BOARD OF ESTIMATE AND APPORTIONMENT.

Minutes of Meeting of Board of Estimate and Apportionment, Held in Room 16, City Hall, Thursday, February 13, 1913.

The Board met in pursuance of an adjournment.

Present—William J. Gaynor, Mayor; William A. Prendergast, Comptroller; Douglas Mathewson, Deputy and Acting Comptroller; John Purroy Mitchel, President, Board of Aldermen; George McAneny, President, Borough of Manhattan; Alfred E. Steers, President, Borough of Brooklyn; Cyrus C. Miller, President, Borough of The Bronx; Maurice E. Connolly, President, Borough of Queens, and George Cromwell, President, Borough of Richmond.

The Mayor, Hon. William J. Gaynor, presided.

The Minutes of the meeting held January 30, 1913, were approved as printed in the CITY RECORD February 11, 1913.

PUBLIC IMPROVEMENT MATTERS.

Changing the Grade of 4th Avenue, from East 32d Street to East 34th Street; of Park Avenue, from East 34th Street to East 35th Street; of East 33d Street, from 4th Avenue to a Point 256 Feet Easterly Therefrom, and of East 34th Street, from Madison Avenue to a Point 238 Feet East of Park Avenue, Borough of Manhattan (Cal. No. 1).

(At the close of the public hearing on June 13, 1912, this matter was referred to the President of the Borough of Manhattan and the Chief Engineer of the Board for report, and at the meeting of the Board on January 30, 1913, it was laid over for two weeks.)

On motion of the President of the Borough of Manhattan the matter was again laid over for two weeks (February 27, 1913).

Changing the Line of North 15th Street, Between Banker Street and Nassau Avenue, Borough of Brooklyn (Cal. No. 2).

(This plan provided for including in the street system a small triangular area at the junction of North 15th street, Nassau avenue and Banker street, the effect of which would be to create a large paved and flagged area at the junction of three important streets, and was referred to the Chief Engineer on November 14, 1912.)

The Secretary presented the following communication from the President of the Borough of Brooklyn, which was ordered printed in the minutes and filed.

The City of New York, Office of the President of the Borough of Brooklyn, Brooklyn, February 5, 1913.

Hon. JOSEPH HAAG, Secretary, Board of Estimate and Apportionment:

Dear Sir—There is before the Board of Estimate and Apportionment at the present time in the hands of the Chief Engineer a proposition regarding the widening of North 15th street, between Banker street and Nassau avenue, where it was requested that there be included in the opening proceedings a small triangular plot at the junction of North 15th street, Banker street and Nassau avenue. Since these proceedings were begun the owners of the property on both sides of North 15th street referred to have ceded to the City the land within the street lines. I think, therefore, that it would be inadvisable to proceed with the widening as heretofore requested, and would ask that all the papers be returned to me and the matter considered closed.

Yours very truly, ALFRED E. STEERS, President of the Borough.

Laying Out North Street, from Morris Avenue to Walton Avenue, Borough of The Bronx (Cal. No. 3).

(At the close of the public hearing on January 9, 1913, this matter was laid over for two weeks, on January 23 it was laid over for one week, and on January 30 it was laid over for two weeks.)

On motion of the President of the Borough of The Bronx, the matter was again laid over for two weeks (February 27, 1913).

Petition for a Change in the Lines of Fort Schuyler Road, between Morris Lane and Shore Drive, Borough of The Bronx (Cal. No. 4).

(At the meeting of the Board on January 23, 1913, this matter was laid over for one week, and on January 30 it was laid over for two weeks.)

The President of the Borough of The Bronx offered the following resolution:

Resolved, That the Board of Estimate and Apportionment of The City of New York hereby denies the petition dated June 28, 1912, from Arabella D. Huntington, requesting a change in the lines of Fort Schuyler road, between Morris lane and Shore drive, Borough of The Bronx.

Which was adopted by the following vote:

Affirmative—The Mayor, the Deputy and Acting Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

Amending the Proceeding for Acquiring Title to Fort Schuyler Road, from the Easterly Boundary Line of the Land Acquired for West Farms Road at Westchester Creek to Shore Drive, by Excluding that Portion of the Street South of Morris Lane, Borough of The Bronx (Cal. No. 5).

(At the close of the public hearing on January 9, 1913, this matter was laid over for two weeks, and on January 23 it was laid over for one week, and on January 30 it was laid over for two weeks.)

On motion of the President of the Borough of The Bronx the matter was again laid over for two weeks (February 27, 1913).

Acquiring Title to Dyre Avenue, from Boston Road to the Northerly Line of The City of New York, Borough of The Bronx (Cal. No. 6).

(At the close of the public hearing on February 6, 1913, this matter was laid over for one week.)

Mr. John H. Eden appeared in opposition to the proposed improvement.

The President of the Borough of The Bronx offered the following resolution:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 970 of the Greater New York Charter, as amended, deems it for the public interest that the title, for the uses and to the extent thereof as herein mentioned, to the lands and premises required for the opening and extending of Dyre avenue, from Boston road to the northerly line of The City of New York, in the Borough of The Bronx, City of New York, should be acquired by The City of New York.

Resolved, That the title to be so acquired is hereby determined to be a title in fee in such premises.

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to a Special Term of the Supreme Court, for the appointment of Commissioners of Estimate and of one Commissioner of Assessment, and to take the necessary proceedings, in the name of The City of New York, to acquire title as herein determined, wherever the same has not heretofore been acquired, for the use of the public for the same purpose, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending Dyre avenue, from Boston road to the northerly line of The City of New York, in the Borough of The Bronx, City of New York, upon the receipt by him of a rule map, damage map and profile, certified as having been approved by this Board.

Resolved, That no portion of the cost and expense of said proceedings, incurred by reason of the provisions of title 4, chapter 17 of the Greater New York Charter, as amended, shall be borne and paid by The City of New York, but that the whole of such cost and expense, including the expense of the Bureau of Street Openings, the cost and expense incurred by the President of the Borough of The Bronx, in the preparation of rule, damage, benefit and profile maps, for the use thereof; and of the awards, if any, for damages caused by intended regulation and all other expenses and disbursements authorized by section 997 of said title, as amended, shall be assessed upon the property deemed to be benefited thereby; and

Whereas, It appears from the affidavit of the Supervisor of the City Record that due notice was given therein that at the time of the adoption of the resolution directing the institution of proceedings herein to acquire title to the lands required for this improvement that the Board of Estimate and Apportionment would consider a pro-

posed area of assessment as therein described and would give a public hearing thereon upon the 6th day of February, 1913; and

Whereas, At the aforesaid time and place a public hearing was given to all persons interested in such proposed area of assessment who appeared, and such proposed area of assessment was duly considered by this Board;

Resolved, That the area of assessment for benefit in these proceedings be and is hereby fixed and determined to be as follows:

Beginning at a point on the northerly boundary line of The City of New York where it is intersected by the prolongation of a line distant 100 feet westerly from and parallel with the westerly line of Harper avenue, the said distance being measured at right angles to Harper avenue, and running thence southeastwardly along the said boundary line to the intersection with the prolongation of a line distant 100 feet easterly from and parallel with the easterly line of Merritt avenue as this street adjoins East 233d street on the north, the said distance being measured at right angles to Merritt avenue; thence southwardly along the said line parallel with Merritt avenue and along the prolongation of the said line to the intersection with the northerly line of East 233d street; thence southwardly in a straight line to a point on the southerly line of East 233d street distant 100 feet easterly from the easterly line of Merritt avenue, the said distance being measured at right angles to Merritt avenue; thence southwardly and always distant 100 feet easterly from and parallel with the easterly line of Merritt avenue to the intersection with a line distant 100 feet southerly from and parallel with the southerly line of Boston road, the said distance being measured at right angles to Boston road; thence westwardly along the said line parallel with Boston road to the intersection with a line midway between DeLavall avenue and Merritt avenue; thence southwardly along the said line midway between DeLavall avenue and Merritt avenue to a point distant 100 feet southerly from the southerly line of Hollers avenue; thence westwardly and parallel with Hollers avenue to the intersection with a line midway between Rombouts avenue and DeLavall avenue; thence southwardly along the said line midway between Rombouts avenue and DeLavall avenue to the intersection with a line midway between Hollers avenue and DeLavall avenue; thence westwardly along the said line midway between Hollers avenue and DeLavall avenue to the intersection with a line midway between Varian avenue and Wright avenue; thence northwardly along the said line midway between Varian avenue and Wright avenue and along the prolongation of the said line to the intersection with the prolongation of a line distant 100 feet westerly from and parallel with the westerly line of Harper avenue as this street adjoins Conner street, the said distance being measured at right angles to Harper avenue; thence northwardly along the said line parallel with Harper avenue and along the prolongations of the said line to the point or place of beginning.

Resolved, by the Board of Estimate and Apportionment of The City of New York, in conformity with the provisions of section 994 of the Charter, That the Corporation Counsel be and he hereby is authorized to enter into agreements relative to the acceptance of deeds of cession to land lying within the lines of the street to which these proceedings relate, and comprising one-half or more of the street width, at a date subsequent to that on which the Commissioners of Estimate and Assessment may have been appointed in these proceedings, provided that the title of the grantors be established to his satisfaction, and that the sum of one dollar be accepted as an award for the land so ceded, the said agreement being also conditioned upon the release of all of the remaining abutting land owned by the grantor, extending to the centre line of the block and occupying a position approximately at right angles to the land ceded, from any assessment in the proceedings, except its proportionate share of any and all awards that may be made for the taking of buildings acquired, or awards for damages to buildings affected in and by the said proceedings, and its proportionate share of the expenses incurred in said proceedings to the date when the deed is accepted.

Which was adopted by the following vote:

Affirmative—The Mayor, the Deputy and Acting Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

Rule Map and Damage Map in the Proceeding for Acquiring Title to Flatlands Avenue, from Ralph Avenue to East 76th Street; to Paerdegat Avenue North, from Ralph Avenue to Paerdegat Basin; to Ralph Avenue, from the Junction of Avenue H and Paerdegat Avenue North to Paerdegat Avenue South; to Paerdegat Avenue South, from Glenwood Road to Avenue J; to Avenue J, from Ralph Avenue to Paerdegat Avenue South; to East 71st Street, from Ralph Avenue to Avenue J; and to East 72d Street, from Ralph Avenue to Avenue J, Borough of Brooklyn (Cal. No. 7).

(These maps were presented at the meeting of the Board on February 6, 1913, at which time they were referred to the Chief Engineer for report at this meeting.)

The Secretary presented the following report of the Chief Engineer:

Report No. 12113.

February 8, 1913.

Hon. WILLIAM J. GAYNOR, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Under date of February 6, 1913, the President of the Borough of Brooklyn has submitted for consideration the rule map and damage map prepared for the court record and for the use of the Commissioners of Estimate and Assessment to be appointed in the proceeding for acquiring title to the following streets: Flatlands avenue, from Ralph avenue to East 76th street; Paerdegat avenue, north from Ralph avenue to Paerdegat basin; Ralph avenue, from the junction of Avenue H and Paerdegat Avenue North to Paerdegat Avenue South; Paerdegat Avenue South, from Glenwood road to Avenue J; Avenue J, from Ralph avenue to Paerdegat Avenue South; East 71st street, from Ralph avenue to Avenue J; East 72d street, from Ralph avenue to Avenue J.

This proceeding was instituted on February 6 last through the amendment of a proceeding authorized by the Board of Estimate and Apportionment on October 3, 1912, which did not provide for the small triangular area within the lines of 71st street and included all of East 72d street, from Ralph avenue to Avenue U.

The maps indicate that the proceeding affects a gross area of 429,016.58 square feet, distributed among the various streets as shown in the following table:

Street.	Area Heretofore Legally Acquired. Square Feet.	Net Area to be Acquired Under this Proceeding. Square Feet.
Flatlands avenue	176.12	57,797.56
Paerdegat Avenue North		39,273.92
Ralph avenue	802.05	30,205.07
Paerdegat Avenue South	14,341.26	216,505.84
Avenue J		37,962.00
East 71st street		2,714.82
East 72d street		29,237.94
Total	15,319.43	413,697.15

The streets are not in use and the area traversed is almost entirely unimproved. There are no encroachments except at the intersection of Ralph avenue, Flatlands avenue and Paerdegat Avenue South, where two buildings utilized by the City for sewage disposal purposes are wholly included within the street area.

Portions of the streets are shown on two property maps not filed.

Of the net area, 22,756.85 square feet within the lines of Ralph avenue, Paerdegat Avenue North and Flatlands avenue is subject to a sewer easement acquired under chapter 59 of the Laws of 1873, and 16,056.64 square feet within the lines of Flatlands avenue was acquired for Paerdegat Basin under proceedings confirmed on February 24, 1908.

I would recommend the approval of the maps, and that after certification they be forwarded to the Corporation Counsel. Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment of The City of New York hereby approves the rule map and damage map submitted by the President of the Borough of Brooklyn, to be used by the Corporation Counsel in the proceeding instituted by said Board on October 3, 1912, for acquiring title to Flatlands avenue, from Ralph avenue to East 76th street; Paerdegat Avenue North, from Ralph avenue

to Paerdegat Basin; Ralph avenue, from the junction of Avenue H and Paerdegat Avenue North to Paerdegat Avenue South; Paerdegat Avenue South, from Glenwood road to Avenue J; Avenue J, from Ralph avenue to Paerdegat Avenue South; and East 72d street, from Ralph avenue to Avenue U, Borough of Brooklyn, which proceeding was amended on February 6, 1913, so as to relate to Flatlands avenue, from Ralph avenue to East 76th street; Paerdegat Avenue North, from Ralph avenue to Paerdegat Basin; Ralph avenue, from the junction of Avenue H and Paerdegat Avenue North to Paerdegat Avenue South; Paerdegat Avenue South, from Glenwood road to Avenue J; Avenue J, from Ralph avenue to Paerdegat Avenue South; East 72d street, from Ralph avenue to Avenue J, and to East 71st street, from Ralph avenue to Avenue J.

Which was adopted by the following vote:

Affirmative—The Mayor, the Deputy and Acting Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

Sewer in 51st Street, between Flushing Bay and Ditmars Avenue, Borough of Queens (Cal. No. 8).

(At the meeting of the Board on February 6, 1913, this matter was referred to the Consulting Engineers of the five Boroughs and the Chief Engineer of the Board for report in one week.)

The Secretary presented the following report of the Consulting Engineers of the five Boroughs and the Chief Engineer of the Board:

Office of the Commissioner of Public Works, Borough of Manhattan, 21 Park Row, New York City, February 13, 1913.
To the Honorable Board of Estimate and Apportionment:

Gentlemen—The matter of granting separate authorization for constructing the outfall portion of the sewer in East 51st street, between Flushing Bay and Lurtig street, Borough of Queens, in advance of the final authorization of the entire work for which preliminary authorization was given on March 21, 1912, has been given careful consideration. It is proposed to divide the improvement into two contracts, one of which includes an outfall sewer to be built between Flushing Bay and Ditmars avenue, across a marsh, the surface of which is only a little above high tide, and the other a tunnel sewer to be built between Ditmars avenue and Lurtig street, on higher ground.

After able arguments to the contrary had been presented by Consulting Engineer Crowell it was the unanimous opinion of the undersigned that the separate immediate final authorization is not desirable. This conclusion is based upon the following reasons:

The ultimate completion of the whole work would not necessarily be advanced by the separate authorization of the outfall portion, and the latter, after completion, would not be available for use until the tunnel portions are finished.

The joint occupation of the outfall portions of the work by two contractors, as proposed under the separate authorization, would raise questions of responsibility for unsatisfactory work, and is therefore undesirable.

The work could be more cheaply done if let in one contract, as considerable advantage would accrue to a contractor building both the outfall and tunnel portions by having unrestricted access to the water-front for handling materials over the outfall portion of the structure, and in freely depositing material from the tunnel over the sewer.

After consideration of the outstanding obligations to be met from the Street Improvement Fund it was thought unwise to tie up money for this work prematurely, when such tying up of funds will not advance either the ultimate completion of the work or the time when its cost could be restored to that fund.

Respectfully,

E. P. GOODRICH, Consulting Engineer, Borough of Manhattan; GEO. W. TILLSON, Consulting Engineer, Borough of Brooklyn; AMOS L. SCHAEFFER, Consulting Engineer, Borough of The Bronx; FOSTER CROWELL, Consulting Engineer, Borough of Queens; LOUIS L. TRIBUS, Consulting Engineer, Borough of Richmond; NELSON P. LEWIS, Chief Engineer, Board of Estimate and Apportionment.

On motion of the President of the Borough of Queens the matter was laid over until such time as the second section of the work is ready to be placed under contract.

Including in the Tax Levies of the Boroughs of Queens and Richmond Portions of the Expense of Completed Physical Improvements (Cal. No. 9).

(At the meeting of the Board on February 6, 1913, this matter was laid over for one week.)

On motion, the Secretary was directed to call the attention of the Comptroller to the provisions of chapter 679 of the Laws of 1911, which requires that before the Borough assessments can be collected the amount of the expense involved must be certified by him to the Board of Assessors and to the Department of Taxes and Assessments.

Improvement of the Tracks and Structures of the New York Central and Hudson River Railroad Company on the West Side of the City, Borough of Manhattan, (Cal. No. 10).

The Secretary presented the following communication from the Commissioner of Docks, which was ordered printed in the minutes and filed.

City of New York, Department of Docks and Ferries, Pier "A," North River, New York, January 31, 1913.

Hon. WILLIAM J. GAYNOR, Mayor, and Chairman of the Board of Estimate and Apportionment:

Sir—Referring to the resolution adopted by you on the 16th inst., I beg to advise that on the 24th inst. I submitted to the Secretary of War for approval proposed modifications in the pierhead line in the vicinity of West 79th street and West 96th street, on the North River, and proposed modification in the bulkhead line at West 158th street. I have to-day submitted to the Secretary of War for approval a proposed modification in the pierhead and bulkhead line extending for a distance of about 5,040 feet south of West 208th street, North River. Respectfully yours,

CALVIN TOMKINS, Commissioner of Docks.

Determination of the Apportionment of Expense of Street Alterations By the Long Island Railroad at Main Street, Borough of Queens (Cal. No. 11).

The Secretary presented the following, which was ordered printed in the minutes and filed:

State of New York, Public Service Commission for the First District, Tribune Building, 154 Nassau street, New York, February 4, 1913.

JOSEPH HAAG, Esq., Secretary, Board of Estimate and Apportionment, 277 Broadway, New York City:

Dear Sir—Transmitted herewith, and hereby served upon The City of New York, is a certified copy of a Resolution in Case No. 1266, adopted by the Commission at a meeting on February 4, 1913, determining the expense of street alterations by the Long Island Railroad Company at Main street.

Please acknowledge receipt of the enclosure. Yours very truly,

TRAVIS H. WHITNEY, Secretary.

At an adjourned meeting of the Public Service Commission for the First District duly held at its office, No. 154 Nassau street, in the Borough of Manhattan, City and State of New York, on the 4th day of February, 1913.

Present—William R. Willcox, Chairman; Milo R. Maltbie, John E. Eustis, J. Sergeant Cram, George V. S. Williams, Commissioners.

Case No. 1266—Resolution Determining Expense of Street Alterations at Main Street.

In the matter of the hearing on the motion of the Commission on the question of alterations and changes in the following grade crossings with the tracks of the North Side Division of The Long Island Railroad Company in Flushing, namely: Lawrence street, Main street, Parsons avenue, Percy street, Wilson avenue, Boerum avenue, Murray street, 22d street, Broadway.

Whereas, on December 30, 1910, the Commission adopted a final order and determination in this proceeding as to changes in the grade crossing at Main street and at certain other streets, and on November 21, 1911, and at other times approved detailed plans for construction of bridge at Main street; and

Whereas, in the course of work done on elevating tracks at Main street and constructing said bridge it appeared that certain changes had to be made on Main street in order to dispose of surface water drainage; and

Whereas, the Long Island Railroad Company and The City of New York have asked the Commission to determine how much of said work of changing Main street paving is properly chargeable to this improvement, the Long Island Railroad Company claiming that only 208 square yards of paving is necessitated by the grade crossing elimination, and The City of New York claiming that 358 square yards of paving is necessitated by said improvement.

Now, therefore, it is

Resolved and determined, That 225 square yards of paving of Main street is necessitated by the improvement in this case, and that the cost of 225 square yards and no more of paving Main street be included in the cost of this improvement to be borne by the State of New York, The City of New York and the Long Island Railroad Company in the proportions required by law.

BY THE COMMISSION,

TRAVIS H. WHITNEY, Secretary.

[L. S.]

State of New York, County of New York, ss.:

I, Travis H. Whitney, Secretary of the Public Service Commission for the First District, do hereby certify, that I have compared the above with the original adopted by said Commission on February 4, 1913, and that it is a correct transcript therefrom and of the whole of the original.

In testimony whereof, I have hereunto subscribed my hand and affixed the seal of the Commission this 4th day of February, 1913.

[SEAL.]

TRAVIS H. WHITNEY, Secretary.

Proposed Amendment of the Charter, in Relation to the Expenses of the Bureau of Street Openings in the Law Department (Cal. No. 12).

The Secretary presented the following:

City of New York, Law Department, Office of the Corporation Counsel, New York, February 3, 1913.

JOSEPH HAAG, Esq., Secretary, Board of Estimate and Apportionment:

Sir—I have received from the Assistant Corporation Counsel, representing the City in matters in which it is interested pending before the Legislature at Albany, the enclosed copy of a bill introduced in the Senate by Senator Duhamel and known as Senate Bill No. 80, Int. 79, entitled "An Act to amend the Greater New York Charter in relation to the expenses of the Bureau of Street Openings in certain cases," and proposing to amend section 258 of the charter, so as to provide that half of the expenses incurred by the Bureau of Street Openings in the Law Department on account of proceedings conducted therein, shall be charged to The City of New York, and only half of such expense shall be included in the assessments for benefit in the several proceedings.

Whether or not the expense incurred by the City in conducting street opening proceedings should be borne in the manner provided by the proposed act would seem to be a question of policy which would more properly be decided by the Board of Estimate and Apportionment than by the Law Department.

I, therefore, enclose a copy of the proposed act, and would respectfully ask that it be presented to the Board for its determination as to what position should be taken by the Corporation Counsel with reference to the enactment of the proposed bill by the Legislature. Yours respectfully,

G. L. STERLING, Acting Corporation Counsel.

AN ACT to amend the Greater New York Charter, in relation to the expense of the Bureau of Street Openings in certain cases.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Section two hundred and fifty-eight of the Greater New York charter, as re-enacted by chapter four hundred and sixty-six of the laws of nineteen hundred and one, is hereby amended to read as follows:

BUREAUS.

Section 258. The corporation counsel may establish such bureaus for divisions of service in the law department as he may judge most conducive to the efficient discharge of duty. There shall be a bureau in the law department to be known as the "bureau of street openings." It shall have charge under the direction of the corporation counsel of such legal proceedings to open, widen, alter or close streets and parks, and to acquire title to or extinguish interests in real estate therefor, and of all such other proceedings involving awards for damages or assessments for benefit to lands, tenements and hereditaments as may be assigned to it by the corporation counsel. The corporation counsel shall appoint and remove, at will, the head of said bureau and all other employees thereof and shall regulate their salaries and compensation. The assistants to the corporation counsel assigned to such bureau, shall conduct in his behalf, and subject to his direction and control, all legal proceedings so assigned, and shall also act as clerks to the commissioners of estimate or the commissioners of estimate and assessment in all such proceedings without compensation therefor other than salaries. Such bureau shall furnish to the commissioners of estimate or the commissioners of estimate and assessment in each proceeding, suitable offices and all the assistants which they may require in preparing their preliminary abstracts of estimate or of estimate and assessment, and their final reports for presentation to the supreme court for confirmation. [The] One-half of the compensation of the head of said bureau and of all other employees thereof, and all the legal costs, charges, expenses and disbursements incurred by said bureau on account of such proceedings, shall be paid by the city of New York and shall not be assessable for benefit in any proceeding or proceedings, and the remainder thereof shall be divided proportionately, as nearly as practicable, to the services rendered or expense incurred in each of the said proceedings, and shall be included in the assessment for benefit to be imposed by the commissioners of estimate or the commissioners of estimate and assessment in each proceeding as part of the costs, charges and expenses thereof, after the same shall have been taxed by the court in the manner now provided by law for the taxation of such costs, charges, expenses and disbursements; but the compensation of the employees of said bureau and the necessary charges, expenses and disbursements thereof, shall be chargeable to and shall be paid monthly, in the first instance by the comptroller of the city of New York, out of the fund known as "the fund for street and park openings," created by chapter one hundred and seventy-three of the laws of eighteen hundred and eighty-five, and the acts amendatory thereof and supplemental thereto, upon pay-rolls and vouchers duly certified by the corporation counsel. The assistant clerks or other appointees, of this bureau, engaged in the transaction of business or duties pertaining to the borough of Brooklyn, may have their office in the borough hall or public building of the borough of Brooklyn, and if, in the judgment of the corporation counsel it be convenient and advisable, such of the assistants, clerks or other appointees of this bureau as may be engaged in the transaction of business pertaining to the borough of the Bronx, the borough of Richmond or the borough of Queens, may likewise have an office in either of said boroughs.

§2. Sections nine hundred and ninety-seven and nine hundred and ninety-nine of such charter, as amended by chapter six hundred and fifty-eight of the laws of nineteen hundred and six, are hereby amended to read, respectively, as follows:

CORPORATION COUNSEL TO REPRESENT INTERESTS OF CITY BEFORE COMMISSIONERS, AND PROVIDE CLERKS AND OFFICES; EXPENSES.

§997. It shall be the duty of the corporation counsel to furnish the commissioners of estimate and the commissioner of assessment who may be appointed in any proceeding authorized by this title, such necessary clerks and other employees, and to provide such suitable offices as they may require to enable them to fully and satisfactorily discharge the duties imposed on them by this chapter; the corporation counsel shall, either in person or by such assistant or assistants [counsel] as he shall designate for the purpose, appear for and protect the interests of the city in all proceedings in court and before the commissioners. All [expenses for searcher's or surveyor's fees, and such other] necessary expenses and disbursements which the city of New York shall incur under the provisions of this section shall be paid by the comptroller out of the fund for street and park openings provided for by existing laws, and [if the board of estimate and apportionment so directs] one-half or fifty per centum of said expenses shall be borne and reimbursed and paid to the city of New York by the parties and persons interested and entitled, as owners or otherwise, unto and in the lands, tenements, hereditaments, and premises deemed to be benefited thereby, and the same shall be included in and taxed by the court, upon due proof of the services rendered, and disbursements charged as part of the necessary costs and expenses of the said proceedings; but such expenses and disbursements which are assessable, shall not be included in the assessments for benefit until after they have been taxed before a justice of the supreme court, in the appropriate department, and have been directed to be so included by the board of estimate and apportionment. The expenses of any and all

appeals taken by the city of New York, shall be paid by the city of New York, and the expenses incurred by reason of motions had after confirmation of any report shall be borne by the city of New York.

TAXATION OF COSTS.

§999. A bill of said costs, charges, and expenses shall be filed in the office of the clerk of the county in which the order appointing the said commissioners has been entered, at least ten days before the same shall be presented for taxation. There shall be annexed a statement of the amounts, if any, previously taxed, to whom the same were payable, and the date of such taxation. A notice of at least ten days shall be published in the "City Record," and the corporation newspapers, and served upon the corporation counsel, of the time and place of taxing said costs, charges, and expenses, which shall be thereupon taxed by a justice of the supreme court, or a referee under his special order, and before the report or reports of said commissioners shall be presented for confirmation. It shall be the duty of the corporation counsel to present to the justice or referee upon such taxation his verified certificate in writing that the items of cost, charges and expenses have been audited and examined by him, and [also setting forth the result of such audit and examination.] shall set forth the result of such examination in detail, and stating whether the items included therein were reasonable and necessary and that no items are included improperly. On said final taxation there may be a retaxation of any bill previously taxed in the same proceeding, if sufficient reason therefor be made to appear.

§3. This act shall take effect immediately.

Explanation—Matter in *italics* is new; matter in brackets [] is old law to be omitted.

Report No. 12126.

February 11, 1913.

Hon. WILLIAM J. GAYNOR, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Under date of February 3, 1913, the Corporation Counsel has transmitted to the Board a copy of Senate Bill No. 80, Introductory No. 79, by Senator Duhamel, which bill provides that one-half of the expenses incurred by the Bureau of Street Openings of the Law Department, in proceedings conducted therein, shall be charged to The City of New York, and only half of such expenses shall be assessed.

The Corporation Counsel says that this is a question of policy which should more properly be decided by the Board of Estimate and Apportionment than by the Law Department, and he asks the Board to determine what position should be taken by the Corporation Counsel in reference to the enactment of the bill.

The bill amends sections 258, 997 and 999 of the City Charter. Section 258 now provides that the compensation of the head of the said Bureau of Street Openings, of the Corporation Counsel's office, and of other employees thereof, and all the legal costs, charges, expenses and disbursements, shall be divided proportionately as nearly as practicable and included in the assessment for benefit in each street opening proceeding as a part of the costs. This results in placing upon the property owners who are assessed in street opening proceedings the cost of the entire Bureau of Street Openings, including the rent of the building occupied by that office, equipment, furniture and everything else which it is necessary for this division of the Law Department to have for the proper conduct of its business. The bill under consideration amends this section by providing that one-half of this expense shall be paid by The City of New York and shall not be assessable.

Section 997 provides that all expenses of the Street Opening Bureau of the Law Department shall be paid by the Comptroller out of the Fund for Street and Park Openings, and that if the Board of Estimate and Apportionment so directs, they shall be included in assessments levied in street opening proceedings. It is proposed to amend this section in a manner consistent with the amendment of section 258, and provide that only one-half of these expenses shall subsequently be recovered by including them in the assessments for street openings. It is further proposed to amend this section by adding to it a provision that the expense of any and all appeals taken by The City of New York shall be paid by the City, and that all expenses incurred by reason of motions after confirmation of any report shall be borne by The City of New York.

The proposed amendments to section 999 are unimportant, but provide for verification of the statement of the Corporation Counsel of the items of cost, and a further statement as to whether the items were reasonable and necessary, and that no items are improperly included.

The object of this bill is undoubtedly to reduce the cost of street opening proceedings. That these costs are large, cannot be denied, this being especially true since it has been the practice to include in them all the expense of the Borough Presidents in making surveys and maps. It can scarcely be questioned that some of the expenses, such as office rent and the compensation of the head of the Street Opening Bureau, of the Corporation Counsel's office, are naturally expenses of administration, but no provision has ever been made for them in the budget. It is now proposed to pay half of all of these expenses from the Fund for Street and Park Openings and not recover the amounts by including them in the assessments. The Street and Park Opening Fund is replenished when necessary by the issue of corporate stock, so that the effect of this bill would be to pay half the expenses of the Street Opening Bureau of the Corporation Counsel's office, by corporate stock, or with borrowed money. Inasmuch as the Board has endeavored to avoid using corporate stock to pay for anything other than permanent improvements, it would seem that the policy which would be established if this bill became a law is directly contrary to that which the Board has lately endeavored to follow.

The proposed addition to section 997, whereby the expenses of appeals and other expenses which are incurred after the confirmation of a report shall be borne by the City, seems fair and reasonable, but it does not seem proper that such expenses should be paid with borrowed money or advanced out of the Street and Park Opening Fund, which is in turn replenished by corporate stock, which amounts to the same thing.

Anything which will tend to reduce the cost of street opening proceedings is commendable, but it cannot be doubted that the disposition to assess the entire cost of such proceedings, which has been followed during the last few years, has brought about certain economies and has discouraged extravagant awards and unnecessary expenses through the vigilance of property owners who know that they are to be assessed.

In my judgment, a wrong remedy is proposed to accomplish a desirable object, and I beg to suggest that the Corporation Counsel be requested to draft a substitute bill which will relieve street opening procedure from certain expenses which are properly a part of administration by making provision for them in the annual budget in the usual manner, or by including in the budget each year a sum sufficient to meet the sums advanced out of the Street and Park Opening Fund during the previous year for administrative expenses which are not included in the assessment.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

On motion the matter was referred to a committee, consisting of the Corporation Counsel, the Comptroller and the Chief Engineer of the Board, for report at the next meeting (February 20, 1913).

New York and New Jersey Bridge Over the Hudson River, Extending from the State of New Jersey to the City of New York (Cal. No. 13).

(At the meeting of the Board on February 6th this matter was referred to the Comptroller.)

The Comptroller offered the following:

Whereas, A petition has been presented to this Board by the New York and New Jersey Bridge Company, dated January 31, 1913, asking us to recommend to Congress the passage of an Act S-5659, which provides for an extension of time for the construction of the proposed bridge over the Hudson River, extending from the State of New Jersey to the City of New York, which Act has already passed the United States Senate; and

Whereas, it is in our opinion in the public interest that such bill should be passed and that such a bridge should be built as soon as the location and character thereof, and the manner of its operation, are approved by the Secretary of War, the communities in New Jersey affected thereby, and this Board; now, be it

Resolved, That we favor the passage of said act by Congress; and further, be it

Resolved, That the Mayor be requested to send to the House of Representatives copies of said petition and this resolution.

It is understood, however, that our approval of said act is upon the express condition that it shall be so worded that the free and unrestricted rights of the States of New York and New Jersey to erect a bridge at any location between said States, shall be unimpaired except at the location which may be finally selected for the bridge to be constructed by the New York and New Jersey Bridge Company.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The following matters not on the Calendar for this day were considered by unanimous consent:

Improvement of the Tracks and Structures of the New York Central and Hudson River Railroad Company on the West Side of the City, Borough of Manhattan (No. 14).

The Secretary presented the following report of the Committee on Terminal Improvements:

February 13, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On January 16, 1913, the Commissioner of Docks was directed to apply to the Secretary of War for certain changes in pierhead and bulkhead lines along the Hudson River from the Harlem Ship Canal to 59th street. These modifications were applied for as a preliminary step in the pending readjustment of the tracks of the New York Central Railroad Company along the west side of Manhattan. The changes are all for the purpose of permitting the City to retain water-front facilities outside of the railroad company's right of way if relocated as tentatively agreed upon between the railroad company and your Committee on Terminal Improvements.

In its report of January 16, upon which action was taken by this Board, your Committee recommended that the State Canal Board be requested to relocate the port of call of the State Barge Canal at a point at least 300 feet south of Dyckman street, as a substitute for the location tentatively selected between Dyckman street and the Ship Canal.

The changes in pierhead and bulkhead lines south of Dyckman street proposed by your committee and adopted by this Board on January 16, are sufficient to provide a marginal way 100 feet in width outside of the proposed freight yard at Dyckman street. The State Engineer and Surveyor, in considering plans for the relocation of the port of call, has advised your committee that it will be necessary to secure a further extension of the pierhead and bulkhead lines south of Dyckman street in addition to that adopted by this Board on January 16. He has suggested that it would greatly simplify matters if the City would include in its application to the Secretary of War a request for changes required for the relocation of the port of call, and has asked that the Commissioner of Docks be instructed to amend the City's petition accordingly.

Your committee recommends that it be authorized to amend the petition of the City for changes of pierhead and bulkhead lines between West 208th street and a point approximately 5,040 feet south thereof to provide for needs of the proposed port of call as relocated, and that the Commissioner of Docks be directed to withdraw the petition now pending before the Secretary of War until necessary changes have been decided upon by your committee. Respectfully submitted,

JOHN PURROY MITCHEL, President of the Board of Aldermen; WM. A. PRENDERGAST, Comptroller; GEORGE McANENY, President of the Borough of Manhattan; NELSON P. LEWIS, Chief Engineer of the Board of Estimate and Apportionment.

The following resolution was offered:

Resolved, That the Commissioner of Docks be requested to withdraw the petition of the City to the Secretary of War for the modification of pierhead and bulkhead lines from the southerly line of West 208th street to a point approximately 5,040 feet south, for the purpose of amending said petition to include modifications necessary for the relocation of the proposed port of call of the State Barge Canal at a point at least 300 feet south of Dyckman street, as recommended by the Board of Estimate on January 16, 1913. And be it further

Resolved, That the Committee on Terminal Improvements is authorized to confer with the State Engineer and Surveyor and with representatives of the State Canal Board for the purpose of determining what modifications in the pierhead and bulkhead lines south of Dyckman street are necessary for the purposes of the proposed port of call, and that said committee be authorized to request the Dock Commissioner to renew the petition of the City for changes between West 208th street and a point approximately 5,040 feet south thereof in such amended form as may appear to the said committee to be proper.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

Removal of Sidewalk Encroachments in West 28th Street, Between Broadway and a Point 100 Feet West of 6th Avenue, Borough of Manhattan (No. 15).

The Secretary presented a communication from the Secretary to the President of the Borough of Manhattan, transmitting a resolution directing the removal of sidewalk encroachments in West 28th street, between Broadway and a point 100 feet west of Sixth avenue.

Which was referred to the Chief Engineer of the Board for report.

FRANCHISE MATTERS.

New York Motor Bus Company, Inc. (Cal. No. 1).

The public hearing was opened on the petition of the New York Motor Bus Company, Inc., for a franchise to establish, maintain and operate truck, stage and omnibus routes for public use in the conveyance and transportation of persons and property upon and along various streets and avenues in the Borough of Manhattan, between 96th and 20th streets, 4th and 8th avenues.

The hearing was fixed for this day by resolution adopted January 16, 1913.

Affidavits of publication were received from the "Sun," the "New York Times" and the City Record. Wm. H. Page, counsel for the Fifth Avenue Coach Company, appeared in opposition. Wm. A. Evans, counsel for the company, appeared in favor. No one else desiring to be heard, the Chair declared the hearing closed.

The Secretary presented the following:

Bureau of Franchises, February 5, 1913.

Hon. WILLIAM J. GAYNOR, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—At the meeting of January 16, 1913, there was presented to the Board an application of the New York Motor Bus Company, Inc., for the right to operate stages or omnibuses upon various streets and avenues in the Borough of Manhattan. The Board on that date adopted a resolution fixing February 13, 1913, as the date for the preliminary public hearing, and requested the Mayor to designate newspapers in which the notice of such hearing must be published pursuant to law. The petition was also referred to the Bureau of Franchises.

The proposed operation of the Company, as indicated by its application, is on Park avenue from 96th street to 45th street; thence on each side of the Grand Central Terminal to 42d street; thence again on Park avenue to 31st street; on Madison avenue from 40th street to 23d street; thence on 23d street from Madison avenue to Irving Place; thence on 4th avenue and Irving place to 20th street and on 20th street from 4th avenue to Irving place; thence on Irving place from 20th street to 14th street; on 31st street from 4th avenue to 8th avenue; on 35th and 36th streets—4th avenue to 7th avenue; thence south on 7th avenue to 33d street; thence on 33d and 34th streets to 8th avenue; on 39th and 40th streets from 4th avenue to 6th avenue; thence on 6th avenue to 42d street; thence on 41st and 42d streets to 7th avenue; thence on 7th avenue and Times square to 45th street; thence through 45th street to Grand Central Terminal.

Since the petition was presented to the Board, I have taken the matter up with the Company, and it has been stated by its representatives that the company does not propose to operate in all the streets named in its petition, but that the routes named therein would afford an opportunity to select the most favorable and practicable routes to give the service designed by the company. That service will involve, it is stated by representatives of the company, practically four routes, and possibly a fifth and a sixth, as follows:

First—From Park avenue by way of 45th street to Times square and return by way of 39th street.

Second—From Park avenue through 39th street to Times square and return by way of 45th street.

Third—Down Park avenue by some route to the Pennsylvania Railroad station.

Fourth—Down Park avenue and Madison avenue and various streets to 14th street and Irving place.

Fifth—From 14th street and Irving place to the Pennsylvania Railroad station.

Sixth—From 14th street and Irving place north to Times square. Sufficient information has not yet been obtained or investigation made to draft a contract for the proposed franchise, and it is suggested that the matter be referred back to the Bureau of Franchises at the close of the hearing, in order that such investigation may be completed with a view to reporting to the Board at a later date. Respectfully,
HARRY P. NICHOLS, Engineer, Chief of Bureau.
The matter was then referred back to the Bureau of Franchises.

Rapid Transit Railway, Flushing Route (Cal. No. 2).

The Board proceeded to the consideration of the communication from the Public Service Commission for the First District transmitting resolutions adopted by said Commission as to route and general plan of construction for an additional rapid transit railway in the Borough of Queens known as "Flushing Route" and requesting the approval and consent of this Board thereto.

This communication was presented to the Board at the meeting of February 6, 1913, when, by resolution duly adopted, this day was fixed as the date for consideration and the communication was referred to the Committee on Pending Transit Proposals. An affidavit of publication was received from the City Record. The following appeared in opposition: G. D. Edgert, who presented a resolution adopted by property owners on Amity street, Flushing, requesting the matter be referred back to the Public Service Commission, J. W. Treadwell and W. B. Parsons. The following appeared in favor: G. W. Pople, D. S. Sandborn and J. W. Paris. A petition was received signed by nine hundred and fifty property owners and residents of Flushing in favor. A communication was received from E. S. McKnight transmitting resolution adopted at a mass meeting of business men of Bayside in favor. A communication was also received from Park Mathewson on behalf of residents and property owners at Douglaston Manor, Queens, in favor of the extension of the line to Douglaston Station. The consideration was then continued until February 27, 1913.

Rapid Transit Railway—Park Avenue-Lexington Avenue Connection at Forty-second Street (Cal. No. 3).

The Board proceeded to the consideration of the communication from the Public Service Commission for the First District transmitting resolutions adopted by said Commission as to route and general plan of construction for an additional rapid transit railway in the Borough of Manhattan, known as "Park Avenue-Lexington Avenue Connection at Forty-second Street," and requesting the approval and consent of this Board thereto.

This communication was presented to the Board at the meeting of February 6, 1913, when, by resolution duly adopted, this day was fixed as the date for consideration and the communication was referred to the Committee on Pending Transit Proposals. An affidavit of publication was received from the City Record. Henry G. Wynne appeared and requested an adjournment. The consideration was then continued until February 27, 1913.

Communications from the Mayor's Office (Cal. No. 4).

Communications were received from the Mayor's office returning duly approved by his Honor, the Mayor, on February 6, 1913, resolutions adopted by this Board January 30, 1913, as follows:

- Granting George Ehret permission to install, maintain and use certain connections to the 14-inch salt water pipe between the pumping station on the southerly side of East 93d street, west of Avenue A, and the brewery on said street between 2d and 3d avenues, Borough of Manhattan.
 - Granting Jaburg Brothers permission to install, maintain and use a wooden conduit under and across Front street between Canal and Thompson streets, Stapleton, Borough of Richmond.
 - Amending ordinance granting a franchise to the New York, Westchester and Boston Railway Company by modifying section 2, twelfth, of said ordinance relative to the watering of the roadbed within the limits of the City.
 - Consenting to the assignment by the New York, Westchester and Boston Railway Company of all rights and privileges granted by ordinance approved August 2, 1904, as amended, granting a franchise to said company so that the same shall pass to and vest in a certain consolidated corporation.
 - Consenting to the surrender and cancellation of contract dated January 17, 1912, by and between the City and the New York Magnaphone and Music Company.
 - Designating the "Brooklyn Times" and "Standard Union" as the two daily newspapers in which the resolution, form of contract and notice of hearing thereon for the grant of a franchise to the Brooklyn and North River Railroad Company shall be published prior to the hearing on March 13, 1913.
- Which were ordered filed.

Harrison Street Cold Storage Company (Cal. No. 5).

A communication was received from the Harrison Street Cold Storage Company submitting report and financial statement for the year ending December 31, 1912, under and pursuant to section 2, eighteenth, of contract dated December 27, 1909, granting said company a franchise to construct, maintain and operate conduits to distribute refrigeration in a certain portion of the Borough of Manhattan.

The Secretary presented the following:

Bureau of Franchises, February 4, 1913.

Hon. WILLIAM J. GAYNOR, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Section 2, Eighteenth, of the contract between The City of New York and the Harrison Street Cold Storage Company, dated December 27, 1909, authorizing the construction, maintenance and operation of conduits to distribute refrigeration in a certain district in the Borough of Manhattan, provides that the company shall submit a report to the Board not later than February 1 of each year, containing certain information in regard to its capital stock, funded and floating debt, operations, expenditures, etc., for the year ending December 31 next preceding.

Pursuant to this provision, the company filed a report under date of January 31, 1913, for the year ending December 31, 1912. From the information contained therein, it appears that the amount of capital stock has not been increased since the last report. The company has no funded debt. Its floating debt shows a slight increase over last year's. No additional conduits have been constructed during the year, and therefore no amendments are necessary to the map now on file in the Bureau.

I have been informed by the Finance Department that the report filed with it under the contract shows that the Company's gross receipts for the year 1912 amounted to \$54,663.80, upon which a payment of 2 per cent. has been made, amounting to \$1,092.28. A further payment of \$471 was made for 1,884 feet of conduit laid in the streets outside of the company's own vault space, at the rate of 25 cents per foot. These gross receipts and payments show a slight increase over 1911. For that year they were: Gross receipts, \$55,353.44; payment thereon at 2 per cent., \$1,107; payment for 1,884 feet of conduit at 25 cents per foot, \$471.

It is recommended that the report be filed. Respectfully,
HARRY P. NICHOLS, Engineer, Chief of Bureau.

Which was ordered filed.

Merchants Refrigerating Company (Cal. No. 6).

A communication was received from the Merchants Refrigerating Company submitting report and financial statement for the year ending December 31, 1912, under and pursuant to section 2, eighteenth, of contract dated October 21, 1910, authorizing said company to construct, maintain and operate conduits to distribute refrigeration in certain districts in the Borough of Manhattan.

The Secretary presented the following:

Bureau of Franchises, February 4, 1913.

Hon. WILLIAM J. GAYNOR, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Section 2, Eighteenth, of the contract between The City of New York and the Merchants Refrigerating Company, dated October 21, 1910, authorizing the construction, maintenance and operation of conduits to distribute refrigeration in certain districts in the Borough of Manhattan, provides that the company shall submit a report to the Board not later than February 1 of each year, containing certain information in regard to its capital stock fund, funded and floating debt, operation, expenditures, etc., for the year ending December 31 next preceding.

Pursuant to this provision, the Company under date of January 28, 1913, filed such report for the year ending December 31, 1912. It appears from this report that the company has not increased its capital stock since the last annual report was made. The company's funded debt shows a considerable decrease as compared with

last year, while its floating debt has been slightly increased. No additional conduits have been constructed during the year, and for that reason it is not necessary to amend the map now on file in the Bureau. I have been informed by the Finance Department that the report filed with it under the contract shows that the company's gross receipts for the year 1912 amounted to \$47,590.11, upon which a payment of 2 per cent. has been made, amounting to \$951.81. A further payment of \$196.21 was made for 784 feet of conduit laid in the streets outside of the company's own vault space, at the rate of 25 cents per foot. These gross receipts and payments show a slight increase over 1911. For that year they were: Gross receipts, \$41,470.57; payment thereon at 2 per cent., \$829.41; payment for 784 feet of conduit at 25 cents per foot, \$196.21.

It is recommended that the report be filed. Respectfully,
HARRY P. NICHOLS, Engineer, Chief of Bureau.
Which was ordered filed.

