WARRANTS MADE READY FOR PAYMENT IN DEPARTMENT OF FINANCE THURSDAY, JULY 15, 1915.

Below is a statement of warrants made ready for payment on the above date, showing therein the Department of Finance voucher number, the dates of the invoices or the registered number of the contract, the date the voucher was filed in the Department of Finance, the name of the payee and the amount of the warrant.

Where two or more bills are embraced in the warrant, the dates of the earliest and latest are given, excepting that, when such payments are made under a contract, the registered number of the contract is shown in the place of the second invoice date.

Where the word "final" is shown after the name of the payee, payment will not be made until thirty days after the completion and acceptance of the work, but all of the other warrants mentioned will be forwarded through the mail unless some reason exists why payment is to be made in person, in which event written notice will be promptly given to the claimant.

PROPOSED FORM OF CONTRACT.

This contract, made and executed in duplicate this day of , 19 , by and between THE CITY OF NEW YORK (hereinafter called the City), party of the first part, by the Mayor of

said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the MARCONI TELEGRAPH-CABLE COMPANY, INC., a corporation formed under and pursuant to the Laws of the State of New York (hereinafter called the Company), party of the second part, WITNESSETH:

Whereas, The Marconi Wireless Telegraph Company of America, a corporation formed under and pursuant to the Laws of the State of New Jersey, has constructed and proposes to operate certain wireless receiving and transmitting stations at Belmar and New Brunswick, in the State of New Jersey, and for the purpose of establishing offices in the City of New York obtained the incorporation of and controls the applicant Company, which is to act as its agent in the establishment of such offices in the City of New York and to receive and deliver from such offices messages intended for and received by wireless communication; and

Whereas, The said applicant Company on or about June 22, 1914, filed with the Postmaster-General of the United States of America a certificate of acceptance of the restrictions and obligations imposed on telegraph companies by an Act of Congress of the United States, approved July 24, 1866, entitled "An Act to aid in the construction of telegraph lines and to secure to the government the use of the same for postal, military and other purposes;" and

Whereas, The Corporation Counsel of the City has advised the Board that the Company by its acceptance of the Post Roads Act obtained a right to use the City's streets, subject to the right of the Board to regulate the use thereof and to demand reasonable compensation therefor;

Now, therefore, in consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. Subject to the conditions and provisions hereinafter set forth, the City hereby consents to the construction, maintenance and operation or use by the Company of suitable wires or other electrical conductors in the streets and avenues within the City of New York, for the purpose of electrically connecting various telegraph offices to be established by it in the said City with each other, and with the wireless stations of the Marconi Wireless Telegraph Company of America, located at Belmar and New Brunswick, in the State of New Jersey, or elsewhere, for the purpose of doing a telegraph business between the offices of the said Company and the offices of the said Marconi Wireless Telegraph Company of America.

Section 2. The consent hereby given is subject to the following conditions and regulations, which shall be complied with by the Company:

First—No wires or conductors laid, maintained or operated by the Company in the City, or any portion thereof, shall be used for the transmission of messenger call signals, telephonic conversations or for any other purpose than the transmission of messages by telegraph as contemplated by the Post Roads Act of Congress of the United States as interpreted by the Courts.

Second—The privilege of laying its wires underground and using the conduits in the City streets, herein consented to by the City, shall continue for the period of fifteen (15) years from the date of the signing of this contract by the Mayor, when the same and this contract shall cease and determine without any action or proceeding.

Third—The Company shall pay to the City for the expense of the examination of the application and all work in connection therewith, for the facilities afforded to it, and for local governmental supervision, the following sums of money:

1. The sum of five thousand dollars (\$5,000) in cash within thirty (30) days after the date upon which this contract is signed by the Mayor.
2. An annual sum which shall be equal to one hundred dollars (\$100) per mile for each and every metallic circuit used or operated by the Company in the City, but which sum shall not be less than one thousand dollars (\$1,000).

The metallic circuits referred to above and wherever used in this contract shall be deemed to and shall include each and every two (2) wires between the same points used or operated by the Company, whether owned by it or otherwise. In arriving at the mileage in use or operated by the Company, the different circuits used or operated by it shall not be treated as separate items, but the total mileage of such circuits, when added together, shall be the basis for the payments to be made by the Company. The length of the various circuits used or operated shall be certified by the Company under oath, to the Comptroller, as hereinafter provided, but should the Company, for any reason, not have sufficient data to enable it to furnish such information, then and in that event it shall certify under oath to the Comptroller, as hereinafter provided, the various offices of whatever description, connected by the circuits in use by it, and the mileage upon which it shall make the annual payments shall be calculated and based upon the distances between such offices by the most direct route through the streets and avenues of the City. Should the mileage at any time exceed an exact number of miles, then and in that event the annual payment to be made by the Company for the excess over such exact number of miles shall be upon the basis of twenty-five dollars (\$25.) for each quarter of a mile (¼ mile) or fraction thereof.

