The Comptroller presented the following a

LAW DEPARTMENT—OFFICE OF THE CORPORATION COUNSEL, NEW YORK, July 9, 1901.

To the thonorable the Board of Estimate and Apportionment:

To the Honorable the Board of Estimate and Apportsonment:

GENTLEMEN—I have respectfully to request that a transfer be made of the sum of \$5,000 from any unexpended balance or appropriation at your command, to the appropriation for the Law Department for the year 1901 for "General Contingencies, including Deficiencies," the trason at measuring therefor being as follows:

An appeal has been taken by me on behalf of the City from the judgment in favor of the complainants in the action brought in the United States Circuit Court for the Southern District of New York by Christopher C. Campbell against the Mayor, etc., of The City of New York to restrain defendants from using certain parented improvements on steam free-engine pumps, and for damages for infringement, etc., and the costs of certifying the record to the United States Circuit Court of Appeals is the sum of \$4,817,60, for which amount I have received the inclosed hill from the Cierk of the Court, with a notice to the effect that the same must be paid to him on or before the 5th day of August next or otherwise the appeal will be forfeited.

The appeal has been perfected with the exception of the filing of the transcript in the office of the Cierk of the United States Creati Court of Appeals, and that can only be done upon payment of the said amount (\$4,817.60) on or before August 5 next or, as before stated, the appeal will be forfeited.

will be forfeited.

The matter is of the utmost importance, for not only does the appeal involve the judgment against the City now amounting to about a million dollars, but a cross-appeal has been taken by the complainants upon their exceptions to the Master's Report overruled by the court, which involves their asserted claim to a judgment of about eleven million dollars.

The present condition of the appropriation of this Department for "I General Contingencies, including Deficiencies" is wholly insufficient to meet this bill, and I therefore beg that your Honorable Board will arrange the necessary transfer with as little delay as possible.

Yours respectfully,

JOHN WHALEN, Corporation Counsel.

And offered the following:

Resolved, That the sum of five thousand dollars (\$5,000) be and hereby is transferred from the appropriation, entitled "Interest on Bonds and Stock to be Issued in 1900, after October 10, and in 1901," the same being in excess of the amount required for the purposes thereof, to the appropriation made to the Law Department for 1901, entitled "General Contingencies, including Deficiencies," the amount of said appropriation being insufficient.

Which was adopted by the following vote:

Affirmative—The Mayor, Comptroller, Corporation Counsel and President of the Council—4,

The Comptroller presented the following :

DEPARTMENT OF HEALTH-CITY OF NEW YORK. SOUTHWEST CORNER FIFTY-FIFTH STREET AND SIXTH AVENUE, BOROUGH OF MANHATTAN, NEW YORK, June 25, 1901.

Hon. BIRD S. COLER, Comptroller of The City of New York :

SIR-At a meeting of the Board of Health of the Department of Health, held June 21, 1901,

the following preamble and resolutions were adopted:

Whereas, It appears that certain appropriations made to this Department by the Board of Estimate and Appartionment for the year 1901 will not be sufficient to meet the necessary expenses required to be incurred by reason of the great number of cases of contagious diseases, especially scarlet fever and small-pox, which are still prevalent to a large extent in The City of New York;

Whereas, The number of patients to be cared for in the contagious disease hospitals of this Department on the first day of January was 276, and the number has been steadily increasing, making a daily average of 203 for the month of January, 334 for the month of February, 410 for the month of March,

511 for the month of April, 544 for the month of May;

—therefore be it

Resolved, That this Board, pursuant to the provisions of chapter 535 of the Laws of 1893, hereby certifies to the Board of Estimate and Apportionment that the sum of sixty-five thousand six hundred dollars (\$65,600) should be appropriated for the year 1901 for the purpose of defraying the necessary expenses required to be incurred for the preservation of the public health, as follows:

DEPARTMENT OF HEALTH—CITY OF NEW YORK,
SOUTHWEST CORNER FULTY-FIFTH STRUET AND SIXTH AVENUE,
BORDUGH OF MANHATYAN,
NEW YORK, June 21, 1901.

To the Honorable Board of Health ;

Stas—Since January 1, 1901, there have been treated in the hospitals of this Department over thirteen hundred cases of small-pox, which is cleven hundred more cases than during the entire year of 1900. There has also been a large increase in the number of cases of other contagious diseases treated in the hospitals. In scarlet fever alone there have been twice as many cases treated from January 1 to June 15, 1901, as during the entire year of 1900.

This increase in the number of cases the Department is called upon to care for has brought with it additional expense for nurses, attendants, food, medicines, disinfection, clothing and supplies, necessary for their care and maintenance.

