PUBLIC NOTICE.

OFFICE OF CITY CLERK.

Public notice is hereby given to the heads of all Departments in The City of New York that the ordinance amending the ordinance relative to the hours of closing of all public offices in said City, which was adopted by the Board of Aldermen on June 26, 1906, was duly approved by his Honor, the Acting Mayor, on July 3, 1906, and is therefore now in full force and effect.

The ordinance is as follows:

AN ORDINANCE fixing the office hours of all public offices in The City of New York.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. Section 1 of an ordinance adopted by the Board of Aldermen, April 22, 1902, and approved by the Mayor April 29, 1902, is hereby amended by adding thereto the words following: "Provided, however, that during the months of July and August all public offices in The City of New York, except as otherwise provided, shall be closed at 3 o'clock p. m., except on Saturdays, when such offices shall be closed at 12 o'clock noon, and further provided that the heads of all Departments may, when public business requires it, keep the said offices open after 3 o'clock."

Sec. 2. This ordinance shall take effect immediately.

WILLIAM J. BOYHAN, First Deputy City Clerk.

BRIDGES OVER THE EAST RIVER.

No. 1—Brooklyn Bridge.

The partial reconstruction of the Manhattan terminal of the bridge railway was completed in February. The new platforms and lengthened switching tracks afford the railway company opportunity to operate freely five-car through elevated railway trains at all hours of the day and night, except the week-day morning and evening rush hours, and permits distribution of passenger traffic over greater platform area. Train service was maintained during the quarter free from serious accident or long delays.

An unusually large number of delays to surface car travel has resulted from the defective condition of the surface car tracks on the bridge roadways. Necessary repairs thereto have frequently been only partially completed, or deferred, because of public complaint regarding the suspension of surface car service while such repairs were in progress. The railway company has ordered material for a substantial renewal of these tracks, which, when completed, should remove, for a long period, cause for delays.

Early in January the Police force detailed to the Brooklyn Bridge was augmented by additional officers and patrolmen, and a successful effort made to control and curb the tendency to overcrowding and disorder prevalent at the Bridge terminals during the busy hours of the morning and evening.

To relieve the overcrowded entrance to the Subway, at Park Row, a passageway under the lower loop surface car terminal is in process of construction.

During the quarter ending March 31, the number of surface car round trips is shown in the following statement:

January	115,179
February	108,273
March	120,190
Total	343,642

An increase of 46,779 round trips over corresponding quarter of 1905.

No. 2—Williamsburg Bridge.

Construction.

Toll Houses—Four (4) new toll houses have been placed in position, and have given entire satisfaction. They harmonize well with the general architectural features of the structure.

Police Shelters—Thirty (30) police shelters have been placed on the bridge at the various posts. All the wooden shelters heretofore used by the Patrolmen being removed from the structure.

Added Trolley Slips—The construction of the added trolley slips, at the Manhattan end of the Williamsburg Bridge, to provide additional platform space and slips for the cars of the Brooklyn Heights Railroad Company, was commenced on March 28, and is being hastened to completion.

Manhattan Subway Station—The work of planning the proposed subway station in Manhattan is about completed, and the contract for this construction should be let in the near future. All the plans for the alteration of the bridge structure itself, necessary in order to permit access to this subway station, are completed, and a contract for this work will be let before the end of the spring. The plans for the necessary elevated railway structure on the Brooklyn plain, connecting the bridge elevated rail-

way tracks with the elevated railway structure of the Brooklyn Rapid Transit System on Broadway, are being made, and a contract for this work will be let early in the coming summer.

Maintenance.

Electric Lighting—The construction of the intake chamber for supplying water to the condenser pumps has been completed, and the engines are at present running condensing. The supply of steam at present obtainable from the incinerating plant is not sufficient to develop the full engine capacity of the lighting station, but it is understood that the Street Cleaning Department has taken steps to obtain more boilers.

The permanent wiring for the lighting of the main span, approaches and Brooklyn plaza has been put in place, the lighting load being gradually shifted from the Edison Company's service to the bridge station, until at present the entire structure is being lighted by the plant. The ornamental electroliers on the main towers were lighted for the first time Saturday, February 23, and are extinguished at 2 a. m.

Railroads—The cars of the Tompkins avenue line commenced crossing the bridge on February 1 of this year.

The work of making the trolley road beds safe for passengers who may be obliged to alight from the cars on the structure, from fire and other causes, is being carried on as rapidly as possible.

The pipe railing on the inside of the south trolley tracks is practically completed, and arrangements have been made to floor over the ties, also to erect a railing on the inner side of the New York City Railway Company's tracks. Openings in the railing between the roadway and the trolley tracks will be provided about 200 feet apart on the structure, to facilitate the passengers reaching the roadway in case of a blockade.

Inspection—A schedule for the inspection of the sub and superstructure has been adopted, which is yielding satisfactory results.

No. 4—Manhattan Bridge.

Office Work.

The office force has been engaged on work in connection with Manhattan Bridge construction. The computations of negative moments and shears in the trusses of suspended spans and the diagrams of the same are now completed.

Field Work.

Brooklyn Side—In connection with the Brooklyn anchorage contract, work has been continued during the favorable weather of this quarter, laying masonry of various classes and backfilling around the anchorage. At the beginning of this year there had been laid about 34,100 cubic yards of No. 1 concrete and cyclopean masonry and about 520 cubic yards of granite face masonry. At this date there have been laid 43,700 cubic yards of cyclopean masonry and No. 1 concrete and about 1,830 cubic yards of granite face masonry. Some delay to the work has occurred through the winter months on account of inability of contractor to obtain materials of construction and on account of unfavorable weather. The contract is now about 39 per cent. completed.

Manhattan Side—In connection with the anchorage contract, work has continued on the sheet piling, excavation, bearing piles and laying various classes of masonry.

