Resolved, That the New York Steam Company, a corporation formed under the laws of the State of New York (certificate of incorporation filed July 26, 1880), its successors or assigns, shall have and is hereby granted the right to lay mains and pipes in any and all the streets, avenues, lanes, alleys, squares, highways, and public places in the City of New York, with the necessary and proper laterals and service pipes thereto, for the purpose of supplying to the city and its inhabitants, for motive power, heating, cooking, or other useful applications, steam, water, air, and other fluids, at both high and low pressure, with necessary return pipes, and to make all necessary excavations in said streets, avenues, and other places aforesaid, for the purpose of laying such mains and pipes and of making all necessary additions, repairs, and alterations thereto, and of putting in place any man-holes and vaults necessary to secure convenient access to parts requiring adjustment, subject, however, to the following regulations and conditions:

First—The company, its successors or assigns, shall, in advance of opening streets, give a bond to the city, to be approved by the Comptroller, in the sum of fifty thousand dollars, conditioned that the obligors, their legal representatives or assigns, will save the city harmless from all damages that may result from the use of said mains and pipes, and further conditioned that the obligors, their legal representatives or assigns, will properly replace the pavement in any of the streets, avenues, or other places aforesaid where such mains or pipes may be laid.

Second—In consideration of the rights hereby granted, the said company, its successors or assigns, shall pay into the Sinking Fund, for the benefit of the City of New York, the sum of three cents per lineal foot of streetway in which its mains are laid until such payments shall have amounted to one hundred thousand dollars, after which such payments shall cease and terminate; such payments shall be made quarterly within ten days after the first day of January, April, July, and October, for the number of feet of streetway in which such mains shall have been laid during the quarter preceding such first day of January, April, July, and October, respectively.

Third—The company, its successors or assigns, shall furnish to the city such heat and power as may be required for public buildings, hydrants, and other ordinary and permanent public purposes, within the district supplied by its pipes, at reasonable prices, not exceeding those paid by its most favored customer.

Fourth—After the filing and approval of the bond hereinbefore mentioned, and before opening any street, or portion thereof, the said company, its successors or assigns, shall, from time to time, file with the Department of Public Works a map or maps of such streets or other places, aforesaid, or such portion or portions thereof as it may from time to time desire to enter, specifying therein one or more of such streets or places, or one or more portions of one or more of them, and showing also the station or stations where it is proposed to generate or manufacture the fluids to be conveyed in the pipes to be laid therein, as well as approximately the number and size, including coverings of mains and laterals it is proposed at that time to lay in the streets or places, or portions thereof, aforesaid specified, with the location and size of the principal manholes and vaults. It being understood that the location of the laterals and other short or small pipes may be laid out on a map previously filed, instead of filing a special map in reference thereto. Upon the filing of such map or maps, as aforesaid, it is hereby made the duty of the Commissioner of Public Works to promptly locate such mains in the streets, places, or portions thereof specified, as aforesaid, in such manner as to be least expensive to the company, and where such mains will be accessible and out of the way of floods, if possible, and where the foundations will not be liable to disturbance. When the sewers, water-mains, or other street pipes or obstructions controlled by the city, or in respect to which the city has the power of alteration or removal, obstruct the laying of the mains of this company, its successors or assigns, so as to prevent the laying of its mains and pipes at reasonable expense, or seriously to impair their efficiency, it is hereby made the duty of the Commissioner of Public Works to rearrange such sewers, pipes, or other obstructions at the request and expense of this company, its successors and assigns, where the same can be done without serious detriment to the public interest.

Any location assigned to this company, its successors or assigns, by the Commissioner of Public Works, as aforesaid, shall be reserved by the said Commissioner for the company, its successors and assigns, a reasonable time not exceeding six months, to permit the preparation of the pipe and special connections.

Pipes shall be relocated by the Commissioner of Public Works, and additional pipes located in any street, place or portion thereof where pipes have already been laid, or a location has been forfeited upon a new application by the company, its successors or assigns, similar in all respects to an original one, as above specified.

Fifth—From time to time, as the work progresses, the said company, its successors or assigns, shall file with the Commissioner of Public Works, tables showing accurately, by reference to street lines, the position of its mains and vaults, as actually put in position.

Sixth—The work of the said company, its successors or assigns, in the streets shall be done under reasonable regulations by the Commissioner of Public Works, as to the safety of the public and the times during which public travel may be interrupted in particular locations.

Reference is made to the approved form of contract and the specifications forming a part thereof on file in the office of the Department for fuller and more particular information as to the kinds and sizes of the pieces of meat to be furnished.

All the above quantities are estimated and approximate only, and bidders are notified that if the Department shall require more than those quantities, or any of them, the contractor must furnish all that is required, and will be paid therefor only at the rates or prices named in the contract; and that in case the above-named quantities or any of them shall not be required by the Department, no allowance will be made for any real or supposed damage or loss of profit.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, in the penal amount of twenty-five thousand dollars.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a Department, Chief of a Bureau, Deputy thereof or Clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that, if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion, and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The

consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract over and above all his debts of every nature, and over and above his liabilities, as bail, surety, or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 27 of chapter 8 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept to contract within forty-eight (48) hours after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be re-advertised and relet as provided by law.

Bidders are cautioned to examine the specifications for particulars before making their estimates.

Bidders will write out the amount of their estimate, in addition to inserting the same in figures.

Payment for the officers, nurses, attendants, etc., will be made by a requisition on the Comptroller, issued monthly; and for the other meats by a like requisition issued weekly.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instruction of the Commissioners of Public Charities and Correction.

Passed April 15, 1880; three-fifths being present.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. At any time after the passage of this act, and before the first day of October, eighteen hundred and eighty, any person may pay to the Comptroller of the City of New York the amount of any tax upon real property belonging to such person, heretofore laid or imposed and now remaining unpaid, together with interest thereon at the rate of seven per centum per annum, to be calculated from the time that such tax was imposed to the time of such payment, provided, also, that the time when such payment may be made on the amount of any such tax laid or imposed in the years eighteen hundred and seventy-seven, eighteen hundred and seventy-eight, and eighteen hundred and seventy-nine shall extend to the first day of April, eighteen hundred and eighty-one.
