## **Introduction**

This report describes the City's efforts to ensure minority and women-owned businesses have greater access to public contracting opportunities. The reporting period covers program accomplishments for the first quarter of Fiscal Year 2015 (July 1, 2014 – September 30, 2014). As per the New York City Administrative Code §6-129(l)1, the report is jointly submitted by the Director of the Mayor's Office of Contract Services (MOCS), as City Chief Procurement Officer, and by the Commissioner of the Department of Small Business Services (SBS).

This report summarizes program activity, prime contract and subcontract utilization data for City-certified Minority and Women-owned Business Enterprises (M/WBE) and Emerging Business Enterprises (EBE), as well as additional data specified in Section 6-129 of the New York City Administrative Code. The report covers contracts that were registered and subcontracts approved in the first quarter of FY 2015, including procurements that were solicited before LL 1 became effective and subject to LL 129.<sup>1</sup> The M/WBE program is administered jointly by SBS and MOCS.

State law requires that a majority of contracts be awarded to responsible vendors that submit the lowest responsive bid or the best proposal. Despite these limitations, the City continues to make great strides in M/WBE utilization. SBS has worked aggressively to expand opportunities for minority- and women-owned firms by connecting them to a comprehensive range of programs that provide management training, procurement technical assistance and other resources to help them navigate and compete in the public procurement marketplace. The City's collective efforts have resulted in awarding of nearly \$4.4 billion in contracts to M/WBE firms to date.

## **Expanding the Base of Certified Firms**

SBS continues to increase the participation of M/WBE firms in City contracting by expanding its base of certified firms. During the certification process, a company's ownership and management structure is thoroughly reviewed to ensure the applicant performs the key functions of the business. Minority-owned and women-owned firms who choose not to certify with the City are neither tracked, nor measured, in the City's performance reporting. To that end, SBS continued to work hard to simplify certification without

---

<sup>1</sup> LL 1 amended the law that created the City's M/WBE program, LL 129 of 2005. The new law took effect on July 1, 2013.

compromising review standards. SBS also regularly conducts classes to educate small businesses on the certification process and application requirements. During the first three months of FY 2015, SBS conducted 8 certification workshops for 134 businesses.

Various community partners help extend the reach of SBS's certification outreach efforts. Businesses can rely on these organizations, including the New York City Council-funded community-based groups that comprise the M/WBE Leadership Association, and the SBS network of Business Solutions Centers located throughout the five boroughs, for assistance in applying for certification. These efforts ensure a higher quality application, making the submission and the certification review process easier and simpler. Between July 2014 and September 2014, SBS certified 76 new M/WBEs and recertified 85 M/WBEs, bringing the number of City-certified companies to 3,755 as of October 1, 2014. Our community partners help support the business growth of M/WBEs with marketing workshops, networking events, and business development services. During the reporting period, SBS collaborated with local development corporations, trade associations, industry membership organizations and local chambers of commerce on 27 events to spread the word about the benefits of certification and the range of capacity-building services available citywide to help businesses grow.

### **Emerging Business Enterprise Program**

Local Law 12 of 2006 created the Emerging Business Enterprise ("EBE") program directed at expanding procurement opportunities to disadvantaged business. Although similar outreach approaches and capacity building initiatives were and continue to be undertaken by SBS to successfully implement the M/WBE and EBE programs (SBS often targets potential M/WBE and EBE groups simultaneously), the outcomes of such measures are quite different. Similar to the federal DBE program, eligibility for EBE certification under the City's program requires that applicants satisfy a two prong test of economic disadvantage and social disadvantage. Where social disadvantage is presumed for M/WBEs and further evaluation of social or economic disadvantage criteria is not required for those individuals, the City's EBE program criteria relies on individual and specific determinations of an applicant's disadvantage. As of October 1, 2014, there was 1 certified EBE.

Unlike the M/WBE program, limited participation in the EBE program has made it difficult for City agencies to set goals on contracts. Accordingly, there were no awards to EBEs during the first quarter of 2015.

SBS continues to strive towards increasing participation in the EBE program through a wide range of outreach efforts regularly conducted with businesses and community partners. Once increased participation in the EBE program is achieved, City agencies will have sufficient availability of certified EBE firms needed to set feasible goals on their contracts.

