BOARD OF ALDERMEN.

ORDINANCE IN RELATION TO NON-RESIDENT EMPLOYEES.

AN ORDINANCE to prevent non-residents of the State of New York from holding employment in any of the departments or branches of the government of The City of New York.

Be It Ordained, By the Board of Aldermen of The City of New York, as follows:

Section 1. No person not a citizen and an actual resident and dweller in good faith in the State of New York shall be eligible to appointment or employment in any of the departments, boards, bureaus or branches of the government of The City of New York.

Sec. 2. Any person who now is, or who shall become after such appointment or employment, a citizen, resident or dweller outside the State of New York, shall thereby forfeit and shall be removed from his said appointment or employment.

Sec. 3. The provisions of this ordinance shall not apply to appointments or employments for services or work to be performed for The City of New York outside the State of New York; nor to a temporary appointment or employment for a specified service or work where peculiar or exceptional qualifications of a scientific, professional or educational character are necessary. Prior to such temporary appointment or employment evidence in writing shall be furnished that the services or work to be performed cannot be well done by any citizen and actual resident of the State of New York who can be discovered, and that the non-resident person proposed to be appointed or employed is generally recognized as one possessing such exceptional qualifications in a high degree. No appointment or employment under this section shall be valid unless the consent of the Mayor shall be first obtained; and he may require the Civil Service Commission to pass upon the matter, and certify whether such appointment or employment be necessary, and whether the non-resident person proposed therefor be competent, and also necessary for lack of a citizen and actual resident of the State of New York who is competent.

Sec. 4. This ordinance shall take effect October 1, 1913.

Adopted by the Board of Aldermen April 29, 1913.

Received from his Honor the Mayor May 13, 1913, without his approval or disapproval thereof; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it.

PETITIONS AND COMMUNICATIONS.

No. 3618.

Citizens Union of The City of New York, 41 Park Row (Old Times Building), May 19, 1913.

Dear Sir—Existing City ordinances do not properly safeguard the public welfare as it is affected by the moving picture theatres in the City.

A new ordinance on this subject is, we believe, imperatively demanded by all who are familiar with existing conditions. It is the duty of the Board of Aldermen to pass such an ordinance.

We believe that the ordinances now before your Board known as Nos. 3226, 3227 and 3228, introduced by Alderman Folks, will meet the present demands for regulations.

Their adoption by your Board will add greatly to the accomplishments of the present Board of Aldermen, which has to its credit the enactment of a speed ordinance and a market ordinance and the conduct of an instructive investigation of the Police Department.

No. 3619.

The City Club of New York, 55 West 44th St., May 17, 1913.

To the Board of Aldermen of The City of New York:

Gentlemen—We have many times called your attention to the necessity of passing an adequate moving picture ordinance and of abolishing private hack stands and further regulating taxicab traffic.

You deserve credit for the speed ordinance which was recently enacted, but this just credit will not long be allowed you in the public mind if there is further delay in the treatment of the two matters already referred to.

As we have before pointed out, and let us again say as emphatically as possible that, any further attempt to insist upon a moral censorship of moving picture productions as a price for the passage of an ordinance physically safeguarding moving picture theatres can neither be justified nor tolerated. The attempt longer to do so will raise in the public mind serious questions of good faith.

Proposals for the better regulation of the taxicab traffic have been before you for a long time. We urge your earnest consideration of the justice and desirability of the recommendations of the minority of the special committee on this subject.

The Board has an opportunity this Tuesday to allay the uneasiness and dissatisfaction which its long continued failure to act on these two subjects has created.

Respectfully,

THE CITY CLUB OF NEW-YORK.

Hon. JOHN P. MITCHEL, 49 Chambers st., New York City:

Dear Sir—With reference to the ordinance which has been introduced in the Board of Aldermen by Ralph Folks, limiting parades on 5th ave. below 59th st., between 9 a. m. and 6.30 p. m. to those that are patriotic or governmental in character, and those that occur on legal holidays, we would ask you to kindly support this ordinance by your vote.

We ask this, as parades which are held promiscuously along the avenue hurt business, and we sincerely trust that we will have your support in helping to pass this ordinance. Yours very truly,

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, City Hall, New York City:

Dear Sir—I beg to notify you that the County Committee of the National Progressive Party in and for the County of The Bronx has recognized the "Bronx County Progressive and Bronx Local" as the newspaper representing our party in Bronx County. On behalf of the County Committee I therefore request the Board of Aldermen to designate that paper as one of the ones in which shall be published the session laws and concurrent resolutions of the Legislature of the State of New York, for the year 1913. The National Progressive Party in the County of the Bronx received the second largest vote of any party, and under section 20 of the County Law, the session laws must be published by a Progressive paper.

Very respectfully yours, AUGUST F. SCHWARZLER, Chairman of the County Committee of the National Progressive Party of the County of the Bronx.

Law Office of Wm. Duncan Cameron, 154 Nassau st., New York City, May 8, 1913. Secretary to the President, Board of Aldermen, No. 51 Chambers st., City:

Dear Sir—The other day I served upon you a copy of my petition on behalf of the Bronx Local in the matter of the application of the Bronx County News Publishing Co. for a writ of mandamus. Annexed to my petition was a copy of a letter. The letter which I annexed was inserted by mistake, and I take this opportunity of enclosing the letter which should have been annexed to the papers I served upon you.

Very truly yours,

WM. DUNCAN CAMERON (J. V. F.).

Supreme Court, Bronx County.

In the matter of the application for a Peremptory Writ of Mandamus of Bronx County News Publishing Company, relator, against the Board of Aldermen of The City of New York, respondent.

To the Supreme Court of the State of New York:

The petition of the Local Life Publishing Company respectfully shows:

That your petitioner is and at all time hereinafter mentioned was a domestic corporation, with a principal office and place of business in the County of The Bronx, City and State of New York, engaged in the printing and publishing of a newspaper known as and called the "Bronx County Progressive and Bronx Local," that said newspaper formerly was known as the "Bronx Local," and during the year 1912 advocated, supported and upheld the principals of the National Progressive Party, and urged its readers to vote for and elect the candidates running on the ticket of the National Progressive Party at the last general election, held November 5, 1912; that at the general election held on the 5th day of November, 1912, said National Progressive Party polled in the County of The Bronx the second highest number of votes polled by any party; that The Bronx County Committee of the National Progressive Party has designated the aforesaid paper as the publication to receive the printing of the session laws and concurrent resolutions of the Legislature for the year 1913, as provided in section 20 of the County Law, and that said Bronx County Committee, acting through its chairman, August F. Schwarzler, Esq., has so informed the Board of Aldermen, as more fully appears by a letter sent by said August F. Schwarzler to the President of the Board of Aldermen, a copy of which is hereto annexed marked Exhibit A, and made a part of this petition; that the Board of Aldermen of The City of New York has failed, neglected and refused, and still fails, neglects and refuses, to comply with the demand contained in said letter; that your petitioner is informed and verily believes that the National Progressive Party has not designated any other publication in the County of The Bronx as the one to receive the publication of the aforementioned session laws and concurrent resolutions; that no previous application for the relief herein sought to be obtained has been made.

Wherefore your petitioner prays that the Board of Aldermen be directed to designate the "Bronx County Progressive and Bronx Local" as one of the publications in which shall be printed the concurrent resolutions of the Legislature and the session laws for the year 1913.

Millard J. Bloomer, being duly sworn, deposes and says that he is the secretary of the Local Life Publishing Company, a domestic corporation, and the managing editor of the "Bronx County Progressive and Bronx Local," that he has read the foregoing petition, and knows the contents thereof; that the statements therein contained are true to his own knowledge, except as to the matters therein stated to be alleged on information and belief, and that as to those matters, he believes it to be true. The reason this petition is not verified by the petitioner is that the said petitioner is a domestic corporation, and your deponent is the secretary thereof, and that your deponent's knowledge and information is gained by an examination of the books and records of the above mentioned corporation.

Honorable President, Board of Aldermen, City Hall, New York:

Dear Sir—Coney Island avenue is now an entirely different street from what it was prior to its being paved and parked, and I would therefore like to have you recommend that its name be changed to Brighton avenue. It runs directly to Brighton instead of Coney Island proper. Such a change will be consistent with present conditions, and will help to remove the prejudice that now exists in the public mind against the street because of its past—its very unwholesome past.

Trusting this change will receive your approval and support, I remain, yours, etc.,

On motion of Alderman Esterbrook the Clerk was directed to obtain an opinion from the Corporation Counsel with respect to the right of this Board to authorize special revenue bonds in any calendar year in excess of two million dollars, under the provisions of subdivision 8 of section 188 of the Charter, and further as to the right of the Board when making such authorizations to limit the period in which the money may be expended.

The Vice-Chairman laid before the Board the following communications from the Board of Estimate and Apportionment:

No. 3627.

Board of Estimate and Apportionment, City of New York, Office of the Secretary, 277 Broadway, May 13, 1913.

To the Honorable the Board of Aldermen:

Gentlemen—I transmit herewith certified copies of two resolutions adopted by the Board of Estimate and Apportionment May 8, 1913, relative to issues of corporate stock, as follows:

Calendar No. 40. Authorizing issue of \$7,000 corporate stock for work done on foundation for National Maine Monument at the entrance to Central Park at 59th st. and 8th ave., under the jurisdiction of the Department of Parks, Boroughs of Manhattan and Richmond.

Calendar No. 62. Further amending resolution adopted June 3, 1910, relative to the issue of \$25,000 corporate stock for construction of plant houses in the Botanic Garden and Aboretum of the Brooklyn Institute of Arts and Sciences, under the jurisdiction of the Department of Parks, Borough of Brooklyn, by including therein architect's fees.

I also transmit herewith copy of report of the Corporate Stock Budget Committee and communication from the Chairman of the National Maine Monument Committee, relative thereto. Yours very truly,

JOSEPH HAAG, Secretary.

AN ORDINANCE Providing for an Issue of Corporate Stock of The City of New York in the Sum of Seven Thousand Dollars (\$7,000) for Work Done on the Foundation for the National Maine Monument at the Entrance to Central Park, at 59th St. and 8th Ave., Under the Jurisdiction of the Department of Parks, Boroughs of Manhattan and Richmond.

Be It Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment May 8, 1913, and authorizes the Comptroller to issue corporate stock of The City of New York to the amount and for the purposes therein specified:

Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment hereby approves of the issue of corporate stock of The City of New York to an amount not exceeding seven thousand dollars (\$7,000), for work done on the foundation for the National Maine Monument at the entrance to Central Park at 59th st. and 8th ave., under the jurisdiction of the Department of Parks, Boroughs of Manhattan and Richmond, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller be and is hereby authorized to issue said corporate stock of The City of New York in the manner provided by section 169 of the Greater New York Charter, the proceeds thereof to the amount of the par value of the stock to be applied to the purposes aforesaid.

A true copy of resolution adopted by the Board of Estimate and Apportionment May 8, 1913.

JOSEPH HAAG, Secretary.

National Maine Monument Committee, New York City, April 16, 1913.

Board of Estimate, City of New York:

Gentlemen—The National Maine Monument, which is now practically finished, at the entrance to Central Park at 59th st. and 8th ave., will, on May 30 of this year, be dedicated and presented to The City of New York. The Mayor will be asked to receive the monument on behalf of the City. There will be simple but impressive ceremonies, which will be attended by national officials, and State and City officials will be invited. A luncheon at a hotel also is being arranged.

