AQUEDUCT COMMISSION.

Minutes of Adjourned Meeting of the Aqueduct Commissioners, held at their Office, No. 209 Stewart Building, on Friday, May 16, 1890, at 3 o'clock P. M.

Present—Commissioners Duane, Tucker, Scott and Howe.

On motion of Commissioner Scott, the reading of the minutes of the last meeting was dispensed with at this time.

Commissioner Scott stated that the Commissioners had been informed that work on Shaft No. 1936 had been resumed by the contractor for Section 10B, and he therefore moved that the hearing of the order to show cause by Heman Clark, contractor for said section, why the further work of construction of said section should not be discontinued, owing to the fact that the work was unnecessarily and unreasonably delayed, be adjourned to Wednesday next, May 21, 1890, at 3 o'clock P. M. Carried.

In compliance with the request of the Commissioners at their last meeting, Mr. E. T. Lovatt, attorney for O'Brien & Clark, appeared before the Commissioners and presented a communication having reference to the delay of special counsel in furnishing the Aqueduct Commissioners with an opinion as to whether the time clause in the contracts for the construction of sections of the Aqueduct, under contract to O'Brien & Clark, was operative or not.

On motion of Commissioner Scott, the communication was received and ordered laid on the table.

The Commissioners then adjourned.

JOHN C. SHEEHAN, Secretary.

Minutes of Stated Meeting of the Aqueduct Commissioners, held at their Office, No. 209 Stewart Building, on Wednesday, May 21, 1890, at 3 o'clock P. M.

Present—Commissioners Duane, Tucker, Scott and Howe.

The minutes of stated meeting of May 14, 1890, were read and approved.

The Committee of Finance and Audit reported their examination and audit of Vouchers Nos. 5887 to 5889 inclusive, being estimates for work done by contractors, and amounting to \$1,983.64; also of bills contained in Vouchers Nos. 5890 to 5912 inclusive, amounting to \$3,361.06.

On motion of Commissioner Howe, the same were approved and ordered certified to the Comptroller for payment.

The Construction or Executive Committee reported in favor of the adoption of the following resolution:

Resolved, That the action of Division Engineer Gowen in temporarily employing the following-named laborers, at \$2 per day each, to do some general work at the New Croton Gate-house, be and the same is hereby approved:

Robert Sarles,	Patrick Healy,
John McTigue,	Fred. Wanaker,
Samuel Mitchell,	Venie Travis.

On motion of Commissioner Tucker, the same was adopted.

The Committee also reported in favor of the adoption of the following resolution:

Resolved, That the action of the Chief Engineer in suspending Inspector of Masonry Hugh Montague, without pay, the same to date from the 18th instant, be and hereby is approved.

On motion of Commissioner Tucker, the same was adopted.

The Committee also reported in favor of the adoption of the following resolution:

Resolved, That that part of the resolution adopted on October 23, 1889, dismissing Inspector of Masonry John T. Havanagh from the service of the Aqueduct Commissioners, be and the same is hereby reconsidered, and his resignation is hereby accepted to take effect as of said date.

On motion of Commissioner Scott, the same was adopted.

The Committee also presented the following communications:

NEW YORK, May 14, 1890.

To the Honorable the Committee on Construction:

GENTLEMEN—In obedience to the instructions given me by you, I have investigated the subject of connecting the various stations of the Aqueduct by a telephone service.

The Metropolitan Telephone and Telegraph Company has made an estimate, which is herewith transmitted, for the erection of an entirely independent service which they would establish and maintain for five years for the sum of \$5,500 per annum, between One Hundred and Thirty-fifth Street Gate-house and Croton Dam.

On the other hand, the Department of Public Works, through its Resident Engineer, Mr. Chenoweth, who is now engaged in perfecting the telephone service of the Old Aqueduct, offers, if the Aqueduct Commission buy its supplies, to superintend the erection of our poles and the stringing of our wires without any other compensation than the pay of the workmen actually engaged in our service. Our wires in that case would be strung over the poles of the Department of Public Works wherever practicable.

