COMPTROLLER'S OFFICE,
October 30, 1894.

To the Board of Estimate and Apportionment:

Assessment bonds of the Corporation of the City of New York, amounting to five hundred and eighteen thousand dollars (\$518,000), mature November 1, 1894. Under section 150 of the Consolidation Act authority is given to borrow on the credit of the Corporation, from time to time, such amounts as may be required to meet the deficiencies caused by delay in collecting arrears of assessments. The moneys in the Street Improvement Fund are insufficient to redeem these funds, and I therefore offer the following resolution, providing in effect for their renewal for the term of five years.

Respectfully,

RICH. A. STORRS, Deputy Comptroller.

Resolved, That, pursuant to the provisions of section 150 of the New York City Consolidation Act of 1882, the Comptroller be and he is hereby authorized and directed to issue assessment bonds of the Corporation of the City of New York, to the amount of five hundred and eighteen thousand dollars (\$518,000), to redeem bonds issued October 31, 1889, under the authority of said section 150 of said Consolidation Act, at a rate of interest not exceeding three per cent. per annum, and for such period as the Comptroller may determine, in conformity with the law providing for the issue of Assessment Bonds.

Which was adopted by the following vote:

Affirmative—The Mayor, Deputy Comptroller, President of the Board of Aldermen, President of the Department of Taxes and Assessments, and Counsel to the Corporation—5.

The Deputy Comptroller presented the following :

NEW YORK, October 24, 1894.

Ordered to be printed in the minutes.

The Deputy Comptroller presented the following Departmental Estimates for the year 1895 :

ESTIMATES OF THE DEPARTMENTS, BOARD OF EDUCATION, JUDICIARY, AND OFFICERS OF THE CITY OF NEW YORK, INCLUDING VARIOUS CHARITABLE INSTITUTIONS, FOR THE YEAR 1895.

CITY DEPARTMENTS.

At a meeting of the Board of Estimate and Apportionment, created by chapter 335 of the Laws of 1873, held July 13, 1894, the following preamble and resolution were adopted, to wit :

"Whereas, Section 189 of the New York City Consolidation Act of 1882, and chapter 106 of the Laws of 1893, provide that

"The Mayor, Comptroller, President of the Board of Aldermen, the President of the Department of Taxes and Assessments, and the Counsel to the Corporation, shall constitute the Board of Estimate and Apportionment.

"The said Board shall, annually, between the first day of August and the first day of November, meet, and by the affirmative vote of all the members make a Provisional Estimate of the amounts required to pay the expenses of conducting the public business of the City and County of New York, in each department and branch thereof, and of the Board of Education, for the then next ensuing financial year.

"For the purpose of making said Provisional Estimate, the Heads of Departments and the Board of Education shall, at least thirty days before the said Provisional Estimate is required to be made as herein provided, send to the Board of Estimate and Apportionment an estimate in writing, herein called a Departmental Estimate, of the amount of expenditure, specifying in detail the objects thereof, required in their respective departments, including a statement of each of the salaries of their officers, clerks, employees and subordinates.

"The same statement as to salaries and expenditures shall be made by all other officers, persons, and boards having power to fix or authorize them.

"A duplicate of these Departmental Estimates and statements shall be made at the same time to the Board of Aldermen."

"Resolved, That the Comptroller requests the Heads of all Departments, the Board of Education, and the Officers of the City and County of New York, to send their Departmental Estimates for the year 1895, in conformity to the foregoing provisions of law, to the Board of Estimate and Apportionment, on or before September 5, 1894."

The Departmental Estimate should state specifically the objects and purposes of all the appropriations required to pay the expenses of conducting the public business of your Department in and for the year 1895. The amount required should be specified for each item of expense, including the salaries paid all officers, clerks and subordinates employed in the Department, giving the names and official titles of the several persons receiving such salaries, respectively, in accordance with the above-cited provisions of law.

Full explanations should accompany the estimates, stating the reasons for any increase or decrease in the amounts, as compared with the appropriations made for 1894, with references to the provisions of law authorizing the amounts of salaries and appropriations of specific sums for special objects and purposes.

A separate comparative statement, in tabular form, showing, in one column, the amounts of all appropriations made to your Department for the year 1894, for different objects and purposes, with additions and deductions therefrom for any transfers which may have been made from one appropriation to another; and showing, in another column, the amounts of appropriations asked for in your Departmental Estimate for the year 1895, is required to be appended to the Departmental Estimate.

You are requested also to state the amount which may probably remain unexpended of any appropriations for 1894 at the end of the year.

Every item of expense not absolutely necessary for conducting the public business should be excluded, and every item included in the estimates should be reduced to the lowest amount of expenditure consistent with efficient service, in order to secure the utmost economy in the administration of city affairs, and make the burden of taxation as light as possible. Your cooperation with the Board of Estimate and Apportionment in accomplishing these important objects is earnestly requested.

Your attention is directed to the date fixed for Departmental Estimates to be sent to the Board of Estimate and Apportionment, September 5, 1894. The Board has been much embarrassed in past years by the failure of certain departments and officers to furnish their estimates in time to have them printed. It is requested, therefore, that you send in your estimate promptly in order that it may be duly considered and proper provisions made for every branch and object of expenditure within the jurisdiction of your Department.

Respectfully,
ASHBEL P. FITCH, Comptroller.

THE JUDICIARY.

At a meeting of the Board of Estimate and Apportionment, created by chapter 335 of the Laws of 1873, held July 13, 1894, the following preamble and resolution were adopted, to wit :

"The same statement as to salaries and expenditures shall be made by all other officers, persons and boards having power to fix or authorize them.

"A duplicate of these Departmental Estimates and statements shall be made at the same time to the Board of Aldermen."

"Resolved, That the Comptroller requests the Heads of all Departments, the Board of Education, and the Officers of the City and County of New York, to send their Departmental Estimates for the year 1895, in conformity to the foregoing provisions of law, to the Board of Estimate and Apportionment, on or before September 5, 1894."

In accordance with the foregoing resolution I respectfully request you to prepare and send to the Board of Estimate and Apportionment an estimate in detail of the amounts required to pay the expenses of conducting the business of your office in and for the year of 1895. The purposes and objects of every appropriation should be stated, and the amounts of the salaries of all officers, clerks, employees and subordinates, should be specified; also the names and official titles of the several persons receiving such salaries, respectively, in accordance with the above provisions of law.

The Board has been much embarrassed in past years by the failure of certain departments and officers to furnish their estimates in time to have them printed. The Departmental Estimates for the year 1895 are as follows :

THE LEGISLATIVE DEPARTMENT.

OFFICE OF THE BOARD OF ALDERMEN,
NO. 8 CITY HALL,
NEW YORK, September 4, 1894.

Hon. ASHBEL P. FITCH, Comptroller :

DEAR SIR—In reply to your circular letter of July 30, requesting me to prepare and transmit to the Board of Estimate and Apportionment on or before the 5th day of September, 1894, estimates in writing of the amounts required to pay the expenses of conducting the public business in this office in and for the year 1895, together with other information, I have the honor to state the salaries fixed by law are as follows :

President of the Board of Aldermen..... \$3,000 00
Thirty members of the Board, other than the President, at \$2,000 each per annum... 60,000 00
(Section 52, New York City Consolidation Act of 1882; chapter 74, Laws of 1884; chapter 292, Laws of 1887; chapters 397 and 408, Laws of 1892).

By section 79 of the New York City Consolidation Act of 1882, the sum to be appropriated for salaries for clerks and other officers of the Board of Aldermen, including the Clerk, is limited to \$25,000. The Board of Estimate and Apportionment, in 1888, 1889, 1890, 1891 and 1892, specified the officers and fixed their salaries at \$22,100. In making their Final Estimate for 1893, however, they added the sum of \$1,200, to be applied to the payment of the salary of a Stenographer and Typewriter in the office of the Clerk of the Common Council, making the amount \$23,300, which will be ample for the ensuing year.

The list is as follows :
Clerk of the Board and ex-officio Clerk of Common Council..... 5,000 00
Deputy Clerk, Board of Aldermen..... 2,500 00
Stenographer and Typewriter..... 1,200 00
Five Clerks, at \$1,200 each..... 6,000 00
Four Clerks, at \$1,000 each..... 4,000 00
Librarian for City Library..... 1,000 00
Sergeant-at-Arms, Board of Aldermen..... 900 00
Three Messengers, at \$900 each per annum..... 2,700 00
City Contingencies..... 1,500 00
Contingencies—Clerk of Common Council..... 200 00

Total for the year 1895..... \$88,000 00

—and is an exact duplicate both as to the objects and the amount of the expenditures asked for and allowed in each of the past five years, save the five additional Aldermen, as provided for by the Laws of 1892, and with the exception that an additional appropriation of \$900 was made for an additional messenger in 1891, and \$1,200 for a Stenographer and Typewriter in 1893 and 1894.

As all the appropriations are made to pay fixed salaries, with the exception of the items for contingencies, it is more than probable they will be all expended.

The balance unexpended from the appropriation for "Contingencies" at the expiration of the present year cannot with any degree of certainty be estimated at this time.

SUMMARY.

Amount asked for and allowed for year 1894..... \$88,000 00
Estimate for year 1895..... 88,000 00

THE FINANCE DEPARTMENT.

CITY OF NEW YORK—FINANCE DEPARTMENT, }
COMPTROLLER'S OFFICE, }
October 11, 1894. }

To the Board of Estimate and Apportionment:

As provided by section 189 of the New York City Consolidation Act of 1882, I submit herewith, in writing, the Departmental Estimate of the amount of expenditure required for conducting the public business in the Finance Department of the City of New York for the year 1895, stating in detail the objects and purposes of such expenditure, and including a statement of the salaries of each of the officers, clerks and subordinates employed in the Department, and the compensation of temporary clerks engaged during a portion of each year.

The amounts presented herewith for the above purposes are stated as they existed at the beginning of my incumbency of the Comptroller's office. The largely increased volume of work which has of late been imposed upon the Finance Department has necessitated a readjustment of the duties of some subordinates and a consequent resettlement of salaries. This process of readjustment is not yet complete, and when finished may call for a slightly increased appropriation, of the details of which I will further advise the Board of Estimate and Apportionment before the completion of the Final Estimate.

Statements in detail are presented of stocks and bonds of different kinds and classes which become due and payable in the year 1895, and the redemption of which is provided for as stated, under their several heads and classification, and also of installments payable in 1895, to be raised by tax for the redemption of water bonds at maturity, as follows:

PAYABLE FROM THE SINKING FUND.

- Statement of stock payable in the year 1895 from the Sinking Fund, as provided by Ordinances of the Common Council, amounting to \$1,766,600.
- Statement of stock payable in the year 1895 from the Sinking Fund, as provided by section 192 of the New York City Consolidation Act of 1882, as amended by chapter 178, Laws of 1889, amounting to \$910,000.
- Statement of stock payable in the year 1895 from taxation and from the Sinking Fund, as provided by sections 176 and 177 of the New York City Consolidation Act of 1882, \$151,000.
- Statement of bonds and stocks of the City of New York, payable from taxation, issued after June 3, 1878, and prior to September 1, 1894, and to be issued as estimated during the remainder of 1894, by authority of existing statutes, and the sums required to be set apart out of the surplus income, revenues and accumulations of the Sinking Fund for the Redemption of the City Debt for the year 1895, and subsequent years, which, with the accumulation of interest thereon, shall be sufficient to redeem said bonds and stocks by the time the same shall be payable, as provided by section 192 of the New York City Consolidation Act of 1882, as amended by chapter 178 of the Laws of 1889, amounting to \$2,054,731.65.

PAYABLE FROM ASSESSMENTS.

- Statement of bonds payable in the year 1895 from assessments, amounting to \$4,875,756.45

PAYABLE FROM TAXATION.

- Statements of bonds issued by the Towns of Morrisania and West Farms prior to their annexation to the City in 1874, becoming due and payable in 1895, amounting to \$16,000.
- Interest becoming due in 1895 on bonds of the Towns of Morrisania and West Farms, amounting to \$18,930, is included in the statement of interest on stocks and bonds outstanding, exclusive of the funded debt held by the Sinking Fund.
- Statement of the estimated amount of installments to be raised by tax in 1895, for the redemption at maturity of stocks issued and to be issued for the supply of water, pursuant to the provisions of article 8, section 11, of the State Constitution, from a special Sinking Fund formed for the purpose, amounting to \$1,397,754.35.
- Statement of bonds payable in the year 1895 from taxation, to be provided for by the Board of Estimate and Apportionment, amounting to \$170,325.84.

Statements in detail are also presented, showing the amounts of interest becoming due and payable on stocks and bonds in 1895, as follows:

- Statement of stocks and bonds outstanding September 1, 1894, exclusive of the funded debt held by the Sinking Fund as investments, showing interest becoming due thereon in 1895, amounting to \$4,550,018.94.
- Statement of the estimated amount required to be raised by tax for interest payable in 1895, on stocks and bonds to be issued in 1894, after August 31, and in 1895, amounting to \$233,456.38.
- Estimated amount of interest to be paid on Revenue Bonds to be issued in 1895, in anticipation of the collection of taxes, to meet the current expenses of the City Government, amounting to \$250,000.

The statement of State Taxes payable in 1894, as the quota of the County of New York for the State fiscal year, commencing October 1, 1894, amounts to \$4,173,713.86, to which must be added the amount required for the salary and expenses of the Shore Inspector, \$12,406.10, making a total of \$4,186,119.96 to be included in the estimate for 1895.

Statements are also presented with the Departmental Estimate of the Finance Department of the amount of rents payable in the year 1895 on leases to the city of premises for the use of various departments and public offices, the Civil and Police Courts, armories and drill rooms for the National Guard, together with estimates of miscellaneous expenses chargeable upon the City Treasury, and on account of judgments against the Corporation, and a number of items of necessary expenditure which are not included in any Departmental Estimates.

Respectfully submitted,
ASHBEL P. FITCH, Comptroller.

NOTE.—Chapter 178 of the Laws of 1889 provides that an annual sum shall, until other provision may be hereafter made by law, be set apart out of the surplus income, revenues and accumulations of the Sinking Fund for the Redemption of the City Debt, sufficient, with the accumulation of interest thereon, to meet and discharge the above-mentioned Stocks and Bonds, instead of raising the amount by taxation annually for that purpose, as provided by section 192 of the New York City Consolidation Act of 1882.

THE DEPARTMENT OF PUBLIC WORKS.

DEPARTMENT OF PUBLIC WORKS—COMMISSIONER'S OFFICE,
No. 31 CHAMBERS STREET,
NEW YORK, October 3, 1894.

Hon. THOMAS F. GILROY, Chairman, Board of Estimate and Apportionment:

DEAR SIR—In compliance with section 189 of the New York City Consolidation Act of 1882, I have the honor to present the following estimate of the amounts required to conduct the public business of the Department of Public Works for the year 1895:

AQUEDUCT—REPAIRS, MAINTENANCE AND STRENGTHENING.

Final Estimate for 1894—	
General account (including arch at Yonkers).....	\$235,000 00
Salary account.....	27,850 00
Total.....	\$262,850 00

Departmental Estimate for 1895—

General account (including completion of concreting and facing with masonry the Old Central Park Reservoir).....	\$260,000 00
Salary account.....	29,600 00
Total.....	\$289,600 00

The following are the items which call for the increase of \$45,000 in general account over the Final Estimate for 1894, leaving out of the latter the \$20,000 specially set apart for an arch supporting the Aqueduct at a street-crossing at Yonkers:

To complete the concreting and facing with masonry at the old Central Park Reservoir.....	\$10,000 00
For operating the new high-service works after their completion, for an estimated time of 120 days: 1,000 tons of coal, \$5,000; 3 Firemen and 3 Laborers, \$540; oil, waste, etc., \$500; total.....	6,040 00
Maintenance Force of 4 Laborers and 1 Team at new storage Reservoir "M".....	4,000 00
1 Foreman and 3 Machinists to operate machinery at Shaft 24, New Aqueduct.....	4,760 00
10 Laborers for care of shaft sites and other lands along the New Aqueduct.....	6,400 00
Material for fences, retaining walls, etc., on newly-acquired lands in the water-sheds.....	4,500 00
For necessary interior repairs of the Old Aqueduct, which have had to be suspended and deferred for the past three years in consequence of low appropriations.....	9,300 00
Total.....	\$45,000 00

Exclusive of these special and additional items, the usual appropriation of \$215,000 is required for the work, services and materials used in the care and maintenance of the two aqueducts, the reservoirs, dams and other structures connected with the water supply, the distributing reservoirs in the city, the operation of the high-service pumping works, and the policing of the water courses, lakes and ponds in the Croton water-shed.

The increase of \$1,750 called for in the salary account over the present pay-roll is for one additional Steam Engineer, the promotion of a Transmittan to Assistant Engineer, with an increase of salary from \$1,500 to \$1,800, and to increase the salary of the Clerk of the Bureau from \$1,500 to \$1,800, all of which is urgently recommended by the Chief Engineer of the Croton Aqueduct. He also recommends an increase in the salary of the Messenger from \$900 to \$1,000.

The following are the salaries provided for in this estimate:

1 Assistant Engineer.....	\$3,000 00
1 Assistant Engineer.....	1,800 00
1 Clerk.....	1,800 00
1 Transmittan.....	1,500 00
1 Leveler.....	1,200 00
1 Keeper.....	1,400 00
6 Keepers, \$1,000 each.....	6,000 00
2 First Enginemen, \$1,500 each.....	3,000 00
1 Mechanical Engineer.....	1,000 00
3 Enginemen, \$1,000 each.....	3,000 00
1 Second Engineman.....	1,200 00
1 Additional Engineman.....	1,200 00
1 Rodman.....	1,200 00
1 Inspector of Masonry, \$4 per day.....	1,300 00
1 Messenger.....	1,000 00
Total.....	\$29,600 00

PARAPET WALL AND RAILING AROUND OLD CENTRAL PARK RESERVOIR.

Departmental Estimate for 1895.....	\$40,000 00
-------------------------------------	-------------

The Department asked for this appropriation in the estimates for 1893 and 1894, but it has never been granted. It is urgently needed for the construction of a proper parapet wall and railing in place of the present old and unsafe wooden fence. The improvement is needed for public safety, and to make the appearance of the reservoir correspond to the park surroundings, instead of having an eyesore in the old fence.

BORING EXAMINATIONS FOR GRADING AND SEWER CONTRACTS.

Final Estimate for 1894.....	\$5,000 00
Departmental Estimate for 1895.....	5,000 00

This appropriation has remained unchanged for the past two years, and is needed for the ensuing year to enable Engineers and Surveyors to determine the approximate quantities of earth, and rock excavation in grading and sewer works, and to make proper preliminary estimates as a basis of properly balanced bids for contracts.

BOULEVARDS, ROADS AND AVENUES—MAINTENANCE OF.

Final Estimate for 1894—	
General account.....	\$90,000 00
Salary account.....	2,500 00
Total.....	\$92,500 00

Departmental Estimate for 1895—

General account.....	\$110,000 00
Salary account.....	2,500 00
Total.....	\$112,500 00

The increase for general account in this estimate over the Final Estimate for 1894 is \$20,000. It is more than accounted for by the fact that about \$32,000 is required to replace decayed and dangerous shade trees which were planted along the boulevards and principal macadam drives when these drives were constructed twenty or more years ago, and for which assessments were levied on the abutting property. It is natural that the property-owners along these drives, after being assessed for the shade trees, expect the City to maintain them and replace them when they become decayed or dead, and I think it must be conceded that the City is under the obligation to do so. The fact that no provision has been made in the appropriations for many years past for the proper care and replacement of these trees, swells this item to the large sum now called for. The remainder of the appropriation is absolutely necessary for the proper care, maintenance and sprinkling of the existing macadam roadways, which from year to year are subjected to heavier wagon traffic and corresponding increase of wear and tear, due to increase in population and business in the upper part of the City.

The estimate for salary account is the same as the appropriation for a number of years past and calls for the salaries of—

1 Clerk.....	\$1,500 00
1 Rodman.....	1,000 00
Total.....	\$2,500 00

BRONX RIVER WORKS—MAINTENANCE AND REPAIRS.

