PROCEEDINGS OF THE PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT.

THURSDAY, JUNE 11, 1908,

TRIBUNE BUILDING, 154 NASSAU STREET,
BOROUGH OF MANHATTAN, CITY OF NEW YORK.

Present—Chairman William R. Willcox, Commissioners Edward M. Bassett, Milo R. Maltbie, John E. Eustis.

(1) MANHATTAN RAILWAY COMPANY—APPLICATION FOR APPROVAL OF BONDS. O-501

Report After Hearings.

The Chairman, to whom had been assigned the hearing on the application of the Manhattan Railway Company for the approval of certain bond issues, submitted to the Commission a report thereon, and after discussion a motion was made, duly seconded, and carried, approving the report and directing the Counsel to the Commission to draft appropriate orders carrying out the recommendations of the report for submission at a future meeting of the Commission.

The report, as submitted by the Chairman, was as follows:

MANHATTAN RAILWAY COMPANY.

Bond Issue.

This matter comes on upon two applications under Section 55 of the Public Service Commissions Law made by the Manhattan Railway Company for leave to issue bonds under its consolidated mortgage bearing date February 26, 1890:—

(1) The first application is for authority to issue such bonds to the amount of \$10,818,000, to take up by exchange or otherwise a like amount of the 6% bonds outstanding of the Metropolitan Elevated Railway Company due July 1, 1908, under the first mortgage of that company bearing date July 10, 1878.

(2) The second application is for leave to issue for the discharge or lawful refunding of its obligations a further amount of such bonds, viz., \$894,000.00 to be certified by the Trustee under a provision of the mortgage, which allows certification of bonds by the Trustee for extensions only to an amount not exceeding \$600,000.00 a mile of double track.

The facts as to the Manhattan Railway Company, as such facts appear from the testimony and the franchise documents of the company on file in the office of the Commission, are as follows:

The Manhattan Railway Company was organized December 29, 1875, under the Rapid Transit Act, Chapter 606 of that year, with a capital stock of \$2,000,000.00. Its routes were adopted September 2, 1875, by the Commission appointed under that Act by the Mayor and approved by the Common Council September 7, 1875, and by the General Term August 15, 1876. The routes fixed by the Commissioners covered in part the routes of the New York Elevated Railroad Company and the Metropolitan Elevated Railway Company. These roads were later taken into the Manhattan Railway Company through leases and surrender of stock to it under the provisions of Section 79 of the Railroad Law and of Chapter 254 of the Laws of 1867, which ante-dated the Railroad Law. The New York Elevated Railroad Company was so merged February 3, 1890. The Metropolitan Elevated Railway Company was so merged May 7, 1894, and the Suburban Rapid Transit Company, whose routes were north of the Harlem River, was merged with the Manhattan Railway Company by certificate filed June 30, 1891.

With reference to these roads, it may be sufficient to say for the purpose of reference that the New York Elevated Railroad Company was organized in October, 1871, under the Railroad Act of 1850, and succeeded in December, 1871, by foreclosure of mortgage to the rights of the West Side & Yonkers Patent Railway Company, organized June 25, 1866, under Laws of 1866, Chapter 607, Laws of 1867, Chapter 489, Laws of 1868, Chapter 855, and that the route of this company was substantially the route of the present Ninth Avenue and Third Avenue Elevated Railroads; that the Metropolitan Elevated Railway Company began as the Gilbert Elevated Railway Company, organized under Laws of 1872, Chapter 885, 1873, Chapter 837, and 1874, Chapter 275; that its name was changed to Metropolitan Elevated Railway Company by order of the Supreme Court, Special Term, June 6, 1878, and that its route was that covered substantially by the Sixth Avenue and Second Avenue Elevated Road; that the Suburban Rapid Transit Company was incorporated in May, 1880, under the Rapid Transit Act of 1875, Chapter 606, and took by lease and merger under the provisions of Chapter 254, Laws of 1867, two railroads with authorized routes north of the Harlem River, both known as the New York, Fordham & Bronx Railway Company, one organized November 30, 1883, under Chapter 140 of the Laws of 1850, and the other organized under the Rapid Transit Act of 1875, Chapter 606, and that the Suburban Rapid Transit Company was leased to the Manhattan Railway Company April 1, 1891.

