PETITIONS AND COMMUNICATIONS.

No. 4735.

International Association of Machinists, District Lodge No. 15, District Offices, 23 Park Row, New York City, October 13, 1911.

Mr. JOHN T. OAKLEY, Chief Clerk, Board of Aldermen, New York City:

Dear Sir—Will you kindly bring the enclosed protest to the attention of the Board of Aldermen?

A similar protest has been sent to the Board of Estimate. Very truly yours,
JAS. B. WILSON, Secretary, District 15, I. A. of M.

International Association of Machinists, District Lodge No. 15, District Offices, 23 Park Row, New York City, October 10, 1911.

Board of Aldermen, City of New York:

Gentlemen of the Board—I beg in behalf of the Association I represent and which has instructed me to do so, to protest against the specializing of Machinists' work in the City departments.

This protest has particular reference to the creating of the position of Automobile Machinists, as many of the Machinists who have taken the examination as Machinists through the Civil Service and who are on the list for appointment are thoroughly qualified on automobile work, and it does not seem fair to them that others should step in after them and possibly be appointed before they are.

It is true that these men could take the examination also, but that would mean that they would have to take one more examination than the new applicants would have to, and that does not look fair. Very truly yours,

JAS. B. WILSON, Secretary, District 15, I. A. of M.

Brooklyn, N. Y., October 22, 1911.

Hon. JOHN P. MITCHEL, President, Board of Aldermen:

Dear Sir—We, the undersigned, a committee of Bridgekeepers, out of employment on account of the Board of Aldermen abolishing tolls on the Brooklyn, Manhattan, Williamsburg and Queensboro Bridges, ask your honorable self and the rest of the honorable Board to make some provision or pass some bill or ordinance that we will be employed.

At present the Bridge Department, in which we were formerly employed, are considering running elevators on the Queensboro Bridge, which we as former bridge employees ought to be considered.

Hoping to receive a reply in which we hope the honorable Board of Aldermen will make some provision that we the unemployed Bridgekeepers may obtain some position, we remain, The Committee,
JAMES J. GLEASON, 571 Driggs ave., Brooklyn, N. Y.; WILLIAM BAIRD, 221 Ralph ave., Brooklyn, N. Y.; JOHN MOYLAN, 137 North 9th st., Brooklyn, N. Y.

P.S.—We have been out of employment since August 4, 1911.

COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS.

The Vice-Chairman laid before the Board the following communication from the Fire Commissioner:

No. 4738.

Fire Department of The City of New York, Office of the Commissioner, October 17, 1911.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen:

Sir—The Budget appropriation made for the fees and expenses of the Municipal Explosives Commission for the current year was \$4,000. This amount was supplemented by the proceeds of a special revenue bond issue of \$6,000 upon the authorization of the Board of Estimate and Apportionment of June 22, 1911, based upon the request of the Board of Aldermen of May 23, 1911, made pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter. These combined amounts will not be sufficient to meet the requirements for fees and incidental purposes for the remainder of the year 1911, and an additional special revenue bond issue of \$2,200 will be necessary to this end.

In explanation of this request, I have the honor to state that the work of the Commission during the current year has been especially laborious and exacting. The preparation of a new book of rules and regulations to govern the manufacture, storage, sale and use of explosives and combustible material in The City of New York has proven a task of no little magnitude and has demanded almost daily sessions of the Commissions with resultant expense. The Commission is discharging the onerous and responsible duties devolving upon it faithfully, conscientiously and painstakingly, and I feel assured that the outcome of its efforts in the shape of a modern and up-to-date code covering the subject with which it is dealing in all its branches, will amply justify the financial outlay required to accomplish this result.

I enclose financial statement of the Commission covering the period from January 1 to September 30, 1911, also draft of resolution for the action of the Board of Aldermen, and in view of the emergency, request early and favorable action in the matter. Respectfully,

JOS. JOHNSON, Fire Commissioner and Chairman ex-officio, Municipal Explosives Commission.