The annual payments shall commence from the date on which this contract is signed by the Mayor.

All annual payments as above shall be paid into the treasury of the City on February 1 of each year, and shall be for the amount due to December 31 next preceding; provided, that the first annual payment shall be only for that proportion of the first annual sum as the time between the date upon which this contract is signed by the Mayor and December 31 following shall bear to the whole of one year.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Fourth—The annual payments shall continue throughout the whole term of this contract, notwithstanding any clause in any statute or in the charter of any other company providing for payment for similar rights, facilities, franchises or supervision at a different rate, and no assignment, lease or sublease of the rights or privileges, the exercise of which is herein consented to or of the facilities for the exercise of the same, or of any part thereof, shall be valid or effectual for any purpose, unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes

and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof, or otherwise, exemption from liability to perform each and all of the conditions of this contract.

Fifth—The rights and privileges, the exercise of which is herein consented to or the facilities for the exercise of the same, shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall the title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in any wise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Sixth—The Company shall construct, maintain and operate its electric system subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City, and in strict compliance with all laws or ordinances or departmental rules and regulations now in force, or which may be adopted, affecting companies operating electrical conductors in the City.

No construction or repair of said electrical system shall be commenced until written permits have been obtained from the proper City officials. In any permit so issued, such officials may impose such conditions, as a condition of the granting of the same, as are necessary for the purpose of protecting any structures in the streets and avenues and the proper restoration of the surface of such streets and avenues over which such officials have jurisdiction, and the Company shall comply with such conditions.

Upon completion of any work of construction, the Company shall furnish to the President of the Borough a plan of such character as he may direct, showing accurately and distinctly the location, size and type of construction and complete dimensions of the structures erected, installed or constructed under this contract, and the location and dimensions of all substructures encountered during the progress of the work; the depth below the street surface of the new structures and of the substructures encountered must be shown, also their location with reference to the nearest curb line and the nearest curb line intersection.

The electrical and other equipment to be installed by the Company, whether the same be under streets and avenues, in any Department of the City or in private property, shall be constructed and maintained subject to the approval and under the supervision and control of the Commissioner of Water Supply, Gas and Electricity.

Seventh—The plant, conduits, wires, conductors, connections, instruments and all appurtenances thereto, shall be constructed, maintained and operated in the latest approved manner and with the most modern and improved appliances, and it is hereby agreed that the Board may require the Company to improve or add to its plant, conduits, wires, conductors, connections, instruments and appurtenances, from time to time, as such additions or improvements are determined by the Board, after hearing, to be reasonable and necessary. Upon failure on the part of the Company to comply with the directions of the Board within a reasonable time, this consent and contract shall cease and determine.

Eighth—All cables and wires of the Company laid pursuant to this contract shall be placed in ducts, conduits or subways (referred to in this paragraph as "subways"). Such subways shall be leased from the company or companies having control thereof under the provisions of law, or from the City, should it succeed to the right of such company or companies. If the City shall construct or acquire subways for electrical conductors of the character or tension of those used by the Company or similar companies, the Company hereby agrees to lay its wires and conductors in such subways, and the City agrees to lease to the Company such space as may be necessary and available for the operation of the system herein referred to.

No cables or wires shall be strung above the surface of the streets and avenues by the Company.

Ninth—It is a condition of this contract that the Company shall bear the entire expense of all work undertaken by it in the territory referred to herein.

Tenth—The Company shall file with the Board on the first day of February in each year a map or plan upon which shall be plainly and separately indicated the number of wires which were in use by the Company on December 31 preceding and the streets in which the same are located, and also those which were put in use during the year preceding that date. It shall also file with the Department of Water Supply, Gas and Electricity, on or before the tenth day of each month, a map or plan of the locations in which wires have been placed by it during the preceding month.

Eleventh—The wires of the Company shall be employed for no other purpose than those explicitly set forth herein and the Company binds itself not to lay, use, lease or operate wires for illegal purposes or to illegal places.

Twelfth—The Company shall assume all liability to persons or property by reason of the construction or operation of the system referred to in this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or defaults of the Company.