Final Estimate for 1894—	
General account.....	\$20,000 00
Salary account.....	2,400 00
Total.....	\$22,400 00

Departmental Estimate for 1895—

General account.....	\$25,000 00
Salary account.....	2,400 00
Total.....	\$27,400 00

The present Departmental Estimate for general account is \$5,000 more than the Final Estimate for 1894 and \$5,000 less than last year's Departmental Estimate. The Chief Engineer of the Croton Aqueduct states that, owing to insufficient appropriation for the past few years, it has been impossible to keep in good order the fences, retaining-walls, etc., on City property in the Bronx River water-shed, along the Bronx River conduit and about the reservoirs, which must, at some time or other, be made good, at heavier expense the longer the work is delayed. He states that additional expenditure is also involved by the acquisition of additional lands during the past year and the ensuing year, and the extension of the Bronx River system to the Byram river, all of which will have to be maintained in proper condition. The entire amount called in this estimate is, therefore, needed to place and keep all the City property connected with the Bronx River water supply in fair condition.

The estimate for salary account is the same as the amount appropriated in the Final Estimates for several years past, and includes the salaries of—

1 Keeper at Kensico Reservoir	\$1,200 00
1 Keeper at Williamsbridge Reservoir.....	1,200 00
Total.....	\$2,400 00

CONTINGENCIES—DEPARTMENT OF PUBLIC WORKS.

Final Estimate for 1894	\$4,000 00
Departmental Estimate for 1895.....	5,000 00

This appropriation has for a number of years past been at the fixed sum of \$4,000. Out of it are paid traveling expenses of officers and employees on official duty, where not chargeable to some special work or appropriation, postage, expressage, telegraphing, and other incidental expenses. A new demand upon this appropriation has arisen from the necessity of mailing to consumers of water annually about 70,000 meter bills, and a like number of notices when such bills become overdue. This method insures the collection annually of \$700,000 of city revenue, which would otherwise fall in arrears, and in order to carry it out, it became necessary very recently to add to the present appropriation by a transfer of \$500. The additional \$1,000 asked for in this estimate is absolutely necessary to continue and perfect this system of collecting city revenue from the water service.

FLAGGING SIDEWALKS AND FENCING VACANT LOTS IN FRONT OF CITY PROPERTY.

Final Estimate for 1894	\$2,000 00
Departmental Estimate for 1895.....	2,000 00

This appropriation is required to keep in proper condition the sidewalks fronting on municipal buildings and other City property, and the iron railings and copings on parapet walls which support street terraces.

FREE FLOATING BATHS.

Final Estimate for 1894—	
General account.....	\$18,000 00
Salary account.....	30,000 00
Total.....	\$48,000 00
Departmental Estimate for 1895—	
General account.....	\$18,000 00
Salary account.....	30,000 00
Total.....	\$48,000 00

This estimate calls for the same amount as was appropriated in the Final Estimates for several years past. The amount for general account is required for repairs, painting, carpenter work, roofing, fuel, gas fixtures, utensils and general supplies for the 15 baths: their towage to and from their respective berths, storage in winter quarters, and dock rent at berths which are not furnished free of charge by the Dock Department. As the baths grow older they require increased repairs but, with strict economy and judicious management, they can be kept in serviceable order for the amount herein called for.

The estimate for salary account, which is also unchanged from the appropriations for several years past, is for the regular force in charge of the baths, as follows:

1 Foreman, 365 days, at \$5.....	\$1,825 00
1 Assistant Foreman, 365 days, at \$3.50.....	1,275 50
1 Carpenter, 313 days, at \$3.50.....	1,095 50
6 Male Attendants, 365 days, at \$3 each.....	6,570 00
41 Male Attendants, at \$2.50 per day, and 32 Female Attendants, at \$2 per day, for average bathing season of 115 days.....	19,232 00
Total.....	\$30,000 00

LAMPS AND GAS AND ELECTRIC LIGHTING.

Final Estimate for 1894—	
General account.....	\$930,000 00
Salary account.....	6,500 00
Total.....	\$936,500 00
Departmental Estimate for 1895—	
General account.....	\$963,000 00
Salary account.....	6,500 00
Total.....	\$969,500 00

The estimate for general account provides for the lighting and maintenance at the present contract prices of 24,803 gas lamps and 2,631 electric lamps, which will be in use at the end of this year, and for 900 additional public lamps which are to be purchased, placed, fitted up and lighted in the course of the ensuing year. It also provides for gas and electric light service in all the municipal buildings, offices, armories, markets and public baths under the charge of this Department. The increase of \$33,000 over the appropriation for 1894 is very moderate considering the rapid growth of the city in buildings and population, and the corresponding necessity of extending and improving street lighting.

The estimate for salary account, which is of the same amount as the appropriation for a number of years past, calls for the following salaries:

1 Clerk	\$1,500 00
5 Inspectors of Lamps, \$1,000 each.....	5,000 00
Total.....	\$6,500 00

LAYING CROTON PIPES.

Final Estimate for 1894—	
General account.....	\$220,000 00
Salary account.....	19,710 00
Total.....	\$239,710 00
Departmental Estimate for 1895—	
General account.....	\$228,300 00
Salary account.....	21,700 00
Total.....	\$250,000 00

Section 356 of the Consolidation Act limits the total annual expenditure for laying additional water-mains to \$250,000, and the appropriation should never be made any less, especially since the introduction of the additional water supply through the New Aqueduct, for the proper distribution of which many miles of additional water-mains must be laid. Even with the full appropriation, it is difficult to keep up with the demand for extending the water service into new streets and districts as they become populated.

The estimate for salary account provides for one additional Inspector on contract work for laying water-mains, and one Inspector of Masonry, whose services are required on the large quantities of mason work done in connection with the laying of large water-mains and placing large stop-cocks. The following are the salaries provided for in the estimate:

1 Assistant Engineer.....	\$3,600 00
1 Leveler	1,400 00
1 Leveler	1,200 00
1 Rodman.....	1,000 00
2 Draughtsmen, \$5 per day each.....	3,200 00

1 Superintendent of Pipe Yard.....	\$1,800 00
2 Inspectors on Making Pipes, Stop-cocks and Hydrants in Foundries and Shops, \$5 per day each.....	3,200 00
5 Inspectors on Laying Pipes at \$3.50 per day each.....	5,100 00
1 Inspector of Masonry at \$4 per day.....	1,200 00
Total.....	\$21,700 00

PUBLIC BUILDINGS—CONSTRUCTION AND REPAIRS.

Final Estimate for 1894.....	\$65,000 00
Departmental Estimate for 1895.....	83,000 00

The amount of \$65,000 which was appropriated in the Final Estimate for 1894 is absolutely necessary for the ordinary repairs to the municipal buildings, offices, markets and armories, which have to be maintained in proper condition by the Department. It is \$7,500 less than was appropriated for the same purpose for the year 1893. The increase of \$18,000 called for in the present estimate for 1895 is required for the following special items, which cannot be counted or classed as ordinary repairs:

To repair the stables of the Street Cleaning Department, which are now in untenable condition.....	\$6,000 00
For special armory repairs.....	5,500 00
For redecorating and painting the Court-rooms in the County Court-house.....	3,000 00
For Plumber, Helper and Plumber's material in New Criminal Court Building.....	3,500 00
Total.....	\$18,000 00

Regarding the item for armories, it is an established fact that as soon as an armory is turned over to the care of this Department, repairs to roofs and other parts become necessary.

PUBLIC DRINKING-HYDRANTS.

Final Estimate for 1894—	
General account.....	\$2,000 00
Salary account.....	1,200 00
Total.....	\$3,200 00
Departmental Estimate for 1895—	
General account.....	\$3,000 00
Salary account.....	1,200 00
Total.....	\$4,200 00

The \$2,000 heretofore appropriated for several years past, for general account, has been barely sufficient to make the most urgently needed repairs to the drinking hydrants and fountains now in use. In course of time, however, quite a number of the old hydrants and fountains have become so old and worn that they can no longer be maintained by mere repairs, but require replacement by new hydrants or fountains. For this purpose the additional \$1,000 called for in this estimate is absolutely necessary.

The estimate for salary account provides for the salary of \$1,200 for the Inspector on this work.

REMOVING OBSTRUCTIONS IN STREETS AND AVENUES.

Final Estimate for 1894—	
General account.....	\$25,000 00
Salary account.....	8,100 00
Total.....	\$33,100 00
Departmental Estimate for 1895—	
General account.....	\$25,000 00
Salary account.....	8,100 00
Total.....	\$33,100 00

The present estimate for general account is the same as the Final Estimate for 1894, and is needed for the removal of street and sidewalk incumbrances on about 700 miles of streets, and to complete the removal of overhead electric wires and the poles which carry them.

The estimate for salary account provides for the present salaries as follows:

1 Clerk	\$1,500 00
1 General Inspector.....	1,200 00
5 Inspectors, \$900 each.....	4,500 00
1 Keeper of Corporation Yard.....	900 00
Total.....	\$8,100 00

REPAIRING AND RENEWAL OF PIPES, STOP-COCKS, ETC.

Final Estimate for 1894.....	\$215,000 00
Departmental Estimate for 1895.....	232,000 00

The increase of this estimate over the Final Estimate for 1894 is \$17,000, and is very moderate considering the demands which will be made on this appropriation. There are now 720 miles of water-mains, with over 7,500 stop-cocks and 9,400 fire-hydrants, to be maintained out of this appropriation, and each year about 20 miles of additional water-mains with a corresponding number of stop-cocks and hydrants are placed to extend the water service. Year after year the Department has presented, in its annual estimates, the facts which render a considerable increase in this appropriation necessary, without receiving the needed increase. One item which makes the increase an absolute necessity is the establishment of an additional repair gang, in order to divide the territory of the Twenty-third and Twenty-fourth Wards where the distributing system now extends to the Yonkers city line, a distance of seven miles from the Harlem river, into two districts, with a separate repair gang for each. Without such arrangement it will be impossible to maintain the distributing system in these wards in proper condition. Another item which the Chief Engineer's estimate calls for is \$10,000 for a brick building at the Department Pipe Yard in place of the old and dilapidated wooden sheds, which do not afford proper space and protection for the material constantly received, stored and distributed there.

REPAIRS AND RENEWALS OF PAVEMENTS AND REGRADING.

Final Estimate for 1894—	
General account.....	\$315,000 00
Salary account.....	17,000 00
Total.....	\$332,000 00
Departmental Estimate for 1895—	
General account.....	\$400,000 00
Salary account.....	17,000 00
Total.....	\$417,000 00

The total area of stone-block pavements to be kept in repair was, on July 1, 1894, 6,850,000 square yards, which is about equal to the area in 1889, before asphalt pavements were extensively laid, consequently the replacement of old stone-block pavements with asphalt has not diminished the area of stone-block pavements to be kept in repair, it being only equal to the new additions to the stone-block pavements. Of the asphalt pavements, 65,670 square yards will fall to the care of this Department next year, because the terms of the contractors' responsibility for repairs will expire. In considering this appropriation it must also be remembered that the legislative appropriation for repavements is exhausted, with not much prospect of getting another one. The Department will, therefore, have to keep in repair old and obsolete pavements which really should be replaced by new ones. The full amount of this estimate should, therefore, be appropriated. The estimate for salary account remains the same as the Final Estimates for the past two years, and provides for the following salaries:

1 General Inspector.....	\$2,750 00
1 Clerk.....	1,800 00
1 Inspector, 312 days, at \$4.50 per day.....	1,404 00
Inspectors at \$3.50 per day, varying in number according to season and amount of work; aggregate time, 3,156 days.....	11,046 00
Total.....	\$17,000 00

REPAVING STREETS AND AVENUES.

Final Estimate for 1894—	
General account.....	\$250,000 00
Salary account.....	13,000 00
Total.....	\$263,000 00
Departmental Estimate for 1895—	
General account.....	\$485,000 00
Salary account.....	15,000 00
Total.....	\$500,000 00

The low appropriations made for repavements for the past five or six years were so made in consideration of the fact that there were legislative appropriations which allowed an expenditure of \$1,000,000 annually for repavements. This simple fact is sufficient argument to make the appropriation for 1895 the full amount of \$500,000, which is the limit allowed by the Consolidation Act. In his Bureau Estimate, the Water Purveyor enumerates miles of streets which still have the old and obsolete square block pavements, which should be replaced with new ones without delay. Of the area of these old and obsolete pavements, 673,575 square yards should be replaced with specification granite blocks, at an estimated cost of \$3.50 per square yard, or a total of \$2,357,512, and 65,100 square yards should be repaved with asphalt, at an estimated cost of \$4 per square yard, or \$260,400. Provision should certainly be made in the Final Estimate for 1895 to go as far in these repavements as the limit fixed by law will allow.

The salary account will have to be increased by \$2,000, as called for in this estimate, if the increase in the general account is granted, as it will require the services of additional local Inspectors on contracts for repavements.

The following are the salaries to be provided for:

1 Clerk.....	\$1,800 00
2 General Inspectors, at \$1,500 each.....	3,000 00
Inspectors on contract work, at \$3.50 per day, according to season and amount of work in progress; aggregate time, 2,914 days.....	10,200 00
Total.....	\$15,000 00

ROADS, STREETS AND AVENUES UNPAVED—MAINTENANCE AND SPRINKLING.

Final Estimate for 1894.....	\$30,000 00
Departmental Estimate for 1895.....	35,000 00

There are about forty miles of unpaved streets and country roadways in the upper part of Manhattan Island which must be maintained in good condition to afford proper means for public travel. The increase of \$5,000 asked for in this estimate is required in consequence of the large increase of traffic over these streets and roads, which is proportionate to the increase of population in the upper part of the city. Many of the streets and roads have steep grades, where every rain-storm washes away embankments and cuts deep gulleys in the dirt roadways, which require large expenditure for repairs. Justice to the residents and taxpayers who have to use these streets and roads requires that the full amount of this estimate be appropriated to keep them in proper condition.

SALARIES—DEPARTMENT OF PUBLIC WORKS.

Final Estimate for 1894.....	\$95,000 00
Departmental Estimate for 1895.....	95,000 00

This appropriation is for the salaries of the Commissioner, Deputy Commissioner, Chief Clerk, heads of bureaus, and the regular Clerks and Messengers whose services are not directly chargeable to some specific work or appropriation. It has remained unchanged for ten years past at the figure of \$95,000, notwithstanding the constant and rapid increase in the administrative and executive work of the Department.

The following are the salaries provided for in the estimate:

Commissioner.....	\$8,000 00
Deputy Commissioner.....	6,000 00
Chief Clerk.....	4,800 00

SALARIES OF ENGINEERS, CLERKS, INSPECTORS AND MEASURERS.

Final Estimate for 1894.....	\$64,000 00
Departmental Estimate for 1895.....	74,000 00

From this appropriation are paid the salaries of the Assistant Engineer in charge of the entire system for distributing the City's water supply, the Clerks in charge of the pay-rolls and accounts, the Inspectors on contract and other work, the Clerks and Inspectors in charge of the water-meter system, the Inspectors who make house visitations to detect and suppress leakage and waste of water, and the Measurers by whose measurements and reports the correct charges for water supply in buildings are established. Year after year the Department, in its annual estimates, has endeavored to impress upon your Board the necessity of increasing the number of Inspectors who take the indices of water-meters, which form the basis for meter bills, in consequence of the fact that annually about 2,000 additional water-meters are placed. The slight increases which have been granted in past years have been utterly inadequate. There are now 32,000 water-meters in use, and the result of the inadequacy of force is that meters cannot be promptly read at stated periods of six months, and bills cannot be promptly rendered, causing dissatisfaction to water consumers, delays in the collection of revenue from the water service, disputes of charges and not infrequently loss of revenue to a greater amount by far than the moderate increase of \$10,000 asked for in this estimate. If granted, it will enable the Department to employ ten additional Inspectors to take indices of meters, and to increase the salaries of the four Measurers from \$1,000 to \$1,200 per annum each, which will better correspond to their responsible duties.

The following are the salaries provided for in the estimate:

First Assistant Engineer.....	\$5,000 00
1 Clerk.....	2,000 00
7 Clerks, \$1,500 each.....	10,500 00
6 Clerks, \$1,200 each.....	7,200 00
1 General Inspector of Meters, \$5 per day.....	1,600 00
5 Inspectors of Meters, \$4 per day each.....	6,400 00
1 Inspector of Meters, \$3.50 per day.....	1,120 00
32 Inspectors of Meters, \$3 per day.....	30,560 00
5 Inspectors of Waste, \$3 per day.....	4,800 00
4 Measurers, \$1,200 each.....	4,800 00
Total.....	\$74,000 00

SEWERS—REPAIRING AND CLEANING.

Final Estimate for 1894—

Salary account.....	10,000 00
Total.....	\$110,000 00

Departmental Estimate for 1895—

General account.....	\$130,000 00
Salary account.....	10,000 00
Total.....	\$140,000 00

The Engineer in charge of sewers calls attention to the fact that this appropriation was \$175,000 in 1889, and was dropped to \$100,000 for this year and for last year, which necessitated the discharge of three gangs of basin cleaners and one gang engaged in examining sewers for cleaning. With this reduced force it has been impossible for the past two years to keep the sewer basins in clean and sanitary condition. There are now 5,457 sewer basins, which gives an average of 606 basins to each of the nine gangs, and each basin has to be cleaned an average of three or four times each year, and many of them after every rain storm. The three gangs of cleaners which had to be discharged, as well as the examination gang, should be restored, which will involve an expense of \$17,000 per annum. In consequence of the continuous extension of the sewerage system, which now includes 485 miles of sewers, and for better sanitary protection and more efficient house drainage, it is also necessary to increase the work of cleaning sewers by contract to the amount of \$13,000. These two items account of the increase of \$30,000 asked for in this estimate.

The estimate for salary account remains unchanged and calls for the following salaries:

1 Permit Clerk.....	\$1,800 00
1 General Inspector of Sewers.....	2,000 00
5 Inspectors of Sewer Connections, at \$4 per day each.....	6,200 00
Total.....	\$10,000 00

SEWERAGE SYSTEM—SALARIES.

Final Estimate for 1894.....	\$8,400 00
Departmental Estimate for 1895.....	8,400 00

This estimate is for the same amount which has been appropriated for a number of years past, and is for the salaries of the officials engaged on the surveys and plans for the extension, improvement and management of the sewerage system. The following are the salaries provided for:

Engineer in Charge of Sewers, half time.....	\$2,400 00
1 Clerk.....	1,500 00
1 Leveler.....	1,200 00
2 Draughtsmen, \$1,200 each.....	2,400 00
1 Messenger.....	900 00
Total.....	\$8,400 00

STREET IMPROVEMENTS—FOR SURVEYING, MONUMENTING, ETC.

Final Estimate for 1894.....	\$3,000 00
Departmental Estimate for 1895.....	3,000 00

This appropriation is required for the maintenance of monuments which give street lines and grades, for replacing obliterated monuments, and for expense incurred in allotting and rearranging house numbers on streets and avenues.

In the course of the present year Cleaners had to be employed in the various offices, court-rooms, corridors, etc., in the New Criminal Court Building, as the offices and rooms became occupied, and additional force will have to be employed for the ensuing year as the offices and rooms still remaining vacant become occupied. The increase of \$8,000 in this estimate over the present appropriation is required for the wages of the present and future additional force of Cleaners in that building, and for fuel to operate the steam-heating and ventilating plant. The entire amount of the estimate is necessary to enable the Department, even with the exercise of the greatest economy, to supply all the courts, municipal offices, etc., with fuel, furniture, carpets, window awnings, ice, law books, directories, telephone service and general office supplies.

The estimate for salary account remains unchanged, and provides for the following salaries:

1 Janitor, Criminal Court Building.....	\$1,800 00
1 Clerk.....	2,000 00
2 Janitors, \$1,200 each.....	2,400 00
1 Janitor, Harlem Court-house.....	1,200 00

2 Watchmen, \$800 each.....	1,600 00
8 Elevator Attendants, \$647.50 each.....	5,180 00
1 Matron, County Court-house.....	600 00
1 Attendant, Governor's Room.....	420 00
Total.....	\$31,000 00

SUPPLYING WATER TO SHIPPING AND FOR BUILDING PURPOSES—SALARIES.

