Bidders will write out the amount of their estimate in addition to inserting the same in figures.

The award of the contract will be made as soon as practicable after the opening of the bids.

Any person making an estimate for the work shall present the same in a sealed envelope to said Board, at said office, on or before the day and hour above named, which envelope shall be indorsed with the name or names of the person or persons presenting the same, the date of its presentation, and a statement of the work to which it relates.

The Fire Department reserves the right to decline any or all bids or estimates, and to accept the lowest proposal, under either of the above conditions, as may be deemed to be for the public interest.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; that it is made with-out any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof.

Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders of the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as sureties for its faithful performance in the sum of five thousand (\$5,000) dollars; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York before the award is made and prior to the signing of the contract.

No estimate will be considered unless accompanied by either a certified check upon one of the banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of two hundred and fifty (\$250) dollars. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to him or their bid or proposal, or if he or they accept, but do not execute, the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

O. H. LA GRANGE, JAMES R. SHEFFIELD, AUSTIN E. FORD, Commissioners.

### DEPARTMENT OF DOCKS.

TO CONTRACTORS. (No. 532).  
PROPOSALS FOR ESTIMATES FOR DREDGING AT AND IN SHERMAN'S CREEK, ON THE HARLEM RIVER.

ESTIMATES FOR DREDGING AT AND IN Sherman's Creek, on the Harlem river, will be received by the Board of Commissioners of the Department of Docks, at the office of said Department, on Pier "A," foot of Battery place, North river, in the City of New York, until 12 o'clock M. of

TUESDAY, APRIL 21, 1896, at which time and place the estimates will be publicly opened by the head of said Department. The award of the contract, if awarded, will be made as soon as practicable after the opening of the bids.

Any person making an estimate for the work shall furnish the same in a sealed envelope to said Board, at said office, on or before the day and hour above named, which envelope shall be indorsed with the name or names of the person or persons presenting the same, the date of its presentation, and a statement of the work to which it relates.

The bidder to whom the award is made shall give security for the faithful performance of the contract, in the manner prescribed and required by ordinance, in the sum of Thirteen Thousand Dollars.

The Engineer's estimate of the quantities of material necessary to be dredged is as follows:  
Mud and Sand Dredging, about . . . 150,000 cubic yards.  
N. B.—Bidders are required to submit their estimates upon the following express conditions, which shall apply to and become a part of every estimate received:

1st. Bidders must satisfy themselves, by personal examination of the location of the proposed dredging and by such other means as they may prefer, as to the accuracy of the foregoing Engineer's estimate, and shall not at any time after the submission of an estimate dispute or complain of the above statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

2d. Bidders will be required to complete the entire work to the satisfaction of the Department of Docks, and in substantial accordance with the specifications of

the contract. No extra compensation beyond the amount payable for the work before mentioned, which shall be actually performed at the price therefor per cubic yard, to be specified by the lowest bidder, shall be due or payable for the entire work.

The work to be done under this contract is to be commenced within five days after receiving a notification from the Engineer-in-Chief of the Department of Docks that any part or portion of the dredging therein mentioned is required. The dredging to be done under this contract will be in the bed of the Harlem river and in the bed of Sherman's creek, on the Harlem river, in conformity with the accompanying drawing marked "Dredging at Sherman's Creek, H. R.," and is to be done from time to time, and in such quantities and at such times as may be directed by the Engineer, and all the work under this contract is to be fully completed on or before the 15th day of July, 1896.

The damages to be paid by the contractor for each day that the contract, or any part thereof that may be ordered or directed by the Engineer, may be unfulfilled after the time fixed for the fulfillment thereof has expired, are, by a clause in the contract, determined, fixed and liquidated at Fifty Dollars per day.

Bidders will state in their estimates a price per cubic yard for doing such dredging, in conformity with the approved form of agreement, and the specifications therein set forth, by which prices the bids will be tested. This price is to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing this work.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect, and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residences; the names of all persons interested with them therein; and if no other person be so interested, the estimate shall distinctly state the fact; also, that the estimate is made without any consultation, connection or agreement with, and the amount thereof has not been disclosed to any other person or persons making an estimate for the same purpose, and is not higher than the lowest regular market price for the same kind of labor or material, and is in all respects fair and without collusion or fraud; that no combination or pool exists of which the bidder is a member, or in which he is directly or indirectly interested, or of which he has knowledge, either personal or otherwise, to bid a certain price or not less than a certain price for said labor or material, or to keep others from bidding thereon; and also, that no member of the Common Council, Head of a Department, Chief of a Bureau, Deputy thereof, or Clerk therein, or any other officer or employee of the Corporation of the City of New York or any of its departments, is directly or indirectly interested in this estimate, or in the supplies or work to which it relates, or in any portion of the profits thereof; and has not been given, offered or promised, either directly or indirectly, any pecuniary or other consideration by the bidder or anyone in his behalf with a view to influencing his action or judgment in this or any other transaction heretofore had with this department; which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed to by all the parties interested.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, upon its being so awarded, become bound as sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled upon its completion, and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work to be done by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief. No estimate will be accepted from or contract awarded to any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

In case two or more bids are received at the same price, which price is the lowest price bid, the contract, if awarded, will be awarded by lot to one of the lowest bidders.

THE RIGHT TO DECLINE ALL THE ESTIMATES IS RESERVED IF DEEMED FOR THE INTEREST OF THE CORPORATION OF THE CITY OF NEW YORK.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

the Department for any loss or deprivation of wharfage or otherwise, resulting from or occasioned by any delay on account or by reason of the premises or any part thereof being occupied for or on account of any repairs rebuilding or dredging.

The upset price of the parcels or premises exposed or offered for sale will be announced by the auctioneer at the time of sale.

The Department will do all dredging whenever it shall deem it necessary or advisable so to do.

The term for which leases are sold will commence at the date mentioned in the advertisement, and the rents accruing therefor will be payable from that date in each case.

Each purchaser of a lease will be required, at the time of the sale, to pay, in addition to the auctioneer's fees, to the Department of Docks, twenty-five per cent. (25%) of the amount of annual rent bid, as security for the execution of the lease, which twenty-five per cent. (25%) will be applied to the payment of the rent first accruing under the lease when executed, or will be forfeited to the Department if the purchaser neglects or refuses to execute the lease, with good and sufficient surety or sureties, to be approved by the Department, within ten days after being notified that the lease is prepared and ready for execution at the office of the Department of Docks, Pier "A," North river, Battery place.

The Department expressly reserves the right to resell the lease or premises bid off, by those failing, refusing or neglecting to comply with these terms and conditions, the party so failing, refusing or neglecting to be liable to the Corporation of the City of New York for any deficiency resulting from or occasioned by such resale.

Lessees will be required to pay their rent quarterly in advance, in compliance with the terms and conditions of the lease prepared and adopted by the Department.

In all cases where it is mentioned in the advertisement of sale, the purchaser shall be entitled to the privilege of occupying any shed upon the pier or bulkhead at the commencement of the term or that may thereafter be permitted or licensed by the Department, and to the rights attached to such permission or license, but subject to the conditions thereof, such purchaser being engaged in the business of steam transportation, and using and employing the same for the purpose of regularly receiving and discharging cargo thereat.

Not less than two sureties, each to be a householder or freeholder in the State of New York, to be approved by the Board of Docks, will be required under each lease to enter into a bond or obligation, jointly and severally, with the lessee, in the sum of double the annual rent, for the faithful performance of all the covenants and conditions of the lease, the names and addresses of the sureties to be submitted at the time of sale.

Each purchaser will be required to agree that he will, upon ten days' notice so to do, execute a lease with sufficient surety as aforesaid, the printed form of which may be seen and examined upon application to the Secretary, at the office of the Department, Pier "A," Battery place.

No person will be received as a lessee or surety who is delinquent on any former lease from this Department or the Corporation.

No bid will be accepted from any person who is in arrears to this Department or the Corporation, upon debt or contract, or who is a defaulter as surety or otherwise, upon any obligation to this Department or to the Corporation of the City of New York.

The auctioneer's fees (\$25) on each lot or parcel must be paid by the purchasers thereof respectively at the time of sale.

EDWARD C. O'BRIEN, EDWIN EINSTEIN, JOHN MONKS, Commissioners of the Department of Docks.

#### TO CONTRACTORS. (No. 531.) PROPOSALS FOR ESTIMATES FOR FURNISHING SAWED SPRUCE TIMBER.

ESTIMATES FOR FURNISHING SAWED Spruce Timber will be received by the Board of Commissioners at the head of the Department of Docks at the office of said Department, on Pier "A," foot of Battery place, North river, in the City of New York until 12 o'clock M. of

WEDNESDAY, APRIL 15, 1896, at which time and place the estimates will be publicly opened by the head of said Department. The award of the contract, if awarded, will be made as soon as practicable after the opening of the bids.

Any person making an estimate for the work shall furnish the same in a sealed envelope to said Board, at said office, on or before the day and hour above named, which envelope shall be indorsed with the name or names of the person or persons presenting the same, the date of its presentation, and a statement of the work to which it relates.

The bidder to whom the award is made shall give security for the faithful performance of the contract, in the manner prescribed and required by ordinance, in the sum of One Thousand Two Hundred Dollars.

