## REPORTS.

## From Standing Committees.

## Committee on City Plan and Public Improvements.

Sewerage Districts Nos. 32, 33 and 35, Borough of The Bronx—Modification in Drainage Plan (Cal. No. 7).

(On January 25, 1918 (Cal. No. 6), this matter was referred to the Committee on City Plan and Public Improvements.)

The Secretary presented a communication dated December 5, 1917, from the Commissioner of Public Works, Borough of The Bronx, transmitting for approval map showing proposed modification; and the following report of the Committee on City Plan and Public Improvements:

April 10, 1918.

## Board of Estimate and Apportionment:

Gentlemen—At the meeting of the Board of Estimate and Apportionment, held on January 25, 1918, there was referred to the Committee on City Plan and Public Improvements a modification of the drainage plan for Sewerage Districts Nos. 32, 33 and 35, Borough of The Bronx (Calendar No. 6).

Your Committee has deferred submitting a report upon this plan pending a more careful study of the problem of main drainage and sewage treatment for the City as a whole. While the Committee has not yet finished its consideration of this problem, it has gone far enough to reach the conclusion that, whatever comprehensive plan may ultimately be adopted, the modification under discussion will fit into such comprehensive plan with slight modification and that meanwhile it will afford much needed relief to the Harlem River, which is very seriously polluted.

The plan will provide for the interception of the sewage from an area of more than 3,600 acres, now drained into the Harlem River, Bronx Kills and the East River, between Third Avenue and East 138th Street. It is estimated that by the year 1960 this area will contain a population of nearly 600,000, with an average of about 77,000,000 gallons of sewage per day during dry weather. The plan calls for an intercepting sewer from Third Avenue on the west and East 138th Street on the north, joining at East 132nd Street and Locust Avenue, and leading to a temporary pumping station and treatment plant near the waterfront. The effluent will be carried by three 48-inch submerged outlet pipes about 400 feet long to a depth of 44 feet below mean tide level. During storms a volume equal to about twice the mean dry weather flow of 1960 will be intercepted and brought to this point for disposal, the excess storm flow passing through regulators at Lincoln Avenue, Brook Avenue, Cypress Avenue, East 134th Street and East 138th Street directly to the waterfront through existing sewers.

The conditions in the Harlem River call for immediate steps for their relief. The average oxygen content of the water in the Harlem River has decreased during the period from 1909 to 1917, covered by observations, from 55 per cent. to 22 per cent., while at certain times during the last couple of years it has reached zero. This means that serious nuisance is almost sure to develop during protracted warm weather.

Further details of the plan were given in a report submitted by the Chief Engineer to the Board at the meeting held on January 25, 1918, and this has been supplemented by additional information from the Borough Sewer Bureau.

The matter before the Board is a modification of a drainage plan, but no proceedings for the construction of any part of the work have as yet been initiated. Your Committee, in view of the conditions above described and the need for remedial measures, recommends the approval of the plan. Respectfully,

FRANK L. DOWLING, President, Borough of Manhattan, Chairman; ..... Comptroller; EDWARD RIEGELMANN, President, Borough of Brooklyn; HENRY BRUCKNER, President, Borough of The Bronx; MAURICE E. CONNOLLY, President, Borough of Queens; CALVIN D. VAN NAME, President, Borough of Richmond; Committee on City Plan and Public Improvements.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves modified drainage plan for Sewerage Districts Nos. 32, 33 and 35, Borough of The

Bronx, showing the location, sizes and grades of an intercepting sanitary sewer across Third avenue at Southern Boulevard, in Southern Boulevard, from Lincoln avenue to Brock avenue; in Brook avenue, from Southern Boulevard to East 132nd street; in East 132nd street, from Brook avenue to the East River, and in Locust avenue, from East 138th street to East 132nd street, together with storm water overflow sewers in Third avenue, Lincoln avenue, Brook avenue, Cypress avenue, East 134th street and East 138th street, from the above described interceptor to the bulkhead line, and a temporary pumping and treatment plant at East 132nd street and East River, bearing the signature of the President of the Borough and dated November 22, 1917.

Which was adopted by the following vote:

Affirmative—The Mayor, the Deputy and Acting Comptroller, the President, Board of Aldermen, the President of the Borough of Manhattan, the Acting President of the Borough of Brooklyn, the Presidents of the Boroughs of The Bronx and Queens and the Acting President of the Borough of Richmond—16.

(On February 15, 1918 (Cal. No. 30), this matter was referred to the Committee on City Plan and Public Improvements.)

The Secretary presented a communication, dated February 6, 1918, from the Secretary to the President, Borough of Queens, transmitting for approval amended drainage plan; and the following report of the Committee on City Plan and Public Improvements:

April 10, 1918.

#### **Board of Estimate and Apportionment:**

Gentlemen—At the meeting of the Board of Estimate and Apportionment held on February 15, 1918, there was referred to the Committee on City Plan and Public Improvements a proposed modification in the drainage plan for Sewerage District No. 6-A-14, Borough of Queens (Calendar No. 30).

Your Committee finds that this plan relates to the block of Trowbridge Street, between Willow Street and Van Alst Avenue, and is designed to legalize sewers already built and provide for extensions to serve lots now without sewer connections. It is a simple detail of the drainage plan and the Committee recommends its approval. Respectfully submitted,

FRANK L. DOWLING, President, Borough of Manhattan, Chairman; ..... Comptroller; EDWARD RIEGELMANN, President, Borough of Brooklyn; HENRY BRUCKNER, President, Borough of The Bronx; MAURICE E. CONNOLLY, President, Borough of Queens; CALVIN D. VAN NAME, President, Borough of Richmond; Committee on City Plan and Public Improvements.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves modified drainage plan for Sewerage District No. 6-A-14, Borough of Queens, showing the location, size and grades of the sewer in Trowbridge street, from Willow street to Van Alst avenue, bearing the signature of the President of the Borough and dated January 7, 1918.

Which was adopted by the following vote:

Affirmative—The Mayor, the Deputy and Acting Comptroller, the President, Board of Aldermen, the President of the Borough of Manhattan, the Acting President of the Borough of Brooklyn, the Presidents of the Boroughs of The Bronx and Queens and the Acting President of the Borough of Richmond—16.

#### **Sewerage District No. 10-12, Borough of Queens—Amended Drainage Plan (Cal. No. 9).**

(On February 15, 1918 (Cal. No. 30), this matter was referred to the Committee on City Plan and Public Improvements.)

The Secretary presented a communication, dated February 6, 1918, from the Secretary to the President, Borough of Queens, transmitting for approval amended drainage plan; and the following report of the Committee on City Plan and Public Improvements:

April 10, 1918.

#### **Board of Estimate and Apportionment:**

Gentlemen—At the meeting of the Board of Estimate and Apportionment held on February 15, 1918, there was referred to the Committee on City Plan and Public Improvements a proposed modification in the drainage plan for Sewerage District No. 10-12, Borough of Queens (Calendar No. 30).

Your Committee finds that this plan is necessitated by recent changes made in street grades, while at the same time it removes summits in the sewers in Moore and Honeywell Streets on both sides of Anable Avenue, the sewer in each case being extended against the street grade and eliminating altogether nearly 600 feet of sewer.

Your Committee believes the plan to be a reasonable one and that it will result in considerable economy and recommends its approval. Respectfully submitted,

FRANK L. DOWLING, President, Borough of Manhattan, Chairman; ..... Comptroller; EDWARD RIEGELMANN, President, Borough of Brooklyn; HENRY BRUCKNER, President, Borough of The Bronx; MAURICE E. CONNOLLY, President, Borough of Queens; CALVIN D. VAN NAME, President, Borough of Richmond; Committee on City Plan and Public Improvements.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves modified drainage plan for Sewerage District No. 10-12, Borough of Queens, showing the location sizes and grades of the sewers within the territory bounded by Nelson avenue, Honeywell street, Hunterspoint avenue and Moore street, bearing the signature of the President of the Borough and dated December 13, 1917.

Which was adopted by the following vote:

Affirmative—The Mayor, the Deputy and Acting Comptroller, the President, Board of Aldermen, the President of the Borough of Manhattan, the Acting President of the Borough of Brooklyn, the Presidents of the Boroughs of The Bronx and Queens and the Acting President of the Borough of Richmond—16.

(On February 15, 1918 (Cal. No. 30), this matter was referred to the Committee on City Plan and Public Improvements.)

The Secretary presented a communication dated February 6, 1918, from the Secretary to the President, Borough of Queens, transmitting for approval modified drainage plan; and the following report of the Committee on City Plan and Public Improvements:

April 10, 1918.

#### **Board of Estimate and Apportionment:**

Gentlemen—At the meeting of the Board of Estimate and Apportionment, held on February 15, 1918, there was referred to the Committee on City Plan and Public Improvements a proposed modification in the drainage plan for Sewerage District No. 21-20, Borough of Queens (Calendar No. 30).

Your Committee finds that this plan relates to an area of about 150 acres, near the Middle Village section of the Borough of Queens. The changes for the most part are the result of a radical modification recently made in the street plan of the territory and simply adapt the sewer plan to the new street layout. In the northeastern corner of the district, however, the plan under consideration adds to the drainage area served by the main sewer, outletting through Scott Avenue in the head of Newtown Creek, several blocks, or about 32 acres. This area was formerly tributary to the 51st Street sewer, but the drainage cannot reach this sewer without the construction of intervening trunks, the building of which there is no likelihood of for some years to come.

It appears that the area tributary to the Scott Avenue trunk sewer has been assessed at the rate of about \$52 a lot, while the land within the area referred to has been assessed at the rate of only \$5 a lot for the construction heretofore carried out on the 51st Street trunk sewer system. The change from one drainage area to another will, therefore, result in an apparent injustice and will allow this property, which has paid a very much smaller assessment, to make use of an outlet sewer which has cost other property within its drainage area a much larger sum. Such problems as this will almost inevitably occur in the development of a sewerage system. The drainage areas may have been intelligently defined in accordance with the topography, but it is impossible to anticipate in what part of these areas building activity is likely to take place, and, if this happens at the upper end of a certain district, which cannot be served under the reasonable plan which may have been adopted, long trunk sewers have to be built at great cost. If, on the other hand,

by a slight change of plan, such a development can be served through a sewer already built, it would seem unreasonable to refuse to make such a modification in the plan.

Your Committee believes that under the circumstances the plan submitted should be approved and so recommends. Respectfully submitted,

FRANK L. DOWLING, President, Borough of Manhattan, Chairman; ..... Comptroller; EDWARD RIEGELMANN, President, Borough of Brooklyn; HENRY BRUCKNER, President, Borough of The Bronx; MAURICE E. CONNOLLY, President, Borough of Queens; CALVIN D. VAN NAME, President, Borough of Richmond; Committee on City Plan and Public Improvements.

The following resolution was offered:

Resolved, that the Board of Estimate and Apportionment hereby approves modified Drainage Plan for Sewage District No. 21-20, Borough of Queens, showing the location, sizes and grades of the sewers within the territory bounded approximately by Proctor street, Metropolitan avenue, Nagy street, Satterlee avenue, Greifenberg street, Carhart avenue, Ankener street, Metropolitan avenue, Pullis street, Juniper Valley road, Weiss avenue and Central avenue, together with a temporary force main traversing Edsall avenue, Sprague street and Varian place, from Central avenue to Brush street, bearing the signature of the President of the Borough and dated January 30, 1918.

