In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to lay, construct, maintain and operate suitable pipes, mains or other conductors with the necessary service pipes and connections therewith, for conducting gas through the streets, lanes, alleys, squares and highways now opened or which may hereafter be opened, in that portion of the Third and Fourth Wards of the Borough of Queens, as constituted by section 1581 of chapter 466 of the Laws of 1901 (the Greater New York Charter), bounded and described as follows:

Being all that portion of the Third and Fourth Wards of the Borough of Queens, City of New York, embraced within such boundaries, as more clearly shown on the map or plan attached to this contract and certified to by the President of the Company, and dated June 4, 1907.

Sec. 2. The grant of this privilege is in consideration of and subject to and conditioned upon the performance and observance of the following conditions:

First—The said right to lay, construct, maintain and operate pipes, mains or other conductors for conducting gas in the above described territory shall be held and enjoyed by the Company, its successors or assigns, from the date when this contract is signed by the Mayor until the twenty-seventh day of October, nineteen hundred and thirty-one, with the privilege of renewal of said contract for a further period of twenty-five (25) years upon a fair revaluation of said right and privilege. Such revaluation shall be of the right and privilege to maintain and operate such a gas system by itself, and is not to include any valuation derived from the ownership, operation or control of any other gas, electric or other system used for the purpose of supplying light, heat or power, by the Company, its successors or assigns.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time, not earlier than two years and not later than one year, before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but the annual sum to be paid by the Company to the City under such renewal shall not be less than the sum required to be paid during the last year of this original contract.

If the Company and the Board shall not reach such agreement on or before the day one year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding twenty-five (25) years shall be reasonable, and either the City (by the Board) or the Company shall be bound, upon request of the other, to enter into a written agreement with such other fixing the rate of such compensation at such amount as shall be reasonable, but no annual sum thus fixed shall in any event be less than the sum required to be paid by the Company to the City during the last year of this original contract, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate at such amount as shall be determined by three disinterested freeholders, selected in the following manner:

One disinterested freeholder shall be chosen by the Board, one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluations aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of this original contract, and their report shall be filed with the Board within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations without the presence of either party. They shall have the right to examine the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum to be paid thereunder shall, in any event, be less than the sum required to be paid for the last year of this original contract. If, in any case, the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Second—Upon the termination of this original contract, or if the same is renewed, then upon the termination of the said renewal term, or upon the termination of the rights hereby granted for any other cause, or upon the dissolution of the Company before such termination, if the Board shall so elect, the mains, service pipes and street lamps erected and located by the Company in the territory designated in section 1 of this contract, including all property erected or located by it in the public streets or roads of the City, as the same now exist or may be extended, and in all new streets or roads which may be hereafter opened in that portion of the Borough of Queens, constructed pursuant to this contract, shall become and be the property of the City, without compensation therefor, and the same may be used by the City for any purpose whatsoever. If the Board shall so elect, upon the termination of this grant for any cause, the plant and property erected and located by the Company pursuant to this contract, in that portion of the Borough of Queens as bounded and described in section 1 of this contract, including the buildings, plants, holders, meters, house fittings and all property not situated in the public streets or roads used by the Company in the manufacture and distribution of gas to street lamps and public and private buildings in said territory, shall become and be the property of the City on payment to the Company of the value of the same, as fixed by three disinterested freeholders, appointed and paid in the same manner and with the same powers as appraisers appointed upon any renewal of this original contract, as above set forth, but such valuation shall in no case be greater than the value of such property as shown by the last report submitted by the Company to the Board, as required by the terms of this contract, and shall not include any compensation for any value which such property may have by reason of this grant.

If, however, at the termination of this grant for any cause, as aforesaid, the City, by the Board, shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of its pipes, mains and conductors from all the streets and public places within the limits of the territory in which it is authorized to operate by this contract.

