations of the Department are of such an extent that at least 20 per cent. of the salary of a first year man is required to cover same, and a corresponding expenditure must be made by the Patrolmen in the advanced grades. Statistics have been presented to the committee which bear the fullest investigation which prove that even at the highest salary reached by a Patrolman, \$1,400 in the first grade, his expenditures for legitimate purposes, including the imperative requirements of his position and his ordinary living expenses, are such that he is able to earn but a bare living for himself and family if he continues in good health and is able to secure full pay for continued service. Should a Patrolman become sick or receive an injury which makes it impossible for him to report for duty his pay is reduced to one-half, and he and his family suffer corresponding privations. Upon the figures presented to the committee it appears that no man of family is able to save money, considering the present cost of living, and while he of course has his pension to look forward to, he is in the position that he is unable to make provision for the possible needs of such children as he may be blessed with.

In addition to the ordinary sense of justice which would seem to prescribe that a man giving his entire life to the service of the city should be given a wage which would allow him some leeway of saving, and give him an opportunity to present to his family at least some measure of rest and amusement at the proper seasons, it must be considered that the members of the Police Force of this city are employed in safeguarding the lives and property of all of our citizens and the enormous number of visitors who come here for purposes of business and pleasure. No city in the world is so situated as regards the cosmopolitan nature of its population as is The City of New York, and as a consequence in no other city must the police force possess the intelligence and ability demanded of our guardians. It is unnecessary to review the services expected of and performed by the members of our Police Force, as all of the cases coming within their purview are a matter of record in the daily press, even to the items of appearance and politeness at street crossings.

The Committee believes that for the reasons cited above, and for others well within the knowledge of the members of this Board, this resolution should be adopted, and it so recommends, and it further recommends that a copy of this report and resolution be forwarded to the Board of Estimate and Apportionment.

Whereas, various increases have been made in the salaries of officers in the Police Department of the City of New York above the rank of Patrolman; and,

Whereas, The burden of preserving the peace of the City and the work of patrolling the streets of the City rests primarily upon the Patrolmen; and,

Whereas, The salaries of Patrolmen have not been increased for a period of many years, during which period the cost of living has greatly increased; now be it Resolved, That it is the sense of this Board that the salary of Patrolman in all grades be increased \$200 per annum.

The Committee on Salaries and Offices, to which was referred on March 19, 1912 (Minutes, page 933), the annexed resolution in favor of establishing grade of Clerk at \$3,500 per annum in the Department of Education, respectfully

REPORTS:

That this is an increase of \$500 per annum in the salary of the Clerk who acts as Deputy Auditor in this Department where the 1912 appropriation is over \$34,000,000. He has been in the Department since 1896. The increase is covered by a reduction of \$300 each in two clerkships now vacant. The Committee believes this to be a well merited increase, and recommends that the accompanying resolution be adopted.

Whereas, The Board of Estimate and Apportionment adopted the following resolution at a stated meeting held March 14, 1912:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the Department of Education of the grade of position, in addition to those heretofore established, as follows:

Title.	Rate Per Annum.	Number of Incumbents.
Clerk	\$3,500 00	1

Resolved, That the Board of Aldermen hereby approves of and concurs in the above resolution and fixes the salary of said position as set forth therein.

The Committee on Salaries and Offices, to which was referred on March 19, 1912 (Minutes, page 934), the annexed resolution in favor of establishing position of Blacksmith in all City departments at \$4.50 per diem, respectfully

REPORTS:

That this resolution is to cover a Blacksmith under the Borough President of Queens, who is the only mechanic of this trade not getting the prevailing rate, which is that fixed by this resolution. The Committee recommends that the accompanying resolution be adopted.

Whereas, The Board of Estimate and Apportionment adopted the following resolution at a stated meeting held March 14, 1912:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in all City departments of the grade of position, in addition to those heretofore established, as follows:

Title.	Rate Per Diem.	Number of Incumbents.
Blacksmith.....	\$4 50	Unlimited.

Resolved, That the Board of Aldermen hereby approves of and concurs in the above resolution and fixes the rate of compensation for said position as set forth therein.

The Committee on Salaries and Offices, to which was referred on March 19, 1912 (Minutes, page 935), the annexed resolution in favor of establishing various grades of positions in the Department of Education, respectfully

REPORTS:

That an exhaustive report on this subject by the Select Committee of the Board of Estimate and Apportionment has already been printed (March 19, page 935). Commissioner McGowan and Superintendent of Buildings Snyder appeared before the Committee and stated that the need for these employees was urgent, so that plans for buildings for which appropriations have already been made may be rushed, and the part time pupils throughout the City be provided with full sittings. Mr. McGowan stated that it was very probable that the number of Draftsmen included in this resolution would not be sufficient to handle the work. The Committee believes that the Department should be given these additional employees at once, and it therefore recommends that the accompanying resolution be adopted.

Whereas, The Board of Estimate and Apportionment adopted the following resolution at a stated meeting held March 14, 1912:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the Department of Education of grades of positions, in addition to those heretofore established, as follows:

Title.	Rate Per Annum.	Number of Incumbents.
Inspector of Masonry and Carpentry.....	\$2,355 00	1
Mechanical Draftsman	1,200 00	1
Mechanical Draftsman.....	1,800 00	1
Junior Draftsman	915 83	1
Junior Draftsman	900 00	10
Architectural Draftsman	1,500 00	1
Architectural Draftsman	1,200 00	5
Architectural Draftsman	1,050 00	1
Sanitary Draftsman	1,200 00	2
Structural Steel Draftsman	1,500 00	2

Resolved, That the Board of Aldermen hereby approves of and concurs in the above resolution and fixes the salaries of said positions as set forth therein.

The Committee on Finance, to which was referred on March 12, 1912 (Minutes, page 916), the annexed resolution in favor of an issue of \$125,000 special revenue bonds to raise pay of Police Patrolmen in the lower grades to \$1,000 per annum, respectfully

REPORTS:

That the Corporation Counsel has furnished the Committee with an opinion on the proper procedure in this matter, which is hereto attached. In pursuance of such advice the Committee recommends that the said resolution be placed on file.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of one hundred and twenty-five thousand dollars (\$125,000), the proceeds whereof to be used by the Commissioner of Police for the purpose of increasing the salaries of the Patrolmen in the Police Department of The City of New York now receiving \$800 per annum to the annual compensation of \$1,000 each per annum.

City of New York, Law Department, Office of the Corporation Counsel, Hall of Records, March 29, 1912.

Hon. HENRY H. CURRAN, Chairman, the Committee on Finance, Board of Aldermen:

Sir—I am in receipt of your communication under date of March 28, 1912, which reads as follows:

"The following proposed resolution was introduced in the Board of Aldermen on March 12, 1912, and was referred to the Committee on Finance:

"Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of one hundred and twenty-five thousand dollars (\$125,000), the proceeds whereof to be used by the Commissioner of Police for the purpose of increasing the salaries of the Patrolmen in the Police Department of The City of New York now receiving \$800 per annum to the annual compensation of \$1,000 each per annum."

"On behalf of the Committee, I am directed to ask your advice, as follows:

"Assuming that this resolution is duly adopted by the Board of Aldermen, escapes disapproval by the Mayor, and is duly ratified by the Board of Estimate and Apportionment, will this act, of itself, have the effect of fixing the salaries of the Patrolmen in question at the proposed rate of \$1,000 a year?

"Further, as to the above specific question, I might say that the Police Commissioner has stated to the Committee that the answer to the above question is in the affirmative. There is some doubt as to this in the minds of some of the Committee, it being contended that these salaries can be fixed at the new rate only by action strictly in pursuance of section 56 of the Charter and that the action proposed by this resolution is not such action but is a mere request for the authorization of an expenditure which cannot take place until the salaries have been fixed. In other words, would this action under subdivision 8 of section 188 of the Charter do the whole thing at once, that is, fix the salaries (altering the amount specified in section 299 of the Charter) and also appropriate the money? If this be true, it might seem that all salaries may be fixed merely by the adoption of similar appropriation resolutions, thus making a superfluity of section 56. On the other hand, is this specific resolution so worded as to effectually include action under section 56, notwithstanding that, if adopted, it would go from the Board of Aldermen to the Board of Estimate and Apportionment instead of in the direction, as prescribed by section 56?

"These further considerations and questions are not submitted to you as specific questions to be answered but merely in the hope that they may be of assistance in acquainting you with all the aspects of the question for which we desire your answer."

"We wish to take this matter up again in the meeting of the Finance Committee scheduled for next Monday, April 1, at 1.30 p. m., and for the convenience of all of us ask you, if possible, to kindly furnish us with your opinion by to-morrow, Friday, March 29."

The limited time within which you request an opinion permits only the statement of my conclusion, without elaboration of my reasons therefor.

I am of the opinion that the adoption of the resolution quoted by you followed either by its approval by the Mayor or the absence of the Mayor's disapproval, and the authorization of the Board of Estimate and Apportionment, pursuant to the provisions of subdivision 8 of section 188 of the Charter, will not have the effect of fixing at \$1,000 per annum the salaries of the Patrolmen who are now receiving \$800 per annum."

