VOL. XXX.

NEW YORK, FRIDAY, OCTOBER 3, 1902.

NUMBER 8,942.

### PROCEEDINGS OF THE BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS.

AT A MEETING OF THE BOARD, HELD IN NO. 320 BROADWAY, ON THURSDAY, 10TH JULY, 1902.

There were present—Alexander E. Orr, President, presiding; John H. Starin, Vice-President; Mayor Seth Low, Comptroller Edward M. Grout, and Commissioners Woodbury Langdon and Charles Stewart Smith.

Edward M. Shepard and Albert B. Boardman, Counsel; William Barclay Parsons, Chief Engineer, and George S. Rice, Deputy Chief Engineer, also were present.

The minutes of the preceding meeting, that of 1st July, 1902, were read, and it was moved that they be approved.

Ayes—The President, Vice-President, Mayor and Commissioners Langdon and Smith.

Nays—None.  
Carried.

The Comptroller arrived just after the above vote was taken.

Counsel Mr. Shepard reported that the officers of the New York and Jersey Railroad Company had expressed a desire to have the franchise modified in order that there might be no question as to their rights under Greenwich street and between the proposed terminal and Barrow street, and that an amended certificate providing for this change had been drawn, which met the approval of all the members of the Committee on Contracts.

The following resolution was moved:

Resolved, That the resolution adopted by this Board on the first day of July last, granting the application of the New York and Jersey Railroad Company be and the same hereby is rescinded.

Ayes—The President, Vice-President, Mayor, Comptroller and Commissioners Langdon and Smith.

Nays—None.  
Carried.

The following resolution was moved:

Resolved, That the President and Secretary of the Board be, and they hereby are, authorized and directed forthwith and under the seal and in the name of the Board to execute in four identical originals a form of certificate on the application of the New York and Jersey Railroad Company, and to deliver the same to the President, Vice-President, Secretary or Treasurer of the New York and Jersey Railroad Company in the form following, to wit:

BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS FOR THE CITY OF NEW YORK

TO

NEW YORK AND JERSEY RAILROAD COMPANY.

CERTIFICATE, JULY 10TH, 1902.

The Board of Rapid Transit Railroad Commissioners for The City of New York does hereby certify as follows:

Whereas, The New York and Jersey Railroad Company (which is hereinafter called the Tunnel Company) is a railroad corporation which has been duly incorporated under the laws of the State of New York for the purpose, so declared in its articles of association, of owning and operating the tunnel and railroad in part within the limits of The City of New York, formerly of the Hudson Tunnel Railway Company, and of constructing and operating a tunnel railroad in The City of New York (which city is hereinafter called the City) to be connected with a railroad or railroads within the State of New Jersey and thereby forming a continuous line for the carriage of passengers and property between a point or points within, and a point or points without, the City, and more particularly a tunnel railroad having its eastern terminus in the block bounded by Christopher, West Tenth, Greenwich and Hudson streets, in the Borough of Manhattan, in The City of New York, and thence extending westwardly and to be connected with a railroad or railroads in the State of New Jersey, and thus form a continuous line for the carriage of passengers and property between such terminus of the railroad of the Tunnel Company within the City and a point or points upon the lines of such railroads in the State of New Jersey, and other States; and

Whereas, The Tunnel Company, pursuant to section 32 of chapter 4 of the Laws of 1891, as amended by chapter 584 of the Laws of 1902 (which entire statute as amended by various acts and as now in force is hereinafter called the Rapid Transit Act), has made application to the Board of Rapid Transit Railroad Commissioners for The City of New York (which is hereinafter called the Board) for authority to lay railroad tracks along a certain route from its terminal in the City westwardly to the Hudson river, and to have and maintain in the City a terminal station and such terminal and other facilities as may be necessary for the accommodation of the traveling public, and to construct and operate its railroad along the said route and under lands, streets, avenues, waters, rivers, highways and public places in the City, with necessary sidings, platforms, stations, facilities for access to the surface and other appurtenances, and with the right to emerge to the surface upon private lands at the terminus thereof in Manhattan Borough, all as hereinafter particularly set forth, and to transport over the said railroad passengers or freight, or both; and

Whereas, The Board, by a concurrent vote of at least six of its members, has fixed and determined the locations and plans of construction of such railroad of the Tunnel Company upon such route, and of such tracks and facilities, the times within which they shall be respectively constructed and the compensation to be paid therefor to the City by the Tunnel Company; and

Whereas, The Board, by such concurrent vote, has prescribed such terms, conditions and requirements as to the Board appear to be just and proper for the grant hereby made to the Tunnel Company, including the terms, conditions and requirements provided by the Rapid Transit Act, and has included among them a provision that the Tunnel Company shall, from the time of the commencement of the operation of such railroad under such determination, annually pay to the City a sum or rental for a period of twenty-five years, beginning with such operation, and also providing for a readjustment of the amount of such sum or rental at the expiration of such period and at intervals thereafter of twenty-five years—

Now, therefore, the Board has authorized and does hereby authorize, but subject, however, to the terms, conditions and requirements hereinafter set forth, the Tunnel Company—

1. To lay down, construct and operate a railway, including two tracks, on a route beginning at the boundary line between the States of New York and New Jersey under the Hudson river substantially opposite the foot of Morton street, in the Borough of Manhattan, and thence running easterly under the said river and dock or bulkhead property on the easterly bank thereof, whether belonging to the City or to other owners, to West street at a point opposite or nearly opposite or at the foot of Morton street; and thence still easterly crossing under West street, and thence still easterly under Morton street crossing under Washington street to Greenwich street, and thence northerly under Greenwich street crossing under Barrow street and Christopher street and partly under West Tenth street to a terminal in the westerly half of the block bounded by Christopher, West Tenth, Greenwich and Hudson streets, the eastern terminus of said railway.

2. To acquire and maintain a terminal and station in the block bounded by

Christopher, West Tenth, Greenwich and Hudson streets, in Manhattan Borough, the same being private property, or so much as the Tunnel Company may find necessary and be able to acquire, and also to occupy for said terminal and station all or any parts of the underground portions of Greenwich, Christopher and West Tenth streets, in Manhattan Borough, contiguous to its said terminal station in said block, and also that portion of Greenwich street lying between the north line of Barrow street and said terminal, and to lay and operate therein such tracks, sidings and connections as may be found convenient for the operation of the Railroad.

3. To run upon the said railways (all of which railways upon the route aforesaid, together with the said terminal station and facilities, and all their appurtenances, are together hereinafter called the Railroad) motors, cars and carriages for the transportation of persons and property, and to use thereon and in connection therewith all suitable appliances.

4. To maintain and operate under the streets of the routes aforesaid and along the lines of the said railways composing the railroad, telegraph wires and wires, cables, conduits and ways for the distribution of power, heat and light and other appurtenances for use of the railroad.

5. To acquire and use for stations or station extensions, power plants, pumping stations, shafts for access to the surface and other necessary purposes of the railroad, private property as the same may be lawfully acquired within the scope of the corporate rights and powers of the Tunnel Company.

The rights hereinbefore granted to maintain and operate the railroad or necessary or convenient for that purpose shall be held by the Tunnel Company in perpetuity, except as may be herein otherwise expressly provided.

Provided, however, and it is expressly agreed that this authorization and the rights and privileges hereby granted are subject to certain terms, conditions and requirements which appear to the Board to be just and proper, and as so subject are hereinafter called the franchise hereby granted. The said terms, conditions and requirements are hereby prescribed as follows, to wit:

#### I.

This certificate will be executed by the Board in four identical originals, so proved as to be entitled to be recorded in the office of the Register of the County of New York and to be filed in the office of the Secretary of State of the State of New York, all of which will be delivered by the Board to the President, Vice-President, Secretary or Treasurer of the Tunnel Company. The franchise hereby granted shall be inoperative and this certificate shall be void unless within thirty days after such delivery or such further period as shall be prescribed in writing by the Board, the Tunnel Company shall have procured three of the said identical originals to be returned to the Board, each of them having an acceptance of the franchise and all the terms, conditions and requirements thereof subscribed at the foot thereof by the Tunnel Company, such acceptance being so proved as to entitle it to be recorded and filed as aforesaid.

#### II.

The franchise hereby granted shall, if the Board shall so determine, become void unless within three calendar months after the time of the delivery to the Board of the acceptance of this certificate by the Tunnel Company, that Company shall, in due and lawful form, obtain or receive all the consents and approvals following, to wit:

1. The consent of the Board of Aldermen of the City, being the local authority having the control of the portions of the streets and highways upon or under which it is proposed to construct the Railroad, together with the approval of the Mayor of the City.

2. The consents of the Department of Docks and Ferries and the Commissioners of the Sinking Fund of the City, if and so far, if at all, as such consents or either of them may be necessary to the construction, maintenance and operation of the Railroad, or any part thereof, under docks or other property belonging to the City of New York.

