FRANCHISE MATTERS.

New York Quotation Company (Cal. No. 1).

In the matter of the report and financial statement under the provisions of section 2-Twenty-first of contract dated July 2, 1913, granting the New York Quotation Company a franchise to construct, maintain and operate wires or other electrical conductors for the operation of printing telegraph instruments, commonly known as "stock tickers," within that portion of the Borough of Manhattan south of Chambers street, for the purpose of distributing stock and bond quotations, dividends or other notices.

This report was presented to the Board at the meeting of November 13, 1913, and was referred to the Bureau of Franchises.

The Secretary presented the following:

Bureau of Franchises, November 20, 1913.

Hon. ARDOLPH L. KLINE, *Mayor, Chairman of the Board of Estimate and Apportionment:*

Sir—Pursuant to the contract dated July 2, 1913, by and between The City of New York and the New York Quotation Company, that Company has submitted to the Board its report for the year ending September 30, 1913, and furnished a map of its conductors in the streets of the City as of the same date.

The report shows that the amount of stock outstanding is $500,000, and that the Company has a total of $230,000 of indebtedness, of which $195,000 is funded debt and $35,000 floating debt. On the funded debt the Company pays interest at 6 per cent. No dividends on the capital stock were paid by the Company during the period that elapsed between the signing of the contract and September 30th. The receipts during this time are reported as $60,820.51, and the expenses as $59,446.51, leaving a balance of $1,374. By this contract, the Company is obligated to pay the City, during the first period of five years, 3 per cent. annually of its gross receipts, with a minimum of $8,000 a year. The percentage in this case would have amounted to $1,824.62, but as this did not approximate the proper proportion of the minimum, the actual amount paid was $1,972.

The map furnished by the Company shows that it has not constructed any new lines since the granting of its franchise.

As the report and the map appear to be in compliance with the provisions of the contract, it is recommended that the same be filed.

Respectfully, HARRY P. NICHOLS, Engineer, Chief of Bureau.

Which was ordered filed.

Mercantile Burglar Alarm Company (Cal. No. 2).

In the matter of the report and financial statement under the provisions of section 2-Twentieth of contract dated October 29, 1912, granting the Mercantile Burglar Alarm Company a franchise to construct, maintain and operate electrical conductors in conduits for the operation of a burglar alarm system in that portion of the Borough

of Manhattan south of Reade street. This report was presented to the Board at the meeting of October 30, 1913, and was referred to the Bureau of Franchises.

The Secretary presented the following:

Bureau of Franchises, November 20, 1913.

Hon. ARDOLPH L. KLINE, *Mayor, Chairman of the Board of Estimate and Apportionment:*

Sir—Pursuant to the contract between the City and the Mercantile Burglar Alarm Company, dated October 29, 1912, the said Company has submitted to the Board the report and map therein required to be submitted annually. From this report, it appears that the Company's capital has remained at $5,000 during the year and that, while it has no funded debt, it has a floating debt of $9,089.03. No dividends have been paid by the Company during the year. The statement of the number and location of premises connected with the Company's central stations shows a total of 42 subscribers—an increase of six since it obtained its franchise from the City. The total receipts of the Company during the year have been $23,495.90, and its total expenses, $18,182.14, leaving net earnings of $5,313.76.

The Company, by the terms of its franchise, is required to pay, annually, during the first five years, three per cent. of its gross receipts, with a minimum of $1,000 a year, and has for the term during which the said franchise has run paid to the City the sum of $925. This is $220 more than three per cent. of its receipts during this period would amount to, but it is understood efforts are being made to extend its business and that no doubt in the near future the percentages of receipts to be paid to the City will approximate, if not exceed, the minimums required.

The map filed by the Company shows but slight extensions during the year, one being on Maiden Lane from Broadway to a point about 150 feet east of Broadway, and on Broadway from Cedar Street to Thames Street.

As the report and map appear to be in compliance with the provisions of the franchise, it is recommended that the same be filed.

Respectfully, HARRY P. NICHOLS, Engineer, Chief of Bureau.

Which was ordered filed.

Long Island Railroad Company (Cal. No. 3).

In the matter of the application of the Long Island Railroad Company for permission to construct, maintain and use a spur track across and on the surface of Johnson avenue, east of Varick avenue, Borough of Brooklyn, connecting the railroad with the premises of the Ellanam Adjustable Dress Form Company.

This application was presented to the Board at the meeting of October 2, 1913, and was referred to the Bureau of Franchises.

V. That your petitioner is prepared to construct the side-track desired as shown upon "plan showing location of proposed track to be constructed in Johnson avenue, Borough of Brooklyn, to accompany an application dated September 10, 1913, of the Long Island Railroad Company to the Board of Estimate and Apportionment of The City of New York. The Long Island Railroad Company, by Ralph Peters, President," upon obtaining the right from The City of New York through its duly constituted authorities to construct and maintain said side-track across Johnson avenue, as shown upon the aforesaid plan.

VI. The location of your petitioner's railroad with respect to Johnson avenue, the location of the property aforesaid, of the Ellanam Adjustable Dress Form Company and the location of the side-track desired to be constructed are shown upon the plan above referred to and accompanying this petition.

Wherefore, your petitioner asks that it be accorded the right and privilege of constructing and maintaining a side-track with the necessary appurtenances thereunto belonging across Johnson avenue, in the Borough of Brooklyn, City and State of New York, as shown upon the plan accompanying this application aforesaid.

Dated, September 10, 1913.

THE LONG ISLAND RAILROAD COMPANY,
By RALPH PETERS, President.

JOSEPH F. KEANY, Esq., Attorney for the Petitioner, Pennsylvania Station, New York City.

Bureau of Franchises, November 20, 1913.

Hon. ARDOLPH L. KLINE, *Mayor, Chairman of the Board of Estimate and Apportionment:*

Sir—The Long Island Railroad Company presented a petition dated September 10, 1913, to the Board of Estimate and Apportionment for permission to construct, maintain and operate a spur track across and on the surface of Johnson Avenue at a point about 85 feet east of the easterly line of Varick Avenue in the Borough of Brooklyn; the said track to connect with the main line of the petitioner's Evergreen Branch, a short distance south of Johnson Avenue, and to be used for the purpose of affording direct railroad connection to property on the northerly side of Johnson Avenue, owned and occupied by the Ellanam Adjustable Dress Form Company.

At the meeting of the Board held October 2, 1913, the matter was referred to the Bureau of Franchises for investigation and report.

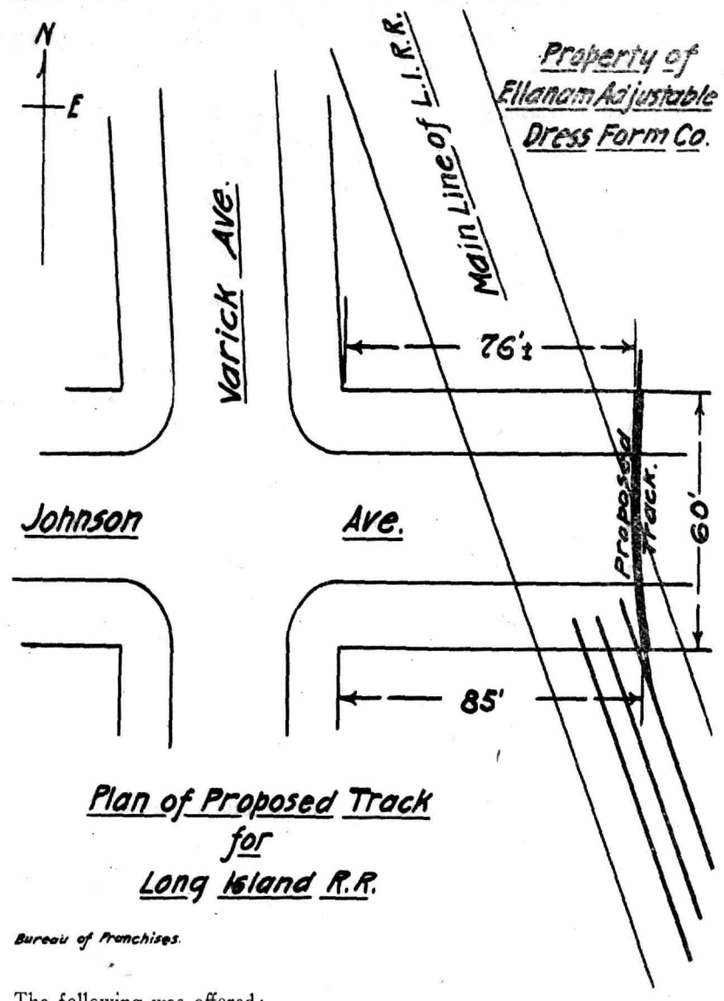
Copies of the petition with accompanying plan were forwarded to the President of the Borough and to the Commissioner of Water Supply, Gas and Electricity with a request that examination be made by the various bureaux of their departments having jurisdiction, with a view to ascertaining if there are any objections to the project or any particular conditions necessary to be incorporated in the form of consent heretofore used by the Board for similar privileges. In replies dated, respectively, October 6 and September 29, 1913, I was informed that there are no objections to the project and no particular conditions necessary to be incorporated in the form of consent. The reply from the Borough President calls attention to the fact that the plan accompanying the petition shows planking between the tracks and it is suggested that as Johnson Avenue has heavy traffic, the space between the tracks and for two feet outside be paved with granite block. The customary form of resolution granting revocable consents for tracks in the City streets amply covers this point, and the attention of the Borough President has been called to the particular clause of the resolution.

The customary examination by this Bureau disclosed no objections to the track, and as the administrative departments have reported favorably, I can see no good reason why the requested permission should not be given, should the Board see fit to do so. In such case I would suggest that consent be granted only during the pleasure of the Board, but in no case to extend beyond a period of ten (10) years from the date of the approval of the consent by the Mayor, and revocable upon sixty (60) days' notice, and that it be made a condition of the consent that a security deposit in the sum of one thousand dollars ($1,000) be required; said deposit to be in the form of either cash or securities, to be approved by and deposited with the Comptroller for the faithful performance of the terms and conditions of the consent. At the rate heretofore used by the Board for tracks in the City streets, viz., four per cent. of the assessed valuation of the area of street occupied, estimating a single track to occupy a width of ten feet, the charge for this track would be less than the minimum of one hundred dollars per annum. With the customary increase of five per cent. for the second term of five years, the compensation should therefore be: during the first five years the sum of one hundred dollars ($100) per annum, and during the second term of five years the sum of one hundred and five dollars ($105) per annum. Such sums should be paid into the City treasury in advance on November 1 of each year.

It has been made a provision of the customary form of resolution herewith submitted for adoption that the track shall be completely constructed by July 1, 1914.

A copy of the proposed form of resolution was forwarded to the Railroad Company, for examination, early in October, but the Company did not advise me until November 20th that the same would be acceptable.

Respectfully, HARRY P. NICHOLS, Engineer, Chief of Bureau.



The following was offered:

Whereas, The Long Island Railroad Company has presented a petition dated September 10, 1913, to the Board of Estimate and Apportionment for permission to construct, maintain and use a standard gauge railroad track across and on the surface of Johnson avenue, at a point about 85 feet east of the easterly line of Varick avenue, in the Borough of Brooklyn; now, therefore, be it

Resolved, That the consent of the Corporation of The City of New York be and the same is hereby given to the Long Island Railroad Company; a domestic corporation, to construct, maintain and use a standard gauge railroad track across and on the surface of Johnson avenue, at a point about 85 feet east of the easterly line of Varick avenue, in the Borough of Brooklyn, for the purpose of affording direct railroad connection between the petitioner's Evergreen Branch of its railroad and property on the northerly side of Johnson avenue, owned and occupied by the Ellanam Adjustable Dress Form Company; all as shown on the plan accompanying the petition, and entitled:

"Plan showing location of proposed track to be constructed in Johnson Avenue, Borough of Brooklyn, to accompany application dated September 10, 1913, of The Long Island R. R. Co. to the Board of Estimate and Apportionment, City of New York."

—and signed Ralph Peters, President; a copy of which is attached hereto and made a part hereof upon the following terms and conditions:

1. This consent shall continue only during the pleasure of the Board of Estimate and Apportionment, and shall be revocable upon sixty (60) days' notice in writing to the grantee, but in no case shall it extend beyond a term of ten (10) years from the date of its approval by the Mayor, and thereupon all rights of the grantee in said street by virtue of this consent shall cease and determine.

