

Inspection Checklist: Carpet and Carpet Cushions with Volatile Organic Compounds

Does your business sell carpet or carpet cushions with volatile organic compounds?

Definition: Volatile Organic Compounds (VOCs) are emitted as gases from certain solids or liquids. VOCs include a variety of chemicals, some of which may have short- and long-term adverse health effects.

Definition: Carpet is any heavy fabric that covers a floor. It can be made from natural and/or synthetic fibers and includes the carpet backing (the material attached to the bottom of the carpet for reinforcement).

Definition: Carpet cushion is any padding put underneath carpet before it is installed.

Use this checklist to learn what our inspectors look for and help avoid violations. All businesses also must comply with the General Retail Inspection Checklist, which is included at the end for easy reference.