Harrison Street Cold Storage Company; Merchants Refrigerating Company (Cal. No. 7).

The Secretary presented the following:

Bureau of Franchises, February 8, 1913.

Hon. WILLIAM J. GAYNOR, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—The Harrison Street Cold Storage Company through its Treasurer, Alexander Moir in a petition dated February 7, 1913, has applied for the consent of the Board to assign to the Merchants Refrigerating Company all its right, title and interest in and to a certain contract dated December 27, 1909, by and between the City and the company authorizing the company to construct, maintain and operate conduits for the purpose of distributing refrigeration within a certain district in the Borough of Manhattan.

The Merchants Refrigerating Company joins in the petition.

In accordance with the precedent established by the Board in the case of the assignment of the franchise of the New York, Westchester and Boston Railway Company and in the case of the surrender for cancellation of the franchise of the New York Magnaphone and Music Company, I would suggest that the Board fix a date for public hearing when all persons interested in the company or its affairs may have the opportunity to appear and be heard.

Notice of such hearing should be published in two daily newspapers to be designated by the Mayor and in the City Record.

It is recommended that February 27, 1913, be fixed as the date for the hearing.

A resolution to this effect is transmitted herewith. Respectfully,
HARRY P. NICHOLS, Engineer, Chief of Bureau.

February 7, 1913.

Board of Estimate and Apportionment of The City of New York, New York City:

Gentlemen—The Harrison Street Cold Storage Company, which holds a franchise from your Board, dated December 27, 1909, for the construction, maintenance and operation of conduits for refrigerating purposes, desires, and hereby applies for permission to assign said franchises to the Merchants Refrigerating Company.

The reason for this proposed assignment is that the latter company is about to acquire all the rights, property and interests of the Harrison Street Cold Storage Company, dependent, in a degree, upon the obtaining of the consent of your Board as applied for herein, it being understood that such consent will not become effective until the filing with your Board of proper certificates relative to merger.

It is agreed that, if this consent be granted, all the obligations of the franchise of the Harrison Street Cold Storage Company will be undertaken by the Merchants Refrigerating Company, and the operations under said franchise shall be kept separate and apart from those under the franchise now held by the Merchants Refrigerating Company.

HARRISON STREET COLD STORAGE COMPANY,
ALEXANDER MOIR, Treasurer.

[SEAL.] State of New York, County of New York, City of New York, ss.:

On the 7th day of February, 1913, before me personally came Alexander Moir, who, being by me duly sworn, did depose and say that he resided in Montclair, State of New Jersey; that he was Treasurer of the Harrison Street Cold Storage Company, the corporation described in and which executed the above instrument; that he knew the seal of the said corporation; that the seal affixed to said instrument was said corporate seal; that it was so affixed by order of the Board of Directors of the said corporation, and that he signed his name thereto by like order.

[SEAL.] E. D. JUNIOR, Notary Public, Kings Co.

Certificate filed, New York Co., No. 12.

The Merchants Refrigerating Company hereby joins in the above petition of the Harrison Street Cold Storage Company and agrees to abide by the stipulations therein contained.

MERCHANTS' REFRIGERATING COMPANY,
FRANK A. HORNE, President.

[SEAL.] State of New York, County of New York, City of New York, ss.:

On the 7th day of February, 1913, before me personally came Frank A. Horne, who, being by me duly sworn, did depose and say that he resided in Brooklyn, State of New York; that he was President of the Merchants Refrigerating Company, the corporation described in and which executed the above instrument; that he knew the seal of the said corporation; that the seal affixed to said instrument was said corporate seal; that it was so affixed by order of the Board of Directors of the said corporation, and that he signed his name thereto by like order.

[SEAL.] E. D. JUNIOR, Notary Public, Kings Co.

Certificate filed, New York Co., No. 12.

The following was offered:

Whereas, A joint petition from Harrison Street Cold Storage Company and Merchants Refrigerating Company, dated February 7, 1913, was presented to the Board of Estimate and Apportionment at a meeting held February 13, 1913,

Resolved, That, in pursuance of law, this Board sets Thursday, the 27th day of February, 1913, at 10:30 o'clock in the forenoon, and Room 16, in the City Hall, Borough of Manhattan, as the time and place when and where such petition shall be considered, and a public hearing be had thereon, at which citizens shall be entitled to appear and be heard; and be it further

Resolved, That the Secretary is directed to cause a notice of such hearing to be published for at least two (2) days in two daily newspapers in The City of New York, to be designated by the Mayor, and for at least ten (10) days in the City Record immediately prior to such date of public hearing. The expense of such publication to be borne by the petitioner.

Which was adopted by the following vote:

Affirmative—The Mayor, the Deputy and Acting Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The petition was then referred to the Bureau of Franchises.

Heermance Storage and Refrigerating Company (Cal. No. 8).

A communication was received from the Heermance Storage and Refrigerating Company, submitting report and financial statement for the year ending December 31, 1912, under and pursuant to Section 2, Eighteenth, of contract dated January 15, 1911, authorizing said Company to construct, maintain and operate conduits for the distribution of refrigeration in a certain district in the Borough of Manhattan.

The Secretary presented the following:

Bureau of Franchises, February 4, 1913.

Hon. WILLIAM J. GAYNOR, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Section 2, Eighteenth, of the contract between The City of New York and the Heermance Storage and Refrigerating Company, dated January 15, 1911, authorizing the construction, maintenance and operation of conduits for the distribution of refrigeration in a certain district of the Borough of Manhattan, provides that the company shall submit, on or before February 1 of each year, a report containing certain information regarding its finances and operations for the year ending December 31 next preceding.

Pursuant to this section, the company has filed its report, verified January 23, 1913, for the year ending December 31, 1912, from which it appears that the company's capital stock has not been increased since making its last annual report. About 180 feet of additional conduit has been constructed during the year, making a total of 737 feet now in the streets, of which a portion is in the company's vault spaces. The map on file in the Bureau, showing the company's conduits, has been amended to include the additional construction. I have been informed by the Finance Department that the report filed with it under the contract shows that the company's gross re-

ceipts for the year 1912 amounted to \$16,158, upon which a payment of 2 per cent. has been made, amounting to \$323.16. A further payment of \$112.63 was made for 450 feet of conduit laid in the street outside of the company's own vault space, at the rate of 25 cents per foot. These gross receipts and payments show a slight increase over 1911. For that year they were: Gross receipts, \$15,378; payment thereon at 2 per cent., \$307.56; payment for 384 feet of conduit, \$96.25.

It is recommended that the report be filed. Respectfully,

HARRY P. NICHOLS, Engineer, Chief of Bureau.

Which was ordered filed.

Conron Bros. Company (Cal. No. 9).

A communication was received from Conron Bros. Company, transmitting report and financial statement for the year ending December 31, 1912, under and pursuant to Section 2, Eighteenth, of contract dated March 7, 1911, authorizing said Company to construct, maintain and operate conduits to distribute refrigeration in a certain district in the Borough of Manhattan.

The Secretary presented the following:

Bureau of Franchises, February 6, 1913.

Hon. WILLIAM J. GAYNOR, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Section 2, Eighteenth, of the contract between The City of New York and Conron Bros. Company, dated March 7, 1911, authorizing the construction, maintenance and operation of conduits to distribute refrigeration in a certain district in the Borough of Manhattan, provides that the company shall submit a report to the Board, not later than February 1 of each year, containing certain information in regard to its capital stock, funded and floating debt, operations, expenditures, etc., for the year ending December 31 next preceding.

The company has now filed a report, under date of February 4, 1913, for the year ending December 31, 1912. From the information contained therein, it appears that the capital stock has not been increased since the last report. The company has no funded debt. Its floating debt shows a slight increase over last year's. No additional conduits have been constructed during the year, and, therefore, no amendments are necessary to the map now on file in the Bureau.

I have been informed at the Finance Department that the report filed with it, under the contract, shows the company's gross receipts for the year 1912 amounted to \$9,843.24. As, under the contract, the company must pay two per cent. of this amount to the City, with a minimum charge of \$250, the minimum sum has been paid, and also a payment on 134 feet of conduit, at 25 cents per foot, amounting to \$27.60. The receipts for 1912 are about the same as those for 1911, as are also the payments made under the franchise.

It is recommended that the report be filed. Respectfully,

HARRY P. NICHOLS, Engineer, Chief of Bureau.

Which was ordered filed.

New York and Queens County Railway Company (Cal. No. 10).

In the matter of the franchise granted the New York and Queens County Railway Company to construct, maintain and operate a second or additional track on its Flushing-College Point and on its Flushing-Jamaica lines, Borough of Queens.

This franchise was granted by resolution adopted by this Board December 5, 1912, approved by the Mayor December 6, 1912.

The Secretary presented the following:

Bureau of Franchises, February 8, 1913.

Hon. WILLIAM J. GAYNOR, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—By resolution adopted by the Board of Estimate and Apportionment December 5, 1912, approved by the Mayor December 6, 1912, the New York and Queens County Railway Company was granted a franchise to construct, maintain and operate a second or additional track upon and along 13th street, College Point causeway, Lawrence street, Broadway, Main street, Jamaica avenue and Sanford avenue, from 8th avenue to Bowne avenue, Borough of Queens.

The contract as authorized by said resolution was executed by the President of the company January 21, 1913; by the Secretary of the company January 27, 1913, and by the Mayor and the City Clerk February 6, 1913, and bears the latter date.

The original contract has been placed on file and the duplicate original delivered to the company.

The departments interested have been advised of the execution of the contract.

It is recommended that the papers be filed. Respectfully,

HARRY P. NICHOLS, Engineer, Chief of Bureau.

Which was ordered filed.

The Coney Island and Brooklyn Railroad Company (Cal. No. 11).

In the matter of the petition of the Coney Island and Brooklyn Railroad Company for a franchise to construct, maintain and operate a double-track street surface railway from the existing tracks of the Company at 4th avenue and 9th street, upon and along 4th avenue, to Flatbush avenue; thence across Flatbush avenue to Ashland place, to Fulton street, where the tracks diverge; a single track continuing along Ashland place to DeKalb avenue, and another single track continuing along Fulton street, from Ashland place to Rockwell place to DeKalb avenue, where connection is made with the existing tracks, Borough of Brooklyn.

At the conclusion of the public hearing on April 25, 1912, this matter was referred back to the Bureau of Franchises.

The Secretary presented the following:

THE CITY OF NEW YORK,
BOARD OF ESTIMATE AND APPOINTMENT,
BUREAU OF FRANCHISES,
Room 801, 277 Broadway, January 27, 1913.

Hon. WILLIAM J. GAYNOR, Mayor, Chairman of Board of Estimate and Apportionment:

Sir—The Coney Island and Brooklyn Railroad Company, under date of March 11, 1912, petitioned the Board for the right to construct, maintain and operate a street surface railway for the transportation of persons and property, beginning at the intersection of 9th street and 4th avenue, in the Borough of Brooklyn; thence along 4th avenue to Flatbush avenue; thence across Flatbush avenue to Ashland place; thence along Ashland place to Fulton street, all by double track; thence continuing by single track along Ashland place to DeKalb avenue; also beginning at the intersection of Fulton street with Ashland place; thence by single track along Fulton street to Rockwell place; thence by single track along Rockwell place to DeKalb avenue.

The petition was presented to the Board March 28, 1912, at which time the Board adopted a resolution fixing April 25, 1912, as the date for the preliminary public hearing, and requesting the Mayor to designate the newspapers in which the notice of such public hearing must be published, pursuant to law. Subsequently the Times and New York Press were designated by the Mayor as the papers in which such notice must be published.

On April 25, 1912, the public hearing was duly held. A representative of the Company appeared in favor of the petition and those opposed presented a petition, signed by John M. Van Wagner and others, protesting against the construction of a track in that portion of Ashland place between DeKalb avenue and Fulton street. At the close of the hearing the matter was referred back to the Bureau of Franchises. The Company filed a certificate of extension covering the routes now applied for in the office of the Secretary of State on March 15, 1912. The total length of the route covered by the petition is 7,750 feet, and the length of single track including that to be used in common with the Brooklyn City Railroad amounts to 13,940 feet.

Present and Proposed Operation of the Applicant.

The Coney Island and Brooklyn Railroad Company is at present operating three lines of cars in the Borough of Brooklyn, namely:

1. "Franklin Avenue Line" (so called).
 - (a) From the Manhattan end of the Williamsburg bridge via Wythe avenue, Franklin avenue and Coney Island avenue to Coney Island.
 - (b) Also from the ferry at the foot of Grand street, Brooklyn, and thence over the above-described route.
2. "DeKalb Avenue Line" (so called).

From the Manhattan end of the Brooklyn bridge via Washington street, Fulton street and DeKalb avenue to the Queens Borough line at Ridgewood.
3. "Smith Street Line" (so called).
 - (a) From the Manhattan end of the Brooklyn bridge via Jay street, Smith street, 9th street and Coney Island avenue to Coney Island; and

- (b) From the Hamilton ferry, upon Hamilton avenue and over the above-described route, to Coney Island.

The extension for which authority is now asked would connect the Smith Street Line at the intersection of 4th avenue with 9th street with the DeKalb Avenue Line at the intersection of Rockwell and Ashland places with DeKalb avenue. The object of the extension, as stated by the representative of the Company, is to make the district in the vicinity of the Flatbush avenue station of the Long Island Railroad accessible to both the DeKalb Avenue and the Smith Street Lines of the Company and to provide a means for an interchange of traffic between the DeKalb Avenue and Smith Street Lines at a point easterly from that which now exists. The only intersecting point of these two lines is at the present time at Fulton and Smith streets.

The district at the intersection of 4th, Atlantic and Flatbush avenues is fast becoming one of the most active business sections in the Borough of Brooklyn. Terminating here are the Long Island Railroad and the rapid transit railroad, making this point one of the most desirable places to be reached by the street surface railways. It is also advantageous to the public that all the street surface railways should reach this point, in order to afford facilities to patrons of the Long Island Railroad and the rapid transit railroad for reaching other points in the Borough. The extension proposed by the applicant company would afford direct means of reaching this point to those who ride on both the DeKalb Avenue and Smith Street Lines.

Physical Conditions.

Fourth avenue is a wide thoroughfare, being one hundred and twenty feet in width. The sidewalks are each twenty-five feet in width. The roadway was formerly divided for north and south traffic by a parked centre, having a width of approximately ten feet. A rapid transit railway in a subway is being constructed throughout the entire portion of 4th avenue covered by the application, and is now rapidly nearing completion. The park centre no longer exists, but the space is now occupied by ventilators for the rapid transit railway, so that two roadways of thirty feet in width still remain as formerly, except where a greater space is used in the centre of the avenue for station entrances. At these station entrances the roadways are each approximately twenty-five feet in width, and have recently been paved.

Ashland place from Flatbush avenue to Fulton street has been widened recently from fifty feet to seventy feet. This widening has taken place on the westerly side, the property having been acquired for rapid transit railway purposes. The rapid transit railway is being constructed in this street and a railway cannot be constructed therein until the street has, to some extent, been restored.

Ashland place from Fulton street to DeKalb avenue is fifty feet in width. It is proposed to operate only a single track in this portion of the street.

Tracks already exist in Fulton street and Rockwell place, which will be used by the applicant. These tracks are the property of the Brooklyn City Railroad Company, which is a part of the Brooklyn Rapid Transit system.

Another Pending Application of the Company.

The applicant company also filed, under date of March 11, 1912, a petition for the right to construct, maintain and operate a railway upon that portion of Atlantic avenue, between Franklin avenue and 4th avenue. This extension would connect the Franklin Avenue Line of the company at the intersection of Franklin avenue with Atlantic avenue, and would also connect with the proposed extension on 4th avenue, at the intersection of Atlantic avenue with 4th avenue. This extension would therefore afford means of travel between the business district at the intersection of Atlantic, 4th and Flatbush avenues, and the existing Franklin Avenue Line of the company. It has already been explained that the proposed 4th avenue extension would connect the other two lines of the company with this district.

A public hearing was held upon this application also, but no progress has been made in negotiations with the company upon the terms and conditions of the franchise, and the company, under date of January 18, 1913, through its attorney, has stated that it does not desire to negotiate further for the right.

Protests Against the Operation of the Proposed Route.

Reference has already been made to a petition which was presented at the public hearing, protesting against the construction and operation of a railway in that portion of Ashland place, between DeKalb avenue and Fulton street. This petition is signed by John M. Van Wagner and twenty-two other protestants, being owners of property in that block.

Under date of May 30, 1912, approximately a month after the public hearing was held, a communication was received, signed by the President, Vice-President, Secretary and Treasurer of the Brooklyn Academy of Music, in which objection is made to the construction of a street surface railway upon that portion of Ashland place between Hanson place and Lafayette avenue. It is claimed in this communication that there is no public necessity for the proposed railway, and that the neighborhood is amply provided with transit facilities by the existing tracks in Flatbush avenue, Fulton street and Lafayette avenue, and the proposed subway extension now being built under Ashland place. The Academy of Music is situated at the corner of Lafayette avenue and Ashland place, having front entrances on Lafayette avenue, and a side entrance on Ashland place. The officers of the institution claim that a large amount of money has been spent in the construction of this building, which was constructed with no idea of its ever becoming a profitable enterprise, but was intended merely to afford facilities for public meetings and entertainments of educational, artistic and musical character; that the entrance on Ashland place is used by persons who attend the meetings and performances in carriages or motors, and in consequence if a railway were constructed and operated in that portion of Ashland place it would seriously interfere with citizens who desire to patronize the Academy.

Former Laws Prohibiting Railroads in 4th Avenue.

Fourth avenue was widened to a uniform width of one hundred and twenty feet by chapter 335 of the Laws of 1860, as amended by chapter 299 of the Laws of 1861. This latter law provided in section 7 as follows:

"The Common Council of the City of Brooklyn are hereby prohibited from granting the right to lay any railroad in said avenue, and in consideration of the assessment for the improvements herein provided, it shall not be lawful for any person or persons, association or corporation to lay, construct or operate any railroad upon said avenue hereby improved."

If this provision were still in force, it would evidently prohibit the granting of a franchise to a street surface railway company on 4th avenue. During the last session of the Legislature this section was amended, through the efforts of representatives of the applicant Company, by providing that this prohibition shall apply only to that portion of 4th avenue in which no application for a franchise was then pending, that is, from 9th street to 5th avenue, and providing that the railway shall not be constructed between Flatbush avenue and 9th street, unless the consent of the local authorities and the property owners shall be obtained. (See chapter 450, Laws of 1912.) These consents are those which all street railway corporations must obtain, pursuant to the Railroad Law, before they can construct a railway upon any street within the City. The amendment, therefore, puts the application of the Coney Island and Brooklyn Railroad Company in the same class as all other street railway applicants, and the prohibition against the construction of a railway in that portion of 4th avenue, covered by this application, is now removed.

Conditions of the Grant.

A contract has been prepared for the franchise, which is acceptable to the Company, and is submitted herewith. The following is a discussion of some of the conditions contained therein, to which it appears special attention should be called.

Term of Grant.—The term originally proposed was to expire on July 29, 1927, with the privilege of renewal for a further period of twenty-five years, that date being fixed as the date upon which the renewal term of the franchise to the Nassau Electric Railroad Company to operate upon Livingston street and Lafayette avenue, in the Borough of Brooklyn, will expire. While the Livingston street franchise was granted to a company other than the applicant, its route intersected the route now proposed by this Company and in a measure served the same territory and, as has been the custom heretofore, the term of grant in this franchise was originally proposed to expire on the same date, in order that renewals of the franchises in that district might be considered by the City at one time. The Company, however, through its representative, stated that it could not see its way clear to accept a franchise for a total period of less than thirty-five years with any hope of securing a sufficient profit under the other terms of the franchise to give a reasonable return upon the money invested and to pay for the cost of the structures in the streets during the period in order to turn such structures over to the City without any payment by the City at the end of the period. In view of the fact that the Company has accepted the form of franchise containing the other provisions as suggested, the term of grant was changed to expire on July 29, 1937, with a further period of renewal of twenty-five years. The first period will therefore expire exactly ten years after the Living-

ston street franchise will have expired, and in the consideration of a renewal of the Livingston street franchise that fact may be considered by the City authorities.

Commencement and Completion of Construction.—It is provided that the Company shall commence the construction of the railway within six months from the date upon which consents of property owners are filed with the Board and complete the same and put in full operation within nine months from the same date. Six months is given for the obtaining of the consents of the property owners, so that the Company will have in all a period of from nine to fifteen months, depending upon the time consumed in obtaining the property owners' consents, within which to construct the railway and put the same in operation. As already stated, a rapid transit railway is being constructed in Ashland place, Fulton street and 4th avenue. It is anticipated, however, that this construction work will be completed sufficiently early to enable the Company to construct its railway within the period herein specified.

Motive Power.—The contract provides that the Company may operate its railway by the system of overhead electric power similar to that used upon other lines in the Borough of Brooklyn, but that no wires, except trolley wires, shall be permitted unless they be placed in conduits underneath or alongside of the railroad. This provision is made for the reason that it is believed that no power wires should be permitted on the surface of the streets in a district which is as thickly populated as that through which it is proposed to operate the railway.

Rate of Fare.—The proposed route does not intersect any other line of the Company with which transfers must be exchanged, pursuant to law; the termini of the route being the only points where transfers must be exchanged with other lines of the Company. The lines of the Company at the termini of the proposed railway, that is, the DeKalb Avenue and Smith Street Lines, either operate directly or transfer to Coney Island, for which privilege the Company claims it has the right to charge an extra fare of five cents. In consequence of this, the rate of fare clause is slightly different from that which is commonly used in street surface railway franchises in boroughs other than Brooklyn. The clause which is used in the contract herewith provides that the Company shall not charge thereon a fare in excess of five cents, nor more than five cents for one continuous ride between any point on the proposed railway and any other point on any road, line or branch operated by the Company or under its control within the limits of the City, except a ride between such points for which a fare in excess of five cents may be lawfully charged; that is to say, that if the Company has at the present time a lawful right to charge a fare in excess of five cents from points along the proposed line to points in the vicinity of Coney Island, this franchise shall not deprive the Company of that right.

Right Not Exclusive.—As is usual in street surface railway franchises granted in recent years, the contract provides that the right granted to this Company shall not be an exclusive one and shall not prohibit the operation of another street surface railway company over the same route if a franchise is granted therefor by the City. The clause used in this contract, however, has been adopted by the Board in only a few recent cases and perhaps explanation of the same should be given here. The clause provides that if the franchise shall be granted to another corporation to operate over the same route that it may use the power, tracks and other street equipment of the applicant company upon payment of a sum or sums which shall be determined by the two companies, but that the operation of the second company need not be delayed until terms have been agreed upon between the two companies. Even if the compensation has not been determined, the second company can begin operation within ninety days after it receives its franchise. If the two companies cannot agree upon the terms, they may submit the question to arbitrators, and in case either party fails to appoint an arbitrator, or should the two arbitrators, that is, one appointed by each party, fail to appoint a third arbitrator within thirty days, or if no two of such arbitrators agree, then the question can be submitted to the courts upon the application of either party. It is provided in this franchise that the applicant company need not furnish power to the second company, if it has insufficient power for that purpose, but must furnish the necessary street equipment over which the second company may furnish its own power. It appears that this clause overcomes in the main the objections which have been heretofore raised to former non-exclusive clauses by those who have acted for either the City or the companies, and appears to be an equitable arrangement for all parties concerned.

Compensation and Security Deposit.—As is usual, compensation consists of (a) an initial payment, and (b) a percentage of the gross receipts with minimum annual payments. The percentages of gross receipts have been fixed to coincide with the minimum percentages required to be paid by the Railroad Law; that is, three per cent. for the first five years and five per cent. during the remainder of the original term. The minimum annual payments have been fixed on the basis of the earnings of the Company at the present time, it being assumed that the proposed railway will earn during the first five years approximately the same per mile as the existing lines of the Company do at present, and the percentages of gross receipts required by the contract, applied to these assumed earnings, have been used to determine the amounts of the minimum payments. The minimum payments provided are as follows:

Annually during the first five years.....	\$1,900 00
Annually during the second five years.....	3,500 00
Annually during the third five years.....	3,850 00
Annually during the fourth five years.....	4,235 00
Annually during the remaining term.....	4,650 00

It is provided that these payments shall be in addition to all taxes of whatsoever kind or description. The initial payment required is \$6,500. This is somewhat larger than first proposed and was changed for the reason that the Company desired a larger term contract than that which was at first suggested. The minimum payment being to some extent based upon the term of grant, this figure was increased from \$5,000 to \$6,500 in consideration of increasing the original term of grant from a period expiring July 29, 1927, to July 29, 1937.

The amount of security deposit required is \$5,000. This money is to be deposited in cash to secure the faithful performance of the terms and conditions of the contract.

Other Conditions.—The other terms and conditions of the contract are those which have been used in franchises to street surface railways a great many times and need no discussion here. Among those might be mentioned, the rights of the Company not to be assigned without consent of the Board; when the right ceases, property in the streets to become City's without payment therefor; no freight cars are to be operated; the Board is given jurisdiction over the heating, lighting and headway of cars; streets are to be watered; snow and ice are to be removed; Company to pave and keep in repair the street and two feet outside of the track, to bear the expense of sewers or drainage systems made necessary by the construction of the railway, and be liable for all damage because of construction and operation.

The attorney for the Company has stated in a communication dated January 18, 1913, on behalf of the Company, that the contract, in the form submitted herewith, is satisfactory to the Company. The contract has been submitted to the Corporation Counsel for his approval as to form, and if returned by him with his approval prior to the meeting of February 13, 1913, the Board at that time, may, if it desires to grant the franchise, fix a date for a final public hearing and order the contract to be spread upon the minutes for thirty days, as required by law; after such public hearing the Board may take final action.

As there was opposition to the construction of a railway in Ashland place, I believe it would be desirable to hear the opposition before the Board formally approves the contract and orders the same entered on the minutes of the Board. I have, therefore, forwarded copies of this report to the Board of Directors of the Brooklyn Academy of Music and to the signers of the petition, advising them that the matter will be placed on the calendar for the meeting of February 13. Respectfully,

HARRY P. NICHOLS, Engineer, Chief of Bureau.

Proposed Form of Contract.

This Contract, made this _____ day of _____, 1912, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and pursuant to the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and The Coney Island and Brooklyn Railroad Company (hereinafter called the Company), party of the second part, witnesseth:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to construct, maintain and operate a street surface railway as an extension to its existing railway, with the necessary wires and equipment, for the purpose of conveying persons and property

in the Borough of Brooklyn, in The City of New York, upon the following routes, to wit:

Beginning at and connecting with the existing tracks of the Company in Ninth Street at its intersection with Fourth Avenue; thence by double track in and upon Fourth Avenue to Flatbush Avenue; thence by double track in, upon and across Flatbush Avenue to Ashland Place; thence by double track in and upon Ashland Place to Fulton Street; thence by single track in and upon Ashland Place to De Kalb Avenue, and there connecting with the existing tracks of the Company in De Kalb Avenue.

Also beginning at and connecting with the tracks above described in Ashland Place at its intersection with Fulton Street; thence by single track in and upon Fulton Street to Rockwell Place; thence by single track in and upon Rockwell Place to De Kalb Avenue, and there connecting with the existing tracks of the Company in De Kalb Avenue.

And to cross such other streets and avenues, named and unnamed, as may be encountered in said routes.

The said routes with turnouts, switches and crossovers hereby authorized are shown upon a map entitled:

"Map Showing Proposed Extension of the Coney Island & Brooklyn Railroad Company in the Borough of Brooklyn, City of New York, to accompany Petition to the Board of Estimate and Apportionment, dated the 11th day of March, 1912,"—and signed by S. W. Huff, President, and E. L. Mathews, Supt. Roadway; a copy of which is attached hereto, is to be deemed a part of this contract, is to be construed with the text thereof, and is to be substantially followed, provided that deviations therefrom and additional turnouts, switches and crossovers which are consistent with the foregoing description, and the other provisions of this contract may be permitted by resolution of the Board.

Sec. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The consent in writing of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of said railway shall be obtained by the Company within six (6) months from the signing of this contract by the Mayor, and a copy of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained within such time, the Company shall, within said six (6) months, or within one (1) month thereafter, make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law to determine if said railway ought to be constructed; otherwise this grant shall cease and determine.

Second—The said right to construct, maintain and operate said railway shall be held and enjoyed by the Company from the date upon which this contract is signed by the Mayor until July 29, 1937, with the privilege of renewal of said contract for the further period of twenty-five (25) years, upon a fair revaluation of such right and privilege.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two (2) years and not later than one (1) year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach such agreement on or before the day one (1) year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding twenty-five (25) years shall be reasonable, and either the City (by the Board) or the Company shall be bound upon request of the other to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, but in no case shall the annual rate so fixed be less than the sum required to be paid for the last year prior to the termination of the original term of this contract, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six (6) months prior to the expiration of this original contract, and their report shall be filed with the Board within three (3) months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of the original term of this contract. If, in any case, the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing, until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Third—The Company shall pay to the City for the privilege hereby granted the following sums of money:

(a) The sum of six thousand five hundred dollars (\$6,500) in cash within three (3) months after the date on which this contract is signed by the Mayor, and before anything is done in exercise of the privilege hereby granted.

(b) During the first term of five (5) years an annual sum, which shall in no case be less than one thousand nine hundred dollars (\$1,900), and which shall be equal to three (3) per cent. of its gross annual receipts, if such percentage shall exceed the sum of one thousand nine hundred dollars (\$1,900).

During the second term of five (5) years an annual sum, which shall in no case be less than three thousand five hundred dollars (\$3,500), and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of three thousand five hundred dollars (\$3,500).

During the third term of five (5) years an annual sum, which shall in no case be less than three thousand eight hundred and fifty dollars (\$3,850), and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of three thousand eight hundred and fifty dollars (\$3,850).

During the fourth term of five (5) years an annual sum, which shall in no case be less than four thousand two hundred and thirty-five dollars (\$4,235), and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of four thousand two hundred and thirty-five dollars (\$4,235).

During the remaining term expiring July 29, 1937, an annual sum, which shall in no case be less than four thousand six hundred and fifty dollars (\$4,650), and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of four thousand six hundred and fifty dollars (\$4,650).

The gross annual receipts mentioned above shall be that portion of the gross receipts of the Company as shall bear the same proportion to its whole gross receipts as the length of the extension hereby authorized shall bear to the entire length of the railway of the Company in operation within the limits of the City.

The annual charges shall commence from the date upon which this contract is signed by the Mayor.

All annual charges as above shall be paid into the treasury of the City on November 1 of each year, and shall be for the amount due to September 30 next preceding; provided that the first annual payment shall be only for that proportion of the first annual charge as the time between the date upon which this contract is signed by the Mayor and September 30 following shall bear to the whole year.

Whenever the percentage required to be paid shall exceed the minimum amount as above, then such sum over and above such minimum shall be paid on or before November 1 in each year for the year ending September 30 next preceding.

The annual charges herein provided are intended to include the percentages of gross receipts now required to be paid by railway companies to the City pursuant to the Railroad Law, as amended.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such

payments shall be made in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Fourth—The annual charges or payments shall continue throughout the whole term of this contract (whether original or renewal), notwithstanding any clause in any statute or in the charter of any other railway or railroad company providing for payment for railway or railroad rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted (whether original or renewal), or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Fifth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any other corporation or to any individual a similar right or privilege upon the same or other terms and conditions over the routes hereinbefore described, and the Company shall not at any time oppose, but shall consent to the construction and operation of any street surface railway by any such other corporation or individual which may receive a franchise therefor from the City, and which may necessitate the use of any portion of the railway which shall be constructed or operated by the Company pursuant to this contract.

Should the City at any time during the term of this contract grant to any other corporation or to any individual the right or privilege to operate a railway upon the tracks of the Company on the route herein described, or any portion thereof, then the City shall, within thirty (30) days thereafter, give notice to the Company that such right has been granted and of the name of the corporation or individual to which such right has been granted.

At the expiration of ninety (90) days after the giving of such notice, such individual or corporation shall have the right to begin the operation of cars upon the tracks of the Company upon the route or any portion thereof over which such corporation or individual may receive a right or privilege, and to use therefor the tracks, equipment, power and all other property of the Company which shall be necessary in the operation of the cars of such individual or corporation upon the tracks of the Company, and shall have the right to continue such operation and use of such property during the term of this contract. Such corporation or individual shall pay to the Company for the right to use such tracks, equipment, power and other property above described, such sum or sums as may be agreed upon in writing by such corporation or individual and the Company within said ninety (90) days, or in the event that such agreement cannot be reached within said ninety (90) days, such sum or sums shall be determined in the manner hereinafter provided for. Provided, however, that should the Company have insufficient power to operate both its own cars and the cars of such individual or corporation over such railway, then the Company shall not be required hereunder to furnish the power necessary to operate the cars of such individual or corporation, but in such event the Company shall permit such individual or corporation to furnish its own power and use the necessary equipment of the Company in the streets or avenues therefor.

If the Company and such corporation or individual cannot, prior to the expiration of said ninety (90) days agree upon the compensation for the use of such tracks, then such compensation shall be fixed by three arbitrators selected in the following manner:

One fit and impartial person shall be chosen by the Company; one fit and impartial person shall be chosen by such corporation or individual, and the two so chosen shall choose a third fit and impartial person. The decision under oath of any two of said persons who shall be so selected shall be final and conclusive.

The compensation and expenses of the persons selected as arbitrators in the determination of such sum or sums shall be borne by the individual or corporation to which such right may be granted.

Within thirty (30) days after an agreement shall have been reached between said parties, or in case said agreement cannot be reached before the time specified herein, then within thirty (30) days after the determination of the arbitrators, as herein provided, should two of such arbitrators agree, the said parties shall file a duplicate copy of a written agreement with the Board which shall specify the sum or sums which shall have been agreed to by the said parties or determined by said arbitrators as the sum or sums which such corporation or individual shall pay to the Company for said privilege. If the Company fails to file the same with the Board within said thirty (30) days, then the right granted under this contract shall cease and determine.

If either party fails to appoint an arbitrator, as herein provided, or should the first two arbitrators fail to agree on the selection of a third arbitrator within thirty (30) days after the expiration of said ninety (90) days, or if no two of said arbitrators so selected agree upon the sum or sums to be paid by such individual or corporation within sixty (60) days after they shall have been so selected, then such sum or sums shall be fixed by the Supreme Court upon the application of either party.

Sixth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall the title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Seventh—Upon the termination of this original contract, or if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any cause, or upon the dissolution of the Company before such termination, the tracks and equipments of the Company constructed pursuant to this contract within the streets and avenues shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual. If, however, at the termination of this contract as above, the Board shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of its tracks and other equipment constructed pursuant to this contract and the said streets and avenues shall be restored to their original condition at the sole cost and expense of the Company.

Eighth—The Company shall commence construction of the railway herein authorized within six (6) months from the date upon which the consents of the property owners are filed with the Board, or from the date of the order of the Appellate Division of the Supreme Court made pursuant to section 174 of the Railroad Law confirming the determination of the Commissioners appointed thereunder, that such railway ought to be constructed and shall complete the construction and place the same in full operation within nine (9) months from the date of filing such consents or the date of such order; otherwise this right shall cease and determine, and all sums paid, or which may be deposited with the Comptroller of the City, as hereinafter provided shall thereupon be forfeited to the City; provided that the period for commencement and the period for completion and placing the railway in full operation may be extended by the Board, but the total extension of time for either of such periods shall not exceed in the aggregate six (6) months; and provided, further, that when the commencement or completion of said construction shall be prevented by legal proceedings in any court or by works of public improvement, or from other causes not within control of the Company, the time for the commencement or completion of such construction may be extended for the period of such prevention, but no delay shall be allowed for unless the court proceedings shall be diligently prosecuted by the Company, and provided further, that in no case shall such delay be deemed to begin until the Company shall have given written notice to the Board of any such court proceedings or other occasion of delay and deliver to the Board copies of any injunction or other orders, and the papers upon which the same shall have been granted, and unless upon the request of the Board the Company shall, in writing, consent that the Board either in its own name as a party, or in the name of the City as a party, may intervene in any such proceedings.

Ninth—Said railway shall be constructed and operated in the latest approved manner of street railway construction and operation, and it is hereby agreed that the Board may require the Company to improve or add to the railway equipment, in-

cluding rolling stock and railway appurtenances, from time to time, as such additions and improvements are necessary, in the opinion of the Board. Upon failure on the part of the Company to comply with the direction of the Board within a reasonable time, the rights hereby granted shall cease and determine.

Tenth—Said railway shall be constructed, maintained and operated subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City.

No construction upon said railway shall be commenced until written permits have been obtained from the proper City officials.

In any permits so issued such officials may also impose such conditions, as a condition of the granting of the same, as are necessary for the purpose of protecting any structures, in the streets and avenues, over which such officials have jurisdiction and the Company shall comply with such conditions.

The electrical equipment to be installed by the Company for the operation of the railway within the limits of the City, whether the same be upon streets and avenues or upon private property, shall be constructed and maintained under the supervision and control of the Commissioner of Water Supply, Gas and Electricity.

Eleventh—Said railway may be operated by overhead electric power substantially similar to the overhead electric system now in use by street surface railways in the Borough of Brooklyn, or by any other motive power, except locomotive steam power or horse power, which may be approved by the Board, and consented to by the abutting property owners, in accordance with the provisions of law, and by the Public Service Commission for the First District of the State of New York.

Twelfth—No wires for the transmission of power except trolley wires, shall be permitted unless they be placed in conduits underneath or along the side of the railway. When such conduits are constructed the Company shall provide two (2) ducts not less than three (3) inches in diameter each for the exclusive use of the City. Such conduits shall be used only by the Company for the operation of its railway and by the City, as above.

Thirteenth—The rate of fare for any passenger upon said railway shall not exceed five (5) cents. The Company shall not charge any passenger more than five (5) cents for one continuous ride from any point on its road or on any road, line or branch operated by it or under its control to any other point thereof, or any connecting branch thereof within the limits of the City unless a rate of fare in excess of five (5) cents may be lawfully charged therefor.

The Company shall carry free upon the railway hereby authorized during the term of this contract all members of the Police and Fire Departments of the City, when such employees are in full uniform.

Fourteenth—No cars shall be operated upon the railway hereby authorized, other than passenger cars, cars for the transportation of express matter and cars necessary for the repair or maintenance of the railway, and no freight cars shall be operated upon the tracks of said railway.

Fifteenth—The Company shall attach to each car run over the said railway proper fenders and wheel guards, in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities, or as may be required by resolution of the Board.

Sixteenth—All cars which are operated on said railway shall be heated during the cold weather, in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities, or as may be required by resolution of the Board.

Seventeenth—All cars operated on said railway shall be well lighted by electricity, or by some lighting system equally efficient, or as may be required by resolution of the Board.

Eighteenth—Cars on the said railway shall run at intervals of not more than thirty (30) minutes both day and night, and as much oftener as reasonable convenience of the public may require, or as may be directed by the Board.

Nineteenth—The Company, so long as it shall continue to use any of the tracks upon the streets and avenues in which said railway shall be constructed, shall, if directed by the President of the Borough of Brooklyn, cause to be watered at least three (3) times every twenty-four (24) hours when the temperature is above thirty-five (35) degrees Fahrenheit, the entire width of the streets and avenues, except when the width of such streets and avenues shall exceed sixty (60) feet between curblines, in which case the Company shall cause to be watered only sixty (60) feet in width of such roadway, and the Company shall provide for such purpose at least one tank car, the capacity of which shall be sufficient to water such streets and avenues in a satisfactory manner.

Twentieth—The Company shall at all times keep the streets and avenues upon which the said railway is constructed, between its tracks, the rails of its tracks and for a distance of two (2) feet beyond the rails, on either side thereof, free and clear from ice and snow; provided, however, that the Company shall, at the option of the Commissioner of Street Cleaning, enter into an agreement for each winter season, or part thereof, to clean an equivalent amount of street surface from house line to house line.

Twenty-first—As long as said railway, or any portion thereof, remains in any street or avenue, the Company shall pave and keep in permanent repair that portion of the surface of the street or avenue in which the said railway is constructed, between its tracks, the rails of its tracks and for a distance of two (2) feet beyond the rails on either side thereof, under the supervision of the local authorities, whenever required by them to do so, and in such manner as they may prescribe.

In case of the neglect of the Company to make pavement or repairs after the expiration of twenty (20) days' notice to do so from the President of the Borough of Brooklyn, said President may make the same at the expense of the Company. And the City shall have the right to change the material or character of the pavement of any street or avenue, and in that event the Company shall be bound to replace such pavement in the manner directed by the proper City official, at its own expense, and the provisions as to repairs herein contained shall apply to such renewed or altered pavement.

Twenty-second—Any alteration to the sewerage or drainage systems or to any other subsurface or to any surface structures in the streets, required on account of the construction or operation of the railway, shall be made at the sole cost of the Company, and in such manner as the proper City officials may prescribe.

Twenty-third—It is agreed that the right hereby granted to operate a street surface railway shall not be in preference or in hindrance to public work of the City, and should the said railway in any way interfere with the construction of public works in the streets and avenues, whether the same is done by the City directly or by a contractor for the City, the Company shall, at its own expense, protect or move the tracks and appurtenances in the manner directed by the City officials having jurisdiction over such public work.

Twenty-fourth—Should the grades or lines of the streets and avenues in which the railway is hereby authorized be changed at any time after the railway has been constructed and during the term of this contract, the Company shall, at its own expense, change its tracks and appurtenances to conform with such new grades and lines, and during the construction of any public improvement upon said streets and avenues the Company shall take care of and protect the tracks and appurtenances at its own expense, all to be done subject to the direction of the City official having jurisdiction over the construction of such change.

Twenty-fifth—The Company shall submit to the Board a report not later than November 1 of each year for the year ending September 30 next preceding, and at any other time, upon request of the Board, which shall state:

1. The amount of stock issued, for cash, for property.
2. The amount paid in as by last report.
3. The total amount of capital stock paid in.
4. The funded debt by last report.
5. The total amount of funded debt.
6. The floating debt as by last report.
7. The total amount of floating debt.
8. The total amount of funded and floating debt.
9. The average rate per annum of interest on funded debt.
10. Statement of dividends paid during the year.
11. The total amount expended for same.
12. The names of the directors elected at the last meeting of the corporation held for such purpose.
13. Location, value and amount paid for real estate owned by the Company as by last report.
14. Location, value and amount paid for real estate now owned by the Company.
15. Number of passengers carried during the year.
16. Total receipts of Company for each class of business.

17. Amounts paid by the Company for damage to persons or property on account of construction and operation.

18. Total expenses for operation, including salaries.
—and such other information in regard to the business of the Company as may be required by the Board.

Twenty-sixth—The Company shall at all times keep accurate books of account of the gross receipts from all sources within the limits of the City, and shall, on or before November 1 of each year, make a verified report to the Comptroller of the City of the business done by the Company, for the year ending September 30 next preceding, in such form as he may prescribe. Such report shall contain a statement of such gross receipts, the total miles in operation within the limits of the City and the miles of railway constructed and operated under this contract, and such other information as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report, and may examine its officers under oath.

Twenty-seventh—In case of any violation or breach or failure to comply with any of the provisions herein contained or with any orders of the Board acting under the powers herein reserved, the franchise or contract herein granted may be forfeited by a suit brought by the Corporation Counsel, on notice of ten (10) days to the Company, or at the option of the Board by resolution of said Board, which said resolution may contain a provision to the effect that the railway constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity. Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Twenty-eighth—If the Company shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures and equipment as herein provided in good condition throughout the whole term of this contract, the Board may give notice to the Company specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time, the Company shall, for each day thereafter during which the default or defect remains, pay to the City the sum of two hundred and fifty dollars (\$250) as fixed or liquidated damages, or the Board, in case such structures or equipment which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided for.

Twenty-ninth—The Company shall assume all liability to persons or property by reason of the construction or operation of the railway authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company.

Thirtieth—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of the City the sum of five thousand dollars (\$5,000), either in money or securities, to be approved by him, which fund shall be security for the performance by the Company of all the terms and conditions of this contract and compliance with all orders of the Board acting under the powers herein reserved, especially those which relate to the payment of the annual charges for the privileges hereby granted, the rendering of efficient public service, at the rates herein fixed, the repairs of the street pavement, the removal of snow and ice, the quality of construction of the railway, and the maintenance of the property in good condition throughout the whole term of this contract, and in case of default in the performance by the Company of such terms and conditions, or compliance with such orders or either or any of them, the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or after default in the payment of the annual charges, shall collect the same, with interest, from the said fund after ten (10) days' notice to the Company; or in case of failure to observe the said terms and conditions of this contract and orders of the Board acting hereunder, relating to the headway, heating and lighting of cars, fenders, wheelguards and watering of street pavements, the Company shall pay a penalty of fifty dollars (\$50) per day for each day of violation, and the further sum of ten dollars (\$10) per day for each car that shall not be properly heated, lighted or supplied with fenders or wheelguards, in case of a violation of the provisions relating to those matters, all of which sums may be deducted from said fund.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Board, on complaint made, shall give notice to the Company, directing its President, or other officer, to appear before the Board on a certain day not less than ten (10) days after the date of such notice, to show cause why the Company should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or, after a hearing appears in the judgment of the Board to be in fault, said Board shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to the Board to be just, and without legal procedure direct the Comptroller to withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund the Company shall, upon ten (10) days' notice pay to the City a sum sufficient to restore said security fund to the original amount of five thousand dollars (\$5,000), and in default thereof this contract shall be cancelled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Thirty-first—The words "notice" or "direction," wherever used in this contract, shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Thirty-second—The words "streets or avenues" and "streets and avenues" wherever used in this contract shall be deemed to mean "streets, avenues, highways, parkways, driveways, concourses, boulevards, bridges, viaducts, tunnels, public places or any other property to which the City has title or over which the public has an easement," encountered in the route hereinabove described, and upon or in which authority is hereby given to the Company to construct a railway.

Thirty-third—If at any time the powers of the Board or any other of the authorities herein mentioned or intended to be mentioned, shall be transferred by law to any other board, authority, officer or officers, then and in such case such other board, authority, officer or officers shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Section 3. Nothing in this contract shall be construed as in any way limiting the present or future jurisdiction of the Public Service Commission under the Laws of the State of New York.

Section 4. This grant is also upon the further and express condition that the provisions of Article 5 and other provisions of the Railroad Law, pertinent hereto, shall be strictly complied with by the Company.

Section 5. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms, conditions and requirements in this contract fixed and contained.

In witness whereof, the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed and the corporate seal of said City to be hereunto affixed; and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be hereunto signed and its corporate seal to be hereunto affixed, the day and year first above written.

(Here add acknowledgments.)

City of New York, Law Department, Office of the Corporation Counsel, New York, January 22, 1913.

Board of Estimate and Apportionment, City of New York:

Sirs—I am in receipt of a communication from Harry P. Nichols, Engineer, Chief of Bureau of Franchises, dated January 21, 1913, and reading as follows:

"I am sending herewith two copies of a contract for a franchise to the Coney Island and Brooklyn Railroad Company to operate a street surface railway upon 4th avenue, Fulton street, Ashland place and Rockwell place, from 9th street to DeKalb avenue.