What should be done is this: The Board of Estimate should recommend, and then the Board of Aldermen should fix, the salaries in question at \$1,000 per annum instead of \$800 per annum, and then no procedure under section 188 of the Charter will be necessary.

Incidentally it may be observed that the increases may then be accomplished by a mere majority vote in your Board and the Board of Estimate, instead of the unanimous vote of the Board of Estimate and the three-fourths vote of the Aldermen, as required by section 188 of the Charter. Yours truly,

ARCHIBALD R. WATSON, Corporation Counsel.

The Committee on Finance, to which was referred on March 19, 1912 (Minutes, page 926), a request from the Department of Education for an issue of \$25,000 special revenue bonds for supplies for playgrounds and evening recreation centres, respectfully

REPORTS:

That the Department of Education was allowed \$1,092,052.84 for supplies in all Boroughs for the year 1912, and the Committee believes any supplies necessary for the purpose asked for may be taken from these funds. It therefore recommends that the said request be placed on file.

To the Board of Education:

The Committee on Finance respectfully reports that it has been advised by the Secretary that at a meeting of the Committee on Special Schools held on February 23, 1912, a communication from the District Superintendent in charge of playgrounds and evening recreation centres was considered.

Such communication called attention to the condition of gymnastic apparatus for use in playgrounds and evening recreation centres. It is stated that no apparatus has been purchased for a number of years; that it has been necessary to patch up old apparatus; that a large part of it has been so often repaired as to render further use dangerous, and that funds are required for replacements and additional apparatus.

The Committee on Special Schools has requested your Committee to take steps to provide funds to supply the necessary apparatus for the proper conduct of activities in playgrounds and evening recreation centres.

Your Committee on Finance approves of the request of the Committee on Special Schools, and therefore offers for adoption the following resolution:

Resolved, That the Board of Aldermen be and it is hereby respectfully requested to adopt a resolution requesting the Board of Estimate and Apportionment to authorize the issue of special revenue bonds to the amount of twenty-five thousand dollars (\$25,000), pursuant to the provisions of subdivision 8 of section 188 of the revised Charter, for the purpose of supplying the necessary apparatus for the proper conduct of activities in playgrounds and evening recreation centres, and that the Board of Estimate and Apportionment be and it is hereby respectfully requested to authorize such issue upon request of the Board of Aldermen.

The Committee on Finance, to which was referred on January 30, 1912 (Minutes, page 265), a request for special revenue bonds to cover salaries of certain positions under the Borough President of The Bronx, respectfully

REPORTS:

That of the places mentioned in the request there have been established but two Inspectors of Plastering, at \$1,200 each per annum. These places having been created in compliance with an act of the Legislature passed in 1911, have been filled since January 1, 1912, hence an appropriation must be made for the entire year. The Committee retains the application for the remainder of the bond issue for further consideration, and recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of two thousand four hundred dollars (\$2,400), the proceeds whereof to be used by the President of the Borough of The Bronx for the purpose of paying salaries of two Inspectors of Plastering at \$1,200 each per annum, for the year 1912.

The Committee on Finance, to which was referred on February 27, 1912 (Minutes, page 638), a request from the Comptroller for \$41,750 special revenue bonds

for the employment of Accountants, Searchers and Clerks to complete an examination of arrears in taxes, etc., respectfully

REPORTS:

That the letter of request sets forth the reasons for this application. The Comptroller appeared before the Committee and urged favorable action on the request. He furnished a statement of the number of additional employees estimated to be necessary, which is hereto attached. The Comptroller stated that it would probably require the services of these men until the end of 1913 to complete this work. All of these employees are to be taken from the Civil Service lists. The Committee believes that the clearing up of these back accounts will prove a distinct advantage to the City, and add materially to its income, at the same time lessening the present enormous interest charges. It therefore recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of thirty-three thousand four hundred dollars (\$33,400), the proceeds whereof to be used by the Department of Finance for the purpose of paying salaries of additional employees employed on examination of arrears of taxes and matters pertaining thereto during 1912.

City of New York, Department of Finance, February 24, 1912.

The Honorable the Board of Aldermen, City of New York:

Gentlemen—I would respectfully ask that you request the Board of Estimate and Apportionment, in the manner provided in section 188, subdivision 8, of the City Charter, to authorize the Comptroller to issue special revenue bonds in the sum of \$41,750, to provide means for the employment of Accountants, Searchers and Clerks to complete an examination of the arrears in taxes, assessments and water rates, to establish a property register and ledger and for other necessary accounting work incidental to the preparation of a capital balance sheet for The City of New York. The purpose is to place the accounting of the City affairs on a basis that will permit making a statement periodically of the amount the City owes and what it owns.

The disordered and confused condition of the City's accounts was forcibly brought to light when an attempt was made in 1910, by a Committee of the Board of Estimate and Apportionment to prepare a corporate stock budget. So many discrepancies were developed in the credit balances in the hundreds of open funds between the records of the outside Departments and those of the Department of Finance that the attempt at that time was abandoned.

Since then a great deal of work has been done by Temporary Accountants in the employ of the Department of Finance toward the reconciliation of accounts, but there are hundreds of old accounts now on the books of the Department of Finance which, because of the system of bookkeeping prevailing prior to the adoption of the new accounting system, do not represent a true condition of affairs. Different elements, which should have been treated separately, have been so mixed in various accounts that the resultant balances are practically meaningless. To arrive at the correct facts will necessitate an exhaustive analysis, and as some of these accounts run back fifty years it is evident that to accomplish the desired results in the near future will necessitate a considerable additional force of temporary men.

The accounts representing arrears in assessments show an amount due the City of more than \$25,000,000, of which it is estimated at least \$15,000,000 is uncollectible. This is due to the fact that a large part of the arrears represent assessments levied against property owned by the City, State and Federal Governments, as well as religious and charitable institutions, all of which are exempt from taxation. It is necessary to determine how much of the total arrears are due to assessments of this character, and this will require a careful search of the records of the different Boroughs. This work will include an examination of the arrears of taxes and water rents, there being many millions of these also uncollectible because levied against property of the City and other exempt corporations or institutions.

The temporary help, provision for which is now requested, is also to set up on the books of the City, at proper values, the property which it owns. This will require a careful analysis and search of records, not only in this Department but in the various Boroughs as well.

It is absolutely necessary for a correct statement of the City's financial position that the accounts showing doubtful balances be examined sufficiently to determine their exact status, and also that the value of the property holdings of the City be established. It is also greatly to be desired that the work necessary to accomplish these results be done promptly, and to depend upon such time of the regular force as can be spared for this work, will mean that the desired results cannot be secured for years.

For the reasons herein previously stated, I would request that you give this application your favorable consideration at as early a date as may be practicable.

Very respectfully,

WM. A. PRENDERGAST, Comptroller.

The Committee on Finance, to which was referred, on February 27, 1912 (Minutes, page 685), the annexed resolution in favor of an issue of \$1,250 special revenue bonds for salary of an Investigator in the office of the District Attorney of Queens County, at the rate of \$1,500 per annum, from March 1 to December 31, 1912, respectfully

REPORTS:

That this grade having been established by the action of this Board, upon the recommendation of the Board of Estimate and Apportionment, it seems proper to provide for the payment of this salary. It therefore recommends that the said resolution be adopted:

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of twelve hundred and fifty dollars (\$1,250), the proceeds whereof to be used by the District Attorney of Queens County for the purpose of paying the compensation of one Investigator, at fifteen hundred dollars per annum, from March 1 to December 31, 1912.

The Committee on Finance, to which was referred, on March 12, 1912 (Minutes, page 854), the annexed request from the Surrogate of Queens County for \$2,500 special revenue bonds for examination of guardian's accounts, respectfully

REPORTS:

That the Chief Clerk of this office appeared before the Committee and stated that this examination had not been made for a period of over five years, for the reason that the office force was constantly and unremittently engaged at all times and seasons with the regular routine work. That application for additional help had been made yearly in the annual estimate during the above-mentioned period, but had been always denied. It seems to the Committee that the section of the code governing this matter puts the question of appropriation up to the Board of Aldermen as representing the Board of Supervisors and makes same mandatory. The amount proposed seems to be reasonable for this purpose. It therefore recommends that the accompanying resolution be adopted:

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of two thousand five hundred dollars (\$2,500), the proceeds whereof to be used by the Surrogate of Queens County for the purpose of making examina-

tions of all inventories and accounts of guardians filed in said office, the said sum to be used only in the discharge of obligations assumed or entered into during the year 1912.

Office of the Surrogate, Queens County, N. Y., Jamaica, March 8, 1912.
Hon. Board of Aldermen, City Hall, New York City:

Gentlemen—I enclose herewith a certificate requesting an appropriation for the purpose of making the examination of guardians' accounts and inventories in accordance with section 2824 of the Code of Civil Procedure. It is practically impossible to have such an examination made by any of the officials and employees of this office for the reason that their regular daily duties are such as to require all of their time.

