BELLEVUE AND ALLIED HOSPITALS.

Report for the Quarter Ending December 31, 1904.

NEW YORK, January 1, 1905.

Hon. GEORGE B. McCLELLAN, Mayor:

SIR—The Trustees of Bellevue and Allied Hospitals have the honor of presenting the following report for the three months ending December 31, 1904:

THE DEPARTMENT AS A WHOLE.

The position of Superintendent of Bellevue and Allied Hospitals rendered vacant by the resignation of Dr. William Mabon on April 13, 1904, has not yet been filled. The Commissioner of the Department of Public Charities has been requested to permit the transfer of Dr. John J. Fitzgerald to this position from his present one of Superintendent of the Kings County Hospital, but has not yet replied. In the meantime Mr. Michael J. Rickard, the Assistant Superintendent, has been Acting Superintendent, and because of his increased duties, owing to the absence of a Superintendent and to the growth of the hospital service, the Board of Estimate has been requested to increase his salary from \$2,000 to \$3,500 per annum. He has also been authorized to employ some one temporarily as an assistant.

New Positions.

Owing to the amount of building in progress on the new hospitals, all needing constant supervision, the position of General Inspector of Construction has been created at a salary of \$2,000 per annum. This has been approved by the City authorities, and public notice has been given of an open competitive examination to be held on January 5, 1905. Dr. Charles Norris, who was appointed Director of the Pathological Laboratories on July 27, entered upon the duties of his position on October 1.

Previous to this quarter the physicians in charge of the Psychopathic Wards at Bellevue Hospital were entitled Resident and Assistant Resident Physicians. But as they are solely occupied with "the reception, medical examination, and temporary care of persons alleged to be insane," the titles of Resident Alienist and Assistant Resident Alienist seem to be much more appropriate, and the Board of Estimate has therefore been asked to change these titles accordingly. It has approved of the change, which is now under consideration by the Board of Aldermen. This Board is also considering a request for the creation of the grades of male and female stenographers, at \$900 and \$720 per annum, respectively.

Apothecary Department.

The Supervising Apothecary of the Department, Mr. Martin O'Connor, was taken ill with appendicitis on the 1st day of October, and on operating it was discovered that he had suppurative peritonitis and that there was very little chance for his life. He died on October 4. The Trustees learned of his death with regret and have recorded in their minutes their appreciation of his faithful services. On November 4 Mr. Walter P. Stowe was promoted from the position of Apothecary at Bellevue Hospital to the position of Supervising Apothecary, left vacant by Mr. O'Connor's death.

Miscellaneous.

The question of the advisability of installing vacuum sweeping systems in the new hospitals of the Department has been under investigation. This system of cleaning seems to have some advantages for hospital use, and the matter has therefore been referred to a committee of the Trustees for further information.

Since the appropriation for salaries for the year 1905 is insufficient for the payment of employees at the present rates, a reduction of the wages of Hospital Helpers has had to be effected, to the very great regret of the Trustees. On the recommendation of the Acting Superintendent, this has been done in the following manner: Helpers paid \$40 per month or less are to be paid the first month from \$10 to \$25 less than the present rate, according to the class of their position and the opportunity for improvement. Each succeeding month their wages are to be raised, if their work is satisfactory, until they receive the regular rate.

Owing to the lack of proper accommodations in the Morgue for the making of the autopsies, it has been decided to purchase five additional tables of suitable size, the cost not to exceed \$150.

BELLEVUE HOSPITAL.

The number of admissions to the hospital—6,810—shows a slight decrease from the number for the last quarter of 1903, which was 6,863. Of those discharged, the number improved is 2,915, as compared with 2,481 for 1903, but the number well is only 1,297, as compared with 1,869, and the number of unimproved is 461, as compared with 203. The number of deaths is slightly smaller.

New Buildings.

To relieve the crowded condition of the hospital and to do away with the transferring of convalescents before they are in a proper condition to be removed, it is proposed to build four additional pavilions on the space between the main building and the river. It seemed best that these should be portable buildings because of the prospect of the construction of the new hospital in the near future, and because this kind of building could be erected much more quickly than any other. The Ducker Company alone being able to supply the desired form, the award for this work will be given to them without public letting, in accordance with a resolution of the Board of Aldermen, approved by the Mayor, on the 20th of December. This will save the delay of advertising for bids. The Ducker Company has, in fact, already begun work on the foundations of the buildings.

Appointments and Changes in the Medical Staff.

Dr. Alexander Lambert and Dr. William F. Fluhrer were appointed members of the Conference Committee for the Fourth Division of Bellevue Hospital on October 13.

Dr. Cyrus J. Strong has been promoted from the position of Assistant Attending Physician to that of Attending Physician on the Fourth Division of the Hospital. Dr. Edward Sternberger has been appointed to the place left vacant by Dr. Strong's promotion.

Dr. Edwin Beer has been appointed Assistant Physician to Out-Patients.

Dr. Charles Norris, the Director of the Pathological Laboratories, was on December 2 given a seat in the Medical Board, without the privilege of a vote.

Psychopathic Wards.

On October 7 Dr. M. S. Gregory was promoted from the position of Assistant Resident Physician in the Psychopathic Wards to that of Resident Physician, rendered vacant by the resignation of Dr. Flavius Packer on September 30. Dr. Gregory has been in great need of assistants. The service of these wards has continued to be heavy, and it has not been practicable to appoint any one regularly as his assistant since the Civil Service eligible list of Resident Physicians is the only one available from which to make an appointment, and the examination for this position does not deal particularly with the technical knowledge necessary for the examination and care of the insane. Former appointments were made by the transfer of the appointee from the State Civil Service to the Municipal Civil Service, but the Municipal Civil Service Commission has refused to make any further appointments in this way. The Commission has been requested, therefore, to authorize the change of title of Resident Physician to Alienist, and to hold an examination for the latter position. This it has resolved to do as soon as possible. In the meantime Dr. C. H. Holmes, who was temporarily appointed by the Trustees on October 3, 1904, to assist Dr. Gregory, has successfully passed a non-competitive examination for the position of Alienist and will assist Dr. Gregory until an eligible list for the position is established by the Municipal Civil Service Commission.

