POLICE DEPARTMENT.

REPORT FOR THE QUARTER ENDING SEPTEMBER 30, 1906.

Police Department of The City of New York,
No. 300 Mulberry Street,
New York, October 6, 1906.

His Honor the Mayor, City Hall, New York:

Sir—Pursuant to section 1544 of the Greater New York Charter, I have the honor to submit the following report for the quarter ending September 30, 1906:

On September 30 the total force was 8,795, including 68 Matrons. In addition there were on probation 41 Patrolmen, 1 Doorman and 1 Matron.

The effective force on September 30 was 8,246, 373 being absent on leave, 173 sick and 3 suspended.

During the last quarter the losses in the various grades were as follows:

Retired—1 Captain, 9 Sergeants, 1 Detective Sergeant, 3 Roundsmen, 57 Patrolmen and 1 Assistant Superintendent of Telegraph; total, 72.

Died—1 Sergeant, 1 Detective Sergeant, 11 Patrolmen and 1 Doorman; total, 14.

Resigned—13 Patrolmen; total, 13.

Dismissed—1 Roundsmen and 15 Patrolmen; total, 16.

In the estimate presented by me to the Board of Estimate and Apportionment for 1907, I have not made any provision for the salary of an Assistant Superintendent of Telegraph, there being no present necessity for filling this position, made vacant by retirement of the former incumbent.

Since my last report a new arrangement for the care of lost children has been effected, which does away with the bringing of these children to headquarters after 9 p. m. They are now being turned over to the Society for the Prevention of Cruelty to Children direct. This does away with the care and feeding of lost children at Police Headquarters.

Police line passes no longer permit the holders to pass through the fire lines, an understanding having been reached with the Fire Department whereby citizens must have a pass issued by that Department in order to gain admission within the fire lines.

Since the last quarterly report the police have been called upon to perform arduous and difficult work in connection with the Brooklyn Rapid Transit—second fare riots—and I am pleased to state that the officers and men of the force did their duty well.

Within the past few weeks all details made necessary by the summer season have been withdrawn and these men returned to duty in the various precincts where they were needed.

Numerous complaints having been brought to my attention of the similarity between the shields worn by Special Policemen and those worn by members of the force, a change has been made in the Special Patrolman's shield, and these new shields are now being issued. There can be no possible reason in the future for confounding these Special Officers with members of the uniformed force.

The finger print system for the identification of criminals has been introduced into the Department. This is the system devised by Sir Edward Henry, the head of the London police, and now in use in most of the large cities and penal institutions of this country, and which has recently been adopted by the Army and Navy.

A system of accountability for property has been introduced into the Department, whereby all property issued to the precincts is receipted for by the precinct commanders, who are held accountable for it until properly relieved. Under this system it is possible to immediately determine by inspection of the records the amount of property of any given kind in the Department and its location at any time.

A system of accountability for horseshoeing and veterinary service has been introduced. Under this system, by inspection of the records it can be determined when and how often a horse has been shod or attended by a veterinary and the amount due

to any horseshoer or veterinary at any given time. Under the previous system it was impossible to determine the amount of outstanding indebtedness, reliance being placed entirely upon the veterinary's and horseshoer's bills, which were submitted often many months after the services were performed. A similar system of accounts with all dealers with which the Department transacts business is also kept.

Traffic is now regulated at intersections by two men instead of by four. The two men hold up the north and south bound traffic, respectively, while the east and west proceeds. When it is desired to hold up east and west bound traffic, in order that the north and south bound may proceed, the men move diagonally to the east and west crossings and do so at these points. Traffic is now stopped back of the crosswalks, so that pedestrians may use them.

The following schedules give for the quarter ending September 30, 1906, the statistics which it has been customary to report, in accordance with section 1544, chapter 466, Laws of 1901:

The following communications were received from the President of the Borough of Brooklyn, relative to a lease of a plot of land having a frontage of 100 feet on the Seventh street basin of the Gowanus Canal, in the Borough of Brooklyn:

BROOKLYN, June 7, 1906.

