Chapter 6
HAZARDOUS SUBSTANCE EMERGENCIES

SUBCHAPTER 1
SHORT TITLE, POLICY AND DEFINITIONS

NOTE: Added L.L. 42/87 § 6, approved 7/14/87. Effective 60 days thereafter. L.L. 42/87 provisions.

Section 1. Declaration of legislative intent and findings.

The council finds that the release or threatened release of hazardous substances into the environment presents a substantial danger to the public health, welfare and the environment. The enactment by the state legislature of a plan for the management of hazardous wastes has not reduced the need for or authority of the city to respond to emergencies caused by hazardous substance releases. The council declares that the response measures taken by the city must be effective and thorough so as to prevent injury to human, plant and animal life and change to property and the environment.

Therefore, the council hereby determines that the department of environmental protection should specifically be authorized to respond to emergencies caused by releases or threatened releases of hazardous substances into the environment. The council provides herein that responsible persons shall be jointly and severally liable for all lawful response and remediation costs incurred by any city agency authorized by law to respond to such emergencies, including but not limited to the departments of environmental protection, health and sanitation and the police and fire departments. It shall be the policy of the city to seek the recovery of such costs in the first instance from the persons whose actions contributed most to the release or threatened release of hazardous substances into the environmental. The council intends that this local law shall not in any way alter or limit to functions, powers and duties of the department of health, including but not limited to its authority regarding nuisance abatement and declarations of imminent peril.

§ 7. This law shall take effect on the sixtieth day after its enactment into law. Actions necessary to prepare for the implementation of this local law may be taken prior to its effective date.

(Section added L.L. 42/87 § 6. [See Note at beginning of chapter.])

§ 24-601 **Short title.**

This chapter shall be known and may be cited as the "New York City hazardous substances emergency response law".

(Section added L.L. 42/87 § 6. [See Note at beginning of chapter.])

§ 24-602 **Declaration of policy.**

It is hereby declared to be the public policy of the city to respond to emergencies caused by releases or threatened releases of hazardous substances into the environment so as to preserve, protect and improve the public health, safety and welfare, and to prevent injury to human, plant and animal life and property. It is the policy of the city that every person is entitled to an environment free of hazardous substances that are detrimental to life, health, and enjoyment of property. It is hereby declared that the release or threat of release of hazardous substances into the environment is a menace to the health, safety and welfare of the people of the city and may cause extensive damage to the environment and to property. This chapter shall be liberally construed so as to effectuate the purposes described in this section. Nothing herein shall be construed to abridge the powers of the board of health or the department of health to engage in any of their authorized activities.

(Section added L.L. 42/87 §6. [See Note at beginning of chapter.])

§ 24-603 **Definitions.**

When used in this chapter:

- a. "disposal " means the placing of any hazardous substance into or on any land or water so that such hazardous substance or any constituent thereof may be released into the environment.
- b. "hazardous substance" means each listed hazardous substance or any other chemical substance which when released into the environment may present a substantial danger to the public health or welfare or the environment.
- c. "listed hazardous substance" means any substance listed in accordance with section 24-609.
- d. "person" means any individual, trust, firm, corporation, joint stock company, association partnership, consortium, joint venture, commercial entity or governmental entity.
- e. "release" means any spilling, leaking, pumping, pouring, emitting, emptying, discharging, injecting, escaping, leaching, dumping or

disposing into the environment, or the abandonment of a container or containers containing hazardous substance or substances.

- f. "response measures" include actions taken by a city agency or ordered to be taken by a city agency:
 - 1. to prevent, minimize or mitigate the release of hazardous substances so that they migrate to, or in any other manner, cause or threaten to cause substantial danger to the public health or welfare or the environment,
 - 2. to clean up or remove released hazardous substances from the environment, and
 - 3. which are necessary and appropriate to protect the public health or welfare or the environment from an immediate and substantial danger caused by a release or a substantial threat of a release of a hazardous substance into the environment, including but not limited to security measures to protect the public.
- g. "responsible person" means
 - 1. any owner, operator, lessee, occupant or tenant, other than a residential lessee, occupant or tenant, of property at the time there is a release, of a hazardous substance from such property into the environment or at the time of any response measures implemented in connection with any emergency involving such release or threat of release, provided that if such property is comprised of an owner occupied residential building consisting of six or fewer dwelling units used exclusively for residential purposes, an owner of such property shall be deemed to be a "responsible person" for purposes of this paragraph, only if the willful, knowing, reckless or negligent acts or omissions of such owner caused or substantially contributed to such release or threat of release, and further provided that a federal or state chartered and regulated financial institution which has received title to the property through abandonment, foreclosure, a deed in lieu of foreclosure, or through a judicial or bankruptcy order shall not be deemed to be a "responsible person" for purpose of this paragraph, unless
 - i willful, knowing reckless or negligent acts or omissions of such person caused or substantially contributed to such release or threat of release, or
 - ii the title was received in order to secure the underlying credit extension which had been entered into for the purpose of assisting