The sheet piling to enclose the anchorage foundation was completed about the end of January. The excavation to a level where satisfactory foundation is secured is completed except in a small area at the southeasterly corner of anchorage where there remain about 165 bearing piles to be driven and a small amount of excavation to be done. In the rear section of anchorage back of the main archway the concrete and cyclopean masonry foundation has been laid to about elevation +13.8 feet, and the granite face masonry has been laid at the back on courses "C," "D" and "E." In the front section of anchorage, on the easterly side, where the piling is completed and satisfactory foundation has been reached, concreting was begun the 21st day of March, and has continued at intervals since, when there have been materials of construction on hand. To date there have been placed about 9,160 cubic yards of concrete and cyclopean masonry and about 144 cubic yards of granite face masonry. The contract is now about 23½ per cent. completed.

No. 4—Blackwells Island Bridge.

Steel Superstructure.

Drawings—During the quarter the contractor for the steel superstructure has submitted about 400 drawings and strain sheets. These drawings have been checked, and 249 have received final approval, 51 preliminary approval, 26 have been marked for corrections.

Strain Sheets—All of the stress sheets have been approved except two. These two are held on account of possible changes in the material of the bottom chords and end posts at Manhattan and Queens anchor piers.

Manufacture—A total of 38,025 tons of 73 per cent. of the material has been inspected and accepted at the mills. The average rate of speed necessary to complete the work within the specified time has been maintained in the shops, and a large amount of finished material is stored at Steelton and Pottstown.

Strike—Owing to a strike of the Bridgemen, only about 150 tons of steel castings, 150 tons of nickel steel eye-bars and pins, and no structural steel was delivered at the bridge site. The men struck on January 2, 1906, and the strike is still on, but conditions look favorable for an early settlement of differences.

Erection—No material has been erected during the last three months. The contractor has in his employ six detectives to watch the erected work and the plant on the island.

The contractor has completed his lay out and plans for the erection of the Manhattan and Queens anchor arms. The building of a dock in Queens has been let, and work on this will be started soon.

The land needed for the erection of the Manhattan anchor arm has been cleared by the removal of the houses east of the anchor pier. This work was done under the supervision of the Finance Department.

Masonry.

Anchor piers—Work on the anchor piers is progressing slowly. The granite masonry of the south tower of the Manhattan anchor pier was completed March 27, 1906; the granite masonry of the north tower is about 80 per cent. complete. The contractor is laying the inner enameled brick lining. The work on the anchor piers is about 94 per cent. complete.

Piers—860 cubic yards of granite have been delivered for the attics of piers 2 and 3—of this, 483 cubic yards have been cut. No granite has been received for the attics of piers 1 and 4. Laying masonry for the attics cannot be started until after the steel work is in place.

Elevated towers—Owing to probable change in the design, work on the elevator shafts of piers 2 and 3 and the power houses on Blackwell's Island cannot be started.

Approaches.

Detail plans for the steel work of the Queens approach are about three-quarters completed; calculations are being made for the steel and masonry parts of the approach in Manhattan. The design is being worked out with the assistance of the consulting architect.

BRIDGES OVER THE HARLEM RIVER AND IN THE BOROUGH OF MANHATTAN.

Maintenance.

No. 1. Willis Avenue Bridge—No repairs of great consequence have been required during the quarter. Railings which have been damaged by collision with vessels have been put in order, the main exhaust pipe altered so it will not drip on the centre pier, and new and heavier latches put on the gates.

The cost of removing snow during the quarter, in addition to our usual force of men and horses, was \$901.50.

No. 3. Third Avenue Bridge—Painting the structure, which was begun early in the last quarter, has been continued, and is now practically finished. The work of rewiring the bridge for electric lighting, which was also begun during the last quarter, has been continued, and the structure is now completely rewired, including new submarine cables to both shores, and it is now in this respect in better condition than it has ever been. A timber fender has been built against the Manhattan rest pier, to protect the cables, and one is now building against the Bronx pier.

The ornamental tops of the electric light poles have been removed, and new ones of a better pattern put in their places.

The cost of removing snow during the quarter was \$603.

No. 4. Madison Avenue Bridge—The inside of the engine room and the roof and smoke stack have been painted; also some railing repaired.

The cost of removing snow during the quarter was \$36.

No. 5. One Hundred and Forty-fifth Street Bridge—Fenders of timber have been built against the rest piers to protect the submarine cables where they are likely to be damaged by boats and ice.

The cost of removing snow during the quarter was \$367.25.

No. 6. Macomb's Dam Bridge—Nothing of moment has occurred on this bridge, except the breaking of a spur gear in the turning engine. Temporary repairs were promptly made and a new gear procured and put in place a few days afterward. No openings were seriously delayed by the accident.

The cost of removing snow during the quarter was \$4.

On the bridges not specifically mentioned, nothing has been done but the usual routine maintenance.

To provide against probable strike of coal miners and consequent scarcity of coal, 700 tons of coal have been stored in bins under Third Avenue Bridge, for distribution as required.

The average number of draw openings per day during the quarter have been as follows:

No. 1—Willis Avenue.....	16 93-100
No. 3—Third Avenue.....	10 73-100
No. 4—Madison Avenue.....	5 31-100
No. 5—One Hundred and Forty-fifth Street.....	3 58-100
No. 6—Macomb's Dam.....	1 67-100
No. 10—Ship Canal.....	4 63-100

Construction.

No. 1. Willis Avenue Bridge—As noted in the last quarterly report, the Southern Boulevard approach was opened to the public November 15, 1905, and during this quarter the two stairways at the corners of Willis avenue have been completed and opened.

No. 4. Madison Avenue Bridge—The contract and specifications for the temporary bridge have been prepared, and it should be possible to advertise for bids in the near future.

