BUREAU OF BUILDINGS, CITY OF NEW YORK.

Regulations for the Construction, Inspection and Operation of Elevators, Adopted by the Superintendents of Buildings, City of New York, in Effect September 1, 1911.

1. The term "elevator" as used in these regulations shall include all elevators or lifts used for the carrying of passengers or employees. The term "dumbwaiter" shall include such special form of elevator, the dimensions of which do not exceed nine square feet in horizontal section, and four feet in height, and which is used for the conveyance of small packages and merchandise. So far as practicable, these regulations shall also apply to escalators. Where freight elevators are placed within the same shaft enclosure as passenger elevators, such elevators must conform in all particulars to the regulations for the construction, inspection and operation of passenger elevators. All other freight elevators must comply with sections 3, 4, 6, 7, 10, 12, 13, 14, 15, 17, 18, 19, 20, 21 and 22 of the Regulations for Passenger Elevators. Any hand power elevator having a rise of more than thirty-five feet shall comply with all the requirements of these regulations. No belt elevators driven from a countershaft shall be installed for passenger service.

2. All elevators must be inspected as often as possible by an Inspector of the Bureau of Buildings, known and designated as Inspector of Elevators, in accordance with the rules and regulations of the Bureau prescribing the duties and governing the actions of the employees.

3. Before any elevator shall hereafter be installed or altered in any building, the owner or his agent, architect or contractor shall submit, on appropriate blanks furnished therefor, to the Superintendent of Buildings an application in triplicate stating the construction and mode of operation of such elevator to be installed or altered, and shall obtain his approval therefor. This application shall be accompanied by such plans and drawings as may be necessary. Before any such elevator shall be put into service, the same shall have been duly tested and inspected under the supervision of an Inspector of Elevators and a certificate of such inspection issued and a formal approval obtained from the Superintendent of Buildings. In making any changes or alterations to elevator shafts, rails, overhead machinery or power, all the work changed or altered must be made to conform to the present law and regulations.

4. The owner, lessee, manager or other person having charge or control of any elevator now in operation and the manufacturer of any such elevator hereafter placed in any building, shall cause to be fastened in a conspicuous place in said elevator a metal plate, having suitable raised letters on same, which shall designate the number of pounds weight which said elevator shall be permitted to carry, but in no case shall a carrying capacity of less than 75 pounds per square foot of platform area inside the car be permitted on any passenger elevator.

5. Every elevator, except full automatic push button elevators in private dwellings occupied by one family, must be in charge of a competent operator of reliable and industrious habits, not less than eighteen years of age, with at least one month's experience in running an elevator under the instruction of a competent person. In case the Superintendent of Buildings shall become satisfied that the person engaged in running any elevator is incompetent or disqualified from any cause to continue to run the same, the owner or person managing or controlling the elevator shall, upon notice from the Superintendent of Buildings, at once replace the said operator by a competent operator.

6. Elevator shafts and doors of same in non-fireproof buildings must be constructed fireproof and made solid for their full height. Any lights that may be desired in these doors must be provided with wire glass. No one pane of wire glass shall exceed five square feet in area. No more than one opening in the elevator shaft will be allowed on each floor, and all openings in the several stories shall be above the other, unless the elevator is used exclusively for freight purpose, except that where the operation device of the elevator is so placed that the operator can readily control all doors without leaving the car control, more than one opening will be permitted on a floor.

7. In all cases where the law or regulations permit grill work enclosing the shaft or car, it shall be of substantial material and construction, properly braced and carried the full height of openings, and there shall not be more than one and one-half inch space between any two members of said grill work except where plain straight

bars are used, not filled in with scroll, when there shall not be more than one inch space between members.

8. All doors or gates leading to any elevator shaft shall be locked or bolted on the shaft side so as to be opened only by the operator of the car, and said shaft doors or gates and car gates shall be closed before the car is put in motion.

9. All entrances to elevator cars must be provided with substantial folding or sliding gates or doors, and where floor tracks are used the same must be countersunk. All folding gates over three feet wide at entrance to shaft or car shall have top and bottom centre braces.

10. All counterweights shall have their sections strongly bolted together. There shall not be less than three feet clearance between the top of counterweights and the underside of overhead beams when the car is resting on the bumpers. No continuous forged straps shall be permitted on counterweights.

11. Where counterweights run in the same shaft as the car they must be protected with a substantial screen of iron from the top of rail to a point fifteen feet below, except where the plunger or traction type of elevator is used.