"This contract is forwarded to you for your approval as to form, it having been agreed to by the Coney Island and Brooklyn Railroad Company. It is proposed to submit this contract to the Board on January 30, 1913, if your approval is obtained in time to have it placed upon the calendar of the Board for that date. As the calendar closes on January 27, your approval of the contract is requested prior to that date, in order that action may be taken by the Board on January 30." I have examined the contract, as requested, and return the same with my approval as to form. Respectfully yours,

G. L. STERLING, Acting Corporation Counsel.

At the request of the President of the Borough of Brooklyn, action was deferred until the meeting of February 27, 1913, as he stated he had certain objections to offer and certain persons desired to be heard in opposition.

Nassau Electric Railroad Company. (Cal. No. 12.)

In the matter of the petition of the Nassau Electric Railroad Company for a franchise to construct, maintain and operate a street surface railway on 8th avenue from 39th street to 7th avenue, Borough of Brooklyn.

At the meeting of July 11, 1912, a report and form of contract was received from the Bureau of Franchises, and as the company offered certain objections to the proposed contract the matter was referred to the Franchise Committee.

The Secretary presented the following:

Bureau of Franchises, February 6, 1913.

Hon. WILLIAM J. GAYNOR, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—At the meeting of the Board held July 11, 1912, there was presented a report of this Bureau upon the application of the Nassau Electric Railroad Company for a franchise to construct, maintain and operate four street surface railway extensions, one of which was upon 8th avenue, from 39th street to 7th avenue; thence on 7th avenue to 79th street, and on 79th street to Stillwell avenue, Borough of Brooklyn.

As 79th street had a roadway not exceeding thirty (30) feet—too narrow for a double-track railway—the company requested that it be granted a franchise upon part of the route only, to wit, on 8th avenue, from 39th street to Bay Ridge avenue. For this route, therefore, a proposed form of contract was drawn and submitted to the company, which objected to three of the conditions imposed, as fully set forth in the report. The matter was thereupon referred to the Franchise Committee to report upon the points at issue, but no report has as yet been made.

The petition of this company has been pending since October, 1906. No definite action was taken upon any of the routes applied for during this time, as there were physical obstacles to each of them, the principal objection on the 8th avenue route being that the street was not open across the Long Island Railroad and the Sea Beach Railway, which railroads intersect 8th avenue between 61st and 62d streets, and where a bridge, or bridges, would be required.

On July 6, 1911, the Board adopted a resolution, pursuant to section 90 of the Railroad Law, applying to the Public Service Commission to determine whether 8th avenue should be carried over or under the grade of the tracks of the Sea Beach Railway Company, and, on October 27, 1911, after holding hearings upon the application, the Public Service Commission issued an order determining that 8th avenue should be constructed across the tracks of the Sea Beach Railway Company by a bridge above the grade of the tracks; that such bridge shall connect with the bridge proposed to be constructed by the Brooklyn Grade Crossing Commission to carry 8th avenue across the tracks of the Long Island Railroad Company, which tracks are adjacent to the tracks of the Sea Beach Railway Company; that detailed plans and specifications must be submitted to the Public Service Commission for approval, and that the matter should be carried out in the manner provided by sections 91 to 97 of the Railroad Law; that is, that half of the cost thereof shall be borne by the Sea Beach Railway Company and half shall be borne by the City.

It was believed, in view of the issuance of this order, that the construction of the proposed bridge would proceed immediately by both the Sea Beach Railway Company and the Brooklyn Grade Crossing Commission, and, accordingly, the report upon the application of this company was presented to the Board on July 11, 1912, as above stated.

Subsequent orders of the Public Service Commission with respect to this matter, however, may make it desirable to change in some instances the contract for the franchise to the Nassau Electric Railroad.

In view of the proposed street surface railway in 8th avenue, it was thought desirable that a bridge across the Sea Beach Railway be constructed of sufficient strength and so framed as to permit of the laying of the tracks of a street surface railway, rather than a lighter structure which would have to be subsequently altered and strengthened to permit of such use. This procedure, it was found, would add to the cost of the bridge across the tracks of the Sea Beach Railway Company, and, since the bridge across the two railroads is to be a joint structure, it would add to the cost of the bridge across the Long Island Railroad as well. The Brooklyn Grade Crossing Commission, however, in charge of the construction of the tracks across the Long Island Railroad, refused to bear the additional expense to construct a bridge suitable for a street surface railway, but was willing to permit the change in plans, provided the Sea Beach Railway Company would bear the difference in expense between the two types of structures. This the Sea Beach Railway Company offered to do, and on this basis it was found that the portion of the total cost of the construction of the heavy bridge across both the Long Island Railroad Company and the Sea Beach Railway Company tracks, which would be chargeable to the Brooklyn Grade Crossing Commission fund, would be approximately 55 per cent. Therefore, the Brooklyn Grade Crossing Commission agreed to bear 55 per cent. of the total cost of such entire structure, and the Sea Beach Company agreed to bear the remaining 45 per cent. of the cost. Under the Railroad Law, the City must pay one-half of the cost of the bridge over the Sea Beach tracks—that is, one-half of the 45 per cent. assumed by the Sea Beach Company, if the 45 per cent. was expended solely for the bridge across the tracks of the Sea Beach Company. Subsequently, the Sea Beach Railway Company applied to the Public Service Commission for approval of the plans and specifications of the manner and payment of the construction of the bridge by the City to reimburse the railroad company for the City's proportionate part of the cost.

The Public Service Commission issued an order on December 17, 1912, in which it is stated that the manner of payment for the construction of the bridge by the City to so reimburse the railroad company should not be fixed at that time, but approval was given to the plans and specifications in so far as they affected the tracks of the Sea Beach Railway Company. On the same day the Public Service Commission issued an order, in which it approved the agreement between the Brooklyn Grade Crossing Commission and the Sea Beach Railway Company, whereby such Commission and such company are to assume the cost, in the proportion of 55 per cent. and 45 per cent., respectively, with, however, the provision that nothing contained in the order should determine, or be construed as determining, that the share to be borne by the City of the cost of the carrying the joint bridge across the two sets of tracks shall be in excess of half the cost of constructing so much of the joint bridge as spans the tracks of the Sea Beach Railway Company. It is further ordered that upon the completion of the joint bridge, an accounting should be had for the purpose of determining what the City shall pay for its half of the expense necessary to carry the tracks across the Sea Beach Railway.

It is evident from what has been said that the Sea Beach Railway Company has, pursuant to its agreement with the Brooklyn Grade Crossing Commission, assumed the portion of the cost of the bridge across the Long Island Railroad which is required to make the bridge sufficiently strong to carry a street surface railway. That sum

the Public Service Commission apparently does not, in view of the terms of the order issued December 17, 1912, mean to allow as a part of the cost of the Sea Beach improvement, half of which the City must pay. The sum required to construct the heavy bridge over the Sea Beach Railway might, however, be allowed by the Commission, and the City would be in a position of paying half of that extra cost. It is not equitable that the City should be required to contribute any sum for that purpose, but rather that this extra cost be placed on the street railway company. The Brooklyn Grade Crossing Commission, acting for the City, in providing a crossing at this point across the Long Island Railroad, one-half the expenditures of which are borne by the City, has already refused to include any such extra cost for that structure.

It is believed, therefore, that the contract for the franchise to the Nassau Electric Railroad Company on 8th avenue, which has been presented to the Board and referred to the Franchise Committee, should be modified by providing that that company shall bear any expense to which the City may be put in constructing a bridge stronger than that necessary for carrying the roadway. It has been estimated that a bridge capable of carrying a street surface railway would cost, approximately, \$8,700 more than a bridge for highway purposes only. In no case would the City be called upon to pay more than one-half of this amount.

The amendment to the contract suggested is as follows:

Add before the last paragraph of subdivision 3 of section 2 the following:

"The Company hereby agrees to pay to the City any sum which the City may be required to pay toward the difference between the estimated cost of the construction of a bridge to carry 8th avenue across the rights of way of the Long Island Railroad Company and the Sea Beach Railway Company, for highway purposes only, and the actual cost of constructing said bridge as approved by the Public Service Commission for the 1st District, which approved bridge is adapted to and sufficiently strong to support a street surface railway; said difference in cost of the two types of structures being approximately eighty-seven hundred dollars (\$8,700)."

If this provision is inserted in the franchise, it is suggested that the Public Service Commission be notified of that fact, in order that that Commission may take into account that condition of the franchise when the final accounting is had to determine the City's share of the expense.

I am informed that bids for the construction of this joint bridge will be opened in the near future, and it is presumed that the construction of the bridge will proceed immediately. If the Nassau Electric Railroad Company is to be granted the franchise, it would be desirable that that action be taken before the completion of the bridge, in order that the Company may lay its tracks before the roadway thereon shall be paved. That procedure would probably save considerable expense to the Company and an inconvenience to the public, since the laying of tracks and destruction of new pavement would necessarily interfere with the traffic on the bridge. Only recently considerable inconvenience was caused by the destruction of the new pavement on the Nostrand avenue bridge across the Long Island Railroad tracks, because the street surface railway company operating thereon took possession of the bridge after it was completed, for the purpose of laying its tracks and strengthening the bridge, and an extra expense of approximately \$5,500 was placed upon the company because the tracks had not been constructed before the bridge was completed.

In view of this, I would suggest that the Franchise Committee take up the question of the franchise to the Nassau Electric Railroad Company, with a view to reaching a determination in the near future.

I would recommend that this report be referred to the Franchise Committee. Respectfully,
HARRY P. NICHOLS, Engineer, Chief of Bureau.

City Island Railroad Company. (Cal. No. 13.)

In the matter of the communication from the Public Service Commission for the First District transmitting certified copy of order adopted by said Commission directing a hearing on the application of the Receiver of the City Island Railroad Company for approval of change of gauge of the railroad tracks of said company.

This communication was presented to the Board at the meeting of January 16, 1913, when it was ordered filed and the Engineer, Bureau of Franchises, instructed to attend the hearing.

The Secretary presented the following:

Bureau of Franchises, February 7, 1913.

Hon. WILLIAM J. GAYNOR, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Pursuant to the instructions of the Board, I attended the hearing before the Public Service Commission for the First District, on January 29, upon the application of Bion L. Burrows, as Receiver of the City Island Railroad Company, for the consent of the Commission, pursuant to section 25 of the Railroad Law, to change the gauge of the railroad from narrow (3 feet 6 inches) to standard gauge (4 feet 8½ inches).

Since my last report on this Company and the Pelham Park Railroad Company, both have been sold under foreclosure, to wit, on July 2, 1912, but in the case of the City Island Company the receiver, appointed December 11, 1911, is still in possession, operates the railroad and makes the present application.

It appears from the testimony, at the hearing, that the Receiver was notified by the President of The Bronx that it was his intention to pave City Island avenue, the route upon which the railroad operated, and as the condition of the ties and rails were such, after twenty-five years' use, that it was practically impossible to remove them and relay them, it was deemed necessary to provide new material, and as a narrow gauge road was obsolete, it was thought best to lay a road of standard gauge. The Receiver thereupon petitioned the court for permission to reconstruct the road and to issue receiver's certificates for the expense involved, and such order was obtained May 9, 1912, and the railway of standard gauge thereafter laid, which extended from Belden's Point along City Island avenue (Main street) to the City Island bridge, thence across the bridge to Marshall's Corners in Pelham Bay Park, permits for the same having been received from the President of the Borough and the Bridge Commissioner. The railway as reconstructed is a single track road with one turnout at either end and one in the middle.

I had been previously informed that the railway company's share of the cost of the new pavement would be approximately \$11,500 on City Island avenue, and in answer to a question, the Receiver replied that an appropriation for such an amount had been made by the Railway Company, and the counsel stated that the Company had assumed the obligation.

As regards the paving on the City Island Bridge, and its approaches, the permit dated October 10, 1912, from the Bridge Department, provided that the wood block pavement on the bridge shall be done by the City and the macadam pavement on the approaches should be laid by the Company as its share of the paving. This has not been completed at the present writing, work having been stopped on account of the weather.

The Public Service Commission adopted an order on January 31, 1913, granting the application of the Company for authority for the standard gauge track, thus legalizing the existing structures. Respectfully,

HARRY P. NICHOLS, Engineer, Chief of Bureau.

Manhattan and Queens Traction Corporation (Cal. No. 14.)

A communication was received from the Mayor's office returning, duly approved by His Honor the Mayor on January 28, 1913, resolution adopted by this Board January 23, 1913, granting the Manhattan and Queens Traction Corporation an extension of time until February 13, 1913, to complete and put in operation that portion of its railway from the Manhattan Terminal of the Queensboro Bridge to the intersection of the tracks of the Long Island Railroad with Thompson avenue at or near Greenpoint avenue, Long Island City, Borough of Queens.

Which was ordered filed.

A communication was received from the President of the Company stating the construction of the above mentioned portion of the route was completed January 29, 1913, and on that date was placed in operation.

National Sugar Refining Company of New Jersey (Cal. No. 15.)

In the matter of the consent granted the National Sugar Refining Company of New Jersey to install, maintain and use two pipes under and across the intersection of Front and Pidgeon streets, Long Island City, Borough of Queens.

This consent was granted by resolution adopted by this Board December 19, 1912, approved by the Mayor December 24, 1912.

The Secretary presented the following:

Bureau of Franchises, January 31, 1913.

Hon. WILLIAM J. GAYNOR, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—By resolution adopted by the Board of Estimate and Apportionment December 19, 1912, approved by the Mayor December 24, 1912, the National Sugar Refining Company of New Jersey was granted permission to install, maintain and use two pipes under and across the intersection of Front and Pidgeon streets, Long Island City, Borough of Queens.

Section 14 of the said consent provides as follows:

"14. This consent shall be null and void unless said grantee shall duly execute an instrument in writing, wherein said grantee shall accept this consent and shall promise, covenant and agree to conform to, abide by and perform all the terms, conditions and requirements in this consent fixed and contained and file such instrument with the Board of Estimate and Apportionment of The City of New York within thirty (30) days after the approval of this consent by the Mayor; provided, however, that such time may be extended by the Board of Estimate and Apportionment."

"And said grantee shall promise, covenant and agree in said instrument to hold The City of New York harmless from all damages to persons or property which may result from the construction, use, maintenance or operation of the structure hereby authorized."

Under and pursuant to the above quoted section the grantee presented an agreement dated January 22, 1913.

This agreement was approved as to form by the Corporation Counsel and returned to this office with a communication dated January 28, 1913.

Certified copies of the approved resolution have been forwarded to the officials interested.

It is recommended that the papers be filed. Respectfully,

HARRY P. NICHOLS, Engineer, Chief of Bureau.

Which was ordered filed.

Harlem Transfer Company (Cal. No. 17.)

In the matter of the application of the Harlem Transfer Company for a revocation of the consent granted by the Board of Aldermen authorizing said Company to construct, maintain and operate certain railroad tracks along Park avenue, from the bulkhead at the Harlem River to a point south of 135th street, Borough of The Bronx, and a refund of the compensation paid for the unexpired period and of the amount of the security deposited.

This application was presented to the Board at the meeting of January 30, 1913, and was referred to the Bureau of Franchises.

The Secretary presented the following:

To the Honorable Board of Estimate and Apportionment of The City of New York:

The Harlem Transfer Company respectfully represents that heretofore and on or about the 26th day of July, 1904, The City of New York, acting by and through the Board of Aldermen, duly granted to the Harlem Transfer Company the permit to lay, maintain and operate railroad tracks on Railroad avenue or Park avenue, south of 138th street, Borough of The Bronx, upon certain terms and conditions in the resolution of the Board of Aldermen and the Board of Estimate and Apportionment stated, among which conditions was the requirement that the Harlem Transfer Company should pay to The City of New York the annual sum of thirteen hundred twenty dollars (\$1,320) for each of the first five years of the duration of the franchise and the annual sum of thirteen hundred ninety dollars (\$1,390) during the second five years of the duration of the said franchise. That pursuant to the terms of the said resolution of the Board of Aldermen the Harlem Transfer Company, on or about the 11th day of August, 1904, duly accepted the said grant of the Board of Aldermen.

That the said Harlem Transfer Company has from time to time paid to The City of New York the annual sum in and by said grant specified, and did on the 30th day of October, 1911, duly pay to The City of New York the sum of \$1,390 for and on account of the annual payment for the year November 1, 1911, to November 1, 1912, in the said resolution of the Board of Aldermen specified.

That thereafter and on the 14th day of August, 1912, The City of New York, acting by and through the Public Service Commission for the First District of New York, duly gave and served upon the said Harlem Transfer Company a notice, a copy of which is hereto attached.

That pursuant to the said notice, the Harlem Transfer Company did on August 28, 1911, remove from the said Railroad avenue or Park avenue the tracks which it had placed therein and had theretofore maintained pursuant to the franchise granted to it as aforesaid.

And it is further represented that as and for security for the performance of the terms and conditions of the said grant from The City of New York to it, the said Harlem Transfer Company did on the 17th day of August, 1904, deposit with the Comptroller of The City of New York one bond registered in the name of the Comptroller of The City of New York, same being gold exempt 3½ per cent. corporate stock for the New East River Bridge, of \$500 face value.

Wherefore, The Harlem Transfer Company requests that The City of New York refund to it the unearned portion of the said annual payment of \$1,390, to wit, the sum of two hundred forty-three dollars and seventy-three cents (\$243.73), and that it return to the said Harlem Transfer Company the said security deposited with the Comptroller as aforesaid.

HARLEM TRANSFER COMPANY.

By E. E. Loomis, President.

Dated January 25, 1913.

Harlem Transfer Company, Park Avenue and 135th Street, The Bronx, New York, August, 14, 1912.

Gentlemen—The City of New York, acting by the Public Service Commission for the First District, pursuant to a consent and appropriation by the Board of Estimate and Apportionment of The City of New York, entered into a contract on July 23,

1912, with Arthur McMullen and Olaf Hoff for the construction of section No. 14 of the Lexington Avenue Subway (Route No. 5) in the Boroughs of Manhattan and The Bronx. This section extends from a point near 129th street, in Manhattan, under Lexington avenue and the Harlem River to the Borough of the Bronx, and thence under Park or Railroad avenue and private property to points near East 138th street. In order to construct this section, it is necessary to take possession of Park or Railroad avenue between the bulkhead line of the Harlem River and East 135th street and to require you to remove from said avenue certain tracks which you now maintain thereon. The Commission, therefore, acting pursuant to the authority conferred upon it by the Rapid Transit Act and the Public Service Commission's Law, to-day adopted a resolution, a copy of which I herewith enclose, requiring you to remove these tracks from Railroad or Park avenue. You will, therefore, please take notice in accordance with the terms of the said resolution that the Commission will proceed to occupy Railroad or Park avenue in the Borough of The Bronx, between the bulkhead line of the Harlem River and East 135th street, and that you are required to forthwith remove your tracks therefrom; in case of your failure to remove said tracks, The City of New York, acting by the Commission, will proceed to remove the same at your expense. Yours very truly,

TRAVIS H. WHITNEY, Secretary.

Bureau of Franchises, February 3, 1913.

Hon. WILLIAM J. GAYNOR, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—By resolutions adopted by the Board of Aldermen April 19 and July 26, 1904, and respectively approved by the Mayor April 21 and August 2, 1904, consent was granted to the Harlem Transfer Company to construct, maintain and operate two standard railroad tracks on and along Park avenue, or Railroad Avenue East, in the Borough of The Bronx, from the bulkhead at the Harlem River to a point about 30 feet south of 135th street, with turnouts, switches and connections, the consent to be for a period not exceeding twenty-five years, the grantee to pay into the City treasury during the first five years the annual sum of one thousand three hundred and twenty dollars (\$1,320); during the second five years an annual sum of one thousand three hundred and ninety dollars (\$1,390), and similar increases for the three succeeding periods of five years. It was also provided that the grantee should deposit with the Comptroller five hundred dollars (\$500) security for the faithful performance of the terms and conditions of the consent. After the approval, on August 2, 1904, of the second resolution granting consent, the Harlem Transfer Company deposited the said security in the shape of corporate stock of The City of New York and has regularly paid into the City treasury, in advance, on November 1 of each year, the annual payments for the privilege, to October 31, 1912.

On August 14, 1912, the Public Service Commissioner for the First District adopted a resolution requiring the Harlem Transfer Company to remove the said tracks to make way for the work of constructing Section 14 of the Lexington Avenue Subway, Route 5. A copy of said resolution was served upon the Harlem Transfer Company, and I have been informed by the Public Service Commission that the tracks were entirely removed by September 4, 1912.

The Harlem Transfer Company has now presented a petition, dated January 25, 1913, to the Board of Estimate and Apportionment, requesting a refund of the proportionate part of the annual charge of \$1,390 already paid into the City treasury for the year ending October 31, 1912, and the return of the security deposit.

As the tracks have been removed, there appears to be no good reason why the requested refund should not be made and the security returned. The question of repair of pavement after the removal of the tracks does not seem to enter here, as the street is about to be torn up for the construction of the subway, and in the meantime it is closed to public travel.

The two resolutions above mentioned, granting consent, should therefore be revoked and the Comptroller should be authorized to refund the proportionate part of \$1,390 covering the period from September 4 to October 31, 1912, inclusive, which is the sum of two hundred and twenty dollars and eighty-eight cents (\$220.88), and the security deposit should also be returned.

Resolutions so providing, in the customary manner, are herewith submitted for adoption. Respectfully,

HARRY P. NICHOLS, Engineer, Chief of Bureau.

The following was offered:

Whereas, A resolution was adopted by the Board of Aldermen July 26, 1904, and approved by the Mayor August 2, 1904, granting consent to the Harlem Transfer Company to construct, maintain and operate two railroad tracks along Railroad Avenue East, sometimes known as Park avenue, in the Borough of The Bronx, from the bulkhead line of the Harlem River, northerly along said avenue, to a point south of East 135th street; the said consent to continue for a period not exceeding twenty-five years; the grantee to pay into the City treasury during the first five years the annual sum of one thousand three hundred and twenty dollars (\$1,320) and during the second five years the annual sum of one thousand three hundred and ninety dollars (\$1,390), and similarly increasing annual sums during the three succeeding periods of five years, and the said grantee to deposit with the Comptroller security in the sum of five hundred dollars (\$500) for the faithful performance of the terms and conditions of the consent; and

Whereas, The said Harlem Transfer Company accepted the said consent, constructed the said tracks, deposited security of five hundred dollars (\$500) with the Comptroller, and has regularly paid into the City treasury, in advance, on November 1 of each year, the annual sums above mentioned to October 31, 1912; and

Whereas, The said tracks were removed on or about September 4, 1912; and

Whereas, The Harlem Transfer Company has presented a petition, dated January 25, 1913, to the Board of Estimate and Apportionment, for a refund of the portion of the annual charge of one thousand three hundred and ninety dollars (\$1,390), covering the period from the date of the removal of the tracks to November 1, 1912, and the return of the security deposit of five hundred dollars (\$500); now, therefore, be it

Resolved, That the said resolution adopted by the Board of Aldermen July 26, 1904, and approved by the Mayor August 2, 1904, granting consent to the Harlem Transfer Company to construct, maintain and operate two tracks on Railroad Avenue East, sometimes known as Park avenue, from the bulkhead of the Harlem River northerly to a point south of East 135th street, in the Borough of The Bronx, be and it is hereby rescinded; and be it further

Resolved, That the Comptroller of The City of New York be and he is hereby authorized and requested to refund to the Harlem Transfer Company the sum of two hundred and twenty dollars and eighty-eight cents (\$220.88), as the proportionate part of the annual charge of one thousand three hundred and ninety dollars (\$1,390), for the period from September 4, 1912, the date of the removal of the tracks, to November 1, 1912, and to return to the said Harlem Transfer Company the security fund of five hundred dollars (\$500) deposited in his office for the faithful performance of the terms and conditions of the consent; and be it further

Resolved, That this resolution shall not become effective unless and until the Harlem Transfer Company shall execute an instrument in writing, releasing The City of New York from any and all claims, of any kind, character or description whatsoever, held, or claimed to be held under the terms and conditions of the aforesaid consent, and agreeing to quit-claim, waive and surrender to The City of New York any and all rights and privileges in and upon said Railroad Avenue East, sometimes known as Park avenue, in the Borough of The Bronx, held, or claimed to be held under and by virtue of said consent, and file the same with the Board of Estimate and Apportionment of The City of New York.

Which was adopted by the following vote:

Affirmative—The Mayor, the Deputy and Acting Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The following was offered:

Whereas, A resolution was adopted by the Board of Aldermen on April 19, 1904, and approved by the Mayor April 21, 1904, granting consent to the Harlem Transfer Company to construct, maintain and operate two railroad tracks along and on the surface of Railroad avenue, sometimes known as Park avenue, in the Borough of The Bronx, from the foot of said avenue to a point about thirty feet south of 135th street; and

Whereas, The said tracks have now been removed, as more fully recited in a report from the Bureau of Franchises presented to the Board of Estimate and Apportionment at the meeting held this day; now, therefore, be it

Resolved, That the said resolution adopted by the Board of Aldermen April 19, 1904, and approved by the Mayor April 21, 1904, be and it hereby is rescinded.

Patrick Ryan, Patrick Ryan Construction Corporation (Cal. No. 18).

In the matter of the consent granted Patrick Ryan to assign to the Patrick Ryan Construction Corporation all his right, title and interest in and to a certain bridge and a certain track in Long Island City, Borough of Queens.

This consent was granted by resolution adopted by this Board January 16, 1913, approved by the Mayor January 23, 1913.

The Secretary presented the following:

Bureau of Franchises, February 7, 1913.

Hon. WILLIAM J. GAYNOR, Mayor, Chairman, Board of Estimate and Apportionment:

Sir—By resolution adopted by the Board of Estimate and Apportionment January 16, 1913, approved by the Mayor January 23, 1913, Patrick Ryan was granted permission to transfer to the Patrick Ryan Construction Corporation all his right, title and interest in and to certain structures, as follows:

(a) A bridge over and across the Boulevard, between Ditmars avenue and Potter avenue, Long Island City, Borough of Queens.

(b) A 36-inch gauge railroad track across and on the surface of Van Alst avenue and other streets within the right of way of the New York Connecting Railroad Company in Long Island City, Borough of Queens.

The grantee has accepted the consent as provided therein, and such agreement has been approved by the Corporation Counsel, and is on file in this office.

Certified copies of the approved resolution have been forwarded to the grantee and the officials interested.

It is recommended that the papers be filed. Respectfully,

HARRY P. NICHOLS, Engineer, Chief of Bureau.

The Brooklyn City Railroad Company (Cal. No. 19.)

The Secretary presented the following:

To the Board of Estimate and Apportionment of The City of New York:

The Brooklyn City Railroad Company hereby makes the following application:

1. To construct and operate a spur track leading from its double-track street surface railroad into the property of Meurer Bros. Company, at No. 575 Flushing avenue, in the Borough of Brooklyn, City of New York, as more particularly described and shown upon the plan submitted herewith, marked Exhibit A.

2. Your petitioner is the owner of said double-track street surface railroad in Flushing avenue and has the right, as owner, to install and maintain said spur track and operate the same in connection with its business.

3. This application is for a license to install said spur track at said place under section 242 of the Charter, revocable at the pleasure of the Board.

4. The petitioner expects to do a large business for Meurer Bros. Company in transporting freight from said point to various water fronts and steam railroads, over the tracks of the Brooklyn City Railroad Company, at a time when the same will not interfere with the passenger business petitioner is doing over said railroad. That said spur track will be installed and used so as not to encumber Flushing avenue or in any way be a detriment to the public or any private owner of property in said locality.

5. The petitioner has the right, and expects, to do other freight business in said locality and, so far as the same is required, to do a general local freight business over said line by receiving and delivering freight at said point, so far as its facilities will permit and so long as it does not interfere with its operation of cars in the transportation of passengers over its said tracks.

Dated Brooklyn, N. Y., January 30, 1913.

Respectfully submitted,

THE BROOKLYN CITY RAILROAD COMPANY,

By Z. E. WATSON, Secretary and Treasurer.

Bureau of Franchises, February 8, 1913.

Hon. WILLIAM J. GAYNOR, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—The Brooklyn City Railroad Company, as owner of the street surface railway in Flushing avenue, Borough of Brooklyn, has presented a petition dated January 30, 1913, to the Board of Estimate and Apportionment, for permission to construct, maintain and operate a spur track from its double track street surface railway in Flushing avenue to and into the property of Meurer Bros. Company at No. 575 Flushing avenue.

The petition recites that the proposed spur track is desired for the conveyance of freight between Meurer Bros. Company and various steam railroads, at a time when such operation will not interfere with the passenger business of the petitioner. Counsel for the petitioner has stated that approximately six cars per week will be operated over the said spur. The route of operation will be from Meurer Bros. to the Bush Terminal transfer station at 48th street via Flushing avenue, Washington avenue, Park avenue, Navy street, Willoughby street, Court street, Hamilton avenue, 3d avenue, 29th street and 2d avenue. With the exception of the portion in the vicinity of Borough Hall, the route given is along streets given over to business, and no portion of the route passes through what might be called a residential section.

In this connection I would call attention to the matter of the spur track leading into the Arabol Manufacturing Company's premises at No. 56 Nostrand avenue, Brooklyn. This track was installed without the specific authority which the Corporation Counsel advised should have been obtained, and a resolution was adopted by the Board of Estimate and Apportionment on December 10, 1909, calling upon the Brooklyn Heights Railroad Company, lessee of the Brooklyn City Railroad Company, to remove the track by January 10, 1910. In the event of the Company neglecting to do so, it was provided that the Borough President should cause the track to be removed. The Railroad Company did not remove the track, but applied for an injunction against its removal by the Borough President. A temporary injunction was granted, but on the argument of the application on the merits a decision was rendered vacating the injunction, on the ground that the Railroad Company had not the right to construct or maintain the track. An appeal was taken from this decision, which has not as yet been decided. This appeal does not act as a stay, however, the track remaining in the street only by sufferance of the City, pending the determination of this appeal.

The present application opens up the question of the policy the Board desires to pursue in the matter of permitting street surface railways to carry freight from terminal points to individual manufacturers and business concerns which may be located on the lines of the railway.

The old franchises authorize the street railways to carry passengers and property, and under such authority several companies in the Boroughs of Manhattan and The Bronx entered into arrangements with express companies, and others, to carry express matter and freight in closed cars on their respective lines. The Board recognized this practice to a certain extent by granting spur tracks in several places into the stations of the express companies, and finally, in 1906, by granting one into the premises of R. H. Macy & Company, at 34th street and Broadway. This resulted in litigation, and the Court of Appeals decided, in the case of Hatfield vs. Straus, that the Board had no power to make such grant to a private individual, and the spur track was removed. Subsequently the street railways in Manhattan and The Bronx cancelled their contracts with the express companies and others, and several of the privileges previously granted for spur tracks were revoked by the Board and the tracks removed. I am informed that the reason given by the railway companies for discontinuing this service was that it interfered with passenger traffic.

In Brooklyn the attitude of the street railway companies is different, and to-day they are transporting a large amount of freight, principally by the South Brooklyn Railroad Company. I remember some instances where there has been serious complaint upon the part of householders on residential streets of the noise incidental to such traffic, not only in the day time, but particularly at night, when more use was made of the tracks for freight than in the day time, on account of the diminished passenger traffic. There have also been complaints that the switching of freight cars seriously delayed passenger traffic.

Of course passenger traffic is increasing and, in certain parts of Brooklyn, is congested. Whether or not the City should encourage the growth of such freight traffic by granting additional spurs is a serious question. If one manufacturer has such privilege it is difficult to see how another can be denied. If such grants are generally made, conditions will soon be created which will be beyond the control of the companies and will eventually have to be rectified by drastic action, thereby causing serious damages to those who have built up a business depending upon such facilities. On

the other hand, the claim is made that business in Brooklyn would be greatly benefited and that such increased railway facilities are absolutely essential.

In view of the above, I should like to have an expression of opinion from the Board as to the general policy which I shall pursue in regard to the present and future applications which may be received from street railway companies for such revocable privileges.

1. Shall such applications be considered favorably by the Board in any case?
2. If no general prohibition is laid down, shall they be limited:
 - (a) To such locations as are strictly of a manufacturing or business character; and
 - (b) To a route which does not pass through any residential section?

3. Whether or not the Board will consider the present application unless the Brooklyn Heights Railroad Company withdraws its appeal in the case of the Arabol Manufacturing Company and presents a petition and accepts a revocable privilege for the continued use of that spur, containing the usual conditions, including the charge for past use and occupation.

I would therefore recommend that the matter be referred to the Franchise Committee for report. Respectfully,

HARRY P. NICHOLS, Engineer, Chief of Bureau.

The Stock Quotation Telegraph Company (Cal. No. 21).

In the matter of the application of The Stock Quotation Telegraph Company for a franchise to use the streets of the City for the purpose of operating a stock ticker system.

At the meeting of December 19, 1912, a report and form of contract was received from the Bureau of Franchises and action was deferred to permit of further conferences between the Bureau and representatives of the company.

The Secretary presented the following:

Bureau of Franchise, February 8, 1913.

Hon. WILLIAM J. GAYNOR, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—At the meeting of the Board of Estimate and Apportionment held Thursday, December 19, 1912, there was presented a report of this Bureau upon the application of The Stock Quotation Telegraph Company for a franchise to use the streets of the City for the purpose of operating a stock ticker system, together with a proposed form of contract to govern the grant applied for. Upon request, however, the matter was laid over for the purpose of allowing representatives of the Company to consult further with this Bureau.

Since that time several consultations have been held with Hon. Morgan J. O'Brien, Counsel for the Company, when certain additional facts have been brought out regarding the operations of the Company, and certain amendments have been requested for the purpose of meeting the situation as developed by the additional data which was not previously known to this Bureau or brought out in the prior negotiations.

It has been ascertained that the Company, in its operations, uses the elevated railroads for the stringing of wires to quite a considerable extent, and it claims the right to continue to use the same under a ruling of the Federal Court that they are post roads and because of the fact that the Company has filed a certificate of acceptance of the Post Roads Act. From the information now at hand it appears that the Company operates in the following manner:

Operations in New York.

The Stock Quotation Telegraph Company is at the present time engaged in this City in the furnishing of a general news service, including financial news, sporting news, election news and items of general interest to subscribers both in this City and in the adjoining cities in the State and in New Jersey, from a central station located in its own building at 26 Beaver street, Borough of Manhattan. It has also recently inaugurated a service over the same wires and instruments by means of which stock exchange houses are able to obtain information regarding unlisted securities in the hands of other houses and thus facilitate the buying and selling of the same. It may be stated, however, that the Company has no connection with the New York Stock Exchange, all its news being obtained through reporters, correspondents, by means of leased telegraph lines to other cities and from the United Press Association and the New York News Bureau Association, and from tickers of other companies giving stock quotations. For the purpose of gathering news and exchanging the same with its correspondents and affiliated agencies, it uses Morse telegraph instruments on certain of its circuits within the City.

The Company's conductors are laid underground, strung overhead and attached to the elevated railroad structures and the Brooklyn Bridge. The use of the underground conductors appears to be confined to the Borough of Manhattan, where the Company has approximately ten miles of cable in subway ducts, containing over 455 miles of conductors. Its overhead wires, other than cable, are located in all of the boroughs in which it operates, it having approximately 10.5 miles of overhead wires in the Borough of Manhattan, 36.5 miles in the Borough of Brooklyn, 2.35 miles in the Borough of The Bronx and 8.15 miles in the Borough of Queens. All of these overhead wires are not located on poles, as a good portion of the same, particularly in Manhattan, are strung from house top to house top. Thus, in Manhattan, of the overhead wires mentioned above, about 6.4 miles are house top wires; in Brooklyn 1.75 miles are so strung; in The Bronx 0.6 miles, and in Queens 0.05 miles are so strung. The greatest length of cable in use by the Company is strung to the elevated railroads, there being almost 28 miles of cable of that character in Manhattan, each cable containing from 1 to 60 conductors. In Brooklyn it has over 22 miles of cables, containing 114 miles of conductors attached to the elevated railroad structures, and in The Bronx it has 8 miles of cable containing from 1 to 10 conductors so strung. The Company also uses the Brooklyn Bridge, on which it uses wires in a cable 0.75 miles in length, the portion used by it being 10 conductors out of a total of 26; the rest being apparently used by the Western Union Telegraph Company.

In addition to all the above it leases approximately 36.8 miles of conductors, as follows: 28.5 miles from the Gold and Stock Telegraph Company; 0.1 miles from the Postal Telegraph-Cable Company and 8.2 miles from the Western Union Telegraph Company. However, 3.72 miles of its own conductors are leased, of which 3.6 miles are leased to the Gold and Stock Telegraph Company and 0.12 miles to the American District Telegraph Company.

As was previously stated, the Company is, and its officers claim it to be, one whose nature more nearly approximates that of a newspaper than that of a telegraph company. It does not hold itself out to receive or transmit messages from one person to another, and its equipment is such that it would be extremely difficult, if not impossible, to do so.

The current in use on the circuits measures from one-tenth to seven-tenths of an ampere and the voltage used varies between 150 and 200 volts, depending upon the length of the line. The high voltage used by the Company is stated to require it to use its own cables and it is claimed that it would be very impracticable, owing to induction, to use any wires in any of the cables of the New York Telephone Company, which operates with a much smaller voltage. If such wires could be used it would avoid some of the problems that have arisen, due to the Company's desire to continue operation by the means of overhead wires.

This point was raised by a request of the Company for the amendment of the eighth subdivision of section 2 of the proposed form of contract, in such a manner that its use of the elevated railroad structures would be recognized and authorized.

When this request was first made, it was not thought necessary to make any amendment to the provision requiring the removal of the overhead wires when demanded by the Board or the Commissioner of Water Supply, Gas and Electricity. There is no doubt that any such demand when made would necessarily take into consideration the existing facilities for the placing of the said wires underground, and would presumably cover but a limited district at any one time, as has been the case heretofore. When the matter was called to the attention of the engineers of the Department of Water Supply, with whom I consulted, it was suggested that, as a remedy in case of absolute necessity, if the Company desired to extend its wires and not undergo the expense of underground construction, it could possibly use wires in cables of the New York Telephone Company, as is done by other companies. It already

uses wires of the Western Union Telegraph Company, the Gold and Stock Telegraph Company and the Postal Telegraph-Cable Company, and the Department of Water Supply informs me that the Gold and Stock Company itself uses wires in the cables of the New York Telephone Company.

Upon discussing the matter with the Superintendent of the Company he stated that, in view of the voltage of the current used, it would be very impracticable, owing to induction, to use any wires in any of the cables of the New York Telephone Company, which uses a much smaller voltage.

The Commissioner of Water Supply, Gas and Electricity has been requested to test this matter, and under date of January 27, 1913, signified his willingness to do so.

It must be noted that any recognition of the right of the Company to use the elevated railroad structures for the stringing of its wires, because of the claim that the same are post roads, would be altogether inconsistent with the position of the City regarding the use by the Company of its streets and avenues. Conceding the Company to be of a type which can derive privileges by filing an acceptance of the Post Roads Act, it would then obtain just as much privilege to use the streets and avenues, which are post roads, as it claims to have to use the elevated railroad structures. The Corporation Counsel having held it to have no rights, or, at most, rights of a very doubtful character, and the Company being willing to submit for the present to the jurisdiction of the City as to its operations in the streets and avenues, the City is not in a position to concede any claim on its part inconsistent with the ruling of the Corporation Counsel.

The Presidents of the various Boroughs have, in communications to this Bureau, stated generally that they do not desire to have any new companies authorized to carry wires over ground.

Amendments Desired to Proposed Form of Contract

In view of the necessity for the use of lines operated by means of Morse instruments in the gathering of news to be distributed to the Company's tickers, counsel for the Company desires the contract amended so as to recognize its right to continue and conduct such operations as are necessary in this connection. This I have agreed to recommend and the recitals in the resolution and Section 1 of the contract have been amended accordingly.

The elimination of the Borough of Richmond and the consequent reduction of the initial payment from \$12,000 to \$10,000 has also been requested. As originally drafted by this Bureau, the contract was to cover only the four Boroughs in which the Company is operating, the initial payment therefor being fixed at \$10,000. Upon request of one of the attorneys for the Company, however, the Borough of Richmond was included and the proposed initial payment increased to \$12,000. The omission of the Borough of Richmond and a reduction of the initial payment conforms to the original suggestion of this Bureau. As a consequence, I agreed to recommend the same.

Because of its operation on the Brooklyn Bridge, counsel for the Company desires that its right to operate on bridges connecting the boroughs of the City be recognized in the contract. It may be noted that in view of the interborough operations of the Company it will be necessary for it in making connections from one borough to another either to use the bridges or lay submarine cables. Such continued use of the Brooklyn Bridge and perhaps of other bridges in the future may be unobjectionable, and I am willing to recommend that such use be authorized, subject to reasonable regulations and charge by the Bridge Commissioner and the designation at his discretion of the bridges, if any, to be used. Section 2, subdivision first, and Section 2, subdivision Second, have been amended accordingly, a new subdivision, to be known as the Ninth, has been inserted in the said section, and the remaining subdivisions of the section renumbered.

While the percentages fixed by the contract have been agreed to by the Company, it now desires the minimums for the second term of five years and the remaining term of the original contract reduced so as not to place too onerous a burden on it, should its receipts decrease, and, in addition, it desired to have the subdivision relating to this matter amended so that it be definitely stated that no percentages are to be paid upon the rentals received from the building owned by it at 26 Beaver street. I am willing to recommend the insertion of a provision excluding the rentals from the receipts of the Company upon which it is to pay percentages, as a proper exception in this case, and also that the minimum for the second term of five years be reduced from \$7,000 a year to \$6,000 a year, and, during the remaining term, from \$10,000 a year to \$7,500 a year, providing certain other conditions in the franchise, hereinafter referred to, remain unchanged.

As to the requested omission of the condition requiring the reversion to the City of the property of the Company located in the public streets, without cost, at the termination of the contract, I would state that the Board has passed on similar requests in several previous applications, and denied them all. The result has been that every franchise granted by the Board contains such a provision, and I can recommend no departure from the usual form in this case, especially as the value of such property would be very small upon its removal from the streets, which the Company agrees that the Board may order.

The Company has requested the amendment of the Eighth subdivision of Section 2, in such a manner as would recognize its use of the elevated railroad structures and allow it to continue the same. This request has been discussed above, and for the reasons stated, I am unwilling to recommend any changes.

Finally the Company has requested the insertion of what Mr. O'Brien terms a saving clause, stating explicitly that the agreement is made without prejudice to any rights which the Company may have heretofore acquired, if any, to carry on a telephone, telegraph or ticker business. The Company in its application to the Board for a franchise stated that the same was made

"without waiving its legal rights and without admitting any legal obligation on its part to require the consent of The City of New York for the use of the streets."

It may be noted that the Company was incorporated under the Telegraph Act of 1848; that on January 12, 1912, just before submitting its application to the Board, it filed a certificate of acceptance of the Post Roads Act of Congress with the Postmaster General, and that it is engaged at the present time in interstate operation and claims, therefore, to be under the jurisdiction of the Interstate Commerce Commission. Under the circumstances, Mr. O'Brien asserts that the Company has obtained certain rights to operate a telephone, telegraph and ticker business, not at all dependent upon the consent of The City of New York, and wishes to reserve those rights to the Company, if any such exist. However, he deems it more advisable at the present time to submit to the jurisdiction of the City, reserving to the future such claim as the Company may have, to be enforced in a court of law. His position is such that he does not believe that the Company should accept any grant without some reservation to it of this right, and I therefore agreed to recommend, subject to the approval of the Corporation Counsel, the insertion of an additional section, to be known as Section 3, and to read as follows:

"It is understood that this contract is made without prejudice to any rights which the Company may have heretofore acquired, if any, to operate a telephone, telegraph or ticker business. However, the Company shall not exercise any right or privilege other than that herein authorized and recognized and in accordance with the terms of this contract, except after final judicial determination in an action to which the City is made a party."

The Corporation Counsel, in an opinion under date of January 22, states that the Board may impose such terms and conditions as are, in its judgment and discretion, proper and necessary to fully secure the interests of the City and that he does not believe

"such interest will be at all injured or impaired by the insertion of a clause such as is here proposed and set out in your communication."

The above clause is the one approved by him, amended in accordance with the suggestion made in the opinion.

As a supplement to this clause, the Company desires the amendment of Section 5 (formerly Section 4) by the addition thereto of a limitation as to the time during which it shall be required to abide by the contract, being until in an action brought under Section 3 it should prove successful in the courts. As this amendment merely supplements that contained in Section 3, as inserted, I have agreed to recommend the same in proper form, subject to the approval of the Corporation Counsel.

In addition to the above, the Eighth subdivision of Section 2, permitting the Company to build conduits underground in those boroughs where it would find it necessary because of the absence of a general system of underground conduits, has been amended to authorize it to construct only

"such subways as are necessary for the accommodation of its cables and wires, and no more."

—and, after consultation with Engineer Wynkoop, the said subdivision has been further amended so that if the City should acquire a system of subways, it will not be bound to furnish space in the same to the Company unless the same is "available."

The amendments above recommended are in consideration of the acceptance by the Company of the clause relating to the reversion of its property to the City at the end of the term, and the retention of the provision regarding the removal of overhead wires. These two provisions are firmly established by precedent and should be retained.

The form of contract, as amended, has been submitted to the Corporation Counsel for approval as to form, and transmitted to counsel for the Company. If the same is approved by the Corporation Counsel, it is recommended that the Board adopt a resolution fixing Thursday, March 27, 1913, as the date for a final public hearing thereon, after publication of notice of the said hearing in newspapers to be designated by the Mayor.

A form of resolution for this purpose is herewith submitted. Respectfully,
HARRY P. NICHOLS, Engineer, Chief of Bureau.
February 13, 1913.

P. S.—The contract has been returned from the Law Department approved as to form.

The following was offered:

Whereas, The Stock Quotation Telegraph Company has by a petition verified February 6, 1912, applied to this Board for its consent and approval to the continuance of its business, and the continued use and occupation of the streets of The City of New York, for the maintenance and operation of its system of wires and cables connecting its offices with each other, and with other offices and subscribers in the said City so as to allow of the collection and exchange by means of telegraph instruments, commonly known as "Morse instruments" of general news, financial news and other matters of general interest, and the distribution of the same over the said wires and cables to printing telegraph instruments, commonly known as "stock tickers," and

Whereas, Sections 72, 73 and 74 of the Greater New York Charter, as amended by Chapters 629 and 630 of the Laws of 1905, provide for the manner and procedure of making such grants; and

Whereas, In pursuance of such laws, this Board adopted a resolution on March 28, 1912, fixing the date for the public hearing thereon as April 25, 1912, at which citizens were entitled to appear and be heard, and publication was had for at least two (2) days in the "Herald" and the "New York Press," newspapers designated by the Mayor, and in the CITY RECORD for ten (10) days immediately prior to the date of hearing, and the public hearing was had on such date; and

Whereas, This Board has made inquiry as to the money value of the franchise or right applied for, and proposed to be granted to The Stock Quotation Telegraph Company, and the adequacy of the compensation to be paid therefor; now, therefore, it is

Resolved, That the following form of the resolution for the grant of the franchise or right applied for by The Stock Quotation Telegraph Company containing the form of proposed contract for the grant of such franchise or right be hereby introduced and entered in the minutes of this Board, as follows, to wit:

Resolved, That the Board of Estimate and Apportionment hereby grants to The Stock Quotation Telegraph Company the franchise or right fully set out and described in the following form of proposed contract for the grant thereof, embodying all of the terms and conditions, including the provisions as to rates and charges upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

Proposed Form of Contract.