If it shall appear that any consent herein required is not necessary, the Board shall have power to waive the same; and in such case the franchise hereby granted shall be deemed as effectually granted as if the consent were given. So also if the Tunnel Company shall surrender or waive any right for which a consent cannot or shall not be obtained, then and in such case the Board shall have power to waive the procurement by the Tunnel Company of such consent; and in such case the franchise hereby granted shall, except as to such right, be deemed as effectually granted as if all the consents aforesaid should have been obtained.

The franchise hereby granted shall, if the Board shall so determine, become void unless within one year after the time of the acceptance of its certificate by the Tunnel Company, that Company shall further and in due and lawful form obtain the consent of the owners of one-half in value of the property bounded on each portion of the streets under or through which the Railroad or any part of the route thereof runs, to the construction and operation of the Railroad, or such part thereof, or in case the consent of such property owners cannot be obtained then the determination of commissioners to be appointed pursuant to law by the Appellate Division of the Supreme Court in the First Department that such portion of the Railroad ought to be constructed and operated, the said determination of such commissioners, when confirmed by the Appellate Division which shall have appointed such commissioners, to be taken in lieu of such consent of property owners, provided, however, and it is expressly stipulated, that the Board shall have power, upon reasonable cause shown, to extend by written certificate either of the periods hereinbefore in this article prescribed.

If the Tunnel Company shall be diligent in prosecuting applications for the consents aforesaid, and shall not have secured the same other than such, if any, as shall have been so waived, within the period of one year after its acceptance as aforesaid of this franchise, then and in such case the Tunnel Company shall, after a written notice of three months to the Board, be released from its obligations hereunder, unless within such three months such consents shall have been given.

#### III.

The Tunnel Company shall begin the construction of the Railroad within three months after it shall have obtained the consents aforesaid or such of them as shall be necessary as aforesaid and shall not have been waived as aforesaid, and shall complete the construction of the Railroad within three years after such construction shall be begun.

In case the Tunnel Company, within the period of three months after it shall have obtained the consents necessary as aforesaid, shall not have begun the actual construction of the Railroad, or if, after having begun such construction, it shall suspend the same prior to the completion thereof for a period exceeding three months, or if it shall not complete such construction and begin the operation of the Railroad within the said period of three years, then and in either of such cases the Board, upon a written notice to be delivered to the Tunnel Company not less than three months before the action of the Board, may annul the franchise hereby granted as to any part of the Railroad not then completed and in operation; Provided, however, that the Board shall have the power, upon reasonable cause shown, to extend by written order any of the periods in this article prescribed; and Provided, further, that additional time shall be allowed by way of extension of any period for such commencement of construction or for the completion thereof, or for the commencement of operation of the Railroad equal to the total period of delay caused by injunction or by necessary proceedings for condemnation of real estate, easements or other property, so far as such proceedings shall necessarily prevent the Tunnel Company from prosecuting such construction, but no delay to be so allowed for unless, during the same, such proceedings shall be diligently prosecuted by or for the Tunnel Company; and Provided, further, that in no case shall

such delay be deemed to begin until the Tunnel Company shall have given written notice to the Board of the injunction or other occasion of delay and delivered to the Board copies of the injunction or other orders and of the papers upon which the same shall have been granted, and unless, upon the request of the Board, the Tunnel Company shall in writing consent that the Board, either in its own name as a party or in the name of The City of New York as a party, may intervene in any such injunction proceedings, or other suit or proceeding; and Provided, further, that in case of annulment of any part of the franchise the Tunnel Company shall have no right to any return of payments which it shall have made to the City by way of rental or otherwise.

## IV.

The Tunnel Company shall pay to the City for the rights, franchises and licenses hereinbefore granted to construct and maintain its said railways under the bed of the Hudson river, outside of the pier head lines, or so much of the railway as shall be thereunder, the sum of one hundred dollars (\$100) for each year beginning on the date on which the Tunnel Company shall first commence the actual operation of the Railroad (but such date not to be later than the last day on which the Tunnel Company shall be bound to begin such operation) and ending on the day twenty-five years next thereafter; Provided, however, that the payment of said amount shall not be deemed a waiver on the part of the Tunnel Company of any rights which it has in and to the bed of said River by deed from the State of New York, or otherwise.

The Tunnel Company shall pay to the City for the rights, franchises and licenses hereinbefore granted to construct, maintain and operate its said railways under the docks and bulkheads belonging to the City (and including all space occupied between any pier head line and the part of West street or Morton street nearest thereto under which said Railroad shall be laid) for each year beginning on the date on which the Tunnel Company shall first commence the actual operation of the Railroad (but such date not to be later than the last day on which the Tunnel Company shall be bound to begin such operation) and ending on the day ten years next thereafter, a sum equal to fifty cents (50c.) per annum for each linear foot of single railway track which shall be then constructed or which the Tunnel Company shall be bound to have then constructed under such docks and bulkheads, and the sum of one dollar (\$1) per annum per linear foot of such tracks for the period beginning on the last day of the said period of ten years and ending on the day fifteen years next thereafter.

The Tunnel Company shall pay to the City for the rights, franchises and licenses in and under streets hereinbefore granted from West street to the north line of Barrow street the sum of fifty cents (50c.) per annum for each linear foot of single railway track which shall be then constructed or which the Tunnel Company shall be bound to have then constructed under any such streets, or parts of streets, within The City of New York during the period beginning on the day when the Tunnel Company shall first commence actual operation of the Railroad (but not later than the last day on which the Tunnel Company shall be bound to begin such operation) and ending on the day ten years next thereafter, and the sum of one dollar (\$1) per annum for each linear foot of such tracks during the period beginning on the last day of such period of ten years and ending on the day fifteen years next thereafter.

The Tunnel Company shall pay to the City for such underground portions of Greenwich, Christopher and West Tenth streets, in Manhattan Borough, contiguous to its terminal station and for that portion of Greenwich street between the north line of Barrow street and said terminal, the sum of three thousand two hundred and twenty-four dollars (\$3,224) per annum, such rental to begin on the day of the commencement of construction therein by the Tunnel Company (but such date not to be later than the last day on which the Tunnel Company shall be bound to begin such construction) and to continue during the period of ten years next thereafter, and the sum of six thousand four hundred and forty-eight dollars (\$6,448) per annum for the period of fifteen years next after such first period of ten years.

The Tunnel Company shall pay to the City for the rights under streets of the City hereinbefore granted the further sum of nine thousand dollars (\$9,000) per annum (the same being 3 per cent. per annum on the gross earnings of the New York portion of said Railroad, said gross earnings being estimated and fixed for the purposes of this grant at three hundred thousand dollars (\$300,000) per annum for the period of twenty-five years from the date on which the Tunnel Company shall first commence the actual operation of the Railroad (but such date not to be later than the last day on which the Tunnel Company shall be bound to begin the actual operation of the Railroad) for each year beginning on the date on which the Tunnel Company shall first commence the actual operation of the Railroad (but such date not to be later than the last day on which the Tunnel Company shall be bound to begin such operation) and ending on the day ten years next thereafter, and the sum of fifteen thousand dollars (\$15,000) per annum (the same being 5 per cent. per annum on such gross earnings as so fixed) for the period beginning on the last day of the said period of ten years and ending on the day fifteen years next thereafter.

All such payments shall be made to the Comptroller of the City in equal payments at the end of each quarter year on the first days of January, April, July and October in each year.

The annual amounts to be paid by the Tunnel Company as aforesaid shall be readjusted at the end of the first period of twenty-five years, and shall thereafter be readjusted at intervals of twenty-five years. The annual amounts to be paid by the Tunnel Company for each and every period of twenty-five years after such first period shall be determined as follows, to wit: Each such determination shall be had upon the application of either the Tunnel Company or the Board or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two years and not later than one year before the expiration of the preceding period of twenty-five years. The determination shall be sufficient if agreed to in writing by the Tunnel Company and the Board or such other authority in its place. If the Tunnel Company and the Board or such other authority in its place for the City shall not reach such agreement on or before the day one year before the expiration of such preceding twenty-five years period, then the annual rate of compensation for such succeeding twenty-five years period shall be reasonable; and either the City (by the Board or such other authority in its place) or the Tunnel Company shall be bound, upon request of the other, to enter into a written agreement with such other fixing the rate of such compensation at such amount as shall be reasonable; and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate at such amount as shall be determined by the Supreme Court of the State of New York; and either party may in such case apply to the said Court to fix such rate. If, in any case, the annual rate shall not be fixed prior to the commencement of such succeeding twenty-five years period, then the Tunnel Company shall pay the annual rate theretofore prevailing until the new rate shall be determined and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate.

## V.

The railways forming part of the Railroad, where the same shall occupy parts of streets, shall be in tunnel or tunnels under the streets, and the Tunnel Company may construct the railways under the Hudson river and under West, Morton, Greenwich and West Tenth streets hereinbefore mentioned in tunnels containing one or more tracks, as it may find most advantageous.

