## DEPARTMENT OF HEALTH.

### REPORT FOR THE WEEK ENDING FEBRUARY 21, 1914.

### THE NEW ADMINISTRATION'S SUPPORT OF PUBLIC HEALTH WORK.

The modern progressive conception of the interrelation existing between general civic welfare and public health was well illustrated by the emphasis placed on public health administration by practically all the speakers at a meeting held last Monday evening to discuss "Some of the City's Social Needs." Organized by the Charity Organization Society to mark the thirty-first anniversary of the Society's foundation, and including among its speakers Mayor Mitchel, Comptroller Prendergast and

President of the Board of Aldermen, the meeting may be said to have officially expressed the policy of the new administration towards matters of municipal social welfare.

To those who regard the function and obligation of public health authorities as something more than the supervision and treatment of contagious diseases, it was in the highest degree encouraging to note the breadth of view and the thorough grasp of the significance of public health thus disclosed. Looking to the Commissioner of Health to bring the machinery of his Department to the highest degree of efficiency, the administration pledged itself to give hearty support, so far as lay in its power, to all efforts to improve the health and welfare of the community. Health centres, organized public health education, improvement in hospital and dispensary conditions, better supervision of foods, broadening of the work of the infant milk stations, better supervision of and increased accommodations for the care of the tuberculous—these were some of the activities commended. The Department of Health has reason to be gratified by the cordial support thus promised, and will endeavor in every way to justify the confidence expressed in its work.

### THE DISPENSARY TREATMENT OF VENEREAL DISEASES IN THE CITY OF NEW YORK.

Two years ago, when the Board of Health began its campaign against the venereal diseases, a request was made of the City authorities for funds for the establishing of venereal clinics. The reason for this request was the fact that at that time, with perhaps one or two exceptions, the public clinics and dispensaries in The City of New York did not regularly follow modern methods for the diagnosis and treatment of the venereal diseases. The Department of Health's request was opposed on the ground that the existing clinics should be stimulated to do the work properly. The Department of Health has recently completed an investigation of the treatment regularly carried on in the dispensaries in this City and is glad to state that conditions with respect to the treatment of the venereal diseases, is much improved. Credit for this improvement belongs largely to the Associated Out-Patient Clinics of the City of New York.

The Department believes that Wassermann tests should be made upon all cases of syphilis; that there be facilities for making microscopic examination for treponema, and that complement fixation tests and microscopic examinations for gonococci be made in all cases of gonorrheal infection prior to discharging the patient.

The Department of Health takes pleasure in publishing the following list of clinics which have taken special pains to come up to this standard; the last two in fact have established night clinics where women with syphilis may be treated. The Department hopes that the example set by these clinics will soon be followed by others and that in the near future the clinic treatment of the venereal diseases will be on a thoroughly scientific and satisfactory basis:

### ISOLATION ROOMS REQUIRED IN ALL PUBLIC HOSPITALS.

Attention has been called to the fact that some of the hospitals in this City invariably transfer all cases of contagious disease which occur among their patients to the hospitals maintained by the Department of Health. This course is open to grave criticism in that the transfer may endanger the patient's life. Section 140 of the Sanitary Code provides that every public hospital and dispensary in The City of New York shall be provided with and maintain a suitable room or rooms for the temporary isolation of persons suffering from certain contagious diseases. The Department of Health is now taking steps to learn to just what extent this regulation has been complied with and will shortly begin systematic efforts to bring about the adoption of the best possible standard in all institutions subject to the inspection and supervision of the Department.

### "HEAVEN THE ONLY PROPER PLACE FOR CHILDREN SUFFERING FROM CONTAGIOUS DISEASES."

At a hearing before the Committee on Public Health of the Board of Aldermen, Thursday, February 19, the Commissioner of Health declared that it was apparently the sentiment of some of the speakers, who opposed the construction of a hospital for communicable diseases at Seton Falls Park, Borough of The Bronx, that the only suitable place for a child suffering from an infectious disease was heaven.

