FILLING-IN PRIVILEGE.

DEPARTMENT OF DOCKS AND FERRIES, FOOT OF BATTERY PLACE, BOROUGH OF MANHATTAN, THE CITY OF NEW YORK.

SEALED BIDS OR ESTIMATES WILL BE received by the Commissioner of Docks at Pier "A," foot of Battery place, in The City of New York, until 12 o'clock noon on

TUESDAY, SEPTEMBER 12, 1905.

FOR THE RIGHT TO DUMP AND FILL IN BEHIND THE BULKHEAD WALL RECENTLY BUILT AT THE CEDAR STREET SECTION, ON THE NORTH RIVER, BOROUGH OF MANHATTAN.

TERMS AND CONDITIONS OF SALE.

The work to be done is to fill in with suitable material, as hereinafter described, the area behind the new bulkhead wall extending from the north side of the retaining crib at the south end of said section or a line about 40 feet south of the south side of Albany street, northerly a distance

of about 320 feet to the north end of said section or a line about 20 feet north of the north side of Cedar street.

The filling shall also extend from the rear of the bulkhead wall or coping easterly a distance of about from 135 to 175 feet to the old crib bulkhead or existing line of solid filling.

The filling will be brought to a grade level with the top of the coping of the bulkhead wall and will extend inshore on a regular grade to the top of the ground at the adjacent or inshore bank, or to the top of the old crib bulkhead.

It is estimated that the area outlining the above-described limits will create a basin to be filled in, under this agreement, whose cubical contents in net void space is equal to 24,000 cubic yards.

Bidders will state in writing a lump sum price, which they agree to pay for the privilege of filling in the basin behind or in the rear of the Cedar street section within limits above described.

In the estimated amount given, the amount in cubic yards is arrived at without placing any allowance for shrinkage, settlement, swelling of the material or penetration into the mud.

The Department is not bound in any way by such estimate, and bidders must satisfy themselves of the actual quantity required to fill in the above-described area by examination of the premises or such other means as they may prefer, the intention of the Department being to fill in the whole of the said premises behind the bulkhead wall within the above-described limits, and no allowance will be made to the purchaser from the purchase price on account of any discrepancy which may be found between the above-estimated quantity and the actual amount of filling required. The purchaser will be required to place the filling in accordance with the following specifications:

All the filling shall, unless otherwise directed, be placed directly in the rear of the bulkhead wall and carried from the bulkhead wall toward the shore until the bank of same has been carried out at the finished grade for a distance of about 40 feet from the face of the bulkhead wall, at which time, if so directed by the Engineer, the filling shall be started at the bank and carried outshore toward the bulkhead wall.

All material must be dumped and filled in only in such manner, at such points and in such order of procedure and at such times and seasons as may, from time to time, be directed, and the work of filling in may be entirely suspended for such periods of time as may be directed by the Engineer. The purchaser shall have no claim for damage or for any allowance from the purchase money on account of such suspension of the work.

All directions shall be given by the Engineer, and wherever the word "Engineer" is used in these specifications it refers to and designates the Engineer-in-Chief of the Department of Docks and Ferries, or such officer or employee as may be designated by him.

Rip-rap stone coming directly on or against the bulkhead wall must be deposited carefully in such manner as will not injure the same.

All the filling, except as otherwise specified herein, shall be of ashes, cellar dirt, broken stone, etc., entirely free from garbage or any organic matter objectionable in the opinion of the Engineer.

At any section of the bulkhead wall the filling shall be brought up level with the under side of the backing log of the bulkhead wall at such section, and no higher, unless otherwise directed.

The filling shall be commenced within five days after the date of the receipt of a notification from the Engineer that the work, or any part of it, is ready to be begun, after which not less than 300 cubic yards per day shall be placed, and the whole amount of the filling called for to bring the above-described basin up to grade shall be completed within eighty days from the date of receipt of said notification. At the expiration of this time this agreement shall be considered closed unless a further extension of time shall be given by the Commissioner of Docks. If at any time during the progress of the work it shall be deemed necessary to order the suspension of the whole or any part of the filling, the time for completing said filling shall be extended as much as it may have been delayed by such suspension.

In case the purchaser at any time does not proceed with the work of filling in to the satisfaction of the Commissioner of Docks, the said Commissioner will at once terminate the privilege of filling in and proceed to have the remainder of the filling in done by other parties in such way and manner as he deems proper, and any loss which may result therefrom shall be charged against the principal and his surety.