The Honorable the Sinking Fund Commissioners:

GENTLEMEN—I desire very much, for the use of the Highway Bureau of my office, a certain plot of land consisting of four lots, and having a frontage of 100 feet on the Seventh street basin of the Gowanus Canal. This property adjoins the land now leased and used by the City, and upon which it is proposed to establish an asphalt plant, and lies on the northerly side of the basin, the easterly boundary line being 346 feet 7 inches from the westerly side of Second avenue. The lots have a depth approximately of 120 feet. The agent of the property is Mr. George A. Allin, of the Brooklyn Improvement Company, Third street and Third avenue, Brooklyn. A reasonable rental for the property is \$80 per month.

I would therefore request that your Board take steps to authorize a lease of this property for one year, with options of renewal for five years. I transmit blue print showing property, marked "X."

Yours very truly,

BIRD S. COLER,
President of the Borough of Brooklyn.

BROOKLYN, September 20, 1906.

Hon. HERMAN A. METZ, Comptroller, No. 280 Broadway, Manhattan:

DEAR SIR—You wrote me on September 10, on behalf of your Bureau of Real Estate, relative to the use by this Department of a plot of land 100 by 120 feet, adjoining on the east a plot now leased by The City of New York, fronting on Gowanus Canal, and you ask for information relative to the circumstances under which this office began the tenancy of this plot.

We have under construction in this borough a sanitary flushing tunnel for the purification of the Gowanus Canal. This work was very much delayed because the plan provided for an extension of the tunnel through land at the canal head occupied as a storage yard by the Department of Water Supply, Gas and Electricity. That Department desired very much to co-operate with this Department, but was unable to find other storage space for the material it had at this point. The matter was turned over to Consulting Engineer Creuzbaur, who made an arrangement with the Deputy Commissioner of Water Supply to provide him with storage space at the expense of this office. The plot 100 by 120 feet to which you refer was then, under an agreement made by Mr. Allen and Mr. Creuzbaur, to be taken by the City for a site for the new Municipal Repair Plant, and Mr. Creuzbaur directed the removal of the material of the Water Supply Department temporarily to that plot of land. This Department has, therefore, been an occupant of that land since June 15.

This, I imagine, gives all the information requested in your letter of September 10.

Yours very truly,

BIRD S. COLER,
President of the Borough of Brooklyn.

In connection therewith the Comptroller presented the following report and offered the following resolution:

October 11, 1906.

Hon. HERMAN A. METZ, Comptroller:

SIR—Honorable Bird S. Coler, President of the Borough of Brooklyn, in a communication addressed to the Commissioners of the Sinking Fund, requests that a lease be entered into of a plot of land consisting of four lots and having a frontage of 100 feet on Seventh street basin of the Gowanus Canal, which property adjoins the land now leased and used by the City, and upon which it is proposed to establish an asphalt plant. This property lies on the northerly side of the basin, the easterly boundary line being 346 feet 7 inches from the westerly side of Second avenue. The lots have a depth approximately of 120 feet.

I have had an examination made of the property which adjoins a parcel of land now leased by the City, size 120 by 150 feet, the lease of which will expire on November 1, 1906, a report having been made under even date recommending that the lease be renewed for the purposes of the President of the Borough of Brooklyn for a period of five years from the date of expiration.

The rental asked for the plot of land, size 100 by 120 feet, on the northerly side of the Seventh street basin of \$80 per month is in my opinion, while full value, not excessive.

I would therefore respectfully recommend that the Commissioners of the Sinking Fund authorize a lease of the four lots having a frontage of 100 feet on the Seventh street basin of the Gowanus Canal, with a depth of 120 feet, 346 feet 7 inches from the westerly side of Second avenue, in the Borough of Brooklyn, for a period from the date of occupation to November 1, 1911, which will be the date of expiration of the lease of the adjoining property if the same is renewed in accordance with the recommendation heretofore referred to, at an annual rental of \$960, payable quarterly, the City to pay for the taxes and water against the premises. Lessor, Brooklyn Improvement Company.

Respectfully submitted for approval,

THOMAS F. BYRNES,
Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Corporation Counsel be and is hereby requested to prepare a lease to the City, from the Brooklyn Improvement Company, of the four lots having a frontage of 100 feet on Seventh street basin of the Gowanus Canal, with a depth of 120 feet, 346 feet 7 inches from the westerly side of Second avenue, in the Borough of Brooklyn, for the use of the President of the Borough of Brooklyn, for a period from the date of occupation to November 1, 1911, at an annual rental of nine hundred and sixty dollars (\$960), payable quarterly; the City to pay for taxes and water against the premises; and the Commissioners of the Sinking Fund deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made, the Comptroller be and is hereby authorized and directed to execute the same when prepared and approved by the Corporation Counsel, as provided by sections 149 and 217 of the Greater New York Charter.

