The Applicant, Kent Member LLC, is seeking the approval of four discretionary actions including zoning map amendment, special permit related to waterfront zoning regulations, special permit related to parking, and waterfront zoning authorization. The proposed development, located, at 500 Kent Avenue (Block 2023, Lot 10, the "Project Site") in the South Williamsburg neighborhood of Brooklyn Community District 2, would be a new 23-story, approximately 757,431-gross-square-foot (gsf) commercial building, comprised of: 593,435 gross square feet (gsf) of office space, 20,476 gsf of retail, and 143,520 gsf of below-grade parking space. The development would provide 37,233 sf of publicly-accessible waterfront open space along Wallabout Channel. It would be 350 feet tall (roof height) with mechanical bulkheads reaching a maximum height of approximately 365 feet.

Specifically, the Proposed Actions include:

- **Zoning map amendment** to rezone the 2.65-acre Project Site from M3-1 to M1-5;

- **Public parking garage special permit**, pursuant to ZR 74-512 to allow a public parking garage;

The project also requires one non-discretionary ministerial action by the City Planning Commission: a waterfront zoning certification, pursuant to ZR 62-81 to demonstrate compliance with other applicable waterfront zoning regulations not modified pursuant, to the authorization.

The Analysis Year for the Proposed Actions is 2024.

## PROCUREMENT

*“Compete To Win” More Contracts!*

*Thanks to a new City initiative - “Compete To Win” - the NYC Department of Small Business Services offers a new set of FREE services to help create more opportunities for minority and Women-Owned Businesses to compete, connect and grow their business with the City. With NYC Construction Loan, Technical Assistance, NYC Construction Mentorship, Bond Readiness, and NYC Teaming services, the City will be able to help even more small businesses than before.*

● **Win More Contracts, at [nyc.gov/competetowin](http://nyc.gov/competetowin)**

*“The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed, to the City’s prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence.”*

**HHS ACCELERATOR**

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York (“PPB Rules”), vendors must first complete and submit an electronic prequalification application using the City’s Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed, at <http://www.nyc.gov/html/hhsaccelerator/html/roadmap/roadmap.shtml>. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

**Participating NYC Agencies**

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

- Administration for Children’s Services (ACS)
- Department for the Aging (DFTA)
- Department of Consumer Affairs (DCA)
- Department of Corrections (DOC)
- Department of Health and Mental Hygiene (DOHMH)

**NYCHA 2.0 PERMANENT AFFORDABILITY COMMITMENT TOGETHER (PACT) REQUEST: REQUEST FOR QUALIFICATION** - Request for Qualifications - Due 3-25-21 at 2:00 P.M.

In December 2018, the Mayor's Office and the New York City Housing Authority (NYCHA) released NYCHA 2.0, a comprehensive plan to preserve the City's public housing. This 10-year plan will bring \$24 billion in vital repairs to New York City's aging public housing and ensure residents have the safe, decent, and affordable homes they deserve. An important strategy outlined in the NYCHA 2.0 plan is to leverage programs of the U.S. Department of Housing and Urban Development (HUD), to preserve existing public housing stock via NYCHA's preservation initiative called "PACT" – Permanent Affordability Commitment Together. As such, NYCHA is seeking applications outlining the qualifications of applicants' ability to finance, rehabilitate, facilitate property management, and provide social services delivery to support the conversion of developments from the public housing program under Section 9 of the U.S. Housing Act of 1937, as amended, to a voucher platform under Section 8 of the Act, pursuant to RAD and the Section 18 and Part 200 disposition process.

This Request for Qualifications (RFQ) enables NYCHA, to continue to streamline the PACT procurement process by creating a Pre-Qualified

list of potential partners for forthcoming PACT conversions. Developers, property managers, general contractors, and social service providers are welcomed and encouraged to apply as stand-alone entities. Developer, general contractor, property manager, and social service provider applicants must submit qualifying materials by March 25, 2021. Developer, general contractors, property manager, and social service provider applicants will be notified on April 8, 2021 if they meet the required thresholds to qualify for NYCHA's Pre-Qualified list of partners. The list of developer, general contractor, property manager, and social service provider Pre-Qualified partners will be made available, to the public on April 9, 2021. To remain prequalified, existing PACT partners must submit a revised questionnaire to NYCHA as detailed within the RFQ.

The Pre-Submission Conference will be held virtually March 2, 2021, at 12:00 P.M. To RVSP for the Pre-Submission Conference, please email [pact.partners@nycha.nyc.gov](mailto:pact.partners@nycha.nyc.gov), with the subject header, Pre-Submission Conference RSVP. In the email, please state your name, company, phone number, email address and number of, attendees.

NYCHA additionally recommends that Proposers submit, via email, written questions to NYCHA's Coordinator, at [rfp.procurement@nycha.nyc.gov](mailto:rfp.procurement@nycha.nyc.gov), by no later than 2:00 P.M. on March 5, 2021. Questions submitted in writing must include the firm name and the name, title, address, telephone number and email address of the individual to whom responses, to the Proposer's questions should be given. Proposers will be permitted to ask additional questions, at the Pre-Submission Conference. All questions and answers will be provided to all firms that received a copy of this RFP.

