No. 2033.

Whereas, The Brooklyn water front for a distance of over two miles along Buttermilk Channel has for many years, with its warehouses and wharves, constituted a great terminal for the commerce of this port, upwards of ten million tons of cargo, valued at over three hundred and fifty million dollars, being annually received and shipped at this point; and

Whereas, It has always been the policy of the Federal Government to continually improve this important channel, in order to keep pace with the constantly growing necessities of the port; and

Whereas, The depth of water is now insufficient for the larger class of vessels now using this channel, and large steamships are unable to dock and depart, except at high water, resulting in great loss of time by detention, and safe to and from sea is not insured; and

Whereas, It is desirable that the commerce of the future should be enabled to avail of all the facilities afforded by such terminal, to it, benefit and the advancement of the interests connected with and affected by the development of the Brooklyn water front; and

Whereas, The Government of the United States has wisely projected an improvement of Bay Ridge and Red Hook channels so as to accommodate vessels of the largest size which may enter this port; and

Whereas, Buttermilk Channel, if maintained in its present condition, will, by reason of inferior width and depth, exclude the Brooklyn water front from participating in the advantages to be derived from this projected improvement; now therefore be it

Resolved, That it is advisable and necessary for the good of the commerce of this port and for the material welfare and prosperity of the Brooklyn water front and the manifold and important interests dependent thereon and affected thereby, that Buttermilk Channel be improved so as to obtain a channel of the same width and depth as those contemplated by the project adopted for Bay Ridge and Red Hook channels, namely, 1,200 feet wide and 40 feet deep at mean low water.

And this body most earnestly urges upon Congress the passage of such measures as will efficiently and promptly secure this desired end, and the members of Congress from the Greater City of New York are earnestly requested to use their best efforts to accomplish this important undertaking in behalf of the city.

Which was adopted.

Which was adopted.

No. 2035.

Whereas, the health of the residents and citizens who live in the vicinity of Wallabout Market is menaced by the continuance of the dumping of refuse from the market at the dock at the foot of Clinton avenue, in the Borough of Brooklyn; and

Resolved, That the Commissioner of Public Buildings, Lighting and Supplies be and he is hereby respectfully requested to remove this dump at once and select some other location as a receptacle for the refuse of the said Wallabout Market.

ALBERT E. DAVIS, ARCHITECT,
OFFICE, NO. 2558 THIRD AVENUE,
NEW YORK, October 24, 1900.

Hon. RANDOLPH GUDDENHEIMER, President of the Council, City of New York:

DEAR SIR—One Hundred and Thirty-eighth street is the principal crosstown thoroughfare in the Borough of The Bronx and because of this fact and the heavy traffic carried on over it, it

has been widened from 75 to 100 feet from Third avenue to the Harlem river and the houses along the south side of it have been moved back to the new line for over a year, notwithstanding which fact the old curb still remains in the roadway and half of the latter is paved while the other half is a dirt road.

The present condition of One Hundred and Thirty-eighth street is not only unsightly but unsafe by reason of the projecting curb in the roadway.

A resolution has been pending for some time providing for the paving of this important thoroughfare the full width.

Will you urge upon the City Council the immediate passage of the resolution referred to, so that the needed improvement may be carried out?

Very respectfully yours,
ALBERT E. DAVIS.

BOARD OF PUBLIC IMPROVEMENTS—CITY OF NEW YORK,
No. 21 PARK ROW, BOROUGH OF MANHATTAN,
NEW YORK, October 27, 1900.

The Honorable Municipal Assembly, City of New York:

GENTLEMEN—Will you kindly return to this Board, for correction, the form of ordinance forwarded to you on the 10th instant establishing width of sidewalks on West Seventy-ninth street, from Central Park, West, to Riverside drive, in the Borough of Manhattan.

Respectfully,

The Vice-President laid before the Board the following communication from the President of the Fire Department:

No. 1712.

HEADQUARTERS FIRE DEPARTMENT—CITY OF NEW YORK,
Nos. 157 and 159 EAST SIXTY-SEVENTH STREET,
BOROUGH OF MANHATTAN, October 29, 1900.

