monalty of the City of New York to the amount of twenty thousand eight hundred and thirty-five dollars (\$20,835) for the payment thereof, on account of the appropriation made by this Board November 29, 1895, said bonds to bear interest at a rate not exceeding three per cent. per annum, and the amount required for the redemption thereof to be included in the Final Estimate for 1897.

Which were adopted by the following vote: Affirmative—The Mayor, President of the Board of Aldermen, and Counsel to the Corporation—3.  
The Comptroller declined to vote.

The Comptroller presented the following:  
HEALTH DEPARTMENT, CENTRE, ELM, WHITE AND FRANKLIN STREETS, NEW YORK, JANUARY 28, 1896. Hon. ASHBEL P. FITCH, Comptroller, New York City:

SIR—Inclosed herewith please find pay-roll of ten (10) Medical Inspectors for audit and payment on account of Revenue Bond Fund, pursuant to the provisions of chapter 535, Laws of 1893, and as per resolution of the Board of Estimate and Apportionment, dated December 31, 1895.

Very respectfully,

EMMONS CLARK, Secretary.

And offered the following:  
Resolved, That, pursuant to the provisions of chapter 535 of the Laws of 1893, the pay-roll of the Health Department, for the month of January, of ten Medical Inspectors, amounting to one thousand dollars (\$1,000), be and the same is hereby approved, and the Comptroller is authorized to pay the amounts thereon approved and certified to be due to the persons entitled thereto, and to issue Revenue Bonds of the Mayor, Aldermen and Commonalty of the City of New York to the amount of one thousand dollars (\$1,000) for the payment thereof, on account of the appropriation made by this Board December 31, 1895, said bonds to bear interest at a rate not exceeding three per cent. per annum, and the amount required for the redemption thereof to be included in the Final Estimate for 1897.

Which was adopted by the following vote: Affirmative—The Mayor, Comptroller, President of the Board of Aldermen, and Counsel to the Corporation—4.

The Comptroller presented the following:  
CITY OF NEW YORK, FINANCE DEPARTMENT, COMPTROLLER'S OFFICE, January 27, 1896.  
To the Board of Estimate and Apportionment:

GENTLEMEN—The Board of Education, by a resolution adopted June 5, 1895, appropriated the sum of \$5,000, from the proceeds of bonds to be issued by the Comptroller with the approval of a majority of the Board of Estimate and Apportionment, pursuant to chapter 459 of the Laws of 1894, for the purchase as a site for school purposes of the lot of land and premises known as No. 626 East One Hundred and Fifty-seventh street, situated on the east side of Grammar School No. 62, in the Twenty-third Ward.

On August 1, 1895, the Board of Estimate and Apportionment approved of the issue of School-house Bonds to the amount of \$4,750 to provide for this purchase.

The owner of the premises has refused to accept this reduced amount, and from an examination which I have recently made of the matter I am persuaded that the sum of \$5,000 is not an unreasonable amount to pay for the purchase of this property. The difference between the offer of the City and the demand of the owner is only \$250, and it would cost several times this amount to acquire the property by condemnation proceedings.

I therefore offer the following resolution to amend the resolution adopted August 1, 1895.  
Respectfully,  
ASHBEL P. FITCH, Comptroller.

And offered the following:  
Resolved, That the resolution of this Board, adopted August 1, 1895, in relation to the purchase as a site for school purposes of the lot of land and premises known as No. 626 East One Hundred and Fifty-seventh street, be and the same is hereby amended so as to read as follows:

Resolved, That, pursuant to the provisions of chapter 459 of the Laws of 1894, the Board of Estimate and Apportionment hereby approves of the issue of School-house Bonds, in the name of the Mayor, Aldermen and Commonalty of the City of New York, to be known as "Consolidated Stock of the City of New York," as provided by section 132 of the New York City Consolidation Act of 1882, to an amount not exceeding five thousand dollars (\$5,000); and the Comptroller is hereby authorized and directed to issue the same, for such period as he may determine, but not

longer than twenty years, bearing interest at a rate not exceeding three and one-half per cent. per annum; the proceeds of which bonds shall be applied to the purchase as a site for school purposes of the lot of land and premises known as No. 626 East One Hundred and Fifty-seventh street, situated on the east side of Grammar School No. 62, in the Twenty-third Ward of the City of New York, as specified in the resolution relating thereto, adopted by the Board of Education, June 5, 1895; and

Resolved, That the Commissioners of the Sinking Fund be requested to exempt the said stock from taxation by the City and County of New York, pursuant to an ordinance of the Common Council, approved by the Mayor, October 2, 1880, and the provisions of section 137 of the New York City Consolidation Act of 1882.

Which were adopted by the following vote: Affirmative—The Mayor, Comptroller, President of the Board of Aldermen and Counsel to the Corporation—4.

The Comptroller offered the following:

Resolved, That the sum of seven hundred and twenty-nine dollars and forty-five cents (\$729.45) be and hereby is appropriated from the "Excise Fund" to the "Home for Fallen and Friendless Girls," for the support of eighty-eight (88) inmates, in the month of November, 1895, aggregating one thousand seven hundred and seventy-five days, at the rate of one hundred and fifty dollars per annum, pursuant to section 208, chapter 410, Laws of 1882 (New York City Consolidation Act of 1882).

Which was adopted by the following vote: Affirmative—The Mayor, Comptroller, President of the Board of Aldermen, and Counsel to the Corporation—4.

The Comptroller offered the following:

Resolved, That the sum of seven hundred and forty-two dollars and sixty cents (\$742.60) be and hereby is appropriated from the "Excise Fund" to the "Home for Fallen and Friendless Girls," for the support of seventy-seven (77) inmates, in the month of December, 1895, aggregating one thousand eight hundred and seven days, at the rate of one hundred and fifty dollars per annum, pursuant to section 208, chapter 410, Laws of 1882 (New York City Consolidation Act of 1882).