The National Maine Monument Fund to date, with all trust fund interest thereon, amounts to about \$143,000. The actual cost of the monument, including the unveiling, is at this moment estimated to be \$183,000. The shortage of \$40,000 is due mainly to the addition of the beautiful gates which constitute a new entrance to Central Park. As planned and contracted for originally the monument did not include these gates. They were required by the Municipal Art Commission at the time of the original presentation in connection with the present site.

Our Committee cheerfully obligated itself to see that these gates were built, and, without asking the City for one penny, has practically finished the monument, all of the great works of sculpture being ready to put in position this month. Of the approximate deficiency of \$40,000 one of the members of our Committee has offered to give a dollar for every dollar that is raised by our Committee in any other way. This leaves about \$20,000 to be raised in other ways. Of this sum prominent gentlemen have already subscribed a portion, and the Committee has made arrangements to get some in other directions.

At conferences between a representative of this Committee and City officials, our Committee has become convinced that it is quite proper to ask The City of New York, through its Board of Estimate, if it wishes to contribute toward this great memorial. We are informed that in connection with the Carl Schurz Memorial the City originally gave \$25,000 to provide means for erection of the memorial, and within a week your Board has passed a resolution giving \$10,000 toward the dedication ceremonies in connection with that memorial.

Our Committee is informed that in practically every instance of the building of a public monument the City has contributed either toward the foundation or other work in connection with the monument or toward the dedication of the monument. We have decided to make no request at all of the City in connection with the monument itself, the additional gates we have built or the dedication services of the National Maine Monument. We have, however, come to the conclusion that we will offer The City of New York an opportunity to provide a place on which to put the monument and the gates by expending the sum of seven thousand dollars (\$7,000) for work done on the foundation for the monument under the jurisdiction of the Department of Parks. Park Commissioner Stover permits us to state that he is in hearty accord with such action, and that he feels, in view of all the public and this Committee have done, it would indeed be only a small thing for the City to provide the foundation for such a permanent and beautiful patriotic memorial.

Our Committee requests that the Board of Estimate, by unanimous consent, at its meeting on Thursday, April 17, consider a resolution providing the sum of \$7,000 for the purpose stated. In conclusion, permit me to say at the time stated I, as Chairman

of the National Maine Monument Committee, will, in person, present the monument to the Mayor of New York for the City. Respectfully,

JAS. GRANT WILSON, Chairman.

Alderman Curran moved the adoption of this ordinance.

The Vice-Chairman put the question whether the Board would agree to adopt said ordinance.

Which was unanimously decided in the affirmative by the following vote:

Affirmative—Aldermen Becker, Boschen, Bosse, Brush, Carberry, Cole, Coleman, Cummskey, Cunningham, Curran, Delaney, Devine, Dixon, Dotzler, Dowling, Downing, Dujat, Dunn, Eagah, Eichhorn, Esterbrook, Fink, Folks, Gaynor, Gelbke, Gilmore, Grimm, Hamilton, Hannon, Herbst, Kenneally, Levine, Loos, McCann, McCourt, McGarry, Molen, Morrison, Muhlbauer, Mulligan, Nicoll, Nugent, O'Connor, O'Neil, O'Rourke, Pendry, Post, Pouker, Reardon, Schmidt, Shipley, Stapleton, Stevenson, Walsh, Weil, Wendel, Weston, White, Wilmot; President Cromwell; President Miller, by Thomas W. A true copy of resolution adopted by the Board of Estimate and Apportionment May 8, 1913.

JOSEPH HAAG, Secretary.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, April 18, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On March 15, 1913, the Commissioner of Parks, Borough of Brooklyn, requested amendment of four resolutions adopted July 27, 1911, authorizing the issue of \$100,000 in corporate stock for the erection and construction of a laboratory building and greenhouses, including equipment thereof, in the Botanic Garden and Arboretum. In connection therewith we report as follows:

The authorizations were approved upon a plan for the erection and construction of the buildings in section. The Commissioner requests that the four resolutions be amended to read for the "erection and construction of a part of the buildings," and to provide for the payment of architect's fees to the amount of \$6,500. Of the amount \$2,800 is for the payment of architect's fees for the preparation of preliminary plans and specifications for the completed structure (estimated to cost \$280,000, exclusive of architect's fees), and \$3,700 for the full architect's fees for the final plans and specifications and the supervision of the first parts of the work.

Following the first authorization an account was opened in the Department of Finance. Subsequent authorizations have been considered as additional allowances and have been included in this account.

There is, therefore, no necessity for the changing of the wording of the resolutions except to provide for payment of architect's fees.

We recommend the adoption of the attached resolution providing for the architect's fees. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; GEORGE McANENY, President, Borough of Manhattan, Corporate Stock Budget Committee.

JOSEPH HAAG, Secretary.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, May 5, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On March 27, 1913, the President of the Borough of Richmond requested the establishment of the grades of position of Automobile Engineman at \$1,350 and Clerk at \$1,950 per annum for one incumbent each.

The grades are for the purpose of increasing a Clerk from \$1,800 to \$1,950 per annum, and an Automobile Engineman from \$1,200 to \$1,350 per annum. The \$300 necessary is to be made available pursuant to the resolution governing salary increases adopted by your Board on January 30, 1913.

The grade of Clerk at \$1,950 is for the Clerk in charge of the preparation of the payrolls of all bureaus and divisions of the office, except the Bureau of Buildings.

Resolved, That, pursuant to the provisions of section 56 of the Greater New York Charter, the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen the establishment in the Department of Water Supply, Gas and Electricity of the grade of position, in addition to those heretofore established, as follows:

A true copy of resolution adopted by the Board of Estimate and Apportionment, May 8, 1913.

JOSEPH HAAG, Secretary.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, May 2, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On April 18, 1913, the Commissioner of Water Supply, Gas and Electricity requested the establishment in his department, pursuant to the provisions of section 56 of the Greater New York Charter, of the grade of position of Storekeeper, at \$1,500 per annum for one incumbent. In connection therewith we report as follows:

The 1913 budget appropriation entitled, "Personal Service, Salaries, Regular Employees, Administration, No. 663, Purchase and Storage of Supplies," provided for one General Storekeeper, at \$1,500, and seven Storekeepers, at \$1,200 each. The Commissioner's representative states that the Municipal Civil Service Commission has no list for General Storekeeper, and is not prepared to hold an examination for that position at present. The Commission has therefore permitted the applicant who passed first on the list for the position of Storekeeper to receive payment temporarily as General Storekeeper, at the \$1,500 rate.

To meet the Civil Service requirements, it is proposed to establish the grade of Storekeeper, at \$1,500 for one incumbent, and to abolish the position of General Storekeeper, at the same rate. The proposed establishment is therefore to permit of the change of title of one employee now acting as General Storekeeper.

We recommend the adoption of the attached resolution approving of the request and also approving of the abolishment of the existing position of General Storekeeper at \$1,500 per annum. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen, Committee on Salaries and Grades.

No. 3631.

Whereas, By opinion of the Corporation Counsel as of June 28, 1910, and July 30, 1910, the Comptroller was advised that the payment of salaries of Janitors in the Department of Education is illegal unless such salary shall have been established under the provisions of section 56 of the Greater New York Charter; and,

Whereas, The matter of adjusting the compensation of Janitors and the fixation of their salaries under the provisions of section 56 of the Charter is now in the hands of a special committee of the Board of Estimate and Apportionment; therefore, be it

Resolved, That, pursuant to the provisions of section 56 of the Greater New York Charter, the Board of Estimate and Apportionment hereby recommend to the Board of Aldermen, pending the report of said committee, the compensation of Janitors in the Department of Education be fixed temporarily, and until further modified, in accordance with the following list:

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, April 22, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On April 9, 1913, the Board of Education requested the establishment, pursuant to the provision of section 56 of the Greater New York Charter, of rate of compensation for Janitors of sundry public schools. In connection therewith we report as follows:

Temporary rates the same, or lower, than those now in effect, are requested for Public Schools 126 and 87, Manhattan; 1, 14, 19 annex and 135, Brooklyn; 18 Queens, and 19, Richmond. For new Public School 61, 12th street, east of Avenue B, Manhattan, a part of which is ready to be opened, a temporary rate of \$100 per month is requested. For new Public School 40, Union Hall and Pacific streets, Jamaica, Queens, which was opened in February last, an increase from \$150 per month to \$3,432 per annum is requested (full rate as per existing schedule). A decrease from \$25 to \$10 per month for the care of two portable buildings is requested for the Janitor of No. 15, Queens, pending the removal of the buildings, because they are no longer required. Additional compensation of \$25 per month is requested for the Janitor of Public School 165, Brooklyn, for the care of the athletic field adjoining that school. This field is not used during the summer vacation, and little, if any, during the winter months. We recommend, therefore, that compensation for the care thereof be limited to April, May, June, September, October and November.

We recommend the adoption of the attached resolution approving the request as indicated above. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; Committee on Salaries and Grades.

To the Board of Estimate and Apportionment:

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, April 14, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On March 26, 1913, the Chairman, Committee on Supplies, Board of Education, requested reconsideration of resolution adopted by your Board on February 13, 1913, disapproving a request for the establishment in the Department of Education of the new grade of position of Automobile Engineman and Mechanic at \$1,200 per annum.

The proposed new grade is for the purpose of increasing the salary of Chester M. Archer from \$1,050 to \$1,200 per annum. The reason for disapproving the request, given in the report of the Committee on Salaries and Grades, Board of Estimate and Apportionment, was that an increase for Mr. Archer has been requested in the departmental estimate for the current year and denied in the Budget.

Funds for the proposed increase have now become available in the schedule, and the increase is permissible under the rule governing schedule modifications, adopted by your Board on January 30, 1913.

It is recommended, therefore, that the request be granted, by the adoption of the attached resolution. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; Committee on Salaries and Grades.

Resolved, That, pursuant to the provisions of section 56 of the Greater New York Charter, the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen the establishment in the Department of Education of the grades of position in addition to those heretofore established, as follows:

To the Board of Estimate and Apportionment:

Gentlemen—On March 28, 1913, the President of the Borough of The Bronx requested establishment of the grade of position of Foreman, at \$5 per day, for two incumbents. In connection therewith we report as follows:

The grade is proposed for John E. Woods and Valentine F. Hartman, Foremen, at \$4 per day, under "No. 2846, T. S. Wages, Temporary Employees, Care of Highways." They are among the senior Foremen in the Bureau of Highways, having been in the service about fifteen years. Mr. Woods acts as an Assistant General Foreman, supervising the work of eight Foremen of Maintenance and their forces. Mr. Hartman is in charge of all paving Foremen and their forces, the pavers under his supervision receiving \$5 per day.

In the estimate for the 1913 Budget \$5 per day was requested for one Foreman, which was intended for Mr. Hartman, and a position of General Inspector and Foreman at \$2,100 was requested, and intended for Mr. Woods. They were not allowed.

The position of Foreman at \$5 per day is established in the Boroughs of Manhattan and Brooklyn, and upon an annual basis, equal thereto, also exists in The Bronx.

It is proposed to provide for these increases through a modification of the schedule under which they are employed. The amount involved is about \$175 for each for the remainder of this year.

We recommend the adoption of the attached resolution, granting the request.

Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; Committee on Salaries and Grades.