the responsible person in avoidance of the provisions of this chapter, or

- 2 any person whose act or omissions caused or substantially contributed to a release, or a substantial threat of a release, or a hazardous substance into the environment, provided that where there is a release, or a substantial threat of a release, of a hazardous substance into the environment from property used for residential purposes, a person using such property as a residence and any invitee or licensee engaged in a business involving the use or transport of any hazardous substance, shall be deemed to be a "responsible person" for purposes of this paragraph, only if the willful, knowing, reckless or negligent acts or omissions of such person or invitee caused or substantially contributed to such release or threat of release, or
- 3 any owner, operator, lessee, occupant or tenant of the property at the time of disposal of any hazardous substance thereon, who had caused, authorized or permitted such hazardous substance to be so disposed, where there is a release, or a substantial threat of a release, of such hazardous substance into the environment, or
- 4 any person who, pursuant to contractual arrangement, accepts or has accepted any hazardous substance for transport, transports such hazardous substance and there is a release, or a substantial threat of a release, of such hazardous substance into the environment, or
- 5 any person who by contract, agreement, or otherwise arranged for disposal or treatment or arranged with a transporter for transport for disposal or treatment of a hazardous substance owned or possessed by such person, and there is a release, or a substantial threat of a release of such hazardous substance in the environment; provided, however, that no person, who is an entity independent from an otherwise responsible person, authorized by the commissioner of environmental protection to implement response measures at the site of a release, or a threat of a release, of a hazardous substance into the environment, shall be deemed to be a "responsible person" solely on the basis of any authorized response measures attempted or implemented by such person at such site, unless such person's willful, knowing, reckless or negligent acts or omissions caused or substantially contributed to a release, or a substantial threat of a release, of a hazardous substance into the environment.

- h "treatment" means any method, technique, or process, including neutralization, designed to change the physical, chemical, or biological

character or composition of any hazardous substance so as to neutralized such substance or so as to render such substance non-hazardous, safer for transport, amenable for recovery, amenable for storage, or reduced in volume. Such term includes any activities or processing designed to change the physical form or chemical composition of a hazardous substance so as to render it nonhazardous.

(Section added L.L. 42/87 § 6. [See Note at beginning of chapter.])

SUBCHAPTER 2

COST RECOVERY

§ 24-604 Recovery of emergency response costs.

- a. Each responsible person shall be jointly and severally liable without regard to fault, except as otherwise provided in this chapter, for the total cost incurred by the city for response measures implemented in connection with any emergency involving a release or substantial threat of a release of a hazardous substance into the environment.
- b. In any action brought by the city to recover its cost for response measures implemented in connection with any emergency involving a release or substantial threat of a release of a hazardous substance into the environment, it shall be an affirmative defense that the release or threat of release of a hazardous substance into the environment was caused solely by,
 1. an act of God;
 2. an act of war;
 3. an act or omission of a third party, other than an employee or agent of the defendant or a party whose act or omission occurs in connection with a direct or indirect contractual relationship with the defendant, if the defendant establishes by a preponderance of the evidence that
 - A he exercised due care with respect to the hazardous substance concerned, taking into consideration the characteristics of such hazardous substance, in light of all relevant facts and circumstances, and
 - B. he took precautions against foreseeable acts or omissions of any such third party and the consequences that could foreseeably result from such acts or omissions; or

-
- 4. any combination of paragraphs one, two or three.
 - c. Nothing in this chapter shall be construed to impair any remedy that a responsible person, or a guarantor of a responsible person, has or would have, by reason of indemnification, contribution, subrogation or any other lawful basis against any person, including any action to recover costs incurred for response measures.
 - d. Recovery by the city for response measures resulting from a release expressly authorized or permitted by applicable federal, state or local law shall be pursuant to existing law in lieu of this section. Nothing in this subdivision shall be construed to affect or modify in any way the obligations or liability of any person under any other applicable federal, state or local law, including common law, for damages, injury, or loss resulting from or for response measures implemented in connection with, any emergency involving a release or a substantial threat of a release of a hazardous substance into the environment.
(Section added L.L. 42/87 § 6. [See Note at beginning of chapter.])

§ 24-605 Lien for emergency response costs.

- a. All costs incurred by the city, including but not limited to the costs of the departments of environmental protection, health and sanitation, and the police and fire departments, for response measures implemented pursuant to this chapter or any other applicable provision of law shall be a debt recoverable from each responsible person and a lien upon the real property of or at which owner, operator, lessee, occupant or tenant is a responsible person and at which such response measures were implemented.
- b. The mayor shall designate agency or agencies which shall receive for filing the certificate of expenses prepared in accordance with section 24-606 and shall keep a record of all such costs incurred. Such records shall be accessible to the public during business hours. Within thirty days after issuance of a purchase or work order for any response measure such order shall be entered on the records of the designated agency or agencies. All such records shall constitute notice to all parties.
- c. Any lien imposed by this section shall arise at the later of the following:
 - 1 the time that the amount of any costs incurred by the city for response measures shall have been definitely commuted as a statement of account and an agency designated pursuant to subdivision b of this section has caused to be filed in the office of the city collector:

-
- i an entry of the account stated in the book in which such charges against the property are to be entered, and
 - ii copies of any notices of potential liability for such costs and statements reciting the dates such notices were mailed, received pursuant to section 24-606; and
 - 2 the third day after a responsible person, who is an owner of real property at which the response measures were implemented and whose liability for any cost incurred by the city for such response measures authorizes the imposition of a lien in accordance with subdivision a of this section, is sent by both certified or registered mail and first class mail notice of such person's potential liability for such costs. Such notice may be provided prior to the mailing of the notice pursuant to subdivision d of this section, but any notice provided pursuant to subparagraph (ii) of paragraph two of subdivision a of section 24-610 shall not be deemed to be notice of such person's potential liability, unless such person's potential liability is specifically referred to in such notice.
 - d A notice stating the amount due and the nature of the costs shall be sent by both certified or registered mail and first class mail by the city collector within five days after such entry pursuant to paragraph one of subdivision c of this section to the last known address of the person whose name appears on the records in the office of the city collector as being the owner or agent or as the person designated by the owner to receive tax bills or, where no name appears, to the property, addressed to either the owner or the agent. Such notice shall have stamped or printed thereon a reference to this section. Such notice shall constitute notice of the potential liability of such owner for such costs for purposes of paragraph two of subdivision c of this section, where no prior notice of potential liability for such costs has been sent.
 - e The city collector shall maintain copies of any notices of potential liability for the costs of response measures, together with statements indicating the dates such notices were mailed, filed by any agency designated pursuant to subdivision b of this section, and copies of any notices sent pursuant to subdivision d of this section, together with statements reciting the dates such notices were mailed.
 - f If such costs are not paid within thirty days from the date that notice is sent pursuant to subdivision d of this section, it shall be the duty of the city collector to receive interest thereon at the rate of interest set for late payment of real property taxes pursuant to section 11-224 to be calculated to the date of payment from the date of entry.

-
- g Such costs and the interest thereon shall continue to be, until paid, a lien on the property. Such lien may be satisfied in accordance with the provisions of section thirteen hundred fifty-four of the real property actions and proceedings law.
 - h Any lien imposed by this section shall be subject to the rights of any mortgagee or lienor whose interest is perfected before notice of the lien has been filed in the office of the city collector, as provided in subdivision c of this section. Any such mortgagee or lienor shall be afforded the same protections against such lien as afforded under law against a judgement lien which arises out of an unsecured obligation and which arises as of the time of the filing of the notice of the lien imposed by this section.
 - i.
 1. In any proceedings to enforce or discharge the lien validity of the lien shall not be subject to challenge based on
 - i the lawfulness of the response measure implemented; or
 - ii the propriety and accuracy of the items of expenses of which a lien is claimed, except as provided in this subdivision.
 - 2 No such challenge may be made except by the owner of the property.
 - 3 An issue specified in paragraph one which was decided or could have been contested in a prior court proceeding or action shall not be open to re-examination.
 - 4 With respect to any issue specified in paragraph one of this subdivision the certificate filed pursuant to section 24-606 shall be presumptive evidence of the facts stated therein.
 - j In addition to establishing a lien, the city may recover such costs and interest thereon by bringing an action against the responsible person. The institution of such action shall not suspend or bar the right to pursue any other lawful remedy for the recovery of such costs.
(Section added L.L. 42/87 §6. [See Note at beginning of chapter.])

§ 24-606 Certificate of expenses.

Upon the completion of any response measure giving rise to a lien, the city agency implementing such response measure shall file with the agency or agencies designated by the mayor pursuant to section 24-605 a certificate setting forth the work done and the expenses incurred and certifying that such expenses

were necessary and proper in the exercise of its lawful powers and, where applicable, apportioning such expenses among lots or buildings belonging to different persons. The city agency implementing such response measure shall also file a copy of any notices of potential liability for such expenses it has mailed for purposes of paragraph two of subdivision c of section 24-605 and a statement reciting the date of any such mailing.

(Section added L.L. 42/87 § 6. [See Note at beginning of chapter.])

SUBCHAPTER 3

HAZARDOUS SUBSTANCE RELEASE; EMERGENCY RESPONSE

§ 24-607 Definitions.

When used in this subchapter:

- a "commissioner" means the commissioner of environmental protection.
- b "department" means the department of environmental protection.
(Section added L.L. 42/87 § 6. [See Note at beginning of chapter.])

§ 24-608 Emergency response.

- a. When the commissioner has reason to believe that there has been a release or there exists a substantial threat of a release into the environment of a hazardous substance which may present an immediate and substantial danger to the public health or welfare or the environment, the commissioner may, in his or her discretion, order any or all responsible persons to implement any response measures, or to cooperate with and assist the commissioner in implementing any response measures, deemed by the commissioner to be necessary to protect the public health or welfare or the environment, or, if the commissioner, in the exercise of his or her discretion, concludes that seeking the implementing any such measures by a responsible person may be detrimental to public health or welfare or the environment due to the likelihood of delay or the ineffectiveness of such response measures, or for any other appropriate reason, the commissioner may implement such response measures. The commissioner shall, where appropriate, consult with the commissioner of health, the police commissioner and the fire commissioner concerning the need for and implementation of such response measures and orders. The commissioner

may also order the production of documents relevant for determining the nature and extent of the release or threat of release.