The purchase of a better grade of clothing for the patients in the Psychopathic Wards has been approved.

Miscellaneous.

A male graduate nurse has been assigned to the reception office to assist in the reception and examination of the patients. The nurse is of great assistance to the doctor examining the patients and in preserving order in the office.

The Police Commissioner has been requested to assign police matrons to the women's alcoholic ward in place of the patrolmen now on duty there, and to assign the patrolmen thus released, to duty in the reception office. The matrons are better able to control the patients in these wards, and a patrolman can often be of service in the reception office or on the grounds.

The extension of the bulkhead on the river front, to provide additional space for the site of the new Bellevue is being carried on by the Department of Docks and Ferries. The new bulkhead has been completed and the work of filling in the extension has been begun.

Owing to the large and increasing number of Jewish patients in the hospitals of the Department, Rev. Abram Blum, who served without remuneration as Jewish Chaplain for nearly a year until October 28, was then appointed Chaplain, with a salary of \$450 per annum, in order that he might be able to devote his time more entirely to the hospital work.

The purchase of overcoats and shoes for the out-patients in the tuberculosis tent has been approved.

The pathological laboratory and the examining room for the tuberculosis clinic have been completed. Ward 34 is being enlarged by cutting down some partitions, and the plumbing in this ward is being thoroughly renovated. The tents on the hospital grounds have been covered with wooden roofs and these have been found much more satisfactory than the canvas ones. An investigation is being made with a view to installing a new X-ray apparatus, as the present one is not adequate for some of the finer work for which it is needed.

GOVERNEUR HOSPITAL.

The number of admissions for this quarter shows an increase over the number for last year, being 966, as compared with 939. The total number treated is 1,057, as compared with 1,022. The hospital has been taxed to its utmost to accommodate so many.

The New Wing.

It is expected that in the course of a year the construction of the new wing will be far enough advanced to relieve somewhat the present crowded condition of the hospital. The exterior brick work has already been practically completed and the fire-proof partitions are being put up in the interior. The roof has been tiled and the slating begun. The plumbing is well started and other interior work, such as building the elevator shaft and the heating and ventilating ducts, is begun. This wing, when complete, will increase not only the capacity of the hospital, but also the efficiency of the service, for the present quarters are inadequate in many respects. Work on the new morgue and on the stables has also been started. In the old wing a boiler pit has been completed and three new boilers are nearly ready for use. The heating and ventilating ducts are completed to the fifth floor in this part of the building.

Medical Appointments.

The following appointments have been made to the Out-Patient Department of Gouverneur Hospital:

Dr. W. H. Steers, Dr. Morris Rosenthal and Dr. Israel Grushlaw, Laryngologists.
Dr. Morris Levine and Dr. James Green, Assistant Laryngologists.
Dr. David Lazarus and Dr. Pauline Scharfmann, Medical Clinical Assistants.

Miscellaneous.

The question of the advisability of extending the ambulance district of the hospital to include the Fifth Precinct is being considered, but it does not seem practicable to do this until the new wing has been completed. The architect has recommended the installation of a vacuum sweeping system, and the advantages of such a system are being investigated by a Committee of the Trustees.

HARLEM HOSPITAL.

About one-half of the construction of the new hospital is finished. The exterior of the building is nearing completion and the interior will soon be begun. Very little can be done at present on account of the cold weather.

Appointments.

The Conference Committee of the Trustees has been relieved of its duties as regards appointments at Harlem Hospital by the appointment of Mr. Robbins and Mr. Tack, who will serve as a Conference Committee for Harlem and Fordham Hospitals.

The following appointments have been made to the Out-Patient Department of Harlem Hospital:

Dr. M. J. Schwerd, Otolgologist and Laryngologist to Out-Patients.
Dr. H. O. Wolff, Neurologist to Out-Patients.
Dr. C. S. Stern, Genito-Urinary Surgeon to Out-Patients.
Dr. Samuel Barshell, Surgeon to Out-Patients.
Dr. S. H. Meuer, promoted from Assistant Surgeon to Surgeon to Out-Patients.
Dr. J. Jarcho, Assistant Surgeon to Out-Patients.
Dr. J. J. Donovan, Assistant Surgeon to Out-Patients.
Dr. Oswald T. Dinnick has been appointed Interne to the Hospital.
Dr. Henry Krauskopf, the House Surgeon, contracted diphtheria in November and was removed to the Minton Hospital. He recovered and returned to his duties about the first of December.

FORDHAM HOSPITAL.

The census for this quarter shows an increased service, the numbers for 1904 being 279, as compared with 219 for 1903.

The New Hospital.

The construction of the new Fordham Hospital is progressing very satisfactorily. All the excavation has been completed and the water mains and drains are laid. The foundations of the main building are finished and preparation is being made to lay the bases for the columns. The brick work of the ambulance station has been topped to the roof and the roof is being put on. The nurses' home is almost ready to be roofed, and the laundry building has been built up to the first story.

Mr. Robbins and Mr. Tack, the new Conference Committee on appointments for Harlem, will also serve as a Conference Committee for Fordham. No new appointments have been made either to the Medical Board or to the House Staff.

A tent cottage has been erected on the hospital grounds to relieve the overcrowding in the main buildings.

On the recommendation of the Executive Committee of the Medical Board, the Trustees have authorized the purchase of a vehicle to convey the members of the Visiting Staff and the clergymen whose duties call them to the hospital to and from the station at Fordham Heights.

JAMES K. PAULDING, Secretary.

BOARD OF EXAMINERS.

June 9, 1905.

Present—Messrs. Walter Cook, Warren A. Conover, Edward F. Croker, Charles G. Smith, Lewis Harding, Charles Buek and William J. Fryer, Chairman.

Meeting called to order at 2 p. m.