Dr. Goldwater pointed out that The Bronx had long been in need of the proposed hospital and that the project for its construction had lain dormant since 1903, when the City first purchased property for the purpose; he said that Bronx children in need of hospital care were now either kept in their homes, to the danger of their families and neighbors, or were transported either to Willard Parker Hospital, at the foot of E. 16th st., or to Kingston Avenue Hospital, Brooklyn. The Health Commissioner stated that the diphtheria wards at Willard Parker Hospital were overcrowded, and that the mortality rate from contagious diseases was higher in hospitals where overcrowding existed than in hospitals where ample air space was allotted to each patient; the postponement of The Bronx hospital project therefore meant that avoidable deaths were occurring in the hospitals of the Health Department.

The Seton Falls property is a tract of 33 acres, immediately south of 233d street, between Baychester avenue and Seton avenue, and is known as Seton Falls Park. The Board of Estimate and Apportionment has approved this site, and it now awaits the final approval of the Board of Aldermen.

At the hearing the Health Commissioner presented letters from the residents of The Bronx, urging the Department of Health to build the hospital without delay.

### THE SALE OF BICHLORIDE OF MERCURY.

At a meeting of the Board of Health of the Department of Health, held February 17, 1914, the following resolution was adopted:

Whereas, Bichloride of mercury, otherwise corrosive sublimate, a poison, has frequently been taken by mistake and loss of life has resulted therefrom, therefore be it Resolved, That section 67a of the Sanitary Code be and the same is hereby amended to take effect March 1, 1914, so as to read as follows:

Section 67a. No person shall sell or offer for sale at retail bichloride of mercury, otherwise known as corrosive sublimate, in the dry form except upon the prescription of a duly authorized registered physician or veterinary surgeon, and then only, in tablets of a particularly distinctive form and color, labeled POISON upon each tablet and dispensed in sealed glass containers conspicuously labeled with the word POISON in red letters.

This section does not apply to any preparation containing one-tenth of a grain or less of bichloride of mercury.

#### Proposals.

##### INVITATION TO CONTRACTORS.

**Part of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad.**

**THE PUBLIC SERVICE COMMISSION FOR** the First District (hereinafter called the "Commission") invites proposals to construct Section No. 6-A of Routes 4 and 38, a part of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad.

The points within the City of New York between which the said part is to run and the route or routes to be followed are briefly as follows:

**SECTION NO. 6A.** Beginning at a point under Seventh Avenue, in the Borough of Manhattan, about one hundred (100) feet south of the southerly building line of West Forty-third Street, and extending thence northerly under Seventh Avenue to a connection with the present Manhattan-Bronx Rapid Transit Railroad.

The general plan of construction calls for a subsurface railroad having four tracks.

The Contractor will not be required to provide or lay tracks, ties or ballast, except for the temporary operating track in the Manhattan-Bronx Rapid Transit Railroad, as provided in the form of contract.

The work under the contract will include the care and support of buildings, vaults, sewers, pipes, railroads and other surface, subsurface and overhead structures; the maintenance of traffic; the restoration of pavements and other surfaces; and the removal and reconstruction of portions of the Manhattan-Bronx Rapid Transit Railroad in order to provide a connection with the railroad.

The removal and reconstruction of portions of said Manhattan-Bronx Rapid Transit Railroad must be so conducted as not to interfere with or interrupt the safe and continuous operation of trains in said Railroad, and the Contractor shall be responsible for the support, maintenance, safety and protection of said Railroad, including its equipment and rolling stock, and for the safety and protection of passengers and other persons therein. Before removing any part of said Railroad the Contractor must obtain a permit from the Interborough Rapid Transit Company. The Contractor will be required to furnish security to said Interborough Rapid Transit Company in connection with said permit by depositing a bond, cash or securities in the sum of five hundred thousand dollars (\$500,000).