Third—The Company, its successors or assigns, shall pay for this privilege to the City the following sums of money, to wit:

1. One thousand dollars (\$1,000) in cash within thirty days after the signing of this contract.
2. During the period between the date on which this contract is signed by the Mayor and the twenty-seventh day of October, nineteen hundred and eleven, an annual sum which shall in no case be less than two hundred and fifty dollars (\$250), and which shall be equal to one (1) per cent. of the gross receipts of the Company in the territory in which it is authorized to operate under the terms of this contract, if such percentage shall exceed the sum of two hundred and fifty dollars (\$250).

3. During the succeeding five years of this original contract an annual sum which shall in no case be less than five hundred dollars (\$500), and which shall be equal to one (1) per cent. of the gross receipts of the Company in the territory in which it is authorized to operate under the terms of this contract, if such percentage shall exceed the sum of five hundred dollars (\$500).

4. During the succeeding five years of this original contract an annual sum which shall in no case be less than one thousand dollars (\$1,000), and which shall be equal to two (2) per cent. of the gross receipts of the Company in the territory in which it is authorized to operate under the terms of this contract, if such percentage shall exceed the sum of one thousand dollars (\$1,000).

5. During the succeeding five years of this original contract an annual sum which shall in no case be less than one thousand five hundred dollars (\$1,500), and which shall be equal to three (3) per cent. of the gross receipts of the Company in the territory in which it is authorized to operate under the terms of this contract, if such percentage shall exceed the sum of one thousand five hundred dollars (\$1,500).

6. During the last five years of this original contract an annual sum which shall in no case be less than two thousand five hundred dollars (\$2,500), and which shall be equal to five (5) per cent. of the gross receipts of the Company in the territory in which it is authorized to operate under the terms of this contract, if such percentage shall exceed the sum of two thousand five hundred dollars (\$2,500).

All the sums herein provided for shall be paid into the treasury of The City of New York on November 1 of each year, and shall be for the amount due to September 30 next preceding.

Fourth—The said annual charge or payments shall continue throughout the whole term of the privilege hereby granted, whether original or renewal, as hereinbefore provided, notwithstanding any clause in any statute or in the charter of any gas or other company providing for payments for similar rights or franchises at a different rate, and no transfer, sale, assignment, lease

or sublease of the rights or franchises hereby granted, whether original or renewal, or any part thereof, shall be valid or effectual for any purpose unless the said transfer, sale, assignment, lease or sublease shall contain a covenant on the part of the transferee, purchaser, assignee or lessee that the same is subject to all the conditions of this contract and that the transferee, purchaser, assignee or lessee assumes and will be bound by all of said conditions, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said transferee, purchaser, assignee or lessee waives any more favorable conditions created by said statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

It is agreed that any and all payments to be made under the terms of this contract by the Company to the City shall not be considered in any manner in the nature of a tax, but that such payments shall be in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of the City or by any law of the State of New York.

Fifth—The plant, machinery or works of this Company which may be erected under the privilege contained in and granted by this contract for the purpose of manufacturing and furnishing gas, shall be constructed so as not to be in any way detrimental to the public health, nor otherwise create a nuisance. Before the construction of any plant, holder or other apparatus used in the manufacture or storage of gas the Company shall obtain the approval of the Board to the location and the plans for the construction of the same.

Sixth—The Company shall construct, maintain and operate its gas system, mains, conductors, service connections and pipes subject to the supervision, control and inspection and to the entire satisfaction of the proper authorities of the City who have jurisdiction in such matters, under the Charter or ordinances of the City, or under the provisions of this contract, and the entire expense of such supervision, control and inspection shall be borne by the Company.

Before opening any street, lane, alley or public place to lay or to begin the laying of any mains, conductors, pipes or service connections, the Company shall submit to the President of the Borough of Queens and the Commissioner of Water Supply, Gas and Electricity, working plans which shall include and show in detail the proposed location and method of construction of said mains, conductors, pipes or service connections, and the mode of protection or changes in all subsurface structures required by the construction of such mains, conductors, pipes or service connections, and shall obtain from these officials, if such working plans are approved, permits for the construction of such work.