Resolved, That, pursuant to the provisions of section 56 of the Greater New York Charter, the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen, the establishment in the office of the President of the Borough of The Bronx, of the grade of position in addition to those heretofore established as follows:

Gentlemen—I transmit herewith certified copy of resolution adopted by the Board of Estimate and Apportionment May 15, 1913, recommending the establishment in this Board of the following grades of positions:

Title.	Per Annum.	Incumbents.
Fuel Engineering Chemist.....	\$2,400 00	1
Fuel Engineering Chemist.....	1,500 00	2

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the Board of Estimate and Apportionment of the following grades of positions, in addition to those heretofore established, as follows:

Title.	Rate Per Annum.	Number of Incumbents.
Fuel Engineering Chemist.....	\$2,400 00	1
Fuel Engineering Chemist.....	1,500 00	2

A true copy of resolution adopted by the Board of Estimate and Apportionment, May 15, 1913. JOSEPH HAAG, Secretary.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, May 12, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On May 8, 1913, the Director of the Standard Testing Laboratory requested the establishment, pursuant to the provisions of section 56 of the Greater New York Charter, of the following grades of positions. In connection therewith we report as follows:

Title.	Rate Per Annum.	Number of Incumbents.
Fuel Engineering Chemist.....	\$2,400 00	1
Fuel Engineering Chemist.....	1,500 00	2
Engineering Chemist.....	2,400 00	1
Principal Coal Sampler.....	1,500 00	1

The Director states that he desires to increase the compensation of some employees of the Laboratory.

The grade of Fuel Engineering Chemist, at \$2,400 per annum, is proposed for Mr. Walter Erlenkotter, whose salary is \$2,100 per annum. Mr. Erlenkotter was appointed as a Fuel Engineering Chemist on June 5, 1911. On January 1, 1912, his salary was increased to \$2,100. The Director states that Mr. Erlenkotter has been offered a position outside at an increased salary. He also states that the services of Mr. Erlenkotter, who is in charge of the Chemists in the Laboratory, and are of value to the progress of the work, and the Director desires to retain him at an increased salary.

The grade of Fuel Engineering Chemist, at \$1,500 per annum, for two incumbents, is requested to permit a change in title of two Engineering Chemists at \$1,500 each per annum. The Director states that these employees were appointed from the eligible list for Fuel Engineering Chemist, established by the Municipal Civil Service Commission, but provided for in the Budget under the title of Engineering Chemist. It is therefore proposed to change the schedule titles to conform with the titles of the Municipal Civil Service Commission.

The Director states that the grades of Engineering Chemist, at \$2,400 per annum, and Principal Coal Sampler, at \$1,500 per annum, are requested to permit an increase in the salaries of the following employees:

Mr. Herman W. Mahr, Engineering Chemist, from \$2,100 to \$2,400 per annum. Mr. Mahr was appointed in the Standard Testing Laboratory as an Engineering Chemist, at \$1,800 per annum, on June 5, 1911. On January 1, 1912, his salary was increased to the present rate.

Mr. Hohn J. Schoeh, from Coal Sampler, at \$1,200, to Principal Coal Sampler, at \$1,500 per annum.

Mr. Schoeh was appointed as a Coal Sampler on January 1, 1912, at his present salary.

The amount necessary to meet these proposed increases is \$900. An unassigned balance of \$1,200 available for salary increases remains in the schedule.

We recommend the adoption of the attached resolution recommending the establishment of the grades requested. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; Committee on Salaries and Grades.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen:

Dear Sir—At a meeting of the Board of Estimate and Apportionment, held May 15, 1913, a resolution was adopted denying the request contained in the resolution of your Board, adopted April 15, 1913, for an issue of \$1,800 special revenue bonds, to provide for the salaries of additional employees in the Department of Water Supply, Gas and Electricity, from May 1 to December 31, 1913, for the reason that said request has been withdrawn by the department, there being sufficient funds in the Budget appropriation to provide for these additional employees; and the Secretary was directed to notify the Board of Aldermen and the Department of Water Supply, Gas and Electricity to that effect. Very truly yours,

JOSEPH HAAG, Secretary.

The Vice-Chairman laid before the Board the following communications from the President of the Borough of Queens:

No. 3639.

The City of New York, Office of the President of the Borough of Queens, Long Island City, May 12, 1913.

To the Honorable Board of Aldermen of The City of New York, City Hall, New York, N. Y.:

Gentlemen—The honorable judges of the Supreme Court of Queens County have complained to me of the defective acoustical condition of the large court room, Part 1, of the Supreme Court of Queens County, in the Queens County Court House, Long Island City, N. Y., and have requested that this condition be remedied.

At the present time it is difficult for one to hear distinctly the Court, counsel and witnesses, owing to the excessive reverberation, and in order to remedy these conditions, I hereby make application to your Honorable Board, pursuant to the provision of section 188, subdivision 8, of the Greater New York Charter, for an issue of special revenue bonds to an amount not exceeding the sum of two thousand two hundred (\$2,200) dollars, for the necessary treatment, including labor and material, of the large court room, Part 1, of the Supreme Court of Queens County, located on the third floor of the Queens County Court House.

May I request that your Honorable Board give this matter immediate attention, in order that the work may be done during the summer months, when the Court is not in session. Yours very truly,

MAURICE E. CONNOLLY, President of the Borough of Queens.

No. 3640.

The City of New York, Office of the President of the Borough of Queens, Long Island City, May 13, 1913.

To the Honorable Board of Aldermen, City of New York:

Gentlemen—Pursuant to the provisions of section 188, subdivision 8, of the Greater New York Charter, application is hereby made for an issue of special revenue bonds, to an amount not exceeding the sum of nine hundred (900) dollars, to be used by the Bureau of Street Cleaning, Office of the President of the Borough of Queens, for the purpose of furnishing and installing in crematory, located at Bergen's Landing Aqueduct, Borough of Queens, the following:

1. Forced draught.....	\$350 00
2. Rotary pump and necessary piping.....	350 00
3. Electric lighting.....	100 00

4. Connection with water main of the Bureau of Sewers (including 50 feet of 4-ply 2½-inch hose with nozzle) 100 00

The installation of the forced draught becomes necessary on account of the increased quantity of garbage, etc., now being delivered at this crematory, without this equipment the Bureau of Street Cleaning will not be able to dispose of the increased garbage, etc. The installation of this forced draught will enable this bureau to dispose of twice as much material as they do now.

The installation of the pump becomes necessary on account of the water on the ground floor of the incinerator, due to small springs surrounding the building. We have already built extra walls of concrete, and have put a concrete coating on the existing walls, but it appears that the entire plot on which this crematory is located is imbedded with small springs and the water seeps through crevices in the floors, as well as through the walls. Whenever we have rain of any account, or very high tide, it is impossible for the men to work there. This pump will give immediate relief.

The installation of electric lights becomes necessary, as the men are compelled to work early in the morning, and very often late at night, lighting is necessary, and in my opinion, electric lights are the only safe proposition on account of the inflammable character of much of the material deposited in the building. Yours very truly,
MAURICE E. CONNOLLY, President of the Borough of Queens.

No. 3641.

The City of New York, Office of the President of the Borough of Queens, Long Island City, May 16, 1913.

To the Honorable Board of Aldermen, City of New York:

Gentlemen—The plaster ceilings in several rooms in the Town Hall, Jamaica, Borough of Queens, owing to age, do not adhere to the lath, and pieces have already fallen, particularly the ceilings in the large court room occupied by the Court of Special Sessions, and the Municipal Court, 4th District, are in very bad condition, and the balance should be removed and replaced with metal as soon as possible, in order to safeguard the public from plaster falling upon them.

To prevent any accidents that might occur through the falling of this plaster, an application is hereby made for an issue of special revenue bonds to an amount not exceeding the sum of seven hundred and forty (\$740) dollars, to be used by the President of the Borough of Queens, for replacing plaster ceilings with metal in the Town Hall, Jamaica, Borough of Queens. Yours very truly,
MAURICE E. CONNOLLY, President of the Borough of Queens.

The City of New York, Offices, Commissioner of Public Works of the Borough of Queens, Long Island City, May 14, 1913.

To the Honorable Board of Aldermen, City of New York.

Gentlemen—I respectfully request that you grant this department permission to purchase in the open market without bidding, coal for the operation of the sewage disposal plants throughout the borough to the extent of \$5,000.

In support of this request, I desire to state that bids were opened on March 24 for two items of coal, on which there were two bidders for each item. In both cases the prices bid by the lowest bidder were considerably in excess of prices at which coal can be purchased in the open market. Furthermore, our experience has demonstrated that coal furnished under contract is in no way superior to that purchased on open market order. Yours very truly,
JOSEPH FLANAGAN, Commissioner of Public Works.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, 51 Chambers st., New York City:

Dear Sir—On August 15, 1912, application was made by this corporation for the issue of special revenue bonds in the sum of \$5,000 for binding of books in arrears and waiting to be rebound. At that time it was contemplated that allowance would be made therefor in the annual budget for 1913, and in consequence I am given to understand no action was taken by the Board of Aldermen upon the application.

In the examination upon the 1913 annual budget by the Committee of the Board of Estimate and Apportionment no additional allowance for the binding of books then in arrears was provided on the ground that the requirements should be considered upon a special application for revenue bonds, and the committee agreed upon the approval of the Examiner to urge the issue of revenue bonds at the proper time.

I have, therefore, to request that special revenue bonds be authorized in the sum of \$5,000 in order to permit the rebinding of books and magazines withdrawn from circulation for which no funds are available.

I shall be glad to appear before the Finance Committee to give any further information which may be required. Very respectfully,
ALANSON BRIGGS, Attorney for the Corporation.

Total					\$35,443 50

The Assistant Engineer is required for immediate supervision and general and special reports of all buildings of the institutions, boats, docks, etc., of the Department—the work of the Chief Engineer being so much of an executive nature as to prohibit him from giving the proper and necessary time to the outlying institutions.

The Supervising Engineer is required for the immediate supervision of the Mechanics' Bureau and the Boats.

The Mechanical Draftsman is required for making plans and specifications for alterations, renewals and repairs to the mechanical plant. At present there are no drawings in the Department of any machinery of the Department or their parts. Drawings and patterns should be made.

There are now 14 Painters in the Department. I have asked for 11 more. Consider the 185 buildings, 6 boats, automobiles, auto and horse ambulances, trucks, etc., at present in the Department, which, owing to the nature of their use must be frequently painted.

In the Department at present are 13 Carpenters. I have asked for 6 additional to care for the 185 buildings in the Department and the superstructure of the 6 steamboats. This is not too great a force.

The additional Plumbers are necessary to properly care for the work of the Department. Consider the number of plumbing utensils and apparatus in the Department, such as baths, urinals, toilets, showers, wash basins, etc.

The 4 additional Steamfitters are required to properly care for the heating systems, pipe lines in the power house, throughout the grounds, etc., etc., and in the buildings, and maintain same at all times in good condition.

One Tinsmith to properly care for over 654,000 square feet of tin roofing and almost 10,000 linear feet of cornice is impossible. One additional is required.

The one Blacksmith we now have can do the work which the present Mechanics' Bureau is able to send to him. With an additional force of mechanics, one additional Blacksmith is required.

Two Blacksmith Helpers will be required for the two Blacksmiths, as the City Home help is not competent to do the work. Inferior help means decreased efficiency of the Blacksmiths.

There is now one Mason in the Department to care for all masonry work, flooring, plastering, etc., in the 185 buildings. This is utterly impossible. We should have an additional Mason and Plasterer.

Think of one Electrician to care for 15,566 electric lights, 5 X-ray apparatus, 12 generators, 297 motors, 36 dumbwaiters and 68 electric culinary machines. Three (3) additional are required.