Resolved, That, in pursuance of the provisions of subdivision 8, section 188, of the Greater New York Charter, the Board of Estimate and Apportionment be and it hereby is requested to authorize the Comptroller to issue special revenue bonds to the amount of two thousand two hundred dollars (\$2,200), the proceeds whereof to be applied to the payment of the fees and expenses of the Municipal Explosives Commission for the year 1911.

The Vice-Chairman laid before the Board the following communication from the Trustees of Bellevue and Allied Hospitals:

No. 4739.

Bellevue and Allied Hospitals, Office of the Board of Trustees, 1st ave. and 26th st., New York, October 18, 1911.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, New York City:

Sir—On May 18, 1911, the Trustees requested authority of the Board of Aldermen to purchase without public letting an automobile for the use of the General Medical Superintendent of this Department at a cost not exceeding \$2,000. This request has not been reported upon by the Committee on Public Letting, to which it was referred. The Trustees have the honor to again urge that the desired permission be granted. The active building operations that will soon be under way at the allied hospitals will necessitate the presence of the Trustees, particularly the Chairman of the Building Committee, and the General Medical Superintendent at these hospitals at frequent intervals. At Fordham Hospital roof wards and new balconies are being erected. At Harlem Hospital the present hospital is to be doubled in size and a nurses' residence is also to be erected. At Gouverneur Hospital an out patient department and power plant are being constructed. In addition to the building operations, it is desirable that the General Medical Superintendent should visit these hospitals more often unannounced, and this would be possible if an automobile were provided for the use of the Department. Respectfully,

J. K. PAULDING, Secretary, Board of Trustees.

Which was referred to the Committee on Public Letting.

The Vice-Chairman laid before the Board the following communication from the President, Borough of Queens.

No. 4740.

The City of New York, Office of the President of the Borough of Queens, Long Island City, October 19, 1911.

The Honorable Board of Aldermen, Hon. JOHN PURROY MITCHEL, President, New York City:

Gentlemen—Confirming letter of the Commissioner of Public Works and Acting President of the Borough of Queens, dated August 15, 1911, addressed to the Honorable Francis P. Bent, Vice-President of the Board of Aldermen, City of New York, Manhattan, we now beg to renew our application for a resolution of authority to expend three thousand dollars (\$3,000) revenue bonds without public letting, and in connection therewith to submit the following:

On October 18, 1910, the Board of Aldermen, by resolution, authorized the Comptroller to issue special revenue bonds for \$3,000, the proceeds whereof to be used by the President of the Borough of Queens for the purpose of abating a public nuisance, and to excavate a channel, etc., at the mouth of the 5th ave. sewer, College Point, 3d Ward, which became a law without the approval or disapproval of His Honor the Mayor on November 1, 1910, and which was concurred in by the resolution of the Board of Estimate and Apportionment on March 16, 1911.

Pursuant therewith, this office solicited bids by advertisements in accordance with law which we opened on May 11, 1911, and July 19, 1911, the result of both openings being negative.

The specifications handed to prospective bidders were duly approved by the Board of Estimate and Apportionment on recommendation of the Comptroller.

Inasmuch as this work should be completed as early as possible, and is of such a nature as to preclude the ordinary contractor taking up in consequence of machinery needed to do the work, we deem it for the interests of The City of New York that the same be awarded without public letting, and to that end I beg to enclose resolution for adoption by your honorable Board.

Very truly yours, WALTER H. BUNN, Acting President of the Borough of Queens.

Resolved, That, pursuant to section 419 of the Charter of The City of New York, the Board of Aldermen, deeming it for the public interest, do hereby authorize the President of the Borough of Queens to expend, without public letting, an amount not exceeding three thousand dollars (\$3,000) for the purposes of dredging a channel at the foot of 5th ave., from the end of the existing sewer 1700 feet out into Flushing Bay in the 3d Ward of the Borough of Queens.

Which was referred to the Committee on Public Letting.

