## BOARD OF EXAMINERS.

March 21, 1905.

Present—Messrs. Walter Cook, Warren A. Conover, Charles Brendon, Charles G. Smith, Edward F. Croker, Lewis Harding and William J. Fryer, Chairman.

Meeting called to order at 2 p. m.

On motion, minutes approved as read.

Appeal 9—N. B., 104 of 1905, premises north side East One Hundred and Ninth street, 200 feet west of Pleasant avenue, Manhattan. Coal pocket, George Haiss Manufacturing Company, appellants.

Laid over at last meeting.

On motion, laid over.

Appeal 12—Alt., 323 of 1905, premises southeast corner of Fourth avenue and Nineteenth street, Manhattan.

Laid over at last meeting.

A. Namur, appellant.

On motion, denied.

Appeal 14—N. B., 213 of 1905, premises north side of East One Hundred and Eighth street, 68 feet west of Pleasant avenue, Manhattan. George Haiss Manufacturing Company, appellants.

No. 1. Proposed frame structure is unlawful within the fire limits. Section 143 of the Code.

The Code makes no direct provisions for such structures, the nearest reference thereto being for grain elevators on tide water or adjacent to the river front. That the rules and regulations of the President of the Borough and the provisions of the law do not apply. That the Superintendent of Buildings, in view of fact that the Code makes no direct provisions for such buildings, erred in rejecting the above cited application. That as to the mode, manner of construction and the materials to be used, the Superintendent of Buildings erred in rejecting the above cited application. The location of this coal pocket is in a place devoted wholly to manufacture and commerce, and is isolated from any residences. That it is to be located in close proximity to the East river, a waterway for handling of the coarser and heavier freights. That the construction of other than heavily timbered coal pockets is practically prohibitive by reason of excessive cost, and further by reason of the short-lived nature of such buildings. In this case the granting of this permit will operate to the interest of the public in that it will further the manufacture of a pure article of every-day use and will tend to break the grip of the ice trust upon the people of this City.

Mr. J. F. Swinnerton appeared before the Board.

On motion, referred to Chief Croker for examination and report.

Appeal 15—Alteration of 1905, premises south side of Willoughby avenue, 250 feet east of Sumner avenue, Borough of Brooklyn.

Appellants, Helmle, Huberty & Huddswell.

The floor in roof construction, he requires to be of fireproof material, whereas plans filed show floor beams in new stories and roof construction to be the same as the wood floor construction in old portion which is now erected.

The appellants contemplate adding two stories to an existing extension to the main building; this extension was erected since the erection of the main building and was constructed with a view of adding three additional stories at some future date and all wall thicknesses were constructed accordingly.

The two stories proposed to be added are intended to relieve the main building and provide roomy quarters in the old building. The floor will be open from end to end about thirty feet wide and eighty feet long and twelve feet high, as will more fully appear by reference to the plans.

The new stories will have fire-escapes and balconies all around same, and every window will open thereon. The balconies will connect with exterior fire-escapes, stairs and large new exterior fireproof staircase at the end of the extension will provide ample accommodation for exits in emergency and will greatly relieve stairs of the main building.

The Orphan Asylum Society are rightfully proud of the buildings at St. Joseph's Asylum. The buildings are substantially constructed and equipped with every facility for the little orphans placed in their care.

An inspection of the buildings would certainly commend this appeal to your favorable consideration.

Wood floor construction is used in that portion of the extension erected prior to this date.

As heretofore stated this extension was built with the view of having additional stories, walls, columns, etc., added and were made amply strong to allow this.

Messrs. Huberty, Carlin and McGoldrick appeared before the Board.

On motion, laid over for one week.

Adjourned.

THOMAS F. DONOHUE, Clerk.

#### PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

#### NOTICE TO CONTRACTORS.

#### GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be included in the envelope containing the bid or estimate, but should be either included in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