2. The grantee shall pay into the Treasury of The City of New York, as compensation for the privilege hereby granted:

During the first term of five (5) years the sum of One hundred dollars ($100) per annum, and

During the second term of five (5) years, the sum of One hundred and five dollars ($105) per annum.

Such payments shall be made in advance on November 1 of each year, provided, however, that the first payment shall be made within sixty (60) days of the approval of this consent by the Mayor, and shall be only such proportion of the annual charge as the time between the approval of this consent by the Mayor and November 1 following bears to a whole year.

Such rate of compensation shall continue up to the date of restoration of the street pavement after the removal of the structure from the street.

Such payments shall not be considered in any manner in the nature of a tax, but shall be in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid under any ordinance of The City of New York, or by any law of the State of New York.

3. Upon the revocation or termination by limitation of this consent, the said grantee shall, at its own cost, cause the said track and all appurtenances thereto to be removed if required so to do by The City of New York or its duly authorized representatives, and all that portion of said street affected by this consent to be restored to its proper and original condition. If the said track shall not be required to be removed, it is agreed that it and its appurtenances shall become the property of The City of New York.

4. This consent is for the exclusive use of the grantee, and shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto or right, interest or property therein pass to or vest in any other person, firm or corporation whatsoever, either by the acts of the grantee or by operation of law, without the consent in writing of The City of New York acting by the Board of Estimate and Apportionment.

5. The grantee shall pay the entire cost of:

(a) The construction, maintenance and removal of the track.

(b) The protection of all the surface and subsurface structures which shall in any way be disturbed by the construction or removal of the track.

(c) All changes in the sewer, water pipes or other structures made necessary by the construction or removal of the track including the laying or relaying of drains, pipes, conduits, sewers or other structures.

(d) The placing, replacing or restoring of the pavement and sidewalks in said street which may be required or disturbed during the construction or removal of the track.

(e) Each and every item of the increased cost of any future substructure caused by the presence of the track.

(f) The inspection of all work during the construction or removal of the track as herein provided which may be required by the President of the Borough and the Commissioner of Water Supply, Gas and Electricity.

6. Before the construction or removal shall be begun the grantee shall obtain permits to do the work from the President of the Borough, and from the Commissioner of Water Supply, Gas and Electricity. The grantee shall perform all the duties which may be imposed by those officials as conditions of such permits, pro-

vided such conditions are not inconsistent with the provisions of this consent. The grantee shall submit to those officials working plans which shall include and show in detail the method of construction of the track and the mode of protection or changes in all subsurface structures required by the construction of the track.

7. The track shall be constructed and operated in the latest improved manner of railroad construction and operation and solely upon the terms and according to the lines and surveys to be approved by the President of the Borough. The top of rails shall be laid flush with the surface of the roadway, and the grade of the roadway and sidewalks shall be altered and drainage provided as shall be directed and approved by the President of the Borough. The character of the rails and other parts of the construction shall also be approved by the said official and the track shall be maintained in good condition by the said grantee throughout the term of this consent.

8. The track shall be constructed, maintained and operated subject to the supervision and control of the proper authorities of The City of New York who have jurisdiction in such matters under the Charter of The City of New York, and no cars shall be permitted to remain stationary within the limits of the street, and no merchandise shall be loaded into or unoaded from cars within the limits of the street.

9. The grantee shall at all times keep the entire street between the rails of the track and for a distance of two feet beyond the rails on either side thereof free and clear from ice and snow.

10. Said grantee shall pave and keep in permanent repair the portion of the surface of the street and sidewalks between the rails of the track and for a distance of two feet on either side thereof under the supervision of the proper local authorities and whenever required by them to do so, and in such manner as they may prescribe and The City of New York shall have the right to change the material or character of the pavement of the street and sidewalks, and in that event the grantee shall be bound to replace the existing pavement between the rails of the track and for a distance of two feet on either side thereof with such changed or altered pavement, and in the manner directed by the proper City officials at its own expense, and the provisions as to repairs herein contained shall apply to such changed or altered pavement.

11. This consent is subject to whatever right, title or interest the owners of abutting property or others may have in and to said street.

12. Said grantee shall be liable for all damages to persons or property including the street and subsurface structures therein by reason of the construction, operation and maintenance of said track, and it is made a condition of this consent that The City of New York assumes no liability to either persons or property on account of this consent.

13. This consent is granted upon the further and express condition that the provisions of the Railroad Law applicable thereto and all laws or ordinances now in force or which may hereafter be adopted shall be strictly complied with.

14. This consent is upon the express condition that the said grantee within sixty (60) days after its approval by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of The City of New York the sum of one thousand dollars ($1,000), either in money or securities, to be approved by him, which fund shall be security for the faithful performance of the terms and conditions of this consent. In case of default in the performance by said grantee of any of the terms or conditions of this consent, The City of New York shall have the right to cause the work to be done and the materials to be furnished for making the changes or repairs after ten days' notice in writing, and shall collect the reasonable cost thereof from said fund without legal proceedings, or in case of default in the payment of the charge for the privilege, shall collect the same from such fund with interest after ten (10) days' notice in writing to the said grantee.

In case of any draft so made upon the security fund, the grantee shall, upon thirty (30) days' notice in writing, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of one thousand dollars ($1,000), and in default of the payment thereof, the consent hereby given may be cancelled and annulled at the option of the Board of Estimate and Apportionment of The City of New York, acting on behalf of said City. No action or proceeding or rights under the provisions of this section shall affect any other legal rights, remedies or causes of action belonging to The City of New York.

15. Said grantee shall give notice, in writing, to the President of the Borough and to the Commissioner of Water Supply, Gas and Electricity of its intention to begin the work hereby authorized at least forty-eight hours before such work commences. The grantee shall also give to the Board of Estimate and Apportionment notice, in writing, of the date on which the work is commenced and also the date on which the same is completed, not later than ten (10) days after such dates.

16. Said grantee shall commence the construction of the structure hereby authorized and complete the same on or before July 1, 1914; otherwise this consent shall be forfeited forthwith ,and without any proceedings, either at law or otherwise, for that purpose; provided, however, that such time may be extended by the Board of Estimate and Apportionment.

17. This consent shall be null and void unless said grantee shall duly execute an instrument in writing, wherein said grantee shall accept this consent and shall promise, covenant and agree to conform to, abide by and perform all the terms, conditions and requirements in this consent fixed and contained and file said instrument with the Board of Estimate and Apportionment of The City of New York within thirty (30) days after the approval of this consent by the Mayor; provided, however, that such time may be extended by the Board of Estimate and Apportionment.

And said grantee shall promise, covenant and agree in said instrument to hold The City of New York harmless from all damages to persons or property which may result from the construction, use, maintenance or operation of the structure hereby authorized.

Which was adopted by the following vote:

Affirmative—The Deputy and Acting Comptroller, the Acting President of the Board of Aldermen, the Acting President of the Borough of Manhattan, the Presidents of the Boroughs of Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—13.

United Electric Service Company (Cal. No. 4).

A report and financial statement was received from the United Electric Service Company under the provisions of Section 2-Nineteenth of contract dated December 15, 1909, as amended by contract dated October 29, 1912, granting said Company a franchise to install, maintain and use wires for the operation of a signal system for the calling of messengers and burglar and fire alarm systems in the Borough of Manhattan and that portion of the Borough of The Bronx west of the Bronx River.

The Secretary presented the following:

Bureau of Franchises, November 20, 1913.

Hon. ARDOLPH L. KLINE, *Mayor, Chairman of the Board of Estimate and Apportionment:*

Sir—The United Electric Service Company has, pursuant to the provisions of its franchise contract with The City of New York, dated December 15, 1909, submitted to the Board a statement to the effect that it has no wires in the streets of the City, but leases all those used by it from the New York Telephone Company, together with a report as to its operations for the year ending September 30, 1913. This report shows that the amount of capital stock is $2,500, the same amount as it had outstanding at the time it submitted its last report, and that it has reduced its only debt (the floating debt) from $1,300 to $800. The total income is stated to have been $25,875.03, and the total expenses, $22,389.19, leaving net earnings of $3,485.84. While the net earnings are much larger than those which the Company made during the year ending December 30, 1912, its gross earnings are very much smaller.

Under the contract, the Company is required to pay to the City 2 per cent. of its gross receipts during the first five-year period, with a minimum of $1,200. As the actual percentage of receipts would amount to but $517.50, the Company is required to pay $682.50 more than if no minimum were specified. To this extent, the fixing of a minimum annual payment is a financial benefit to the City and may act as an inducement to the Company to extend its business so that the percentage required on its earnings will approximate the minimum which it is compelled to pay.

As the report and return of the Company regarding its wires apparently comply with the terms of its franchise, it is recommended that the same be filed.

Respectfully, HARRY P. NICHOLS, Engineer, Chief of Bureau.

Which was ordered filed.

Manhattan Bridge Three-Cent Line (Cal. No. 5).

In the matter of the report submitted under the provisions of Section 4-Twelfth of contract dated July 10, 1912, granting the Manhattan Bridge Three Cent Line a franchise to construct, maintain and operate a street surface railway upon, along and over the Manhattan Bridge, and upon and along certain streets and avenues in the Boroughs of Manhattan and Brooklyn.

This report was presented to the Board at the meeting of November 13, 1913, and was referred to the Bureau of Franchises.

The Secretary presented the following:

Bureau of Franchises, November 20, 1913.

Hon. ARDOLPH L. KLINE, *Mayor, Chairman of the Board of Estimate and Apportionment:*

Sir—The contract dated July 10, 1912, granting the Manhattan Bridge Three Cent Line the right to construct, maintain and operate a street surface railway upon and along Desbrosses, Vestry, Washington, Greenwich and Canal Streets, Borough of Manhattan, to and across the Manhattan Bridge, and upon and along Flatbush Avenue and other streets in the Borough of Brooklyn, from the Desbrosses Street Ferry, Borough of Manhattan, to the Long Island Railroad Depot, Borough of Brooklyn, provides in Section 4, Twelfth, that there shall be filed with the Board not later than November 1 of each year a report for the year ending September 30 next preceding, which shall contain certain specified information in relation to the stock, funded and floating debts of the Company, its receipts from and expenses for operation, etc.

Pursuant to this provision, the Company under date of November 8, 1913, transmitted to the Board a report containing the required information for the year ending September 30, 1913. From an examination of the report submitted, it will appear that capital stock to the amount of $140,000 has been issued during the year and that the total amount of capital stock paid in is now $190,000. There is no funded debt and the total amount of floating debt is $154,173.65, an increase of $113,244.30 over the report submitted in 1912. The Company has purchased during the year a car barn site at Prince and Gold Streets, Borough of Brooklyn, at a cost of $56,767.23. The total receipts from passenger and advertising revenue were $87,556.67, and the total expense for operation, including salaries, $64,724.28. The contract further provides that the annual compensation to the City (exclusive of the amounts fixed for the use of terminal facilities and tracks upon the bridge) during the first five years from July 10, 1912, should be three per cent. of the gross receipts with a minimum payment of $4,000 per year. From the figures submitted it would appear that three per cent. of the gross receipts is less than the minimum annual payment and that in consequence the Company should pay to the City for the year ending September 30, 1913, the sum of $4,000.

The Company having complied with the provision of the contract relative to the submission of an annual report to the Board, it is recommended that the papers be filed and a copy of the report of this Bureau forwarded to the Comptroller of the City. Respectfully, HARRY P. NICHOLS, Engineer, Chief of Bureau.

The papers were ordered filed and the Secretary directed to forward a copy of the report of the Bureau of Franchises to the Comptroller.

The Secretary presented the following:

Bureau of Franchises, November 21, 1913.

Hon. ARDOLPH L. KLINE, *Mayor, Chairman of the Board of Estimate and Apportionment:*

Sir—By resolution adopted by the Board of Estimate and Apportionment October 30, 1913, approved by the Mayor November 1, 1913, the American Bank Note Company was granted permission to install, maintain and use a pipe 16 inches in diameter under and across Barretto Street north of Lafayette Avenue, Borough of The Bronx, to contain smaller pipes to convey water, steam and electric current between premises of the grantee.

Section 15 of the consent provides as follows:

"15. Patrick Ryan Construction Corporation (Cal. No. 10).

The Secretary presented the following:

Patrick Ryan Construction Corporation, 111 Broadway, New York, N. Y., November 5, 1913.