The Engineer's estimate of the quantities of materials to be furnished is as follows:

SPRUCE PLANK FOR REPAIRS. Feet, B. M.  
3-inch and 4-inch plank, as ordered, in pieces varying in length from 11 feet to 26 feet, 9 inches wide and upward, about ..... 150,000

The 3-inch and 4-inch plank called for shall be delivered in lots of not less than 500 feet, board measure, within six hours after receipt of an order that said delivery is to commence.

Where the City of New York owns the wharf, pier or bulkhead at which the materials under this contract are to be delivered, no charge will be made to the contractor for wharfage upon vessels conveying said materials.

N. B.—Bidders are required to submit their estimates upon the following express conditions, which shall apply to and become a part of every estimate received:

1st. Bidders must satisfy themselves, by personal examination of the location of the proposed delivery of material, and by such other means as they may prefer, as to the accuracy of the foregoing Engineer's estimate, and shall not at any time after the submission of an estimate dispute or complain of the above statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

2d. Bidders will be required to complete the entire work to the satisfaction of the Department of Docks and in substantial accordance with the specifications of the contract. No extra compensation, beyond the amount payable for the work before mentioned, which shall be actually performed at the price therefor per ton, to be specified by the lowest bidder, shall be due or payable for the entire work.

The contractor shall be ready to commence the delivery of the materials called for under this contract within five days after the date of this contract, and the delivery shall be commenced and shall be continued in such manner and quantities and at such times and places as may from time to time be directed by the Engineer-in-Chief, and the entire work is to be fully completed on or before the 1st day of October, 1896, and the damages to be paid by the contractor for each day that the contract may be unfulfilled after the time fixed for the fulfillment thereof has expired are, by a clause in the contract, fixed and liquidated at Fifty Dollars per day.

Bidders will state in their estimates a price per thousand feet, board measure, for spruce timber delivered in conformity with the approved form of agreement and the specifications therein set forth, by which price the bids will be tested. This price is to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing the work.

The person or persons to whom the contract may be awarded will be required to attend at this office, with

the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect, and in case of failure or neglect so to do he or they will be considered as having abandoned it, and as in default to the Corporation, and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence, the names of all persons interested with them therein, and if no other person be so interested, the estimate shall distinctly state the fact; also, that the estimate is made without any consultation, connection or agreement with, and the amount thereof has not been disclosed to, any other person or persons making an estimate for the same purpose, and is not higher than the lowest regular market price for the same kind of labor or material, and is in all respects fair and without collusion or fraud; that no combination or pool exists of which the bidder is a member or in which he is directly or indirectly interested or of which he has knowledge, either personal or otherwise, to bid a certain price or not less than a certain price for said labor or material, or to keep others from bidding thereon, and also that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or any other officer or employee of the Corporation of the City of New York, or any of its departments, is directly or indirectly interested in this estimate or in the supplies or work to which it relates, or in any portion of the profits thereof, and has not been given, offered or promised, either directly or indirectly, any pecuniary or other consideration by his bidder or anyone in his behalf with a view to influencing his action or judgment in this or any other transaction heretofore had with this Department, whichever estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the verification be made and subscribed to by all the parties interested.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, upon its being so awarded, become bound as his or their sureties for its faithful performance, and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled upon its completion and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work to be done, by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York and is worth the amount of the security required for the completion of the contract over and above his liabilities as bail, surety and otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from or contract awarded to any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

In case there are two or more bids at the same price, which price is the lowest price bid, the contract, if awarded, will be awarded by lot to one of the lowest bidders.

THE RIGHT TO DECLINE ALL THE ESTIMATES IS RESERVED IF DEEMED FOR THE INTERESTS OF THE CORPORATION OF THE CITY OF NEW YORK.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

NOTICE TO TENANTS AND PROPERTY HOLDERS IN REGARD TO REMOVAL OF SNOW.

ATTENTION IS CALLED TO THE PROVISIONS of an act passed by the Legislature of this State on April 1st, 1895, as follows:

CHAPTER 201.

"AN ACT to provide for the assessment and collection of the expense of removal of snow and ice from the sidewalks of public streets and avenues in the City of New York.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Whenever any owner, lessee, tenant, or occupant or person having charge of any building or lot of ground in the City of New York shall fail to comply with the provisions of any ordinance of the said city for the removal of snow and ice from the sidewalk or gutter in the street, on the side of the street on which the said building or lot fronts, the Commissioner of Public Works of the said city shall cause such removal to be made, and thereupon the expense of such removal as to each particular lot of ground shall be ascertained and certified by the said Commissioner of Public Works to the Comptroller of the said city, who shall pay the same in the same manner as the expense of removing snow from the streets of the city is paid; and immediately after the making of the payment of such expense as so certified to him, the said Comptroller shall make and deliver a certificate thereof to the Board of Aldermen of the said city, and the said amounts so certified shall, by the said Board of Aldermen, annually be added to and made to form a part of the annual taxes of the next ensuing fiscal year against the lots against which the said amounts shall be so certified respectively, and the same shall be collected in and with and as part of the annual taxes for such fiscal year, for or during which the same shall have been so incurred and certified.

Section 2. This act shall not be regarded as interfering with the owner of any lots throwing into the roadway of the streets or avenues any snow or ice which may be removed from the sidewalk or gutter directly in front of such lot.

Section 3. The term lot, as used in this act, shall include a space not to exceed twenty-five feet in width fronting the street, avenue or lane upon which the violation is charged to have been committed or omitted.

Section 4. This act shall take effect on the first day of November, eighteen hundred and ninety-five.

The City Ordinance to which the above statute applies reads as follows:

"Section 669. Every owner, lessee, tenant, occupant or person having charge of any building or lot of ground in the city of New York shall, within eight hours after the fall of any snow, and within eight hours after the forming of any ice on the sidewalk or in the gutter in front

the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract, by his or their bond, with two sufficient sureties, each in the penal amount of fifty (50) per cent. of the bid for each article.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as a surety in good faith, and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate box; and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it, and as in default to the Corporation, and the contract will be readvertised and relet, as provided by law.

Bidders are cautioned to examine the specifications for particulars of the articles, etc., required before making their estimates.

Bidders will state the price for each article, by which the bids will be tested.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, or from time to time, as the Commissioners may determine.

The form of the contract, including specifications, showing the manner of payment, will be furnished at the office of the Department, and bidders are cautioned to examine each and all of its provisions carefully, as the Board of Public Charities will insist upon its absolute enforcement in every particular.

Dated New York, April 9, 1896.

SILAS C. CROFT, President; JOHN P. FAURE and JAMES R. O'BRIEN, Commissioners, Department of Public Charities.

### OPINIONS.

The reports of previous years, as well as of this, show that the preparation of opinions, at the request of the heads of the various departments and boards, is a very important branch of the Department's work. These opinions cover an immense field and wide range of subjects, frequently involving prolonged study.

During the year 1895 written opinions were given on request, as indicated below:

Comptroller.....	357
Commissioner of Public Works.....	49
Dock Commissioners.....	56
Park Commissioners.....	23
The Mayor.....	50
Police Commissioners.....	33
Commissioner of Street Cleaning.....	23
Board of Street Opening.....	9
Commissioners of Public Charities and Correction.....	22

Board of Assessors.....	10
Commissioners of Taxes and Assessments.....	18
Commissioner of Street Improvements of the Twenty-third and Twenty-fourth Wards.....	48
Miscellaneous.....	145
Total.....	874

7,065 pages of press copying were required for the opinions and other correspondence of the Department during the year.

There were received from the Police Department 106 reports of accidents, which were examined into and filed.

There were received from the Finance Department 622 requests for the examination of claimants, in 295 of which oral examinations, under oath, were conducted. The circumstance that only 295 claimants were examined, when 622 requests for examination were received, is explained by the fact that a large number of the claims filed were in mechanics' liens cases and in assessment matters, where, all the facts being already within the knowledge of the City's officers, examinations were not necessary.

<i>The Office of the Attorney for the Collection of Arrears of Personal Taxes.</i>		
1 Attorney.	1 Clerk.	2 Law Clerks.
	(4 persons).	

The Bureau of the Public Administrator was formerly a part of the Law Department, but by chapter 827 of the Laws of 1895, which went into effect on the 31st day of May of that year, this Bureau was removed from the Law Department but continued as an independent bureau, the duties of which remain substantially unaltered.

The power to appoint and remove the Public Administrator was vested by said act in the Surrogates of the County of New York, and the appointment of subordinates was vested in the Public Administrator.

The amounts appropriated for the Department by the Board of Estimate and Apportionment for the year 1895 are as indicated below. Some of these figures have already been stated in Schedule 6 :

Salaries—General Office of the Counsel to the Corporation—

Salary of the Counsel to the Corporation..... \$12,000 00

Salaries of Assistants, Clerks and Employees..... 106,300 00

Contingencies—

General Contingencies..... 18,000 00

Contingent Counsel Fees..... 50,000 00

Public Administrator's Office..... 450 00

Corporation Attorney's Office..... 150 00

Salaries—Bureau of the Corporation Attorney—

Salary of the Corporation Attorney..... 4,000 00

Salaries of Assistants, Clerks, Messengers and Janitor..... 7,000 00

Bureau of the Attorney for the Collection of Arrears of Personal Taxes—

Salary of the Attorney..... 4,000 00

Salaries of Clerks..... 3,500 00

The additional appropriations were as follows :

For prosecuting delinquents for Arrears of Personal Taxes, etc..... 1,200 00

For Revision and Compilation of the Ordinances of the Common Council..... 2,500 00

Salary of the Attorney to the Department of Street Improvements of the Twenty-third and Twenty-fourth Wards and Clerk..... 6,200 00

Total..... \$232,200 00

Attention should be directed to the fact that in the appropriation for 1895 the sum of \$25,000 was appropriated for deficiencies existing in counsel fees incurred previous to that year, and that in the appropriation for General Contingencies authority was given to pay existing deficiencies of previous years out of the same, which was done to the extent of about \$7,000.

