Multisystemic Therapy-Prevention	81	187	2.9	196
Special Medical	315	765	23.2	60
Trauma Systems Therapy	109	294	4.6	171
Total	6,922	16,107	8.0	5,648

Number of families who received prevention services after a reunification discharge from foster care ²	181
Number of children who received prevention services after a reunification discharge from foster care ²	305

Number of families who received prevention services and were also served by ACS Family Service Unit (FSU)	1,739
---	-------

Number of families who received prevention services and were living in DHS homeless shelter	829
---	-----

**2. Children Who Entered Foster Care³ April - June 2020
 Who Had Been Receiving Child Welfare Prevention Services⁴**

Children who were placed in foster care during prevention services	72
Children placed in foster care within 6 months after prevention services	48
Children placed in foster care 6-12 months after prevention services	14

Data Notes:

*New ACS prevention services contracts began July 1, 2020.

**The data in Table 1 are point-in-time and are reported as of the last day of the reporting quarter for comparison and consistency purposes. This is necessary because some families may have participated in more than one program during a given quarter, and data about families served by FSU or families living in DHS shelter are available only as point-in-time.

¹ Estimated available slots = program contract capacity minus active cases, and minus referrals pending for less than 14 days. "Advocates" cases during initial engagement phase may not be captured in the system of record nor fully accounted for in these data.

² Includes families and children who were reunified when preventive services were active or for who whom a new preventive case was opened within 60 days after reunification.

³ Excludes Close to Home placements.

⁴ Table 2 includes data for the full 3-month period and is not a subset of Table 1.

Data sources: PROMIS, Connections, DHS CARES data match with ACS.