I trust the application will be favorably considered by you and shall be pleased to attend any hearing you may set. Yours very truly,

DANIEL NOBLE, Surrogate.

The Committee on Finance, to which was referred on March 12, 1912 (Minutes, page 863), the annexed resolution in favor of an issue of \$30,000 corporate stock for Topographical Bureau, Brooklyn, respectfully

REPORTS:

That when this matter came before the Committee it requested the representative of the Borough President to furnish it with a statement showing the uses to which the appropriation was to be put, and it further directed the Chairman to communicate with the Presidents of the other Boroughs with a view to securing similar data in relation to expenditures for this purpose for comparison and future analysis. The results of such requests are hereto attached. The Committee is convinced that this appropriation is a necessity and it therefore recommends that the accompanying ordinance be adopted.

Be it Ordained by the Board of Aldermen of The City of New York as follows: Section 1—The Board of Aldermen hereby approves of and concurs in the following resolution, adopted by the Board of Estimate and Apportionment March 7, 1912, and authorizes the Comptroller to issue corporate stock of The City of New York to the amount and for the purposes therein specified:

The City of New York, Office of the President of the Borough of Brooklyn, Brooklyn, March 25, 1912.

Hon. HENRY G. CURRAN, Board of Aldermen, City of New York:

Dear Mr. Curran—I find I have not sent you statement in regard to the Topographical Bureau, as I should have done.

It is imperative I go to Albany to-day on some matters affecting our Borough and the City, hence am hurried just at the last.

I enclose herewith report made to me respecting the Topographical Bureau in February, 1910. At this time the Comptroller made a careful investigation of all the Topographical Bureaus in the City, and this statement was submitted to him at the time. This gives a great deal of information. I also submit a statement just worked out. The two, together, will give you the information you wish. Much of this does not pertain to what you have in hand, and some of it will not be of any use to you, but the two, together, will give you a very comprehensive statement of the work of this Bureau.

Our street system is only about half developed. Out of 1,700 miles of mapped streets we have 750 miles of paved, and about 300 miles additional opened up. The changes in grades, the lines of streets, and other matters that come up in connection with these streets, about 100 miles of which are being opened every year, is a very great task. At present this Topographical Department is as important as any Bureau we have. As stated somewhere in these reports, its general work ought to be practically finished in about three years if the street opening proceedings are carried along as they should be.

This Bureau will probably be incorporated in the Bureau of Highways, as its work will be too important to dispense with entirely.

Trusting the enclosed will be of some use to you, I am, sincerely yours,

L. H. POUNDS, Commissioner of Public Works and Acting Borough President.

March 22, 1912.

Finance Committee of the Board of Aldermen:

Sirs—In reply to your oral request for a statement showing the uses to which the appropriation of \$30,000 corporate stock, as recommended by the Board of Estimate and Apportionment for the Topographical Bureau of the Borough of Brooklyn, is to be placed, I respectfully submit the following facts:

The salaries and wages of the Topographical Bureau are paid out of three (3) funds, namely: Corporate Stock, The Street Improvement Fund, and the Fund for Street and Park Opening.

The duties of the Topographical Bureau consist of considerably more than the preparation of maps for street opening proceedings and for original street improvements. More than half of the cost of maintaining this Bureau cannot legally be charged to either the Street Improvement Fund or the Fund for Street and Park Opening, notwithstanding much of the work of the Bureau not so chargeable is absolutely necessary in order to prepare for the work which is chargeable to these two accounts.

The chaotic condition of the official map of the Borough of Brooklyn has often been remarked upon. It is composed of six different maps made up by as many Commissions appointed under various acts of the Legislature, the dates of which range between 1819 and 1874. The parts of this composite map are inharmonious, and the plan for streets in many sections is not adaptable to the developments being carried out. The developments have been very different than the makers of the old maps anticipated, and the impossibility of planning very far into the future is being recognized more and more each year. Legislation has been enacted attempting to compel an adherence to the system of streets and grades as established on the City Map, but all such legislation has been declared by the courts to be unconstitutional, and the result is that developments are made very largely in accordance with the pleasure of private developers. The truth of this is found in the fact that up to about 1906 there were over 1,500 different proceedings for changing the lines and grades of streets from the original plan, and during the last two years this Bureau has prepared and forwarded 1,218 maps representing 368 different proceedings for

changing the lines and grades of streets. A single proceeding in many of these instances includes the adjustment of a large area. All this new work must be definitely fixed on the ground by monumenting the lines and much of the old system is still unmarked. This work of monumenting has progressed primarily along the lines of, and in advance of, prospective developments.

The adjustment of the vagaries in the old street systems and established grades, and the monumenting of the original lay out of streets in the territories still undeveloped might be accomplished within a reasonably short time by the employment of a larger force than is now available, but in the light of past experiences much of the work, if so done, will have been wasted, for many changes will be required in the future as in the past. It is unquestionably more economical to maintain a smaller force of experienced and efficient men to do the work as needed, and to plan only so far into the future as it is reasonable to suppose such planning can and will be held. Large and important developments of various kinds have and will continue to come up, causing numerous changes. The abolishing of the grade crossings of one branch of the Long Island Railroad alone has caused at least 100 changes in the old street system and grades. Similar changes in other railroads undoubtedly will follow. The Jamaica Bay Improvement and the inland basins adjacent thereto will cause many changes and much entirely new planning. Petitions have already been presented by property owners for new streets in anticipation of this development. All this work must be done by the Topographical Bureau.

Until this Bureau established its large plant comprising the originals or copies of about 10,000 valuable maps, besides other records and data of all sorts, such matters were scattered among numerous offices and much valuable and necessary data was unavailable. This plant is continually being added to, and as provided in the City Charter, this Bureau, as a part of the Borough President's office, besides preparing them, is the depository of all maps adopted by the Board of Estimate and Apportionment relating to the Borough of Brooklyn affecting the street system and grades. This plant is the foundation of all maps made in connection with street and park opening proceedings and for original improvements, and without it the cost of such work would be doubled. It is of value to all the other Departments of the Borough, as is shown in the fact that during the year 1911 over 2,000 reports were written in response to requests for information and data required in connection with the work of these various Departments, saving them the cost of producing these facts for themselves. The Bureau is also continually supplying the Corporation Counsel's office and the office of the Comptroller with data for use in connection with court actions and claims against the City; much of the data so furnished is unobtainable elsewhere. In fact it is the office of general reference.

The present force of the Brooklyn Topographical Bureau is comparatively small, is efficient and working to its limit. Any curtailment in the corporate stock funds necessary to carry on any part of the work of this Bureau will seriously hamper the work of preparing the maps for street openings and for original improvements, and also the work of all other Departments. Very respectfully,

CHAS. R. WARD, Chief Engineer.

City of New York, Office of the President of the Borough of Manhattan, City Hall, April 1, 1912.

Hon. HENRY H. CURRAN, Chairman, Finance Committee, Board of Aldermen:

My Dear Alderman—In answer to your letter of March 28, addressed to the Borough President, I am directed by him to transmit to you the enclosed data with regard to the topographical work of the Borough of Manhattan. The schedule given is for an ideal force. Such a force does not exist in this Department, but we hope to get it organized before the end of the year. At the present time our topographical bureau is very much smaller than the ideal one outlined.

Yours very truly, JULIAN B. BEATY, Secretary to the President.

Topographical Work, Borough of Manhattan.

In Manhattan the new Bureau of Design and Survey has absorbed the surveying and drafting of the Highway Bureau, the Sewer Bureau and the former Topographical Bureau. Its functions are therefore more numerous and its work more extensive than a purely topographical bureau. Hence, to compare the topographical work of the Bureau of Design and Survey of the Borough of Manhattan with a purely topographical bureau in another borough, we should consider the work of the Topographical Division of this Bureau only.

The work of this Division consists of the preparation of maps for the laying out of new streets and the closing of old ones, the preparation of the damage, benefit and rule maps required by the Corporation Counsel in all proceedings for the acquiring of title and the awarding of damages. The surveying in connection with the above consists of the location of lines and grades, where necessary, and the location and examination of buildings for the damage and benefit maps. This we call the routine work.

Also large special problems are continually arising, such as the development of Inwood Hill, the extension of 7th ave., the laying out of the new civic centre and the encumbrance surveys. These special jobs require complete surveying and mapping.

Besides the above we are now making a complete survey of the Borough of Manhattan, both surface and subsurface. The older portion of this Borough has never been properly surveyed and mapped, in consequence of which there is an absence of accurate information. This requires an exhaustive survey and complete mapping.

All the above work is purely topographical in its nature. Hence, the necessity for a topographical division or bureau. The existence and accuracy of the city map is the work of the topographical bureaus.