Deducting the amounts paid for bills incurred previous to the beginning of the year 1895; to wit, \$26,763.52, there was left a balance of \$205,436.48 only, which could be used for the expenses of running the Department during the year 1895.

It will also be noticed that no provision is made in the general estimates for the expenses of the Bureau of Street Openings, or for the Special Counsel in charge of proceedings relating to the water supply.

The reason for this is that the cost of maintaining this Bureau is divided among the different proceedings which it may have in charge, and is included in the assessments for benefit as a part of the expense of the improvement, so that work of this character is done without expense to the general body of taxpayers, the burden being borne by the property deemed specially benefited by the improvements.

The Counsel in charge of the proceedings relating to the water supply is paid out of the special funds provided by the various acts under which the proceedings are taken.

## THE BUREAU OF STREET OPENINGS.

Since the establishment of this Bureau by chapter 158 of the Laws of 1893, the process of acquiring title on behalf of the City to lands necessary for the construction of streets, roads and avenues has been facilitated very much, and the record of the past year is very gratifying.

The work of this Bureau may be said to be the foundation of all street improvements. All land is in general owned by private persons, and it is impossible for the City to take possession thereof and construct roads, sewers or other public improvements thereon until title has passed from the private owner to the City, or the consent of such owner has been in some way obtained to the public use of his property.

In a few cases cessions of the land required have been made by deed from the owner to the City, but in general it is necessary in each case to make application to the court for the appointment of Commissioners of Estimate and Assessment, who sit as a court and determine the awards that are to be made to the property-owners as damages for the taking of the land, and the assessment that is to be imposed upon the property deemed benefited by the improvement.

During the year 72 new commissions have been appointed. In 1894, 55 such commissions were appointed, and 31 in 1893.

44 reports were confirmed, as against 34 in the year 1894, and 35 in the previous year.

Deeds of cession in the cases of five streets have been delivered, and the Bureau has passed upon their legality.

275 proceedings are pending, in 94 of which commissioners have been appointed.

About 2,800 meetings of commissions were held, as against 2,161 in 1894, and 1,060 in 1893.

The City has acquired by condemnation proceedings title to about 55,000 lineal feet (or 10 4-10 miles) of streets, as against 43,187.42 lineal feet in 1894, and 38,512.76 lineal feet in 1893, exclusive of streets acquired by cession.

The awards in the proceedings that were confirmed amount to \$1,550,000, while the awards made in 1894 amounted to \$2,250,172.33, and those of 1893 to \$55,794.69.

The awards during 1894 were so much larger for the reason that in that year awards amounting to \$1,431,693.17 (including costs and expenses) were made for the widening of College place—a very expensive improvement.

The largest proceeding, which has progressed so far that a preliminary report has been made, is that of Exterior street, on the East river, between Sixty-fourth and Eighty-first streets, a proceeding involving many difficult questions of riparian rights.

A very important decision was rendered by the Court of Appeals in dismissing the appeal of James A. Deering in the matter of opening Audubon avenue.

The contention was made in that case that under special statutory provisions not more than one-half of the cost of opening streets or avenues more than a mile in length on Manhattan Island, north of One Hundred and Fifty-fifth street, could be assessed upon the property owners, and that the remainder should be borne by the City, although in general the whole expense is assessed upon property benefited.

This contention has now been disposed of by the Court of Appeals.

The City is now relieved of paying not only one-half the cost of opening Audubon avenue, but likewise one-half the cost of opening Wadsworth avenue and Edgecombe road, which proceedings are still pending.

It is estimated that a saving of over a half a million dollars has resulted from this decision.

The following important matters are in charge of this Bureau, but are referred to more at length in connection with matters specially mentioned below :

St. John's Cemetery; the Approaches to the New Macomb's Dam Bridge; the Grand Boulevard or Concourse; the Public Place at the Boulevard and West End avenue.

In 181 of the proceedings that have been commenced Commissioners have not been appointed, and a very long delay has sometimes intervened between the institution of proceedings and their conclusion.

The main reason for this is the impossibility of obtaining quickly the necessary maps, which is caused either by too small a force of engineers or lack of appropriation of sufficient money.

While the time in which the commissioners are actually employed in hearing testimony and deciding upon their awards and assessments is often less than six months, the average time they are obliged to wait for maps is more than five months, during which period nothing can be done.

The Commissioner of Street Improvements of the Twenty-third and Twenty-fourth Wards has, however, had an increase in his appropriation for preparing maps for street opening purposes, so that an improvement hereafter may be expected in this respect.

A source of embarrassment to this Bureau is likely to arise from the recent establishment of new lines of streets and avenues in the Twenty-third and Twenty-fourth Wards, unless the tax maps are made to conform to the streets and avenues as laid down upon the new maps filed by the Commissioner of these wards.

The suggestion is also made that immediate steps should be taken to determine upon the location of streets, roads and avenues in the newly acquired territory of Wakefield, East Chester, West Chester, Williamsbridge and Pelham. It will doubtless be soon advisable to construct some of these improvements.

The opening of streets will hereafter be confined principally to territory north and east of the Harlem river.

The only street openings involving large expense on Manhattan Island in charge of this Bureau are Wadsworth avenue and Edgecombe road, both of which are well on the way toward completion.

## THE BUREAU OF THE PUBLIC ADMINISTRATOR.

As already stated, this Bureau, by chapter 827 of the Laws of 1895, was removed from the Law Department and became an independent bureau on the 31st day of May, 1895. At the time of the severance of this Bureau from the Law Department, the Public Administrator reported as pending : In the United States Circuit Court for the Southern District of New York, 2 actions for an accounting and 1 action to foreclose a mortgage; in the State Courts, 3 actions for an accounting, 1 to determine the title to personal property, 1 to secure money in bank, 1 to establish a will, 1 to charge a legacy on real estate, 1 to foreclose a mortgage, and 1 to foreclose a mechanics' lien.

## BUREAU OF THE CORPORATION ATTORNEY.

At this Bureau 63,442 complaints were received, upon 38,269 of which no action could legally be taken.

8,451 suits were commenced upon the other 25,173 complaints. (It frequently happens that one suit only is necessary to dispose of several complaints.)

105 bastardy cases were prosecuted to judgment and 41 cases were dismissed.

11 abandonment cases were prosecuted to judgment and 1 dismissed.

In 30 abandonment cases judgment of conviction was affirmed on appeal, and in 2 the appeals were dismissed.

21 actions on abandonment bonds were prosecuted to judgment, and 1 such action dismissed.

8 proceedings were begun to compel children to support aged parents, and 5 to recover the fees of Inspectors of Weights and Measures.

The moneys collected by the Attorney are as follows :

Amount paid to the Commissioners of Public Charities and Correction, in abandonment and bastardy cases.....	\$9,509 11
Amount paid to City Chamberlain for penalties and costs.....	5,193 55
Amount paid for court fees, disbursements and affidavits.....	729 96
Amount paid Inspectors of Weights and Measures.....	4 07

Total received from all sources..... \$15,436 69

This exceeds the amount collected in 1894 by \$2,362.18.

## OFFICE OF THE ATTORNEY FOR THE COLLECTION OF ARREARS OF PERSONAL TAXES.

The Attorney in charge of this Bureau made collections as follows :

Taxes and interest.....	\$104,886 63
Costs.....	1,311 69
Total.....	\$106,198 32

This exceeds the amount collected for the year 1894 by \$2,855.04.

The number of delinquent taxpayers returned to the Bureau by the Receiver of Taxes during the year was 5,030.

## THE OFFICE OF THE SPECIAL COUNSEL IN CHARGE OF PROCEEDINGS RELATING TO THE WATER SUPPLY.

The City has employed for many years special counsel to conduct the litigation necessary for the acquisition of lands and easements required for the acquisition and protection of the water supply, and particularly in the Counties of Westchester and Putnam.

These proceedings are conducted under chapter 445 of the Laws of 1877, chapter 490 of the Laws of 1883 (commonly known as the Aqueduct Law) and chapter 189 of the Laws of 1893 (the act for the protection of the sources of the water supply from pollution).

Under these acts numerous commissions have been appointed, which pass upon the value of the property and rights as the same are, from time to time, acquired by the City.

Eliminating from consideration parcels as to which the Commission has not yet been appointed, there are in process of trial 524 cases, involving in the aggregate claims against the City of \$8,052,207.60.

During the year 1895, exclusive of that portion of Katonah north of Main street, claims to the extent of \$1,688,548.39 were presented, and sworn evidence was produced before the Commissioners to the effect that they were of that value.

After hearing the evidence on the part of the City, however, the Commissioners awarded the sum of \$630,600.53, making a net reduction in favor of the City in the cases closed of \$1,057,947.86. In addition to this, 699 parcels of real estate scattered through the Counties of Putnam and Westchester are now in process of examination and acquisition.