In order to be considered Proposers MUST electronically upload a single .pdf containing all components of the Proposal, which may not exceed 4G, into iSupplier. Instructions for registering for iSupplier can be found, at: <http://www1.nyc.gov/site/nycha/business/isupplier-vendor-registration.page>. After Proposer registers for iSupplier, it typically takes 24 to 72 hours for Proposer's iSupplier profile to be approved. It is Proposer's sole responsibility to leave ample time to complete iSupplier registration and submit its Proposal through iSupplier before the Proposal Submission Deadline.

NYCHA is not responsible for delays caused by technical difficulty or caused by any other occurrence. NYCHA will not accept Proposals via email or facsimile. The submission of, attachments containing embedded documents or proprietary file extensions is prohibited. Each new applicant shall submit a full electric copy of your proposal through the iSupplier system in Adobe PDF format. ACS is releasing this Concept Paper to inform New York City service providers, community-based organizations and the general public about an RFP that ACS expects to release in the summer of 2021. Readers can assess and comment on the requirements listed in this Concept Paper. ACS will consider this feedback in developing the final program structure and RFP.

Through the RFP, ACS will seek appropriately qualified vendors to establish a medical and dental services program responsive, to the needs of alleged juvenile delinquents, alleged juvenile offenders, and alleged adolescent offenders whose cases are pending before the Family, Criminal or Supreme Courts of the City and State of New York; post-adjudicated juveniles awaiting transfer to state facilities or serving out their sentence in ACS facilities; and other youth lawfully under the supervision of ACS. ACS will consider organizations that meet the highest standards of medical care for children and adolescents and are skilled and experienced in pediatric/adolescent medicine to support the evolving health needs of New York City youth. Services must be culturally and linguistically appropriate to patients in cross-cultural communities, gender-responsive and LGBTQ-affirming.

To submit feedback on this Concept Paper, please submit your comments through the PASSPort system either by submitting a response in the Manage Responses tab or submitting a comment/question in the Discussion Forum.

**Name, Description and Location of Proposal:**

500 Kent Avenue

The Applicant, Kent Member LLC (the "Applicant") is seeking the approval of four discretionary actions including zoning map amendment, special permit related to waterfront zoning regulations, special permit related to parking, and waterfront zoning authorization. The proposed development, located, at 500 Kent Avenue (Block 2023, Lot 10, the "Project Site") in the South Williamsburg neighborhood of Brooklyn Community District 2, would be a new 23-story, approximately 757,431-gross-square-foot (gsf) commercial building, comprised of: 593,435 gross square feet (gsf) of office space, 20,476 gsf of retail, and 143,520 gsf of below-grade parking space. The development would provide 37,233 sf of publicly-accessible waterfront open space along Wallabout Channel. It would be 350 feet tall (roof height) with mechanical bulkheads reaching a maximum height of approximately 365 feet.

Specifically, the Proposed Actions include:

- A zoning map amendment (Zoning Sectional Map 12d) approval by the CPC to change the zoning in the Proposed Rezoning Area from the existing M3-1 heavy manufacturing zoning district to an M1-5 light manufacturing zoning district;
- A Special Permit approval by the CPC, pursuant to Zoning Resolution (ZR) 62-837 to modify various waterfront bulk requirements contained in sub-sections of ZR 62-341, including: (i) initial setback distance, (ii) maximum base height, (iii) maximum building height, (iv) maximum width of wall facing shoreline, and (v) permitted obstruction lot coverage requirement for penthouses;
- A Special Permit, pursuant to ZR 74-512 to allow a below-grade public parking garage so that the site can fully accommodate the project-generated peak parking demand;
- A Waterfront Zoning Authorization, pursuant to ZR 62-822(b) to allow modification of ZR 62-62 (c)(1) planting area requirements.

The project is also seeking a non-discretionary Waterfront Zoning Certification by the CPC, pursuant to ZR 62-81 to demonstrate compliance with other applicable visual corridor and waterfront public access regulations. All of these approvals would only apply, to the Project Site.

Absent the Proposed Actions, the Project Site would expect to be developed on an as-of-right basis under the existing M3-1 zoning district. The No-action development would have an FAR of 2.00 (1.5 FAR of warehouse use and 0.5 FAR of office space) and be 74 feet tall (roof height) with four stories. The Project Site would be occupied by approximately 312,599 gsf, including 58,000 gsf of office space, 181,401 gsf of warehouse space, and 73,198 gsf of accessory parking. In terms of zoning floor area, it would have 57,622 zsf of office space and 172,866 zsf of warehouse space. As the No-Action development would be predominantly Use Group 16d warehouse, the Project Site will be exempt from waterfront public access area and visual corridor requirements and therefore no on-site public open space would be provided. The Project Site would provide 279 accessory parking spaces on the first and mezzanine floors, meeting the minimum requirement that the site provide 1 space per 300 zsf of office space and 1 space per 2,000 zsf of warehouse space.