12. All elevators, except direct plunger elevators and freight elevators having a rise of fifteen feet or less, shall have a governor or speed regulator properly connected to the safety devices on the car, in such a manner that the car will be brought to rest with an easy and gradual stop, or in a distance not greater than eight feet for a speed of seven hundred feet per minute, except that on elevators having a speed of 100 feet per minute or less safeties of the instantaneous type may be used. Every elevator operating on alternating current electricity shall be equipped with an electro mechanical brake, or some such device as will insure the brake being applied at any time should the current be interrupted from the service. All electric car controlling devices shall be self-centering and self-locking in inoperative position. All hoisting machines of the drum type shall have an automatic slack cable device that will stop the machine if the hoist or drum weight cables shall become slack from any cause. All elevators shall have upper and lower limit devices on the machine or in the shaft. No elevator shall be used for the carrying of safes or other material of a greater weight than the normal lifting power of such elevator, unless the car is equipped with a locking device which will hold it fixed at any landing independent of the rope while such safe or other material is being loaded or unloaded.

13. The car of all elevators must be constructed of incombustible materials, except that interior trim and flooring may be of hardwood. There shall be not more than one and one-quarter inches space between the floor of the car and the floor saddles, and where the saddles project into the shaft the same shall be properly bevelled on the underside. The underside of the car must be of incombustible materials. Cars for all elevators shall be properly lighted.

14. All guide rails for both car and counterweights shall be of iron or steel, and shall be fastened to the sides of the shaft with wrought or cast-iron brackets, so spaced that the guide rails will be rigid.

15. There shall be not less than two cables independently connected to the car and to each set of counterweights. The lifting and weight cables shall have at least one full turn of the cable on the drum when they have reached the limit of travel. Such cables shall be of a diameter to insure a factor of safety of five. All cables used in the operation of elevators shall be of steel, iron or "Marlin" covered. Where overhead machines are installed the use of equalizer arms will be permitted on the car and counterweights.

16. No elevator shall be permitted to have attached above, below or on the inside of the car a freight compartment of similar device.

17. Immediately under the sheaves at the top of every elevator shaft in any building there shall be provided and placed a substantial grating of iron or steel having not more than one and one-half inch space between any two members of said grating, and of such construction as shall be approved by the Bureau of Buildings.

18. A clear space of not less than three feet must be provided between the bottom of the shaft and the lowest point of the underside of the car floor when the car is at its lowest landing, and between the top of the crosshead of the car and the underside of the overhead grating when the car is at its top landing, provided that for elevators of greater speed than 350 feet per minute, the distance between the top of the crosshead of the car and the underside of the overhead grating, when the car is at its top landing shall be not less than five feet, except in the case of elevators where the rise does not exceed thirty feet, and the speed of the elevator is not more than one hundred feet per minute, such clear space at the top of the shaft shall be not less than two feet between the top of the car and the underside of the overhead grating when the car is at its top landing.

19. All parts of the elevator machinery must be properly enclosed by suitable partitions of incombustible materials, and such inclosures must be lighted. Free and safe access must be provided to all parts of elevator machinery. Where the machine is located at the bottom of the shaft the same shall be protected with a substantial pit pan.

20. The speed of all elevators must not exceed five hundred feet per minute, except that express elevators may run seven hundred feet per minutes for that portion of the shaft in which no intermediate stops are made. Express elevators shall mean only such elevators as run eighty feet or more without stop. The speed of mechanically controlled electric elevators must not exceed one hundred and fifty feet per minute.

21. At the bottom of all elevator shafts there shall be placed substantial buffer springs for car and counterweights. Where the car does not travel to the bottom of the shaft the bumper beams shall be supported independent of the car rails. All plunger or traction type of elevators shall be provided with substantial oil buffers at the bottom of the shaft for both car and counterweights.

22. The carrying beams for all machinery shall be of wrought iron or steel.

23. Every passenger elevator shall have a trap door in the top of the car of such a size as to afford easy egress for passengers, or where two cars are in the same shaft such means of egress may be provided in the side of each car.

24. Any infraction of these regulations or failure to comply with their provisions after due notice from the Superintendent of Buildings shall be treated the same as a violation of the Building Code, and shall subject the owner to the same penalties as prescribed in section 150 of the Building Code for such violation.

Police Department.

Corporation Sales.

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO ON CITY REAL ESTATE BY SEALED BIDS.

AT THE REQUEST OF THE PRESIDENT of the Department of Education, public notice is hereby given that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale by sealed bids all the buildings, parts of buildings, etc., standing upon property owned by The City of New York, acquired by it for school site purposes in the

Borough of Richmond.

Being all the buildings, parts of buildings, etc., now standing upon the plot of ground adjoining Public School 20, and having a frontage of 200 feet on the east side of Broadway, 156 feet on the south side of Vreeland street and 156.10 feet on the north side of Elizabeth street, in the Borough of Richmond, all of which are more particularly described on a certain map on file in the office of the Collector of City Revenue, Department of Finance, Room K, 280 Broadway, Borough of Manhattan.