The method of construction will be by trench excavation under cover, unless otherwise permitted by the Commission.

Bidders must examine the form of contract and the specifications, maps and plans; must visit the location of the work and inform themselves of the present conditions along the line thereof and make their own estimates of the facilities and difficulties attending the execution of the proposed work.

A fuller description of the work to be done and other requirements, provisions, details and specifications are stated in the form of contract and in the contract drawings therein referred to, which are to be deemed a part of this invitation. Copies of the form of contract, contract drawings, bond and contractor's proposal may be inspected and purchased at the office of the Commission, No. 154 Nassau Street, Borough of Manhattan, New York City.

The City of New York (hereinafter called the "City") and the Interborough Rapid Transit Company will both be parties to the contract; the Interborough Rapid Transit Company being a party for the purpose of disbursing part of its contribution toward the cost of construction as provided in the contract dated March 19, 1913, between the City, acting by the Commission, and

Interborough Rapid Transit Company for the equipment, maintenance and operation of additional rapid transit railroads. The liability of Interborough Rapid Transit Company under the contract will be limited to an amount equal to ninety-five per centum (95%) of the total estimated amount to be paid to the Contractor under the contract.

Partial payments to the Contractor will be made monthly as the work proceeds.

The Contractor must complete the work within thirty-three (33) months from the delivery of the contract.

**Sealed bids or proposals will be received** at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 12th day of March, 1914, at twelve fifteen (12.15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission.

A statement based upon estimate of the Engineer, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required is to be found in the schedule forming a part of the form of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

Every proposal must, when submitted, be enclosed in a sealed envelope endorsed "Proposal for Constructing Part of Rapid Transit Railroad—Routes Nos. 4 and 38, Section No. 6-A," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a separate certified check for the sum of fifteen thousand dollars (\$15,000), payable to the order of the Comptroller of the City, and drawn upon a national or state bank or trust company satisfactory to the Commission, having its principal office in the City of New York. Such check must not be enclosed in the envelope containing the proposal.

The unit prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

At the time of the delivery of the contract the Contractor shall furnish security to the City by depositing a bond in the form annexed to the form of contract or cash or approved securities in the sum of two hundred and fifty thousand dollars (\$250,000). Before removing any part of the Manhattan-Bronx Rapid Transit Railroad the Contractor will also be required to give a bond, cash or securities in the sum of five hundred thousand dollars (\$500,000) to Interborough Rapid Transit Company in connection with the permit to be obtained from said company as aforesaid.

As further security fifteen (15) per centum of the amounts certified from time to time to be due to the Contractor will be deducted until the amounts so deducted and retained shall equal ten (10) per centum of the total estimated amount to be paid to the Contractor under the contract. Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amounts certified from time to time to be due to the Contractor.

Deposits made by bidders whose proposals are not accepted will be returned within five (5) days after the contract is executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

##### INVITATION TO CONTRACTORS.

**Part of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad.**

**Part of Routes Nos. 4 and 38.**

**THE PUBLIC SERVICE COMMISSION FOR** the First District (hereinafter called the "Commission") invites proposals to construct Section No. 4 of Routes 4 and 38, a part of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad.

The points within The City of New York between which the said part is to run and the route or routes to be followed are briefly as follows:

**Section No. 4.**—Beginning at a point under Seventh Avenue Extension, in the Borough of Manhattan, opposite the southerly building line of Commerce Street and extending thence northerly under Seventh Avenue Extension and Seventh Avenue to a point about seventy-nine (79) feet north of the northerly building line of West Sixteenth Street.

The general plan of construction calls for a subsurface railroad having four tracks. The details of the construction of the Railroad and appurtenances are more particularly indicated on the contract drawings.

The Contractor will not be required to provide or lay tracks, ties or ballast nor to do station finish work.