From the list of supplies furnished by Mr. Chenoweth, and from my inquiries made in two different places where such supplies are dealt in, I have to state that the cost of establishing the service complete, between Croton Dam and One Hundred and Thirty-fifth Street Gate-house, would be in the neighborhood of \$5,000, including labor.

In view of the fact that this estimate is so near the limit, within which only the Commissioners can incur expenditures without advertising for the same, and in view of the evident advantage of accepting the offer of the Department of Public Works, I would respectfully call the attention of your Committee to paragraph 41, chapter 490 of the Laws of 1883, by which the Aqueduct Com-

missioners are "authorized and empowered to provide * * * suitable conveniences for the transaction of the business of the Commission, * * * subject to the approval of the Board of Estimate and Apportionment of the City of New York."

The work to be done in each case consists in a double metallic telephone circuit with the necessary long distance instruments at the following points, viz.: One Hundred and Thirty-fifth Street Gate-house, at Shaft 25, at South Yonkers, at Ardsley, Pocantico and Croton Dam.

From the bid of the Metropolitan Telephone and Telegraph Company above-mentioned you will see that an independent connection from One Hundred and Thirty-fifth Street Gate-house, to the Stewart Building is estimated at \$1,500 per annum.

I am, very respectfully,

A. FTELEY, Chief Engineer.

NEW YORK, May 19, 1890.

Hon. THOMAS F. GILROY, Commissioner of Public Works:

DEAR SIR—In accordance with your verbal request, and under instructions of the Committee on Construction of the Aqueduct Commissioners, I beg to make the following statement in reference to the telephone line which the Aqueduct Commissioners propose to construct for the service of the New Aqueduct:

After conferring with Chief Engineer Birdsall and Resident Engineer A. C. Chenoweth of the Croton Aqueduct Department, the Aqueduct Commissioners find that it would be evidently much cheaper for the city to accept their proposition to superintend the erection of the new line, in connection with the poles and other conveniences now existing, or to be erected for the Old Aqueduct; provided the Aqueduct Commissioners buy all the supplies and pay for all the necessary labor.

The estimates kindly furnished by Mr. Chenoweth, however, are so near the limit of \$5,000, beyond which the Aqueduct Commissioners cannot incur any expenditure without public advertising, that they would like to know whether, in case the cost of the line exceeds the above list, you would assume the cost of the balance.

Mr. Chenoweth just stated to me that in his opinion the expenditure would not exceed \$5,000.

Yours, respectfully,

A. FTELEY, Chief Engineer.

DEPARTMENT OF PUBLIC WORKS—COMMISSIONER'S OFFICE,
 NO. 31 CHAMBERS STREET,
 NEW YORK, May 19, 1890.

To the Honorable the Aqueduct Commissioners:

GENTLEMEN—In the matter of the construction of a telephone line on the line of the New Aqueduct, I beg to accept the proposition made verbally in conferences on the subject, and referred to in the letter of this date from your Chief Engineer, Mr. Fteley, that your Commission will proceed with the construction of the line to the extent of an expenditure of \$5,000, which is the limit of expenditure that can be made without public letting, and that this Department will complete the construction of such parts of the line as then remain to be done. Chief Engineer Birdsall, of this Department, will arrange with your Chief Engineer, Mr. Fteley, as to what sections of the line are to be built under your direction, and what part of it shall be built by this Department.

Very respectfully,

THOS. F. GILROY, Commissioner of Public Works.

—and recommend the adoption of the following resolution:

Resolved, That the Aqueduct Commissioners, in conjunction with the Department of Public Works, hereby determine upon the construction of a telephone line to connect the various stations of the New Aqueduct in the manner indicated in the foregoing communications, and an appropriation of \$5,000 is hereby made for said purpose; and the Chief Engineer is hereby directed to see to the construction of the same, and to furnish such labor and supplies as may be necessary, at an expense of not to exceed the amount hereby appropriated.

The report was approved and the resolution adopted by the following vote:

Affirmative—Commissioners Duane, Tucker, Scott and Howe—4.