There are at present no Machinists in the Department. Consider the repairs to the engines, pumps, laundry machinery, elevators, motors, steamboats, etc., which are required throughout the year, all now being done under contract or by open order. Five (5) Machinists are required for this work.

In the Department are 85 boilers and 125 tanks, and no Boilermakers. We should have one (1).

For the 13 docks and 6 boats to be maintained there are no Ship Carpenters or Dock Builders. Two (2) Ship Carpenters should be employed. These men will also be available for rough carpenter work.

There is only one Laborer in the Department. When any mechanic requires assistance the present method is to get another mechanic to act as his helper. These laborers could be available for any laboring work and act as helpers to any class of mechanics. Their rate of pay is less than helpers.

Had the Department a proper force to accomplish its own work of repairs, etc., it is safe to assume 65 per cent. of the expense would be for labor.

Of the total amount, \$99,070, appropriated in the budget for General Repairs for 1913, there would be used on the above percentage basis, \$64,395.50 for labor and \$34,674.50 for materials and supplies.

It would casually appear from the above figures that the repair funds allotted for 1913 are sufficient to accommodate the increased force requested, and still have money enough available for supplies with which to keep the additional help employed during the balance of the year.

Were the Mechanics' Bureau of this Department well established and the Storehouse well stocked, this would be easily possible. The Mechanics' Bureau is poorly organized and there is practically no stock on hand for mechanics, nor tools to do work with.

It is my opinion that when the Mechanics' Bureau is thoroughly organized, stock on hand, tools purchased—the amount required for 1914 will be proportionate with that allotted for 1912, plus a certain additional amount to compensate for the enlargement of the various present institutions and the establishment of new.

Facts, however, are easily obtained which will substantiate my claim that, considering the magnitude of the Department and widely scattered locations of its various institutions, the force of mechanics allotted us for repair work is pitifully inadequate.

Trusting that you will give this your earnest consideration, I remain,

Respectfully yours, MICHAEL J. DRUMMOND, Commissioner.

Re Vacation for Engineers, Stokers and Pilots.

To the Honorable the Board of Aldermen:

Gentlemen—In the Budget allowance for this department for the year 1913, sufficient funds were appropriated to employ temporary men in order that the regular Engineers, Stokers and Pilots in this department could be granted one week's vacation with pay.

It has been called to my attention by different associations that under the Greater New York Charter, as amended in April, 1913, every employee of The City of New York, including per diem employees, is entitled to two weeks' vacation. It has also been brought to my attention that per diem employees in other departments are allowed two weeks' vacation.

I would, therefore, respectfully request that special revenue bonds to the amount of \$3,018.68 be granted to this department in order that we may employ, temporarily, Engineers, Stokers and Pilots, in sufficient numbers to allow all this class of employees in this department to receive two weeks' vacation during the months of June, July, August and September.

Trusting you will give this matter your favorable consideration as the time to begin vacations is fast approaching, I beg to remain, respectfully yours,

MICHAEL J. DRUMMOND, Commissioner.

No. 3648.

City of New York, Department of Health, Office of the Secretary, May 9, 1913.
Hon. P. J. SCULLY, Clerk, Board of Aldermen:

Sir—Enclosed is a resolution adopted by the Board of Health May 6, 1913, requesting the Board of Aldermen to authorize an issue of special revenue bonds under the provisions of subdivision 8 of section 188 of the Greater New York Charter in the sum of \$600 for the purpose of enabling the Department of Health to prepare a suitable exhibit for the Fourth International Congress on School Hygiene, to be held at Buffalo, N. Y., August 25 to 30, 1913, inclusive, and for the expenses of four delegates to be appointed by the Board of Health to attend the same. This is the first year that this international congress has been held in the United States, the former meetings in the foreign countries having been largely attended and very successful. The list of those who will attend the present meeting from this and other countries contains the names of about 3,000 delegates. Practically all cities and towns of any importance are to be represented, not only by delegates but also in the exhibit. It is felt that it would be a great mistake for the Department of Health not to be adequately represented at the time, as undoubtedly the school inspection service of The City of New York is the most comprehensive of those maintained by any of the cities of the country, probably of the world. Very truly yours,

EUGENE W. SCHEFFER, Secretary.

City of New York, Department of Health, Office of the Secretary, May 9, 1913.

Hon. P. J. SCULLY, Clerk, Board of Aldermen:

Sir—At a meeting of the Board of Health of the Department of Health, held May 6, 1913, the following resolution was adopted.

Resolved, That the Board of Aldermen, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, be and is hereby petitioned to request the Board of Estimate and Apportionment to authorize the Comptroller to issue special revenue bonds in the sum of \$600, the proceeds whereof to be used for the purpose of preparing an exhibit and paying the traveling and hotel expenses of four representatives to be detailed by the Board of Health to attend the Fourth International Congress on School Hygiene to be held in the City of Buffalo, New York, August 25 to 30, 1913, inclusive.

No. 3649.

Police Department of The City of New York, Office of the Commissioner, May 13, 1913.

To the Honorable Board of Aldermen:

Gentlemen—I have the honor to request the issue of special revenue bonds in the sum of \$3,125 for the payment of salaries of five additional Clerks, at the rate of \$1,000 per annum each, from May 15, 1913, to December 31, 1913.

The services of these Clerks are required in the office of the Bookkeeper of this department, in the preparation of statistics asked for by the Comptroller as Chairman of the Budget Committee, and for the purposes of the Bureau of Municipal Investigation and Statistics in the instalment and maintenance of new systems, more fully set forth in the communication of the Comptroller, dated April 10, 1913, copy of which is hereto attached. Respectfully,

R. WALDO, Police Commissioner.

April 10, 1913.

To the Heads of All Departments:

Sir—The Budget for 1913 was accompanied by the following resolution:

"Resolved, That the several boards, departments, offices and bureaus of the City and County Government are hereby directed to keep records dating from January 1, 1913, showing the cost price per unit, the number of units purchased and the total cost of all articles, equipment, supplies and materials purchased in 1913 and charged against appropriations made in this budget, and such boards, departments, offices and bureaus are directed to submit to the Comptroller at the first of each month a statement of purchases made the preceding month, and also a statement of all articles of equipment, supplies and material consumed in the preceding month."

This resolution in the Budget was designed to accomplish two important functions. The first was to furnish the Budget Committee of the Board of Estimate and Apportionment with a monthly statement of articles purchased and consumed so that the agents of the Budget Committee could have budget making material available from the beginning of the year without waiting until the receipt of departmental estimates toward the end of the year.

The second important purpose of the monthly statements was to give department heads accurate and reliable data for their own use and in a form which would permit of comparison with other departments. Such data is of particular value in institutional departments, where, if strict control is not exercised by the head of the department, one institution is likely to spend much more per capita for the same article of supply than is spent by another institution in the same department. Under the present system of records it is not possible for a department head to know without special investigation how much per capita is spent for poultry, for beef or for sugar. Without such information no department head can be sure that there is not waste in some one of the institutions under his control.

Still another value of such monthly statements is that they would give department heads opportunity to compare prices paid by different departments for the same article.

Of course, the chief value of the forms will come from the fact that they will show the monthly consumption of departments and at the end of each twelve months they will afford a reliable basis for determining the needs of a department for the ensuing year.

The Budget resolution calls for monthly statements. Owing to the fact that departments might not be prepared to make monthly statements from the beginning, it was decided that quarterly statements would be sufficient for all supplies and materials except for food supplies. A quarterly statement will not be so useful for budget making or for departmental purposes as monthly statements would be, but the preparation of monthly statements might be a hardship for some departments. Departments that are equipped to send in monthly statements are requested to do so. In such a case the word "quarter" should be crossed out and the word "month" written in.

The forms do not carry the names of all articles of supplies and materials, but only the articles which experience has proved to be important from the cost standpoint. Some of the articles listed are cheap but their consumption is large. Doubtless there are many other articles upon which an individual accounting should be made. Departments are requested to write in the names of such articles and to make accounting for them. All articles that are not of sufficient importance to be given individual mention should be grouped together under the "not specified" lists, as, for instance, "fresh meats, not specified." Of course, in these grouped lists it will not be possible to give the unit price of goods purchased.

The heads of institutional departments are requested to fill out accounting forms for food supplies separately for January and February, as well as for the succeeding months. A sufficient number of blank forms will be transmitted with this letter to provide for the reports of January and February in addition to the other months.

Department heads should not confuse the Budget accounting forms with the cost data accounting forms. The Budget accounting forms are required by the resolution in the Budget. The accounting for the unit cost of things done is required by a separate resolution. Forms for the cost data accounting have not been prepared. The cost data forms will not apply to all departments.

The food supply forms herewith transmitted are not to be used in accounting for expenditures from food supply accounts in administrative departments where such food

supply appropriations are intended to cover supper money. Supper money appropriations may be accounted for on the blank form for general plant supplies by changing the heading from "General Plant" to "Food Supply."

Departments are requested to fill out these forms as quickly as possible and to return them to the Bureau of Municipal Investigation and Statistics, Room 180, 280 Broadway. Any department desiring information concerning the use of the forms should apply to the Supervising Statistician and Examiner of the Bureau of Municipal Investigation and Statistics at that address. Yours truly,

WM. A. PRENDERGAST, Chairman, Budget Committee.

Department of Street Cleaning of The City of New York, 13-21 Park Row, New York, May 6, 1913.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, City of New York:

Sir—On April 16 this department received a communication from the Sinking Fund Commission assigning to this department a plot of ground on Atlantic and Schenectady aves., Borough of Brooklyn, for the purpose of an incumbrance yard, in lieu of the site now occupied by us at Bedford and Metropolitan aves., which was taken by said Commission for a court house site, and turned over to the President of the Borough of Brooklyn. As the property assigned to us is without an enclosure, I respectfully request that you have issued, for the purpose of building a fence and shed around this property, the sum of \$2,600 in special revenue bonds, under section 188, subdivision 8, of the Greater New York Charter. Respectfully,
WM. H. EDWARDS, Commissioner.

No. 3655.

Office of the Chief City Magistrate, First Division, City of New York, 300 Mulberry St., Manhattan, New York, May 6, 1913.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, City of New York:

Sir—The Board of Estimate and Apportionment at its last meeting, held on May 1, allowed an appropriation of \$2,019.38 for the purpose of furnishing the Fourth District Magistrates' Court, which has recently undergone extensive repairs. On account of the terrible congestion, principally in the Third and the Fifth District Courts, I am anxious to get the Fourth District Court open at as early a date as possible, especially as the very hot weather is now approaching. I would therefore most respectfully request that the amount appropriated by the Board of Estimate and Apportionment, if acted upon favorably by your Honorable Board, be exempt from the usual advertising, so that the furniture can be purchased by the Department of Public Works at the earliest possible date. It is our intention at the present time if this exemption is made to reopen the Fourth Court on or about the 1st of June. This will greatly relieve the congestion in the Second, Third and Fifth Districts, which are now overcrowded. Very respectfully,
WILLIAM McADOO, Chief City Magistrate.

REPORTS OF SPECIAL COMMITTEES.

Report of Special Committee on Taxicabs—

No. 3457 (G. O. No. 513).