The work of construction under the contract will include the construction of all necessary sewers and connections, along or off the route of the railroad; also the necessary support, maintenance, readjustment and reconstruction of vaults adjacent to buildings, pipes, tubes, conduits, subways or other subsurface structures; the support and care, including underpinning or the maintaining, protecting and securing, where necessary, of all buildings, monuments, surface and subsurface railroads and other surface, subsurface and overhead structures of any kind, etc., affected by the work or interfered with during the construction of the work; also the restoration of the sidewalks and roadways.

The method of construction, unless otherwise permitted by the Commission, will be partly by trench excavation under cover and partly by open trench excavation without cover as set forth in the form of contract.

Bidders must examine the form of contract and the specifications, maps and drawings; must visit the location of the work and inform themselves of the present conditions along the line thereof and make their own estimates of the facilities and difficulties attending the execution of the proposed work.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated, in the printed form of contract and in the contract drawings therein referred to. Printed copies of the form of contract, bond and contractor's

proposal may be had on application at the office of the Commission, No. 154 Nassau street, Borough of Manhattan, City of New York. The contract drawings may be inspected at the same office, and copies thereof may be purchased by prospective bidders on payment of five dollars (\$5). The printed form of contract and the contract drawings are to be deemed a part of this invitation.

The City of New York (hereinafter called the "City") and the Interborough Rapid Transit Company will both be parties to the contract; the Interborough Rapid Transit Company being a party for the purpose of disbursing part of its contribution toward the cost of construction as provided in the contract dated March 19, 1913, between the City, acting by the Commission, and Interborough Rapid Transit Company for the equipment, maintenance and operation of additional rapid transit railroads. The liability of Interborough Rapid Transit Company under the contract for which bids are now invited will be limited to an amount equal to ninety-five (95) per centum of the aggregate sum arrived at by multiplying the estimated approximate quantities by the unit prices as contained in the Schedule of Unit Prices in the contractor's proposal. The contractor is to accept the obligation of the Interborough Rapid Transit Company to make payments to the amount and in the manner provided in the contract and is to agree not to look to the City except to the extent that the amounts earned under the contract may exceed the amount for which the Interborough Rapid Transit Company is liable.

Partial payments to the contractor will be made monthly as the work proceeds, as provided in the form of contract.

The contractor will be required to complete the work as soon as practicable and within a period of thirty-three (33) months from the date of the delivery of the contract.

**Sealed bids or proposals will be received** at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 2d day of March, 1914, at twelve fifteen (12.15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

A statement, based upon estimate of the Engineer of the Commission, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required is to be found in the schedule forming a part of the form of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

All proposals must, when submitted, be enclosed in a sealed envelope endorsed "Proposal for Constructing Part of Rapid Transit Railroad—Routes Nos. 4 and 38, Section No. 4," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a separate certified check for the sum of Fifteen Thousand Dollars (\$15,000), payable to the order of the Comptroller of the City and drawn upon a National or State bank or trust company satisfactory to the Commission, having its principal office in The City of New York. Such check must not be enclosed in the envelope containing the proposal.

The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Bidders whose proposals are otherwise satisfactory, in case the sureties or securities named by them are not approved by the Commission, may substitute in their proposals the names of other sureties or securities approved by the Commission, but such substitution must be made within five (5) days after notice of disapproval, unless such period is extended by the Commission.

A bidder whose proposal shall be accepted shall, in person or by duly authorized representative, attend at the said office of the Commission within ten (10) days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract, the contractor will be required to furnish security to the City by giving a bond for One Hundred and Fifty Thousand Dollars (\$150,000). At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under the contract, they must be of the character of securities in which savings banks may invest their funds and must be approved by the Commission.

The contractor's bond must be in the form annexed to the form of contract.

In addition and as further security fifteen (15) per centum of the amounts certified from time to time to be due to the contractor will be deducted, until the amounts so deducted and retained shall equal ten (10) per centum of the sum of the amounts resulting from the product of the estimated approximate quantities and the Unit Prices as contained in the Schedule of Unit Prices in the contractor's proposal. Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amounts certified from time to time to be due to the contractor. The contractor may from time to time withdraw portions of the amounts so retained upon depositing in lieu thereof corporate stock of the City equal in market value to the amount withdrawn.