On motion of Commissioner Tucker, the following report, laid on the table at the last meeting, was taken from the table and read:

The Construction or Executive Committee present the following communication received from the Chief Engineer:

NEW YORK, May 14, 1890.

To the Honorable the Committee on Construction:

GENTLEMEN—I herewith return the offer of Mr. John Fox to make and place the necessary sluice-gates for Bog Brook and Sodom Dam for the price of \$700, complete.

Referring to the bids for similar sluice-gates for the One Hundred and Thirty-fifth Street Gate-house and for Section 17, for which two bids only were received, I find that the bid of Messrs. Coldwell, Wilcox & Co., which was next to that of John Fox, named the price of \$1,020 for each sluice-gate, and in addition a price for testing the gates, which, for the former work, was \$700, and for Section 17, \$200. I am of the opinion that it is for the interest of the city to give the proposed work to Mr. John Fox, and I hereby recommend that his bid be accepted. The total cost of furnishing the six gates with their appurtenances under his proposal will be \$2,800 for Sodom Dam and \$1,400 for Bog Brook Dam, which sums include the testing of the gates.

I am, very respectfully,

A. FTELEY, Chief Engineer.

—and recommend the adoption of the following resolution:

Resolved, That the Chief Engineer be and he is hereby directed to procure the sluice-gates required for the Bog Brook and Sodom Dams from John Fox, at the prices named in the foregoing communication.

The report was then adopted by the following vote:

Affirmative—Commissioners Duane, Tucker, Scott and Howe—4.

The Secretary gave notice of the filing, on May 19, 1890, of a lien by Paige, Carey & Co. against O'Brien & Clark, contractors, for work done and materials furnished in the construction of Section 9 of the New Aqueduct, amounting to \$349,261.

Which was ordered filed.

On motion of Commissioner Scott, the hearing of the order to show cause by Heman Clark, contractor for the construction of Section 10B of the New Aqueduct, why the further work of construction of said section should not be discontinued, owing to the fact that the work is unnecessarily and unreasonably delayed, and for his failure to comply with the orders and directions of the Chief Engineer, and the further completion of said section done under the direction and supervision of the Aqueduct Commissioners, as provided in Clause P of the contract for the construction of said section, adjourned to this day, was postponed until Wednesday next, May 28, 1890, at 3 o'clock P. M.

The Commissioners then adjourned.

JOHN C. SHEEHAN, Secretary.

JURORS.

NOTICE OF COMMISSIONER OF JURORS
IN REGARD TO CLAIMS FOR EX-
EMPTION FROM JURY DUTY.

ROOM 127, STEWART BUILDING,
No. 280 BROADWAY, THIRD FLOOR,
NEW YORK, JUNE 1, 1890.

CLAIMS FOR EXEMPTION FROM JURY duty will be heard by me daily at my office, from 9 A. M. until 4 P. M.

Those entitled to exemption are: Clergymen, lawyers, physicians, surgeons, surgeon-dentists, professors or teachers in a college, academy or public school, licensed pharmacists or druggists, actually engaged in their respective professions and not following any other calling; militiamen, policemen, and firemen; election officers, jury non-residents, and city employees, and United States employees; officers of vessels making regular trips; licensed pilots, actually following that calling; superintendents, conductors and engineers of a railroad company other than a street railroad company; telegraph operators actually doing duty as such; Grand, Sheriff's, and Civil Court jurors; stationary engineers; and persons physically incapable of performing jury duty by reason of severe sickness, deafness, or other physical disorder.

Those who have not answered as to their liability, or proved permanent exemption, will receive a "jury enrollment notice," requiring them to appear before me this year. Whether liable or not, such notices must be answered (in person, if possible), and at this office only, under severe penalties. If exempt, the party must bring proof of exemption; if liable, he must also answer in person, giving full and correct name, residence, etc., etc. No attention paid to letters.

Persons "enrolled" as liable must serve when called or pay their fines. No mere excuse will be allowed or interference permitted. The fines, if unpaid, will be entered as judgments upon the property of the delinquents.