Thirteenth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation its consent to the exercise of a franchise or to grant a franchise right or privilege upon the same or other terms and conditions in the territory referred to in this contract, or any part thereof.

Fourteenth—If the Company shall fail to maintain its structures and equipment as herein provided in good condition throughout the whole term of this contract, the Board may give notice to the Company, specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time, and upon failure of the Company to remedy such default within a reasonable time, the Company shall, for each day thereafter during which the default or defect remains pay to the City the sum of one hundred dollars (\$100) as fixed or liquidated damages, or the Board, in case such structures or equipment which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund herein after provided for.

Fifteenth—If for a period of three consecutive months after the commencement of its trans-Atlantic service by the Marconi Wireless Tele-

graph Company of America the system of the Company shall not be operated, or if the same shall not be operated for a period of six months out of any consecutive twelve months, the Board may revoke its consent and declare this contract terminated without further proceedings at law or in equity.

Sixteenth—The Company shall submit to the Board a report, not later than February 1 of each year for the year ending December 31 next preceding, and at any other time upon request of the Board, which shall state:

In case of failure of the Company to comply with the terms of this contract relating to the filing of annual statements, the installation or maintenance of its structures and equipment, or its neglect or refusal to comply with any demand or direction of the Board or other municipal officials, made pursuant to the terms of this contract, or under the authority of any laws, ordinances or departmental regulations now or hereafter in force, in such case and in any of these events the Company, except as herein otherwise provided, shall pay to the City a penalty of fifty dollars (\$50) for each violation.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Board, on complaint made, shall give notice to the Company, directing its President or other officer to appear before the Board on a certain day not less than ten (10) days after the date of such notice, to show cause why the Company should not be penalized in accordance with the provisions of this contract. In case the Company fails to appear action may be taken by the Board forthwith.

Twentieth—If at any time the powers of the Board or any other of the authorities herein mentioned, or intended to be mentioned, shall be transferred by law to any other board, authority, officer or officers, then and in such case such other board, authority, officer or officers shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

In view of the Commission's variable requirements from time to time the amount of latitude allowed between such minimum and maximum rates of delivery as set forth in the Contractor's Proposal will be considered, as well as the prices contained therein, in awarding the contract.

If a patented article is shown on the contract drawings the bidder may submit an alternative design for such patented article. If the bidder contemplates furnishing an alternative design for such patented article he shall submit with his proposal detailed plans showing all of the dimensions and other characteristics of the article which he proposes to furnish and the plans so submitted will, if the proposal be accepted, be made part of the contract.

For the Station Finish Work for Parts of the Queensboro Subway Rapid Transit Railroad.

The Public Service Commission for the First District (hereinafter called the "Commission") acting for and on behalf of The City of New York (hereinafter called the "City"), invites proposals to construct station finish for the thirteen (13) stations on Sections Nos. 1 and 3 of Routes Nos. 36 and 37, and Route No. 50, parts of the Queensboro Subway Rapid Transit Railroad.

The location within the City at which the said work is to be performed is as follows:

Routes Nos. 36 and 37.
SECTION No. 1. Beginning at a point on the Queensboro Bridge Plaza in the Borough of Queens at or near the easterly line of Ely Avenue and extending thence easterly along and over the Queensboro Bridge Plaza to a point at or near Jackson Avenue, where the road divides into two branches; one branch curving to the north and extending thence in a northerly direction along and over Jackson Avenue and Second (formerly Debevoise) Avenue to a point on Second Avenue about three hundred (300) feet south of the center line of Beebe Avenue; and the other branch extending in an easterly direction along and over Queens Boulevard (Diagonal Street) to a point about two hundred and seventy (270) feet northwest of the westerly line of Van Dam Street.

SECTION No. 3. Beginning at a point on Queens Boulevard, in the Borough of Queens, about two hundred and seventy (270) feet northwest of the westerly line of Van Dam Street and extending thence along and over Queens Boulevard, Greenpoint Avenue, Skillman Avenue and Roosevelt Avenue to a point over Roosevelt Avenue about seventy (70) feet east of the easterly line of Sycamore Avenue (Albertus Avenue).

Route No. 50.

Lying wholly in the Borough of Queens and beginning at a point in Fourth Street, west of Van Alst Avenue, at about the portal of the present Steinway Tunnel and extending thence in a general easterly direction through private property, intervening streets and the North Shore Yard of the Long Island Railroad to a point near Davis Street, thence extending in a general northerly direction through Davis Street and Ely Avenue to the easterly approach to the Queensboro Bridge, where a connection may be made with Section No. 1 of Routes Nos. 36 and 37.