In case of failure or neglect to execute and deliver the contract or to execute and deliver the required bond or to make the required deposit, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case, the Commission will give notice thereof to such defaulting bidder, and the Commission may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Commission, it will be to the best interests of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and if the bidder shall fail within ten (10) days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and

deliver the contract and to execute and deliver the bond with sureties or to make the required deposit, then this invitation to Contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damage by it sustained by reason of such failure, and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five (5) days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

Resolved, That the Board of Estimate and Apportionment of The City of New York will hold a public hearing in the City Hall, Borough of Manhattan, City of New York, on Friday, March 13, 1914, at 10.30 o'clock a. m., on a petition from St. Vincent's Hospital and eight other property owners, requesting the discontinuance of the proceeding authorized by the Board on January 9, 1913, for acquiring title to a sewer easement in Kissel avenue, and in Brighton boulevard and in its prolongation, between Castleton avenue and Kill von Kull, Borough of Richmond.

The procedure for the imposition and collec-

tion of the penalties in this contract shall be as follows:

The Board, on complaint made, shall give notice to the Company, directing its President or other officer to appear before the Board on a certain day not less than ten (10) days after the date of such notice, to show cause why the Company should not be penalized, in accordance with the foregoing provisions. If the Company fails to make an appearance, or, after a hearing, appears in the judgment of the Board to be in fault, said Board shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to the Board to be just, and without legal procedure direct the Comptroller to withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts upon the security fund the Company shall, upon ten (10) days notice, in writing, pay to the City a sum sufficient to restore said security fund to the original amount of fifteen thousand dollars (\$15,000), and in default thereof this contract shall be cancelled and annulled at the option of the Board, acting in behalf of the City. Twenty-sixth—In case of any violation or breach or failure to comply with any of the provisions herein contained this contract may be forfeited by a suit brought by the Corporation Counsel on notice of ten (10) days to the Company, or at the option of the Board, by resolution of said Board, which said resolution may contain a provision to the effect that the system constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity. Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear action may be taken by the Board forthwith.

Twenty-seventh—If at any time the powers of the Board or any other of the authorities herein mentioned, or intended to be mentioned, shall be transferred by law to any other board, authority, officer or officers, then and in such cases such other board, authority, officer or officers shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Twenty-eighth—The words "notice" or "direction," wherever used in this contract, shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the city, postage prepaid, addressed to the Company at the city. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Twenty-ninth—The words "streets and avenues" or "streets or avenues," wherever used in this contract, shall be deemed to mean streets, avenues, highways, parkways, driveways, concourses, boulevards, bridges, viaducts, tunnels, public places or any other property to which the City has title or over which the public has an easement, included within the limits of the territory in which the Company is hereby authorized to operate.

Thirtieth—The grant of this privilege is subject to whatever right, title or interest the owners of abutting property or others may have in and to the streets and avenues of the territory in which the Company is authorized to operate by this contract.

Thirty-first—Nothing herein contained shall be deemed to grant any right or privilege to the Company to make or continue any installation of its apparatus in the Headquarters or Fire Alarm Telegraph Bureau of the Fire Department, or to connect or continue to connect in any way with the City's Fire Telegraph system, and no such installation or connection shall be made or continued without the separate additional consents of the Board and of the Fire Commissioner. The Company agrees that any consent so granted shall be a mere temporary and revocable license to make such installations or such connections, which may be revoked by resolution of the Board, approved by the Mayor, at any time, and when so revoked the Company holds and will hold the City harmless from any loss or damage sustained or which may be sustained by the Company or any of its subscribers on account of such revocation.