Which was adopted by the following vote:

Affirmative—The Mayor, the Deputy and Acting Comptroller, the President, Board of Aldermen, the President of the Borough of Manhattan, the Acting President of the Borough of Brooklyn, the Presidents of the Boroughs of The Bronx and Queens, and the Acting President of the Borough of Richmond—16.

#### **Sewerage Districts Nos. 24 and 27, Borough of Queens—Modification in Drainage Plan (Cal. No. 11).**

(On February 8, 1918 (Cal. No. 15), this matter was referred to the Committee on City Plan and Public Improvements.)

The Secretary presented a communication dated September 13, 1917, from the Secretary to the President, Borough of Queens transmitting for approval map showing proposed modification; and the following report of the Committee on City Plan and Public Improvements:

April 10, 1918.

#### **Board of Estimate and Apportionment:**

Gentlemen—At the meeting of the Board of Estimate and Apportionment held February 8, 1918, there was referred to the Committee on City Plan and Public Improvements a modification in the drainage plan of Sewerage Districts Nos. 24 and 27, Borough of Queens (Calendar No. 15).

Your Committee has deferred a report on this plan pending a study of the main drainage and sewage treatment plan in its larger aspects, but in view of the fact that the modification now submitted will have no effect upon plans already adopted, a substantial part of which are now being carried out, sees no reason for further delay in the submission of its report.

This plan relates to the sewer in 51st Street, between Rodman and Lurting Streets, which is the main trunk serving the Elmhurst and Corona sections of the Borough of Queens. Drainage plans covering an area of about 8,000 acres of the Corona, Elmhurst and Woodside sections were adopted in January, 1911. These provided for outletting the sanitary flow from the portion of the district affected by the present plan through 51st Street and overflowing the storm water into Flushing Creek through Rodman and Zuni Streets, the portion of the sanitary flow from the Elmhurst section being collected at the plant now in use, which was to be converted into a pumping station, and discharging into a gravity sewer meeting the 51st Street trunk at Zuni Street. The 51st Street sewer between Lurting Street and Flushing Bay has been completed and preliminary authorization has been given for an extension from Lurting Street to Rodman Street. Several modifications in the general plan have already been made. The one now submitted involves the abandonment of the Elmhurst disposal plant and the concentration of the required pumping at a plant to be built at the junction of Rodman Street and 51st Street, where the dry weather flow from about 860 acres of territory near the head of Flushing Creek on its westerly side will also be pumped.

Your Committee is convinced that the modification proposed will result in a substantial saving and that the size of a portion of the 51st Street sewer can be reduced. The approval of the plan is therefore recommended. Respectfully submitted,

FRANK L. DOWLING, President, Borough of Manhattan, Chairman; ..... Comptroller; EDWARD RIEGELMANN, President, Borough of Brooklyn; HENRY BRUCKNER, President, Borough of The Bronx; MAURICE E. CONNOLLY, President, Borough of Queens; CALVIN D. VAN NAME, President, Borough of Richmond; Committee on City Plan and Public Improvements.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves modified drainage plan for a portion of Sewerage Districts No. 24 and No. 27, Borough of Queens, showing the location, sizes and grades of the sewer in 51st street, from Rodman street to Lurting street, bearing the signature of the President of the Borough, and dated August 4, 1917.

Which was adopted by the following vote:

Affirmative—The Mayor, the Deputy and Acting Comptroller, the President, Board of Aldermen, the President of the Borough of Manhattan, the Acting President of the Borough of Brooklyn, the Presidents of the Boroughs of The Bronx and Queens, and the Acting President of the Borough of Richmond—16.

(On April 12, 1918 (Cal. No. 48), the resolution of the Board of Aldermen in this matter was referred to the Committee on Finance and Budget.)

The Secretary presented a resolution adopted March 26, 1918, by the Board of Aldermen, and approved April 4, 1918, by his Honor the Mayor, requesting an issue of \$10,000 special revenue bonds for the Office of the President, Borough of Manhattan; and the following report of the Committee on Finance and Budget:

April 15, 1918.

#### **To the Board of Estimate and Apportionment:**

Gentlemen—On April 12, 1918 (Cal. No. 48), your Board referred to its Committee on Finance and Budget a resolution adopted by the Board of Aldermen on March 26, 1918, and approved by the Mayor on April 4, 1918, requesting an issue of \$10,000 in special revenue bonds, for the purpose of replenishing account for the Office of the President, Borough of Manhattan, entitled "32-A, Repairing Street Pavements between railroad tracks, Borough of Manhattan."

The purpose of this request is to correct an error contained in the title of the account sought to be replenished, the Board of Aldermen having on March 26, 1918, corrected this same error as contained in its original resolution adopted February 13, 1918.

The Committee at its meeting on April 15, 1918, recommended that the resolution of the Board of Aldermen be concurred in.

The adoption of the annexed resolution will give effect to such recommendation. This latest resolution, besides concurring in the latest authorization by the Board of Aldermen, rescinds the resolution adopted by this Board on March 8, 1918, concurring in the resolution of the Board of Aldermen adopted February 13, 1918. Respectfully submitted,

CHARLES L. CRAIG, Comptroller, Chairman, Committee on Finance and Budget.

The following was offered:

Whereas, The Board of Aldermen on February 13, 1918, adopted the following resolution:

"Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of ten thousand dollars (\$10,000), the proceeds whereof to be used by the President of the Borough of Manhattan for the purpose of replenishing Account 32A, Repaving Street Pavements, all obligations contracted for hereunder to be incurred on or before December 31, 1918,"

—which said resolution was approved by the Board of Estimate and Apportionment on March 8, 1918; and

Whereas, The Board of Aldermen on March 26, 1918, adopted the following substitute resolution:

"Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of ten thousand dollars (\$10,000), the proceeds whereof to be used by the President of the Borough of Manhattan for the purpose of replenishing Account R. P. M. 32A, Repairing Street Pavements Between Railroad Tracks, Borough of Manhattan,"

—amending the resolution adopted by said board on February 13, 1918; therefore, be it

Resolved, That the resolution adopted by the Board of Aldermen on March 26, 1918, and approved by the Mayor on April 4, 1918, requesting an issue of special revenue bonds to the amount of ten thousand dollars (\$10,000), the proceeds whereof to be used by the President of the Borough of Manhattan for the purpose of replenishing Account R. P. M. 32A, Repairing Street Pavements Between Railroad Tracks, Borough of Manhattan, be and the same is hereby approved of and concurred in by the Board of Estimate and Apportionment, and for the purpose of providing means therefor, the Comptroller be and is hereby authorized, pursuant to the provisions of subdivision 8, of section 188 of the Greater New York Charter, to issue special revenue bonds of The City of New York to an amount not exceeding ten thousand dollars (\$10,000), redeemable from the tax levy of the year succeeding the year of their issue, and it is further

Resolved, That the resolution in this matter adopted by this Board on March 8, 1918, concurring in the resolution adopted by the Board of Aldermen on February 13, 1918, be and the same hereby is rescinded.

On March 1, 1918 (Cal. No. 11), at the close of the public hearing on the proposed area of assessment the matter was referred to the Committee on Finance and Budget.)

The Secretary presented the following report of the Committee on Finance and Budget:

April 11, 1918.

Board of Estimate and Apportionment, Municipal Building, Manhattan, New York City:

Gentlemen—At the meeting of your Board held on March 1st, 1918, the proposed area of assessment in the matter of acquiring title to the upland within the U. S. bulkhead lines of the Bronx River, from the East River to its northerly terminus near E. 177th Street (E. Tremont Avenue), and to Lacombe Avenue and Patterson Avenue, from the westerly limits of the land heretofore acquired for these streets to the bulkhead line of the Bronx River, in the Borough of The Bronx, was referred to the Committee on Finance and Budget (Cal. No. 11).

At the hearing on that date a delegation of property owners appeared and objected to the area of assessment on the ground that the cost should be distributed over the entire borough, it being held that the improvement was of general and not local benefit.

Your Committee finds that this proceeding was originally instituted by a resolution of the Board of Estimate and Apportionment adopted on June 25th, 1915, with provision for placing the entire cost and expense upon an area in the vicinity of the waterway, with an exterior boundary identical with the one now under consideration.

Owing to the Board's lack of authority to lay out navigable waterways upon the City plan, this action was of no effect, and at the last Legislative session, sections 439 and 442 of the Charter of the Greater New York were amended through the enactment of chapter 632 of the Laws of 1917. Pursuant to the authority thus obtained the Board of Estimate and Apportionment, on October 19th, 1917, adopted the plan laying out the harbor lines of the Bronx River, with some slight modifications, and on December 20, 1917, the map was ratified by the Commissioners of the Sinking Fund.

These bulkhead lines had previously been approved by the Secretary of War on June 27, 1917, upon condition that the U. S. Government be granted a right-of-way, free of cost, across any upland required for the full improvement of the river.

This waterway will have a width between bulkhead lines ranging from about 100 ft. at its northerly terminus to a little over 200 ft. at a point somewhat south of Randall Avenue, below which the width is flared to upward of 500 ft.

The waterway, as now laid out, has a length of about 3 miles and generally follows the course of the existing Bronx River, which irregularly traverses the area set aside by Federal action, so that the creation of the channel will involve the use of upland, as well as a portion of the existing water course.

Chapter 523 of the Laws of 1915 authorizes the City of New York, through the Sinking Fund Commission, to cede to the U. S. Government title to lands and lands under water acquired by the City for the improvement of waterways, and also authorizes the Commissioners of the Sinking Fund to convey lands under water and outside of the bulkhead lines to the adjacent upland owners upon terms and conditions as in their judgment shall seem proper.

The area of upland to be acquired is estimated at about 141 city lots, and the area of the land under water, which is outside of the bulkhead lines and owned by the City of New York, and can be conveyed to the abutting upland owners, is approximately 227 city lots.

The improvement of the Bronx River has been the subject of numerous Federal appropriations, of which there now remains approximately \$350,000 available for physical work, and at the last session of Congress a further appropriation could have been obtained had the City of New York been in a position to grant to the Federal Government the required right-of-way.

Your Committee has given the question of benefit to be derived through this proceeding and the subsequent improvement of the waterway serious and careful consideration, and is of the opinion that the enhancement in valuation of the abutting property, by means of the physical straightening, deepening and widening of the present tortuous and shallow stream, will greatly exceed the costs incurred in acquiring the necessary upland.

Your Committee also believes that an added benefit will be derived by the various interests now engaged in business along the river through the material saving in towage charges which, at present, are higher than those charged on the Harlem and East Rivers.

In view of the foregoing and bearing in mind the fact that the physical improvement is to be brought about at no expense to the abutting property your Committee is of the opinion that the area of assessment now under consideration is a fair and equitable one, whereon will be reflected the actual benefit derived, and therefore recommends the adoption of the annexed resolution initiating the proceeding, with provision for placing the entire cost and expense upon the area shown on the map attached hereto. Respectfully,

CHARLES L. CRAIG, Comptroller, and Chairman of Committee on Finance and Budget.