Wherever the pipes or conductors of the Company in any part of the Borough of Queens are to be laid under or adjoining a railroad track, the work of trenching for and laying the same shall be conducted so as to interrupt as little as possible the running of cars thereon, and when the work is finished, the track and street, avenue or public place shall be replaced and repaved by said Company in as good condition as before the commencement of the work.

Whenever the Company shall open any street, avenue or public place in the territory in which it is granted the privilege to operate by this contract, for the purpose of laying pipes or conductors, then the Company, when restoring the pavement of said street, shall do so in accordance with the specifications for the construction of said pavement, and the Company shall also, at its own cost and expense, maintain the same in good condition, and at the proper grade and curvature, for the period of one year from the time of its restoration, whether the same had been restored by the said Company or by the City authorities, as hereinafter provided. When streets paved with improved pavements, on which the contractor's guarantee has not expired through time, are to be paved, the Company shall have the power to arrange with the contractor to open and relay such pavements under an agreement or contract.

If the Company at any time, after five days' notice from the President of the Borough of Queens, shall neglect or refuse to restore, repave or maintain any pavement in accordance with the provisions of this contract, then the President of the Borough of Queens may restore, repave or maintain the same, and the cost of such restoration, repavement or maintenance, with legal interest thereon, shall be a proper charge against, and may be deducted from, the security fund to be deposited by the Company with the Comptroller, as hereinafter provided.

Seventh—It is a condition of this contract that the Company shall bear the entire expense of all work undertaken by reason of this grant.

Eighth—Within three (3) months after the execution of this contract by the Mayor, the Company shall commence the laying of mains, and within two (2) years thereafter shall have laid and in operation at least five miles of mains within the streets in the territory in which it is hereby granted the privilege to lay its mains, and shall supply gas through the same to the sections known as Queens and Little Neck. The Company shall also, within ten (10) years thereafter have laid, ready to supply gas through the same, a main or conductor, as follows: Commencing at or near Little Neck Bay, then through Main avenue to Alley road; through Alley road to Springfield road, and through Springfield road to Rockaway road; also, from Alley road, along Rocky Hill road and Hillside avenue to the section known as Holliswood. From and after five (5) years from the date of the signing of this contract the Company shall also lay such further mains as may be directed by the Board. Unless the provisions of this paragraph be fulfilled by the Company, this grant shall cease and determine.

Ninth—In the event that the City finds it necessary to change the grade or line of any street, road or avenue now existing, or which may hereafter be opened in any part of the Borough of Queens, or place therein any new structures, or change the location of any structure therein, the Company agrees that it will make no claim or attempt to obtain any compensation for its expense in relaying or replacing its mains, if the same is necessary to conform to such improvement in or of such street, road or avenue, in the territory in which it is hereby granted the right to lay its mains.

Tenth—The Company shall, upon being directed to do so by the Commissioner of Water Supply, Gas and Electricity, extend its main to such places and along such streets as he may direct, but shall not be required to lay a greater length of main or conductor during any one year than that hereinbefore prescribed, provided, however, that if any public building or public lamps the Commissioner desires to be lighted are situated within one hundred (100) feet of any main or conductor of the Company in a public street, avenue or highway, then and in that case the Company shall be required to extend the same, in addition to the above, in compliance with section 65 of the Transportation Corporations Law (chapter 566 of the Laws of 1900), and a public lamp shall be deemed a building or premise within the meaning of such section.

Eleventh—The gas plant, mains and all appurtenances thereto shall be constructed and operated in the latest approved manner, and shall be operated with the most modern and improved appliances. The gas furnished by the Company shall be of the best quality, and the supply shall be continuous for twenty-four hours in each day during the term of this contract, or any renewal thereof, except for interruption from unavoidable causes over which the Company shall have no control.