Board of Estimate and Apportionment, Bureau of Franchises, Room 801, 277 Broadway, New York City:

Gentlemen—Referring to franchise granted Mr. Patrick Ryan by approved resolution No. 89 for the construction, maintenance and operation of a bridge and 36-in. gauge railroad track in the Borough of Queens, which franchise was thereafter duly assigned to the Patrick Ryan Construction Corporation November 8 of this year, we hereby make application for permission to continue the maintenance, operation and use of said bridge and railroad track for a period of one year from the expiration of said franchise, which is November 22, 1913.

Yours very truly, P. RYAN, President.

Bureau of Franchises, November 20, 1913.

Hon. ARDOLPH L. KLINE, *Mayor, Chairman of the Board of Estimate and Apportionment:*

Sir—By resolution adopted by the Board of Estimate and Apportionment November 21, 1912, and approved by the Mayor November 22, 1912, consent was granted to Patrick Ryan to construct, maintain and operate a bridge over and across the Boulevard and a 36-inch gauge railroad track across and on the surface of Van Alst Avenue, Howland Street, Hallett Street, Crescent Street, Merchant Street and Goodrich Street, all lying between Ditmars and Potter Avenues, in Long Island City, Borough of Queens, for use in connection with the construction of piers of the New York Connecting Railroad Company under a contract between the said Company and Patrick Ryan. The said consent was duly accepted and the terms and conditions thereof fully complied with and the structures built.

In accordance with the expressed statement of the petitioner that the structures were desired for a period of only one year, it was provided in Section 1 of the said consent that it should extend for a term of only one year from the date of approval by the Mayor, to wit, November 22, 1913.

By resolution adopted by the Board on January 16, 1913, and approved by the Mayor January 23, 1913, Patrick Ryan was authorized to assign the said consent to the Patrick Ryan Construction Corporation, and the latter company has now presented a petition dated November 5, 1913, to the Board for permission to continue to maintain and operate the said structures for another year from November 22, 1913.

Communications were addressed to the President of the Borough of Queens and to the Commissioner of Water Supply, Gas and Electricity, requesting to be advised if there were any objections to the continued maintenance and use of the said structures for another year, and in replies dated November 17 I have been informed there are no objections apparent to the requested extension of the consent.

The customary examination by this Bureau disclosed no objection, and as the administrative departments of the City have reported favorably, I can seen no good reason why the requested permission should not be given should the Board see fit to do so. In such case I would suggest that a new consent be granted only during the pleasure of the Board, but in no case to extend beyond November 22, 1914, and that the same provisions as to security deposit and compensation for the privilege as fixed in the original consent should be required in the new one, viz., a security deposit of $1,000 and compensation of $300 for the privilege.

The customary form of resolution granting consent is herewith submitted for adoption. Respectfully, HARRY P. NICHOLS, Engineer, Chief of Bureau.

The following was offered:

Whereas, By resolution adopted by the Board of Estimate and Apportionment November 21, 1912, and approved by the Mayor November 22, 1912, consent was granted to Patrick Ryan to construct, maintain and operate a bridge over and across the Boulevard and a 36-inch gauge railroad track across and on the surface of Van Alst Avenue, Howland Street, Hallett Street, Crescent Street, Merchant Street and Goodrich Street, all lying between Ditmars and Potters Avenues, in Long Island City, Borough of Queens; and

—and signed Patrick Ryan; a copy of which is attached to and made a part of the hereinabove mentioned resolution adopted by the Board of Estimate and Apportionment on November 21, 1912, and approved by the Mayor November 22, 1912, granting permission to Patrick Ryan to construct, maintain and use the said structures; this consent being granted upon the following terms and conditions:

1. Said consent shall continue only during the pleasure of the Board of Estimate and Apportionment, and shall be revocable upon sixty (60) days' notice in writing to the grantee, but in no case shall it extend beyond November 22, 1914, and thereupon all rights of the grantee in said street by virtue of this consent shall cease and determine.

2. The grantee shall pay into the treasury of The City of New York as compensation for the privilege hereby granted, the sum of three hundred dollars. Such sum shall be paid within sixty (60) days after the approval of this consent by the Mayor. 3. Upon the completion of the work of constructing the New York Connecting Railroad Company's piers or upon the revocation or termination by limitation of this consent, the grantee shall cause the structures hereby authorized to be removed and all of said streets affected by this permission to be restored to their proper and original condition, if required so to do by The City of New York or its duly authorized representatives, and the entire cost of such work shall be borne by the said grantee. If the structures hereby authorized shall not be required to be removed, it is agreed that they shall become the property of The City of New York.

4. This consent is for the exclusive use of the grantee and shall not be assigned either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein pass to or vest in any other person, firm or corporation whatsoever, either by the acts of the grantee or by operation of law, without the consent in writing of The City of New York, acting by the Board of Estimate and Apportionment.

5. The grantee shall pay the entire cost of all work, labor and material in connection with the structures hereby authorized and particularly:

(a) Their construction, maintenance and removal.

(d) The replacing or restoring of the pavement in said streets which may be disturbed during their construction or removal.

(e) Each and every item of the increased cost of the installation of any future structures or repairs or alterations to any existing or future structures caused by their presence in the street.

(f) The inspection of all work during their construction or removal as herein provided, which may be required by the President of the Borough and the Commissioner of Water Supply, Gas and Electricity.

6. Before the construction or removal shall be begun, the grantee shall obtain permits to do the work from the President of the Borough and from the Commissioner of Water Supply, Gas and Electricity. The grantee shall perform all the duties which may be imposed by those officials as conditions of such permits, provided such conditions are not inconsistent with the provisions of this consent. The grantee shall submit to those officials working plans, which shall include and show in detail the method of construction of the structures hereby authorized and the mode of protection or changes in all structures required by the construction or removal of the same.

7. The grantee shall allow to The City of New York a right of way through, under or above any part of the structures hereby authorized for any and all structures which are now or may be hereafter placed by The City of New York in said streets.

If at any time it shall become necessary to replace or alter any structure in said street, the City shall have the right to break through or remove all or any portion of the structures hereby authorized, and the grantee shall pay to the City the expense incurred by such removal.

8. The structures hereby authorized and any fixtures laid therein shall be constructed, maintained and operated subject to the supervision and control of the proper authorities of The City of New York. They shall be open at all times to the inspection of all the authorities who have jurisdiction in such matters under the Charter of The City of New York.

11. Said grantee shall pave and keep in permanent repair the portion of the surface of the street and sidewalks between the rails of the track and for a distance of two feet on either side thereof under the supervision of the proper local authorities, and whenever required by them to do so, and in such manner as they may prescribe, and The City of New York shall have the right to change the material or character of the pavement of the street and sidewalks, and in that event the grantee shall be bound to replace the existing pavement between the rails of the track and for a distance of two feet on either side thereof with such changed or altered pavement, and in the manner directed by the proper City officials at its own expense, and the provisions as to repairs herein contained shall apply to such changed or altered pavement.

12. This consent is subject to whatever right, title or interest the owners of abutting property or others may have in and to said streets.

13. Said grantee shall be liable for all damages to persons or property, including the street and structures therein and thereunder, by reason of the construction and operation or maintenance of the structures hereby authorized, and it is a condition of this consent that The City of New York assumes no liability to either person or property on account of this consent.

14. This consent is granted upon the further and express condition that the provisions of the Railroad Law applicable thereto, and all laws or ordinances now in force or which may hereafter be adopted, shall be strictly complied with.

15. This consent is upon the express condition that within sixty (60) days after its approval by the Mayor, and before anything is done in exercise of the rights conferred hereby, the grantee shall deposit with the Comptroller of The City of New York the sum of one thousand dollars ($1,000), either in money or in securities to be approved by him, which fund shall be security for the performance of the terms and conditions of this consent, especially those which relate to the payment of the charge, the repairs of the street pavement and the removal of the structures hereby authorized. In case of default in the performance by said grantee of any of such terms and conditions, The City of New York shall have the right to cause the work to be done and the materials to be furnished for making the necessary changes or repairs, after ten (10) days' notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings, or in case of default in the payment of the charge, shall collect the same, with interest, from such fund after ten (10) days' notice in writing to the said grantee.

In case of any drafts so made upon the security fund the said grantee shall, upon thirty (30) days' notice in writing, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of one thousand dollars ($1,000), and in default of the payment thereof, the consent hereby given may be cancelled and annulled, at the option of the Board of Estimate and Apportionment of The City of New York, acting on behalf of said City. No action or proceeding or rights under the provisions of this section shall affect any other legal rights, remedies or causes of action belonging to The City of New York.

16. Said grantee shall give notice, in writing, to the President of the Borough and to the Commissioner of Water Supply, Gas and Electricity of its intention to begin the work hereby authorized at least forty-eight hours before such work commences. The grantee shall also give to the Board of Estimate and Apportionment notice, in writing, of the date on which the work is commenced, and also the date on which the same is completed, not later than ten (10) days after such dates.

17. This consent shall be null and void unless said grantee shall duly execute an instrument in writing, wherein said grantee shall accept this consent and shall promise, covenant and agree to conform to, abide by and perform all the terms, conditions and requirements in this consent fixed and contained and file said instrument with the Board of Estimate and Apportionment of The City of New York within thirty (30) days after the approval of this consent by the Mayor; provided, however, that such time may be extended by the Board of Estimate and Apportionment.

Ver Planck, Prince & Flanders, Counsellors at Law, Singer Building, 149 Broadway, New York City, October 3, 1913.

To the Board of Estimate and Apportionment of The City of New York:

Tunnel in West 55th Street.

Gentlemen—By resolution No. 44, passed by your Honorable Board on September 30, 1910, permission was granted to Robert Sterling Clark, our client, to maintain a tunnel under and across West 55th Street, in the Borough of Manhattan, City of New York, just west of 7th Avenue, connecting the premises Nos. 200 and 201 West 55th Street, both of which belonged to Mr. Clark.

Mr. Clark has now sold and removed from the premises No. 200 West 55th Street, on the south side of the street, and has ceased to use the tunnel and now desires to cause the same to be removed and all that portion of West 55th Street affected by the permission of your Board to be restored to its proper and original condition, in compliance with the terms of the above Resolution No. 44, to the end that the deposit made by him with the Comptroller of The City of New York as security may be withdrawn.

This deposit was of Certificate V 10 for $1,000 of the New York City corporate four per cent. stock due May 1, 1959.

Will you therefore kindly take notice that such tunnel is no longer being used by Mr. Clark, and that the contractor having the work in charge expects to make immediate application to the City authorities for the necessary permits to effect the removal of the tunnel and the restoration of the street, and we beg to ask in his behalf that you will kindly advise these officials that they may issue such permits under such supervision as is customary.

It is important to our client that this work shall be done promptly, as the annual payment has been made by him for this consent up to November 1, 1913, and he desires not to be subject to any further annual payment. Yours very truly,

VER PLANCK, PRINCE & FLANDERS, Attorneys for Robert S. Clark.

Hon. ARDOLPH L. KLINE, *Mayor, Chairman of the Board of Estimate and Apportionment:*

Sir—The Church Extension Committee of the Presbytery of New York, by a communication presented to the Board at its meeting held November 20, 1913, and referred to this Bureau, requests that suitable action be taken whereby the Commissioner of Water Supply may be authorized and directed to issue the necessary permit to allow the Westchester Lighting Company to extend its existing mains so as to connect with the new church building being erected at the northwest corner of 240th Street and Martha Avenue, Woodlawn Heights, Borough of The Bronx.

The franchise of the Westchester Lighting Company to operate gas mains in that portion of the Borough of The Bronx west of the Bronx River has been under investigation since May 23, 1913, and the Company has been held to be without a franchise by the Corporation Counsel under date of September 2. On October 16, the Board called upon the Company to submit an application for a franchise on or before November 28, and to advise as to its intentions on or before November 14, but, at the meeting held Thursday, November 20, an extension of time to November 28 was granted to the Company to communicate its conclusion as to what it proposes to do. Meanwhile, the Board, by resolution, has authorized the Commissioner of Water Supply and the President of the Borough of The Bronx to grant permits to the Westchester Lighting Company, authorizing it to lay gas mains to supply gas to two

separate institutions—the first on August 28, authorizing connection with the Montefiore Home, and the second on October 16, authorizing a connection with the New Woodlawn Heights Methodist Episcopal Church. When the present request was transmitted to this Bureau, a copy of the same was transmitted to the President of the Borough of The Bronx for his consideration.

As the Board may desire to take action authorizing the Commissioner of Water Supply and the President of the Borough of The Bronx to grant permits for this connection, similar to the permits that were granted to the Montefiore Home and the New Woodlawn Heights Methodist Episcopal Church, I have prepared and am transmitting herewith a resolution similar in form to that used in those two cases.

