DEPARTMENT OF PARKS.

BOROUGHES OF BROOKLYN AND QUEENS.

Report for the Quarter ending September 30, 1904.

Office of the Department of Parks, Boroughs of Brooklyn and Queens, }
Litchfield Mansion, Prospect Park, }
Brooklyn, October 1, 1904.

Hon. GEORGE B. McCLELLAN, Mayor of The City of New York:

Sir—I have the honor to submit to you herewith, in accordance with the provisions of section 1544 of the Charter, a quarterly report of the proceedings and finances of the Department of Parks, Boroughs of Brooklyn and Queens, from July 1 to September 30, inclusive, 1904.

Very truly yours,
M. J. KENNEDY, Commissioner.

STATEMENT OF WORK PERFORMED BY THE DEPARTMENT OF PARKS OF THE BOROUGHES OF BROOKLYN AND QUEENS, DURING THE THREE MONTHS FROM JULY 1 TO SEPTEMBER 30, 1904.

Prospect Park.

The general work of maintaining, cleaning and improving this park inaugurated during the preceding quarter, has been carried on vigorously and is to-day showing very good and practical results. The work of building the paths to the south of Willink entrance has gone steadily forward and is at present close to completion. The work of rebuilding and resurfacing the drives has been completed, leaving the drives in the park in a very serviceable and presentable condition. A contract has been let to resurface, rebuild and reconstruct the asphalt walks in Prospect Park. When this contract shall have been carried out all of the walks throughout the park will be in first-class condition. The work of building the shelter house on the South Lake drive is completed, and designs for seats for same are now under way. The work of building the entrance at Ocean avenue, though somewhat delayed through the inability of the contractor to obtain stone, is at present within two or three weeks of final completion. On the lower terrace of the Flower Garden extensive improvements have been inaugurated; parts of the lawns that have in recent years settled and become worn out have been lifted and the grade made higher. The work of rebuilding the shore line around the lake has been started and the result so far in every way justifies the improvement. The work of improving and enlarging the animal quarters has gone steadily forward, and with gratifying results. A new bear cage, one of the finest in the country, is now practically completed and awaiting occupancy by the animals. The elk paddock has been improved and made larger. The sheep enclosure has been improved and a cement floor laid throughout its entire area. A contract has been let for the laying of sidewalks at the Ninth avenue and Fifteenth street entrance to this park, and is at present under way, and gives promise of being completed at an early date. During the last quarter bids were opened for the cleaning of the lake, and it is my best judgment that this work can be better done and more economically so by park labor and under park auspices. The work of regrading the slopes east of the Quaker Cemetery is practically completed. The work of regrading, harrowing and trimming the bridle paths has been completed. During the month of September a violent wind and rain storm destroyed many of the large trees of this park. The work of removing these trees and making good the damage done by their destruction has been completed.

Sunset Park.

The work of carrying out the original design of this park has been vigorously prosecuted. The recent additions to the park consisting of two blocks, bounded by Seventh avenue, Fifth avenue, Forty-third street and Forty-fourth street, has enabled me to proceed with the carrying out of the walk system of this park. Contracts have been let for the necessary sewer-pipe fittings and brick and supplies to build the drainage system for this park. I have also let a contract for the necessary materials to install and complete an irrigation system for this park. The slopes bordering on Forty-first street have been made and planted. The work of making the slopes and walks bordering on the Seventh avenue side is now under way, and I have hopes that before the arrival of the winter months they will have been completed.

Forest Park.

In this park large improvements have been begun. Two greenhouses, capable of taking care of the present needs of the Department, are now nearing completion. The work of building driveways through this park has practically been completed, and the work of building the gutters along the entire length of these drives has been started. It is the intention of the Department to establish in this park, and in fact the work of establishing a nursery has been begun. In this nursery there will be grown all the young trees and shrubs required for departmental work in the future. The work of laying out new golf links to the south of the drives has been started and is at present in very satisfactory state of progress.

Highland Park.

This park has received careful attention during the past three months. The work of grading the slopes and sodding them has progressed favorably. The slopes running down to the lake have been formed and sodded, and to-day present a very attractive appearance. The work of grading the embankment north of the lake is now being carried forward, and will be completed prior to the coming of winter. The roadways have been carefully looked after and repaired where necessary, and are to-day in a very satisfactory and commendable condition. During the concert season it was found impossible to accommodate all the people in the near vicinity of the music stand. To obviate this difficulty it was found necessary to extend the plateau in a southerly direction and on a level with the base of the music stand. To do this is required about five or six thousand cubic yards of fill and considerable labor. The walks around the lake have been built and screenings spread thereon. The storms of September played havoc with some of the large and old trees, and the work of removing these trees and making good the damage caused by their destruction has been completed. The park to-day is in a very presentable condition.