On May 20, 1879, the Manhattan Railway Company took leases of the New York Elevated Railroad Company and the Metropolitan Elevated Railway Company, in pursuance of which it assumed to the extent of \$8,500,000.00 of principal the bonds of each of the said companies, and agreed to pay the interest of said bonds and 10% upon the stock issue of each of such companies to the amount of \$6,500,000.00. The relations of the three companies continued to be more or less complicated, but finally under an agreement bearing date August 1, 1884, the stock of the two elevated railroad companies was exchanged for stock of the Manhattan Railway Company, and the stock of the Manhattan Company became \$26,000,000.00, of which 120 shares of Manhattan stock represented each 100 shares of New York Elevated Railroad stock; 110 shares of Manhattan stock represented every 100 shares of Metropolitan stock, and the remaining \$11,050,000.00 of the capital stock of the Manhattan Company represented the \$13,000,000.00 of common stock of the Manhattan Company. This \$26,000,000.00 of issued stock was known as consolidated stock under the terms of that agreement.

At the time when the lease was made by the Suburban Rapid Transit Company to the Manhattan Railway Company, and the agreement for the surrender of the stock of the Suburban in exchange for stock of the Manhattan Company was made, the stock of the Manhattan Company was increased to \$30,000,000.00, the \$4,000,000.00 increase representing \$4,000,000.00 of stock of the Suburban Company which was to be taken over. This increase was allowed by the Board of Railroad Commissioners June 20, 1891. The stock of the Manhattan Company was again increased March 1, 1899, from \$30,000,000.00 to \$48,000,000.00 with the consent of the Board of Railroad Commissioners, and on January 17, 1903, with like consent of the Board of Railroad Commissioners from \$48,000,000.00 to \$60,000,000.00, which is the amount of its present outstanding capital stock.

On February 26, 1890, the Manhattan Railway Company and the Metropolitan Elevated Railway Company executed a consolidated mortgage, which provided:—

I. For the issue of \$40,000,000.00 of bonds to be disposed of as follows:—

- (1) To be certified and delivered to the Manhattan Company forthwith \$13,352,000.00
- (2) To take up by exchange or otherwise the outstanding first mortgage bonds of the New York Elevated Railroad Company.... 8,925,000.00
- (3) To take up by exchange or otherwise the outstanding debenture bonds of the New York Elevated Railroad Company..... 1,000,000.00
- (4) To take up by exchange or otherwise the outstanding first mortgage bonds of the Metropolitan Elevated Railway Company.... 10,818,000.00
- (5) To take up by exchange or otherwise the outstanding second mortgage bonds of the Metropolitan Elevated Railway Company... 4,000,000.00
- (6) To take up by exchange or otherwise outstanding registered bond certificates of the Manhattan Railway Company..... 1,905,000.00

Total \$40,000,000.00

II. That further and additional bonds beyond the \$40,000,000.00 of bonds above divided, of the same general form, tenor and date, and bearing interest at not exceeding 5% per annum, might be created and issued only for extensions of the existing system of railroads of said Manhattan Railway Company and Metropolitan Elevated Railroad Company, and only when and as the said railway companies or either of them shall construct or acquire any such extension; and it was provided that such further and additional bonds should be duly sealed and signed by the officers for the time being of the Manhattan Company and be certified by the Trustee and issued and delivered by it at a rate not exceeding \$600,000.00 per mile of double track of elevated railway and \$300,000.00 per mile of single track of elevated railway of the extension so constructed and acquired, and not otherwise, and the fact of such construction or acquisition is to be evidenced for the purposes of the instrument by the written certificate of the President or Vice-President and Chief Engineering officer of the Manhattan Company, and the ownership of the property constituting such extension shall be so vested as that the same shall form part of the mortgage security created by instrument and become subject to the lien thereof as a first charge thereon.