Respectfully, HARRY P. NICHOLS, Engineer, Chief of Bureau.

The following was offered:

Whereas, There was presented to the Board, at its meeting held October 2, 1913, an opinion of the Corporation Counsel holding the Westchester Lighting Company to be without a valid franchise to lay gas mains in that portion of the Borough of The Bronx formerly the Town of Kingsbridge; and

Whereas, The Church Extension Committee of the Presbytery of New York is erecting a church building in the said portion of the Borough of The Bronx formerly the Town of Kingsbridge and has, by a communication presented to this Board November 20, 1913, requested that the Westchester Lighting Company be granted a permit, authorizing it to lay the necessary connection in order to enable it to supply gas to the said church building, now under course of erection; and

Whereas, A supply of gas will be necessary for the purpose of lighting the said church and allowing the complete use of the same for public worship; now, therefore, be it

Resolved, That, pending the final outcome of the present situation with respect to the Westchester Lighting Company, the President of the Borough of The Bronx and the Commissioner of Water Supply, Gas and Electricity be and they are hereby authorized to grant a temporary revocable permit to the said Westchester Lighting Company, authorizing it to construct such gas mains as may be necessary for the purpose of connecting its existing gas mains with the church building now under course of erection at the northwest corner of 240th Street and Martha Avenue, Borough of The Bronx, by the Church Extension Committee of the Presbytery of New York, upon condition, however, that, before any such permit is granted, the Westchester Lighting Company enter into a stipulation, in a form approved by the Corporation Counsel, binding it to remove such main in the event of the failure on the part of said Company to apply to this Board and obtain a proper franchise authorizing it to conduct its operations in the said portion of the Borough of The Bronx, and containing such other conditions and requirements as to the Corporation Counsel may appear proper and necessary; provided, however, that this resolution is upon the express condition that no other connection shall be made by the said Westchester Lighting Company pending the final outcome of the present franchise proceedings.

Which was adopted by the following vote:

Affirmative—The Deputy and Acting Comptroller, the Acting President of the Board of Aldermen, the Acting President of the Borough of Manhattan, the Presidents of the Boroughs of Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—13.

(On November 20, 1913, the above report was laid over for one week.)

County Clerk, Queens County—Modification of Schedules and Transfer of Appropriation (Cal. No. 7A).

The Secretary presented the following:

Queens County Clerk's Office, Jamaica, N. Y., November 7, 1913.

To the Honorable the Board of Estimate and Apportionment, 277 Broadway, Borough of Manhattan, New York City:

Gentlemen—Application is hereby made for the transfer of the sum of $400 from the fund known as No. 3884, General Repairs, to the fund known as No. 3882, Office Equipment. During the past year the sum of $550 has been transferred from the account known as Office Equipment, but it was expected when these transfers were made that there would be a sufficient balance left, with which to comply with the needs of this office until the 31st of December. In this we have found you have been mistaken, and I desire to have this sum of $400 transferred at the earliest moment.

Asking your early consideration, I remain,

Yours very truly, LEONARD RUOFF, County Clerk.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, November 18, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On November 7, 1913, the County Clerk of Queens County requested transfer of $400 within the 1913 appropriations to his office. In connection therewith I report as follows:

It is proposed to transfer the amount from Contract or Open Order Service, No. 3884, General Repairs, to Purchase of Equipment, No. 3882, Office Equipment. There is a cash balance of $93.95 in No. 3882. The account is encumbered to the extent of $228 for libers of deeds. The County Clerk states that the remainder of the amount sought to be transferred is required for the purchase of libers for judgment dockets and of a typewriter to replace a defective machine. During the present year transfers aggregating $550 have been made from this account. The unencumbered balance in No. 3884 is sufficient for the debit transfer.

I recommend the adoption of the attached resolutions granting the request.

Respectfully, DOUGLAS MATHEWSON, Deputy and Acting Comptroller.

The Secretary presented the following:

Court of General Sessions of the Peace, County of New York, Clerk's Office, November 12, 1913.

Hon. WILLIAM A. PRENDERGAST, *Comptroller of The City of New York,* 280 Broadway, New York City:

Dear Sir—The appropriation of $880 for office supplies for this Court (Code No. 3619-1913), has been nearly expended. It is estimated that $200 additional will be required for the payment of bills which will be chargeable to said funds during the months of November and December, 1913.

At the present time there is an unexpended balance of $529.14 in the appropriation for Telephone Service of this Court (Code No. 3623-1913). It is estimated that $250 will be required for the payment of telephone bills for the remainder of the year, and that there will be a balance of over $250 which will not be required for said appropriation.

I respectfully request that the sum of $200 be transferred from the appropriation for Telephone Service (Code No. 3623) to the appropriation for Office Supplies (Code No. 3619), to meet the necessary estimated expenses to be incurred in the proper transaction of the business of this Court.

Very respectfully yours, EDWARD R. CARROLL, Clerk of Court.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, November 19, 1913.

It is proposed to transfer $200 from Contract or Open Order Service, Communications, No. 3623, Telephone Service, to Supplies, No. 3619, Office Supplies.

The unexpended balance in No. 3623 on November 17, 1913, was $529.14. It is estimated that $250 will suffice for expenditures for the remainder of the year, leaving $279 that will not be needed.

The unexpended balance in No. 3619 on the same date was $14.16. It is estimated that the expenditures chargeable to the account for the remainder of the year will amount to over $200, itemized as follows:

Ice	$50 00
Water	35 00
Towels	19 50
Postage stamps	50 00
Miscellaneous items	55 00
Total	$209 50

Court of General Sessions, New York County—Modification of Schedules and Transfer of Appropriation (Cal. No. 7F).

The Secretary presented the following:

Court of General Sessions of the Peace, County of New York, Clerk's Office, November 12, 1913.

Hon. WILLIAM A. PRENDERGAST, *Comptroller of The City of New York,* 280 Broadway, New York City:

Dear Sir—An appropriation of $112.50 was made for this Court for General Plant Service (Code No. 3624—1913). Upon inquiry, I find that this was appropriated for the yearly subscription to the Law Reports and Session Laws for the year 1913. The Law Reports and Session Laws for 1912 cost $112.50; but for the year 1913 they cost $135. The bill for $135 for said Law Reports and Session Laws was charged to and paid out of the appropriation for Office Equipment (Code No. 3620—1913).

It will be necessary for this Court to purchase some typewriters and perhaps some furniture before the end of the year, and the only available appropriation to which bills can be charged for the same is for Office Equipment. The balance now remaining in said appropriation will not be sufficient to pay for renewals for law books and for typewriters and furniture.

In view of the fact that $135 was indavertently charged to the appropriation for Office Equipment instead of to the appropriation for General Plant Service, I respect-

fully request that the appropriation of $112.50 for General Plant Service (Code No. 3624) be transferred to the appropriation for Office Equipment (Code No. 3620), to meet the necessary expenses to be incurred in the proper transaction of the business of this Court.

Very respectfully yours, EDWARD R. CARROLL, Clerk of Court.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, November 19, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On November 12, 1913, the Clerk of the Court of General Sessions requested transfer of $112.50 within appropriations to the Court for the year 1913. In connection therewith I report as follows:

It is proposed to transfer $112.50 from Contract or Open Order Service, No. 3624, General Plant Service, to Purchase of Equipment, No. 3620, Office Equipment.

The appropriation of $112.50 for No. 3624, General Plant Service, was intended for subscription for law journals and session laws. The expenditure for such service, however, was charged to and paid out of the appropriation No. 3620, Office Equipment. There have been no expenditures charged against No. 3624.

The Budget appropriation for No. 3620 was $1,037.50. The expenditures amount to $739.48. The unexpended balance on November 17 was $298.02. It is stated that this sum will be insufficient to pay for law books, furniture and typewriter for the remainder of the year. The estimate of expenditures is as follows:

Exchange of two typewriters for new typewriters, payment for difference in value	$90 00
Equipment for two new Judges who will assume office January 1	130 00
Law books, additions to library	110 00
Miscellaneous expenditures	75 00
	$405 00

I recommend the adoption of the attached resolutions granting the request.

Respectfully, DOUGLAS MATHEWSON, Deputy and Acting Comptroller.

To the Board of Estimate and Apportionment:

Gentlemen—On November 10, 1913, the Clerk of the City Court requested transfer of funds within appropriations for the Court for the year 1913. In connection therewith I report as follows:

It is proposed to transfer $140 from Purchase of Equipment, No. 2358, Office Equipment, and $50 from Contract or Open Order Service, communication No. 2359, *Telephone Service; total $190, to Supplies,* No. 2357, Office Supplies.

The Clerk states that the transfer is necessary in order to meet an anticipated deficiency in No. 2357, as the unexpended balance in that account on October 31, 1913, was $40.50.

The 1913 allowance for No. 2357, Office Supplies, was $775. On April 3, 1913, $100 was transferred from the account to Contract or Open Order Service, No. 2360, General Plant Service, to meet a deficiency caused by unforeseen and compulsory payment for opinions received from the higher Courts. The allowance for No. 2357 was reduced to $675.

On April 1, 1913, the cost for ice furnished the Court and chargeable to No. 2357 was increased 100 per cent., and the increase for six months amounted to $123.20 beyond the sum estimated and provided for in the 1913 budget. The liabilities and the estimated charges against the account for the remainder of the year amount to $222.60.

I recommend the adoption of the attached resolutions granting the request.

Respectfully, DOUGLAS MATHEWSON, Deputy and Acting Comptroller.

The Secretary presented the following:

Fire Department of The City of New York, 157 East 67th Street, August 26, 1913.

Hon. WILLIAM A. PRENDERGAST, *Comptroller, Department of Finance,* 280 Broadway, New York City:

Sir—I have the honor to transmit herewith for approval by the Board of Estimate and Apportionment form of contract with specifications for furnishing two (2) motor driven tractors for this Department, to be attached to water towers. The estimated cost, $10,500, to be charged against appropriations for the year 1913, account No. 1456. Respectfully,

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, November 18, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On August 26, 1913, the Deputy and Acting Fire Commissioner requested approval of the form of contract and specifications and the estimate of cost in the sum of $10,500 for two motor driven tractors, to be attached to water towers. The cost is to be charged to the tax levy allowance of the appropriation for 1913 for the Fire Department in the account entitled, "Purchase of Equipment, General Plant Equipment, Fire Fighting, 1456, Maintenance of Apparatus and Equipment." On June 26, 1913, the sum of $66,000 was transferred within the appropriations of the Fire Department to this account on the conditions that the form of contract, plans, specifications and estimate of cost for the purchase of tractors, hose wagons, fire hose or other apparatus out of account No. 1456, be first submitted to the Board of Estimate and Apportionment for its consideration and action. On

November 17, 1913, there remained an unencumbered balance of $40,133.11—the tax levy allowance of this account.

The specifications and form of contract have been revised at the suggestion of the Department of Finance and are satisfactory. The estimate of cost should not exceed $9,400.

I recommend the adoption of the attached resolutions approving the request at the reduced estimate of cost. Respectfully,

DOUGLAS MATHEWSON, Deputy and Acting Comptroller.

The following resolution was offered:

Resolved, That, pursuant to its resolution adopted on June 26, 1913, the Board of Estimate and Apportionment hereby approves the form of contract and specifications and the estimate of cost in the sum of nine thousand, four hundred dollars ($9,400) for two motor driven tractors for water towers for the Fire Department, the cost to be charged to the tax levy allowance of the account entitled "Purchase of Equipment, General Plant Equipment, Fire Fighting, 1456, Maintenance of Apparatus and Equipment," in the appropriation for the Fire Department for 1913, and be it further

Resolved, That if no bids are received for such work within such estimated cost, this Board may in its discretion reconsider the amount of such estimated cost upon the bids so received, provided that any of said bids is within the amount authorized for such work.

Which was adopted by the following vote:

Affirmative—The Deputy and Acting Comptroller, the Acting President of the Board of Aldermen, the Acting President of the Borough of Manhattan, the Presidents of the Boroughs of Brooklyn, The Bronx and Queens, and the Acting President of the Borough of Richmond—13.

Department of Education—Modification of Schedule (Cal. No. 9).

The Secretary presented the following:

Board of Education, Park Avenue and 59th Street, New York, October 14, 1913.