There has been a large increase in the number of cases of contagious disease treated in the hospitals of this Department during the months of May and June. In small-pox alone the number is over eight hundred.

is over eight hundred.

The bistory of contagious diseases shows that there is a large increase in the number of cases reported during the months of October, November and December, and we must therefore expect an increased call upon the demands of our hospital service, which must necessarily cause a large increase in the running expenses of the hospitals.

Respectfully submitted, CHAS, F. ROBERTS, M. D., Sanitary Superintendent. (Signed)

Although under the provisions of chapter 365, Lows 1594, it is made mandatory that the Register of Kings County shall perform certain work of indexing, tochaling that covered by the statement in question, it is also in section 21 of said act provided as follows:

"No expenditure shall be made or obligation incurred under any provision of this act, unless therefore specifically authorized and provided for, until an appropriation therefor shall have been made by the said board of estimate, nor in excess of any such appropriation."

It further appears that an December 25, 1920, the Kings County Register made application as the Board of Estimate and Apportionment of The City of New York as follows: "Oppice of the Kings County Register, Hall of Records, Borongii of Brouchys, New York City, December 28, 1900.

" To the Honorable Board of Estimale, New York City :

"To the Honorable Found of Estimate, New York City:

"Gentlemen - I beg to notify you that under the appropriation for current indexing in the Kings County Register's Office of 1900, amounting to \$20,000, appropriated by the Board of Estimate, there still remains work to be done for the year 1900, which will create a deficit in said appropriation of at least \$5,000.

"I would like the Board of Estimate to set aside this amount to meet this contingency.

"The business of the uffices for the last year has increased so much over the previous year that the appropriation was far from being sufficient to cover the actual expense in completing theroughly and comprehensibly the work of the current indexing in my office."

Said Board of Estimate and Apportionment on December 31, 1900, by unanimous vote of all five members, upon motion of the Mayor, denied said request.

\* Error in extending 3,375, at 25 cents, \$5,5,25

\$26,000 00

It would appear that, under the provisions of said act, chapter 365, Laws 1894, it rests entirely within the discretion of the Board of Estimate and Apportionment to make provision for said sum of \$3,809.55, apparently representing what, at the rates of compensation specified, would be due to said Register if and not until provided for by said Board of Estimate and Apportionment.

Respectfully, WILLIAM J. LYON, Auditor of Accounts.

Six—The Found of Education by resolution adopted June 20, 1901, appropriated, subject to the approval of the Roard of Estimate and Apparticument, the sum of seventeen thousand five handled and cipilty nine dollars (\$17,480), from the proceeds of Corporate Stock of The City of New York, to be usual by the Computation, pursuant to section 48 of The Greater New York Chapter, application for the order of which is made; said sum to be applied in payment of the contract to be entered into by the Committee on Buildings, for and on behalf of the Board of Education, with Blake & Williams, contractors, for heating and ventilating apparatus in Public School 182, Unimport, Boron h of The Broax.

Froposals were invited for the above work of carefully propered plans and specifications, and by advertisement in the City Russian, and eight of both were received, ranging from \$17,589 to \$20,442. Award we made to the lowest midder, blake & Williams, at their bid of \$17,589.

The heating and ventilating is this building will be by the Plenum system of indirect radiation reinforced by direct radiation from radiation and coils. The contractor will also furnish gas radiators and stoves for principals and teachers' more, and make all connections with existing gas lines.

I see no reason why the appropriation as made may not receive the approval of the Board of Estimate and Apportionment.

Respectfully, EUG. E. McLEAN, Engineer,

And offered the followings:

Resolved, That the Board of Educate and Appartitionment careby approves of the requisition of the Board of Education by resolution adopted June 20, 1901, for the appropriation of eventeen thousand five hundred and eighty-nine dollars (\$17,589) from the proceeds of Corporate Stock of The City of New York to be sold pursu on to the provision, at section 48 of the Greater New York Charter, and the ordinance of the Municipal Assembly approved by the Mayor April 16, 1901, for the purpose of providing means for the payment of the contract to be entered into by the Committee on Buildings, for and on behalf of the Board of Education, with Blake & Williams, contractors, for heating and vestilating apparatus in Public School 182, Unionport, Borough of The Bronx. The Commissioner of Street Cleaning, in communication to the Board of Estimate and Apportionment July 13, 1900, presented forms of contract for the disposition of garbage, etc., in the boroughs of Manhattan and The Bronx, and they were approved by the Board on August 21.