Pursuant to a resolution of the Commissioners of the Sinking Fund, adopted at a meeting held June 28, 1911, the sale by sealed bids of the above described buildings and appurtenances thereto will be held by direction of the Comptroller on

MONDAY, AUGUST 7, 1911,

at 11 a. m., in lots and parcels and in manner and form as follows:

Parcel No. 1. Three-story frame house on the southeast corner of Broadway and Vreeland street, Port Richmond, Staten Island.

Parcel No. 2. Two-story frame house, 16 Vreeland street, Port Richmond, Staten Island.

Sealed bids (blank forms of which may be obtained upon application) will be received by the Comptroller at the office of the Collector of City Revenue, Room K, 280 Broadway, Borough of Manhattan, until 11 a. m. on the 7th day of August, 1911, and then publicly opened for the sale for removal of the above-described buildings and appurtenances thereto, and the award will be made to the highest bidder within twenty-four hours, or as soon as possible thereafter.

Each parcel must be bid for separately and will be sold in its entirety, as described in above advertisement.

Each and every bid must be accompanied by a deposit of cash, certified check in a sum equal to 25 per cent. of the amount of the bid, except that a minimum deposit of \$50 will be required with all bids, and that a deposit of \$500 will be sufficient to entitle bidders to bid on any or all of the buildings.

Deposits of unsuccessful bidders will be returned within twenty-four hours after successful bidders have paid purchase price in full

and given security, and those of successful bidders may be declared forfeited to The City of New York by the Comptroller upon the failure of the successful bidder to further comply with the requirements of the terms and conditions of the sale as set forth hereinafter.

Successful bidders will be required to pay the purchase money and deposit the required security within twenty-four hours of the receipt of notification of the acceptance of their bids.

The Comptroller reserves the right to reject any and all bids and to waive any defects or informalities in any bid should it be deemed in the interest of The City of New York to do so.

All bids must state clearly (1) the number or description of the building or buildings bid for, (2) the amount of the bid, (3) the full name and address of the bidder.

All bids must be enclosed in properly sealed envelopes, marked "Proposals to be opened August 7, 1911," and must be delivered, or mailed in time for their delivery, prior to 11 a. m. of that date to the "Collector of City Revenue, Room K, 280 Broadway, New York City," from whom any further particulars regarding the buildings to be disposed of may be obtained.

THE BUILDINGS WILL BE SOLD FOR IMMEDIATE REMOVAL ONLY, SUBJECT TO THE TERMS AND CONDITIONS PRINTED ON THE LAST PAGE OF THIS ISSUE OF THE "CITY RECORD."

FIRST DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, for the same purpose in fee, to the lands, tenements and hereditaments required for the opening and extending of SEAMAN AVENUE, from Academy street to Dyckman street, and of UNNAMED STREET, north-easterly from Dyckman street, from Seaman avenue to Broadway, in the Twelfth Ward, Borough of Manhattan, City of New York.

NOTICE IS HEREBY GIVEN TO ALL PERSONS interested in the above-entitled proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That the undersigned, Commissioners of Estimate, have completed their estimate of damage, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with them at their office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in the City of New York, on or before the 17th day of August, 1911, and that the said Commissioners will hear parties so objecting, and for that purpose will be in attendance at their said office on the 6th day of September, 1911, at 11 o'clock a. m.

Second—That the undersigned, Commissioner of Assessment, has completed his estimate of benefit, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with him at his office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in the City of New York, on or before the 17th day of August, 1911, and that the said Commissioner will hear parties so objecting, and for that purpose will be in attendance at his said office on the 7th day of September, 1911, at 11 o'clock a. m.

Third—That the Commissioner of Assessment has assessed any or all such lands, tenements and hereditaments and premises as are within the area of assessment fixed and prescribed as the area of assessment for benefit by the Board of Estimate and Apportionment on the 18th day of June, 1909, and that the said area of assessment includes all those lands, tenements and hereditaments and premises situate and being in the Borough of Manhattan, in the City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point on a line distant 100 feet southwesterly from and parallel with the southwesterly line of Dyckman street, the said distance being measured at right angles to the line of Dyckman street, where it is intersected by a line distant 100 feet northwesterly from and parallel with the northwesterly line of F street, the said distance being measured at right angles to F street, and running thence northeastwardly and parallel with F street and the prolongation thereof to the intersection with the prolongation of a line distant 100 feet easterly from and parallel with the easterly line of Academy street, the said distance being measured at right angles to Academy street; thence southwardly along the said line parallel with Academy street and along the prolongation of the said line to a line bisecting the angle formed by the intersection of the prolongation of the southeasterly line of Seaman avenue and the northwesterly line of Broadway, as these streets are laid out between Academy street and Dyckman street; thence southwesterly along the said bisecting line to a point distant 100 feet northeasterly from the northeasterly line of the unnamed street, the said distance being measured at right angles to the unnamed street; thence southeastwardly and parallel with the unnamed street and the prolongation thereof to a point distant 100 feet southeasterly from the southeasterly line of Broadway, the said distance being measured at right angles to