On motion, minutes approved as read.

Appeal 24, New Building 362 of 1905, M. J. Garvin, appellant.

Laid over last meeting.

Mr. Garvin appeared before the Board.

On motion, laid over.

Appeal 25, F. S. C. 6 of 1905, Nos. 225 and 227 West Fifty-eighth street, Manhattan, J. H. Monheimer, appellant.

On motion, referred to Chief Croker for examination and report with recommendation.

On motion, approved.

Appeal 26, New Building 455 of 1905, Nos. 105 to 111 West Two Hundred and Seventy-first street, Manhattan, F. C. Browne, appellant.

"No. 6. Proposed extension is thirteen stories in height and should be constructed entirely of incombustible material."

The appellant respectfully submits the opinion that the law did not contemplate the classing of a penthouse as a thirteenth story, when said penthouse covers such a small percentage of the total area of the roof, as in this case.

It is respectfully requested that the building be exempted from the requirements of section 105 of the Building Code as to fireproofing.

1. All walls surrounding penthouse will be carried up to their proper height.

2. Floor will be made of cement.

3. Wire glass will be used wherever glass is necessary.

4. Proper skylights will be provided.

5. All woodwork for the window frames, sash, doors, trim and base of the penthouse will be thoroughly fireproof.

6. The highest point of the penthouse roof will not exceed 150 feet from the curb level.

7. All woodwork entering into the construction of the penthouse will be fireproofed by the process which is fully accepted and approved by the Bureau of Buildings.

8. The entire penthouse will be constructed entirely fireproof.

9. And that a standpipe with hose connection and outlet in the hall of the penthouse will be provided.

10. Penthouse will not cover more than 50 per cent. of the roof area.

Mr. Browne appeared before the Board.

On motion, approved on condition that all woodwork entering into construction of the penthouse shall be covered with kalmelined iron.

Appeal 27, F. S. C. 7 of 1905, No. 241 Elm street, Manhattan, Reiley & Steinback, appellants.

On motion, referred to Chief Croker for examination and report with recommendation.

Adjourned.

THOMAS F. DONOHUE, Clerk.

BOARD OF EXAMINERS.

June 20, 1905.

Present—Messrs. Walter Cook, Warren A. Conover, Charles G. Smith, Charles Buek, Edward F. Croker, Lewis Harding and William J. Fryer, Chairman.

Meeting called to order at 2 p. m.

On motion, minutes approved as read.

Appeal 28, New Building 522 of 1905, premises south side of Two Hundred and Twenty-fourth street, 155 feet east of Olinville avenue, The Bronx, Louis Falk, appellant.

1. That an eight-inch brick fore and aft partition wall must be provided, section 31 of Code.

Objections 2, 3, 4, 5, 6 and 7 will be amended satisfactorily to the Building Department.

That an equally good and more desirable form of construction can be made.

To omit the eight-inch brick fore and aft partition wall on the second and third stories and allow the construction as planned, with four-inch channel beam for sills, and 4-inch I beams for studding, placed every four feet apart, running through between the floor beams, and placing the cellar piers and first-story girder directly under the fore and aft partition of second and third stories.

The building being only three stories high above the store and occupied as dwelling.

Mr. Louis Falk appeared before the Board and requested permission to withdraw appeal.

On motion, granted.

Adjourned.

THOMAS F. DONOHUE, Clerk.

BOARD OF EXAMINERS.

June 27, 1905.

Present—Messrs. Walter Cook, Warren A. Conover, Charles G. Smith, Charles Buek, Edward F. Croker, Lewis Harding and William J. Fryer, Chairman.

Meeting called to order at 2 p. m.

On motion, minutes approved as read.

Appeal 29, New Building 729 of 1905, premises north side of West Sixty-fourth street, 325 feet east from Eleventh avenue, Manhattan, George Haiss Manufacturing Company, appellants.

No. 1. Frame construction is unlawful within the fire limits.

The "Code" makes no direct provisions for such structures, the nearest reference thereto being for "Grain Elevators" on tide water or adjacent to the river front.

The rules and regulations of the President of the Borough and the provisions of the law do not apply.

That the provisions of the "Code" may be so modified as to permit the erection of this, practically, one-story, heavily timbered coal pocket.

The location of this coal pocket is such that it is practically isolated from and does not come in among buildings used wholly for residential purposes, but rather among buildings used for commercial purposes, and the commercial uses are predominating.

That it is to be located in near reach of the Hudson river, upon which floats very much of New York's commerce.

That the construction of other than wood coal pockets became practically prohibitive when their cost and life are taken into consideration.

That the construction of this proposed coal pocket, as planned, will add to the safety of the neighborhood as regards fire risk and it will certainly add to the sanitary condition.

On motion, referred to Chief Croker for examination and report.

Communication from Mr. Louis Falk, relative to appeal No. 28 N. B. 522 of 1905, read and, on motion, ordered on file.

On motion, it was decided that the next regular meeting of the Board be held on Thursday, July 6, in view of the fact that the specified meeting day falls on July 4, a legal holiday.

Adjourned.

BOARD OF EXAMINERS.

July 6, 1905.

Present—Messrs. Walter Cook, Warren A. Conover, Charles G. Smith, Edward F. Croker, Charles Buek, Lewis Harding and William J. Fryer, Chairman.

Meeting called to order at 2 p. m.

On motion, minutes approved as read.

Appeal 29 New Building 729 of 1905, premises north side of West Sixty-fourth street, 325 feet east from Eleventh avenue, Manhattan; George Haiss Manufacturing Company appellant. (Appeal laid over from last meeting pending report from the Chief).

On motion, laid over.

Appeal 30 Alteration 354 of 1905, No. 1041 Forest avenue, The Bronx; Hugo H. Avolin, appellant.

No. 1. Proposed extension is unlawful. See section 142 of the Code.

Whereas, The said extension being only 5 feet in excess of length than as would be permitted to be erected, according to section 142 of the Code, and that the building to which addition is to be made is situated in a block that is occupied by 90 per cent. and more frame buildings, built upon which, according to section 142, would permit the erection of an entire new frame dwelling on said property.

