In the districts indicated, and in other C1 or C2 Districts when mapped within R6A, R6B, R7A, R7B, R7D, R7X, R8A, R8B, R8X, R9A, R9D, R9X, R10A or R10X Districts, and for #Quality Housing buildings# in other #Commercial Districts#, the provisions of Section 33-42 shall apply to any #building or other structure#. In addition, a dormer may be allowed as a permitted obstruction pursuant to paragraph (c) of Section 23-621 (Permitted obstructions in certain districts), and an elevator shaft and associated vestibule may be allowed as a permitted obstruction, pursuant to paragraph (f) of Section 23-62.

(b) #Street wall# location

C1-6A C2-6A C4-2A C4-3A C4-4A C4-5A C4-5X

(1) In the districts indicated, and in C1 or C2 Districts when mapped within R6A, R6B, R7A, R7B or R7X Districts, and for #Quality Housing buildings# in other #Commercial Districts# with a residential equivalent of an R6 or R7 District, at least 70 percent of the #aggregate width of street walls# shall be located within eight feet of the #street line# and shall extend to at least the minimum base height specified in Table A of this Section for #buildings# in contextual districts, or Table B for #buildings# in non-contextual districts, or the height of the #building#, whichever is less. The remaining 30 percent of the #aggregate width of street walls# may be located beyond eight feet of the #street line#.

Existing #buildings# may be horizontally #enlarged# without regard to #street wall# location provisions, provided the amount of new #floor area# does not exceed 50 percent of the amount of #floor area# existing on June 29, 1994, and the #enlarged# portion of the #building# does not exceed one #story# or 15 feet in height, whichever is less.

For #zoning lots# bounded by more than one #street line#, these #street wall# location provisions shall be mandatory along only one #street line#.

Where only one #street line# is coincident with the boundary of a #Commercial District# mapped along an entire #block# front, the #street wall# location provisions shall apply along such coincident #street line#. For all other #zoning lots#, the #street wall# location provisions shall apply along at least one #street line#.

C1-7A C1-8A C1-8X C1-9A C2-7A C2-7X C2-8A C4-4D C4-5D

(2) In the districts indicated, and in C1 or C2 Districts when mapped within R7D, R8A, R8B, R8X, R9A, R9D, R9X, R10A or R10X Districts, and for #Quality Housing buildings# in other C1 or C2 Districts with a residential equivalent of an R8, R9 or R10 District, the following #street wall# location provisions shall apply along #wide streets# and along #narrow streets# within 50 feet of their intersection with a #wide street#:

(i) The #street wall# shall be located on the #street line# and extend along the entire #street# frontage of the #zoning lot# up to at least the minimum base height specified in Table A of this Section for #buildings# in contextual districts, or Table B for #buildings# in non-contextual districts, or the height of the #building#, whichever is less. To allow articulation of #street walls# at the intersection of two #street lines#, the #street wall# may be located anywhere within an area bounded by the two #street lines# and a line connecting such #street lines# at points 15 feet from their intersection.

In C1 or C2 Districts when mapped within R9D Districts, to allow articulation of #street walls# at the intersection of two #street lines#, up to 50 percent of the area bounded by the two #street lines# and lines parallel to and 50 feet from such #street lines# may be unoccupied by a #building#. However, where one such #street line# fronts an elevated rail line, a minimum of

25 percent and a maximum of 50 percent of the area bounded by the two #street lines# and lines parallel to and 50 feet from such #street lines# shall be unoccupied by a #building#.

(ii) Recesses, not to exceed three feet in depth from the #street line#, shall be permitted on the ground floor where required to provide access to the #building#.

Above a height of 12 feet above the #base plane#, up to 30 percent of the #aggregate width of street walls# may be recessed beyond the #street line#, provided any such recesses deeper than 10 feet along a #wide street#, or 15 feet along a #narrow street#, are located within an #outer court#. Furthermore, no recesses shall be permitted within 30 feet of the intersection of two #street lines# except to articulate the #street walls# as set forth in paragraph (b)(2)(i) of this Section.

(iii) Where a continuous sidewalk widening is provided along the entire #block# frontage of a #street#, the boundary of the sidewalk widening shall be considered to be the #street line# for the purposes of this Section.

No #street wall# location rules shall apply along #narrow streets# beyond 50 feet of their intersection with a #wide street#.