The purchaser shall, during the work of filling in, and at all times until the completion thereof, take all necessary precautions and place proper guards for the prevention of accidents, and put up and maintain at night sufficient lights, and he shall indemnify and save harmless The City of New York from all damages and costs to which it may be put by reason of injury to the person or property of another resulting from negligence or carelessness in the performance of the work or guarding the same, to which the surety is also bound.

No bid or estimate will be considered unless accompanied by a certified check drawn to the order of the Commissioner of Docks, or money to the amount of twenty-five per centum of the amount of the bid, which amount shall be applied in the case of the successful bidder to the first one-quarter of the amount of the filling to be deposited; twenty-five per centum to be paid when the first one-quarter of filling has been completed; twenty-five per centum additional when one-half the filling has been completed, and the balance, twenty-five per centum, when three-quarters of said filling has been completed.

A surety or guarantee company, duly authorized by law to act as surety, to be approved by the Commissioner of Docks, will be required to enter into a bond or obligation jointly and severally with the purchaser in the sum of double the amount of the purchase price as security for the satisfactory performance of said work, in accordance with the terms and conditions hereof.

Commissioner of Docks.

PUBLIC NOTICE IS HEREBY GIVEN that at a meeting of the Board of Estimate and Apportionment held July 21, 1905, the following petition was received:

To the Honorable the Board of Estimate and Apportionment of The City of New York:

The Star Telephone Company, a domestic corporation, respectfully petitions your Honorable Board, and applies for the right, privilege and franchise to lay, erect, construct and maintain suitable wires or other conductors, with the necessary poles, fixtures and appliances in, over, across and under the streets, avenues, highways, parks and public places within the limits of The City of New York, for the purpose of conducting and distributing electricity and the operating of telephone and telegraph lines and business within the said City, subject to the following terms and conditions, namely:

First—The right, privilege and franchise herein applied for shall continue for a term of twenty-five years, with the right of a renewal thereof to the grantee for a further period of twenty-five years, upon a fair revaluation to be made by three disinterested appraisers to be appointed, one by the Board of Estimate and Apportionment or its successors in authority, whereof notice shall be given said company, and one by the Star Telephone Company, both at least six months prior to the expiration of said grant, and the third by said first two, to be chosen within thirty days after the appointment of the last one of the two so chosen. Each appointment shall be filed with the Comptroller of The City of New York, and the report of the appraisers shall also be filed with the Comptroller or his successor in authority within three months after the appointment of the last appraiser. In case of the failure of the grantee to name an appraiser, the appraiser named by the Board of Estimate and Apportionment may act alone. In case of delay in the appraisal from any other cause, the valuation shall be merely postponed and the operation of the grant continue meanwhile. The appraisers may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigation without the presence of either party. They shall have the right to examine the books of the Star Telephone Company. The valuation so ascertained, fixed and determined shall be conclusive upon both parties.

Upon the termination of the franchise or right the plant as well as the property of the grantee in streets, avenues, parks and highways with its appurtenances shall become the property of the City without further compensation except for the plant, for which The City of New York shall pay a fair valuation, to be estimated as aforesaid.

Second—The Star Telephone Company shall not make a charge for telephone service within the Borough of Manhattan in excess of the following rates, namely:

(a) Five (5) cents per call where there is no guarantee by the subscriber to pay a fixed sum per annum.

(b) Sixty dollars (\$60) per annum for unlimited service where the telephone instrument is located in a private residence.

(c) One hundred dollars (\$100) per annum for unlimited service where the telephone instrument is located in a place of business.

Third—Payment for said franchise shall be made to The City of New York by the Star Telephone Company in manner following:

The Star Telephone Company shall furnish and install in the various municipal offices for the free use of the City employees, telephones to a number not to exceed six hundred (600). It shall pay to The City of New York each year, upon such date or dates as the City may require, a sum equal to five per centum (5%) upon the gross sum received by the said telephone company during said year from the operation of its telephone and telegraph business within the City, and its books shall at all times be open to inspection by the officials of the City to verify the said sum.

Fourth—Said Star Telephone Company shall proceed with due speed and diligence in the construction of its wires, conductors, poles, fixtures and appliances in, on, over, across and under the streets, avenues, public parks and places within the territory above described, and shall maintain its property in good condition throughout the full term of the grant, and shall maintain and operate the business under the provisions and control and in accordance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and of all the authorities of The City of New York who have jurisdiction in such matters under the present or

future Charter of the said City, and shall in all respects comply with and observe the provisions of such Charter and the laws of the State.

