The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence."*

### HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York ("PPB Rules"), vendors must first complete and submit an electronic prequalification application using the City's Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed at <http://www.nyc.gov/html/hhsaccelerator/html/roadmap/roadmap.shtml>. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

### Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

Administration for Children's Services (ACS)  
 Department for the Aging (DFTA)  
 Department of Consumer Affairs (DCA)  
 Department of Corrections (DOC)  
 Department of Health and Mental Hygiene (DOHMH)  
 Department of Homeless Services (DHS)

**ATI PROGRAM WITH GPS MONITORING** - Demonstration Project - Testing or experimentation is required - PIN# 20150600154 - Due 8-21-15 at 3:00 P.M.

To ensure ATI programs are safe and effective, there is a need for the courts and ATI service providers to enhance programmatic oversight of ATI participants, particularly felony youthful offenders (ages 16-18 years). The integration of cutting edge GPS monitoring and notification systems and treatment services in felony ATI programs may help address this area of concern, and ultimately improve ATI graduation and recidivism outcomes among higher-risk youthful offender participants.

The New York County District Attorney's Office (DANY) seeks to implement an Alternative to Incarceration (ATI) pilot program through a demonstration project with Corrisoft and the Center for Courtroom Innovation (CCI). The proposed project will evaluate the efficacy of a newly introduced ATI intervention model that incorporates a new state of the art enhanced electronic monitoring/notification system, and community-based treatment services that empower defendants to make positive life changes while living with their families. Pilot participants will consist of eligible youthful offenders (ages 16-18 years) being prosecuted by DANY. Higher risk defendants with a history of violence will be exempt from the pilot.

Any firm which believes it can also provide these services is invited to indicate so, by letter. Vendors are also encouraged to join the City Bidders list by filling out the "NYC-FMS Vendor Enrollment

## STATEMENT OF BASIS AND PURPOSE OF PROPOSED RULES

The Procurement Policy Board ("PPB") hereby proposes to promulgate amendments to the Rules of the City of New York in six respects:

- **Emergency Procurements:** On December 30, 2013, Mayor Bloomberg signed into law Local Law 135 of 2013 to amend Section 315 of the New York City Charter ("City Charter") to provide notification to the New York City Council ("Council") when agencies procure emergency goods, services or construction. The amendment to the City Charter requires agencies to provide the Council with the written determination of the basis for each emergency procurement and the selection of the contractor within fifteen days after contract award. This proposal seeks to amend Chapter 3 of Title 9 of the Rules of the City of New York to reflect the changes made to Section 315 of the City Charter.
- **Micropurchases:** The proposed amendment seeks to increase the dollar amount below which procurement and award of contracts for construction made without competition from \$20,000 to \$35,000, in order to increase micropurchase awards to minority and women-owned business enterprises.
- **Extension of Time for Performance:** Chapter 4 of Title 9 of the Rules of the City of New York currently sets forth the requirements for the application and approval of time extension requests for contracts requiring construction, goods, and non-construction related services. This proposal seeks to amend the rule to permit all services contracts and task orders under task order contracts to be extended pursuant to the rule.
- **Investment Services:** In order to increase the use by New York City's retirement systems of successful smaller investment managers, the proposed amendment will permit one or more of the New York City retirement systems to use a negotiated acquisition mechanism in order to allow direct contracts with a vendor that has successfully provided investment services management services to such system under an emerging manager program.
- **Public Notice:** The proposed amendment requires that agencies email IFBs, RFPs or notices of their availability to vendors unless a written request to receive such IFBs or notices of their availability by mail, fax, hand delivery, or otherwise is approved by the CCPO; and requires IFBs, RFPs or notices of their availability to include the email address of the agency contract person, if applicable. This proposal seeks to include electronic mailings as a manner in which invitations for bids and request for proposals are distributed.
- **Best Value:** New York State General Municipal Law § 103 was amended to permit purchase contracts to be awarded on the basis of best value. Best value is a basis for awarding a contract for goods or standard services which optimizes quality, cost and efficiency among responsive and responsible bidders or offerers, reflecting, whenever possible, objective and quantifiable analysis. Pursuant to GML § 103 and State Finance Law § 163, such a basis may identify quantitative factors for offerers that are small businesses or certified minority- or women-owned business enterprises (M/WBE) when evaluating bids and offers. On April 8, 2013, the Procurement Policy Board (PPB) adopted amendments to Chapter 3 of Title 9 of the Rules of the City of New York to authorize the use of best value awards based on competitive sealed bids and competitive sealed proposals. PPB is proposing to further amend Chapter 3 to establish requirements for implementing quantitative factors for M/WBEs when evaluating bids and offers for awarding of contracts as per State Finance Law § 163(1)(j).