Carroll Park.

A contract was let to lay cement sidewalks on all four sides of this park. The work is now under way, and I am sure will be completed within two or three weeks. Designs have been prepared and the contract is now under preparation for a new shelter house for this park. The work of maintaining the grounds, trees and shrubbery and removing all dead trees and branches has been carefully looked after.

Institute Park.

At this park work has been started on a new walk from Flatbush avenue, bordering the reservoir. This walk is intended as an access from Flatbush avenue to the Institute grounds, and when completed will be the last walk to be built under the original design for this park. The large plateau in the rear of the Institute building has been regraded and screenings spread thereon, and the slopes and sides have been made and covered with top soil. The work of seeding and sodding these slopes is now being pushed forward.

Small Parks.

The small parks under the jurisdiction of this Department have received the usual care and attention in the way of maintenance and improvement. The trees and shrubs have been pruned and sprayed with a poisonous solution to prevent the ravages of caterpillars and other insects.

Playgrounds.

The playgrounds in Williamsburg Park and the playground under the Williamsburg Bridge and at New Lots Playground have been kept in very fine condition during the preceding three months. Screenings have been spread over the entire surface of these playgrounds, and attendants and apparatus have been in constant demand.

Parkways.

Highland Boulevard—Along this boulevard a contract has been let to lay cement sidewalks, starting at the viaduct across Vermont street and running in a northerly direction along the boulevard and up Bushwick avenue as far as the sidewalk in front of Evergreen Cemetery. This work has been completed and is a material improvement to the locality.

Ocean Parkway—Along the traffic road on the west side of this parkway the entire area of the roadway has been rebuilt and resurfaced from the Plaza to Twenty-second avenue. The drive itself has been kept in excellent condition, repairs here and there being found necessary after each heavy rainstorm. The work of taking care of the bridle paths and improving its condition was started at the Plaza and is being carried out along its entire length. The Bureau of Sewers, through its contractor, tore up the bicycle path for a great distance, necessitating the abandonment of this path for bicycle use. The work of building the sewer is now completed and the contractor has been notified, and the work of clearing up and restoring the bicycle path must be vigorously prosecuted.

The Speedway has been kept in excellent condition by spreading loam over its surface, raking and harrowing same daily. The trees along this fine boulevard have been carefully looked after. Dead trees and branches have been removed and new trees set out in their place.

Glenmore Avenue—On Glenmore avenue, from Fountain avenue to Eldert street, I have reconstructed the entire macadam roadway.

Pitkin Avenue—The work of keeping in repair this macadam road has been constantly looked after; large holes and depressions have been filled and the road kept sprinkled and cleaned.

Eastern Parkway—On the Eastern parkway the macadam road has been reconstructed from Utica avenue to New York avenue, consisting of five blocks. This work is now nearing completion, and when completed this roadway will be in fairly good condition with the exception of some slight holes and depressions in the westerly end.

Eastern Parkway Extension—The work of rebuilding the macadam roadway of this drive from Fulton street to Bushwick avenue, begun in the preceding quarter, was carried to completion in the last three months. This drive is now in excellent condition and is being daily sprinkled and cleaned.

Shore Road—During the last three months contracts have been let to widen this important roadway in several places. To Robertson & Gerehart was let the contract for widening the Shore road in places between Bay Ridge avenue and Eighty-ninth street. The work has been begun on the section lying near Seventy-fifth street, and is fairly under way. It will not, however, be completed this year, owing to the near approach of the winter months. This work when completed will completely obviate the danger of collision and accidents at this point, and is a very important piece of work.

The work of protecting the banks at the foot of Fourth avenue has been let to the Cranford Construction Company, and they are now actively engaged in carrying out this work. The roadbed and roads over its entire length has been carefully cleaned and sprinkled and is in a thoroughly satisfactory condition.

The Bay Ridge Parkway, from Fourth avenue to First avenue, has been carefully looked after. Sewer basins have been rebuilt, tops have been reset and all washouts occasioned by storms have been promptly looked after and repaired. This parkway also is in very fine and creditable condition.

Fourth Avenue and all similar streets under the jurisdiction of this Department have been carefully looked after, sprinkled and cleaned. The trees along these

streets have been well cared for. All decayed and damaged trees have been removed and replaced.

Music.