## **Selling to Government**

SBS offers M/WBEs selling to government services that help them navigate the City's procurement system. Services are provided through a combination of workshops, courses and one-on-one assistance. To be an effective bidder on City contracts, M/WBEs need to understand the City's procurement rules and maintain the most up-to-date information on their profile in SBS' Online Directory of Certified Businesses ([www.nyc.gov/buycertified](http://www.nyc.gov/buycertified)) and other City procurement systems. In the first quarter of FY 2015, SBS worked with 169 certified companies to help them understand the City's procurement process and to update their contact information and business profiles. In addition, SBS conducted 32 one-on-one sessions with vendors to provide assistance in responding to contract opportunities, and contract management assistance, including resolution of payments issues. For M/WBEs, it is vital to find the agencies that buy their products and services. In the first three months of FY 2015, SBS informed and connected over 500 firms to contracting opportunities.

During the reporting period, 48 companies attended SBS' regularly scheduled workshop "Selling to Government", a monthly workshop open to the public that provides firms with the basic concepts of government contracting. SBS also works with the New York City Council through the M/WBE Leadership Association to provide certified firms with more capacity-building services, including help applying for loans and surety bonds, preparing bids and proposals, and marketing to both the public and private sector. In the first quarter of FY 2015, member organizations sponsored 17 events and provided 340 one-on-one technical assistance sessions.

SBS and the Department of Housing Preservation and Development (HPD) are co-sponsoring HPD's new initiative, the HPD Building Opportunity Program, which aims to help M/WBE developers refine their skills, gather the information needed to navigate the complex arena of real estate development, connect them to HPD and SBS resources, and ultimately compete for and execute HPD and other affordable housing real

estate development projects. During the reporting period, SBS recruited 30 firms to participate in the 2014-15 cohort of the HPD Building Opportunity Program.

## **Program Expansion**

**Compete to Win** is a set of capacity-building programs and services for M/WBEs and small businesses administered by SBS and designed to help firms better bid on, win and perform on City contracts. Compete to Win consists of the following:

Through **Technical Assistance**, firms receive assistance on submitting bids and proposals for City contracts through workshops and one-on-one assistance. Firms receive an introduction to specific industry requirements and standards for the submission of bids and proposals. One-on-one assistance provides firms with guidance on how to submit the most competitive bid or proposal for City contracting opportunities. SBS has partnered with several city agencies, including the HPD, DPR, HRA and DCAS, to offer assistance on live contracting opportunities. In the reporting period, SBS held one-on-one sessions for 20 firms.

**Contract Financing** helps address the challenges that small businesses have in funding initial expenses, or mobilization costs relating to City contracts, such as labor and equipment costs. Short-term working capital loans are made available to firms that are awarded City contracts through partnerships with New York Business Development Corporation and Business Outreach Center Capital. In the reporting period, SBS facilitated 4 loans totaling \$290,000 to 4 unique firms.

**Bond Readiness** provides certified construction companies with financial management skills to help them secure or increase surety bonds necessary to compete on City contracts. The program provides eight months of classroom training and one-on-one assistance, as well as introductions to a network of surety agents. SBS has recruited 36 firms to participate in the 2014-15 cohort of Bond Readiness.

**NYC Construction Mentorship** provides certified construction firms with greater access to City construction opportunities. These firms receive classroom instruction, one-on-one mentorship, a business assessment and a custom plan to help them grow their business. SBS has recruited 21 firms to participate in the 2014-15 cohort of NYC Construction Mentorship.

Through **NYC Teaming**, M/WBEs and other small businesses learn how to partner with other firms to bid on larger or new market contract opportunities. In partnership with American Express OPEN, the division of American Express that provides assistance to small business owners, SBS offers a series of workshops and webinars that cover topics such as different types of teaming arrangements, financial and legal issues, responding to RFPs and bids and marketing to potential partners. The series culminates in a matchmaking event that facilitates industry-specific networking, brings firms together with City agency procurement representatives and prime contractors, and provides open RFPs and bids for participants to review with potential partners. In the reporting period, SBS held a Marketing Skills Webinar with 17 M/WBE participants.

The **Corporate Alliance Program (CAP)** helps connect firms with contracting opportunities in the private sector in collaboration with ten corporate partners. Becoming a supplier to a large corporation is a major step forward for any small business, providing not only income but credibility, stability, and business relationships that come with experience. With its CAP partners, SBS offers a workshop series that addresses key issues small businesses face when trying to break into the corporate supply chain.