This contract, made this _____ day of _____, 1913, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and The Stock Quotation Telegraph Company (hereinafter called the Company), party of the second part, witnesseth:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1—The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to lay, construct, maintain and operate suitable wires or other electrical conductors under the streets and avenues within the Borough of Manhattan and the portion of the Borough of The Bronx lying west of the Bronx River, and to lay, construct, maintain and operate suitable wires or other electrical conductors, and the necessary conduits for the same, under the streets and avenues within the Borough of Brooklyn and the Borough of Queens, for the purpose of electrically connecting its offices with each other and with other offices and with subscribers, so as to allow of the collection and exchange by means of telegraph instruments, commonly known as "Morse instruments," of general news, financial news, and other matters of general interest, and the distribution of the same over the said wires and cables to printing telegraph instruments, commonly known as stock tickers, and for no other purpose whatsoever.

Section 2—The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The said right and privilege to lay, construct, maintain and operate wires or other electrical conductors in conduits, and on bridges, for the purpose aforesaid, shall be held and enjoyed by the Company for the term of fifteen (15) years from January 1, 1913, with the privilege of renewal of said contract for a further period of ten (10) years, upon a fair revaluation of said right and privilege.

If the Company shall determine to exercise its privilege of renewal, it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two (2) years and not later than one (1) year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach such agreement on or before the day one (1) year after the expiration of the original term of this contract, then the annual rate of compensation for such succeeding ten (10) years shall be reasonable, and either the City (by the Board) or the Company shall be bound upon request of the other to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, but in no case shall the annual rate so fixed be less than the sum required to be paid for the last year prior to the termination of the original term of this contract, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six (6) months prior to the expiration of this original contract, and their report shall be filed with the Board within three (3) months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of this original contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Second—The Company shall pay to the City for the privilege hereby granted, the following sums of money:

1. The sum of ten thousand dollars (\$10,000) in cash within thirty (30) days after the date upon which this contract is signed by the Mayor.

2. The further sum of five thousand dollars (\$5,000) in cash for use and occupation of the streets of the City since October 4, 1911, to be paid within thirty (30) days after the signing of this contract by the Mayor.
3. During the first term of five (5) years an annual sum which shall in no case be less than forty-five hundred dollars (\$4,500) and which shall be equal to three (3) per cent. of its gross annual receipts within the City, exclusive of rentals from its building or buildings, if such percentage shall exceed the sum of forty-five hundred dollars (\$4,500).
4. During the second term of five (5) years an annual sum which shall in no case be less than six thousand dollars (\$6,000), and which shall be equal to four (4) per cent. of its gross annual receipts within the City, exclusive of said rentals, if such percentage shall exceed the sum of six thousand dollars (\$6,000).
5. During the remaining term of this original contract an annual sum which shall in no case be less than seventy-five hundred dollars (\$7,500) and which shall be equal to five (5) per cent. of its gross annual receipts within the City, exclusive of said rentals, if such percentage shall exceed the sum of seventy-five hundred dollars (\$7,500).
6. Such further sum or sums as may be imposed by the Bridge Commissioner for the use of such bridge or bridges under his jurisdiction as he may permit.

The annual charges shall commence from the date on which this contract is signed by the Mayor.

All annual charges as above shall be paid into the treasury of the City on November 1 of each year and shall be for the amount due to September 30 next preceding. Provided that the moneys due when this contract is signed by the Mayor shall be paid into the treasury of the City within thirty (30) days immediately following such date, and provided further that the first annual payment thereafter shall be only for that proportion of the first annual charge as the time between the date upon which this contract is signed by the Mayor and September 30 following shall bear to the whole of one year.

Whenever the percentage required to be paid shall exceed the minimum amount as above, then such sum over and above such minimum shall be paid on or before November 1 in each year for the year ending September 30 next preceding.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Third—The annual charges or payments shall continue throughout the whole term of this contract (whether original or renewal), notwithstanding any clause in any statute or in the charter of any other company providing for payment for similar rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted (whether original or renewal), or of any part thereof, shall be valid or effectual for any purpose, unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof, or otherwise, exemption from liability to perform each and all of the conditions of this contract.

Fourth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall the title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in any wise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Fifth—Upon the termination of this original contract, or, if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any cause, or upon the dissolution of the Company before such termination, the wires and equipment of the Company constructed pursuant to this contract within the streets and avenues shall become the property of the City without cost and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this contract as above, the Board shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of its wires and other equipment constructed pursuant to this contract and the said streets and avenues shall be restored to their original condition at the sole cost and expense of the Company.

Sixth—The Company shall construct, maintain and operate its electric system subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City and in strict compliance with all laws or ordinances or departmental rules and regulations now in force, or which may be adopted affecting companies operating electrical conductors in the City.

No construction or repair of said electrical system shall be commenced until written permits have been obtained from the proper City officials. In any permit so issued, such officials may impose such conditions, as a condition of the granting of the same, as are necessary for the purpose of protecting any structures in the streets and avenues and the proper restoration of the surface of such streets and avenues over which such officials have jurisdiction, and the Company shall comply with such conditions.

Upon completion of any work of construction, the Company shall furnish to the President of the Borough a plan of such character as he may direct, showing accurately and distinctly the location, size and type of construction and complete dimensions of the structures erected, installed or constructed under this contract, and the location and dimensions of all substructures encountered during the progress of the work; the depth below the street surface of the new structures and of the substructures encountered must be shown, also their location with reference to the nearest curb line and the nearest curb line intersection.

The electrical and other equipment to be installed by the Company, whether the same be under streets and avenues, in any Department of the City or in private property, shall be constructed and maintained subject to the approval and under the supervision and control of the Commissioner of Water Supply, Gas and Electricity.

Seventh—The plant, conduits, wires, conductors, connections, instruments and all appurtenances thereto, shall be constructed, maintained and operated in the latest approved manner and with the most modern and improved appliances, and it is hereby agreed that the Board may require the Company to improve or add to its plant, conduits, wires, conductors, connections, instruments and appurtenances, from time to time, as such conditions or improvements are necessary in the opinion of the Board. Upon failure on the part of the Company to comply with the direction of the Board within a reasonable time, the rights hereby granted shall cease and determine.

Eighth—All cables and wires of the Company laid pursuant to this contract shall be placed in ducts, conduits or subways (referred to in this paragraph as subways). In the Borough of Manhattan and that portion of the Borough of The Bronx west of the Bronx River, such subways shall be leased from the company or companies having control thereof under the provisions of law, or from the City, should it succeed to the rights of such company or companies. In the other territory in which the Company is authorized to operate by virtue of this contract, it may construct such subways as are necessary for the accommodation of its cables and wires and no more. If the City shall construct or acquire subways for electrical conductors of the character or tension of those used by the Company or similar companies in any or all of the Boroughs, the Company hereby agrees to lay its wires and conductors in such subways and the City agrees to lease to the Company such space as may be necessary and available for the operation of the system hereby authorized. No cables or wires shall, in the future, be strung above the surface of the streets and avenues by the Company, and those at present in existence shall be removed and placed underground when and where required by the Board or the Commissioner of Water Supply, Gas and Electricity.

Ninth—The use of any bridge under the jurisdiction of the Department of Bridges shall be at the discretion of the Bridge Commissioner and in accordance with such terms and conditions and upon such reasonable charges as he may prescribe.

Tenth—It is a condition of this contract that the Company shall bear the entire expense of all work undertaken by reason of this grant. Any alteration to the sewerage or drainage system, or to any other subsurface or to any surface structures in the

streets required on account of the construction or operation of the underground conduits herein authorized to be placed in the streets, shall be made at the sole cost of the Company and in such manner as the proper City officials may prescribe.

Eleventh—It is agreed that the right hereby granted to lay and maintain conduits shall not be in preference or in hindrance to public work of the City, and, should the said conduits in any way interfere with the construction of public work in the streets and avenues, whether the same is done by the City directly or by a contractor for the City, the Company shall, at its own expense, protect or move its conduits and their appurtenances in the manner directed by the City officials having jurisdiction over such public work.

Twelfth—Should the grades or lines of the streets and avenues in which the Company is hereby authorized to operate be changed at any time during the term of this contract, or any renewal thereof, the Company shall, at its own expense, change its conduits and appurtenances to conform with such new grades and lines, and during the construction of any public improvement upon said streets or avenues the Company shall take care of and protect its conduits and appurtenances at its own expense, all to be done subject to the direction of the City official having jurisdiction over the construction of such change.

Thirteenth—The Company shall, upon request from any individual or corporation occupying or owning premises in the territory in which the Company is authorized to operate, by this contract, not in arrears to it for service already rendered, extend its wires to such premises and furnish news or other service to such individual or corporation, provided that such premises are not more than one-half mile from any other premises in which the Company has its apparatus installed at the time such request is made.

Fourteenth—The Company shall file with the Board on the first day of November in each year a map or plan upon which shall be plainly and separately indicated the number of wires which were in use by the Company on September 30 preceding, and the streets in which the same are located, and also those which were put in use during the year preceding that date. It shall also file with the Department of Water Supply, Gas and Electricity, on or before the 10th day of each month, a map or plan of the locations in which wires have been placed by it during the preceding month.

Fifteenth—The rates to be charged by the Company shall not be in excess of the following, and it is agreed that the same may be altered or changed by the Board as hereinafter provided:

(a) For ordinary news service, including the rental of the printing telegraph or ticker, the sum of fifteen dollars (\$15) a month, or one hundred and eighty dollars (\$180) a year.

(b) For general news service, including the rental of the printing telegraph or ticker, the sum of twenty dollars (\$20) a month, or two hundred and forty dollars (\$240) a year.

(c) For financial news service, including the rental of the printing telegraph or ticker, the sum of forty dollars (\$40) a month, or four hundred and eighty dollars (\$480) a year.

(d) For any other service furnished or to be furnished by the Company the rates charged shall be reasonable and fair and subject to the approval of the Board.

The Company agrees upon request of any Board, Department or Bureau of the City government, to furnish service to any and all buildings under the control of such Board, Department or Bureau, at one-half the rates above authorized to be charged by it for whatever class or classes of service may be required.

Sixteenth—During the term of this contract, or any renewal thereof, the Board shall have the power, by resolution, to regulate and fix the maximum and minimum rates to be charged by the Company in the City, provided such rates shall be reasonable and fair.

Seventeenth—The Company shall not require nor receive from its subscribers any deposit or advance payment in excess of what is reasonably necessary to insure payment of current bills, and on such amounts so paid the Company shall pay interest at the statutory rate whenever such money is held for more than one month. Unpaid bills, unless due from its owner, shall never be charged against property, and no person not himself in arrears shall be denied service because any previous occupant of the same premises is in arrears to the Company for service.

Eighteenth—The wires of the Company shall be employed for no other purposes than those explicitly set forth herein and the Company binds itself not to lay, use, lease or operate wires for illegal purposes or to illegal places.

Nineteenth—The Company shall assume all liability to persons or property by reason of the construction or operation of the system authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or defaults of the Company.

Twentieth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions in the territory covered by this contract, or any part thereof.

Twenty-first—If the Company shall fail to give efficient public service at the rates herein fixed or fail to maintain its structures and equipment as herein provided in good condition throughout the whole term of this contract, the Board may give notice to the Company, specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and, upon failure of the Company to remedy such default within a reasonable time, the Company shall, for each day thereafter during which the default or defect remains, pay to the City the sum of one hundred dollars (\$100) as fixed or liquidated damages, or the Board, in case such structures or equipment which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board, as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided for.

Twenty-second—If for a period of twelve consecutive months, the system of the Company shall not be operated, or if the same shall not be operated for a period of eighteen months out of any consecutive twenty-four months, the Board may declare the right and franchise and this contract terminated without further proceedings at law or in equity.

Twenty-third—The Company shall at all times keep accurate books of account and shall, on or before November 1 in each year, make a verified report to the Comptroller of the City of the business done by the Company for the year ending September 30 next preceding. Such report shall contain a statement of the gross receipts received from the operation of the system hereby authorized from all subscribers served by the Company in the City, together with such other information and in such form and detail as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report and may examine its officers under oath.

Twenty-fourth—The Company shall submit to the Board a report not later than November 1 of each year for the year ending September 30 next preceding, and at any other time, upon request of the Board, which shall state:

1. The amount of stock issued, for cash, for property.
2. The amount paid in as by last report.
3. The total amount of capital stock paid in.
4. The funded debt by last report.
5. The total amount of funded debt.
6. The floating debt as by last report.
7. The total amount of floating debt.
8. The total amount of funded and floating debt.
9. The average rate per annum of interest on funded debt.
10. Statement of dividends paid during the year.
11. The total amount expended for same.
12. The names of the directors and officers elected at the last meeting of the corporation held for such purpose.
13. Location, value and amount paid for real estate owned by the Company as by last report.
14. Location, value and amount paid for real estate now owned by the Company.
15. Number and location of premises served by the Company in the City.
16. Total receipts of the Company for each class of business in the City.
17. Amounts paid by the Company for damage to persons or property on account of construction and operation in the City.

18. Total expenses for operation, including salaries, in the City. —and such other information in regard to the business of the Company as may be required by the Board.

Twenty-fifth—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of the City the sum of twelve thousand dollars (\$12,000), either in money or securities, to be approved by him, which fund shall be security for the performance by the Company of all of the terms and conditions of this contract, especially those which relate to the payment of the annual charges for the privileges hereby granted, in default of which payment of the annual charges, the City shall collect the same, with interest, from the said fund after ten (10) days' notice to the Company.

In case of failure of the Company to comply with the terms of this contract relating to the filing of annual statements, furnishing of service to applicants as herein provided or its neglect or refusal to comply with any demand or direction of the Board or other municipal officials, made pursuant to the terms of the contract, or under the authority of any laws, ordinances or departmental regulations now or hereafter in force, in such case and in any of these events, the Company, except as herein otherwise provided, shall pay to the City a penalty of fifty dollars (\$50) for each violation.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Board, on complaint made, shall give notice to the Company, directing its President, or other officer, to appear before the Board on a certain day not less than ten (10) days after the date of such notice, to show cause why the Company should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or after a hearing appears, in the judgment of the Board, to be in fault, said Board shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to the Board to be just, and without legal procedure direct the Comptroller to withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund, the Company shall, upon ten (10) days' notice in writing, pay to the City a sum sufficient to restore said security fund to the original amount of twelve thousand dollars (\$12,000), and in default thereof this contract shall be cancelled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Twenty-sixth—In case of any violation or breach or failure to comply with any of the provisions herein contained, this contract may be forfeited by a suit brought by the Corporation Counsel, on notice of ten (10) days to the Company, or at the option of the Board, by resolution of said Board, which said resolution may contain a provision to the effect that the portion of its system constructed and in use by virtue of this contract and located in the public streets and avenues shall thereupon become the property of the City without proceedings at law or in equity. Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Twenty-seventh—If at any time the powers of the Board or any other of the authorities herein mentioned, or intended to be mentioned, shall be transferred by law to any other board, authority, officer or officers, then and in such case such other board, authority, officer or officers shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Twenty-eighth—The words "notice" or "direction" wherever used in this contract shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Twenty-ninth—The words "streets and avenues" or "streets or avenues," wherever used in this contract, shall be deemed to mean streets, avenues, highways, parkways, driveways, concourses, boulevards, bridges, viaducts, tunnels, public places or any other property to which the City has title or over which the public has an easement, included within the limits of the territory in which the Company is hereby authorized to operate.

Thirtieth—The grant of this privilege is subject to whatever right, title or interest the owners of abutting property or others may have in and to the streets and avenues of the territory in which the Company is authorized to operate by this contract.

Section 3. It is understood that this contract is made without prejudice to any rights which the Company may have heretofore acquired, if any, to operate a telephone, telegraph or ticker business. However, the Company shall not exercise any right or privilege other than that herein authorized and recognized, and in accordance with the terms of this contract, except after final judicial determination in an action to which the City is made a party.

Section 4. Nothing in this contract shall be construed as in any way limiting the present or future jurisdiction of the Public Service Commission under the Laws of the State of New York.

Section 5. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms, conditions and requirements in this contract fixed and contained, unless and until, in an action brought or conducted as hereinbefore provided, the courts shall finally determine that the Company had heretofore acquired the right to carry on its business as now conducted without the necessity of obtaining this franchise or consent from the City. The Company further promises, covenants and agrees that in the event of a decision in its favor in any action brought, as provided in Section 3, it will not claim or attempt to claim or demand any damage, penalty or recompense from The City of New York for any expense, expenditures, suits or other disadvantage incurred by it because of the entering into this contract with The City of New York, and hereby expressly waives and surrenders to the City any such claim or demand.

In witness whereof, the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed and the corporate seal of said City to be hereunto affixed; and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be hereunto signed and its corporate seal to be hereunto affixed, the day and year first above written.

THE CITY OF NEW YORK,

By Mayor.

Attest: City Clerk.

[SEAL.]

THE STOCK QUOTATION TELEGRAPH COMPANY,

By President.

Attest: Secretary.

(Here add acknowledgments.)

Resolved, That the results of the inquiry made by this Board as to the money value of the franchise or right proposed to be granted, and the adequacy of the compensation proposed to be paid therefor, and of the terms and conditions, including the provisions as to rates and charges, are as hereinbefore specified and fully set forth in and by the foregoing form of proposed contract for the grant of such franchise or right.

Resolved, That these preambles and resolutions for the grant of the franchise or right applied for by The Stock Quotation Telegraph Company and the said form of proposed contract for the grant of such franchise or right, containing said results of such inquiry, after the same shall be entered in the minutes of this Board shall be published for at least twenty (20) days immediately prior to Thursday, March 27, 1913, in the CITY RECORD, and at least twice during the ten (10) days immediately prior to Thursday, March 27, 1913, in two (2) daily newspapers to be designated by the Mayor therefor, and published in The City of New York at the expense of The Stock Quotation Telegraph Company, together with the following notice, to wit:

Notice is hereby given that the Board of Estimate and Apportionment before authorizing any contract for the grant of the franchise or right applied for by The Stock Quotation Telegraph Company, and fully set forth and described in the foregoing form of proposed contract for the grant of such franchise or right and before adopting any resolution authorizing any such contract, will, at a meeting of said

Board to be held in the City Hall, Borough of Manhattan, City of New York, on Thursday, March 27, 1913, at 10.30 o'clock a. m., hold a public hearing thereon, at which citizens shall be entitled to appear and be heard.

Which was adopted by the following vote:

Affirmative—The Mayor, the Deputy and Acting Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

FINANCIAL MATTERS.

Department of Docks and Ferries—Plans for Terminal Facilities in the Borough of Queens (Cal. No. 1).

The Chair announced a public hearing on the application of the Commissioner of Docks for authority to adopt plans for terminal facilities and equipment thereof, in the Borough of Queens.

(On January 23, 1913, the Board adopted a resolution fixing a hearing for this date on the amended plan for said terminal facilities, submitted by the Commissioner of Docks in accordance with the recommendation of the Terminal Committee of the Board.)

(The communication from the Commissioner of Docks and the report of the Terminal Committee, as above, are printed in the Minutes of the meeting of January 23, 1913, on pages 967-968 of the CITY RECORD of February 4, 1913.)

The Secretary presented the following:

City of New York, Board of Estimate and Apportionment, Office of the Secretary, 277 Broadway, February 12, 1913.

To the Honorable the Board of Estimate and Apportionment:

Gentlemen—I hereby certify that the following is a correct copy of notice of hearing published in the CITY RECORD on January 27, 28, 29, 30, 31 and February 1, 1913. Yours very truly, JOSEPH HAAG, Secretary.

State of New York, City and County of New York, ss.:

William Viertel, being duly sworn, says that he is Bookkeeper in charge of advertising in the office of the City Record; that the advertisement hereto annexed has been regularly published in the CITY RECORD, the official journal of the City of New York, six (6) days consecutively, commencing on the 27th day of January, 1913. WILLIAM VIERTEL.

Sworn to before me, this 1st day of February, 1913.

THOMAS B. FITZPATRICK, Commissioner of Deeds New York City.

Public notice is hereby given that the Board of Estimate and Apportionment, in pursuance of a resolution duly adopted by said Board on the 23d day of January, 1913, in accordance with the provisions of chapter 776 of the Laws of 1911, known as the New York City Freight Terminals Act, will hold a public hearing in Room 16, City Hall, in the Borough of Manhattan, City of New York, at 10.30 o'clock in the forenoon, on Thursday, the 13th day of February, 1913, relative to the application of the Commissioner of Docks to the Board of Estimate and Apportionment for authority to adopt plans for terminal facilities and equipment thereof and therefor, to be located upon the lands and lands under water, situate, lying and being in the Borough of Queens, City of New York, and bounded and described as follows:

Bounded by Hunters Point avenue, Van Dam street, Nott avenue, School street, Thompson avenue, Meadow street, and the north shore freight connection of the Long Island Railroad, and includes water and car float connections on Dutch Kills Creek at its head near Hunters Point avenue.

Notice is further given that at such meeting the parties in interest will be heard by the Board of Estimate and Apportionment, prior to the adoption of any resolution by said Board in the premises. JOSEPH HAAG, Secretary.

Dated New York, January 24, 1913.

Mr. F. L. Croker appeared and requested that action be deferred.

Hon. Calvin Tomkins, Commissioner of Docks, appeared and urged immediate action.

No one else desiring to be heard the Chair declared the hearing closed.

The following resolution was offered:

Whereas, The Commissioner of Docks, pursuant to the provisions of chapter 776 of the Laws of 1911, has prepared and submitted to the Board of Estimate and Apportionment proposed plans for terminal facilities and equipment thereof and therefor, to be located upon the following described lands and lands under water situate, lying and being in the Borough of Queens, City of New York, and bounded and described as follows: Bounded by Hunters Point avenue, Van Dam street, Nott avenue, School street, Thompson avenue, Meadow street and the north shore freight connection of the Long Island Railroad, and includes water and car float connections on Dutch Kills Creek at its head, near Hunters Point avenue; and

The Secretary presented the following:

Office of the County Judge and Surrogate of the County of Richmond, January 22, 1913.

JOSEPH HAAG, Esq., Secretary Board of Estimate and Apportionment:

Dear Sir—In order to meet outstanding liabilities incurred against several of the accounts of this department for the year 1912, in which the original appropriation was insufficient, it will be necessary to have revenue bonds issued and a transfer made of an unexpended balance in Account No. 2458.

I respectfully request that the necessary resolutions be prepared in accordance with the following memorandum:

TRANSFER FROM	
Account No. 2458, Supplies and Materials.....	\$8 57
TO	
Account No. 2459, Telephones.....	8 57
REVENUE BONDS TO BE ISSUED TO	
Account No. 2459, Telephones.....	7 28
Account No. 2460, Contingencies.....	19 20
Very respectfully, J. HARRY TIERNAN, County Judge and Surrogate.	

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, February 3, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On January 22, 1913, the County Judge and Surrogate of Richmond County requested a transfer of funds within the 1912 appropriation to his Court and \$26.48 in special revenue bonds to cover outstanding liabilities against certain 1912 accounts. In connection therewith I report as follows:

It is proposed to transfer \$8.57 from No. 2458, Supplies and Materials, to No. 2459, Telephone Service. In No. 2459 there is a cash balance of \$6.75 and against the account there is a liability of \$22.60 for November and December telephone service. Also there are liabilities against No. 2460 contingencies for carfares and washing and ironing towels aggregating \$19.20. The account is exhausted. To meet the deficits in excess of the transfer revenue bonds are asked for. The request for an issue of revenue bonds should be made of the Board of Aldermen. In No. 2458 the unencumbered balance is sufficient to cover the transfer.

I recommend the adoption of the attached resolution granting the request to the extent of the transfer. Respectfully,

WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 237 of the Greater New York Charter, hereby approves transfer of funds appropriated to the County Court and Surrogate Court of Richmond County for the year 1912, as follows:

COUNTY COURT AND SURROGATE COURT, RICHMOND COUNTY.

FROM	
2458 Supplies and Materials	\$8 57
TO	
2459 Telephone Service	\$8 57

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary was directed to transmit a copy of the Comptroller's report to the County Judge and Surrogate of Richmond County.

Department of Water Supply, Gas and Electricity, Approval of Form of Contract, Etc. (Cal. No. 14).

The Secretary presented the following:

Department of Water Supply, Gas and Electricity, Bureau of Supplies, Room 1904, 13-21 Park Row, City of New York, January 27, 1913.

Hon. WILLIAM A. PRENDERGAST, Comptroller, City of New York:

Dear Sir—I transmit herewith, for report by you to the Board of Estimate and Apportionment, in accordance with resolution adopted by said Board on July 17, 1911,

as amended August 31, 1911, a form of contract, specifications, etc., for furnishing and delivering cast iron pipe, Boroughs of Manhattan and The Bronx; the estimated cost of which is \$7,250.

I would ask that this be reported by you to the Board of Estimate and Apportionment as soon as possible. Yours truly,
J. W. F. BENNETT, Deputy and Acting Commissioner.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, February 4, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On January 27, 1913, the Acting Commissioner of Water Supply, Gas and Electricity requested approval of the form of contract, plans, specifications and estimate of cost in the sum of \$7,250 for furnishing and delivering cast iron pipe Boroughs of Manhattan and The Bronx.

The cost is to be paid from a corporate stock fund of \$1,768,243 approved by the Board of Estimate and Apportionment on January 31, 1908, and by the Board of Aldermen on March 18, 1908; and in the additional sum of \$1,125,000 by the Board of Estimate and Apportionment on July 2, 1909, as amended on May 27, 1910, and concurred in by the Board of Aldermen on July 13, 1909, and June 7, 1910. The fund is entitled "C. D. W.—13, Water Fund, Boroughs of Manhattan and The Bronx." On February 1, 1913, an unencumbered balance of \$8,913.85 remained in the fund.

The form of contract, drawings and specifications are satisfactory, and the estimate of cost is reasonable.

I recommend the adoption of the attached resolution granting the request. Respectfully,
WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to its resolution of July 11, 1912, hereby approves the form of contract, drawings, specifications and estimate of cost in the sum of seven thousand, two hundred and fifty dollars (\$7,250), for furnishing and delivering cast iron pipe in the Boroughs of Manhattan and The Bronx, under the jurisdiction of the Department of Water Supply, Gas and Electricity, the cost to be paid from the corporate stock fund entitled "C. D. W.—13, Water Fund, Boroughs of Manhattan and The Bronx."

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

Department of Education—Modification of Salary Schedules (Cal. No. 15).

The Secretary presented the following:

Board of Education, Park Avenue and 59th Street, New York, January 28, 1913.

Mr. JOSEPH HAAG, Secretary, Board of Estimate and Apportionment:

Dear Sir—In accordance with a resolution adopted by the Board of Education on November 27, 1912, the undersigned respectfully request modifications in salary schedules for the year 1913, to take effect January 22, 1913, as follows:

3440 Office of the Superintendent of School Supplies:

Strike out (in the schedule transmitted on January 13, 1913)—
Fuel Inspector, 5 at \$1,350 \$6,750 00
Fuel Inspector, 3 at \$1,150 3,450 00

and insert—

Fuel Inspector, 4 at \$1,350 \$5,400 00
Fuel Inspector, 4 at \$1,150 4,600 00
Unassigned balance 200 00

3443 Office of the Supervisor of Lectures:

Strike out—
Clerk \$1,650 00
Stenographer and Typewriter, 2 at \$750 1,500 00

and insert—

Clerk \$1,350 00
Stenographer and Typewriter, 2 at \$900 1,800 00

The above modifications involve no increase in appropriation, and the modifications of schedule 3440 are in addition to the modifications requested in our communications of January 4 and 13, 1913. The modifications of schedule 3440 are required in order to provide for the payment of the salary of a Fuel Inspector at \$1,150 per annum appointed in place of a Fuel Inspector at \$1,350 per annum resigned; and the modifications of schedule 3443 are required to provide for the payment of the salaries of two Stenographers and Typewriters increased from \$750 to \$900 per annum each.

Copies of the schedules, as modified, are enclosed. Respectfully yours,

A. E. PALMER, Secretary, Board of Education; HENRY R. M. COOK, Auditor, Board of Education.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, February 4, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On January 28, 1913, the Board of Education requested modification of the 1913 schedules, entitled "Salaries, Regular Employees, Administration No. 3440, Office of the Superintendent of School Supplies," and "Salaries, Regular Employees, Administration No. 3443, Office of the Supervisor of Lectures." In connection therewith I report as follows:

The modification is to fill a vacancy and to increase two salaries. In No. 3440 a Fuel Inspector at \$1,350 per annum has resigned, and one at \$1,150 has been appointed to fill his place, thereby making an unassigned balance of \$200, which is available for salary increases. In 3443 it is proposed to reduce the rate for a \$1,650 Clerkship, which is vacant, to \$1,350, and to use the \$300 to increase two Stenographers from \$750 to \$900 per annum each.

The following table shows the line item changes in detail:

Code No.	Schedule Line.	Schedule Transfer.		Cash Transfer.	
		Decrease.	Increase.	Decrease.	Increase.
3440	Fuel Inspector, 5 at \$1,350....	\$1,350 00		\$1,350 00

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

President, Borough of Richmond—Approval of Form of Contract, Etc. (Cal. No. 16).

The Secretary presented the following:

The City of New York, Office of the President of the Borough of Richmond, Borough Hall, New Brighton, January 23, 1913.

Board of Estimate and Apportionment, No. 277 Broadway, New York:

Gentlemen—We send herewith for your approval plan, contract and specifications for "furnishing, delivering and erecting two steel tanks and six wooden tanks on existing foundation, together with furnishing and laying the necessary pipes, etc., in connection with the construction and maintenance of an experimental sewage disposal plant at West New Brighton, together with all work incidental thereto; contract No. 3."

The estimated cost of this work is as follows, viz:

2 steel tanks 6 feet by 11 feet by 17 feet, "Imhoff type" \$2,000 00
2 wooden tanks 6 feet by 11 feet by 12 feet, "Hampton type" 1,400 00
4 wooden tanks 6 feet by 6 feet by 20 feet, sedimentation 1,700 00
Valves, connections, etc. 400 00

Total \$5,500 00

These tanks are to be built upon property owned by The City of New York.

Yours very truly, GEORGE CROMWELL, President of the Borough.

City of New York, Department of Finance, Comptroller's Office, February 6, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On January 23, 1913, the President of the Borough of Richmond requested approval of the form of contract, plans, specifications and estimate of cost in the sum of \$5,500 for furnishing, delivering and erecting two steel tanks and six wooden tanks on existing foundation, together with furnishing and laying the necessary pipes, etc., in connection with the construction and maintenance of an experimental sewage disposal plant at West New Brighton.

The cost is to be paid from a corporate stock fund of \$30,000, authorized by the Board of Estimate and Apportionment on July 17, 1911, concurred in by the Board of Aldermen on July 25, 1911, and entitled "C. P. R.—11, Experimental Sewage Disposal Plant at West New Brighton, Construction and Maintenance." On February 5, 1913, an unencumbered balance of \$14,840.14 remained in the fund.

The form of contract, plans and specifications have been amended in minor details by the President of the Borough of Richmond at the suggestion of the Department of Finance, and are now satisfactory. The estimate of cost is reasonable.

I recommend the adoption of the attached resolution granting the request.

Respectfully,
WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to its resolution of July 11, 1912, hereby approves the form of contract, plans, specifications and estimate of cost in the sum of five thousand five hundred dollars (\$5,500), for furnishing, delivering and erecting two steel tanks and six wooden tanks on existing foundation, together with furnishing and laying the necessary pipes, etc., in connection with the construction and maintenance of an experimental sewage disposal plant at West New Brighton, together with all work incidental thereto (Contract No. 3) under the jurisdiction of the President of the Borough of Richmond; the cost to be paid from the corporate stock fund entitled "C. P. R. 11, Experimental Sewage Disposal Plant at West New Brighton, Construction and Maintenance."

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

Fire Department—Approval of Form of Contract, Etc. (Cal. No. 17).

The Secretary presented the following:

Fire Department of The City of New York, Office of the Commissioner, July 17, 1912.

Hon. WILLIAM A. PRENDERGAST, Comptroller of The City of New York:

Sir—I transmit herewith, for the approval of the Board of Estimate and Apportionment, form of contract, with specifications, for furnishing two five-ton gasoline motor trucks for general use; the estimated cost, \$9,000, to be charged against C. F. D.—12 and C. F. D.—13. Respectfully,

JOS. JOHNSON, Fire Commissioner.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, February 4, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On July 17, 1912, the Fire Commissioner requested approval of the form of contract, specifications and an estimate of cost in the sum of \$9,000, for two five-ton gasoline motor trucks for the Fire Department.

It is proposed to divide the cost and charge the expenditure to corporate stock funds, as follows:

\$4,500, for one truck, to "C. F. D. 12, Fire Department, Purchase of New Apparatus, Borough of Brooklyn."
\$4,500, for one truck, to "C. F. D. 13, Fire Department, Purchase of New Apparatus, Borough of Manhattan."

Appropriations of \$228,840 for "C. F. D. 12," and \$132,140 for "C. F. D. 13" were approved by the Board of Estimate and Apportionment on July 17, 1911, and by the Board of Aldermen on July 31, 1911.

On November 15, 1912, the unencumbered balances remaining in the funds were as follows:

"C. F. D. 12".....\$70,007 48
"C. F. D. 13".....80,183 93

As originally submitted, the specifications could be filled by only one make of motor truck now on the market. At the suggestion of the Department of Finance they have since been rewritten to allow competitive bids without losing the benefit of a uniformity of design of wheels, axles and bodies sufficient to allow interchangeability of spare parts with the three and five-ton trucks now in use in the Fire Department.

The form of contract submitted was also defective and a new form of contract has been prepared and substituted.

The estimate of cost should be reduced to \$8,500, as the Fire Department has purchased two similar five-ton trucks at this price under contract dated May 13, 1912.

I recommend the adoption of the attached resolution approving the request, with the amendments noted. Respectfully,

DOUGLAS MATHEWSON, Deputy and Acting Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to its resolution adopted on July 11, 1912, hereby approves the form of contract and specifications, as amended, and an estimate of cost in the sum of eight thousand five hundred dollars (\$8,500) for two five-ton gasoline motor trucks for the Fire Department, the cost to be divided and charged to corporate stock funds as follows:

Four thousand two hundred and fifty dollars (\$4,250) for one truck to "C. F. D. 12, Fire Department, Purchase of New Apparatus, Borough of Brooklyn." Four thousand two hundred and fifty dollars (\$4,250) for one truck to "C. F. D. 13, Fire Department, Purchase of New Apparatus, Borough of Manhattan."

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

Department of Bridges—Approval of Schedule (Cal. No. 18).

(On December 12, 1912, this matter was presented to the Board and laid over, and on December 19, 1912, was withdrawn by the Comptroller).

The Secretary presented the following:

City of New York, Department of Bridges, 13-21 Park row, Manhattan, N. Y., October 4, 1912.

To the Honorable the Board of Estimate and Apportionment of The City of New York:

Gentlemen—On account of the complicated and important work in connection with the construction of the Subway Connection of the Manhattan Terminal of the Brooklyn Bridge, I have appointed, with the approval of the Civil Service Commission, an Advisory Engineer, to supervise this construction work, for which he is to receive compensation not to exceed the sum of \$10,000.

On August 3, 1912, your Board approved of the issue of corporate stock to an amount not exceeding \$500,000, to provide means for reconstructing the Manhattan Terminal of the Brooklyn Bridge as follows:

Subway Connection, including shoring of present structure.....\$390,000 00
Signal System50,000 00
Closing William and North William streets, exclusive of damage.....20,000 00
Contingencies40,000 00

The above fund for contingencies is known on the books of the Department of Finance as "C. D. B.—29D, Brooklyn Bridge, Reconstructing Westerly or Manhattan Terminal, Contingencies."

I beg to request that the following salary schedule be established, chargeable to this fund, "C. D. B.—29D," and reading as follows: Brooklyn Bridge, Reconstructing Westerly or Manhattan Terminal, Contingencies, Corporate Stock Force, Personal Service, Salary, Temporary Employee, Advisory Engineer, \$10,000. Respectfully,

ARTHUR J. O'KEEFFE, Commissioner.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, December 9, 1912.

To the Board of Estimate and Apportionment:

Gentlemen—On October 4, 1912, the Commissioner of Bridges requested approval of a schedule for the corporate stock fund entitled "C. D. B.—29D, Brooklyn Bridge, Reconstructing Westerly or Manhattan Terminal, Contingencies." In connection therewith I report as follows:

The request is to provide for the employment of Henry R. Asserson as an advisory engineer on the construction of the subway connection of the Manhattan Terminal of the Brooklyn Bridge. The Commissioner states that on account of the complicated and important nature of the work it was necessary to appoint an advisory engineer at a compensation not to exceed \$10,000 per annum.

The existing schedules of the Department of Bridges provide for the employment of 50 engineers and assistant engineers at a cost of \$176,050 per annum. This force is divided as follows:

	Engineers and Assistant Engineers.	Cost per Annum.
Administration	4	\$23,500 00
Operation and Maintenance, Supervision.....	11	41,000 00
Operation and Maintenance, Brooklyn Bridge.....	3	9,500 00
Operation and Maintenance, Williamsburg Bridge.....	2	7,100 00
Construction	30	94,950 00
	50	\$176,050 00

Included in this force are one Chief Engineer at \$10,000, one Deputy Chief Engineer at \$7,500, and three Consulting Engineers at \$7,500 per annum each. The position of Deputy Chief Engineer at \$7,500 per annum is vacant, and has not been provided for in the 1913 Budget, as recommended by the Budget Committee to your Board. An Assistant Engineer was recently promoted to \$6,000 per annum to do the work of the former deputy at \$7,500. This gives a total of \$38,500 for the class of service for which it is proposed to employ an additional \$10,000 incumbent.

No sufficient reason has been advanced to show that the reconstructing work calls for an engineering force greater than that now employed, or to justify an increase in the annual cost of the advisory engineering force from \$38,500 to \$48,500. Neither has the position been established in the department pursuant to the provisions of section 56 of the Greater New York Charter.

Mr. Asserson has been employed since August 26, 1912, as an expert, rendering services of an occasional and exceptional character at a compensation of \$500 per month. There is no grade for an advisory engineer at this rate.

The work upon which the Bridge Commissioner desires the services of Mr. Asserson involves a total expenditure of approximately \$500,000. It is the same kind of work done by the Public Service Commission. Engineers in charge of similar work in the Public Service Commission receive salaries ranging from \$1,801 to \$2,401 per year. The division engineer in the Public Service Commission, who has charge of the division which includes the section of Brooklyn Bridge and who has charge of approximately \$30,000,000 worth of work, receives a salary of \$4,000 a year.

In consideration of the aforementioned facts I recommend that the request of the Bridge Commissioner be denied. Respectfully,

DOUGLAS MATHEWSON, Deputy and Acting Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby disapproves of the request of the Commissioner of Bridges as set forth in a communication dated October 4, 1912, for the establishment of corporate stock schedule entitled

"C. D. B.—29D, Brooklyn Bridge, Reconstructing Westerly or Manhattan Terminal, Contingencies, Corporate Stock Force, Personal Service, Salary, Temporary Employee, Advisory Engineer, \$10,000."

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary was directed to transmit a copy of the Comptroller's report to the Commissioner of Bridges.

Bramhall Deane Company—Certification of Claim (Cal. No. 19).

The Secretary presented the following:

City of New York, Department of Finance, Comptroller's Office, February 3, 1913.

To the Honorable the Board of Estimate and Apportionment:

Gentlemen—Under and pursuant to the provisions of section 246 of the Greater New York Charter, I hereby certify that a claim has been presented by the Bramhall, Deane Co., for the sum of \$40.58, which is alleged to be due for certain material and labor furnished the Police Department in repairing a water back and the pipes of a range in the House of Detention on or about November 21, 1908; that the same were furnished in good faith and actually received and used by the Police Department; that no action has been instituted on this claim; that said material and labor appear to have been ordered verbally by one of the officers stationed at the House of Detention; that therefore, this claim is illegal and invalid against The City of New York, but notwithstanding, in my judgment, it is equitable and proper for the City to pay said claim in the sum of \$28.65, the cost price to claimant company for the said material and labor, inasmuch as the City has received a benefit and derived an advantage, which in money value is equal to said sum, and that \$28.65 is the amount which should be paid in full satisfaction of said claim from the fund entitled "R. C. L. 11B, Revenue Bond Fund for Claims—to be reimbursed from General Fund."

Respectfully,

WM. A. PRENDERGAST, Comptroller.

City of New York, Department of Finance, Comptroller's Office, November 7, 1912.

In the Matter of Claim No. 67901 of Bramhall, Deane Co., for the sum of \$40.58, alleged to be due for certain work performed for the Police Department.

Hon. WILLIAM A. PRENDERGAST, Comptroller:

Sir—The Bramhall, Deane Co. has presented a claim for \$40.58, for material and labor furnished the Police Department in repairing a water back and the pipes of a range at the House of Detention, No. 203 Mulberry street, Manhattan, on or about November 21, 1908. Claimant's itemized bill follows:

One water back \$10, less 25 per cent.....	\$7 50
Tub mortar	40
Six washers	60
Shop work, 5½ hours, at 75 cents.....	4 13
Work at job, 1 Mechanic, 25 hours, at 75 cents.....	18 75
Work at job, 1 Helper, 23 hours, at 40 cents.....	9 20
	\$40 58

Edward B. Brook testified in this division on August 16, in part as follows:

"I am the Vice President of claimant company. We never received a regular written order to perform this work. At many different times we received telephone or verbal orders of an emergency character from the Police Department, and my impression is that a Roundsman or somebody from the department either telephoned or came into our store and said the boiler pipes were leaking in the range and asked us to send some one immediately to attend to it. Such verbal orders were usually followed by written orders. I do not know why such a course was not followed in this case, although we have written several letters to the department."

"Concerning our actual outlay, the water back would cost us at least \$5; the tub mortar, 30 cents; the washers 5 cents each; the shop work, four years ago, cost us 60 cents an hour. We paid a mechanic four years ago \$4.50 for eight hours. That is about 57 cents per hour, and we paid a Helper 25 cents an hour."

From the above testimony, the net cost of the labor and material is as follows:

One water back, at \$5.....	5 00
One tub mortar, at 30 cents.....	30
Six washers, at 5 cents.....	30
Shop work, 5½ hours, at 60 cents per hour.....	3 30
At job 25 hours (Mechanic), at 56 cents per hour.....	14 00
At job 23 hours (Helper), at 25 cents.....	5 75
	\$28 65

Mr. Evets, an Examiner of this Division, in a report dated September 17, 1912, states:

"I examined the requisition book on file in the House of Detention, and find that a requisition dated November 18, 1908, was issued to make the necessary repairs called for in the above claim, but no order was issued by the Bureau of Repairs and Supplies of the Police Department, upon the above requisition. Copy of the above requisition is attached to the above claim."

"I interviewed Policeman Tesing, who is detailed in the House of Detention, and he informed me that the work was of an emergency nature, and that probably Lieutenant Thomas F. Adams, in command at the time, had telephoned the order to do the necessary work, and that the job had been done."

Under date of August 1, 1912, the First Deputy Police Commissioner, in a communication to you, states:

"There is no approved requisition order or other record on file in this Department authorizing the performance of this work. The 12th Precinct Station has a duplicate requisition dated November 18, 1908, covering this work, copy of which is attached. The original cannot be located."

"Attached hereto is a receipt dated November 20, 1908, signed by Lieutenant Thomas F. Adams, 12th Precinct, now dead, which appears to cover certain materials and Labor covered by the claim."

Edward M. Griffith, an Inspector of this Department, states in a report dated October 25, 1912, approved and forwarded by Richardson Saunders, Supervising Engineer, that he believes the cost charges of \$28.65 are reasonable and just.

From all the above, it appears that claimants performed the work covered by this claim without formal authorization by the head of the Police Department, or the filing of certificates of necessity, and that therefore, this claim is technically illegal or invalid. Claimants cannot recover in an action at law, nor has any suit been instituted on this claim. Claimants, however, seem to have performed the work in good faith and the City has received a benefit and derived an advantage, which in money value is equal to the sum of \$28.65, claimants' actual outlay, and is justly and equitably obligated to pay the claim herein in that sum.

I respectfully recommend that this claim be disallowed as a legal charge against the City, but that you certify the same, pursuant to the provision of section 246 of the Charter, to the Board of Estimate and Apportionment for payment in the sum of \$28.65, without interest, out of the account entitled "R. C. L. 11B, Revenue Bond Fund, for claims—to be reimbursed from General Fund."

Respectfully,

CLIFFORD G. PEARCE, Deputy Auditor of Accounts.

Approved November 7, 1912: ALBERT E. HADLOCK, Chief, Division of Law and Adjustment.

Approved, December 28, 1912: D. MATHEWSON, Deputy and Acting Comptroller.

The following resolution was offered:

Resolved, That pursuant to section 246 of the Greater New York Charter, the Board of Estimate and Apportionment determines that the City has received a benefit from the Bramhall, Deane Co., and is justly and equitably obligated to pay said company, without interest, the sum of \$28.65 for certain material and labor furnished the Police Department at the House of Detention, in November, 1908; that the said sum shall be paid in full satisfaction of the claim which has been presented on behalf of said Bramhall, Deane Co., for the material and labor above mentioned; that the interests of the City will be best subserved by the payment thereof, and that said sum shall be paid only upon the execution by the said Bramhall, Deane Co., of a full release in favor of the City, in such form as may be approved by the Corporation Counsel, and the Comptroller is hereby authorized to pay said claim in the sum of \$28.65, from the account entitled "R. C. L.—11B, Revenue Bond Fund for claims—to be reimbursed from General Fund."

President, Borough of Richmond—Establishment of Grade of Position of Foreman (Cal. No. 20).

(On January 30, 1913, this matter was referred to the Committee on Salaries and Grades.)

The Secretary presented the following:

The City of New York, Office of the President of the Borough of Richmond, Borough Hall, New Brighton, New York City, December 4, 1912.

Hon. WILLIAM A. PRENDERGAST, Comptroller, 280 Broadway, N. Y.:

Dear Sir—A recent modification of the schedule of the Engineering-Construction Division of this office shows among other changes 6 Foremen at \$1,200 per annum. We are about to request a modification of this same schedule as it appears in the budget as passed by the Board of Estimate and Apportionment for the year 1913, in order to incorporate the changes made in our recent modification, said modification having been made after the adoption of the Budget of 1913.

The budget as adopted for 1913 calls for per diem rate for Foremen of \$3.50 per day for 303 days, but in order that these Foremen may receive their present rate of \$1,200 per annum it will be necessary to make this rate \$4 per diem for the coming year. The question is as to whether the rate of \$4 per diem for these foremen must be separately established, or whether the position can be considered equivalent to the rate of \$1,200 per annum which has been heretofore established, or is it to be construed that these Foremen are in the labor class and that there is, therefore, no necessity to establish the positions under section 56 of the Charter? It is the custom to establish rates at the time of the adoption of the budget by the Board of Aldermen, but as no rate of \$4 per day for Foremen is included in the budget, as made up, this position could not be established in this way.

Please advise me in the matter so that we may proceed toward the modification of the schedule. Yours truly,

GEORGE CROMWELL, President of the Borough.