PPB's authority for these rules is found in Sections 311 and 1043 of the New York City Charter.

### The Rule Amendments:

New material is underlined and deletions are [bracketed].

"Shall" and "must" denote mandatory requirements and may be used interchangeably in the rules of this board, unless otherwise specified or unless the context clearly indicates otherwise.

### Section 1. Paragraph (3) of subdivision (e) of section 3-06 of Chapter 3 of Title 9 of the Rules of the City of New York is amended as follows:

- (e) Public Notice and Filing Requirements. Solicitations in emergency procurements are subject to the following public notice and reporting requirements:

\* \* \* \* \*

- (3) A determination of the basis for the emergency and the selection of the vendor shall be filed with the Corporation Counsel and the Comptroller, and shall [include:] further be submitted to the City Council no later than fifteen days following the contract award. The determination shall

include:

- (i) the date emergency first became known;
- (ii) a list of goods, services, and construction procured;
- (iii) the names of all vendors solicited;
- (iv) the basis of vendor selection;
- (v) contract prices;
- (vi) the past performance history of the selected vendor;
- (vii) a listing of prior/related emergency contract; and
- (viii) PIN.

\*\*\*\*\*

**Section 2. Subdivisions (c) and (d) of section 3-08 of Chapter 3 of Title 9 of the Rules of the City of New York are amended as follows:**

§3-08 Small Purchases

\*\*\*\*\*

(c) Scope.

(1) Competition Objective.

- (i) Public notice of solicitation and award, presolicitation review report, Recommendation for Award, vendor protests, written notice to the low bidder or offeror of non-responsiveness, VENDEX Questionnaire (unless the aggregate value of purchases, franchises, and concessions awarded to that vendor including this one during the immediately preceding twelve-month period equals or exceeds \$100,000), and public hearing shall not be required for small purchases awarded pursuant to this section.
- (ii) Micropurchases. For procurements of goods and all services except construction the value of which is \$20,000 or less, and for procurements of construction the value of which is \$35,000 or less, no competition is required except that in making purchases below [0]this limit, Contracting Officers shall ensure that the noncompetitive price is reasonable and that purchases are distributed appropriately among responsible vendors, including M/WBE vendors. Documentation of such purchases shall identify the vendor the item was purchased from, the item purchased, and the amount paid.
- (iii) Small Purchases. For procurements of goods and all services except construction [in] valued over \$20,000 or procurements of construction valued over \$35,000 through the small purchase limits, at least five vendors shall be solicited at random from the appropriate citywide small purchases bidders list established by the CCPO for the particular goods, services, construction, or construction-related services being purchased, except where the bidders list consists of fewer than five vendors, in which case all vendors on the list shall be solicited. Agencies may additionally employ any small purchase technique sanctioned by DSBS that is not otherwise in violation of these Rules. The agency may solicit additional vendors but only with the approval of the CCPO. Responsive bids or offers shall be obtained from at least two vendors. For purposes of this section, a response of "no bid" is not a responsive bid. If only one responsive bid or offer is received in response to a solicitation, an award may be made to that vendor if the Contracting Officer determines that the price submitted is fair and reasonable and that other vendors had reasonable opportunity to respond.

(2) Solicitation Methods and Use.

For small purchases of particular goods and all services except construction valued at more than \$20,000 and small purchases of construction valued at more than \$35,000, agencies shall use a written solicitation describing the requirements, which shall contain, at a minimum:

- (i) a description of the item or service requested;
- (ii) time, date, place, and form of requested response;
- (iii) basis for award; and
- (iv) name and telephone number of the Contracting Officer to whom inquiries may be directed.

- (d) Award. Small purchases for goods and all services except construction valued at over \$20,000 or small purchases for construction valued at over \$35,000 shall be awarded to the lowest responsive and responsible bidder or to the responsive

and responsible offeror that has made the most advantageous offer. After such determination has been made and all necessary approvals have been obtained, the Contracting Officer shall issue a purchase order or contract, as appropriate, to the successful bidder or offeror.