Final Estimate for 1894.....	\$10,000 00
Departmental Estimate for 1895.....	10,740 00

Of the six Inspectors who now supervise the water supply to shipping along the entire waterfront, two are paid \$3.50 per day each, and four are paid only \$3 per day. Their duties are onerous and responsible, and on the manner in which these duties are discharged depends to a large extent the amount of revenue to the City and the prevention of surreptitious taking of water for vessels. It is, therefore, desirable and proper that the salaries of all the Inspectors be made at the rate of \$3.50 per day. They are also under considerable daily expense for car-fares in passing over their districts.

The salaries provided for in the estimate are:

2 Clerks, \$1,500 each.....	\$3,000 00
6 Inspectors, \$3.50 per day each.....	6,840 00
1 Messenger.....	900 00
Total.....	\$10,740 00

SURVEYS, MAPS, ETC., FOR STREET OPENINGS AND NEW STREETS—SALARIES.

Final Estimate for 1894.....	\$7,600 00
Departmental Estimate for 1895.....	7,600 00

This appropriation has remained unchanged at the above figure for several years, and is required for the salaries of the Assistant Engineer and the Draughtsmen employed in making the surveys and maps for laying out new streets, parks and places, and for legal proceedings to open the same.

The following are the salaries provided for:

Assistant Engineer in charge.....	\$4,000 00
3 Draughtsmen, \$1,200 each.....	3,600 00
Total.....	\$7,600 00

WATER SUPPLY FOR THE TWENTY-FOURTH WARD.

Final Estimate for 1894—	
General account.....	\$7,500 00
Salary account.....	1,200 00
Total.....	\$8,700 00

Departmental Estimate for 1895—	
General account	\$7,800 00
Salary account	1,200 00
Total	\$9,000 00

This appropriation is for payment to the City of Yonkers for water supplied on high grounds in the Twenty-fourth Ward which are above the level of the Croton water supply, according to an existing contract. The increase of \$300 in the estimate for general account is necessary to meet the demand for increased water supply in that section of the city.

The estimate of \$1,200 for salary account is for the salary of one Inspector, who looks after this water service and takes the indices of the meters.

WELLS AND PUMPS—REPAIRING AND CLEANING.

Final Estimate for 1894	\$
Departmental Estimate for 1895	250 00

This item was disallowed in the Final Estimate for 1894, but there are still a number of old wells and pumps in use in the suburbs which must be cared for by the City, in order to give wholesome water to those who have to use them.

ONE HUNDRED AND FIFTY-FIFTH STREET VIADUCT—MAINTENANCE AND REPAIRS.

(New Appropriation.)

Departmental Estimate for 1895	\$7,500 00
--------------------------------------	------------

The Chief Engineer estimates that this amount is required for the services of one Watchman and four Laborers to have care of the structure and keep the roadway, sidewalks, landings and stairways clean and free from dirt, snow and ice, to clean and paint the structure over the elevated railroad station at the head of Eighth avenue, and to make sundry repairs to gutters, leaders, etc.

BRIDGE OVER HARLEM SHIP CANAL, MAINTENANCE OF.

(New Appropriation.)

Departmental Estimate for 1895	\$9,600 00
--------------------------------------	------------

The Counsel to the Corporation has rendered an opinion that this Department must assume the care and maintenance of this bridge, and the operation of the draw. This will require the employment of three Steam Engineers, at \$90 per month each; three Firemen, at \$70 per month each, and four Bridgetenders, at \$50 per month each, with an expenditure of about \$1,000 annually for coal, oil, repairs, etc., amounting, together, to the above estimate.

SALARIES OF CONSULTING ENGINEER AND ASSISTANTS.

(New Appropriation.)

Departmental Estimate for 1895	\$11,000 00
--------------------------------------	-------------

The salaries of the Consulting Engineer and Assistants, whose duties appertain principally to pavements and pavement work, and to constructions by railroads and other corporations, in the public streets, have heretofore been paid from the legislative appropriations for repavements. As these appropriations are exhausted, and it is necessary for the good of the public service to retain the services of the Consulting Engineer and some of his Assistants, the above appropriation is asked for.

It provides for the following salaries:

Consulting Engineer	\$5,000 00
1 Draughtsman	1,500 00
1 Leveler	1,200 00
1 Rodman	1,000 00
3 Axemen	2,300 00
Total	\$11,000 00

SUPPLIES FOR UNITED STATES STEAMSHIP "NEW HAMPSHIRE"—FIRST NAVAL BATTALION.

(New Appropriation.)

Departmental Estimate for 1895	\$1,000 00
--------------------------------------	------------

The Counsel to the Corporation has rendered an opinion that the Department must furnish the required supplies for this Naval Command. The Commander has submitted an itemized estimate of the supplies required for the ensuing year, the aggregate cost of which is \$1,587. It is considered, however, that an appropriation of \$1,000 will be sufficient, if proper economy is exercised in the use of the supplies.

FOR OUTSIDE VAULT AT HIGH BRIDGE ENGINE-HOUSE.

(New Appropriation.)

Departmental Estimate for 1895	\$12,000 00
--------------------------------------	-------------

The Chief Engineer of the Croton Aqueduct presents urgent reasons for the construction of a vault on the outside of the High Bridge engine-house to contain and protect the several large water-mains which are connected with that high-service pumping station and to give easy access to these mains for the purpose of regulating the flow and supply of water. The cost of this vault is estimated at \$12,000.

A statement showing the Final Estimates and transfers for 1894 and the Departmental Estimates for 1895 accompanies this document.

LABOR, MAINTENANCE, SUPPLIES, CONSTRUCTION AND REPAIRS.

For General Maintenance	\$385,000 00
-------------------------------	--------------

The maintenance of the Central and City Parks, about seventy in number, being all park reservations below the Harlem river, excepting Riverside and Morningside, is the most important item of the Department work, and one of the fields of its greatest expenditure. The wear and tear on these parks from their use night and day is very great, a constant deterioration of the park structures—walks, fences, lawns, shrubbery, buildings, etc.—taking place. The replacing and repairing of this friction and waste is the work of maintaining the parks for the enjoyment of the hundreds of thousands who use them daily.

A large part of the maintenance work is of a routine character, and consists of the almost daily cleaning, rolling, scraping and repairing of the drives; harrowing and repairing the bridle paths; repairing and rebuilding of basins and drains; cleaning of walks and lawns; cleaning and caring for cottages and watching Department property; repairs of stone work, buildings, bridges and other structures throughout the parks; shoeing and caring for horses and harness; propagation and caring for bedding plants, etc. Another class of maintenance work, incidental to particular seasons of the year, is the watering of lawns, trees and shrubs during the dry, hot weather such as we have had this summer; renewing of plantations of trees and shrubs, cutting out dead, diseased or deformed trees and shrubs; pruning of the Park plantations; the removal of snow and ice from the walks and caring for the skate ponds during the winter; the extra work caused by the increased use of the lawns during the spring and summer for children's picnic parties, games, etc., and the cleaning up after the great crowds who attend the concerts, which during the summer occur daily at some point on the parks.

The above described maintenance work can be performed in a satisfactory manner with an appropriation of \$350,000.

\$350,000 00

Special appropriations required for the performance of work advisable to be undertaken during the coming year:

I. Settees.....	\$5,000 00
-----------------	------------

During the present year the seating capacity of the parks has been increased by the addition of fifteen hundred settees. Still, in order to keep pace with the increased use of the parks, it would be advisable to add at least another fifteen hundred settees to the number already in use, and in order to do so it would require an appropriation as above. In this connection it should be remembered that these settees are for use in all the parks of the City.

II. Repair of bridge over arm of Lower Lake in Central Park.....	\$5,000 00
--	------------

Some years ago a temporary wooden bridge was constructed over the ornamental bridge crossing the arm of the lower lake, near Fifty-ninth street and Fifth avenue, Central Park, owing to its unsafe condition. This bridge is an unsightly structure but cannot be removed until the original bridge is rebuilt. This is a matter which should receive the immediate attention of the Department, as in its present condition this portion of the Park is positively disfigured.

III. Introduction of water service in Central Park for watering of lawns during dry and hot weather.....	\$25,000 00
--	-------------

It is earnestly desired to call attention to the importance and imperative necessity of additional facilities in Central Park for the watering of the lawns, trees and shrubbery. The suffering and even fatal injury to these important park features, from the need of water during several droughts, has been very great during the past two or three years. The facilities at present at the command of the Department are entirely inadequate, as the experience of the past years has proven.

In order to do this work properly it will require the introduction of the following-described plant:

32,000 feet of two-inch steel water-pipe, with proper connections, etc., and the necessary labor to lay the same.

10,000 feet of one-inch rubber hose.

The greater part of this proposed plant will have to be laid through an excessively rocky territory, as it is in such regions that the lawns, trees and shrubs suffer the most during the hot, dry weather.

The estimated cost of the introduction of such a plant is, approximately, as follows:

Cost of excavating trench, 32,000 feet long, three feet and a half deep, removing rock, laying pipe, refilling trench and restoring surface of ground, at 68 cents per foot.....	\$21,760 00
Cost of 32,000 linear feet of pipe, at 10 cents per foot.....	3,200 00
Cost of 10,000 feet of one-inch rubber hose, in 50-foot lengths, with couplings (hose, 11 cents per foot; couplings, 200 required, 17 cents per pair).....	1,134 00

RECAPITULATION.

Labor, Maintenance and Supplies.....	\$350,000 00
Settees.....	5,000 00
Repair of bridges at Lower Lake, Central Park.....	5,000 00
Introduction of water service in Central Park.....	25,000 00

Total for General Maintenance.....

\$385,000 00

For Zoological Department.....	\$40,000 00
--------------------------------	-------------

The amount asked for General Maintenance is \$30,000, the same as that allowed for the current year; the \$10,000 additional is intended to provide for enlarging the out-door hippopotamus inclosure and other special work. These animals are one of the most interesting features of the exhibition, and the winter quarters, as at present arranged, are entirely inadequate, both for the comfort of the animals and for exhibition purposes; the tanks and platforms are much too small, and the water supply and drainage is very scant. During the winter months it is impossible to accommodate the crowds who throng to see them, owing to the narrow passage in the lion house, and it is impossible to improve this condition of affairs without encroaching upon the already small quarters for carnivorous animals. It is proposed to construct a shelter over the summer quarters (outside of the building) with portable glass sides, that may be removed during the summer months, and to provide the necessary steam-heating apparatus and connections, thereby making permanent quarters. It is proposed to remove the old cages and tanks at present in the building, and to erect wrought-iron cages for carnivorous animals. A careful estimate shows that the sum of \$10,000 will be required for this work. The appropriation for the current year, \$30,000, has been economically expended, and the buildings, etc., now present a much more creditable appearance than they have before for many years. The additional amount asked for will enable the Department to provide accommodations for valuable animals that are now kept in crowded and uncomfortable quarters.

For Maintenance of Museums—	
Metropolitan Museum of Art.....	\$95,000 00
American Museum of Natural History.....	75,000 00

\$170,000 00

For the Metropolitan Museum of Art the same amount is asked for as that allowed for the current year. The new wing shortly to be opened to the public will increase the cost of maintenance of the museum in 1895, and therefore the full amount of \$95,000, authorized by law, will be needed. The estimate of the Trustees for running expenses is \$139,412.50, the sum in excess of that appropriated by the City being provided by the Trustees.

For the American Museum of Natural History the sum of \$75,000 is asked for as against \$65,000 appropriated for the current year, being the full amount authorized by law. The new wing is rapidly approaching completion and the fittings for the interior are now in process of construction, and the Trustees are contemplating the purchase of other valuable and extensive collections. The budget submitted by the Trustees for 1895 shows that the sum of \$99,197 will be required for the proper maintenance of this museum. The subject has been fully considered by the Park Board, and it is recommended that the full amount asked for be allowed.

For the Improvement and Maintenance of Riverside Park and Avenue, including West Seventy-second and One Hundred and Twenty-second streets.....	\$50,000 00
--	-------------

The maintenance of this park is similar to that of Central Park. During the coming year it will be necessary to thoroughly repair, with gravel, the drive and bridle-path.

It is approximately estimated that the force required, consisting of Foremen, Laborers, carts, teams and Cottage Attendants for the year, would cost.....

\$27,000 00

The supplies necessary are approximately—

For gravel.....	\$16,000 00
For sod.....	1,000 00
For trees and shrubs.....	6,000 00

23,000 00

Total.....

\$50,000 00

For the Improvement and Maintenance of Morningside Park and Avenue.....	\$25,000 00
---	-------------

The maintenance of this park is similar to that of Central and Riverside Parks. During the present year much of the upper portion of the park (which has heretofore required but little attention), has been constructed; this will materially increase the maintenance work. An important feature of work required is the watering of the lawns; to do this properly will necessitate the introduction of a system of pipe, with connections, etc., in order to carry water to the various points on the park. The lack of toilet accommodations at this park is a constant source of complaint, and facilities of this character should be placed there at once, as the number of visitors is materially increasing and the region around the park is being rapidly built up.

The following is an approximate estimate of the cost of labor and materials necessary to maintain this park for the year:

Labor (Foremen, Laborers, carts and teams).....	\$10,000 00
---	-------------

Supplies—

For sod.....	\$1,000 00
For manure.....	3,000 00
For trees and shrubs.....	1,500 00
For gravel.....	1,000 00
For introduction of water-pipe, etc.....	3,500 00

10,000 00

Cottage, with toilet accommodations.....

5,000 00

Total.....

\$25,000 00

For Maintenance and Construction of New Parks north of Harlem river, including Surveying and Monumenting.....	\$110,000 00
---	--------------

The amount appropriated for the current year is \$100,000, apportioned as follows:

For Parks in the Twenty-third and Twenty-fourth Wards.....	\$85,000 00
For Parks outside Twenty-third and Twenty-fourth Wards.....	15,000 00

\$100,000 00

An additional sum of \$10,000 is asked for, which is intended to be used principally upon the roads in Pelham Bay and Bronx Parks. The roads running through these parks require extensive repair, as they are much used both for business traffic and pleasure driving, and, being main lines of travel, should be kept in thorough repair. Their condition is more noticeable by reason of the excellent state of the roads outside of the parks connecting with them.

The work to be done consists in building new roads, bridge and foot paths; repairing, cleaning, sprinkling and rolling about 30 miles of existing roads; trimming trees and cutting dead wood; clearing brush and general opening up of inaccessible woodland; building, repairing and cleaning drains, culverts and gutters; care and maintenance of bridges and dams; surveying, etc., and such additional improvements as may be determined under chapter 184, Laws of 1893, for parks in the Twenty-third and Twenty-fourth Wards.

The following is the approximate estimate of the working force for general maintenance and for the work, material, and supplies required for all the new parks:

Assistant Engineer in Charge	\$2,500 00	
1 Rodman	1,500 00	
1 Draughtsman and Computer for general office and field work	1,200 00	
1 Chainman	1,200 00	
1 Axeman	960 00	
		\$7,360 00
1 General Foreman	\$1,500 00	
4 Foremen, at \$100 per month	4,800 00	
8 Double Teams, at \$4.50 per day	10,800 00	
80 Laborers, at \$1.76 per day	42,280 00	
2 Carpenters, at \$3 per day	1,800 00	
2 Painters, at \$3 per day	1,800 00	
6 Skilled Laborers, at \$2.50 per day	4,500 00	
2 Bridge Tenders for City Island and Pelham draw-bridges	600 00	
1 Janitress (Lonillard House), at \$30 per month	360 00	
		68,440 00
Insurance on buildings	1,200 00	
Repairs to bridges and dams	8,000 00	
Repairs to buildings	5,000 00	
Supplies, including broken stone, lumber, paint for general use	20,000 00	
		\$110,000 00

Apportioned as follows:

Improvement and Maintenance of Parks in Twenty-third and Twenty-fourth Wards (chapter 184, Laws of 1893)	\$85,000 00
Improvement and Maintenance of Parks outside Twenty-third and Twenty-fourth Wards	25,000 00
	\$110,000 00
For Music—Central and City Parks	\$30,000 00

The amount allowed for the current year is \$27,500, which has been expended as follows:

Central Park, 34 concerts	\$7,563 00
Paradise Park, 10 concerts	1,000 00
Tompkins Square, 13 concerts	1,820 00
East River Park, 13 concerts	1,950 00
Washington Square, 8 concerts	1,120 00
Battery, 16 concerts	2,720 00
Mount Morris Park, 17 concerts	2,890 00
Rutgers Park, 12 concerts	1,680 00
Abingdon Square, 12 concerts	1,755 00
St. Mary's Park, 13 concerts	1,560 00
Van Cortlandt Park, 9 concerts	1,215 00
Bronx Park, 7 concerts	945 00
Claremont Park, 3 concerts	405 00
Crotona Park, 2 concerts	270 00
Calcium lights, 101 concerts, at \$6	606 00

Concerts have been given for the first time at Rutgers Park, and the number at Abingdon Square and the new parks has been increased. The attendance at all has been large, and the music furnished has been appreciated. There is a public demand for additional concerts at other parks, and for an increase in the number at others for which purpose an addition of \$2,500 to the amount allowed for 1894 is asked for.

For Repairs, Improvement and Maintenance of Harlem River Bridges	\$45,000 00
--	-------------

The constant use of these bridges for traffic, and the necessity for opening the draws at all hours of the day and night, requires that men be kept constantly at work. The wear and tear resulting to the footways, approaches, draws, bulkheads, etc., from such constant use necessitates considerable repairs, as well as an important item to cover the cost of supplies, such as coal, parts of machinery, etc. In addition to the routine repairs a special feature of repairs will be replacing the boiler of the Madison Avenue Bridge, involving a cost of \$2,000.

The Harlem River Bridge Commission has advised that the work of construction of the small parks adjacent to Washington Bridge will be completed between January 1st next, and said parks turned over to this Department for maintenance pursuant to law; also that an appropriation will be required for the complete painting of the iron work of the structure; some repairs to the asphalt, especially in and about the gutters and expansion joints; lighting and relaying some portions of the flag walk; and in some cases, in the bridge structure proper, the joints between the flags to be trimmed to prevent the crushing of the stone; there is also some pointing to be done. An item is included in the estimate to provide for these various works.

The new Central Bridge, it is expected, will be completed and open to the public before January 1, which will require a force of Engineers and Firemen not required for the temporary structure.

The following is a statement in detail of the amount required:

FOR WAGES.		
Madison Avenue Bridge—		
3 Steam Engineers, at \$90 per month	\$3,240 00	
3 Firemen, at \$70 per month	2,520 00

		\$10,800 00

New Boiler for Madison Avenue Bridge	2,000 00	
Special repairs to Washington Bridge	5,000 00	
		\$45,000 00
For telephonic service	\$5,200 00	

This amount is required for the renewal of existing contract.

For rents	\$6,500 00
-----------------	------------

This is to provide for the rental of the Department office, under lease made by the Sinking Fund Commission, not yet expired.

For surveys, maps and plans	\$1,500 00
-----------------------------------	------------

This amount is the same as that allowed for the current year. It is required for making surveys and maps for the laying-out of parks and places for the use of the Board of Street Opening and Improvement and Commissioners of Estimate and Assessment.

For the keeping, preservation and exhibition of the collection in the Aquarium at Castle Garden	\$40,000 00
---	-------------

Owing to unexpected delays in the completion of contract work the Aquarium has not been opened to the public during the present year as was intended. The work on the building and tanks is now so far advanced and arrangements for stocking well under way that it is confidently expected that the formal opening will take place early in 1895.

The following estimate shows in detail the amount asked for:

For Salaries and Wages—		
1 Superintendent	\$3,000 00	
1 Skilled Laborer, as Aquarist	\$1,200 00	
2 Skilled Laborers, with use of boats, etc., \$100 per month each ..	2,400 00

3 Filtermen, at \$2 per day each	2,190 00	
4 Cleaners and Sweepers, at \$40 per month each	1,920 00	
1 Female Attendant for toilet-room, at \$35 per month	420 00	
Proportion of salary of Master Machinist	600 00	
		\$27,950 00
For Supplies—		
Coal	\$3,285 00	
Oil, waste and general supplies	965 00	
Lighting	750 00	
Food for stock	5,000 00	
		10,000 00
For Contingencies		2,050 00
		\$40,000 00
Total		\$110,000 00

In view of the difficulty of determining in advance the exact cost of maintenance and to cover unforeseen items or emergencies, the amount for contingencies is asked for.