All good citizens will aid the course of justice, and secure reliable and respectable juries, and equalize their duty by serving promptly when summoned, allowing their clerks or subordinates to serve, reporting to me any attempt at bribery or evasion, and suggesting names for enrollment. Persons between sixty and seventy years of age, summer absentees, persons temporarily ill, and United States jurors, are not exempt.

Every man must attend to his own notice. It is a misdemeanor to give any jury paper to another to answer. It is also punishable by fine or imprisonment to give or receive any present or bribe, directly or indirectly, in relation to a jury service, or to withhold any paper or make any false statement and every case will be fully prosecuted.

CHARLES REILLY,
Commissioner of Jurors.

2,000 barrels of sample marked No. 1.
2,000 barrels of sample marked No. 2.
—will be received at the office of the Department of Public Charities and Correction, No. 66 Third avenue, in the City of New York, until 9:30 o'clock A. M. of Friday, June 13, 1890. The person or persons making any bid or estimate shall furnish the same in a sealed envelope, indorsed "Bid or Estimate for Flour," and with his or their name or names, and the date of presentation, to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened by the President of said Department and read.

The contractor shall furnish a certificate of inspection by the Flour Inspector of the New York Produce Exchange, also an award from the Committee on Flour of the Exchange, that the flour offered is equal to the standards of the Department, and which certificate shall accompany each delivery of flour, the expense of such inspection and award to be borne by the contractor, also certificate of weight and tare to be furnished with each delivery.

THE BOARD OF PUBLIC CHARITIES AND CORRECTION RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 64, CHAPTER 410, LAWS OF 1882.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Delivery will be required to be made from time to time, and in such quantities as may be directed by the said Commissioners.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, each in the penal amount of fifty (50) per cent. of the ESTIMATED amount of the contract.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, Head of a Department, Chief of a Bureau, Deputy thereof, or Clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the VERIFICATION be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion, and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be

inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept, but do not execute, the contract and give the proper security, he or they shall be considered as having abandoned it, and as in default to the Corporation; and the contract will be readvertised and relet as provided by law.

The quality of the articles, supplies, goods, wares, and merchandise must conform in every respect to the samples of the same on exhibition at the office of the said Department. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required before making their estimates.

Bidders will state the price for each article, by which the bids will be tested.

Bidders will write out the amount of their estimates in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, or from time to time, as the Commissioners may determine. The form of the contract, including the specifications, and showing the manner of payment, will be furnished at the office of the Department; and bidders are cautioned to examine each and all of its provisions carefully, as the Board of Public Charities and Correction will insist upon its absolute enforcement in every particular.

N. B.—As the above-mentioned quantities, though stated with as much accuracy as possible, in advance, are approximate only, bidders are required to submit their estimates upon the following express conditions, which shall apply to and become a part of every estimate received:

1st. Bidders must satisfy themselves, by personal examination, of the location of the proposed work, and by such other means as they may prefer, as to the accuracy of the foregoing Engineer's estimate, and shall not, at any time after the submission of an estimate, dispute or complain of the above statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

2d. Bidders will be required to complete the entire work to the satisfaction of the Department of Docks, and in substantial accordance with the specifications of the contract and the plans therein referred to. No extra compensation, beyond the amount payable for the work before mentioned, which shall be actually performed, at the prices therefore, to be specified by the lowest bidder, shall be due or payable for the entire work.

The work to be done under this contract is to be commenced within five days after the date of the contract, and all the work contracted for is to be fully completed on or before the 20th day of September, 1890, and the damages to be paid by the Contractor for each day that the contract may be unfulfilled after the time fixed for the fulfillment thereof has expired, are, by a clause in the contract, determined, fixed and liquidated at Fifty Dollars per day.

All the old material taken from the old structures to be removed under the contract will be relinquished to the Contractor, and bidders must estimate the value of such material when considering the price for which they will do the work under the contract.