\*\*\*\*\*

**Section 3. Subdivision (b) of section 4-03 of Chapter 4 of Title 9 of the Rules of the City of New York is amended as follows:**

\*\*\*\*\*

(b) Goods and [Non-Construction Related] Services.

- (1) An extension of time may be granted only by the ACCO of the agency that awarded the contract or task order under a task order contract, upon written application by the contractor.
- (2) The ruling of the ACCO shall be final and binding as to the allowance of an extension, and the number of days allowed.
- (3) The application for extension must detail each cause for delay, the date it occurred, and the resulting total delay in days attributed to such cause.

\*\*\*\*\*

**Section 7. Paragraph (1) of subdivision (o) of section 3-02 of Chapter 3 of Title 9 of the Rules of the City of New York is amended as follows:**

(o) Bid Evaluation and Vendor Selection.

(1) Vendor Selection.

\*\*\*\*\*

- (ii) Contracts for Purchase of Goods and Standard Services. Prior to the bid, the ACCO shall determine whether the goods or standard services shall be awarded to the lowest responsive and responsible bidder or to the responsive and responsible bidder whose bid represents the best value to the City. The responsive and responsible bidder whose bid meets the requirements and objectively measurable evaluation criteria set forth in the IFB, and whose bid price is the lowest, or whose bid represents the best value to the City by optimizing quality, cost and efficiency, shall be selected for the contract.
- (iii) If award will be made based on best value, a certified M/WBE in a group for which there is a goal established pursuant to section 6-129 of the New York City Administrative Code shall, except with the permission of the CCPO, be given a price preference of 10% and will be evaluated as if the bid price were 10% lower.
- (iv) If award will be made based on best value, best value may be determined by the ACCO, or the ACCO may convene a committee to make such determination. Any such committee shall consist of persons with knowledge, expertise and experience sufficient to make a fair and reasonable determination. As set forth below the ACCO, or the committee as the case may be, may determine best value by consideration of price together with other factors deemed relevant by the ACCO and set forth in the IFB. In making such determination the ACCO, or committee, shall consider the low responsive bid and the next low responsive bids that are within ten percent (10%) of the low responsive bid in price, including any bids that were adjusted pursuant to subdivision (iii), or such higher percentage as approved by the CCPO either on an individual basis or by category or class. Such factors may include:

- (1) features of the offered product or service set forth in detailed specifications for the product offered;
- (2) warranties and or maintenance to be provided with the product or service;
- (3) references, past performance and reliability, including reliability or durability of the product being offered and current or past experience with the provision of similar goods or services;
- (4) organization, staffing (both members of staff and particular abilities and experience), and ability to undertake the type and complexity of the work;
- (5) financial capability; and
- (6) record of compliance with all federal, State and local laws, rules, licensing requirements, where applicable, and executive orders, including but not limited to compliance with existing labor standards and prevailing wage laws.

\*\*\*\*\*

**Section 8. Paragraph 1 of subdivision (a) of section 3-03 of Chapter 3 of Title 9 of the Rules of the City of New York is amended as follows:**

- (a) The Request for Proposals (RFP) – Contents. RFPs shall include the following data:
  - (1) statement that the contract award will be made to the responsible proposer whose proposal represents the best value to the City by optimizing quality, cost and efficiency and therefore is determined to be the most advantageous to the City, taking into consideration the price and such other factors or criteria that are set forth in the RFP, including the quantitative preference to be provided to proposals submitted by certified M/WBEs for which there is a goal established pursuant to section 6-129 of the New York City Administrative Code;

\*\*\*\*\*

**Section 9. Subdivision (g) of section 3-03 of Chapter 3 of Title 9 of the Rules of the City of New York is amended as follows:**