Which was adopted by the following vote: Affirmative—The Mayor, Comptroller, President of the Board of Aldermen, and Counsel to the Corporation—4.

The Comptroller presented the following:

CITY OF NEW YORK, FINANCE DEPARTMENT, COMPTROLLER'S OFFICE, January 28, 1896.  
*To the Board of Estimate and Apportionment:*

GENTLEMEN—At a meeting of this Board held June 25, 1895, the Comptroller was authorized to issue and sell Revenue Bonds, redeemable in 1896, to the amount of \$5,000, for the purpose of paying certain items of expense contained in the requisition of the Board of Rapid Transit Railroad Commissioners, dated April 11, 1895. Of this amount there remained unissued on the 1st of January, 1896, the sum of \$2,771.21.

At a meeting of this Board held November 19, 1895, the Comptroller was authorized to issue Revenue Bonds, redeemable in 1896, to the amount of \$9,252.27, for the purpose of paying certain items of expense included in the requisition of the Board of Rapid Transit Railroad Commissioners, dated September 24, 1895. No portion of this amount was actually issued in 1895.

In view of the fact that provision for the redemption of Revenue Bonds must be made in the Final Estimate for the year succeeding the year of their issue, I offer the following resolution to amend said resolutions of this Board so as to authorize the redemption of so much of said Revenue Bonds as remained unissued on January 1, 1896, in the year 1897.

Respectfully, ASHBEL P. FITCH, Comptroller.

And offered the following:

Resolved, That the resolutions of this Board adopted June 25, 1895, and November 19, 1895, authorizing the issue of Revenue Bonds of the Mayor, Aldermen and Commonalty of the City of New York to the amount of five thousand dollars (\$5,000) and nine thousand two hundred and fifty-two dollars and twenty-seven cents (\$9,252.27), respectively, be and the same are hereby amended so as to allow the redemption of so much of said bonds as remained unissued on January 1, 1896, by provision being made therefor in the Final Estimate for the year 1897.

Which was adopted by the following vote: Affirmative—The Mayor, Comptroller, President of the Board of Aldermen, and Counsel to the Corporation—4.

The Comptroller presented the following:

LAW DEPARTMENT, OFFICE OF THE COUNSEL TO THE CORPORATION, NEW YORK, January 29, 1896. Hon. ASHBEL P. FITCH, Comptroller:

SIR—I have your letter of January 28, asking me whether or not it was the understanding that some short notice of the advertisement for the final disposition of garbage was to be inserted in the daily papers, calling attention to the advertisement in the CITY RECORD.

In reply I have to say that I certainly understood that provision had been made for such an advertisement as you speak of, although I do not recollect that any formal action was taken by the Board upon the subject. Yours very truly,

FRANCIS M. SCOTT, Counsel to the Corporation.

Debate was had thereon, whereupon the Comptroller offered the following:

Resolved, That the Commissioner of Street Cleaning be requested to cause a short notice, calling attention to the full advertisement in the CITY RECORD, to be inserted in the regular daily papers on the list of the Board of City Record, and that notice thereof be sent to the Commissioner. Adopted.

The Comptroller presented the following:

CITY OF NEW YORK, DEPARTMENT OF PUBLIC WORKS, COMMISSIONER'S OFFICE, No. 31 CHAMBERS STREET, January 28, 1896. Hon. WILLIAM L. STRONG, Mayor, and Chairman Board of Estimate and Apportionment:

DEAR SIR—I have the honor to request the approval by your Board, as required by chapter 43, Laws of 1892, of the amendments in the arrangement of the heating and ventilating apparatus in the court building in course of erection on West Fifty-third and West Fifty-fourth streets, specified in the annexed report of the architect and approved by me.

Very respectfully, CHARLES H. T. COLLIS, Commissioner of Public Works.

NEW YORK, January 24, 1896. Gen. CHARLES H. T. COLLIS, Commissioner of Public Works:

DEAR SIR—Application is hereby made to amend the arrangement of the heating and ventilating apparatus of the Seventh District Court-house on West Fifty-third and Fifty-fourth streets, between Eighth and Columbus avenues, in accordance with the accompanying drawing and the following statement:

First—That a separate connection be made for air supply to each group of heating coils, instead of in general one connection to two groups.

This change will insure a much more satisfactory distribution of the air supply to the vertical flues.

Second—That the form of the tempering coil at the fan inlet be changed so that it will be more compact, and to insure an even flow of the incoming air over the entire heating surface.

Third—That an independent pump governor may be used in connection with the two boiler feed pumps, in place of the combined pump and receiver.

This change is necessitated by the location of the boiler plant with reference to the general cellar of the building. With the combination pump and receiver located on boiler room floor, a water line cannot be maintained in the returns in the general cellar of building.

This change we consider necessary for the noiseless operation of the apparatus.

Fourth—That the high pressure pipe for kitchen be run through the laundry instead of coal vault.

This change is suggested in order to provide a convenient outlet in high pressure pipe in laundry, in case such outlet should at some future time be desired.

Fifth—That slight changes in the location of the reducing valve, grease extractor, back pressure valve, etc., be made as shown on plan.

In particular the location of the back pressure valve, as its present position would preclude the successful operation of the apparatus.

The granting of permission for making the above changes will neither make any changes in cost of apparatus, nor in any way affect the guarantee for the operation of the apparatus or the heating of the building, as per original contract.