Whereas, The Union Railway Company of New York City, has under date of October 27, 1910, made application to this Board for the grant of the right, privilege and franchise to construct, maintain and operate a double track street surface railway as an extension to its existing system, from the intersection of Aqueduct and Boscebel avenues in the Borough of The Bronx, and thence upon and over the Washington Bridge and its approaches, and upon and along 181st street to Broadway, Borough of Manhattan; and

Whereas, Section 172 of the Railroad Law and Sections 72, 73 and 74 of the Greater New York Charter, as amended by chapters 629 and 630 of the Laws of 1905, provide for the manner and procedure of making such grants; and

Whereas, In pursuance of such laws, this Board adopted a resolution on November 11, 1910, fixing the date for public hearing thereon as December 9, 1910, at which citizens were entitled to appear and be heard, and publication was had for at least fourteen (14) days in the "World" and "The New York Times," newspapers designated by the Mayor, and in the City Record for ten (10) days immediately prior to the date of hearing, and the public hearing was duly held on such day; and

Whereas, In further pursuance of such laws this Board adopted a resolution on March 2, 1911, entering on the minutes of the Board the proposed form of contract for the grant of the franchise or right applied for, ordering said contract advertised and fixing April 13, 1911, as the date for the final public hearing thereon; and

Whereas, This Board on April 13, 1911, at the request of the Company, adopted a resolution rescinding the resolutions adopted March 2, 1911, and

Whereas, The counsel for the Company has in a communication dated September 11, 1911, stated the terms and conditions on which the Company will accept the grant; and

Whereas, This Board has made inquiry as to the money value of the franchise or right applied for, and proposed to be granted to the Union Railway Company of New York City, and the adequacy of the compensation to be paid therefor; now, therefore, it is

Resolved, That the following form of the resolution for the grant of the franchise or right applied for by the Union Railway Company of New York City, containing the form of proposed contract for the grant of such franchise or right, be hereby introduced and entered in the minutes of this Board, as follows, to wit:

Resolved, That the Board of Estimate and Apportionment hereby grants to the Union Railway Company of New York City the franchise or right fully set out and described in the following form of proposed contract for the grant thereof, embodying all the terms and conditions, including the provisions as to rates, fares and charges, upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

Proposed Form of Contract.

This contract, made this day of 1911, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the Union Railway Company of New York City (hereinafter called the Company), party of the second part, witnesseseth:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to construct, maintain and operate a double track extension to its present street surface railway with the necessary wires and equipment, for the purpose of conveying passengers only in the Boroughs of Manhattan and The Bronx, in The City of New York, upon the following route, to wit:

Beginning at and connecting with the existing tracks of the Company in Boscebel avenue, at or near its intersection with Aqueduct avenue, in the Borough of The Bronx; thence upon and along Boscebel avenue to Aqueduct avenue; thence westerly upon and over the easterly approach to the Washington Bridge and upon and over the said bridge and its westerly approach to the intersection thereof with 181st street, Borough of Manhattan, and thence upon and along 181st street to the easterly side of Broadway, and to cross such other streets and avenues, named and unnamed, as may be encountered in said route.

The said route, with turnouts, switches and crossovers, hereby authorized is shown upon a map entitled:

"Map showing proposed extension of the Union Railway Co. of New York City, in the Boroughs of Manhattan and The Bronx, City of New York, to accompany petition dated October 27, 1910, to the Board of Estimate and Apportionment."

and signed by F. W. Whitridge, Receiver; Edward A. Maher, General Manager, and T. F. Mullane, Chief Engineer, a copy of which is attached hereto, is to be deemed a part of this contract, is to be construed with the text thereof and is to be substantially followed, provided that deviations therefrom and additional turnouts, switches and crossovers which are consistent with the foregoing description and the other provisions of this contract may be permitted by resolution of the Board.

Nothing in this contract shall be construed as permitting the construction of more than one double-track street surface railway upon the route hereinabove described.

Section 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The consent in writing of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of said railway shall be obtained by the Company within three (3) months from the signing of this contract by the Mayor, and a copy of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained within such time, the Company shall within said three (3) months or within one (1) month thereafter, make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law, to determine if said railway ought to be constructed; otherwise this grant shall cease and determine.