C4-6A C4-7A C5-1A C5-2A C6-2A C6-3A C6-3D C6-3X C6-4A C6-4X

(3) In the districts indicated, and for #Quality Housing buildings# in other C4, C5 or C6 Districts with a residential equivalent of an R8, R9 or R10 District, the #street wall# location requirements shall be as set forth in paragraph (b)(2), inclusive, of this Section, except that a #street wall# with a minimum height of 12 feet shall be required on a #narrow street line# beyond 50 feet of its intersection with a #wide street#, and shall extend along such entire #narrow street# frontage of the #zoning lot#.

In C6-4X Districts, #public plazas# are only permitted to front upon a #narrow street line# beyond 50 feet of its intersection with a #wide street line#. The #street wall# location provisions of this Section shall not apply along any such #street line# occupied by a #public plaza#.

In C6-3D Districts, to allow articulation of #street walls# at the intersection of two #street lines#, up to 50 percent of the area bounded by the two #street lines# and lines parallel to and 50 feet from such #street lines# may be unoccupied by a #building#.

However, where one such #street line# fronts an elevated rail line, a minimum of 25 percent and a maximum of 50 percent of the area bounded by the two #street lines# and lines parallel to and 50 feet from such #street lines# shall be unoccupied by a #building#.

C4-4L

(4) In C4-4L Districts, the #street wall# location provisions of paragraph, (b)(1), of this Section shall apply along any #street# that does not contain an elevated rail line. For #zoning lots# bounded by a #street# containing an elevated rail line, the following regulations shall apply along the frontage facing the elevated rail line:

(i) a sidewalk widening shall be provided along the entire #zoning lot# frontage of such #street# containing an elevated rail line. Such sidewalk widening shall have a depth of five feet, shall be improved to Department of Transportation standards for sidewalks, shall be at the same level as the adjoining public sidewalk, and shall be accessible to the public at all times. A line parallel to and five feet from the #street line# of such #street# containing an elevated rail line, as measured within the #zoning lot#, shall be considered the #street line# for the purpose of applying all regulations of this Section, 35-24, inclusive.

(ii) at least 70 percent of the #aggregate width of street walls# shall be located at the #street line# of the #street# containing the elevated rail line

and extend to at least the minimum base height, or the height of the #building#, whichever is less, up to the maximum base height.

(c) Setback regulations

In the districts indicated, and in C1 or C2 Districts when mapped within R6A, R6B, R7A, R7B, R7D, R7X, R8A, R8B, R8X, R9A, R9D, R9X, R10A or R10X Districts, for all #buildings#, and for #Quality Housing buildings# in other #Commercial Districts#, setbacks are required for all portions of #buildings or other structures# that exceed the maximum base height specified in the table in this Section. Such setbacks shall be provided in accordance with the following regulations:

(1) At a height not lower than the minimum base height or higher than the maximum base height specified in Table A of this Section for #buildings# in contextual districts, and Table B for #buildings# in non-contextual districts, a setback with a depth of at least 10 feet shall be provided from any #street wall# fronting on a #wide street#, and a setback with a depth of at least 15 feet shall be provided from any #street wall# fronting on a #narrow street#, except such dimensions may include the depth of any permitted recesses in the #street wall#.

(2) These setback provisions are optional for any #building# wall that is either located beyond 50 feet of a #street line# or oriented so that lines drawn perpendicular to it in plan would intersect a #street line# at an angle of 65 degrees or less. In the case of an irregular #street line#, the line connecting the most extreme points of intersection shall be deemed to be the #street line#. Furthermore, dormers provided in accordance with the provisions of paragraph (a) of this Section may penetrate a required setback area.

(3) In C6-3D Districts, for #buildings or other structures# on #zoning lots# that front upon an elevated rail line, at a height not lower than 15 feet or higher than 25 feet, a setback with a depth of at least 20 feet shall be provided from any #street wall# fronting on such elevated rail line, except that such dimensions may include the depth of any permitted recesses in the #street wall# and the depth of such setback may be reduced by one foot for every foot that the depth of the #zoning lot#, measured perpendicular to the elevated rail line, is less than 110 feet, but in no event shall a setback less than 10 feet in depth be provided above the minimum base height.

(i) The setback provisions of paragraph (c) of this Section are optional where a #building# wall is within the area bounded by two intersecting #street lines# and lines parallel to and 70 feet from such #street lines#.

(ii) Where such #building# is adjacent to a #public park#, such setback may be provided at grade for all portions of #buildings# outside of the area bounded by two intersecting #street lines# and lines parallel to and 70 feet from such #street lines#, provided that any area unoccupied by a #building# shall be improved to Department of Transportation standards for sidewalks, shall be at the same level as the adjoining public sidewalks, and shall be accessible to the public at all times.