It appeared by the testimony upon the hearing that no bonds have ever been issued for any such extensions, but that at the present time there is outstanding of these 4% consolidated mortgage bonds the sum of \$27,748,000.00 issued for purposes included in the list above mentioned, and there remains unissued of the said \$40,000,000 for the purposes mentioned the following items, namely:—

Item 3, outstanding debenture bonds of the New York Elevated Railroad Company, \$1,000,000.00.

Item 4, outstanding first mortgage bonds of the Metropolitan Elevated Railway Company, \$10,818,000.00, besides a small amount of bonds held to take up bonds or debentures called but not presented.

With reference to the issue of bonds for extensions, the company has now filed a copy of a certificate of Vice President and Chief Engineer upon this application showing the construction of 1.49 miles of double track of an extension of that portion of the road of the Manhattan Company formerly included in the lines of the Suburban Rapid Transit Company from 177th Street to Bronx Park, and it appears that the ex-

pense of constructing the said extension has been paid by the Manhattan Railway Company out of moneys in its treasury derived from the operation of the road and that the cost was \$1,408,302.43.

From a legal standpoint, it would appear that there is no reason why the issue of \$10,818,000.00 of said bonds set aside and reserved to meet the like amount of 6% bonds of the Metropolitan Elevated Railway Company should not be authorized as being reasonably requisite under the provisions of the statute for the discharge or lawful refunding of its obligations.

In respect to the second application for the allowance of an issue of \$894,000.00, by reason of the construction of the extension above mentioned, the company says that as between that company and the Trustee of the consolidated mortgage, the Trustee is authorized to certify and deliver to it that amount of the bonds of the company, and asks that inasmuch as the proceeds of an issue of \$10,818,000.00 of 4% bonds under the consolidated mortgage will be insufficient to meet the amount necessary to pay \$10,818,000.00 on July 1, 1908, the Commission should authorize the issuance and sale by the company of the \$894,000.00 of bonds to raise the further amount required to pay off on July 1, 1908, the said Metropolitan bonds.

I am of the opinion that the bonds allowed by the mortgage to be certified by the Trustee, to the amount of \$894,000.00, by reason of the construction or acquisition of the extension of 1.49 miles from Tremont to Bronx Park, have and can have no inception or validity as bonds of the Manhattan Railway Company until authorized to be issued by this Commission, under the provisions of Section 55 of the Public Service Commissions Law, and that the Commission is without power to authorize an issue of such bonds unless it shall be of the opinion that the issue is reasonably requisite for one of the four following purposes, namely:

- (1) When necessary for the acquisition of property.
- (2) The construction, completion, extension or improvement of its facilities.
- (3) The improvement or maintenance of its service, or
- (4) Discharge or lawful refunding of its obligations.

I think, therefore, the Commission may, under said section, authorize the issue of the said \$894,000.00 bonds in case it shall be of the opinion that this issue is reasonably requisite for the discharge or lawful refunding by the said Manhattan Railway Company of the said \$10,818,000.00 of 6% bonds of the Metropolitan Elevated Railway Company, and in this connection I refer to the recent opinion of the Public Service Commission for the Second District, In the Matter of the Lehigh and Hudson River Railway Company, decided May 7, 1908, in which, upon page 8, Stevens, Commissioner, in writing the opinion, refers to circumstances arising in the financing of corporations which are substantially similar to those existing in the present case.

As to the necessity and propriety of the issue in this case it appears that to take up and pay off the principal of \$10,818,000.00 Metropolitan 6% bonds on July 1, 1908, at least that amount must be realized, and that from the \$10,818,000.00 of consolidated 4% bonds under the mortgage of 1890, reserved for the purpose, there will not in any reasonable probability be realized in the present state of the money market a sufficient amount to meet the debt. The Manhattan Company's property is now held under lease by the Interborough Rapid Transit Company, by the terms of which the Manhattan Company receives from the lessee as rental \$10,000.00 a year and its stockholders receive from the lessee on account of rental 7% on stock annually. The Manhattan Company is not, therefore, now an operating company or in the position to utilize its earnings from operation in making up any discount or deficit in the proceeds of the sale of said bonds, nor to incur a floating debt or secure the same, as may be done in the case of an active company. It does not seem to me that ordinarily bonds should be sold at less than par, or that a deficiency owing to discount should be made up by a sale of long term bonds, which adds to capital account. I think that discount should be carried as an operating expense.