Besides the proceedings referred to above, questions of assessed values and taxation of upward of 8,000 acres of land belonging to the City are constantly being presented, and all assessments and tax bills are critically examined by this office.

During the year 1895 assessments against the City of upward of \$350,000 have been cancelled, and duplicate assessments for various parcels at Croton Falls removed from the books.

## THE OFFICE OF THE ATTORNEY TO THE DEPARTMENT OF STREET IMPROVEMENTS OF THE TWENTY-THIRD AND TWENTY-FOURTH WARDS.

During the year 1895 quarters were provided for this Attorney in the general offices of the Law Department, so that he is brought into closer relation with the rest of the office force. While much of his time is spent in those wards, and in personal communication with City officers particularly concerned therewith, the writing of opinions and the passing upon purely legal questions can, it is thought, be better performed in connection with the general office. The more

important matters need not be specially mentioned here, for the reason that they are included as a part of the work of the general office, but consultations were had almost daily and oral advice given in matters pertaining to the business of that Attorney which involved legal questions of minor importance.

#### MATTERS SPECIALLY MENTIONED.

##### Legislation.

Not the least of the laborious and important duties of the Counsel to the Corporation is imposed by the examination of proposed legislation.

It consumes much of his time, as well as about all of the time of a senior assistant, while the Legislature is in session.

Some idea of the work involved may be obtained from a consideration of a few statistics.

The Legislature of 1895 passed 35 acts, which became laws, amending different sections of the Consolidation Act. The sections amended by these 35 acts numbered 119.

It also passed 23 other acts, which became laws amending other statutes which had previously been passed, directly affecting the City of New York and the various departments of its government.

It also passed 11 acts which became laws, cancelling assessments previously laid, and 11 acts which became laws providing for the investigation or payment of claims against the City.

It further passed 39 entirely new acts which became laws directly affecting the City.

Every one of these acts, amounting to 119 in all, was carefully examined by this Department, and watched in all its stages from introduction to final signature by the Governor.

The work involved included the examination and preparation of proposed amendments; many hearings before committees; investigation of the necessity for the proposed legislation; the gathering of information from the different departments affected in order to place before the committees having the bills in charge the exact condition of affairs; and finally the preparation of briefs for the consideration of the Mayor, to assist him in determining whether or not to assent, on behalf of the City, to the proposed act, the new Constitution providing that all special acts affecting the City shall be sent to the Mayor, who, after giving a public hearing thereon to all parties interested, must approve or disapprove the same and return them to the house from which they emanated.

These acts cover a vast number of subjects, some of which are indicated below, to wit:

The annexation of Wakefield, East Chester, Williamsbridge, West Chester and Pelham; the construction of a new bridge over the East river; a new bridge over the Harlem river; the new concourse to be built on the north side of the Harlem river; the abolishment of the police justices and the institution of 2 new courts (the Special Sessions and the City Magistrates) to take the place thereof; most important amendments to the Rapid Transit Act, and the so-called Elm Street Widening Act; the power of removal bill; the removal of the Public Administrator's office from the Law Department, and its continuance as an independent bureau, the head of which is to be appointed by the Surrogates; authorizing the City to issue a \$1,000,000 of bonds a year for three years to repaving its streets; increasing the appropriation for the Commissioners of Accounts \$200,000, to enable them to make a thorough investigation of City affairs; creating a new Judge of the Court of General Sessions and a corresponding increase in the District Attorney's office; the establishment of a law library for the Court of General Sessions; requiring that no public school building shall be erected in the future unless a play-ground is attached thereto.

The tabulation of the acts which became laws indicates but a small part of the labor involved in this branch of the work of the office, inasmuch as about 1,500 Senate bills were printed, and very nearly 3,000 Assembly bills, every one of which received an examination to ascertain whether, and, if so, how far, it might affect the interests of the City.

By reason of the facts and arguments presented by this Department to the committees having the several bills in charge, many bills failed of passage or were materially amended, in accordance with the views of the City authorities.

This work has always been regarded as a most important one, but it was especially important this year, in view of the very large amount of legislation proposed and the very radical changes advocated and in many instances accomplished.

A number of the bills before alluded to were drafted in this Department and introduced and passed at its request.

##### Admiralty Matters.

The volume of admiralty litigation has been less than in 1894, but the City has been fortunate in all affirmative suits, having recovered in the case of the Mayor, Aldermen and Commonalty against the "Robert Hadden" and "Mattie Newmann" for injuries done to the fire-boat "New Yorker," a sum in excess of the amounts it has been called upon to pay under adverse decrees.

A principle of law important in the amounts contingent upon an adverse decision to the City has been settled in favor of the City, on appeal to the United States Circuit Court of Appeals, in the case of Robert W. Workman against the City. The District Court held the City liable for the negligence of the employees of the Fire Department, holding the doctrine of non-liability as settled by the Court of this State controlling only on the common law side of the Court.

The United States Circuit Court of Appeals, however, reversed this finding and held the City not liable. Owing to the novelty and importance of the questions involved, upon petition of the libellant, the Supreme Court of the United States has taken cognizance of this suit, by certiorari.

In two suits brought against the City, arising out of damage done by Public Bath No. 13 in the gale of August, 1893, one, for salvage for saving the bath, the other for damage done by the bath, the City prevailed, establishing the principle that where City property is in the hands of bailees, even in admiralty, the bailee may be brought in by petition and held.

There were many collisions of vessels with this bath during the prevalence of the August gale, and these decisions are important as precedents for holding the City not liable in the other cases.

##### Assessments for Local Improvements.

The number of special proceedings to vacate or reduce such assessments pending at the end of the year was 382, which is the smallest number pending at any time for the last twenty-five years at least.

Only eight orders of reduction were made reducing assessments by the sum of \$859.15, but these reductions in every case, except one, involving \$450.92, were made under decisions rendered previous to 1895, no new principle of general application requiring the reduction of assessments having been established.

In a few cases, not included in the above, vacations were ordered pursuant to mandatory statutes.

Numerous proceedings or suits growing out of such assessments were disposed of in various ways. Except in the two following cases the decisions did not present any novel or important points.

The two exceptions are the case of Scudder vs. Mayor, decided by the Court of Appeals, and Matter of Hume, a Special Term decision.

The former suit established the general proposition of law that an injunction will not lie to restrain the threatened sale of property by the City for an unpaid assessment, even if the same is illegal.

The other case established the principle that the City is not liable for the construction of the approaches to the new bridges across the New York and Harlem Railroad tracks rendered necessary by the elevation of the grade of the railroad in the Twenty-third Ward under the Park Avenue Improvement Act.

##### The Annexation of Wakefield, East Chester, Williamsbridge, West Chester and Pelham.

The annexation of this territory, under chapter 934 of the Laws of 1895, has already resulted in a considerable litigation and promises much more.

The constitutionality of the act, however, has been thoroughly tested, and the Court of Appeals has held the act to be constitutional in *The People ex rel. Henderson vs. Supervisors of Westchester*, 147 N. Y., 1.

There are, however, numerous other questions which are still under consideration as to the construction of the act of annexation, and as to the proper action to be taken by the City authorities in reference to the newly acquired territory.

##### The Constitutionality of the Water Shed Act.

Among the decisions of special importance rendered during the year was that of the General Term of the Supreme Court of the Second Department in the case of *Roxanna Kelley*.

A question was raised as to the constitutionality of chapter 189 of the Laws of 1893, under which the Commissioner of Public Works was given authority to take possession of real estate and abate nuisances in a summary manner.

The constitutionality of the act was upheld by the General Term.

##### The Dinsmore Claim.

This claim was made against the City for advertising in a paper called "The Stockholder," and amounted to about \$80,000.

The Board of Estimate and Apportionment, under a special act of the Legislature, audited it, however, at a nominal sum.

Mr. Dinsmore applied for a writ of mandamus to compel the Board to audit the claim at a fixed sum, and also obtained a writ of certiorari to review the determination of the Commissioners. The Court of Appeals, during the past year, finally disposed of the matter by sustaining the action of the Board of Estimate and Apportionment.

##### Wolf Board of Aldermen Claims.

These claims, in which about \$1,000,000 were alleged to be due for salaries of the so-called Board, have been finally disposed of by the decision in the *Demarest* case, the Court of Appeals having affirmed the judgment dismissing the complaint. An attempt will be made to dismiss all the other suits of a similar character under that decision.

##### The Hackley Contract Litigation.

The suit in this case was begun in 1864, and relates to the famous contract made in 1861 between the City and Andrew J. Hackley for the cleaning of streets and wharves.

After about twenty-five years of litigation, and in 1891, a judgment was entered against the City for \$689,566.73.

Subsequently, in June, 1893, as the result of an appeal, the judgment was reduced to about \$210,000.

An appeal was then taken to the Court of Appeals, but in 1895 a compromise was reached whereby the owners of the judgment agreed to satisfy it upon the receipt of ninety per cent. of the judgment as reduced.

This amount has been paid and the controversy is ended.

##### The New York and Brooklyn Ferry Company vs. The Mayor, etc.

This important suit was decided by the Court of Appeals in favor of the City, the Court affirming the judgment dismissing the complaint.

The plaintiff demanded \$100,000 alleged to be due as damages for a breach of covenant on the part of the City in refusing to pay for certain buildings and fixtures used in connection with the ferry at the foot of Roosevelt street.

##### Patent Litigation.

The City is involved in several important suits growing out of alleged infringements of various patents.