\*\*\*\*\*

- (1) Contracts for Purchase of Goods and Standard Services. Proposals submitted by certified M/WBEs in a group for which there is a goal established pursuant to section 6-129 of the New York City Administrative Code shall, except with the permission of the CCPO, be provided one of following quantitative preferences, as determined by the ACCO:
  - (i) Ten (10) points out of one hundred (100) technical points; or
  - (ii) If such proposal's score was above a minimum threshold for quality on the weighted criteria as established in the solicitation, either a price preference of ten percent (10%) or a point preference of ten (10) points out of one hundred (100) in the evaluation of its proposal, as to be determined by the ACCO.
- (2) [(1)] Evaluation Committee. Proposals shall be reviewed by an evaluation committee consisting of no fewer than three persons with knowledge, expertise, and experience sufficient to make a fair and reasonable evaluation. If an RFP incorporates multiple competitions, each competition may be evaluated by a separate committee. The ACCO shall require each member of the evaluation committee(s) to submit a signed statement, in a format approved by the CCPO, agreeing to prohibitions on any conflicts of interest.
  - (a) Randomized evaluation process. If the ACCO determines that such a high volume of competing proposals is likely to be received that it will be infeasible for each member of the evaluation committee to read each proposal, the ACCO may, subject to the approval of the CCPO, establish a pool of appropriate evaluators and then randomly assign each proposal to at least three such evaluators for review.
  - (b) Outside Evaluators. The evaluation committee may include persons who are not employed by the agency. In addition, the ACCO may determine, subject to the approval of the CCPO, that it in the best interests of the City for the evaluation committee to include persons who are not employees of the City of New York, provided however that such non-City employees may not constitute a majority of the evaluation committee. Such persons must serve without financial compensation, but may be entitled to travel and other related expenses as may be reasonably incurred in the execution of their role as an evaluator.
- (3) [(2)] Rating Sheets. Ratings sheets or other written evaluation forms shall be used to evaluate proposals by the evaluators and each evaluator shall sign and date his or her rating sheet. Initial ratings may be amended and the amended ratings recorded on amended ratings sheets. Copies of all initial and amended rating sheets or evaluation forms shall be maintained.
- (4) [(3)] Proposal Discussions with Individual Offerors. The evaluation committee shall evaluate all proposals and may elect to enter into discussions with those whose proposals are acceptable or are reasonably likely to be made acceptable for any or all of the following purposes:

- (i) promoting understanding of the City's requirements and the vendors' proposals and capabilities;
  - (ii) obtaining the best price for the City; or
  - (iii) arriving at a contract that will be most advantageous to the City taking into consideration price and the other evaluation factors set forth in the RFP.
- (5) [(4)] Conduct of Discussions.
- (i) Proposers shall be accorded fair treatment with respect to any opportunity for discussions and revisions of proposals.
  - (ii) The ACCO shall establish an agenda and schedule for conducting discussions.
  - (iii) If there is a need for any substantial clarification of, or change in, the RFP, the RFP must be amended to incorporate such clarification or change and shall be provided to all proposers.
  - (iv) Auction techniques (revealing one proposer's price to another) and disclosure of any information derived from competing proposals are prohibited.
  - (v) Any oral clarification of a proposal shall be confirmed in writing by the proposer.
- (6) [(5)] Best and Final Offers. Best and final offers are the revised and corrected final proposals submitted by proposers after discussions, if any, have been held by the procuring agency.
- (i) The ACCO shall establish a common date and time for the submission of best and final offers.
  - (ii) Best and final offers shall be submitted only once unless the ACCO makes a determination that it is in the City's best interest to conduct additional discussions and/or require another submission of best and final offers.
  - (iii) Proposers shall be informed that if they do not submit a notice of withdrawal or another best and final offer, their immediate previous offer will be construed as their best and final offer.
  - (iv) All best and final offers shall be recorded on the Register of Proposals and handled in accordance with the control procedures contained in these Rules.
  - (v) The ACCO may request best and final offers on the whole proposal or on any one or combination of its component parts (e.g., price, technical qualifications, approach, and/or capability). The request shall be the same for all proposers.
  - (vi) Best and final offers shall be evaluated in accordance with this subdivision.
  - (vii) For construction-related consulting services, in the event that the agency has chosen to negotiate a fair and reasonable price with the top- ranked proposer, if such a fee is not successfully negotiated, the agency may conclude such negotiations, and enter into negotiations with the next ranked vendor(s), as necessary.

New York City's Minority- and Women-Owned Business Enterprise (M/WBE) program was established to enhance the ability of M/WBEs to compete for city contracts, to enhance city agencies' awareness of such business enterprises, and to ensure their meaningful participation in city procurement. The City's M/WBE Program was signed into law by New York City Local Law 129 of 2005, and was later expanded by New York City Local Law 1 of 2013 (Local Law 1). PPB is proposing to amend Chapter 1 of Title 9 of the Rules of the City of New York to clarify the definition of an M/WBE as per Local Law 1. This clarification will avoid any confusion about other similar certifications for M/WBE's.