- b. Nothing in this subchapter shall be construed to preclude the implementation of response measures by any other city agency, either prior or subsequent to any response measure implemented pursuant to subdivision a of this section.

(Section added L.L. 42/87 § 6. [See Note at beginning of chapter.])

§ 24-609 Hazardous substances list; release notification and response regulations.

- a. The commissioner shall by regulation establish within one year from enactment of this section, a list of hazardous substances. The commissioner shall consider whether any of the following substances shall be included on such list:
 - 1 the extremely hazardous substances set forth in a list published pursuant to the emergency planning and community right-to-know act of 1986,
 - 2 the hazardous wastes identified under or listed pursuant to the resource conservation and recovery act of 1976, as amended,
 - 3 the hazardous substances referred to in or designated pursuant to the comprehensive environmental response, compensation, and liability act of 1980, as amended,
 - 4 the elements, compounds and mixtures determined to be hazardous chemicals in accordance with standards for toxic and hazardous substances promulgated pursuant to the occupational safety and health act of 1970, as amended, and
 - 5 the hazardous materials designated pursuant to the hazardous materials transportation act, as amended.
- b. The commissioner may promulgate regulations requiring any responsible person who knows or has reason to know of any release of a listed hazardous substance to immediately notify the commissioner. Such regulations shall establish the minimum quantity of any listed hazardous substance the release of which shall be reported to the commissioner and shall set forth the form and manner of any notification required. A knowing failure to comply with such notification requirement shall be punishable by a fine of not more than twenty five thousand dollars, to be

recovered in a civil action brought in the name of the commissioner or in a proceeding before the environmental control board.

Section added L.L. 42/87 § 6. [See Note at beginning of chapter.]

§ 24-610 Orders to be responsible persons; civil and criminal penalties and imprisonment.

- a 1 An order of the commissioner issued pursuant to subdivision a of section 24-608 shall specify the work to be performed and shall fix a reasonable time for compliance from the date of service of such order. Such order shall contain a statement that upon failure of the responsible person to comply with the commissioner's order within the stated time, the department may perform the work specified in the order or apply for a court order directing the responsible person to comply with the commissioner's order.
- 2
 - i Service of such order shall be made upon the responsible person personally or by certified or registered mail addressed to the last known address of such person or in any manner provided for service of process by article three of the civil practice law and rules.
 - ii In instances where the commissioner knows the responsible person served pursuant to subparagraph (i) is not the owner of the property at which the response measures ordered are to be implemented, notice that such order has been served, and a copy of such order, shall be sent by both certified or registered mail and first class mail to the last known address of the person whose name appears on the records in the office of the city collector as being the owner or agent or as the person designated by the owner to receive tax bills or, where no name appears, to such property, addressed to either the owner or the agent. Such notice shall have stamped or printed thereon a reference to this section. Any failure to provide written notice as prescribed by this subparagraph shall not in any way affect the liability of any person for the cost incurred by the city for any response measures implemented in accordance with this chapter.
- 3 A copy of such order shall be filed with the office of the register in the county in which is situated the property with respect to which such order was issued.
- 4 After service of such order upon a responsible person, such person may request a hearing, except in circumstances of imminent peril

in which the commissioner has determined that response measures are to be implemented without any delay. The commissioner shall promulgate rules and regulations setting forth the times within which and the procedures by which requests for hearings shall be made and hearings shall be held. At such hearing the responsible persons, shall be entitled to be represented by counsel and to present evidence. The commissioner may affirm, modify or revoke the order.

- b In addition to any response measures implemented by the commissioner pursuant to section 24-608, if the responsible person fails to comply with the commissioner's order with the time fixed for compliance pursuant to subdivision a of this section, the department may perform the work specified in the order, or may apply to any court the competent jurisdiction, upon such notice and in such manner as the court shall direct, for an order directing the responsible person to comply with the commissioner's order.
- c Any responsible person who without sufficient cause, willfully violates, or fails or refuses to comply with, any order of the commissioner issued pursuant to section 24-608 may be liable:
 - 1 for a civil penalty of not more than ten thousand dollars for each day in which such violation occurs of such failure or refusal to comply continues; and
 - 2 for an additional civil penalty in an amount of at least equal to and not more than three times, the amount of any costs incurred by the city as a result of such person's willful violation, or failure or refusal to comply. Such penalties may be recovered in a civil action brought in the name of the commissioner or in a proceeding before the environmental control board.
(Section added L.L. 42/87 § 6. [See Note at beginning of chapter.])
- d In addition to the penalties set forth in subdivision c of this section and subdivision b of section 24-609, any person who knowingly violates or fails to comply with any order, rule or regulation issued by the commissioner pursuant to this chapter shall be guilty of a misdemeanor and, upon conviction thereof, shall be punishable by a fine of not less than twenty-five thousand dollars, or by imprisonment not to exceed one year, or both, for each violation.