In acceptance of this amendment, The said Commissioner of Public Works has hereunto set his hand and seal on behalf of the said parties of the first part, and the said party of the second part and his sureties have hereunto set their hands and seals on this.....day of....., one thousand eight hundred and ninety-six.

CHARLES H. T. COLLIS, Commissioner of Public Works.

DEPARTMENT OF PUBLIC WORKS, COMMISSIONER'S OFFICE, No. 31 CHAMBERS STREET, NEW YORK, January 27, 1896. The Hon. WILLIAM L. STRONG, Mayor, and Chairman Board of Estimate and Apportionment:

DEAR SIR—By letter of October 16, 1895, I submitted to your Board, for approval and authorization, the form of a contract supplementary to the contract for a court building in West Fifty-third street and West Fifty-fourth street, authorized by chapter 43, Laws of 1892, providing for a change of boilers from the Babcock & Wilcox boilers, called for in the original contract, to

horizontal tubular boilers, together with such changes and additional work on flues, smoke-stack, etc., as were involved thereby.

The change was rendered necessary by the unforeseen necessity of laying a very thick cement floor in the cellar and boiler-room, to keep out sub-soil water, which was unexpectedly encountered. This diminished the space between floor and ceiling so as not to leave sufficient room for the Babcock & Wilcox boilers, and the horizontal tubular boilers proposed in the supplementary contract were found to be the very best possible substitute. The Superintendent of Repairs and Supplies has reported to me that, for heating purposes, they are superior to the Babcock & Wilcox boilers.

Your Board has deferred action in the matter in consequence of a report by the Comptroller that the cost of the substituted boilers is \$1,399 less than the cost of the Babcock & Wilcox boilers, and that a corresponding allowance or reduction should be made in the contract price for the building. The fact of such diminished cost is verified by information which I obtained on investigation.

The contractor for the building, however, has declined to make or accept any reduction, and the Counsel to the Corporation has given me his opinion, dated the 23d instant (copy inclosed), that the contractor is entitled to the full lump sum of his contract, if the change is duly ordered, notwithstanding any difference in the cost of the boilers.

I would respectfully impress upon your Board the necessity of its immediate action on the proposed supplementary contract, in order that the completion of the building may not be retarded by further delay.

Very respectfully,

(Signed) CHARLES H. T. COLLIS, Commissioner of Public Works.

LAW DEPARTMENT, OFFICE OF THE COUNSEL TO THE CORPORATION, NEW YORK, January 23, 1896. Hon. CHARLES H. T. COLLIS, Commissioner of Public Works:

SIR—I have received a letter from yourself, dated the 16th inst., stating that in the course of the construction of the court building on West Fifty-third street it was found necessary to make a change in the style and pattern of the steam boilers from the upright Babcock boilers, called for in the original contract for the entire building, to horizontal tubular boilers, because the available space in the cellar between the floor and ceiling was not sufficient to admit the Babcock boilers; that by direction of Commissioner Brookfield the architect prepared the specifications for the change, and, with letter of October 16, 1895, there was submitted to the Board of Estimate and Apportionment, for approval, the form of a supplementary contract and specifications stating that the change would involve no additional cost and that the contractor and his sureties had given their consent thereto. The subject was referred to the Comptroller, who subsequently submitted a report that the new boilers would cost \$1,399 less than the Babcock boilers, and that allowance should be made in the supplementary contract for the reduction in cost.

The contractor insists that with or without the change in boilers he is entitled to the full amount of his contract, and that the change involves other and additional work for him in construction of flues, etc., for which he was not to be otherwise compensated.

You inclose letter of December 14 to the architect from the contractor, that you speak of as a letter from the architect, and a letter from the architect of December 16. Also a letter from Baker, Smith & Co., with reference to the relative cost of Babcock & Wilcox boilers and horizontal tubular boilers; also letters from Mr. Graham, Superintendent of Repairs and Supplies, of December 19 and January 13.

Your question is as to whether or not Contractor Murphy can be compelled to allow a reduction on the contract price for the building in consequence of the change from Babcock & Wilcox boilers to horizontal tubular boilers, which would involve a difference in cost in favor of the horizontal tubular boilers of some \$1,399.

I have examined the contract with reference to this work, and find that the contractor is entitled to a lump sum as a consideration of the contract.

If the change from the Babcock boiler to the horizontal boiler is ordered by the City, through the architect, and he complies with the order, he is entitled to his full compensation, notwithstanding any difference in the cost. I am yours respectfully.

(Signed)

FRANCIS M. SCOTT, Counsel to the Corporation.

Debate was had thereon, whereupon the Comptroller moved that the supplementary contract for the change of the boilers, etc., in the Court-house building on West Fifty-third street and West Fifty-fourth street, authorized by chapter 43 of the Laws of 1892, be and the same is hereby approved as requested by the Commissioner of Public Works, January 28, 1896.

Which was adopted by the following vote: Affirmative—The Mayor, Comptroller, President of the Board of Aldermen, and Counsel to the Corporation—4.