Whereas, The said building which is to be altered is now occupied by one family, but owing to the advanced valuation of property on which it stands, it is desired to alter same for the accommodation of two families, so as to increase the partial income which has been derived from said property.

Mr. H. H. Avolin appeared before the Board.

On motion, approved on condition that all basement walls of the new extension are built of 8-inch brickwork, laid in cement and sand.

The following communication from the Department of Finance was read by the Clerk, and on motion, ordered spread on the minutes.

William J. Fryer, Esq., Chairman Board of Examiners:

Dear Sir—I send you herewith certified copy of resolution adopted by the Board of Estimate and Apportionment June 30, 1905, transferring the sum of \$500 from the appropriation made to the Board of Building Examiners for the year 1905, entitled "Salaries," to the appropriation made to said Board for the same year, entitled "Contingencies."

Very truly yours,

(Signed) J. W. STEVENSON, Deputy Comptroller.

BOARD OF EXAMINERS.

July 11, 1905.

Present—Messrs. Walter Cook, Warren A. Conover, Charles Buek, Lewis Harding, Charles G. Smith, Edward F. Croker and William J. Fryer, Chairman.

Meeting called to order at 2 p. m.

On motion, minutes approved as read.

Appeal 29, New Building 729 of 1905, premises north side of Sixty-fourth street, 325 feet east from Eleventh avenue, Manhattan, Geo. Haiss Manufacturing Company, appellant. (Laid over pending report.)

On motion, laid over.

Appeal 31, Alteration 1602 of 1905, east side of Lexington avenue, about 69 feet south of Forty-second street, Manhattan, Wm. T. Keogh Amusement Company, by Neville & Bagge, architects, appellants.

"Partly covers side court of theatre."

The new entrance proposed from Forty-second street, Plan 1601, Alteration of 1905, which are approved, will give an additional means of access to and exit from the theatre, and in nowise does it obstruct the egress or exit from any of the theatre exits or courts; it is but one story high, having a fireproof roof or covering, and is situated directly under the present outside fire escape balconies, which extend the full width across the court just above the level of the proposed new covering, and it is respectfully submitted that the proposed mode and manner of construction is therefore within the true intent and meaning of the laws applicable to the courts adjoining theatres, and it is further contended that the law in this case does not strictly apply as the provisions for keeping the courts open to full height of building applies only to buildings erected since 1903, whereas this theatre was built long prior to that date.

We consider that the change will be a decided improvement to the theatre, and will be a benefit to both the owners and the public.

Mr. Geo. Bagge and Mr. C. A. Winter appeared.

On motion, approved on condition that the sash doors south of the lobby be moved further to the south, at the line where the new one-story building begins, and that the said doors be constructed of kalmelined iron and wire glass; and further, that all woodwork in connection with said doors shall be covered with kalmelined iron or copper.

Mr. Conover recorded as voting no on above motion.

Appeal 32, New Building 522 of 1905, south side of Two Hundred and Twenty-fourth street, 155 feet east of Olinville avenue, The Bronx, Louis Falk, architect and appellant.

"No. 1. That an 8 inch brick fore and aft partition wall must be provided." Section 31 of Code.

Objections 2, 3, 4, 5, 6 and 7 will be amended satisfactory to the Building Department.

That an equally good and more desirable form of construction can be made.

To omit the 8 inch brick fore and aft partition wall on the second and third stories, and allow the construction as planned, with 2½ inch channel beam for sills, and 2½ inch I beams for studding, placed every 4 feet apart, running through between the floor beams, and placing the cellar piers and first-story girder directly under the fore and aft partition of second and third stories. As shown by amended section, and doubling up the floor beams, under the cross partition all floor beams to be long leaf yellow pine, all partitions to be constructed with porous partition blocks, made by the National Fireproof Company.

The building being only three stories high above the store and occupied as dwelling for two families.
Appellant telephoned requesting that appeal be laid over until next meeting.
Adjourned.

BOARD OF EXAMINERS.

July 18, 1905.

Present—Messrs. Walter Cook, Warren A. Conover, Charles Buek, Lewis Harding, Charles G. Smith, Edward F. Croker and William J. Fryer, Chairman.

Meeting called to order at 2 p. m.

On motion, minutes approved as read.

Appeal 29, New Building 729 of 1905 (laid over at last meeting). On presentation of report and on motion, appeal was denied.

Appeal 32, New Building 522 (laid over by request of appellant).

Mr. L. Falk appeared before the Board.

On motion, approved.

Appeal 33, Alteration 426 of 1905, premises No. 14 East Sixtieth street, Manhattan; R. C. Gildersleeve, architect and appellant.

Building will exceed 150 feet and 12 stories in height; same should conform to all the provisions of section 103 of the Code as to fireproofing, etc.

He (the Superintendent) has refused to approve the mode, manner of construction and materials proposed to be followed or used in the erection and alteration of the building.

That the requirements of the law in section 105 of the Code are oppressive in this case, and if they may not be waived for all the building except the pent-house on the roof. This pent-house to be constructed to conform to the requirements of section 105 of the Code and not exceed more than 49 per cent. of the area of building.

1. All walls surrounding the pent-house will be carried up to their proper height.
2. Floor will be made of cement.
3. Wire glass will be used wherever glass is necessary.
4. Proper skylights will be provided.
5. All woodwork for window frames, sash, doors, trim and base of the pent-house will be thoroughly fireproofed.
6. The highest point of the pent-house roof will not exceed 162 feet from the curb level.

7. All wood entering into the construction of the pent-house will be fireproofed by the process which is fully accepted and approved by the Bureau of Buildings.

8. The entire pent-house will be constructed entirely fireproof.

9. And that a stand-pipe with hose connection and outlet in hall of the pent-house will be provided.

10. Pent-house will not cover more than 40 per cent. of the roof area.

11. Pent-house is now to be placed not on front of building, but back from front, so as not to appear as thirteenth story.