For the planting, care and preservation of trees on West End avenue	\$25,000 00
---	-------------

This item is submitted by the Board of Parks, without its approval, in conformity with the provisions of chapter 46 of the Laws of 1894. It is work of a special character, for a particular avenue, with which this Department should not have been burdened and against which it protested when the bill was before the Legislature. An examination by the Superintendent of Parks shows that the unhealthy and dead condition of the present trees and the importance of securing a uniformity of appearance in any reorganization of the planting of this avenue, render it necessary to remove the present plantation and replace it with an entirely new one.

In order to do this work it will be necessary to have an appropriation of \$25,000 to be expended approximately as follows:

Cost of excavating, removing earth and rock of 430 tree holes and filling same with mould, including cost of mould, at \$28 each	\$12,040 00
Cost of 430 trees, at \$5 each	2,150 00
Cost of planting 430 trees, at \$1 each	430 00
Cost of maintenance for one year, 6 Gardeners, at \$2 each	4,380 00
Cost of 430 tree guards, at \$4 each	1,720 00
Cost of sod for borders, etc.	2,500 00
Cost of relaying crosswalks	900 00
Cost of superintendence, Engineers, etc.	880 00
	\$25,000 00

I transmit comparative statement, in tabular form, showing the appropriations made to this Department for the year 1894, and the amounts asked for in the Departmental Estimate for 1895.

It is impracticable to state at this time what balances, if any, may remain unexpended of the appropriations for the present year.

Very respectfully,

GEORGE C. CLAUSEN, President, D. P. P.

ESTIMATE IN DETAIL.

SALARIES—OFFICE OF COMMISSIONER.

Final Estimate for 1894.	\$20,500 00
Departmental Estimate for 1895.	26,300 00
Provision is made in this estimate for the following:	
Commissioner.	\$5,000 00
Deputy Commissioner.	3,500 00
Secretary.	3,000 00
General Bookkeeper.	2,500 00
Clerk (Contract).	2,100 00
Clerk (Permit).	1,500 00
Clerk.	1,500 00
Clerk.	1,500 00
Clerk.	1,500 00
Timekeeper.	1,500 00
Property Clerk.	1,500 00
Stenographer and Typewriter.	1,200 00
Total.	\$26,300 00

In addition to the clerical force of the present year, the services of a Property Clerk, a Permit Clerk and a Clerk to assist the General Bookkeeper and Acting Contract Clerk are absolutely necessary.

The custody and preservation of the official records demand the services of a Property Clerk. Substantial reasons also demand the appointment of a Permit Clerk.

The business of the Department has increased to such an extent that one extra Clerk, at least, is required to assist in the office routine.

The clerical work, with the exception of the preparation of the pay-rolls, is done now almost entirely by the General Bookkeeper and Acting Contract Clerk. One other Clerk and a Timekeeper have their whole time occupied with the pay-rolls, leaving all the rest of the clerical work, as well as checking of the pay-rolls, to be performed mainly by the General Bookkeeper and Acting Contract Clerk, both of whom have to work after business hours frequently.

When the business of the Department was a little more than half what it is now, the clerical force employed was just the same as it is at present.

In 1891 the total amount expended in the operations of the Department, including the annual appropriation, was. \$913,397 73
In 1893 the amount expended from all sources was. 1,472,752 85
Increase of 1893 over 1891. 559,355 12

The latter amount represented increased clerical work as a matter of course; and yet the clerical force has not been increased.

The large increase in the operations of the Department demands the addition mentioned to the present small and overworked force.

The increase of salary of one of the present Clerks from \$1,800 to \$2,100 is amply warranted by the circumstances.

TELEPHONIC SERVICES AND CONTINGENCIES.

Final Estimate for 1894.	\$860 00
Departmental Estimate for 1895.	1,200 00

MAINTENANCE.

For the Maintenance and Government of Streets, Roads and Avenues of the Twenty-third and Twenty-fourth Wards, including salaries, sprinkling and wages of all persons employed:

Final Estimate for 1894.	\$230,000 00
Departmental Estimate for 1895.	463,025 00

This estimate provides for amount necessary to keep in proper and safe condition for travel 120 miles of unpaved streets, 30 miles of paved streets and 60 miles of macadam roads.

Unpaved streets demand constant attention. It will be necessary to purchase one steam road-roller, one stone-crusher and locomotive, drilling apparatuses, 15 sprinkling trucks, 4 horses, several wagons and a much larger quantity of broken stone for macadamizing.

SALARIES—SUPERINTENDENT'S OFFICE.

Superintendent.	\$2,750 00
Clerk.	1,500 00
Timekeeper.	1,500 00
Inspectors of Sewer Connections (2) at \$1,200.	2,400 00
	\$8,150 00

MACHINERY, SUPPLIES, ETC.

Steam road-roller (15 tons).	\$5,000 00
Stone crusher on wheels and Baxter engine and boiler.	3,000 00
Quarry machinery.	5,000 00
Sprinkling trucks (15).	5,500 00
Horses and outfit for two General Foremen.	700 00
Team of horses, general trucking.	500 00
Stone truck.	175 00
General supplies, repairs, tools, lumber, feed, etc.	10,000 00
Broken stone and screenings.	50,000 00
Foremen, Mechanics, Laborers, teams, etc.	375,000 00
	454,875 00

Total. \$463,025 00

BRONX RIVER BRIDGES.

Final Estimate for 1894.	\$2,000 00
Departmental Estimate for 1895.	2,000 00

CROMWELL'S CREEK BRIDGES.

Final Estimate for 1894.	\$2,000 00
Departmental Estimate for 1895.	1,500 00

SEWERS AND DRAINS.

For the rebuilding, cleaning and repairing of sewers and drains and for the construction of temporary drains, as requested by the Health Department:

Final Estimate for 1894.	\$25,000 00
Departmental Estimate for 1895.	35,000 00

The increase in the estimate for sewers is required for the cleaning of trunk sewers, building of new basins to replace old ones which have become useless through necessary changes of grades or street lines. This increase as a sanitary measure is most essential.

BRIDGES CROSSING THE NEW YORK AND HARLEM RAILROAD DEPRESSION IN THE TWENTY-THIRD AND TWENTY-FOURTH WARDS.

Repairing, replanking and repainting.	
Final Estimate for 1894.	\$3,000 00
Departmental Estimate for 1895.	5,000 00

The great increase of travel over these bridges necessitates increased expenditures in maintaining them in safe condition. New planking is necessary on all the roadways of these bridges.

FENCES.

There is urgent necessity for an appropriation for fences to afford protection in many places in the Twenty-third and Twenty-fourth Wards on account of the depression of railroad tracks and change of grade resulting therefrom and otherwise. Where retaining-walls have been built the necessity of guard-rails is, in many cases, most noticeable.

Almost every day I receive notice from one of the Police Captains of dangerous places near retaining-walls reported by men of his command.
Within the past year one human life has been lost, and in another case two horses were fatally injured. To avoid suits against the City, as well as to afford adequate protection to the public, I respectfully urge that an appropriation be made—
For 120,000 linear feet of fencing, at 30 cents per foot. \$36,000 00

TOPOGRAPHICAL BUREAU.

Surveying, Laying-out, Maps, Plans, etc., Twenty-third and Twenty-fourth Wards.

For surveying, laying-out and monumenting the Twenty-third and Twenty-fourth Wards, including salaries and wages of all persons employed on the work, and for making surveys and maps for the opening of streets and avenues for the use of the Commissioners of Estimate and Assessment; for making preliminary surveys of plans of projected sewers, drains and other improvements; for making maps; for acquiring right of way for building drains and for advertising notices.

Final Estimate for 1894.	\$56,500 00
Departmental Estimate for 1895.	65,170 00

Surveying.

Surveying has to be done for the establishing of the location of avenues and streets, and for determining monument points to locate such avenues and streets on the ground. Levels have to be run and cross sections taken for all proposed avenues and streets, for the purpose of establishing bench-marks and permanent grades.

Laying-out.

The general plan for the street system in the Twenty-third and Twenty-fourth Wards has been made, and the detail work, which consists of computations for location, course, windings and grades of avenues and streets, has to be carried on. There are 28 sections in both wards, of which sections 1, 2, 3, 4, 5, 6, 8 and 11 have been concurred in by the Board of Street Opening and Improvement, and are filed. The detail work for 20 sections has to be done yet.

Plans for sewerage and drainage districts are to be devised and prepared.
Designs for miscellaneous projects, such as bridges, tunnels, etc., come under this head.
Special cases, namely changes of lines and grades ordered by the Board of Street Opening and Improvement, have to be attended to.

Monumenting.

The object of this work is to define on the ground, by means of stones and bolts, the lines of streets and their intersections as laid down on the maps. The streets are to be monumented on five and ten feet off the said lines respectively, generally on the northeast corner of the streets.

Very little work has been done in the way of monumenting avenues and streets as shown on the final maps, and an area covering more than 6,000 acres has to be monumented yet.

This work cannot be finished during 1895, and an appropriation should be made to carry on this work.

Surveys and Maps for Acquiring Title to Avenues and Streets.

The work under this head consists of: (1st) making rule maps in triplicate and technical descriptions of land to be taken by the city for streets, etc., and to acquire the right of way for drains; (2d) making surveys to locate and obtain the dimensions of the lands, buildings, fences, etc., within the lines of the streets to be opened, and to ascertain the materials of which the buildings are constructed; (3d) making draft damage maps, showing the lands, tenements, etc., to be taken; (4th) making draft benefit maps, showing the plot or parcels of lands to be assessed; (5th) making two sets of final copies of both the damage and benefit maps; (6th) occasionally profiles and other miscellaneous maps are necessary; (7th) preparation of maps and catalogues for the sale of buildings and encroachments taken by the city, after the confirmation of proceedings.

Ninety-five (95) are pending and probably from eighty (80) to ninety (90) more will be initiated before the end of this year.

This work is of great importance and the greatest accuracy is required to determine what pieces or parcels of land are required for the legal opening of streets. The cost of this work, as done in this Department, is fifty per cent. lower than the legal rates for such work allowed the City surveyors.

Preliminary Surveys and Plans for Projected Sewers, Drains and Other Improvements, and Making Maps for Acquiring Right of Way for Building Drains.

Plans for sewerage districts have to be prepared as rapidly as the street system is definitely determined upon, and all those plans which have been prepared for streets which were not retained on the final maps, have to be remodeled.

Surveys and studies for devising a system of sewerage and drainage for the Bronx River Valley and Tibbit's Brook Valley, which have a drainage of 2,700 and 2,300 acres respectively, within the limits of the city, are to be taken up, and it will be necessary to make examinations of the territory outside of the limits of the city.

Maps and plans for the construction of drains, ordered by the Board of Health, have to be prepared.

Advertising Public Notices.

An appropriation is necessary for printing notices of public hearings in the matter of adopting plans of street systems and of auctions for the sale of incumbrances of legally opened streets.

MAPS AND PROFILES, TWENTY-THIRD AND TWENTY-FOURTH WARDS.

Final Estimate for 1894.	\$18,000 00
Departmental Estimate for 1895.	21,110 00

Chapter 443 of the Laws of 1893 compels this Department to complete the surveys, maps, plans and profiles of all the streets, roads, avenues, public squares and places in the Twenty-third and Twenty-fourth Wards, and to submit the same to the Board of Street Opening and Improvement, for its concurrence and approval on or before July 1, 1895, such plans to be filed previous to January 1, 1896.

The general plans have been adopted and concurred in by the Board of Street Opening and Improvement, and detail plans, showing the location, width, dimensions of blocks and grades, are being prepared and submitted, from time to time, as they are finished. The whole district has been subdivided into 28 sections; each of these sections will require one (1) plan and from two (2) to three (3) profile sheets. In addition, four (4) copies of these plans and profiles have to be made. Eight (8) sections have been concurred in and filed, and twenty (20) sections have to be filed yet.

Estimate to carry on the work under the above heads:

CONSTRUCTION BUREAU.

Preliminary Surveys, Maps, Plans, Estimates, Specifications, etc.

Preliminary surveys, maps, plans, etc., are made by the Bureau of Regulating, Grading, etc., in conformity with approved ordinances of the Board of Aldermen, and by the Bureau of Sewers in anticipation of the letting of contracts.

This class of work has heretofore been charged to the appropriation for "Surveys, Maps and Plans," which is barely sufficient for the work done by the Topographical Bureau.

The large amount of preliminary work, and the increase of contracts, suggest the advisability of a special fund for this class of work, and it is respectfully submitted that an appropriation be made for the Construction Bureau, under the heading:

"For Preliminary Surveys and Estimates and the Preparation of Plans, Specifications, etc."

The principal part of the salaries on the work done by the Construction Bureau is charged to the "Street Improvement Fund," but the amount expended on preliminaries and before the letting of contracts is charged, as above stated, and is returned to the City Treasurer by the Collector of Assessments on property benefited after the completion of the work.

Bureau of Regulating, Grading, Paving, etc.

Field Parties (one on Regulating, Grading, etc., and one on Paving).

For Salaries, as follows:

	Paving.	Regulating and Grading.
1 Assistant Engineer.	at \$1,620 00	\$1,620 00
1 Assistant.	at 1,200 00	1,200 00
1 Rodman.	at 960 00	960 00
1 Chainman.	at 900 00	900 00
1 Axeman.	at 720 00	720 00
1 Draughtsman.	at 1,200 00	1,200 00
		\$13,200 00

Bureau of Sewers and Appurtenances.

Two (2) Field Parties.

For Salaries, as follows:

2 Assistant Engineers, at \$1,620 each.	\$3,240 00
2 Assistants, at \$1,200 each.	2,400 00
2 Rodmen, at \$960 each.	1,920 00
2 Chainmen, at \$900 each.	1,800 00
2 Axemen, at \$720 each.	1,440 00
2 Draughtsmen, at \$1,200 each.	2,400 00
	13,200 00
Requisitions, petty disbursements, etc.	1,200 00
Chief Engineer (one-half salary) Construction.	2,500 00
Total.	\$30,100 00

SOUNDINGS.

The large increase in the amount of new contracts for regulating, grading and for new sewers and appurtenances in immediate prospect, will require an appropriation for gangs of men to make rock soundings in order to get out the contracts more promptly after the preliminary surveys and maps are completed. My experience has shown the necessity of making careful rock soundings, in order to obtain anything like a near approximation to the true quantities of rock excavated, etc.

The amount required is as follows:

Bureau of Regulating, Grading, etc.

1 Foreman, at \$3.50 per day (250 days).	\$875 00
6 men, at \$2 per day (250 days).	3,000 00

Bureau of Sewers.

1 Foreman, at \$3.50 per day (250 days).	875 00
12 men, at \$2 per day (250 days).	6,000 00

Total.	\$10,750 00
----------------	-------------

For the Purchase of Appliance for Sounding Tools and Apparatus, Carts, etc.

Final Estimate for 1894.	\$1,500 00
Departmental Estimate for 1895.	1,000 00

This amount is required to cover new tools, repairs to tools in use, etc.

PAVING-BLOCK TESTING-MACHINE.

The question of the quantity of stone submitted as samples for paving-blocks, is a matter upon which the Department should be prepared to give a positive opinion based upon some actual physical tests, and to enable any tests to be made I would recommend a "Riehle Testing Machine," capacity 40,000 pounds (Keystone), large enough to test 2-feet cubes.

Cost of machine.	\$650 00
Preparing test pieces, etc.	350 00

Total.	\$1,000 00
----------------	------------

STANDARD BENCH MARKS.

The desirability of establishing standard bench marks on permanent objects throughout the Twenty-third and Twenty-fourth Wards is very important, and I would suggest that an appropriation be made for a party of three (3) with the necessary tools, etc., for this work.

Leveling Party—

1 Leveler.	\$1,200 00
1 Rodman.	1,000 00
1 Axeman.	720 00
Tools, etc.	200 00

Total.	\$3,120 00
----------------	------------

ASPHALTING OVER PAVEMENTS.

There has been considerable complaint made of the noise of traffic on the paved streets in the vicinity of schools and churches, and I would suggest the asphaltting over pavement in front of schools, churches and hospitals.

An estimate to cover the area in front of each school, church and hospital, is about 12,000 square yards.

I would therefore submit that an appropriation be made for asphaltting over pavement as follows:

12,000 square yards, at \$3 per yard.	\$36,000 00
---	-------------

SHADE TREES.

The shade trees which hitherto were a delightful feature of the territory comprising the Twenty-third and Twenty-fourth Wards are fast disappearing, owing to the necessity of their removal by the opening, widening and grading of streets and avenues.

The avenues, especially, are wide and offer unusual facilities for the planting of shade trees. The outlay would be trifling, compared with the advantage gained, not only to the residents but the taxpayers, as shade trees on streets and avenues would so contribute to the attractiveness of the locality as to largely increase the value of taxable property.

I therefore suggest that an appropriation be made at this time, while streets and avenues are undergoing the process of modification.

An estimate of the trees required on streets and avenues regulated, graded, etc., is as follows:

3,000 elms on streets and avenues eighty feet wide and over, at \$3 (including labor).	\$9,000 00
2,500 maples, on streets and avenues less than eighty feet in width, at \$3 (including labor).	7,500 00

Total.	\$16,500 00
----------------	-------------

Recapitulation.

Salaries—Office of Commissioner of Street Improvements, Twenty-third and Twenty-fourth Wards—To pay entirely the salaries of the Commissioner, his Deputy and the clerical force in his office.	\$26,300 00
Telephonic Services and Contingencies.	1,200 00

DEPARTMENT OF PUBLIC CHARITIES AND CORRECTION.

DEPARTMENT OF PUBLIC CHARITIES AND CORRECTION,
COMMISSIONERS' OFFICE, 66 THIRD AVENUE,
NEW YORK, September 12, 1894.

Hon. THOMAS F. GILROY, Mayor and Chairman of the Board of Estimate and Apportionment:

DEAR SIR—In compliance with section 189 of the New York City Consolidation Act of 1882, and the circular letter of the Comptroller of July 30, 1894, we transmit herewith estimates in detail of the amounts necessary for the proper conduct of the business of this Department during the year 1895.

Yours, very respectfully,

H. H. PORTER, President.

DEPARTMENT OF PUBLIC CHARITIES AND CORRECTION,
COMMISSIONERS' OFFICE, 66 THIRD AVENUE,
NEW YORK, September, 1894.

In presenting the estimates for the institutions other than the insane, the Board would call the attention of your Honorable Body to the fact that the census of the institutions for the past year exceeded anything that we could have anticipated, and, with the amount allowed, we were obliged to reduce the usual per capita allowance for supplies, and to absolutely deny many calls which were necessary to the proper administration of these institutions. The census, at this time, is larger than ever before at this season, and we are led to believe that we shall be called upon to care for a very much larger number during the coming winter; and the Board hopes that every dollar that we have asked for will be granted.

We would respectfully call the attention of your Honorable Body to the fact that that portion of the Tombs Prison occupied for so many years by the Police Justices and the Court of Special Sessions, and now being vacated, will render it possible to make the necessary additions to the present capacity of the prison. The present number of cells is 208, and the usual number of prisoners is over 400, and at times considerably in excess of that number. The necessary alterations of that part of the building recently vacated would entail the expenditure of a very considerable sum; and we would ask that those portions of the building be transferred to this Department, and that the matter of the necessary alterations receives your consideration.

In the year 1884, Riker's Island was purchased by the City of New York for the sum of \$180,000, for the purpose of erecting a new Penitentiary, as the number of prisoners confined in this institution exceeds the number of cells by at least one-third, and a large number are, at present, occupying open dormitories over the workshops. The cells in the main building are to a large extent occupied by two prisoners, which cannot be too strongly condemned as destructive of health, morals, and proper prison discipline. We would suggest that you authorize the preparation of a bill to be introduced into the Legislature for the issue of bonds for the erection of a new Penitentiary.

The proximity of the Penitentiary to the charitable institutions on the Island has always been a subject of much complaint, and this Board has been severely criticised for not making more strenuous efforts to avail of Riker's Island, which was purchased for the purpose. Warden Pillsbury, whose experience in matters connected with the building and management of prisons is probably as large as that of any man in the country, estimates that a new building, such as is required by this great city, cannot be erected for less than \$500,000.