Second—The said right to construct, maintain and operate said railway shall be held and enjoyed by the Company from the date upon which this contract is signed by the Mayor until March 1, 1924, with the privilege of renewal of said contract for the further period of twenty-five (25) years, upon a fair revaluation of such right and privilege.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two (2) years and not later than one (1) year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach such agreement on or before the day one (1) year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding twenty-five (25) years shall be reasonable, and either the City (by the Board) or the Company shall be bound upon request of the other to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, but in no case shall the annual rate so fixed be less than the sum required to be paid for the last year prior to the termination of the original term of this contract, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six (6) months prior to the expiration of this original contract, and their report shall be filed with the Board within three (3) months after they are chosen. They shall act as appraisers and not as arbitrators. They may

base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of the original term of this contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company each paying one-half thereof.

Third—The Company shall pay to the City for the privilege hereby granted the following sums of money:

(a) The sum of two thousand five hundred dollars (\$2,500) in cash on or before the date on which operation over any portion of the route hereby authorized is commenced.

(b) During the first term of five (5) years an annual sum which shall in no case be less than one thousand dollars (\$1,000), and which shall be equal to three (3) per cent. of its gross annual receipts if such percentage shall exceed the sum of one thousand dollars (\$1,000).

During the second term of five (5) years an annual sum which shall in no case be less than one thousand dollars (\$1,000) and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of one thousand dollars (\$1,000).

During the remaining term expiring March 1, 1924, an annual sum which shall in no case be less than one thousand dollars (\$1,000), and which shall be equal to five (5) per cent. of its gross annual receipts if such percentage shall exceed the sum of one thousand dollars (\$1,000).

The gross annual receipts mentioned above shall be that portion of the gross receipts of the Company from all sources within the limits of the City as shall bear the same proportion to its whole gross receipts as the length of the extension hereby authorized shall bear to the entire length of the railway of the Company in operation within the limits of the City.

The annual charges shall commence from the date upon which this contract is signed by the Mayor.

(c) For the use of the Washington Bridge and its approaches during the term expiring March 1, 1914, an annual sum of one thousand dollars (\$1,000); during the succeeding term of five (5) years expiring March 1, 1919, an annual sum of one thousand two hundred and fifty dollars (\$1,250); and during the remaining term of five (5) years expiring March 1, 1924, an annual sum of one thousand five hundred dollars (\$1,500). The compensation herein reserved shall commence from the date on which this contract is signed by the Mayor.

All annual charges as above shall be paid into the treasury of the City on November 1 of each year and shall be for the amount due to September 30 next preceding. Provided that the first annual payment shall be only for that proportion of the first annual charge as the time between the date upon which this contract is signed by the Mayor and September 30 following shall bear to the whole of one year.

Whenever the percentages required to be paid shall exceed the minimum amount as above, then such sum over and above such minimum shall be paid on or before November 1 in each year for the year ending September 30 next preceding.

The annual charges herein provided are intended to include the percentages of gross receipts now required to be paid by railway companies to the City pursuant to the Railroad Law as amended, and such charges as are required under chapter 340 of the Laws of 1892 to be paid by the Company for this extension if said act applies to or controls the Company in relation to the right and privilege hereby granted. The City does not and shall not demand or require the payment by the Company of a percentage of gross receipts under the provisions of chapter 340 of the Laws of 1892 on the gross receipts earned on the extension constructed pursuant to this contract.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Fourth—The annual charges or payments shall continue throughout the whole term of this contract (whether original or renewal), notwithstanding any clause in any statute or in the charter of any other railway or railroad company providing for payment for railway or railroad rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted (whether original or renewal), or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effective for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same shall be subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding; and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Fifth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege, upon the same or other terms and conditions, over the route hereinbefore described.