No part of the structure of the Railroad, except its terminal station, shall approach within five feet of the exterior line of any street except streets which it shall cross, unless the abutting property shall be owned by the Tunnel Company, or unless the owner or owners of the property so abutting shall consent. The tunnel or tunnels, except as hereinbefore limited, may be placed in such places under the streets as may be found most convenient. The uppermost part of any tunnel shall not approach nearer than nineteen feet to the surface of any street, except that in Greenwich street, north of the north line of Barrow street, and in Christopher and West Tenth streets, opposite the said terminal station, the top of the tunnel may come within not less than thirty inches of the surface of the roadway or sidewalk.

Provided, however, and it is expressly stipulated that the Tunnel Company shall, in the course of construction, at its own expense, maintain and care for all underground structures; and any necessary interference with underground structures shall be subject to reasonable regulation by the department of the government of the City in control or charge thereof.

The Tunnel Company shall at all times keep paved with smooth pavement, in such manner as may be reasonably required by the Municipal authorities having care of the streets, and shall at all times keep in thoroughly good condition, those portions of Christopher and West Tenth streets contiguous to its terminal station, and that portion of Greenwich street between the north line of Barrow street and the south line of West Tenth street.

The Tunnel Company shall make good to the City all damage which shall be done to the property of the City by the construction or operation of the Railroad, and shall make good to every owner of property abutting upon the Railroad, or which shall be injured by the work of construction or by operation thereof, all damage which shall be done to such abutting or injured property through any fault or negligence of the Tunnel Company or successor thereof or of any contractor, subcontractor or other person in the course of any employment upon the construction or operation of the Railroad or any part thereof.

The method of construction shall be generally as follows: The tunnels under rivers and streets shall be constructed in whole or in part of masonry or of steel or of iron or any two or more thereof combined. Excavations necessary in the course of construction by the Tunnel Company shall be made without disturbing the surface of the streets, except the portions of Greenwich, Christopher and West Tenth streets adjoining the terminal station aforesaid; Provided, however, that the Board may, wherever elsewhere local conditions make excavations from the surface necessary for efficient construction, grant the right to make such excavations from the surface, subject to such conditions as the Board may prescribe.

The tracks shall be constructed of the most approved plan, so as to avoid noise or tremor.

All plans for, and the method of doing, the work shall, from time to time, be subject to the approval of the Board.

## VI.

The power to be used shall be electricity or such other power (not involving combustion in the tunnel), as may be approved by the Board.

## VII.

The plan and profile of the Railroad herewith attached are to be deemed a part of this franchise and to be construed with the text hereof. The same shall be substantially followed, but deviations therefrom not inconsistent with the other provisions hereof may be permitted by the Board.

## VIII.

The Tunnel Company shall have no power to carry on merely local traffic unless with the approval of the Board and for such additional consideration to be paid to the City as shall be prescribed by the Board. Local traffic shall be deemed to include the carriage of passengers or freight between the terminal station of the Tunnel Company and any point in The City of New York.

## IX.

The Railroad shall be diligently and skilfully operated with due regard to the convenience of the traveling public, so long as the franchise hereby granted shall remain in force.

## X.

The City shall have a lien upon the franchise and upon the real property of the Tunnel Company under the said river and streets to secure the payment of such compensation and rental.

In case of any failure to make such payments as herein prescribed, the lien aforesaid may be enforced by the Board or by any authority which shall be authorized to act for the City in place of the Board, either by entry, foreclosure or other proper proceeding and by sale of such franchise and real property.

The Board may, in its own name, or in the name and behalf of the City, bring action for the specific performance, or may apply by mandamus, to compel the performance by the Tunnel Company of the duties and obligations hereby imposed upon the said Company, or any of them. And the Board may, in behalf or in the name of the City, bring action or proceedings to recover possession of any part of the property of the City to be used by the Tunnel Company as aforesaid, or to enforce the said lien of the City, or to enforce any part of this contract in the manner provided by section 9 of the Rapid Transit Act or any other proper action or proceeding.

## XI.

The Tunnel Company will not at any future time oppose, but shall at any time upon the request of the Board consent to, the construction of any rapid transit railroad over, along or under any portion of any of the said streets to be occupied by the Railroad of the Tunnel Company aforesaid, where the same shall not actually interfere with the structure of the Tunnel Company as herein authorized.

## XII.

The City, the Board and all duly authorized representatives of the City, shall have the right at all reasonable times to inspect the Railroad and any part thereof and to enter thereon when necessary for the examination, supervision or care of any property of the City or for any proper purpose.

## XIII.

The Tunnel Company shall, from time to time, maintain and strengthen all parts of the Railroad which shall be under any street or avenue, so that the same shall safely support any structure superimposed or which shall be superimposed thereon by the City or under its authority or under any other public authority.

## XIV.

The Tunnel Company shall have the right to grant, convey, mortgage, assign or transfer the franchise hereby granted, provided, however, that every grantee, assignee or transferee thereof, not including, however, a mortgagee or mere lienor, but including any purchaser upon foreclosure of or under or by virtue of any provision of any mortgage or lien, shall, upon accepting the grant, assignment or transfer and before such grant, assignment or transfer shall be valid, assume and agree to perform all of the obligations which by the provisions hereof are assumed by the Tunnel Company, and that no such grant, conveyance, assignment or transfer shall relieve the Tunnel Company of its obligations hereunder.

## XV.

If, at any time, the powers of the Board shall be transferred by law to any other Board, officer or officers, then and in such case such other Board, officers or officer shall have all the powers, rights and duties herein reserved to or prescribed for the Board.

In witness whereof this certificate has been prepared by the Board of Rapid Transit Railroad Commissioners for The City of New York by and upon the concurrent vote of at least six of the members of the said Board, and is now attested by its seal and by the signature of its President, who is its presiding officer, and by the signature of its Secretary, this 10th day of July, 1902.

THE BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS FOR THE CITY OF NEW YORK.

By ALEXANDER E. ORR, President.

[SEAL.] BION L. BURROWS, Secretary.

State of New York, County of New York, ss.:

On this 11th day of July, 1902, in The City of New York, in said county, before me personally appeared Alexander E. Orr and Bion L. Burrows, each to me known and known to me to be, the said Alexander E. Orr, the President, and the said Bion L. Burrows, the Secretary of the Board of Rapid Transit Railroad Commissioners for The City of New York, and the said Alexander E. Orr and Bion L. Burrows, being by me duly sworn, did depose and say, each for himself and not one for the other, the said Alexander E. Orr, that he resided in the Borough of Brooklyn, in the said City; that he was the President of the said Board, and that he subscribed his name to the foregoing certificate by virtue of the authority thereof; and the said Bion L. Burrows, that he resided in the Borough of Manhattan, in the said City; that he was the Secretary of the said Board, and that he subscribed his name thereto by like

authority; and both the said Alexander E. Orr and Bion L. Burrows that they knew the seal of the said Board and that the same was affixed to the foregoing certificate by the authority of the said Board and of a resolution duly adopted by the same.

CHARLES LA RUE KINGSLEY,  
Notary Public, New York County.

The New York and Jersey Railroad Company hereby accepts the foregoing franchise and all the terms, conditions and requirements thereof.  
Dated New York, July 14, 1902.

NEW YORK AND JERSEY RAILROAD COMPANY,  
By WILLIAM G. McADOO, President.  
[SEAL.] CHARLES W. KING, Secretary.

State of New York, County of New York, ss.:

On this 14th day of July, 1902, at The City of New York, before me personally came William G. McAdoo and Charles W. King, to me known and known to me respectively to be the said William G. McAdoo the President and the said Charles W. King the Secretary of New York and Jersey Railroad Company, and being by me duly sworn they did depose, each for himself and not one for the other, the said William G. McAdoo that he resided at Yonkers, in the State of New York, and was the President of the New York and Jersey Railroad Company, the corporation named in and which executed the foregoing consent, and that he subscribed his name to the foregoing consent by the authority of the Board of Directors thereof; and the said Charles W. King that he resided in the Borough of Brooklyn, City of New York, in the State of New York, that he was the Secretary of the said New York and Jersey Railroad Company and subscribed his name to the foregoing consent by like authority; and both the said William G. McAdoo and Charles W. King that they knew the seal of the said New York and Jersey Railroad Company; that the seal affixed to such consent was such seal, and that the same was affixed to the foregoing consent by authority of the Board of Directors of the said New York and Jersey Railroad Company and pursuant to a resolution adopted by the said Board.

The special order of business for the meeting, to wit, resolutions as to the plans of the Chief Engineer for solution of Brooklyn Bridge problem presented by the Mayor at the preceding meeting, was taken up. The Mayor presented the following letter of the Commissioner of Bridges, which was read:

NEW YORK, July 8, 1902.

To the Honorable SETH LOW, Mayor of New York:

SIR—I have the honor to report that I have carefully examined the plans and report made by Mr. William Barclay Parsons, Chief Engineer of the Rapid Transit Commission, in relation to the Manhattan terminal of the Brooklyn Bridge and its connection with the Manhattan end of the Williamsburg Bridge; also the proposed terminal station contiguous to the City Hall station of the subway; and also, the proposed extension of the trolley tracks from the Brooklyn Bridge into a terminal under Nassau street, from where they would eventually connect with the proposed tunnel under Maiden lane and the East river to Brooklyn.