Fifth—In case of any violation or breach or failure to comply with any of the provisions herein contained, the grant may be forfeited and avoided by The City of New York by a suit or action brought for that purpose.

Sixth—The said grant shall not be assignable without the consent of The City of New York.

Seventh—The Star Telephone Company hereby promises, covenants and agrees on its part and behalf to conform to and abide and perform all the terms and conditions and requirements herein set forth, fixed and contained, and further agrees in advance to such variations and amendments thereto as may be required by the Board of Estimate and Apportionment not substantially inconsistent with the terms of this application.

CITY OF NEW YORK, BOARD OF ESTIMATE AND APPOINTMENT.

PUBLIC NOTICE IS HEREBY GIVEN that at a meeting of the Board of Estimate and Apportionment held June 30, 1905, the following petition was received:

In the Matter of The petition of the United District Messenger Company.

To the Honorable the Board of Estimate and Apportionment of The City of New York:

The petition of the United District Messenger Company of New York City respectfully shows and avers upon information and belief:

First—That your petitioner is a domestic corporation, duly incorporated, organized and existing under the "The Business Corporations Law" (chapter 567 of the Laws of 1890, and amendments thereto), of the State of New York, and is engaged in the business of furnishing messengers to its subscribers and the public in the Borough of Manhattan, City of New York.

Second—Your petitioner desires to obtain from The City of New York a franchise, permit or consent, and hereby respectfully applies for same, to lay tubes, wires, conductors and insulators and to use the streets, avenues, walls, piers, public places and parks therein, or adjacent thereto, for the purpose of conveying, using and supplying electricity or electric current for the purpose of transmitting, communicating and carrying messages, news and information according to such plans as may be directed, approved or allowed by and subject to the powers of the Commissioner of Water Supply, Gas and Electricity, and subject to and under the supervision of the Commissioner of Public Works and of the Department of Public Parks, within their respective territorial jurisdictions, and subject also to all existing ordinances and statutes applicable thereto and to all reasonable regulations of the said franchise permit or consent.

Third—That the demands of the public for messenger service are greatly in excess of the present means of supplying the same, and that your petitioner, if granted the said franchise, will be in a position to greatly augment and increase the service it is now rendering to the public and its subscribers.

Fourth—That, by reason of agreements and understandings lately had between the principal telegraph and messenger companies and others similarly engaged and doing business in the Borough of Manhattan, City of New York, and notwithstanding the great improvement in transit facilities in the past five years in the said borough, the said companies are now charging rates greatly in excess of rates charged prior to January 1, 1905, and your petitioner expects to render a better service at a lower and substantial reduction in cost and charge for such service, and is in fact now rendering such service to the extent its present facilities will permit. And if the franchise hereby applied for is granted to your petitioner it will be in a position to further extend and improve its plant and be in a position to further improve and extend its service and reduce the charge or cost of same to the public and its subscribers.

Fifth—That the length of time for which the said franchise, permit or consent is required is twenty-five years from date of granting same.

Sixth—That your petitioner for any franchise, permit or consent to open streets, pavements or sidewalks for the purpose of laying tubes, wires, conductors and insulators for the purposes aforesaid will pay to The City of New York a sum equal to 1 cent per linear foot for the space occupied under such franchise, permit or consent.

Wherefore, your petitioner prays that the assent of your Honorable Board of the Corporation of The City of New York be granted to it for the purposes set forth in paragraph "Second" herein in accordance with all laws applicable thereto, and that the desired franchise, permit or consent be embodied in the form of a contract, with all of the terms and conditions as to compensation and otherwise in accordance with the provisions of the Greater New York Charter.

Dated NEW YORK, June 28, 1905.

By M. W. KAYNES, President and General Manager.

State of New York, County of New York, ss.:
Michael W. Rayens, being duly sworn, says that he is the president and general manager of the United District Messenger Company, the petitioner herein; that the foregoing petition is true of his own knowledge; except as to the matters therein stated to be alleged on information and belief, and as to those matters he believes it to be true.

That the reason why this verification is made by deponent and not by the petitioner is because the petitioner is a domestic corporation of the State of New York and deponent is president of said corporation.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