The City of New York, Office of the President of the Borough of Richmond, Borough Hall, New Brighton, New York City, January 23, 1913.

Honorable Board of Estimate and Apportionment, 280 Broadway, New York City:

Sirs—On December 4, 1912, we wrote asking for the establishing of the grade of Foreman, at \$4 per diem, for six incumbents, Bureau of Engineering Construction. This was done to comply with a change in salary schedules from a salary of \$1,200 per annum, to an equivalent rate per diem, due to the separation of the schedules of salaries and wages in the Budget for 1913.

This matter was not taken care of by the Budget, as these six Foremen had their salaries raised after it was adopted by action of the Board in approving the increasing schedules.

We have not been advised of any action having been taken in this matter, and it is impossible for these Foremen to receive pay at a rate equivalent to that given in the schedules for December, 1912, until the grade of Foreman, at \$4 per diem, has been established for this Bureau. The same grade has been established and is in use in other Bureaus in this Department, having been properly provided for in the Budget for 1913. It is urgently requested that action be taken promptly in this matter.

Very truly yours, GEORGE CROMWELL, President of the Borough.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, December 16, 1912.

To the Board of Estimate and Apportionment:

Gentlemen—On December 4, 1912, the President of the Borough of Richmond, in a communication to the Comptroller, called attention to the fact that the 1912 schedule for the Engineering Bureau in his office includes six Foremen, at \$1,200 per annum, and that the 1913 Budget provides for the same incumbents at a per day rate of \$3.50. In connection therewith we report as follows:

The grade of Foremen at \$4 per day is the equivalent of the annual rate of \$1,200. The rate of \$3.50 was recommended by the Budget Committee and adopted by your Board as the existing rate of \$1,050, on a per diem basis of the Foremen then employed. Subsequent to the approval of the Budget for 1913, however, a modification was adopted providing for an increase in annual rate of \$150 per annum for the Foremen. To pay these incumbents at the increased rate on a per diem basis, establishment is necessary of the grade of Foreman at \$4 per day for six incumbents.

We recommend the adoption of the attached resolution approving the establishment. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; Select Committee.

The following was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the office of the President of the Borough of Richmond of the grade of position, in addition to those heretofore established, as follows:

Title.	Rate Per Diem.	Number of Incumbents.
Foreman	\$4 00	6

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

Department of Education—Fixation of Compensation of Janitors (Cal. No. 21).

(On January 9, 1913, this matter was referred to the Committee on Salaries and Grades.)

The Secretary presented the following:

Resolved, That the Board of Estimate and Apportionment be, and it is hereby respectfully requested to recommend to the Board of Aldermen that the compensation of Janitors of public school buildings be fixed in accordance with the following list, taking effect on the date indicated in each instance:

Temporary Assignments.

Charles E. Smith, assigned to Public School 79, Queens, compensation \$50 per month, taking effect December 6, 1912.

L. J. Radin, assigned to Public Schools 97C and 98A (and playground), Manhattan, compensation \$1,140 per annum, for playground \$1 per day, taking effect December 9, 1912.

John M. Cunliffe, assigned to Public School 96, Brooklyn, compensation \$600 per annum less \$221, taking effect December 16, 1912.

Edward L. Stapleton, assigned to Public School 162, Manhattan, compensation \$60 per month, taking effect December 16, 1912.

Samuel F. Bowen, assigned to Public School 82 (and portables), Queens, compensation \$2,148 per annum less \$221, taking effect December 23, 1912.

Changes in Compensation.

Public School 16, Brooklyn; present compensation, \$1,992; proposed compensation, \$2,148, on account of additional machinery; taking effect December 2, 1912.

Public School 43, The Bronx; present compensation, \$3,768; proposed compensation, \$355 per month (temporarily) (on account of a portion of the new addition being occupied); taking effect December 16, 1912.

Janitors of Public Schools 165, 167 and 171, Brooklyn, \$75 per month, in addition to their regular compensation during the months of December, January, February and March in each year, so that a Night Engineer may be employed in these schools.

A true copy of a resolution adopted by the Board of Education on December 26, 1912.

A. E. PALMER, Secretary, Board of Education.

City of New York, Department of Finance, Comptroller's Office, January 30, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On December 26, 1912, the Board of Education requested the establishment, pursuant to the provisions of section 56 of the Greater New York Charter, of rates of compensation for sundry Janitors of public schools. In connection therewith we report as follows:

For public schools 79, 82 and portables, Queens, 97C and 98A and playground and

162, Manhattan, and 96, Brooklyn, temporary rates the same as or less than those now paid are requested. For public school 16, Brooklyn, an increase from \$1,992 to \$2,148 per annum is requested, on account of additional machinery. For public school 43, The Bronx, an increase from \$3,768 per annum to the temporary rate of \$355 per month (\$4,260 per annum) is requested on account of the opening of a part of the new addition to this building.

For the Janitors of Public Schools 165, 167 and 171, Brooklyn, \$75 each per month in addition to the regular compensation is requested for the months of December, January, February and March each year, in order that a Night Engineer may be employed. The buildings mentioned are equipped with the double duct plenum system of heating and ventilation. This system does not require the use of radiators for heating since the heating is accomplished by means of warm air, which is forced into the rooms and regulated automatically by means of thermostats. It does not require any longer time to heat the building by this system than by the use of direct heating with radiators. The necessity for the additional Engineer is stated to be caused by the use of buckwheat coal which, it has been said by an Engineer-Janitor, cannot be banked at night, so that in order to maintain heat in the boilers at night and obviate the necessity for starting fresh fires every morning, it is necessary to keep a Fireman on duty all night, at an additional expense to the Engineer-Janitor.

Buckwheat coal is now used in a large number of school buildings. It is, at present, the cheapest grade of coal, but if it is necessary to employ and pay for additional labor to handle it and burn an extra amount at night, the saving effected on coal bills will be offset by the increased cost of labor.

The statement that the buckwheat coal cannot be banked at night is not correct. Other users of this coal succeed in maintaining sufficient fire by banking over night to keep the water in the boilers warm and start the fires going in the morning. Should this extra compensation be granted to the Engineer-Janitors of Public Schools 165, 167 and 171, Brooklyn, it should, in justice to others, be granted to the Engineer-Janitors of other public schools using buckwheat coal.

We recommend that the request of the Board of Education for extra compensation for these schools be disapproved.

We also recommend that the remainder of the request be approved by the adoption of the attached resolution. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen, Committee on Salaries and Grades.

The following resolution was offered:

Whereas, By opinions of the Corporation Counsel, as of June 28, 1910, and July, 30, 1910, the Comptroller was advised that the payment of salaries of Janitors in the Department of Education is illegal unless such salary shall have been established under the provisions of section 56 of the Greater New York Charter; and

Whereas, The matter of adjusting the compensation of Janitors and the fixation of their salaries under the provision of section 56 of the Charter is now in the hands of a special committee of the Board of Estimate and Apportionment; therefore, be it

Resolved, That, pursuant to the provisions of section 56 of the Charter, the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen, pending the report of said Committee, the compensation of Janitors in the Department of Education be fixed temporarily, and until further modified, in accordance with the following list:

	Rate of Compensation
Janitor, Public School 79, Queens, per month.....	\$50 00
Janitor, Public School 97 C and 98 A, Manhattan, per annum.....	1,140 00
Janitor, Public School 97 C and 98 A, Playground, Manhattan, per diem..	1 00
Janitor, Public School 96, Brooklyn, per annum, less \$221.....	600 00
Janitor, Public School 162, Manhattan, per month.....	60 00
Janitor, Public School 82 and Portables, Queens, per annum, less \$221....	2,148 00
Janitor, Public School 16, Brooklyn, per annum.....	2,148 00
Janitor, Public School 43, The Bronx, per month.....	355 00

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

Department of Docks and Ferries—Establishment of Grade of Position of Carpenter (Cal. No. 22).

(On January 9, 1913, this matter was referred to the Committee on Salaries and Grades.)

The Secretary presented the following:

City of New York, Department of Docks and Ferries, Pier "A," North River, New York, January 4, 1913.

Hon. WILLIAM J. GAYNOR, Mayor and Chairman of the Board of Estimate and Apportionment:

Sir—I herewith forward, with a recommendation for your favorable consideration, an application from the Carpenters of this Department for an increase in their rate of pay, from \$4.80 per day to \$5 per day.

In connection with this request, I also submit a copy of report thereon made to me by the Deputy and Acting Chief Engineer of this Department.

Yours respectfully, CALVIN TOMKINS, Commissioner of Docks.

Department of Docks and Ferries, December 27, 1912.

Report on the Petition of the Carpenters of the Department, Dated December 21, Requesting an Increase in Pay.

Noting the attached from the Carpenters of the Department, requesting that their pay be fixed at \$5 per day instead of \$4.80 per day, I beg to state that all City Departments in the Borough of Manhattan are paying its Carpenters at the rate of \$5 per day, and also this is the same rate paid to Carpenters employed in the Bureau of Public Buildings and Offices in the Boroughs of Brooklyn and Queens. In the Bureau of Public Buildings and Offices for the Borough of Richmond the pay of Carpenters is \$4 per day, and in the Borough of The Bronx, \$4.50 per day. The prevailing rate of wages paid to Carpenters by private concerns is \$5 per day, paid by G. A. Fuller Construction Company—Thompson Starrett Company and Snare & Triest Company.

In the event of your concluding to pay the prevailing rate of wages it will affect 17 employees, based on working 304 days per year, or a sum total of \$1,030.20 per annum, which will have to be provided for after such pay is established.

These facts are submitted for your consideration in order to guide you to such action as you see fit to take in the premises.

S. W. HOAG, JR., Deputy and Acting Chief Engineer.

Department of Docks and Ferries, Foot West 56th Street, North River, December 21, 1912.

Hon. CALVIN TOMKINS, Commissioner of Docks:

Sir—We respectfully beg leave to renew our application to you to fix our compensation as Carpenters at \$5 per day, instead of \$4.80 per day, as at present.

In this connection would advise that the prevailing rate of wages for carpenters is \$5 and this is the only City Department that has not adopted this rate.

We would also request that in the consideration of this subject we be given an opportunity of calling upon you to present our case properly, knowing that we can convince you as to the justice of our claims.

Your favorable consideration will be appreciated. Yours very respectfully,

ALEX J. STENHOUSE, Chairman, Committee of Carpenters, Department of Docks and Ferries.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, January 18, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On January 4, 1913, the Commissioner of Docks requested an increase in the pay of Carpenter in the Department from \$4.80 to \$5 per day as the prevailing rate. In connection therewith we report as follows:

The rate of \$5 is paid in Manhattan by the other City departments. The same rate is paid by private employers in Manhattan, under an agreement between the building trades employers and the carpenters.

There are 17 Carpenters in the Department of Docks and Ferries. The increase of 20 cents a day, based on an average of 304 working days, will give an increase of \$1,030.20 in per annum cost.

We recommend the adoption of the attached resolutions approving the \$5 rate, and requesting the Commissioner of Docks to provide for the increase to December 31, 1913. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen, Committee on Salaries and Grades.

The following resolution was offered:

Resolved, That, pursuant to the provisions of section 56 of the Greater New York Charter, the Board of Estimate and Apportionment recommends to the Board of Aldermen the establishment in the Department of Docks and Ferries of the grade of position, in addition to those heretofore established, as follows:

Title.	Rate Per Diem.	Number of Incumbents.
Carpenter	\$5 00	Unlimited.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby requests the Commissioner of Docks to provide for the compensation of Carpenters in the Department of Docks and Ferries at the rate of five dollars (\$5) per day.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented:

Department of Education—Establishment of Grade of Position of Chemist (Cal. No. 23).

Report of the Committee on Salaries and Grades recommending that the request of the Board of Education for the establishment of the grade of position of Chemist, at \$1,400 per annum, for 1 incumbent, be referred to the Committee on Standardization of Salaries and Grades.

(On January 30, 1913, the above request was referred to said Committee.)

City Magistrates' Courts, First and Second Divisions—Establishment of Grades of Position of Probation Officer (Cal. No. 24).

Report of the Committee on Salaries and Grades recommending that the requests of the Chief City Magistrates of the First and Second Divisions for the establishment in the City Magistrates' Courts of grades of position for Probation Officer from \$1,200 to \$1,800 per annum inclusive, be referred to the Committee on Standardization of Salaries and Grades.

(On January 23, 1913, the above requests were referred to said Committee.)

Which were referred to the Committee on Standardization of Salaries and Grades, consisting of the Comptroller, the President of the Borough of Manhattan and the President of the Borough of Brooklyn.

The Secretary was directed to transmit copies of reports of the Committee on Salaries and Grades to the Board of Education and to the Chief City Magistrates, First and Second divisions.

Fire Department—Establishment of Grade of Position of Special Investigator (Cal. No. 25).

(On January 23, 1913, this matter was referred to the Committee on Salaries and Grades.)

The Secretary presented the following:

Fire Department of The City of New York, Office of the Commissioner, January 17, 1913.

Hon. WILLIAM J. GAYNOR, Mayor and Chairman, Board of Estimate and Apportionment:

Sir—Pursuant to the provisions of section 56 of the Greater New York Charter, I have the honor to request that the Board of Estimate and Apportionment recommend to the Board of Aldermen the establishment in this department of the position of Special Investigator for three incumbents, one at the rate of \$2,000, and two at the rate of \$1,500 each per annum.

There is urgent and pressing need of these positions in connection with the task of the Bureau of Fire Prevention in ferreting out and bringing to justice the instigators and perpetrators of the numerous fires of incendiary origin which jeopardize the lives of tenement and flat dwellers in various sections of this city and which bear on the surface strong indications of being the crimes of the members of shrewd and well-organized bands of workers in this particular field of iniquity.

The department has had a considerable measure of success in its efforts to stamp out this detestable crime, forty convictions having been had during the past year; and I am confident that its powers for good in this direction would be markedly enhanced as the result of the additions to its force which the establishment of the three new positions would enable it to make.

Early and favorable action in this matter is therefore earnestly requested.

Respectfully, JOSEPH JOHNSON, Fire Commissioner.

The City of New York, Department of Finance, Comptroller's Office, January 30, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On January 17, 1913, the Fire Commissioner requested the establishment, in accordance with the provisions of section 56 of the Greater New York Charter, of the grade of position of Special Investigator for three incumbents. In connection therewith we report as follows:

It is proposed to establish the grade for one incumbent at \$2,000 and two at \$1,500 each, to be employed in the Bureau of Fire Prevention. In the departmental estimate for 1913 request was made for \$5,000 for secret service and \$3,000 for confidential service. These items were to provide for work similar to that proposed for the requested positions. After due consideration, the Budget Committee disapproved the items and no provision was included in the 1913 Budget.

We recommend, therefore, that the present request be not approved. Respectfully, WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen, Committee on Salaries and Grades.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby disapproves of the request of the Fire Commissioner, as set forth in a communication dated January 17, 1913, for the establishment of the position of Special Investigator at the rate of two thousand dollars (\$2,000) per annum for one incumbent, and at the rate of fifteen hundred dollars (\$1,500) per annum for two incumbents.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary was directed to transmit a copy of said report to the Fire Commissioner.

Court of Special Sessions—Establishment of Grades of Position of Probation Officer (Cal. No. 26).

The Secretary presented:

Report of the Committee on Salaries and Grades recommending that the request of the Chief Clerk, Court of Special Sessions, for the establishment in the Court of Special Sessions of grades of position for Probation Officer, from \$1,200 to \$1,800 per annum, inclusive, be referred to the Committee on Standardization of Salaries and Grades.

(On January 9, 1913, the above request was referred to said committee.)

Which was referred to the Committee on Standardization of Salaries and Grades, consisting of the Comptroller, the President of the Borough of Manhattan and the President of the Borough of Brooklyn.

The Secretary was directed to transmit a copy of the report of the Committee on Salaries and Grades to the Chief Clerk, Court of Special Sessions.

President, Borough of Manhattan—Abolishment of Positions (Cal. No. 27).

(On January 30, 1913, this matter was referred to the Committee on Salaries and Grades.)

The Secretary presented the following:

City of New York, Office of the President of the Borough of Manhattan, City Hall, January 20, 1913.

Mr. JOSEPH HAAG, Secretary, Board of Estimate and Apportionment:

Dear Sir—On November 16, 1909, the Board of Aldermen, acting upon a recommendation of the Board of Estimate and Apportionment, adopted a resolution estab-

lishing the following salary grades and positions under the jurisdiction of the President of the Borough of Manhattan:

	Incumbents.	Per Annum.
Stationary Engineer in Charge of Hall of Records	1	\$2,100 00
Stationary Engineer in Charge of Criminal Court Building...	1	2,000 00
Stationary Engineer in Charge of County Court House	1	2,000 00

These grades at the present time are not in use, as it has been found inadvisable to assign an engineer permanently in charge of any building. They have, however, been used as the basis of several damage suits against the City by engineers who have been assigned from time to time to the buildings mentioned at lower rates of pay than those mentioned in the resolution. The City has already lost two of these suits, and in order that it may be protected from further loss in this way, it is recommended that the grades be abolished. Very truly yours,

E. V. FROTHINGHAM, Acting President, Borough of Manhattan.

City of New York, Department of Finance, Comptroller's Office, January 30, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On January 20, 1913, the President of the Borough of Manhattan requested that the following grades of position in his office be abolished:

Title.	Rate Per Annum.	Number of Incumbents.
Stationary Engineer in charge of Hall of Records.....	\$2,100 00	1
Stationary Engineer in charge of Criminal Court Building....	2,000 00	1
Stationary Engineer in charge of County Court House.....	2,000 00	1

At present the grades are vacant, it having been found inadvisable to assign an Engineer permanently in charge of any building. At different times, however, Engineers, receiving lower rates than the compensation of these grades, have been assigned to the buildings mentioned in the titles, and the existence of the grades has resulted in several damage suits against the City. Therefore, to protect the City against further damage suits, the President proposes that the grades be abolished.

We recommend the adoption of the attached resolution approving the request. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen, Committee on Salaries and Grades.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen the abolishment in the office of the President of the Borough of Manhattan of the following grades of positions:

Title.	Rate Per Annum.	Number of Incumbents.
Stationary Engineer in charge of Hall of Records.....	\$2,100 00	1
Stationary Engineer in charge of Criminal Court Building....	2,000 00	1
Stationary Engineer in charge of County Court House.....	2,000 00	1

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

Department of Education—Establishment of Grade of Position of Automobile Engineman and Mechanic (Cal. No. 28).

(On January 30, 1913, this matter was referred to the Committee on Salaries and Grades.)

The Secretary presented the following:

Resolved, That the Board of Estimate and Apportionment be and it is hereby respectfully requested to recommend to the Board of Aldermen that the position of Automobile Engineman and Mechanic, with salary at the rate of \$1,200 per annum, for one incumbent, be established for the Department of Education, in addition to the grades now existing.

A true copy of resolution adopted by the Board of Education on January 22, 1913.

A. E. PALMER, Secretary, Board of Education.

City of New York, Department of Finance, Comptroller's Office, January 30, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On January 22, 1913, the Board of Education requested the establishment, pursuant to the provisions of section 56 of the Greater New York Charter, of the grade of position of Automobile Engineman and Mechanic, at \$1,200 per annum, for one incumbent. In connection therewith we report as follows:

It is stated that the new grade is requested for the purpose of increasing the salary of Chester M. Archer from \$1,050 to \$1,200 per annum. An increase for the incumbent was requested in the 1913 departmental estimate, but was disapproved in the Budget. For that reason we recommend that the present request be not approved.

Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen, Committee on Salaries and Grades.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby disapproves of the request of the Board of Education, as set forth in a resolution adopted by said Board January 22, 1913, for the establishment of the grade of position of Automobile Engineman and Mechanic, with salary at the rate of twelve hundred dollars (\$1,200) per annum, for one incumbent.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary was directed to transmit a copy of the report of the Committee on Salaries and Grades to the Board of Education.

Establishment of Grade of Position of Steam Roller Engineer, at \$4.75 Per Diem, in All City Departments, Etc. (Cal. No. 29).

The Secretary presented:

Report of the Committee on Salaries and Grades recommending the establishment in City Departments of the grade of position of Steam Roller Engineer, at \$4.75 per diem, for an unlimited number of incumbents, and further recommending that the heads of City Departments employing Steam Roller Engineers be requested to provide for the compensation of such employees at the above rate, either by a transfer of funds or by the issue of special revenue bonds.

(In a communication to the Comptroller, dated November 16, 1912, the Business Representatives of Local Union No. 184, International Union of Steam Engineers, stated that the prevailing rate of wages, viz., \$4.75 per diem, was not paid in City Departments employing Steam Roller Engineers.)

Which was laid over one week—February 20, 1913.

Department of Education—Establishment of Grade of Position of Expert Accountant (Cal. No. 30).

(On January 9, 1913, this matter was referred to the Committee on Salaries and Grades.)

The Secretary presented the following:

Resolved, That the Board of Estimate and Apportionment be and it is hereby respectfully requested to recommend to the Board of Aldermen the establishment of the position or grade of Expert Accountant in the Bureau of Supplies, Department of Education, for one incumbent, with compensation at the rate of \$4,000 per annum.

A true copy of resolution adopted by the Board of Education on December 26, 1912.

A. E. PALMER, Secretary, Board of Education.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, January 15, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On December 26, 1912, the Board of Education requested the establishment, pursuant to the provisions of section 56 of the Greater New York Charter,

of the grade of position of Expert Accountant, at \$4,000 per annum, for one incumbent, in the Bureau of Supplies. In connection therewith we report as follows:

The new grade of Expert Accountant, at \$4,000 per annum, in the Bureau of Supplies, was included in the Budget for 1913, as adopted by the Board of Estimate and Apportionment. It was cut out by the Board of Aldermen, and not restored by the Mayor, although the Budget Committee requested him to veto its elimination.

In view of these facts we recommend that the request be not approved.

Respectfully, WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; Committee on Salaries and Grades.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby disapproves of the request of the Board of Education, as set forth in a resolution adopted by said Board December 26, 1912, for the establishment of the grade of position of Expert Accountant, with compensation at the rate of four thousand dollars (\$4,000) per annum, for one incumbent.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary was directed to transmit a copy of the report of the Committee on Salaries and Grades to the Board of Education.

Department of Parks, Borough of Queens—Compensation of Head Gardeners and Gardeners (Cal. No. 31).

The Secretary presented:

Report of the Committee on Salaries and Grades, referring to the protest of the Homestead Civic Association of Woodhaven, Borough of Queens, against decreases in the 1913 Budget in the compensation for Head Gardeners and Gardeners in the Park Department, Borough of Queens, and alleging discrimination in comparison with the compensation paid in the other Boroughs, and recommending that a copy of this report be sent to said association for its information, to prove that no discrimination exists.

(On January 9, 1913, the above protest was referred to said Committee.)

Which was ordered filed, and the Secretary directed to transmit a copy of the report of the Committee on Salaries and Grades to the said Association.

College of The City of New York—Issues of Corporate Stock (Cal. No. 32).

(On May 9, 1912, and January 23, 1913, this matter was referred to the Corporate Stock Budget Committee.)

The Secretary presented the following:

The College of The City of New York, Office of the Board of Trustees, St. Nicholas Terrace and 139th Street, January 14, 1913.

JOSEPH HAAG, Esq., Secretary, the Board of Estimate and Apportionment, The City of New York:

Dear Sir—There is at present a balance of about \$19,804.17 in the Corporate Stock account (C. C. N.—1) of the College of The City of New York. There are claims of the Architect, George B. Post, in course of settlement, amounting to \$4,467.42, for services rendered in connection with the construction of the college buildings, which are chargeable to this account. After reserving the amount of the Architect's claims there remains an unencumbered balance of \$15,336.75. Application is herewith made to the Board of Estimate and Apportionment for permission to use this unencumbered balance for the following purposes:

1. Equipment of a Laboratory for Courses in Psychology..... \$5,000 00
The laboratory for which such equipment is asked would be used (1) for demonstration purposes in connection with the introductory course in psychology; (2) for experiment purposes in connection with an elective course following the introductory course, and for such other advanced courses as it may be deemed wise to offer. At the present day no institution of high standing offers the subject of psychology without laboratory facilities. It is the consensus of opinion among modern psychologists that such a laboratory is most desirable, if not indispensable.
2. One engine and generator, including installation and construction of foundations, also including fees of Consulting Engineer..... 8,500 00
The unit which it is proposed to install is about one-half the capacity of our present generators and is intended for use during evening college sessions and during the summer when the electrical requirements are at a minimum. The installation of a smaller unit will effect a saving in fuel as well as relieve the pressure of wear and tear on the larger generators at a time when the loads are below the normal requirements.

Total..... \$13,500 00

It is requested that the balance of the corporate stock account, after providing for the above-mentioned items, be reserved for additional improvements, for which application will be shortly made. Yours truly,
LEE KOHNS, Chairman, Finance Committee of the Board of Trustees of the College of the City of New York.

City of New York, Department of Finance, Comptroller's Office, January 30, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On January 14, 1913, the College of the City of New York requested permission to apply \$13,500 unencumbered balance of the original authorization for a new site and buildings for the college, to the equipment of three psychological laboratories and the installation of one engine and generator. In connection therewith we report as follows:

This is a repetition of requests previously submitted under dates of December 18, 1911, and May 3, 1912, pursuant to the resolution of your Board on November 16, 1911, requesting a statement of the corporate stock requirements of all City departments for the year 1912. The unencumbered balance in the last of the original authorizations for a new site and buildings for the college (January 13, 1905), exclusive of certain claims now in course of adjustment, is estimated at \$15,336.75.

The college has not as yet been equipped with laboratories for experimental work in psychology, and consequently courses in such work cannot be given because of the lack of proper facilities. Such equipment has come to be regarded as a necessity by the leading colleges and universities of the country, especially in connection with the practical application of the science of psychology to the art of teaching children. It is proposed to install three laboratories, at an aggregate cost of \$5,000, to be under the direction of the departments of philosophy, education and political science, respectively; the first to be a general psychological laboratory, the second an educational clinic, and the third a statistical laboratory.

During the evening session of the college and during the summer vacation the amount of electricity required for lighting the premises, etc., is considerably less than the capacity of the present generators. It is therefore proposed, in order to save fuel, to install an engine and generator having about one-half the capacity, at an estimated cost of \$8,500.

We recommend that the request be approved by the adoption of the attached resolutions for the rescindment of \$13,500 on the original authorization and for a new authorization in the same amount. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; GEORGE McANENY, President, Borough of Manhattan, Corporate Stock Budget Committee.

The following resolution was offered:

Resolved, That the resolution adopted by the Board of Estimate and Apportionment on June 3, 1910, as follows:

"Resolved, That the following resolution adopted by the Board of Estimate and Apportionment at a meeting held January 13, 1905, which reads as follows:

"Resolved, That, pursuant to the provisions of chapter 168 of the Laws of 1895, as amended by chapter 608 of the Laws of 1896 and chapter 433 of the Laws of 1897, and sections 169 and 170 of the Greater New York Charter, the Board of Estimate and Apportionment hereby approves of an additional appropriation of two million fifty-eight thousand and nine hundred and thirty-one dollars and thirty-nine cents (\$2,058,931.39), and hereby authorizes the issue of corporate stock to the amount of two million fifty-eight thousand nine hundred and thirty-one dollars and thirty-nine cents (\$2,058,931.39) to provide means for

the completion of the new buildings of the College of the City of New York, in the Borough of Manhattan, the furnishing of said buildings, the grading, putting in order and properly planting the grounds, and for the removal of the college from its present site, and the Comptroller is hereby authorized to issue corporate stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding two million fifty-eight thousand nine hundred and thirty-one dollars and thirty-nine cents (\$2,058,931.39), the proceeds whereof to be applied to the purposes aforesaid."

—be and hereby is amended to read as follows:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The following resolution was offered:

Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment hereby approves of the issue of corporate stock of The City of New York to an amount not exceeding five thousand dollars (\$5,000) to provide means for the equipment of psychological laboratories in the College of the City of New York, St. Nicholas terrace and 139th street, Borough of Manhattan, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller be and is hereby authorized to issue said corporate stock of The City of New York in the manner provided by section 169 of the Greater New York Charter, the proceeds thereof to the amount of the par value of the stock to be applied to the purposes aforesaid.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The following resolution was offered:

Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment hereby approves of the issue of corporate stock of The City of New York to an amount not exceeding eight thousand five hundred dollars (\$8,500) to provide means for the installation of one engine and generator and the necessary expenses in connection therewith in the College of the City of New York, St. Nicholas terrace and 139th street, Borough of Manhattan, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller be and is hereby authorized to issue said corporate stock of The City of New York in the manner provided by section 169 of the Greater New York Charter, the proceeds thereof to the amount of the par value of the stock to be applied to the purposes aforesaid.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

Department of Parks, Boroughs of Manhattan and Richmond—Issue of \$500,000 Corporate Stock (Cal. No. 33).

(On January 16, 1913, this matter was referred to the Corporate Stock Budget Committee.)

The Secretary presented the following:

The City of New York, Department of Parks, Boroughs of Manhattan and Richmond, Arsenal, Central Park, January 11, 1913.

Honorable Board of Estimate and Apportionment, 277 Broadway, City:

Gentlemen—Pursuant to a communication received from the Trustee of the Metropolitan Museum of Art, I respectfully request that the resolution adopted by your Board under date of March 14, 1912, amending a resolution adopted December 14, 1906, which reads as follows:

"Resolved, That the resolution adopted by the Board of Estimate and Apportionment on December 14, 1906, as follows:

"Resolved, That pursuant to the provisions of chapter 108 of the Laws of 1904, as amended by chapter 27 of the Laws of 1905, the Board of Estimate and Apportionment hereby authorizes the Comptroller to issue corporate stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding five hundred thousand dollars (\$500,000), to provide for the construction of an extension of the building in Central Park occupied by the Metropolitan Museum of Art,"

—be amended to read as follows:

"Resolved, That pursuant to the provisions of chapter 108 of the Laws of 1904, as amended by chapter 27 of the Laws of 1905, the Board of Estimate and Apportionment hereby authorizes the Comptroller to issue corporate stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding five hundred thousand dollars (\$500,000), to provide means for the construction of an extension of the building in Central Park occupied by the Metropolitan Museum of Art, including the construction and equipment of a carpenter shop,"

—be further amended to include the words "and construction of a service roadway." The estimated cost of this roadway is figured by the Engineers as \$10,388, while the unencumbered balance in the account "C. D. P.—62" is \$18,954.78. I have been informed by the Directors of the Museum, and the Architects having the building under their supervision, that it was originally intended that this roadway and the approaches to the building were to be included in the appropriation, but I think it advisable, in view of the fact that the purposes mentioned in the resolution do not specify the roadway, that the resolution should be amended to include same. The service road will enter the Museum grounds opposite 84th street and 5th avenue, running west parallel with the north wing of the new 5th avenue extension, known as Wing H, and then southerly down to the service entrance. The road will be a permanent construction, as the plans for additional wings will be built to the north. The resolution as amended will read as follows:

"Resolved, That the resolution adopted by the Board of Estimate and Apportionment on December 14, 1906, as follows:

"Resolved, That, pursuant to the provisions of chapter 108 of the Laws of 1904, as amended by chapter 27 of the Laws of 1905, the Board of Estimate and Apportionment hereby authorizes the Comptroller to issue corporate stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding five hundred thousand dollars (\$500,000), to provide for the construction of an extension of the building in Central Park occupied by the Metropolitan Museum of Art,"

—be amended to read as follows:

"Resolved, That, pursuant to the provisions of chapter 108 of the Laws of 1904, as amended by chapter 27 of the Laws of 1905, the Board of Estimate and Apportionment hereby authorizes the Comptroller to issue corporate stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding five hundred thousand dollars (\$500,000), to provide means for the construction of an extension of the building in Central Park occupied by the Metropolitan Museum of Art, including the con-

struction and equipment of a carpenter shop, and the construction of a service roadway." Your immediate action upon the matter will be appreciated. Very truly yours,
CHAS. B. STOVER, Commissioner of Parks, Boroughs of Manhattan and Richmond.

City of New York, Department of Finance, Comptroller's Office, January 24, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On January 11, 1913, the Commissioner of Parks, Boroughs of Manhattan and Richmond, requested amendment of a resolution authorizing corporate stock to the amount of \$500,000, to provide means for the construction of an extension of the building in Central Park occupied by the Metropolitan Museum of Art, including the construction and equipment of a carpenter shop. In connection therewith we report as follows:

The proposed amendment is to include the construction of a service roadway. The road is to be permanent, and is to run from 5th avenue around to rear of buildings. Its cost is estimated at \$10,388, and there is an unencumbered balance of \$18,954.78 in the account. The Directors of the Museum state that it was originally intended to include the roadway in the appropriation.

We recommend the adoption of the attached resolution approving the request. Respectfully, WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; GEORGE McANENY, President, Borough of Manhattan, Corporate Stock Budget Committee.

Department of Water Supply, Gas and Electricity—Issue of \$8,913.81 Corporate Stock (Cal. No. 34).

(On September 19, 1912, this matter was referred to the Corporate Stock Budget Committee.)

The Secretary presented the following:
Department of Water Supply, Gas and Electricity, Commissioner's Office, 13-21 Park row, City of New York, August 27, 1912.

JOSEPH HAAG, Secretary, Board of Estimate and Apportionment, 277 Broadway, Manhattan:

Dear Sir—About three years ago this department procured from the Board of Water Supply the use of stove pipe well equipment and a quantity of material used in well work. At that time the department had under consideration the sinking of a large number of wells in the Boroughs of Brooklyn and Queens and in Nassau County. In transferring the equipment and supplies, it was understood and agreed by both departments that payment would be made for the use of the well driving apparatus and any supplies or material which the department might require. The value of the equipment, supplies, etc., as estimated by the Board of Water Supply, was \$14,292.63.

Use was made of this machinery wherever possible, and some months ago formal notice was sent to the Board of Water Supply that this department was ready to return same. It was suggested that an inspection of this equipment be made and that other items charged in the bill be checked off, so as to avoid any future controversy or dispute regarding the apparatus and material. As a result of this conference the Board of Water Supply has agreed to accept \$11,701.90 in full payment for the use of the stove pipe rig, tools, materials, etc., and the return of this equipment to some location to be selected by the Board of Water Supply, where it will be sold at public auction.

This department has but \$2,788.09 available to pay off this account. Many urgent demands have been made on this department by the Board of Water Supply for the adjustment of this matter.

I would, therefore, request that corporate stock in the sum of \$8,913.81 be issued for the payment for supplies and material used in connection with the well driving equipment. Yours truly,
HENRY S. THOMPSON, Commissioner.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, January 21, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On August 27, 1912, the Commissioner of Water Supply, Gas and Electricity requested corporate stock in the sum of \$8,913.81, for payment of stove pipe well equipment, supplies and materials used in connection with well driving work. In connection therewith we report as follows:

At that time the department had under consideration the sinking of a large number of wells in the Boroughs of Brooklyn and Queens and in Nassau County. It is stated by the Commissioner of Water Supply, Gas and Electricity that in transferring the equipment and supplies it was understood and agreed that payment would be made for the use of the well driving apparatus and any supplies or materials which his department might require. The value of the equipment, supplies, etc., as estimated by the Board of Water Supply, was \$14,292.63.

The Commissioner states that use of this machinery was made wherever possible, and some months ago formal notice was sent to the Board of Water Supply that the Department of Water Supply, Gas and Electricity was ready to return the same; it was also suggested that an inspection of the equipment be made and that other items charged in the bill of the Board be checked off, so as to avoid any future controversy or dispute regarding the apparatus and material.

As a result of this the Board of Water Supply has agreed to accept \$11,701.90 in full payment for the use of the equipment, materials, etc., and the return of the equipment to some location to be selected by the Board of Water Supply, where it will be sold at public auction.

The department has only \$2,788.09 available to pay off this account.

In our opinion the request is unnecessary, since the Board of Water Supply apparently surrendered property for which it had and now has no further use. The property therefore should have been transferred through the Sinking Fund Commission to the Department of Water Supply, Gas and Electricity for its use. To return it to the Board of Water Supply merely for the purpose of sale would be unbusiness-like, as would the issuing of corporate stock to pay for its use.

We recommend, therefore, that the request be not approved. Respectfully,
WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; GEORGE McANENY, President, Borough of Manhattan, Corporate Stock Budget Committee.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby disapproves of the request of the Commissioner of Water Supply, Gas and Electricity, as set forth in a communication dated August 27, 1912, for an issue of eight thousand nine hundred and thirteen dollars and eighty-one cents (\$8,913.81) corporate stock to provide for supplies and materials used in connection with the well driving equipment procured from the Board of Water Supply.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary was directed to transmit a copy of the report of the Corporate Stock Budget Committee to the Commissioner of Water Supply, Gas and Electricity.

Fire Department—Selection of Fire Site in The Bronx (Cal. No. 35).

(On January 9, 1913, this matter was referred to the Corporate Stock Budget Committee.)

The Secretary presented the following:

Fire Department of The City of New York, Office of the Commissioner, January 4, 1913.

Hon. WILLIAM J. GAYNOR, Mayor and Chairman, Board of Estimate and Apportionment:

Sir—At my request the Board of Estimate and Apportionment, at meeting held July 17, 1911, adopted a resolution providing for a corporate stock issue of \$50,000, to place at the disposal of this Department funds for the erection of a fireproof building for use as a fire alarm telegraph central station for the Borough of The Bronx, in the vicinity of St. Ann's avenue, Rose street and Germain place, in that Borough. This resolution was concurred in July 25, 1911, by the Board of Aldermen, and became effective. Subsequently it was amended by describing the site as follows: "In Crotona Park, on the northerly side of East 175th street, between Fulton and Arthur avenues."

The choice of a location in Crotona Park has aroused a strong measure of opposition in The Bronx among those who consider it would be inadvisable to select a site in this particular park for the purpose, but who nevertheless recognize the great advantage to the security of life and property which would inure from erecting a building of this character in public park space where it would remain indefinitely separate and apart from other buildings, thereby practically ensuring it from destruction by fire or other cause, with all the disastrous consequences that might follow the placing out of commission, even temporarily, of the fire alarm telegraph system of that Borough.

I have, therefore, the honor to request that the resolution be further amended as regards the site by selecting therefor a situation in the extreme southeasterly corner of New York Zoological Park, fronting on East 180th street. This point would be more central than the proposed Crotona Park location and would be in accord with prevailing public sentiment in The Bronx as to the most fitting site on which to erect a building for use as a fire alarm central station. Respectfully,

JOSEPH JOHNSON, Fire Commissioner.

City of New York, Department of Finance, Comptroller's Office, January 24, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On January 4, 1913, the Fire Commissioner requested that an authorization of \$50,000 in corporate stock for the erection of a fireproof building for a fire alarm telegraph station be amended to locate the structure in the extreme southeasterly corner of New York Zoological Park, fronting on East 180th street, Borough of The Bronx. In connection therewith we report as follows:

On July 17, 1911, the Board of Estimate and Apportionment, and on July 25, 1911, the Board of Aldermen authorized the \$50,000 for the erection of the building, on a site in the vicinity of St. Ann's avenue, Rose street and Germain place. It was found that this site was not desirable for the purpose, and amendment was made for a site "In Crotona Park, on the northerly side of East 175th street, between Fulton and Arthur avenues." The Fire Commissioner states that the selection of that site has met with considerable opposition, and, therefore, he proposes the new site, in the extreme southeasterly corner of New York Zoological Park, fronting on East 180th street. He further states that this site is more central than the Crotona Park site, and is approved by the civic associations which opposed the location of this building in Crotona Park.

Permission has been obtained from the Commissioner of Parks, Borough of The Bronx, for the use of the site. The United Civic Societies of the Borough of The Bronx have approved its selection, and formal consent also has been obtained from the New York Zoological Society, which has possession of the park under a fee lease from the City.

We recommend that the request be approved by the adoption of the attached resolution. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; GEORGE McANENY, President, Borough of Manhattan, Corporate Stock Budget Committee.

The following resolution was offered:

Resolved, That, subject to the concurrence herewith by the Board of Aldermen, the resolution adopted by the Board of Estimate and Apportionment on July 15, 1912, and which became operative without action having been taken by the Board of Aldermen, as follows:

"Resolved, That, subject to the concurrence herewith by the Board of Aldermen, the resolution adopted by the Board of Estimate and Apportionment July 17, 1911, and approved by the Board of Aldermen July 25, 1911, which reads as follows:

"Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment hereby approves of the issue of corporate stock of The City of New York to an amount not exceeding fifty thousand dollars (\$50,000), to provide means for the erection of a new fireproof building on part of a site located in the vicinity of St. Ann's avenue, Rose street and Germain place, for the use of the Fire Department of The City of New York, for a fire alarm telegraph central office, Borough of The Bronx, and that when authority therefor shall have been obtained from the Board of Aldermen the Comptroller be and is hereby authorized to issue corporate stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, the proceeds thereof to the amount of the par value of the stock to be applied to the purposes aforesaid."

—be amended by describing the site as follows: "In Crotona Park on the northerly side of East 175th street, between Fulton and Arthur avenues."

—be amended by describing the site as follows: "In the extreme southeasterly corner of New York Zoological Park, fronting on East 180th street."

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

Department of Parks, Borough of Queens—Issue of \$30,000 Corporate Stock (Cal. No. 36).

The Secretary presented:

Report of the Corporate Stock Budget Committee, recommending that the request of the Commissioner of Parks, Borough of Queens, for the issue of \$30,000 corporate stock for the construction of a wagon shed, etc., in Forest Park, Borough of Queens, be disapproved, as there does not appear to be any urgency for this appropriation.

(On January 23, 1913, the above request was referred to said Committee.)

Communication from the Commissioner of Parks, Borough of Queens, withdrawing the above request.

Which report was ordered filed and the Secretary directed to return the request to the Commissioner of Parks, Borough of Queens.

Police Department; Fire Department—Issue of Corporate Stock (Cal. No. 37).

The Secretary presented:

Resolution of the Board of Aldermen, requesting the Board to authorize the issue of corporate stock to provide for the erection of a Police station house and a new Fire Department building on the site owned by the City on Bedford avenue, between Filmore street and Metropolitan avenue, Brooklyn.

Which was referred to the Corporate Stock Budget Committee, consisting of the Comptroller, the President, Board of Aldermen, and the President of the Borough of Manhattan.

Department of Docks and Ferries—Plans for Freight Terminal Facilities and Equipment Thereof, Along South Brooklyn Water-front (Cal. No. 38).

The Secretary presented the following, which was ordered printed in the minutes and filed, and the Secretary was directed to transmit a copy thereof to the Commissioner of Docks:

Board of Estimate and Apportionment, City of New York, February 10, 1913.

To the Honorable the Board of Estimate and Apportionment:

Gentlemen—On December 19, 1912, the Board of Estimate and Apportionment adopted a resolution authorizing the Commissioner of Docks, pursuant to the provisions of chapter 776 of the Laws of 1911, known as the New York City Freight Terminals Act, to adopt a plan for terminal facilities and equipment thereof and therefor, along the South Brooklyn waterfront. Subsequent to the adoption of this resolution, and on the invitation of the Chairman of the Committee on Terminal Improvements, a conference of representatives of the various trunk line railroad companies which would naturally use the terminal railroad, was held at the New York Chamber of Commerce, and a committee was appointed to consider plans for operation. This committee has been in conference with the Commissioner of Docks as to the general plan, with the object that the plan finally adopted might be entirely feasible and one which the several companies could advantageously use. This conference, in which a representative of the chairman of the committee and the Chief Engineer of the Board joined, has resulted in certain minor modifications, and a new plan, in which these modifications were incorporated, was presented to the Board by the Commissioner of Docks on January 30, 1913, when a resolution was adopted fixing February 20, 1913, as the date for a hearing on the modified plan, which was at the same time referred to the Committee on Terminal Improvements.

The general plan remains as approved by the Board on December 19, 1912, but the line of the railroad has been changed from Beard street to Van Dyke street, at the request of the committee representing the railroads, in order to facilitate access to the transfer bridges at the foot of Conover street. The area required for these transfer bridges has been somewhat enlarged, and provision has been made for additional transfer bridges at the northerly end of the line near Fulton Ferry. The large yard, or "terminal way and terminal station," at Red Hook Point has been slightly modified, and an additional terminal station has been laid out in the block between 1st and 2d avenues, 59th and 60th streets.

At the suggestion of the Corporation Counsel there have been added to the plan details showing the precise location of all of the property which it would be necessary to acquire to carry out the plan, and the new resolution herewith submitted describes all of this property with sufficient precision to form the basis of proceedings to acquire title.

Your committee submits herewith a resolution which rescinds the resolution adopted on December 19, 1912. The resolution herewith submitted also authorizes the Commissioner of Docks to adopt the plan dated January 30, 1913, and describes the terminal ways and terminal stations, and the transfer bridges, and also defines by metes and bounds the land and land under water which it will be necessary to acquire to carry out the plan. The resolution further authorizes the Commissioner of Docks to amplify the plan "by the incorporation thereof of such additional specific details as may be necessary to carry it into effect, upon submission of such specific details to the Board and its approval thereof by resolution, without the necessity of further notice or an advertised public hearing."

The resolution has received the specific approval of the Corporation Counsel. Respectfully submitted, JOHN PURROY MITCHEL, President, Board of Aldermen; WM. A. PRENDERGAST, Comptroller; GEO. McANENY, President, Borough of Manhattan; ALFRED E. STEERS, President, Borough of Brooklyn; NELSON P. LEWIS, Chief Engineer, Board of Estimate and Apportionment.

Resolved, That the Board of Estimate and Apportionment hereby fixes the hour of 10:30 o'clock in the forenoon on Thursday, the 13th day of March, 1913, in room 16 of the City Hall, Borough of Manhattan, City of New York, as the time and place for a public hearing in the matter of the application of the Commissioner of Docks to the Board of Estimate and Apportionment to have said Board certify the plan for terminal facilities and equipment thereof and therefor, which plan is dated January 30, 1913, and was heretofore duly adopted by the Commissioner of Docks on February 20, 1913, under authority of a resolution of the Board of Estimate and Apportionment adopted February 20, 1913, in pursuance of section 3, of chapter 776 of the Laws of 1911.