The Railroad for which the station finish is to be provided is now under construction. The Contractor shall begin actual work within thirty (30) days after the delivery of the contract on such stations and other parts of said Railroad as the Chief Engineer of the Commission may direct and shall begin actual work on any of the remaining stations or other parts of the Railroad within ten (10) days after notice and shall complete the entire work covered by the contract within (6) months from the delivery of the contract, provided that an extension of time will be granted for completing the work at any station or other part of the Railroad upon which the Contractor shall not have been directed, within four (4) months after the delivery of the contract, to begin work, as provided in the contract. The City may enter into a contract for the installation of tracks on the Railroad and the work of installation may be in progress at the time that the station finish work is in progress. It may also be necessary for the Interborough Rapid Transit Company, its contractors or employees, to do work on the Railroad in connection with the equipment of the Railroad during the time that the station finish work is in progress. The Contractor must conduct his work so as not to impede or interfere with such other work, as provided in the contract.

The Railroad or a portion thereof may also

be opened and operated for passenger traffic before the completion of the station finish work. In such event the Contractor must conduct his work so as to avoid interference with the operation of the Railroad and injury to passengers, as provided in the contract; and payment for all additional expense, loss, risk, and damage due to such opening and operating for traffic will be made by increasing by the percentage stipulated in Item X in the Schedule contained in the Contractor's Proposal, the prices as stipulated in said Schedule for the station finish work performed after the date of such opening and operating for passenger traffic at each station so opened and used for passenger traffic and at each portion of the Railroad between stations so opened and operated for passenger traffic, except as provided in the contract. Each bidder shall state in said Item X in the Schedule contained in the form of Contractor's Proposal the percentage required on such prices in payment for the additional expense, loss, risk and damage in the event of such opening and operating for traffic. For the purpose of comparing the bids only, and not for any other purpose, it will be assumed that the percentage so bid will be required to be paid on one-quarter (¼) of the estimated amount of the station finish work. If any bidder shall not desire any such increase in said prices on account of such opening and operating for traffic, he shall strike out said Item X in said Schedule contained in his Proposal.

Bidders must examine the form of contract and the specifications and contract drawings, must visit the location of the work and inform themselves of the conditions and make their own estimates of the facilities and difficulties attending the execution of the work. A fuller description of the work and other requirements, provisions, details and specifications are given in the form of contract and in the contract drawings therein referred to. Copies of the forms of contract, bond and contractor's proposal and of the contract drawings may be inspected and purchased at the office of the Commission, No. 154 Nassau Street, Borough of Manhattan, New York City. The forms of contract, bond and contractor's proposal and the contract drawings are to be deemed a part of this invitation.

Partial payments to the Contractor will be made as the work proceeds, as provided in the contract.

At the time of the delivery of the contract the Contractor must furnish security to the City by depositing a bond, cash or securities in the sum of fifty thousand dollars (\$50,000). As further security ten per centum (10%) of the amounts certified from time to time to be due to the Contractor will be deducted.

Sealed bids or proposals will be received at the office of the Commission, No. 154 Nassau Street, Borough of Manhattan, New York City, until the 3rd day of August, 1915, at twelve fifteen (12:15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission.

A statement based upon the estimate of the Chief Engineer of the Commission of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work is to be found in the schedule in the form of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

Every proposal must when submitted be enclosed in a sealed envelope endorsed "Proposal for Constructing Station Finish for Parts of Rapid Transit Railroad, Routes Nos. 36 & 37, Sections Nos. 1 and 3, and Route No. 50," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received unless accompanied by a separate certified check for ten thousand dollars (\$10,000) payable to the order of the Comptroller of the City and drawn upon a national or state bank or trust company satisfactory to the Commission and having its principal office in New York City. Such check must not be enclosed in the envelope containing the proposal.

The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interest may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Deposits made by bidders whose proposals are not accepted will be returned within three (3) days after the contract is executed and delivered and its provisions in respect of the bond or deposit are complied with, unless all proposals shall be rejected, in which event such deposits will be returned within three (3) days after such rejection. The deposit of the successful bidder will be returned when the contract is executed and delivered and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

Thereafter there shall be so deducted and retained for such purpose ten per centum (10%) of the amounts certified from time to time to be due to the Contractor.