The use of the railway constructed by the Company under this contract, including the tracks, wires and other equipment, or any structures used in connection therewith, in streets and avenues hereinbefore described, shall be permitted by the Company to any individual or corporation to which the City may have granted, or may hereafter grant, the right or privilege to use such streets and avenues for street railway purposes, upon payment of an annual sum by such individual or corporation to the Company which shall equal the legal interest on such proportion of the actual cost of the construction of such railway and structures, and additions and betterments thereto, as the number of cars operated by such individual or corporation shall bear to the number of cars operated by the companies then using the same; and also such proportion of the cost of keeping the tracks and electrical equipment in repair, and the cost of additions and betterments thereto, such proportion of laying and repairing of pavement and removal of snow and ice, and all other duties imposed upon the Company by the terms of this contract in connection with the maintenance or the operation of said railway to be used as the number of cars operated by such individual or corporation shall bear to the number of cars operated by the companies then using the same, together with the actual cost of the power necessary for the

operation of the cars thereon of such individual or corporation. Provided, however, that if, in the opinion of the Company, the legal rate of interest upon the cost of such railway shall be insufficient sum to be paid for the use of such tracks, it may appeal to the Board and the Board may fix a percentage upon the cost of the legal rate of interest, if, in its opinion, such action is justified.

The Company shall not at any time oppose but shall upon the request of the Board, consent to the construction or operation of any street surface railway which may necessitate the use of any portion of the railway which shall be constructed by the Company, pursuant to this contract.

Sixth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall the title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Seventh—Upon the termination of this original contract, or if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any cause, or upon the dissolution of the Company before such termination, the tracks and equipment of the Company constructed pursuant to this contract within the streets and avenues and upon the bridge shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this contract as above, the Board shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of its tracks and other equipment constructed pursuant to this contract and the said streets and avenues and the bridge shall be restored to their original condition at the sole cost and expense of the Company.

Eighth—The railway herein authorized within three (3) months from the date upon which the consents of the property owners are filed with the Board or from the date of the order of the Appellate Division of the Supreme Court, made pursuant to section 174 of the Railroad Law, confirming the determination of the Commissioners appointed thereunder that such railway ought to be constructed, and shall complete the construction and place the same in full operation within six (6) months from the date of filing such consents or the date of such order, otherwise this right shall cease and determine, and all sums paid, and the sum of two thousand dollars (\$2,000) deposited with the Comptroller of the City, as hereinafter provided, shall thereupon be forfeited to the City; provided that the period for commencement and the period for completion and placing the railway in full operation may be extended by the Board, but the total extension of time for either of such periods shall not exceed in the aggregate six (6) months; and provided further that when the commencement or completion of said construction shall be prevented by legal proceedings in any Court, or by works of public improvement, or from other causes not within the control of the Company, the time for the commencement or completion of such construction may be extended for the period of such prevention, but no delay shall be allowed for unless the Court proceedings shall be diligently prosecuted by the Company, and provided further, that in no case shall such delay be deemed to begin until the Company shall have given written notice to the Board of any such Court proceedings or other occasion of delay, and deliver to the Board copies of any injunction or other orders, and the papers upon which the same shall have been granted, and unless upon the request of the Board the Company shall, in writing, consent that the Board, either in its own name as a party or in the name of the City as a party, may intervene in any such proceedings.

Ninth—Said railway shall be constructed and operated in the latest approved manner of street railway construction and operation, and it is hereby agreed that the Board may require the Company to improve or add to the railway equipment, including rolling stock and railway appliances, from time to time, as such additions and improvements are necessary, in the opinion of the Board. Upon failure on the part of the Company to comply with the direction of the Board within a reasonable time, the rights hereby granted shall cease and determine.

Tenth—Said railway shall be constructed, maintained and operated subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City.

No construction upon said railway shall be commenced until written permits have been obtained from the proper City officials.

In any permits so issued such officials may also impose such conditions, as a condition of the granting of the same, as are necessary for the purpose of protecting any structures in the streets and avenues and upon the bridge, over which such officials have jurisdiction and the Company shall comply with such conditions.

The electrical equipment to be installed by the Company for the operation of the railway within the limits of the City, whether the same be upon streets and avenues, or upon the bridge and its approaches, or upon private property, shall be constructed and maintained under the supervision and control of the Commissioner of Water Supply, Gas and Electricity.