The said plan is for the construction of terminal facilities and equipment thereof and therefor, to be located upon lands and lands under water, situate, lying and being on, adjacent or near to the shores of the East River, Buttermilk Channel, Gowanus Bay and Upper Bay, between the foot of Fulton street and the foot of 66th street, Borough of Brooklyn, City of New York, and more particularly described as follows:

1. A double track terminal freight railway of standard gauge, with the necessary sidings and connections, is to be provided between Fulton street and 66th street, and more particularly described as follows:

Beginning at a point south of and adjoining Fulton street coincident with the present position of the tracks of the New York Dock Company, and running thence southwardly along the said tracks on the property of the New York Dock Company to a point distant about 150 feet south of the southerly line of Joralemon street; thence running southwardly and southeastwardly across the property of the New York Dock Company and other private property to a point in Furman street near its intersection with Atlantic avenue; thence southeastwardly across Furman street and Atlantic avenue and across private property at the southwest corner of Atlantic avenue and Columbia street to Columbia street; thence southwardly along the centre line of Columbia street and across private property at the northwesterly corner of Sedgwick street to Sedgwick street; thence westwardly along the centre line of Sedgwick street and across private property at the southeasterly corner of Van Brunt street to Van Brunt street; thence southwardly along the centre line of Van Brunt street and across private property in the block bounded by Hamilton avenue, President street, Van Brunt street and Carroll street to Hamilton avenue about opposite Imlay street; thence southwardly across Hamilton avenue to Imlay street; thence southwardly along the centre line of Imlay street and across private property at the northwesterly corner of Pioneer street to Pioneer street; thence across Pioneer street and across private property at the southeasterly corner of Pioneer street and Conover street to Conover street; thence across Conover street and across private property at the northwesterly corner of Conover street and King street to King street; thence westwardly along the centre line of King street and across private property at the southeasterly corner of Ferris street to Ferris street; thence southwardly along the centre line of Ferris street to Coffey street; thence across private property southwardly and southeastwardly to Van Dyke street; thence eastwardly along the centre line of Van Dyke street to Otsego street; thence still eastwardly across Otsego street and over private property, and curving to the left, to the centre line of Halleck street; thence still eastwardly along the centre line of Halleck street and its prolongation across the Henry street slip to Smith street; thence deflecting slightly to the right, crossing Smith street and passing over private property and across Gowanus Canal and curving to the right to meet the prolongation northwardly of the centre line of 2d avenue, as laid out south of 39th street; thence southwestwardly along the prolongation northwardly of the centre line of 2d avenue to about 27th street; thence southwestwardly across private property and the property of The City of New York, curving first to the right and then to the left, to a point near 28th street on a line distant 20 feet westerly from and parallel with the westerly line of 2d avenue; thence southwestwardly across the property of The City of New York, and along the said line distant 20 feet westwardly from and parallel with the westerly line of 2d avenue to a point between 36th and 37th streets; thence southwardly and southwestwardly across property of The City of New York, curving first to the left and then to the right, to the centre line of 2d avenue at or about 38th street; thence southwestwardly along

the centre line of 2d avenue to a point at or near 65th street; thence southwardly curving to the left and across private property, to a connection with the New York Connecting Railroad.

A branch of the above described line is to be laid out as follows:

Beginning at a point on the aforesaid line distant 20 feet westerly from and parallel with the westerly line of 2d avenue in the block between 36th street and 37th street; thence running southwestwardly, westwardly, and southwestwardly across property of The City of New York and across private property to meet the extension northwardly of the centre line of 1st avenue at or near 38th street; thence southwestwardly across property of The City of New York and across private property, and along the centre line of 1st avenue and the prolongation thereof northwardly to 62d street; thence southwardly and southeastwardly and curving to the left and across private property to 63d street; thence southeastwardly along the centre line of 63d street and curving to the right and crossing private property to the centre line of 2d avenue to meet the line heretofore described in 2d avenue.

The above described lines are to follow the surface excepting from a point at or near Joralemon street to a point near Bowne street, and from a point near 37th street to a point in 1st avenue at or near 41st street; these two sections of the railroad are to be elevated to such extent as may be required to permit of carrying Atlantic avenue and Hamilton avenue, together with all of the intervening streets under it, and also to secure adequate clearance over the existing tracks in and near 28th street and 39th street on the northerly prolongation of 1st avenue.

A connection with the existing tracks of the New York Dock Company is to be provided by a line in Van Brunt street meeting the surface grade in the vicinity of Harrison street; on the line of Pioneer street, and on the line of Conover street and Commercial wharf.

2. Terminal stations are to be laid out to include the block bounded by King street, Conover street, Sullivan street and Ferris street; the block bounded by 1st avenue, 59th street, 2d avenue and 60th street; the area bounded by the southerly line of 28th street prolonged, the westerly line of 2d avenue, the northerly line of 36th street prolonged, and a line distant 400 feet westerly from and parallel with the westerly line of 2d avenue; and also the area bounded by the southerly line of 57th street, the westerly line of 1st avenue, the northerly line of 63d street, and a line distant 500 feet westerly from and parallel with the westerly line of 1st avenue.

3. A terminal way and terminal station is to be laid out to comprise the following:

Beginning at the northeasterly corner of Otsego street and Halleck street, and running thence northwardly along the easterly side of Otsego street to the southerly side of Bay street; thence eastwardly along the southerly side of Bay street to the easterly side of Columbia street; thence northwardly along the easterly side of Columbia street to the southerly side of Creamer street; thence eastwardly along the southerly side of Creamer street to the easterly side of Hicks street; thence northwardly along the easterly side of Hicks street to the southerly side of Bush street; thence eastwardly along the southerly side of Bush street to the easterly side of Henry street; thence northwardly along the easterly side of Henry street to the southerly side of West 9th street; thence eastwardly along the southerly side of West 9th street to the westerly side of Clinton street; thence southwardly along the westerly side of Clinton street to the southerly side of Creamer street; thence eastwardly along the southerly side of Creamer street to the westerly side of Court street; thence southwardly along the westerly side of Court street to the southerly side of Halleck street; thence westwardly along the southerly side of Halleck street to a point 150 feet east of the easterly side of Clinton street; thence southerly on a line 150 feet east of the easterly side of Clinton street, and parallel therewith, to the southerly side of Percival street; thence westwardly along the southerly side of Percival street to the easterly side of Clinton street; thence southwardly along the easterly side of Clinton street to the southerly side of Bryant street; thence westwardly along the southerly side of Bryant street, as laid out east of Clinton street, and the westerly prolongation thereof to the westerly boundary of the land and land under water recently acquired or to be acquired by the State of New York for a barge canal terminal; thence northwardly in a straight line to the northeasterly corner of Otsego street and Halleck street, the point or place of beginning.

4. Areas for transfer bridges are to be laid out as follows:

A—At the foot of Conover street to comprise the territory bounded and described as follows:

Beginning at a point in the southwest side of Van Dyke street, distant 190 feet southeasterly from the southeasterly side of Van Brunt street; and running thence southwestwardly and parallel with Van Brunt street to the northeasterly side of Beard street; thence northwardly and along the northeasterly side of Beard street 130 feet; thence westwardly to a point in the northwesterly side of Van Brunt street 70 feet southwestwardly from the westerly corner of Van Brunt street and Beard street; thence southwestwardly and along the northwesterly side of Van Brunt street and its southwestwardly prolongation to the pierhead line established by the Secretary of War, March 19, 1909; thence northwardly and northwardly and along the pierhead line established March 19, 1909, to its intersection with the westerly prolongation of the northerly line of the grant made by the State of New York to Divine Burtis, September 10, 1885; thence eastwardly along said northerly line of the grant to Divine Burtis and its easterly prolongation to its intersection with a line drawn 80 feet northwest of and parallel with the northwesterly side of Conover street; thence northeastwardly and parallel with and 80 feet northwesterly from the northwesterly side of Conover street, to its intersection with the southwest side of Van Dyke street; thence southeastwardly and along the southwest side of Van Dyke street to a point 190 feet southeast of the southeasterly line of Van Brunt street, the point or place of beginning.

B—At or near the foot of Fulton street to comprise the territory bounded and described as follows:

Beginning at the intersection of a line distant 100 feet northerly from and parallel with the southerly line of Fulton street as laid out west of Furman street with a line distant 66 feet westerly from and parallel with the westerly line of Furman street, and running thence southwardly and parallel with the westerly line of Furman street a distance of 470 feet; thence westwardly in a course parallel with the aforesaid southerly line of Fulton street to the intersection with the bulkhead line as approved by the Secretary of War on March 4, 1890; thence northwardly in a straight line to a point on the pierhead line established by the Secretary of War in 1902, distant 190 feet northeastwardly from the angle point in said pierhead line near the prolongation of Vine street; thence northeastwardly and along the said pierhead line to its intersection with a line parallel with and distant 100 feet northerly from the southerly line of Fulton street as laid out west of Furman street; thence eastwardly along the aforesaid line parallel with the southerly side of Fulton street, to the point or place of beginning.

5. Private property is to be acquired to accommodate the railroad where it falls outside of the street lines, as follows:

A—Beginning at the northwesterly corner of Atlantic avenue and Furman street and running thence westwardly along the northerly side of Atlantic avenue a distance of 60 feet; thence northwardly along a line 60 feet west of the westerly line of Furman street and parallel thereto a distance of 70 feet 3 inches; thence northwardly in a straight line to a point 390 feet westwardly from the westerly side of Furman street, measured at right angles thereto, and 380 feet northerly from the northerly line of Atlantic avenue, measured at right angles thereto; thence northwardly on a line 390 feet west of the westerly side of Furman street and parallel thereto a distance of 150 feet; thence eastwardly on a line at right angles to Furman street a distance of 30 feet; thence southwestwardly in a straight line to a point distant 340 feet westerly from the westerly side of Furman street, measured at right angles thereto, and 420 feet north of the northerly side of Atlantic avenue, measured at right angles thereto; thence southeastwardly in a straight line to a point 290 feet westwardly from the westerly side of Furman street, measured at right angles thereto, and 335 feet northerly from the northerly side of Atlantic avenue, measured at right angles thereto; thence in a straight line to a point in a line 70 feet 3 inches north of the northerly side of Atlantic avenue and parallel therewith, and distant 18 feet westerly from the westerly side of Furman street, measured at right angles thereto; thence eastwardly along a line 70 feet 3 inches north of the northerly side of Atlantic avenue and parallel therewith, to the westerly side of Furman street; thence southwardly along the westerly side of Furman street a distance of 70 feet 3 inches to the northwesterly corner of Atlantic avenue and Furman street, the point or place of beginning.

B—Property at the southwest corner of Atlantic avenue and Columbia street, more particularly described as follows:

Beginning at the southwesterly corner of Atlantic avenue and Columbia street, and running thence southwardly along the westerly side of Columbia street to a point distant 130 feet southwardly from the southerly line of Atlantic avenue; thence westwardly along a line parallel with the southerly line of Atlantic avenue to a point distant 70 feet from the westerly line of Columbia street; thence northwardly along a line parallel with the westerly line of Columbia street a distance of 50 feet; thence westwardly along a line parallel with the southerly line of Atlantic avenue a distance of 23 feet 4 inches; thence northwardly along a line parallel with the westerly line of Columbia street to its intersection with the southerly line of Atlantic avenue; thence eastwardly and along the southerly line of Atlantic avenue to the southwesterly corner of Atlantic avenue and Columbia street, the point or place of beginning.

C—The property lying west of Columbia street, between Irving street and Sedgwick street, more particularly described as follows:

Beginning at the southwesterly corner of Columbia street and Irving street, and running thence southwardly along the westerly side of Columbia street to the northwesterly corner of Columbia street and Sedgwick street; thence westwardly along the northerly side of Sedgwick street a distance of 180 feet; thence northwardly along a line parallel with the westerly line of Columbia street a distance of 100 feet; thence eastwardly along a line parallel with the northerly line of Sedgwick street a distance of 80 feet; thence northwardly and along a line parallel with the westerly line of Columbia street and 100 feet distant therefrom to its intersection with the southerly line of Irving street; thence eastwardly and along the southerly side of Irving street to the southwesterly corner of Irving street and Columbia street, the point or place of beginning.

D—The property lying between Sedgwick street and Degraw street on the easterly side of Van Brunt street, more particularly described as follows:

Beginning at the southeasterly corner of Van Brunt street and Sedgwick street and running thence eastwardly along the southerly side of Sedgwick street a distance of 187 feet 6 inches; thence southwardly on a line parallel with the easterly side of Van Brunt street a distance of 100 feet; thence westwardly on a line parallel with the southerly side of Sedgwick street a distance of 111 feet 6 inches; thence southwardly on a line parallel with the easterly line of Van Brunt street a distance of 40 feet; thence westwardly on a line parallel with the southerly line of Sedgwick street a distance of 56 feet; thence southwestwardly to a point 15 feet 4 inches eastwardly from the easterly side of Van Brunt street and 49 feet northwardly from the northerly side of Degraw street, measured along a line parallel with the easterly line of Van Brunt street; thence southwardly on a line 15 feet 4 inches east of the easterly side of Van Brunt street and parallel therewith to the northerly side of Degraw street; thence westwardly along the northerly side of Degraw street 15 feet 4 inches to the northeasterly corner of Van Brunt street and Degraw street; thence northwardly along the easterly side of Van Brunt street to the southeasterly corner of Van Brunt street and Sedgwick street, the point or place of beginning.

E—The portion of the block bounded by Hamilton avenue, President street, Van Brunt street and Carroll street, more particularly described as follows:

Beginning at the southwesterly corner of Van Brunt street and President street, and running thence southwardly along the westerly side of Van Brunt street to the northerly side of Carroll street; thence westwardly along the northerly side of Carroll street to the northeasterly side of Hamilton avenue; thence northwestwardly along the northeasterly side of Hamilton avenue a distance of 99 feet 2 inches; thence northeastwardly and at right angles to Hamilton avenue to an intersection with a line drawn at right angles to the southerly side of President street from a point 75 feet westwardly from the southwesterly corner of Van Brunt street and President street; thence northwardly along a line at right angles to the southerly side of President street to a point in the southerly side of President street distant 75 feet westwardly from the southwesterly corner of Van Brunt street and President street; thence eastwardly along the southerly side of President street 75 feet to the southwesterly corner of Van Brunt street and President street, the point or place of beginning.

F—The property at the northerly corner of Imlay street and Pioneer street, more particularly described as follows:

Beginning at the northerly corner of Imlay street and Pioneer street and running thence northwestwardly along the northeasterly side of Pioneer street a distance of 60 feet; thence northeastwardly on a straight line to a point in the northwesterly side of Imlay street distant 110 feet northeastwardly from the northerly corner of Imlay street and Pioneer street, measured along the northwesterly line of Imlay street; thence southwestwardly along the northwesterly side of Imlay street a distance of 110 feet to the northerly corner of Imlay street and Pioneer street, the point or place of beginning.

Also the property at the southerly corner of Pioneer street and Conover street, more particularly described as follows:

Beginning at a point at the southerly corner of Pioneer street and Conover street and running thence southeastwardly along the southwesterly side of Pioneer street a distance of 100 feet; thence southwestwardly along a line 100 feet distant from and parallel with the southeasterly side of Conover street a distance of 100 feet; thence northwestwardly along a line parallel with the southwesterly side of Pioneer street, and distant 100 feet therefrom, a distance 100 feet to the southeasterly line of Conover street; thence northeastwardly along the southeasterly line of Conover street to the southerly corner of Conover street and Pioneer street, the point or place of beginning.

Also the property at the northerly corner of Conover street and King street, more particularly described as follows:

Beginning at the northerly corner of Conover street and King street, and running thence northwestwardly along the northeasterly line of King street a distance of 115 feet; thence eastwardly on a straight line to a point in the northwesterly side of Conover street distant 70 feet from the northeasterly line of King street measured along the northwesterly line of Conover street; thence southwestwardly along the northwesterly side of Conover street a distance of 70 feet to the northerly corner of Conover street and King street, the point or place of beginning.

G—Property lying within the block bounded by Ferris, Coffey, Conover and Van Dyke streets, the easterly boundary of which is a line beginning at a point in the southeasterly side of Ferris street 20 feet southwestwardly from the southerly corner of Ferris street and Coffey street; running thence southwardly and southeastwardly on a curve having a radius of 295 feet to a point in the northeasterly side of Van Dyke street 190 feet southeastwardly from the easterly corner of Ferris street and Van Dyke street, and the westerly boundary of which is a curved line parallel with the curved line last described and 30 feet distant therefrom and having a radius of 325 feet; the northwesterly boundary of the said property being the southeasterly side of Ferris street between the two curved lines above described; and the southwesterly boundary being the northeasterly side of Van Dyke street between the two curved lines above described.

H—Beginning at a point on the easterly side of Smith street at its intersection with the boundary line between lot 1 of block 495 and lot 1 of block 493, and running thence eastwardly and along the said boundary line to its intersection with the bulkhead along the westerly side of Gowanus Canal; thence southwardly and along said bulkhead a distance of 60 feet; thence westwardly to a point in the easterly side of Smith street, distant 40 feet southerly from its intersection with the boundary line between lot 1 of block 495 and lot 1 of block 493; thence northwardly and along the easterly line of Smith street 40 feet to the intersection of the easterly line of Smith street with the dividing line between lot 1 of block 495 and lot 1 of block 493, the point or place of beginning.

I—Beginning at a point in the bulkhead along the easterly side of Gowanus Canal where the same is intersected by the northeasterly boundary of the grant from the State of New York to Peter Wyckoff, dated February 24, 1853, and running thence southeastwardly along the said northeasterly boundary of the grant to Peter Wyckoff to its intersection with the northeasterly prolongation of the northwesterly side of 2d avenue; thence southwestwardly along the said prolongation of the northwesterly side of 2d avenue to its intersection with the northwesterly prolongation of the centre line of 17th street; thence northwardly in a straight line to a point in a line drawn 40 feet southwestwardly from and parallel with the northeasterly line of the grant to Peter Wyckoff, above mentioned, said point being 300 feet southeastwardly from the bulkhead along the easterly side of Gowanus Canal measured along said parallel line; thence northwestwardly along said parallel line 300 feet to the bulkhead along the easterly side of Gowanus Canal; thence northwardly and along said bulkhead to the

intersection of the easterly bulkhead of Gowanus Canal with the northeasterly boundary of the grant to Peter Wyckoff, the point or place of beginning.

J—Beginning at a point in the southeasterly side of 1st avenue distant 45 feet southwest of the southwesterly line of 62d street, and running thence along said southeasterly side of 1st avenue to the northeasterly side of 63d street; running thence southeastwardly and along said northeasterly side of 63d street a distance of 170 feet; running thence in a straight line northwardly to a point in the southeasterly line of 1st avenue distant 45 feet southwestwardly from the southwesterly line of 62d street, the point or place of beginning.

K—Beginning at a point in the southwesterly line of 63d street, said point being distant 170 feet northwesterly from the northwesterly line of 2d avenue; running thence southeastwardly and along the southwesterly line of 63d street to the northwesterly line of 2d avenue; running thence southwestwardly and along the northwesterly line of 2d avenue a distance of 155 feet; running thence northwardly in a straight line to a point in the southwesterly line of 63d street, said point being distant 170 feet northwesterly from the northwesterly side of 2d avenue, the point or place of beginning.

Resolved, That the Secretary of this Board cause a notice of said hearing to be published in the CITY RECORD for at least six consecutive days, not less than seven nor more than thirty days before said meeting, which notice shall contain a general description sufficient to identify the matter to be affected by the resolution, a statement of the day, time and place of such meeting, and that at such meeting all parties in interest will be heard prior to the adoption of any resolution by this Board in the premises.

Department of Finance—Establishment of Position of Photographer (Cal. No. 39).

The Secretary presented the following:

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, February 4, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—A large part of the work of the Finance Department consists of an examination into physical conditions of streets, sewers, bridges, sidewalks, piers, bulkheads and buildings. These examinations are made necessary by claims filed in the Finance Department and by requests for appropriations referred by the Board of Estimate and Apportionment to the Comptroller for investigation.

Engineers and Examiners make surveys and report their results in words and figures. These reports do not convey adequately the picture of conditions as they actually exist. For instance, a flooded sewer may have caused damage in the basement of a privately owned residence. The Examiner for the Finance Department who investigates the damage in such a case reports his findings. When the case comes up for trial there is usually no record of the actual conditions resulting from the flooded sewer except the record made in the Examiner's report and in the claim of the property owner. It would be much better in such a case to have a photographic record of actual conditions.

There is even more important need for photographs of streets, buildings, piers, bulkheads, etc., for which Department heads have requested appropriations for repair or reconstruction. It is obviously impossible for the members of the Board of Estimate and Apportionment to visit every spot in the City where repairs are alleged to be necessary. The Budget Committee and the Corporate Stock Budget Committee have to rely upon written reports and verbal statements concerning physical conditions. No matter how clearly an Examiner or Engineer may describe conditions, it is impossible for him to visualize the conditions for the Board of Estimate. We believe that it would make the work of the Corporate Stock Budget Committee and of the Budget Committee much easier if photographers were available to show conditions in all cases where substantial amounts are requested for construction or repairs. In many cases Departments have requested money for repairs and have stated that the condition of the building or the bridge or wall was disgraceful. Examination would show that there was very little need for repairs. The result has actually been a dispute between Department heads and Examiners. It would be better in such cases for the Committees of the Board of Estimate and Apportionment to have actual photographs.

We recommend the establishment of the position of Photographer at the rate of \$1,200 a year in the Department of Finance. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; Committee on Salaries and Grades.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the Department of Finance, of the grade of position, in addition to those heretofore established, as follows:

Title.	Rate Per Annum.	Number of Incumbents.
Photographer	\$1,200 00	1

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

Dr. William Henry Hale—Expenses incurred by—(Cal. No. 40).

(On December 19, 1912, the Board allowed \$298.73 for Dr. Hale's expenses and referred the balance of the bill, \$155.89, to the President of the Borough of The Bronx, and the President of the Board of Aldermen.)

The Secretary presented the following:

City of New York, President of the Borough of The Bronx, 3d Avenue and 177th Street, Office of the President, February 7, 1913.

Mr. JOSEPH HAAG, Secretary, Board of Estimate and Apportionment, 277 Broadway, New York City:

Sir—At a meeting of the Board of Estimate and Apportionment, held December 19, 1912, a report was presented from the Comptroller referring to the report of Dr. William Henry Hale, Superintendent of Public Baths, Brooklyn, on his attendance, as delegate representing The City of New York at the International Conference of Public Baths, held at The Hague, Holland, August 27-30, 1912, and recommending that Dr. Hale be reimbursed to the extent of \$298.73, said amount to be paid from the Contingent Account, Board of Estimate and Apportionment, for the year 1912, but disapproving of the item of \$155.89, incurred by Dr. Hale in a side trip to Dundee, Scotland, as the resolutions of the Board did not authorize the trip. The item of \$155.89 in question was referred to the President of the Borough of The Bronx and the President of the Board of Aldermen for consideration and report.

On May 23, 1912, the Board adopted a resolution designating Dr. Hale, who is so aptly called by his Honor the Mayor, "the learned Dr. Hale," as delegate, to represent the City at the above conference, and upon motion of the President of the Borough of Brooklyn, the expenses of said representation were limited to \$500.

It would be impossible for any City official to report adequately and justly on the item of \$155.89 in question without considering fully the simple and direct account of the learned Dr. Hale in urging the payment of his claims upon an ungrateful city government. His account is as follows:

"40 1st Place, Brooklyn, December 21, 1912.

"Hon. CYRUS C. MILLER, Chairman:

"Dear Sir—On May 23, 1912, I appeared before the Board of Estimate and Apportionment as Permanent Secretary of the American Association for Promoting Hygiene and Public Baths, to present the petition of that association that The City of New York would appoint a delegate and send an exhibition to the first International Conference on Public and School Baths, to be held at Scheveningen, The Hague, Holland, August 27-30, 1912; the exhibition, however, to cover the week, August 26-31.

"In the absence of Dr. Simon Baruch, president of our association, who is also professor of hydrotherapy in Columbia University, and medical editor of the New York 'Sun,' and for his long and successful work in establishing public baths, has been called the father of the public shower bath system, I was authorized to speak for him and for our association; while, in my capacity as superintendent of the public baths of Brooklyn, I was familiar with the situation and the needs of the public service.

"I, therefore, urged the Board to rise to the situation and to send an exhibit worthy of the City; not asking the appointment as delegate for myself, but only that the Board should appoint such delegate as could best execute his mission. In reply to a question by Mayor Gaynor, I stated that I thought \$500 would suffice to cover all necessary expenses. President Steers, in whose Borough I am employed, kindly remarked that he did not think anyone could better execute this trust than Dr. Hale, and I was unanimously appointed by the Board, having promised to keep expenses within the appropriation; and if a larger expenditure seemed necessary, to provide the excess myself.

"No fund was placed at my disposal, and I assumed the entire financing of the measure, trusting to the good faith of the City to reimburse me.

"It appeared to me then, as it still does, that a few weeks might well be spent in Europe in studying bathing systems there, and I requested to be allowed to remain till the end of September, which President Steers at once willingly granted. It happened, curiously enough, that at about this time I learned from the newspapers that another Dr. Hale, an entire stranger to me, however, was just being sent to South America by the Bureau of American Republics to spend seven or eight months there in travel and investigation at the government's expense.

"But inasmuch as my relations are not usually direct with President Steers, because my position is that of an employee in the Bureau of Public Buildings and Offices, Superintendent Woody of that Bureau, knowing the difficulty of obtaining adequate grants for our public baths, deemed it unjust to the needs of our system, to use moneys appropriated to it, in payment of so long a period of service to the city at large, and I then determined to cut short my stay abroad.

"But I still considered it important to attend the meeting of the British Association for the Advancement of Science, appointed to be held at Dundee, Scotland, September 4-11, inclusive, in which view I was sustained by Mayor Gaynor, who kindly gave me letters of introduction to the Lord Provost of Dundee, as well as to the Burgomaster of The Hague. This, I am sure, was ample authority to me for attending the B. A. S. This put me in a position to confer with the greatest intellectual leaders, as the British Association occupies a commanding position as the great science congress of Great Britain. The public officials always take active part in it. Our American Association for the Advancement of Science does not by any means cut such a figure in national importance; but that also is a factor in social and economic progress; for, like the B. A. S., it has a section devoted to these matters. I have long been identified with both associations and have read papers in both. My last previous attendance of the British Association was at the Dublin meeting in 1908, when I became acquainted with the Lord Lieutenant of Ireland, the Earl of Aberdeen, and his wife, the Countess of Aberdeen. The following year, the Countess, visiting America, honored me by allowing me to assist her in arranging to address our people in promotion of her campaign against tuberculosis, and I persuaded her to address a Brooklyn audience at Plymouth (Beecher's) Church, at a meeting at which I presided.

"My work in our American Association has been directly in uplifting the public bath system of this City. On December 28, 1909, I read at Boston, a paper on our public bath system, in which I laid emphasis on two measures, 1st, the establishment of a city department of baths and gymnasia; 2d, the erection of a seashore bath at Coney Island. My paper was published the same day either entire or in abstract, by all the Brooklyn papers; and the 'Standard-Union' made it the theme of its leading editorial that day, especially commending the recommendation for the bath at Coney Island, and ending with the inquiry, 'What official will renew the issue?'

"The answer was not long to seek. I had already for years been urging this bath on President Coler, having visited and studied Revere Beach Bath, near Boston, during the summer, when it was in operation; and the scheme had so commended itself that tentative plans for such a bath had been drawn. Had the administration continued, such a bath would have been built. Public opinion had been awakened, and when a new administration came in so unfamiliar with technical details as to deem it necessary to send an embassy to Boston during the closed bath season in winter, it proved easy to secure the needed appropriation and erect the beautiful bath, which has just closed its first full season with an excess of receipts above expenses sufficient to prove that with the establishment of a time limit on bathers, it can provide a sinking fund sufficient to pay for itself; and also warranting the recommendations I have now made to the Board of Estimate for seashore baths in the other boros.

"The Superintendent of Public Baths does not occupy such a position as to fill the public eye, but even in the absence of public recognition, I am consoled by the presentation to me by Mayor Gaynor of the pen with which he signed the appropriation for this bath, accompanied by a letter which stated, 'You were the original advocate of the City bath-house at Coney Island.'

"The Olympic agonist recked not of gold or gems, but was fully rewarded by the simple laurel wreath. So I prize more highly than cups or watches, the plain steel pen and the appreciative letter.

"Thus much have I said explanatory of the important bearing of these two great science associations on the work in which I am engaged, because it remained for a Clerk of the Comptroller—Eustis by name—going thru my items of disbursement, to challenge my right to attend the Dundee meeting of the B. A. S., and present Mayor Gaynor's letter to Lord Provost Urquhart in person. Mr. Eustis told me plainly that my duty was at my own expense to have engaged return passage from Europe by steamer sailing August 31, either leaving the City's exhibits or tearing them down and packing them away before the exhibition closed. So he refused to allow my disbursements subsequent to that date, ignoring the fact that by going to Liverpool, I secured passage at a lower rate than my outward passage. Part of the expense of travel was due to the transportation of the City's lantern slides, as well as my personal baggage.

"One item which he disallowed was \$2.96 for typewriting my report, tho even that was inadequate, for I afterwards paid 30 cents for copies of my recommendations. Another item was \$2.27 for plate of picture of delegates for publication. The careful pruning cut out even 24 cents for telegram. I did not put in any laundry bill, having been warned that the Comptroller wouldn't pay that in another case, where an expert employed by the City, put in a bill of 60 cents. The excision of this item was exploited in several sticks full of good space in a leading newspaper, which had it been utilized for advertising purposes, would, perhaps, have netted as many dollars as there were cents involved. The policy of straining out a gnat and swallowing a camel has never commended itself to political economists; but perchance when election day rolls round, some of our voters, oblivious to the appropriation of hundreds of millions for city government, may commend the economy which strains out these petty items, which are unquestionably legal charges against the City, if the claimant would take the trouble to test them in the courts.

"It should be noted in considering my disbursements that not one cent has been charged on the return trip for payment to the horde of hungry stewards who prey upon ocean travelers, rarely letting them off for less than \$15 to \$25, and as much more as can be obtained. Furthermore, in order to save every cent for the City, I took the pains to remit my return fare to Liverpool, in pounds, instead of paying it in New York in dollars, thereby saving the difference between \$105 and £21—some two or three dollars. And, still further to economize, I took the minimum rate on the crowded home trip, which only sufficed to secure me a close malodorous berth, where I could not sleep nor breathe; and while paying first-class fare, I had to lop down at night on the companion way instead of sleeping in a bed.

"But the principal items disallowed were not moneys actually spent by me, but requests for allowances as follows:

"First—Dr. Baruch, in order to help out our exhibit and to make it, as it was, the most complete exhibit at The Hague, kindly loaned the cabinet which had won prizes at the Paris, St. Louis, and Buffalo Expositions, exhibiting notably the wholesale bath of the New York Juvenile Asylum, 'which is the first of its kind in the world,' he writes. Also that 'they are beyond price,' and that he would not permit them, as he says, 'to leave my hands for any other purpose or

with any other man than yourself.' But Mr. Eustis says, and the Comptroller approves, that the City shall not pay the cost of returning this exhibit from Europe and of repairing the damages sustained in transit, viz.: \$14.50.

"Second—Greatly to my surprise and for the first time in all the meetings—thirty or more—which I have attended of the two science associations, I received an invitation from an entire stranger to share the hospitality of her home at Dundee during the meeting of the B. A. S. The hotels were crowded, and, at the best, it would not have been possible to secure at a public hostelry, such sumptuous entertainment as was freely given me by Mrs. Richard Henderson and her son, John R. Henderson, a captain of industry, conducting a large manufacturing establishment. For this unexpected and most graceful tribute to me as a delegate of this City, I ask that an appropriation, not so much as similar accommodations would have cost, be made to purchase a suitable testimonial, namely, \$30.

"The largest disallowed item, however, is for my salary during September 13-22, inclusive. President Steers approves of paying me this, but owing to the great and growing needs of our bath system and the meagreness of appropriations available for Brooklyn, Superintendent Woody maintains, perhaps with some reason, that the sum should be paid out of City funds, not out of the appropriation for Brooklyn. In fact, however, this argument only would cover eight days, for I made strenuous effort to reach home and resume my routine duties on September 21, which I did; but as I am now located at a desk in the general office of the Bureau of Public Buildings, instead of at an office of my own, which I had for many years till last June, a Clerk sitting near me reported that I had not been seen at my desk on September 21, which was true, because the office closed at noon; whereas I couldn't debark from the Campania till afternoon; but I at once took up my routine work. This item of ten days' salary amounts to \$70.83.

"In conclusion may I call your attention to matters of importance far transcending the few dollars involved in this long explanation, viz.: the consideration of the recommendations which I have made as a practical outcome of my long experience as Superintendent of Public Baths, supplemented by lessons of my trip to Europe.

"The growing importance of our bath system I think calls for a reorganization on an independent basis. There is no logical reason why the baths should be connected with the Bureau of Public Buildings. If the Superintendent of Public Baths had more power, he could better serve the City; and gymnasia and baths properly go together.

"Of the other recommendations, I stop now only to dwell on the suggestion of a swimming pool for Brooklyn—the only request out of seven which I have made for my own boro. The new aqueduct will soon provide abundant water. Our present pool has demonstrated its great utility and also its inadequacy for this great and growing boro. The City has for many years owned a plot on Nostrand avenue, bought as site for a bath, for which, however, no appropriation can yet be obtained. Either here or elsewhere let a bath worthy of the City and of our honored Mayor, be erected and named the Gaynor Bath. Why not? At Chicago is a bath named the Harrison bath, in honor of a martyred mayor. Our own Mayor narrowly escaped martyrdom, and when I sailed from Hoboken last August my thoughts reverted to that incident. So narrowly did I miss meeting Mayor Gaynor on that occasion that I arrived just as Commissioner Edwards was hauling down the assassin. I have never ceased to regret that I did not arrive five minutes earlier, when perhaps I might have seen and averted the pistol. By a singular coincidence Commissioner Edwards sat beside me while awaiting the call of the calendar of Board of Estimate while my report was pending.

"Enemies may oppose this proposition. Even the Comptroller's Clerk, Eustis, took occasion, gratuitously to sneer at this suggestion, which he read in my address delivered at The Hague; but I am confident that the overwhelming sense of the people will approve it. Respectfully yours,

(Signed) WILLIAM H. HALE.

From the foregoing it appears that Dr. Hale represented The City of New York, and in a measure the United States, during his wanderings in Europe from his desk in the Bureau of Public Buildings and Offices in the Borough of Brooklyn, with wisdom and dignity. We feel sure that the Examiner in the Department of Finance, of whom Dr. Hale speaks with some slight degree of scorn because the Examiner did not realize fully whose bill it was that he was auditing, would approve the payment of at least some of the items in dispute if he had another chance. But such an opportunity comes only once. It seems that the usual rules of audit of disbursements incurred by an ordinary envoy from the City or nation should be suspended in a case like this. For example, it may be that the item of \$14.50 for the return of the exhibit loaned by the New York Juvenile Asylum should be paid for by the Asylum and not by the City; but as Dr. Hale considers the exhibit to have added materially to his prestige while on this delicate mission for the City, and has decided that the City should pay for it, we are inclined to accept his judgment.

The kind act of his host and hostess in Dundee, for which the learned doctor is so grateful, very properly moves him to disburse \$30 of the City's money as a souvenir of his visit. His generous impulses do him credit. But the occasion being a unique one, the City has adopted no rule providing for such a disbursement, and, therefore, we must uphold the Examiner's course in respect to this item, though with extreme regret. His kind friends seized the opportunity to entertain the United States in the person of their guest.

We think also that the items of \$2.96 for typewriting Dr. Hale's report, and \$2.27 for plate of the pictures of the delegates at the convention, including the picture of Dr. Hale, for publication, should be allowed. They also add to the effect of Dr. Hale's mission.

It is painful, however, to see that Brooklyn does not realize the necessity of the visit of Dr. Hale to Dundee and his consequent absence from Brooklyn from September 13-22, inclusive, and therefore does not deem it a privilege to pay the \$70.83 for Dr. Hale's salary during such time. The visit to Dundee to attend the meeting of the British Association for the Advancement of Science put Dr. Hale "in a position to confer with the greatest intellectual leaders of Great Britain," which, of course, would reflect itself in the added importance of Dr. Hale in his work of urging the citizens of Brooklyn and other Boroughs of our imperial City to acquire the habit of bathing. Such a small charge as Dr. Hale makes for his expenditures is as nothing compared to the beneficial results which are sure to come from his tour. We think, therefore, that the Borough of Brooklyn should avail itself of the opportunity to pay the item of \$70.83, but if it elects to let the opportunity pass, we think the City should pay it.

We recommend, therefore, that the item of \$155.89, which was referred to this Committee for consideration, be paid, with the exception of the \$30 hereinbefore mentioned. Respectfully submitted,

CYRUS C. MILLER, President of the Borough of The Bronx, Chairman; JOHN PURROY MITCHELL, President of the Board of Aldermen, Committee.

The President of the Borough of Brooklyn agreed to submit a payroll voucher to the amount of \$70.83 to provide for Dr. Hale's salary during his absence.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby allows the sum of one hundred and twenty-five dollars and eighty-nine cents (\$125.89) for expenses incurred by Dr. William Henry Hale, Ph.D., Superintendent of Baths, Borough of Brooklyn, in representing The City of New York at the International Conference on Public Baths, held at Scheveningen, Holland, in August, 1912, which sum is in addition to the sum of two hundred and ninety-eight dollars and seventy-three cents (\$298.73) allowed on December 19, 1912, and is chargeable to the accounts for the year 1912, as follows:

PRESIDENT, BOROUGH OF BROOKLYN.		
Public Buildings and Offices.		
1931 Administration, Salaries, Regular Employees		\$70 83
BOARD OF ESTIMATE AND APPORTIONMENT.		
1390 Contingencies		55 06
		<hr/> \$125 89

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

Department of Water Supply, Gas and Electricity—Appointment of Committee on the Jerome Park Filtration Matter (Cal. No. 41).

The Secretary presented the following:

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, February 13, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On January 30, 1913, the Board of Estimate and Apportionment referred to the Corporate Stock Budget Committee the matter of the Jerome Park filters.

The Committee found that it could not pass adequately upon the questions involved without having the advice of engineering experts. Accordingly, an Advisory Commission of fire Engineers was appointed. The Commission was made up as follows:

Nicholas S. Hill, John H. Gregory, E. P. Goodrich, John H. Frazee, Amos L. Schaeffer.

Pending a thorough study of all the questions involved, we recommend that the Commissioner of Water Supply, Gas and Electricity be requested not to award the contract for Jerome Park filters. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; GEORGE McANENY, President, Borough of Manhattan, Corporate Stock Budget Committee.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves the action of the Corporate Stock Budget Committee in appointing an Advisory Commission of engineers to pass upon questions in connection with Jerome Park filters.

Resolved, That all expenses incurred in this inquiry shall be charged against the Contingency Fund of the Board of Estimate and Apportionment.

Resolved, That the Secretary of this Board be directed to send a communication to the Commissioner of Water Supply, Gas and Electricity notifying him that it is the wish of this Board that no award of contract for the Jerome Park filters shall be made pending final report by the Corporate Stock Budget Committee.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The following matters not on the Calendar for this day were considered by unanimous consent.

Department of Docks and Ferries—Plans for Terminal Facilities and Equipment Thereof on the North River Waterfront (No. 42).

The Secretary presented:

Communication from the Commissioner of Docks submitting plans in detail for terminal facilities and equipment thereof, to be located on the North River waterfront, between Dey street and West 60th street, Manhattan, and requesting authority to adopt the same.

Which was referred to the Terminal Committee, consisting of the President, Board of Aldermen, the Comptroller, the President, Borough of Manhattan, and the Chief Engineer of the Board.

Department of Bellevue and Allied Hospitals—Issue of \$42,869.46 Special Revenue Bonds and Approval of Salary Schedules (No. 43).

The Secretary presented the following:

In the Board of Aldermen.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of twenty-five thousand dollars (\$25,000), the proceeds whereof to be used by the Trustees of Bellevue and Allied Hospitals for the purpose of meeting deficiencies in 1912 accounts.

All obligations contracted for hereunder to be incurred on or before December 31, 1912.

Adopted by the Board of Aldermen January 6, 1913, three-fourths of all the members voting in favor thereof. P. J. SCULLY, Clerk.

In the Board of Aldermen.

Received from his Honor the Mayor January 21, 1913, without his approval or disapproval thereof; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of seventeen thousand nine hundred and sixty dollars and fifty-one cents (\$17,960.51), the proceeds whereof to be used by the Trustees of Bellevue and Allied Hospitals for the purpose of meeting deficiencies in 1912 accounts.

All obligations contracted for hereunder to be incurred on or before December 31, 1912.

Adopted by the Board of Aldermen January 6, 1913, three-fourths of all the members voting in favor thereof.

Received from his Honor the Mayor January 21, 1913, without his approval or disapproval thereof; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it. P. J. SCULLY, Clerk.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, February 10, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On January 6, 1913, the Board of Aldermen adopted two resolutions requesting \$25,000 and \$17,960.51, respectively, in special revenue bonds for meeting deficiencies in 1912 accounts, for Bellevue and Allied Hospitals. In connection therewith I report as follows:

On December 10, 1912, the Board of Trustees requested the issue of \$51,760.51 in special revenue bonds. The Finance Committee of the Board of Aldermen recommended an allowance of \$25,000, and subsequently recommended an additional \$17,960.51, both items being approved by the Board on the same date. It is proposed to make up the rest of the deficiency by the transfer of balances in 1912 accounts of other Departments.

The appropriations to the six accounts involved, the liabilities, and the estimated deficit to December 31, 1912, were as follows:

Account.	Appropriation, including Revenue Bonds.	Liabilities.	Deficit, December 31, 1912.
202 Bellevue Hospital, operation, salaries temporary employees	\$232,756 50	\$235,415 55	\$2,659 05
221 Supplies and materials, operation	538,700 00	557,510 32	18,810 32

The General Medical Superintendent states the following:

"The deficit of \$2,568 in No. 202, Bellevue Hospital, Operation, Salaries Temporary Employees, was unavoidable. The Board of Trustees, owing to the great number of patients in Bellevue Hospital in 1912, was forced to employ additional Nurses and Helpers to provide for the proper care of the patients. Certain of these employees are still unpaid for their services, and the request is made to secure the necessary funds.

"The deficiency of \$23,788.19 in Nos. 221 and 222, the supplies and materials accounts, was caused by the increased census of patients in the hospitals in 1912, as well as the advanced cost of food supplies.

"The deficit of \$20,660.93 in No. 223, the account for repairs and replacements by contract or open order, resulted from the making of many repairs absolutely necessary in the old hospital buildings, which are fast decaying. The other smaller deficits were caused chiefly by insufficient appropriations."

The census of patients for the first nine months of 1912, compared with the first nine months of 1911, follows herewith:

	Days Treatment, Nine Months, 1911.	Days Treatment, Nine Months, 1912.
Bellevue Hospital	319,405	353,323
Gouverneur Hospital	43,207	48,573
Harlem Hospital	47,262	47,423
Fordham Hospital	44,924	46,867
	454,798	496,186

The following table contrasts food costs in 1911 and 1912:

Articles.	Cost at 1912 Prices.	Cost at 1911 Prices.	Increase, Per Cent.
Meats	\$67,238 05	\$60,839 88	9.51
Fruits and vegetables	18,558 00	18,162 12	2.13
Dairy products	64,732 70	57,411 12	11.00
Canned fruits	12,417 14	10,880 93	12.37
Miscellaneous groceries	11,660 59	10,470 28	10.21
	\$174,606 48	\$157,764 33	9.64

Including additional employees provided for, the cost for supplies for 1912 was 8.38 per cent. over 1911.

In the 1912 schedule, No. 202, Salaries Temporary Employees, Bellevue Hospital, Operation, provision was made for the payment of trained nurses, at \$600 per annum, for the period of 1,273 months. The one-twelfth rule of this Board does not apply to the monthly expenditure in a Temporary Employees Schedule. On December 1, 1912, the \$63,650 appropriated for the \$600 nurses was exhausted. Therefore thirty nurses, at \$50 a month, failed to receive their salaries for December. The same applies to the additional helpers employed.

A deficiency of \$2,568 was caused by the payment from No. 202 of the additional nurses and helpers appointed during the year. The allowance of funds in bulk for the payment of nurses and helpers was intended to permit of elasticity to cover the periods when the census of patients was high. If the Board of Trustees exercised greater care in the distribution of temporary employees, funds then might be available at the end of the year for payment of all employees.

The amount requested for payment of the nurses and helpers was \$2,659.05. Subsequent to the request \$91.05 was transferred from another account to No. 202, leaving a net deficit of \$2,568.

I recommend the adoption of the attached resolutions granting the requests to the necessary amount of \$42,869.46. Respectfully,

WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the two resolutions adopted by the Board of Aldermen on January 6, 1913, requesting issues of special revenue bonds in the sums of twenty-five thousand dollars (\$25,000), and seventeen thousand nine hundred and sixty dollars and fifty-one cents (\$17,960.51), making a total of forty-two thousand nine hundred and sixty dollars and fifty-one cents (\$42,960.51), the proceeds whereof to be used by the Trustees of Bellevue and Allied Hospitals for the purpose of meeting deficiencies in 1912 accounts, all obligations contracted for thereunder to have been incurred on or before December 31, 1912; be and the same are hereby approved of and concurred in by the Board of Estimate and Apportionment to the extent of forty-two thousand eight hundred and sixty-nine dollars and forty-six cents (\$42,869.46), the amount to be applied for the same purposes as 1912 accounts, as follows:

DEPARTMENT OF FINANCE.

VOUCHERS MADE READY FOR PAYMENT IN DEPARTMENT OF FINANCE, TUESDAY, FEBRUARY 25, 1913.

Below is a list by Departments of vouchers made ready for payment in the Department of Finance on Tuesday, February 25, 1913, showing the voucher number (this number should always be used when making inquiries in the Department of Finance in regard to payments in transit); the date of the claimant's bill or bills (listed below as "invoice dates"); the date when the voucher is received in the Department of Finance, the name of the payee and the amount. Where there are two or more invoices on the same voucher, the dates of the earliest and latest are given. Warrants for these vouchers are mailed to claimants unless they are final payments on contracts, payments for real property or unless payment is prevented by liens or other legal restraint. Final payments on contract are marked by an asterisk (*). Payments withheld because of liens or assignments are marked by two asterisks (**).

Minutes of Meetings of Local Boards.
A meeting of the Local Board of the Harlem District was held Tuesday, February 11, 1913, at 11.10 a. m., in the Council Chamber of the City Hall.

Present: Aldermen Lieberman and Delaney, and Acting President Frothingham.

The Acting President presented for the consideration of the Board the matter of constructing a sewer in 1st ave., between 95th and 106th sts., and outlet sewers in 96th and 102d sts., between the Harlem River and 1st ave. Mr. C. W. Schmidtke, representing the Flynn Estate, owners of the property on the s. e. corner of 102d st. and 1st ave., appeared and objected to the construction of a sewer in 102d st., and requested that a route through 101st st. be selected instead. Mr. John Poth appeared and objected to the construction of any sewers under the sidewalks on 1st ave., and requested that if the work was necessary, the new sewer be built in the same location as the existing sewer. He also favored a route through 101st st., rather than through 102d st. On motion the matter was laid over for two weeks.

The Acting President presented for the consideration of the Board the matter of fencing vacant lot at the n. e. corner of Madison ave. and 108th st. Mr. Edward A. Lahm appeared in favor. On motion of Alderman Delaney a resolution was adopted providing for this work.

The Acting President presented for the consideration of the Board the matter of fencing vacant property at Nos. 304 to 310 E. 95th st. A representative of Christian Goetz, an adjoining owner, appeared in favor. On motion of Alderman Delaney a resolution was adopted providing for this work.

On motion the Board adjourned.

LOUIS GRAVES, Secretary.

Present: Alderman Brush and Acting President Frothingham.

The Acting President presented for the consideration of the Board the matter of paving 129th st., between Amsterdam and Convent ayes.

On motion this matter was laid over for two weeks pending a report from the Bureau of Highways.

On motion the Board adjourned.

LOUIS GRAVES, Secretary.