In view, however, of the peculiar circumstances of this case, I think that a further issue of the said \$894,000.00 of said bonds at 4% is necessary and should be authorized for the discharge or refunding of the said Metropolitan bonds, but only so many should be sold as will realize an amount sufficient to meet the necessities of refunding the obligations, and the order authorizing the issue should contain a condition that bonds issued to refund the obligations should be offered for sale at public letting before being issued and sold, and that a strict account shall be kept of the proceeds derived from the sale of the bonds and of the disposition of the same, which shall be subject to the audit of the Commission.

(9) BROOKLYN LOOP LINES—CHANGE OF GRADES OF STREETS.

The Secretary presented a communication, dated June 11, 1908, from George Hallett Clark, Engineer First Division, transmitting a proposed form of resolution with regard to the raising of the surface railway tracks on Centre Street, which had been approved by George S. Rice as Acting Chief Engineer and by the Counsel. The following resolution was thereupon moved and duly seconded:

Whereas, William Bradley, the Contractor for Section 9-0-1, has suspended work in accordance with instructions given by the Chief Engineer on May 13, 1908, and on May 15, 1908, following a resolution of the Commission of May 13, 1908; and

Whereas, The Board of Estimate and Apportionment did, at its meeting of June 5, 1908, approve of the change of grade on Centre Street in the vicinity of Pearl Street, the application for which change of grade was submitted by the Public Service Commission to the Board of Estimate and Apportionment on March 10, 1908; and

Whereas, The Deputy Engineer of Subway Construction, on May 29, 1908, did advise the Chairman of the Commission that the Degnon Contracting Company, the Contractor for Section 9-0-2, desires to raise the tracks of the Fourth Avenue Street Railway on Centre Street north of Pearl Street to the revised grade, in order that he might proceed with the work of constructing the railroad, which raising would necessitate a corresponding raising of said tracks on a portion of Section 9-0-1; it is

Resolved, That the Acting Chief Engineer be and he is hereby authorized to order the said Bradley Contracting Company to raise so much of the Fourth Avenue car tracks and the street surface adjoining them as may be necessary to permit of the construction of the southerly portion of the subway on Section 9-0-2, and to do such other work as may be necessitated by and incidental to the raising of said tracks.

Ayes—Commissioners Willcox, Bassett, Eustis.

Nays—None.

Carried.

(10) The Secretary presented the following resolution which was moved and duly seconded:

ORDER (No. 575).

Whereas, The Receivers of the New York City Railway Company have stated to the Commission that it is impossible for them to provide adequate service upon the street car lines in Manhattan because there would not be sufficient funds to pay the rentals of many leased lines if the service were made adequate; and

Whereas, The investigations made into the books of this company and its subsidiary companies last Fall indicated in certain instances that the companies were greatly over-capitalized and that the rentals being paid were out of proportion to the value of the lines; and

Whereas, Thousands of citizens of New York will be seriously inconvenienced by the abolition of transfers by the Receivers; and

Whereas, It has been asserted that if a fair rental were paid to the subsidiary companies based upon a fair value of their property the company could give adequate service and retain a satisfactory system of transfers; and

Whereas, These questions raised by the action of the Receivers cannot be definitely answered without a knowledge of the value of the property of each line as one factor; therefore be it

Resolved, That the Commission proceed to inventory and appraise the property, tangible and intangible of the street railway companies in the Boroughs of Manhattan and The Bronx, and that the Chairman have general direction of the work.

Ayes—Commissioners Willcox, Bassett, Eustis.

Nays—None.

Carried.

(11)

The Secretary presented a communication dated June 10, 1908, from Frank A. Spencer, Secretary of the Municipal Civil Service Commission of the City of New York, stating that the request for transfer of John P. Byrne from the position of Rodman in the Public Service Commission for the First District to a similar position in the department of Water Supply, Gas and Electricity of Brooklyn would not be allowed because of the existence of a preferred list of persons who have been suspended from positions in the city service. The communication was ordered filed.