No. 7. New York and Putnam—Work on plans for new approaches to the sidewalk of the railroad bridge has progressed, and it will soon be possible to present them to the railroad company and to the Park Department, whose co-operation is necessary.

No. 9. University Heights Bridge—Very little work has been done by the contractor during the quarter on account of the difficulty he has experienced in getting supplies of stone, gravel and sand.

No. 10. Ship Canal Bridge—The situation is the same as formerly reported, except that the stone newel posts have been rebuilt, and granite copings laid on the abutment walls, and the new span now building at Two Hundred and Eighteenth street has been nearly completed.

Henry Hudson Memorial—An appropriation of \$1,000,000 for beginning work was made by the Board of Estimate and Apportionment December 12, 1905; the ordinance passed by the Board of Aldermen February 14, 1906, and approved by the Mayor, February 21, 1906. Preliminary office work is in progress.

BRIDGES IN THE BOROUGH OF THE BRONX.

Maintenance and Repairs.

One Hundred and Thirty-fifth Street Bridge over Mott Haven Canal—No repairs of importance were necessary during the quarter, but the upper course of planking on the deck will shortly be renewed. Incandescent lamps were installed to light the machinery and tail pocket under the street roadway.

An electric winch to warp vessels past the draw was put in operation on March 26. It has been in use for a short time, and its effect in reducing the long delays suffered by street traffic on account of the concentration of canal travel at the times of high water is marked.

Westchester Avenue Temporary Bridge—The old draw span has been out of use for nearly a year, but has not been dismantled or removed. It may safely be left in its present location until it is needed elsewhere.

Westchester Avenue Permanent Bridge—This bridge was maintained in good order without much expense. During the quarter the grading of Westchester avenue, from the Bronx river to Westchester Village, was completed, and street traffic that had been diverted from this thoroughfare for over a year was resumed near the end of February. As soon as the street roadway is paved this bridge will probably be the busiest crossing in the borough.

A few changes in the electric equipment will be made when the street railway company lays track on the bridge.

Unionport Bridge—The roadway planking was repaired, but no extensive renewals were necessary.

Pelham Bridge—A few repairs were made to the deck. This bridge is on the main highway to New England, and on Saturdays and Sundays is often taxed to its full capacity by automobiles and pleasure vehicles.

City Island Bridge—No repairs of importance were made. Part of the macadam pavement on the west approach was renewed.

Eastchester Bridge—This old draw bridge was patched and repaired during the quarter.

BRIDGES PROJECTED OR UNDER CONSTRUCTION.

Pelham Bridge.

The condition of work on the contract for the foundations, piers and abutments at the beginning of the quarter was as follows:

Abutment 1—Finished.
Pier 2—Finished.
Pier 3—Finished.
Pier 4—Foundation finished and the pier built up to the elevation 1.0 above mean high water.
Pier 5—Condition same as noted for Pier 4.
Pier 6—Finished.
Pier 7—Finished.
Abutment 8—Foundation finished and the abutment built up to the elevation 1.0 above mean high water.

The principal operations during the quarter were building the struts under the channel between piers 4 and 5, building the skew backs and setting the ends of the arch ribs and anchors on piers 4, 5 and abutment 8, pointing the finished piers and removing the upper section of the coffer dams. Part of the plant was dismantled and removed.

Office work included the preparation of plans and specifications for the contract for the superstructure and approaches, preliminary estimates of the cost of finishing the bridge and considerable work on the final estimate for the present contract.

Unionport Bridge.

Preliminary studies for a new bridge to replace the existing structure are being made.

Eastchester Bridge.

Surveys have been made by the President of the Borough of The Bronx preparatory to letting contracts for the grading of Boston post road, from Bronx Park to the city line. When this work is finished this old thoroughfare will be the main highway to eastern Westchester County and New England. It now crosses Hutchinson river about 500 yards south of the city limits by means of an old iron pony draw span that will be inadequate if traffic increases to any great extent.

The following table shows the number of draw openings and of vessels passing the bridges in the Borough of The Bronx during the quarter:

Bridge.	Openings.	Vessels.
One Hundred and Thirty-fifth street (Mott Haven canal).....	471	691
Westchester avenue (Bronx river).....	173	411
Unionport (Westchester creek).....	399	754
Pelham Bridge (Eastchester Bay).....	204	366
City Island Bridge (Pelham Bay narrows).....	153	104
Eastchester Bridge (Hutchinson river).....	136	170

BRIDGES OVER NEWTOWN CREEK AND IN THE BOROUGH OF QUEENS.

Bridges Over Newtown Creek.

No. 1. Vernon Avenue Bridge (Construction)—The contract for the construction of this bridge was completed on March 20, 1906, by the removal of the temporary bridge and the dredging of Newtown creek at the site of this bridge.

The traffic at this bridge continues to increase owing to the great improvement in the service, especially in the matter of time saved in operation of the draw span with the consequent lessening of the delay to traffic. A comparative table of boats passing, the number of openings and delay to traffic over bridge, at the temporary bridge, for January, February and March, 1905, and at the new Vernon Avenue Bridge for the corresponding months of 1906 is interesting:

New Vernon Avenue Bridge.

The roadway of Manhattan avenue, from Ash street to the creek, has been repaved as far as the old blocks would go, and there remain about 1,500 square yards of the avenue unpaved. It is expected to let a contract for this work during the summer.

No. 2. Greenpoint Avenue Bridge—The roadway planking has been renewed by the Brooklyn Heights Railroad Company, and our force of carpenters has renewed the hatches over the operating machinery. This bridge is in good condition.

No. 3. Meeker Avenue Bridge—End panel of bottom chord damaged by vessel has been straightened. Additional bolts to support motor have been put in place and the matter of "speeding up" the motor is under consideration.

The three-inch wood block pavement laid by this Department in September, 1903, is in first-class condition, and has required no attention since its laying.

