## BOARD OF ESTIMATE AND APPOINTMENT.

### Notices of Public Hearings.

#### FRANCHISE MATTERS.

PUBLIC NOTICE IS HEREBY GIVEN, pursuant to law, that at a meeting of the Board of Estimate and Apportionment held December 22, 1916, the following petition was received:

New York, December 21, 1916.

To the Board of Estimate and Apportionment, New York City:

The undersigned, The Staten Island Railway Company, hereby respectfully petitions The City of New York for a modification of the contract between The City of New York and said Railway Company, dated December 26, 1912, as amended by resolution of the Board of Estimate and Apportionment October 8, 1915, approved by the Mayor October 18, 1915, whereby the City granted to said Railway Company, subject to the conditions and provisions therein set forth, the right and privilege to construct, and complete on or before December 26, 1916, and to maintain and operate additional or second standard gauge railroad tracks across and upon or over eight streets and avenues in the Fifth Ward, Borough of Richmond, such modification to provide that the rights granted to the said Railway Company by said contract, as extended by said resolutions, shall be confirmed as to the following tracks, the construction of which has been completed at the date hereof, namely: The tracks crossing Huguenot Avenue, Seguin Avenue and over Amboy Road, approximately 1,400 feet west of Huguenot Avenue; and that the rights to construct, maintain and operate second tracks across Bay View, Manee, Woodville and Sharrot Avenues and Amboy Road near Pleasant Plains station shall cease and determine without prejudice to any future application for the granting of such rights, and that the Railway Company shall not be required to make any further payments for the privilege of constructing and maintaining tracks across said five last named streets under said contract, but shall continue to pay the City the sum fixed by said contract for said three crossings which have been completed as hereinabove stated, namely, the sum of \$100 per annum for each of said crossings so completed.

The reason for this application is that the Railway Company has for the time being abandoned its purpose of completing the construction of a double track upon that portion of its line which crosses the five streets last above referred to, because its operation does not now require such double tracking and because of the fact that the Railway Company has been advised that it is contemplated by the Public Service Commission that it may require the elimination of existing grade crossings thereon, and the Railway Company desires to avoid the additional expense of constructing such additional tracks until the time when such elimination and the necessary condition thereof and the changes and adjustments in its line incidental thereto may be determined upon.

THE STATEN ISLAND RAILWAY COMPANY, by G. J. Brown, Assistant Secretary, State of New York, County of New York, City of New York, ss.:

On this 21st day of December, 1916, before me personally came George J. Brown, to me known and known to me to be the same person described in and who signed the foregoing petition, and he acknowledged to me that he had signed the same.

Whereas, the foregoing petition from the Staten Island Railway Company, dated December 21, 1916, was presented to the Board of Estimate and Apportionment at a meeting held December 22, 1916.

Resolved, that in pursuance of law this Board sets Friday, the 26th day of January, 1917, at

## NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 will be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolitions shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that this work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days

from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portions as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

"No buildings, parts of buildings, fixtures or machinery sold for removal under these terms and conditions, shall in any case be re-located or re-erected within the lines of any proposed street or other public improvement, and if any such buildings, parts of buildings, fixtures or machinery, etc., shall be re-located or re-erected within the lines of any proposed street or other public improvement, title thereto shall thereupon become vested in The City of New York and a resale at public or private sale may be made in the same manner as if no prior sale thereof had been made."

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids, and be it further

Resolved, That while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