§ 24-611 Regulations.

The commissioner shall have the power to promulgate such rules and regulations as may be necessary to carry out the purposes of this chapter.

(Section added L.L. 42/87 § [See Note at beginning of chapter.])

§24-612 Nonexclusivity of remedies.

Nothing in this chapter shall be construed to impair or diminish the power of the commissioner or any other agency to remove, repair, reconstruct, alter or abate a nuisance or to order any of the foregoing actions or to impose penalties on persons responsible for such nuisance or its removal, repair, reconstruction, alteration or abatement.

(Section added L.L. 42/87 § 6. [See Note at beginning of chapter])

DEPARTMENT OF ENVIRONMENTAL PROTECTION
Promulgation of
Hazardous Substances
Emergency Response Regulations

IN COMPLIANCE WITH SECTION 1105 OF THE NEW YORK CITY CHARTER and exercising the authority vested in me as Commissioner under both Section 1403(c) of the Charter and Section 24-101 et. seq. Of the Administrative Code of the City of New York, notice is hereby given of promulgation of Hazardous Substances Emergency Response Regulations.

TITLE 1

AUTHORITY

Section 100 Authority

These rules and regulations, pertaining to the release or threatened release of hazardous substances into the environment of the City of New York and to the enforcement of the "New York City hazardous substances emergency response law", are promulgated under authority vested in the Commissioner by Sections 1403 and 1404 of the New York City Charter, and by Sections 24-609(a) and (b), 24-610(a)(4), and 24-611 of the Administrative Code of the City of New York.

TITLE II
DEFINITIONS

Section 200 Definitions.

The following definitions shall apply to the Hazardous Substances Emergency Response Regulations, Sections 100 et. seq., unless the context specifically indicates otherwise.

"Commissioner" shall mean the commissioner of the New York City Department of Environmental Protection or his/her designee.

"Department" shall mean the Department of Environmental Protection.

"Disposal" shall mean the placing of any hazardous substance(s) into or on any land or water so that such hazardous substance(s) or any constituent thereof may be released into the environment.

"Hazardous Substance" shall mean each listed hazardous substance or any other chemical substance which when released into the environment may present a substantial danger to the public health or welfare or the environment.

"Listed Hazardous Substance" shall mean any substance listed in accordance with §24-609 of the New York City hazardous substances emergency response law (Title IV of these regulations).

"Person" shall mean any individual, trust, firm, corporation, joint stock company, association, partnership, consortium, joint venture, commercial entity or government entity.

"Release" shall mean any spilling, leaking, pumping, pouring, emitting, emptying, discharging, injecting, escaping, leaching, dumping or disposing into the environment.

"Reportable Quantity" shall mean the minimum quantity of a listed hazardous substance which when release will require notification to the Commissioner by any responsible person who knows or has reason to know of such release. These quantities are listed in Title IV.

"Response measures" shall include actions taken by a city agency or ordered to be taken by a city agency:

- a to prevent, minimize or mitigate the release of hazardous substances so that they do not migrate to, or in any other manner, cause or threaten to cause substantial danger to the public health or welfare or the environment,
- b to clean up or remove released hazardous substances from the environment, and
- c which are necessary and appropriate to protect the public health or welfare or the environment from an immediate and substantial danger caused by a release or a substantial threat of a release of a hazardous substance into the environment, including but not limited to security measures to protect the public.

"Responsible person" shall mean:

- a any owner, operator, lessee, occupant or tenant, other than a residential lessee, occupant or tenant, of property at the time there is a release, or a substantial threat of a release, of a hazardous substance from such property into the environment or at the time of any response measures implemented in connection with any emergency involving such release or threat of release, provided that if such property is comprised of an owner-occupied residential building consisting of six or fewer dwelling units used exclusively for residential purposes, an owner of such property shall be deemed to be a "responsible person" for purposes of this paragraph, only if the willful, knowing, reckless or negligent acts or omissions of such owner caused or substantially contributed to such release or threat of release, and further provided that a federal or state chartered and regulated financial institution which has received title to the property through abandonment, foreclosure, a deed in lieu of foreclosure, or through a judicial or bankruptcy order shall not be deemed to be a "responsible person" for purposes of this paragraph, unless (i) willful, knowing reckless or negligent acts or omissions of such person caused or substantially contributed to such release or threat of release, or (ii) the title was received in order to secure the underlying credit extension which had been entered into for the purpose of assisting a responsible person in avoidance of the provisions of this chapter, or
- b any person whose acts or omissions caused or substantially contributed to a release, or a substantial threat of a release, of a hazardous substance into the environment, provided that where there is a release, or a substantial threat of a release of a hazardous substance into the environment from property used for residential purposes, a person using such property as a residence and any invitee or licensee of such person who enters such property, other than an invitee or licensee engaged in a business involving the use or transport of any hazardous substance, shall be deemed to be a "responsible person" for purposes of this paragraph, only if the willful, knowing, reckless or negligent acts or omissions of such person or invitee caused or substantially contributed to such release or threat of release, or
- c any owner, operator, lessee, occupant or tenant of the property at the time of disposal of any hazardous substance thereon, who had caused, authorized or permitted such hazardous substance to be so disposed, where there is a release, or a substantial threat of a release, of such hazardous substance into the environment, or
- d any person who, pursuant to contractual arrangement, accepts or has accepted any hazardous substance for transport, transports such

hazardous substance and there is a release, or a substantial threat of a release, of such hazardous substance into the environment, or