(4) In C4-4L Districts, for #zoning lots# bounded by a #street# containing an elevated rail line, the setback provisions of this paragraph (c) are modified as follows:

(i) a setback with a depth of at least 15 feet from the #street line# of the #street# containing the elevated rail line shall be provided at a height not lower than the minimum base height of either 30 feet or three #stories#, whichever is less, and not higher than the maximum base height of either 65 feet or six #stories#, whichever is less; and dormers shall not be a permitted obstruction within such setback distance.

(ii)

(d) Maximum #building# height  
No #building or other structure# shall exceed the maximum #building# height specified in Table A of

this Section for contextual districts, or Table B for non-contextual districts, except as provided in this paragraph, (d), inclusive:

C6-3D C6-4X

(1) In the districts indicated, any #building# or #buildings#, or portions thereof, which in the aggregate occupy not more than 40 percent of the #lot area# of a #zoning lot# (or, for #zoning lots# of less than 20,000 square feet, the percentage set forth in the table in Section 33-454) above a height of 85 feet above the #base plane#, is hereinafter referred to as a tower. Dormers permitted within a required setback area pursuant to paragraph (a) of this Section shall not be included in tower #lot coverage#. Such tower or towers may exceed a height limit of 85 feet above the #base plane#, provided:

(i) at all levels, such tower is set back from the #street wall# of a base at least 15 feet along a #narrow street#, and at least 10 feet along a #wide street#, except such dimensions may include the depth of any permitted recesses in the #street wall#;

(ii) the base of such tower complies with the #street wall# location provisions of paragraph (b) of this Section, and the setback provisions of paragraph (c) of this Section; and

(iii) the minimum coverage of such tower above a height of 85 feet above the #base plane# is at least 33 percent of the #lot area# of the #zoning lot#; however, such minimum coverage requirement shall not apply to the highest 40 feet of such tower.

In C6-3D Districts, the highest four #stories#, or as many #stories# as are located entirely above a height of 165 feet, whichever is less, shall have a #lot coverage# of at least 50 percent of the #story# immediately below such #stories#, and a maximum #lot coverage# of 80 percent of the #story# immediately below such #stories#. Such reduced #lot coverage# shall be achieved by one or more setbacks on each face of the tower, where at least one setback on each tower face has a depth of at least four feet, and a width that, individually or in the aggregate, is equal to at least 10 percent of the width of such respective tower face. For the purposes of this paragraph, each tower shall have four tower faces, with each face being the side of a rectangle within which the outermost walls of the highest #story# not subject to the reduced #lot coverage# provisions have been inscribed. The required setbacks shall be measured from the outermost walls of the #building# facing each tower face. Required setback areas may overlap.

In C6-3D Districts, for towers fronting on elevated rail lines, the outermost walls of each #story# located entirely above a height of 85 feet shall be inscribed within a rectangle. The maximum length of any side of such rectangle that is parallel or within 45 degrees of being parallel to such elevated rail line shall be 125 feet, or 75 percent of the frontage of the #zoning lot# along such elevated rail line, whichever is less.

C4-4L

(2) In C4-4L Districts, for #zoning lots# bounded by a #street# containing an elevated rail line and within 125 feet of such #street#, the maximum #building# height shall be 100 feet or ten #stories#, whichever is less.

(e) Additional regulations

In the districts indicated, and in C1 or C2 Districts when mapped within R6A, R6B, R7A, R7B, R7D, R7X, R8A, R8B, R8X, R9A, R9D, R9X, R10A or R10X Districts, and for #Quality Housing buildings# in other #Commercial Districts#, the following additional provisions shall apply:

(1) Existing #buildings# may be vertically enlarged by up to one #story# or 15 feet without regard to the #street wall# location requirements of paragraph (b) of this Section.

(2) On #through lots# that extend less than 180 feet in maximum depth from #street#

to #street#, the #street wall# location requirements of paragraph (b) shall be mandatory along only one #street# frontage. However, in C4-4L Districts, such #street wall# location regulations shall apply along the frontage of any #street# containing an elevated rail line.

(3) The #street wall# location and minimum base height provisions of paragraph (b) shall not apply along any #street# frontage of a #zoning lot# occupied by #buildings# whose #street wall# heights or widths will remain unaltered.