**Strategic Steps for Growth** is a nine-month executive education program designed for M/WBEs, offered in partnership with the Berkley Center for Entrepreneurship & Innovation at the NYU Stern School of Business. An industry-specific class is also offered for business owners in the media, entertainment and technology fields. The program provides participants with a new professional network, including business experts, university professors, and other business owners, and offers guidance for every aspect of business operations as well as a focus on capacity-building for City and government contract opportunities for the enrolled M/WBEs and on private-sector opportunities for the enrolled media & entertainment firms. Participants learn the strategic skills needed to run a growing company, and create a custom, three-year growth plan for their businesses. In the reporting period, SBS recruited two 2014-15 cohorts; 17 participants in its M/WBE-exclusive program, and 14 participants in its Mayor's Office of Media & Entertainment program.

## **Program Compliance**

To ensure that all agency staff responsible for purchasing activities are familiar with the M/WBE program and their agency's goals, SBS and MOCS hold monthly agency training sessions at the Citywide Training

Center and specific trainings at agency offices. During the first quarter of FY 2015, 79 procurement professionals from 11 agencies attended three classes. The topics included Local Law 1 implementation, strategies and best practices used to identify M/WBEs for contract opportunities, the Online Directory training, and enhancing M/WBE procedures for contracts under \$100,000.

In the reporting period, SBS continued working on compliance audits of 5% of prime contracts subject to participation goals awarded in FY 2012 and FY 2013, and 5% of subcontracts awarded to M/WBE firms during the same period. Fourteen prime contracts and 12 subcontracts were audited for the FY 2012 period, and 14 prime contracts and 10 subcontracts were audited for the FY 2013 period. The findings from the audits are being reviewed and shared with the selected agencies to ensure continued compliance with the program requirements by both City agencies and prime contractors.

LL 1 created the position of “Director” to perform enhanced oversight functions. As required by the law, Director Maya Wiley convened a quarterly M/WBE compliance meeting with agency M/WBE officers and commissioners to discuss M/WBE utilization and agency initiatives to increase performance, on September 30<sup>th</sup>, that was attended by 49 staff members representing 20 agencies.

### **Qualified Joint Venture Agreements**

There were no contracts awarded to qualified joint ventures in the first quarter of FY 2015.

### **Locally-based Enterprise Program**

Although the Locally Based Enterprises (LBE) program is not referenced in Administrative Code §6-129, LBE is a certification category administered by SBS and the applicability of the LBE program in City procurement is impacted by the M/WBE program. As set forth in Administrative Code §6-108.1, the LBE program was designed to promote the growth of small construction firms through greater access to contracting opportunities with the City. Generally, the program requires agencies to utilize LBEs as a prime or subcontractor on specific construction contracts. However, the number of contracts subject to the LBE program has substantially decreased in recent years due to other goal setting programs established by the City, State and federal governments. Under the LBE program rules, contracts are excluded from the program if they are federally or State funded and subject to their requisite goal programs. Federal

construction is generally subject to the Disadvantaged Business Enterprise program and State contracts are subject to various goals requirements as well, including Article 15-A of the New York State Executive Law. As many City construction contracts are federally and State funded and subject to subcontracting goals under those programs, they are not covered by the LBE program. With the creation of the City's M/WBE program, M/WBE subcontracting goals are applied to City funded construction contracts in lieu of LBE goals. Accordingly, this further limits the applicability of the LBE requirements. With the support of the Council, we have worked to ensure that M/WBE goal requirements are attached to these contract opportunities.

During the first quarter of FY 2015, SBS certified 5 firms as LBEs, bringing the total number of LBE certified firms to 34. Many of our LBEs are also certified as minority- and/or women owned businesses and can be considered for targeted subcontracting opportunities on City construction projects. During the reporting period, LBEs were awarded a total of \$467,205 in prime and subcontract awards.

### **Efforts to Reduce or Eliminate Barriers to Competition**

Since the implementation of the M/WBE program, the City has undertaken a number of efforts to reduce barriers for M/WBEs and small businesses that are competing for contracts and currently doing business with the City. As mentioned above, SBS is operating a bond readiness program to help firms secure surety bonds for larger City construction projects, and recruited a third class for this program in the reporting period.