The following resolution was offered:

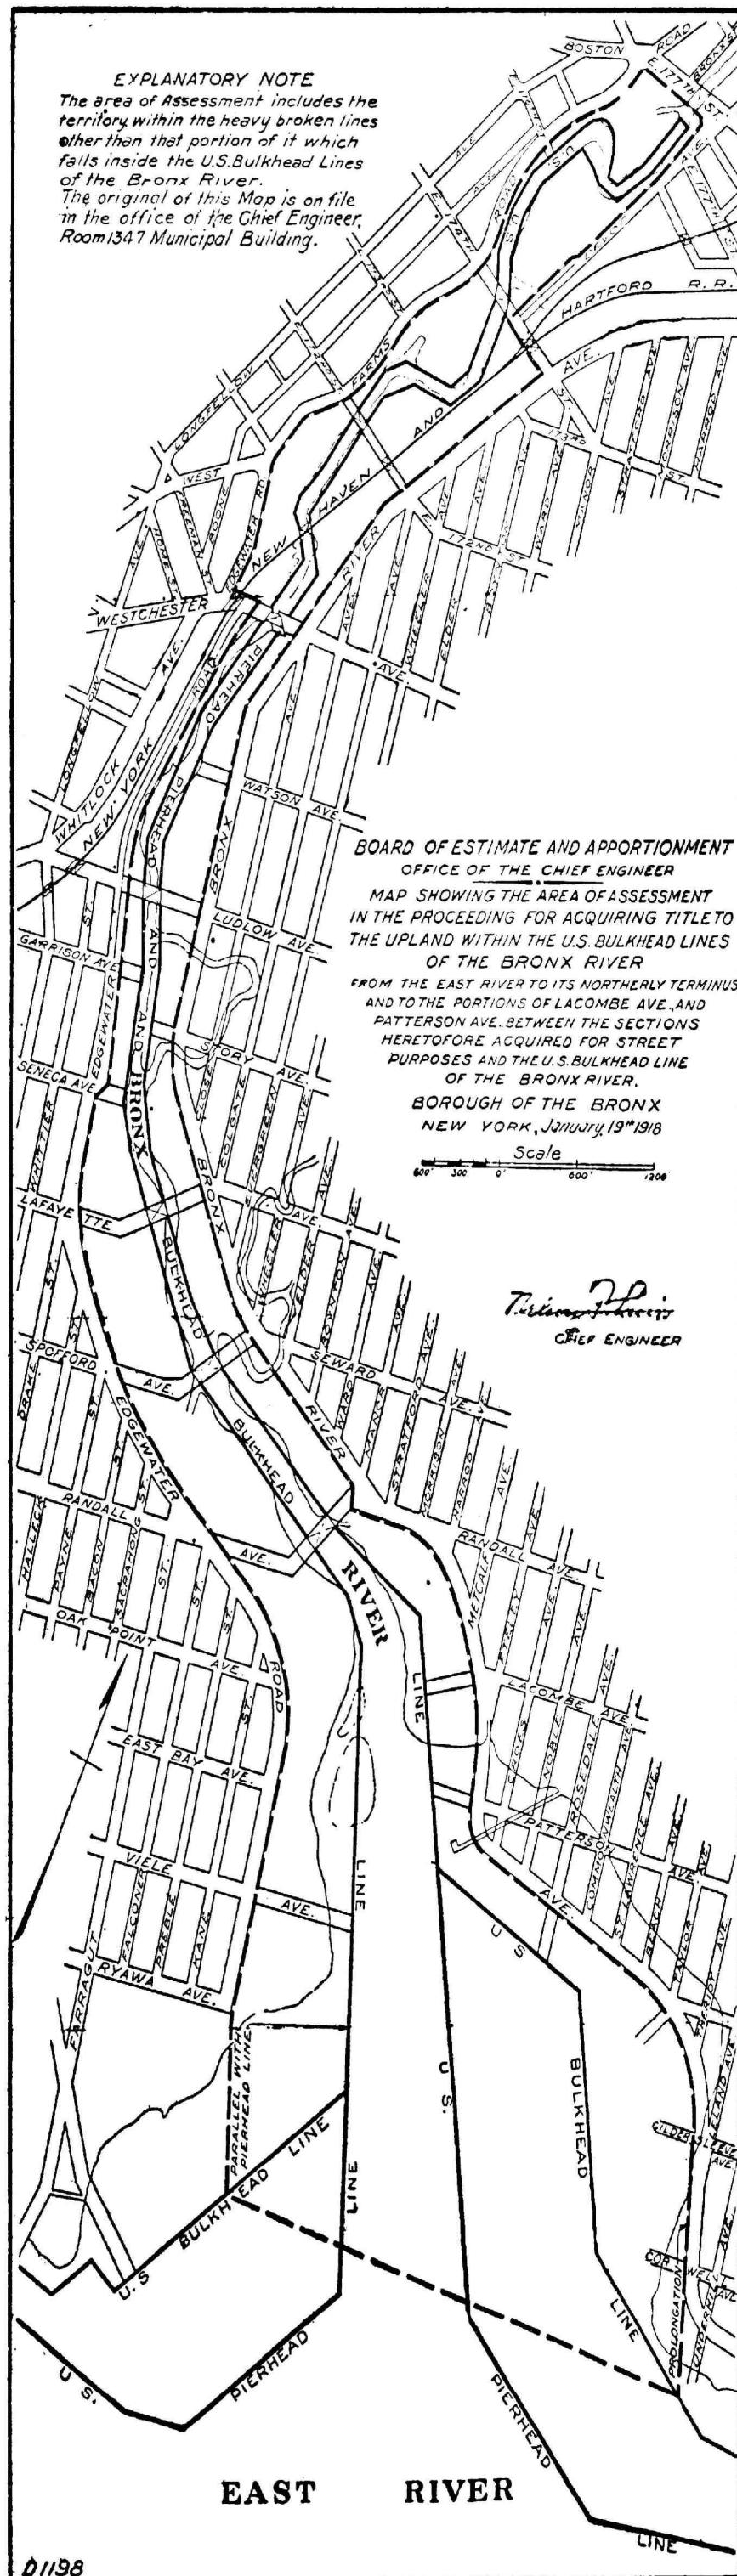

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 970 of the Greater New York Charter, as amended, deems it for the public interest that the title, for the uses and to the extent thereof as herein mentioned, to the upland within the bulkhead lines of Bronx River, from the East River to its northerly terminus near East Tremont avenue (East 177th street), and to Lacombe avenue and Patterson avenue from the westerly limits of the land heretofore acquired for these streets to the bulkhead line of Bronx River, in the Borough of The Bronx, City of New York, should be acquired by The City of New York.

Resolved, That the title to be so acquired is hereby determined to be a title in fee in such premises.

Resolved, That the compensation to be made to the owners of the real property to be acquired shall be ascertained and determined by the Supreme Court without a jury;

Resolved, That the Board of Estimate and Apportionment hereby requests the Corporation Counsel to make application to a Special Term of the Supreme Court to have the compensation, which should justly be made to the respective owners of the real property proposed to be taken, ascertained and determined by the Supreme Court without a jury, and to have the said Court assess the cost and expense of the proceedings upon the real property within the area of assessment hereinafter determined, and to take the necessary proceedings, in the name of The City of New York, to acquire title as herein determined, wherever the same has not heretofore been acquired, for the use of the public for the same purpose, to the upland within the bulkhead lines of Bronx River from the East River to its northerly terminus near East Tremont avenue (East 177th street), and to Lacombe avenue and Patterson avenue, from the westerly limits of the land heretofore acquired for these streets to the bulkhead line of Bronx River, in the Borough of The Bronx, City of New York, upon the receipt by him of a rule map and damage map, certified as having been approved by this Board.

DIAGRAM "A."

Resolved, That no portion of the cost and expense of said proceedings, incurred by reason of the provisions of title 4, chapter 17, of the Greater New York Charter, as amended, shall be borne and paid by The City of New York, but that the whole of such cost and expense, including the expense of the Bureau of Street Openings, the cost and expense incurred by the President of the Borough of The Bronx in the preparation of rule, damage and benefit maps for the use thereof; and all other expenses and disbursements authorized by section 977 of said title, as amended, shall be assessed upon the property deemed to be benefited thereby; and

Whereas, It appears from the affidavit of the Supervisor of the City Record that due notice was given therein that at the time of the adoption of the resolution directing the institution of proceedings herein to acquire title to the real property required for this improvement that the Board of Estimate and Apportionment would consider a proposed area of assessment as therein described, and would give a public hearing thereon upon the 1st day of March, 1918; and

Whereas, At the aforesaid time a public hearing was given to all persons interested in such proposed area of assessment who appeared, and such proposed area of assessment was duly considered by this Board:

Resolved, That the area of assessment for benefit in these proceedings be and is hereby fixed and determined to be as shown on the following diagram:

See Diagram "A."

Which was adopted by the following vote:

Affirmative—The Mayor, the Deputy and Acting Comptroller, the President, Board of Aldermen, the President of the Borough of Manhattan, the Acting President of the Borough of Brooklyn, the Presidents of the Boroughs of The Bronx and Queens, and the Acting President of the Borough of Richmond—16.

**Kings County Fund for Salary and Wage Accruals; District Attorney, Kings County—Transfer of Appropriation and Modification of Schedule (Cal. No. 22).**

The Secretary presented a report of the Committee on Salaries and Grades recommending approval of the request of the District Attorney, Kings County, for modification of personal service schedule for additional funds to provide for increases and new positions, by transfer of funds from Code 3508, Kings County Fund for Salary and Wage Accruals, to Code 3380, to provide funds to meet the additional cost for three months in the District Attorney's office; and stating a further transfer will be necessary as soon as there are sufficient accruals for the balance of the year.

(On February 8, 1918 (Cal. No. 128-F), this matter was referred to the Committee on Salaries and Grades.)

Neither of these vacancies has been filled, and even though three new positions have been created there has been but one increase in the number of Stenographers employed. None of the three appointees has received any compensation since appointment.

**Law Department—Transfer of Appropriation (Cal. No. 23).**

(On April 5, 1918 (Cal. No. 96-D), the request herein was referred to the Comptroller.)

The Secretary presented a communication dated March 25, 1918, from the Corporation Counsel, requesting transfer of funds within appropriation for 1917; and the following report of the Comptroller:

April 11, 1918.

To the Board of Estimate and Apportionment:

Gentlemen—The Corporation Counsel, in a communication dated March 25, 1918, (Cal. No. 96-d, April 5, 1918), applied for a transfer within appropriations made for the Law Department for the year 1917 as follows:

FROM		
Fees and Commissions.		
129	Special Counsel .....	\$211 02
TO		
125	Sheriff's Fees .....	\$51 47
126	Fees of Official Stenographer .....	159 55
		\$211 02

It appears there are two unpaid bills in the Law Department properly payable from the 1917 accounts indicated. These accounts have not sufficient available balances for that purpose and it is therefore proposed to transfer to them a sum sufficient to meet the bills, the amount to be transferred not being required in the account from which it is to be taken. One of the bills referred to is a bill from the Sheriff of New York County amounting to \$54.70 for issuing executions for the Bureau of Penalties. The balance in Code 125, the account from which this bill should be paid, is \$3.23, making necessary a transfer thereto of \$51.47. There is also a bill in favor of Eugene J. Curtis, official stenographer of Trial Term, Part XVI, Supreme Court, New York County, for stenographic minutes in the action of the North Eastern Construction Co. vs. The City of New York. The amount of this bill is \$545, the available balance in the account from which it should be paid is \$385.45, making necessary a transfer of \$159.55.