- e any person who by contract, agreement, or otherwise arranged for disposal or treatment or arranged with a transporter for transport for disposal or treatment of a hazardous substance owned or possessed by such person, and there is a release, or a substantial threat of a release, of such hazardous substance in the environment; provided, however, that no person, who is an entity independent from an otherwise responsible person, authorized by the commissioner of environmental protection to implement response measures at the site of a release, or a threat of a release, of a hazardous substance into the environment, shall be deemed to be a "responsible person" solely on the basis of any authorized response measures attempted or implemented by such person at such site, unless such person's willful, knowing, reckless or negligent acts or omissions caused or substantially contributed to a release, or a substantial threat of a release, of a hazardous substance into the environment.

"Treatment" shall mean any method, technique, or process, including neutralization, designed to change the physical, chemical, or biological character or composition of any hazardous substance so as to neutralize such substance or so as to render such substance nonhazardous, safer for transport, amenable for recovery, processing designed to change the physical form or chemical composition of a hazardous substance so as to render it nonhazardous.

TITLE III

NOTIFICATION

Note: The regulations in this Title detail the requirement to notify the Commissioner of the Department of Environmental Protection in the event of a release of a listed hazardous substance. This notification is intended to supplement, not replace, other required emergency notifications. Therefore, in addition to any notification required under this Title, Police Emergency at 911 should be notified in the event of a significant incident involving a hazardous substance which presents a danger to the public. This alerts the City's Emergency Warning system and assures comprehensive City agency response to such an incident.

Section 300 Notification Requirement

- a Any responsible person who knows or has reason to know of any release of any listed hazardous substance in an amount which equals or exceeds

the reportable quantity of such substance shall immediately notify the Commissioner pursuant of §320.

1. Listed hazardous substances and reportable quantities are specified in Title IV.
 2. Notification shall not be required when a listed hazardous substance is release in an amount authorized pursuant to the provisions of a federal, state, or local permit or order, or court order.
- b Notification shall be made to the Commissioner by telephoning the Department at **718-595-4646** on business days from 9 A.M. to 5 P.M. Notification at all other times shall be made to the Department Communications Center at **718-595-4646**.

Section 310 Telephone Notification

Telephone notification shall include the following:

- a Hazardous substance(s) released, quantity or estimated quantity released and hazardous properties; and
- b Description of the incident including the cause, effect (e.g., illness or injuries), and status.

Section 320 Written Notification

- a Written notification shall be made to the Department within one week of the release by certified mail to the following address:

DEPARTMENT OF ENVIRONMENTAL PROTECTION
DIVISION OF EMERGENCY RESPONSE &
TECHNICAL ASSESSMENT
96-05 HORACE HARDING EXPRESSWAY
CORONA, NY 11368
ATTN: HAZARDOUS SUBSTANCES
EMERGENCY RESPONSE OFFICER

- b Written notification shall include the following information:
 - 1 The name(s) of the responsible person(s) and contact number(s); the name(s) of the owner(s) of the site; the location of the release; the time of the release; the chemical name and any trade names of the substance released; the hazardous characteristics of the chemical (e.g., toxic,

flammable, corrosive, etc.); the estimated quantity of any subsequent or continuing release; a description of areas affected by the release, such as public rights-of-way, residues in the area sewers, catch basins, equipment and structures, and the geographic extent of the affected areas; and

- 2 The nature of the process(es) which take place at the site including, but not limited to any processes involved in the actual release and any processes which might contribute to a hazardous situation or in any way impede response measures; and
 - 3 All climatological conditions which in any way contributed to the hazard of a release; and
 - 4 Any available information regarding injuries at the site, adjacent to the site, and elsewhere which may be a result of the release; and
 - 5 Details regarding abatement and/or cleanup measures taken by responsible person(s) or his/her designee(s), or any other person(s); and
 - 6 Any additional details requested by the Department at the time of telephone notification.
- c Additional written notification requirements, including weekly written status reports for longer term remediation, may be included in Departmental orders issued pursuant to §§24-608 and 24-610 of the Administrative Code.