To carry on the routine work, to do the special jobs and to complete the Borough Map requires the following force:

One Assistant Engineer in Charge of Drafting.....	\$2,400 00
Borough Map, surface, 5 Draftsmen at \$1,500.....	7,500 00
Borough Map, surface, 3 Draftsmen at \$1,200.....	3,600 00
Borough Map, subsurface, 5 Draftsmen at \$1,500.....	7,500 00
Borough Map, subsurface, 3 Draftsmen at \$1,200.....	3,600 00
Special work, 3 Draftsmen at \$1,500.....	4,500 00
Special work, 2 Draftsmen at \$1,200.....	2,400 00
Routine work, 3 Draftsmen at \$1,500.....	4,500 00
Routine work, 2 Draftsmen at \$1,200.....	2,400 00
One Assistant Engineer in Charge of Surveying.....	2,400 00
Borough and subsurface maps, 4 Transistmen at \$1,500.....	6,000 00
Borough and subsurface maps, 8 Rodmen at \$1,200.....	9,600 00
Borough and subsurface maps, 8 Axemen at \$900.....	7,200 00
Special work, 2 Transistmen at \$1,500.....	3,000 00
Special work, 4 Rodmen at \$1,200.....	4,800 00
Special work, 4 Axemen at \$900.....	3,600 00
Routine work, 2 Transistmen at \$1,500.....	3,000 00
Routine work, 4 Rodmen at \$1,200.....	4,800 00
Routine work, 4 Axemen at \$900.....	3,600 00
	\$86,400 00

With the above force for the Topographical Division only we could carry on the special and routine work and complete the Borough Map in about 8 years. The subsurface work might take longer. With the completion of the Borough Map and subsurface work the force could be reduced about 40 per cent.

The above is the ideal force required for topographical work only in the Borough of Manhattan. We are trying to do this work with a much smaller force (8) Draftsmen and are asking for an increase.

City of New York, President of the Borough of The Bronx, 3d Ave. and 177th St., Office of the Commissioner of Public Works, April 1, 1912.

Hon. HENRY H. CURRAN, Chairman, Committee on Finance, Board of Aldermen, City:

Dear Sir—I have your letter of the 28th ult., by reference from the President of the Borough, requesting a statement of the operations of the Topographical Bureau of this Department. You refer to a recommendation of the Board of Estimate and Apportionment to the Board of Aldermen for an issue of corporate stock in the amount of \$30,000 for the maintenance of the Topographical Bureau in the office of the President of the Borough of Brooklyn; you also speak of mapping, which we understand is topographical surveys for the street system in the Borough.

So far as this borough is concerned, the surveys in connection with the mapping of the Borough have been completed for some time. The plans for the street system for the territory west of the Bronx River were completed a number of years ago. The plans for the territory east of the Bronx River have all been completed and adopted by the Board of Estimate and Apportionment, and filed, with the exception

of a small territory in the Throggs Neck District, approximating 800 acres. The plans for this section have been tentatively approved by the Board of Estimate and Apportionment, and the final maps are in progress of preparation.

The appropriations that this Borough request for the Topographical Bureau are for the purpose:

First—Completing the maps which have been tentatively adopted.

Second—Laying out on the ground the system of streets by the means of monument points set at the corner of each intersecting street, and at the points of beginning and ending of all curves and at angle points between street intersections. In the territory west of the Bronx River, the streets are all monumented, except in Spuyten Duyvil, Riverdale and Mount St. Vincent sections, where but few monuments have been set. In the territory east of the Bronx River, very roughly estimating, there is perhaps but 20 per cent. of the monuments set for the street system.

Third—The maintenance of the monument system; in other words, the surveys for and the resetting of monuments that become disturbed or destroyed by reason of street improvements of all kinds and building operations. This is no small part of the topographical work.

Fourth—The examination of all permits issued for the construction of new buildings and alterations to old buildings, as well as the removal of buildings from one location to another. This involves the examination of something in the neighborhood of 8,000 applications per annum, many of which require investigation not only in the office but surveys in the field.

Fifth—All of the work in connection with the changes of the street system and of grades in both the territories east and west of the Bronx River, which are going on continually. Property owners petition for the change of the line of a street, the change of grade of a street or the institution of a new street. This requires not only surveys in the field but a large amount of computation work, as well as the preparation, first, of plans for the approval of the Board, and, later, final plans as amendments to the street system for filing with the proper authorities. This work is never-ending and constitutes a very large part of the work of the Topographical Bureau; in fact, one branch of the Topographical Bureau is kept continually on this class of work. I might say that in the territory west of the Bronx River (maps for which were adopted in 1895) changes have been continually going on, so that, in some cases, the original maps bear very little resemblance to the maps of to-day, and at the present time, the Riverdale section is in process of very material changes which involve an enormous amount of work upon the Topographical Bureau.

Sixth—Another very large branch of the Topographical Bureau is employed continually on street opening matters. Of course street openings are not charged against a corporate stock appropriation, but it is work that must go hand in hand with work for which corporate stock is requested. With the exception of the Riverdale, Spuyten Duyvil and Mount St. Vincent sections, in the territory west of the Bronx River, by far the greater portion of the streets have been opened or are in the process of being opened, but in the territory east of the Bronx River there is but a very small portion of the territory that is opened, or where proceedings for opening are pending. The settlement of the Rapid Transit question—assuming it to be settled favorably—to the extension of subways into this section, will create an enormous amount of work in the way of street-opening proceedings, as well, no doubt, as the changing of the street systems, as adopted at the present time.

I might add that the organization of the Topographical Bureau in the Borough of The Bronx is such that if the work on street opening proceedings is very great, then men from other branches of the Topographical Bureau can assist on that line of work; if changes in the street system, monumenting, or other such work, as outlined above, is pressing, then men can be used from the branch employed on street opening proceedings. In other words, the organization is so arranged that there can be a complete interchange of men between the different branches of the Bureau, which results in the most economical method of handling this character of work.

The time for the preparation of this statement is so limited that full justice cannot be given to such a broad subject. We trust, however, that the information herein contained will, in part, at least, answer your purpose.

I am forwarding herewith a report from the Topographical Engineer, dated December 21, 1911, giving an outline of some of the work performed by his Bureau during the year 1911. Greater detail is given in the annual report and quarterly reports each year, which are published in the CITY RECORD. Very truly yours,

THOMAS W. WHITTLE, Commissioner of Public Works.

The greatest progress during 1911 was the filing of fourteen (14) sections of the final maps, of which each one comprises an area from 400 to 450 acres; these maps establish the final location, the dimensions and the grades of avenues and streets; they are as follows: Sections 30, 31, 32, 34, 35, 36, 37, 40, 41, 42, 43, 50, 51 and 53.

The number of permits (8,304) is a considerable increase of the year before. These examinations prevent the disturbances of monuments by building operations and restrict as much as possible the construction of buildings on land which is proposed to be taken for street purposes.

Topographical Bureau, dated January 4, 1912.

The City of New York, Offices Commissioner of Public Works of the Borough of Queens, Long Island City, April 1, 1912.

Hon. HENRY H. CURRAN, Chairman, Committee on Finance, Board of Aldermen, City Hall, Manhattan:

Dear Sir—In reply to your communication of March 26 in which you request a substantial statement of the operations of the Topographical Bureau of the Borough of Queens, President Connolly directs me to transmit herewith copy of report of the Engineer in Charge of the Topographical Bureau, which I trust will be satisfactory to you. Yours very truly,

JOSEPH FLANAGAN, Secretary of the Borough of Queens.
Topographical Bureau, Borough of Queens, March 30, 1912.

REPORT REQUESTED BY THE CHAIRMAN, COMMITTEE ON FINANCE,
BOARD OF ALDERMEN.

Historical.

Upon the consolidation of the City of Greater New York on January 1, 1898, the only part of the Borough of Queens that had been officially topographically mapped and adopted was the 1st Ward, old Long Island City. This work had been done by a Commission under the Session Laws of 1871, 1872 and 1873. This map of the 1st Ward was recognized by the Greater New York Charter.

After consolidation the topographical survey of the Borough of Queens was started in a small way in the latter part of 1898. The work was conducted by the Board of Public Improvement, with a central office in the Borough Hall, Borough of The Bronx. A preliminary triangulation survey was made of the entire Borough and a small portion of the Borough was topographically mapped. No maps, either tentative or final, were adopted. After the amended City Charter became effective in 1902 the making of the Borough map was carried on under the direction of the Borough President of the Borough of Queens. This work has continued up to the present time under the Borough Presidents. At this date about 56 per cent. of the Borough has been tentatively mapped and about 36 per cent. has been finally mapped.

Under chapter 406, Laws of 1903, the Mayor was empowered to complete the triangulation survey of the entire City by the employment of experts from the United States Coast and Geodetic Survey. The experts so employed began this work in 1903 and co-ordinates of triangulation points about one mile apart were furnished by them to this Bureau in 1909.

Object.