The concert season closed on September 25, with a grand concert by the United German Singers of Brooklyn, assisted by the Twenty-third Regiment Band. During the season thirty-three concerts were given in Prospect Park and thirty-four in the smaller parks, making a total of sixty-seven. It is estimated that over one million people attended the concerts and that they were thoroughly enjoyed by the residents of this Borough was fully attested by the large crowds.

Revenue From Parks and Parkways.

During the three months from July 1 to September 30, inclusive, the sum of four thousand six hundred dollars and four cents (\$4,600.04) was received from rents of houses and revenue from park privileges, which amount was turned over to Hon. Patrick Keenan, City Chamberlain, for deposit to the credit of the "Revenue Fund."

Finances.

HARRY W. WALKER, Secretary.

AQUEDUCT COMMISSION.

Minutes of Adjourned Meeting of the Aqueduct Commissioners, Held at Their Office, No. 280 Broadway, New York City, on Friday, September 16, 1904, at 2 P. M.

Present—Commissioners Windolph (Vice-President), Ryan, Curtis, Deputy Comptroller Phillips and Chief Engineer Smith.

In the absence of the Secretary, James F. Holder was designated Acting Secretary.

Minutes of September 8, 1904, were laid over.

Report No. 1045, of the Chief Engineer, dated September 12, 1904, regarding the application of the Norton & Dalton Contracting Company for an extension of time in which to complete their contract for overflow and blow-off pipe line from Gate House No. 2 of Jerome Park Reservoir, was received and referred to the Construction Committee.

The Chief Engineer submitted the following report:

No. 1047.

September 12, 1904.

To the Aqueduct Commissioners:

Gentlemen—In preparing for the impounding of water behind the New Croton Dam I have caused plans and specifications to be made looking to the remodeling of the Griffin farm house for a dwelling to be occupied by the Keeper now in the stone house at the Old Croton Dam, which stone house will be inundated by the impounding of water behind the new dam. I have also asked six local bidders to send me proposals for doing the necessary work, two of whom declined to bid. The four bids received are as follows:

(1) Daniel Carpenter, Ossining, N. Y.....	\$2,935 00
Grading, at 55c., 100 cubic yards.....	55 00
Total.....	\$2,990 00
(2) Merritt & Omme, Mt. Kisco, N. Y.....	\$3,525 00
Grading, at 25c., 100 cubic yards.....	25 00
Total.....	\$3,550 00
(3) John Cuatt & Sons, Ossining, N. Y.....	\$3,899 00
Grading, at 25c., 100 cubic yards.....	25 00
Total.....	\$3,924 00
(4) Fielding Gower, Yonkers, N. Y.....	\$3,993 00
Grading, at 50c., 100 cubic yards.....	50 00
Total.....	\$4,043 00

As this work will require about ninety days to finish—and I have estimated its value to be between \$2,600 and \$3,000—I would recommend that the Chief Engineer be given authority to give the work to Daniel Carpenter, of Ossining, N. Y., at \$2,935. and 55 cents per cubic yard for the necessary earth to be excavated to properly shape the grounds about the house. He promises to do the work in ninety days from date of execution of a contract.

Respectfully yours,

J. WALDO SMITH, Chief Engineer.

Which was approved and ordered filed and the Chief Engineer authorized to award the contract to Daniel Carpenter at the prices stated in his proposal, by the following vote:

Affirmative—Commissioners Windolph, Ryan and Curtis, and Deputy Comptroller Phillips—4.

The Chief Engineer also submitted the following report:

No. 1048.

September 13, 1904.

To the Aqueduct Commissioners:

Gentlemen—There will be required special bar grates and one "billy" or lifter to guard the relief openings in Gate House No. 2, New Croton Dam, before water is impounded behind the dam. These gates will weigh about 30,000 pounds, total, and are worth about five cents per pound, or \$1,500, delivered f. o. b. Croton-on-Hudson.

I have obtained five bids from reliable parties for furnishing this iron work, as follows:

(1) Bogart-Carlough Company, Paterson, N. J., 4 1/4c. per lb.; 30,000 lbs., at 4 1/4c.....	\$1,275 00
(2) Wm. H. Brodie & Co., New York City, 4 83-100c. per lb.; 30,000 lbs., at 4 83-100c.....	1,449 00
(3) J. W. Fiske Iron Works, New York City, 5 4-100c. per lb.; 30,000 lbs., at 5 4-100c.....	1,620 00
(4) Colwell-Wilcox Company, Newburgh, N. Y., 7c. per lb.; 30,000 lbs., at 7c.....	2,100 00
(5) John Fox & Co., New York City, 9c. per lb.; 30,000 lbs., at 9c.....	2,700 00

The lowest bidder is Bogart-Carlough Company, Paterson, N. J., at 4 1/4c., per lb., or a total of \$1,275. They will require but five weeks to furnish this iron work, and I respectfully ask authority to order this work done from said Bogart-Carlough Company, and authority to move the castings from Croton-on-Hudson and put them in place.