The report was accepted and the resolution unanimously adopted.

The Comptroller presented the following report and offered the following resolution relative to a renewal of the lease of property having a frontage of 150 feet on the Seventh street basin of the Gowanus canal, Borough of Brooklyn, for the use of the President of the Borough of Brooklyn:

October 11, 1906.

Hon. HERMAN A. METZ, Comptroller:

SIR—Hon. Bird S. Coler, President of the Borough of Brooklyn, in a communication addressed to the Commissioners of the Sinking Fund, requests a renewal of the lease of property on the Seventh street basin of the Gowanus canal, used by the Bureau of Highways of his Department and intended to be used as a site for the proposed Municipal Asphalt Repair Plant, for a period of five years from November 1, 1906. The rental paid for the premises at the present time is at the rate of \$1,080 per annum, together with taxes and water, and the rental now asked for the premises for a five-year term lease is at the rate of \$1,440 per annum.

The size of the plot is 150 feet front on the Seventh street basin, with a depth of 120 feet. It is also the intention to lease the premises adjoining on the east. size 100 feet front with a depth of 120 feet, upon which a separate report will be made.

The rental asked, in my opinion, while full value, is not excessive, in view of the increased values of property in this locality and the adaptability for the purposes for which the President of the Borough of Brooklyn desires it.

I would therefore respectfully recommend that the Commissioners of the Sinking Fund authorize a renewal of the lease of the premises on the northerly side of the Seventh street basin, 446 feet 7 inches westerly from Second avenue, having a frontage of 150 feet on the Seventh street basin, with a depth of 120 feet, said property being located in the Borough of Brooklyn, for a period of five years from November 1, 1906, at an annual rental of \$1,440, payable quarterly, otherwise upon the same terms and conditions as contained in the existing lease. Lessor, Brooklyn Improvement Company.

Respectfully submitted for approval,

THOMAS F. BYRNES,

Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Comptroller be and is hereby authorized and directed to execute a renewal of the lease to the City, of premises on the northerly side of the Seventh street basin, 446 feet 7 inches westerly from Second avenue, having a frontage of 150 feet on the Seventh street basin with a depth of 120 feet, in the Borough of Brooklyn, for use of the President of the Borough of Brooklyn, for a period of five years from November 1, 1906, at an annual rental of fourteen hundred and forty dollars (\$1,440), payable quarterly, otherwise upon the same terms and conditions as contained in the existing lease. Lessor, Brooklyn Improvement Company. The Commissioners of the Sinking Fund deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made.

The report was accepted and the resolution unanimously adopted.

The Comptroller presented the following report and offered the following resolutions relative to a lease of premises in the St. Mary's Lyceum, on Fifth street, between Jackson and Vernon avenues, Long Island City, Borough of Queens, for the use of the First District Municipal Court:

October 8, 1906.

Hon. HERMAN A. METZ, Comptroller:

SIR—The lease of the premises No. 46 Jackson avenue, First Ward, Long Island City, occupied by the First District Municipal Court, will expire on October 15, 1906, and the lessor of the premises, Mrs. Mary L. Denner, has refused to renew the lease unless she receives an increased rental. The matter was taken up with Hon. Thomas C. Kadien, Justice of the First District Municipal Court, in order to ascertain whether the present quarters are satisfactory. He strongly condemns the same, stating that the premises are not adaptable for court purposes and that they are unsanitary.

Investigation of the neighborhood discloses that there is a floor in the building known as St. Mary's Lyceum, located at Fifth street, between Jackson avenue and Vernon avenue, which could be made adaptable for court purposes, and the presiding Justice states that it seems to him that the east side of said building will be sufficiently large enough for court purposes and that it is a new building, sanitary in every respect, with excellent light on the east side and conveniently situated.

The price originally asked by the owner was \$1,500 per annum, and after negotiation he has reduced it to \$1,000 per annum, which price in my opinion, while full value, is not excessive.