There is at this time no fireproofed wood which is fireproof. It is impossible to obtain at this time a sufficient quantity of fireproofed wood to furnish trim and floors for the proposed building.

It is an impossibility to fireproof all the woodwork in the present building to which the proposed building is to be an annex.

The floors of all halls, public and private, and the basement floor entire are composed of fireproof materials throughout.

The law regulating the height of buildings not absolutely fireproof throughout is a fire protective measure. I submit that as the number of floors regulates the number of tenants, the total height of the building is of less importance than the number of floors.

To offset the objection to the height of the building the owners have left uncovered above the second floor level 285 square feet of lot area more than the law demands for a 12-story building. This extra amount would entitle the owners to a thirteenth story over the entire building, and I respectfully submit that this fact should have weight in favor of this application.

If this building had been built so that the total height, including the pent-house, was 150 feet instead of 162 feet as at present, and your Honorable Board had granted a permit for a pent-house over one-half the lot area covered, the owners could have covered 8,153 square feet on each of the 11 floors, or 89,683 square feet, plus 4,076 square feet in pent-house, 93,759 square feet in all. In this building the owners have covered only 7,870 square feet on each of 11 floors, or 86,570 square feet, a difference of over 7,000 square feet of rentable space, or about 8 per cent. When this is taken into consideration, together with the additional cost of the building, it is clear that the owners would be heavily penalized for providing the occupants of the building with proper light and air unless your Honorable Board approves of this application; in which case the penalty is reduced to about 4 per cent. on the total investment, in addition to the increased cost of the construction by reason of the extra height of the stories.

Mr. R. C. Gildersleeve appeared before the Board.

On motion, laid over.

Appeal 34, New Building 736 of 1905, Nos. 430 to 436 West Forty-first street, Manhattan; John E. Collins, appellant.

1. Frame building within fire limits is unlawful. Section 144 of the Code.

The law does not directly apply to a structure of this character.

Whether this building might not be constructed of wood as shown.

This structure is a special type, and the form of construction used for the same, that is, frame construction, is the only form of construction that is thoroughly practicable. The building being in an isolated location does not form a menace to surrounding property.

On motion, referred to Chief Croker for examination and report with recommendation.

Appeal 35, New Building 777 of 1905, Nos. 531 to 537 East One Hundred and Seventeenth street, Manhattan; John E. Collins, appellant.

Same as Appeal 34.

On motion, referred to Chief Croker for examination and report with recommendation.

Appeal 36, premises south side Lafayette avenue, at Ashland place and St. Felix street, Brooklyn (Academy of Music Building); Herts & Tallant, architects and appellants.

1. That the law does not cover and is not clear upon the question of a twin auditorium building of this character.

1. That the rules and regulations or provisions of the law or ordinances do not apply.

2. That the form of construction herein employed is in every way desirable.

3. This structure constitutes a twin building containing two auditoriums. As such it is a special case under the new law. We therefore recommend it to your consideration on the following grounds:

2. The building as a whole is isolated on all four sides, having one front on Lafayette avenue, one front on Ashland place, one front on St. Felix street; the fourth side separated from adjoining buildings by a fourteen-foot court.

3. The two auditoriums are separated by a fourteen-foot court upon which open fire-escapes and exits which are largely in excess of the legal requirements. This court connects directly with a court in the rear by a fourteen-foot passage, so that the movement of escaping crowds is all in one direction.

4. Only one auditorium has a stage for theatrical productions, the other auditorium, being merely a music hall for concerts, has a fixed stage, no scenery and no mechanical devices.

5. The scene dock and the property room are especially isolated from the stage and from the rest of the building by masonry walls, and are further protected by sliding steel shutters.

6. The building is to be absolutely fireproof throughout and in all particulars conform liberally with the requirements of the law.

These plans have been approved after extraordinary and minute consideration and study by Professor Laird, University of Pennsylvania; Mr. John Carrere of Carrere & Hastings, and Mr. William Meade of McKim, Meade and White, as being safe and within the spirit of the theatre law. That they contain all possible

safeguards against loss of life. That their rejection upon technical grounds, when the spirit of the law has been met with the utmost earnestness, would entail a material and grievous loss to the people of Brooklyn.

Messrs. Herts & Tallant and Mr. Palmer appeared before the Board.

On motion, laid over.

Appeal 33, Alteration 426 of 1905, No. 14 East Sixtieth street, Manhattan; R. C. Gildersleeve, appellant. (Laid over at last meeting.)

Mr. R. C. Gildersleeve appeared before the Board.

On motion, approved on condition that all woodwork in pent house be kalemeined; and also that all woodwork in both public and private halls of new extension be kalemeined.

Letter from Louis A. Sands, dated the 25th inst., read, and, on motion, ordered on file.

Appeals 34 and 35 referred to Chief Croker for examination and report. (Laid over at last meeting.)

On motion, laid over.

Appeal 36, Lafayette avenue, Ashland place and St. Felix street, Brooklyn, Herts & Tallant, appellants. (Laid over at last meeting.)

Messrs. Herts & Tallant and Mr. Palmer appeared.

On motion, approved.

Appeal 37, Alteration 378 of 1905, No. 164 Lincoln avenue, The Bronx; H. S. Baker, appellant.

That he cannot grant the permit to extend the extension on the north side to the street, being more than 15 feet to front.

Section 142, Part 26, of Building Code, says:

If any building has an extension of less width than main building the same may be increased in width to the full width of main building, with same kind of material and the same height as main building.

That the owner be allowed to fill in space on north side where checked (6½ by 28 feet).

I cannot see where the objection is. If the main house was the extension and the extension was the main house there would be no objection.

If there is an objection, I ask you to waive so much of the law as will allow the same to be built.

First—It will aid the owner to improve the front on Lincoln avenue and fill up the space which is now only a place for the collection of rubbish, and making it dangerous on account of fire and detrimental to health, and cannot be utilized to advantage any other way.