The primary object of the Topographical Bureau of the Borough of Queens is to design the City Map of the Borough and then accurately place upon the ground, by surveys, the lines of the City streets; these lines being properly marked with stone monuments. The maps for the legal opening of the streets and parks of the Borough are made by a part of this Bureau which is called the Street Opening Division. The expense of this work is provided for from the Park and Street Opening Fund. This fund is independent of the regular topographical fund and is obtained by assessment against the property benefited in the street or park opening proceedings.

The first step in making the topographical map is the making of a topographical survey. This survey shows property lines, all existing street lines and the elevation of the ground. On a map plotted from these surveys a street system is designed. This design is called the tentative map. This map is drawn to scale and shows existing streets, existing elevations, the proposed City streets and the proposed street widths and grades. No block dimensions or angles are shown upon this map.

After the adoption of the tentative map by the Board of Estimate and Apportionment this map is placed on the ground by accurate surveys, and monuments are set marking the street lines. Where the City streets are to agree with the lines of the existing streets it is necessary to exactly determine the lines of the old streets. After these surveys are properly checked and balanced calculations are made from these results of the block dimensions and angles. A map is then made showing the linear and angular dimensions of all the blocks and the widths and grades of the streets.

When this map, which is prepared in sections of about 367 acres, is adopted by the Board of Estimate and Apportionment, it becomes the final City map.

From time to time, as necessity demands or conditions arise, alteration maps are made, which, after their adoption by the Board of Estimate and Apportionment, supersede the parts of the final map that they cover.

In order that permanent improvements may be made on a street, and the cost of this improvement be assessed upon the property benefited, it is necessary that the street appears upon the adopted final City map. If dedication of the street for public use can be shown these improvements can be made without street opening proceedings. If not, street opening proceedings must be initiated and map prepared by the Street Opening Division for the use of the Street Opening Commissioners.

Upon June 1, 1909, pursuant to chapter 394, Laws of 1909, all surveys and maps in connection with the legal opening of streets were made chargeable to the "Fund for Street and Park Openings." Therefore since that time this Bureau had not been allotted any moneys for the prosecution of this work, but is made chargeable to the general "Fund for Street and Park Openings, chapter 394, Laws of 1909, C. F. M.-9."

In connection with this there is a statement issued by this Bureau each month covering the various proceedings upon which the employees of the Street Opening Division have performed services. Prior to this time the force engaged upon this particular branch of work were either paid from appropriations or revenue bonds set apart by the Board of Estimate for Street Opening Work. Respectfully submitted,

C., in September, 1912, respectfully

REPORTS:

That the details of this matter are fully set forth in the letters of request and the detailed statement submitted herewith. The Committee has gone into this matter very thoroughly, and believes that an entirely satisfactory showing can be made for one-half the amount requested. It, therefore, recommends that the accompanying resolution be adopted.

City of New York, Department of Health, Office of the Commissioner of Health, March 8, 1912.

Hon. P. J. SCULLY, City Clerk of New York, City Hall, New York:

Dear Sir—In further response to the request contained in the letter from the Hon. Henry H. Curran, Chairman of the Finance Committee, Board of Aldermen, the following statement is submitted to show the details for the proposed expenditure of \$5,000, for the purpose of an exhibition by the Department of Health at the Fifteenth International Congress on Hygiene and Demography to be held in Washington, D. C., in September of this year. As will be seen from the detailed statements submitted for each division, the total amounts to \$7,000. We feel, however, that by cutting the estimates here and there we can bring the total down to \$5,000 requested in our application.

It may be added that it is practically impossible to give the exact cost of all the various parts of the proposed exhibition owing to the fact that many of the details have still to be worked out. In general, however, the scope and character of the exhibition is well shown in the statement attached. Very truly yours,

ERNST J. LEDERLE, Commissioner.

The Committee on Finance, to which was referred on March 12, 1912 (Minutes, page 854), the annexed request from the Commissioner of Public Charities for \$3,825 special revenue bonds for salaries for additional help at the New York City Farm Colony, respectfully

REPORTS:

That the letter of request contains in full the details of the application. These buildings, having but recently been placed in service, are not fully manned, and the Committee believes that the additional services asked for should be furnished, to enable the Department to successfully cope with the conditions arising from an increase in the number of inmates. It therefore recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of three thousand eight hundred and twenty-five dollars (\$3,825), the proceeds whereof to be used by the Department of Public Charities for the purpose of paying salaries of additional help at New York City Farm Colony, Staten Island, for remainder of year 1912, as follows: 3 Watchmen at \$500 each; 2 Trained Nurses at \$600 each; 8 Hospital Helpers at \$300 each.

REPORTS:

That Commissioner Waldo appeared before the Committee and reiterated the statements contained in his letter of request. It is well known that certain suburban sections have great need of additional police protection, and the Board has recently been in receipt of several memorials to this effect, particularly from residents of the

Bay Ridge and Fort Hamilton districts of South Brooklyn. The Committee, after questioning the Commissioner minutely on this subject, believes the additional Patrolmen asked for are urgently needed, and therefore recommends that the accompanying resolution be adopted.

GENERAL ORDERS.

No. 117—Int. No. 382.

The Committee on Salaries and Offices, to which was referred on February 13, 1912 (Minutes, page 463), the annexed resolution in favor of establishing grade of Consulting Engineer under President of The Bronx at \$7,200 per annum, respectfully

REPORTS:

That President Miller appeared before the Committee and stated that he had promised Mr. Schaefer, the Consulting Engineer, upon his entrance into the Department, that he would take steps to insure him an increase if he showed by his work that it was warranted. This he has done, being a man of such efficiency that his work has attracted the attention of some of the corporations operating in this vicinity, and Mr. Schaefer has received offers of a larger salary from some of these outside sources, and it is in order to retain him in the service that it is proposed to give him this increase of \$1,200 per annum. Consulting Engineers in the Boroughs of Manhattan and Brooklyn each receive \$7,200 per annum, and the occupant of such position in Richmond receives \$8,000. The Borough President gave earnest testimony to the qualifications and quality of the work performed by Mr. Schaefer.

The Committee believes that in this case the character of the services rendered warrants the increase, and recommends that the said resolution be adopted.

Whereas, The Board of Estimate and Apportionment adopted the following resolution at a stated meeting held December 21, 1911:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment of the grade of position of Consulting Engineer in the office of the President of the Borough of The Bronx, in addition to those already existing therein, with salary at the rate of seventy-two hundred dollars (\$7,200) per annum, for one incumbent.

Resolved, That the Board of Aldermen hereby approves of and concurs in the above resolution and fixes the salary of said position as set forth therein.

PERCY L. DAVIS, JAS. R. WESTON, JAMES F. MARTYN, JACOB WEIL, F. H. STEVENSON, WM. D. BRUSH, Committee on Salaries and Offices.

City of New York, President of the Borough of The Bronx, 3d Ave. and 177th St., Office of the President, October 23, 1911.

To the Honorable the Board of Estimate and Apportionment:

Gentlemen—Request is hereby respectfully made for the establishment of the following named grade in the office of the President of the Borough of The Bronx, viz.: Consulting Engineer, at \$7,200.

The position of Consulting Engineer is occupied by Mr. Amos L. Schaeffer, who has held said position at an annual compensation of \$6,000 since his appointment on the 19th of March, 1910. His services have been eminently satisfactory, and in view of the fact that Consulting Engineers employed in the Boroughs of Brooklyn and Manhattan are receiving \$7,200 per annum, you are asked to fix the same rate for the Consulting Engineer of this Borough. Respectfully,

CYRUS C. MILLER, President, Borough of The Bronx.

Board of Estimate and Apportionment, City of New York, Office of the Secretary, 277 Broadway, February 13, 1912.

Hon. JOHN PURROY MITCHELL, President, Board of Aldermen:

Dear Sir—I transmit herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment December 21, 1911, recommending the establishment of the grade of position of Consulting Engineer in the office of the President, Borough of The Bronx, with salary at the rate of \$7,200 per annum, for one incumbent.

This resolution was not acted upon by the Board of Aldermen prior to January 1, 1912, and in accordance with the direction of the Board of Estimate and Apportionment, given at its meeting of January 25, 1912, and upon the request of the President of the Borough of The Bronx, said resolution is hereby recertified.

Yours very truly, JOSEPH HAAG, Secretary.

The Vice-Chairman put the question whether the Board would agree with said resolution.

Which was decided in the negative by the following vote, a majority of all the members failing to vote in favor thereof:

Affirmative—Aldermen Becker, Bedell, Bolles, Boschen, Bosse, Brush, Curran, Davis, Devine, Dotzler, Eichhorn, Folks, Gelbke, Hagenmiller, Hamilton, Herbst, Lieberman, McCann, Marks, Martyn, Moore, Mulligan, Nicoll, Pendry, Post, Reardon, Stevenson, Weil, Weston, Wilmot; President Connolly, President Miller, by Thomas W. Whittle, Commissioner of Public Works; President Steers, President McAneny, by E. V. Frothingham, Commissioner of Public Works, and the Vice-Chairman—35.

Negative—Alderman O'Rourke—1.