A meeting of the Local Board of the Kips Bay District was held on Tuesday, February 11, 1913, at 11.15 a. m., in the Council Chamber of the City Hall.

Present: Aldermen Kenneally and Eagan, and Acting President Frothingham.

The Acting President presented for the consideration of the Board the matter of reconstructing sewer in 14th st., between 1st ave. and the East River. Mr. Goodman, President of the Greater New York Taxpayers Association, appeared and requested an adjournment of four weeks in order that his association might have the benefit of expert advice as to the necessity for this work. Laid over.

The Acting President presented the matter of fencing vacant lots at 235 to 241 E. 50th st. Mr. Berlinger appeared in favor. On motion of Alderman Eagan, this matter was laid over for two weeks in order that the owner might have an opportunity of being heard.

On motion the Board adjourned.

LOUIS GRAVES, Secretary.

A meeting of the Local Board of the Bowery District was held on Tuesday, February 11, 1913, at 11.25 a. m., in the Council Chamber of the City Hall.

Present: Aldermen White and Cumiskey, and Acting President Frothingham.

The Acting President presented for the consideration of the Board the matter of regulating, grading, curbing and paving the widened portion of Canal st., between the Bowery and Chrystie st.

On motion of Alderman White a resolution was adopted initiating proceedings for this work.

On motion the Board adjourned.

LOUIS GRAVES, Secretary.

A meeting of the Local Board of the Washington Heights District was held Tuesday, February 11, 1913, at 11.00 a. m., in the Council Chamber of the City Hall.

Present: Aldermen Bolles, Boschen, Marks and Acting President Frothingham.

The Acting President presented for the consideration of the Board the matter of fencing vacant property at the s. e. corner of Broadway and 146th st. On motion of Alderman Bolles, this matter was laid over for two weeks.

The Acting President presented for the consideration of the Board the matter of laying out a widening and extension of Fort Washington ave., at its junction with Broadway near Sherman ave. Mr. R. P. Bolton, representing the Washington

Heights Taxpayers Association, appeared in favor upon condition that the City or the Borough bear the entire expense of the proposed improvement. A representative of the owner of the property to be taken appeared and stated that he was not opposed to the improvement, but was opposed to any local assessment therefor. On motion of Alderman Boschen a resolution was adopted recommending the improvement upon condition that the entire expense be borne by the Borough of Manhattan.

The Acting President presented for the consideration of the Board the matter of regulating and grading Park Terrace West through Isham Park. Mr. R. P. Bolton, representing the Washington Heights Taxpayers Association, appeared in favor. On motion of Alderman Boschen a resolution was adopted initiating proceedings for this work.

The Acting President presented for the consideration of the Board the matter of reconstructing 134th st., between Broadway and Riverside Drive. On motion this was laid over for two weeks for the purpose of having it properly advertised.

On motion the Board adjourned.

LOUIS GRAVES, Secretary.

Notice to Property Owners.

NOTICE TO PROPERTY OWNERS.

IN PURSUANCE OF SECTION 1018 OF THE Greater New York Charter, the Comptroller of The City of New York hereby gives public notice to all persons, owners of property, affected by the following assessment for LOCAL IMPROVEMENTS IN THE BOROUGH OF MANHATTAN:

TWENTY-SECOND WARD, SECTION 5. RESTORING ASPHALT PAVEMENT, in front of premises at the northwest corner of 5th ave. and 56th st. Area of assessment affects Lot 34, in Block 1272.

The above assessment was certified to the Collector of Assessments and Arrears, under the provisions of section 391 of the Greater New York Charter.

—that the same was entered on February 21, 1913, in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, and unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment, interest will be collected thereon, as provided in section 1019 of the Greater New York Charter.

Said section provides, in part, "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment, to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment, from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides * * * "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, Room H, 280 Broadway, Borough of Manhattan, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before April 22, 1913, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessment became a lien to the date of payment.

CORPORATION SALE BY SEALED BIDS OF THE LEASE OF CERTAIN REAL ESTATE.

UPON THE AUTHORIZATION OF THE Commissioners of the Sinking Fund, and pursuant to a resolution adopted by them at a meeting held March 13, 1912, the Comptroller of The City of New York will sell by sealed bids on

TUESDAY, MARCH 4, 1913.

at 11 a. m., in Room K, 280 Broadway, Borough of Manhattan, the lease for a period of five years, commencing April 1, 1913, of the premises belonging to the Corporation of The City of New York, situated on the east side of Porter ave., the north side of Harrison place and the south side of Ingraham st., plot 200 feet by 200 feet, in the Borough of Brooklyn.

The Comptroller will receive sealed bids for the lease of the said parcel of land for the said period at the minimum or upset price of \$1,400 per annum, payable quarterly in advance, and the said sale will be made upon the following

TERMS AND CONDITIONS:

Each bid must be accompanied by cash or a certified check for twenty-five per cent. of the amount of the yearly rental offered; the amount so paid for one quarter's rent shall be forfeited if the successful bidder does not execute the lease when notified that it is ready for execution.

He will also be required to give an undertaking in the amount of the annual rental bid with two sufficient sureties to be approved by the Comptroller, conditioned for the payment of the rent quarterly in advance and for the performance of the covenants and terms of the lease.

No person shall be received as lessee or surety who is a delinquent on any former lease from the Corporation, and no bid shall be accepted from any person who is in arrears to the corporation upon debt or contract, or who is a defaulter as surety, or otherwise, upon any obligation to the Corporation, as provided by law.

The lease will be in the usual form of leases of like property, and will contain, in addition to other terms, covenants and conditions, as follows:

1. A clause providing that the lessee shall pay the usual rates for water, per meter measurement, and comply with the rules and regulations of the Department of Water Supply, Gas and Electricity.

2. A clause providing that the lessee shall not make any improvements to the property except with the consent and approval of the Comptroller.

3. A clause providing that during the term of the lease the lessee shall comply with all the laws and ordinances of The City of New York.

4. A clause providing that all improvements made on or to the property by the lessee during the period of the lease shall become the property of The City of New York at the expiration of said lease.

The Comptroller shall have the right to reject any or all bids if deemed to be to the interest of The City of New York.

CORPORATION SALE BY SEALED BIDS OF THE LEASE OF CERTAIN REAL ESTATE AND APPURTENANCES THEREON.

UPON THE AUTHORIZATION OF THE COM- missioners of the Sinking Fund, and pursuant to a resolution adopted by them at a meeting held March 13, 1912, the Comptroller of The City of New York will sell by sealed bids on

MONDAY, MARCH 3, 1913.

at 11 a. m., in Room K, 280 Broadway, Borough of Manhattan, the lease for a period of five years, commencing April 1, 1913, of the premises belonging to the Corporation of The City of New York, situated between Girard ave. and Walton ave., distant 189 feet north of E. 167th st plot 200 feet by 247 feet 1¼ inches, irregular, in the Borough of The Bronx.

The Comptroller will receive sealed bids for the lease of the said parcel of land for the said period at the minimum or upset price of \$200 per annum, payable quarterly in advance, and the said sale will be made upon the following

TERMS AND CONDITIONS:

Each bid must be accompanied by cash or a certified check for twenty-five per cent. of the amount of the yearly rental offered; the amount so paid for one quarter's rent shall be forfeited if the successful bidder does not execute the lease when notified that it is ready for execution.

He will also be required to give an undertaking in the amount of the annual rental bid, with two sufficient sureties to be approved by the Comptroller, conditioned for the payment of the rent quarterly in advance and for the performance of the covenants and terms of the lease.

No person shall be received as lessee or surety who is a delinquent on any former lease from the corporation, and no bid shall be accepted from any person who is in arrears to the corporation upon debt or contract, or who is a defaulter as surety, or otherwise, upon any obligation to the corporation, as provided by law.

The lease shall be in the usual form of leases of like property, and will contain, in addition to other terms, covenants and conditions as follows:

1. A clause providing that the lessee shall pay the usual rates for water, per meter measurement, and comply with the rules and regulations of the Department of Water Supply, Gas and Electricity.

2. A clause providing that the lessee shall not make any improvements to the property except with the consent and approval of the Comptroller.

3. A clause providing that during the term of the lease the lessee shall comply with all the laws and ordinances of The City of New York.

4. A clause providing that all improvements made on or to the property by the lessee during the period of the lease shall become the property of The City of New York at the expiration of said lease.

The Comptroller shall have the right to reject any or all bids if deemed to be to the interest of The City of New York.

9. FOR REGULATING AND REPAVING WITH SHEET ASPHALT, HEAVY TRAFFIC MIXTURE WITH PORTLAND CEMENT FILLER, WITH CLOSE BINDER ON A CONCRETE FOUNDATION THE ROADWAY OF 40TH ST. FROM WEST SIDE PARK AVE. TO THE EAST SIDE 5TH AVE.

Engineer's estimate of the amount of work to be done:

2,960 square yards of asphalt pavement, heavy traffic mixture with Portland cement filler, including binder course.

10 square yards of asphalt pavement, including binder course, at intersecting streets (no guarantee).

10 square yards of asphalt block pavement at intersecting streets (no guarantee).

580 cubic yards of Portland cement concrete.

30 linear feet of new headerstone furnished and set.

1,400 linear feet of new 5-inch bluestone curbstone furnished and set.

350 linear feet of old bluestone curbstone redressed, rejointed and reset.

4 standard heads and covers, complete, for sewer manholes, furnished and set.

2 sewer catch basin heads to be adjusted to grade.

10 cubic yards of filling to furnish.

10 cubic yards of earth excavation.

The time allowed for doing and completing the above work will be twenty (20) working days.

The amount of security required will be \$2,500 and the amount of deposit accompanying the bid shall be five (5) per cent. of the amount of security.

10. FOR REGULATING AND REPAVING WITH SHEET ASPHALT, HEAVY TRAFFIC MIXTURE WITH PORTLAND CEMENT FILLER, WITH CLOSE BINDER ON A CONCRETE FOUNDATION THE ROADWAY OF 40TH ST. FROM WEST SIDE 6TH AVE. TO THE EAST SIDE 8TH AVE.

Engineer's estimate of the amount of work to be done:

5,210 square yards of asphalt pavement, heavy traffic mixture with Portland cement filler, including binder course.

10 square yards of asphalt pavement, including binder course, on intersecting streets (no guarantee).

1 sewer catch basin head to be adjusted to grade.

1,030 cubic yards of Portland cement concrete.

2,500 linear feet of new 5-inch bluestone curbstone furnished and set.

620 linear feet of old bluestone curbstone redressed, rejointed and reset.

10 standard heads and covers, complete, for sewer manholes furnished and set.

20 cubic yards of earth excavation.

The time allowed for doing and completing the above work will be twenty-five (25) working days.

The amount of security required will be \$4,000 and the amount of deposit accompanying the bid shall be five (5) per cent. of the amount of security.

11. FOR REGULATING AND REPAVING WITH SHEET ASPHALT, HEAVY TRAFFIC MIXTURE WITH PORTLAND CEMENT FILLER, WITH CLOSE BINDER ON A CONCRETE FOUNDATION THE ROADWAY OF 44TH ST. FROM WEST SIDE 6TH AVE. TO THE EAST SIDE 11TH AVE.

Engineer's estimate of the amount of work to be done:

13,680 square yards of asphalt pavement, heavy traffic mixture with Portland cement filler, including binder course.

50 cubic yards of filling to furnish.

50 cubic yards of earth excavation.

2,690 cubic yards of Portland cement concrete.

180 linear feet of new headerstone furnished and set.

6,560 linear feet of new 5-inch bluestone curbstone furnished and set.

1,640 linear feet of old bluestone curbstone redressed, rejointed and reset.

25 standard heads and covers, complete, for sewer manholes furnished and set.

3 sewer catch basin heads to be adjusted to grade.

The time allowed for doing and completing the above work will be forty-five (45) working days.

The amount of security required will be \$10,000 and the amount of deposit accompanying the bid shall be five (5) per cent. of the amount of security.

12. FOR REGULATING AND REPAVING WITH SHEET ASPHALT, HEAVY TRAFFIC MIXTURE WITH PORTLAND CEMENT FILLER, WITH CLOSE BINDER ON A CONCRETE FOUNDATION THE ROADWAY OF 47TH ST. FROM WEST SIDE 8TH AVE. TO THE EAST SIDE 11TH AVE.

Engineer's estimate of the amount of work to be done:

8,300 square yards of asphalt pavement, heavy traffic mixture with Portland cement filler, including binder course.

1,630 cubic yards of Portland cement concrete.

150 linear feet of new headerstone furnished and set.

3,990 linear feet of new 5-inch bluestone curbstone furnished and set.

1,000 linear feet of old bluestone curbstone redressed, rejointed and reset.

26 standard heads and covers, complete, for sewer manholes, furnished and set.

The time allowed for doing and completing the above work will be thirty (30) working days.

The amount of security required will be \$5,000 and the amount of deposit accompanying the bid shall be five (5) per cent. of the amount of security.

13. FOR REGULATING AND REPAVING WITH SHEET ASPHALT, HEAVY TRAFFIC MIXTURE WITH PORTLAND CEMENT FILLER, WITH CLOSE BINDER ON A CONCRETE FOUNDATION THE ROADWAY OF 53D ST. FROM WEST SIDE OF PARK AVE. TO THE EAST SIDE OF 6TH AVE.

Engineer's estimate of the amount of work to be done:

6,090 square yards of asphalt pavement, heavy traffic mixture with Portland cement filler, including binder course.

10 square yards of asphalt pavement, including binder course, on intersecting streets (no guarantee).

1 sewer catch basin head to be adjusted to grade.

1,200 cubic yards of Portland cement concrete.

30 linear feet of old headerstone to reset.

1 sewer catch basin head to be adjusted to grade.

The time allowed for doing and completing the above work will be twenty-five (25) working days.

The amount of security required will be \$3,500 and the amount of deposit accompanying the bid shall be five (5) per cent. of the amount of security.

The bidder will state the price of each item or article contained in the specifications or schedules herein contained or hereto annexed, per foot, yard or other unit of measure or article, by which the bids will be tested. The extensions must be made and footed up.

Blank forms and specifications may be had at the office of the Commissioner of Public Works, 13 to 21 Park row, Bureau of Highways, Room 1611, Borough of Manhattan.

BOARD OF ESTIMATE AND APPOINTMENT.

Public Improvement Matters.

PUBLIC NOTICE IS HEREBY GIVEN THAT the Board of Estimate and Apportionment, in pursuance of a resolution duly adopted by said Board on the 20th day of February, 1913, in accordance with the provision of chapter 776 of the Laws of 1911, known as the New York City Freight Terminals Act, will hold a PUBLIC HEARING in Room 16 of the City Hall, in the Borough of Manhattan, City of New York, at 10.30 o'clock in the forenoon on the 13th day of March, 1913, relative to the application of the Commissioner of Docks to the Board of Estimate and Apportionment to have said Board certify the plan for terminal facilities and equipment thereof and therefor, to be located upon lands and lands under water, situate, lying and being on, adjacent, or near to the shores of the East River, Buttermilk Channel, Gowanus Bay and Upper Bay, between the foot of Fulton street and the foot of 66th street, Borough of Brooklyn, City of New York, which plan is dated January 30, 1913, and was heretofore duly adopted by the Commissioner of Docks on February 20, 1913, under authority of a resolution of the Board of Estimate and Apportionment adopted on February 20, 1913, in pursuance of section 3 of chapter 776 of the Laws of 1911, and is more particularly described as follows:

1. A double track terminal freight railway of standard gauge, with the necessary sidings and connections, is to be provided between Fulton street and 66th street, and more particularly described as follows:

Beginning at a point south of and adjoining Fulton street coincident with the present position of the tracks of the New York Dock Company, and running thence southwardly along the said tracks on the property of the New York Dock Company to a point distant about 150 feet south of the southerly line of Joralemon street; thence running southwardly and southeastwardly across the property of the New York Dock Company and other private property to a point in Furman street near its intersection with Atlantic avenue;

thence southeastwardly across Furman street and Atlantic avenue and across private property at the southwesterly corner of Atlantic avenue and Columbia street to Columbia street; thence southwardly along the centre line of Columbia street and across private property at the northwesterly corner of Sedgwick street to Sedgwick street; thence westwardly along the centre line of Sedgwick street and across private property at the southeasterly corner of Van Brunt street to Van Brunt street; thence southwardly along the centre line of Van Brunt street and across private property in the block bounded by Hamilton avenue, President street, Van Brunt street and Carroll street to Hamilton avenue about opposite Imlay street; thence southwardly across Hamilton avenue to Imlay street; thence southwardly along the centre line of Imlay street and across private property at the northwesterly corner of Pioneer street to Pioneer street; thence across Pioneer street and across private property at the southeasterly corner of Pioneer street and Conover street to Conover street; thence across Conover street and across private property at the northwesterly corner of Conover street and King street to King street; thence westwardly along the centre line of King street and across private property at the southeasterly corner of Ferris street to Ferris street; thence southwardly along the centre line of Ferris street to Coffey street; thence across private property southwardly and southeastwardly to Van Dyke street; thence eastwardly along the centre line of Van Dyke street to Orsego street; thence still eastwardly across Orsego street and over private property, and curving to the left, to the centre line of Halleck street; thence still eastwardly along the centre line of Halleck street and its prolongation across the Henry street slip to Smith street; thence deflecting slightly to the right, crossing Smith street and passing over private property and across Gowanus Canal and curving to the right to meet the prolongation northwardly of the centre line of 2d avenue, as laid out south of 39th street; thence southwardly along the prolongation northwardly of the centre line of 2d avenue to about 27th street; thence southwardly across private property and the property of The City of New York, curving first to the right and then to the left, to a point near 24th street, a line distant 20 feet westwardly from and parallel with the westerly line of 2d avenue; thence southwardly across the property of The City of New York and along the said line distant 20 feet westwardly from and parallel with the westerly line of 2d avenue to a point between 36th and 37th streets; thence southwardly and southwesterly across property of The City of New York, curving first to the left and then to the right, to the centre line of 2d avenue at or about 38th street; thence southwardly along the centre line of 2d avenue to a point at or near 65th street; thence southwardly curving to the left and across private property, to a connection with the New York Connecting Railroad.

A branch of the above described line is to be laid out as follows:

Beginning at a point on the aforesaid line distant 20 feet westwardly from and parallel with the westerly line of 2d avenue in the block between 36th street and 37th street; thence running southwardly, westwardly, and southwesterly across property of The City of New York and across private property to meet the extension northwardly of the centre line of 1st avenue at or near 38th street; thence southwardly across property of The City of New York and across private property, and along the centre line of 1st avenue and the prolongation thereof northwardly to 62d street; thence southwardly and southeastwardly and curving to the left and across private property to 63d street; thence southeastwardly along the centre line of 63d street and curving to the right and crossing private property to the centre line of 2d avenue to meet the line heretofore described in 2d avenue.

The above described lines are to follow the surface excepting from a point at or near Joralemon street to a point near Bowne street, and from a point near 37th street to a point in 1st avenue at or near 41st street; these two sections of the railroad are to be elevated to such extent as may be required to permit of carrying Atlantic avenue and Hamilton avenue, together with all of the intervening streets under it, and also to secure adequate clearance over the existing tracks in and near 38th street and 39th street on the northerly prolongation of 1st avenue.

A connection with the existing tracks of the New York Dock Company is to be provided by a line in Van Brunt street meeting the surface grade in the vicinity of Harrison street; on the line of Pioneer street, and on the line of Conover street and Commercial wharf.

2. Terminal stations are to be laid out to include the block bounded by King street, Conover street, Sullivan street and Ferris street; the block bounded by 1st avenue, 59th street, 2d avenue and 60th street; the area bounded by the southerly line of 28th street prolonged, the westerly line of 2d avenue, the northerly line of 36th street prolonged, and a line distant 400 feet westwardly from and parallel with the westerly line of 2d avenue; and also the area bounded by the southerly line of 57th street, the westerly line of 1st avenue, the northerly line of 63d street, and a line distant 500 feet westwardly from and parallel with the westerly line of 1st avenue.

3. A terminal way and terminal station is to be laid out to comprise the following:

Beginning at the northeasterly corner of Orsego street and Halleck street, and running thence northwardly along the easterly side of Orsego street to the southerly side of Bay street; thence eastwardly along the southerly side of Bay street to the easterly side of Columbia street; thence northwardly along the easterly side of Columbia street to the southerly side of Creamer street; thence eastwardly along the southerly side of Creamer street to the easterly side of Hicks street; thence northwardly along the easterly side of Hicks street to the southerly side of Bush street; thence eastwardly along the southerly side of Bush street to the easterly side of Henry street; thence northwardly along the easterly side of Henry street to the southerly side of West 9th street; thence eastwardly along the southerly side of West 9th street to the westerly side of Clinton street; thence southwardly along the westerly side of Clinton street to the southerly side of Creamer street; thence eastwardly along the southerly side of Creamer street to the westerly side of Court street; thence southwardly along the westerly side of Court street to the southerly side of Halleck street; thence westwardly along the southerly side of Halleck street to a point 150 feet east of the easterly side of Clinton street; thence southerly on a line 150 feet east of the easterly side of Clinton street, and parallel therewith, to the southerly side of Percival street; thence westwardly along the southerly side of Percival street to the easterly side of Clinton street; thence southwardly along the easterly side of Clinton street to the southerly side of Bryant street; thence westwardly along the southerly side of Bryant street, as laid out east of Clinton street, and the westerly prolongation thereof to the westerly boundary of the land and land under water recently acquired or to be acquired by the State of New York for a barge canal terminus; thence northwardly in a straight line to the northeasterly corner of Orsego street and Halleck street, the point or place of beginning.

4. Areas for transfer bridges are to be laid out as follows:

A—At the foot of Conover street to com-

prise the territory bounded and described as follows:

Beginning at a point in the southwesterly side of Van Dyke street, distant 190 feet southeastwardly from the southeasterly side of Van Brunt street; and running thence southwardly and parallel with Van Brunt street to the northwesterly side of Bead street; thence northwardly and along the northwesterly side of Bead street 130 feet; thence westwardly to a point in the northwesterly side of Van Brunt street 70 feet southwardly from the westerly corner of Van Brunt street and Bead street; thence southwardly and along the northwesterly side of Van Brunt street and its southwesterly prolongation to the pierhead line established by the Secretary of War March 19, 1909; thence northwardly and northwardly and along the pierhead line established March 19, 1909, to its intersection with the westerly prolongation of the northerly line of the grant made by the State of New York to Divine Burtis September 10, 1885; thence eastwardly along said northerly line of the grant to Divine Burtis and its easterly prolongation to its intersection with a line drawn 80 feet northwest of and parallel with the northwesterly side of Conover street; thence northwardly and parallel with and 80 feet northwardly from the northwesterly side of Conover street, to its intersection with the southwesterly side of Van Dyke street; thence southeastwardly and along the southwesterly side of Van Dyke street to a point 190 feet southeast of the southeasterly line of Van Brunt street, the point or place of beginning.

B—At or near the foot of Fulton street to comprise the territory bounded and described as follows:

Beginning at the intersection of a line distant 100 feet northwardly from and parallel with the southerly line of Fulton street as laid out west of Furman street with a line distant 66 feet westwardly from and parallel with the westerly line of Furman street, and running thence southwardly and parallel with the westerly line of Furman street a distance of 470 feet; thence westwardly in a course parallel with the aforesaid southerly line of Fulton street to the intersection with the bulkhead line as approved by the Secretary of War on March 4, 1890; thence northwardly in a straight line to a point on the pierhead line established by the Secretary of War in 1902, distant 190 feet northwardly from the angle point in said pierhead line near the prolongation of Vine street; thence northwardly and along the said pierhead line to its intersection with a line parallel with and distant 100 feet northwardly from the southerly line of Fulton street as laid out west of Furman street; thence eastwardly along the aforesaid line parallel with the southerly side of Fulton street, to the point or place of beginning.

5. Private property is to be acquired to accommodate the railroad where it falls outside of the street lines, as follows:

A—Beginning at the northwesterly corner of Atlantic avenue and Furman street and running thence westwardly along the northerly side of Atlantic avenue a distance of 60 feet; thence northwardly along a line 60 feet west of the westerly line of Furman street and parallel thereto a distance of 70 feet 3 inches; thence northwardly in a straight line to a point 390 feet westwardly from the westerly side of Furman street, measured at right angles thereto, and 380 feet northwardly from the northerly line of Atlantic avenue, measured at right angles thereto; thence northwardly on a line street and parallel thereto a distance of 150 feet; thence eastwardly on a line 30 feet right angles to Furman street a distance of 30 feet; thence southwardly in a straight line to a point distant 340 feet westwardly from the westerly side of Furman street, measured at right angles thereto, and 420 feet north of the northerly side of Atlantic avenue, measured at right angles thereto; thence southeastwardly in a straight line to a point 290 feet westwardly from the westerly side of Furman street, measured at right angles thereto, and 335 feet northwardly from the northerly side of Atlantic avenue, measured at right angles thereto; thence in a straight line to a point in a line 70 feet 3 inches north of the northerly side of Atlantic avenue and parallel therewith, and distant 18 feet westwardly from the westerly side of Furman street, measured at right angles thereto; thence eastwardly along a line 70 feet 3 inches north of the northerly side of Atlantic avenue and parallel therewith, to the westerly side of Furman street; thence southwardly along the westerly side of Furman street a distance of 70 feet 3 inches to the northwesterly corner of Atlantic avenue and Furman street, the point or place of beginning.

B—Property at the southwesterly corner of Atlantic avenue and Columbia street, more particularly described as follows:

Beginning at the southwesterly corner of Atlantic avenue and Columbia street, and running thence southwardly along the westerly side of Columbia street to a point distant 130 feet southwardly from the southerly line of Atlantic avenue; thence westwardly along a line parallel with the southerly line of Atlantic avenue to a point distant 70 feet from the westerly line of Columbia street; thence northwardly along a line parallel with the westerly line of Columbia street a distance of 50 feet; thence westwardly along a line parallel with the southerly line of Atlantic avenue a distance of 23 feet 4 inches; thence northwardly along a line parallel with the westerly line of Columbia street to its intersection with the southerly line of Atlantic avenue; thence eastwardly and along the southerly line of Atlantic avenue to the southwesterly corner of Atlantic avenue and Columbia street, the point or place of beginning.

C—The property lying west of Columbia street, between Irving street and Sedgwick street, more particularly described as follows:

Beginning at the southwesterly corner of Columbia street and Irving street, and running thence southwardly along the westerly side of Columbia street to the northwesterly corner of Columbia street and Sedgwick street; thence westwardly along the northerly side of Sedgwick street a distance of 180 feet; thence northwardly along a line parallel with the westerly line of Columbia street a distance of 100 feet; thence eastwardly along a line parallel with the northerly line of Sedgwick street a distance of 80 feet; thence northwardly and along a line parallel with the westerly line of Columbia street and 100 feet distant therefrom to its intersection with the southerly line of Irving street; thence eastwardly and along the southerly side of Irving street to the southwesterly corner of Irving street and Columbia street, the point or place of beginning.

D—The property lying between Sedgwick street and Degraw street on the easterly side of Van Brunt street, more particularly described as follows:

Beginning at the southeasterly corner of Van Brunt street and Sedgwick street and running thence eastwardly along the southerly side of Sedgwick street a distance of 187 feet 6 inches; thence southwardly on a line parallel with the easterly side of Van Brunt street a distance of 100 feet; thence westwardly on a line parallel with the southerly side of Sedgwick street a distance of 111 feet 6 inches; thence southwardly on a line parallel with the easterly line of Van Brunt street a distance of 40 feet; thence westwardly on a line parallel with the southerly line

of Sedgwick street a distance of 56 feet; thence southwardly to a point 15 feet 4 inches eastwardly from the easterly side of Van Brunt street and 49 feet northwardly from the northerly side of Degraw street, measured along a line parallel with the easterly line of Van Brunt street; thence southwardly on a line 15 feet 4 inches east of the easterly side of Van Brunt street and parallel therewith to the northerly side of Degraw street; thence westwardly along the northerly side of Degraw street 15 feet 4 inches to the northeasterly corner of Van Brunt street and Degraw street; thence northwardly along the easterly side of Van Brunt street to the southeasterly corner of Van Brunt street and Sedgwick street, the point or place of beginning.

E—The portion of the block bounded by Hamilton avenue, President street, Van Brunt street and Carroll street, more particularly described as follows:

Beginning at the southwesterly corner of Van Brunt street and President street, and running thence southwardly along the westerly side of Van Brunt street to the northerly side of Carroll street; thence westwardly along the northerly side of Carroll street to the northwesterly side of Hamilton avenue; thence northwardly along the northwesterly side of Hamilton avenue a distance of 99 feet 2 inches; thence northwardly and at right angles to Hamilton avenue to an intersection with a line drawn at right angles to the southerly side of President street from a point 75 feet westwardly from the southwesterly corner of Van Brunt street and President street; thence northwardly along a line at right angles to the southerly side of President street to a point in the southerly side of President street distant 75 feet westwardly from the southwesterly corner of Van Brunt street and President street; thence eastwardly along the southerly side of President street 75 feet to the southwesterly corner of Van Brunt street and President street, the point or place of beginning.

F—The property at the northerly corner of Imlay street and Pioneer street, more particularly described as follows:

Beginning at the northerly corner of Imlay street and Pioneer street and running thence northwardly along the northeasterly side of Pioneer street a distance of 60 feet; thence northwardly on a straight line to a point in the northwesterly side of Imlay street distant 110 feet northwardly from the northerly corner of Imlay street and Pioneer street measured along the northwesterly line of Imlay street; thence southwardly along the northwesterly side of Imlay street a distance of 110 feet to the northerly corner of Imlay street and Pioneer street, the point or place of beginning.

Also the property at the southerly corner of Pioneer street and Conover street, more particularly described as follows:

Beginning at a point at the southerly corner of Pioneer street and Conover street and running thence southeastwardly along the southwesterly side of Pioneer street a distance of 100 feet; thence southeastwardly along a line 100 feet distant from and parallel with the southeasterly side of Conover street a distance of 100 feet; thence northwardly along a line parallel with the southwesterly side of Pioneer street, and distant 100 feet therefrom, a distance of 100 feet to the southeasterly line of Conover street; thence northwardly along the southeasterly line of Conover street to the southerly corner of Conover street and Pioneer street, the point or place of beginning.

Also the property at the northerly corner of Conover street and King street, more particularly described as follows:

Beginning at the northerly corner of Conover street and King street, and running thence northwardly along the northeasterly line of King street a distance of 115 feet; thence eastwardly on a straight line to a point in the northwesterly side of Conover street distant 70 feet from the northwesterly line of King street measured along the northwesterly line of Conover street; thence southwardly along the northwesterly side of Conover street a distance of 70 feet to the northerly corner of Conover street and King street, the point or place of beginning.

G—Property lying within the block bounded by Ferris, Coffey, Conover and Van Dyke streets, the easterly boundary of which is a line beginning at a point in the southeasterly side of Ferris street 20 feet southwardly from the southerly corner of Ferris street and Coffey street, running thence southwardly and southeastwardly on a curve having a radius of 295 feet to a point in the northwesterly side of Van Dyke street 190 feet southeastwardly from the easterly corner of Ferris street and Van Dyke street, and the westerly boundary of which is a curved line parallel with the curved line last described and 30 feet distant therefrom and having a radius of 325 feet; the northwesterly boundary of the said property being the southeasterly side of Ferris street between the two curved lines above described; and the southwesterly boundary being the northeasterly side of Van Dyke street between the two curved lines above described.

H—Beginning at a point on the easterly side of Smith street at its intersection with the boundary line between lot 1 of block 495 and lot 1 of block 493, and running thence eastwardly and along the said boundary line to its intersection with the bulkhead along the westerly side of Gowanus Canal; thence southwardly and along said bulkhead a distance of 60 feet; thence westwardly to a point in the easterly side of Smith street, distant 40 feet southerly from its intersection with the boundary line between lot 1 of block 495 and lot 1 of block 493; thence northwardly and along the easterly line of Smith street 40 feet to the intersection of the easterly line of Smith street with the dividing line between lot 1 of block 495 and lot 1 of block 493, the point or place of beginning.

I—Beginning at a point in the bulkhead along the easterly side of Gowanus Canal where the same is intersected by the northeasterly boundary of the grant from the State of New York to Peter Wyckoff, dated February 24, 1853; and running thence southeastwardly along the said northeasterly boundary of the grant to Peter Wyckoff to its intersection with the northeasterly prolongation of the northwesterly side of 2d avenue; thence southwardly along the said prolongation of the northwesterly side of 2d avenue to its intersection with the northwesterly prolongation of the centre line of 17th street; thence northwardly in a straight line to a point in a line drawn 40 feet southwardly from and parallel with the northeasterly line of the grant to Peter Wyckoff, above mentioned, said point being 300 feet southeastwardly from the bulkhead along the easterly side of Gowanus Canal, measured along said parallel line; thence northwardly along said parallel line 300 feet to the bulkhead along the easterly side of Gowanus Canal; thence northwardly and along said bulkhead to the intersection of the easterly bulkhead of Gowanus Canal with the northeasterly boundary of the grant to Peter Wyckoff, the point or place of beginning.

J—Beginning at a point in the southeasterly side of 1st avenue distant 45 feet southwest of the southwesterly line of 62d street, and running thence along said southeasterly side of 1st avenue to the northwesterly side of 63d street; running thence southeastwardly and along said northwesterly side of 63d street a distance of 170 feet; running thence in a straight line northwardly to a point in the southeasterly line of 1st avenue distant 45 feet southwardly from the southwesterly line of 62d street, the point or place of beginning.

K—Beginning at a point in the southwesterly

line of 63d street, said point being distant 170 feet northwesterly from the northwesterly line of 2d avenue; running thence southwesterly and along the southwesterly line of 63d street to the northwesterly line of 2d avenue; running thence southwesterly and along the northwesterly line of 2d avenue a distance of 155 feet; running thence northwesterly in a straight line to a point in the southwesterly line of 63d street, said point being distant 170 feet northwesterly from the northwesterly side of 2d avenue, the point or place of beginning.

Said plan is on file in the office of the Secretary of the Board of Estimate and Apportionment of The City of New York, at 277 Broadway, Borough of Manhattan, City of New York, Room 1406, and is open to the inspection of all persons whom it may concern.

Whereas, The Board of Estimate and Apportionment is authorized and required at the time of the adoption of the resolution directing the institution of proceedings to acquire title to the lands required for the foregoing improvement to fix and determine upon an area or areas of assessment for benefit for said proceedings;

Resolved, That the Board of Estimate and Apportionment, in pursuance of the provisions of section 980 of the Greater New York Charter, as amended, hereby gives notice that the following is the proposed area of assessment for benefit in these proceedings:

Beginning at a point on the northerly line of Borden avenue where it is intersected by a line bisecting the angle formed by the intersection of the prolongations of the easterly line of Hyatt avenue and the westerly line of Burrough avenue as these streets adjoin Jay avenue, and running thence northwardly along the said bisecting line to a point distant 100 feet westerly from the westerly line of Burrough avenue, the said distance being measured at right angles to Burrough avenue; thence northwardly and always distant 100 feet westerly from and parallel with the westerly line of Burrough avenue and the prolongations thereof, to the intersection with a line distant 100 feet northerly from and parallel with the northerly line of Woodside avenue, the said distance being measured at right angles to Woodside avenue; thence eastwardly along the said line parallel with Woodside avenue to the intersection with the prolongation of a line midway between Lee avenue and Burrough avenue; thence southwardly along the said line midway between Lee avenue and Burrough avenue and along the prolongations of the said line to the intersection with a line bisecting the angle formed by the intersection of the prolongations of the easterly line of Burrough avenue and the westerly line of Adams street as these streets are laid out between Queens boulevard and Laurel Hill boulevard; thence southwardly along the said bisecting line to the intersection with the northerly line of Laurel Hill boulevard; thence southwardly in a straight line to a point on the southerly line of Laurel Hill boulevard where it is intersected by a line midway between Burrough avenue and Columbia avenue; thence southwardly along the said line midway between Burrough avenue and Columbia avenue and along the prolongations of the said line, to a point distant 100 feet southerly from the southerly line of Vandergrift street; thence eastwardly and parallel with Vandergrift street to the intersection with the prolongation of a line midway between Van Sinderen street and Van Tassel street; thence southwardly along the said line midway between Van Sinderen street and Van Tassel street; and along the prolongations of the said line, to a point distant 100 feet southerly from the southerly line of Falkner street; thence westwardly and parallel with Falkner street to the intersection with a line bisecting the angle formed by the intersection of the prolongations of the easterly line of Burrough avenue and the westerly line of Mueller street as these streets are laid out at Hull avenue; thence southwardly along the said bisecting line to the intersection with the northerly line of Borden avenue; thence southwardly at right angles to Borden avenue a distance of 180 feet; thence westwardly and parallel with Borden avenue to the intersection with a line at right angles to Borden avenue and passing through the point of beginning; thence

northwardly along the said line at right angles to Borden avenue to the point or place of beginning.

Resolved, That this Board consider the proposed area of assessment at a meeting of the Board to be held in The City of New York, Borough of Manhattan, in the City Hall, on the 6th day of March, 1913, at 10.30 a. m., and that at the same time and place a public hearing thereon will then and there be had.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby to be published in the City Record for ten days prior to the 6th day of March, 1913.

Franchise Matters.

PUBLIC NOTICE IS HEREBY GIVEN THAT at the meeting of the Board of Estimate and Apportionment, held this day, the following resolutions were adopted:

Whereas, The Brooklyn and North River Railroad Company has under date of January 8, 1912, made application to this Board for the grant of the right, privilege and franchise to construct, maintain and operate a double-track street surface railway upon and along Flatbush avenue extension, from Fulton street to Nassau street, Borough of Brooklyn, and upon and over the Manhattan Bridge and its approaches to and connecting with existing tracks in Canal street, Borough of Manhattan; and

Whereas, Section 172 of the Railroad Law and sections 72, 73 and 74 of the Greater New York Charter, as amended by chapters 629 and 630 of the Laws of 1905, provide for the manner and procedure of making such grants; and

Whereas, In pursuance of such laws, this Board adopted a resolution on April 11, 1912, fixing the date for a public hearing thereon as May 9, 1912, at which citizens were entitled to appear and be heard, and publication was had for at least fourteen (14) days in "The Times" and "New York Press," newspapers designated by the Mayor, and in the City Record for ten (10) days immediately prior to the date of hearing, and the public hearing was duly held on such day; and

Whereas, This Board has made inquiry as to the money value of the franchise or right applied for and proposed to be granted to The Brooklyn and North River Railroad Company, and the adequacy of the compensation to be paid therefor; now, therefore, it is

Resolved, That the following form of the resolution for the grant of the franchise or right applied for by The Brooklyn and North River Railroad Company, containing the form of the proposed contract for the grant of such franchise or right, be hereby introduced and entered in the minutes of this Board, as follows, to wit:

Resolved, That the Board of Estimate and Apportionment hereby grants to The Brooklyn and North River Railroad Company the franchise or right fully set out and described in the following form of proposed contract for the grant thereof, embodying all the terms and conditions, including the provisions as to rates, fares and charges, upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

Proposed Form of Contract.

This Contract, made this day of 1913, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the Brooklyn and North River Railroad Company (hereinafter called the Company), party of the second part, witnesseth:

Whereas, The Brooklyn Heights Railroad Company, the Nassau Electric Railroad Company, the Metropolitan Street Railway Company, the Third Avenue Railroad Company, the Dry Dock, East Broadway and Battery Railroad Company and the Coney Island and Brooklyn Railroad Company did, on December 15, 1911, enter into a so-called participating agreement, as follows:

The Brooklyn Heights Railroad Company, the Nassau Electric Railroad Company, the Metropolitan Street Railway Company, the Third Avenue Railroad Company, the Dry Dock, East Broadway and Battery Railroad Company and Coney Island and Brooklyn Railroad Company (called participating companies) agree to unite in organizing New Company for purpose of constructing and operating a line running generally from North River via Canal street, Manhattan Bridge and Flatbush Avenue Extension to Fulton street—called Local Railroad—and between termini of Bridge, called Bridge Line.

Capital to be sufficient for construction and equipment of line and to be subscribed for in following proportions by participating companies: Brooklyn Heights R. R. Co. and Nassau Electric R. R. Co., 25 per cent.

Metropolitan Street Railway Co., 25 per cent.

Third Avenue R. R. Co. and Dry Dock, East Broadway and Battery Railroad Company, 25 per cent.

Coney Island and Brooklyn Railroad Co., 25 per cent.

Fare to be five cents for one continuous ride, except that fare on Bridge Line only will be three cents, with two tickets for five cents.

For fare of five cents on Local Railroad each passenger to be entitled to one transfer to intersecting lines of participating companies, and intersecting lines of participating companies to issue transfers to Local Railroad on payment of five-cent fare. No transfers to be issued upon transfers by Local Railroad, and none by participating companies.

Inasmuch as the principal portion of the business of the Local Railroad is likely to be traffic represented by transfers issued or received on said Local Railroad, and issued or received by said participating companies, in addition to the traffic now carried by said participating companies exclusively, but likely to be diverted to said Local Railroad, and any satisfactory division of receipts from such traffic and of the expense of hauling such traffic is impossible of determination in advance between the New Company and each of the participating companies, therefore, in order to procure the co-operation of all of said participating companies the following arrangement is agreed upon, to wit:

Each participating company shall retain the fares collected upon its lines and represented by transfers to the Local Railroad, and shall have the right to redeem the transfers received by it from the Local Railroad at the minimum rate of 1 1/2 cents per transfer thus redeemed.

If, however, at the end of any year's operation

any of the participating companies should not be satisfied that the aforesaid minimum rate for the redemption of transfers received by it from the Local Railroad is sufficient, then the New Company shall increase the redemptive value of such transfers to a rate that may be equitable, but not to exceed two cents for transfers thus redeemed, and provided said increased rate thus established shall leave remaining a profit of at least ten (10) per cent. on the stock of the New Company from the operations of its railroad, and in the event that there should be any difference between any such participating company and the New Company as to the rate at which such transfers received from the Local Railroad by the participating companies should be redeemed, such difference shall, at the option of either party, be determined by arbitration in the usual manner, but such arbitration shall not fix the aforesaid redemptive rates at less than 1 1/2 cents nor more than two cents per transfer.

Edward A. Maher, General Manager for the Receiver, Third Avenue Railroad Co.; S. W. Huff, President, Coney Island and Brooklyn Railroad Company; T. S. Williams, President, The Brooklyn Heights Railroad Company; C. D. Meneely, Vice-President, The Nassau Electric Railroad Company; Adrian H. Joline, Douglas Robinson, as Receivers Metropolitan Street Railway Company; Edward A. Maher, General Manager for Receiver, Dry Dock, East Broadway and Battery Railroad Company.

December 15, 1911.

Whereas, The New Company provided for in said agreement has been organized by a certificate of incorporation filed in the Office of the Secretary of State on December 30, 1911, under the name of the Brooklyn and North River Railroad Company;

Now, therefore, in consideration of the making of such participating agreement by the said companies, and of the terms thereof, particularly those which relate to the through operation of cars by the New Company from North River, Borough of Manhattan, to Fulton street, Borough of Brooklyn, and the issue and receipt of transfers for a single fare of five (5) cents, and for the purpose of enabling such through operation, issue and receipt of transfers, and in further consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the following rights and privileges:

First—To construct, maintain and operate a double track street surface railway, with the necessary wires and equipment, for the purpose of conveying passengers and property in the Boroughs of Manhattan and Brooklyn, in the City of New York, upon the following route, to wit:

Beginning at a point in Flatbush Avenue Extension at its intersection with Fulton street; thence in and upon Flatbush Avenue Extension to its intersection with Nassau street; thence in, upon and across Nassau street to the northerly side thereof, to a point where connection can conveniently be made with the tracks upon the Manhattan Bridge to be used by the Company, all in the Borough of Brooklyn.

And to cross such other streets and avenues, named and unnamed, as may be encountered in said route. Provided, however, that nothing in this contract shall be construed as permitting the construction or existence of more than a double track street surface railway in any portion of the route above specified.

The said route, with turnouts, switches and crossovers, hereby authorized, is shown upon a map entitled:

The Brooklyn and North River R. R. Co. Map showing proposed railways of the Brooklyn and North River R. R. Co., in the Boroughs of Brooklyn, Manhattan, City of New York, to accompany petition to the Board of Estimate and Apportionment, dated January 3, 1912."

—and approved by Edward A. Maher, President, and Henry J. Kolb, Civil Engineer; a copy of which is attached hereto, is to be deemed a part of this contract, is to be construed with the text thereof, and is to be substantially followed, provided that deviations therefrom and additional turnouts, switches and crossovers which are consistent with the foregoing description, and the other provisions of this contract, may be permitted by resolution of the Board.

Second—To operate the cars of the Company on two tracks when constructed upon the Manhattan Bridge and approaches thereto; such tracks to be assigned to the Company by the Commissioner of Bridges, beginning at a point on the northerly side of Nassau street, where connection can conveniently be made with above tracks in Nassau street; thence upon and along land acquired for the Manhattan Bridge terminal in the Borough of Brooklyn, to the approach to the Manhattan Bridge; thence upon and along said approach to the Manhattan Bridge; thence upon and along the Manhattan Bridge to the approach thereto in the Borough of Manhattan; thence upon said approach to land acquired for the Manhattan Bridge terminal in the Borough of Manhattan; thence upon and along said land to Canal street, and there connecting with the existing tracks or tracks to be substituted therefor in Canal street.

The said route is more particularly shown on the map hereinbefore referred to.

The routes described in paragraphs first and second of this section are to be operated by the Company as a part of a continuous route running from the intersection of Flatbush avenue and Fulton street, in the Borough of Brooklyn, along the Flatbush avenue extension to and across the Manhattan Bridge and its approaches to Canal street, in the Borough of Manhattan, and by means of trackage agreements with other companies along Canal street and other streets to the Desbrosses Street Ferry at the North River.

The said continuous route is shown by red and blue lines on the map hereinbefore referred to.

Third—To operate a local service between the termini of the Manhattan Bridge upon the two tracks referred to in Section 1, Second.

Sec. 2. The grant of the right or privilege to construct, maintain and operate said railway in and upon Flatbush Avenue Extension from Fulton street to the northerly side of Nassau street, is subject to the following conditions, which shall be complied with by the Company:

First—The consent in writing of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of said railway shall be obtained by the Company within six (6) months from the signing of this contract by the Mayor, and a copy of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained within such time, the Company shall, within said six (6) months, or within one (1) month thereafter, make application to the Appellate Division of the Supreme Court for the appointment of commissioners in the manner provided by the Railroad Law to determine if said railway ought to be constructed; otherwise this grant shall cease and determine.

Second—Nothing in this consent shall be deemed to affect in any way the right of the City to grant to any other corporation or to any individual a similar right or privilege upon the same or other terms and conditions in and upon said Flatbush Avenue Extension from Fulton street to the northerly side of Nassau street,

and the Company shall not at any time oppose, but shall consent to the construction and operation of any street surface railway by any such other corporation or individual which may receive a franchise therefor from the City, and which may necessitate the use of any portion of the railway which shall be constructed or operated by the Company upon said Flatbush Avenue Extension.