In view of the facts recited herein the adoption of the attached resolution effecting the transfer requested is recommended. Respectfully,  
CHARLES L. CRAIG, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to section 257 of the Greater New York Charter, hereby approves the transfer of funds within appropriations made to the Law Department for the year 1917, as follows:

		\$211 02

Which was adopted by the following vote:

Affirmative—The Mayor, the Deputy and Acting Comptroller, the President, Board of Aldermen, the President of the Borough of Manhattan, the Acting President of the Borough of Brooklyn, the Presidents of the Boroughs of The Bronx and Queens, and the Acting President of the Borough of Richmond—16.

(On March 15, 1918 (Cal. No. 109), the resolution of the Board of Aldermen requesting this appropriation was referred to the Comptroller.)

(On March 28, 1918 (Cal. No. 74), April 5, 1918 (Cal. No. 49), and April 12, 1918 (Cal. No. 35), protests against the granting of this request were referred to the Committee on Finance and Budget.)

The Secretary presented the following communication from the Public Service Commission for the First District, and report of the Comptroller:

State of New York, Public Service Commission for the First District, 120 Broadway, New York, April 3, 1918.

To the Board of Estimate and Apportionment of The City of New York:

On September 24, 1915, your Honorable Board consented to the proposed contract between The City of New York, acting by this Commission, and American Iron and Steel Company, for the supply of screw spikes and lag screws (Order No. 3) for use in the construction of rapid transit railroads, and appropriated the sum of \$25,741.43 for the purposes of carrying out said proposed contract, and charged said sum as follows: \$19,306.07 against the appropriations made for the purpose of carrying out Contract No. 3 and \$6,435.36 against the appropriations made for the purpose of carrying out Contract No. 4. In the final computations under said contract it is ascertained that more material was used in connection with the construction of the lines referred to in Contract No. 3 than was anticipated at the time the proposed contract was consented to by your Honorable Board and it will be necessary to readjust the appropriation accordingly.

The Public Service Commission for the First District therefore requests your Honorable Board to readjust the appropriation of \$25,741.43 made by it on September 24, 1915, for the purposes of carrying out the contract between The City of New York, acting by the Commission, and American Iron and Steel Company, for the supply of screw spikes and lag screws (Order No. 3) so as to charge said sum as follows: \$20,077.74 to be charged against the appropriations made for the purpose of carrying

out Contract No. 3 and \$5,663.69 to be charged against the appropriations made for the purpose of carrying out Contract No. 4.

PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT, by ARTHUR MCKINNEY, Acting Secretary.  
(Seal.)

April 8, 1918.

Subject: Reapportionment of a Previous Sub-authorization, American Iron and Steel Company.

To the Board of Estimate and Apportionment:

Gentlemen—On September 24, 1915, the Board of Estimate and Apportionment, pursuant to a requisition of the Public Service Commission for the First District, consented to the award of a contract between the City of New York, acting by the Commission, and the American Iron and Steel Company, for the supply of screw spikes and lag screws (Order No. 3), for use in the construction of rapid transit railroads, and authorized the issue of corporate stock in the sum of \$25,741.43, to provide the necessary funds to meet the City's obligations thereunder. In their original requisition, the Public Service Commission requested that \$19,306.07 of said appropriation of corporate stock be charged against the appropriation authorized by the Board on March 18, 1913, of \$28,200,000 for the purposes of Contract No. 3 and that \$6,435.36 be charged against the appropriation of \$60,000,000 made by the Board on March 18, 1913, for the purposes of Contract No. 4.

On April 3, 1918, the Public Service Commission adopted a resolution on which it has predicated a communication, stating that in the final computations under said contract with the American Iron and Steel Company it is ascertained that more material was used in connection with the construction of the lines to be operated under Contract No. 3 than was anticipated at the time the proposed contract was consented to by the Board of Estimate on September 24, 1915, and, therefore, requesting that a reapportionment of said authorization of \$25,741.43 be made, charging \$20,077.74 as a sub-authorization against the appropriation made by the Board for the purposes of Contract No. 3 and \$5,663.69 as a sub-authorization against the appropriation made for the purposes of Contract No. 4.

As the original requisition of the Public Service Commission for the apportionment of the said total authorization of corporate stock for the purposes of the contract with the American Iron and Steel Company, herein referred to, was more or less tentative, and a definite determination could not be established until the screw spikes and lag screws had been practically all delivered and used, the request of the Public Service Commission for a reapportionment of the moneys thus authorized should be acceded to.

I, therefore, submit and recommend for adoption the following resolution, amending the action of the Board of Estimate of September 24, 1915, by reapportioning, in the manner requested on April 3, 1918, the funds then authorized.

Respectfully,

CHARLES L. CRAIG, Comptroller.

The following was offered:

Whereas, On September 24, 1915, the Board of Estimate and Apportionment, on requisition of the Public Service Commission for the First District, consented to the award of a contract to the American Iron and Steel Company for the supply of screw spikes and lag screws (Order No. 3), for use in the construction of rapid transit railroads, at an estimated total cost of twenty-five thousand seven hundred and forty-one and 43-100 dollars (\$25,741.43), to be made chargeable in the sum of nineteen thousand three hundred and six and 7-100 dollars (\$19,306.07) against the appropriation made by this Board on March 18, 1913, of twenty-eight million two hundred thousand dollars (\$28,200,000) for the purpose of carrying out the terms of Contract No. 3, and six thousand four hundred and thirty-five and 36-100 dollars (\$6,435.36) against the appropriation made by this Board on March 18, 1913, of sixty million dollars (\$60,000,000) for the purpose of carrying out the terms of Contract No. 4; and

Whereas, On April 3, 1918, the said Public Service Commission requested that a reapportionment be made of the appropriation authorized on September 24, 1915, for the purpose of carrying out the contract between the City of New York, acting by the Commission, and the American Iron and Steel Company, for the supply of screw spikes and lag screws, so that twenty thousand seventy-seven and 74-100 dollars (\$20,077.74) be charged against Contract No. 3 and five thousand six hundred and sixty-three and 69-100 dollars (\$5,663.69) be charged against Contract No. 4; therefore be it

Resolved, That the Board of Estimate and Apportionment, pursuant to the requisition of the Public Service Commission for the First District, dated April 3, 1918, hereby amends the resolution of September 24, 1915, consenting to the award of a contract for the supply of screw spikes and lag screws (Order No. 3), to the American Iron and Steel Company, at an estimated total cost of twenty-five thousand seven hundred and forty-one and 43-100 dollars (\$25,741.43), apportioned so as to charge the sum of nineteen thousand three hundred and six and 7-100 dollars (\$19,306.07) against Contract No. 3, and the sum of six thousand four hundred and thirty-five and 36-100 dollars (\$6,435.36) against Contract No. 4, and substitutes in lieu thereof a reapportionment of said authorization between Contracts Nos. 3 and 4, whereby the sum of twenty thousand and seventy-seven and 74-100 dollars (\$20,077.74) of said total contract cost will be chargeable against the appropriation of twenty-eight million two hundred thousand dollars (\$28,200,000) authorized by this Board on March 18, 1913, and the supplemental or additional appropriations thereto, for the purpose of carrying out the terms of Contract No. 3, and the sum of five thousand six hundred and sixty-three and 69-100 dollars (\$5,663.69) of said total contract cost will be chargeable against the appropriation of sixty million dollars (\$60,000,000) authorized by this Board on March 18, 1913, and the supplemental or additional appropriations thereto, for the purpose of carrying out the terms of Contract No. 4.

Bureau of Franchises.

#### Automatic Scoreboard Company, Inc. (Cal. No. 28).

Notice directing Automatic Scoreboard Company, Inc., to show cause why franchise granted said Company by contract dated June 4, 1917, to construct and maintain electrical conductors in and under the streets and avenues of the Borough of Manhattan, in connection with the automatic baseball scoreboard system, should not be forfeited.

The Secretary presented the following:

Bureau of Franchises, April 16, 1918.

Hon. JOHN F. HYLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—By contract of June 4, 1917, the Board granted a franchise to the Automatic Scoreboard Company, Inc., authorizing the construction, maintenance and operation of electrical conductors in and under the streets of the Borough of Manhattan in connection with an automatic baseball scoreboard system. This contract covered an original term expiring December 31, 1921, with a renewal privilege of five years. The Company was permitted by the franchise either to lay its own system of conductors within the subways maintained by the Empire City Subway Company or to lease wires already existing in the streets from any corporation having the right to maintain them. It was the stated intention of the grantee company to lease the necessary wires from the wire circuits of the New York Telephone Company. The operations were to continue during that portion of the year comprising the baseball season, commencing about April 15th and ending about October 15th.

The contract required the grantee company to make the following payments to the City:

\$1,000 within thirty days after the signing of the contract by the Mayor and before anything was done in exercise of the franchise;  
\$1,000 on or before April 1, 1918;  
During the first year, or portion thereof, expiring December 31, 1917, three per cent. of the gross receipts, with a minimum of \$400;  
During the second year, expiring December 31, 1918, four per cent. of the gross receipts, with a minimum of \$800;  
Annually during the last three years of the original term, expiring December 31, 1921, five per cent. of the gross receipts, with a minimum of \$1,500.  
The annual payments were to be made on February 1 of each year, based on the gross receipts for the year ending December 31, previous.

The contract also required that there be deposited with the Comptroller the sum of \$3,000, either in money or securities, to be approved by the Comptroller, this deposit to form a security fund to insure compliance of the grantee with the terms and provisions of the franchise.

After the contract had been executed, but before any money had been paid, and, therefore, before the Company had any authority to exercise any rights pursuant to the contract, it was brought to the attention of the Bureau that the Company was operating its scoreboards by means of wires leased from the New York Telephone Company. The Telephone Company was immediately notified, on July 19, 1917, that the grantee had no right to operate, as it had not perfected its franchise rights by making the initial payment of \$1,000, and had also failed to make the required deposit of \$3,000 as a security fund. The grantee Company was also called upon to explain why it had violated the terms of its contract by commencing operations before making the payment and deposit.

The New York Telephone Company, upon receipt of the notice, at once discontinued the use of its wires by the Company. The President and Secretary of the Automatic Scoreboard Company, Inc., stated that the Company was experiencing difficulty in obtaining the necessary apparatus to be used in connection with its business, on account of the great demand for electrical supplies for war purposes, and under these conditions those interested in the Company were unwilling to advance any considerable amount of money without some prospect of the Company immediately commencing business. For this reason the Company desired to postpone the making of the \$3,000 security deposit until the difficulty in the way of securing apparatus had been overcome, but was willing to make the payment of \$1,000 required by the contract and make application to the Board for a modification of the franchise so as to extend the Company's time for making the security deposit.

In view of the fact that the Company was starting a new venture in the City and would require some time in which to build up its business before any reasonable returns could be expected upon the money invested, and in further consideration of the fact that the Company itself was not to open the streets for the purpose of laying any conductors, thereby precluding the possibility of the City being put to any expense in the way of removing any structures from the streets or putting them in repair, it was believed that the Company should be permitted to continue operation upon the payment of the initial sum of \$1,000 required by the franchise contract, and the further payment to the City, in advance, of the minimum annual payment

required for the year ending December 31, 1917. To this proposition the Company agreed, and on July 28, 1917, paid to the Comptroller the sum of \$1,400, which was accepted.