No. 4. Grand Street Bridge—The power operating shaft, with one of its bearings, was broken on February 28, while the drawspan was being opened in the face of a very strong wind.

Vehicle, car and water traffic were delayed 17½ hours; there was no interruption to pedestrian traffic. Bridge was operated by hand power from March 1 to March 9, while work of repair was in progress.

No. 5. Metropolitan Avenue Bridge—One section of hand railing repaired during quarter. This timber trestle is in good condition.

Bridges in the Borough of Queens.

No. 6. Borden Avenue Bridge—Roadway planking renewed in places. This structure is not in good condition, and a contract for a new bridge at this site will be let shortly.

No. 7. Flushing Bridge (Construction)—The east rest pier has been completed to the bridge seat and coping course. The bolsters with track girders and rack frames have been placed in position.

The west rest pier cofferdam has been built, the concrete below limestone masonry has been placed in position and the first course of limestone with its concrete backing has been laid. The anchors for west leaf have been concreted in place and the anchor rods at bolsters set.

The south concrete wall of west approach has been completed. Rip rap has been deposited in front of west abutment and the filling back of walls removed to permit of work of reinforcement.

The counterweight for movable span has been delivered, which will permit of the erection of the movable span, as all the structural material required is on the ground.

No. 7. Temporary Bridge at Flushing—Railing post damaged by automobile repaired. No further work done during quarter.

No. 8. Strong's Causeway Bridge—Renewed bearing plates on rest piers and lattice bars on struts between these piers.

Bridge is in fair condition.

No. 9. Little Neck Bridge—No repairs required during quarter.

No. 10. Hunter's Point Avenue Bridge—On account of the proposed development of Dutch Kills, above Hunter's Point Avenue, this bridge, which had been maintained by the Borough President of Queens as a bridge over unnavigable water, has passed to the jurisdiction of this Department, and on January 25 was opened by this Department for the first time for navigation purposes.

BRIDGES IN THE BOROUGH OF BROOKLYN AND RICHMOND.

Borough of Brooklyn.

Hamilton Avenue Bridge—The construction of the concrete operators' houses has proceeded slowly and will probably be completed some time in May.

The bridge has been operating satisfactorily. New set screws were put in collars of main driving shafts and holes bored for additional oil cups and cups placed. This made considerable difference in the power required to operate the bridge.

Ninth Street Bridge—This bridge has given practically no trouble and works well and smoothly. New set screws and oil cups were put in as at Hamilton avenue, and with good results.

Third Street Bridge—No mishaps causing delays to traffic have occurred at this bridge. Set screws and oil cups were placed as at Ninth street, and with good results.

The property owners on the west side of the canal filed claims for damages due to building of approaches to bridge and change of grade of same and were awarded \$40,495.

Carroll Street Bridge—New tubes were put in the boilers at this bridge. While these repairs were being made the bridge was closed to land travel. Bridge was out of commission from 9 a. m., January 2, to 8 p. m., January 3.

Union Street Bridge—This bridge is operating satisfactorily. Set screws and oil cups were placed here as at Hamilton avenue, and with good results. The roadway of this bridge is 35 feet, while the roadway of Union street west of the canal is 30 feet. The Board of Aldermen, on December 26, 1905, authorized the widening of the roadway of Union street from the canal west to Bond street from 30 feet to 35 feet, and when this is done by the Highway Bureau it will make it possible for vehicular traffic to keep off the car tracks, which it cannot do now, as the side pitch of the road is too steep. The roadway and walks were completed rather hurriedly last year, to

permit of use of bridge at an early date, and when the expected roadway changes are made the present conditions of the walks will be improved upon.

Washington Avenue Bridge—The west roadway has been replanked. Studies are being made for new floor and new gates at this bridge.

Metropolitan Avenue Bridge—Plans for a new bridge are now under consideration. The present bridge was repainted in March and new motor pinion put in, driving rack lined up and refastened, and some repairs made on gates and in the floor.

Harway Avenue Bridge—Guard angles were put on fenders; otherwise no repairs were made on this bridge.

Third Avenue Bridge—Repairs to asphalt road surface will shortly be made.

Borough of Richmond.

Lemon Creek Bridge—Plans for a new bridge are well under way, and it is expected that construction of a new bridge will be begun this year.

Fresh Kills Bridge—The drawbridge is in fair condition, but the trestle will in another year need extensive repairs.

The number of bridge openings are given below:

TRANSACTIONS FROM APRIL 16 TO APRIL 21, 1906, BOTH DAYS INCLUSIVE.

New York, April 16, 1906.

Opening of proposals.

In the presence of the Commissioner and a representative of the Department of Finance.

Affidavits as to the due publication in the CITY RECORD of advertisements inviting proposals were read and filed, and approved forms of contracts were submitted.

Proposals were received as follows:

DEPARTMENT OF DOCKS AND FERRIES.

FILLING-IN PRIVILEGE.

DEPARTMENT OF DOCKS AND FERRIES, FOOT OF BATTERY PLACE, BOROUGH OF MANHATTAN, THE CITY OF NEW YORK.

SEALED BIDS OR ESTIMATES WILL BE received by the Commissioner of Docks at Pier "A," foot of Battery place, in The City of New York, until 12 o'clock noon on

THURSDAY, JULY 19, 1906.

FOR THE RIGHT TO DUMP AND FILL IN BEHIND THE BULKHEAD WALL RECENTLY BUILT OR TO BE BUILT ON PART OF THE BLACKWELL SECTION, ON THE EAST RIVER, BOROUGH OF MANHATTAN.

TERMS AND CONDITIONS OF SALE.