The Special Committee, appointed February, 1912, to investigate the hack and taxicab situation, pursuant to the following resolution:

"Resolved, That whereas complaints have been numerous and persistent to the effect that exorbitant charges have been exacted and are being exacted from those using taxicabs; and

"Whereas, There is a widespread and just demand for a proper solution of the question of taxicab rates based upon a thorough investigation of the subject and all matters germane thereto; and

"Whereas, Any ordinance prescribing rate not based upon a thorough and

comprehensive investigation might be productive of grave injustice to those using taxicabs, or on the other hand confiscatory in so far as owners are concerned; now, therefore, be it

"Resolved, That the Committee on Rules be and is hereby authorized and empowered to appoint a committee of seven members of this Board for the purpose of investigating the subject of taxicab rates, and all questions germane thereto, with a view toward recommending to this Board a proper ordinance enacting rates which shall be charged by owners of taxicab vehicles."

—respectfully

REPORTS:

That on May 31, June 6, August 27, December 11, December 18 and December 21, 1912, your Committee held public hearings which were duly advertised, and at which all people interested in the subject matter of the investigation were given an opportunity to express their views and offer evidence on the various phases of the subject matter of the investigation. Evidence and argument was received from the representatives of various cab companies, hotel proprietors, the Drivers' Association, the Independent Taxicab Owners' Association, also from smaller concerns, civic organizations and private citizens, and from all of such sources a vast volume of evidence and argument was obtained which has been carefully analyzed by your Committee and its deliberations and conclusions thereon embodied in the proposed ordinance which is herewith submitted.

By way of explanation of the proposed ordinance herewith submitted, and for the sake of convenience the subject matter of the ordinance is discussed under the following heads which correspond to the various logical divisions of the proposed ordinance:

- I. Public Hack Licenses.
- II. Drivers' Licenses.
- III. Hack Stands.
- IV. Rates of Fare.
- V. Miscellaneous Provisions.

Public Hack Licenses.

A practical unanimity of belief that more stringent safeguards should be placed about the licensing of public hacks to insure sanitary and proper vehicles for the use of the public is expressed in the evidence taken by the Committee.

The large taxicab companies have urged that they render a better service to the public by reason of the fact that they keep their taxicabs in perfect order, and in a clean and wholesome condition.

The Committee believes that any vehicle licensed to ply for hire on the public streets should approximate the general condition which is claimed by the taxicab companies for their care, and that a proper enforcement of the provisions of the proposed ordinance by the Mayor's Bureau of Licenses will secure that desired result.

The Committee has directed that each motor propelled public hack, except sightseeing cars, be equipped with a taximeter, believing that this is the only possible way in which the travelling public can be protected from overcharges.

Drivers' Licenses.

It appears from the evidence taken by the Committee and from common knowledge that under the present system of licensing chauffeurs a great many irresponsible, if not actually vicious, men secure licenses and an effort has been made by providing for a searching investigation of applicants for drivers' licenses to bar out undesirable ones and also to secure those who have knowledge of local geography and traffic conditions and police regulation thereof.

The Committee believes that the general public has the right to place absolute reliance upon the character of the men licensed by the City as public hackmen and that this licensing by the City should indicate that the person so licensed to do business by the City is a person of good reputation and mentally and physically well equipped for the position for which he is licensed.

Hack Stands.

The Committee believes that a condition has arisen through the operation in the City of what are popularly known as "private stands," which calls for immediate remedy. Under the present "private stand" system all of the most lucrative hack stand business is practically monopolized by those companies and business organizations which control the private stands, which companies pay the owners of the property abutting on the street where the private stand is located usually 10 per cent. of their gross income from the stand, which amounts to a sum variously estimated from \$350,000 upwards yearly.

The Committee believes that this monopoly is responsible for the fact that there has not been a gradual increase in the number of cabs used in the taxicab service of this City, and is responsible to a large degree for the present high rates charged. This system of private stands which has been abused by keeping more taxicabs on the space than actually licensed is totally indefensible and amounts in your Committee's opinion to a letting out of public property for private gain as well as the creation of a virtual monopoly and a discrimination against the former so-called public hacks which have had no opportunity to participate in the rich field of hotel, club and restaurant patronage. Further, a custom has grown up in plain violation of the spirit of the present ordinance of licensing the stand instead of the hack. As a result the City loses an estimated revenue of \$20,000 per annum through more hacks using the spaces licensed than there is number of spaces licensed.

The Committee has therefore provided for the direct abolition of these private hack stands, and in order to distribute public hacks so that they might be available to the general public, has given the Mayor power to create public hack stands where in his judgment in the conditions call for such stands.

Rates.

The legal maximum rate of fare for four seated coaches, including taxicabs, is established by section 319 of the Ordinances as follows: One dollar for one mile or any part thereof; 50 cents for each additional half mile or any part thereof. The maximum rate, however, has not been generally charged, and the larger taxicab companies are operating under a rate of 80 cents for the first mile and 50 cents for each additional mile, irrespective of the number of passengers carried.

Your Committee advises a reduction in the fare to a rate of 50 cents for the first mile and 40 cents for each additional mile for one or two passengers, and 70 cents for the first mile and 60 cents for each additional mile for three or more passengers.

This recommendation is based upon an analysis of a great mass of evidence offered by the companies and the testimony of the Independent Taxicab Owners' Association, and your Committee believes that it is a fair rate and will enable all hack owners to make a fair return upon the amount of their actual investment.

The evidence given by the Independent Taxicab Owners' Association tends to show that these driver owners make a good return upon their investment at a lesser charge, but your Committee, in view of the stringent regulations enacted covering the licensing of chauffeurs and the licensing of hacks believe that the general public will be willing to pay these rates for satisfactory service.

Miscellaneous Provisions.

Your Committee has forbidden any person riding on the box with the driver, believing that such a provision will be helpful in presenting the presence of a confederate of a dishonest driver.

Your Committee has made other miscellaneous provisions in the proposed ordinance which are largely self-explanatory, and has endeavored to protect the taxicab owner from fraud and deception by passengers by providing a penalty of fine and imprisonment for any one who by fraud or deception evades payment of the legal fare.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Article I.

Article II.

Bureau of Licenses.

1. The licensing and inspection of public hacks, the inspection and sealing of taximeters, the examination of applicants for licenses to drive such public hacks, and the licensing of drivers, as hereinafter provided in this ordinance, and the enforcement of the provisions of this ordinance, shall be under the control of the Bureau of Licenses.

2. The Mayor is hereby empowered to appoint such Inspectors as may be found necessary to carry out the provisions of this ordinance. Such Inspectors shall be paid such compensation as shall be fixed by law.

3. The Mayor shall have power to suspend or revoke any license or permit issued under the provisions of this ordinance.

Article III.

Public Hack Licenses.

1. No public hack shall ply for hire upon the streets of the City of New York without first obtaining a license from the Bureau of Licenses. Such license shall be issued as of February 1, and shall expire on the 31st day of January next succeeding each and every year hereafter unless sooner suspended or revoked by the Mayor or the Chief of the Bureau of Licenses.

2. Applications for licenses for public hacks shall be made by the owner upon blank forms to be furnished by the Bureau of Licenses, and such applications shall contain the full name and address of the owner, the class of the vehicle for which the license is desired, the length of time the vehicle has been in use, the number of persons it is capable of carrying, and, if a motor-driven vehicle, the motor power thereof.

3. No vehicle shall be licensed until it has been thoroughly and carefully inspected and examined and found to be in thoroughly safe condition for the transportation of passengers, clean, fit, of good appearance, and well painted and varnished. It shall be the duty of the said Chief of the Bureau of Licenses to make, or to have made by his lawful deputies, such examination and inspection before issuing a license. It shall be the duty of such Chief of the Bureau of Licenses to refuse a license to, or if already issued revoke or suspend the license of, any vehicle found by him to be unfit or unsuited for public patronage.

4. It shall be the duty of the said Chief of the Bureau of Licenses to examine any taximeter attached to any public hack and to see that the same is accurate before issuing a license to such public hack.

5. It shall be the duty of the Chief of the Bureau of Licenses, and he is hereby authorized and empowered to that end, to establish reasonable rules and regulations for the inspection of public hacks and their appurtenances, their construction, their condition of fitness, the time and places of their inspection, as may seem to him necessary or convenient for the proper conduct of his office or for the benefit of the public.

6. If, upon inspection, the vehicle is found to be of proper character and in proper condition in accordance with the provisions of this ordinance, and the rules and regulations so established, and upon payment of the license fees hereinafter set forth, the same shall be licensed by delivering to the owner a card of such size and form as may be approved by the Mayor, which card shall contain the official license number of the hack so licensed, together with the date of inspection of the same, and a statement to the effect that, in case of any complaint, the Chief of the Bureau of Licenses shall be notified, giving the license number of the cab; and such card shall be signed by the Chief of the Bureau of Licenses or by a duly authorized deputy. Such card, suitably framed to protect it from injury, shall be affixed by the owner to such conspicuous place in the interior of the public hack as shall be designated by the Chief of the Bureau of Licenses or his said deputy. Such cards shall contain blank spaces upon which an entry shall be made of the date of every inspection of such vehicle by the Inspector who makes such inspection.

Such cards shall be changed annually. They shall be of a distinctly different color each year, and in the case of public hacks driven by mechanical power the license number assigned hereunder shall in each case be the same as that assigned to the same vehicle by the Secretary of State of the State of New York for that year pursuant to law.

7. At the same time there shall also be affixed to a conspicuous and indispensable part of each public hack, by the Chief of the Bureau of Licenses or his deputy by him duly authorized, a small plate not exceeding six inches in diameter which shall bear the license number of the vehicle. The design of such plates shall be changed annually.

8. The following license fees shall be paid:

For each cab	\$5 00
For each coach	10 00
For each sightseeing car	10 00

Such license fees shall be in lieu of and not in addition to any fees heretofore established, and except as above provided no charge shall be made.

In the case of licenses issued on or after August 1 in each year hereafter, one-half only of the above fees shall be paid.

9. The Bureau of Licenses shall keep a register of the name of each person owning or operating a vehicle licensed under this ordinance, together with the license number of the same, the description, make and necessary dimensions of such vehicle, with the date and complete record of inspections made of it, and such records shall be open to the inspection of the public at all reasonable times, and shall be public records, and extracts may be certified to by the Chief of the Bureau of Licenses, or his deputy duly authorized, for use as evidence.

10. Any owner or driver of a vehicle not licensed and equipped in accordance with the provisions of this ordinance, or of a vehicle the license of which has been suspended or revoked, and who engages in the business of a public hack as defined hereby, or attempts to engage in such business, or solicits for hire passengers upon the public streets or highways of The City of New York, shall upon conviction before any City Magistrate be punishable by fine of not over \$50 or imprisonment not exceeding thirty days, or both.

11. Every public hack driven by mechanical power, seating four passengers or less, shall have affixed thereto a taximeter of a size and design approved by the Chief of the Bureau of Licenses for use upon public hacks. No license shall be issued to a public hack with a taximeter attached thereto until the same shall have been inspected and found to be accurate, and no person shall use or permit to be used upon any public hack a taximeter which shall be in such condition as to be over five per cent. incorrect to the prejudice of any passenger under a penalty of fifty dollars for each and every offense.

12. After sundown the face of every taximeter shall be illuminated by a suitable light so arranged as to throw a continuous steady light upon the face thereof. A violation of this provision shall render the offender liable, upon conviction before a City Magistrate, to a fine not exceeding ten dollars, or in default of payment thereof to imprisonment in the City Prison for a period not exceeding ten days.

13. No taximeter affixed to a public hack propelled by steam, gasoline, electricity, or other motor power, shall be operated from any wheel to which the power is applied, under penalty of revocation of the license of said vehicle, and a fine of \$25.