Sealed bids or proposals will be received at the office of the Commission, at No. 154 Nassau Street, Borough of Manhattan, City of New York, until the 27th day of July, 1915, at twelve fifteen (12:15) o'clock p. m., at which time and place, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

The points within the City of New York between which the said part is to run and the route or routes to be followed are briefly as follows:

Section No. 3. Beginning at a point under Eastern Parkway, in the Borough of Brooklyn, about six hundred and thirty-five (635) feet east of the center line of Nostrand Avenue and extending thence easterly under Eastern Parkway to a point about one hundred (100) feet east of the center line of Buffalo Avenue.

Also a branch of this line beginning at a point under Eastern Parkway about three hundred (300) feet west of the center line of Buffalo Avenue and curving thence southeasterly under Eastern Parkway, Buffalo Avenue and private property and across Union Street and private property to a point in private property near the northerly street line of President Street.

Also a spur curving southeasterly under Eastern Parkway for a connection to the proposed Ulica Avenue Subway.

The general plan of construction calls for a subsurface railroad at the easterly end of which are two branches. One of these branches emerges from the ground and becomes an elevated railroad. Portions of said railroad have two, three, four and five tracks respectively.

The Contractor will not be required to provide or lay tracks, ties or ballast nor to do station finish work.

The work under the contract will include the care and support of buildings, vaults, sewers, pipes, railroads and other surface, subsurface and overhead structures, the maintenance of traffic and the restoration of pavements and other surfaces.

The method of construction will be by open trench excavation, except at cross-streets. At cross-streets the method will be by trench excavation under cover. Certain trees are to be maintained in place.

Bidders must examine the form of contract and the specifications and contract drawings, must visit the location of the work and inform themselves of the conditions along the line of the work and make their own estimates of the facilities and difficulties attending the execution of the work.

A fuller description of the work and other requirements, provisions, details and specifications are given in the form of contract and in the contract drawings therein referred to. Copies of the forms of contract, bond and contractor's proposal and of the contract drawings may be inspected and purchased at the office of the Commission, No. 154 Nassau Street, Borough of Manhattan, New York City. The forms of contract, bond and contractor's proposal and the contract drawings are to be deemed a part of this Invitation.

The City of New York (hereinafter called the "City") and the Interborough Rapid Transit Company will both be parties to the contract; the Interborough Rapid Transit Company being a party for the purpose of disbursing part of its contribution toward the cost of construction as provided in the contract dated March 19, 1913, between the City and said Company for additional rapid transit railroads. The liability of Interborough Rapid Transit Company will be limited to an amount equal to five per centum (5%) of the total estimated amount to be paid to the Contractor under the contract.

Partial payments to the Contractor will be made as the work proceeds as provided in the contract.

The Contractor must within twenty (20) months from the delivery of the contract complete the Railroad and such other work covered by the contract as may be necessary to put the Railroad in condition for operation and must complete all other work covered by the contract within twenty-four (24) months from the delivery of the contract.

At the time of the delivery of the contract the Contractor must furnish security to the City by depositing a bond, cash or securities in the sum of two hundred thousand dollars (\$200,000). As further security fifteen per centum (15%) of the amounts certified from time to time to be due to the Contractor will be deducted until the amounts so deducted and retained shall equal ten per centum (10%) of the total estimated amount to be paid to the Contractor under the contract. Thereafter there shall be so deducted and retained for such purpose ten per centum (10%) of the amounts certified from time to time to be due to the Contractor.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau Street, Borough of Manhattan, City of New York, until the 27th day of July, 1915, at twelve fifteen (12:15) o'clock p. m., at which time and place, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission.

A statement, based upon the estimate of the Chief Engineer of the Commission, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work is to be found in the schedule in the form of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same except as provided in the specifications and form of contract.

Every proposal must when submitted be enclosed in a sealed envelope endorsed "Proposal for Constructing Part of Rapid Transit Railroad—Route No. 12, Section No. 3," and must be delivered to the Commission or its Secretary;

and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received unless accompanied by a separate certified check for twenty-five thousand dollars (\$25,000), payable to the order of the Comptroller of the City and drawn upon a national or state bank or trust company satisfactory to the Commission and having its principal office in New York City. Such check must not be enclosed in the envelope containing the proposal.

The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Deposits made by bidders whose proposals are not accepted will be returned within three (3) days after the contract is executed and delivered and its provisions in respect of the bond or deposit are complied with, unless all proposals shall be rejected, in which event such deposits will be returned when the contract is executed and delivered and its provisions in respect of the bond or deposit are complied with.

The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with. The right to reject any and all bids is reserved.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all

house sewer connections to the main sewer in the street and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furnishings, plaster, chimneys, protecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