Mr. Baker appeared before the Board.

On motion, approved.

FILLING-IN PRIVILEGE.

DEPARTMENT OF DOCKS AND FERRIES, FOOT OF BATTERY PLACE, BOROUGH OF MANHATTAN, THE CITY OF NEW YORK.

SEALED BIDS OR ESTIMATES WILL BE received by the Commissioner of Docks at Pier "A," foot of Battery place, in the City of New York, until 12 o'clock noon on

FRIDAY, AUGUST 11, 1905.

FOR THE RIGHT TO DUMP AND FILL IN BEHIND THE BULKHEAD WALL RECENTLY BUILT AT THE CHELSEA SECTION, BETWEEN WEST SIXTEENTH AND WEST EIGHTEENTH STREETS, ON THE NORTH RIVER, BOROUGH OF MANHATTAN.

TERMS AND CONDITIONS OF SALE.

The work to be done is to fill in with suitable material, as hereinafter described, the area behind the new bulkhead wall extending from a line 48 feet south of the southerly side of West Sixteenth street and perpendicular to the bulkhead line, northerly along the bulkhead line a distance of about 740 feet to a line at right angles to the bulkhead wall and 105 feet north of the northerly side of West Eighteenth street. The filling will extend from the rear of the bulkhead wall or coping easterly a distance of about from 40 to 100 feet to the bank excavated in the recent dredging.

The filling will be brought to a grade level with the top of the coping of the bulkhead wall and will extend inshore on a regular grade to the top of the ground at the adjacent or inshore bank.

It is estimated that the area outlining the above-described limits will create a basin to be filled in, under this agreement, whose cubical contents in net void space is equal to 40,000 cubic yards.

Bidders will state in writing a lump sum price, which they agree to pay for the privilege of filling in the area between about West Sixteenth and West Eighteenth streets, as above more fully described, and being the basin calling for the filling of a void space estimated at about 40,000 cubic yards.

Should the Commissioner of Docks deem it to the best interest of the City, he may extend the southerly limit of this fill southerly a distance of about 567 feet to a point at the southerly side of West Fourteenth street. Should the limits of the fill be extended southerly to this new line, a basin will be created in addition to the above-described basin, whose cubical contents in net void space will be equal to about 37,000 cubic yards. In the event of this extra filling being ordered by the Commissioner of Docks, it will be estimated at the same proportional rate as is received for the void space in the first section, whose southerly limit is about 48 feet south of the southerly side of West Sixteenth street, the prices on this first or northerly section being the prices on which the bids are to be tested.

In the estimated amount given, the amount in cubic yards is arrived at without placing any allowance for shrinkage, settlement, swelling of the material or penetration into the mud.

The Department is not bound in any way by such estimate, and bidders must satisfy themselves of the actual quantity required to fill in the above-described area by examination of the premises or such other means as they may prefer, the intention of the Department being to fill in the whole of the said premises behind the bulkhead wall within the above-described limits, and no allowance will be made to the purchaser from the purchase price on account of any discrepancy which may be found between the above-estimated quantity and the actual amount of filling required. The purchaser will be required to place the filling in accordance with the following specifications:

All the filling shall, unless otherwise directed, be placed directly in the rear of the bulkhead wall and carried from the bulkhead wall toward the shore until the same has been carried out at the finished grade for a distance of about 40 feet from the face of the bulkhead wall, at which time, if so directed by the Engineer, the filling shall be started at the bank and carried offshore toward the bulkhead wall or close row of piles.

All material must be dumped and filled in only in such manner, at such points and in such order of procedure and at such times and seasons as may, from time to time, be directed, and the work of filling in may be entirely suspended for such periods of time as may be directed by the Engineer. The purchaser shall have no claim for damage or for any allowance from the purchase money on account of such suspension of the work.

All directions shall be given by the Engineer, and wherever the word "Engineer" is used in these specifications it refers to and designates the Engineer-in-Chief of the Department of Docks and Ferries, or such officer or employee as may be designated by him.

Rip-rap stone coming directly on or against the bulkhead wall must be deposited carefully in such manner as will not injure the same.

All the filling, except as otherwise specified herein, shall be of ashes, cellar dirt, broken stone, etc., entirely free from garbage or any organic matter objectionable in the opinion of the Engineer.

At any section of the bulkhead wall the filling shall be brought up level with the under side of the backing log of the bulkhead wall at such section, and no higher, unless otherwise directed.

The filling shall be commenced within five days after the date of the receipt of a notification from the Engineer that the work, or any part of it, is ready to be begun, after which not less than 300 cubic yards per day shall be placed, and the whole amount of the filling called for to bring the above-described basin up to grade shall be completed within 135 days from the date of the receipt of said notification. At the expiration of this time this agreement shall be considered closed unless a further extension of time shall be given by the Commissioner of Docks. If at any time during the progress of the work it shall be deemed

necessary to order the suspension of the whole or any part of the filling, the time for completing said filling shall be extended as much as it may have been delayed by such suspension.

In case the purchaser at any time does not proceed with the work of filling in to the satisfaction of the Commissioner of Docks, the said Commissioner will at once terminate the privilege of filling in and proceed to have the remainder of the filling in done by other parties in such way and manner as he deems proper, and any loss which may result therefrom shall be charged against the principal and his surety.

The purchaser shall, during the work of filling in, and at all times until the completion thereof take all necessary precautions and place proper guards for the prevention of accidents, and put up and maintain at night sufficient lights, and he shall indemnify and save harmless The City of New York from all damages and costs to which it may be put by reason of injury to the person or property of another resulting from negligence or carelessness in the performance of the work or guarding the same, to which the surety is also bound.

No bid or estimate will be considered unless accompanied by a certified check drawn to the order of the Commissioner of Docks, or money to the amount of twenty-five per centum of the amount of the bid, which amount shall be applied in the case of the successful bidder to the first one-quarter of the amount of the filling to be deposited; twenty-five per centum to be paid when the first one-quarter of filling has been completed; twenty-five per centum additional when one-half the filling has been completed, and the balance, twenty-five per centum, when three-quarters of said filling has been completed.