The work to be done is to fill in with suitable material, as hereinafter described, the area behind the new bulkhead wall extending from a line at right angles to the bulkhead wall and distant about 80 feet northerly from the north side of East Seventy-fifth street, East river, northerly line of East Seventy-seventh street, East river, and also extending from the rear of the bulkhead wall, when it is completed, inshore a distance of from about 20 feet to 50 feet to the top of the existing bank. The exact limits of the basin to be filled under this agreement may be seen on a map at Pier "A," together with the soundings and other data used, said map being a part of this agreement.

The filling shall be brought to a grade level with the top of the coping of the bulkhead wall and shall extend inshore on a regular grade to the level of the street adjacent.

It is estimated that the area outlining the above-described limits will create a basin to be

filled in, under this agreement, whose cubical contents in net void space is equal to about 2,500 cubic yards.

Bidders will state in writing a lump sum price, which they agree to pay for the privilege of filling in the void space behind the bulkhead wall built or to be built at the Blackwell section, on the East river, Borough of Manhattan.

In the estimated amount given, the amount in cubic yards is arrived at without placing any allowance for shrinkage, settlement, swelling of the material or penetration into the mud.

The Department is not bound in any way by such estimate, and bidders must satisfy themselves of the actual quantity required to fill in the above-described area by examination of the premises or such other means as they may prefer, the intention of the Department being to fill in the whole of the said premises behind the bulkhead wall within the above-described limits, and no allowance will be made to the purchaser from the purchase price on account of any discrepancy which may be found between the above-estimated quantity and the actual amount of filling required. The purchaser will be required to place the filling in accordance with the following specifications:

All the filling shall, unless otherwise directed, be placed directly in the rear of the bulkhead wall and carried from the bulkhead wall toward the shore until the bank of same has been carried out at the finished grade for a distance of about 30 feet from the face of the bulkhead wall, at which time, if so directed by the Engineer, the filling shall be started at the bank and carried outshore toward the bulkhead wall or close row of piles.

All material must be dumped and filled in only in such manner, at such points and in such order of procedure and at such times and seasons as may, from time to time, be directed, and the work of filling in may be entirely suspended for such periods of time as may be directed by the Engineer. The purchaser shall have no claim for damage or for any allowance from the purchase money on account of such suspension of the work.

All directions shall be given by the Engineer, and wherever the word "Engineer" is used in these specifications it refers to and designates the Engineer-in-Chief of the Department of Docks and Ferries, or such officer or employee as may be designated by him.

Rip-rap stone coming directly on or against the bulkhead wall must be deposited carefully in such manner as will not injure the same.

All the filling, except as otherwise specified herein, shall be of ashes, cellar dirt, broken stone, etc., entirely free from garbage or any organic matter objectionable in the opinion of the Engineer.

At any section of the bulkhead wall the filling shall be brought up level with the under side of the backing log of the bulkhead wall at such section, and no higher, unless otherwise directed.

The filling shall be commenced within five days after the date of the receipt of a notification from the Engineer that the work, or any part of it, is ready to be begun. The Department reserves the right of ordering the Contractor to deposit not less than 100 cubic yards per day, as directed by the Engineer, and the whole amount of the filling called for to bring the above-described basin up to grade shall be completed within 60 calendar days from the date of the receipt of said notification. At the expiration of this time this agreement shall be considered closed unless a further extension of time shall be given by the Commissioner of Docks. If at any time during the progress of the work it shall be deemed necessary to order the suspension of the whole or any part of the filling, as will probably be necessary during the completion of the bulkhead wall between East Seventy-sixth and East Seventy-seventh streets, the time for completing said filling shall be extended as much as it may have been delayed by such suspension.

In case the purchaser at any time does not proceed with the work of filling in to the satisfaction of the Commissioner of Docks, the said Commissioner will at once terminate the privilege of filling in and proceed to have the remainder of the filling in done by other parties in such way and manner as he deems proper, and any loss which may result therefrom shall be charged against the principal and his surety.

The purchaser shall, during the work of filling in, and at all times until the completion thereof, take all necessary precautions and place proper guards for the prevention of accidents, and put up and maintain at night sufficient lights, and he shall indemnify and save harmless The City of New York from all damages and costs to which it may be put by reason of injury to the person or property of another resulting from negligence or carelessness in the performance of the work or guarding the same, to which the surety is also bound.

No bid or estimate will be considered unless accompanied by a certified check drawn to the order of the Commissioner of Docks, or money to the amount of twenty-five per centum of the amount of the bid, which amount shall be applied in the case of the successful bidder to the first one-quarter of the amount of the filling to be deposited; twenty-five per centum to be paid when the first one-quarter of filling has been completed; twenty-five per centum additional when one-half the filling has been completed, and the balance, twenty-five per centum, when three-quarters of said filling has been completed.

A surety or guarantee company, duly authorized by law to act as surety, to be approved by the Commissioner of Docks, will be required to enter into a bond or obligation jointly and severally with the purchaser in the sum of double the amount of the purchase price as security for the satisfactory performance of said work, in accordance with the terms and conditions hereof.

Commissioner of Docks.

DEPARTMENT OF DOCKS AND FERRIES, FOOT OF BATTERY PLACE, BOROUGH OF MANHATTAN, CITY OF NEW YORK.

SEALED BIDS OR ESTIMATES WILL BE received by the Commissioner of Docks at Pier "A," foot of Battery place, in The City of New York, until 12 o'clock noon on

THURSDAY, JULY 12, 1906.

FOR INSURING THE FERRYBOATS "MANHATTAN," "BROOKLYN," "BRONX," "QUEENS" AND "RICHMOND," now employed on the ferry between the foot of Whitehall street, in the Borough of Manhattan, and St. George, in the Borough of Richmond, City of New York, for a period of one year.

The said vessels, tackle, apparel, stores, supplies, furniture, engines, boilers, machineries and appurtenances shall be insured at a valuation to be determined upon by the insurer and the Commissioner of Docks, but shall not exceed the sum of \$300,000 for each boat, or a total of \$1,500,000 for the five boats; and in no case shall the Department be deemed a co-insurer.