Twelfth—The Company shall file with the Board on or before the first day of November in each year a map, plan or diagram, showing the boundaries of the territory in which the Company is authorized to lay its mains by this contract, upon which shall be plainly marked in black the mains laid, up to September 30 of the year preceding, and in red the mains laid during the year ending on the 30th day of September next preceding the date of the filing of such map, plan or diagram. This map, plan or diagram shall have a statement thereon of the number of miles of mains laid up to the 30th day of September of the preceding year, and of the number of miles of mains laid during the year ending on the 30th day of September next preceding the date of the filing of the same, in the words and figures following, viz.:

Number of miles of mains laid up to September 30, 19 : miles, feet.
Number of miles of mains laid during the year ending September 30, 19 : miles, feet.

—and shall be certified by the Secretary of the Company. Copies of this map, plan or diagram shall also be filed in the office of the Department of Water Supply, Gas and Electricity, and in the office of the President of the Borough of Queens.

Thirteenth—The gas to be furnished by the Company shall be of the standard at present fixed by law. Said gas shall have an illuminating power of not less than twenty-two sperm candles of six to a pound, burnings at the rate of one hundred and twenty grains of sperm per hour, tested at a distance of not less than one mile from the distributing holder by a burner consuming five cubic feet of gas per hour by a flat flame burner giving greatest results at not less than four-tenths of an inch pressure at the point of ignition, and each one hundred cubic feet of gas shall not contain more than five grains of ammonia, nor more than twenty grains of sulphur, nor more than a trace of sulphuretted hydrogen. Provided, however, that should a new process be hereafter generally used to manufacture gas of a higher standard than the gas at present manufactured by the Company, then the Company binds itself to furnish gas equal to that furnished by such new process, should the same be ordered by the Board. And the Company further binds itself to furnish gas of superior candle-power and quality to that herein set forth or ordered by the Board whenever required to do so by any general or local act of the Legislature, and such act shall be deemed a modification of this agreement, but no act providing for the furnishing of an inferior quality of gas shall be deemed to in any way affect the provisions of this agreement. The pressure of said gas shall not exceed that fixed by law.

Fourteenth—The Company agrees to provide and furnish to the Department of Water Supply, Gas and Electricity the necessary apparatus and station to conduct tests to ascertain the pressure and quality of the gas furnished by it, if required to do so by the Commissioner of Water Supply, Gas and Electricity. Should any tests made by the said Commissioner of gas furnished by the Company show that said gas is of an inferior quality or other than that specified herein, or is being furnished at a pressure exceeding that fixed by law, the Company shall immediately remedy such defect upon notice from said Commissioner.

Fifteenth—The rates to be charged by the Company in the Borough of Queens for gas furnished by it to the City and to private consumers shall never be in excess of the following, and it is agreed that the same may be reduced by the Board, as hereinafter provided:

For gas furnished to the City for street lighting, to be used in its public buildings, or for gas furnished to any other public buildings located in the Borough of Queens, the sum of seventy-five cents per thousand cubic feet.

For furnishing and connecting, ready for use, each mantle gas lamp with improved burner appliances and incandescent mantles, including cocks, tubes, burners, mantles, globes, chimneys, rods, regulating apparatus and all appurtenances necessary for each lamp, at each lamp, and also operating and maintaining it, including illuminant, the operation and maintenance to include the lighting, extinguishing, cleaning, reglazing, repairing and painting of lanterns and lamp-irons, the painting of lamp-posts and cross-heads, the furnishing, repairing and replacing of cocks, tubes, burner appliances, mantles, chimneys, globes, rods, regulating apparatus, lanterns, lamp-irons, frames and cross-heads thereto, and replacing and replacing of lamp-posts when owned by the Company, a sum not to exceed twenty-five dollars (\$25) for every such lamp not consuming more than three and one-half (3½) cubic feet of gas per hour, for three thousand nine hundred and fifty hours in any one year, and for similar services to mantle lamps burning a different number of cubic feet per hour or a different number of hours per year at proportionate rates.