The case in which Christopher C. Campbell is plaintiff is the most notable of them and has been in litigation about eighteen years. It relates to the so-called Knibbs patent used in steam fire-engine pumps.

The amount of money claimed in this suit is enormous. In fact, under rulings that have been made by the Master, about \$11,000,000 are dependent upon this litigation.

The contest as to this claim has been very expensive, as well as a source of much anxiety to those who have been responsible for the conducting of the defense.

In December, however, the Master made a report in which he finds that the complainant is entitled to a decree for \$28,336.

It remains to be seen whether the City will be compelled to pay even this comparatively trivial sum.

The suit in which William A. Brickill is plaintiff was begun in 1870, in which it is claimed that the City is responsible for damages for the infringement of a patent for the improvement in "feed-water heaters" for steam fire-engines.

The testimony in this suit is nearly completed, have been and it is thought will be submitted to the Master early in the year 1896.

Should the complainant's theory of the case be held correct, it would involve the payment of somewhat more than \$1,000,000.

In the suits against the City and the Fire Department in which Robert Bragg and The Bragg Manufacturing Company are plaintiffs, damages are claimed for an infringement of "gong attachments" for engine-houses.

Considerable testimony has been taken in these suits, but they have not advanced sufficiently far to enable one to form a definite opinion as to their importance.

The suit of The American Cable Railway Company against the Cities of New York and Brooklyn for damages resulting from an alleged infringement of a patent relating to the cable railway used on the New York and Brooklyn Bridge, has been finally decided by the United States Circuit Court of Appeals in favor of the defendants, the court holding that the patent is invalid.

##### Police Cases.

The police cases argued during the present year have been of unusual number and interest.

Of these, perhaps the most important is that of Captain Eakins, who applied for a mandamus to compel the Board of Police to retire him, which the Board refused to do, for the reason that from written information received by them, they were, at the time of his application, examining into charges preferred against him.

Captain Eakins claimed the absolute right of retirement, but the Court of Common Pleas, at Special Term, held that there were in fact charges pending against Captain Eakins at the time of his application, and this decision has been sustained by the General Term of the same court.

The decision of the case of *The People ex rel. Krushkinsky vs. The Board of Police*, by the General Term of the Supreme Court, is also of importance, that being a test case brought to determine the right of the Police Board to dismiss members of the police force who had obtained their places by fraud; the fraud in that case being that the applicant for appointment to the police force had employed another person to impersonate him upon the examination for appointment.

This decision was also in favor of the Board of Police.

##### The Proceedings Before the Commissioners to Award Damages for Changes of Grade of Certain Streets in the Twenty-third and Twenty-fourth Wards.

During the year 1895 the vital questions under the acts creating this Commission, establishing, in a measure, the procedure before it and affecting the life of the Commission itself, have been considered by the Court of Appeals. As that court held the Commission to have lawful existence and jurisdiction to make the awards, this extensive litigation will now proceed with all dispatch to a disposition of the 967 claims that have been filed.

Awards have been made in 68 of these claims, in which the total amount claimed was \$432,933.86. The total amount awarded was \$172,725, or .398 per cent., a percentage less than has been obtained in most if any similar litigations by the City.

##### Dock Proceedings.

The proceedings for the acquirement of water rights and of land in connection with the improvement of the water front have been more numerous and important than ever before in the history of the Law Department.

Application for the appointment of commissioners to appraise the value of the property taken was made at the end of last year, but no proceedings were had until the spring of 1895.

The Law Department, under the direction of the Board of Docks, instituted 9 proceedings, some of them embracing property of great value, and the termination of which will give to the City the means of very much enlarging its commercial facilities.

This is especially true of the proceedings which embrace the two blocks bounded by Bethune street, West street, West Eleventh street and Thirteenth avenue.

In the case of these blocks the City is obliged to not only acquire the water rights, but also, for the purpose of building longer piers suitable for modern steamships, to condemn the interests of the owners of the upland of the blocks mentioned.

The Board of Docks already has advantageous offers from steamship companies for the occupancy of the piers which are to be built when the property shall have been acquired.

These proceedings are being actively pushed, and it is hoped that in a short time the more important of them at least will be terminated, and the City put in possession of property which it very much needs for the development of its commerce.

During the year 1895 several cases of importance relating to the water-front of the City of New York have been decided in favor of the City.

Among the most important of these cases was that of *Sage vs. The Mayor*, in which the plaintiffs, who were the owners of the upland extending to the Harlem river, between Ninety-fourth and Ninety-fifth streets, claimed the land between low and high water mark in the Harlem river.

After a full argument of the legal questions the matter was decided in favor of the City.

Another important case was that of *Timpson vs. The Mayor*, in which the plaintiffs claimed title to the wharfage rights and the strip of land forming practically the widening of West street, at the foot of Beach street, at from two to eight feet in breadth.

The title of the plaintiffs was based upon adverse possession and prescription, and, after a trial of five days, the court directed a verdict in favor of the City.

In *Lorton vs. The Mayor*, the suit involved the title to wharfage rights along West street, extending southerly from the southerly line of Spring street.

The grant from the City conveyed the wharfage rights along the exterior line, but the grantees subsequently reconveyed such rights to the City upon the condition that a public basin should be maintained at the foot of said street.

The City's plan of water front improvement having caused the building of a bulkhead westerly of the old bulkhead and two new piers, suit was brought by the heirs of Lorton to recover the value of the wharfage rights, on the theory that the City had destroyed the public basin theretofore maintained, and that, therefore, the wharfage rights had reverted back to the Lorton heirs.

This case was also decided in favor of the City.

The title to water front property in the following localities has been examined and approved by this Department: In the neighborhood of Leroy street, North river; Fifty-first and Fifty-second streets and Twelfth and Thirteenth avenues, North river; One Hundred and Fourteenth street and Harlem river; and on West street, between Perry and West Eleventh streets.

##### St. Nicholas Park.

This park was originally established by chapter 366 of the Laws of 1894.

It was bounded by One Hundred and Thirtieth street, St. Nicholas avenue, One Hundred and Forty-first street, Convent avenue, One Hundred and Thirty-eighth street, Amsterdam avenue and

One Hundred and Thirty-eighth street, and St. Nicholas terrace, having an area of 657 city lots of 2,500 square feet each.

By chapter 522 of the Laws of 1895, the previous act was amended so as to slightly reduce the original area.

Commissioners were appointed in July, 1894, in a proceeding instituted by the City to acquire title to the land. This Commission has held a large number of sessions during the year, and all the evidence as to title has been completed, a labor of great magnitude, as the property was owned by a large number of persons, and it was necessary that each owner should make good his title by common-law proof, covering a period of at least twenty years.

The property owners are now engaged in giving evidence, through expert witnesses, of the value of their lands, and about 1,200 pages of testimony have been taken.

A large portion of this park consists of the rocky side hill between One Hundred and Thirtieth and One Hundred and Forty-first streets, St. Nicholas avenue and St. Nicholas terrace.

#### *Fort Washington Park.*

This park was laid out and designated by chapter 581 of the Laws of 1894.

It includes the historical Fort Washington Point, and while much of the property is of very little pecuniary value by reason of its rugged character and rocky formation, yet it will make a park of great natural beauty.

It lies between the lines of One Hundred and Seventy-first and One Hundred and Eighty-fourth streets, extended, and between the avenue known as the Lafayette or French Boulevard on the east and the Hudson river on the west. It embraces about 706 city lots.

The Commissioners of Estimate were appointed in July, 1894, in a proceeding instituted by the City for the purpose of acquiring title. About 2,200 pages of testimony have been taken. The proof of title has been completed and the property-owners have rested in their proof as to value.

The City is now proceeding with its evidence as to value, and it is probable that it will be concluded early in the year 1896.

#### *The Colonial Park (so-called).*

This park lies between One Hundred and Forty-fifth and One Hundred and Fifty-fifth streets, Bradhurst and Edgecombe avenues, and contains about 224 city lots.

It consists of a side hill and narrow level space on the east, but in its main features it is similar to Morningside Park and St. Nicholas Park.

The land is owned by a large number of persons, appearing by different attorneys.

The proof of title has been concluded, and owners' proof of value also nearly concluded.

It is expected that the City will call its experts as to value within a few weeks. About 2,000 pages of testimony have been taken.

#### *Riverside Park Extension.*

This extension was laid out and designated by chapter 152 of the Laws of 1894.

It includes all the land and land under water between the southerly line of Seventy-second street extended to the southerly line of One Hundred and Twenty-ninth street, extended, the westerly line of the roadway of the Hudson River Railroad Company and the westerly line of Thirteenth avenue, as originally laid out in 1837. Nearly all of the land to be acquired is now under water.

In November, 1894, Commissioners of Appraisal were appointed in the proceeding instituted by the City for the purpose of acquiring title.

The proof of title is about completed and is very considerably complicated, owing to the large number of grants of land under water and conflicting claims of property-owners. About 800 pages of testimony have been taken.

The area in city lots of the real estate to be acquired cannot at present be accurately stated.

#### *Little Italy Park (so-called).*

This park was laid out and designated by chapter 746 of the Laws of 1894.

It embraces all the lands on the East river, between One Hundred and Fourteenth and One Hundred and Eleventh streets and east of First avenue.

It has no legal name, but is commonly spoken of as Little Italy Park, because of the dense Italian population within its area.