"without prejudice to any right the City may possess under any connection with or pursuant to the terms of the franchise granted by contract of June 4, 1917; it being understood and agreed that by paying the above sum the Automatic Scoreboard Company, Inc., waives any right to the refund of said money herewith paid."

On the same day the Company also made application for an extension of time until February 1, 1918, within which to deposit the sum of \$3,000 security under the contract of June 4, 1917. As the Board was not then in session, this petition was not presented to it until its first autumn meeting on September 21, 1917, when it was referred to the Bureau for investigation and report.

Shortly afterward, this Bureau endeavored to take the matter up with the Company, so that a report and form of contract could be drawn up covering the requested extension of time to make the security deposit. On November 8, a letter was addressed to the Company, but no reply was received thereto, and several subsequent attempts to get in communication with the Company's office by telephone were fruitless, as it appears the Company's telephone connection was discontinued.

Nothing more was heard from the Company until February 15, 1918, when representatives of the Company called and stated that the reason why communication could not be had with the Company was that its representative had been out of the City, but that the office had been reopened for business. The gentlemen were reminded of the fact that the Company had not made its annual report under the contract of June 4, 1917, as to the business carried on up to December 31, 1917. This report was required to be made on or before February 1, 1918. It was stated that this report was being prepared and would be submitted without delay. It was further stated that the results of the operation of 1917 had been very unprofitable by reason of the war and other circumstances, but that the Company intended to extend its activities during the coming year by branching out into several other lines, if it could be accomplished under the franchise, or a modification of it, and they desired information on that point. Among the new ventures proposed by the Company was the operation of a stock quotation board system and an advertising board system. All the necessary information in regard to the procedure necessary for modifying the Company's franchise so as to cover these new operations was given, and it was stated, on behalf of the Company, that they would have their attorneys, Messrs. Falk & Dannenberg, take up the matter of the modification of the franchise.

As the Company's operations had concluded with the end of the baseball season in October, 1917, and would not again commence until the new season opened in April, 1918, and in view of the fact that the Company proposed to make changes and extensions in its operations for 1918, no report was ever made by the Bureau on the application to extend the time for making the security deposit. It was believed advisable to wait until the Company applied for the right to enlarge its activities and then have the report cover both subjects.

On February 21, Mr. Dannenberg, the Company's attorney, called and stated that a new corporation had been formed in Delaware to take over the Company's property. He was informed that the Corporation Counsel had held that only a corporation organized under the Transportation Corporations Law could exercise a franchise for the operation of electrical conductors, and under these circumstances he concluded that it would be best to retain the franchise in the name of the Automatic Scoreboard Company, Inc., but to have it amended so as to cover all the new activities which were proposed to be entered into.

Nothing further was heard from the Company for some time, and subsequent attempts to obtain information by telephone were met with the reply that the matter was progressing.

Under date of April 3, 1918, the Comptroller addressed the Board, stating that the Company had not paid the \$1,000 required to be paid on or before April 1, 1918, pursuant to the terms of the franchise.

A letter was sent to the Company under date of April 10, 1918, calling attention to this matter, and requesting the Company, if it desired to make any explanation to do so at once. No reply has been received to this communication.

It would seem that this Company has had ample opportunity to remedy any defaults on its part and to decide whether or not it will continue operations, and it is for the purpose of setting this forth in the record, in view of the recommendation about to be made by the Bureau, that the dealings with the Company have been recited in such detail in the foregoing. Its failure to comply with the contract or to make written application for a modification would lead to the conclusion that the Company has failed to perfect its arrangements for enlarging the scope of its operations, and does not desire to continue.

In view of all the circumstances it would seem that the only course remaining open to the Board would be to declare the franchise forfeited. The Company has violated the provisions of the contract—

First: By failing to make the security deposit of \$3,000, as required by the contract.

Second: By failing to file the annual report of its business for the year 1917, on or before February 1, 1918.

Third: By its failure to pay the sum of \$1,000 on or before April 1, 1918.

Section 2, Nineteenth, of the Company's contract provides:

"In case of any violation or breach or failure to comply with any of the provisions herein contained, or with any orders of the Board or of any official of the City acting under the powers herein reserved, the right and privilege hereby granted may be forfeited by resolution of the Board, which said resolution may contain a provision to the effect that the wires or other electrical conductors and equipment constructed by the Company under and pursuant to this contract shall become the property of the City without proceedings at law or in equity; provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day, not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the right and privilege forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith."

I would suggest that the Board follow the procedure provided in the contract and adopt a resolution requiring the Company to show cause, on or before Friday, May 3, 1918, why the contract should not be declared forfeited. Should the Company fail to appear on that day or to present reasons satisfactory to the Board why the franchise should not be forfeited, a resolution may then be adopted formally declaring the franchise forfeited. Respectfully,

JOHN A. MCCOLLUM, Acting Chief of Bureau.

The following was offered:

Whereas, By contract dated June 4, 1917, the Automatic Scoreboard Company, Inc., was granted a franchise to construct, maintain and operate electrical conductors in and under the streets in the Borough of Manhattan, in connection with an automatic baseball scoreboard system, under and pursuant to the terms and conditions named in said franchise; and

Whereas, It appears from a report of the Bureau of Franchises this day presented to the Board that said Company has violated said terms and conditions in that it has failed—

First: To deposit with the Comptroller the sum of three thousand dollars (\$3,000) in cash or securities, to be approved by the Comptroller, as security for the faithful performance of the said contract.

Second: To file annual report of the operations of the Company for the year ending December 31, 1917.

Third: To pay to the City in cash the sum of one thousand dollars (\$1,000) on or before April 1, 1918.

—and

Whereas, Section 2, Nineteenth, of said contract provides:

"In case of any violation or breach or failure to comply with any of the provisions herein contained, or with any orders of the Board or of any official of the City, acting under the powers herein reserved, the right and privilege hereby granted may be forfeited by resolution of the Board, which said resolution may contain a provision to the effect that the wires or other electrical conductors and equipment constructed by the Company under and pursuant to this contract shall become the property of the City, without proceedings at law or in equity; provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day, not less than ten (10) days after the date of such notice, to show cause why such resolution

declaring this right and privilege forfeited should not be adopted. In case the Company fails to appear action may be taken by the Board forthwith,"—now therefore be it and it is hereby

Resolved, That the Automatic Scoreboard Company, Inc., be and it hereby is notified to appear before the Board of Estimate and Apportionment at a stated meeting of said Board to be held on May 3, 1918, at 10.30 o'clock in the forenoon, in Room 16, City Hall, Borough of Manhattan, and show cause why a resolution should not be adopted by said Board forfeiting and declaring null and void said franchise contract of June 4, 1917, and all rights and privileges thereunder; and be it further

Resolved, That the Secretary of this Board be and he hereby is directed to forward to the Automatic Scoreboard Company, Inc., at its office, No. 220 West 48th Street, Borough of Manhattan, a copy of this resolution and to notify said Company, in writing, that at the time and place named in this resolution said Company will be allowed a hearing before final action is taken.

Which was adopted by the following vote:

Affirmative—The Mayor, the Deputy and Acting Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the Acting President of the Borough of Brooklyn, the Presidents of the Boroughs of The Bronx and Queens and the Acting President of the Borough of Richmond—16.

Sworn to before me this 20th day of December, 1917. ANDREW WOELFEL, Notary Public, Richmond County. Cert. filed in N. Y. Co., No. 214. New York Register No. 3185. Commission expires March 24, 1918.

Bureau of Franchises, April 16, 1918.

Hon. JOHN F. HYLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—At the meeting of December 28, 1917, there was presented to the Board a petition from the Brooklyn Eastern District Terminal for the consent of the Board to the merger by it of the East River Terminal Railroad. The petition was referred to this Bureau for investigation and report. The following is a brief history of this matter:

On November 3, 1916, a joint petition was presented by the Brooklyn Eastern District Terminal and the East River Terminal Railroad for the consent of the Board to the transfer to the former Company by the latter Company of the franchises granted to the latter by contracts of March 15, 1909, and December 27, 1909. These contracts authorized the construction, maintenance and operation by the East River Terminal Railroad of railroad tracks across Wythe Avenue, Kent Avenue, North 4th and other streets in the immediate vicinity near the waterfront in the Borough of Brooklyn.

The East River Terminal Railroad was unable to procure from the Public Service Commission a certificate of approval to the exercise of the second franchise granted by the contract of December 27, 1909, for the reason that it had not perfected its franchise rights from the State. In order to perfect these franchise rights it was necessary for a new corporation to be formed under the Freight Terminal Corporations Act of 1911, which would merge and take over the rights of the East River Terminal Railroad. Such a corporation was formed in 1915, and was known as the Brooklyn Eastern District Terminal. After its organization it merged the East River Terminal Railroad, with the approval of the Public Service Commission, and also obtained from the Commission a certificate of approval of the exercise of the franchise of December 27, 1909, thus perfecting its franchise from the State for all the rights received by the Company. It was necessary, however, for the new company to come before the Board and obtain its consent to the transfer to it of the franchises originally granted to the East River Terminal Railroad. This was a requirement contained in the franchise contracts themselves.

Accordingly, the Brooklyn Eastern District Terminal and the East River Terminal Railroad presented to the Board, on November 3, 1916, a joint petition requesting the Board's consent to the transfer of the franchises of March 15, 1909, and December 27, 1909, to the new corporation. Investigation was made by the Bureau, and it was found that the Freight Terminal Corporations Act, under which the new Company was organized, provided that franchises to use the streets could be held by corporations formed under the act, only on the condition that they should be revocable by the City upon notice of one year or specified less time.

In view of this, the Bureau suggested to the Board on February 23, 1917, that the petition be denied unless the Company should first consent to a modification of the franchises so as to make them revocable in compliance with the provisions of the Freight Terminal Corporations Act.

At the request of Mr. Henry F. Cochrane, attorney for the Companies, the petition was not denied at this meeting, but was referred back to the Bureau, which later obtained an opinion from the Corporation Counsel upholding the Bureau's contentions.

In view of this, the Bureau again recommended to the Board on June 29, 1917, that the petition for the Board's consent to the transfer be denied without prejudice to a new application after the franchises had been modified to meet the legal requirements. The Companies' attorney requested that action be deferred, and it was so deferred until September 21, 1917. Similar postponements were had on September 21, October 19, November 16, December 7 and December 21, 1917, all at the request of the Companies' attorney. On December 28, 1917, the latter withdrew the petition, and in the same instrument made application for the Board's consent to the merger by the Brooklyn Eastern District Terminal of the East River Terminal Railroad, as first above referred to.

After this petition was referred to the Bureau, several conferences were had with the Company's attorney, and it was explained to him that there did not seem to be any provision, either in the law or in the contract, for obtaining the Board's consent to the merger of one corporation by another. This apparently had been perfected by the filing of the certificate of merger with the Secretary of State and obtaining the approval of the Public Service Commission thereto. All that was necessary was that the Board's consent be obtained to the transfer of the franchise by the merger. A letter was addressed to Mr. Cochrane on January 24, 1918, stating that there seemed to be nothing for the Bureau to do, therefore, but recommend the filing of this petition. In reply to this letter, Mr. Cochrane stated, by telephone, that he had found some court decisions which he thought would bear out his view of the matter, and he desired an opportunity to confer with the Corporation Counsel as to the effect of these decisions.