The connection of the Brooklyn Bridge with the Williamsburg Bridge by tunnel road under Centre street offers decided advantages, for the reasons so convincingly stated by Mr. Parsons, and which must be obvious to any one who has studied the situation. My former recommendation of connecting the Manhattan ends of these two bridges, by means of an addition to the present elevated railroad along Park row and the Bowery, had for its principal reason the avoidance of disfigurement of Centre street. While the elevated railroad, which I had proposed for the connection of the bridge termini, offered easier grades and would have been less costly to build and to operate, it carried with it the complication of a necessary combination with the Manhattan Elevated Railroad Company, whose structure is now on Park row and the Bowery.

A tunnel from the Manhattan terminus of the Williamsburg Bridge, along Delancey street to Centre street, can be built independently of the Manhattan Elevated Railroad; but there is little question that this Company will find it to its interest to join the City in the construction of a suitable station at City Hall Park. The bridge terminal would be under the street level, and the Manhattan Elevated Railroad above the street level and over the same land.

If, however, no arrangement could be made with the Manhattan Elevated Railroad Company for a station in common at this point, the City will still be able to go ahead with its own improvements.

The Williamsburg Bridge will be of very little use unless provided with a direct approach to the City Hall region of Manhattan; therefore, the connecting link from the Williamsburg Bridge downtown should be commenced at the earliest practicable moment. The present indications are that the Williamsburg Bridge will be completed October 1, 1903. The tunnel under Delancey and Centre streets can be built, if necessary, for financial reasons and to save time, in two instalments; the first, from the Williamsburg Bridge to the intersection of the proposed extension of Delancey street and Centre street. At that point, which is near the Spring street station of the Subway, passengers could be temporarily transferred from the Williamsburg Bridge to the Subway under Elm street until such time as the second instalment of the tunnel, under Centre street to the terminal at the Brooklyn Bridge, shall have been completed.

To this end, it would be advisable to at once carry out the plans now before the local Board of Public Works in regard to widening Delancey street, from Clinton street to the Bowery. The street should have the same width which it has east of Clinton street, namely, two hundred feet; and it should be continued with a width of one hundred feet, from the Bowery to Centre street. That work, and the building of that length of tunnel, could be completed, if no time is lost, simultaneously with the Williamsburg Bridge.

The continuation of the tunnel tracks on Centre street to the Manhattan end of the Brooklyn Bridge, and the underground station there, will take a longer period for construction—probably three years. That part of the work could be done while the Williamsburg Bridge is in use, with its tunnel approach temporarily ending at Elm and Spring streets.

In regard to depressing the trolley tracks from the Brooklyn Bridge to a tunnel in Nassau street, it is my opinion that the work should not be considered until the proposed tunnel under Maiden lane shall have been authorized.

In the meanwhile, the traffic over the Brooklyn Bridge is certain to grow (notwithstanding the relief which the Williamsburg Bridge will afford), and it is absolutely necessary to increase the transportation facilities over that Bridge, without waiting for the completion of the Williamsburg Bridge, or the Whitehall street tunnel, or the Maiden lane tunnel.

Permanent relief over the Brooklyn Bridge can best and quickest be given by a moving platform. I have pointed out before that the transportation capacity of the moving platform is several times as great as that of a string of trolley cars crowded to the utmost, which is the rule now on the bridge during rush hours. It would at once more than double the capacity of the present structure, which must be relied upon for several years yet as the principal outlet to the Borough of Brooklyn.

The moving platform constitutes a uniformly distributed moving load, which is the best form of load for the suspended structure.

The Brooklyn Bridge is not built, and was not intended for the concentrated loads of trains. While the structure is absolutely safe, it can be kept so only by constant vigilance and repairs, made necessary by the ever increasing weight of cars and trains, the racking effect of which is injurious to the floor system and to the stiffening trusses.

The safety of the bridge and its durability will be enhanced by substituting for the present concentrated train loads the uniformly distributed and much lighter load of a moving platform, until such future time when the antiquated stiffening system can be replaced with a modern construction of two decks, carrying at least six tracks. Then it will be an easy matter to change the moving platform from one set of tracks to another, and thus in the end, the Brooklyn Bridge may accom-

modate elevated trains, trolley cars and the moving platform, all on the same structure.

A moving platform can be placed upon the Brooklyn Bridge in nine months. I have been reliably informed that a company stands ready to install it without expense to the City, upon receiving the right to charge one cent per passenger. The company is willing to guarantee the work and give bond.

In connection with such a moving platform an orderly and systematic trolley terminal at the Brooklyn end of the bridge—for which there is ample room on the bridge plaza owned by the City—can be readily built.

On the moving platform more than 65,000 seated passengers can be transported per hour with decency and comfort. The present combined capacity of bridge and trolley cars, crowded to suffocation, is only about 38,000 per hour, and cannot be increased.

The Brooklyn Rapid Transit Company, with the same number of cars which it owns now, will be able to accommodate the traffic more efficiently at that point and throughout Brooklyn.

It objection be made to the additional one-cent fare which it would cost the Brooklynite to reach New York, then attention is called to the fact that the five-cent fare means a continuation of the indecent crowding in the cars and at the stations, growing steadily worse, while a six-cent fare means decency, comfort and a seat, at least over the bridge. This will increase traffic and remove the objection to living in Brooklyn which many people now have, for they will then be sure of proper and prompt transportation to and from their homes.

For this improvement the City would not be called upon to appropriate any money. The moving platform would not interfere with the work of depressing the bridge tracks to connect with the subway along Centre street.

The construction of four additional loops for the trolley cars at the present terminus will not add anything to the carrying capacity over the bridge, as I have pointed out before. It would require a shifting of the top station platform tracks toward the City Hall Park. The Brooklyn Rapid Transit Company intimated that they would not pay for this work under their contract, and the construction of these loops is therefore very problematical. The only effect of these additional loops would be to lessen the crowding in the afternoon rush hours. Much more than that, however, is needed to keep pace with the certain and overwhelming growth of the traffic, and for it the moving platform offers the quickest solution and the largest measure of relief.

I beg leave, therefore, to recommend that:

First—The tunnel line be built from the Williamsburg Bridge to Centre street and down Centre street to the City Hall terminus and that accurate plans and estimates of cost be prepared therefor.

Second—That simultaneously a moving platform be installed on the Brooklyn Bridge, and that the necessary legal steps be authorized therefor.

Third—That all further improvements be taken up later, and in a systematic manner, so as to fit into a general scheme of rapid transit connection between the East river bridges and Rapid Transit lines on both sides of the East river.

Very respectfully,

(Signed) G. LINDENTHAL, Commissioner of Bridges.

The Mayor said he would like to withdraw the first resolution offered by him, to wit:

Resolved, That the report this day submitted by Mr. Parsons, the Engineer of this Board, be accepted as indicating in general terms a solution of the problems relating to the Manhattan terminal of the Brooklyn Bridge and inseparably connected therewith, such as would be acceptable to this Board so far as its co-operation is necessary.

The Mayor thereupon moved the following resolution:

Resolved, That the Chief Engineer of this Board be instructed, at the request of his Honor the Mayor, to co-operate with the Bridge Commissioner in working out the details of the plans proposed by the Chief Engineer.

Ayes—The President, Vice-President, Mayor, Comptroller and Commissioners Langdon and Smith.

Nays—None.

Carried.

The Committee on Contracts reported as follows:

10th July, 1902.

To the Board of Rapid Transit Railroad Commissioners:

The Committee on Contracts hereby respectfully reports upon the three matters referred to the Committee by the Board at its last meeting.

*Deed of Easement at Forty-second Street and Park Avenue.*

The Committee herewith report to the Board that the deed dated 25th June, 1902, and heretofore executed by the Subway Realty Company to The City of New York, and as so executed, submitted to the Board, is in proper form. The form of such deed is herewith submitted for insertion in the minutes. The Committee, therefore, recommend the adoption by the Board of the following resolution:

Resolved, That the deed dated 25th June, 1902, and executed by the Subway Realty Company to The City of New York, of the Rapid Transit easements at Forty-second street and Park avenue, be and the same hereby is approved; that the President and Secretary be and they hereby are authorized and directed to execute the same under the seal of the Board in behalf of the Board and of The City of New York; and that there be paid to the Subway Realty Company the purchase price mentioned in the said deed, to wit, one hundred and forty thousand dollars (\$140,000).

