Pursuant to Local Law 88 of 2015, the Department is required to submit a report each quarter containing information related to the population of incarcerated individuals in city jails for the preceding quarter. Such quarterly report shall include information based on the number of admissions during the reporting period, the average daily population, and the percentage of the average daily population for each category.

¹ Education is self-reported on the intake Risk Screening Form when individuals come into DOC custody. Because an individual has the option whether or not to provide such information, the data captured does not accurately represent the incarcerated population's general educational background. Council may seek further information from the Department of Education for education background on individuals in custody from ages 18-21.