(12)

On motion, duly seconded, it was

O-572

ORDER (No. 572).

On motion made and duly seconded, an order (No. 572) was thereupon adopted authorizing, subject to the conditions hereinafter set forth, the issue by the petitioner, Manhattan Railway Company, of \$10,818,000.00 face value of bonds, at four per cent. interest, from April first, 1908, payable semi-annually, under and pursuant to the said Consolidated Mortgage, bearing date the 26th day of February, 1890, executed by said Manhattan Railway Company and Metropolitan Elevated Railway Company to the Central Trust Company of New York as Trustee; the issue to be made upon the conditions and for the purposes following and not otherwise; to wit:

(1) That the Manhattan Railway Company may sell the bonds hereby authorized but only so many thereof shall be sold as shall be sufficient to realize an amount which will pay the principal of the bonds of the Metropolitan Elevated Railway Company, due July 1, 1908, and the reasonable expense of refunding, which expenses shall not include, however, any commission for the sale of said bonds or for entering into any underwriting or purchase agreement; and the said proceeds of the sale of the bonds hereby authorized shall be applied by said Manhattan Railway Company only to or toward the payment on July 1, 1908, of the principal of said Metropolitan bonds and the said reasonable expenses of such refunding;

(2) Unless the said bonds shall be sold at private sale on a basis of not exceeding four and four-tenths per cent. and accrued interest, the treasurer of the company shall invite proposals for the purchase of said bonds to be publicly advertised daily for not less than six days in at least four daily newspapers published in the City of New York to the end that the time and place of the sale shall be generally known; and the treasurer shall award the said bonds to the highest bidder or bidders therefor. Said proposals shall only be opened publicly by the treasurer of the company and in the presence of all the Public Service Commissioners for the First District, or such of them as shall attend at the time and place specified in said public advertisement. It shall be a condition of said sale (and the advertisements calling for proposals therefor shall so declare) that any bidder may bid as to said bonds for all or none at one price, or for all or any part at one price, or for portions of said bonds at different prices, and any bidder who shall bid for a portion of said bonds may be required to accept a part of the amount bid for by him at the same rate, or proportionately, as may be specified in his bid, and any bid which conflicts with this condition may be rejected; and if the Board of Directors deems it to be in the interest of the company so to do, it may award the bonds to the bidder offering the highest price for all or a number of said bonds, provided, however, that if the Board of Directors deems it to be in the interest of the company it may reject all bids. The Board of Directors may prescribe such other conditions incident to and providing for the proposal for the purchase of bonds as to it may seem fit.

(3) That the company shall keep true and correct accounts, showing the application by it of the proceeds of the sale of all bonds authorized to be issued hereby, and said accounts shall be audited from time to time by an impartial accountant or accountants, appointed for such purpose by this Commission. Said accounts shall specifically show the amounts received by the company from time to time upon the sale of the bonds issued hereunder;

And further directing that this order shall take effect on the 12th day of June, 1908, and shall continue in force for a period of one year, or until otherwise ordered by the Commission.

O-573

On motion made and duly seconded, an order (No. 573) was also adopted authorizing the issue by the petitioner, Manhattan Railway Company, of \$894,000. face value of bonds, at four per cent. interest from April first, 1908, payable semi-annually, under and pursuant to the said Consolidated Mortgage, executed on the 26th day of February, 1890, by said Manhattan Railway Company and Metropolitan Elevated Railway Company to the Central Trust Company of New York, as trustee.