A surety or guarantee company, duly authorized by law to act as surety, to be approved by the Commissioner of Docks, will be required to enter into a bond or obligation jointly and severally with the purchaser in the sum of double the amount of the purchase price as security for the satisfactory performance of said work, in accordance with the terms and conditions hereof.

MAURICE FEATHERSON,
Commissioner of Docks.

NOTICE TO PROPERTY-OWNERS.

IN PURSUANCE OF SECTION 1018 OF THE Greater New York Charter, the Comptroller of The City of New York hereby gives public notice to all persons, owners of property, affected by the following assessments for LOCAL IMPROVEMENTS in the BOROUGH OF THE BRONX:

TWENTY-FOURTH WARD, SECTION 11.
LORILLARD PLACE—REGULATING, GRADING, SETTING CURBSTONES, FLAGGING THE SIDEWALKS, LAYING CROSSWALKS, BUILDING APPROACHES AND PLACING FENCES, from Third avenue to Pelham avenue. Area of assessment: Both sides of Lorillard place, from Third avenue to Pelham avenue, and to the extent of half the block at the intersecting and terminating streets.

—that the same was confirmed by the Board of Assessors July 25, 1905, and entered on July 25, 1905, in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, and unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessments interest will be collected thereon, as provided in section 1019 of said Greater New York Charter.

Said section provides, in part, that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof on the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides: "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears, at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, in the Municipal Building, corner of One Hundred and Seventy-seventh street and Third avenue, Borough of The Bronx, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before September 23, 1905, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when the above assessment became a lien to the date of payment.

NOTICE TO PROPERTY-OWNERS.

IN PURSUANCE OF SECTION 1018 OF THE Greater New York Charter, the Comptroller of The City of New York hereby gives public notice to all persons, owners of property, affected by the following assessments for LOCAL IMPROVEMENTS in the BOROUGH OF MANHATTAN:

TWELFTH WARD, SECTION 7.
ONE HUNDRED AND TWENTY-SEVENTH STREET AND ST. NICHOLAS AVENUE—RECEIVING-BASIN at the northwest corner. Area of assessment: West side of St. Nicholas avenue, from One Hundred and Twenty-seventh street to a point about 368 feet northerly therefrom; north side of One Hundred and Twenty-seventh street, from St. Nicholas terrace to St. Nicholas avenue.

TWELFTH WARD, SECTION 8.
WEST ONE HUNDRED AND EIGHTY-FOURTH STREET—PAVING AND CURBING. Area of assessment: Both sides of One Hundred and Eighty-fourth street, from Broadway to Wadsworth avenue, and to the extent of half the block at the intersecting and terminating avenues.

TERRACE VIEW AVENUE, SOUTH—PAVING AND CURBING, from the westerly side of Broadway to the westerly side of Kingsbridge avenue. Area of assessment: Both sides of Terrace View avenue, South, from Broadway to a point distant half way between Kingsbridge avenue and Jacobus place, and extending on both sides of Kingsbridge avenue and west side of Broadway about 350 feet northerly from Terrace View avenue, South.

—that the same were confirmed by the Board of Assessors on July 25, 1905, and entered on July 25, 1905, in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, and unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessments interest will be collected thereon, as provided in section 1019 of the said Greater New York Charter.

Said section provides, in part, that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof on the said Record of Titles of Assessments it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides: "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessments are payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, Room No. 85, No. 280 Broadway, Borough of Manhattan, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before September 23, 1905, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above

assessments became liens to the date of payment.

NOTICE OF ASSESSMENTS FOR OPENING STREETS AND PARKS.

IN PURSUANCE OF SECTION 1005 OF THE Greater New York Charter, the Comptroller of The City of New York hereby gives public notice of the confirmation by the Supreme Court, and the entering in the Bureau for the Collection of Assessments and Arrears, of the assessment for OPENING AND ACQUIRING TITLE to the following-named avenue in the BOROUGH OF MANHATTAN:

TWELFTH WARD, SECTION 8.

NORTHERN AVENUE—OPENING, from West One Hundred and Eighty-first street to points 784.3 feet and 756.23 feet northerly therefrom. Confirmed June 19, 1905; entered July 20, 1905. Area of assessment includes all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Manhattan, in The City of New York, which, taken together, are bounded and described as follows, viz:

Southerly by a line parallel to and 100 feet south of West One Hundred and Eighty-first street, easterly by Port Washington avenue, northerly by a line parallel to and 200 feet northerly from the northerly boundary of Northern avenue and westerly by the Boulevard Lafayette, as such area is shown on our benefit maps deposited as aforesaid.

The above-entitled assessment was entered on the date hereinbefore given in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents. Unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessments, interest will be collected thereon, as provided in section 1006 of the Greater New York Charter.

Said section provides that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien as provided by section 159 of this act."

Section 159 of this act provides: "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears, at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, Room No. 85, No. 280 Broadway, Borough of Manhattan, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before September 18, 1905, will be exempt from interest as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessment became a lien to the date of payment.

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO OF CITY REAL ESTATE.

PUBLIC NOTICE IS HEREBY GIVEN that the Commissioners of the Sinking Fund of The City of New York, by virtue of the powers vested in them by law, will offer for sale at public auction on Thursday, August 10, 1905, at 10 o'clock a. m., in Room 141, Stewart Building, No. 280 Broadway, Borough of Manhattan, the buildings and appurtenances thereto belonging, erected upon real estate, acquired for various purposes, belonging to the corporation of The City of New York, viz:

All the right, title and interest of The City of New York in and to all the buildings with the appurtenances thereto belonging, erected upon the following described property:

(Acquired for Carnegie Library Purposes.)