The boats to be insured shall be used and navigation within the bay and harbor of New York and the Hudson and East rivers, with the privilege to lay up and make additions, alterations and repairs while running or while laid up, or to go into dry dock. Any deviation beyond the limits named shall not void the policy, but no liability shall exist during such deviation; and upon the return of said vessels within the limits named above, no disaster having occurred, the policy shall be and remain in full force and effect unless a disaster occurs while deviating.

The policy shall provide for the full indemnification of all salvage expenses and loss, damage, detriment or hurt to said vessels for which the insurers are liable against the perils of the harbor, bay or rivers as above named, lightning and fires that shall occur to the hurt, detriment or damage of said vessels or either of them, or any part thereof, and for all damage which may be done by the vessels insured to any other vessel or property.

As the vessels to be insured are common carriers, the policy shall not contain any limitation as to the nature or kind of cargo or other material which shall be carried on the boats.

No claim shall be made by the Department for any damage to the vessels insured unless it exceeds \$500.

Losses shall be payable in thirty days after proof of loss or damage, and of the amount thereof, and proof of the interest of the insured shall have been made and presented at the office of the insurer or its representative in The City of New York.

No bid will be received for insurance by or in behalf of any company not duly authorized by the Insurance Department to transact business in the State of New York.

Each bid must be accompanied by a copy of the policy upon which the bid is based.

The person or persons making a bid or estimate shall furnish the same in a sealed envelope indorsed as follows:

"Bid for insuring ferryboats employed on the Staten Island Ferry."

Bids will be received by the Commissioner of Docks at Pier "A," foot of Battery place, until 12 o'clock noon on Friday, June 29, 1906, at which time and place the estimates received will be publicly opened by the Commissioner of Docks and read, and the award of the contract made according to the law as soon thereafter as practicable.

No bid or estimate will be considered unless as a condition precedent to the reception or consideration of any proposal it be accompanied by a certified check upon one of the State or National Banks of The City of New York, drawn to the order of the Commissioner of Docks, or money to the amount of One Thousand Dollars.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope, addressed to the Commissioner of Docks, or submitted personally upon the presentation of the bid or estimate.

The bidders shall state a rate per cent. at which they will insure or contract for insurance for the ferryboats, as specified above, in accordance with the terms of this advertisement, and also in accordance with the form of policy submitted, which shall be considered in connection with and form part of the bid.

Bidders will write out the rate per cent. of their estimates in addition to inserting the same in figures.

The Commissioner reserves the right to reject all bids or estimates if he deem it for the interest of the City so to do.

Bidders are requested to make their bids or estimates upon the blank form prepared by this Department, a copy of which can be obtained on application therefor at the office of the Department.

DEPARTMENT OF FINANCE.

CORPORATION SALE OF REAL ESTATE.

PUBLIC NOTICE IS HEREBY GIVEN that the Commissioners of the Sinking Fund of The City of New York, by virtue of the powers vested in them by law, will offer for sale at public auction on

THURSDAY, JULY 26, 1906,

at 12 o'clock m., at the Comptroller's Office, No. 280 Broadway, Borough of Manhattan, City of New York, all the right, title and interest of The City of New York in and to the following described property, which it has by virtue of a lease from William V. B. Bennett, Supervisor of the Town of Gravesend, to the City of Brooklyn, which lease is dated December 28, 1895, recorded in the Kings County Register's Office on December 31, 1895, in Section 21, Liber 1 of Conveyances, page 496, and indexed under Block 7056 on the land map of the County of Kings.

Premises situated on the northerly side of Surf avenue, between the westerly side of West Twenty-fourth street and the easterly side of West Twenty-third street, in the Borough of Brooklyn, and known as and by the number 32 upon the assessment roll for the opening of Surf avenue, from Coney Island Point to land of Prospect Park and Coney Island Railroad, in the Town of Gravesend, assessed to the New York Children's Aid Society, which was sold to the Town of Gravesend at a sale for unpaid assessments, held January 11, 1893, for the sum of \$44.25 and which said property was leased to the City of Brooklyn for a term of one hundred years.

The minimum or upset price at which the interest of the City in and to the premises to be sold is appraised and fixed by the Commissioners of the Sinking Fund at eighty dollars and two cents (\$80.02). The purchaser, in addition thereto, to pay the auctioneer's fee on such sale and also to pay the further sum of one hundred dollars (\$100) for the expense of examination, advertising, etc. The sale of the said premises is to be made on the following

TERMS AND CONDITIONS.

The highest bidder will be required to pay the full amount of his bid or purchase money, and the \$100 on such parcel, together with the auctioneer's fee, as above provided for. The quitclaim deed for the above described premises to be delivered within thirty days from the date of sale.

The deed for said premises is to contain a clause reserving to the City all of the land included in Surf avenue, West Twenty-third and West Twenty-fourth streets, which will or would be necessary for the opening or widening thereof, together with all the right, title and interest in and to any awards that may have been or may hereafter be made in any proceedings for such opening or widening aforesaid.

The Comptroller may, at his option, recall the property if the successful bidder shall fail to comply with the terms of sale, and the person failing to comply therewith will be held liable for any deficiency which may result from any such resale.

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO OF CITY REAL ESTATE.

PUBLIC NOTICE IS HEREBY GIVEN that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale at public auction the buildings, parts of buildings, etc., standing upon property owned by The City of New York, acquired for school purposes, in the

Borough of Manhattan.

All the buildings, parts of buildings, etc., situated and erected upon property owned by The City of New York and acquired for school purposes, bounded and described as follows:

Beginning at a point on the southerly line of West Forty-eighth street distant 325 feet westerly from the westerly line of Eighth avenue, and running thence southerly and parallel with Eighth avenue 100 feet 5 inches to the northerly line of the lands of Public School 17; thence northerly and again parallel with Eighth avenue 100 feet 5 inches to the southerly line of West Forty-eighth street; thence easterly along the southerly line of West Forty-eighth street 150 feet to the point or place of beginning.