To make it easier to do business with the City, agencies are required to post all solicitation materials through the City Record Online, allowing vendors to identify opportunities and download relevant materials from one convenient, online location. SBS also continues to assist companies in expediting their payment requests from prime contractors and City agencies.

### **Prime Contract M/WBE Utilization**

Table 1 below summarizes prime contracts awarded by City agencies during the first quarter of FY 2015. M/WBEs were awarded over \$175 million in prime contracts during this reporting period. The prime contracts in this table include industries and awards pursuant to methods subject to the M/WBE program.

**Table 1 - FY 2015 Quarter 1 Utilization - Prime Contracts Subject to the M/WBE Program**

Industry/Size Group	Total MWBE			Total

>\$25M	0	\$0	0%	1	\$41,455,755

Certain procurement methods are excluded from the M/WBE program – i.e., emergency procurements, intergovernmental procurements, interagency and government-to-government procurements, and sole source procurements. See, NYC Administrative Code § 6-129(q) (iii)-(vi). In addition, all human services contracts, contracts to non-profit organizations and procurements where state or federal funding restrictions either preclude the imposition of local goals or override local goals by imposing analogous state or federal goals are also excluded. See § 6-129(q)(i)-(ii). The subsequent discussion of M/WBE performance only includes contracts subject to the M/WBE Program.

As required by §6-129 of the Administrative Code, the M/WBE performance data (see Appendix – Tables A - J) is summarized separately for each of the following categories: MBE, WBE, minority women (both MBE

and WBE certified), and total M/WBE. MBEs include all minority-owned businesses, regardless of gender. WBEs include all women-owned businesses regardless of race.

In those areas of procurement where agencies have greater discretion to target procurements to M/WBEs, (i.e., micro purchases and small purchases), M/WBE utilization remains strong. In July of 2013, the Procurement Policy Board changed the micro purchase level from \$5,000 to \$20,000, increasing the value of contracts that agencies may award without competition. In the first quarter of FY 2015, M/WBEs were awarded over \$8.6 million worth of micro purchases, or 24% of the dollar value of all such awards. Additionally, for small purchases (purchases valued between \$20,000 and \$100,000) the M/WBE utilization rate was 35% of the dollar value of all such awards (approximately \$7.1 million awarded).<sup>2</sup>

During the reporting period, contracts valued at more than \$100,000 and at or below one million dollars, had an M/WBE utilization rate of 13% of the total dollar value of all such awards (which represents approximately \$4.7 million). For contracts valued above one million dollars, the M/WBE utilization rate was approximately 16% (valued at approximately \$155 million). Agency-by-agency and certification category details corresponding to the table above are included in the Appendix to this report (Tables A - B).

A total of 8,292 prime contracts were awarded during the first quarter of FY 2015. During the reporting period there was significant M/WBE utilization on prime contracts. Highlights include M/WBEs being awarded:

- 35% of the value of contract awards valued between \$20,000 and at or below \$100,000 (almost \$7.1 million)
- 13% of the value of contract awards valued between \$100,000 and at or below \$1 million (approximately \$4.7 million);
- 14% of the value of contract awards valued between \$1 million and at or below \$5 million (almost \$33 million);
- 18% of the value of contract awards valued between \$5 million and at or below \$25 million (over \$122 million); and
- No percentage of the value of contract awards valued at greater than \$25 million.

---

<sup>2</sup> The strong and continuing improvement in small purchase participation correlates with a policy change promulgated in the City's Procurement Policy Board (PPB) rules in FY 2009. This change enhanced M/WBEs' ability to compete effectively for small purchases by increasing the number of small purchases that were solicited solely from competitors (M/WBE and non-M/WBE) drawn randomly from City bidder lists.

For more details, see Appendix – Tables A - B.

Most prime contracts reflected in the data (except the professional services contracts, for example) are required by New York State law to be procured via competitive sealed bid. Under General Municipal Law (GML) § 103, agencies must, for the majority of the contracts covered by the program, accept the lowest responsible bid and may not give a bidder preference because of its M/WBE status. City agencies' efforts to achieve their M/WBE participation goals through prime contract awards are thus limited to such means as increased outreach and training aimed at encouraging M/WBEs to bid successfully on various procurements. Even for procurements not covered by GML § 103, such as professional services contracts, GML § 104-b precludes agencies from pursuing social policy goals unrelated to the procurement of goods and services, including M/WBE status. Thus, the citywide goals for prime contract awards must be viewed as aspirational, and agencies' performance may only be evaluated in terms of their efforts to make progress toward achieving the goals in light of the limited tools available to them for that purpose.