The issue is to be made upon the conditions and for the purposes following, and not otherwise, to wit:

Said proposals shall only be opened publicly by the treasurer of the company and in the presence of all the Public Service Commissioners for the First District, or such of them as shall attend at the time and place specified in said public advertisement. It shall be a condition of sale (and the advertisement calling for proposals shall so declare) that any bidder may bid as to said bonds for all or none at one price, or for all or any part at one price, or for portions of said bonds at different prices, and any bidder who shall bid for a portion of said bonds may be required to accept a part of the amount bid for by him at the same rate, or proportionately, as may be specified in his bid, and any bid which conflicts with this condition may be rejected, and if the Board of Directors deems it to be in the interest of the company so to do it may award the bonds to the bidder offering the highest price for all or a number of said bonds, provided, however, that if the Board of Directors deems it to be in the interest of the Company it may reject all bids. The Board of Directors may prescribe such other conditions incident to and providing for the proposal for the purchase of bonds as to it may seem fit.

(3) That the company shall keep true and correct accounts, showing the application by it of the proceeds of the sale of all bonds authorized to be issued hereby, and said accounts shall be audited from time to time by an impartial accountant or accountants, appointed for such purpose by this Commission. Said accounts shall specifically show the amounts received by the company from time to time upon the sale of the bonds issued hereunder;

BOARD OF ESTIMATE AND APPOR- TIONMENT.

PUBLIC NOTICE IS HEREBY GIVEN
that at a meeting of the Board of Esti-
mate and Apportionment, held June 5, 1908, the
following petition was received:

To the Honorable the Board of Estimate and
Apportionment:

The petition of the Union Railway of New
York City respectfully shows:

First—That your petitioner is a street surface
railway company, organized and existing under
the laws of the State of New York, having been
formed by the filing of articles of consolidation
in the office of the Secretary of State of New
York on the fifth day of July, 1892.

Second—That for many years it has been en-
gaged in the operation of a double-track street
surface railroad, with extensions and branches
thereof, for the carriage of passengers in the
Boroughs of Manhattan and The Bronx, in The
City of New York, and using the overhead
trolley system of electric traction as motive power
thereon.

Third—That one of the lines of the petitioner's
railroad has been operated for many years upon
Fordham avenue and Bailey avenue, in the Bor-
ough of The Bronx, and afforded a convenient
connection for public travel between the easterly
portion of the Bronx Borough, in which are op-
erated the steam lines of the New York and
Harlem Railroad, the elevated lines of the Man-
hattan Railway and the Kingsbridge section of
the Borough of The Bronx.

An additional line of the petitioner's railroad
has been operated on Broadway, between Two
Hundred and Thirtieth street and the northerly
line of The City of New York, affording also
a convenient line of travel to and from the
terminus of the subway line to many thousands
of people traveling daily thereon.

Fourth—Your petitioner now proposes to con-
nect its road upon Fordham and Bailey avenues,
which now terminates at the intersection of Two
Hundred and Thirtieth street and Bailey ave-
nue, with the road upon Broadway, which now
terminates at Two Hundred and Thirtieth street,
by the construction of a double-track extension,
or branch, in said Borough of The Bronx, in
The City of New York, upon the following streets
and avenues:

Beginning at and connecting with the peti-
tioner's double-track road now constructed on
Bailey avenue, at the intersection thereof with
West Two Hundred and Thirtieth street; run-
ning thence westerly in or upon the surface of
West Two Hundred and Thirtieth street to its
intersection with Broadway, there to connect
with the petitioner's double-track road now op-
erated thereon.

Fifth—That heretofore and on or about the
23d day of August, 1892, the Common Council
of The City of New York gave its consent to
the construction of an extension to the peti-
tioner's railroad upon streets described in the
resolution as "thence northerly along said (Sedg-
wick) avenue to its intersection with Bailey ave-
nue; thence along Bailey avenue to its intersec-
tion with Broadway at Kingsbridge."

Your petitioner believes that by such descrip-
tion the Common Council giving such consent
intended to include the right to construct upon
Two Hundred and Thirtieth street the extension
herein applied for, but said resolution was not
effective for such purpose by reason of failure
to specifically describe the said street.

Sixth—That such extension or branch will be
750 feet in length and, when constructed, will
enable the petitioner to operate a continuous
line of cars upon and over its Bailey avenue
and Broadway lines above described.

Seventh—That your petitioner proposes to
operate said extension or branch by the over-
head system of electricity, similar in all respects
to that now in use on its other lines of road.