Nothing having been heard from him for some time, subsequent inquiries were made of Mr. Cochrane, who stated that pressure of business had prevented him from taking this matter up, but he expected to do so within a short time. Finally on April 10, a letter was addressed to him calling his attention to the fact that he had presented no memorandum pointing out any provision of law or of the contract which would give the Board jurisdiction to consent to the merger of the Railroad Company by the Terminal Company, and in view of this the Bureau intended to report to the Board recommending the filing of the petition. No reply has been received to that communication.

In connection with this matter, I would say that the Brooklyn Eastern District Terminal has attempted, on several occasions, to have the Finance Department accept payments under the franchises in its name. I understand that the Finance Department has refused to accept payment except in the name of the East River Terminal Railroad, this Bureau having informed the Department that the franchises have never passed to the Terminal Company, and so far as the City is concerned, are still in the possession of the Railroad Company, the original grantee.

Just what position the attorney for the Companies has decided to take I am unable to ascertain. Following the advice of the Corporation Counsel there seems to be but one course open to the Board and that is to insist that the franchises be modified so as to make them revocable by the City upon one year's notice, or less, as the Freight Terminal Corporations Act requires. These franchises now provide for fixed periods and cannot be revoked except for failure to comply with terms of the franchises until the periods expire. In view of the fact that the payments are being regularly made under the franchises the City is undergoing no loss by reason of the Companies' failure to meet the views of the Corporation Counsel, although an anomalous situation has been created which should be cleared up without delay. While under the law the franchise rights of the East River Terminal Railroad have apparently passed to the Brooklyn Eastern District Terminal, under the franchise contracts themselves the rights have not passed. This makes for confusion and uncertainty on the part of the City Departments concerned with the Company and its operations. There is not now, nor has there ever been any application from the Company for the modification of its franchise so as to make them revocable as the law requires.

In any event, the Board can take no action upon the petition now before it. As stated above, there is no provision in the law or in the contract, and the Companies' attorney has so far failed to point to any power in the Board which requires its consent to the merger of the East River Terminal Railroad by the Brooklyn, Eastern District Terminal.

I would suggest therefore that this petition be filed without prejudice to the right of the Company to present a proper petition for the modification of the franchises so as to make them revocable upon notice, and for the consent of the Board to the transfer of these franchises, when modified, to the Brooklyn, Eastern District, Terminal. Respectfully,

JOHN A. MCCOLLUM, Acting Chief of Bureau.

At the request of the Deputy and Acting Comptroller the matter was laid over until April 26, 1918.

#### **Public Service Commission for the First District—Protest Against Increase in Carfares or a Charge for Transfers (Cal. No. 48).**

The Secretary presented the following communication, which was ordered filed: Central Federated Union of Greater New York and Vicinity, New York, April 10th, 1918.

*The Hon. Board of Estimate and Apportionment:*

Gentlemen—Pursuant to information we received, we understand that a committee representing a so-called "Brotherhood of Railway Employees," intends appearing before your Board requesting that you grant their employers (New York City Railways Corporation) the privilege of increasing carfares to six cents, or charging two cents for transfers. The said Corporation has attempted this game before the Public Service Commission for about a year, but owing to a decision of the Supreme Court denying the right of said Commission of either decreasing or increasing fares, Chairman Straus of the Commission, referred the delegation to your Board. The "Brotherhood of Railway Employees" is a mutual admiration society, organized as a sort of benefit conglomeration presumably to benefit their employers the Corporation, and plead for an increase of carfare claiming that the Corporation is too poor to pay their employees more wages at present, but that they would do so, if the carfare can be increased, i. e., the traveling public, more especially the wage workers, to dig into their jeans to fatten the Corporation.

The delegation plaintively whimpers that the high cost of living makes an increase in wages necessary and imperative.

Well, fifty, fifty; we are all hit by the high cost of living, and just that for one of the reasons to oppose any increase in carfares, for such an increase per day, and week, and month, and year, will materially multiply the high cost of living.

Blocked at all points in its desires, the Corporation now resorts to its employees, and uses them as a wedge to secure if possible the coveted prize.

We object and protest in the name of 350,000 bona fide organized wage workers and tax payers, against a six cent fare or a charge for transfers, and hope that your Hon. Board will deny the demand forthwith. Yours very truly,

ERNEST BOHM, Corresponding Secretary.

#### **East 177th Street (Tremont Avenue), from Fort Schuyler Road to the Mean High Water Line of Long Island Sound—Deferring Application for Appointment of Commissioners in Proceeding for Acquiring Title (Cal. No. 57).**

(On November 24, 1916 (Cal. No. 9), the proceeding for acquiring title herein was authorized.)

The Secretary presented the following communication from the President, Borough of The Bronx:

April 12th, 1918.

*Board of Estimate and Apportionment, Municipal Building, Manhattan, N. Y. City:*

Gentlemen—It appears that on November 24th, 1916, the former Board of Estimate and Apportionment adopted a resolution authorizing the acquisition of title to East 177th Street (Tremont Avenue) from Fort Schuyler Road to Long Island Sound, Borough of The Bronx, and directing the Corporation Counsel to apply to the Supreme Court for the appointment of Commissioners.

I have recently noticed that the Corporation Counsel was to make application to the Supreme Court on April 9th, 1918, for the appointment of Commissioners of Assessment in this proceeding. On April 3rd, 1918, I wrote to the Corporation Counsel in this matter and called his attention to the fact that some time ago the Borough President had prepared deeds for the cession of a large portion of the land required for this street, and that I was now informed that, owing to certain applications to be made to the Court on account of the interests of infants, these papers could not be executed for some period of time, possibly several months. I further called attention to the fact that the interests represented in these proposed deeds of cession did not wish to have to bear any larger expense in this matter than was necessary, and I requested the Corporation Counsel to defer the making of application for the appointment of Commissioners until a later date, or until the deeds of cession referred to could be properly executed and filed in his office.

I have received a reply from the Corporation Counsel to this communication, stating that it would be necessary for me to apply to your Board asking you to request the Corporation Counsel to adjourn the application for the appointment of Commissioners to some future date. The Corporation Counsel has assured me that in the meantime, on April 9th, he had the matter adjourned for two weeks.

I would therefore now ask your Board to pass a resolution authorizing the Corporation Counsel to adjourn the application for the appointment of Commissioners in the proceeding for acquiring title to East 177th Street (Tremont Avenue) from Fort Schuyler Road to Long Island Sound, for a period of six months, and if before such date the matter of the deeds of cession is not satisfactorily settled I would reserve the right to ask for a further extension. Yours very truly,

HENRY BRUCKNER, President of the Borough of The Bronx.

E. W. Murphy, representing Mrs. Cora Morris, appeared and requested that application for appointment of Commissioners be deferred for sixty days instead of for six months.

Joseph Horowitz, representing property owners along 177th Street, appeared in favor of deferring appointment for a period of six months.

On motion it was determined to defer the application for three months, and the following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby requests the Corporation Counsel to defer, for a period of three months, the application for the appointment of Commissioners in the proceeding authorized by the Board on November 24, 1916, for acquiring title to East 177th street (Tremont Avenue) from Fort Schuyler road to the mean high water line of Long Island Sound, Borough of The Bronx, and to incur no further expense in the proceeding during said period.

Long Island City, April 3, 1918.

**Mr. JOSEPH HAAG, Secretary, Board of Estimate and Apportionment:**

Dear Sir—Under date of October 13, 1916, proceedings were instituted by the Board of Estimate and Apportionment for the acquisition of title to Calamus Avenue, from Maurice Avenue to Grand Street; Division Avenue, from Grand Street to Caldwell Avenue; Lewis Avenue, from Division Avenue to Bloomfield Street; Bloomfield Street, from Caldwell Avenue to Bowne Place; Bowne Place, from Bloomfield Street to Sibley Street; Sibley Street, from Bowne Place to Woodhaven Avenue; Phelps Avenue, between the adjoining sections of Sibley Street, Borough of Queens, and Commissioners filed their oaths of office March 14, 1917.

On March 28, 1918, there was presented to the Newtown Local Board of Improvements a petition, signed by 45 property owners, citizens and taxpayers, protesting as to the acquisition of title of Calamus Avenue. The property owners feel that the proceedings relating to Calamus Avenue are not a public necessity at the present time; that, owing to the increased taxation, the assessment for Queens Boulevard and the general depressed conditions caused by the war, the proceedings should be suspended for two or three years, or until after the war, when financial conditions will become more settled and they will be better prepared to meet the assessment.

In view of such facts, the Local Board of Improvements hereby makes request to that effect. Very truly,

RICHARD S. NEWCOMBE, Acting President of the Borough of Queens.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby requests the Corporation Counsel to suspend action and to incur no further expense, until further notice from the Board, in the proceeding authorized October 13, 1916, for acquiring title to Calamus Avenue, from Maurice Avenue to Grand Street; Division Avenue, from Grand Street to Caldwell Avenue; Lewis Avenue, from Division Avenue to Bloomfield Street; Bloomfield Street, from Caldwell Avenue to Bowne Place; Bowne Place, from Bloomfield Street to Sibley Street; Sibley Street, from Bowne Place to Woodhaven Avenue; and Phelps Avenue, between the adjoining sections of Sibley Street, Borough of Queens.

##### On Changes in the City Map.

##### Borough of Manhattan.

#### West 157th Street, from 8th Avenue to the Pierhead and Bulkhead Line of the Harlem River—Fixing Lines and Grades (Cal. No. 81).

The Secretary presented a communication, dated July 9, 1917, from the Secretary, Borough of Manhattan, transmitting map showing the proposed change; and the following report of the Chief Engineer:

Report No. 17475. April 15, 1918.

Hon. JOHN F. HYLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a communication from the Secretary of the Borough of Manhattan bearing date of July 9, 1917, presenting for adoption a map showing the lines and grades proposed for West 157th Street between 8th Avenue and the United States Pier and Bulkhead Line of the Harlem River.

West 157th Street as shown on this plan is to have a width of 60 feet and a position distant 199 feet 10 inches north of West 156th Street. The street is in use and has been approximately graded between 8th Avenue and the high water line of the Harlem River, this being located a short distance west of the bulkhead line. From information presented by the Borough Secretary it appears that title to the land is vested in the City by virtue of a water grant. The tax books indicate that recognition of the street is essential in order to provide frontage for the owner of a large portion of the adjacent land on its southerly side.

I see no reason why the plan should not be approved and would recommend such action after a public hearing.

Respectfully, NELSON P. LEWIS, Chief Engineer.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by establishing the lines and grades of West 157th Street, from 8th Avenue to the pierhead and bulkhead line of the Harlem River, in the Borough of Manhattan, in accordance with a map or plan bearing the signature of the Secretary of the Board of Estimate and Apportionment and dated June 8, 1917.

Resolved, That this Board consider the proposed change at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on Friday May 17, 1918, at 10.30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board to be held at the aforesaid time and place to be published in the City Record for ten days continuously, Sundays and legal holidays excepted, prior to the 17th day of May, 1918.