The Company also agrees that if in the future any new or improved style of street lighting is available for use it will furnish the same throughout the territory in which it is hereby granted the right to operate at such reasonable prices as may be fixed by the Board, subject to the provisions of this contract.

Sixteenth—The Company shall supply gas to the public buildings and public lamps of all types situated on the line or lines of the mains of said Company throughout the territory in which it is hereby granted the right to lay its mains and furnish open flame and mantle naphtha lamps, where such mains are not laid, if required by the Commissioner of Water Supply, Gas and Electricity, and said public buildings and lamps shall be lighted when required by the City at rates not to exceed those herebefore set forth, or as may be hereafter established by the Board. As a condition of this contract the Company binds itself to submit bids or proposals for lighting the public buildings and furnishing and lighting public lamps of all types in the entire territory in which it is granted the right to operate by this contract, along the lines of its mains as they exist or may be extended, whenever the same are advertised or called for by the Commissioner of Water Supply, Gas and Electricity, or his successor in authority, at rates not exceeding those above set forth, or which may be hereafter established by the Board.

Seventeenth—The Company shall also, in any and all bids or proposals which it may hereafter submit for lighting public buildings and lamps in the Borough of Queens, agree to repair such lamp-posts as belong to the City or may be acquired or erected by it, and erect new ones at prices not to exceed the following, except as provided elsewhere in this paragraph:

For the erection of each new lamp-post, complete (with service and standpipes when for gas), and with cross-heads, lamp-irons and lanterns in place, the sum of ten dollars (\$10).

For the sale to the City of the gas lamp-posts with gas lamps belonging to the Company, erected ready for use complete with service and standpipes connected, all in good repair, per post, the sum of eight dollars (\$8).

The Company may submit bids for any or all of these items at prices not to exceed twenty-five per cent. in excess of those above set forth, or which may be hereafter fixed by the Board, whenever, in the opinion of the Commissioner of Water Supply, Gas and Electricity these prices appear to be insufficient.

Eighteenth—During the term of this contract or any renewal thereof the Board shall have the power to regulate and fix the maximum and minimum rates to be charged by the Company throughout the territory in which it is hereby granted the right to lay its mains for gas for private lighting, provided such rates shall be reasonable and fair.

The maximum rates herein fixed for public lighting and for repairs and replacements of street lamps and posts shall continue until October 27, 1911, at which time and at the end of each period of five years thereafter during the term of the contract or any renewal thereof, the Board shall have the power to reduce such rates, provided such reduced rates shall be reasonable and fair.

Nineteenth—The Company shall supply gas to all applicants in the territory in which it is authorized to operate, not in arrears for prior bills, owning or occupying premises on streets in which gas mains or conductors are laid, and where the Company has not laid mains or conductors it shall lay the same upon the application, in writing, of the owner or occupant of any building or premises within one hundred feet of any main laid by it, provided he shall pay all money due from him to the Company. The Company, however, shall not refuse to supply gas to any person owning or occupying premises on the line of its mains or to extend its mains for that purpose if there be any rent or compensation in arrears for gas supplied, or for pipes or fittings furnished to a former occupant thereof, unless such owner applying for a supply of gas shall have undertaken or agreed with the former occupant to pay or to exonerate him from the payment of such arrears, and shall refuse and neglect to pay the same; and if for the space of ten days after such application, and the deposit of a reasonable sum as security, if required, in pursuance of section 66 of the Transportation Corporations Law, the Company shall refuse or neglect to supply gas as required, said Company shall forfeit and pay to the applicant the sum of ten dollars, and the further sum of five dollars for every day thereafter during which such refusal or neglect shall continue; provided that the Company shall not be required to lay service pipes for the purpose of supplying gas to any applicant where the ground in which such pipe is required to be laid shall be frozen or shall otherwise, in the opinion of the Board, present serious obstacles to laying the same; nor unless the applicant, if required, shall deposit in advance with the Company a sum of money sufficient to pay the cost of his portion of the pipe required to be laid, and the expense of laying such portion.