The Commissioner says in his communication (see page 693, Minutes, 1900):

"It is true that it is more than a year before the first of the above-mentioned existing contracts will expire, but it is proper to take into account the fact of the greatness of the undertaking involved in caring for the refuse of the Greater City of New York, and the fact that these contracts ought to be advertised for a considerable length of time and in such a way as to utract the attention of those persons and corporations most capable of undertaking such contracts, and that after they have been advertised and bids have been received, it will be necessary to submit these bids to your Board again, as being a part of the terms and conditions, and that after the award of any contract or contracts a considerable period of time, certainly ten or twelve months, ought to be allowed the contractor in which to secure suitable locations and erect good and sufficient plants, if it should be necessary in the work of garbage disposal to select some other contractors than the ones now doing the work."

These forms of contract have never been advertised, as I am informed by the Acting Com-

These forms of contract have never been advertised, as I am informed by the Acting Commissioner, Mr. Gibson.

Subsequently, on May 20, 1901, separate forms of contract for the disposal of garbage, etc., for the boroughs of Manhattan and The Bronx were submitted, and were approved by the Board of Estimate and Apportionment May 28, 1901. They were advertised on June 12, 1901, and the bids were opened June 27, 1901.

Why so long a time should have been allowed to elapse before advertising this work, I am unable to report, as I can get no information on the matter.

The time allowed for the execution of the contract (from the 27th of June to the 1st of August), was not sufficient, and the advertisement, perhaps, was not as extensive as it ought to have been for such a work, in order to attract the bids of those engaged in that kind of business throughout the country.

I am of the opinion that the shortness of the notice, and the narrow sphere of the advertisement, may account for the excess of the bids over the present contract; such an excess as

ment, may account for the excess of the bids over the present contract; such an excess as \$205,970 cannot be attributed to the natural growth of the city or to any other visible cause.

In my opinion, the bids should be rejected on account of excessive price proposed, and the work readvertised with such a limit of time as may be considered proper, and the work during the intervening period be provided for by the Commissioner of Street Cleaning in such a manner as may be most advantageous to the City, subject to the approval of the Board of Estimate and Accordionnent.

as may be most advantageous to the City, subject to the app.

Apportionment.

In connection with this matter, Mr. W. F. Morse, Sanitary Engineer, submits the inclosed letter to the Comptroller, under date of July 3, 1901, calling attention to the statement in the nature of a protest filed by him at the office of the Street Cleaning Commissioner, at the time of the opening of the bids on June 27, for the disposal of the garbage of the horoughs of Manhattan and The Bronx, a copy of which he incloses. He requests that the statement given in his letter be considered by the Board of Estimate and Apportionment before the awards are made of contracts under the specifications of the Department of Street Cleaning.

The protest referred to by Mr. Morse is arranged under six heads, as follows:

Ist. That the time allowed is not sufficient.

REON BARNES, No. 11 PINE STREET, ( NEW YORK, July S, 1900.

How. BIED S. COLER, Completeller, New York City:

Six -A few weeks ago I handed to you a tetter, upon the subject of the final disposition of ashes, street sweepings and light retuse, other than partiage, from the boroughs of Manhattan and The Breas, on the basis of a lump sum.

At that time, there was before the Board of Estiman, and Apportionment a proposed specifica-tion and lovar of contract for the work, which were subsequently returned to the Commissioner of the Department of Street Cleaning, together with my letter, or an except therefrom.

I called upon the Commissioner, and received a copy of the specifications and proposed form of contract, with view to suggesting the alterations incident to the work being done for a lump sum, and found that it was necessary to make but very few changes, and such specifications and proposed contract, as so modified, I have since discussed with the Commissioner at his residence

I am under the impression that the proposed specifications and contract, as originally presented, are again before the Board of Estimate and Apportionment, without the modifications

The loop sam plan I think is nother advantageous in the Lity, because the contractor must dispose of all the material, whether disriped from public or introduction, and the final disposition of any increase in the material collected by "parint our " will not imposs upon the "ity any increase in case, as a world as the our analytic he measurement plan. The Loronic state of Street Cleaning would, therefore, not have any inducement to revoke permits to save express to the Gity, as he alight have under the measurement plan.

The parameter with substitute to be disposed of in the or three years, with the annual ratio of increase, any be estimated with substitute from the first accuracy to enable the contractor in into modify and cloudy for the work of fact disposition to ashe, to et sweepings and light ratus, rater than parisage. The contractor could, presented by a more willing to had apper the basis of a lump sum than upon the near of measurement, because it is materially in the day of fact anomal than upon the payments are inclinarialled.

The measurement, increase it is not true figure on a constant to final disposition on a lump sum than the measurement of the fact of fact of so be deared on the fact of Katimate and Appendencement and to the fact offers to so bed have been made to the mainter of Katimate and Appendencement and to the component of the determined by their stability is turn the each and guarantic required.