After two calls for absentees on the above roll call, Alderman White moved for a discontinuance of the roll call, and the announcement of the vote.

Alderman Hamilton moved a roll call on the motion of Alderman White.

The Vice-Chairman put the question whether the Board would agree with said motion of Alderman White.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Carberry, Cunningham, Delaney, Dixon, Dowling, Drescher, Dujat, Eagan, Fink, Gilmore, Hannon, Kenneally, Kenney, Loos, McCann, McCourt, McGarry, McGrath, Molen, O'Connor, O'Rourke, Reardon, Smith, Stapleton, Walsh, Wendel and White—27.

Whittle, Commissioner of Public Works; President Steers, and President McAneny, by E. V. Frothingham, Commissioner of Public Works—24.

The Vice-Chairman then announced the vote on General Order 117, as heretofore printed.

On motion of Alderman Davis, said vote was reconsidered and the paper was recommitted to the Committee on Salaries and Offices.

The Committee on Finance, to which was referred on March 12, 1912 (Minutes, page 846), a communication from the United States Volunteer Life Saving Corps asking authority to draw upon contingent account to the extent of \$100 at a time, respectfully

REPORTS:

That this is the customary permission granted to such Departments as apply for same. It recommends that the accompanying resolution be adopted.

Resolved, That for the purpose of defraying minor incidental expenses contingent to the office of the United States Life-Saving Corps, the Secretary of said United States Life-Saving Corps may, by requisition, draw upon the Comptroller for a sum

not exceeding one hundred dollars (\$100), and may in like manner renew the draft as often as may be deemed necessary, to the extent of the appropriation set apart for contingencies in said office during the year 1912; but no such renewal shall be made until the money paid upon the preceding draft shall be accounted for to the Comptroller by the transmittal of a voucher or vouchers, certified by the Secretary of said United States Life-Saving Corps, covering the expenditure of the money paid thereon.

The Committee on Finance, to which was referred, on March 12, 1912 (Minutes, page 861), the annexed resolution in favor of amending resolution for \$750,000 corporate stock for repaving streets, Borough of Brooklyn, respectfully

REPORTS:

That this amendment is made for the purpose of having the life of the bonds correspond to the estimated duration of the improvement, thus placing the charge directly upon those benefited. The committee recommends that the accompanying resolution be adopted.

Resolved, That the Board of Aldermen hereby approves of and concurs in the following amended resolution adopted by the Board of Estimate and Apportionment at a stated meeting held March 7, 1912:

Resolved, That the resolution adopted by the Board of Estimate and Apportionment on February 8, 1912, and approved by the Board of Aldermen on February 27, 1912, as follows:

The Committee on Salaries and Offices, to which was referred, on February 6, 1912 (Minutes, page 405), the annexed resolution in favor of establishing grade of Inspector of Buildings in Department of Public Charities at \$1,500 per annum, respectfully

REPORTS:

That, having examined the subject, it believes the proposed grade to be unnecessary, as the Department now has at its command the Inspectors of the Bureau of Buildings, the Department of Finance and the Fire Department, and it being also a part of the duties of the architect to supervise all construction. In addition, the Department now has a Supervising Engineer at \$2,400 and one at \$1,800. It therefore recommends that the said resolution be placed on file.

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the Department of Public Charities of the grade of position, in addition to those heretofore established, as follows:

The Committee on Salaries and Offices to which was referred on February 6, 1912 (Minutes, page 406), the annexed resolution in favor of establishing grade of Superintendent of Parks, Borough of Queens, at \$4,000 per annum, respectfully

REPORTS:

That it has gone into this matter exhaustively and at first decided that inasmuch as this Department had been allowed an Engineer, at the same rate, the services of a Superintendent were superfluous. Further investigation, however, has convinced the Committee that the immense park area in this Borough requires such a supervisory officer, and it has been advised to this effect by a number of persons having expert knowledge on this subject, including the Parks Advisory Committee recently appointed by the Mayor, a letter from the Chairman of which is hereto attached. The Committee, therefore, recommends that the accompanying resolution be adopted.

Resolved, That the Board of Aldermen hereby approves of and concurs in so much of the resolution adopted by the Board of Estimate and Apportionment at a stated meeting held February 1, 1912, recommending the establishment in the Department of Parks, Borough of Queens, of certain grades of positions, in addition to those heretofore established, as relates to the following:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the Department of Parks, Borough of Queens, of the grade of position, in addition to those heretofore established, as follows:

Hon. PERCY L. DAVIS, Chairman, Committee on Salaries and Offices of the Board of Aldermen, Aldermanic Chamber, City Hall, New York City:

Dear Sir—At a meeting of the Parks Advisory Committee, recently appointed by the Mayor for the purpose of consultation as to the administration of the Parks Department, held yesterday at City Hall, the matter of creating position of Superintendent of the Park Department for the Borough of Queens was brought up.

This question was thoroughly discussed by the Committee, and after careful consideration it became the unanimous sense of the Committee that the creation of this position is justified and advisable. The Committee therefore recommends to the Board of Aldermen the creation of the post of Superintendent of Parks for Queens.

I append herewith a memorandum informing you of the personnel of this Committee, and will thank you for your kind attention. Very truly yours,

A. H. SPENCER, Chairman, Parks Advisory Committee.

The Committee on Salaries and Offices to which was referred on March 5, 1912 (Minutes, page 793), the annexed resolution in favor of establishing certain grades under the President of the Borough of The Bronx, respectfully

REPORTS:

That it recommends that so much of this resolution as relates to the Searchers and Axemen be adopted. The Searchers, of whom but one is to be appointed at present, are to be employed in work peculiar to this title now performed by an Engineer whose services are needed in other directions. The Axemen, of whom ten are to be employed at this time, are employees of the lowest grade in the field force, and must be placed in service to complete that number of parties now engaged in that branch of the City work in this rapidly growing Borough. The Committee recommends that the accompanying resolution be adopted.

Whereas, The Board of Estimate and Apportionment adopted the following amended resolution at a stated meeting held February 29, 1912:

Resolved, That the resolution adopted by the Board of Estimate and Apportionment January 25, 1912, which reads as follows:

"Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the Office of the President of the Borough of The Bronx of the grades of positions, in addition to those heretofore established, as follows:

Title.	Rate Per Annum.	Number of Incumbents.
Searcher	\$1,500 00	Unlimited
Engineering Inspector	1,200 00	Unlimited
Axeman	720 00	Unlimited"

—be and the same is hereby amended to read as follows:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the office of the President of the Borough of The Bronx of the grades of positions, in addition to those heretofore established, as follows:

Title.	Rate Per Annum.	Number of Incumbents.
Searcher	\$1,500 00	2
Engineering Inspector.....	1,200 00	6
Axeman	720 00	20

Resolved, That the Board of Aldermen hereby approves of and concurs in the above resolution, excepting so much thereof as relates to the position of Engineering Inspector for six incumbents, at \$1,200 per annum, and fixes the salaries of the positions of Searcher and Axeman as set forth therein.

The Committee on Salaries and Offices to which was referred on March 5, 1912 (Minutes, page 795), the annexed resolution in favor of establishing grade of Typewriting Copyist and Dictaphone Operator, at \$900 per annum, under Borough President of The Bronx, respectfully

REPORTS:

That Commissioner Whittle appeared before the Committee and explained that this grade was merely a change of title, it being the intention of the Borough President to transfer a Typewriting Copyist now employed at the same rate to this position: this grade will obviate the necessity of asking for an additional Stenographer, at \$1,200. The Committee recommends that the accompanying resolution be adopted.

Whereas, The Board of Estimate and Apportionment adopted the following resolution at a stated meeting held February 29, 1912:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, recommends to the Board of Aldermen the establishment in the office of the President of the Borough of The Bronx of the position, in addition to those heretofore established, as follows:

REPORTS:

That this action is taken in compliance with a decision of the Appellate Division, Supreme Court, First Department, seven of the present incumbents having secured a judgment against the City for services at this rate. It, therefore, recommends that the accompanying resolution be adopted.

Whereas, The Board of Estimate and Apportionment adopted the following resolution at a stated meeting held March 7, 1912:

The Committee on Streets, Highways and Sewers, to which was referred on January 9, 1912 (Minutes, page 77), the annexed message from his Honor the Mayor, in relation to renumbering the buildings on Park place and Barclay st., west of Church st., in the Borough of Manhattan, respectfully

REPORTS:

That, having examined the subject, it believes the proposed renumbering to be necessary. Recently the Board authorized the renumbering of buildings on said thoroughfares from Broadway to Church st., with certain instruction or request in relation thereto, which will cause a duplication of numbers and hence confusion. To avoid this the accompanying resolution is recommended for adoption.

Resolved, That the President of the Borough of Manhattan be and he is hereby authorized and requested to renumber the buildings on the south side of Park place and the north side of Barclay st., from Church st. to the river, in the Borough of Manhattan, in such manner and to such extent as may be necessary, consistently with the provisions of resolution adopted December 26, 1911, and which became effective January 9, 1912, providing for the renumbering of buildings on said thoroughfares from Broadway to Church st.