Hon. THOMAS F. WOODS, President, Board of Aldermen:

SIR—On July 10, 1900, the Board of Estimate and Apportionment adopted a resolution authorizing the Comptroller of The City of New York to issue Corporate Stock to the amount of \$200,000, the proceeds of which, when sold, to be applied to erecting and equipping a new repair shop for the Fire Department, on northeast corner Fifty-sixth street and Twelfth avenue, Borough of Manhattan. On August 8, 1900, the said Board also adopted a resolution authorizing the Comptroller of The City of New York to issue Corporate Stock of the City to the amount of \$300,000, the proceeds of which, when sold, to be applied to the acquisition of new sites, the construction and equipping of new buildings for the Fire Department, and placing the fire alarm telegraph system underground, as authorized by chapter 76, Laws of 1894, as amended.

The action taken by said Board was based upon my request, as recommended to me by the Chief of Department as necessary to conduct during the ensuing year the business of the Department and afford proper protection to the lives and property of the people of this Municipality against fire.

The Municipal Assembly are authorized by law to ratify the issuance of bonds by the City, and no action involving an expenditure of money or the creation of a debt can become operative unless by a two-thirds vote of its members.

I am informed that the appropriation for \$200,000 passed the Municipal Council on September 25, and is now in the Finance Committee of the Board of Aldermen. Relative to the appropriation for \$300,000 that matter is still pending before the Council, but I understand it has been placed on the calendar under special orders.

I therefore feel constrained to respectfully ask your kind assistance and co-operation in urging upon the Municipal Council the necessity of granting authority to the Comptroller to issue Fire Department Bonds to the amount of \$300,000 for the purposes described in the resolution adopted by the Board of Estimate and Apportionment.

Yours respectfully,

J. J. SCANNELL, Fire Commissioner.

AN ORDINANCE authorizing the Commissioner of Bridges to contract, without public letting, for the construction of the bridge over the Harlem river, between One Hundred and Twenty-fifth street and First avenue and One Hundred and Thirty-fourth street and Willis avenue.

Be it Ordained by the Municipal Assembly of The City of New York, as follows:

The Commissioner of Bridges of The City of New York is authorized to contract without public letting with John C. Rodgers, the contractor, for constructing the bridge over the Harlem river, between One Hundred and Twenty-fifth street and First avenue and One Hundred and Thirty-fourth street and Willis avenue, under contract dated October 8, 1897, executed in pursuance of chapter 147, Laws of 1894, for additional work and materials necessary to complete said bridge according to plans and specifications approved by the Board of Estimate and Apportionment July 24, 1900, at an expense not to exceed nineteen thousand six hundred dollars, to be paid from the funds provided by the sale of bonds pursuant to said act.

DEPARTMENT OF BRIDGES—CITY OF NEW YORK,
COMMISSIONER'S OFFICE, PARK ROW BUILDING,
MANHATTAN, NEW YORK CITY, N. Y., July 30, 1900.

To the Honorable the Municipal Assembly:

GENTLEMEN—The Honorable Board of Estimate and Apportionment on July 24, 1900, passed a resolution, as provided for in chapter 147, Laws of 1894, approving plans and specifications for certain additional work on the bridge over Harlem river, between First and Willis avenues, at a cost not to exceed \$19,600, and also authorizing the Comptroller, with the consent of the Municipal Assembly, to issue Corporate Stock of The City of New York to the amount of \$182,155.17 for the completion of said bridge. This sum of \$182,155.17, which includes the \$19,600 mentioned above, is the difference between the amount of Corporate Stock heretofore issued and the total \$2,000,000 authorized by law, and is needed to pay for the cost of land and for the construction of the bridge, which is now nearing completion.