I would therefore respectfully recommend that the Commissioners of the Sinking Fund authorize a lease of the easterly side of the first floor of the premises known as the St. Mary's Lyceum, situated on Fifth street, between Jackson and Vernon avenues, Long Island City, Borough of Queens, for a period of two years from October 15, 1906, at an annual rental of \$1,000, payable monthly; the owner to pay water tax and to furnish light; the City to furnish heat and janitor service. Lessor, John McGuire.

I would further recommend that the Commissioners of the Sinking Fund, pursuant to the provisions of section 205 of the Revised Charter, designate the easterly side of the first floor of the St. Mary's Lyceum for the use of the First District Municipal Court of The City of New York, Borough of Queens, on and after October 15, 1906.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Corporation Counsel be and is hereby requested to prepare a lease to the City from John McGuire, of the easterly side of the first floor of the premises known as St. Mary's Lyceum, on Fifth street, between Jackson and Vernon avenues, Long Island City, Borough of Queens, for use of the First District Municipal Court, for a period of two years from October 15, 1906, at an annual rental of one thousand dollars (\$1,000), payable monthly; the owner to pay water tax and furnish light; the City to furnish heat and janitor service; and the Commissioners of the Sinking Fund, deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made, the Comptroller be and is hereby authorized and directed to execute the same when prepared and approved by the Corporation Counsel, as provided by sections 149 and 217 of the Greater New York Charter.

Resolved, That pursuant to the provisions of section 205 of the Greater New York Charter, the Commissioners of the Sinking Fund hereby designate the easterly side of the first floor of premises known as St. Mary's Lyceum, situated on Fifth street, between Jackson and Vernon avenues, Long Island City, Borough of Queens, as the place where the First District Municipal Court shall be held on and after October 15, 1906.

The report was accepted and the resolutions severally unanimously adopted.

Adjourned to meet at 10.15 a. m. on Friday, October 19, 1906.

N. TAYLOR PHILLIPS, Secretary.

"First—That they have examined the correspondence from John Kennedy & Son, contractors, and Pilcher, Thomas & Tachau, architects, relative to the completion of Squadron "C" armory within the time prescribed by the contract and specifications.

"They report progress on the same, and recommend that the matter be taken up on the final certificate of the completion of the building.

"The Committee recommend the purchase of two additional meters for Squadron "C" armory, to comply with the provisions of the Water Department, and that an order be issued to the contractor to supply the same, as an extra, as prescribed by the architects.

"Second—The Committee considered the correspondence relative to arc lights in the Sixty-ninth Regiment armory, and state that they instructed the Secretary to request the Bureau of Gas and Electricity to execute a contract with the Edison Company for lighting the armory of that organization. The necessity for haste in this matter being that the Regiment desired to enter the building on the 13th inst., and that the Edison Company, who proposed to furnish these arc lamps, without additional cost, do not care to do so until the contract for lighting the building was executed.

"Third—The correspondence relative to the leasing of new quarters for the Second Battalion Naval Militia was considered. The Battalion was ordered to vacate its old quarters on the first of October, and the proposition presented to the Armory Board at its last meeting, to lease another place, was referred to this Committee. The new landlord has allowed the Battalion access to the proposed quarters, with the expectation that the proper resolution for renting the same will be passed, and this Committee recommends such action.

"Fourth—The communication from M. E. Miles, and others, relative to the destruction of the vines on the walls of the Thirteenth Regiment armory was then considered, and the Secretary was directed to acknowledge the communication, and communicate the facts in the case.

"Fifth—The communication from Parfitt Brothers, architects for the extension to the Thirteenth Regiment armory, requesting permission to substitute 12-inch stair strings for 13-inch, was considered, and the Committee recommend that the contract be so amended, without additional cost.

"The Committee respectfully submits the necessary resolutions to carry out the above provisions.

"Sixth—The Committee discussed the propriety of increasing the salaries of L. V. Meehan, Wireman, from \$1,200 to \$1,500, and of Robert Telfer, Assistant Clerk of the Works, from \$1,800 to \$2,000, and recommend such increases.

"Respectfully submitted,

(Signed) "JAS. MCLEER,
"GEORGE MOORE SMITH."

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks or The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 440 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