In November, 1894, Commissioners of Estimate and Assessment were appointed in a proceeding instituted by the City for the acquiring of title.

The property belongs to a large number of different owners, and is almost entirely covered with buildings which are mainly low class tenement-houses in a dilapidated condition.

Proof of title has been completed, and owners are now engaged in giving evidence of the value of their property.

About 1,500 pages of testimony have been taken.

#### *Washington Bridge Park (so-called).*

In the proceeding to acquire title to this park an order was made on May 7, 1895, confirming the report of the Commissioners of Appraisal and awarding the sum of \$548,755, so that the City is now vested with title to this land.

It embraces about 350 city lots. The City, either through this proceeding or others formerly completed, is now the owner of all the land beginning with that which was acquired in connection with Highbridge on the south, to a line 150 feet north of the Washington Bridge at One Hundred and Eighty-first street, and between Tenth or Amsterdam avenue and the Harlem river.

Part of this land has already been made into a park forming a beautiful entrance to the Washington Bridge, and some of it is covered with substantial buildings to be used in connection with the water supply.

#### *St. John's Park.*

The proceeding to acquire title to the land known as St. John's Cemetery for a public park has been concluded. This Park is situated at Hudson, Leroy and Clarkson streets, and its acquisition was strongly opposed. Awards were made amounting to \$520,000.

#### *Grand Boulevard or Concourse.*

A proceeding to acquire title to the land required for this improvement was begun under authority of chapter 130 of the Laws of 1895.

The Boulevard extends from One Hundred and Sixty-first street, near Mott avenue, to Mosholu Parkway, a distance of over 4 miles, with a width of 180 feet, following the ridge easterly of Jerome avenue.

The report of the Commissioners for the first section, from One Hundred and Sixty-first to One Hundred and Seventy-fourth streets (about one-third the entire length), is already nearly completed, and it is expected that it will be filed in the early part of the year 1896.

#### *The Approaches to the New Macomb's Dam Bridge.*

The proceedings to acquire title to the lands required for the Ogden and Sedgwick avenues approaches to this bridge were concluded, and awards of \$20,733.60 were made.

The proceeding to acquire title to the Jerome avenue approach was also completed, and awards amounting to \$192,222.66 were made.

#### *Public Place at the Boulevard and West End Avenue.*

Title was acquired for a public place to the triangular piece of land at the junction of the Boulevard and West End avenue, from One Hundred and Sixth street north.

The total cost of this proceeding was \$34,432.90, 50 per cent. of which was assessed upon the property deemed benefited, and 50 per cent. upon the City, in accordance with a resolution of the Board of Street Opening and Improvement.

#### *School Sites.*

During the year 1895 condemnation proceedings were concluded in the four following cases, the court having confirmed the reports of the Commissioners and the titles to the property involved having become vested in the City.

1. Ten lots of land on St. Ann's avenue, between One Hundred and Forty-seventh and One Hundred and Forty-eighth streets.
2. One lot of land on the northerly side of Second street, between Avenues C and D.
3. Two lots of land on the southerly side of Thirteenth street, between Seventh and Greenwich avenues.
4. About twenty lots of land on Mosholu Parkway, Briggs and Bainbridge avenues.

In the following cases the proceedings are nearly completed, and reports are either already made or will be made early in the year:

1. Tract of land on Henry, Catharine and Oliver streets.
2. Six lots of land on the northwest corner of Ninety-first street and First avenue.
3. Seven lots of land on the north side of East One Hundred and Seventy-third street, between Third avenue and Crotona Park.
4. Eight lots of land on the west side of St. Nicholas avenue, between One Hundred and Twenty-sixth and One Hundred and Twenty-seventh streets, being the whole block frontage.
5. Fourteen lots of land on One Hundred and Forty-ninth street, Union and Beach avenues.

A condemnation proceeding has been commenced and is now pending in each of the following cases:

1. Eleven lots of land on the south side of One Hundred and Forty-first street, between Brook and St. Ann's avenues.
2. Eight lots of land on Rivington, Eldridge and Forsyth streets.
3. The entire block bounded by East Broadway, Scammel, Henry and Gouverneur streets.
4. Eight lots of land on the northerly side of Nineteenth street and the southerly side of Twentieth street, between First and Second avenues.
5. About ten lots of land on Varick, North Moore and Beach streets.
6. Nine lots of land on Hester, Orchard and Ludlow streets.
7. Five lots of land on Madison and Henry streets, between Pike and Rutgers streets.
8. Three lots of land on the northwest corner of Sheriff and Broome streets.

9. Three lots of land on the south side of Forty-seventh street, between Second and Third avenues.
10. Three lots of land on the southeast corner of East Houston and Essex streets.
11. Three lots of land on the northwest corner of Grove and Bedford streets.
12. Three lots of land on the southerly side of West Tenth street and the westerly side of Greenwich street.
13. About four lots on the westerly side of Amsterdam avenue and the northerly side of Ninety-third street.
14. Two lots of land on the northerly side of Fourth street, between First and Second avenues.
15. An interior plot of land, 35 by 100 feet, in the block bounded by West Houston, Varick, King and Congress streets.
16. Two lots of land on the northerly side of Thirty-fifth street and the southerly side of Thirty-sixth street, between Eighth and Ninth avenues.
17. An interior plot of land, 25 by 125 feet, in the block bounded by Eighth and Ninth avenues, Fifty-second and Fifty-third streets.
18. Two lots of land on the northerly side of One Hundred and Ninth street, between Second and Third avenues.
19. One lot of land on the southerly side of Carmine street, between Bleecker and Bedford streets.
20. One lot of land on the easterly side of Greenwich avenue, between West Tenth and Eleventh streets.
21. One lot of land on the southerly side of Seventeenth street, between Eighth and Ninth avenues.
22. One lot of land on the southerly side of Fifth street, between Avenues C and D.
23. One lot on the northerly side of One Hundred and Fourteenth street, between Third and Lexington avenues.
24. Six lots on the westerly side of Ogden avenue, south of One Hundred and Sixty-ninth street.
25. One lot of land on the southwest corner of Monroe street and Mechanic's Alley.
26. A large plot on the northeasterly corner of Burnside and Andrews avenues.

#### *Court-house Site.*

A proceeding has been instituted for acquiring title to the land on the northeast corner of Madison avenue and Twenty-fifth street as a site upon which to erect a court-house for the Appellate Division of the Supreme Court of the First Department.

The Commission has been appointed, organized, and is now proceeding with its duties.

The land proposed to be taken is about fifty feet wide on Madison avenue, one hundred and fifty feet deep on Twenty-fifth street, and runs back about ninety-eight feet and nine inches therefrom.

#### *Sites for the Use of the Fire Department.*

During the year 1895 in each of the following cases the reports of the Commissioners have been confirmed and title is now vested in the City of New York:

1. Two lots of land on the northwest corner of Prospect avenue and One Hundred and Fifty-second street.
2. Two lots of land on the northwest corner of Railroad avenue and One Hundred and Fifty-ninth street.
3. Two lots of land on the southerly side of One Hundred and Thirty-eighth street, between St. Ann's avenue and Cypress avenue.
4. One lot of land on the northerly side of Forty-third street, between Fifth and Sixth avenues.

#### *Site for the Use of the Police Department.*

The property known as Nos. 49, 51 and 53 Ridge street has been acquired in a condemnation proceeding for the use of the Police Department.

#### *Bridge Approach.*

An important proceeding is pending for the purpose of acquiring title to lands on both sides of the Harlem river for approaches to the New Third Avenue Bridge.

The proceeding has proved to be a very complicated one and has progressed continuously during the year. Testimony covering over 2,500 pages has already been taken.

#### *Jerome Park Reservoir.*

The order appointing Commissioners in the proceeding to acquire title to the land required for the proposed Jerome Park Reservoir was entered early in the year.

This is a proceeding of great magnitude and importance, involving as it does the condemnation of 298 acres of land in the Twenty-fourth Ward, including the former Jerome Park Race Course.

Much trouble and delay in organizing the Commission was occasioned by the resignations of Ex-Mayor Gilroy and General Tracy, who, with Ex-Mayor Edson, were appointed Commissioners, and by the disability of Mr. Albert Boardman, who was appointed in place of General Tracy.

The Commission was finally organized, however, consisting of Ex-Mayor Edson, John DeWitt Warner and James C. Bergen, and had its first session on July 15, 1895. Since then, numerous meetings have been held, a large amount of testimony taken and much progress made.

It has been possible already to let the contract for the construction of the reservoir, owing to the fact that under the act authorizing the acquiring of the land (the Aqueduct Law) title thereto became vested in the City upon the filing of the oaths of the Commissioners.

The amount to be paid as compensation to the property-owners for the land taken will be determined in the order confirming the report of the Commissioners.

#### *The Elm Street Widening.*

The order appointing the Commissioners of Estimate and Assessment in this important proceeding was entered on the 27th of February, 1895. Hon. Charles H. Truax, Hon. William G. Choate, and Hon. Joel B. Erhardt were appointed Commissioners, and their first meeting was held on the 13th of May, 1895.

A large amount of evidence (about seven hundred printed pages) has already been taken, and an attempt is being made to push the matter as rapidly as possible.