Which was adopted by the following vote:

Affirmative—The Mayor, the Deputy and Acting Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the Acting President of the Borough of Brooklyn, the Presidents of the Boroughs of The Bronx and Queens and the Acting President of the Borough of Richmond—16.

#### West 196th Street, from Broadway to Ellwood Street—Laying Out (Cal. No. 82).

The Secretary presented a communication dated October 6, 1917, from the Secretary, Borough of Manhattan, transmitting map showing the proposed change; and the following report of the Chief Engineer:

Report No. 17476. April 15, 1918.

Hon. JOHN F. HYLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a communication from the Secretary of the Borough of Manhattan, bearing date of October 6th, 1917, presenting for consideration a map

showing the lines and grades proposed for West 196th Street, between Broadway and Ellwood Street.

This street is designed to subdivide the triangular block bounded by Broadway, Ellwood Street and Nagle Avenue, which, under the present plan, has a frontage of about 1,000 feet on Broadway, 680 feet on Ellwood Street and 700 feet on Nagle Avenue. The street now proposed, which is to have a width of 60 feet, through the easterly portion of its length is to have a position distant 165 feet north of Nagle Avenue, with a deflection of such a character as to meet Broadway approximately at right angles at a point about 550 feet south of Ellwood Street. The effect of this change will be to extend frontage to about 25 City lots which would otherwise not be susceptible of development. The position assigned to the new street appears to have been determined upon in order to most advantageously meet property subdivisions and the development which has already taken place.

In my judgment the map may properly be approved, and such action is recommended after a public hearing.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by establishing the lines and grades of West 196th Street, from Broadway to Ellwood Street, and by fixing the grades at its intersections with Broadway and Ellwood Street, in the Borough of Manhattan, in accordance with a map or plan bearing the signature of the Secretary of the Board of Estimate and Apportionment and dated September 27, 1917.

Resolved, That this Board consider the proposed change at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on Friday, May 17, 1918, at 10.30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board to be held at the aforesaid time and place to be published in the City Record for ten days continuously, Sundays and legal holidays excepted, prior to the 17th day of May, 1918.

Which was adopted by the following vote:

Report No. 17477.

April 15, 1918.

Hon. JOHN F. HYLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a communication from the Commissioner of Public Works, Borough of The Bronx, bearing date of November 22nd, 1917, advising that at a meeting held on May 1st, 1917, the Local Board of the Chester District adopted a resolution recommending a change in the lines and grades of the street system within the territory bounded by Laconia Avenue, East 222nd Street, Eastchester Road, Boston Road, Wilson Avenue and East 216th Street.

This plan makes provision for changing the position of East 221st Street in the section between Eastchester Road and a point about 150 feet east of Laconia Avenue in such a way as to absorb old Corsa Lane for readjusting the position of Fish Avenue in the section between Oakley Street and Boston Road in such a way as to remove the offset shown on the original plan at Hicks Street, and for a change in the plan for a number of other streets in order to avoid acute intersections at Oakley Street and Hicks Street, where the property has been subdivided and would have been objectionably gored.

Provision is made for lowering the grade of Needham Avenue about 2.0 feet at a point distant about 270 feet east of Fenton Avenue and for raising the grade of this street about 1.4 feet at Fenton Avenue in order to conform more closely with the existing surface than did the grade heretofore fixed. The remaining grade changes appear to be in the nature of adjustments required to conform with the new position proposed for the streets.

With the exception of Corsa Lane, none of the streets affected by the changes is in use at the present time.

I see no reason why the plan should not be approved, and would recommend such action after a public hearing.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

##### President, Borough of Brooklyn—Modification of Schedules and Transfer of Appropriation (Cal. No. 86).

(On April 5, 1918 (Cal. No. 97-A), the request herein was referred to the Committee on Salaries and Grades.)

(On April 12, 1918 (Cal. No. 18), the report of said Committee was presented and the matter laid over until this meeting.)

The Secretary presented a communication dated March 4, 1918, from the President, Borough of Brooklyn, requesting a modification of schedules, involving a transfer of funds within appropriation; and the following report of the Committee on Salaries and Grades:

April 9, 1918.

To the Board of Estimate and Apportionment:

Gentlemen—On March 4, 1918, the President of the Borough of Brooklyn requested modification of personal service schedules Nos. 558TCRS, 568TCS and 570TCRS, and the establishment of a new code to be known as 578½CS. This was referred to the Committee on Salaries and Grades on April 5, 1918, Calendar No. 97-A. The Committee reports thereon as follows:

"In the budget of 1918, there is provision made for Inspectors of Sewer Construction as follows: 16 at \$1,500 per annum; 14 at \$1,200, and a variable number at \$100 per month, the aggregate of which will not exceed 80 months in time.

"This arrangement has proven unsatisfactory for various reasons, including the question of limited tax levy allowance, lack of improvement work and of providing employment during the winter season from January to April this year.

"It is now proposed to change the rates to a per diem basis, the same as those existing prior to January 1, 1918. In accordance with the request, provision is to be made for 16 Inspectors at \$4.93 per day, 313 days each; 14 Inspectors at \$4 per day, 313 days each; and in the new code provides a line for Inspectors, 2,000 days at \$4 per day.

"No increase of Tax Levy Funds is involved. There will be, however, an increase in the non-budgetary funds of \$1,417.44, due to the difference in rates on a per diem basis, as compared with the monthly rate. This increase is problematical, as it depends on whether extensive sewer improvements will be undertaken and whether the entire force will be employed every day, as contemplated in the request. As corporate stock authorizations must be approved by the Board and Inspectors on a per diem basis are paid only for the days on which they actually work, there appears to be very little reason to expect that the increase of \$1,417.44 will be an actual expenditure. At the present time, 6 of the 30 Inspectors are being carried on the payrolls with 'No time.'

"Due to the necessity of providing inspection on current work authorized and started last year and continued during the early part of 1918, there is due the Inspectors for services rendered from January 1 to March 30, 1918, the sum of \$4,827.34.

"These men cannot be paid until your Board approves the modification of the codes, which action will enable the department not only to forward payrolls to the Comptroller's office for the amount stated above, but also to so regulate the force of Inspectors that their employment for the entire year can be arranged."

The Committee on Salaries and Grades recommends the adoption of the attached resolutions granting the request. Respectfully,

ALFRED E. SMITH, President, Board of Aldermen; FRANK L. DOWLING, President, Borough of Manhattan; JOSEPH FENNELLY, Acting President, Borough of Brooklyn; Committee on Salaries and Grades.

(On April 12, 1918 (Cal. No. 23), the report of the Comptroller was presented and the matter laid over until this meeting.)

The Secretary presented a communication, dated March 15, 1918, from the Sheriff, New York County, requesting a transfer of funds within appropriation for 1917, and the following report of the Comptroller:

April 1, 1918.

To the Board of Estimate and Apportionment, The City of New York:

Gentlemen—In a communication dated March 15, 1918, Calendar No. 130 (c) of March 22, 1918, referred to the Comptroller, the Sheriff of New York County requested a transfer of \$472.05 to replenish certain accounts which have become exhausted.

The request proposes the transfer of unencumbered balances in the 1917 appropriations to the Sheriff's Office of New York County and the transfer of \$395.68 from some other available New York County account.

In Account No. 3141, "Fuel Supplies," there is a deficit of \$163.87, which it is stated was caused by the increase in the cost of coal.

The deficit in Account No. 3142, "Office Supplies," is \$83.61. The 1917 appropriation to this account was \$50 less than the sum expended in 1916, which, together with the high cost of supplies, caused the deficit in this account.

In Account No. 3144-B, "Carfare," there is a deficit of \$152.56. This, it is stated, was caused by the increase in the number of prisoners taken to the different penal institutions and the increased rates of mileage.

In view of the foregoing, the adoption of the attached resolution providing for the transfer of the unencumbered 1917 balances and the transfer of \$395.68 from the New York County Fund for Salary and Wage Accruals is recommended.

Respectfully,

CHARLES L. CRAIG, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 237 of the Greater New York Charter, hereby approves of the transfer of funds within the appropriations made to the Sheriff of New York County for the year 1917 as follows:

#### City Fund for Salary and Wage Accruals; Fire Department—Transfer of Appropriation (Cal. No. 89).

(On April 12, 1918 (Cal. No. 20), the matter was laid over until this meeting.) The Secretary presented the following report of the Comptroller:

April 2, 1918.

To the Board of Estimate and Apportionment, The City of New York:

Gentlemen—Under date of March 16, 1918, the Fire Department transmitted to the Department of Finance a payroll, amounting to \$58.23, chargeable against account No. 1651, 1917. This sum is due to an inspector for services from December 13 to 31, 1917. Said inspector was a member of the National Army and was discharged therefrom and reported for duty on December 13, 1917.

There is a balance in account No. 1651, 1917, of \$37.34. The accruals in that account for the first half of December were transferred to the City Fund for Salary and Wage Accruals. In order to meet the above payroll charge, it will be necessary to retransfer the sum of \$20.89.

The balance in the 1917 accrual account, 3039, City Fund for Salary and Wage Accruals, is sufficient to permit of a transfer from that account.

The adoption of the attached resolution providing for the necessary transfer is, therefore, recommended.

Respectfully,

CHARLES L. CRAIG, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to section 237 of the Greater New York Charter, hereby approves transfer of funds within the appropriations for 1917, as follows:

#### FROM MISCELLANEOUS.

3039 City Fund for Salary and Wage Accruals..... \$20 89

#### TO

#### FIRE DEPARTMENT.

#### Personal Service, Salaries, Regular Employees.

1651 Factory Inspection ..... \$20 89

Which was adopted by the following vote:

Affirmative—The Mayor, the Deputy and Acting Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the Acting President of the Borough of Brooklyn, the Presidents of the Boroughs of The Bronx and Queens and the Acting President of the Borough of Richmond—16.

#### Ziegler Avenue, from Bayreuth Street to Willets Point Road, Excluding the Right of Way of the Long Island Railroad, Borough of Queens—Vesting Title (Cal. No. 90).

(On April 12, 1918 (Cal. No. 27), the matter was laid over until this meeting.)

The Secretary presented a communication, dated November 16, 1917, from the Secretary to the President, Borough of Queens, requesting the Board to vest title herein; and the following report of the Chief Engineer:

Report No. 17460.

April 9, 1918.

Hon. JOHN F. HYLAX, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a communication from the Secretary to the President of the Borough of Queens, bearing date of November 16, 1917, requesting that provision be made for vesting title to 149th Street (Central Avenue, Ziegler Avenue), from Sanford Avenue to Beech Avenue. The Board is advised that this action is desired in order to clear the way for carrying out the improvement of the sidewalk and gutter spaces on the easterly side of the street, from Beech Avenue to a point about 20 feet south of Sanford Avenue, proceedings for which were authorized by the Local Board of the Jamaica District on November 8, 1917, pursuant to the provisions of section 435 of the Charter, which does not require the concurrence of the Board of Estimate and Apportionment.

A proceeding for acquiring title to Ziegler Avenue, from Bayreuth Street to Willets Point Road, excluding the right-of-way of the Long Island Railroad, was instituted on September 25, 1913. To make it conform with the requirements of the Street Opening Law, the proceeding was reinstituted on November 5, 1915, and the oaths of the Commissioners of Estimate and Assessment were filed on March 17, 1916.