City of New York, Office of the Mayor, January 9, 1912.

To the Honorable the Board of Aldermen:

Gentlemen—I have allowed resolution No. 5148, entitled, "Resolution to authorize the President of Manhattan to renumber buildings on Park place and Barclay st.," to become a law. This resolution only directs the renumbering of the houses on Park place and Barclay st. from Broadway to Church st. At the present time the site occupied by the Woolworth Building is assigned only five numbers on the Park place side, and if four more numbers are assigned it will be necessary to take them from the houses west of Church st. and renumber Park place from Church st. to the river. You will find a similar situation on Barclay st., as at the present time the Woolworth site is assigned only three numbers. To give this building six more numbers on the Barclay st. side it will be necessary to take six numbers from the buildings to the west of Church st., which will necessitate renumbering Barclay st. from Church st. to the river. You should, therefore, follow up the resolution I return today and authorize the Borough President to renumber the houses on Park place and Barclay st., from Church st. to the river.

Very truly yours,

W. J. GAYNOR, Mayor.

The Vice-Chairman put the question whether the Board would agree to accept such report and adopt said resolution.

The Committee on Laws and Legislation, to which was referred on January 9, 1912 (Minutes, page 80), the annexed ordinance in relation to the erection of warning signs to promote the quietude of pupils and teachers in the Public Schools of The City of New York, respectfully

REPORTS:

That, having examined the subject, it believes the proposed ordinance to be a wise provision in the interests of the education department of the City government and also of the many private institutions which so effectively aid in the tuition of the youth of our City. In order to make it effective in relation to all schools, and to further relieve it from any suggestion of referring to any particular style of pavement the Committee recommends that the accompanying substitute ordinance be adopted:

(ORIGINAL.)

AN ORDINANCE in relation to the erection of warning signs to promote the quietude of pupils and teachers in the public schools of The City of New York.

Be it Ordained, by the Board of Aldermen of The City of New York, as follows:

Section 1. The several Borough Presidents are hereby authorized to erect, within their discretion, on lamp posts, or, in the absence of lamp posts, on such posts as they may find occasion to erect, at corners of intersecting streets, avenues or thoroughfares on which may be located a public school, a sign or signs displaying the words, "Notice—Public School Street," and such other warning or admonition to pedestrians and drivers not to make any unnecessary noise or to drive at such speed as may tend to disturb the peace and quietude of the pupils and teachers of such public school.

Section 2. The Commissioner of Police of The City of New York is hereby authorized within his discretion to divert all heavy, noisy vehicular traffic from the immediate block or blocks upon which public schools are located during the period of the day between 8.45 a. m. and 3.15 p. m.

Section 3. The several Borough Presidents are hereby authorized within their discretion to repave the streets immediately contiguous to the public schools with wooden block or sheet asphalt pavement or such other noise lessening pavement as may meet with their approval.

Section 4. Any person guilty of making any unnecessary noises or driving at a speed faster than a walk or violating any traffic rule or regulation of the Police Department on any of the streets, avenues or thoroughfares which have hereunder been designated as "Public School Streets" and for which such warning signs as described in section 1 hereof have been erected, shall upon conviction thereof by a City Magistrate or upon a confession of guilt, be fined, in a sum not exceeding ten dollars (\$10), and upon failure to pay such fine, be imprisoned in the City Prison for a term not to exceed ten (10) days.

Section 5. This ordinance shall take effect immediately.

The Committee on Laws and Legislation, to which was referred on February 6, 1912 (Minutes, page 449), an ordinance to compel the use of mufflers on motor vehicles, respectfully

REPORTS:

That it has examined the matter of mufflers on motor cars driven in The City of New York, and finds that much annoyance is caused by the owners and drivers of such vehicles who habitually fail to use the muffler or silencer devices on their cars. That the cutting out of the muffler or silencer does not materially effect the power of the vehicle, and is almost invariably cut out by mere thoughtlessness and disregard of the rights of others. That while the ordinance originally introduced aims to curtail this abuse, it is not, as introduced, in the most effective form, and that therefore the Committee recommends the adoption of the substitute ordinance herewith submitted.

In recommending the adoption of this ordinance the Committee desires to draw the attention of the members of the Board to the fact that similar ordinances have been adopted in many American and European cities. A similar provision is in effect in Yonkers, New York. That at the last session of the Legislature a similar provision was passed relative to motor boats, which provisions are now chapters 758 and 840 of the Laws of 1911. That the provision will work no hardship upon motor car owners or drivers within the limits of the City, where great speed is not desired.

(ORIGINAL.)

Whereas, The use of motor-driven vehicles has increased to a large extent in the streets of the City, the greater number of which are propelled by mechanism operated by the explosive force of gas or other vapor and which emit unseemly noises while being operated, unless equipped with mufflers or other devices, and

Whereas, Much annoyance is occasioned by owners and drivers of motor-driven vehicles who habitually cut out the use of mufflers or similar devices and thereby needlessly disturb the peace and quiet of the community, therefore,

Be it Ordained, by the Board of Aldermen of The City of New York, as follows:

Sec. 1. Every motor-driven vehicle propelled by mechanism which is operated by the explosive force of gas or other vapor shall be equipped with mufflers or such other devices as will stifle or deaden the unseemly noises which they emit, and such muffler or device shall be attached and in use while said motor vehicle is operated in the streets of the City.

Sec. 2. Any owner or driver of such motor vehicle who fails to carry out the provisions of section 1 shall be deemed guilty of misdemeanor and shall be liable to arrest and be subject to a fine of ten dollars for each offense.

Sec. 3. This ordinance shall take effect ninety days after its approval by the Mayor of The City of New York.

(SUBSTITUTE.)

AN ORDINANCE to compel the use of mufflers on motor vehicles.

Be it Ordained, by the Board of Aldermen of The City of New York, as follows:

Section 1. Every motor vehicle propelled by an internal combustion engine, when such vehicle is on any street, road, avenue, alley, park, parkway or public place within the City limits shall, when such engine is running, be equipped with a muffler or silencer, through which all of the exhaust gases from the engine will escape into the atmosphere.

Sec. 2. It shall be unlawful for the operator or driver of any motor vehicle to use any cut-out, fitting or other apparatus or a device which will allow the exhaust gases to escape into the atmosphere without passing through a suitable muffler or silencer as described in section 1.

Sec. 3. Any person violating the provision of this ordinance may upon the conviction thereof by any City Magistrate be fined a sum not exceeding \$10, and in default of payment of such fine, may be committed to prison by such Magistrate until the same be paid, but such imprisonment shall not exceed ten days.

Sec. 4. This ordinance shall take effect ninety days after its approval by the Mayor.

The Committee on Laws and Legislation, to which was referred on February 13, 1912 (Minutes, page 455), the annexed ordinance in favor of amending section 530 of the Revised Ordinances of The City of New York, in relation to walks and bridges over gutters, respectfully

REPORTS:

That, in its opinion, this change will do away with the clogging of the present spaces under gutter bridges, and to a large extent prevent the backing up upon the sidewalks of trucks and wagons which now so frequently encroach upon the part of the highway devoted to pedestrians. It therefore recommends that the said ordinance be adopted.

AN ORDINANCE to amend section 530 of article 14 of the Revised Ordinances of The City of New York of 1897.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 530 of article 14 of the Revised Ordinances of The City of New York of 1897 with relation to walks and bridges over gutters is hereby repealed and the following section substituted:

"Section 1. Section 530. It shall be lawful for any person, firm or corporation who so desires to lower the curb and change the grade of a sidewalk in front of any building owned by such person, firm or corporation, for the purpose of providing a carriageway across such sidewalk, upon complying with the following conditions, namely:

"First—Application shall be made in writing by the owner to the president of the borough within which such premises are located.

"Second—In consideration of the granting of such permit, the borough president having jurisdiction is hereby authorized to charge a fee for such privilege to cover all expenses in connection with the inspection of the alteration of such sidewalk, and its ultimate restoration to original grade; and to make such rules for its proper care and cleaning as he deems desirable.

"Third—Every such carriageway shall be constructed under the supervision and subject to the direction of the president of the borough having jurisdiction, and on condition that upon failure to comply with all the terms of the permit the privilege may be revoked and the sidewalk restored to its original grade at the expense of the person, firm or corporation to whom the permit was granted, or of the grantee then having title to the abutting property.

"Sec. 2. This act shall take effect immediately."

That these grades do not impose any additional charge upon the City, but are to be established in order that the employees affected may be placed on an annual instead of a weekly basis to conform to the action taken in fixing the Budget lines for other Departments. It therefore recommends that the accompanying resolution be adopted.

Whereas, The Board of Estimate and Apportionment adopted the following resolution at a stated meeting held March 7, 1912:

REPORTS:

That having examined the subject, it believes the proposed amendment to be one which will add to the convenience of the public. In considering the ordinance, however, it feels that a slight change in section 1 to make it more easily complied with in the less thickly populated districts is advisable, and it submits an amendment to said section. The Committee recommends that the said ordinance, as amended, be adopted.