Should the City at any time during the term of this contract grant to any other corporation or to any individual the right or privilege to operate a railway upon the tracks of the Company, upon said Flatbush Avenue Extension, or any portion thereof, then the City shall, within thirty (30) days thereafter, give notice to the Company that such right has been granted, and of the name of the corporation or individual to which such right has been granted.

At the expiration of ninety (90) days after the giving of such notice, such individual or corporation shall have the right to begin the operation of cars upon the tracks of the Company upon said Flatbush Avenue Extension, or any portion thereof, over which such corporation or individual may receive a right or privilege, and to use thereof the tracks, equipment, power and all other property of the Company which shall be necessary in the operation of the cars of such individual or corporation upon the tracks of the Company and shall have the right to continue such operation until this contract, or the right to use such property under the terms of this contract granted said corporation or individual by the City, shall expire. Such corporation or individual shall pay to the Company for the right to use such tracks, equipment, power and other property above described such sum or sums as may be agreed upon in writing by such corporation or individual and the Company within said ninety (90) days, or in the event that such agreement cannot be reached within said ninety (90) days, such sum or sums shall be determined in the manner hereinafter provided for.

If the Company and such corporation or individual cannot, prior to the expiration of said ninety (90) days agree upon the compensation for the use of such tracks, then such compensation shall be fixed by three arbitrators selected in the following manner:

One fit and impartial person shall be chosen by the Company; one fit and impartial person shall be chosen by such corporation or individual; and the two so chosen shall choose a third fit and impartial person. The decision under oath of any two of said persons who shall be so selected shall be final and conclusive.

The compensation and expenses of the persons selected as arbitrators in the determination of such sum or sums shall be borne by the individual or corporation to which such right may be granted.

Within thirty (30) days after an agreement shall have been reached between said parties, or in case said agreement cannot be reached before the time specified herein, then within thirty (30) days after the determination of the arbitrators, as herein provided, should two of such arbitrators agree, the said parties shall file a duplicate copy of a written agreement with the Board which shall specify the sum or sums which shall have been agreed to by the said parties or determined by said arbitrators as the sum or sums which such corporation or individual shall pay to the Company for said privilege. If the Company fails to file the same with the Board within said thirty (30) days, then the right herein granted shall cease and determine.

If either party fails to appoint an arbitrator, as herein provided, or should the first two arbitrators fail to agree on the selection of a third arbitrator within thirty (30) days after the expiration of said ninety (90) days, or if no two of said arbitrators so selected agree upon the sum or sums to be paid by such individual or corporation within sixty (60) days after they shall have been so selected, then such sum or sums shall be fixed by the Supreme Court upon the application of either party.

Third—Upon the termination of this original contract, or, if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any cause, or upon the dissolution of the Company before such termination, the tracks and equipments of the Company constructed pursuant to this contract within the streets and avenues shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this contract, as above, the Board shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of its tracks and other equipment constructed pursuant to this contract and the said streets and avenues shall be restored to their original condition at the sole cost and expense of the Company.

Fourth—The Company shall commence construction of the railway herein authorized within six (6) months from the date upon which the consents of the property owners are filed with the Board, or from the date of the order of the Appellate Division of the Supreme Court, made pursuant to section 174 of the Railroad Law, confirming the determination of the commissioners appointed thereunder that such railway ought to be constructed, and shall complete the construction and place the same in full operation within twelve (12) months from the date of filing such consents or the date of such order, otherwise this right shall cease and determine, and all sums which may be deposited with the Comptroller of the City, as hereinafter provided, shall thereupon be forfeited to the City; provided that the period for commencement and the period for completion and placing the railway in full operation may be extended by the Board, but the total extension of time for either of such periods shall not exceed in the aggregate six (6) months; and provided further, that when the commencement or completion of said construction shall be prevented by legal proceedings in any court, or by works of public improvement, or from other causes not within the control of the Company, the time for the commencement or completion of such construction may be extended for the period of such prevention, but no delay shall be allowed for unless the court proceedings shall be diligently prosecuted by the Company, and provided further, that in no case shall such delay be deemed to begin until the Company shall have given written notice to the Board of any such court proceedings or other occasion of delay, and deliver to the Board copies of any injunction or other orders, and the papers upon which the same shall have been granted, and unless upon the request of the Board the Company shall, in writing, consent that the Board either in its own name as a party, or in the name of the City as a party, may intervene in any such proceedings.

Fifth—Said railway shall be constructed, maintained and operated subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City.

No construction upon said railway shall be commenced until written permits have been obtained from the proper City officials. In any permits so issued, such officials may also impose such conditions, as a condition of the granting of the same, as are necessary for the purpose of protecting any structures in the

streets and avenues over which such officials have jurisdiction, and the Company shall comply with such conditions.

The electrical equipment to be installed by the Company for the operation of the railway within the limits of the City, whether the same be upon streets and avenues or upon private property, shall be constructed and maintained under the supervision and control of the Commissioner of Water Supply, Gas and Electricity.

Sixth—The portion of said railway in the Borough of Manhattan and upon the Manhattan Bridge and its terminals shall be operated by underground electric power substantially similar to the system of underground electric power now used by the street surface railways in the Borough of Manhattan; or by electric storage battery power; provided that any other power may be used, except locomotive power, which may be lawfully used, approved by the Board and consented to by the abutting property owners in accordance with the provisions of law and by the Public Service Commission for the First District of the State of New York. The portion of said railway in the Borough of Brooklyn, except upon the Manhattan Bridge and its terminals, may be operated by overhead electric power substantially similar to the overhead electric system now in use by street surface railways in the Borough of Brooklyn; or by electric storage battery power; provided that any other power may be used, except locomotive steam power, or horse power, which may be lawfully used, approved by the Board and consented to by the abutting property owners in accordance with the provisions of law and by the Public Service Commission for the First District of the State of New York.

Seventh—No wires for the transmission of power, except trolley wires, shall be permitted unless they be placed in conduits underneath or along the side of the railway. When such conduits are constructed the Company shall provide two (2) conduits not less than three (3) inches in diameter each, for the exclusive use of the City. The Company hereby agrees that such conduits shall be used only by the Company and the City, as above.

Eighth—The Company shall at all times keep the streets and avenues upon which the said railway is constructed, between its tracks, the rails of its tracks and for a distance of two (2) feet beyond the rails, on either side thereof, free and clear from ice and snow; provided, however, that the Company shall, at the option of the Commissioner of Street Cleaning, enter into an agreement for each winter season, or part thereof, to clean an equivalent amount of street surface from house line to house line.

Ninth—As long as said railway, or any portion thereof, remains in any street or avenue, the Company shall pave and keep in permanent repair that portion of the surface of the street or avenue in which the said railway is constructed, between its tracks, the rails of its tracks, and for a distance of two (2) feet beyond the rails on either side thereof, under the supervision of the local authorities, whenever required by them to do so, and in such manner as they may prescribe.

In case of the neglect of the Company to make pavement or repairs after the expiration of thirty (30) days' notice to do so from the President of the Borough of Brooklyn, said President may make the same at the expense of the Company. And the City shall have the right to change the material or character of the pavement of any street or avenue, and in that event the Company shall be bound to replace such pavement in the manner directed by the proper City official, at its own expense, and the provisions as to repairs herein contained shall apply to such renewed or altered pavement.

Tenth—Any alteration to the sewerage or drainage system, or to any other subsurface or to any surface structures in the streets, required on account of the construction or operation of the railway, shall be made at the sole cost of the Company, and in such manner as the proper City officials may prescribe.

Eleventh—It is agreed that the right hereby granted to operate a street surface railway shall not be in preference or in hindrance to public work of the City, and should the said railway in any way interfere with the construction of public works in the streets and avenues, whether the same is done by the City directly or by a contractor for the City, the Company shall, at its own expense, protect or move the tracks and appurtenances in the manner directed by the City officials having jurisdiction over such public work.

Twelfth—Should the grades or lines of the streets and avenues in which the railway is hereby authorized be changed at any time after the railway has been constructed and during the term of this contract, the Company shall, at its own expense, change its tracks and appurtenances to conform with such new grades and lines, and during the construction of any public improvement upon said streets and avenues, the Company shall take care of and protect the tracks and appurtenances at its own expense, all to be done subject to the direction of the City official having jurisdiction over the construction of such change.

Sec. 3. The grant of the right or privilege to operate cars upon two (2) tracks of the Manhattan Bridge and the approaches thereto, upon the route hereinafter described, and to use other equipment owned by the City upon said bridge is subject to the following conditions, which shall be complied with by the Company:

First—The Company shall use only such tracks and terminal facilities as shall be assigned to the Company by the Commissioner of Bridges, and nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions, or to affect the right of the Commissioner of Bridges to assign the same to other tracks and terminal facilities to such individual or other corporation.

Such tracks, terminal facilities and all electrical equipment necessary for the operation of cars thereon shall be originally installed at the expense of the City, and shall remain the property of the City, but the Company shall pay the cost of keeping and maintaining such tracks and electrical equipment in good order and repair, and in such manner as shall be approved and directed by the Commissioner of Bridges, and shall furnish all motive power required by the Commissioner of Bridges for the operation of its cars, and the Company shall renew any or all tracks and electrical equipment used by it upon the bridge and its terminals when directed by the Commissioner of Bridges, and in such manner as may be prescribed by him.

If deemed necessary by the Commissioner of Bridges, the Company shall install and operate a system of signals to insure the safe and efficient operation of cars; such system to be approved by the Commissioner of Bridges. In the event of any necessity for changing the layout of tracks, curves, switches, sidings or platforms on the bridge, in order to facilitate operation of cars by the Company, said Company shall do all the work and furnish all the labor, material and tools necessary for effecting such changes, which shall all be made under the control and direction of the Commissioner of Bridges, and no such changes or construction connected therewith, or relating thereto, shall be made unless the plan or plans for the same have been first submitted to the Commissioner of Bridges and approved by him.

If, however, the tracks, terminal facilities and appliances herein mentioned are used by any other individual or corporation, then the Company shall bear only such proportion of the cost or work required by the terms and conditions of this subdivision as the use of such track, terminal facilities and appliances by the Company bears to the entire use of such tracks, terminal facilities and appliances.

Second—Before beginning the operation of the cars, the Company shall file with the Commissioner of Bridges a statement for his approval and assent as to the type of car which it proposes to operate, and a sketch showing clearance dimensions, weight on axles and wheel spacing, or such other information as may be required by said Commissioner. All cars operated over the bridge by the Company, and all equipment and appliances relating to such operation shall be subject at all times to the inspection of the Commissioner of Bridges, or his authorized representatives, who shall have power to forbid the entrance to the bridge of cars which may for any reason be unsatisfactory, and who shall have power to direct the removal of any old or inadequate appliance and the substitution thereof of appliances of approved character.

Said Commissioner may adopt rules and regulations in regard to the number of cars to be operated over the bridge, the rate of speed of said cars, the movement and headway thereof, the type and weight of cars to be used and the condition thereof, the switching of cars and the use of platform and the control of the electrical current used by the Company, and the said Commissioner may alter and amend any such rules and regulations so as to secure the safety and comfort of persons using the bridge and preserve the purposes for which the bridge was constructed, and upon serving notice upon the Company that such rules and regulations have been made, amended or altered, the Company shall comply with all the requirements thereof.

Third—Nothing in this contract shall be deemed to affect in any way the right of the Commissioner of Bridges to make any alterations or changes in the construction, operation or management of the bridge, or to affect in any way the control of said Commissioner over such bridge as provided by the Charter of the City.

Sec. 4. The grant of the said rights and privileges to construct, maintain and operate a street surface railway in and upon Flatbush Avenue Extension from Flatbush Avenue, on the northerly side of Nassau street upon the route hereinafter described, and upon the Manhattan Bridge and approaches thereto upon the route hereinafter described, are both subject to the following conditions, which shall be complied with by the Company:

First—The said rights and privileges shall be held and enjoyed by the Company for the term of ten (10) years from the date upon which this contract is signed by the Mayor, with the privilege of renewal of said contract for the further period of fifteen (15) years upon a fair revaluation of the right and privilege to operate over such continuous route and the right to use the tracks owned by the City upon the Manhattan Bridge, and the approaches thereto, and the terminal loop or other terminal facilities which are the property of the City and used by the Company.

If the Company shall determine to exercise its privilege of renewal, it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two (2) years and not later than one (1) year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach such agreement on or before the day one (1) year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding fifteen (15) years shall be reasonable, and either the City (by the Board) or the Company shall be bound upon request of the other to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, but in no case shall the annual rate so fixed be less than the sum required to be paid for the last year prior to the termination of the original term of this contract, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six (6) months prior to the expiration of this original contract, and their report shall be filed with the Board within three (3) months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of the original term of this contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Second—The Company shall pay to the City for the privilege hereby granted the following sums of money:

(a) The sum of fifteen thousand dollars (\$15,000) in cash within three (3) months after the date on which this contract is signed by the Mayor, and before anything is done in exercise of the privilege hereby granted.

(b) During the first term of five (5) years, an annual sum which shall in no case be less than four thousand dollars (\$4,000), but which shall be equal to three (3) per cent. of its gross receipts if such percentage shall exceed the sum of four thousand dollars (\$4,000).

During the remaining term of five (5) years, an annual sum which shall in no case be less than seven thousand dollars (\$7,000), but which shall be equal to five (5) per cent. of its gross receipts if such percentage shall exceed the sum of seven thousand dollars (\$7,000).

The gross annual receipts mentioned above shall be the gross receipts from all sources within the limits of the City, less the sum or sums paid for the redemption of transfers issued, pursuant to this contract, by the Company to the

intersecting or contiguous lines of the companies which are parties to the participating agreement dated and executed December 15, 1911, hereinafter referred to as:

The Brooklyn Heights Railroad Company, the Nassau Electric Railroad Company, the Metropolitan Street Railway Company, the Third Avenue Railroad Company, the Dry Dock, East Broadway and Battery Railroad Company and Coney Island and Brooklyn Railroad Company, or the successor companies of either or any of them.

The rate for such redemption shall not in any case exceed two (2) cents for each transfer so issued and redeemed.

(c) For the use of the tracks owned by the City upon the Manhattan Bridge and the approaches thereto, the sum of five cents for each round trip, or the sum of two and one-half cents for each single trip of each and every car operated upon the bridge.

The number of cars shall be certified by the Commissioner of Bridges to the Comptroller once each month, in such form as shall be designated by the Comptroller.

(d) The Company shall pay to the City four (4) per cent. per annum upon the cost of any terminal loops or other terminal facilities which are the property of the City and used by the Company; provided, however, that if such terminal facilities are used by any other company or companies, then the Company shall pay annuity as shall be proportionate to the use of such facilities by the Company. The Commissioner of Bridges shall determine such amounts due the City and certify the same to the Comptroller.

The annual charges shall commence on November 13, 1912.

All annual charges as above shall be paid into the treasury of the City, on November 1 of each year and shall be for the amount due to September 30 next preceding. Provided that the first annual payment shall be only for that proportion of the first annual charge as the time between the date upon which this contract is signed by the Mayor and September 30 following shall bear to the whole of one year.

Whenever the percentage required to be paid shall exceed the minimum amount as above, then such sum over and above such minimum shall be paid on or before November 1 in each year for the year ending September 30 next preceding.

The annual charges herein provided are intended to include the percentages of gross receipts now required to be paid by railway companies to the City pursuant to the Railroad Law as amended.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Third—The annual charges or payments shall continue throughout the whole term of this contract (whether original or renewal), notwithstanding any clause in any statute or in the charter of any other railway or railroad company providing for payment for railway or railroad rights or franchises at different rate, and no assignment, lease or sublease of the rights or privileges hereby granted (whether original or renewal), or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said agreement, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof, or otherwise, exemption from liability to perform each and all of the conditions of this contract.

Fourth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall the title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Fifth—Said railway shall be constructed and operated in the latest approved manner of street railway construction and operation, and it is hereby agreed that the Board may require the Company to improve or add to the railway equipment, including rolling stock and railway appurtenances, from time to time, as such additions and improvements are necessary, in the opinion of the Board. Upon failure on the part of the Company to comply with the direction of the Board within a reasonable time, the rights hereby granted shall cease and determine.

Sixth—The rate of fare for any passenger upon the railway hereby authorized shall not exceed five (5) cents, and the Company shall not charge any passenger more than five (5) cents for one continuous ride from any point on its road, or on any road, line or branch operated by it or under its control to any other point thereof or any connecting branch thereof within the limits of the City.

The rate of fare upon the Manhattan Bridge between the termini thereof shall in no case exceed three (3) cents for each single fare. The Company shall, however, at all times sell and have for sale tickets at the rate of two tickets for five (5) cents, each of which shall entitle a passenger to transportation across the said bridge between the termini thereof.

It being the intention and of the essence of this contract:

1. That the railway hereby authorized shall be operated by the Company as part of a continuous line from Fulton street, Brooklyn, to Desbrosses Street Ferry, Manhattan, under the franchise, rights and privileges herein granted and on the route herein specified, and from the termination of the route herein specified at the terminal of the Manhattan Bridge, in the Borough of Manhattan, to Desbrosses Street Ferry, in said Borough, by way of Canal street and other necessary streets, under trackage agreements with such of the companies named in the participating agreement hereinafter referred to, or the successor companies of either or any of them, as hold valid franchises to operate on said Canal street and such other necessary streets.

2. That transfers shall be exchanged for a single fare between the through or continuous line of railway to be operated as above, and the intersecting lines in the Borough of Manhattan, and intersecting or contiguous lines in the Borough of Brooklyn, of such participating companies and the successor companies of either or any of them.

—It is further provided that the rate of fare for any passenger from any point on such

through or continuous line operated by the Company to any point on any line of any of the participating companies and the successor companies of either or any of them operating in the Borough of Manhattan which intersects such through or continuous line, and to any point on any line of any of the participating companies and the successor companies of either or any of them operating in the Borough of Brooklyn, which intersects or is operated on a route or routes within five hundred feet of the Brooklyn terminus of said through or continuous line, and from any point on any line of any of the participating companies and the successor companies of either or any of them operating in the Borough of Manhattan, which intersects such through or continuous line operated by the Company, and from any point on any line of any of the participating companies and the successor companies of either or any of them in the Borough of Brooklyn, which intersects or is operated on a route or routes within five hundred feet of the Brooklyn terminus of the said through or continuous line operated by the Company to any point on such through or continuous line operated by the Company, shall not exceed five (5) cents, and for this purpose transfers shall be issued and received by the Company and the participating companies and the successor companies of either or any of them upon payment of said single fare of five (5) cents. But neither the Company nor any of the participating companies shall be required to issue transfers upon transfers or more than one transfer for said single fare of five (5) cents, nor shall the Company be required by this contract to issue transfers upon the payment of said single fare of three cents or to any passenger tendering a ticket, as above provided, for transportation upon the local service between the termini of the Manhattan Bridge.

The Company shall carry free upon the railway hereby authorized during the term of this contract, all members of the Police and Fire Departments of the City when such employees are in full uniform.

Seventh—No cars shall be operated upon the railway hereby authorized other than passenger cars, cars for the transportation of express matter and cars necessary for the repair or maintenance of the railway, and no freight cars shall be operated upon the tracks of said railway. Provided that no cars for the transportation of express matter shall be operated between the hours of 6 o'clock a. m. and 8 o'clock p. m. daily, and that the Board may further limit the operation of such cars as public convenience may require.

The rate for the carrying of property over the said railway upon the cars of the Company shall in all cases be reasonable in amount, subject to the control of the Board and may be fixed by the Board after notice to the Company and a hearing had thereon, and when so fixed such rates shall be binding upon the Company, and no greater sums shall be charged for such services than provided for by it.

Eighth—(a) The Company, within three (3) months after the signing of this contract by the Mayor, shall itself execute and procure the execution by the other companies of trackage agreements for the use of such tracks of the companies named in the participating agreement hereinbefore referred to or the successor companies of either or any of them on Canal street and other streets in the Borough of Manhattan as may be necessary for the through operation of its line between Fulton street, Borough of Brooklyn, and Desbrosses Street Ferry, Borough of Manhattan, and shall within the same time file sworn copies of such agreement with the Board.

(b) The Company shall commence through or continuous operation of the railway from Fulton street, Borough of Brooklyn, to Desbrosses Street Ferry, Borough of Manhattan, within the time fixed by this contract for the completion of construction and commencement of operation of the railway herein authorized, and shall continue such through or continuous operation throughout the entire term of this contract, whether original or renewal.

(c) The Company shall carry passengers on its through or continuous line and issue and receive transfers to and from the lines of the participating companies or the successor companies of either or any of them, for a single fare of five (5) cents, as provided by subdivision sixth of this section.

In the event of the failure of the Company to do or perform any of the acts or requirements contained in this subdivision and designated as a, b and c, respectively, and within the time specified, the franchise, rights and privileges hereby granted shall cease and determine and such *ipso facto* forfeiture shall not be waived, prevented or affected in any way by the inability of the Company to procure the execution by any participating company or the successor companies of either or any of them of the trackage agreements, the invalidity of such agreements when executed, the failure or refusal of any participating company or the successor companies of either or any of them to issue or receive transfers, or by the invalidity of the participating agreement dated and executed December 15, 1911, and hereinbefore referred to.

Ninth—The Company shall attach to each car run over the said railway proper fenders and wheel guards, in conformity with such laws and ordinances as are now in force, or may hereafter during the term of this contract be enacted or adopted by the State or City authorities, or as may be required by resolution of the Board.

Tenth—All cars which are operated on said railways shall be heated during the cold weather in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities, or as may be required by resolution of the Board.

Eleventh—All cars operated on said railway shall be well lighted by electricity, or by some lighting system equally efficient, or as may be required by resolution of the Board.

Twelfth—Cars on the said railway shall run at intervals of not more than thirty (30) minutes both day and night, and as much oftener as reasonable convenience of the public may require, or as may be directed by the Board.

Thirteenth—The Company shall submit to the Board a report not later than November 1 of each year for the year ending September 30 next preceding, and at any other time, upon the request of the Board, which shall state:

1. The amount of stock issued, for cash, for property.
2. The amount paid in as by last report.
3. The total amount of capital stock paid in.
4. The funded debt by last report.
5. The total amount of funded debt.
6. The floating debt as by last report.
7. The total amount of floating debt.
8. The total amount of funded and floating debt.
9. The average rate per annum of interest on funded debt.
10. Statement of dividends paid during the year.
11. The total amount expended for same.
12. The names of the directors elected at the last meeting of the corporation held for such purpose.
13. Location, value and amount paid for real estate owned by the Company as by last report.
14. Location, value and amount paid for real estate now owned by the Company.

15. Number of passengers carried during the year.

16. Total receipts of Company for each class of business.

17. Amounts paid by the Company for damage to persons or property on account of construction and operation.

18. Total expenses for operation, including salaries.

—and such other information in regard to the business of the Company as may be required by the Board.

Fourteenth—The Company shall at all times keep accurate books of account of the gross receipts from all sources within the limits of the City, and shall, on or before November 1 of each year, make a verified report to the Comptroller of the City of the business done by the Company, for the year ending September 30 next preceding, in such form as he may prescribe. Such report shall contain a statement of such gross receipts, the total miles in operation within the limits of the City, and the miles of railway constructed and operated under this contract, and such other information as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report, and may examine its officers under oath.

Fifteenth—In case of any violation or breach or failure to comply with any of the provisions herein contained, except where an *ipso facto* forfeiture is provided for, this contract may be forfeited by a suit brought by the Corporation Counsel, on notice of ten (10) days to the Company, at the option of the Board by resolution of said Board, which said resolution may contain a provision to the effect that the railway constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity. Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day not less than ten (10) days after date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Sixteenth—If the Company shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures and equipment as herein provided in good condition throughout the whole term of this contract, the Board may give notice to the Company, specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time, the Company shall, for each day thereafter during which the default or defect remains, pay to the City the sum of two hundred and fifty dollars (\$250), as fixed or liquidated damages, or the Board, in case such structures or equipment which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund herein-after provided for.

Seventeenth—The Company shall assume all liability to persons or property by reason of the construction or operation of the railway authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company.

Eighteenth—This grant is upon the express condition that the Company within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of the City the sum of ten thousand dollars (\$10,000), either in money or securities, to be approved by him, which fund shall be security for the performance by the Company of all of the terms and conditions of this contract and compliance with all orders of the Board acting under the powers herein served, especially those which relate to the payment of the annual charges for the privilege hereby granted, the rendering of efficient public service at the rates herein fixed, the repairs of the street pavement, the removal of snow and ice, the quality of construction of the railway and the maintenance of the property in good condition throughout the whole term of this contract, and in case of default in the performance by the Company of such terms and conditions, or compliance with such orders or either or any of them, the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or, after default in the payment of the annual charges, shall collect the same, with interest, from the said fund after ten (10) days' notice to the Company; or in case of failure to observe the said terms and conditions of this contract and orders of the Board acting hereunder, relating to the headway heating and lighting of cars, fenders and wheel guards, the Company shall pay a penalty of fifty dollars (\$50) per day for each day of violation, and the further sum of ten dollars (\$10) per day for each car that shall not be properly heated, lighted or supplied with fenders or wheel guards, in case of the violation of the provisions relating to those matters; all of which sums may be deducted from said fund.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Board, on complaint made, shall give notice to the Company, directing its President, or other officer, to appear before the Board on a certain day not less than ten (10) days after the date of such notice, to show cause why the Company should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or after a hearing appears in the judgment of the Board to be in fault, said Board shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to the Board to be just, and without legal procedure direct the Comptroller to withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund the Company shall, upon ten (10) days' notice, pay to the City a sum sufficient to restore said security fund to the original amount of ten thousand dollars (\$10,000), and in default thereof this contract shall be cancelled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Nineteenth—The words "notice" or "direction" wherever used in this contract, shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative,

shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Twentieth—The words "streets or avenues" and "streets and avenues" wherever used in this contract shall be deemed to mean "streets, avenues, highways, parkways, driveways, concourses, boulevards, bridges, viaducts, tunnels, public places or any other property to which the City has title or over which the public has an easement" encountered in the route hereinabove described, and upon or in which authority is hereby given to the Company to construct a railway.

Twenty-first—If at any time the powers of the Board or any other of the authorities herein mentioned or intended to be mentioned, shall be transferred by law to any other board, authority, officer or officers, then and in such case such other board, authority, officer or officers, shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Sec. 5. Nothing in this contract shall be construed as in any way limiting the present or future jurisdiction of the Public Service Commission under the Laws of the State of New York.

Sec. 6. This grant is also upon the further and express condition that the provisions of the Railroad Law pertinent hereto shall be strictly complied with by the Company.

Section 7. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms, conditions and requirements in this contract fixed and contained.

In witness whereof, the party of the first part, by its Mayor, thereto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed and the corporate seal of said City to be hereunto affixed; and the party of the second part by its officers thereto duly authorized has caused its corporate name to be hereunto signed and its corporate seal to be hereunto affixed the day and year first above written.

THE CITY OF NEW YORK,
By Mayor.

(CORPORATE SEAL.)
Attest: City Clerk.

THE BROOKLYN AND NORTH RIVER
RAILROAD COMPANY,
By President.

(SEAL.)
Attest: Secretary.

(Here add acknowledgments.)
Resolved, That the results of the inquiry made by this Board as to the money value of the franchise or right proposed to be granted and the adequacy of the compensation proposed to be paid therefor, and the terms and conditions, including the provisions as to rates, fares and charges, are as hereinbefore specified and fully set forth in and by the foregoing form of proposed contract for the grant of such franchise or right.

Resolved, That these preambles and resolutions, including said resolution for the grant of a franchise or right applied for by The Brooklyn and North River Railroad Company, and the said form of a proposed contract for the grant of such franchise or right, containing said results of such inquiry, after the same shall be entered in the minutes of this Board, shall be published for at least twenty (20) days immediately prior to Thursday, March 13, 1913, in the City Record, and at least twice during the ten (10) days immediately prior to Thursday, March 13, 1913, in two daily newspapers to be designated by the Mayor therefor and published in the City of New York at the expense of The Brooklyn and North River Railroad Company, together with the following notice, to wit:

Notice is hereby given, that the Board of Estimate and Apportionment, before authorizing any contract for the grant of a franchise or right applied for by The Brooklyn and North River Railroad Company and fully set forth and described in the foregoing form of proposed contract for the grant of such franchise or right, and before adopting any resolution authorizing such contract, will, at a meeting of said Board, to be held in Room 16, City Hall, Borough of Manhattan, City of New York, on Thursday, March 13, 1913, at 10.30 o'clock a. m., hold a public hearing thereon, at which citizens shall be entitled to appear and be heard.

PUBLIC NOTICE IS HEREBY GIVEN THAT at the meeting of the Board of Estimate and Apportionment held this day a report and form of contract was received from the Bureau of Franchises to govern the grant of a franchise to the Coney Island and Brooklyn Railroad Company to construct, maintain and operate a double track street surface railway from the existing tracks of the Company at 4th avenue and 9th street, upon and along 4th avenue to Flatbush avenue, thence across Flatbush avenue to Ashland place, a single track continuing along Ashland place to DeKalb avenue and another single track continuing along Fulton street, from Ashland place to Rockwell place to DeKalb avenue, where connection is made with the existing tracks, Borough of Brooklyn.

Tracks are in existence in Fulton street and in Rockwell place, which the applicant proposes to use.

Action on a resolution fixing the date for final hearing was deferred until the meeting of February 27, 1913, at 10.30 o'clock a. m. in Room 16, City Hall, Borough of Manhattan, when all persons interested will have the opportunity to appear and be heard.

JOSEPH HAAG, Secretary.
Dated New York, February 13, 1913.

PUBLIC NOTICE IS HEREBY GIVEN THAT at a meeting of the Board of Estimate and Apportionment, held February 13, 1913, the following petition was received:

February 7, 1913.
Board of Estimate and Apportionment of The City of New York, New York City:

Gentlemen—The Harrison Street Cold Storage Company, which holds a franchise from your Board, dated December 27, 1909, for the construction, maintenance and operation of conduits for refrigerating purposes, desires, and hereby applies for permission, to assign said franchise to the Merchants' Refrigerating Company.

The reason for this proposed assignment is that the latter company is about to acquire all the rights, property and interests of the Harrison Street Cold Storage Company, dependent, in a degree, upon the obtaining of the consent of your Board as applied for herein, it being understood that such consent will not become effective until the filing with your Board of proper certificates relative to merger.

It is agreed that, if this consent be granted, all the obligations of the franchise of the Harrison Street Cold Storage Company will be undertaken by the Merchants' Refrigerating Company and the operations under said franchise shall be kept separate and apart from those under the franchise now held by the Merchants' Refrigerating Company.

HARRISON STREET COLD STORAGE CO.,
ALEXANDER MOIR, Treasurer.
State of New York, County of New York, City of New York, ss:

On the 7th day of February, 1913, before me personally came Alexander Moir, who, being by me duly sworn, did depose and say, that he resided in Montclair, State of New Jersey; that he was treasurer of the Harrison Street Cold Storage Company, the corporation described in and which executed the above instrument; that he knew the seal of the said corporation; that the seal affixed to said instrument was said corporate seal; that it was so affixed by order of the Board of Directors of the said corporation, and that he signed his name thereto by like order.

E. D. JUNIOR, Notary Public, Kings County, Certificate filed New York County, No. 12.

The Merchants' Refrigerating Company hereby joins in the above petition of the Harrison Street Cold Storage Company and agrees to abide by the stipulations therein contained.

MERCHANTS' REFRIGERATING CO.,
FRANK A. HORNE, President.
State of New York, County of New York, City of New York, ss:

On the 7th day of February, 1913, before me personally came Frank A. Horne, who, being by me duly sworn, did depose and say, that he resided in Brooklyn, State of New York; that he was President of the Merchants' Refrigerating Company, the corporation described in and which executed the above instrument; that he knew the seal of the said corporation; that the seal affixed to said instrument was said corporate seal; that it was so affixed by order of the Board of Directors of the said corporation, and that he signed his name thereto by like order.

E. D. JUNIOR, Notary Public, Kings County, Certificate filed New York County, No. 12.

—and the following resolutions were thereupon adopted:

Whereas, A joint petition from Harrison Street Cold Storage Company and Merchants' Refrigerating Company, dated February 7, 1913, was presented to the Board of Estimate and Apportionment at a meeting held February 13, 1913, Resolved, That, in pursuance of law this Board sets Thursday, the 27th day of February, 1913, at 10.30 o'clock in the forenoon and Room 16, in the City Hall, Borough of Manhattan, as the time and place when and where such petition shall be considered, and a public hearing be had thereon, at which citizens shall be entitled to appear and be heard; and be it further

Resolved, That the Secretary is directed to cause a notice of such hearing to be published for at least two (2) days in two daily newspapers in the City of New York, to be designated by the Mayor, and for at least ten (10) days in the City Record immediately prior to such date of public hearing. The expense of such publication to be borne by the petitioner.
JOSEPH HAAG, Secretary.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired for the same purpose in fee, to the lands, tenements and hereditaments required for the opening and extending of BUENA VISTA AVENUE, from its junction with Haven avenue, at or near West One Hundred and Seventy-sixth street, to West One Hundred and Seventy-third street, of WEST ONE HUNDRED AND SEVENTY-THIRD STREET, from Fort Washington avenue to Buena Vista avenue; and of WEST ONE HUNDRED AND SEVENTY-THIRD STREET, from Fort Washington avenue to Buena Vista avenue, in the Twelfth Ward, Borough of Manhattan, City of New York.

NOTICE IS HEREBY GIVEN THAT THE bill of costs, charges and expenses incurred

lands, tenements and hereditaments required for the opening and extending of WEST ONE HUNDRED AND SEVENTY-NINTH STREET, from Osborne place to Aqueduct avenue, in the Twenty-fourth Ward, Borough of The Bronx, City of New York.

NOTICE IS HEREBY GIVEN TO ALL PERSONS interested in the above entitled proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That the undersigned, Commissioners of Estimate, have completed their estimate of damage, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with them at their office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 17th day of March, 1913, and that the said Commissioners will hear parties so objecting, and for that purpose will be in attendance at their said office on the 19th day of March, 1913, at 2 o'clock p. m.

Second—That the undersigned, Commissioner of Assessment, has completed his estimate of benefit and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with him at his office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 17th day of March, 1913, and that the said Commissioner will hear parties so objecting, and for that purpose will be in attendance at his said office on the 20th day of March, 1913, at 2:30 o'clock p. m.

Third—That the Commissioner of Assessment has assessed any or all such lands, tenements and hereditaments and premises as are within the area of assessment fixed and prescribed as the area of assessment for benefit by the Board of Estimate and Apportionment on the 2d day of November, 1911, and that the said area of assessment includes all those lands, tenements and hereditaments and premises situate and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point on the southeasterly line of Andrews avenue where it is intersected by the prolongation of a line distant 250 feet southerly from and parallel with the southerly line of West One Hundred and Seventy-ninth street as this street is laid out between Andrews avenue and Loring place, the said distance being measured at right angles to West One Hundred and Seventy-ninth street, and running thence westwardly along the said line parallel with West One Hundred and Seventy-ninth street and along the prolongations of the said line to a point distant 100 feet westerly from the westerly line of Osborne place, the said distance being measured at right angles to Osborne place; thence northwardly and always distant 100 feet westerly from and parallel with the westerly line of Osborne place to the intersection with a line passing through a point on the easterly line of Osborne place midway between West One Hundred and Seventy-ninth street and West One Hundred and Eighty-ninth street and a point on the northwesterly line of Andrews avenue midway between West One Hundred and Seventy-ninth street and West One Hundred and Eighty-ninth street; thence eastwardly along the said line last described to the intersection with the southeasterly line of Andrews avenue; thence eastwardly and parallel with West One Hundred and Seventy-ninth street as laid out between Andrews avenue and Aqueduct avenue to the intersection with the westerly line of Aqueduct avenue; thence southeastwardly at right angles to Aqueduct avenue a distance of 200 feet; thence southwestwardly and always distant 200 feet southeasterly from and parallel with the northwesterly line of Aqueduct avenue to a point distant 100 feet southerly from the southerly line of Burnside avenue as this street is laid out east of Aqueduct avenue, the said distance being measured at right angles to Burnside avenue; thence westwardly and parallel with Burnside avenue as laid out in the tangent between Aqueduct avenue and Harrison avenue and the prolongation thereof to the intersection with the southeasterly line of Aqueduct avenue; thence westwardly in a straight line to a point on the northwesterly line of Aqueduct avenue distant 200 feet southerly from the southerly line of West One Hundred and Seventy-ninth street, the said distance being measured at right angles to West One Hundred and Seventy-ninth street; thence westwardly in a straight line to the point or place of beginning.

Fourth—That the abstracts of said estimate of damage and of said assessment for benefit, together with the damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by the Commissioners of Estimate and by the Commissioner of Assessment in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 19th day of March, 1913.

Fifth—That, provided there be no objections filed to either of said abstracts, the reports as to awards and as to assessments for benefit herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III, to be held in the County Court House, in the Borough of Manhattan, in The City of New York, on the 25th day of April, 1913, at the opening of the Court on that day.

Sixth—In case, however, objections are filed to the foregoing abstracts of estimate and assessment, or to either of them, the motion to confirm the reports as to awards and as to assessments shall stand adjourned to the date to be hereafter specified in the notice provided in such cases to be given in relation to filing the final reports, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated Borough of Manhattan, New York, February 19, 1913.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired for the same purpose in fee, to the lands, tenements and hereditaments required for the opening and extending of POWELL STREET, from Livonia avenue to Hegeman avenue, in the Twenty-sixth Ward, Borough of Brooklyn, The City of New York.

NOTICE IS HEREBY GIVEN TO ALL PERSONS interested in the above entitled proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That the undersigned, Commissioners of Estimate, have completed their estimate of damage, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with them at their office, No. 166 Montague street, in the Borough of Brooklyn, in the City of New York, on or before the 10th day of March, 1913, and that the said Commissioners will hear parties so objecting, and for that purpose will be in attendance at their said office on the 11th day of March, 1913, at 3 o'clock p. m.

Second—That the undersigned, Commissioner of Assessment, has completed his estimate of benefit and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with him at his office, No. 166 Montague street, in the Borough of Brooklyn, in the City of New York, on or before the 10th day of March, 1913, and that the said Commissioner will hear parties so objecting, and for that purpose will be in attendance at his said office on the 12th day of March, 1913, at 3 o'clock p. m.

Third—That the Commissioner of Assessment has assessed any or all such lands, tenements and hereditaments and premises as are within the area of assessment fixed and prescribed as the area of assessment for benefit by the Board of Estimate and Apportionment on the 6th day of July, 1911, and that the said area of assessment includes all those lands, tenements and hereditaments and premises situate and being in the Borough of Brooklyn, in the City of New York, which, taken together, are bounded and described as follows, viz.:

Bounded on the north by a line distant 100 feet northerly from and parallel with the northerly line of Livonia avenue, the said distance being measured at right angles to Livonia avenue; on the east by a line midway between Powell street and Junius street; on the south by a line distant 100 feet southerly from and parallel with the southerly line of Hegeman avenue, the said distance being measured at right angles to Hegeman avenue, and on the west by a line midway between Powell street and Sackman street.

Fourth—That the abstracts of said estimate of damage and of said assessment for benefit, together with the damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by the Commissioners of Estimate and by the Commissioner of Assessment in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, No. 166 Montague street, in the Borough of Brooklyn, in said City, there to remain until the 19th day of March, 1913.

Fifth—That, provided there be no objections filed to either of said abstracts, the reports as to awards and as to assessments for benefit herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof, to be held in the County Court House in the Borough of Brooklyn, in the City of New York, on the 28th day of March, 1913, at the opening of the Court on that day.

Sixth—In case, however, objections are filed to the foregoing abstracts of estimate and assessment, or to either of them, the motion to confirm the reports, as to awards and as to assessments shall stand adjourned to the date to be hereafter specified in the notice provided in such cases to be given in relation to filing the final reports, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

SECOND DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired for the same purpose in fee, to the lands, tenements and hereditaments required for the opening and extending of KINGSTON AVENUE, from Union street to Malbone street, in the Twenty-fourth Ward, Borough of Brooklyn, The City of New York.

NOTICE IS HEREBY GIVEN TO ALL PERSONS interested in the above entitled proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That the undersigned, Commissioners of Estimate, have completed their estimate of damage, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with them at their office, No. 166 Montague street, in the Borough of Brooklyn, in The City of New York, on or before the 6th day of March, 1913, and that the said Commissioners will hear parties so objecting, and for that purpose will be in attendance at their said office on the 10th day of March, 1913, at 2 o'clock p. m.

Second—That the undersigned, Commissioner of Assessment, has completed his estimate of benefit, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with him at his office, No. 166 Montague street, in the Borough of Brooklyn, in The City of New York, on or before the 6th day of March, 1913, and that the said Commissioner will hear parties so objecting, and for that purpose will be in attendance at his said office on the 11th day of March, 1913, at 2 o'clock p. m.

Third—That the Commissioner of Assessment has assessed any or all such lands, tenements and hereditaments and premises as are within the area of assessment fixed and prescribed as the area of assessment for benefit by the Board of Estimate and Apportionment on the 9th day of February, 1911, and that the said area of assessment includes all those lands, tenements and hereditaments and premises situate and being in the Borough of Brooklyn, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Bounded on the north by a line midway between Eastern parkway and Union street; on the east by a line midway between Kingston avenue and Albany avenue; on the south by a line distant 100 feet southerly from and parallel with the southerly line of Malbone street, the said distance being measured at right angles to Malbone street, and on the west by a line midway between Brooklyn avenue and Kingston avenue.

Fourth—That the abstracts of said estimate of damage and of said assessment for benefit, together with the damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by the Commissioners of Estimate and by the Commissioner of Assessment in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, No. 166 Montague street, in the Borough of Brooklyn, in said City, there to remain until the 17th day of March, 1913.

Fifth—That, provided there be no objections filed to either of said abstracts, the reports as to awards and as to assessments and benefit herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof, to be held in the County Court House in the Borough of Brooklyn, in The City of New York, on the 28th day of March, 1913, at the opening of the court on that day.

Sixth—In case, however, objections are filed to the foregoing abstracts of estimate and assessment, or to either of them, the motion to confirm the reports as to awards and as to assessments shall stand adjourned to the date to be hereafter specified in the notice provided in such cases to be given in relation to filing the final reports, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated Borough of Brooklyn, New York, February 14, 1913.

SECOND DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired for the same purpose in fee, to the lands, tenements and hereditaments required for the opening and extending of HAROLD AVENUE, from Queens boulevard to Skillman avenue, in the First Ward, Borough of Queens, City of New York.

NOTICE IS HEREBY GIVEN TO ALL PERSONS interested in the above entitled proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That the undersigned, Commissioners of Estimate, have completed their estimate of damage, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with them at their office, in the Municipal Building, Court House square, Long Island City, in the Borough of Queens, in The City of New York, on or before the 3d day of March, 1913, and that the said Commissioners will hear parties so objecting, and for that purpose will be in attendance at their said office on the 5th day of March, 1913, at 3 o'clock p. m.

Second—That the undersigned, Commissioner of Assessment, has completed his estimate of benefit, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby,

having any objection thereto, do file their said objections in writing, duly verified with him at his office, in the Municipal Building, Court House square, Long Island City, in the Borough of Queens, in the City of New York, on or before the 15th day of March, 1913, and that the said Commissioner will hear parties so objecting, and for that purpose will be in attendance at his said office on the 6th day of March, 1913, at 3 o'clock p. m.

Third—That the Commissioner of Assessment has assessed any or all such lands, tenements and hereditaments and premises as are within the area of assessment fixed and prescribed as the area of assessment for benefit by the Board of Estimate and Apportionment on the 21st day of September, 1911, and that the said area of assessment includes all those lands, tenements and hereditaments and premises situate and being in the Borough of Queens, in the City of New York, which, taken together, are bounded and described as follows, viz.:

Bounded on the north by a line always distant 100 feet northerly from and parallel with the northerly line of Skillman avenue, the said distance being measured at right angles to Skillman avenue; on the east by a line midway between Lowery street and Van Buren street, and by the prolongation of the said line; on the south by a line distant 100 feet southerly from and parallel with the southerly line of Queens boulevard, the said distance being measured at right angles to Queens boulevard; and on the west by a line midway between Buckley street and Hulst street, and by the prolongation of the said line.

Fourth—That the abstracts of said estimate of damage and of said assessment for benefit, together with the damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by the Commissioners of Estimate and by the Commissioner of Assessment in making the same, have been deposited in the Bureau of Street Openings in the Law Department of the City of New York, in the Municipal Building, Court House square, in the Borough of Queens, in said City, there to remain until the 5th day of March, 1913.

Fifth—That, provided there be no objections filed to either of said abstracts, the reports as to awards and as to assessments for benefit herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof for the hearing of motions, to be held in the County Court House, in the Borough of Brooklyn, in the City of New York, on the 16th day of May, 1913, at the opening of the Court on that day.

Sixth—In case, however, objections are filed to the foregoing abstracts of estimate and of assessment, or to either of them, the motion to confirm the reports as to awards and as to assessments shall stand adjourned to the date to be hereafter specified in the notice provided in such cases to be given in relation to filing the final reports, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

THIRD JUDICIAL DISTRICT, ULSTER COUNTY.

In the matter of the application of the Board of Water Supply of The City of New York, under chapter 724 of the Laws of 1905, and the Acts amendatory thereof, etc.

Business Damage Commission No. 1.

PUBLIC NOTICE IS HEREBY GIVEN THAT the Thirteenth Separate Report, filed on January 16, 1913, in the office of the Clerk of the County of Ulster, of William J. Roche, Frank M. Patterson and Roscoe Irwin, who were duly appointed Commissioners in the above entitled proceeding by an order of the Supreme Court dated December 24, 1910, and filed in the office of the Clerk of the County of Ulster on the 23d day of January, 1911, will be presented to this Court at a Special Term thereof, to be held in and for the Third Judicial District, at the County Court House, in the City of Kingston, County of Ulster, N. Y., on the 1st day of March, 1913.

And that The City of New York will move the confirmation of the awards and dismissals recommended in said report, except that, as to the claims of: No. 1, Bishop Brothers; No. 4, George Pierson; No. 5, Lisette Corbett; No. 7, Albert Brown; No. 19, Martha Young; No. 33, John D. W. DuMont; No. 83, Carrie A. Burhans, and No. 84, Matilda Barton; separate motions are hereby made by The City of New York on the order appointing Business Damage Commission No. 1, on the testimony, reports, awards, recommendations and the opinions of the Commission, and on the refusals of rulings, findings and requests, and on the exceptions of The City of New York, for orders rejecting each of said awards, as excessive and contrary to the law, and contrary to the evidence, and upon the exceptions taken by The City of New York;

And for judgment dismissing each of said claims, upon the evidence and the law;

And that pending the determination of these motions, the Court direct that an order be entered that the exceptions taken by The City of New York, be heard in the first instance, by the Appellate Division of the Supreme Court, and that judgment be suspended in the meantime;

And for such other and further relief as may be just and proper.

Dated New York, February 4, 1913.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furnishings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids, and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or her name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all person interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money or corporate stock or certificates of indebtedness of any nature issued by The City of New York, which the Comptroller shall approve as of equal value with the security required in the advertisement, to the amount of not less than three nor more than five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The amount shall be as specified in the proposals or instructions to bidders and shall not be in excess of 5 per cent.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings at construction work may also be seen there.