14. Public hack licenses granted under this ordinance may be revoked or suspended at any time by the Chief of the Bureau of Licenses, if the public hack be not kept at all times in good condition and appearance, clean and safe; and in the case of horse-drawn vehicles, if the horse or horses are unfit for use. It shall be the duty of the Chief of the Bureau of Licenses, through his deputies and inspectors, to maintain constant vigilance over all public hacks licensed under this ordinance, to see that all such vehicles are kept in a condition of continued fitness for public use, and to this end it shall be the duty of the said Chief of the Bureau of Licenses, through his deputies and inspectors, to inspect all public hacks from time to time, or on the complaint of any citizen, or as often as may be necessary. A report in writing of all inspections shall promptly be made to the Chief of the Bureau of Licenses. Licenses when so suspended or revoked shall not be reissued until the public vehicle and all its appurtenances shall be put into fit condition for use by the public, to the satisfaction of the Chief of the Bureau of Licenses.

Article IV.

Drivers' Licenses.

1. Every person driving a public hack must be licensed as such driver.

2. No person shall be so licensed unless he fulfills the following qualifications:

(a) He must be of the age of 21 years or over.

(b) He must be of sound physique, with good eyesight and not subject to epilepsy, vertigo, heart trouble, or any other infirmity of body or mind which might render him unfit for the safe operation of a public hack.

(c) He must be able to read and write the English language, and be clean in dress and person.

(d) He must not be addicted to the use of intoxicating liquors.

(e) He must produce, on forms to be provided by the Chief of the Bureau of Licenses for that purpose, sworn testimonials of good character from two reputable citizens of the City of New York who have known him personally and observed his conduct during one year next preceding the date of his application, and a further testimonial on a form provided for that purpose from his last employer, unless in the estimation of the Chief of the Bureau of Licenses sufficient reason is given for its omission.

(f) He must fill out upon a blank form to be provided by the Bureau of Licenses for that purpose a statement giving his full name, residence, places of residence for five years previous to moving to his present address, age, color, height, color of eyes and hair, place of birth, length of time he has resided in the City, whether a citizen of the United States, places of previous employment, whether married or single, whether he has ever been convicted of a felony or a misdemeanor, whether he has been summoned to court, whether he has previously been licensed as a driver or chauffeur, and if so whether his license has ever been revoked, and for what cause, which statement shall be signed by the applicant in writing and sworn to and filed in the office of the Chief of the Bureau of Licenses as a permanent record of that office. Any false statement made by applicant for a license shall be punishable by a fine of \$25, and a record of such false statement sent by the Chief of the Bureau of Licenses to the District Attorney of the county in which the application was made.

(g) Such applicant for a license must if required by the Bureau of Licenses, in order to demonstrate his skill and ability to safely handle his vehicle, drive the vehicle through a crowded section of the City accompanied by an Inspector of the Bureau of Licenses.

(h) Each applicant shall be examined by the Bureau of Licenses as to his knowledge of the provisions of this ordinance, the police traffic regulations, and of the geography of the City of New York, and if the result of the examination be unsatisfactory he shall be refused a license.

(i) Each such applicant for a driver's license must file with his application two recent photographs of himself of a size which may be easily attached to his license, one of which photographs shall be attached to such license when issued, the other photograph to be filed with the application in the Bureau of Licenses. The photograph of the licensee shall be attached to the license in such a way that it cannot be removed and another photograph substituted without detection. Each licensed driver shall upon demand of an inspector of licenses, a policeman, or passenger exhibit his license and photograph for inspection. In such instances where the application for a license is denied, the photograph shall be returned to the applicant by the Bureau of Licenses.

3. The Chief of the Bureau of Licenses is hereby authorized and empowered to provide forms for applicants for drivers' licenses hereunder, and he may establish reasonable rules and regulations governing the issue of drivers' licenses not inconsistent herewith.

4. Upon satisfactory fulfillment of the conditions herein established, the applicant shall be licensed by delivering to him a license which shall be in such form as to contain a photograph of the licensee, the licensee's signature, and shall contain blank spaces upon which a record may be made of any arrest of the driver or serious complaint against him. Any licensee who defaces, removes or obliterates any entry made in these blank spaces upon his license shall be punished by the revocation of his license. There shall also be delivered to each licensee a metal badge, of such form and style as the Mayor shall approve, with his license number thereon, which must, under penalty of revocation of the license, be constantly conspicuously displayed on the outside of the driver's coat when said driver is engaged in his employment. The Bureau of Licenses shall keep a complete record of each license issued to a driver, all renewals, suspensions and revocations thereof, which record shall be kept on file with the original application of the driver for a license.

5. Drivers' licenses shall be issued as of February 1 in each and every year, and shall be valid to and including the 31st day of January next succeeding. The Bureau of Licenses may renew same from year to year by noting the fact of such renewal on the licenses.

6. A driver in applying for a renewal of his license under this ordinance can make such application upon a form to be furnished by the Bureau of Licenses entitled "Application for Renewal of License," this blank to be filled out with the full name and address of the applicant for such renewal, together with a statement of the date upon which his original license was granted and the number thereof.

The following license fees shall be paid for drivers' licenses:

For each original license	\$1 00
For each renewal thereof	50

Any person now holding a public driver's license under the provisions of any former ordinance or regulation shall be entitled to have the proportion of his fee for his unexpired license apply in payment of the original license issued under this ordinance.

7. Drivers' licenses may be suspended or revoked at any time by the Mayor, the Chief of the Bureau of Licenses or any City Magistrate. The fact of such suspension shall be noted on the license, together with a statement of the reasons therefor, and the driver shall be deprived of his badge by the official suspending or revoking such license. When the license is suspended or revoked by an official other than the Chief of the Bureau of Licenses, the driver's badge and a note of the revocation or suspension shall be forthwith forwarded to him; the badge to be returned at the expiration of the period for which the license was suspended. A second suspension for the same reason, or in any case a third suspension of a driver's license, shall revoke the license. No driver whose license has been revoked shall again be licensed as a public hack driver in The City of New York. Whenever a license is suspended or revoked by a City Magistrate notice of such revocation, with the cause thereof, shall be forwarded to the Chief of the Bureau of Licenses. It shall also be the duty of the Chief of the Bureau of Licenses to notify the Police Department whenever a license is revoked.

8. Any person not having been duly licensed as a public hack driver, or any person whose license as such driver has been revoked, or any person whose license has been suspended and who during the time of such suspension drives for hire a public hack upon the streets or highways of The City of New York, shall upon conviction before any City Magistrate be punished by a fine of not over \$50 or imprisonment for a term not exceeding thirty days, or both.

Article V.

Hack Stands.

1. All public hack stands heretofore designated by this Board are hereby abolished.

2. All special hack stands are hereby abolished and licenses for the same shall not be issued hereafter.

3. The Mayor is hereby authorized to locate and designate as public hack stands the space alongside the curb adjacent to property used as public parks, public buildings, railroad stations, steamship and ferry landings, hotels, restaurants, theatres, and the centre of any street or avenue where the roadway, exclusive of the sidewalk, is 30 feet in width or more.

4. The Mayor may also designate the space beside the curb adjacent to subway entrances and elevated railway steps as stands for a limited number of public hacks. The Mayor shall further designate the number of such public hacks that shall be allowed to stand at any of the places designated by him, and the Bureau of Licenses shall prepare a metal sign, which shall be attached to a post or stanchion adjacent to the said stand, and on which sign shall be placed the number and kind of vehicles that will be allowed on that particular hack stand.

5. Owners of any property may apply to the Mayor for the establishment of a public hack stand adjacent to their premises, stating in said application the number of public hacks they desire to come on said stand, and also the kind of locomotion to be used, whether gasoline, electric motor or horses. Such application shall be granted solely in the discretion of the Mayor, and may be revoked by him at any time. There shall be delivered to the owner of the property making such application a metal sign

to be affixed to a stanchion on the curb or other conspicuous place, setting forth the kinds of public hacks and the number thereof that will be allowed on said stand.

6. The Mayor may not establish a public hack stand in the centre of any street opposite to the premises where the owner has applied for and received the permit last above mentioned, during the time that said permit is in operation.

7. No public hack shall stand at any hack stand located and designated by the Mayor in accordance with section 3 of this article, adjacent to the curb of the sidewalk, within 15 feet of the entrance to any building erected on the property adjacent to the said hack stand. The said 15 feet shall be determined by measuring 15 feet on each side of a point on the curb opposite the middle of the entrance to the adjacent building. No hack shall stand within 5 feet of any cross-walk.

8. Only public hacks in such numbers and of such kinds as are set forth on the metal sign may remain at the stand while waiting for employment; and only in single file, pointed in accordance with the traffic regulations. No public hack standing at the head of any such line shall refuse to carry any orderly person applying for a hack, who agrees to pay the proper rate of fare; but this shall not prevent any person from selecting any hack he may desire on the stand whether it be at the head of the line or not. As the hacks leave the line with passengers, those behind shall move up, and any public hack seeking a space on the stand shall only approach the same from the rear end of the stand and move up as far as possible to the last cab already on the line.

9. The Mayor may suspend or revoke the license of any public hack driver who shall violate the above provisions by standing in front of the entrance of any building within the prohibited space after his passengers desiring to leave have alighted, or who shall attempt to stand in said prohibited space waiting for passengers, or who shall violate any of the other provisions of this section.

2. Sight-seeing cars.

No rates are hereby established for sight-seeing cars, but a schedule of the rates charged for each trip shall before the trip be prominently displayed upon the car, and a charge greater, or attempt to charge any passenger a sum greater than that set forth in said schedule shall be deemed a violation of this ordinance.

3. Horse-drawn vehicles.

The said metal sign shall not be altered, changed or removed except by and under the authority of the Mayor during the continuance of such public hack stand. Any person who wilfully changes, alters or removes any such metal sign so placed shall be guilty of a violation of this ordinance and, upon conviction before any City Magistrate, shall be subject to a fine of not more than twenty-five dollars or imprisonment for a term not exceeding ten days.

6. During the time that any public hack stand adjacent to the curb is in existence, no public hack shall be permitted by the Mayor in the centre of the said street opposite such premises.

Department of Water Supply, Gas and Electricity, Commissioner's Office, 13-21 Park Row, City of New York, January 22, 1912.

To the Honorable Board of Aldermen, City Hall:

Gentlemen—This department has conducted a test of the King meter, manufactured by the Union Meter Co., for the purpose of ascertaining whether it was a suitable and reliable meter to be used in measuring water in this City. The meter is of the disc pattern, almost similar in construction and material to the other disc meters which the City has adopted from time to time. It is made in sizes from 5/8-inch to 2-inch. The tests for accuracy on different flows and the tests for durability have shown that this meter could be safely adopted for use in this City.

I respectfully recommend, pursuant to section 475 of the Charter, that this meter be adopted, both as to pattern and price. On the attached schedule are given the different sizes in which the meter is made and the prices, including the connections.

Yours truly,

HENRY S. THOMPSON, Commissioner.

The Honorable Board of Aldermen:

Gentlemen—This department has made a test of the Eureka water meter, manufactured by the Pittsburg Meter Co. It is of the current type and is made in sizes from 1 1/2 to 12 inches, and is used principally where a large quantity and quick delivery of water are required. The tests have demonstrated that the meter is sufficiently accurate and constructed of durable material.