In presenting the estimates for the Insane Asylums for 1895, the amounts being largely in excess of the amount allowed for 1894, we would call your attention to the accompanying letter from General Superintendent Macdonald, in which he fully sets forth the reasons for the increase; and this Board cannot too strongly indorse it, and hopes that the appropriation may be granted.

In view of the overcrowded condition of the Asylums, this Board would respectfully request your Honorable Body to pass a resolution directing that a bill be prepared to present to the next Legislature authorizing the issue of bonds to the amount of \$500,000, to be expended in the erection of additional buildings for the accommodation of the ever-increasing number of insane, and to enable transfers to be made from present buildings, which are crowded to an extent not tolerated in any other county of the State.

Very respectfully,

H. H. PORTER, President.

THE NEW YORK CITY ASYLUMS FOR THE INSANE,
NEW YORK CITY, September 10, 1894.

Hon. HENRY H. PORTER, President, etc.:

DEAR SIR—In preparation for the annual submission of preliminary estimates to the Board of Estimate and Apportionment for the coming year, I have had the honor to forward to your Board an itemized statement of the requirements of the New York City Asylums, according to my judgment thereof. I now beg to supplement this with some notes explanatory of certain items, the necessity of provision for which may not, at first sight, be convincingly apparent to the gentlemen by whom your estimates will be reviewed.

I have included in my statement all expenditures which it seems to me to be absolutely necessary to provide for within the approaching year, in order to bring the provision for the maintenance and treatment of the insane of the City to an approximately just standard. I leave it to your Board to determine to what extent the necessary funds shall be sought from direct appropriation, and to what further extent from the issuance of bonds under legislative sanction. Such a division as to the sources from which the moneys were procured was, as your Board is aware, made in the year 1892, with the approval of, and under sanction by, the Board of Estimate and Apportionment.

I have, in the statement referred to, divided the items of proposed expenditures under the following heads:

- Supplies.
- Salaries.
- Alterations and Repairs.
- Additions to Present Buildings and Apparatus.
- New Buildings, etc.

SUPPLIES AND SALARIES.

The first two classes may be grouped under the designation "Maintenance," and in that form can need no extended explanation or justification. The course taken in the matter of last year's estimates, and under the recommendation of the Mayor's Advisory Committee of 1892, has been again followed, and a definite weekly sum for each patient—\$3.50 in each instance—asked for.

The larger total of the present estimate, as compared with that asked for—though not granted in full—for the year 1894, is simply due to the increase in the number of patients. The aggregate is larger, but the individual allowance is the same.

ALTERATIONS AND REPAIRS.

It has been customary, each year, to ask for an appropriation, under the head of "Alterations, Additions and Repairs to Buildings and Apparatus." This appropriation, amounting to \$50,000 for the current year, has been for the Department in general, and of it the Asylums have had a share determined by your Board. It is assumed that a similar appropriation will be asked for and obtained for the approaching year, and, being similarly divided, will serve to meet some of the emergent and minor repairs which cannot now be foreseen, and which can be made at small cost for labor, or, by the labor of our own employees and patients, at the cost of the material alone. Apart from the probable repairs there will be required certain others, the necessity for which can be definitely determined now, which has, for the most part, indeed, long existed, and these alone are

included in the list which I submit under the above heading. The aggregate of the estimated cost of the improvements embraced in this list, \$78,400, will appear large. It must be remembered, however, that no serious and adequate attempt has been made in many years to put buildings in anything approaching thorough repair. The most that has been done has been to temporarily patch up and tide over, so that the passing year might be gotten through with at as little outlay as possible. Again, several of the items—all those under the heading, "Ward's Island, Female Department"—relate to old buildings taken over from the Emigration Department, after years of occupancy and subsequent years of disuse and neglect.

ADDITIONS TO PRESENT BUILDINGS AND APPARATUS.

I have included under the above heading only such items as—unlike those enumerated under a subsequent heading, "New Buildings, etc."—are intended as extensions or completions of buildings already in existence. They represent, for the most part, additions which have been contemplated for some time—in some cases they are part of the original plans. They are necessary to the completion and full use of the buildings to which they are complementary, and, their cost being comparatively low, it is hoped that they may be provided for without question or delay.

Ward's Island.

Additional wing to main building, Male Department, similar to present hospital wing, and completing building according to plans. \$60,000 00

The erection of this wing has been contemplated for many years and the necessary funds have been several times unsuccessfully asked for. It will be the counterpart in external appearance, and, in general, in interior arrangements, of the west or hospital wing erected in 1891, and, occupying a corresponding relation to the main asylum building on the east, will make a symmetrical and completed structure. Its estimated cost is determined by the actual cost of the wing already erected, the plans and details of which will be again available. The hospital wing has proven of great benefit to those patients in whom insanity is complicated by other active physical diseases, and the intended wing will undoubtedly equally benefit the class to which it is proposed to devote it—those who, through their mental disturbances, have become uncleanly in their habits. As it is, in the existing buildings of the Male Department there is no suitable provision for this class, and the wards which, for want of better, have had to be assigned to them, are most inconveniently situated upon the upper floors of three-story wings. In the new wing, not only can the arrangements and provisions be made with a special view to the requirement of this special class, but facility of exit, so that not alone the patients, but their bedding, etc., can be readily removed to the open air, can be assured.

Additional wing to "Branch" building, Female Department, similar to wing about completed. \$75,000 00
Extension at "Branch" building for Kitchen and plant for same. 12,500 00

These items are self-explanatory. Under the appropriation for building, etc., of 1892, a wing has been added to what is known as "The Branch"—the Asylum Building of the Emigration Department, now occupied by female patients. In it, at the low cost of a little over \$300 a bed, have been provided accommodations for 240 patients, all in single rooms, and with details of construction which are claimed to render it fire-proof. The present great lack of the asylum is a larger proportion of single rooms, where patients who, through violence or otherwise, cannot properly be placed in associate dormitories, may be sequestered. Another wing, similar in plan to that just built, will go far toward remedying the deficiency and will make of the Branch a symmetrical and self-contained asylum building, provided that the appropriation for a kitchen and apparatus is also made. As at present arranged, and in the absence of a local kitchen, the food has to be brought in wagons a distance of nearly a quarter of a mile from the main asylum kitchen, and cannot be served, especially in the winter season, in proper condition as to warmth and otherwise. With the new wing completed and occupied, the population of the Branch will approximate 750, and for this number a special kitchen will be but proper and desirable.

City Farm, Central Islip.

One group (No. 3) of three pavilions and central dining-room at City Farm—To complete system of buildings now in course of construction according to the original plan. \$55,000 00

The group of buildings here referred to formed one of four groups which it was proposed to build as the principal feature in carrying out the provision of increased accommodation for the insane under the half-million-dollar appropriation before alluded to. Each group was purposed to give shelter to 150 patients—50 in each of the three pavilions—and to furnish a separate dining-room for the members of that group. Under this plan it was expected that improved accommodations for 600 patients would be attainable, that the older asylums would be relieved to that extent, and that the population of the City Farm would be brought up to a round thousand. The bids upon this particular contract, however, were in excess of the preliminary estimate, a portion of the appropriation was diverted to other purposes, and it was decided to omit one of the three groups for the time being, and to erect only the other three. The necessity for the relief which the possession of this group would afford exists now in still greater degree, and its erection will form a logical and proper element in the expenditure of any forthcoming appropriation.

Extension of present bakery, to provide for increase of bread required and for storage of flour. \$3,500 00

Regarding this item and the following one, as also in relation to the similar items of proposed expenditure at Hart's Island and at the City Farm, little need be said. They are intended simply to extend the facilities for the baking of bread, cooking of food and washing of clothing to a degree commensurate with the increase of the number of patients coming under care. At Central Islip only temporary wooden buildings, little better than sheds, and with but slight equipment in the matter of apparatus, were found sufficient for the 460 patients at first transferred, but with the augmentation of their number to 1,000, permanent buildings and enlarged plants become desirable.

NEW BUILDINGS, ETC.

The State Legislature of 1892, by enactment recommended by his Honor the Mayor and the Board of Estimate and Apportionment of this City, authorized the procurement, through the sale of municipal bonds, of the sum of \$500,000, and its expenditure upon the renovation and repair of existing buildings upon Ward's Island and upon the construction of new buildings upon that island and upon the land belonging to the City, "The City Farm," at Central Islip, Long Island. The existing buildings covered by the first proviso of the act were those upon the western half of Ward's Island, the property of the State, formerly occupied by the Department of Emigration, and the purchase of which by the City was provided for by contemporaneous action of the Legislature.

Under these statutes, and the subsequent action of the City authorities, the purchase was made, and alterations of old buildings and erection of new, as proposed by your Board, were authorized. It was not then assumed, or suggested, that the expenditure of this half-million of dollars would suffice to render ample the then admittedly deficient accommodations for the City's insane, or to do more than make one first step, though a liberal one, toward that consummation.

As a matter of fact, the utmost to which the purchasing power of the half-million could be extended was the provision of some 850 beds in old buildings and 700 in new. While this was, of course, an immense gain in the direction of comfort and safety, it would suffice neither to entirely do away with the overcrowding of good buildings and reduce their population to their proper capacity, nor would it render possible the abandonment of all the old, unsuitable and unsafe buildings. Least of all would it anticipate and provide for the increase of population, through increase of new comers, which is to be looked for each year. Had the work mapped out under the \$500,000 appropriation been completed in the year of its becoming available, 1892, a similar sum expended in each of the following two years, 1893, and the current one, would have appropriately supplemented it, and would have brought the condition of the city asylums, in the matter of buildings, at least, to something like a proper one. But the work was not completed in 1892, nor in 1893, nor, unfortunately, is it completed in 1894, at the date of the present writing. As a consequence no appropriations for new buildings, or for any other purpose by which accommodation for a single additional patient could be provided were secured, from any source, for the years 1893 and 1894. Thus far but thirteen hundred patients have found shelter in the buildings provided out of the million and a half expenditure, and their transference did little more than render possible the evacuation of the old, dilapidated and dangerous wooden pavilions of Blackwell's Island, the use of which had so long disgraced the Department. In the meantime, by normal year-to-year accretion, some seven hundred patients have been added to the census-roll of the asylums, and, as a result, the buildings are more than ever over-filled. No one of the new structures for the housing of patients has as yet been fully completed, and the time of their full completion is even now uncertain. Even if they were ready to-day they would accommodate but six hundred more, would not even provide for the increase since the date of their inception, and would make no impression upon the overcrowding which prevailed then and prevails now. It is in view of these facts that I have placed upon the list, under the above caption, the following item:

Additional Buildings at the several City Asylums, to replace that are unfit, and to relieve the overcrowding in others, to accommodate 1,000 patients, at \$500 a bed. \$500,000 00

Ferry Facilities, Boats and Landings at Ward's and Hart's Islands. \$10,000 00

For several years application has been made, and renewed, for an appropriation wherewith to purchase a launch, and establish regular ferry communication between Hart's Island and the mainland. As it is there is no regular communication, except once each week-day, by means of the Department steamer from Twenty-sixth street. It was hoped that increase of accommodation upon the other islands might render possible the removal of the insane from the unfavorable surroundings at Hart's Island, but as there is no present prospect of that, and as, through the transfer of the Branch Workhouse buildings to the asylum, the census of the latter has been much increased—embracing now 1,650 patients, and a proportionate number of officers and employees—the need of some reliable means of access is rendered more urgent. Coincidentally, the use of the ferry between Ward's Island and East One Hundred and Fifteenth street has greatly increased, owing to the occupation of the western or Emigration half of the island, and the transfer of female patients from Blackwell's Island thereto. The number of friends of patients alone who visit the island averages over 1,000 a week, and not infrequently over 100 passengers present themselves, for a boat that is licensed to carry but 30. The launch in use there is inadequate for its present service, but might suffice for the less exacting one at Hart's Island. The sum asked for would, in that case, purchase a new and suitable launch for Ward's Island, and cover the cost of necessary landings, accommodations, shelter, etc., at both ferries.

Ward's Island, Cold-storage and Ice House for Meats, etc. \$10,000 00

A most satisfactory change in the method of purchasing meats for the inmates of the asylums was made, as an experiment, in the year 1893, at the City Farm at Central Islip. It consisted in requiring the delivery to be in quarters, from cattle of not less than a prescribed weight, instead of in detached and unrelated and inferior cuts, and the conspicuous improvement in the quality of the meat, and incidentally, though this was not sought, a reduction in its cost, led to the extension of the same method of purchase to the other asylums in the present year. Here, too, the advantages of the change have been found to be equally great, but they are not yet developed to their fullest possibilities. With facilities for cold storage, the carcasses could be received in larger numbers and at longer intervals, and could be cared for and distributed to much better advantage. As it is now, in the warmer weather, the meat has to be received each day, and either used before it is in proper condition, or kept at great risk of spoiling. A cold-storage house would also provide for the better care and handling of butter, and other perishable supplies.

General Storehouse \$20,000 00

With the great majority of the insane concentrated upon Ward's Island, and with the prospect that ere long the few remaining upon Blackwell's Island will also be removed, there seems to be no good reason why supplies and other articles for their use should pass through the Blackwell's Island Storehouse. With a storehouse upon Ward's Island all excuse for the transshipment of stores, which now is so fruitful a source of detention, damage and inconvenience generally, would be done away with.

Hoisting Apparatus and Tramway for unloading coal and delivering to boiler-houses. \$10,000 00

There are now five boiler-houses in operation upon Ward's Island, and the transportation of coal to them from the docks is a serious matter, involving the employment of twelve to fourteen horses and drivers, and so inefficient at that, that, with bad weather and bad roads, very frequently there are inconvenient and dangerous shortages. At a first outlay of \$10,000, it is estimated that machinery for steam hoisting, and a tramway for delivering at the boiler-houses, could be procured which would, in a short time, more than pay for its actual cost by the saving effected in horses, etc., besides rendering much more reliable service.

Bath-house and fixtures for Female Asylum \$15,000 00

The removal of the female patients from Blackwell's to Ward's Island, while insuring them vastly better accommodations in general, was attended with some necessary sacrifices. Among these was a bath-house, fully equipped with provisions for fresh and salt water bathing, hot and cold. This had been erected a few years before, at a cost of \$10,000, and it is now proposed to offset its loss by erecting a similar, but somewhat larger one upon Ward's Island. In this instance, as in one or two others to be referred to, the relinquishment of special buildings by the transfer from Blackwell's Island has not operated to the loss of the Department in general. The bath-house, for example, is equally available and valuable as an adjunct of the Metropolitan Hospital, to the service of which institution it is now relegated.

Home for Attendants \$50,000 00

A building for the above-named use, costing originally \$25,000, was, like the bath-house, transferred to the Metropolitan Hospital when the exchange of patients took place, and is now occupied by the nurses attached to the training school of the latter institution. A similar home, but so much larger as to provide for the increased number of attendants, is a requisite addition to the buildings upon Ward's Island, to which the female patients are now assigned.

Chapel and Amusement Hall and Sewing Rooms \$20,000 00

The above purposes had been not long since well provided for upon Blackwell's Island by the remodeling of an old building variously known as "The Lodge," "The Mad-house," etc. As in the case of the bath-house and the Attendants' Home, this building proves a valuable accession to the Metropolitan Hospital. Upon Ward's Island, upon the side devoted to the female patients, there is an excellent church building for those of the Catholic faith. There is, however, no Protestant chapel, and no hall suitable for the concerts, theatrical performances and dances which are so important an element in the entertainment and the treatment of patients. Nor are there suitable apartments for sewing-rooms and for the other light occupations which the patients have been accustomed to follow, greatly to their own advantage and to that of the Department. The estimate is intended to cover the cost of a single building, centrally located, having a lower story divided into sewing-rooms, etc., and a second story devoted—with the exception of necessary ante-rooms—to one large hall, capable of being used both for church services upon the Sabbath and for the customary entertainments through the week.

Quarters for Male Employees of Female Department and Workshops \$25,000 00

The male employees of the Female Department cannot, as in the case of the Male Department, be quartered either in the Attendants' Home or in rooms of the different buildings occupied by patients. Separate quarters are needed for their accommodation, and can, no doubt, be more economically provided if placed in the same building, in the second story, as shops, which are equally needed for the carpenters and other mechanics.

Hart's Island.

Buildings for Officers and Officers' Quarters \$30,000 00

So long as Hart's Island was looked upon as only a temporary place of abode for the insane, all efforts and expenditures were directed to extending the accommodations for patients only. For office and administration purposes and for physicians' quarters old wooden cottages—a survival of thirty years ago, when Hart's Island was used as a station for recruits and military prisoners during the war—were deemed sufficient. Now that the continuance of the insane upon this island seems to be assured, and the wooden cottages are, coincidentally, falling into the last stages of decay, a more permanent and commodious structure for the purposes named is imperatively needed.

Attendants' Home \$30,000 00

For reasons in line with those above stated no Home for Attendants was built upon Hart's Island at the time of the erection of those upon Blackwell's and Ward's Islands, and its erection now is equally necessary and proper. As it is, the attendants are crowded into small and inconvenient quarters in the pavilions where their day's duty is performed. Apart from all other considerations, better work can be expected from them if they are afforded the quiet and change of atmosphere and surroundings provided by a detached and specially arranged building.

City Farm, Central Islip.

An efficient System of Sewerage and Sewage Distribution \$10,000 00

It is of the utmost importance, in view of the prospective completion of the additional buildings, and the consequent doubling of the population of the farm, that some efficient method of disposal of sewage be provided. That furnished when the buildings were first erected and occupied has proven inadequate and inefficient, and the sewage is now simply running off through an open

trench to some low-lying ground, where it distributes itself over the surface. Of course this can only continue at the cost of ultimate, and probably speedy, ill effects upon the health of the residents of the farm, especially as the water for drinking purposes is derived from driven wells. No one of the objects for which an appropriation is sought is of more pressing urgency than this. The probable, or more properly inevitable, results of neglect and delay cannot but prove disastrous.

Fencing \$5,000 00

No attempt has yet been made to properly protect the lines of the City property by the erection of a permanent fence. Some sections of the dividing line between it and adjacent properties have been temporarily marked off by such a fence as the patients could construct from woven wire and the trees felled on the premises, and a more permanent and ornamental fence has been built by them, for a few rods, along the highway which intersects the farm. Up to this time the limited number of patients assigned to the farm, and their quiet and harmless character, have rendered unnecessary any fencing calculated to confine them within given limits. On the other hand, trespassing from without has not, while the land was uncleared and uncultivated, proven annoying. But these conditions will be changed as to the character of the patients as further and larger drafts are sent there, and they are already changing as to trespassers, intentional and accidental, as the cleared space is enlarged, and the crops increased. For all reasons and purposes the entire boundary-line of the City property should be defined and protected by a substantial fence, and the \$5,000 asked for will provide that for the portion already occupied.

Building for Shops \$10,000 00

When the farm was occupied, in 1889, the buildings—which were characterized as "temporary wooden structures"—were limited to those necessary to provide for parties of patients who were sent down, as pioneers, to clear the land, prepare it for cultivation and put the farm generally in condition for occupation by larger numbers of patients and of a different class.

As this rougher work has been accomplished, equally necessary work of different character, and requiring skilled workmen and mechanical appliances, has developed. Among the latter transfers of patients have been tailors, shoemakers, carpenters and mechanics of various kinds, and a draft of female patients has included laundresses and seamstresses. No shops or sewing-rooms have yet been provided; they are needed now and will be still more necessary as a larger number of patients is sent down.

Cow-stables, Barns, etc. \$10,000 00

The crops raised upon that portion of the farm already cleared and brought under cultivation have now assumed proportions that render it necessary to provide properly-constructed barns, etc., for their protection and storage.

Similarly with the provision of pasturage and the production of feed of various kinds, it becomes possible to care for live-stock economically and so reduce the cost of purchased articles, such as milk, etc. A new and suitable stable for horses has been built out of the Special Building appropriation for 1892. It is desirable that there should be added to it a similar but less expensive cow-stable, sheep-pens, a silo for storing cattle-feed, etc.

The above facts and explanations are respectfully submitted to your Board with the hope that they may contribute to securing for the City Asylums the means for amplifying the improvements which were inaugurated in the year 1892 and which are still in progress.

Very respectfully,

A. E. MACDONALD, General Superintendent.

THE DEPARTMENT OF STREET CLEANING.