The Company further agrees that if permitted to make such installations or connections it will comply with all rules and regulations now in force or which may hereafter be made by the Fire Commissioner, and will pay such reasonable sum or sums as may be fixed by the Board on the recommendation of the Fire Commissioner for the space in such places where it makes its installations or for the use of such portions of the City's telegraph systems as it may use in making such connections, or for such other facilities as may be afforded to it by the City, and will pay such reasonable sum or sums as may be imposed by the Fire Commissioner as a penalty for each and every false alarm transmitted by its apparatus.

Nothing herein contained, however, shall be deemed to, nor shall the same affect in any manner the provision contained in section 2-Ninth of this contract, and no consent granted under this clause shall authorize or permit the making or the continued use of the connections therein prohibited.

Sec. 3. Nothing in this contract shall be construed as in any way limiting the present or future jurisdiction of the Public Service Commission under the laws of the State of New York.

Resolved, That the Board of Estimate and Apportionment hereby grants to The Loomis Cold Storage Company the franchise or right fully set out and described in the following form of proposed contract for the grant thereof, embodying all the terms and conditions, including the provisions as to rates and charges, upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

PROPOSED FORM OF CONTRACT.

This contract, made this day of 1914, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the Loomis Cold Storage Company (hereinafter called the Company), party of the second part, witnesseth:

In consideration of the mutual covenants and agreements herein contained the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to construct, maintain and operate certain pipes or conduits with the necessary branches and extensions therefrom, leading directly into private property, for the sole purpose of supplying refrigeration to consumers, provided that no pipe or conduit be of a greater outside diameter than twelve (12) inches, including insulation or other covering; the same to be constructed and operated only beneath the surface of such of the streets, avenues and highways situate within the Borough of Manhattan, City of New York, as are included within the districts bounded and described as follows:

District No. 1.  
Bounded on the north by the centre line of Park place, on the west by the westerly line of West street, on the south by the centre line of Vesey street, and on the east by the centre line of Washington street.

Provided, however, that upon written application to the Board by the Company the Board may, by resolution, extend the lines of District No. 1 hereinafter described to all or any part of a district bounded and described as follows:

District No. 2.  
Bounded on the north by the centre line of Murray street, on the west by the westerly line of West street, on the south by the centre line of Fulton street, and on the east by the centre line of Greenwich street.

Both of which districts being more particularly shown—District No. 1 by full red lines and District No. 2 by dashed red lines—on a map entitled

"Map showing districts applied for by the Loomis Cold Storage Company, to accompany petition dated December 10, 1913, to the Board of Estimate and Apportionment, City of New York."

—signed by Edward N. Loomis, President, a copy of which is hereto annexed and made a part of this contract.

Should District No. 1 be extended, as hereinbefore provided, then the terms and conditions of this contract shall apply to such extended district.

Sec. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The said right to construct, maintain and operate said pipes and conduits shall be held and enjoyed by the Company for the term of fifteen (15) years from January 1, 1914, with the privilege of renewal of said contract for the further period of ten (10) years, upon a fair revaluation of such right and privilege.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two (2) years and not later than one (1) year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach such agreement on or before the day one (1) year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding ten (10) years shall be reasonable, and either the City (by the Board) or the Company shall be bound, upon request of the other, to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, but in no case shall the annual rate so fixed be less than the sum required to be paid for the last year prior to the termination of the original term of this contract, and if the parties shall not forthwith agree upon what is reasonable then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders, selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six (6) months prior to the expiration of this original contract and their report shall be filed with the Board within three (3) months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiry and investigation, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuation so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall in any event be less than the sum required to be paid for the last year of the original term of this contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Com-

pany shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Second—The Company shall pay to the City for the privilege hereby granted the following sums of money:

(a) The sum of five hundred dollars (\$500) in cash within one (1) month after the date on which this contract is signed by the Mayor and before anything is done in exercise of the privilege hereby granted.