1. The property on the southerly side of East Twenty-third street, near Third avenue, in the Borough of Manhattan, more particularly described as follows:

Beginning at a point on the southerly side of Twenty-third street distant 335 feet easterly from the intersection of the easterly side of Third avenue with the southerly side of Twenty-third street; running thence southerly and parallel with Third avenue 98 feet 9 inches to the center line of the block; running thence easterly along the center line of the block 50 feet; running thence northerly and parallel with Third avenue 98 feet 9 inches to the southerly side of Twenty-third street; running thence westerly and along the southerly side of Twenty-third street 50 feet to the point or place of beginning, said premises being known as Nos. 228, 230 and 232 East Twenty-third street.

By direction of the Comptroller sales of the above property will be made under the supervision of the Collector of City Revenue, on Thursday, August 10, 1905, at 10 a. m.

(Acquired for Carnegie Library Purposes.)

2. The property at the intersection of the westerly side of Brook street, or avenue, and the southerly side of Canal street, in the Borough of Richmond, more particularly described as follows:

Beginning at a point formed by the intersection of the westerly side of Brook street, or avenue, with the southerly side of Canal street; running thence southerly along the westerly side of Brook avenue, or street, 87 feet; thence westerly and at right angles with Brook avenue, or street, 96 feet; thence northwesterly and at right angles with Canal street 38 feet to the southeasterly side of Canal street; thence northeasterly along the southeasterly side of Canal street 82 feet 6 inches; thence easterly along the southerly side of Canal street 68 feet 6 inches to the point or place of beginning.

By direction of the Comptroller sales of the above property will be made under the supervision of the Collector of City Revenue, on Thursday, August 10, 1905, at 10 a. m.

The buildings on the premises severally above described shall be sold for the highest marketable price at public auction, upon the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must give either a cash bond or an approved bond of a surety company in the amount of one-half of the purchase price, as security for the proper performance of the work of removal, which must be completed within thirty working days thereafter. The word "removal" means that the buildings so sold shall be taken down to the curb level and the cellar properly filled in and graded.

Failure to remove said buildings and appurtenances, or any portion thereof, within said period, will work forfeiture of ownership of such buildings or appurtenances or portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against and from all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials, machinery, implement or appliance used in the removal of said building by the said successful bidder, and the bidder's assent and agreement to the above conditions are understood to be implied by the act of bidding. The Comptroller of The City of New York reserves the right, on the day of sale, to withdraw from sale any of the buildings, or parts of buildings, included in any of the foregoing parcels.

SECOND JUDICIAL DEPARTMENT.

In the matter of the application of The City of New York, acting by and through the Commissioner of Docks, relative to acquiring right and title to and possession of certain lands and premises and lands under water and wharf property necessary to be taken for the improvement of the water-front and harbor of The City of New York, for ferry purposes, in the vicinity of CANAL STREET, STAPLETON, in the Borough of Richmond, in The City of New York, pursuant to a certain plan heretofore adopted by the Commissioner of Docks and approved by the Commissioners of the Sinking Fund.

NOTICE IS HEREBY GIVEN THAT WE, the undersigned, by virtue of an order of the Supreme Court, bearing date the 15th day of June, 1905, and entered and filed in the office of the Clerk of the County of Richmond on the 19th day of June, 1905, were appointed Commissioners of Estimate and Assessment in the above-entitled proceeding for the purpose of making a just and equitable estimate of the loss and damage to the respective owners, lessees, parties and persons entitled to or interested in the lands and premises and lands under water and wharf property hereinafter described, and not now owned by The City of New York, and situated in the Borough of Richmond, in The City of New York, to be taken herein for the improvement of the water-front and harbor of The City of New York for ferry purposes, and which said lands and premises and lands under water and wharf property so to be taken are bounded and described as follows:

Beginning at a point in the easterly line of Front street, said point being in the division line between the land of Eva Bechtel and land of the Staten Island Railway Company, where said division line is intersected by the easterly line of Front street; running thence easterly on a line making an angle of 90 degrees with the easterly line of Front street 1,700 feet to the pierhead line established by the Secretary of War in 1889; thence southerly and along said pierhead line 315 feet 1 inch, more or less, to the northerly line of lands under water granted to Herman A. Loeb and others, November 14, 1896; thence westerly along said northerly line of grant to Herman A. Loeb and others 1,463 feet 9 inches to a point in the northerly side of the present pier next southerly of Canal street, where the easterly face of the pile platform intersects the northerly side of said pier; thence still westerly in the same course 110 feet; thence northerly along a straight line following about the face of the present crib bulkhead at the foot of Canal street a distance of 193 feet, more or less, to a point distant 141 feet easterly from the easterly side of Front street, measured on a line drawn parallel with the first-mentioned course and distant 125 feet southerly therefrom; thence westerly along said parallel line 141 feet to the easterly side of Front street; thence northerly along said easterly side of Front street 125 feet to the point or place of beginning.

Said lands and premises, lands under water and wharf property are shown on a certain plan adopted by the Commissioner of Docks on the 4th day of November, 1903, and approved by the Commissioners of the Sinking Fund on the 18th day of November, 1903, and which said plan is on file in the office of the Department of Docks and Ferries.

All parties and persons interested in said lands, premises and lands under water and wharf property taken or to be taken for the said improvement of the water-front and harbor of The City of New York, or affected thereby and having any claim or demand on account thereof, are hereby required to present the same, duly verified, to us, the undersigned Commissioners of Estimate and Assessment, at our office, Room No. 401, on the fourth floor of the building No. 258 Broadway, in The City of New York, Borough of Manhattan, with such affidavits or other proofs as the said owners or claimants may desire, within twenty days after the date of this notice; and we, the said Commissioners, will be in attendance at our said office on the 17th day of August, 1905, at 2 o'clock in the afternoon of that day, to hear the said parties and persons in relation thereto, and at such time and place or at such other or further times and places as we may appoint, we shall hear such owners in relation thereto and examine the proofs of such claimant or claimants or such additional proofs or allegations as may be then

afforded by such owners or on behalf of The City of New York.

Dated New York, July 24, 1905.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