*Assignment by John B. McDonald to Interborough Rapid Transit Company of Leasing Part of Rapid Transit Contract.*

The Committee submit herewith to the Board a form of assignment by the contractor, Mr. McDonald, to the Interborough Company and also a form of agreement to which the City and the Interborough Company shall be parties. Such forms should be printed in the minutes with the text of this report. Under these papers the Interborough Company will become the owner of the lease included in the Rapid Transit contract, and will be bound by all the obligations of the lease. The Interborough Company guarantees the performance by Mr. McDonald of all of the Rapid Transit contract obligations not expressly taken over by the Interborough Company. As the Interborough Company is a corporation with large means, this arrangement is clearly and greatly to the interest of the City. Your Committee, therefore, recommend to the Board the adoption of the following resolution:

Resolved, That this Board approves the assignment by the contractor, John B. McDonald, to Interborough Rapid Transit Company, of the leasing part of the rapid transit agreement between John B. McDonald and The City of New York according to the terms of the proposed assignment by John B. McDonald to the said Interborough Company now submitted to the Board, and that the President and Secretary be and they hereby are authorized and directed to execute under the seal of the Board, in its behalf and in behalf of The City of New York, the agreement with the said Interborough Company in the form so submitted.

*Proposed Rapid Transit Terminals on Harlem River.*

The Committee is of opinion that the site selected for terminals and described in the communication of the contractor, John B. McDonald, to the President of the Board, under date of 24th June, 1902, is satisfactory, provided that proper arrangements be made for communication from the rapid transit railroad as now authorized on Lenox avenue with such terminals at grade. To effect this involves closing a part of Lenox avenue, as shown by the map herewith submitted marked "Rapid Transit Terminals on Harlem River, Report of Committee, 10th July, 1902." It is also desirable that the portion of One Hundred and Forty-ninth street included between the portions of the proposed site should be closed and included in the site for terminals. The Board has not the power to close such portions of Lenox avenue and One Hundred and Forty-ninth street; and the Committee is of opinion that if such portions of such streets are to be closed for use by the contractor of the terminal, it should be under an agreement whereby the Contractor will, during the term of the rapid transit lease and of his occupation of such portions of street pay to the City rental upon the same basis as the other rapid transit rental to be paid by him. The value of the portions of Lenox avenue and One Hundred and Forty-ninth street to be closed may fairly be taken to be equal to the average price per square foot which the Rapid Transit Subway Construction Company has paid for the terminal sites.

The contractor should pay for such portions a rental equal to the same percentage on such value as the percentage paid on the cost of construction.

Your Committee, therefore, recommend the adoption by the Board of the following resolution:

Resolved, That the President and Secretary of the Board be and they hereby are authorized to execute in its name and in the name of the City with the contractor, John B. McDonald (and, if he shall have assigned any part of his contract to the Interborough Rapid Transit Company, then also with that company), an agreement modifying the present rapid transit contract between the City and the said McDonald so as to provide in substance as follows:

That the site for terminals described in the communication of John B. McDonald to the President of the Board, under date of 24th June, 1902, as follows:

1. All that certain block of ground bounded westerly by Seventh avenue, easterly by Lenox avenue, southerly by One Hundred and Forty-eighth street, and northerly by One Hundred and Forty-ninth street;

2. All that certain block of ground bounded westerly by Seventh avenue, easterly by Lenox avenue and Exterior street, southerly by One Hundred and Forty-ninth street and northerly by One Hundred and Fiftieth street;

3. All the triangular block of ground bounded westerly by Lenox avenue, easterly by Exterior street and southerly by One Hundred and Forty-eighth street, —be approved; that the portion of One Hundred and Forty-ninth street shown upon the map submitted this day by the Committee on Contract, as lying between the portions of the said site and colored red, be closed; that the portion of Lenox avenue shown upon the said map and colored red, be also closed; that the portions of One Hundred and Forty-ninth street and Lenox avenue so closed form part of the said terminal; that during the term of the lease and any extension thereof included in the rapid transit contract, the contractor (or the said Interborough Company, if that company shall own the leasing provisions of the said contract), shall pay to the City an annual rental to be equal to the same percentage upon the value of such closed portions of One Hundred and Forty-ninth street and Lenox avenue, as the percentage paid by the contractor upon the cost of rapid transit construction; that the value per square foot of said closed portions of Lenox avenue and One Hundred and Forty-ninth street be, for the purposes of the agreement, taken to be the same as the price per square foot of the area of the site so described in the said letter of the said McDonald of 24th June, 1902, upon the basis of a total price for such site described in the said letter, of \$965,000 (or such other and lesser sum as shall have been paid therefor by the Rapid Transit Subway Construction Company or Rapid Transit Realty Company); that the said agreement become operative if and when such portions of the said streets shall be duly closed and this agreement approved by the proper authorities; and that the agreement shall not take effect until it shall be approved in writing by all the sureties of the contractor, so that the City shall have the same security for the payment of the rental for such closed portions of One Hundred and Forty-ninth street and Lenox avenue as it now has for the payment of other rapid transit rental under the said contract; and it is further

Resolved, That upon the execution of the said agreement, and upon such approval thereof by such authorities and sureties, and the closing of such portions of the said streets, this Board accept from the Rapid Transit Subway Construction Company or Rapid Transit Realty Company a conveyance of the said site as so described for the consideration of \$965,000 (or such other and lesser sum as shall have been paid therefor by the said Construction Company or Realty Company), and that the said price be paid the grantor of the said property, the amount of such price to be charged against the fund for terminals provided in the Rapid Transit contract.

(Signed)

A. E. ORR,  
CHAS. STEWART SMITH,  
EDWARD M. GROUT.

I do not wish, however, to be deemed to agree to the price of \$140,000 for the easement at Forty-second street and Park avenue.

(Signed)

EDWARD M. GROUT.

[FORM OF ASSIGNMENT AGREEMENT.]

August 1, 1902.

This Agreement, made the 10th day of July, 1902, by and between John B. McDonald, of the City, County and State of New York, hereinafter called the "Contractor," party of the first part, and Interborough Rapid Transit Company, a corporation duly organized and existing under the laws of the State of New York, hereinafter called "Interborough Company," party of the second part;

Witnesseth:

Whereas, The Contractor heretofore entered into a contract with The City of New York (acting by the Board of Rapid Transit Railroad Commissioners for The City of New York) bearing date the 21st day of February, 1900, for the construction, equipment and operation of a rapid transit railroad in The City of New York, which contract was thereafter modified in certain particulars by agreement between the said parties supplemental thereto and amendatory thereof, which agreements bear date the said 21st day of February, 1900; the 21st day of June, 1900; the 10th day of January, 1901, and the 2d day of May, 1901, respectively, the said contract and agreements amendatory thereof and supplemental thereto being together hereinafter referred to as the rapid transit contract; and

Whereas, The Interborough Company has been duly organized under the Railroad Law of this State for the purposes, among other things, of maintaining and operating the said railway, and has been approved in writing by the said Board of Rapid Transit Railroad Commissioners, pursuant to the provisions of chapter 4 of the Laws of 1891, as amended by chapter 544 of the Laws of 1902, and the Contractor desires to assign and transfer unto Interborough Company, and Interborough Company desires to accept an assignment of so much of the rapid transit contract as provides for the maintenance and operation of the said railway, including the obligation to provide an equipment for the same, subject to all the terms and conditions in said contract contained with respect to such maintenance and operation, and with respect to the equipment of the said railroad.

Now, therefore, in consideration of the premises, and for a valuable consideration by Interborough Company to the Contractor in hand paid, the receipt whereof is hereby acknowledged, the Contractor has sold, assigned, transferred, conveyed and set over, and does hereby sell, assign, transfer, convey and set over unto Interborough Company so much of the rapid transit contract as provides for the maintenance and operation of the said rapid transit railroad (including the equipment thereof), and does hereby assign unto the Interborough Company the right or obligation to maintain and operate the said road or roads in the rapid transit contract described, for and during the remainder of the term of years specified in such contract, and all rights with respect to such maintenance and operation, or included in the leasing provisions of such contract, subject to all the terms and conditions therein stated, together with all obligations assumed by the Contractor in and by the said rapid transit contract with respect to the equipment of the said railroad; and from and after the execution hereof the Interborough Company shall be entitled to have and receive all sums of money due or to come due from The City of New York under said contract for the equipment of the said railroad or any part thereof, or for the maintenance and operation of the same, and shall have and enjoy all rights, privileges, emoluments and benefits arising under or because of the provisions for the equipment of said railroad, and for the maintenance and operation thereof as in said contract provided, as fully as the Contractor might or could have and enjoy if this assignment were not made.

The Interborough Company on its part does hereby assume all of the obligations of the Contractor under or by reason of the rapid transit contract with respect to the equipment of the said railroad and every portion thereof, and all obligations whatsoever of the Contractor under or by reason of the leasing provisions of said contract, and all obligations which relate in any way to the maintenance or operation of the said railroad in said contract described, and does hereby agree to carry out and perform each and every of the said obligations as fully as the Contractor has been or is bound to do in and by the said contract.

The Interborough Company further agrees to well and truly indemnify and save harmless the Contractor of and from any liability, claim or demand arising under such portions of the rapid transit contract as are hereby assigned, or any portion thereof.