Eleventh—Said railway may be operated by overhead electric power substantially similar to the overhead electric system now in use by street surface railways in the Borough of The Bronx, or by any other motive power, except locomotive steam power or horse power, which may be approved by the Board, and consented to by the abutting property owners, in accordance with the provisions of law, and by the Public Service Commission for the First District of the State of New York.

Provided, however, that the Board, upon giving to the Company one (1) year's notice, may require the Company to operate its railway upon the whole or upon any portion of the route herein authorized to be constructed, except upon the Washington Bridge structure, by underground electric power substantially similar to the system now in use on the street surface railways in the Borough of Manhattan, or upon the whole or any portion of said route by any other practical motive power then in use which does not require the use of poles and overhead wires in the streets and avenues and upon the bridge and its approaches, and thereupon to discontinue the use of the overhead trolley system, and to remove its poles, wires and other structures used by it for that purpose from the streets, avenues and bridge of the City upon said route.

Twelfth—Upon six (6) months' notice by the Board to the Company, all wires for the transmission of power, except trolley wires, for the operation of the railway, upon all or any portion of the route hereby authorized, shall be placed in conduits beneath or alongside of the railway. The Company shall provide in such conduits two

(2) ducts not less than three (3) inches in diameter for the exclusive use of the City. Such ducts shall be used only by the Company for the operation of its railway and by the City, as above.

Thirteenth—The rate of fare for any passenger upon said railway shall not exceed five (5) cents and the Company shall not charge any passenger more than five (5) cents for one continuous ride, from any point on its road or on any road, line or branch operated by it or under its control to any other point thereof, or any connecting branch thereof within the limits of the City.

The Company shall carry free upon the railway hereby authorized during the term of this contract all members of the Police and Fire Departments of the City, when such employees are in full uniform.

Fourteenth—No cars shall be operated upon the railway hereby authorized, other than passenger cars and cars necessary for the repair or maintenance of the railway, and no freight cars shall be operated upon the tracks of said railway.

Fifteenth—The Company shall attach to each car run over the said railway proper fenders and wheel guards, in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities, or as may be required by resolution of the Board.

Sixteenth—All cars which are operated on said railway shall be heated during the cold weather, in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities, or as may be required by resolution of the Board.

Seventeenth—All cars operated on said railway shall be well lighted by electricity, or by some lighting system equally efficient or as may be required by resolution of the Board.

Eighteenth—Cars on said railway shall run at intervals of not more than thirty (30) minutes both day and night, and as much oftener as reasonable convenience of the public may require, or as may be directed by the Board.

Nineteenth—The Company, so long as it shall continue to use any of the tracks upon the streets and avenues or bridge in or upon which said railway shall be constructed, shall cause to be watered at least three (3) times every twenty-four (24) hours when the temperature is above thirty-five (35) degrees Fahrenheit, the entire width of the streets, avenues and bridge, except when the width of such streets, avenues and bridge shall exceed sixty (60) feet between curb lines, in which case the Company shall cause to be watered only sixty (60) feet in width of such roadway, and the Company shall provide for such purpose, at least one tank car, the capacity of which shall be sufficient to water such streets, avenues and bridge in a satisfactory manner.

Twentieth—The Company shall at all times keep the streets, avenues and bridge, upon which the said railway is constructed, between its tracks, the rails of its tracks and for a distance of two (2) feet beyond the rails, on either side thereof, free and clear from ice and snow, provided, however, that the Company shall, at the option of the Commissioner of Street Cleaning, enter into an agreement for each winter season, or part thereof, to clean an equivalent amount of street surface from house line to house line.

And provided further, that the Company shall, at the option of the Commissioner of Bridges, enter into an agreement for each winter season, or part thereof, to clean an equivalent amount of roadway upon the bridge and its approaches.

Twenty-first—As long as said railway, or any portion thereof, remains in any street or avenue, or upon the bridge, the Company shall pave and keep in permanent repair that portion of the surface of the street, avenue or bridge in or upon which the said railway is constructed, between its tracks, the rails of its tracks and for a distance of two (2) feet beyond the rails on either side thereof, under the supervision of the local authorities, whenever required by them to do so, and in such manner as they may prescribe.