Mr. JOSEPH HAAG, *Secretary, Board of Estimate and Apportionment:*

Dear Sir—In accordance with a resolution adopted by the Board of Education on November 27, 1912, the undersigned respectfully request modifications of salary schedule No. 3439, Offices of District Superintendents, for the year 1913, taking effect September 30, 1913, as follows:

—and insert:	
*Typewriting Copyist, 1 at $600 (N. A. S. I.)	$600 00
*Balance unassigned (A. S. I.)	750 00

The above modifications are in addition to the modifications requested in our communication of October 8, 1913, and are necessary in order to pay the salary of a Typewriting Copyist at $600 per annum, appointed in place of a Stenographer and Typewriter at $900 per annum, on leave of absence.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, November 18, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On October 14, 1913, the Board of Education requested modification of Schedule No. 3439, Salaries Regular Employees, Offices of District Superintendents, for the year 1913, to take effect September 30. In connection therewith I report as follows:

The line "Stenographer and Typewriter, 1 at $900," is changed to read, "Typewriting Copyist, 1 at $600 (N. A. S. I.)," the difference being credited to balance unassigned (A. S. I.), thereby increasing the latter item from $450 to $750. This provides for the assignment of a Typewriting Copyist at $600 per annum temporarily to fill the place of a Stenographer and Typewriter at $900, who is on leave of absence.

The line item changes in detail are as follows:

Schedule Line.	Schedule Transfer. Decrease.	Schedule Transfer. Increase.	Cash Transfer. Decrease.	Cash Transfer. Increase.

Department of Public Charities—Modification of Schedules (Cal. No. 12).

The Secretary presented the following:

Department of Public Charities of The City of New York, Foot of East 26th street, July 11, 1913.

Re: Modification of Salary Schedule No. 956.

Hon. WILLIAM A. PRENDERGAST, *Comptroller of The City of New York:*

Sir—The modification of the following schedule is submitted for your consideration and report thereon to the Board of Estimate and Apportionment for their action:

Department of Public Charities, New York City Training School for Nurses, 956—Operation.

Budget Schedule.

Pupil Nurse, 56 at $120	$6,720 00
Pupil Nurse, 56 at $144	8,064 00
Post Graduate Nurse, 4 at $300	1,200 00
Hospital Helper	11,640 00
Total	$27,624 00

Modification as Requested February 4, 1913.

Pupil Nurse, 56 at $120	$6,720 00
Pupil Nurse, 56 at $144	8,064 00
Trained Nurse (post graduate), 2 at $600	1,200 00
Hospital Helper	11,640 00
Total	$27,624 00

Proposed Modification.

Pupil Nurse, 513 months at $120	$5,130 00
Pupil Nurse, 632 months at $144	7,584 00
Trained Nurse (post graduate), 2 at $600	1,200 00
Hospital Helper	13,710 00
Total	$27,624 00

We still need more help for the proper care of the patients. This transfer of $2,070 is to be expended for Ward Maids, Orderlies and Cleaners at the rate of $240 per annum for men and $180 per annum for women. This modification is only for the transfer of money from one line number to another within the same salary appropriation to meet conditions as they are at present.

Another reason why this transfer is requested is because this Department has been unable to procure Pupil Nurses in suffcient numbers to care for the patients. The Charter has now been modified so that advertisements may be inserted in magazines and papers for Pupil Nurses and we hope this will result in the Department being able to obtain more Pupil Nurses.

I trust you will report favorably to the Board of Estimate and Apportionment on this request.

Thanking you for your kind support in these matters and regretting the necessity for making so many requests for modification of schedules this year, I remain,

Very truly yours, MICHAEL J. DRUMMOND, Commissioner.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, November 20, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—Under date of July 15, 1913, the Commissioner of Charities requested the modification of a salary schedule in that Department, involving a transfer of $2,070 within the schedule. In connection therewith I report as follows:

In account No. 956, Personal Service, Salaries, Temporary Employees, Institutional Care for Dependents, Training of Nurses, New York City Training School for Nurses, it is proposed to transfer $1,590 from line "Pupil Nurse, at $120," and $480 from line "Pupil Nurse, at $144," to the line "Hospital Helper." The change requested in the line "Post Graduate Nurse, 4 at $300," to Trained Nurse, 2 at $600, was approved by your Board on July 10, 1913, on a previous request of the Department, but report on this request for a transfer of money from Pupil Nurse line to the Hospital Helper line was withheld until the result of advertising for Pupil Nurses permitted by recent legislation could be determined. This advertising has resulted in securing an increase in the number of Pupil Nurses, but not the number allowed in the 1913 budget. The following table shows the amount allowed in the 1913 budget, the proposed modification, the amount expended to October 31, 1913, and the amount of the October payroll:

	Budget, All 1913.	Proposed Modification.	Expended October 31.	October Payroll.
Pupil Nurse, at $120	$6,720 00	$5,130 00	$2,717 09	$250 97
Pupil Nurse, at $144	8,064 00	7,584 00	5,282 56	588 00
Hospital Helper	11,640 00	13,710 00	10,869 01	1,317 62

Dr. Bacon, Superintendent of the City Hospital, stated that this transfer is necessary, as they have been compelled to employ Hospital Helpers in place of Pupil Nurses they are not able to secure.

The following table shows the line item changes in detail:

		Cash Transfer. Increase.	Cash Transfer. Decrease.
956	Operation—		
	Pupil Nurse, at $120 (513 months)	.....	$1,590 00
	Pupil Nurse, at $144 (632 months)	.....	480 00
	Hospital Helper	$2,070 00	.....
		$2,070 00	$2,070 00

I recommend the adoption of the attached resolution granting the request.

Respectfully, DOUGLAS MATHEWSON, Deputy and Acting Comptroller.

Board of Education—Modification of Schedule (Cal. No. 13).

The Secretary presented the following:

Board of Education, Park Avenue and 59th Street, New York, October 29, 1913.

Mr. JOSEPH HAAG, *Secretary, Board of Estimate and Apportionment:*

Dear Sir—In accordance with a resolution adopted by the Board of Education on November 27, 1912, the undersigned respectfully request modification of salary schedule 3440, Office of the Superintendent of School Supplies, for the year 1913, to take effect October 22, 1913, as follows:

Strike out:

Clerk, 4 at $1,050	$4,200 00
Balance unassigned (A. S. I.)	330 00

—and insert:

Clerk, 3 at $1,050	$3,150 00
Clerk (A. S. I., $450)	1,150 00
Balance unassigned (A. S. I.)	230 00

The above request involves no increase in appropriations and is necessary in order to pay the salaries of three Clerks in the Bureau of Supplies, increased from $1,050 to $1,150, $420 to $540, and $300 to $420 per annum, respectively.

A copy of the schedule, as modified, is enclosed. Respectfully yours,

A. E. PALMER, Secretary, Board of Education; HENRY R. M. COOK, Auditor, Board of Education.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, November 21, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On October 29, 1913, the Board of Education requested modification of the 1913 schedule No. 3440, Salaries, Regular Employees, Office of the Superintendent of School Supplies. In connection therewith I report as follows:

It is proposed to eliminate one position of Clerk at $1,050 per annum and to substitute one at $1,150 per annum, the difference being taken from balance unassigned in order to provide for increasing the salary of Daniel T. Donovan from $1,050 to $1,150 per annum. The proposed modification is in conflict with the rules of this Board, as the rate of $1,150 per annum is not a regular civil service grade.

I recommend therefore that the request be disapproved. Respectfully,

DOUGLAS MATHEWSON, Deputy and Acting Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment *denies* the request of the Board of Education, as set forth in a communication dated October 29, 1913, for the modification of salary schedule No. 3440 for the year 1913.

Which was adopted by the following vote:

Affirmative—The Deputy and Acting Comptroller, the Acting President of the Board of Aldermen, the Acting President of the Borough of Manhattan, the Presidents of the Boroughs of Brooklyn, The Bronx and Queens, and the Acting President of the Borough of Richmond—13.

The Secretary was directed to transmit a copy of the above report to the Board of Education.

Department of Parks, Manhattan and Richmond—Issue of Special Revenue Bonds (Cal. No. 14).

(On November 13, 1913, the resolution of the Board of Aldermen herein was referred to the Comptroller.)

The Secretary presented the following:

In the Board of Aldermen.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of three thousand dollars ($3,000), the proceeds whereof to be used by the Department of Parks, Manhattan and Richmond, for the purpose of repairing roof of New York Public Library building.

All obligations contracted for hereunder to be incurred on or before December 31, 1913.

Adopted by the Board of Aldermen October 28, 1913, three-fourths of all the members voting in favor thereof.

Received from his Honor the Mayor November 11, 1913, without his approval or disapproval thereof; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it. P. J. SCULLY, Clerk.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, November 20, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On October 28, 1913, the Board of Aldermen adopted a resolution requesting an issue of special revenue bonds in the sum of $3,000, to be used by the Department of Parks, Boroughs of Manhattan and Richmond, for the purpose of repairing the roof of the New York Public Library building. In connection therewith I report as follows:

The roofs of the building, particularly over the main reading and engine rooms, are in very bad condition. Many leaks have developed during the past two months; damage has been done to books and the expensive ceilings have been marred. Unless repairs are made soon the main reading room may have to be closed as there is danger of the plaster ceiling, softened by water, falling in and causing injury. The repairs should be made at once to avoid serious damage to the interior of the building.

I recommend the adoption of the attached resolutions granting the request.

Respectfully, DOUGLAS MATHEWSON, Deputy and Acting Comptroller.

The following resolution was offered:

Resolved, That the resolution adopted by the Board of Aldermen on October 28, 1913, requesting an issue of special revenue bonds in the sum of three thousand dollars ($3,000), the proceeds whereof to be used by the Department of Parks, Manhattan and Richmond, for the purpose of repairing roof of the New York Public Library building, all obligations contracted for hereunder to be incurred on or before December 31, 1913, be and the same is hereby approved of and concurred in by the Board of Estimate and Apportionment, and for the purpose of providing funds therefor the Comptroller be and is hereby authorized, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, to issue special revenue bonds of The City of New York to an amount not exceeding three thousand dollars ($3,000), redeemable from the tax levy of the year succeeding the year of their issue.

Which was adopted by the following vote:

Department of Parks, Borough of The Bronx—Rescission and Amendment of Issue of Corporate Stock (Cal. No. 15).

The Secretary presented the following:

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, November 21, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On October 23, 1913, the Board of Estimate and Apportionment adopted a resolution to rescind a balance of $7,518.32 corporate stock authorized by the Board on July 17, 1911, for $15,000, for the construction of a zebra house yard in the New York Zoological Park, under the jurisdiction of the Department of Parks, Borough of The Bronx, and authorizing an issue of corporate stock for $7,518.32 to provide means for the construction of a hospital building to be located in the service yard.

It appears that $518.32 of this sum was cash balance, which cannot be transferred by a resolution authorizing bonds. The practical result of this proceeding was a rescindment of $7,518.32.

It is therefore recommended that the amended resolution adopted on October 23, 1913, be rescinded. The resolution authorizing $7,518.32 corporate stock for the new purpose to stand as adopted.

This really involves no additional outlay in the appropriation, although it shows an apparent increase of $518.32 over the original authorization. That amount exists as an actual cash balance and may be transferred, pursuant to the provisions of chapter 36 of the Laws of 1913, and made available for any purpose for which corporate stock may be authorized. There is actually no increase in the appropriation, but this action will avoid complication in keeping the accounts.

We recommend the adoption of the attached resolutions, giving effect to this recommendation. Respectfully,

DOUGLAS MATHEWSON, Deputy and Acting Comptroller; E. V. FROTHINGHAM, Acting President, Borough of Manhattan; L. H. POUNDS, President, Borough of Brooklyn; CYRUS C. MILLER, President, Borough of The Bronx, Corporate Stock Budget Committee.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, November 24, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On October 10, 1913, the College of the City of New York requested the transfer of funds within its appropriations for the current year aggregating $1,901. In connection therewith I report as follows:

On account of the attendance in the Extension and Evening Courses for which the sum of $13,825 (Code 3347) was allowed, being larger than was anticipated, the aforesaid allowance is inadequate. It is proposed to transfer thereto the sum of $1,426 from the allowance for salaries of the teaching corps (Code 3346) in the college proper.

It is further proposed to transfer the sum of $475 from the appropriation for office equipment (Code 3358) to the allowances for the expressage (Code 3336), telegraph and messenger service (Code 3368), contingencies (Code 3371) and office supplies (Code 3353), in order to cover deficits in the latter accounts.