DEPARTMENT OF STREET CLEANING—CITY OF NEW YORK,
NEW CRIMINAL COURT BUILDING,
CENTRE, WHITE, ELM AND FRANKLIN STREETS,
NEW YORK, October 10, 1894.

Hon. THOMAS F. GILROY, Mayor, and Chairman of the Board of Estimate and Apportionment :

SIR—In compliance with the provisions of section 189 of the New York City Consolidation Act of 1882, I herewith transmit the Departmental Estimate of the amount of expenditure necessary for properly conducting the business of the Department of Street Cleaning for the year 1895.

The total amount is \$2,591,085.80. Of that sum \$253,884.80 is required for the increased pay of sweepers, drivers and hostlers, as directed by law, leaving as the amount estimated to be necessary, exclusive of such increased pay, \$2,337,201, which is \$30,189 less than the appropriation for 1894.

A further reduction of not less than \$100,000 can be made in the estimate, if this Department is permitted to construct, purchase and use storage dumps and self-propelling sea-going dumping scows, as requested in my letter to the Board of Estimate and Apportionment under date of September 11, 1894. Such dumps and boats would have effected a saving of at least \$100,000 in the cost of Final Disposition during the current year, and they would have prevented the difficulty that has resulted from the impossibility of taking the scows now used to sea during the prevalence of storms.

If it shall be determined to adopt some system of cremation of refuse, or any method of disposal other than that now in use, the estimate for Final Disposition herewith submitted must necessarily be revised, in order to provide for any difference there may be in the cost of operating the system determined upon, as compared with present methods.

DEPARTMENTAL ESTIMATE OF THE DEPARTMENT OF STREET
CLEANING FOR THE YEAR 1895.

THE FIRE DEPARTMENT.

HEADQUARTERS FIRE DEPARTMENT,

NEW YORK, September 5, 1894.

Hon. ASHBEL P. FITCH, Comptroller:

SIR—In conformity with the requirements of circular from your office, dated July 30, 1894, I have the honor to inclose herewith the Departmental Estimate of this Department for the year 1895.

Very respectfully,
ANTHONY EICKHOFF, Acting President.

DEPARTMENTAL ESTIMATE FOR 1895.

FOR SALARIES.

\$57,494 00

\$55,530 was allowed for the current year, less than \$2,000 more is asked for the coming year. This is for an additional Medical Officer, who is much needed. The uniformed force of the Department consists of more than 1,100 officers and men, and it was found necessary to appoint an additional physician (who had regularly passed a Civil Service examination) early in the present year, without pay, because there was no appropriation to pay him. He has continued to render this service without remuneration to the present time. The Medical Officers of the Department are kept very busy and are subject to call at all hours.

Instructor of Corps of Sappers and Miners (section 447, chapter 410, 1882)..... 2,000 00

Chief of Department and Assistants Pay-roll (chapter 710, 1892)—

For present organization:

96 Assistant Foremen, at \$1,800 each.....	172,800 00

4 Ununiformed Pilots, at \$1,200 each.....	4,800 00
10 Ununiformed Stokers, at \$912.50 each.....	9,125 00

\$1,469,825 00

For a new company in One Hundred and Thirty-seventh street, near Willis avenue:

1 Foreman.....	\$2,160 00
1 Assistant Foreman.....	1,800 00
2 Engineers of Steamer, at \$1,400 each.....	2,800 00
8 Firemen, 3d grade, at \$1,000 each.....	8,000 00

14,760 00

For 100 Probationary Firemen, 1 month each..... 8,333 00

For Theatre Details:
43 Firemen, 3d grade..... 43,000 00

1,535,918 00

The increase over the amount allowed for the current year, which was \$1,467,900, is accounted for as follows:

Increased pay of 10 stokers on fire-boats, from \$730 to \$912.50, per annum..... \$1,925 00

The pay of the stokers was raised to conform to the prevailing rate paid for such services.

New company on One Hundred and Thirty-seventh street, near Willis avenue, the house for which is very nearly completed..... 14,760 00

This new company has been urgently needed at the location specified for some years.

100 Probationary Firemen, at \$1,000 per annum, for one month each..... 8,333 00

This item is to pay the candidates while undergoing the prescribed probationary service.

43 Firemen, 3d grade, for theatre details, at \$1,000 per annum..... 43,000 00

Total..... \$68,018 00

This item is to provide the number of men required under the provisions of section 454, chapter 410, Laws of 1882, as amended by chapter 247, Laws of 1894. This requirement is for one additional member to each company now furnishing details at theatres, several of which take up all the time of the men detailed, and therefore cause a loss of the services of a man to the company. This is very detrimental to the service, especially during the night, when a full complement is a necessity. The additional men are required to keep up the standard of the companies, at all times, to the number they should have for fire duty. Attention is also invited to the statements made in support of this demand in the estimate for this year.

Bureau of Combustibles Pay-roll (sections 48, 427 and 428, chapter 410, 1882)—

Inspector of Combustibles.....	\$3,000 00

4 Surveyors, at \$1,200 each.....	4,800 00
5 Oil Collectors, at \$1,200 each.....	6,000 00

17,500 00

Bureau of Fire Marshal Pay-roll (sections 48, 427 and 428, chapter 410, 1882)—

2 Assistant Fire Marshals, at \$1,500 each.....	3,000 00
Chief Clerk.....	1,500 00
Clerk.....	1,200 00
Stenographer.....	1,200 00

\$9,900 00

The increase over the amount allowed for the present year is only \$200, being for additional salary for a Clerk who has, under the Civil Service laws and rules, been advanced from the first to the second grade.

Bureau of Fire-alarm Telegraph and Electrical Appliances Pay-roll (sections 48, 428 and 517½, chapter 410, 1882)—

For the Fire-alarm Telegraph Service :

Superintendent.....	\$4,000 00
Chief Operator.....	2,500 00

4 Operators, at \$1,380 each.....	5,520 00
4 Assistant Operators, at \$1,200 each.....	4,800 00
Clerk.....	1,000 00

2 Alarm-box Inspectors, at \$1,000 each.....	2,000 00
Machinist.....	1,100 00
2 Linemen, at \$900 each.....	1,800 00
Foreman of Construction.....	1,000 00

\$27,420 00

For the supervision of electrical wiring in buildings under the provisions of section 517½, Consolidation Act :

2 General Inspectors, at \$1,800 each.....	\$3,600 00
8 Inspectors, at \$1,200 each.....	9,600 00
Draughtsman and Map-maker.....	1,200 00
Stenographer Clerk.....	1,200 00
Clerk.....	1,000 00
Messenger.....	750 00

17,350 00

For "the construction, care and management of the fire-alarm telegraph system" alone, without reference to the other duties imposed upon the Bureau by section 517½ of the Consolidation Act, enacted in 1892, \$26,945 was allowed for the current year. For the coming year \$27,420 is asked. The increase is approximately accounted for, as follows :

Superintendent, increase of salary.....	\$500 00
Chief Operator, ".....	700 00

44,770 00

The same relative positions in telegraph companies and elsewhere command even larger salaries than are here asked for the Superintendent of Telegraph and the Chief Operator.

As the repeated demands made by the Commissioners for an appropriation to carry out the provisions of section 517½ of the Consolidation Act, which charged this Bureau "with the duty of enforcing all the provisions of this title (title 5, Consolidation Act), and all the rules, regulations, orders and requirements made thereunder in regard to electrical wires and the currents for furnishing light, heat or power, for any building in said city," etc., have been entirely ignored, the estimate of appropriation required to put this provision of law into operation has been made separate.

Attention is invited to the following provision, quoted from the section of the law referred to :

"The expense herein imposed shall be provided for in the annual appropriation for said Department."

Although the law seems to be mandatory, its provisions cannot be enforced by the Department without an appropriation for the purpose.

78,276 00

The estimate for this branch of the Department is the same as the one submitted last year, and amounts to \$11,276 more than was allowed for this year. The increase is entirely for additions to the mechanical force, which are very urgently needed. During the last ten years the number of fires has increased more than sixty per centum, while the appropriation for this branch of the Department has been increased in that time less than twenty per centum. The increase herein asked for represents for the same period only thirty-five per centum.

Hospital and Training Stables Pay-roll (sections 48 and 428, chapter 410, 1882)—

Foreman.....	\$1,500 00
Driver.....	912 00
10 Stablemen, at \$2 per day.....	7,300 00

9,712 00

The amount allowed for this branch for the current year was \$7,522. The increase, therefore, amounts to \$2,190, being for three additional Stablemen, at \$2 per day, which are rendered necessary by the greater number of horses trained, and of sick horses, as well as by the fact that the number of men detailed from the uniformed force at the stables has been decreased.

-----------------------------	-----------

\$441,000 00

\$400,000 was allowed for "Apparatus, Supplies, etc.," for the current year. The above estimate is therefore \$41,000 more. The principal items of increase are for "Buildings—Repairs and Alterations," about \$15,000; for "General Supplies," \$13,000; "Horses," \$7,000; "Forage," \$5,000; "Hose," \$5,000. This comparison is with the allowance made by the Commissioners for these several items out of the gross appropriation of \$400,000 made by the Board of Estimate and Apportionment.

The amount allowed by the Board of Estimate and Apportionment for the present year was very low, and an inspection of the houses of the Department shows the necessity for the increase during the coming year.

For the item "General Supplies" the increase is required to enable the refurnishing of a number of company houses which very much need it.

The increase for "Horses" is, as a recent inspection of all the horses of the Department shows, an absolute necessity.

The price of forage has already advanced, and is expected to advance still more, which renders the increase for this purpose necessary.

The additional amount for the item "Hose" is also needed.

Aggregate.....\$2,257,870 00

The foregoing estimate, amounting to two millions two hundred and fifty-seven thousand eight hundred and seventy dollars (\$2,257,870), is adopted as the sum of money which will be required for the expense necessary to the administration of the Fire Department of the City of New York for the year 1895.

John L. Kiernan, ".....	1,200 00
	\$25,500 00

For Contingencies.....	200 00
Total.....	\$25,700 00

The expenses of the Board of Assessors for the present year are:

For salaries, appropriated by the Board of Estimate and Apportionment for 1894.....	\$14,800 00
For salaries, two Clerks detailed from the Department of Taxes and Assessments, \$1,000 each.....	2,000 00
For salaries of the above-named three Accountants, who were appointed temporarily by the Board of Taxes and Assessments on March 21, 1894, pursuant to a resolution of the Board of Estimate and Apportionment adopted March 1, 1894, if continued to December 31, 1894, \$1,200 each.....	2,199 90
	\$19,999 90

The above estimate for 1895, in the judgment of the Assessors, is reasonable and proper and justified by the increase in the business of the Board. This increase will be readily seen when I inform you that during the eighteen years between 1867 and 1885 the number of assessment lists received was 2,092, or an average per year of 116; that during the four and a half years ending December 31, 1889, the lists aggregated 1,076, or a yearly average of 239, and that in the four years ending December 31, 1893, the total lists amounted to 1,258, being a yearly average of 314; while the assessment lists thus far received in 1894 number 254, the amounts of which (\$2,453,751.61) exceed largely the average of those of the last fourteen years, which is \$1,650,932.49.

In view of the many public improvements now in progress and projected, the Assessors deem it reasonable to expect that during the next four months there will be received at least as many assessment lists as were sent to the Board in the same period of 1893, viz.: 212 lists, aggregating \$1,133,932.29.

These figures are used to show your Honorable Board the progressive growth in the work of the Board of Assessors since 1867, and yet, notwithstanding the increase, with the force now at its disposal, the Board of Assessors has kept abreast with it, and will continue to lay assessments promptly as well as carefully.

From January 1 up to July 31, 1894, the Assessors have disposed of 312 lists amounting to \$2,419,504.63, and there remains in the Board at this date 87 lists aggregating \$2,353,959.95; these the Assessors confidently expect to have finally disposed of by the end of the present year, notwithstanding the influx of additional work this year from the Twenty-third and Twenty-fourth Wards, which has been since 1893 within the jurisdiction of a special Commission by act of the Legislature.

Great care must be exercised and accuracy shown in the disposition of the assessment lists, and yet during the years the Assessors and their Secretary have been in office not the slightest mistake or duplication of figures has been discovered.

Under these circumstances and with the prospective increase in their labors the Assessors believe that the increase in salary asked for themselves, their Secretary and Clerks should be granted.

Very respectfully,
CHARLES E. WENDT, Chairman.

NEW YORK CITY CIVIL SERVICE BOARDS,
NEW CRIMINAL COURT BUILDING,
NEW YORK, September 4, 1894.

Hon. THOMAS P. GILROY, Mayor and Chairman, Board of Estimate and Apportionment:

SIR—I beg to refer to the circular letter of the Comptroller under date of July 30, 1894, reciting section 189 of the New York City Consolidation Act of 1882, etc., and in response thereto I have the honor to present the following estimate of the amount required to conduct the business of the New York City Civil Service Supervisory and Examining Boards for the year 1895:

Lee Phillips, Secretary and Executive Officer and Chief Examiner.....	\$5,000 00
Michael F. Fitzpatrick, Chief Clerk.....	2,400 00
Barbara Widder, Clerk and Typewriter.....	1,200 00
Mary A. Farrell, Clerk.....	1,200 00

Mary A. Cadley, Clerk.....	600 00
Patrick Quinn, Cleaner, etc.....	900 00
Dr. A. H. Brown, Physical Examiner.....	1,000 00
Examiners, paid by the session.....	7,000 00
Experts.....	3,000 00
Contingencies.....	1,200 00
	<u>\$25,000 00</u>

Comparative Statement.

Final Estimate for 1894 (lump sum).....	\$25,000 00
Proposed Estimate for 1895.....	<u>25,000 00</u>

I desire to state that a considerable portion of the amount so required is composed of items which are subject to variation, it being impossible to anticipate the number and character of the examinations to be held during the year and the amount of expert assistance which may be required to properly conduct the examinations. For this reason it has been the custom of your Honorable Board to make our appropriation in a lump sum, and I respectfully request that such practice be continued for the reasons stated.

Yours, very respectfully,

LEE PHILLIPS, Secretary and Executive Officer.

BOARD OF CITY RECORD.

OFFICE OF THE CITY RECORD, No. 2 CITY HALL,
NEW YORK, September 28, 1894.

Hon. ASHBEL P. FITCH, Comptroller:

SIR—By direction of the Mayor, Counsel to the Corporation, and Commissioner of Public Works, and in response to a recent letter from you to the Mayor, as Chairman of the "Board of

City Record," I send you the inclosed report, embodying estimates of the appropriations needed in 1895 to publish the CITY RECORD, to supply the departments and bureaus of the City Government and the courts with blank books, stationery and printing, and for salaries and contingencies of this office.

Respectfully yours,

W. J. K. KENNY, Supervisor City Record.

NEW YORK, September 20, 1894.

To the Honorable the Mayor, the Counsel to the Corporation and the Commissioner of Public Works, composing the Board of City Record:

GENTLEMEN—Your appropriation for the publication of the CITY RECORD during the current year was \$72,000. Of this \$43,902.38 was spent prior to September 1. Of the remainder, \$28,097.62, I estimate that \$8,700 will be needed to pay for the publication of the registry lists prior to the approaching election. The cost of publishing the canvass of votes cast at that election cannot now be estimated. It depends upon the manner in which the proposed new State Constitution is presented for the action of the people. If presented as a whole, the cost of publishing the canvass of votes for and against it will be comparatively small. The canvass on each special question presented will cost as much to publish as that on the Constitution as a whole. I estimate that it will cost about \$2,000 to print the canvass of the votes for the candidates for the several offices to be filled and for or against the Greater New York and Rapid Transit questions, and the two proposed amendments to article 6 of the present Constitution. But to cover everything, at least \$3,000 should be set aside for the purposes of the canvass.

Deducting this sum—\$3,000—and the estimated cost of publishing the registry lists—making together the sum of \$11,700—from the present remainder of \$28,097.62, there is left \$16,397.62 for the general purposes of the CITY RECORD from September 1 to December 31. Last year there was \$15,465 left, of which all but \$3.97 was used. To keep thus within the appropriation I had to throw over into this year matter which could have been made ready for publication in last year if there had been money enough. One item thus carried over was the annual report of the Health Department for 1892, which cost \$3,160.33 this year against an average of \$1,019.89 in the years 1890, 1891 and 1892. It seems to me that there should be an appropriation sufficiently large to permit the publication of reports, etc., as fast as they can be "set" and the proofs read in the departments; and I therefore recommend that you procure for the year 1895 an appropriation of \$75,000.

In the four years 1886, 1887, 1888 and 1889, the appropriations for which were procured by Boards presided over by Mayors Grace and Hewitt, the CITY RECORD cost \$267,247.78, or an average of \$66,811.94. In the four years 1890, 1891, 1892 and 1893 it cost \$274,552.22, or an average of \$68,638.05. In the latter period the CITY RECORD contained annually, on an average, 202½ main sheet pages and 106¼ supplement pages more than in the earlier period. The cost of a main sheet page being about \$11, and of a supplement page about \$24, on an average, there was annually published in the CITY RECORD, in the period from 1890 to 1893, inclusive, matter worth \$4,777, additional to the matter published annually in the years 1886, 1887, 1888 and 1889, but at an additional cost, yearly, of only \$1,826. It is apparent, therefore, that in each of the four years 1890 to 1893, during which a majority of the present Board of City Record had full control of this publication, \$2,951 was saved, or \$11,804 in the aggregate. In the same time the revenue from the sale of the CITY RECORD was increased from \$6,167.84 to \$12,474.36, or by an annual average of \$1,576.63. The average revenue in the years 1886-89 was \$1,541.96; in the years 1890-93 it was \$3,118.59. The increase was more than 100 per cent.

Taking the saving in the cost of publication and the increase in revenue together the gross advantage to the City is represented by \$18,106.52 for four years, or by \$4,526.63 a year.

Your appropriation in the current year for "Printing, Stationery and Blank Books" was \$191,000. Against this sum charges to the amount of \$180,204.80 had been incurred up to September 1.

The cost of printing, books and stationery during the four years 1886-1889, just prior to the procurement of the control of the appropriation by the majority of the members of the present Board, was \$691,500, making an average of \$172,875. During the four years 1890-1893, your appropriations aggregated \$690,800, or an average of \$125 less than the average annual cost in the preceding four years. Yet, during the period 1890-1893 much more printing had to be done, and far larger quantities of books and stationery had to be supplied than in the earlier four years. The Sheriff's Office and Department of Street Improvements were made charges against the appropriation in 1891; and the Department of Buildings and the Bureau of Street Opening Proceedings in the Law Department against it in 1892. The cost of the printing, lithographing, books and paper supplied to them each year, and also the aggregate cost, are shown by the following table, which does not include the cost of pens, ink, rubber bands, and other articles of stationery, which are bought in bulk lots and distributed to the several departments, etc., according to schedules made up from requisitions:

	1891.	1892.	1893.	TOTAL.
Sheriff	\$2,539 71	\$782 12	\$417 97	\$3,739 80
Department of Street Improvements	10,954 92	9,463 59	11,710 36	32,128 87
Bureau of Street Opening Proceedings...	131 98	73 05	138 92	343 95
Department of Buildings.....	72 24	4,219 89	4,292 13
	<u>\$13,626 61</u>	<u>\$10,391 00</u>	<u>\$16,487 14</u>	<u>\$40,504 75</u>

The cost of the several kinds of unprinted paper required in the year 1891 is not reckoned in here, because it was not until 1892 that we began to make our specifications in such a way that we could apportion it to departments. As the paper for the Department of Street Improvements and the Sheriff's Office averaged \$742.84 in 1892 and 1893, we may fairly assume that it cost \$500 in 1891. Other articles of stationery certainly cost \$1,500 in each of the years 1891 and 1892, and \$2,000 in 1893, when the Department of Buildings had to be fully equipped. Thus we have \$5,500 to add to the previous total of increased needs represented by \$40,504.75 for the three years, making an aggregate of \$46,004.75, or an average of \$15,334.91 a year.