(b) During the first term of five years an annual sum which shall in no case be less than two hundred and fifty dollars (\$250), and which shall be equal to two (2) per cent. of its gross annual receipts, if such percentage shall exceed the sum of two hundred and fifty dollars (\$250).

During the second term of five years an annual sum which shall in no case be less than three hundred and fifty dollars (\$350), and which shall be equal to three (3) per cent. of its gross annual receipts, if such percentage shall exceed the sum of three hundred and fifty dollars (\$350).

During the third term of five years an annual sum which shall in no case be less than five hundred dollars (\$500), and which shall be equal to three (3) per cent. of its gross annual receipts, if such percentage shall exceed the sum of five hundred dollars (\$500).

The gross annual receipts mentioned above shall be the total receipts from all business of furnishing refrigeration to consumers.

(c) An annual payment of twenty-five cents (\$0.25) for each linear foot of pipe (where separately constructed) or conduit constructed within the limits of any street, avenue or highway, excepting, however, such pipes or conduits as are constructed within the vault space or vault spaces of any building or buildings used or occupied exclusively by the Company for the purpose of its business.

An annual payment of two dollars (\$2) for each manhole constructed within the limits of any street, avenue or highway.

The annual charges shall commence from January 1, 1914.

All annual charges as above shall be paid into the Treasury of the City on February 1 of each year and shall be for the amount due to December 31 next preceding. Provided that the first annual payment shall be only for that proportion of the first annual charge as the time between the date upon which this contract is signed by the Mayor and December 31 following shall bear to the whole of one year.

Whenever the percentage required to be paid shall exceed the minimum amount as above, then such sum over and above such minimum shall be paid on or before February 1 in each year for the year ending December 31 next preceding.

(d) Before any rights hereby conferred are exercised by the Company and within one (1) month from the date on which this contract is signed by the Mayor, the Company shall pay to the City the sum of five hundred dollars (\$500); said amount being due the City by reason of the unauthorized occupation of the streets by the Company or its predecessors.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Third—The annual charges or payments shall continue throughout the whole term of this contract (whether original or renewal), notwithstanding any clause in any statute or in the charter of any other company providing for payments for refrigerating rights or franchises at a different rate, and no assignment, lease or sub-lease of the rights or privileges hereby granted (whether original or renewal), or of any part thereof, or of any of the streets and avenues mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sub-lease contain a covenant on the part of the assignee or lessee that the same is subject to all conditions of this contract, and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Fourth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual, firm or other corporation a similar right or privilege upon the same or other terms and conditions, over the same streets and avenues, or within the districts hereinbefore described.

Fifth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall the title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in any wise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Sixth—Upon the termination of this original contract, or if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any cause, or upon the dissolution of the Company before such termination, the pipes, conduits and appurtenances of the Company constructed pursuant to this contract within the streets and avenues shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this contract as above, the Board shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of its pipes, conduits and appurtenances constructed pursuant to this contract and the said streets and avenues shall be restored to their original condition at the sole cost and expense of the Company.

Seventh—The grant of this privilege is subject to whatever right, title or interest the owners of abutting property or others may have in and to the streets and avenues in which the Company is hereby authorized to operate.

Eighth—All construction which shall be made under this grant shall be done in a manner solely upon the terms and conditions hereafter to be imposed by the President of the Borough of Manhattan and the Commissioner of Water Supply, Gas and Electricity, or their respective successors in authority. The said Company shall submit a working plan of construction to the said President and to the said Commissioner,

which shall include and show in detail the method of construction of said pipes or conduits, connections, manholes and other appurtenances, and the mode of protection of all subsurface construction under the streets and avenues in which the Company is hereby authorized to operate.

Ninth—Any alteration to the sewerage or drainage system, or to any other subsurface or to any surface structures in the streets, required on account of the construction or operation of the pipes or conduits of the Company, shall be made at the sole cost of the Company, and in such manner as the proper City officials may prescribe.