The Comptroller presented the following:

NO. 214 BROADWAY, NEW YORK, January 23, 1896. To the Honorable the Board of Estimate and Apportionment of the City of New York :

The undersigned respectfully represents that, by virtue of chapter 866 of the Laws of 1895, your Honorable Body is authorized and directed, in your discretion, to audit and allow to him the amount you may deem to be justly due to him for services rendered up to the time that such audit is made, as Secretary of the Greater New York Commission. Provided, however, 1st, that his compensation shall not exceed the rate of twelve hundred dollars per annum; 2d, that the total sum to be allowed shall not exceed the sum of three thousand dollars; 3d, that such services were rendered under an appointment by said Commission; and 4th, that in equity they should be paid; that by resolution of said Commission he was duly elected its Secretary on March 27, 1891, and by resolution of April 2, 1891, his salary was fixed at twelve hundred dollars per annum, certified copies of said resolutions being on file in the office of the Comptroller, attached to Voucher No. , dated , 1891; that he has uninterruptedly continued to be and to act as such Secretary since his said appointment, and has fully and at all times performed the duties of his office; that, by reason of an insufficiency of appropriation, he has received no salary for services rendered, as such Secretary, from July 1, 1893, to the present time; that his duties as Secretary were not of a perfunctory or routine character, but required close and constant study, attendance at hearings before Legislative Committees at Albany, assisting in the drafting of Legislative bills and documents, and furnishing information upon the progress of the consolidation movement to the press and the public in general; that the importance of the work in hand required expenditures that were not provided for, and he met these expenses out of his own funds.

Thus when in 1894 the question of consolidation was submitted to a vote of the people, he made a canvass throughout the Greater New York territory, explaining the subject at mass meetings and published circulars on the question, and thereafter published an "Historical Sketch of the Greater New York." The gathering of data, the purchase of books and pamphlets, and traveling, printing and other expenses incurred this way, he estimates at nearly one thousand dollars; and while he does not ask to be reimbursed for these expenses, he refers to them as another and important reason why his salary should not remain unpaid.

He deems it proper to mention that he is a member of the bar and has been an assistant to the Counsel to the Corporation, and thus brought to his duties an experience and study that could not have been otherwise than of special benefit to the labors of the Commission, and would make a compensation of \$1,200 per annum appear exceedingly moderate for the services rendered.

Wherefore he requests your Honorable Body to audit and allow to him his unpaid salary as such Secretary in the manner and to the extent authorized by said act.

ALBERT E. HENSCHEL.

Referred to the Comptroller.

The Comptroller presented the following :

(Copy.)

NEW YORK, December 2, 1895. Board of Estimate and Apportionment, Hon. WILLIAM L. STRONG, Chairman :

DEAR SIR—Under the authority of chapter 112 of the Laws of 1895, and deeming it necessary, I have determined to regulate and repave the intersections of Melrose avenue, from One Hundred and Forty-ninth street to One Hundred and Sixty-third street, with granite-block on concrete foundation, and to lay or relay crosswalks where required, at an estimated cost of \$9,575, viz. :

Contract..... \$9,065 00  
Inspection (two Inspectors, 30 days)..... 210 00  
Engineering, etc..... 300 00

Total..... \$9,575 00

I hereby request an appropriation accordingly, as soon as possible, so that I may be able to proceed with this work.

Respectfully, LOUIS F. HAFFEN, Commissioner.

CITY OF NEW YORK, FINANCE DEPARTMENT, COMPTROLLER'S OFFICE, January 27, 1896. Hon. ASHBEL P. FITCH, Comptroller :

SIR—The Commissioner of Street Improvements, Twenty-third and Twenty-fourth Wards, in communication of 2d December, 1895, to the Board of Estimate and Apportionment, requests an appropriation of \$9,575 to enable him to regulate and repave the intersections of Melrose avenue, from One Hundred and Forty-ninth street to One Hundred and Sixty-third street, which he has determined to do under the authority of chapter 112 of the Laws of 1895, deeming the said work necessary.

Melrose avenue, a new avenue, is being paved between the above streets, but the intersecting streets have been heretofore paved and paid for by assessment, including the intersections. These intersections not being in good condition, and Melrose avenue, which is a continuation of Willis avenue, being an important avenue, the Commissioner is desirous that the work should not be marred by the imperfections of these old intersections.

It appears to me that the action of the Commissioner to regulate and repave these intersections is judicious, and that the appropriation can be properly made as he requests.

Respectfully, EUG. E. MCLEAN, Engineer.

And offered the following :

Resolved, That, pursuant to the provisions of chapter 112 of the Laws of 1895, the Board of Estimate and Apportionment hereby approves of the issue of bonds in the name of the Mayor, Aldermen and Commonalty of the City of New York, to be known as "Consolidated Stock of the City of New York," as provided by section 132 of the New York City Consolidation Act of 1882, to an amount not exceeding nine thousand five hundred and seventy-five dollars (\$9,575), and the Comptroller is hereby authorized and directed to issue the same for such period as he may determine, but not less than ten nor more than thirty years, bearing interest at a rate not exceeding three and one-half per cent. per annum; the proceeds of which bonds shall be applied to the payment of the expenses to be incurred by the Commissioner of Street Improvements, Twenty-third and Twenty-fourth Wards, in regulating and repaving the intersections of Melrose avenue, from One Hundred and Forty-ninth to One Hundred and Sixty-third street, as specified in his communication to this Board, dated December 2, 1895; and

Resolved, That the Commissioners of the Sinking Fund be requested to exempt the said stock from taxation by the City and County of New York, pursuant to an ordinance of the Common Council approved by the Mayor, October 2, 1880, and the provisions of section 137 of the New York City Consolidation Act of 1882.

Which were adopted by the following vote: Affirmative—The Mayor, Comptroller, President of the Board of Aldermen, and Counsel to the Corporation—4.

The Counsel to the Corporation offered the following :

Resolved, That the resolution adopted by this Board March 6, 1895, authorizing an appropriation of thirty-three thousand dollars (\$33,000) for the purpose of building a Delahanty self-propelling dumping-boat, be and the same is hereby rescinded.

Which was adopted by the following vote: Affirmative—The Mayor, Comptroller, President of the Board of Aldermen, and Counsel to the Corporation—4.