This agreement shall bind the parties hereto, their respective heirs, executors, administrators, successors and assigns.

It is, however, understood and agreed that this assignment shall not take effect until the same shall be consented to in writing by the said Board of Rapid Transit Railroad Commissioners, and such assignment and consent shall in no respect affect

the security or securities for the performance of the rapid transit contract or any part thereof by the Contractor.

Provided, further, and it is expressly agreed, that this agreement shall take effect when, and only when, the following consents hereto and approvals hereof shall be duly had—to wit, the consents as subjoined of Rapid Transit Subway Construction Company, The United States Fidelity and Guaranty Company, the City Trust, Safe Deposit and Surety Company, of Philadelphia; American Surety Company, of New York; National Surety Company and Perry Belmont.

In witness whereof, the party hereto of the first part has hereunto set his hand and seal, and the party hereto of the second part has caused these presents to be duly signed by its proper officers under its corporate seal the day and year first above written.

Agreement made this 10th day of July, 1902, by and between The City of New York (acting by its Board of Rapid Transit Railroad Commissioners), party of the first part, John B. McDonald, party of the second part, and Interborough Rapid Transit Company, a corporation duly organized and existing under the laws of the State of New York, party of the third part, Witnesseth:

Whereas, The said John B. McDonald heretofore entered into a contract with The City of New York (acting by the Board of Rapid Transit Railroad Commissioners for The City of New York), bearing date the 21st day of February, 1900, for the construction, equipment and operation of a rapid transit railroad in The City of New York, which contract (hereinafter called the rapid transit contract) was thereafter modified by certain agreements supplemental thereto, and amendatory thereof; and

Whereas, The said John B. McDonald has assigned or is about to assign unto Interborough Rapid Transit Company, by an instrument bearing even date herewith, consented to or to be consented to in writing by the sureties upon all bonds and undertakings given by said John B. McDonald pursuant to said contract, so much of the said contract as provides for the maintenance and operation of the railway therein described, including the obligation to provide all equipment for the same, subject to all the terms and conditions in said contract contained with respect to such maintenance and operation and with respect to the equipment of the said railroad, to which assignment reference is hereby had, and the said parties have requested the said Board of Rapid Transit Railroad Commissioners to consent to the said assignment as provided by law; and

Whereas, The said Board of Rapid Transit Railroad Commissioners is willing to consent to such assignment, but only upon the execution and delivery to said Board for said City of this instrument;

Now, Therefore, in consideration of the premises and of the covenants herein-after contained, The City of New York, by its said Board of Rapid Transit Railroad Commissioners, hereby consents to the said assignment to Interborough Rapid Transit Company and to the execution of the said instrument bearing even date herewith.

And the said Interborough Rapid Transit Company hereby covenants to and with The City of New York that it is and shall hereafter in all respects be bound to The City of New York with respect to the equipment of the said railroad mentioned in the said instrument and every portion thereof, and all obligations whatsoever of the Contractor under or by reason of the leasing provisions of said rapid transit contract and all obligations thereof or thereunder which relate in any way to the maintenance or operation of the railroad in the said rapid transit contract described, and does hereby agree to carry out and perform each and every of the said obligations as fully as the contractor has been or is bound to do in and by the said rapid transit contract. And the said Interborough Rapid Transit Company further covenants to and with the City that the said John B. McDonald, his executors, administrators and assigns, shall fully perform all the obligations and comply with all the provisions and terms of said contract which are not assigned to and assumed by said Interborough Rapid Transit Company in and by the said instrument bearing even date herewith.

This agreement shall bind the parties hereto, their respective heirs, executors, administrators, successors and assigns.

Provided, further, and it is expressly agreed, that this agreement shall take effect when, and only when, the following consents hereto and approvals hereof shall be duly had—to wit, the consents as subjoined of Rapid Transit Subway Construction Company, the United States Fidelity and Guaranty Company, the City Trust, Safe Deposit and Surety Company of Philadelphia, American Surety Company of New York, National Surety Company and Perry Belmont.

In Witness Whereof, the party of the first part has caused these presents to be duly executed by its said Board of Rapid Transit Railroad Commissioners under the seal of the said Board, the party of the second part has hereunto set his hand and seal, and the party of the third part has caused these presents to be duly executed by its proper officers under its corporate seal the day and year first above written.

The following resolution was moved:

Resolved, That the deed dated 25th June, 1902, and executed by the Subway Realty Company to The City of New York, of the Rapid Transit easements at Forty-second street and Park avenue, be and the same hereby is approved; that the President and Secretary be and they hereby are authorized and directed to execute the same under the seal of the Board in behalf of the Board and of The City of New York, and that there be paid to the Subway Realty Company the purchase price mentioned in the said deed, to wit, one hundred and forty thousand dollars (\$140,000).

Ayes—The President, Vice-President, Mayor, and Commissioners Langdon and Smith.

Nays—None.

Carried, the Comptroller not voting.

The following resolution was moved:

Resolved, That this Board approves the assignment by the contractor, John B. McDonald, to Interborough Rapid Transit Company of the leasing part of the Rapid Transit agreement between John B. McDonald and The City of New York, according to the terms of the proposed assignment by John B. McDonald to the said Interborough Company now submitted to the Board, and that the President and Secretary be and they hereby are authorized and directed to execute, under the seal of the Board, in its behalf and in the behalf of The City of New York, the agreement with the said Interborough Company in the form so submitted.

Ayes—The President, Vice-President, Mayor, Comptroller, and Commissioners Langdon and Smith.

Nays—None.

Carried.

The matter of the Harlem river terminals was laid over.

Counsel, Mr. Boardman, reported that the following consent had been obtained to the Brooklyn-Manhattan routes and general plan from the Department of Docks and Ferries:

Whereas, The Board of Rapid Transit Railroad Commissioners for The City of New York, constituted under chapter 4 of the Laws of 1891, as amended, did, on the 24th day of January, 1901, determine upon routes and general plan of construction, for a rapid transit railway for the conveyance and transportation of persons and property, to be established in said City, in addition to the rapid transit railways already existing therein, commencing at a point at the intersection of Park row and Broadway in the Borough of Manhattan, and extending to a point at the intersection of Atlantic and Fourth avenues, in the Borough of Brooklyn, and has transmitted to the Commissioner of Docks, being the head of the Department of Docks and Ferries, in said City, a copy of plans and conclusions as adopted, showing routes and general plan of construction, and also drawings on sheets marked Nos. 1, 2, 3, 4, 5, and 6, adopted by the said Board on the said 24th day of January, 1901, as additionally showing the routes and general plan of construction;

Now, therefore, the said Commissioner of Docks does hereby consent to the construction of a Rapid Transit Railway in accordance with the said plans so far as the construction of said Rapid Transit Railway may be upon or under property under the jurisdiction of the Department of Docks and Ferries of The City of New York; provided, that the outside and uppermost part of construction of the tunnel of said railway, including any material on top of the tunnel, shall not be nearer to the line of mean low water than thirty feet, as shown on the plans submitted by the said Rapid Transit Railroad Commissioners.

In witness whereof, the Commissioner of Docks has signed this certificate this 13th day of June, one thousand nine hundred and two.

(Signed) McDougall Hawkes,  
Commissioner of Docks.

RUSSELL BLECKER,  
Secretary of the Department of Docks and Ferries.

The following letter of the Contractor was read:

July 10, 1902.

ALEXANDER E. ORR, Esq., President, Board of Rapid Transit Railroad Commissioners,  
320 Broadway, New York:

DEAR SIR—I respectfully ask that a station of the Rapid Transit Railroad be located at One Hundred and Fourth street and Eighth avenue.

Yours respectfully,

(Signed) JOHN B. McDONALD, Contractor.

The Chief Engineer pointed out the necessity for a station at that point.

The following resolution was moved:

Resolved, That there be located an additional station at One Hundred and Fourth street and Eighth avenue, together with the platforms, approaches and appurtenances, and that the said station, platforms, approaches and appurtenances be constructed in accordance with plans to be submitted to the Board indorsed with the approval of the Chief Engineer, that the work of construction of the said additional station shall be done and paid for as extra work under the contract for construction, and that the cost thereof shall be deemed part of the cost of the Rapid Transit Railroad, and that rental therefor is to be paid by the Contractor in all respects, as if said station, platforms, approaches and appurtenances had been originally authorized by the contract for construction and operation made between the City and the Contractor.

Ayes—The President, Vice-President, Mayor, Comptroller, and Commissioners Langdon and Smith.

Nays—None.

Carried.

(Signed) JOHN B. McDONALD, Contractor.

Certificate No. 23.

I hereby certify that the work done and materials furnished under contract dated February 21, 1900, for the construction and operation of the Rapid Transit Railroad of The City of New York, for which Requisition No. 23, of date July 10th, 1902, is made by John B. McDonald, the Contractor, has been done and furnished in accordance with the terms of the contract to the value of one million two hundred and thirty-two thousand dollars (\$1,232,000.00); that such value has been ascertained relatively to the contract value of the whole work, and that no certificate has previously been made for such work and materials.