TITLE IV

LISTED HAZARDOUS SUBSTANCES

Section 400 Definitions

- a The following substance categories which appear on the hazardous substances list shall have the following meanings:
 - 1 "Combustible Substance" shall mean any liquid which has a flash point at or above 100 ° F (37.8°C) and below 300° F (148.9° C).
 - 2 "Corrosive Substance" shall mean:

-
- A any liquid or solid that causes visible destruction or irreversible alterations in human skin tissue at the site of contact; or
 - B any aqueous solution with a pH less than or equal to 2 or greater than or equal to 12.5, as determined by a pH meter, or equivalent methods; or
 - C any liquid that corrodes steel (SAE 1020) at a rate greater than 5.35 mm (0.250 inch) per year at a test temperature of 130° F (55° C).
- 3 "Flammable Substance" shall mean any liquid having a flash point below 100° F (37.8° C).
- 4 "Ignitable Substance" shall mean any substance which has any of the following properties:
- A It is a solid which is capable under standard temperature and pressure of causing fire through friction, absorption of moisture, or spontaneous chemical changes; and which, when ignited, burns so vigorously and persistently that it creates a hazard; or
 - B It is flammable compressed gas, as defined in 49 CFR 173.300, and as determined by the test methods described in that regulation; or
 - C It is an oxidizer as defined in 49 CFR 173.151.
- 5 "Reactive Substance" shall mean any substance which has any of the following properties:
- A It is normally unstable and readily undergoes violent change without detonating; or
 - B It reacts violently with water; or
 - C It forms potentially explosives mixtures with water; or
 - D When mixed with water it generates toxic gases, vapors or fumes in a quantity sufficient to present a danger to human health or the environment; or

- E It is a cyanide or sulfur bearing substance which, when exposed to pH conditions between 2 and 12.5, can generate gases, vapors or fumes in a quantity sufficient to present a danger to human health or the environment; or
 - F It is capable of detonation or explosive reaction if it is subjected to a strong initiating source or if heated under confinement; or
 - G It is readily capable of detonation or explosive decomposition or reaction at standard temperature and pressure; or
 - H It is a forbidden explosive as defined in 49 CFR 173.51, or a Class A explosive as defined in 49 CFR 173.53, or a Class B explosive as defined in 49 CFR 173.88.
- b For the purposes of this section, "flash point" shall mean the minimum temperature at which a liquid gives off vapor in a test vessel of sufficient concentration to form an ignitable mixture with air near the surface of the liquid. Such temperature shall be determined:
 - 1 by a Pensky-Martens Closed Cup Tester using the test method specified in ASTM Standard D-93-79 or D-93-80; or
 - 2 by a Setaflash Closed Cup Tester using the test method specified in ASTM Standard D-3278-78; or
 - 3 by a Tag Closed Cup Tester, using the test method specified ASTM D-56-79.

Section 410 Reportable Quantities

- a Following is a list of hazardous substances and reportable quantities. Any responsible person who knows or has reason to know of a release of any listed hazardous substance in an amount which equals or exceeds the reportable quantity shall notify the Department as specified in Title III, except that no notification shall be required when such release occurs in an amount authorized

pursuant to the provisions of a federal, state, or local permit or order, or court order.

- b There may be circumstances in which a release of a hazardous substance or mixture of substances in an amount less than a reportable quantity creates a risk or danger to the public health, welfare, or the environment. In the event that a release of any amount of listed hazardous substance combines with other variables to produce such a hazard, any responsible person who knows or has reason to know of such release should notify the Commissioner of any such release.

TITLE V
ADMINISTRATIVE PROCEEDINGS

Section 500 Applicability

- a This Title shall apply to all administrative proceedings brought at the request of a responsible person pursuant to § 24-610(a)(4) of the Administrative Code.
- b This Title shall not apply if the Commissioner:
 - 1. issued no order; or
 - 2. has determined pursuant to § 24-610(a)(4) that response measures are to be implemented without any delay.

Section 510 Request for Hearing

- a A responsible person who has been served with an order issued by the Commissioner pursuant to § 24-608 and § 24-610 of the Administrative Code, may submit a written request for a hearing within ten (10) working days of service of such order.
- b The request for a hearing shall be served personally or by certified or registered mail, to the following address:

NYC Department of Environmental Protection
Office of General Counsel, 19th fl.
59-17 Junction Blvd
Flushing, NY 11373

Attn: Hazardous Substances
 Emergency Response Attorney
- c The request for a hearing shall state with specificity:
 - 1 the date of service of the Commissioner's order to the responsible person;
 - 2 the location of the site which is the subject of the order;
 - 3 the substance which was released or may be released;
 - 4 the action ordered to be taken;

- 5 the reason for requesting a hearing; and
- 6 an address for subsequent service of documents.
- d The request for a hearing, when made within the time specified, shall constitute a stay against compliance with the Commissioner's order. However, nothing in this Title shall preclude or affect the authority of the Commissioner to implement response measures deemed to be necessary to protect the public health or welfare or the environment from a release or threat of release of a hazardous substance.

Section 520 Commissioner's Response to Request of Hearing

- a Within ten (10) working days of service of a request for a hearing the Commissioner shall either deny the request, or require the submission of additional information in support of the request, or grant the request.
- b The Commissioner's response to a request for a hearing shall be served on the responsible person who made the request, personally or by certified or registered mail within the prescribed time period, to the address provided in the request for hearing or, if no such address was provided, to the address at which the Commissioner's order was served.