Tenth—It is agreed that the right hereby granted shall not be in preference or in hindrance to public work of the City, and should the said pipes or conduits in any way interfere with the construction of public works in the streets and avenues, whether the same is done by the City directly or by a contractor for the City, the Company shall, at its own expense, protect or move the pipes, conduits and appurtenances in the manner directed by the City officials having jurisdiction over such public work.

Eleventh—The Company shall bear the expense of keeping in repair for one year after it has been replaced, all pavement which may at any time be removed by said Company, either for the purpose of construction or for the repairing of the pipes or conduits and the appurtenances thereof.

Twelfth—The Company shall bear the expense of inspection which may be required by the President of the Borough of Manhattan and the Commissioner of Water Supply, Gas and Electricity, and of all work of construction.

Thirteenth—The Company shall cause a test to be made of the pipes hereby authorized whether laid within conduits or separately whenever required by and under the supervision of the Commissioner of Water Supply, Gas and Electricity. The conditions of such test shall be as follows:

(a) If the test be made in the foundry where the pipes are manufactured, such pipes shall be subjected to a pressure of three hundred (300) pounds per square inch.

(b) If the test be made in the field, of pipes in use or ready for use, such pipes shall be subjected to a pressure of two hundred (200) pounds per square inch.

A certificate showing that such a test has been made without injury to the pipes shall be executed by an officer of the Company, and indorsed by the Commissioner of Water Supply, Gas and Electricity, and filed with the Board.

Fourteenth—The Company shall not charge consumers more than the following rates:

(a) Consumers making monthly contracts:

Four (4) cents per month per cubic foot for boxes of not over 500 cubic feet.

Two (2) cents per month per cubic foot for boxes of over 500 cubic feet, but less than 1,500 cubic feet.

One (1) cent per month per cubic foot for boxes of 1,500 cubic feet and over.

(b) Consumers making yearly contracts:

Fifteen (15) cents per year per cubic foot of box.

These rates shall not apply to boxes located above the first floor of any building, nor to boxes located within the Washington Market. Should District No. 1 be extended to include Washington Market, the Company shall furnish refrigeration to consumers located within the market at reasonable rates to be fixed by the Board.

During the term of this contract the Board shall have absolute power to regulate the maximum rates, provided that such rates shall be reasonable and fair.

Fifteenth—The Company, upon the application for refrigeration of any person, firm or corporation whose premises are located within District No. 1, or if such district be extended, as hereinafter provided, then within such extended district shall extend its pipes or conduits to such premises and furnish to said applicant refrigeration at the rates herein prescribed, or at such rates as may be hereafter fixed by the Board, as herein provided. The Company shall not be required, however, to furnish refrigeration to applicants whose premises are located above the first floor of any building.

Sixteenth—A correct map shall be furnished to the Board by the Company on the first day of February, 1915, showing the exact location of all pipes, conduits and manholes constructed, with reference to the street lines, the curb lines and the street surface, together with a statement of the total length of such pipes and conduits. On the same date of each succeeding year, during the term of this contract, a supplementary map shall be furnished the Board, showing all pipes and conduits laid during the preceding year.

Seventeenth—The pipes and conduits hereby authorized shall be used only by the Loomis Cold Storage Company and for no other purpose than supplying refrigeration.

Eighteenth—The Company shall submit a report to the Board not later than February 1 in each year, for the year ending December 31 next preceding, and at any other time, upon request of the Board, which shall state:

Twentieth—In case of any violation or breach of failure to comply with any of the provisions herein contained or with any orders of the Board, acting under the powers herein reserved, the franchise or consent herein granted may be forfeited by a suit brought by the Corporation Counsel, on notice of ten days, to the Company, or at the option of the Board by resolution of said Board, which said resolution may contain a provision to the effect that the pipes and conduits constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity. Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it at a certain day not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear action may be taken by the Board forthwith.

## NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause to be used or occupied, or otherwise use, for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on the date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down, except to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish to the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in

the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

The Comptroller of The City of New York serves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