Existing balances permit of the proposed transfers. It is recommended therefore that the request be granted by the adoption of the attached resolutions. Respectfully,

DOUGLAS MATHEWSON, Deputy and Acting Comptroller.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, November 24, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On October 14 and November 11, 1913, the Board of Health requested modification of four salary schedules in the Department of Health, involving a transfer of $100. In connection therewith I report as follows:

It is proposed in No. 532, Administration, Care of Buildings and Grounds, to drop the vacant position of Watchman at $600, and to substitute therefor, in No. 528, Administration, Executive, a Clerk at $600.

In No. 527, Administration, Keeping of Records, a Clerk at $1,200 is to be substituted for a Tabulator at $1,500, no incumbent, and the remaining position of Tabulator at $1,500, is to be increased to $1,800. This Tabulator, Joseph H. Gibbons, was appointed as such in the department in March, 1904, at $1,200, and was increased to $1,500 in June, 1906. His work necessitates a thorough knowledge of the international code of classification of the causes of death, 189 in all, as established in 1901, the calculation of the death rate, and ability to operate the Hollerith tabulating machine.

In No. 571, Temporary Employees, Tuberculosis Sanatorium, Otisville, Care of Buildings and Grounds, Tax Levy Force, it is proposed to readjust the lines in order to enable the department to continue to employ the lower priced force.

The following table shows the line item changes in detail:

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, November 18, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On October 8 and 22, 1913, the Board of Education requested that rates of compensation for Janitors of sundry public schools be fixed in accordance with the provisions of section 56 of the Greater New York Charter. In connection therewith we report as follows:

For Nos. 49 and 98D, Manhattan; 11, 17 Annex, 21, 41 and 49, Brooklyn; 53, 69 and 70, Queens; 2 and 14, Richmond, rates the same as or lower than those already fixed upon the basis of the regular schedule of prices are requested.

For the new Bushwick High School in Brooklyn, pending the fixation of a regular rate, a temporary rate of $150 per month is requested from August 15, 1913, the date upon which the Janitor was first assigned to duty; also a temporary rate of $1,500 per month from September 27, 1913, to enable the Janitor to engage sufficient help to get the building ready for occupancy.

For the Janitor of No. 130, Manhattan, an increase from $10 to $15 per month is requested for the care of the sidewalk and lot adjoining the school, on account of their being used for playground and garden purposes by the school.

For the Janitor of the Training School for Teachers, Brooklyn, an increase from $7,056 to $8,476 per annum is requested, because, after investigating the Janitors' ocmplaints, the Committee on Care of Buildings, Board of Education, decided that the present rate, which is based upon the regular schedule, is insufficient for the care of this particular building on account of its wider use, due to the various and extended activities of the training school. It is stated to be necessary to increase the rate of compensation as proposed in order to obtain satisfactory janitorial service.

For the Janitor of No. 101, 111th street, west of Lexington avenue, Manhattan, the maximum rent allowance of $365 per annum is requested, as against $221, which he now receives. It is stated that the minimum rate of $221 per annum is insufficient for this neighborhood.

In addition to the foregoing, new rates of compensation for the care of portable buildings in connection with Nos. 8, 14, 34 and 36, The Bronx, are requested, but, as the proposed rates have since been reconsidered, it is recommended that this part of the request be held in abeyance pending the receipt of the amended resolutions.

A resolution is also transmitted rescinding a request made on September 10, 1913, for the fixation of the rate of $600 per annum for the Janitor of No. 147, Manhattan, for the care of the kindergarten in the Jacob A. Riis Neighborhood Settlement, but no action thereon is necessary, as the request was disapproved.

With the exception of the aforesaid portable school items, we recommend that the requests be granted by the adoption of the attached resolution. Respectfully,

DOUGLAS MATHEWSON, Deputy and Acting Comptroller; O. GRANT ESTERBROOK, Acting President, Board of Aldermen, Committee on Salaries and Grades.

The following was offered:

Whereas, By opinions of the Corporation Counsel as of June 28 and July 30, 1910, the Comptroller was advised that the payment of salaries of Janitors in the Department of Education was illegal unless such salary shall have been established under the provisions of section 56 of the Greater New York Charter; and,

Whereas, The Special Committee on Janitorial Compensation and the Committee on School Inquiry, Board of Estimate and Apportionment, submitted a joint report on March 27, 1913, which contained detailed suggestions and recommendations for the reorganization of the janitorial force of the Board of Education; therefore, be it

Resolved, That, pursuant to the provisions of section 56 of the Charter, the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen, pending action by the Board of Education on the aforesaid report, the compensation of Janitors in the Department of Education be fixed temporarily, and until further modified in accordance with the following list:

A true copy of a resolution adopted by the Board of Education on November 12, 1913. A. E. PALMER, Secretary, Board of Education.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, November 24, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On November 12, 1913, the Board of Education requested transfer of $241 within the Special School Fund appropriation for 1913 from account No. 3461, Fuel Supplies, Borough of Brooklyn, to account No. 3536, Contract or Open Order Service, General Repairs, Borough of Brooklyn. In connection therewith I report as follows:

As previously reported to this Board (June 5, 1913), $1,050 was transferred from the fuel account for Brooklyn to the general repairs account for the same Borough, for the purpose of equipping two school buildings with suitable grate bars and mechanical drafts for making an experiment in the burning of anthracite refuse combined with semi-bituminous coal. The Bureau of Buildings had no funds available in its general repair allowance and so funds for the experiment were provided by transfer from the fuel account. The transfer herein requested is for the purpose of supplementing the original amount, which now proves to be insufficient.

Existing balances permit the transfer. I recommend the adoption of the attached resolution granting the request. Respectfully,

DOUGLAS MATHEWSON, Deputy and Acting Comptroller.

The Secretary presented the following:

To the Board of Estimate and Apportionment:

Gentlemen—Reporting further on the matter of a request from the Board of Educaion for the transfer of $5,500 within the Special School Fund for 1913, to cover a deficit in the allowance for office supplies in the office of the City Superintendent of Schools (Code 3466), I recommend the adoption of the attached resolution authorizing the transfer of $4,000 from No. 2534, Miscellaneous City, Fixed Charges and Contributions, Advertising, Advertising Not Otherwise Provided for, including Arrearages, to No. 3466, to cover the deficit still remaining therein. On November 20, 1913, $1,500 was transferred to No. 3466 from the allowance for the support of the Nautical School, but the request for the remaining $4,000 was disapproved because the proposed transfer was from a personal service account to one other than personal service.

Respectfully, DOUGLAS MATHEWSON, Deputy and Acting Comptroller.

President, Borough of The Bronx—Modification of Schedule and Transfer of Appropriation (Cal. No. 32).

The Secretary presented the following:

City of New York, President of the Borough of The Bronx, 3d Avenue and 177th Street, Office of the President, October 11, 1913.

To the Honorable the Board of Estimate and Apportionment:

Gentlemen—Request is earnestly made, that either by the issuance of special revenue bonds, or by the transfer from some City Department, the sum of $1,000 may be obtained for the purpose of replenishing the appropriation to this office of Code No. 2914, "Carfare," now exhausted, and thereby provide funds necessary to reimburse the employees of the Engineering Construction force, for moneys they will expend during the three remaining months of the year for carfare, as there are no surpluses of appropriation accounts of this office that may be transferred. The appropriation for the purpose for 1913 was $2,950. The estimate was $3,400, and as the same was prepared early in June, 1912, it proved to be too low, for at the completion of said year, it was found that the actual expenditures had been $3,568.79.

It is extremely important that the deficiency be provided for, as the carfares must be paid which are advanced by the employees who are engaged on contract field work, and the amount expended by each is supported by a sworn statement rendered each month, the charges consisting of carfares paid to and from the office to the work and between locations of contract work that is being operated at different points remote from each other.

The total amount expended to October 1, of this year, being the full appropriation, viz.: $2,950, and the estimated amount required for the end of the year being $1,000, the yearly total would therefore be $3,950, and in view of the foregoing facts, it is earnestly urged that there be no cut made from the estimate for the same purpose, now in the hands of your honorable Board for 1914, which is $4,000.

Respectfully, CYRUS C. MILLER, President, Borough of The Bronx.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, November 24, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On October 14, 1913, the President of the Borough of The Bronx requested transfer of $1,000 from any available balance to the 1913 account entitled, Contract or Open Order Service, Transportation, Carfare, No. 2914, General Engineering (including Topographical). In connection therewith I report as follows:

It is proposed to replenish the account, now exhausted, in order to reimburse the engineering construction force for moneys expended for carfares.

Because of the extensive field operations this account has been encumbered monthly to the extent of over $350, making a transfer necessary to meet requirements to the end of the year.

I recommend the adoption of the attached resolution granting the transfer of $700 from No. 2534, Miscellaneous City, Fixed Charges and Contributions, Advertising, Advertising Not Otherwise Provided for, including Arrearages, to No. 2914.

Respectfully, DOUGLAS MATHEWSON, Deputy and Acting Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 237 of the Greater New York Charter, hereby approves of the transfer of funds appropriated for the year 1913, as follows:

FROM

MISCELLANEOUS—CITY.

Fixed Charges and Contributions, Advertising.

2534 Advertising Not Otherwise Provided for, Including Arrearages... $700 00

TO

PRESIDENT, BOROUGH OF THE BRONX.

Contract or Open Order Service, Transportation, Carfare.

2914 General Engineering (Including Topographical)..... $700 00

Which was adopted by the following vote:

Affirmative—The Deputy and Acting Comptroller, the Acting President of the Board of Aldermen, the Acting President of the Borough of Manhattan, the Presidents of the Boroughs of Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—13.

President, Borough of Brooklyn—Modification of Schedule (Cal. No. 33).

The Secretary presented the following:

The City of New York, Office of the President of the Borough of Brooklyn, October 29, 1913.

Hon WILLIAM A. PRENDERGAST, *Comptroller, Department of Finance, City of New York:*

Dear Sir—I transmit herewith proposed modification of salary schedule No. 2931TS, for which I respectfully ask you to have your Bureau of Statistics prepare a report recommending the Board of Estimate and Apportionment to adopt a resolution modifying the schedule as herewith submitted. The object to be attained by this modification provides for the elimination of one (1) Assistant Engineer at $1,800 per annum, and the substitution therefor of one (1) Transitman at $1,200 per annum; also the increase of one (1) Transitman at $1,050 to $1,200, and provides for the change of title of Rodman to that of Transitman at $1,200 per annum, and provides for $450 in unassigned balance.

We have been endeavoring to change the title of these two Rodmen for some time, but have been unable to do so, owing to the fact that a preferred list has prevented us. The Budget for this year provided for the change of title of one young man, but the same obstacle prevailed at that time. The way is now clear and the changes can be made, and I would, therefore, thank you if you will kindly give this matter your early consideration. Yours very truly,

GEO. W. TILLSON, Acting Commissioner of Public Works.

The City of New York, Office of the President of the Borough of Brooklyn, Brooklyn, November 7, 1913.

Hon. WILLIAM A. PRENDERGAST, *Comptroller*, 280 Broadway, New York:

Dear Sir—Under date of October 29, 1913, we transmitted to you a communication requesting an amendment to schedule No. 2931, to provide for the promotion of two and the appointment of one new Transitman. In connection therewith I would respectfully state that we are at the present time able to promote two Axemen who have worked in the Bureau of Highways for a number of years. We have the necessary funds to provide for these promotions and I would, therefore, ask that you kindly make an additional amendment to this schedule by eliminating one Rodman at $1,050 per annum and one Topographical Draftsman at $1,200, and substitute therefor two additional Axemen at $900 and also to increase the salary of one Assistant Engineer from $2,100 to $2,400, leaving an unassigned balance of $600.

I would thank you if you would kindly have your Bureau of Statistics prepare a report recommending to the Board of Estimate the adoption of this schedule at as early a date as possible. The money necessary to carry out these changes is due to the transfer from this Bureau of an Assistant Engineer and to a separation from the service of a Topographical Draftsman. Yours very truly,

GEO. W. TILLSON, Acting Commissioner of Public Works.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, November 26, 1913.

To the Board of Estimate and Apportionment:

Clark to the office of the President of the Borough of Queens, is reduced to a Transitman at $1,200. Of the remaining $600, $150 is used to increase Mr. John T. Twomey, a Rodman, who is promoted to Transitman, from $1,050 to $1,200 (A. S. I., $500), and $450 is scheduled as Balance unassigned (A. S. I.).