Section 521 Denial of Request

- a The Commissioner shall give specific reason for denying the request for a hearing in his/her written response.
- b Service of such denial shall end the stay against compliance with the Commissioner's order. The responsible person shall thereafter be subject to the enforcement of § 24-610 and any other applicable provisions of the Administrative Code.

Section 522 Response Requesting Additional Information

- a Service of the Commissioner's response requesting additional information shall continue the stay against compliance with the Commissioner's order, pending resolution of the request for hearing.
- b The responsible person's answer shall be served personally or by certified or registered mail to the address in Section 510(b), within ten (10) days of service of the Commissioner's response. Such answer shall be deemed a request for hearing for purposes of Section 520.
- c Failure to answer within the specified time shall end the stay against compliance with the Commissioner's order. The responsible person shall thereafter be subject to the enforcement of § 24-610 and any other applicable provisions of the Administrative Code.

Section 523 Grant of Request

- a The Commissioner shall set forth a time and place for the hearing in his/her written response.
- b The time set for the hearing shall be no more than fifteen (15) working days from the date of service of the Commissioner's response granting the hearing

Section 530 Default

- a A responsible person who fails to appear at the hearing granted in response to that person's request may have the issue of his/her challenge to the Commissioner's order resolved against him/her.
- b Service of notice of default shall be made upon the responsible person, either personally or by certified or registered mail, at the address provided in the request for hearing or, if no such address was provided, the address at which the Commissioner's order was served, and such service shall end the stay against compliance with the Commissioner's order. The responsible person shall thereafter be subject to the enforcement of § 24-610 and any other applicable provisions of the Administrative Code.

- c Application to Reopen
 - 1 The hearing officer may open a default or relieve any party of the consequences of the default upon good cause shown, where written application is served personally or by certified or registered mail to the address in Section 510(b), within seven (7) working days of service of notice of default.
 - 2 Such written application when made within the time specified, shall constitute a stay against compliance with the Commissioner's order pending resolution of the application.
 - 3 If the hearing officer decides that a hearing should be held on the merits, such hearing shall be held and the manner decided as if the default had not been issued.

Section 540 Hearing Procedures

- a The burden of proof shall be on the responsible person to show by a preponderance of relevant evidence why the order should either be revoked or modified.
- b The responsible person shall be entitled to be represented by counsel and to present evidence as to why the Commissioner should either revoke or modify the order.
- c Testimony given and other proceedings had at a hearing shall be recorded verbatim. For this purpose, the Department may use whatever means it deems appropriate, including but not limited to the use of stenographic transcriptions or recording devices.
 - 1 Depending on the means used, a copy of the Department's transcription may be available to the responsible person at his/her own expense.
 - 2 When such a copy will not be available, the responsible person may arrange for a transcription at her/his own expense.

Section 550 Hearing Officer

- a The Commissioner shall designate a hearing officer as her/his representative for the purpose of conducting fair and impartial hearing under this Title. Such officer shall not be a person who participated in the drafting of the order.

- b 1 The hearing officer shall have power to:
 - A rule upon motions and requests;
 - B set the time and place of hearing;
 - C administer oaths and affirmations;
 - D summon and examine witnesses;
 - E admit or exclude evidence;
 - F hear argument on facts or law;
 - G do all acts and take all measures necessary for the maintenance of order and efficient conduct of the hearing.
- 2 The hearing officer's exercise of such powers may be reviewed by the Commissioner upon submission of the hearing officer's report.

- c The hearing officer shall admit all relevant, competent, and material evidence, except where such evidence is unduly repetitious, or where its value as proof is substantially outweighed by a potential for unfair prejudice, confusion of the issue, undue delay, waste of time or needless presentation of the repetitious or duplicative evidence. The applications of the rules of evidence shall be within the hearing officer's discretion.

- d Report
 - 1 The hearing officer shall prepare and submit a report to the Commissioner for his/her review.
 - 2 Such report shall be submitted within ten (10) working days of the close of the record. The record shall not be closed before the hearing officer receives the verbatim recording produced pursuant to § 540(c).

Section 560 Final Determination

- a Within a reasonable time after receipt of the hearing officer's report, the Commissioner shall make a final determination, based on the hearing officer's report and on the record, which may provide for affirmation, suspension, modification, or revocation of the order in issue, or any determination consistent with the applicable provisions of the Administrative Code, §24-601 et seq., and the rules and regulations promulgated thereunder.

- b A copy of the final determination and order shall be served personally or by certified or registered mail, to the responsible person who requested the hearing, at the address provided in the request for hearing or, if no such address was provided, the address at which the Commissioner's order was served.

- C At any time prior to issuance of the Commissioner's final determination, the Department of Environmental Protection may enter into a stipulation or consent order with the responsible person who requested a hearing. Such stipulation or consent order shall be admissible as evidence to provide the basis for a finding of fact in any subsequent proceeding brought by the Department of Environmental Protection against such responsible person.

EXPLANATION

The foregoing regulations are promulgated to implement Sections 24-609 and 24-610 of the Hazardous Substances Emergency Response Law.

In accordance with Section 1105(f) of the City Charter, these regulations shall be effective thirty-one days after the date of publication.
