This estimate is presented in compliance with the circular of the Board of Estimate and Apportionment, but it is not approved by the Commissioner. On the contrary, he recommends a reorganization of this Branch, with a view of fitting it to handle the very large amount of construction necessary during the coming year, and that the increase be paid from the bond issue already made by the last administration and now at the disposal of this Department. The issue referred to permits application to construction and alterations of buildings, and from this has hitherto been paid architect's fees for plans and superintendence.

Under the reorganization proposed, a large part of these charges would be saved. With the enlarged force will be performed, at less expense, a very considerable part of the minor repair work now performed by contractors, and the saving from these two sources will be materially in excess of the proposed increase for this Branch, thereby effecting a saving which will inure directly to the City.

A schedule, showing the proposed reorganization is appended, and this is strongly recommended by the Commissioner.

It has come to the knowledge of the Commissioner that a number of the members of the uniformed force who were desirous of promotion, and who, for that reason, had sought and obtained a rating upon the eligible lists of the several grades, which was sufficiently high to bring their names under consideration for promotion, have been passed over by the preceding administration, and others lower upon such eligible lists appointed in their stead. Under Rule 29 of the Civil Service Commission a name three times passed over in this matter loses its position on the eligible list and is not thereafter certified to the Commissioner for appointment unless at his special request, giving name, date and circumstances connected with the rejection.

The Commissioner believes that injustice has been done in some, and perhaps in many instances, and wishes to correct the same so far as in his power, but is ignorant of the cases to which these facts apply. The members of the uniformed force are, therefore, hereby notified that any member thereof who believes that his case falls within the conditions above described, is hereby authorized to present in writing to the Secretary of the Department at these headquarters, the facts in his case, giving all necessary details to enable the facts to be verified by reference to the records of the Civil Service Commission.

Those members of the force who voluntarily waived appointment for any personal reason at the time their names were undergoing consideration, are not included and will not be considered as being in the above category.

Upon receipt of the necessary information in each case a full investigation will be made and suitable action taken thereon.

By order of

THOMAS STURGIS, Commissioner.

NOTICES TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said department, and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the board of aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

The contracts must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of The City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by The City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the department for which the work is to be done. Plans and drawings of construction work may also be seen there.