I would, therefore, recommend that, pursuant to section 475 of the Charter, this meter is adopted by the Board of Aldermen, both as to pattern and price.

On the enclosed schedule are given the different sizes of the meter and the prices at which same can be purchased. Yours truly,

HENRY S. THOMPSON, Commissioner.

1 1/2-inch	\$30 00	No charge.
2-inch	40 00	No charge.
3-inch	80 00	No charge.

The Committee on Water Supply, Gas and Electricity, to which was referred on January 30, 1913 (Minutes, page 308) the annexed communication and resolution recommending for use in The City of New York the Nilo water meter, respectfully

REPORTS:

That, having examined the subject, it believes the recommendation of the Commissioner of Water Supply, Gas and Electricity should be approved.

It therefore recommends that the hereto attached substitute resolution be adopted.

SUBSTITUTE.

Resolved, That in pursuance of section 475 of the amended Greater New York Charter, and in accordance with the recommendation of the Commissioner of Water Supply, Gas and Electricity, the Nilo meter, sizes from 2 to 12 inches, be and the same is hereby approved as to pattern and prices, as water meters for use in The City of New York, to wit, as follows:

2-inch	\$40 00	6-inch	\$350 00
3-inch	80 00	8-inch	600 00
4-inch	160 00	12-inch	800 00

ORIGINAL.

Resolved, That the Board of Aldermen, pursuant to section 476 of the Charter, as amended, hereby approves and adopts the Nilo water meter, manufactured by the Union Water Meter Company, of Worcester, Massachusetts, in sizes and prices, as follows:

2-inch	\$40 00	6-inch	\$350 00

The City of New York, Department of Water Supply, Gas and Electricity, Commissioner's Office, 13-21 Park row, New York, January 20, 1913.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, City of New York:

Dear Sir—The Union Water Meter Company of Worcester, Mass., is the manufacturer of the Nilo meter. It is constructed so as to insure a quick delivery of water, and is intended for use in manufacturing establishments and other places where a large quantity and an uninterrupted supply of water is necessary. It is of the current type, and at present there are only two or three others of this type of meter which have been adopted for use in the City.

Conditions existed which made it possible for the Department to subject this meter to a very severe and trying test in order to determine its accuracy and durability. While in position in one of the public baths it delivered over 900,000 cubic feet of water, and at stated periods during its service in the bath tests were applied to ascertain the accuracy of the delivery. All of these tests established the accuracy of the meter to a degree closer to the 100 per cent, point than other meters of the same design.

I would respectfully recommend to the Board of Aldermen the adoption of the Nilo meter in sizes and prices as follows:

2-inch	\$40 00	6-inch	\$350 00
3-inch	80 00	8-inch	600 00
4-inch	160 00	12-inch	800 00

Please submit this communication, together with attached draft of resolution, to the Board of Aldermen at its next meeting. Yours truly,

HENRY S. THOMPSON, Commissioner.

REPORTS:

That it held a public hearing on the subject, at which many real estate and taxpayer associations were represented, a decided sentiment for the change being expressed.

Your Committee, therefore, recommends that the said ordinance be adopted.

JOHN S. GAYNOR, JAMES R. WESTON, OSCAR IGSTAEDTER, JOHN T. EAGAN, D. M. BEDELL, ABRAM W. HERBST, Committee on Water Supply, Gas and Electricity.

City of New York, Office of the Mayor, March 18, 1913.

To the Honorable The Board of Aldermen:

I herewith transmit to you for your consideration a revised ordinance concerning water rents, which I trust may be passed by your honorable body. With it I send a letter from the Water Commissioner showing the necessity for the revision. The present ordinance was passed in 1849. It provides a frontage rate of charges for buildings up to five stories high. At that time it was not anticipated that buildings would be erected of a greater height than that. This revised ordinance is to meet that case, and prescribe a rate for buildings over five stories in height. This is one of the things to be corrected. The Commissioner's letter will disclose to you the other things. Very truly yours,

W. J. GAYNOR, Mayor.

The City of New York, Department of Water Supply, Gas and Electricity, Commissioner's Office, 13-21 Park Row, New York, March 17, 1913.

Hon. WM. J. GAYNOR, Mayor, City of New York:

Sir—I am transmitting herewith proposed amendment to section 282 of the General Ordinances in relation to water rents and charges. Since 1849 there has been in force, without change, a scale of frontage rate charges for buildings having a frontage up to 50 feet and not exceeding five stories in height. When this scale was adopted it was probably thought that for many years no buildings would be erected over five stories in height and of a greater frontage than 50 feet. It is probably twenty years or more since buildings of greater dimensions than the schedule anticipated were constructed, and since that time there has never been any lawful rate for such buildings, although by custom the Department has arbitrarily fixed rates where a building was over five stories in height and exceeded 50 feet in frontage.

The proposed amendment to the existing ordinance permits of the establishment of a rate for any size building, regardless of the number of stories or its frontage. Of course, you understand that the frontage rate affects the business building the same as the premises used for domestic purposes, until such time as a meter is installed. From 1849 until 1910 the frontage rate for rear buildings was based upon a \$5.00 annual charge for each 25 feet frontage. This rate was probably established by one of the former Commissioners who had discovered that in the schedule of charges there was no provision for rear buildings. In 1910 a question arose regarding the rates for rear buildings and the Corporation Counsel stated that, owing to the fact that the ordinance fixed a rate for buildings without making any distinction between front and rear, the Department would have to apply a charge for all rear buildings on the same basis as front buildings were classed.

I am of the opinion that under section 473 of the Charter it was the intent to establish a different rate for rear buildings and I have accordingly incorporated in this

proposed ordinance a rate for rear buildings, which will be on the same basis as existed in the former City of New York for sixty years. All of the other extra and miscellaneous rates are, with but few exceptions, the same as exist to-day and which have been in force for many years. The only material change affects the charge for water supplied to shipping and for water furnished to boilers used for hoisting, excavating, etc. The present rate for water supplied to boats is unreasonably small.

This draft of ordinance has been prepared by the Corporation Counsel and I have discussed it with the different Borough Deputy Commissioners, and it is agreed that it covers every possible use of water. Practically all of the miscellaneous and extra rates included in this schedule have never heretofore been covered by an ordinance, and it has been claimed that the Department has always been without any lawful authority to impose these rates and collect charges.

If, in your opinion, this schedule properly establishes a reasonable and uniform rate for water supplied by this City, I would ask that you kindly forward this schedule to the Board of Aldermen for adoption, pursuant to section 473 of the Charter. Respectfully,
HENRY S. THOMPSON, Commissioner.

P. S. For further information regarding this subject, and particularly the change in the schedule of frontage rates, see my communication of October 28, 1912.

ORDINANCES AND RESOLUTIONS RESUMED.

Alderman Curran asked and obtained unanimous consent to introduce the following:

No. 3658.

Bureau of the Public Administrator, No. 119 Nassau St., Room 1025, New York, May 15, 1913.

To the Honorable Board of Aldermen:

Gentlemen—On February 4, 1913, your Honorable Board adopted a resolution for the issue of special revenue bonds to the amount of \$650, the proceeds whereof to be used by me for the purpose of paying the salary of a Stenographer, at the rate of \$780 per annum, from March 1 to December 31, 1913.

The resolution, after having been received from his Honor the Mayor without his approval or disapproval, took effect February 18, 1913.

Subsequently, the Board of Estimate and Apportionment adopted a resolution recommending to your honorable Board the establishment in my bureau of the grade of position of Stenographer, at \$750 per annum (not \$780 per annum as contained in your resolution). Said resolution of the Board of Estimate and Apportionment was adopted by your Honorable Board April 22, 1913.

I beg now to inform you that in the office of the Comptroller of the City I am informed that the grade of Stenographer having been established at \$750 per annum and not at \$780 per annum, it is necessary for me to request from your Honorable Board an amendment of your original resolution authorizing the issue of special revenue bonds to pay the salary of said Stenographer, at a grade of \$750 per annum, instead of \$780 per annum.

I have appointed a Stenographer, said appointment to take effect May 12, 1913, who would be entitled to receive the sum of \$477.83 for salary from May 12, 1913, to December 31, 1913, graded at \$750 per annum, instead of \$780 per annum.

I respectfully request therefore that you amend your original resolution of February 4, 1913, so as to read as follows:

Resolved, That in pursuance of the provision of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of \$477.83, the proceeds whereof to be used by the Public Administrator of New York County, for the purpose of paying the salary of a Stenographer at the rate of \$750 per annum from May 12, 1913, to December 31, 1913, inclusive. Respectfully,
W. M. HOES, Public Administrator of The County of New York.

A resolution having been adopted by this Board on the 4th day of February, 1913, reading as follows:

"Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of six hundred and fifty dollars (\$650), the proceeds thereof to be used by the Public Administrator, New York County, for the purpose of

paying the salary of a Stenographer at the rate of \$780 per annum, from March 1, to December 31, 1913."

And said resolution after having been received from his Honor, the Mayor, on February 18, 1913, without his approval or disapproval thereof, having therefore as provided in section 40 of the Greater New York Charter taken effect as if he had approved the same;

And a resolution having been adopted by the Board of Estimate and Apportionment on March 27, 1913, reading as follows:

"Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the office of the Public Administrator, New York County, the grade of position, in addition to those heretofore established:

Title.	Rate Per Annum	Number of Incumbents.
Stenographer	\$750 00	1"

And this Board, having by resolution adopted April 22, 1913, approved and concurred in the above resolution of the Board of Estimate and Apportionment, and having fixed the salary of said position as set forth:

And said resolution having been received from his Honor the Mayor on May 6, 1913, without his approval or disapproval thereof, having as provided in section 40 of the Greater New York Charter taken effect as if he had approved the same;

And it appearing that said resolution of the Board of Estimate and Apportionment fixed said salary at the rate of \$750 per annum, instead of at the rate of \$780 per annum, the rate mentioned in said resolution of this Board; it is

Resolved, That said first resolution of this Board authorizing the Comptroller to issue said revenue bond to the amount of \$650, the proceeds thereof to be used by the Public Administrator, New York County, for the purpose of paying the salary of a Stenographer at the rate of \$780 per annum, from March 1, 1913, to December 31, 1913, be and the same hereby is amended so as to read as follows:

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue bonds to the amount of four hundred and seventy-seven dollars and eighty-three cents (\$477.83), the proceeds whereof to be used by the Public Administrator, New York County, for the purpose of paying the salary of a Stenographer at the rate of seven hundred and fifty dollars (\$750) per annum, from May 12, 1913, to December 31, 1913 (inclusive).

The Vice-Chairman put the question whether the Board would agree to accept said report and adopt said resolution.

Which was unanimously decided in the affirmative by the following vote:

Affirmative—Aldermen Becker, Bedell, Bolles, Bosse, Brush, Carberry, Cole, Coleman, Cummskey, Cunningham, Curran, Delaney, Devine, Diemer, Dixon, Dotzler, Dowling, Downing, Dujat, Dunn, Eagan, Eichhorn, Esterbrook, Fink, Folks, Gaynor, Gelbke, Gilmore, Hannon, Herbst, Igstaedter, Kenneally, Kenney, Levine, Lieberman, McCann, McCourt, McGarry, McGrath, Marks, Martyn, Mulligan, Nicoll, O'Connor, O'Neil, O'Rourke, Post, Reardon, Schmidt, Shipley, Smith, Stapleton, Stevenson, Walsh, Weil, Wendel, Weston, White, Wilmot; President Cromwell; President Miller, by Thomas W. 352D.