It may be well to state that this improvement involves the widening and straightening of Elm street, from Worth to Spring street, so as to make it of the uniform width of eighty feet; also the cutting through of the blocks from Worth to Duane street, the taking of property on the westerly side of Centre street, between Duane and Reade street, the taking of the whole block bounded by Centre, Reade and Chambers streets, the widening of Marion street, from Spring street to its northerly terminus, and the cutting through of the blocks from Prince to Great Jones street, so that at the latter street the westerly line of the proposed Elm street will be a continuance of the westerly line of Lafayette place.

#### *The Harlem Speedway.*

The proceedings to acquire title to the land for this speedway have been in progress during the whole year.

Both the property-owners and the City have introduced their evidence as to values. The testimony in rebuttal is now being heard on behalf of the property-owners, and is nearly completed.

The Commissioners have held three meetings each week for the greater part of the entire year, and over 3,000 pages of testimony have been taken.

Evidence on behalf of the property-owners has been given to the effect that the property taken is of the value of \$3,000,000, while the evidence given by the City's experts places the value at less than \$200,000.

An addition to the speedway was provided for by chapter 894 of the Laws of 1895, which allowed the acquisition of a tract of land on the westerly side of the speedway, extending from One Hundred and Fifty-fifth street northerly to High Bridge Park and from the speedway westerly to the line of the Aqueduct.

A proceeding to acquire title to this parcel of land has been begun, and the Commissioners of Estimate have been appointed.

#### *Tax Matters.*

The tax litigation for the year has been less in amount than in 1894, but prolific in the final determination of important principles relating to taxation.

The law affecting assessments against foreign corporations doing business in this State, held as settled by the decision of the Court of Appeals on the appeal in the Thurber-Whyland Company case, has been since reviewed and explained by that Court, and the meaning of the word "invested," in the Act of 1855, determined in the proceeding brought by the Hecker-Jones-Jewell Milling Company to review the assessment against it for the year 1894.

The contest with the State over the proportion of the State tax to be paid by the County of New York for the support of the pauper insane, under the Act of 1890, known as the "State Care Act," has been closed by the decision of the Court of Appeals, affirming the judgment entered at a Circuit Court of the Supreme Court, in the Third Department, on a direction for a verdict against the City. Judge Gray, however, dissented distinctly upon the legal grounds always insisted upon by the City as sufficient to defeat this inquiry.

The litigation with the Manhattan Elevated Railroad, touching the assessments against that corporation for the years 1893 and 1894, is still undecided. While, as to the tax against that company for the year 1893 it is probable that the original assessment may be somewhat reduced in amount, there is every reason to believe that that corporation, as to that year, will be compelled to pay a very substantial tax.

The litigation over the taxes for the year 1894 has proceeded as yet no further than the argument on the pleadings at Special Term, but it is anticipated that the action of the Tax Commissioners will eventually be sustained at the original figures.

The recent decision of the Supreme Court, in the proceeding brought by the T. Martin Brothers Manufacturing Company, is important, as modifying what has heretofore been a most

embarrassing construction of the law relating to the assessments against foreign corporations, as laid down in the case of the "Parker Mills" against the Tax Commissioners.

This decision will undoubtedly bring within the jurisdiction of the assessing officers corporations that have heretofore escaped taxation.

The assessment against the executors and trustees of the estate of the late Jay Gould for the year 1893, has been affirmed, on appeal to the General Term.

The assessment against the executors and trustees, and the heirs of the late Jay Gould individually, for the year 1894, has been set aside, upon a finding by the court that none of the executors and trustees were residents of this City.

The same result is to be anticipated with reference to the assessment for the year 1895, but, notwithstanding the adverse result, the questions of fact and law were litigated with energy.

I desire to express my cordial appreciation of the faithful services of the members of the Department Staff, without whose intelligent assistance the results obtained would have been impossible.

Very respectfully,

FRANCIS M. SCOTT, Counsel to the Corporation.

## Office of Attorney for Collection of Arrears of Personal Taxes.

OFFICE OF ATTORNEY FOR COLLECTION OF ARREARS OF PERSONAL TAXES, NEW YORK, December 31, 1895. Hon. FRANCIS M. SCOTT, Counsel to the Corporation:

DEAR SIR—I beg to submit herewith my report for the year 1895:

Amount collected for taxes and interest. \$104,976 53  
Amount of costs collected. 1,311 69  
Interest earned on bank deposits. 68 45

Total. \$106,356 67

The collections this year exceed those of last year by \$3,013.39.

The Receiver of Taxes remitted to this office during the year the names of 5,030 delinquents, which, with 396 undisposed of last year, makes the office chargeable with a total of 5,426.

The Schedules of this report, and the recapitulation at the end show 5,522 delinquents accounted for. This apparent surplus of 96 is due to the fact that in some instances a delinquent will appear named in several schedules, because of the several proceedings had against him.

Very respectfully yours, R. G. MONROE, Attorney.

SCHEDULE "A."  
Collections.

## Office of the Special Counsel in Charge of Proceedings Relating to the Water Supply.

PROCEEDINGS INSTITUTED AND IN WHICH COMMISSIONERS HAVE BEEN APPOINTED.

## Jerome Park Reservoir.

This proceeding was instituted by the Aqueduct Commissioners, under chapter 490 of the Laws of 1883, for the purpose of acquiring 298 acres of land in the Twenty-fourth Ward of the City of New York for a storage and distributing reservoir. Much trouble and delay was experienced in organizing the Commission, by reason of the resignation of ex-Mayor Gilroy and General Benjamin F. Tracy and the inability of Mr. Albert Boardman to serve as a Commissioner by reason of non-residence.

The Commission was finally organized, and consists of Mr. James C. Bergen, Mr. Franklin Edson and Mr. John De Witt Warner.

This is a proceeding of great magnitude, covering a large tract (144 parcels) of valuable property.

127 claims have been filed amounting to \$4,783,511, as to which the claimants have been and still are engaged in presenting evidence relative to value.

## Muscoot River, or Reservoir "A."

This proceeding was instituted under chapter 189 of the Laws of 1893, to acquire certain lands in the Town of Somers, Westchester County, and on both sides of the Muscoot river.

The Commissioners appointed were John Fennel, James B. Lockwood and William Wood. The map covers 41 parcels; 13 claims, aggregating \$128,125, have been filed and are now in process of trial.

## Byram River Proceeding.

This proceeding was instituted to acquire lands in the Towns of North Castle and Bedford, Westchester County, under chapter 189 of the Laws of 1893.

The Commissioners appointed were Eugene B. Travis, Francis Larkin, Jr., and John J. Quinlan.

The object of this proceeding is to acquire Byram pond and lands bordering on the same and its outlet, and also Bear Gutter creek as far as the Kensico Reservoir. It covers 29 parcels; 11 claims have been filed for the sum of \$321,000. Testimony is now being introduced in support of claims to these amounts.

## Mount Kisco (Amended)—Parcels 1 to 114.

This proceeding was instituted under chapter 189, Laws of 1893, and the following Commissioners were appointed: David W. Travis, William H. Wright and John Connelly.

Subsequent to the condemnation by the City of the property included in the original Mount Kisco petition, the locality was given a more critical examination by sanitary engineers and medical experts, and it was decided that it would be necessary to acquire additional property.

The map was amended so as to acquire 7 additional parcels and the fee of 26 parcels upon which, under the original proceeding, the City had placed restrictions.

No claims have as yet been filed for this additional property.

## Cornell Dam—Fifth Supplemental Proceeding.

This proceeding was instituted under chapter 490 of the Laws of 1883.

The Commissioners appointed were David W. Travis, William H. Wright and John Connelly. This is a small section of the Cornell Dam proceeding, embracing 2 parcels of land for highway purposes. In the construction of the reservoir the highway systems of the Towns of Cortlandt and Yorktown were seriously interfered with. It was impossible to purchase at private sale the necessary lands, and in order to avoid litigation with the towns and prevent injunctions it was decided to commence a proceeding to acquire this property.

## Reservoir "D"—Putnam County.

This proceeding was instituted under chapter 490 of the Laws of 1883, to acquire a large tract of land in the Towns of Carmel and Kent, Putnam County, for a storage reservoir.

The Commissioners appointed were Paul Halpin, William R. Thorn and Adrian H. Dean.

Two sections of the proceeding (Reservoir "D") have been completed; this (the third section) is now before the Commissioners for trial; 46 claims have been filed, amounting to the sum of \$405,558.

In the institution of this proceeding the Law Department procured the consents of the owners of upwards of forty different parcels, affecting nearly one thousand acres, to submit the claims in question without the expense of advertising, service of papers and the other usual disbursements.

PROCEEDINGS INSTITUTED AND IN WHICH MAPS HAVE BEEN FILED, BUT COMMISSIONERS HAVE NOT YET BEEN APPOINTED.

Sixth Supplemental Proceeding, New Croton Dam, Cornell Site (Chapter 490, Laws of 1883).

This proceeding has been instituted by the filing of a map, and affects 113 parcels of land in Katonah and Golden's Bridge, Westchester County. The City will be vested with the title of the premises about the 15th of March, 1896.

## Reservoir "I," Town of Southeast, Putnam County.

This reservoir covers about 1,200 acres of land, and in addition a strip of 250 to 350 feet in width will be acquired around the entire reservoir to prevent the pollution of the waters.

The map, covering 85 parcels, has been filed, and the petition, advertisement and other papers are being prepared.

## Boyd's Corners Reservoir.

This was the first storage reservoir built by the City of New York, and the present proceeding contemplates the acquisition of a strip of land around the reservoir at White Pond, to prevent the stored water from pollution.