(Signed) WM. BARCLAY PARSONS,

Chief Engineer of the Board of Rapid Transit Railroad Commissioners.

The following resolution was moved:

Whereas, John B. McDonald, the Contractor, has made requisition upon this Board, dated July 10, 1902, and numbered Requisition No. 23, for work done and materials furnished under contract dated February 21, 1900, for the construction and operation of the Rapid Transit Railroad of The City of New York, to the 30th day of June, 1902, and amounting to the sum of one million two hundred and thirty-two thousand dollars (\$1,232,000.00); and

President Orr spoke of the examination of the estimates of the Chief Engineer as to the work done and materials furnished under contract. The Comptroller said that his Engineers would provide a certificate on this subject as soon as possible.

Counsel, Mr. Boardman, brought up the matter of the third track in The Bronx

borough. The Comptroller asked that it be referred to him, and it was made a Special Order for the next meeting.

George S. Morison and Commissioner of Bridges Gustav Lindenthal then spoke at length about the movable sidewalk, urging its adoption as a means of relieving the congested condition of the Manhattan terminal of the Brooklyn Bridge.

Letter of the Woodbridge Company as to proposed closing of North William street was received and ordered on file.

The following letter of the President was presented:

3d July, 1902.

Yours truly,  
(Signed) A. E. ORR, President.

The following resolution was moved:

Whereas, The Chief Engineer has made, prepared and duly submitted to this Board three similar maps or plans of the parcels of property at or near the corner of Eighth street and Fourth avenue, and extending from Eighth street to the corner of Ninth street and Fourth avenue, required for the construction and operation of the Rapid Transit Railroad, now under construction by John B. McDonald, in pursuance of the contract heretofore made between him and The City of New York and bearing date the 21st day of February, 1900; and

Whereas, Upon each such map or plan so made there has, by authority of this Board, been placed a memorandum as part thereof, clearly indicating the particular estate or estates, rights, terms, privileges, franchises or easements to be acquired or extinguished for the purposes of such construction and operation in relation to such parcels of property—such memorandum being substantially in the form following, to wit:

"Board of Rapid Transit Railroad Commissioners for The City of New York. Memorandum indicating the particular estate rights and easements to be acquired for the purposes of the construction and operation of the Rapid Transit Railroad in relation to the piece or parcel of property shown upon this map, July 10, 1902. A permanent and perpetual underground right, easement and right of way for the construction, operation and maintenance in perpetuity of a rapid transit railroad in accordance with the routes and general plan prescribed by the Board of Rapid Transit Railroad Commissioners for The City of New York, by resolutions adopted on the 14th day of January, 1897, and the 4th day of February, 1897, and approved by the Common Council of The City of New York on the 23d day of March, 1897, and consented to by an order of the Appellate Division of the Supreme Court in the First Judicial Department, made on or about the 6th day of April, 1898, as amended by a further order of the said Appellate Division, made on or about the 13th day of November, 1899, and by a further order made by the said Appellate Division on or about the 16th day of February, 1900, which railroad is further described in the contract for the construction and operation thereof made between The City of New York acting by the said Board of Rapid Transit Railroad Commissioners and John B. McDonald, the said contract being dated the 21st day of February, 1900, and having been modified and amended by a further agreement between the said City and the said John B. McDonald, bearing the same date, the subway or subways for such railroad to be constructed substantially as shown upon the plan above, the same being marked: 'Rapid Transit Commission Chief Engineer's Office. Drawing No. 723. Dated July 10, 1902.' Such right and easements including the right to permanently and perpetually maintain and operate a railroad through said subway so to be constructed in accordance with the provisions of chapter 4 of the Laws of 1891, and its amendments, and the provisions for the operations of said railroad lawfully made pursuant thereto and the right at reasonable times and in reasonable manner to enter upon the said premises so far as may be necessary for the construction, maintenance and operation of such railroad. The base of rail in subway to be not more than eighteen (18) feet six (6) inches below the established grade of Fourth avenue at its intersection with Eighth street. The premises to be subject to such permanent and perpetual underground right, easement and right of way are described as follows: Beginning at the intersection of the northerly line of Eighth street with the westerly line of Fourth avenue, thence running westerly along said northerly line of Eighth street, a distance of ninety-one (91) feet six (6) inches, thence running northerly along a curve with its convexity to the east of about eight hundred and sixty (860) feet radius to the southerly line of Ninth street, a distance of about one hundred and eighty-nine (189) feet; thence running easterly along said southerly line of Ninth street to its intersection with the above mentioned westerly line of Fourth avenue, a distance of fourteen (14) feet six (6) inches; thence running southerly along said westerly line of Fourth avenue, a distance of one hundred and ninety-nine (199) feet to the place of beginning. Adopted and approved by said Board the 10th day of July, 1902."

Now, therefore, it is Resolved, That the said maps and plan so made and prepared, and the said memorandum be and the same hereby are approved and adopted, that a certificate of such approval and adoption, and of the approval and adoption of the said memorandum be written upon each of the said maps or plans and signed by the members of the said Board of Rapid Transit Railroad Commissioners, and that one copy thereof, including such memorandum, shall be filed in the Chief Executive Department of The City of New York having principal charge of the streets, there to remain as a public record, and that the other two of the said maps or plans and memoranda be forthwith transmitted to the Counsel to the Corporation with a copy of this resolution and the direction of this Board to take legal proceedings to acquire for The City of New York the said permanent and perpetual underground right, easement and right of way and other rights as aforesaid.

Ayes—The President, Vice-President, Mayor, Comptroller and Commissioners Langdon and Smith.

Nays—None.

Carried.

The following report of Vice-President Starin was presented and read:

NEW YORK, July 10, 1902.

While the plan presented by our Chief Engineer might be constructed and operated successfully, yet, as has been found in all improvements devised either by the City or the corporate companies, the attainment of satisfactory results is never reached except by slow stages involving many changes and great expense.

As outlined, this proposition involves great work, large expenditure of the City's money, and, like the rest, it is experimental in character.

Without attempting any exhaustive criticism, I would briefly call attention to the fact that if the bridges are used as parts of the route, so that cars are returned by looping from one bridge to and across another, that such cars will of necessity have to diverge into all the suburbs of Brooklyn.

Such operation must of necessity involve the bridges with the movement of the cars all over the City. If a regular maximum movement is to be maintained over the bridge, then these different lines of cars must each be maintained in like maximum movement, and any irregularity anywhere must produce similar defects in the movements on the bridges.

Aside from such probable irregularities such a system of operation as will keep the traffic moving over the bridge at a uniform headway and up to the maximum capacity of the cars from distant suburbs might involve useless expenditure of power and operation sufficient to condemn the arrangement.

I think a plan more simple, such as I have already presented, confined at first to the immediate relief of the present bridge congestion and by and through the operation so established, determination can be reached regarding extensions into the streets of the City, either at the bridges being constructed or to include the present bridge if desired.

Let the first construction be such as will be adapted to extensions.

The great advantage such a plan affords is that it reaches immediate requirements and prepares the way for further extension at a nominal cost. By its use it will settle beyond question the adaptation of inclines connecting subways with bridges, by which sub-surface rather than elevated construction can be operated by all crosstown and other connections.

If there are to be transfers in all cases let them be across level platforms, and let the electric car run to either the required level of an elevated railway or to that of a sub-surface railway.

Travelling stairways or elevators are too restricted and ill-adapted to railway traffic. Let the railways do the climbing by inclines.

That elevated roads are too damaging to property for construction in this part of the City I pointed out in my proposition of May 15, and that the coming improvements should be underground, with inclines for connections to all bridges.

If the grades of the inclines shown on the blue-prints of May 15 are considered excessive, lesser grades can be established without additional condemnation of property and at comparatively moderate additional cost by changing the grades of William and North William streets slightly for short distances.

It seems to me we would better work along these lines by a test as economically as possible until we reach the exact thing we want to establish in connection with the bridges.

Here is a good opportunity connected with a very urgent call—a condition existing on this approach of the Brooklyn Bridge which is almost if not quite criminal. (Signed.) JNO. H. STARIN.

It was referred to His Honor the Mayor.

The Board then adjourned.

BION L. BURROWS, Secretary.

### REPORT OF TRANSACTIONS SEPTEMBER 15 TO 20, 1902.

#### Communications Received.

From Penitentiary, Blackwell's Island—List of prisoners received during week ending September 13, 1902: Males, 25; females, 1. On file.  
List of sixteen prisoners to be discharged from September 21 to 27, 1902.

#### Transmitted to Prison Association.

From City Prison—Amount of fines received during week ending September 13, 1902, \$38. On file.  
From Workhouse, Blackwell's Island—Amount of fines received during week ending September 13, 1902, \$40. On file.  
From Penitentiary, Blackwell's Island—Report of twenty-eight convicts for use of the Governor in commuting their sentences.