(4) The minimum base height provisions of paragraph (b) shall not apply to #buildings developed# or #enlarged# after February 2, 2011, that do not exceed such minimum base heights, except where such #buildings# are located on #zoning lots# with multiple #buildings#, one or more of which is #developed#, #enlarged# or altered after February 2, 2011, to a height exceeding such minimum base heights.

(5) The City Planning Commission may, upon application, authorize modifications in the required #street wall# location of a #development# or #enlargement# if the Commission finds that existing #buildings#, or existing open areas serving existing #buildings# to remain on the #zoning lot#, would be adversely affected by the location of the #street walls# of the #development# or #enlargement# in the manner prescribed in this Section.

(6) For any #zoning lot# located in a Historic District designated by the Landmarks Preservation Commission, the minimum base height and #street wall# location regulations of this Section, or as modified in any applicable Special District, shall be modified as follows:

(i) The minimum base height of a #street wall# may vary between the height of the #street wall# of an adjacent #building# before setback, if such height is lower than the minimum base height required, up to the minimum base height requirements of this Section, or as modified in any applicable Special District.

(ii) The maximum base height of a #street wall# may vary between the height of the #street wall# of an adjacent #building# before setback, if such height is higher than the maximum base height allowed, and the maximum base height requirements of this Section, provided that such height not exceed 150 feet and provided that such #zoning lot# is located within the area bounded by West 22nd Street, a line 100 feet west of Fifth Avenue, a line midway between West 16th Street and West 17th Street, and a line 100 feet east of Sixth Avenue.

(iii) The location of the #street wall# of any #building# may vary between the #street wall# location requirements of this Section, or as modified in any applicable Special District, and the location of the #street wall# of an adjacent #building# fronting on the same #street line#.

(7) In C6-3D Districts, where a #building# on an adjacent #zoning lot# has #dwelling unit# windows located within 30 feet of a #side lot line# of the #development# or #enlargement#, an open area extending along the entire length of such #side lot line# with a minimum width of 15 feet shall be provided. Such open area may be obstructed only by the permitted obstructions set forth in Section 33-23 (Permitted Obstructions in Required Yards or Rear Yard Equivalents).

(8) For the purposes of applying the #street wall# location regulations of paragraph (b), any #building# wall oriented so that lines perpendicular to it would intersect a #street line# at an angle of 65 degrees or less shall not be considered a #street wall#.

## HUMAN RESOURCES ADMINISTRATION

### AGENCY CHIEF CONTRACTING OFFICER/CONTRACTS

#### INTENT TO AWARD

#### Human/Client Services

**SOCIAL IMPACT BONDS** – Innovative Procurement – Testing or experimentation is required - PIN# 0961210001 – DUE 08-23-12 AT 5:00 P.M. – HRA/Finance intends to enter into a Innovative Procurement with MDRC to test the feasibility of Social Impact Bonds.

New York City intends to test the feasibility of procuring not for profit-provided social services through a new type of performance-based contract that will provide services that benefit clients and that save the city money if the intervention is successful. Under this new procurement model, called Social Impact Bonds, HRA would contract with an outside entity that would pay the upfront costs of hiring a nonprofit to deliver social-service programming and assume the risk of the intervention failing. The City would reimburse the outside entity if and only if the nonprofit service provider reached pre-established performance thresholds. The City would benefit from this new procurement process in two major ways. First, the City would only pay for a social-service program if the program achieved City-set goals - that is, if the program "worked." By only paying for programs that have a demonstrable benefit, the City would be more efficiently allocating its financial resources. Second, the City would be able to use this sort of performance-based contract as a low-risk way of funding programs that have not been implemented in New York City. This procurement process differs most significantly from the methods currently available in the Procurement Policy Board Rules by allowing an outside entity to act as an intermediary for the payment of social-service provisions. Social Impact Bonds offer an opportunity to create a model for the City using alternative means to fund complex human services programs. After such a contract runs its course, the City will evaluate the benefits of using this type of procurement method.

A Social Impact Bond is an entirely new approach to address the funding of client services. As such, the City must demonstrate and test its use before deciding whether this social impact investing approach would be viable as an alternate way to finance human/client service contracts. The reliability of the approach must be reviewed and tested, and the outcomes measured to determine if it should be implemented on a larger scale. The progress of this approach will be monitored closely to determine whether or not it is successful. It is anticipated that various City offices will report on this approach to determine whether and/or when additional projects would be initiated utilizing this approach. Since the demonstration project would be six years in length, reporting would be done on a periodic basis.