The map, covering 61 parcels, has been filed, and the petition, advertisement and other papers are being prepared.

## West Branch, Croton River.

A strip of land is being acquired for several miles on both sides of this river to prevent the pollution of the water.

The map, covering 35 parcels, has been filed, and the petition, advertisement and other papers are being prepared.

## Middle Branch, Croton River.

A strip of land on both sides of this river for a distance of several miles is being acquired to prevent contamination of the water.

This proceeding affects 20 parcels.

PROCEEDINGS IN WHICH REPORTS HAVE BEEN MADE BY THE COMMISSIONERS.

## First Supplemental Proceeding—Cornell Dam.

This proceeding was instituted by the Aqueduct Commissioners under chapter 490 of the Laws of 1883, to acquire certain lands in the construction of a new Croton dam, Cornell site.

Two reports have been made covering 12 parcels shown on the map, and 3 claims which had been submitted by mutual consent to avoid the expense of separate surveys and other disbursements have been determined.

The amount claimed against the City was \$123,203.31, while the amount allowed was \$25,084.10—a reduction in favor of the City of \$98,119.21.

**Second Supplemental Proceeding—Cornell Dam.**

This proceeding, instituted under chapter 490 of the Laws of 1883, covers 15 parcels in the Village of Katonah, Westchester County, and in addition to these parcels four cases were submitted to the Commission to avoid the expense of separate surveys and other disbursements.

The amount claimed against the City was \$281,095.27, while the amount allowed was \$128,693—a reduction in favor of the City of \$152,402.27.

A reduction was also effected from the costs allowed claimants, amounting to \$4,037.17, to the sum of \$2,125.06, making a further saving to the City of the sum of \$1,912.11, or a total saving of \$154,314.38.

**Matter of Reservoir "D," Putnam County—Second Proceeding.**

This proceeding, also instituted under chapter 490, Laws of 1883, by the Department of Public Works was for the purpose of acquiring real estate in the construction of the dam of Reservoir "D," which is being constructed by the Aqueduct Commission.

The report of the Commissioners has been made on 12 parcels covering between 284 and 285 acres. The amount claimed against the City was \$114,679.76, and the amount awarded \$59,594, making a net reduction of \$55,085.76 in favor of the City.

(This report was erroneously included in the summary of work done in 1894.)

**Reservoir "M," Second Summary—Parcels 17 to 38.**

This proceeding was instituted under chapter 490, Laws of 1883, by the Aqueduct Commission to acquire the balance of the land necessary for the construction of the storage reservoir in the Town of North Salem, Westchester County.

The proceeding covers 23 parcels and an area of 561½ acres.

The amount claimed was \$464,487, the amount awarded \$266,100, making a reduction in favor of the City of \$198,387.

The costs claimed were \$4,592, and the amount allowed \$1,635.75, making a total reduction in favor of the City of \$201,343.25.

This proceeding is closed with the exception of one claim for the sum of \$20,000.

**Kensico Reservoir, Westchester County (Chapter 189, Laws of 1893).**

In addition to the number of claims disposed of by the first separate report of the Commissioners, 85 claims have been heard and the second report made (including Parcels 1 and 24, which were embraced in the first report, but were sent back by the Court for further hearing).

The amount claimed against the City under sworn testimony was \$541,408.91; the amount awarded was \$89,597.25; the cost and counsel fees were \$4,006.77, making a total saving to the City of \$447,804.89.

**Mount Kisco, Westchester County (Chapter 189, Laws of 1893).**

This proceeding was instituted for the purpose of acquiring 107 parcels of land in the Village of Mount Kisco, which have been condemned by the Board of Health and the Department of Public Works as a source of contamination to the water supply.

The evidence in 26 cases has been closed.

The amount claimed and supported by sworn testimony was \$271,724.79 and the amount awarded \$114,969.20, making a reduction in favor of the City of \$156,755.59.

In addition to these cases, claims amounting to the sum of \$417,208.60 have been filed and are now being tried.

**Brewster, Putnam County (Chapter 189, Laws of 1893).**

This proceeding was instituted to acquire lands in the Village of Brewster, Putnam County, and certain other interests in other parcels which had been condemned by the Board of Health and Department of Public Works.

The proceeding covers 113 parcels.

A report was made upon 50 of these parcels in the latter part of 1894, but its confirmation was opposed for the reason that the Commissioners omitted to make separate awards for the various "mining interests" acquired.

A second report was subsequently made embracing 48 of the parcels included in the first report and the mining interests affected.

The amount claimed was \$318,299 and the amount awarded was \$147,972.88, making a reduction in favor of the City of \$170,326.12.

Claims amounting to \$624,000 remain to be disposed of.

PROCEEDINGS NOT HERETOFORE MENTIONED WHICH ARE PENDING, BUT IN WHICH REPORTS HAVE NOT YET BEEN MADE.

**Third Supplemental Proceeding—New Croton Dam, Cornell Site (Chapter 490, Laws of 1883).**

This proceeding was instituted by the Aqueduct Commission in connection with the New Croton Dam to acquire 32 parcels of land in the Village of Katonah, north of Main street and west of the railroad track. These parcels consist mostly of business places and dwellings. Testimony on behalf of the claimants has been closed and the Commissioners are now engaged in making up their reports.

The amount claimed by the property-owners to have been proven against the City was \$387,877.

**Fourth Supplemental Proceeding—New Croton Dam, Cornell Site (Chapter 490, Laws of 1883).**

This proceeding covers 18 parcels of land in the Village of Croton Falls, Westchester County. 18 claims have been filed against the City, amounting to \$286,543.

The testimony on behalf of the claimants is closed with the exception of one or two minor claims.

**Patterson and Towners, Putnam County (Chapter 189, Laws of 1893).**

This proceeding was instituted for the purpose of acquiring certain interests in 90 parcels of land, largely composed of village lots in the above locality, which had been condemned by the Board of Health and the Department of Public Works.

72 claims have been presented to the Commission, amounting to \$356,208.

The evidence in 30 claims has been closed and the Commissioners are engaged in the preparation of their report.

**First Supplemental, Brewster, Putnam County (Chapter 189, Laws of 1893).**

This affects land on both sides of the Croton river, from Sodom Dam to the line dividing Putnam and Westchester Counties.

37 claims, aggregating \$209,500, have been filed against the City and are now in process of trial.

Evidence has been closed in 29 of these and a report will be made in the near future.

**Lake Gleneida, Putnam County (Chapter 189, Laws of 1893).**

This proceeding includes 64 parcels, being the residence and business part of the Village of Carmel lying between Lake Gleneida and the public highway, and also includes the bed of the lake and the water rights in the lake.

In 20 or more of the claims awards were made in 1894; 41 claims are now in process of trial. The amount involved is \$527,058.

Evidence on behalf of the claimants is practically concluded and the testimony on behalf of the City will be introduced immediately upon the completion of the claimant's cases.

**GENERAL REMARKS.**

In the matter of the acquisition of lands for Cornell Dam a small area only has been acquired. There are yet remaining upwards of 250 parcels which will be covered with water and must be acquired in fee.

Anticipating this action, the Law Department as early as 1888 took, in advance of any formal action by the Aqueduct Commission, such steps as were thought necessary to secure proper evidence of location of the property and of other matters considered important.

Titles to these parcels are being examined, assessed value ascertained, and general preliminary steps necessary for the protection of the City are being taken.

Among the lakes or ponds from which water is being drawn by the City, under chapter 445 of the Laws of 1877, are Lakes Mahopac and Kirk, the rights having been acquired in 1878. It has recently been determined by the Commissioner of Public Works, after consultation with sanitary engineers and medical experts, to acquire portions of the lands bordering on these lakes and the inlets in order to protect the waters from pollution. Upwards of one hundred parcels of land will be acquired. The ponds are being examined, surveys made, and the general preliminary services required by the statute are being performed. The map has not, as yet, been filed.

The acquisition by the City of New York of certain lands at Kensico, Westchester County, for a storage reservoir (under chapter 445 of the Laws of 1877), and the diversion of the waters of Rye pond and the Bronx river to the City of New York (under the same act) has rendered it necessary to institute proceedings to acquire the right to divert these waters.

These proceedings are completed from Kensico to New York, with the exception of those parcels bordering on the west side of the Bronx river and within the limits of the City of New York.

**SUMMARY.**

A summary of the work shows that, eliminating from the considerations parcels for which no commissions have been appointed, there are in process of trial about 530 cases, involving in the aggregate claims against the City of between eight and nine millions of dollars. During the year 1895 (exclusive of that portion of Katonah, north of Main street) claims to the extent of \$1,688,548.39 were presented, and evidence given to the effect that they were of that value, before the various Commissions. The sum of \$630,600.53 has been allowed for the same, making a net reduction in favor of the City in the cases closed of \$1,057,947.86. In addition to this there are 699 parcels of real estate scattered through Putnam and Westchester counties that are now in process of acquisition and examination.

In addition to the proceedings herein set forth questions of assessed value and taxation on upwards of 8,000 acres of land are constantly being presented, and all assessments and tax bills are critically examined.

During the present year (1895) assessments against the City of upwards of \$350,000 have been canceled, and duplicate assessments for various parcels at Croton Falls removed from the books.

December 31, 1895 Respectfully submitted, H. T. DYKMAN, Counsel in Charge.