Whereas, It has pleased Divine Providence to call to rest our former colleague, Hon. William C. Townen, who ably and conscientiously performed his full duty to his district and to his City as a member of the Board of Aldermen for the years 1910 and 1911; and

Whereas, By his quiet, unobtrusive, painstaking conduct the Hon. William C. Townen endeared himself to his colleagues and political associates and left to those who knew him naught but the memory of a man of high motive and unquestioned character; therefore be it

Resolved, That the Board of Aldermen of The City of New York, sincere in its grief at the untimely taking away of its former member hereby places upon the record a note of the high esteem in which the Hon. William C. Townen was held, and extends to his bereaved relations sincere sympathy in the moment of their dire affliction.

Whereas, Under the provisions of chapter 679 of the Laws of 1910, being "An act to amend the Greater New York Charter relative to vacations of employees," provides among other things that "The executive heads of the various Departments are authorized and empowered to grant every employee of The City of New York, or of any department or bureau thereof * * * a vacation of not less than two weeks in each year and for such further period of time as the duties, length of service and other qualifications of an employee may warrant, at such time as the executive head of the department * * * may fix * * * except that no such vacation shall be granted to per diem employees for longer than two weeks * * *"; and

Whereas, Under the provisions of this act it is permissible for the heads of the departments to grant to the higher priced employees of the City, vacations which may extend into months, limiting the time for vacations for per diem employees to two weeks, which latter provision seems to be an unfair discrimination; and

Whereas, Heads of departments, though they are authorized to grant two weeks' vacation to per diem employees, have in the main granted only one week's vacation and this to a class of employees more really in need of rest and recuperation than those employed on a per annum basis; therefore

Resolved, That the heads of the several departments of the Government of The City of New York be and they are hereby respectfully requested to grant to all per diem employees full allotment of vacation time permitted under said chapter 679 of the Laws of 1910, to wit, two weeks; further, said heads of departments, if in need of additional help because thereof, for which no existing appropriation provides, are requested to make application to this Board for the necessary special revenue bonds to meet the emergency.

No. 791.

By Alderman Mulligan—

Whereas, It is a matter of public record that the Board of Aldermen were stripped of the franchise power in 1905, at the instigation of interests seeking railway franchises; and

Whereas, It is generally estimated and believed the value of the franchises granted by the Public Service Commission and the Board of Estimate and Apportionment since the franchise power was stripped from the Board of Aldermen is in excess of \$500,000,000; and

Whereas, The compensation to the City in exchange therefor has been practically nothing; and

Whereas, As under section 59 of the City Charter the Aldermen, with other officers of the City, are constituted Trustees of City property, and there has been an apparent waste of public wealth; and

Whereas, Section 54 of the Charter provides the Board of Aldermen shall have power to appoint a Special Committee to inquire whether the laws are faithfully observed, and generally in respect of any and all matters which will conduce to the orderly and economical administration of the City government or any department thereof; therefore be it

Resolved, The Board of Aldermen hereby authorizes the creation of a Committee of Five to investigate what influences caused the Aldermen to be stripped of the franchise power; the present market value of the properties enjoying franchises granted since 1905, and the actual value of the physical properties operating under these grants, so that the taxpayers may compare the compensation received by the City with the value of the privileges granted.

Said Special Committee shall be authorized, empowered and directed to examine members of the Board of Estimate and Apportionment and other officials who have served during the period indicated, as well as persons and officers of corporations who have received or applied for franchises since July 1, 1905.

Said Special Committee shall have power to subpoena, and compel the attendance of witnesses, and shall have access to the books and records of all City departments, and the services of all department heads, and shall retain the necessary subpoena servers, stenographers, counsel and other employees who to them may seem necessary for the purposes of said investigation.

Whereas, On Primary Day, Tuesday, March 26, 1912, through some accident or neglect on the part of the City authorities or others, the official primary ballots to be delivered at the polling places for the Republican Party were in many cases delayed, and in some sections in the Greater City were not received at all; and

Whereas, It is proper and necessary that the public and the City authorities be informed of the reason for such delay, and of the person or persons, if any, on whom the blame should be placed, to the end that appropriate action may be taken to avoid a repetition of such an occurrence; now therefore be it

Resolved, That the Board of Elections of The City of New York be and the same hereby is requested to investigate thoroughly the causes of the delay in printing and delivering the ballots of the Republican Party and to report its findings to the Board of Aldermen with such recommendations as it sees fit to prevent a recurrence of the condition of affairs referred to in the preamble.

Motion Picture Censorship Ordinance.

Be it Ordained by the Board of Aldermen of The City of New York, as follows:

1. It shall be unlawful for any person, firm or corporation to show or exhibit in any motion picture theatre or in any open air motion picture theatre any motion picture without having first obtained a permit therefor issued by the Bureau of Licenses as hereinafter provided. Every day's exhibition in any motion picture theatre or in any open air picture theatre of any motion picture without such permit therefor shall be deemed a distinct and separate violation of this ordinance.

2. Before any such permit is issued an application in writing shall be made therefor, and the plates, films, rolls or other like apparatus, by or from which such motion picture is shown or produced, or the motion picture itself as shown or exhibited shall be shown to the Bureau of Licenses, which shall inspect or cause to be inspected such plates, films, rolls or apparatus of such motion picture; and within three days after such inspection the Bureau of Licenses shall either issue or deny the permit therefor. In case such permit is granted it shall be issued in writing and in such form as the Bureau of Licenses shall prescribe.

3. If any motion picture, for the exhibition of which an application for such permit is made, is an obscene, indecent, immoral or impure motion picture, which would tend to the corruption of the morals of youth or others, it shall be the duty of the Bureau of Licenses to refuse such permit, otherwise it shall be the duty of the Bureau of Licenses to grant such permit.

4. In case the Bureau of Licenses shall refuse to issue such permit, the applicant therefor may appeal to the Mayor. Such appeal shall be presented to the Mayor in the same manner as the original application to the Bureau of Licenses. If any motion picture for the exhibition of which such appeal is made to the Mayor for a permit is an obscene, indecent, immoral or impure motion picture, which would tend to the corruption of the morals of youth or others, it shall be the duty of the Mayor to refuse such permit, otherwise it shall be the duty of the Mayor to grant and issue such permit. The determination of the Mayor in respect to the appeal for any such permit may be reviewed by writ of certiorari; and the provisions of law and of practice in respect to the writ of certiorari to review the determination of an inferior tribunal shall be applicable thereto.

5. The permit provided for in this ordinance shall be obtained for each and every motion picture exhibited in any motion picture theatre or in any open air motion picture theatre and shall be required in addition to any license now required by any law or ordinance or required by any other provision of this ordinance. No fee or tax of any kind whatsoever shall be charged or exacted for such permit.

6. When such permit to show or exhibit a motion picture is once issued to any applicant, such motion picture may be shown in any motion picture theatre or in any open air motion picture theatre, provided that such written permit therefor is actually delivered to the licensee of such motion picture theatre or open air motion picture theatre; and that a written notice of such transfer of such permit to such licensee is first duly mailed by such transferee to the Bureau of Licenses. Any number of transfers of such permit may be thus made, provided always that such permit is actually delivered to such transferee and that such written notice be first mailed to the Bureau of Licenses. Such written notice shall contain the number of such permit, the name and a brief description of the motion picture permitted thereby and the location of the motion picture theatre or open air motion picture theatre where such transferee proposes to show or exhibit such motion picture. The exhibition in any motion picture theatre or in any open air motion picture theatre by any transferee of such permit of the motion picture permitted thereby, without first mailing such notice to the Bureau of Licenses, shall be considered a violation of this ordinance; and each day's exhibition in any motion picture theatre or in any open air motion picture theatre, by any transferee of such permit of the motion picture permitted thereby without first mailing such notice to the Bureau of Licenses shall be deemed a distinct and separate offense.

7. The permit provided for in this ordinance shall be posted at or near the entrance of the motion picture theatre or the open air motion picture theatre where the motion picture permitted by such permit is being shown or exhibited, at such a place and in such a position that such permit can easily be read by any person entering such theatre at any time when such motion picture is there being exhibited. The exhibition of any motion picture in any motion picture theatre or in any open air motion picture theatre without the posting of such permit therefor shall be considered a violation of this ordinance; and each day's exhibition of any motion picture in any motion picture theatre or open air motion picture theatre, without the posting of such permit therefor shall be deemed a distinct and separate offense.

8. Anyone violating the provisions of this ordinance shall be fined for each offense not less than \$50 nor more than \$100.

9. All ordinances or parts of ordinances inconsistent with this ordinance are hereby repealed. Nothing in this ordinance shall be considered to abridge or modify

the power of the Mayor to suspend or revoke any license or permit granted or issued under the provisions of any other law or ordinance.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight when they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