By direction of the Comptroller, the sale of the above-described buildings and appurtenances thereto will be made under the supervision of the Collector of City Revenue, Department of Finance. The sale will take place on

MONDAY, JULY 16, 1906,

at 11 a. m., on the premises, and will be sold for the highest marketable price at public auction on the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must give either a cash bond or an approved bond of a surety company in the amount of the purchase price as security for the proper performance of the work of removal, which must be completed within thirty working days thereafter.

All the buildings, structures and parts thereof, their fixtures and foundations of every class and description, within the described area, are to be torn down to a level two feet below the existing curb, and structures which may exist within any of the buildings, such as engine beds, boiler settings, etc., and all stoops and area walls shall be torn down to the same level. All tin from roofs, cornices, sides of buildings or partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studdings, flooring, ceiling, roofing, boards and woodwork of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken laths and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away. The purchaser at the sale shall also shut off and cap all water pipes, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity.

Failure to remove the said buildings and appurtenances, or any portion thereof, within said period, will work forfeiture of ownership of such buildings or appurtenances, or portion, as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against any and from all damages and costs to which it, they, or any of them, be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliance used in the removal of the said buildings by the said successful bidder, and the bidder's assent and agreement to the above conditions are understood to be implied by the act of bidding.

Party walls and fences when existing against adjacent property not sold shall not be taken down, but all furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls shall be taken down and removed. The walls shall be made permanently self-supporting without the aid of braces, the beamholes, etc., bricked up and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operation of the contractor.

The Comptroller of The City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings or parts of buildings and machinery included in the foregoing parcel.

SUPREME COURT—FIRST DEPARTMENT.

FIRST DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired, to ANDERSON AVENUE (although not yet named by proper authority), from Jerome avenue to East One Hundred and Sixty-fourth street, in the Twenty-third Ward, Borough of The Bronx, City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our supplemental and amended estimate of assessment for benefit, and that all persons interested in this proceeding, or in any of the lands, tenements and

hereditaments and premises affected thereby, and having objections thereto, do present their said objections, in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 21st day of July, 1906, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 12th day of September, 1906, at 11 o'clock a. m.

Second—That the abstract of our said supplemental and amended estimate of assessment, together with our benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 21st day of July, 1906.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at the point of intersection of the northerly line of Jerome avenue with a line drawn parallel to and distant 100 feet northwesterly from the northwesterly line of Woodycrest avenue; running thence northeasterly along said parallel line to its intersection with a line drawn parallel to and distant 100 feet northeasterly from the northeasterly line of East One Hundred and Sixty-fifth street; thence southeasterly along said last mentioned parallel line to its intersection with a line drawn parallel to and distant 100 feet northwesterly from the northwesterly line of Anderson avenue; thence northeasterly along said last mentioned parallel line to the westerly line of Shakespeare avenue; thence southerly along the westerly line of Shakespeare avenue to its intersection with a line drawn parallel to and distant 100 feet southeasterly from the southeasterly line of Anderson avenue; thence southeasterly along said parallel line to its intersection with a line drawn parallel to and distant 100 feet northeasterly from the northeasterly line of East One Hundred and Sixty-fifth street; thence southeasterly along said last mentioned parallel line to the northwesterly line of Jerome avenue; thence southwesterly along said northwesterly line of Jerome avenue and the northwesterly line of the elevated approach to the bridge to its intersection with a line drawn parallel to and distant 100 feet southerly from the southerly line of that portion of Jerome avenue lying southwesterly of East One Hundred and Sixty-second street; thence westerly along said parallel line to its intersection with a line drawn at a right angle to the northerly line of Jerome avenue from the point of intersection of the said northerly line of Jerome avenue with a line drawn parallel to and distant 100 feet northwesterly from the northwesterly line of Woodycrest avenue; thence northwesterly along said line drawn at a right angle to Jerome avenue to the point or place of beginning, as such streets are shown upon the final maps and profiles of the Twenty-third and Twenty-fourth Wards of The City of New York, excepting from said area all streets, avenues and roads or portions thereof heretofore legally opened, as such area is shown upon our benefit maps deposited as aforesaid.

Fourth—That, provided there be no objections filed to said abstract, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III., to be held in the County Court House, in the Borough of Manhattan, in The City of New York, on the 18th day of October, 1906, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to said abstract of estimate of assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the City Record, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated Borough of Manhattan, New York, May 25, 1906.

In the matter of the application of the Mayor, Aldermen and Commonalty of The City of New York, by the Counsel to the Corporation, relative to acquiring title, wherever the same has not been heretofore acquired, to all the lands, tenements, hereditaments, property rights, terms, easements and privileges not owned by The City of New York, or any rights, titles and interests therein, not extinguishable by public authority, embraced within the lines of the GRAND BOULEVARD AND CONCOURSE AND NINE TRANSVERSE ROADS, from a point on East One Hundred and Sixty-first street, in said city, at the intersection of said street and Mott avenue, northerly to Mosholu Parkway, as laid out and established by the Commissioner of Street Improvement of the Twenty-third and Twenty-fourth Wards of The City of New York, pursuant to the provisions of chapter 130 of the Laws of 1895.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants, of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our last partial and separate report, estimate of assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 21st day of July, 1906, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 25th day of July, 1906, at 3 o'clock p. m.

Second—That the abstracts of our said estimate of assessment, together with our benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 21st day of July, 1906.