The Proposed Actions would result in an incremental increase of 535,435 gsf of office space, 20,476 gsf of retail space, and 196 off-street public parking spaces, as well as a net reduction of approximately 181,401 gsf of warehouse space and 279 off-street accessory parking spaces (a net decrease of 83 parking spaces and a switch from accessory to public parking). There would be a net increase of approximately 37,233 sf of waterfront public open space. The With-Action Scenario building would be approximately 276 feet taller than the No-Action Scenario building. The incremental change in workers that would result from the Proposed Actions is the net addition of 2,022 workers.

The Analysis Year for the Proposed Actions is 2024.

**Statement of Significant Effect:**

On behalf of the CPC, the Environmental Assessment and Review Division has determined, pursuant to 6 NYCRR Part 617.7, that the proposed actions may have a significant effect on the quality of the environment as detailed in the following environmental impacts, and that an environmental impact statement will be required: land use, zoning and public policy; socioeconomic conditions; open space; shadows; historic and cultural resources; urban design and visual resources; natural resources; hazardous materials; water and sewer infrastructure; transportation; air quality; greenhouse gas emissions; noise; public health; neighborhood character; and construction.

The proposed actions would not have significant adverse impacts related to community facilities; solid waste and sanitation services; and energy.

**Supporting Statement:**

The above determination is based on an Environmental Assessment Statement prepared for the action which finds that:

1. Land Use, Zoning and Public Policy – The proposed actions would result in new land uses and a change in zoning. The Project Site is within the Coastal Zone boundary and will require a consistency assessment with the NYC Waterfront Revitalization Program (WRP).
2. Socioeconomic Conditions – The Proposed Actions would introduce more than 200,000 square feet (sf) of new commercial uses, to the Project Site, and could result in indirect business and institutional displacement.
3. Community Facilities – The proposed action would not introduce new residential dwelling units would not increase demand, at public schools, publicly funded child care facilities, libraries, or police and fire services or health care facilities.
4. Open Space – The proposed actions would introduce new worker populations that could increase demand for use of publicly accessible spaces.
5. Shadows – The proposed action would introduce a building of a maximum height of 350 feet in the vicinity of nearby sunlight sensitive resources, including the East River.
6. Historic and Cultural Resources – The proposed action could result in new construction within close proximity to known architectural and archaeological resources.
7. Urban Design and Visual Resources – The proposed action could result in physical changes, to the Project Site beyond the bulk and form currently permitted as-of-right. These proposed changes could affect a pedestrian's experience of public space.
8. Natural Resources – The proposed actions would result in construction on a site adjacent to a natural resource.
9. Hazardous Materials – The proposed action could result in new construction and in-ground disturbance within the affected area, which has a documented history of hazardous materials conditions.
10. Water and Sewer Infrastructure – The proposed action would result in an incremental increase of 150,000 square feet of commercial space in a combined sewer area in Brooklyn.
11. Solid Waste and Sanitation Services – The proposed actions would not have the potential to generate 50 tons or more of solid waste per week and would not involve a reduction of capacity, at a solid waste management facility.
12. Energy – The proposed Actions would not affect the transmission or generation of energy. Although significant adverse energy impacts are not anticipated for the Proposed Actions, the EIS will disclose the projected amount of energy consumption during long-term operation resulting from the RWCDs.
13. Transportation – The proposed action would generate vehicular traffic and increase demand for parking, pedestrian traffic and subway and bus riders.
14. Air Quality – The Proposed Actions would have the potential to create new mobile and stationary sources of pollutants and introduce new emissions stacks so that changes in the dispersion of emissions from the stacks may affect surrounding uses.
15. Greenhouse Gas Emissions – The proposed actions could generate greenhouse gas emissions.
16. Noise – The Proposed Actions would introduce new noise-sensitive receptors in an area with existing high ambient noise levels.
17. Public Health – The proposed action could result in effects related to air quality, hazardous materials or noise, and consequently public health may be affected.
18. Neighborhood Character – The proposed action could affect socioeconomic conditions, urban design and visual resources, historic and cultural resources, transportation and noise; consequently, the affected area's neighborhood character may be affected.
19. Construction – Potential significant adverse impacts related to architectural resources and transportation, air quality, noise, hazardous materials and natural resources could also result in construction impacts.

**Public Scoping:**

BBP is in the process of constructing an eighty-five (85) acre waterfront park in Brooklyn, NY, which involves rehabilitation work to all marine infrastructure. The Pier 1 Rehabilitation Project, is intended to maintain the integrity of the waterfront in this area of the park. This project includes the replacement of an existing cathodic protection system, located on the bulkhead of Pier 1 along the East River.

It is important to note that this work outlined in this RFP, will be taking place in completed sections of the park that are open and populated by the public. Convenience and safety of the public is a priority for BBP. The construction documents do not include laydown options. It is up to the contractor to develop laydown options to be approved by BBP before work commences. The option to do this work by barge is available to the Contractor.

Installation of a cathodic protection system by galvanic anodes on the steel sheet pile bulkhead surrounding Pier 1. The base scope requires GC to perform majority of the work from waterside with landside access from daily crew use only. Minimal landside staging only with BBP approval is permitted. The work is to be carried out in accordance with the contract documents and specifications supplied by Jacobs.