The authority for PPB to promulgate these rules is found in sections 311 and 1043 of the New York City Charter.

**The Proposed Rule Amendments**

New material is underlined and deletions are [bracketed].

"Shall" and "must" denote mandatory requirements and may be used interchangeably in the rules of this board, unless otherwise specified or unless the context clearly indicates otherwise.

**Section 1. The definition of "M/WBE", appearing alphabetically in subdivision (e) of section 1-01 of Chapter 1 of Title 9 of the Rules of the City of New York, is amended to read as follows:**

M/WBE. [Minority and Women's Business Enterprise;] An acronym that stands for Minority and Women Owned Business Enterprise. STATEMENT OF BASIS AND PURPOSE OF RULE

The TLC is proposing rules which would establish protection for all licensed drivers from retaliatory actions by licensed base and vehicle owners made in response to complaints made against those owners by drivers. Under current TLC Rule 58-21(j), medallion taxi drivers are already afforded this protection from retaliatory actions taken by medallion owners or managing agents.

Given that the majority of licensees do not operate medallion vehicles, the TLC seeks to extend driver protection to all drivers. The purpose of the proposed rule is to afford all licensees equal protection under TLC Rules and encourage them to bring legitimate complaints to the attention of the TLC without fear of reprisal. This is necessary in order for the TLC to perform its regulatory and supervisory functions properly.

The Commission's authority for this rule is found in Section 2303 of the New York City Charter and Section 19-503 of the Administrative Code of the City of New York.

New material is underlined.

**NOTE:**

The National Oilheat Research Alliance (NORA) will resume full operations in 2015 with the fee expanding to #4 heating oil. This fee will apply to heating oil invoices only. The fee collections began January 1, 2015. All other terms and conditions of these awards remain the same. Please contact this office if you have any questions.

The Bio-Diesel Blender Tax Credit was reinstated for 2014. As of January 1, 2015, the Bio-Diesel Blender Tax Credit has been rescinded for \$1.00 per gallon on B100. Therefore, for deliveries after January 1, 2015, the contractor will be collecting additional fees which will be shown as a separate line item on the invoice. The additional fee for items will range from \$0.05 for B5 to \$0.20 for B20 per gallon, varying on the percentage of biodiesel to be used. Should the tax credit be extended, this additional fee will be discontinued and removed from the invoice.

Federal excise taxes are imposed on taxable fuels, (i.e., gasoline, kerosene, and diesel), when removed from a taxable fuel terminal. This fuel excise tax does not include Leaking Underground Storage Tank (LUST) tax. LUST tax applies to motor fuels for both diesel and gasoline invoices. Going forward, LUST Tax will appear as an additional fee at the rate of \$0.001 per gallon and will be shown as a separate line item on your invoice.

**REMINDER FOR ALL AGENCIES:**

Please send inspection copy of receiving report for all gasoline (E85, UL & PREM) delivered by tank wagon to OCP/Bureau of Quality Assurance (BQA), 1 Centre Street, 18th Floor New York, NY 10007.

Written comments will be accepted until 5:00 P.M. on Thursday, October 8, 2015 and may be submitted at the public scoping meeting, or to the addresses below.

Directing that an Environmental Impact Statement be prepared, the Environmental Assessment Statement, Positive Declaration, and draft Scope of Work were issued by the Office of the Deputy Mayor for Housing and Economic Development on August 12, 2015, and are available for review from the contact person listed below and on the websites of the Mayor's Office of Sustainability and the New York City Economic Development Corporation: [www.nyc.gov/oec](http://www.nyc.gov/oec) and [www.nycfedc.com](http://www.nycfedc.com), respectively.