Bidders will state in their estimates a price for the whole of the work to be done in each class, in conformity with the approved form of agreement and the specifications therein set forth, by which price the bids will be tested. These prices are to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder. The award of the contract, if awarded, will be made to the bidder who is the lowest for doing the whole of the work comprised in both classes, and whose estimate is regular in all respects.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing the work.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect; and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation, and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence, the names of all persons interested with them therein; and if no other person be so interested, the estimate shall distinctly state the fact; also, that the estimate is made without any connection with any other person making an estimate for the same work, and that it is in all respects fair, and without collusion or fraud; and also, that no member of the

Common Council, Head of a Department, Chief of a Bureau, Deputy thereof, or Clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. *Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.*

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, upon its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled on its completion, and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount, in each case, to be calculated upon the estimated amount of the work to be done, by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as surety in good faith, and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from or contract awarded to any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

THE RIGHT TO DECLINE ALL THE ESTIMATES IS RESERVED, IF DEEMED FOR THE INTEREST OF THE CORPORATION OF THE CITY OF NEW YORK.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

Rip-rap Stone furnished and put in place at outer end and along the sides of the new pier, about 2,473 cubic yards.

N. B.—As the above-mentioned quantities, though stated with as much accuracy as possible, in advance, are approximate only, bidders are required to submit their estimates upon the following express conditions, which shall apply to and become a part of every estimate received:

1st. Bidders must satisfy themselves by personal examination of the location of the proposed work, and by such other means as they may prefer, as to the accuracy of the foregoing Engineer's estimate, and shall not, at any time after the submission of an estimate, dispute or complain of the above statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

2d. Bidders will be required to complete the entire work to the satisfaction of the Department of Docks, and in substantial accordance with the specifications of the contract and the plans therein referred to. No extra compensation beyond the amount payable for the work before mentioned, which shall be actually performed, at the price therefore, to be specified by the lowest bidder, shall be due or payable for the entire work.

The work to be done under the contract is to be commenced within five days after the date of the contract, and all the work to be done under the contract (except about 60 feet of the shore end of the pier, which will not be constructed until the sewer opening in the bulkhead-wall is constructed by the Department of Docks) is to be fully completed on or before the 1st of October, 1890. And the said about 60 feet is to be completed within thirty days after notice shall be given to the Contractor by said Department of Docks that work on the said about 60 feet may be begun; and the damages to be paid by the Contractor for each day that the contract may be unfulfilled after the time fixed for the fulfillment thereof has expired, are, by a clause in the contract, determined, fixed and liquidated at Fifty Dollars per day.

Bidders will state in their estimates a price for the whole of the work to be done in each class, in conformity with the approved form of agreement and the specifications therein set forth, by which price the bids will be tested. This price is to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder. The award of the contract, if awarded, will be made to the bidder who is the lowest for doing the whole of the work comprised in both classes, and whose estimate is regular in all respects.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing the work.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect; and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates, their names and places of residence; the names of all persons interested with them therein; and if no other person be so interested, the estimate shall distinctly state the fact; also, that the estimate is made without any con-

FIRE DEPARTMENT.

HEADQUARTERS
FIRE DEPARTMENT, CITY OF NEW YORK,
157 AND 159 EAST SIXTY-SEVENTH STREET,
NEW YORK, May 27, 1890.

TO CONTRACTORS.

SEALED PROPOSALS FOR FURNISHING THE materials and labor and doing the work required in repairing and altering the following buildings of this Department, viz.: Quarters of Engine Company No. 2, at No. 530 West Forty-third street, and of Engine Company No. 19, at No. 355 West Twenty-fifth street, will be received by the Board of Commissioners at the head of the Fire Department, at the office of said Department, Nos. 157 and 159 East Sixty-seventh street, in the City of New York, until 10 o'clock A. M. Wednesday, June 21, 1890, at which time and place they will be publicly opened by the head of said Department and read.

A separate estimate must be made for each building.

No estimate will be received or considered after the hour named.

For information as to the amount and kind of work to be done, bidders are referred to the specifications, and drawings (for the quarters of Engine Co. No. 2 only), which form part of these proposals.