In case of the neglect of the Company to pave or repair the pavement on the streets after the expiration of thirty (30) days' notice to do so from the President of the Borough having jurisdiction, or in case of the neglect of the Company to pave or repair the pavement on the bridge after the expiration of thirty (30) days' notice to do so from the Commissioner of Bridges, said President or said Commissioner, as the case may be, may pave or repair the same at the expense of the Company. And the City shall have the right to change the material or character of the pavement of any street or avenue, and in that event the Company shall be bound to replace such pavement in the manner directed by the proper City official, at its own expense, and the provisions as to repairs herein contained shall apply to such renewed or altered pavement.

Twenty-second—Any alteration to the sewerage or drainage system, or to any other substructure or surface structures in the streets, required on account of the construction or operation of the railway, shall be made at the sole cost of the Company, and in such manner as the proper City officials may prescribe.

Twenty-third—It is agreed that the right hereby granted to operate a street surface railway shall not be in preference or in hindrance to public work of the City, and should the said railway in any way interfere with the construction of public works in the streets and avenues, or upon the bridge, whether the same is done by the City directly or by a contractor for the City, the Company shall, at its own expense, protect or remove the tracks and appurtenances in the manner directed by the City officials having jurisdiction over such public work.

Twenty-fourth—Should the grades or lines of the streets and avenues in which the railway is hereby authorized be changed at any time after the railway has been constructed and during the term of this contract, the Company shall, at its own expense, change its tracks and appurtenances to conform with such new grades and lines, and during the construction of any public improvement upon said streets and avenues the Company shall take care of and protect the tracks and appurtenances at its own expense, all to be done subject to the direction of the City official having jurisdiction over the construction of such change.

Twenty-fifth—Upon one (1) year's notice from the Board the Company shall, if the Board shall so determine by resolution, cease the operation of the stub-end terminal at East 181st street and Broadway, and shall within sixty (60) days from the date of such notice make application to the Board for the right to construct, maintain and operate a loop terminal upon streets to be designated by the Board and shall on or before the expiration of said one (1) year enter into a contract for such loop terminal in substitution for the stub-end terminal hereby authorized.

Twenty-sixth—The Company shall keep and maintain the tracks and the electrical equipment upon the bridge and its approaches necessary for the operation of cars thereon in good order and repair and in such manner as shall be approved and directed by the Commissioner of Bridges, and shall furnish all motive power required by the Commissioner of Bridges for the operation of its cars. If deemed necessary by the Commissioner of Bridges, the Company shall install and operate a system of signals to insure the safe and efficient operation of cars, such system to be approved by the Commissioner of Bridges. In the event of any necessity for changing the layout of tracks, curves, switches, trolley wires, or platforms on the bridge, in order to facilitate operation of cars by the Company, said Company must do all the work and furnish all the labor and tools necessary for effecting such changes, which shall all be made

under the control and direction of the Commissioner of Bridges, and no such changes or construction connected therewith, or relating thereto, shall be made unless the plan or plans for the same have been first submitted to the Commissioner of Bridges and approved by him.

Twenty-seventh—Before beginning the operation of cars, the Company shall file with the Commissioner of Bridges a statement for his approval and assent as to the type of car which it proposes to operate and a sketch showing clearance dimensions, weight on axles and wheel spacing or such other information as may be required by said Commissioner. All cars operated over the bridge by the Company, and all equipment and appliances relating to such operation shall be subject at all times to the inspection of the Commissioner of Bridges or his authorized representatives, who shall have power to forbid the entrance to the bridge of cars which may for any reason be unsatisfactory, and who shall have power to direct the removal of any old or inadequate appliance and the substitution thereof of appliances of approved character.

Said Commissioner may adopt rules and regulations in regard to the number of cars to be operated over the bridge, the rate of speed of said cars, the movement and headway thereof, the type and weight of cars to be used and the condition thereof, the switching of cars and the use of platforms and the control of the electrical current used by the Company, and the said Commissioner may alter and amend any such rules and regulations so as to secure the safety and comfort of persons using the bridge and preserve the purposes for which the bridge was constructed, and upon serving notice upon the Company that such rules and regulations have been made, amended or altered, the Company shall comply with all the requirements thereof.