Eighth—That for the purpose of constructing
and operating such branch or extension of its
road, your petitioner desires to obtain from your
Honorable Board, and hereby applies for its con-
sent to and a grant of the franchise or right
for the construction, maintenance and operation
of a double-track extension or branch of its
existing railroad for public use in the convey-
ance of persons and property for compensation
over the street and avenues above mentioned.

Wherefore your petitioner prays that public
notice of this application and of the time and
place when and where the same will be first
considered be given, as required by law, and
that a franchise or right be granted in accord-
ance with the provisions of the Greater New
York Charter.

Dated New York, May 28, 1908.

Estimate and Apportionment at a meeting held
June 5, 1908;

Resolved, That, in pursuance of law, this Board
sets Friday the 26th day of June, 1908, at 10.30
o'clock in the forenoon and Room 16 in the City
Hall, Borough of Manhattan, as the time and
place when and where such petition shall be
first considered, and a public hearing be had
thereon, at which citizens shall be entitled to ap-
pear and be heard; and be it further

Resolved, That the Secretary is directed to
cause such petition and these resolutions to be
published for at least fourteen (14) days in two
daily newspapers in The City of New York, to be
designated by the Mayor, and for at least ten
(10) days in The City Record immediately prior
to such date of public hearing, the expense of
such publication to be borne by the petitioner

First—That your petitioner is a street surface railroad company, organized and existing under the laws of the State of New York, having filed its articles of association in the office of the Secretary of State on the 8th day of October, 1893.

Second—That for many years it has operated a double track street surface railroad for the carriage of passengers in the Borough of Manhattan, City of New York, from the City Hall, in said City, upon Park row, Bowery and Third avenue to the Harlem River; upon One Hundred and Twenty-fifth street and Manhattan street, from East River to North River, and upon Amsterdam avenue, from One Hundred and Twenty-fifth street to the northerly terminus thereof at Fort George, at or near the intersection of Fort George avenue, using the underground system of electrical traction as motive power for such operation.

Third—That your petitioner proposes to extend its road on Amsterdam avenue and construct a branch thereof with double tracks and such connections, switches and appurtenances as may be necessary for the accommodation and operation of the said extension or branch in, through and upon the surface of such streets, avenues and highways in the Borough of Manhattan, City of New York, as are described as follows: Beginning at and connecting with the double track road upon Amsterdam avenue, owned by the Third Avenue Railroad Company, at or near the connection of said avenue with Fort George avenue, running thence northerly, westerly and southerly in, upon and along said Fort George avenue, as it winds and turns to the connection thereof with St. Nicholas avenue, running thence southerly in, upon and along St. Nicholas avenue to the intersection of One Hundred and Ninetieth (190th) street, and running thence easterly in, upon and along said One Hundred and Ninetieth (190th) street to the intersection of said street with Amsterdam avenue, there to connect with the existing railroad on said avenue, now owned by the said company.

Fourth—That such extension or branch will be 3,500 feet or thereabouts in length. When constructed it will enable the petitioner to operate cars over a continuous line of road, and avoid the inconvenience arising from the use of a stub end railroad terminal. The present operation will be accelerated thereby and quicker transportation given to the public seeking to depart from the Fort George territory.

Fifth—That your petitioner proposes to operate said extension or branch by the underground system of electrical operation, of the character now used on the petitioner's road on Third avenue, Amsterdam avenue and other streets above referred to.

Sixth—That for the purpose of constructing and operating said extension or branch of its road your petitioner desires to obtain from your Honorable Board and hereby applies for its consent to, and a grant of, the franchise or right for the construction, maintenance and operation of a double track extension branch of its existing railroad, for public use in the conveyance of persons and property for compensation, in or upon the avenues, streets and highways above described.

Wherefore, your petitioner prays that public notice of this application and of the time and place when and where the same will be first considered, be given, as required by law, and that a franchise or right be granted for the construction, maintenance and operation of said above described extension and branch be granted in accordance with the provisions of the Greater New York Charter.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, or the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