I have heretofore refrained from presenting this matter for the consideration of the Board for the reason that the season precluded the probability of immediately entering upon the land, the transfer of title in which it would manifestly be advantageous to defer to as late a date as possible in order to avoid the accumulation of interest charges. The time has now arrived, however, when a contract may be entered into for the construction work and when the taking of title can properly be arranged for.

The damage maps prepared in the opening proceeding indicate that in the two blocks under consideration the street is generally in use at a width of 60 feet, centrally located, and that through most of the distance a strip 10 feet wide is to be acquired on each side for the purpose of a widening. Inasmuch as the proposed improvement falls wholly within the easterly sidewalk space, no useful purpose will be accomplished through the vesting of title to the 10-foot strip on the westerly side, which, it is suggested, be left in private ownership until confirmation of the opening proceeding, unless previously needed for the purpose of some public improvement of a more comprehensive character than the one now under consideration.

I would recommend that a resolution be adopted, providing for vesting title in the City on May 2, 1918, to Damage Parcels Nos. 1, 2, 3 and 4 and 12 to 18, inclusive, in the proceeding for acquiring title to Ziegler Avenue.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following was offered:

Whereas, The Board of Estimate and Apportionment on the 5th day of November, 1915, adopted a resolution requesting the Corporation Counsel to institute proceedings to acquire title in fee, wherever the same has not heretofore been acquired, for the use of the public, to the real property required for the opening and extending of Ziegler Avenue, from Bayreuth Street to Willets Point Road, excluding the right-of-way of the Long Island Railroad, in the Borough of Queens, City of New York; and

Whereas, Commissioners of Estimate and Assessment have been appointed by the Supreme Court in the proceedings to acquire title to said real property, and the oaths of the said Commissioners of Estimate and Assessment were duly filed as required by law on the 17th day of March, 1916, be it

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest and in pursuance of the provisions of section 976 of the Greater New York Charter, as amended, directs that upon the 2nd day of May, 1918, the title in fee to Damage Parcels Nos. 1, 2, 3 and 4 and 12 to 18, inclusive, in the aforesaid proceeding, in the Borough of Queens, City of New York, so required, shall become vested in The City of New York.

Which was adopted by the following vote:

Affirmative—The Mayor, the Deputy and Acting Comptroller, the President, Board of Aldermen, the President of the Borough of Manhattan, the Acting President of the Borough of Brooklyn, the Presidents of the Boroughs of The Bronx and Queens and the Acting President of the Borough of Richmond—16.

#### New York and Queens County Railway Company (Cal. No. 91).

Application of the New York and Queens County Railway Company requesting the Board to authorize the President of the Borough of Queens to issue to the said Company a permit to lay a temporary single track in Alburts Avenue, beginning at Kingsland Avenue, along Alburts Avenue to Roosevelt Avenue, along Roosevelt Avenue to Louona Avenue and along Louona Avenue to Kingsland Avenue, or through Louona Avenue and Way Avenue to Kingsland Avenue, thus forming a loop from the Kingsland Avenue tracks of the Company to the Alburts Avenue Station of the Corona Rapid Transit Line and back to Kingsland Avenue.

The Company states the object of the request is to try out a short line service between College Point, Parsons Avenue, Flushing and Jamaica Avenue and the Alburts Avenue Station of the Corona Rapid Transit Line.

The Company asks for a permit instead of a franchise for the following reasons:

1. They desire to proceed with the work at once without going to the necessary delay and expense of a franchise.

2. If the service is not satisfactory and the people will not patronize it the Com-

pany wishes to take up the tracks and discontinue the service without the technical legal proceedings required for abandoning a franchise.

(On March 22, 1918 (Cal. No. 85), communication from the Civic Association of Corona, in opposition, and communication from Flushing United Association, in favor, were presented, and the matter laid over until March 28, 1918. On March 28, 1918 (Cal. No. 127), the matter was laid over until April 5, 1918, and on said date (Cal. No. 119) was laid over until this day.)

(At the meeting of March 28, 1918 (Cal. No. 127), a protest was received from the Corona Methodist Episcopal Church.)

The matter was laid over until May 17, 1918.

**New York and North Shore Traction Company (Cal. No. 92).**

In the matter of the communication from the Flushing United Association, Borough of Queens, requesting the Board to consider the extension of the New York and North Shore Traction Company's route over the tracks of the New York and Queens County Railway Company from Broadway and Prince Street, Flushing, to the Alburts Avenue Station of the Corona Rapid Transit Line.

(On March 28, 1918 (Cal. No. 72), this communication was presented to the Board and action was deferred until April 5, 1918 (Cal. No. 120), when the matter was laid over until this day.)

The matter was laid over until May 17, 1918.

**MATTERS CONSIDERED BY UNANIMOUS CONSENT.**

The following matters not on the calendar for this day were considered by unanimous consent:

**Department of Parks, Borough of Brooklyn—Use by Navy Department of Marginal Parkway, Lying Between the Shore Drive Along Bay Ridge and Bulkhead in the Borough of Brooklyn (Cal. No. 93).**

The Secretary presented the following communication:

City of New York, Department of Parks, Borough of Brooklyn, April 17, 1918.

To the Hon. Board of Estimate and Apportionment of The City of New York:

Gentlemen—I desire to call the attention of the Board of Estimate to an application which I have received from Rear Admiral N. R. Usher, U. S. Navy, Commandant, Third Naval District, in which he asks that the Department of Parks, Borough of Brooklyn, allow the Navy Department to use for the period of the war the recently filled-in land now known as the Marginal Parkway, lying between the Shore Drive, along Bay Ridge and the bulkhead.

I am informed that the Navy Department proposes to build barracks along the water front in order to house and accommodate at one time approximately five thousand enlisted men prior to their assignment to Naval vessels.

This matter is one of such magnitude that it seems to me I should have the advice of the Board of Estimate before giving the Navy Department a definite answer.

Rear Admiral Usher's letter is as follows:

"Office of the Commandant, Third Naval District, 280 Broadway, New York, N. Y., April 15, 1918.

Hon. JOHN N. HARMAN, Park Commissioner, Borough of Brooklyn:

"Dear Mr. Commissioner—The increased Navy activities of the port have made further demands for barracks for enlisted men, and a survey of the harbor discloses marginal parkway, between the Shore Drive on Bay Ridge, and the bulkhead, not now in use for any purpose, but which was filled in during the last two or three years, as the most convenient locality.

"I have to request your good offices to procure the use of this land, which is a part of the park system, but not now in use, as such or improved in any way, for naval purposes for the period of the war, and so long afterwards as may be necessary for demobilization, the Navy to remove the buildings erected thereon for administration and operation, and the Navy undertaking to restore the property to its present condition when its use for naval purposes is no longer required.

"I have to thank you, sir, for your kind reception of Commodore Forshew, who called upon you in relation to this matter at my request. Faithfully yours,

"N. R. USHER, Rear Admiral, U. S. Navy, Commandant, Third Naval District."

It is very important that a decision in this matter be reached without delay, inasmuch as arrangements of this character must be made by the Navy Department at once. Very truly yours,

JOHN N. HARMAN, Commissioner.

Commodore Robert P. Forshew, representing Navy Department; and Hon. John N. Harman, Commissioner of Parks, Borough of Brooklyn, appeared in favor.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of and consents to the granting of a permit by the Department of Parks, Borough of Brooklyn, for the use by the Navy Department of the United States, for the period of the war and so long thereafter as may be necessary, of the recently filled-in land now known as the Marginal Parkway, lying between the Shore Drive along Bay Ridge, and the bulkhead, in the Borough of Brooklyn, the Navy Department to restore the property to its present condition when its use for naval purposes is no longer required.

Which was adopted by the following vote:

Affirmative—The Mayor, the Deputy and Acting Comptroller, the President, Board of Aldermen, the President of the Borough of Manhattan, the Acting President of the Borough of Brooklyn, the Presidents of the Boroughs of The Bronx and Queens, and the Acting President of the Borough of Richmond—16.

**President, Borough of Richmond—Designation of John E. Bowe, Assistant Commissioner of Public Works, as Acting President, Borough of Richmond (Cal. No. 94).**

The Secretary presented the following communication from the President of the Borough of Richmond, which was ordered printed in the Minutes and filed:

April 13, 1918.

Mr. JOSEPH HAAG, Secretary, Board of Estimate and Apportionment:

Dear Sir—By virtue of the authority vested in me by the Greater New York Charter, I hereby confer upon John E. Bowe, Assistant Commissioner of Public Works of the Borough of Richmond, full power as Acting President of the Borough of Richmond to represent and act for me as a member of the Board of Estimate and Apportionment during my absence from the meetings of said Board. Yours very truly,

CALVIN D. VAN NAME, President of the Borough of Richmond.

**Commissioner of Records, Bronx County—Amendment of Chapter 90, Laws of 1918 (Cal. No. 95).**

August F. Schwartzler, Harry Chambers, representing Taxpayers' Alliance of the Borough of The Bronx, and G. Arnold Moses, appeared and urged that the Board oppose the amendment to chapter 90 of the Laws of 1918, providing for a staff for the Commissioner of Records, Bronx County.

The President, Borough of The Bronx, offered the following resolution:

Resolved, That the Board of Estimate and Apportionment of The City of New York respectfully urges his Excellency, Charles S. Whitman, Governor of the State of New York, to veto the bill amending chapter 90 of the Laws of 1918, the amendment providing for the appointment and maintenance of a staff for the Commissioner of Records, Bronx County, without the consent and approval of the Mayor of the City and the Board of Estimate and Apportionment, inasmuch as, irrespective of the merits of the bill, the same is in violation of the principle of Home Rule, is mandatory in character, and also imposes an unnecessary burden upon the already heavily burdened taxpayers of The City of New York.

Which was adopted by the following vote:

Affirmative—The Mayor, the Deputy and Acting Comptroller, the President, Board of Aldermen, the President of the Borough of Manhattan, the Acting President of the Borough of Brooklyn, the Presidents of the Boroughs of The Bronx and Queens, and the Acting President of the Borough of Richmond—16.

On motion, the Board adjourned to meet Friday, April 26, 1918, at 10.30 o'clock a. m. JOSEPH HAAG, Secretary.

#### NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 will be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of buildings, sheds, walks, structures and cellars of whatever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds except the exterior walls of the buildings and their foundations, and the sidewalks and curb in front of said buildings, extending within the described area, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from the demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite the point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture

of ownership of such buildings, appurtenances or portions as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the date of possession, and the successful bidder will provide and furnish all materials or labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furnishings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

No buildings, parts of buildings, fixtures or machinery sold for removal under these terms and conditions shall in any case be relocated or re-erected within the lines of any proposed street or other public improvement, and if any such buildings, parts of buildings, fixtures or machinery, etc., shall be relocated or re-erected within the lines of any proposed street or other public improvement, title thereto shall thereupon become vested in The City of New York and a resale at public or private sale may be made in the same manner as if no prior sale thereof had been made.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids, and be it further

Resolved, That while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

For particulars as to the quantity or quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter as surety or otherwise, upon any obligation of the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids in addition to inserting the same in figures.

Bidders are requested to make their bids upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done or the supplies are to be furnished. Plans and drawings of construction work may be seen there.