The following communication was received :

LAW DEPARTMENT—OFFICE OF THE COUNSEL TO THE CORPORATION, NEW YORK, January 24, 1896. To the Board of Estimate and Apportionment :

GENTLEMEN—I have received, under date of January 15, a petition of property-owners on One Hundred and Thirtieth street, between Lexington and Park avenues, requesting consent and approval for the Commissioner of Public Works to acquire title to a strip of land on the northerly side of One Hundred and Thirtieth street, for the purpose of widening the approach to the new Third Avenue Bridge.

Chapter 413 of the Laws of 1892, providing for the construction of a drawbridge over the Harlem river, in the City of New York, in its fifth section, provides as follows :

"With the consent and approval of the board of estimate and apportionment first had and obtained, the commissioner of public works, for and on behalf of the mayor, aldermen and commonalty of the city of New York, is hereby authorized to acquire title in fee to any land which he may deem necessary for the purpose of the construction of the said bridge and approaches with the necessary abutments or arches aforesaid, and to that end the said commissioner may make application to the supreme court in the first judicial district for the appointment of commissioners of estimate and apportionment, specifying in the said application the lands sought to be acquired for the purpose aforesaid. The provisions of law relating to the taking of private property for public streets or places in the said city are hereby made applicable, so far as may be necessary, to the acquiring of the said land as aforesaid."

Pursuant to the provisions of this act the Commissioner of Public Works, with the consent and approval of the Board of Estimate and Apportionment, has taken proceedings to acquire title in fee to certain land which he has deemed necessary for the purpose of constructing the said bridge and its approaches, and has not included in said land the strip referred to in the petition of said property-owners.

In my opinion it will not be legally possible to now amend their proceeding by including in the land to be acquired therein the strip of land referred to, or any other land not specified in the map and petition which constituted the base of said proceeding, without express legislative authority for that purpose.

The strip might be acquired by the City under the general laws authorizing the acquisition of land for street purposes, but this would require an assessment of the cost thereof upon adjoining property, which is probably not what the petitioners desire.

If, therefore, it shall be necessary and desirable, in the opinion of the Commissioner of Public Works and of your Board, that the strip in question should be acquired as additional lands for the approach to said bridge, to be paid for in the manner provided for in the said Act of 1892, I think it will be necessary first to acquire legislative authority for such inclusion.

There is now pending in the Legislature a bill amending the Act of 1892, and if your Board should desire it, a provision could be inserted in that bill, giving authority for the acquisition of the strip in question.

Yours very truly,

FRANCIS M. SCOTT, Counsel to the Corporation.

Debate was had thereon, whereupon the Comptroller offered the following :

Resolved, That the Counsel to the Corporation be instructed to attempt to procure legislative authority for the inclusion in the approaches to the Third Avenue Bridge of a strip of land on the northerly side of One Hundred and Thirtieth street fifty (50) feet in width extending from Lexington avenue to Park avenue.

Which was adopted by the following vote: Affirmative—The Mayor, Comptroller, President of the Board of Aldermen, and Counsel to the Corporation—4.

On motion, the Board adjourned.

E. P. BARKER, Secretary.

On motion, the Board adjourned to meet on Thursday, February 20, 1896, at 11 o'clock A. M. E. P. BARKER, Secretary.

#### BOARD OF STREET OPENING AND IMPROVEMENT.

The Board of Street Opening and Improvement met at the Mayor's office on Friday, February 21, 1896, at 11 o'clock A. M., pursuant to notice.

The roll was called, and all the members were present and answered to their names.

The minutes of the meetings of February 7 and 18, 1896, were read and approved.

The matter of locating a public park on the west side of the city, between Twentieth and Thirtieth streets and west of Ninth avenue, was then taken up.

Dean Hoffman and others spoke in favor of the block between Twentieth and Twenty-first streets, Tenth and Eleventh avenues.

Mr. Lynch opposed the selection of this block, and presented a petition from residents asking "that a site be selected that shall be east of Eleventh avenue, and as near the Ninth avenue, consistent with economy."

Mr. Spurgeon again spoke in favor of the block between Twenty-seventh and Twenty-eighth streets, Ninth and Tenth avenues.

Mr. Tyler advocated a site on the river front, as did also Mr. McCauly.

Mr. Ira Place, on behalf of the New York Central Railroad Company, protested against the taking of any land occupied by the railroad company.

After some further discussion, the matter was laid over to the next regular meeting of the Board, and, on motion of the Comptroller, the Counsel to the Corporation was requested to inform the Board, at his earliest convenience, as to what amount of money is authorized, under existing laws, to be expended in any one year for the laying out and opening of public parks in the City of New York.

The following communication from the Counsel to the Corporation, relating to the area of assessment for the opening of Prospect avenue, was presented and read:

LAW DEPARTMENT—OFFICE OF THE COUNSEL TO THE CORPORATION, NEW YORK, January 17, 1896. V. B. LIVINGSTON, Esq., Secretary of Board of Street Opening and Improvement:

SIR—I have received your communication of January 7, 1896, requesting me to communicate with the Commissioners of Estimate and Assessment in the matter of opening Prospect avenue, from Westchester avenue to Boston road, and to request them to so enlarge their area of assessment that the entire cost and expense of the proceeding may be assessed upon the property deemed to be benefited.

The area of assessment as at present determined upon by the Commissioners of Estimate and Assessment is bounded on the north by Crotona Park, on the east by a line midway between Stebbins and Intervale avenues, on the south by Dawson street, and on the west by a line midway

between Tinton and Union avenues. To extend the area northwardly would only embrace a larger portion of Crotona Park than is now within the area of assessment; to extend it eastwardly would extend it beyond Intervale avenue, which is an avenue one hundred feet in width, towards the opening of which the property on Prospect avenue did not contribute; to extend it south of Dawson street along Prospect avenue, now an opened and improved thoroughfare, would likewise embrace property towards the improvement of which the property on Prospect avenue, north of Westchester avenue, did not contribute; to carry it westwardly would embrace property nearer the Boston road, on which the improvements are now completed, and to which Prospect avenue affords no means of access.