Twenty-eighth—Nothing in this contract shall be deemed to affect in any way the right of the Commissioner of Bridges to make alterations or changes in the construction, operation or management of the bridge or to affect in any way the control of such Commissioner over such bridge, as provided by the Charter of the City.

Twenty-ninth—The Company shall submit to the Board a report not later than November 1 of each year for the year ending September 30 next preceding, and at any other time, upon request of the Board, which shall state:

Thirtieth—The Company shall at all times keep accurate books of account of the gross receipts from all sources within the limits of the City, and shall, on or before November 1 of each year, make a verified report to the Comptroller of the City of the business done by the Company, for the year ending September 30 next preceding, in such form as he may prescribe. Such report shall contain a statement of such gross receipts, the total miles in operation within the limits of the City and the miles of railway constructed and operated under this contract, and such other information as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report, and may examine its officers under oath.

Thirty-first—In case of any violation or breach or failure to comply with any of the provisions herein contained, or with any orders of the Board or of the Commissioner of Bridges acting under the powers herein reserved, the franchise or consent herein granted may be forfeited by a suit brought by the Corporation Counsel, on notice of ten (10) days to the Company, or at the option of the Board by resolution of said Board, which said resolution may contain a provision to the effect that the railway constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity. Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Thirty-second—If the Company shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures and equipment as herein provided in good condition throughout the whole term of this contract, the Board may give notice to the Company specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time, the Company shall, for each day thereafter during which the default or defect remains, pay to the City the sum of two hundred and fifty dollars (\$250), as fixed or liquidated damages, or the Board, in case such structures or equipment which may affect the surface of the streets or of the bridge shall not be put in good condition within a reasonable time after notice by the Board as aforesaid shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided for.

Thirty-third—The Company shall assume all liability to persons or property by reason of the construction or operation of the railway authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company.

Thirty-fourth—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of the City the sum of two thousand dollars (\$2,000), either in money or securities, to be approved by him, which sum together with any and all sums of money or any securities heretofore deposited with the Comptroller by the Company under and pursuant to franchises heretofore granted to it by the City for the faithful perform-

The procedure for the imposition and collection of the penalties in this contract shall be as follows: The Board, on complaint made, shall give notice to the Company, directing its President, or other officer to appear before the Board on a certain day not less than ten (10) days after the date of such notice, to show cause why the Company should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or, after a hearing appears in the judgment of the Board to be in fault, said Board shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to the Board to be just, and without legal procedure direct the Comptroller to withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund the Company shall, upon ten (10) days' notice in writing, pay to the City a sum sufficient to restore said security fund to the original amount, and in default thereof this contract shall be cancelled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Thirty-fifth—The words "notice" or "direction" wherever used in this contract, shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Thirty-sixth—The words "streets or avenues," and "streets and avenues," wherever used in this contract, shall be deemed to mean "streets, avenues, highways, parkways, driveways, concourses, boulevards, bridges, viaducts, tunnels, public places or any other property to which the City has title or over which the public has an easement," encountered in the route hereinabove described, and upon or in which authority is hereby given the Company to construct a railway.

Thirty-seventh—If at any time the powers of the Board or any other of the authorities herein mentioned or intended to be mentioned, shall be transferred by law to any other board, authority, officer or officers, then and in such case such other board, authority, officer or officers, shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Sec. 3. Nothing in this contract shall be construed as in any way limiting the present or future jurisdiction of the Public Service Commission under the laws of the State of New York.

Sec. 4. This grant is also upon the further and express condition that the provisions of Article 5, and the other provisions of the Railroad Law pertinent hereto shall be strictly complied with by the Company.

Sec. 5. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms and conditions and requirements in this contract fixed and contained.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

At the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the De-

partment of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioner of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a Department, chief of a Bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the work required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be included in the envelope containing the bid or estimate, but should be either included in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to include the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel can be obtained upon application thereof at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