1. Plans—Before the erection, construction or alteration of a building, or part thereof, to be used as a motion picture theatre, there must be filed with the Superintendent of Buildings complete plans and detailed statement as set forth in section 4 of the Building Code. The plans must show clearly and fully the location and width of all exits, passageways, stairs, fire escapes, aisles, etc.; arrangement of seats, size of floor beams, walls, supports, etc.; the location and construction of the inclosure for the motion picture light and machinery, and for other similar apparatus; a diagram of the lot or plot, showing outlets from all exits, and also such other statements, plans or details as may be required by the Superintendent of Buildings.

2. Prohibition—Motion picture theatres shall not be constructed in frame buildings within the fire limits, nor in hotels, tenement houses or lodging houses, nor in factories or workshops, except where the theatre is separated from the rest of the building by unpierced fireproof walls and floors, and in no case shall they be constructed or operated above or below the ground floor of any building.

3. Exits and Courts—All such buildings must be provided on the main floor of the theatre with at least two separate exits, one of which shall be in the front and the other in the rear, both leading to unobstructed outlets on the street. Where the main floor of the theatre accommodates more than 300 people there shall be at least three such exits, the aggregate width in feet of such exits shall not be less than one-twentieth of the number of persons to be accommodated thereby. No exits shall be less than 5 feet in width, and there shall be a main exit not less than 10 feet in total width.

In all such buildings to be erected or to be altered so as to be used for a motion picture theatre, if unobstructed exit to a street cannot be provided at the rear of such buildings, as herein specified, either an open court or a fireproof passage or corridor must be provided from rear exit to the street front of at least the following width: 4 feet in the clear for theatres accommodating 100 persons or less; for every additional 100 persons the width to be increased 8 inches. Such passage must be constructed of fireproof material and must be at least 10 feet high in the clear. The ceiling of said passage, and if there be a basement, the flooring must be constructed according to section 106 of the Building Code.

If unobstructed rear exit or exits to a street are provided, the said exit or exits must be of the same total width required for the court or passage above mentioned.

Said passages and exits to the street, as above, must be used for no other purposes except for exit and entrance and must be kept free and clear.

The level of the open court or passage at the front of building shall not be greater than one step above the level of the sidewalk, and the grade shall not be more than 1 foot in 10, with no perpendicular rises.

All exit doors must be unlocked when building is open to the public. They must be fireproof and made to open outwardly and so arranged as not to obstruct the required width of exit or court when opened. All doors leading to fire escapes must be not less than 40 inches wide in the clear, and shall be located at the opposite side or end of the gallery from other exit doors.

4. Galleries and Stairs—A gallery may be permitted, but it shall not include more than 25 per cent. of the total seating capacity of the theatre. Entrance to and exit from said gallery shall in no case lead to the main floor of the theatre, and the gallery shall be provided with a stair or stairs equipped with handrails on both sides. Stairs over 7 feet wide shall be provided with centre handrail. The risers of the stairs shall not exceed 7½ inches, and the treads, excluding nosings, shall not be less than 9½ inches. Stairs shall be constructed of fireproof material, and such material and the bearing capacity of such stairs shall be approved by the Bureau of Buildings.

Galleries must also be provided with at least one line of fire escapes leading to an open court, fireproof passage or street without re-entering the same or any other building.

If the fire escape leads to a point in the court nearer the street than any exit, there must be a width of not less than 4 feet in the clear between the outer edge of the fire escape and the outer wall of the court.

5. Fire Escapes—All fire escapes must have balconies not less than 3 feet 4 inches in width in the clear and not less than 4 feet 6 inches long, and from said balconies there shall be staircases extending to the ground level with a rise of not over 7½ inches and a step of not less than 9½ inches, and the width of the stairs must not be less than 3 feet 4 inches.

Films shall not be stored in any other place on the premises; they shall be rewound and repaired either in the booth or in some other approved fireproof enclosure.

Where miniature motion picture machines are employed in connection with private exhibitions the requirements of the above paragraph may be so modified as to permit, instead of the regulation booth, an approved fireproof box, unventilated, and of a size only sufficient to properly enclose the machine.

8. Gradients—To overcome any difference of level in and between corridors, lobbies and aisles, gradients of not over 1 foot in 10 feet, or steps having a rise not over 8 inches and a width of not less than 10 inches must be used.

9. Aisles—All aisles in the auditorium and gallery must not be less than 3 feet wide in the clear. No aisle, passageway or space in the rear of the auditorium shall be obstructed by any camp stool, chair, sofa or settee, nor shall any person be permitted to stand or sit therein.

Ventilation—Motion picture theatres having less than 200 cubic feet of air space for each person, or motion picture theatres in which the outside window and door area is less than one-eighth of the floor area, shall be provided with artificial means of ventilation which shall supply during the time the audience is present at least 500 cubic feet of fresh air per hour for each person.

Motion picture theatres having more than 200 cubic feet of air space for each person, or which have outside windows and doors, the area of which is equal to at least one-eighth of the floor area, shall be provided with artificial means of ventilation, which shall be in operation when the outside temperature requires the windows to be kept closed, and which shall supply, during the time the audience is present, at least 500 cubic feet of fresh air per hour for each person. When the artificial ventilation is not in operation, ventilation by means of open doors and windows shall be sufficient to provide each person with 500 cubic feet of fresh air per hour.

Motion picture theatres having more than 1,000 cubic feet of air space for each person and having outside windows and doors, the area of which is equal to at least one-eighth of the total floor area, shall not be required to have artificial means of ventilation, provided the air is thoroughly changed by freely opening doors and windows immediately before the admission of the audience, and at least every 4 hours thereafter.

No part of the fresh air supply required by any of the above paragraphs of this section shall be taken from any source containing vitiated air.

The area of outside doors and windows shall mean the area capable of being freely opened to the outside air for ventilation purposes.

When fresh air is supplied by means of ventilating openings, at least one inlet shall be situated at one end of the room, and at least one outlet at the other end of the room. Where exhaust or inlet fans are necessary, at least one of such fan shall be placed in an outlet opening. The inlet opening or openings shall be placed in the floor or within 2 feet of the floor, and the outlet opening or openings in the ceiling or within 2 feet of the ceiling. The inlet openings and their surroundings shall be kept free from dust so that the incoming air shall not convey dust nor stir up dust as it enters.

During the time the audience is present, the air in the theatre shall be kept continuously in motion by means of fans to the number of at least 1 to every 150 persons. Such fans shall be placed in positions remote from the inlet and outlet openings. No person shall be exposed to any direct draft from any air inlet.

The booth in which the picture machine is operated shall be provided with an opening in its roof or upper part of its side walls, leading to the outdoor air. The vent flue shall have a minimum cross sectional area of 50 square inches and shall be fireproof. When the booth is in use, there shall be a constant current of air passing outward through said opening or vent flue, at the rate of not less than 30 cubic feet per minute.

By Alderman Bolles—

Whereas, The City's special revenue bond account for the year 1913 under subdivision 8 of section 188 of the Greater New York Charter is so strained, by reason of the taking up by departments of authorizations of former years and the further burdening of the account by the omission from the Budget of matters that are properly budgetary, that this Board deems it the part of prudence and duty in its charter capacity of trusteeship to refuse for the time being to entertain further applications of any kind for special revenue bond appropriations; and

Whereas, The Board, in pursuance of this policy, has just refused to approve almost \$800,000 worth of such applications, including a request for \$50,000 for the celebration of Independence Day; and

Whereas, There appears to be a well defined popular demand for the financing by the City of a portion of the expense of this celebration; now therefore be it

Resolved, That the Board of Estimate be and it hereby is requested to appropriate, by transfer from 1913 budgetary accounts or otherwise, an appropriation for this purpose, if the said Board of Estimate may, in its judgment in the present status of City finances, deem this a wise and proper expenditure.

Which was adopted.

Whereas, One of the prime necessities for the comfort and health of the people is the use of coal for heating and manufacturing purposes, and

Whereas, It has become manifest that the facilities for the sale and delivery of coal in The City of New York have not been enlarged, but, on the contrary, through the lack of adequate docking privileges and the consolidation of operating firms, the places for the delivery of coal have decreased in number, and

Whereas, By reason of such apparent lack of adequate facilities and the manner in which the transportation of coal is operated by the railroads, it has been possible to so regulate and control the sale and delivery of coal as to practically eliminate trade competition, with the result that an arbitrary and fixed scale of prices has been maintained for stated periods of the year, all of which is not conducive to the best interests of the people; therefore be it

Resolved, That the Board of Aldermen of The City of New York hereby instructs its Committee on Affairs of Boroughs to arrange for public hearings in the City Hall at which it shall take up for consideration the methods and manner of operation of the sale and delivery of coal in The City of New York; it shall make such inquiries as may be necessary to be properly informed in the matter and receive such testimony as may be available, either voluntary or by request. It shall report its findings not later than September 1, 1913, with such recommendations as may be deemed to be in the best interests of the people.

To the Honorable Board of Aldermen:

At a regular meeting of the Municipal Ferry Employees' Association, held on the 7th day of May, 1913, a quorum being present, the following resolution was adopted:

We, the employees of Department of Docks and Ferries of The City of New York, in the Department of Municipal Ferries, numbering in all about five hundred (500) under the following titles, namely: Quartermaster, *Mates, *Deckhands, *Door-men, *Ticket Choppers, Water Tenders, Oilers, *Stokers, all being members of the Municipal Ferries Employees' Association, do hereby submit a resolution which is herewith attached and made part of this request.

Resolution.

Whereas, We submit for the attention and consideration of your honorable body that we, the employees of the Department of Docks and Ferries, now receiving a monthly rate of wages, owing to the increased cost of living find that we are unable to meet the reasonable daily demands of said living under our present wage schedule, and respectfully petition your honorable Board to have passed for us a semi-monthly bill in order that we may be better able to cope with such daily demands.

Whereas, By reason of the fact that those employees amongst us marked with an asterisk (*) in the list above are paid less than \$3 a day and find it quite hard to have to wait from 30 to 35 days before receiving their monthly salary.

Whereas, On the other hand the per diem men, who are also City employees, receive their salary weekly, and thus have every facility of seeing their way clear over all the items of expense from one week to another.

Whereas, Corporations having a number of employees are compelled by law to pay their help at least twice each month.

Whereas, The majority of the men under the aforesaid titles are married, have large families, which makes it quite impossible for them to lay out their money economically from the payday in one month to the payday in the following month without finding themselves short, and thereby forced to seek the aid of the loan sharks, whom, as your honorable body knows, are always ready and willing to take advantage of a City employee.

We, therefore, feel that the above request is a just and reasonable one, and that the facts submitted by us asking a change in our present pay system, are entirely worthy of investigation and action by your honorable Board of Aldermen of The City of New York.

Thanking you in advance for any action you may take in our behalf, we remain, Committee: H. W. Meyer, President; J. H. Fitzgerald, Secretary; Wilbur Lewis, George Romer, Timothy J. Harrington.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing thereon or permitting the occupancy of any such building by any tenant, firewatchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession, will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furnishings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beamholes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids, and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money or corporate stock or certificates of indebtedness of any nature issued by The City of New York, which the Comptroller shall approve as of equal value with the security required in the advertisement, to the amount of not less than three nor more than five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The amount shall be as specified in the proposals or instructions to bidders and shall not be in excess of 5 per cent.

The certified check or money should not be enclosed in the envelope containing the bid or estimate, but should be either enclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