As well as I can make it out, the average annual cost of work and supplies for the Department of Public Works in the four years prior to 1890, was \$18,000; the Health Department, \$10,000; the Department of Charities and Correction, \$12,000; Department of Parks, \$8,000; Fire Department, \$9,250; and Street Cleaning Department, \$2,800. Without taking into consideration the cost of stationery, the average annual expenditure for these departments in the four years 1890-1893 was: Public Works, \$22,605; Health, \$16,750; Charities, \$12,147; Parks, \$7,480; Fire, \$10,318; and Street Cleaning, \$3,553. You have had, therefore, to supply in each year on the basis of these comparisons, \$12,803 worth of printed matter, books and paper more than your predecessors, or \$51,212 worth in four years. Adding to this the cost of stationery for these departments, at the very low estimate of \$5,000 a year, and you increase these sums to \$17,803 a year, or \$71,212 in the aggregate. With the cost of supplies for the new departments and bureaus, \$46,004, the total of the increased demands upon you was \$117,216, or an average of \$29,304 a year.

You have been enabled to meet these demands, in the main, with appropriations averaging \$125 less per year than the cost of work and supplies during the years 1886, 1887, 1888 and 1889, by the fact that you have saved thousands of dollars by purchasing goods in large quantities under contract. In previous years printed matter, books and stationery were ordered in small lots, as required. No estimate of a year's supply being made, many kinds of blanks were ordered three or four times a year. Composition had to be paid for each time. Under your system composition has to be paid for only once, and this, and the paper and presswork, you have got at the lowest prices dictated by competition.

In December last I informed you that the books needed for 1894 would cost about \$51,505.25, or \$6,689.85 more than the average cost for the years 1891, 1892 and 1893. I find that up to September 1 they had cost \$53,503.19, or \$8,687.79 more than the average. The following table shows the cost of the books for each department yearly since 1891:

Average, 1891, 1892 and 1893				44,815 40
Difference				\$8,687 79

To meet this increase of about five per cent. of the appropriation for 1893 you had \$2,200—about one per cent. of that appropriation—by which sum your appropriation for 1894 surpassed that for 1893. Through the competition of printers you had also about \$3,500 more, for in this year the Health Department indexes will cost (estimated) only about \$2,700, against an average of \$6,156.89 in the years 1891, 1892 and 1893. So that your deficiency on account of the extraordinary increase in the cost of books was apparently \$2,987.

Against your appropriation of \$191,000 for "Printing, Stationery and Blank Books," there had been charged up to September 1:

Book contracts	\$45,505 25
Stationery contracts	30,631 11
Printing and lithographing contracts	31,214 49
Health indexes contract (estimated for the year)	2,700 00
Orders completed and billed	54,608 97
Orders outstanding (estimated)	4,428 98
Salaries (seven Bookbinders, Storekeeper and Expressman)	7,116 00
"Law Journal" (publishing court calendars for the year)	4,000 00

Total

Thus you have a remainder of \$10,795.20, with which to pay salaries for four months and for work needed between September 1 and January 1 next.

In 1895 the Supreme Court will need a new calendar, costing about \$1,800, and the Departments of Parks and Street Improvements have informed me that they will need much larger quantities of supplies. I assume that the Department of Street Cleaning will need much more than it has had. Requisitions come from it with noteworthy regularity. Its cost for printed matter and books has gone already this year to \$5,815.95, from an average of \$3,611.72 in the years 1891, 1892 and 1893.

In view of these circumstances and of the extraordinary increase of the number of books required this year, I recommend that you procure an appropriation of \$200,000 for "Printing, Stationery and Blank Books" in 1895. This is an increase of about five per cent. from your present appropriation. With it your average annual appropriation for six years will be only \$180,300, against an average expenditure of \$172,875 in the four years just prior to your assumption of office, although you have been called on to furnish about \$30,000 worth of work and supplies more in each year.

For the purpose of comparison I append a statement showing the estimate made in 1888—before you took office—of the sums needed for 1889, as well as my own estimates for this year and next:

	1889.	1894.	1895.

THE COMMISSIONERS OF ACCOUNTS.

OFFICE OF THE COMMISSIONERS OF ACCOUNTS,
ROOMS 114 AND 115, STEWART BUILDING, NO. 280 BROADWAY,
NEW YORK, September 4, 1894.

To the Honorable the Board of Estimate and Apportionment, New York City:

GENTLEMEN—In compliance with the circular letter of the Comptroller, dated July 30, 1894, we submit the following estimate of amounts necessary for the conduct of the business of this office:

For salaries of two Commissioners, at \$5,000 each, authorized by chapter 516 of the Laws of 1884	\$10,000 00
For salaries of Assistants and to pay contingencies necessary to the discharge of the duties devolving upon the Commissioners of Accounts	27,500 00
Total	\$37,500 00

The increase asked for in this communication over the appropriation of last year is deemed necessary by us, because of the constantly greater demands upon this office. The law seeks to make this office a protection to the taxpayers against errors and irregularities. The appropriations heretofore given to this office have not enabled the Commissioners to make the examinations required by statute. If we are to do the work laid out by the laws of the State, and which the taxpayers have a right to expect we shall do, certainly the means ought to be given us to carry out the provisions of the statute. More money is needed to carry on this work. It is as true to-day as it was a few years since, when in making a requisition for an increased appropriation, the then Commissioners of Accounts said: "Each year demonstrates that the work of this office is increasing, and if sufficient appropriation is granted it can be advantageously spent in the interest of the taxpayers and the betterment of the City Departments."

We gladly subscribe to this statement as equally true now.

Very respectfully,
CHAS. G. F. WAHLE,
EDWARD OWEN, } Commissioners of Accounts.

THE NEW YORK FREE CIRCULATING LIBRARY.

To the Honorable the Board of Estimate and Apportionment:

GENTLEMEN—The petition of The New York Free Circulating Library under the terms of chapter 666, Laws of 1886, respectfully shows to your Board:

First—That the said New York Free Circulating Library is a corporation duly organized and incorporated by a special act of the Legislature of the State of New York.

Second—That the said corporation owns in the City of New York (3) three library buildings, the value of each being far in excess of twenty thousand dollars (\$20,000), and also owns over seventy-three thousand volumes and maintains said buildings and libraries, and also a branch at No. 135 Second avenue, and a branch at No. 1943 Madison avenue, and a branch at No. 49 West Twentieth street, for the free circulation of books to and among the inhabitants of the City of New York.

Third—That, in the year ending August 31, 1894, said corporation loaned to the inhabitants of the City of New York more than six hundred thousand volumes to be read by the people at their homes, and that no charge was made in any case for such loaning and no appropriation has been made to this corporation for the loaning of any of said books in said period.

Fourth—That, under the terms of said chapter 666, Laws of 1886, your Honorable Board is authorized and empowered to allot to said corporation for such free loaning of books the sum of thirty thousand (30,000) dollars. That said corporation is in great need of such apportionment and allotment, and unless said sum of money is apportioned and allotted, said corporation may be compelled to curtail the work and thus cause the education and amusement of the people of the City of New York to suffer.

Wherefore, your petitioner prays that your Honorable Board may make to this corporation the full allotment which, under chapter 666, Laws of 1886, it is authorized and empowered to make.

AGUILAR FREE LIBRARY SOCIETY.

NEW YORK, September 4, 1894.

To the Honorable Board of Estimate and Apportionment of the City of New York:

GENTLEMEN—The Aguilar Free Library Society hereby applies for an appropriation of ten thousand dollars (\$10,000), pursuant to chapter 666 of the Laws of 1886.

The Aguilar Free Library Society is duly incorporated under the laws of this State, is located in this city, maintains three libraries, namely, at No. 721 Lexington avenue, No. 197 East Broadway and No. 624 Fifth street, and conforms to the statutory requirement in owning real estate in this city of the value of at least seventy thousand dollars (\$70,000). It also owns 25,000 volumes, and maintains said three libraries as free public libraries for the free circulation of books among the inhabitants of said city, and it has actually circulated in the twelve months ending August 31, 1894, 251,300 volumes, an increase of 57,608 volumes over the circulation of the preceding year.

For the past two years the society has received from your Honorable Body an annual appropriation of \$10,000, and the need for such an allowance as a minimum sum has grown with the expanding work of the Library. About two-thirds of the total circulation is among the inhabitants of the down-town districts, to whom the Library, with its accompanying reading-room, is a liberal source of recreation and education.

The object of the Directors has been to equip the Library with readable books, and not with numerous volumes standing idle on the shelves, and in consequence the Library shows a remarkable average circulation of every volume ten times during the year.

We submit herewith—

1. Table of circulation for the past twelve months.
2. Account of volumes in the Library.
3. Estimate of expenses for the coming year.
4. Present salary list.

On behalf of the

AGUILAR FREE LIBRARY SOCIETY,
HAROLD NATHAN, Secretary.

WEBSTER FREE LIBRARY.

To the Board of Estimate and Apportionment of the City of New York:

Estimate of the amount requested to be allowed to the Webster Free Library, pursuant to section 37 of chapter 378 of the Laws of the State of New York, for the year 1892:

The Webster Free Library is situated at the foot of East Seventy-sixth street, in the City of New York, and belongs to the corporation known as the East Side House. It is maintained for the welfare and free use of the public. It is subject to the inspection of the Regents of the University, and registered by them as maintaining a proper standard. The Regents have certified that 12,000 of the books circulated between the 3d of April and the 1st of September, 1894, are of such a character as to merit a grant of public money.

In addition to the number thus circulated for reading in the homes or places of business of persons taking books from said library, 4,700 of the same volumes were read in the reading-room of said library during the year aforesaid. Such circulation continues, and the number circulated during the current year, 1894, of those certified, as aforesaid, as being of such a character as to merit a grant of public money will be not less than 20,000. The Webster Free Library therefore asks an allowance for its support of the sum of fifteen hundred dollars (\$1,500).

The objects for which this appropriation is asked, are the support of said library and the purchase of books for the same.

It respectfully declares that the said library is owned and maintained solely by the said Society as a free public library; that it is opened for the free circulation of books among the inhabitants of the City of New York from 8 o'clock A.M. until 9 o'clock P.M. every day except Sundays and

COUNTY CLERK'S OFFICE,
NEW COUNTY COURT-HOUSE,
NEW YORK, October 8, 1894.

To the Honorable Board of Estimate and Apportionment:

GENTLEMEN—I have to-day received from Hon. Charles H. Van Brunt, Presiding Justice, Supreme Court, a letter (copy of which is annexed hereto), and, in accordance with its suggestions, I respectfully submit that the provisional estimate for the expenses of the Supreme Court be amended as therein requested.

Very respectfully,

HENRY D. PURROY, County Clerk.

SUPREME COURT—JUDGES' CHAMBERS,
NEW YORK, October 8, 1894.

Hon. HENRY D. PURROY, Clerk of the City and County of New York:

DEAR SIR—I notice by the CITY RECORD that you have submitted to the Board of Estimate and Apportionment provisional estimates for the expenses of the Supreme Court. Some of the items submitted are insufficient. That of \$10,000 as compensation to Justices of other Districts holding Court in New York is only sufficient for the compensation of the two Justices assigned to the General Term.

We are compelled to have another Justice to hold Special Terms. Provision should be made for his compensation, and \$2,500 additional is required for that purpose.

You have also made a provision of \$1,500 only for the Librarian's salary. The salary of the Librarian, pursuant to law, has been fixed by the Justices at \$2,000, which amount will be required for that purpose.

There is no provision whatever made for the compensation of the Stenographer of the Oyer and Terminer. During the last year such Stenographer was compelled to sue for his compensation. The sum of \$1,250 will be required and should be appropriated for the payment of his salary.

Will you kindly see that these amendments are made in the provisional estimate already filed by you?

Yours, etc.,

C. H. VAN BRUNT, Presiding Justice, Supreme Court.

SUPERIOR COURT.

SUPERIOR COURT OF THE CITY OF NEW YORK,
September 4, 1894.

SURROGATES' COURT.

CHAMBERS OF THE SURROGATES' COURT,
CITY AND COUNTY OF NEW YORK,
NEW YORK, September 5, 1894.

To the Honorable the Board of Estimate and Apportionment:

GENTLEMEN—An estimate of the amount of expenditure required for the maintenance of the Surrogates' Court and Office for the year 1895, is herewith submitted.

For the ensuing year the same appropriation is required as was made for the present year for the Clerks employed, pursuant to chapter 37 of the Laws of 1883, as amended by chapter 467 of the Laws of 1890, in the preservation and transcription of mutilated and obliterated records. Eight Clerks are employed in this work at a salary of \$1,200 a year each, and a Superintendent and Examiner who receives \$1,500 a year. The estimate for the current year provided for the prosecution of this work: eleven libers, at a cost of \$330, and \$100 for stationery. Ten libers, at a cost of \$300, and \$100 for stationery will be required next year. The necessity for this work has been duly certified in accordance with the acts mentioned. A certificate as to the same accompanied the communication of September 11, 1890, of the then Surrogate, submitting the estimate for the succeeding year; a similar certificate was annexed to the estimates submitted August 16, 1892, and another was sent to your Board November 20, 1893.

For office contingencies, \$1,200 is requested, this being the amount appropriated for the same purpose for the current year. \$1,000 is required for contingent fund for the payment of the Sheriff

for services in serving citations and orders in proceedings initiated by the Surrogate to compel accountings of delinquent executors, guardians and others. The total amount provided for by this estimate now submitted is \$30 less than the amount allowed for the present year.

Respectfully submitted,

DISTRICT ATTORNEY'S OFFICE.

DISTRICT ATTORNEY'S OFFICE—CITY AND COUNTY OF NEW YORK,
September 5, 1894.

To the Honorable the Board of Estimate and Apportionment:

GENTLEMEN—In compliance with section 189 of the New York Consolidation Act of 1882, I herewith transmit an estimate in writing, being the Departmental Estimate in said act referred to, of the amount necessary in conducting the business of the District Attorney's Office of the City and County of New York for the year 1895, specifying in detail the objects of such expenditure, and including a statement of the salaries of each of the officers, clerks, employees and subordinates in such office, as follows:

For salary of the District Attorney (section 1503 of the Consolidation Act of 1882).....	\$12,000 00
For salary of six Assistant District Attorneys, at \$7,500 each (section 1503 of the Consolidation Act of 1882, as amended by chapter 564, Laws of 1887).....	45,000 00
For salary of Chief Deputy Assistant, Deputy Assistants, Clerks, employees and subordinates.....	85,550 00
For fees and compensation of Stenographer to Grand Jury (chapter 348, Laws of 1885).....	2,500 00
Total.....	\$145,050 00

For expenses in procuring the arrest of prisoners in this and other States, the attendance of witnesses from other States, and for expert witnesses, fares, law books, postage, telegrams, messenger and telephone service, clothing for poor witnesses in House of Detention, and other necessities for the office.....

\$15,000 00

The net appropriation to the salary account of this office for the present year was \$129,470; the amount now actually paid, as appears by the pay-roll hereto annexed, is \$129,550, the difference being due to some slight change made during the course of the year in the readjustment of the clerical force and the salaries paid to the clerks.

In addition to the amount now actually paid, I make requisition for the further sum of \$13,000, made up as follows:

One Deputy Assistant in charge of inquests, etc.....	\$3,500 00
One Deputy Assistant in charge of writs and intermediate proceedings.....	3,500 00
One Stenographer.....	1,200 00
One Librarian.....	1,200 00
Three Subpoena Servers, at \$1,200 each.....	3,600 00
Total.....	\$13,000 00

The extra force asked for by this increase is not a force additional to that now employed in my office; but, on the contrary, I have now engaged and in actual service two Deputy Assistants, a Stenographer, Subpoena Servers and Librarian, for whom I have to make provision out of my contingent account, although each individual does not receive the exact salary above designated.

The gross appropriation allowed to my office for this year was:

Salaries, etc.....	\$131,970 00
Contingencies, etc.....	45,000 00
Total.....	\$176,970 00

The gross appropriation asked for in the coming year is:

Salaries, etc.....	\$145,050 00
Contingencies, etc.....	15,000 00
Total.....	160,050 00

Thus making the gross appropriation for next year less than this year in the sum of..... \$16,920 00

I am, respectfully yours,

J. R. FELLOWS, District Attorney.

SIR—In compliance with the requirements contained in the resolution of the Board of Estimate and Apportionment, embraced in your communication of the date of July 30, duly received, the Managers of the New York Catholic Protectory hereby respectfully submit the following statement and requisition:

By section 1, chapter 428 of the Laws of 1867, the sum of one hundred and ten dollars (\$110) per capita on the average number of persons annually maintained in said institution was authorized and directed to be raised in the same manner and applied in the same way as is required by section 1, chapter 647 of the Laws of 1866.

Considering the provisions of said acts, and the number of children now in the institution, there will be required for the year 1895 the sum of two hundred and seventy-five thousand dollars (\$275,000).

This requisition is based on an estimate of two thousand five hundred (2,500) children as the average number to be maintained during the year 1895.

The Managers beg leave to assure you that they have carefully considered their estimate for 1895, and that any reduction of the amount therein asked for will be attended by serious inconvenience to this institution and render impossible the reception by it of all the children committed to its care by the magistrates of the City of New York.

Respectfully submitted,
For the Board of Managers of the New York Catholic Protectory,

NEW YORK INFIRMARY FOR WOMEN AND CHILDREN.

NEW YORK INFIRMARY FOR WOMEN AND CHILDREN,
NO. 5 LIVINGSTON PLACE,
NEW YORK, September 5, 1894.

Mr. ASHBEL P. FITCH:

DEAR SIR—Our President, Mr. Olyphant, wrote to you August 19, in reply to your communication of July 30, relating to the estimates for 1895, for the amount required for our institution, as provided by law.

Mr. Olyphant requests me to state further that the law authorizing and fixing the amount to be paid to our hospital was passed April 6, 1877, and was entitled "An Act for making the New York Infirmary for Women and Children payment for maintenance of lying-in and nursing women."

Section 1 of this act provides for the payment to the managers of the infirmary, for each obstetric case, the sum of \$25, and also for the payment of \$18 per month and proportionately for any fraction of a month for "any homeless or needy mother with a nursing infant, who resides at the infirmary by permission of its officers and wet-nurses her own infant."

Yours truly,
JULIA P. MARSHALL, Superintendent.ADIRONDACK MOUNTAIN RESERVE,
BEEDES, ESSEX CO., N. Y.,
August 19, 1894.

Hon. ASHBEL P. FITCH, Comptroller, New York City:

MY DEAR SIR—Your circular letter, under date of July 30, requesting from "The New York Infirmary for Women and Children" an estimate of the amount required for the care and support of the inmates of our institution in and for the year 1895 was forwarded to me here. Our institution receives and treats for the City obstetric (maternity) cases, at twenty-five (25) dollars for each case sent to the institution. If the same number be sent us in 1895 as were received on the average during the first seven months of 1894, there would be in all about 200 cases, which, in the aggregate, would amount to about five thousand (5,000) dollars.

Trusting this will give your Honorable Board the desired information,
I am, yours respectfully,
ROBERT OLYPHANT, President.

NEW YORK CITY, August 15, 1894.

To the Honorable Board of Estimate and Apportionment for the City of New York:

In accordance with notice issued July 30, 1894, from the Finance Department of the Comptroller's Office, applying to Departmental Estimate for the year 1895, sent to the Peabody Home for Aged and Indigent Women, No. 2064 Boston road, of which Walter Watson is Vice-President, asking for an estimate of the amount required for the care and support of the inmates in our institution, as provided for in chapter 424, passed and approved by the Governor, April 18, 1893, provides that: "To the Peabody Home for Aged and Indigent Women, the sum of one hundred and fifty dollars per annum for each and every woman therein over sixty-five years of age, received and supported by said institution, not exceeding, however, the sum of five thousand dollars in any one year."

Therefore, in compliance with the above request, have the honor to state that at present there are twenty-five (25) inmates in our institution, and the amount, as per capita allowance for their support in and for the year 1895, will be three thousand seven hundred and fifty dollars (\$3,750).

Believing this accords with the aforesaid request, remain, with the highest consideration.

Yours respectfully,
W. WATSON, Vice-President.

NEW YORK POST-GRADUATE MEDICAL SCHOOL AND HOSPITAL.

NEW YORK POST-GRADUATE MEDICAL SCHOOL AND HOSPITAL,
SECOND AVENUE AND TWENTIETH STREET,
August 30, 1894.