Please note that the initial Social Impact Bond project will be tested in phases. A partner has already been identified to participate in the initial portion of Phase I of the initiative, and Phase I of this innovative/demonstration project. Phase I may include additional projects that have yet to be identified. This partner was chosen because of their capacity to serve as an intermediary to provide services as well as manage private investment dollars. They also have the ability to be up and running without delay. The term of the contract with this partner is anticipated to be six years beginning on the date of the Notice to Proceed.

As we identify projects that would enable the City to completely test this model, we may launch additional phases of this Innovative procurement model/demonstration project. The City of New York is seeking other human service providers to participate in other social services programs involving similar Social Impact Investments through a Request for Expressions of Interest (RFEI). For participation in subsequent phases of this innovative procurement model/demonstration project, the RFEI can be found at [www.nyc.gov/hra/contracts](http://www.nyc.gov/hra/contracts). We encourage those interested to respond to this RFEI, as we are eager to test the feasibility of this model.

It is anticipated that the City will engage additional responsible vendors for further phases once additional projects and vendors are identified for this Social Impact Investing initiative. The terms for these subsequent phases will be determined at the time that the phase is initiated, and will be based on the time it will take to evaluate the project and the timetable for the realization of the anticipated savings. However, please note that such future demonstrations shall follow the same format as Phase I. Reports will be generated consistent with the requirements of the Procurement Policy Board Rules.

If you are interested in participating in the first phase of this Innovative demonstration project, or if you are interested in participating in future phases, please go to [www.nyc.gov/hra/contracts](http://www.nyc.gov/hra/contracts) for additional information.

COURT NOTICE MAPS FOR CHANDLER STREET QUEENS COUNTY, IA PART 8

NOTICE OF PETITION - INDEX NUMBER 14225/12

## READER'S GUIDE

The City Record (CR) is published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above \$100,000 for information technology and for construction and construction related services, above \$50,000 for other services, and above \$25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in The City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Monday through Friday from 9:00 A.M. to 5:00 P.M., except on legal holidays.

### NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptroller's Office at [www.comptroller.nyc.gov](http://www.comptroller.nyc.gov), and click on Prevailing Wage Schedules to view rates.

### CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION-RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

### VENDOR ENROLLMENT APPLICATION

New York City procures approximately \$17 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. Registration for these lists is free of charge. To register for these lists, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application, which can be found online at [www.nyc.gov/selltonyc](http://www.nyc.gov/selltonyc). To request a paper copy of the application, or if you are uncertain whether you have already submitted an application, call the Vendor Enrollment Center at (212) 857-1680.

### SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services at 110 William Street, New York, NY 10038. Sessions are convened on the second Tuesday of each month from 10:00 A.M. to 12:00 P.M. For more information, and to register, call (212) 618-8845 or visit [www.nyc.gov/html/sbs/nycbiz](http://www.nyc.gov/html/sbs/nycbiz) and click on Summary of Services, followed by Selling to Government.

### PRE-QUALIFIED LISTS

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstances. When an agency decides to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the CR. Information and qualification questionnaires for inclusion on such lists may be obtained directly from the Agency Chief Contracting Officer at each agency (see Vendor Information Manual). A completed qualification questionnaire may be submitted to an Agency Chief Contracting Officer at any time, unless otherwise indicated, and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings (OATH). Section 3-10 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists. For information regarding specific pre-qualified lists, please visit [www.nyc.gov/selltonyc](http://www.nyc.gov/selltonyc).

### NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board Rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, and the Housing Authority. Suppliers interested in applying for inclusion on bidders lists for Non-Mayoral entities should contact these entities directly at the addresses given in the Vendor Information Manual.

### PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 9:30 A.M. to 5:00 P.M., except on legal holidays. For more information, contact the Mayor's Office of Contract Services at (212) 341-0933 or visit [www.nyc.gov/mocs](http://www.nyc.gov/mocs).

### ATTENTION: NEW YORK CITY MINORITY AND WOMEN-OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women-Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about this program, contact the Department of Small Business Services at (212) 513-6311 or visit [www.nyc.gov/sbs](http://www.nyc.gov/sbs) and click on M/WBE Certification and Access.

### PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City pays interest on all late invoices. However, there are certain types of payments that are not eligible for interest; these are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year: in January and in July.

### HOW TO READ CR PROCUREMENT NOTICES

Procurement notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section.

At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified unless a different one is given in the individual notice. In that event, the directions in the individual notice should be followed.

The following is a SAMPLE notice and an explanation of the notice format used by the CR.