I., $200 each), to which latter positions Laborers Mr. Henry T. Carey and Mr. D. E. Leach, who are on a civil service promotion list, are advanced. A position of Rodman at $1,050 is changed to Transitman at $1,200 (A. S. I., $500), to provide for an increase for Mr. John T. Twomey, as stated above. The remaining $300 is used to increase the salary of L. M. Burt, Assistant Engineer, from $2,100 to $2,400.

The line Topographical Draftsman, 1 at $300, is changed to read, *Rodman, 1 at $1,050 (A. S. I., $250). Department of Docks and Ferries—Discontinuance of Proceedings to Acquire Certain Property Between 57th and 61st Streets, Brooklyn (Cal. No. 34).

The Secretary presented:

Communication from the Commissioner of Docks recommending the discontinuance of the condemnation proceedings authorized February 8, 1907, for the acquisition of property known as parcels Nos. 1, 2, 3 and 4, between 57th and 61st streets, Brooklyn, until such time as the marginal railway is in operation and the water-front conditions in that vicinity have been readjusted.

The Commissioner states that parcel No. 2 was purchased by the City in 1907, at private sale, for $848,520.43. As nothing has been done with it since its acquisition, and in view of the enormous cost of acquiring the remainder of the property, the above recommendation is made.

(On November 20, 1913, the above matter was referred to the Comptroller for a report at this meeting.)

Which was laid over two weeks (December 11, 1913).

By the foregoing modification, an Engineer is reduced from $6 to $5 per diem. The difference in wages is added to the unassigned balance available for salary increases. It is desired to have this modification effective as of November 9, 1913.

Yours very truly, E. V. FROTHINGHAM, Acting President.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, November 24, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On November 7, 1913, the President of the Borough of Manhattan requested modification of a wage schedule in his office for the year 1913. In connection therewith I report as follows:

In Personal Service, Wages, Regular Employees, Care of Public Buildings and Offices, Heat, Light and Power, No. 2732 Office Buildings, and No. 2733, Baths and Comfort Stations, the line "Engineer, 2 at $6 per day (365 days)" is changed to read: Engineer, 1 at $6 per day (365 days), and *Engineer, 1 at $5 per day (365 days). A vacant position of Engineer at $6 per day is reduced to $5 per day, to permit of the employment of an Engineer at that rate. The balance of $365 is carried in a balance unassigned, available for wage increases. The following table shows the line item changes in detail:

Code No.	Schedule Line.	Schedule Transfer. Increase.	Schedule Transfer. Decrease.	Cash Transfer. Increase.	Cash Transfer. Decrease.
2732	Engineer, 2 at $6 per day (365 days)	.....	$2,190 00	.....	$318 00
2733	*Engineer, 1 at $5 per day (365 days) (A. W. I., $365)	$1,825 00	.....	$265 00	.....
	*Balance Unassigned (A. W. I.)	365 00	.....	53 00	.....
		$2,190 00	$2,190 00	$318 00	$318 00

The changes show a reduction under the Budget schedules for the year 1914. No salary increase is involved.

I recommend the adoption of the attached resolution granting the request.

Respectfully, DOUGLAS MATHEWSON, Deputy and Acting Comptroller.

Department of Public Charities—Modification of Schedule (Cal. No. 37).

The Secretary presented the following:

Department of Public Charities of The City of New York, Foot of East 26th Street, August 13, 1913.

Hon. WILLIAM A. PRENDERGAST, *Comptroller of The City of New York:*

Sir—On July 31, 1913, the Board of Estimate and Apportionment adopted schedules for salaries for Sea View Hospital for the balance of the year 1913, chargeable against appropriation No. 1113. In order that the Department may get the full advantage of the appropriation for Hospital Helpers, I would respectfully request the following modification of the schedule allowed for Helpers and also for Auto-Engineman:

Schedule as Authorized July 31, 1913.

Auto-Engineman, 3 at $720	$2,160 00
Auto-Engineman, 1 at $960	960 00
	$3,120 00
Hospital Helpers, at $480, 114 months	$4,560 00
Hospital Helpers, at $360, 48 months	1,440 00
Hospital Helpers, at $240, 352 months	7,040 00
Hospital Helpers, at $480, 4 months	160 00
Hospital Helpers, at $480, 12 months	480 00
	$13,680 00

Proposed Schedule.

Auto-Engineman, 2 at $720	$1,440 00
Auto-Engineman, 2 at $960	1,920 00
	$3,360 00
($240 additional for 1 year; $80 for 4 months.)	
Hospital Helpers	$13,680 00
Balance unassigned, July 31, 1913	$78,497 29
Present modification	80 00
Balance unassigned to date	$78,417 29

The request for the modification of the schedule allowed for Auto-Enginemen is made because the Board of Aldermen allowed only two incumbents for each grade, while the appropriation allows three at one grade and one at the other grade. Another reason for the request is that I feel that the Driver of the large passenger bus carrying sixteen people should have an equal salary with the Ambulance Driver.

The request for the modification of the Helper appropriation into a lump sum is made because no scheme which we can work out permits of using the number of Helpers granted to advantage at the rates allowed. In order to make the force balance, it will be necessary to have a readjustment of the number allowed at $480, $360, and $240 per annum, which can best be done by having the appropriation in a lump sum, permitting the employment of as many people at the different rates as conditions demand.

Thanking you again for your kind cooperation in these matters, I am,

Respectfully yours, MICHAEL J. DRUMMOND, Commissioner.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, November 22, 1913.

To the Board of Board of Estimate and Apportionment:

Gentlemen—On August 13, 1913, the Commissioner of Public Charities requested the modification of schedule No. 1113, Operation of Sea View Hospital.

In connection therewith I report as follows:

It is proposed to change the line:

Auto Engineman at $960 per annum (4 months)	$320 00

to read:

Auto Engineman at $960 per annum (8 months)	$640 00

—and the line:

Auto Engineman at $720 per annum (12 months)	$720 00

—to read:

Auto Engineman at $720 per annum (8 months)	$480 00

—and the lines:

Hospital Helper at $480 per annum (12 months)	$480 00
Hospital Helper at $480 per annum (114 months)	4,560 00
Hospital Helper at $240 per annum (352 months)	7,040 00
Hospital Helper at $360 per annum (48 months)	1,440 00
Hospital Helper at $480 per annum (4 months)	160 00

—to read:

Hospital Helpers	$13,680 00

The Commissioner states the reasons for the requested changes in Auto Enginemen are that the Board of Aldermen allowed only two incumbents at the grade of $720, whereas the schedule provides for 3 for 4 months each. He feels that the Driver of the 16-passenger 'bus should have a salary equal with the Ambulance Driver.

The change in the schedule of Hospital Helpers, the Commissioner states, is requested to effect a readjustment of the number allowed at different rates. In his opinion, the result can best be secured by having the appropriation in a lump sum, permitting the employment of as many persons at different rates as conditions demand.

I cannot concur in the opinion that the same degree of skill is required to drive a large, slow-going auto-'bus as a speedy ambulance. This question was carefully considered in arranging the force for this hospital and it appears that 3 Auto Engineers at $720 can be paid from the present schedule.

I recommend the change requested for Hospital Helpers. The appropriation in the 1914 Budget is made in a lump sum.

I therefore recommend the adoption of the attached resolutions.

Respectfully, DOUGLAS MATHEWSON, Deputy and Acting Comptroller.

The following resolution was offered:

City Magistrates' Court, First Division—Modification of Schedule (Cal. No. 38).

The Secretary presented the following:

Board of City Magistrates, First Division, City of New York, 300 Mulberry Street, Manhattan, July 18, 1913.

To the Honorable the Board of Estimate and Apportionment of The City of New York:

Gentlemen—On April 18, 1913, your honorable Board passed and adopted a resolution fixing the salary of Jesse Bernhard, an Assistant Clerk in the office of the Chief City Magistrate, First Division, at the rate of $2,200 per annum, making an increase in his salary of $200 per annum. There were sufficient funds available at the time to cover the increase, and the change proposed was in accordance with the resolution governing salary increases adopted by your honorable Board on October 5, 1911, as per enclosed clipping of CITY RECORD of April 24, 1912. The resolution was adopted by the Board of Aldermen on May 7, 1912, and was received from his Honor the Mayor May 28, 1912, and, as provided in section 40 of the Greater New York Charter, the same took effect on that date.

On March 8, 1912, an application for a modification of the Budget salary schedule for the year 1912 was made by this Department, which request was not placed on the calendar of your honorable Board until too late in the season, when it was returned to the Chief City Magistrate with a suggestion from the Comptroller that this Department resubmit the application after recess, or at the first meeting of your honorable Board in September, 1912. Through an oversight, this office failed to make another application for this modification, as suggested, and it was therefore never acted upon by your honorable Board, with the result that no provision was made for the increase in the salary of the said Assistant Clerk, although he was entitled to the increase from June 1, 1912. The amount of the increase was also disallowed in the Budget of 1913, presumably for the same reason. I therefore respectfully request that the Budget appropriation salary schedules for the years 1912 and 1913 be modified to read as follows, and that special revenue bonds to the amount of $316.67 may be issued by your honorable Board to provide for the increase in said salary from June 1, 1912, to December 31, 1913:

Very respectfully, PHILIP BLOCH, Chief Clerk.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, November 21, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On July 18, 1913, the Chief Clerk of the City Magistrates' Courts, First Division, requested modification of the salary schedules for those courts for the years 1912 and 1913. The request involved an appropriation of $316.67 for the compensation of Jesse Bernhard, Assistant Clerk, at the annual rate of $2,200 instead of $2,000 from June 1, 1912, to December 31, 1913. In connection therewith, I report as follows:

On May 28, 1912, the grade of Assistant Clerk, City Magistrates' Courts, First Division, was fixed at $2,200, for one incumbent. Jesse Bernhard, an Assistant Clerk, at $2,000 was promoted to the new position. The budget schedules, however, were not revised to permit Mr. Bernhard to receive compensation at the higher rate. The 1913 budget did not include an allowance for an Assistant Clerk at $2,200.

On June 19, 1913, Mr. Bernhard filed a claim with the Department for $216.71 for the difference in compensation between the annual rates of $2,200 and $2,000 for 13 months from June 1, 1912, to July 1, 1913.

Action on Mr. Bernhard's claim is still pending. The Budget Committee provided for him in the 1914 budget at his present rate of $2,000.

I recommend that the requests for a modification of the salary schedules of the City Magistrates' Courts, First Division, and an issue of special revenue bonds to permit an increase in the compensation of Jesse Bernhard, Assistant Clerk, be denied.

Respectfully, DOUGLAS MATHEWSON, Deputy and Acting Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby *denies* the request of the Chief Clerk of the City Magistrates' Courts, First Division, as set forth in a communication dated July 18, 1913, for the modification of salary schedules No. 1552 for the year 1912 and No. 2361 for the year 1913, and for the issue of $316.67 special revenue bonds to meet the increase in salary of an Assistant Clerk from $2,000 to $2,200 per annum from June 1, 1912, to July 1, 1913.

Which was adopted by the following vote:

Affirmative—The Deputy and Acting Comptroller, the Acting President of the Board of Aldermen, the Acting President of the Borough of Manhattan, the Presidents of the Boroughs of Brooklyn, The Bronx and Queens, and the Acting President of the Borough of Richmond—13.

The Secretary was directed to transmit a copy of said report to the Chief Clerk, City Magistrates' Courts.

If no bids are received for furnishing and delivering such supplies within such estimated cost, the amount of such estimated cost upon the bids so received may be reconsidered, in its discretion, by the Board of Estimate and Apportionment, provided that any of said bids is within the amount authorized and available for such work.

Which was adopted by the following vote:

R. A. C. SMITH, Commissioner of Docks.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, November 22, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On November 6, 1913, the Commissioner of Docks requested the

approval of the form of contract, specifications and estimate of cost in the sum of $12,000 for furnishing and delivering 300 piles.

The cost is to be paid from the corporate stock fund of $298,700 authorized by the Board of Estimate and Apportionment on July 31, 1913, becoming operative without action by the Board of Aldermen, and entitled "C. D. D.—27, Department of Docks and Ferries, Supplies, Etc., for Construction and Improvement of Docks." On November 13, 1913, an unencumbered balance of $169,059.96 remained in the fund.

The forms of contract and specifications are satisfactory and the estimate of cost is reasonable.

I recommend the adoption of the attached resolution granting the request.

Respectfully, DOUGLAS MATHEWSON, Deputy and Acting Comptroller.