To the Mayor, Aldermen and Commonalty of the City of New York, Finance Department, Room 21:

We respectfully submit the following, viz.: That the number of beds in the babies' wards is fifty-seven (57). We estimate, upon that capacity, that seven thousand five hundred dollars (\$7,500) will be a sufficient appropriation.

SLOANE MATERNITY HOSPITAL.

SLOANE MATERNITY HOSPITAL,
FIFTY-NINTH STREET AND AMSTERDAM AVENUE,
NEW YORK, August 17, 1894.

To the Board of Estimate and Apportionment of the City of New York:

GENTLEMEN—Agreeable to the request contained in the circular of A. P. Fitch, Esq., Comptroller, dated July 30, the Sloane Maternity Hospital, located at the corner of Fifty-ninth street and Amsterdam avenue, hereby presents to your Honorable Board its estimate of the amount required for the care and support of its inmates for the year 1895, to which amount it is entitled by the provisions of chapter 424 of the Laws of 1893, approved by the Governor, April 18, 1893.

In order that you may comprehend the extent of the work being done at the hospital and its need for the full amount (\$8,000) allowed by law, the following facts are submitted for your consideration:

We have 45 beds, all of which are absolutely free.
We are caring for from 60 to 90 patients monthly, most of whom belong to the worst of the destitute class of the city.

We estimate, on the basis of the preceding seven months of this year, we shall care for at least 800 patients for the current year.

Our only source of support is from an Endowment Fund which yields us \$12,500 per year.

Our expenses amount to fully \$24,000.

The amount allowed by law (\$8,000) still leaves us with a deficiency.

We respectfully submit the above facts and ask your consideration of same in view of our application.

SLOANE MATERNITY HOSPITAL,
By WM. D. SLOANE, Treasurer.

SLOANE MATERNITY HOSPITAL,

To the Board of Estimate and Apportionment:

Estimate of amount required for care and support of inmates for year 1895, to which the Sloane Maternity Hospital is entitled under the provisions of chapter 424 of the Laws of 1893, as approved by the Governor April 18, 1893, \$8,000.

MOTHERS AND BABIES' HOSPITAL.

MOTHERS AND BABIES' HOSPITAL,
NO. 218 EAST THIRTY-FOURTH STREET, NEW YORK CITY.

To the Honorable Members of the Board of Estimate and Apportionment of the City and County of New York:

In accordance with the request of the Honorable Ashbel P. Fitch, Comptroller, I respectfully submit the following estimate of the amount appropriated for the Mothers and Babies' Hospital for the year 1895.

Under the Laws of 1894, chapter 517, it is required that your Honorable Board allow fifteen dollars (\$15) for each homeless and needy mother who has received care or attention in the lying-in ward of the hospital, up to three hundred cases. The estimate of the number of patients for the year 1895 is 300, thus making \$4,500.

Respectfully,

WM. P. MARTIN, Treasurer and Attorney of the Mothers and Babies' Hospital.
Dated NEW YORK, September 1, 1894.

MAGDALEN BENEVOLENT ASYLUM.

MAGDALEN BENEVOLENT ASYLUM,
NEW YORK, August 23, 1894.

ASHBEL P. FITCH, Esq., Comptroller, City of New York:

DEAR SIR—In reply to your circular of July 30, 1894, just received by the Magdalen Benevolent Asylum, I am requested to say that we understand that the Magdalen Benevolent Asylum is entitled to a per capita allowance for the women committed to said asylum by the Police Courts of the City. Such allowance is made by the Consolidation Act, section 194, subdivision 21 and No. 17 under said subdivision.

As the number of committed girls varies from time to time, it is not easy to make an accurate estimate of the amount which may be required for the year 1895. The First Directress of the asylum informs me that their capacity to care for women so committed is about one hundred inmates. It is hardly probable that the full number would be in the asylum constantly.

If anything further than the above should be necessary or required I shall be very glad to furnish it if in my power.

Yours very truly,
WALTER EDWARDS, Chairman of Advisory Board.

The Counsel to the Corporation made a verbal report upon the claim of Charles A. Doremus, M. D., for services rendered to the District Attorney in the trial of Myers for murder, which was referred to the Comptroller October 22, 1894, and by him submitted to the Counsel to the Corporation for examination, and stated that he had conferred with Justice Barrett, District Attorney Fellows, and ex-District Attorney Nicoll, and found that the employment of Dr. Doremus was justifiable and necessary, and he therefore moved that the sum of \$6,000 be inserted in the Provisional Estimate for the year 1895, for the purpose.

Which was adopted by the following vote :
Affirmative—The Mayor, Deputy Comptroller, President of the Board of Aldermen, President of the Department of Taxes and Assessments, and Counsel to the Corporation—5.

The Mayor offered the following :
Resolved, That the sum of six hundred and thirty-one thousand eight hundred dollars and seventy-two cents (\$631,800.72), in the certificate of the State Comptroller, calling for a tax from the County of New York for State care of Insane, be not provided for in the Provisional Estimate for the year 1895, on the ground that it is an illegal tax.

Which was adopted by the following vote :
Affirmative—The Mayor, Deputy Comptroller, President of the Board of Aldermen, President of the Department of Taxes and Assessments, and Counsel to the Corporation—5.

The question was then taken upon the adoption of the Provisional Estimate for the year 1895, as amended.

Which was adopted by the following vote:

Affirmative—The Mayor, Deputy Comptroller, President of the Board of Aldermen, President of the Department of Taxes and Assessments, and Counsel to the Corporation—5.

The Deputy Comptroller presented the following:

Adopted.

On motion, the Board adjourned to meet on Monday, November 5, 1894, at 12 o'clock M.

E. P. BARKER, Secretary.

BOARD OF ESTIMATE AND APPORTIONMENT—CITY OF NEW YORK,
MAYOR'S OFFICE, CITY HALL,
MONDAY, November 5, 1894, 11.30 o'clock A. M.

The Board met in pursuance of an adjournment.

Present—Thomas F. Gilroy, the Mayor; Ashbel P. Fitch, the Comptroller; George B. McClellan, the President of the Board of Aldermen; Edward P. Barker, the President of the Department of Taxes and Assessments; William H. Clark, the Counsel to the Corporation.

The reading of the minutes of the meeting held October 30, 1894, was dispensed with.

The Comptroller offered the following:

Resolved, That the Provisional Estimate made by the Board of Estimate and Apportionment on the 30th day of October, 1894, of the amount required to pay the expenses of conducting the public business in the City and County of New York, in each Department and branch thereof, and the Board of Education, for the ensuing financial year, to wit: for the year one thousand eight hundred and ninety-five, be submitted to the Board of Aldermen, with the reasons for it in detail, as required by section 189 of the New York City Consolidation Act of 1882, as follows:

THE LEGISLATIVE DEPARTMENT.

The amount appropriated for the Common Council in the Provisional Estimate for 1895 is eighty-eight thousand dollars (\$88,000), being the amount of the Departmental Estimate for 1895 and the Final Estimate for 1894.

THE MAYORALTY.

The amount appropriated for the expenses of the Mayor's Office in 1895 is twenty-seven thousand eight hundred dollars (\$27,800), being the amount asked for in the Departmental Estimate for 1895 and \$200 less than was allowed in the Final Estimate for 1894, which includes the salary of the Mayor, as fixed by law at ten thousand dollars per annum. For the Mayor's Marshal's Office the sum of thirteen thousand seven hundred dollars (\$13,700) was asked for in the Departmental Estimate for 1895, and that amount has been allowed as necessary and reasonable in the Provisional Estimate, being the amount of the Final Estimate of 1894.

THE FINANCE DEPARTMENT.

The sum of \$302,200 was asked for in the Departmental Estimate for 1895, as required for the several objects and purposes therein, and is allowed as reasonable and necessary, including the salary of the Comptroller, fixed by law at \$10,000 per annum, and the compensation of the Chamberlain, also provided for by law, at \$25,000, and including the sum of \$40,000 for cleaning markets. The total is the same as that allowed in the Final Estimate for 1894.

INTEREST ON THE CITY DEBT.

In accordance with the statements submitted by the Comptroller with the Departmental Estimates, the amount appropriated for interest becoming due and payable in 1895 on bonds and stocks of the City of New York, exclusive of interest on bonds and stocks in the Sinking Fund, made payable therefrom by chapter 178 of the Laws of 1889, and including interest on bonds of the Towns of Morrisania and West Farms issued prior to their annexation to the city, and also interest on the estimated amount of revenue bonds to be issued in 1895, amounting in all to \$5,033,475.32, has been included in the Provisional Estimate to be raised by tax in 1895, which is a decrease of \$100,724.27 from the Final Estimate of 1894.

THE REDEMPTION OF THE CITY DEBT.

The sum of \$154,325.84 is included in the Provisional Estimate for the redemption of revenue bonds made payable in 1895, by special acts of the Legislature, and also the sum of \$16,000 for the redemption of the debt of the towns of Morrisania and West Farms, which become due in 1895, and also the sum of \$1,397,754.35, pursuant to article 8, section 11, of the State Constitution, as amended in 1884, requiring installments to be raised by tax annually for the redemption at maturity of bonds issued after December 31 of that year for the supply of water, amounting in all to \$1,568,080.19, being a decrease from the Final Estimate of 1894 of \$308,920.25.

Stocks amounting to the sum of \$910,000 become due in 1895, for which no appropriation is included in the Provisional Estimate, as the amount has been provided for by installments, and will be paid from the Sinking Fund for the Redemption of the City Debt, pursuant to the provisions of section 192 of the Consolidation Act of 1882, as amended by section 178 of the Laws of 1889.

THE STATE TAXES.

The State taxes for 1895, as certified by the State Comptroller, amounted to \$4,173,713.86, to which has to be added the amount required for the salary and expenses of the Shore Inspector, \$12,406.10, making a total of \$4,186,119.96. The total State tax, as certified by the State Comptroller, consists of the following items:

For Schools, .95 mill.....	\$1,818,820 26
For State care of Insane, .33 mill.....	631,800 72
For General Purposes, .55 mill.....	1,053,001 20
For Canals, .35 mill.....	670,091 68
	\$4,173,713 86

The amount charged for State care of Insane, viz.: \$631,800.72 has not been allowed in the Provisional Estimate for the same reasons that prompted its rejection last year, the question of the legality and constitutionality of this tax being still undetermined by the Courts. The amount allowed, therefore, in the Provisional Estimate for 1895 is \$3,554,319.24 including the compensation and expenses of the Shore Inspector.

RENTS.

The sum of \$134,767 is appropriated for rents of premises leased to the City for various departments, public offices, court-rooms, etc., other than armories and drill rooms, being a decrease of \$6,713 in the Final Estimate of 1894.

For rents of armories and drill rooms for the National Guard, not provided with quarters belonging to the City, the sum of \$17,750 is allowed, being a decrease of \$9,425 in the Final Estimate of 1894.

JUDGMENTS.

For the payment of judgments against the City that have been or may be obtained, and not otherwise provided for, the sum of \$125,000 is included in the Provisional Estimate of 1895, and is deemed to be required and necessary for this purpose.

LAW DEPARTMENT.

The sum of \$206,900 was asked for in the Departmental Estimate, being the same as allowed in the Final Estimate for 1894, and this amount has been included in the Provisional Estimate for 1895.

THE DEPARTMENT OF PUBLIC WORKS.

The sum of \$3,072,780 is appropriated for all objects and purposes, being \$578,610 less than the Departmental Estimate and \$10,820 more than the Final Estimate for 1894.

THE DEPARTMENT OF PUBLIC PARKS.

The sum of \$1,180,956 is appropriated as necessary and sufficient for all objects and purposes, which is less than the Departmental Estimate by \$166,999 and \$3,761 more than the Final Estimate for 1894.

THE DEPARTMENT OF STREET IMPROVEMENTS, TWENTY-THIRD AND TWENTY-FOURTH WARDS.

The sum of \$381,670 is appropriated for all the purposes and objects of this Department, being \$22,310 more than the Final Estimate for 1894 and \$373,105 less than the Departmental Estimate for 1895.

DEPARTMENT OF PUBLIC CHARITIES AND CORRECTION.

The sum of \$2,258,221 is appropriated as necessary and sufficient for all purposes and objects, being \$1,139,330 less than the Departmental Estimate for 1895 and \$37,454 less than the Final Estimate for 1894.

The Board of Estimate and Apportionment is of the opinion that increased facilities are urgently demanded for the care of the population of this Department, especially for the insane, but believe that the funds to provide for the same should be authorized by the Legislature from an issue of bonds, and not included in the tax levy for the ensuing year.

THE HEALTH DEPARTMENT.

The sum of \$422,080 is appropriated as necessary and sufficient for all the purposes and objects of this Department, being \$80,024 less than the Departmental Estimate, and \$3,000 less than the Final Estimate of 1894.

POLICE DEPARTMENT.

The sum of \$5,855,822.30 is appropriated as necessary and sufficient for all the purposes and objects, being \$909,000.25 less than the Departmental Estimate, and \$716,674.66 more than the Final Estimate of 1894, this increase having been made necessary by the provisions of chapters 741 and 751 of the Laws of 1894.

BUREAU OF ELECTIONS.

The sum of \$144,400 is appropriated as necessary and sufficient for the expenses of this Department, being the same amount as asked for in the Departmental Estimate and \$16,180 more than the Final Estimate of 1894, this increase having been made necessary by chapter 747 of the Laws of 1894, and the requirements of an additional force for the Board of Assessors.

BOARD OF EDUCATION.

The sum of \$4,923,207.77 is appropriated as necessary and sufficient for all objects and purposes, excepting the purchase of school sites and the erection of school buildings, which are pro-

vided for by the issue of bonds. The amount of this appropriation is \$244,152.39 less than the amount asked for in the Departmental Estimate for 1895, and is \$289,073.50 more than the amount allowed in the Final Estimate for 1894, this increase being in the judgment of the Board of Estimate and Apportionment imperatively demanded by the necessity for providing additional means and increased facilities for the instruction of a rapidly increasing school population.

COLLEGE OF THE CITY OF NEW YORK.

1st. Bidders must satisfy themselves, by personal examination of the location of the proposed work, and by such other means as they may prefer, as to the accuracy of the foregoing Engineer's estimate, and shall not, at any time after the submission of an estimate, dispute or complain of the above statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

2d. Bidders will be required to complete the entire work to the satisfaction of the Department of Docks, and in substantial accordance with the specifications of the contract. No extra compensation, beyond the amount payable for the work before mentioned, which shall be actually performed, at the price therefor, to be specified by the lowest bidder, shall be due or payable for the entire work.

The work to be done under the contract is to be commenced within five days after the date of the execution of contract, or within five days from the receipt of a notification from the Engineer-in-Chief of the Department of Docks that the work or any part of it may be begun, and all the work to be done under this contract is to be fully completed on or before the 31st day of December, 1894, or within as many days thereafter as may have elapsed between the date of execution of this agreement and the receipt of a notification from the said Engineer-in-Chief that the work or any part of it may be proceeded with; and the damages to be paid by the contractor for each day that the contract may be unfulfilled after the time fixed for the fulfillment thereof has expired are, by a clause in the contract fixed and liquidated at Fifty Dollars per day.

Bidders will state in their estimates a price for the whole of the work to be done in conformity with the approved form of contract and the specifications therein set forth, by which price the bids will be tested. This price is to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing this work.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect; and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be readvertised and relet, and so on until it is accepted and executed.

Bidders are required to state in their estimates their names and places of residence; and the names of all persons interested with them therein; and if no other person be so interested, the estimate shall distinctly state the fact; also, that the estimate is made without any connection with any other person making an estimate for the same work, and that it is in all respects fair, and without collusion or fraud; and, also, that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed to by all the parties interested.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, upon its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of

New York any difference between the sum to which said person or persons would be entitled upon its completion and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work to be done by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter as surety or otherwise, upon any obligation to the Corporation.

THE RIGHT TO DECLINE ALL THE ESTIMATES IS RESERVED, IF DEEMED FOR THE INTEREST OF THE CORPORATION OF THE CITY OF NEW YORK.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

Each estimate must contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and if no other person be so interested it shall distinctly state that fact. That it is made without any connection with any other person making an estimate for the same work, and is in all respects fair and without collusion or fraud. That no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested in the estimate or in the work to which it relates or in the profits thereof.

Each estimate must be verified by the oath, in writing of the party making the same, that the several matters therein stated are true, and must be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, to the effect that if the contract is awarded to the person making the estimate, they will, upon its being so awarded, become bound as his sureties for its faithful performance; and that if he shall refuse or neglect to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion and that which the Corporation may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting; the amount to be calculated upon the estimated amount of the work by which the bids are tested.

The consent last above mentioned must be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety, or otherwise, and that he has offered himself as surety in good faith, with the intention to execute the bond required by law.

No estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of the deposit will be returned to him.

THE COMMISSIONER OF PUBLIC WORKS RESERVES THE RIGHT TO REJECT ALL BIDS RECEIVED FOR ANY PARTICULAR WORK IF HE DEEMS IT FOR THE BEST INTERESTS OF THE CITY.

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE,
NO. 31 CHAMBERS STREET,
NEW YORK.

TO OWNERS OF LANDS ORIGINALLY ACQUIRED BY WATER GRANTS

ATTENTION IS CALLED TO THE RECENT act of the Legislature (chapter 449, Laws of 1889), which provides that whenever any streets or avenues in the city, described in any grant of land under water, from the Mayor, Aldermen and Commonalty containing covenants requiring the grantees and their successors to pave, repave, keep in repair or maintain such streets shall be in need of repairs, repaving or repavement, the Common Council may, by ordinance, require the same to be paved, repaved or repaired, and the expense thereof to be assessed on the property benefited; and whenever the owner of a lot so assessed shall have paid the assessment levied for such paving, repaving or repairing, such payment shall release and discharge such owner from any and every covenant and obligation as to paving, repaving and repairing, contained in the water grant under which the premises are held, and no further assessment shall be imposed on

such lot for paving, repaving or repairing such street or avenue, unless it shall be petitioned for by a majority of the owners of the property (who shall also be the owners of a majority of the property in frontage) on the line of the proposed improvement.

The act further provides that the owner of any such lot may notify the Commissioner of Public Works, in writing, specifying the ward number and street number of the lot that he desires, for himself, his heirs and assigns, to be released from the obligation of such covenants, and elects and agrees that said lot shall be thereafter liable to be assessed as above provided, and thereupon the owner of such lot, his heirs and assigns shall thenceforth be relieved from any obligation to pave, repair, uphold or maintain said street, and the lot in respect of which such notice was given shall be liable to assessment accordingly.

The Commissioner of Public Works desires to give the following explanation of the operation of this act: When notice, as above described, is given to the Commissioner of Public Works, the owner of the lot or lots therein described, and his heirs and assigns, are forever released from all obligation under the grant in respect to paving, repaving or repairing the street in front of or adjacent to said lot or lots, except one assessment for such paving, repaving or repairs, as the Common Council may, by ordinance, direct to be made thereafter.

No street or avenue within the limits of such grants can be paved, repaved or repaired until said work is authorized by ordinance of the Common Council, and when the owners of such lots desire their streets to be paved, repaved or repaired, they should state their desire and make their application to the Board of Aldermen and not to the Commissioner of Public Works, who has no authority in the matter until directed by ordinance of the Common Council to proceed with the paving, repaving or repairs.

Commissioner of Public Works

THE BOARD OF PUBLIC CHARITIES AND CORRECTION RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 64, CHAPTER 410, LAWS OF 1882.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Delivery will be required to be made from time to time, and in such quantities as may be directed by the said Commissioners.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, each in the penal amount of fifty (50) per cent. of the ESTIMATED amount of the contract.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, to the effect that if the contract is awarded to the person making the estimate, they will, upon its being so awarded, become bound as his sureties for its faithful performance; and that if he shall refuse or neglect to execute the same, they shall pay to the Corporation any difference between the sum to which he would be entitled upon its completion and that which the Corporation may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting; the amount to be calculated upon the estimated amount of the supplies delivered by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it, and as in default to the Corporation, and the contract will be readvertised and relet, as provided by law.

The quality of the articles, supplies, goods, wares and merchandise must conform in every respect to the samples of the same on exhibition at the office of the said Department. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required, before making their estimates.

Bidders will state the price for each article, by which the bids will be tested.