The Company shall not require or receive any deposit or advance payment in excess of what is reasonably necessary to insure payment of current bills, and on such amounts so paid the Company shall pay interest at the statutory rate. Any consumer or person who desires to be connected with the mains of the Company can apply to the Board to compel the Company to comply with the provisions of this contract, and all orders of the Board made on the request of any

such consumer or person shall be complied with by the Company.

The provisions herein made in regard to a penalty for refusal to comply with the provisions of this subdivision of the contract, and requiring the payment of interest on deposits made by consumers, may, in the event of the refusal of the Company to comply with any order of the Board, on complaint made in regard thereto, be deducted from the security fund to be deposited with the Comptroller, as hereinafter provided, and the Comptroller is authorized to deduct the amount from the said fund and pay the same to the claimant, on being directed to do so by the Board.

The repeal or amendment of section 65, of the Transportation Corporations Law, requiring the Company to extend its mains to supply gas to any building within one hundred feet of its existing mains, upon application for the same, shall not be deemed to in any way affect the provisions of this contract, except that if such amendment requires the Company to do something in addition to or not inconsistent with the provisions of this contract, then, and in that case, the Company shall comply with both the provisions of this contract and the laws of the State in regard to such extensions.

Twentieth—The Company shall assume all liability to persons or property by reason of the construction or operation of the system authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or defaults of the Company.

Twenty-first—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, either by the act of the Company, its successors or assigns, or by operation of law, whether under the provisions of the statute relating to the consolidation, merger or sale of corporations or otherwise, to any person or corporation whatsoever, nor shall the Company, its successors or assigns, in any manner consolidate or pool its stock, business or interests, or enter into any agreement for a division of business, interest or territory, or to prevent competition or a reduction in rates, or acquire, own or make use of or in any manner exercise control over any of the rights, privileges, franchises or stock, or use, own, control or operate any of the property, works, plants or appliances of any such persons or corporations without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in any wise notwithstanding, and the granting, giving, or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents. Nothing herein contained shall apply to any mortgage or mere lienor, but shall apply to any purchaser upon foreclosure or under or by virtue of any provision of a mortgage or lien.

In the event of any consolidation, sale or merger with any other gas company operating in the same territory whereby any duplication of plant or mains shall be effected, such duplication shall not be included in the assets on which a return is to be provided in fixing a reasonable rate.

Twenty-second—The Company hereby agrees and stipulates that any and all rights which by its incorporation it may now have or may hereafter acquire, under the law, as it now exists or may be hereafter amended or altered, whereby it may purchase, acquire or hold stock, bonds or other evidences of indebtedness in any other corporation, are hereby waived; but the Company may exercise such rights upon acquiring the consent of the Board so to do, under such conditions as it may impose.

its occupancy of such streets, or fail to comply with any provision of this contract, the Board may give written notice to the said Company, specifying any default on the part of said Company, and requiring said Company to remedy the same within a reasonable time, and upon the failure of the Company to remedy said default within a reasonable time said Company shall for each day thereafter during which the default or defect remains pay to the City the sum of one hundred dollars (\$100), as fixed or liquidated damages, or the said City, in case such structures which may affect the surface of the streets, shall not be put in good condition within a reasonable time after notice by the Board, as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the said Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, or in default of such payment, the same shall be a proper charge against and may be deducted from the security fund to be deposited with the Comptroller as hereinafter provided.

If, for a period of two consecutive weeks, the gas system of the Company shall not be operated, the Board may declare the right and franchise granted by this contract terminated without further proceedings in law or in equity, if it shall appear, in the judgment of said Board, that the same was not operated through the fault of the Company.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