Very respectfully, PATRICK A. WHITNEY, Commissioner.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, November 26, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On November 19, 1913, the Commissioner of Correction requested modification of seven salary schedules in his Department for the year 1913, involving a transfer of $433.34 within the accounts. In connection therewith I report as follows:

It is proposed to transfer the position of Warden at $2,500 per annum from the Workhouse, Hart's Island, to the City Prison, Brooklyn, and fill the vacancy by the transfer of the position of Warden, at $2,000, from the latter institution. It is further proposed to substitute the title of Head Keeper for that of Deputy Warden, and transfer the position from the Workhouse, Harts Island, to the City Prison, Manhattan. The position of Head Keeper is established in this Department for six incumbents. The request involves an increase to seven which cannot be granted without establishment of an additional position. In view of this fact, the Commissioner now verbally requests that the position of Deputy Warden be transferred from the Workhouse, Harts Island, to the City Prison, Manhattan. This position was temporarily transferred from the latter institution to the former early in the year to meet certain conditions at that time. The Commissioner now desires that the position be restored to the City Prison, Manhattan. The other changes requested involve the transfer of eight Keepers within the institutions of the Department and the substitution of three Keepers at $800 per annum for three at $1,200, made vacant by retirement, and one Matron at $600 per annum for one at $900, retired.

No increase in salary or in the number of incumbents is involved. A cash transfer of $433.34 within the accounts is necessary.

The following table shows the line item changes in detail:

The request is made in order to provide funds to meet all requirements during the remainder of the year. In the Budget for 1913 the amounts allotted to these accounts were arrived at by approximation, so that a readjustment now becomes necessary.

There are sufficient unencumbered balances in the accounts to be debited to permit of the transfers.

I recommend the adoption of the attached resolutions granting the request.

Respectfully, DOUGLAS MATHEWSON, Deputy and Acting Comptroller.

The following resolution was offered:

Department of Finance; Board of Estimate and Apportionment, Efficiency and Budget Advisory Staff—Transfer of Appropriation (No. 52).

The Secretary presented the following:

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, November 18, 1913.

To the Honorable Board of Estimate and Apportionment, City of New York:

Gentlemen—The following letter relative to the organization of classes in the City High Schools has recently been received from Mr. Burdette G. Lewis, Examiner, Executive Staff, President of the Board of Aldermen:

"*Hon.* WILLIAM A. PRENDERGAST, *Comptroller,* 280 Broadway, New York:

"Dear Mr. Prendergast—During the discussion of the school budget before the Budget Committee, it was made clear, I think, that the next step is to keep a careful check on the monthly register and the monthly organization of classes in order to eliminate oversized classes and consolidate small classes. I was glad to see Dr. Maxwell and President Churchill agree to co-operate with the Board of Estimate next year and bring about this desired result. But from previous experience, I am inclined to believe that it will be necessary for the Committee on School Inquiry, or the Board of Estimate, or the Comptroller to keep careful check on the actual administration of the moneys voted in this year's budget.

"During the budget discussion at the Board of Education, Dr. Bardwell, who has charge of the organization of classes and the formulation of programs in the high schools, said he would be glad to co-operate with Dr. Bachman this fall in consolidating small-sized sections wherever possible. The report of Dr. Ballou, rendered in the course of the school inquiry investigations, indicates that these small classes are very numerous. I think it would be a good investment for the School Inquiry Committee to send Dr. Bachman into each of the high schools to assist Dr. Bardwell in the actual formulation of the program of studies with a view to eliminating small sections wherever possible. I fear that the Board of Education and its administrative staff will be so overburdened with the administration of the schools through the large appropriations and the large increase in register this year, that they will not be able to give needed attention to this problem.

"I do not fully agree with Dr. Allen's idea that we can place the full responsibility for this work on the Board of Education at this time. There is a limit to even what they can do.

"Dr. Bachman informs me that it will cost about $1,500 to carry this work forward until the first of January, and that it will be completed about Christmas. *If a small transfer could be made to the contingency of the Board of Estimate, this work could be undertaken, and I believe it would be well worth while and would pay for itself many times over.* Respectfullly.

"BURDETTE G. LEWIS, Examiner, Executive Staff, President, Board of Aldermen."

The extremely rapid growth of the high schools and the high and increasing ratio of their cost to the other items of the budget dictate a careful study of all possible ways of securing greater economy without a diminution of efficiency. The comparatively small size of classes in these schools naturally raises the question whether some consolidations might not be effected. Blanks prepared last year under the direction of the Committee on School Inquiry and filled out by the principals exhibited a mass of statistics bearing on the distribution of teachers and classes in each school. Conditions were shown for October 31, 1912, and March 31, 1913, and the results were made a basis for the principals' estimates of the organization of classes and the number of new Teachers required for 1914. The compilation was made some months later than the dates to which they referred.

A study of these forms supports the belief that similar information referring to October, 1913, if immediately obtainable, would point the way to reductions in the number of classes that would obviate the necessity for several appointments of Teachers for the ensuing term. The tabulated returns show many very small classes and often several small sections of the same term's work of the same subject. As a theoretical or office problem, this condition suggests the obvious solution of consolidation. Practically, however, the elements involved are more numerous and more complex than would appear at first sight. Besides the physical limitations of size of rooms, etc., there are the exigencies of a program contrived to fit the needs of a set of pupils a large proportion of whom rank as "specials," that is, conditioned in one or more subjects and so combining part of the work of their own proper grade with other subjects of a previous term. Again, there are certain subjects in which logical continuity precludes any deviation from the regular succession of terms of study. Other subjects, and certain stages of advancement in the former ones, are such that alternating combinations of two terms' work would be perfectly feasible. None of these matters can be competently decided without full knowledge of a large variety of facts pertaining to the individual school.

All these considerations emphasize the need of expert statistical and pedagogical study and discussion; and that conditions may be dealt with while actually existent, the interval that elapsed before the collection of last year's figures should be avoided and the data for October 31 obtained as promptly as possible. It is, therefore, proposed that, under Dr. Frank P. Bachman's direction, the desired facts and figures be gathered at once, and intensive study of each school program made, and ways and means for its betterment from the point of view of economy sought. In addition to pecuniary advantages, the indirect effect of such an investigation and the discussions incident to it could hardly fail to be a stimulation of Principals and Teachers to greater ingenuity in program-making.

There should also be a compilation of the same statistics for March, 1914, as the distribution of pupils among the various grades is so different at these two seasons as to constitute problems independent to a considerable degree.

It is clear that the success of the plan would be largely contingent on the wholehearted co-operation of the school authorities, both as regards the collection of the data and the plans formulated as a result.

It appears that there is sufficient free cash in the appropriation No. 2627 for the year 1913, entitled "Charitable Institutions, Norwegian Lutheran Deaconesses' Home and Hospital," to provide the amount required for work described herein, there being an unexpended balance of $4.358.29 at the present time in the account referred to, and I recommend that a transfer be made to the contingencies account of the Board of Estimate and Apportionment in accordance with the resolution hereto appended.

Respectfully,

DOUGLAS MATHEWSON, Deputy and Acting Comptroller, Chairman, Budget Committee.

Gentlemen—Subjoined is a copy of a communication addressed to the Comptroller under date of November 22, 1913, from Mr. Thomas W. Churchill, President of the Board of Education, relative to funds for the employment of temporary Stenographers in the office of the City Superintendent of Schools:

"November 22, 1913.

"*Hon.* WILLIAM A. PRENDERGAST, *Comptroller of The City of New York:*

"Dear Sir—Dr. William H. Maxwell, City Superintendent, informs me that as a result of the large number of resignations, transfers and appointments of Teachers for the beginning of the term in September and the great number of reassignments of Teachers to different grades, the work of preparing for transmission to the office of the Auditor the date from which the amount of salary accruals is obtained has fallen considerably behind. He also informs me that in order that this work may be brought up to date at the earliest possible moment it is necessary that additional clerical help be provided. I understand that there is an unassigned balance in the Special School Fund, Personal Service. I beg leave to request that the sum of $150 be set aside at the earliest possible moment for the employment of two Stenographers in the office of the City Superintendent at the rate of $900 per annum for the month of December, 1913.

"Respectfully, T. W. CHURCHILL."

The force now employed in the office of the City Superintendent of Schools has been unable to keep up with the work of preparing the data mentioned, which is required to be brought up to date by the end of the year in order that it may be available for the Auditor in establishing the amount of salary accruals, which information is of much greater value when promptly furnished.

The amount requested, $150, is available for this purpose in the appropriation for 1913, entitled "Department of Education, Special School Fund, No. 3453, Force for Efficiency and Statistics," and I recommend that the expenditure be authorized in accordance with the accompanying resolution. Respectfully,

During the third quarter 370 Ununiformed Firemen were appointed, and 112 having satisfactorily completed their probationary period of service, were appointed as fourth grade Firemen. Promotions in the uniformed force, 127 in all, were made during the quarter as follows: Captain to Chief of Battalion, 1; Lieutenant to Captain, 16; Engineer of Steamer to Lieutenant, 21; Fireman, first grade, to Lieutenant, 32; Fireman, first grade, to Engineer of Steamer, 57. The number of retirements, on half pay, on own application, was 10; for disability there were in all 12 retirements, also on half pay. The aggregate number of retirements was 22. The resignations totaled 15, of which 10 were those of Probationary Firemen. There were 5 dismissals, and one Engineer of Steamer was, on his own application, reduced to the position of first grade Fireman. There were 7 deaths on the active list. The deaths among those retired and relieved were in all 13. There were 378 cases of illness and 148 of injury, being 526 in all, and the time lost from each cause was 5,908 and 3,282 days, respectively, a total of 9,190 days.

The civilian force on September 30, 1913, numbered 700.

Fire Alarm Telegraph.

At the close of the third quarter the fire alarm telegraph system in the various Boroughs consisted in mileage of cable and conductor in subways and of aerial conductor and circuit mileage, the latter both underground and aerial, as follows:

	Manhattan.	The Bronx.	Richmond.	Brooklyn.	Queens.	Total.
Cable in subways.....	151.75	2.62	.42	2.27	6.62	163.68

The Engineering Division of the Bureau supervised and inspected all work done by the National India Rubber Company, the Waterbury Company, the Safety Insulated

Wire and Cable Company, Henry E. Fox and the Libman Contracting Company on the following work: 3d ave., installation, Manhattan; Myrtle ave., installation, Brooklyn; southwest installation, Brooklyn; Central office excavation and concentrating subways, Manhattan; Central Office Building, Manhattan.

Fire Prevention.

The work of fire prevention was vigorously prosecuted during the third quarter and there has been no relaxation in zeal or vigilance on the part of the officials and employees charged with this important duty. The campaign waged against incendiarism has resulted in materially mitigating the evil of fire waste; and the notable advance in this regard should be supplemented by a further resolute effort to create an enlightened public sentiment against carelessness in matters pertaining to fire prevention—a habit productive of serious consequences to life and property. As a forward move in this direction arrangements have been made with the President of the Board of Education for the delivery by representatives of this Department at public school buildings of evening lectures on the subject of fire prevention. Exercises under the auspices of that body were held on Fire Prevention Day in the various public schools and in the course of the talks of the principals to the pupils it was sought to impress on their minds the necessity of both young and old co-operating with this Department in the work of reducing the large number of fires occurring in the homes of the people of the City, due mainly to carelessness. The Acting Chief of the Bureau of Fire Prevention reports that these fires average from 60 to 65 per cent. of the total annual number of fires.

During the third quarter in the various division of the Bureau there were 30,807 inspections; 4,873 orders were served, and 2,097 were complied with. Following is a summary of the work of the various divisions of the Bureau:

In the Division of Combustibles, all Boroughs, the total amount of receipts for licenses and penalties was $32,823.50. The total number of fires for the third quarter of 1912, in the entire City, was 3,720, and for the similar period of 1913, 3,048, a decrease of 222.

The total estimated loss by fire in all Boroughs for the first three quarters of 1912 was $7,242,437, and for the corresponding period of the current year, $5,235,087, a decrease in amount of $2,007,350, or of approximately 28 per cent.

The total number of fires in all Boroughs for the first three quarters of 1912 was 11,811, and for the similar period in the current year, 9,656, a decrease in number of 2,155, or of more than 18 per cent.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless, The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beamholes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a Department, chief of a Bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

No bid or estimate will be considered unless as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money or corporate stock or certificates of indebtedness of any nature issued by The City of New York, which the Comptroller shall approve as of equal value with the security required in the advertisement, to the amount of not less than three nor more than five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The amount shall be as specified in the proposals or instructions to bidders and shall not be in excess of 5 per cent.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there