I find, on examining the report of the Commissioners, that the amount assessed on the abutting property directly benefited by the improvement is about \$106,000, and that the amount assessed on property not abutting and indirectly benefited is about \$87,000; that is, about forty-eight per cent. of the cost of the improvement is assessed upon the property directly benefited and about thirty-eight per cent. on the property indirectly benefited, leaving a deficiency of about fourteen per cent.

To extend the area of assessment and add to the property indirectly benefited the sum of the deficiency, about \$31,000, would increase the assessment on the property indirectly benefited to about fifty-two per cent., with the result that the property indirectly benefited would pay more than the property directly benefited.

A further examination of the Commissioners' report discloses that the deficiency is due to the unequal manner in which property is valued for taxation in this vicinity. The most glaring instance is that of the property of Jennie Allen Carew, situate between Freeman and Home streets. This property was assessed for the purpose of taxation, as follows: 1890, \$20,200; 1891, \$20,700; 1892, \$20,700; 1894, \$20,700; 1895, \$21,300.

During that period the following improvements have been made through that property:

Home street, legally opened June 7, 1894; regulated and graded July 22, 1895.

East One Hundred and Sixty-ninth street, legally opened November 21, 1890; regulated and graded July 18, 1893; sewer commenced October 23, 1895.

Freeman street, legally opened October 26, 1892; regulated and graded June 1, 1894; sewer commenced October 20, 1895.

—and in that period the tax valuation has only been raised \$1,100.

The assessment against this property for the opening of Prospect avenue was estimated by the Commissioners as fair and equitable at \$18,055, whereas only \$8,161.51 could be actually assessed owing to the tax valuations of the parcels assessed, leaving a deficiency of \$9,894, or about 32 per cent. of the present estimated total deficiency on the entire street.

The tax valuations of this property have been raised for the year 1896 to \$38,000, or an increase of \$16,700.

Other less glaring instances of deficiencies by reason of the tax valuation occur in the lands of William Burrill, William Caldwell, Hanford B. Kirk, Franklin A. Wilcox and Edward G. Williams.

It would not have been proper for me to have requested the Commissioners of Estimate and Assessment to extend the area of assessment, and, in view of the facts above stated, I cannot even recommend them to take such a course.

Respectfully yours,

FRANCIS M. SCOTT, Counsel to the Corporation.

On motion, the communication was ordered on file, and the Comptroller offered the following resolution:

Resolved, That the Commissioners of Estimate and Assessment appointed for the opening of Prospect avenue, from Westchester avenue to Boston road, be and are hereby requested to present their final report to the Court for confirmation at as early a day as possible.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Commissioner of Public Works, the President of the Department of Public Parks, the President of the Board of Aldermen and the Commissioner of Street Improvements of the Twenty-third and Twenty-fourth Wards—6.

The following report from the Counsel to the Corporation, relating to a protest against the widening of One Hundred and Forty-ninth street, from Third to Gerard avenue, and against the assessment therefor, was presented and read:

LAW DEPARTMENT—OFFICE OF THE COUNSEL TO THE CORPORATION, NEW YORK, February 8, 1896. V. B. LIVINGSTON, Esq., Secretary of the Board of Street Opening and Improvement:

SIR—I return herewith a protest against the widening of One Hundred and Forty-ninth street, from Third avenue to Gerard avenue, and against the assessment therefor, transmitted to me by you on the 21st ultimo, by direction of the Board of Street Opening and Improvement, for my opinion as to the proper action of the Board thereon.

The proceeding referred to is for the purpose of widening One Hundred and Forty-ninth street, from the Southern Boulevard to the Harlem river, including that part of the street from Third avenue to Gerard avenue, where the persons protesting claim to represent a majority of the property-owners. It was commenced by a resolution of the Board of Street Opening dated December 7, 1894. A rule map and technical description were immediately requested by the Bureau of Street Openings, and were received on July 30, 1895. The Commissioners were appointed on September 19, 1895, and by a resolution of your Board, passed pursuant to section 956 of the Consolidation Act, the title to the land proposed to be taken for the improvement will vest in the City upon March 30, 1896.

Section 974 of the Consolidation Act, as amended by chapter 660 of the Laws of 1893, provides that "in case of any street \* \* \* in respect to which the board of street opening and improvement shall have directed that upon the filing of the oath of the commissioners or upon a day specified, the title to the lands required therefor shall be vested in the mayor, aldermen and commonalty of the city of New York as provided in section nine hundred and fifty-six of this act, such proceeding shall not be suspended or discontinued by the court or said board."

It does not seem necessary to do more than to cite this statute in support of my opinion that the Board should not attempt to discontinue the proceeding.

With regard to the suggestion in the protest that the City should bear the cost of the improvement, the reasons set forth do not seem convincing. At present it does not appear to me to be established that the city at large should bear even a proportion of the cost. It seems to me that that question had better be taken up later than decided at the present time. The matter has been referred to Commissioners of Estimate and Assessment, and nothing will be lost by waiting, at least until they have filed their preliminary report. The Commissioners appointed are men experienced in street opening proceedings, amply able to appreciate any sound arguments that may be advanced before them as to the proper area of assessment. They are not limited by the statute as to the area of assessment which they may decide to adopt, and may take in a large territory if they deem the benefit to be wide spread. And if, in their judgment, there is some weight to be given to the views set forth in the protest that a part of the cost of the improvement should be borne by the whole city, and that action by your Board would be proper, they will doubtless so advise you.