The plans and specifications which have just been approved by the Board of Estimate and Apportionment provide for certain work not contemplated in the original contract, but which has been proved necessary by the experience of this Department, and the three items of work with the cost of each are as follows:

A. Substitution of arc for incandescent lights, furnishing boilers of increased power, and engine and dynamo of increased power.....	\$10,000 00
B. Four houses, one on each end of two rest piers, to be used, three for Bridge Tenders and one for a toilet-room.....	7,600 00
C. Additional work and material on end-lifting device.....	2,000 00
Total.....	\$19,600 00

This additional work cannot be done except in connection with the general work of construction and by the contractor whose contract covers the whole structure, without considerable extra cost to the City and serious delay and inconvenience to the public, and I therefore transmit herewith a form of ordinance, granting me the power to enter into contract with the present contractor, John C. Rodgers, for this work, without public letting, and beg that you will pass it without delay.

I also inclose a copy of the specification and form of contract. The prices therein, which are as stated above, have been reported by the Chief Engineer of this Department and the Consulting Engineer for the Willis Avenue Bridge to be just and reasonable.

Respectfully,

JOHN L. SHEA, Commissioner of Bridges.

DEPARTMENT OF BRIDGES—CITY OF NEW YORK,
COMMISSIONER'S OFFICE, PARK ROW BUILDING,
MANHATTAN, NEW YORK CITY, N. Y., September 21, 1900.

Hon. WM. F. SCHNEIDER, JR., Chairman, Committee on Bridges and Tunnels of the Board of Aldermen:

SIR—By reference to the CITY RECORD at page 5657, I find that the proposed ordinance authorizing the Commissioner of Bridges to contract, without public letting, for additional work on the construction of a bridge over the Harlem river between One Hundred and Twenty-fifth street and First avenue and One Hundred and Thirty-fourth street and Willis avenue, was, on motion, recommended to the Committee on Bridges and Tunnels by the Board, at its meeting on the 18th instant, "with instructions to find out the probable cost of the proposed improvement;" and, inasmuch as this is a matter calling for immediate action, I take the liberty of sending this communication to you, to the end that the ordinance mentioned may be adopted at the earliest possible date, in the interests of the City.

The work of constructing said bridge is now progressing very rapidly towards completion, and in order that delay may be avoided it is necessary that the work for which this ordinance is intended to provide should be carried on by the contractor for constructing said bridge, at the same time with the other work.

The cost of the additional work for which this ordinance provides is \$19,600. That is the sum that the contract will be made for, as shown in my communication addressed to the Municipal Assembly under date of July 30, and published in the RECORD at the page mentioned. This sum has been fixed for the three items mentioned by the Chief Engineer and Consulting Engineer of this Department, after due investigation, as shown by the Chief Engineer's report on file, from which I quote:

"The contractor, Mr. John C. Rodgers, has offered to do all of the above work at the prices I have stated, according to our plans and specifications, and his letters to that effect are on file in this Department. I have carefully gone over the prices with Mr. Clarke, and compared them with the cost of similar work elsewhere, and believe them to be reasonable."

The plans and specifications for said work will be transmitted for examination by the Committee if desired.

I respectfully request that the matter be disposed of by your Honorable Board at its next meeting. Any additional information or explanation that may be desired I shall be most happy to give your Committee, either in person or by representative from this office.

Respectfully,

JOHN L. SHEA, Commissioner of Bridges.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they will be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, each in the amount of One Hundred Thousand Dollars (\$100,000) for erecting the Peter Cooper High School, Borough of The Bronx, and Forty Thousand Dollars (\$40,000) for erecting new Public School 136, Borough of Brooklyn.

Each bid or estimate shall contain and state the name and place of residence or place of business of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders, or of a guaranty or surety company duly authorized by law to act as surety in The City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to execute the same, they shall pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in The City of New York, and is worth the amount of the security required for the completion of this contract over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by the Revised Ordinances of The City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the National or State Banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by The City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they will be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

For particulars as to the quantity and quality of the supplies or the nature and extent of the work required or of the materials to be furnished, bidders are referred to the printed specifications and plans. Such work and materials must conform in every respect to printed specifications and plans. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required, before making their estimates.