Broadway; thence southwestwardly and parallel with Broadway to the intersection with the prolongation of a line distant 100 feet southwesterly from and parallel with the southwesterly line of the unnamed street, the said distance being measured at right angles to the unnamed street; thence northwesterly along the said line parallel with the unnamed street and the prolongation thereof to the intersection with the bisecting line hereinbefore described; thence southwesterly along the said bisecting line to a line parallel with Dyckman street and passing through the point of beginning; thence northwesterly along the said line parallel with Dyckman street to the point or place of beginning.

Fourth—That the abstracts of said estimate of damage and of said assessment for benefit, together with the damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by the Commissioners of Estimate and by the Commissioner of Assessment in making the same, have been deposited in the Bureau of Street Opening, in the Law Department, of the City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 17th day of August, 1911.

Fifth—That, provided there be no objections filed to either of said abstracts, the reports as to awards and as to assessments for benefit herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part I., to be held in the County Court House, in the Borough of Manhattan, in the City of New York, on the 24th day of October, 1911, at the opening of the Court on that day.

Sixth—In case, however, objections are filed to the foregoing abstracts of estimate and assessment, or to either of them, the motion to confirm the reports as to awards and as to assessments shall stand adjourned to the date to hereafter specified in the notice provided in such cases to be given in relation to filing the final reports, pursuant to Sections 981 and 984 of the Greater New York Charter, as amended by Chapter 658 of the Laws of 1906.

Dated Borough of Manhattan, New York, July 19, 1911.

SECOND DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, for the same purpose in fee, to the lands, tenements and hereditaments required for the opening and extending of SKILLMAN PLACE (although not yet named by proper authority), from Hunter avenue to Jackson avenue, in the First Ward, Borough of Queens, City of New York.

NOTICE IS HEREBY GIVEN TO ALL PERSONS interested in the above-entitled proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That the undersigned, Commissioners of Estimate, have completed their estimate of damage, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with them at their office, in the Municipal Building, Court House square, Long Island City, in the Borough of Queens, in the City of New York, on or before the 21st day of August, 1911, and that the said Commissioners will hear parties

ties so objecting, and for that purpose will be in attendance at their said office on the 14th day of September, 1911, at 3 o'clock p. m.

Second—That the undersigned, Commissioner of Assessment, has completed his estimate of benefit, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with him at his office, in the Municipal Building, Court House square, Long Island City, in the Borough of Queens, in The City of New York, on or before the 21st day of August, 1911, and that the said Commissioner will hear parties so objecting, and for that purpose will be in attendance at his said office on the 14th day of September, 1911, at 4 o'clock p. m.

Third—That the Commissioner of Assessment has assessed any or all such lands, tenements and hereditaments and premises as are within the area of assessment fixed and prescribed as the area of assessment for benefit by the Board of Estimate and Apportionment on the 26th day of March, 1909, and that the said area of assessment includes all those lands, tenements and hereditaments and premises situate and being in the Borough of Queens, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Bounded on the north by a line distant 100 feet northerly from and parallel with the northerly line of Skillman place, and by the prolongations of the said line; on the east by a line distant 100 feet easterly from and parallel with the easterly line of Jackson avenue; on the south by a line distant 100 feet southerly from and parallel with the southerly line of Skillman place, and by the prolongations of the said line, and on the west by a line distant 50 feet easterly from and parallel with the easterly line of Academy street.

All distances are intended to be measured at right angles to the line to which they are referred, as such area of assessment is shown upon the Commissioner's map, deposited as aforesaid.

Fourth—That the abstracts of said estimate of damage and of said assessment for benefit, together with the damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by the Commissioners of Estimate and by the Commissioner of Assessment in making the same, have been deposited in the Bureau of Street Openings, in the Law Department, of The City of New York, in the Municipal Building, Court House square, in the Borough of Queens, in said City, there to remain until the 21st day of August, 1911.

Fifth—That, provided there be no objections filed to either of said abstracts, the reports as to awards and as to assessments for benefit herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof, for the hearing of motions, to be held in the County Court House, in the Borough of Brooklyn, in The City of New York, on the 19th day of October, 1911, at the opening of the Court on that day.

Sixth—In case, however, objections are filed to the foregoing abstracts of estimate and assessment or to either of them, the motion to confirm the reports as to awards and as to assessments shall stand adjourned to the date to be hereafter specified in the notice provided in such cases to be given in relation to filing the final reports, pursuant to Sections 981 and 984 of the Greater New York Charter, as amended by Chapter 658 of the Laws of 1906.

Dated Borough of Manhattan, New York, July 27, 1911.