The form of the agreement and the specifications, showing the manner of payment for the work and forms of proposals, may be obtained and the plans may be seen at the office of the Department.

Bidders must write out the amount of their estimate in addition to inserting the same in figures.

The work is to be completed and delivered within thirty (30) days after the execution of the contract.

The damages to be paid by the contractor for each day that the contract may be unfulfilled after the time specified for the completion thereof shall have expired are fixed and liquidated at ten (10) dollars.

The award of the contract will be made as soon as practicable after the opening of the bids.

Any person making an estimate for the work shall present the same in a sealed envelope to said Board, at said office, on or before the day and hour above named, which envelope shall be indorsed with the name or names of the person or persons presenting the same, the date of its presentation and a statement of the work to which it relates.

The Fire Department reserves the right to decline any and all bids or estimates if deemed to be for the public interest. No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, Head of a Department, Chief of a Bureau, Deputy thereof, or Clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders of the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as sureties for its faithful performance, in the sum of eight hundred (800) dollars, and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion, and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety, or otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York before the award is made and prior to the signing of the contract.

No estimate will be considered unless accompanied by either a certified check upon one of the banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of forty (40) dollars. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal, but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it, and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

Each estimate must contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and if no other person be so interested it shall distinctly state that fact. That it is made without any connection with any other person making an estimate for the same work, and is in all respects fair and without collusion or fraud. The consent last above mentioned must be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety, or otherwise, and that he has offered himself as surety in good faith, with the intention to execute the bond required by law.

No estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE,
NO. 31 CHAMBERS STREET,
NEW YORK, August 14, 1889.

TO OWNERS OF LANDS ORIGINALLY ACQUIRED BY WATER GRANTS.

ATTENTION IS CALLED TO THE RECENT act of the Legislature (chapter 449, Laws of 1889), which provides that whenever any streets or avenues in the city, described in any grant of land under water, from the Mayor, Aldermen and Commonality, containing covenants requiring the grantees and their successors to pave, repave, keep in repair or maintain such streets, shall be in need of repairs, pavement or repavement, the Common Council may, by ordinance, require the same to be paved, repaved or repaired, and the expense thereof to be assessed on the property benefited; and whenever the owner of a lot so assessed shall have paid the assessment levied for such paving, repaving or repairing, such payment shall release and discharge such owner from any and every covenant and obligation as to paving, repaving and repairing, contained in the water grant under which the premises are held, and no further assessment shall be imposed on such lot for paving, repaving or repairing such street or avenue, unless it shall be petitioned for by a majority of the owners of the property (who shall also be the owners of a majority of the property in frontage) on the line of the proposed improvement.

The act further provides that the owner of any such lot may notify the Commissioner of Public Works, in writing, specifying the ward number and street number of the lot, that he desires, for himself, his heirs and assigns, to be released from the obligation of such covenants, and elects and agrees that said lot shall be thereafter liable to be assessed as above provided, and thereupon the owner of such lot, his heirs and assigns shall thenceforth be relieved from any obligation to pave, repair, uphold or maintain said street, and the lot in respect of which such notice was given shall be liable to assessment accordingly.

The Commissioner of Public Works desires to give the following explanation of the operation of this act: When notice, as above described, is given to the Commissioner of Public Works, the owner of the lot or lots therein described, and his heirs and assigns, are forever released from all obligation under the grant in respect to paving, repaving or repairing the street in front of or adjacent to said lot or lots, except one assessment for such paving, repaving or repairs, as the Common Council may, by ordinance, direct to be made thereafter.

No street or avenue within the limits of such grants can be paved, repaved or repaired until said work is authorized by ordinance of the Common Council, and when the owners of such lots desire their streets to be paved, repaved or repaired, they should state their desire and make their application to the Board of Aldermen and not to the Commissioner of Public Works, who has no authority in the matter until directed by ordinance of the Common Council to proceed with the pavement, repavement or repairs.

Commissioner of Public Works.