I am, therefore, of the opinion that the Board of Street Opening and Improvement should not take any action upon the said protest at the present time.

Respectfully yours,

FRANCIS M. SCOTT, Counsel to the Corporation.

On motion, the report was ordered on file, and the Board decided to take no action upon the said protest at the present time.

The following report from the Commissioner of Street Improvements of the Twenty-third and Twenty-fourth Wards, relating to the petition for opening St. Paul's place, was presented and read:

CITY OF NEW YORK, COMMISSIONER OF STREET IMPROVEMENTS, February 20, 1896.

Board of Street Opening and Improvement:

GENTLEMEN—I submit herewith for your concurrence, form of resolution for the opening of St. Paul's place, from Webster avenue to Fulton avenue, as petitioned for recently by the Henry Zeltner Brewing Company and other property-owners on both sides of St. Paul's place.

Respectfully, LOUIS F. HAFFEN, Commissioner.

Whereupon the Commissioner offered the following resolutions:

Resolved, That the Board of Street Opening and Improvement deems it for the public interest that the title to the lands and premises required for the opening and extending of St. Paul's place, from Webster avenue to Fulton avenue, should be acquired by the Mayor, Aldermen and Commonalty of the City of New York.

Resolved, That it appears to this Board, from the surveys made and information furnished to it by the Commissioner of Street Improvements of the Twenty-third and Twenty-fourth Wards, that there are buildings upon the lands that shall or may be required for the purpose of opening and extending said St. Paul's place, from Webster avenue to Fulton avenue.

Resolved, That this Board directs that upon a date to be hereafter more fully specified, not less than six (6) months after the filing of the oaths of the Commissioners of Estimate and Assessment who may be appointed by the Supreme Court in proceedings for the acquisition of title to such street, that the title to any piece or parcel of land lying within the lines of such St. Paul's place, from Webster avenue to Fulton avenue, so required, shall be vested in the Mayor, Aldermen and Commonalty of the City of New York.

Resolved, That the Board of Street Opening and Improvement, deeming it for the public interest so to do, hereby requests the Counsel to the Corporation to take the necessary proceedings in the name of the Mayor, Aldermen and Commonalty of the City of New York, to acquire title, wherever the same has not been heretofore acquired, for the use of the public to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending St. Paul's place, from Webster avenue to Fulton avenue.

Resolved, That the entire cost and expense of said proceedings shall be assessed upon the property deemed to be benefited thereby.

Which were adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Commissioner of Public Works, the President of the Department of Public Parks, the President of the Board of Aldermen and the Commissioner of Street Improvements of the Twenty-third and Twenty-fourth Wards—6.

#### TO CONTRACTORS.

**SEALED PROPOSALS FOR FURNISHING** the materials and labor and doing the work required in repairing two second-size Double Pump Clapp & Jones Crane Neck Steam Fire-engines, registered numbers 473 and 475, and fitting said engines with M. R. Clapp's latest improved sectional coil-tube boilers.

The bids will be received by the Board of Commissioners at the head of the Fire Department, at the office of said Department, Nos. 157 and 159 East Sixty-seventh street, in the City of New York, until 10:30 o'clock A. M., Wednesday, March 4, 1896, at which time and place they will be publicly opened by the head of said Department and read.

No estimate will be received or considered after the hour named.

For information as to the amount and kind of work to be done, bidders are referred to the specifications, which form part of these proposals.

The form of the agreement, with specifications, showing the manner of payment for the work, may be seen, and forms of proposals may be obtained at the office of the Department.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

The repairs are to be completed and delivered within sixty (60) days after the execution of the contract.

The damages to be paid by the contractor for each day that the contract may be unfulfilled after the time specified for the completion thereof shall have expired, are fixed and liquidated at fifteen (15) dollars.

The award of the contract will be made as soon as practicable after the opening of the bids.

Any person making an estimate for the work shall present the same in a sealed envelope to said Board, at said office, on or before the day and hour above named, which envelope shall be indorsed with the name or names of the person or persons presenting the same, the date of its presentation, and a statement of the work to which it relates.

The Fire Department reserves the right to decline any or all bids or estimates if deemed to be for the public interest. No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon any contract, or who is a defaulter as surety or otherwise, upon any obligation to the Corporation.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders of the City of New York, with their respective places of business or residence, to the effect that if the contract is awarded to the person making the estimate, they will, on its being so awarded, become bound as sureties for his faithful performance in the sum of two thousand four hundred (\$2,400) dollars; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York before the award is made and prior to the signing of the contract.

No estimate will be considered unless accompanied by either a certified check upon one of the banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of one hundred and twenty (120) dollars. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to him or their bid or proposal, or if he or they accept, but do not execute, the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

O. H. LA GRANGE, JAMES R. SHEFFIELD, AUSTIN E. FORD, Commissioners.

#### DEPARTMENT OF DOCKS.

##### TO CONTRACTORS. (No. 527.)

**PROPOSALS FOR ESTIMATES FOR FURNISHING AND DELIVERING ABOUT 700 TONS OF ANTHRACITE COAL.**

**ESTIMATES FOR FURNISHING AND DELIVERING** about 700 tons of Anthracite Coal will be received by the Board of Commissioners at the head of the Department of Docks, at the office of said Department, on Pier "A," foot of Battery place, North river, in the City of New York, until 12 o'clock M. of

TUESDAY, MARCH 10, 1896,

at which time and place the estimates will be publicly opened by the head of said Department. The award of the contract, if awarded, will be made as soon as practicable after the opening of the bids.