#### Prime Contracts with M/WBE Participation Goals

Under the M/WBE program, larger prime contracts with anticipated subcontracting are subject to participation goals and must be reported on pursuant to §6-129(l)(b)(i). During the reporting period, agencies awarded 85 new prime contracts subject to M/WBE participation requirements. Ten percent of the value of those awards was made to certified M/WBE firms. For more details, see Appendix – Table C - F.

#### **Subcontract M/WBE Utilization**

M/WBE utilization with respect to approved subcontracts subject to the City's M/WBE program during the reporting period, regardless of when the prime contract was registered, is demonstrated in Table 2 below. As shown, of the 324 approved subcontracts, 134 were awarded to M/WBE firms. The approved subcontracts awarded to M/WBEs amounted to nearly \$14.1 million and represent 52% of the value of all qualifying subcontracts. For more details, see Appendix – Table G - J.

**Table 2 - FY 2015, Quarter 1 Approved Subcontracts on All Open Primes**

Industry/Size Group	Total MWBE			Total	
	#	\$	%	#	\$

<=\$20K	51	\$513,360	44%	135	\$1,163,102
>\$20K, <=\$100K	44	\$2,229,863	37%	122	\$6,102,985
>\$100K, <=\$1M	39	\$11,321,703	57%	67	\$20,012,733

## Waivers

A vendor that plans to submit a bid or proposal in response to a solicitation for a contract that is subject to M/WBE participation goals may seek to request a reduction in the goals by filing a waiver request with the contracting agency during the pre-bid or pre-proposal stage. The agency and MOCS then evaluate the extent to which the vendor's business model and subcontracting history is consistent with this request. In order to qualify for a waiver, a vendor must show both the capacity to execute the contract with less subcontracting than projected and legitimate business reasons to do so. A vendor that receives a full waiver has demonstrated that they would be able to fully self-perform the contract without using subcontractors if awarded the contract. A vendor that obtains a partial waiver has demonstrated that they will subcontract at a lower amount than the participation goal established by the agency.

During the reporting period, vendors sought a total of 28 requests for waivers of the M/WBE participation requirements. Of those requests, 7 were denied, while 10 were approved as full waivers and 11 were approved as partial waivers, see Appendix – Table K. Since waivers may be granted only to vendors that demonstrate both the capacity to perform the prime contract without subcontracting and a prior contracting history of doing similar work without subcontracting, some of the waivers that were granted involved repeated requests from the same firms, as they sought multiple bidding opportunities. Thus, the 21 full and partial waivers were granted to a total of only 20 individual firms. Waivers are determined

during the pre-bid stage of the procurement. Thus, most of the vendors that received waivers did not ultimately win the contracts for which they were competing.

During the reporting period, a total of 3 contracts were registered where a winning vendor obtained either a full or partial waiver of the total participation goal. For more details, see Appendix – Table L.

### **Large-Scale Procurement Approvals**

Prior to soliciting procurements with an anticipated value of over \$10 million, City agencies are required to seek MOCS approval to determine whether it is practicable to divide the proposed contract into smaller contracts and whether doing so would enhance competition among M/WBEs. During the reporting period, there were 23 registered contracts for which MOCS conducted large-scale procurement reviews. A full list is shown in Appendix Table M. The value of the 23 approved contracts shown in Appendix Table M is approximately \$564 million dollars.

Approximately 52% of the value of the large scale approvals in the first quarter of FY 2015 were either single indivisible projects or unique/unusual goods or services. These approvals were for projects in which separate and smaller contracts would not enhance M/WBE opportunities. For more details, see Appendix – Table M.

### **Complaints, Modifications and Noncompliance**

There were no complaints, modifications or findings of noncompliance during the reporting period.

# APPENDIX - MINORITY AND WOMEN-OWNED BUSINESS ENTERPRISE (M/WBE) PROGRAM - First Quarter of Fiscal Year 2015