#### Transmitted to the Governor.

From Counsel to the Corporation—In answer to request for an opinion as to right of coal contractor Joseph E. Ennis to refuse to deliver coal on account of the strike at coal mines, Corporation Counsel states that the language of the contract in no way relieves the contractor from furnishing the coal required. Should he refuse to furnish coal, formal notice should be served, and after that, advertisement inserted for bids for balance of coal not furnished by Contractor Ennis. On file.

From Branch Workhouse, Hart's Island—Reporting that during recent storm two leaks were discovered in roof recently repaired. Bill for work has not been paid and will be held for further orders. Contractor requested to give the matter immediate attention.

From Heads of Institutions—Reporting meats, milk, fish, etc., received during week ending September 13, 1902, agreed with specifications. On file.

Reports of census, labor, punishments for week ending September 13, 1902. On file.

From the Mayor—Heads of City Departments requested to make arrangements to enable any and all members of the Grand Army of the Republic who are City employees to attend the National Encampment, to be held in Washington, D. C., during the week commencing October 6, 1902. Leave of absence granted, as requested by the Mayor. Heads of all Institutions notified.

From City Cemetery, Hart's Island—List of burials during week ending September 13, 1902. On file.

From Williams & Gerstle, Contractors—Complaining that their contract for work at Administration Building, Blackwell's Island, cannot be completed on account of delay of the general contractor to finish his work. On this account a final payment of \$13,763.99 is withheld, while only about \$200 worth of work is to be done. Contractors therefore ask for a payment of \$12,000 provided they secure consent of Architects and of their sureties.

Contractors to confer with Architects regarding the matter.  
From Kings County Penitentiary—List of prisoners received during week ending September 13, 1902: Males, 28; females, 1. On file.

List of nineteen prisoners to be discharged from September 15 to 20, 1902. On file.

Resigned.

John Dorgan, Stonecutter, Penitentiary, Blackwell's Island.

Dismissed.

Louis Silverman, Keeper, Workhouse, Blackwell's Island. Absence from duty without permission.

#### TO CONTRACTORS.

CONTRACT FOR THE FINAL DISPOSITION OF ASHES, STREET SWEEPINGS AND RUBBISH AND LIGHT REFUSE IN THE BOROUGH OF BROOKLYN.

SEALED BIDS OR ESTIMATES FOR THE above work, indorsed with the title, also the name of the person or persons making the estimate and the date of presentation, will be received at the Main Office of the Department of Street Cleaning, Nos. 13-21 Park row, Borough of Manhattan, until 1 o'clock p. m. of

MONDAY, OCTOBER 13, 1902,

at which time and place the bids will be publicly opened by the head of the Department and read.

The amount of the security will be sixty thousand (\$60,000) dollars.

The period of the contract will be for five years from the date of the execution of the contract and the completion of the work.

Each bid or estimate must be accompanied by a certified check on a solvent banking corporation in The City of New York, payable to the order of the Comptroller, for five per centum of the amount for which the work bid for is proposed in any one year to be performed.

The check should be enclosed in the envelope. From the bids so received the Commissioner may select the bid or estimate, the acceptance of which will, in his judgment, best secure the efficient performance of the work, or he may reject any or all of the said bids, as provided by section 544 of the Greater New York Charter as amended.

The plant must be complete, and the work

must begin within nine (9) months from the execution of the contract, and bidders must specify in their bids the time within which they will be ready to begin the work.

Bidders are requested to make their bids or estimates upon the blank form prepared by the Commission, a copy of which, with the proper envelope in which to enclose the bid, together with a copy of the contract, including the specifications in the form approved by the Corporation Counsel and containing the terms approved by the Board of Estimate and Apportionment, can be obtained upon application therefor at the office of the said Commissioner.

#### DEPARTMENT OF WATER SUPPLY GAS AND ELECTRICITY.

DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY, COMMISSIONER'S OFFICE, 13-21 PARK ROW, CITY OF NEW YORK.

#### NOTICE OF SALES AT AUCTION.

ON TUESDAY, OCTOBER 14, 1902, at 11 o'clock a. m., the Department of Water Supply, Gas and Electricity will sell at public auction to the highest bidder, by James L. Brumley, auctioneer, at the Gowanus Pipe Yard, Butler and Nevins streets, Borough of Brooklyn:

About 70 tons, more or less, of old scrap cast iron.

1,000 pounds, more or less, of old brass.

1 wagon.

1 top buggy.

2 horses.

On Wednesday, October 15, 1902, at 11 o'clock a. m., the Department of Water Supply, Gas and Electricity will sell at public auction to the highest bidder, by James L. Brumley, auctioneer, at the Ridgewood Engine House, Atlantic avenue and Logan street, Borough of Brooklyn:

67 tons, more or less, of old steel and wrought iron.

13 tons, more or less, of grate bars and scrap cast iron.

25 tons, more or less, of miscellaneous scrap iron.

On Thursday, October 16, 1902, at 11 o'clock a. m., the Department of Water Supply, Gas and Electricity will sell at public auction to the highest bidder, by James L. Brumley, auctioneer, at the Millburn Engine House, Millburn, L. I.:

2 tons, more or less, of old steel and wrought iron.

20 tons, more or less, of grate bars and scrap iron.

#### TERMS OF SALE.

The upset prices at which these materials will be sold are: \$12 per ton of 2,000 pounds for the old scrap cast iron; \$13 per ton of 2,000 pounds for the old scrap wrought iron, steel and pipe; \$0.08 per pound for the old scrap composition metal. No bid below these prices will be considered or accepted.

Successful bidders must make cash payment in bankable funds at the time and place of sale.

Bids will be received for one or more of the separate descriptions of these materials, but no bid will be considered or accepted for less than the entire quantity in each case.

The purchaser or purchasers must remove all the materials from the place of sale within thirty (30) days after the sale, otherwise he or they will forfeit the money paid at the time of sale and the ownership to the material, which will thereafter be resold for the benefit of the City.

The purchaser or purchasers must remove the material as directed by the officer of the Department in charge at the respective places of sale, and will not be allowed to select material for removal at will.

R. G. MONROE, Commissioner of Water Supply, Gas and Electricity.

830-014

#### LESSENED WATER SUPPLY.

NOTICE IS HEREBY GIVEN TO THE homeowners and residents in all those parts of the Borough of The Bronx which are supplied with water from the City's water mains, that on and after October 1, 1902, and during that month, the Old Croton Aqueduct will have to be closed at a point north of the Jerome Park Reservoir, and the operation of the temporary pumping plant which has hitherto pumped from the aqueduct into The Bronx water mains a daily supply of ten million gallons of water, will have to be discontinued during said month, in order to make the connections between the old and the new aqueducts and the new 48-inch water main which will supply the central and lower portions of the Borough, and will, as soon as the connections are completed, increase the water supply at least 50 per cent.

During October the supply will be diminished about one-third, and the pressure in delivery of the water will be correspondingly reduced. The inconveniences which may result from this temporary decrease of supply will be much mitigated if the people will abstain from lavish and wasteful use of water which this Department earnestly requests them to do.

ROBERT GRIER MONROE, Commissioner of Water Supply, Gas and Electricity.

# DEPARTMENT OF PARKS.

## AUCTION SALE.

THE DEPARTMENT OF PARKS, Boroughs of Manhattan and Richmond, will sell at public auction, by Joseph Shongood & Sons, auctioneers, on

FRIDAY, OCTOBER 10, 1902,

at 10.30 o'clock a. m., buildings, consisting of four dwelling houses, standing on lands acquired for park purposes (Colonial Park) on the north side of One Hundred and Forty-fifth street, between Edgewood and Bradhurst avenues, known as Nos. 321, 323, 325 and 327 West One Hundred and Forty-fifth street, in the Borough of Manhattan.

The sale will take place on the ground, commencing with the first named building, at the hour stated, and continue until all the buildings have been sold.

Information as to the dimensions and character of the buildings may be had upon application at the office of the Department of Parks, Arsenal, Central Park.

## TERMS OF SALE.

The sale is on condition that the work of removing the buildings sold shall be commenced within ten days from date of sale, and the buildings shall be entirely removed by the purchaser within thirty days from October 10, 1902, upon which date possession will be given the purchaser, who shall thereafter be liable for any and all damages to persons, animals or property by reason of the occupancy or removal of said buildings.

The amount of the purchase money must be paid in cash or certified check at the time of sale, or the buildings now so paid for will be resold.

To secure the removal of the buildings the purchaser will be required to make at the time of sale a deposit of \$50 in cash or certified check on each lot purchased, which deposit will be returned if the building is removed within the time stipulated, otherwise it will be forfeited to the Department.

Should any of the buildings sold be not removed within the specified time, the Department may again take possession and cause the same to be resold or removed.

## PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

## NOTICES TO CONTRACTORS.

## GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said department, and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the board of aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below. No bid or estimate will be considered unless accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 430 of the Greater New York Charter.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to The City.

The contracts must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of The City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by The City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the department for which the work is to be done. Plans and drawings of construction work may also be seen there.