Any person making an estimate for the work shall furnish the same in a sealed envelope to said Board, at said office, on or before the day and hour above named, which envelope shall be indorsed with the name or names of the person or persons presenting the same, the date of its presentation, and a statement of the work to which it relates.

The bidder to whom the award is made shall give security for the faithful performance of the contract, in the manner prescribed and required by ordinance, in the sum of One Thousand Two Hundred Dollars.

The Engineer's estimate of the quantity of coal to be furnished and delivered is about 700 tons.

It is expected that about 600 tons will be required to be delivered at the West Fifty-seventh Street Yard of the Department of Docks, and that about 100 tons will be required to be delivered at the East Twenty-fourth Street Yard.

When the City of New York owns the wharf, pier or bulkhead at which the materials and labor for the contract are to be delivered, no charge will be made to the contractor for wharfage upon vessels conveying said materials.

N. B.—Bidders are required to submit their estimates upon the following express conditions, which shall apply to and become a part of every estimate received:

1st. Bidders must satisfy themselves, by personal examination of the location of the proposed delivery of material, and by such other means as they may prefer, as to the accuracy of the foregoing Engineer's estimate, and shall not at any time after the submission of an estimate dispute or complain of the above statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

2d. Bidders will be required to complete the entire work to the satisfaction of the Department of Docks and in substantial accordance with the specifications of the contract. No extra compensation, beyond the amount payable for the work before mentioned, which shall be actually performed at the price therefor per ton, to be specified by the lowest bidder, shall be due or payable for the entire work.

A ton of coal under these specifications shall be 2,240 pounds avoirdupois.

The work to be done under this contract is to be commenced within ten days from the date of the receipt of an order from the Engineer to begin the delivery of coal, and the delivery will be continued in lots of about 230 tons at such times and places and in such manner as may be directed by the Engineer, and the delivery of said coal will be fully completed on or before the 1st day of August, 1896, and the damages to be paid by the contractor for each day that the contract may be unfulfilled after the time fixed for the fulfillment thereof have expired, are, by a clause in the contract, fixed and liquidated at Fifty Dollars per day.

Bidders will state in their estimates a price per ton for furnishing and delivering coal, in conformity with the approved form of agreement and the specifications therein set forth, by which price the bids will be tested. This price is to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing this work.

The person or persons to whom the contract may be awarded will be required to attend at this office, with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect, and in case of failure or neglect so to do he or they will be considered as having abandoned it, and as in default to the Corporation, and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence, the names of all persons interested with them therein, and if no other person be so interested, the estimate shall distinctly state the fact; also, that the estimate is made without any consultation, connection or agreement with, and the amount thereof has not been disclosed to, any other person or persons making an estimate for the same purpose, and is not higher than the lowest regular market price for the same kind of labor or material, and is in all respects fair and without collusion or fraud; that no combination or pool exists of which the bidder is a member or in which he is directly or indirectly interested or of which he has knowledge, either personal or otherwise, to bid a certain price or not less than a certain price for said labor or material, or to keep others from bidding thereon, and also that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or any other officer or employee of the Corporation of the City of New York, or any of its departments, is directly or indirectly interested in this estimate or in the supplies or work to which it relates, or in any portion of the profits thereof, and has not been given, offered or promised, either directly or indirectly, any pecuniary or other consideration by the bidder or any one in his behalf with a view to influencing his action or judgment in this or any other transaction heretofore had with this Department, which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the verification be made and subscribed by all the parties interested.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, upon its being so awarded, become bound as his or their sureties for his faithful performance, and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled upon its completion and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work to be done, by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York and is worth the amount of the security required for the completion of the contract over and above all his debts of every nature and over and above his liabilities as bail, surety and otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount

of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from or contract awarded to any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

**THE RIGHT TO DECLINE ALL THE ESTIMATES IS RESERVED IF DEEMED FOR THE INTEREST OF THE CORPORATION OF THE CITY OF NEW YORK.**

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

EDWARD C. O'BRIEN, EDWIN EINSTEIN, JOHN MONKS, Commissioners of the Department of Docks.

Dated New York, February 6, 1896.

That we have, severally, duly taken and subscribed the oath required by section 2 of said chapter 894 of the Laws of 1895, each of which said oaths taken and subscribed as aforesaid were duly filed in the office of the Clerk of the City and County of New York on the 18th day of January, 1896.

The said real estate so taken as aforesaid is embraced within the lines of said addition to said Public Driveway, as duly laid out and established by the Department of Public Parks of said City of New York, as shown on three certain maps, duly filed, one in the office of the Department of Public Parks of the City of New York on or about the 3d day of July, 1895, one in the office of the Register of the City and County of New York on or about the 10th day of July, 1895, and one in the office of the Clerk of the City and County of New York on or about the 10th day of July, 1895.

All the parties, persons or claimants interested in the real estate taken for the purposes of said addition to said Public Driveway, or affected thereby, are hereby notified and required to present any claim or demand on account thereof to us, the undersigned Commissioners of Estimate and Assessment, duly verified, with such affidavits or other proof in support thereof as the said parties and persons or claimants so interested as aforesaid may desire, at our office, Room 113, Stewart Building, No. 280 Broadway, in the City of New York, within twenty days after the date of this notice.

We hereby set the 4th day of March, 1896, at 2 o'clock P. M., at said Room 113, Stewart Building, No. 280 Broadway, in the City of New York, as the time and place when and where the said parties and persons, or claimants, will be heard in relation thereto by us, as said Commissioners, and at such time and place, and at such further or other time and place as we may appoint, we will hear such parties and persons, or claimants, and examine the proofs submitted by them, or such additional proofs and allegations as may then be offered by such parties, persons or claimants, or on behalf of The Mayor, Aldermen and Commonalty of the City of New York.