Third—That, pursuant to the notice herebefore given when we filed our estimate of assessment,

the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows: viz:

Commencing on the southwest at the intersection of Third avenue and the southeasterly bulkhead line of the Harlem river; thence continuing northwesterly, northerly and northeasterly along said bulkhead line of the Harlem river to the northerly side of the bridge across Spuyten Duyvil Creek; thence northeasterly along Broadway, including 100 feet westerly thereof to the southerly line of West Two Hundred and Fortieth street; thence easterly along the southerly line of West Two Hundred and Fortieth street and of Van Cortlandt Park South, and continuing easterly along the southerly line of Gun Hill road to the westerly side of the Bronx river; thence southerly along the westerly side of the Bronx river to Pelham avenue; thence westerly along Pelham avenue to the Southern Boulevard; thence southerly along the westerly line of the Southern Boulevard to East One Hundred and Eighty-ninth street; thence westerly along the northerly line of East One Hundred and Eighty-ninth street to Prospect avenue; thence southerly along Prospect avenue, including 100 feet easterly thereof to Crotona Park; thence southerly on a straight line in continuation of said Prospect avenue, including 100 feet easterly thereof, through Crotona Park, and connecting with the easterly line of Prospect avenue, including 100 feet easterly thereof on the southerly side of said Crotona Park; thence southerly along the easterly side of Prospect avenue, including 100 feet easterly thereof to the Southern Boulevard at its intersection with the southerly corner of One Hundred and Forty-ninth street; thence southerly along the Southern Boulevard, including 100 feet easterly thereof to St. Ann's avenue; thence southerly along St. Ann's avenue, including 100 feet easterly thereof to the northerly bulkhead line of the Bronx Kills; thence westerly along said northerly bulkhead line of the Bronx Kills, and continuing along the northerly bulkhead line of the Harlem river to Third avenue, the point and place of beginning, excepting from said area all streets, avenues and roads or portions thereof heretofore legally opened, as such area is shown upon our benefit maps deposited as aforesaid.

Fourth—That, provided there be no objections filed to our last partial and separate report, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III., to be held in the County Court House in the Borough of Manhattan, in The City of New York, on the 22d day of November, 1906, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to our last partial and separate report, estimate of assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the CITY RECORD, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

FIRST DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the opening and extending of WEST ONE HUNDRED AND SIXTY-FOURTH STREET (although not yet named by proper authority), from Broadway to Fort Washington avenue, in the Twelfth Ward, Borough of Manhattan, City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved

lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 17th day of July, 1906, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 18th day of July, 1906, at 2 o'clock p. m.

Second—That the abstracts of our said estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 18th day of July, 1906.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Manhattan, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at the point of intersection of the westerly prolongation of a line parallel to and distant 100 feet southerly from the southerly line of West One Hundred and Sixty-third street with a line parallel to and distant 100 feet westerly from the westerly line of Fort Washington avenue, running thence northerly along said last mentioned parallel line to its intersection with a line parallel to and distant 100 feet northerly from the northerly line of West One Hundred and Sixty-fifth street; thence easterly along said line parallel to West One Hundred and Sixty-fifth street to its intersection with a line parallel to and distant 100 feet easterly from the easterly line of Broadway; thence southerly along said line parallel to Broadway to its intersection with a line parallel to and distant 100 feet northerly from the northerly line of West One Hundred and Sixty-fourth street; thence easterly along said line parallel to West One Hundred and Sixty-fourth street and its easterly prolongation to its intersection with a line parallel to and distant 100 feet easterly from the easterly line of Edgecombe avenue; thence southerly along said line parallel to Edgecombe avenue to its intersection with the easterly prolongation of a line parallel to and distant 100 feet southerly from the southerly line of West One Hundred and Sixty-third street; thence westerly along said prolongation and line parallel to West One Hundred and Sixty-fourth street to its intersection with a line parallel to and distant 100 feet easterly from the easterly line of Broadway; thence southerly along said line parallel to Broadway to its intersection with a line parallel to and distant 100 feet southerly from the southerly line of West One Hundred and Sixty-third street and its westerly prolongation to the point or place of beginning, excepting from said area all streets, avenues and roads or portions thereof heretofore legally opened, as such area is shown upon our benefit maps deposited as aforesaid.

Fourth—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III., to be held in the County Court House in the Borough of Manhattan, in The City of New York, on the 11th day of October, 1906, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said abstracts of estimate and assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the CITY RECORD, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

SECOND DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the opening and extending of SECOND STREET (although not yet named by proper authority), between York and Franklin avenues, in the First Ward, Borough of Richmond, City of New York.

WE, THE UNDERSIGNED, COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in the City of New York, on or before the 14th day of July, 1906, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 17th day of July, 1906, at 2 o'clock p. m.

Second—That the abstracts of our said estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said city, there to remain until the 16th day of July, 1906.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Richmond, in the City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point formed by the intersection of the southerly line of the Staten Island Rapid Transit Railroad and a line parallel to and distant one hundred (100) feet west of the westerly line of Franklin avenue; running thence easterly along said southerly line of the Staten Island Rapid Transit Railroad to its intersection with the northerly prolongation of a line parallel to and distant one hundred (100) feet east of the easterly line of York avenue; thence southerly along said northerly prolongation and parallel line to its intersection with the easterly prolongation of a line parallel to and distant one hundred (100) feet south of the southerly line of Third street; thence westerly along said easterly prolongation and parallel line and its westerly prolongation to its intersection with a line parallel to and distant one hundred (100) feet west of the westerly line of Franklin avenue; thence northerly along said last mentioned parallel line to the point or place of beginning, as such streets are shown upon our benefit maps deposited as aforesaid.

Fourth—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof for the hearing of motions, to be held in the County Court-house in the Borough of Brooklyn, in the City of New York, on the 10th day of October, 1906, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said abstracts of estimate and assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the CITY RECORD, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated Borough of Manhattan, New York, May 25, 1906.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money in the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the wrapper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