The New York City Economic Development Corporation (NYCEDC) is proposing to implement a Citywide Ferry Service (CFS) that would

provide an affordable and convenient transit option to residents in otherwise transit-isolated neighborhoods. The proposed CFS would expand on the existing East River Ferry (ERF), a privately operated commuter and recreational transit service paid for by the City of New York and NYCEDC and managed by NYCEDC. The ERF serves seven landings year-round including two Manhattan terminals at East 34th Street and Pier 11, and five other landings along the Brooklyn and Queens waterfronts. On summer weekends, the ERF also serves Governors Island. In support of the City's long-standing goal of expanding ferry service as a resource for commuters and recreational users, the Citywide Ferry Service would introduce five new ferry routes. This expanded ferry service would provide numerous benefits to the city, including linking isolated areas to established business districts, supporting commercial and residential development in emerging waterfront areas, easing congestion on other transit systems, and providing a resilient transit alternative that would support the goal of strengthening the city's infrastructure to handle future storm and flooding events. In addition, the proposed CFS would provide additional service for recreational ferry users to waterfront open spaces such as Pugsley Creek Park in the Bronx, Gantry Plaza State Park in Long Island City, Queens, and Brooklyn Bridge Park in Brooklyn, thereby supporting expanded visitation of these open spaces and the citywide effort to increase recreational activity on the waterfront.

In total, including the existing ERF, the Citywide Ferry Service would include 21 landings, which would require the creation of 10 new ferry landings, upgrades to five existing landings (including two terminals, Midtown/East 34th Street and Pier 11/Wall Street), and the use of six existing landings. Upgrades to existing landings would be intended to increase capacity for ferry landings and/or accommodate additional passenger circulation. The majority of landings would feature a barge (35 feet by 90 feet), connected to the shore by a gangway. The barge would accommodate passenger queuing and shelter, a ticket machine and information kiosk, lighting, and static or digital signage. All landings would be designed for accessibility in conformance with the Americans with Disabilities Act (ADA). At all landings, monopile dolphins (used by vessels berthing and laying over at each landing) would be constructed around the barges to ensure safe ferry operations. Some landings may require more extensive infrastructure, including bulkhead and/or pier construction. NYCEDC would be responsible for the maintenance of the ferry landings, including monthly inspections of mechanical components and repairs as needed. The structural elements of the ferry landings would be inspected on a three- to five-year basis. At several of the proposed ferry landings, the exact location of the barge along the shoreline and its upland gangway connections is currently undetermined: for the Soundview, Long Island City North, and Red Hook landings, multiple sites are currently under consideration. The exact location of each potential landing will be determined during this environmental review through further design; coordination with city, state, and federal agencies; and community input. Therefore, all potential locations under consideration for each landing will be analyzed in this environmental review and sites that are eliminated will be disclosed.

NYCEDC would launch the new service in two phases and would introduce the first phase with three new ferry routes (Astoria, South Brooklyn, and Rockaway routes) beginning in June 2017. The second phase, with two new ferry routes (Soundview and Lower East Side routes) would follow by the end of 2018. The service would provide frequent, daily service generally between 6:30 A.M. to 10:00 P.M. on weekdays and weekends, to each of the 21 landings.

In addition to the new ferry routes, the Citywide Ferry Service project would introduce two new shuttle bus service routes to service the proposed Rockaway landing.

The proposed project would require multiple City approvals. Some of these approvals are discretionary actions requiring review under the New York State Environmental Quality Review Act (SEQRA) and City Environmental Quality Review (CEQR). The Office of the Deputy Mayor for Housing and Economic Development will be the lead agency for CEQR. It is anticipated that the proposed Citywide Ferry Service would require approval of several discretionary actions including the following:

- 1) Capital expenditures by the City of New York to provide funding for procurement of barge and gangway infrastructure for use at landings;
- 2) Potential decision to provide funding for the operation of the CFS;
- 3) Mayoral Zoning Override to waive regulations relating to permitted uses in residential districts (Zoning Resolution [ZR] §22-00) to allow for the proposed new landings and upgrades to existing landings; parking (ZR §62-43) and pick up and drop off areas (ZR §62-462); general requirements for visual corridors and waterfront public access areas (ZR §62-51 through §62-54 and §62-56 through §62-59); design requirements for waterfront public areas (ZR §62-60); certification by the City Planning Commission (CPC) regarding waterfront public access and visual corridor requirements (ZR §62-81); and special permit to allow ferries in residential districts (ZR §62-832).

In addition, the Citywide Ferry Service would also require New York City Department of Transportation (NYCDOT) approvals to operate a private ferry service and/or to use landings under the jurisdiction of NYCDOT. Lastly, implementation would also require waterfront permitting approvals from the New York State Department of Environmental Conservation and U.S. Army Corps of Engineers.