Respectfully,

J. WALDO SMITH, Chief Engineer.

THE FRANCHISE OF FERRY, AS MORE particularly hereinafter described, will be offered for sale by the Commissioner of Docks at public auction to the highest bidder, at Pier "A," Battery place, at 12 o'clock noon on

WEDNESDAY, NOVEMBER 23, 1904.

for a term of ten years from May 1, 1904.

To and from the foot of Broadway in the Borough of Brooklyn, The City of New York, across the waters of the East river or Sound, from and to the foot of East Twenty-third street, in the Borough of Manhattan, The City of New York, together with the wharf property belonging to The City of New York, assigned to be used in connection with and for the purposes of said ferry.

TERMS AND CONDITIONS OF SALE.

The lease will be sold subject to the approval of the terms thereof by the Commissioners of the Sinking Fund.

No bid will be received which shall be less than the upset price—namely, for the first term, five per cent. (5%) of the gross receipts of said ferry, to be not less than fifteen thousand dollars (\$15,000) per annum for the said franchise, together with the wharf property belonging to the City.

The purchaser will be required at the time of the sale to pay, in addition to the auctioneer's fee (viz. \$50), to the Department of Docks and Ferries, \$3,750 as security for the execution of the lease, which \$3,750 will be applied to the payment of the rent first accruing under the lease when executed, or will be forfeited to the Department if the purchaser refuses or neglects to execute the lease, with good and sufficient surety to be approved by the Commissioner of Docks within ten days after being notified that the lease is prepared and ready for execution at the office of the Department of Docks and Ferries, Pier "A," North river, foot of Battery place.

A surety or guaranty company, duly authorized by law to act as surety, to be approved by the Commissioner of Docks, will be required under the lease to enter into a bond or obligation jointly and severally with the lessee in the sum of double the annual rent, for the faithful performance of all the covenants and conditions of the lease.

The lease will contain the usual covenants and conditions, in conformity with the provisions of law and the ordinances of the Board of Aldermen relative to ferries, and shall provide that the lessees will maintain and operate the ferry during the whole term, and will provide ample accommodations in the way of safe and capacious boats and sufficiency of trips; that if at any time during the term hereof the Commissioner of Docks, or the person or persons then performing the duties now exercised by the Commissioner of Docks, shall be of the opinion that the boat or boats furnished by the party of the second part, or that the number of trips do not conform to the requirements of this lease, he may direct the party of the second part to make such improvements, construct such new boat or boats, or increase the number of trips as in his opinion the service demands; and in the event of the failure of the party of the second part to comply with such directions within a reasonable time, a commission shall be appointed, composed of the Mayor, the President of the Borough of Brooklyn and the Commissioner of Docks, on behalf of the City, and three other persons selected by the party of the second part, which commission shall be known as the Arbitration Commission, and in case of their failure to agree as to the improvements to be made in the service, they shall appoint a seventh person to act as umpire, and if they are unable to agree within five days upon such umpire, then, at the request of either of the parties hereto, he shall be appointed by the Presiding Justice of the Appellate Division of the Supreme Court of the State of New York, First Department, and the decision of four of said seven persons so selected shall be conclusive and binding upon both of the parties to this lease; also conditions that the lessees shall dredge the ferry slips, etc., as required by the Commissioner of Docks; that during the term of the lease they will erect and build, at their own expense, and will at all times well and sufficiently repair, maintain and keep in good order, all and singular the floats, racks, fenders, bridges and other fixtures of the landing places, and in the event of

any damage to the bulkheads or piers from collision by the ferryboats or otherwise, from any accident or negligence on their part, they will immediately repair and restore said wharf property to its previous condition free of cost to The City of New York; that if at any time during the term of the lease the Commissioner of Docks shall require any of the wharf property used for ferry purposes in order to proceed with the water front improvements in the vicinity of the ferry landings, the said lessee shall surrender and vacate the premises without any claim upon the city for any damages whatever, upon written notice being given to the lessees three months in advance of the intention of said Commissioner; the said notice shall, by terms of description, or by reference to the plans and specifications of the proposed work of improvement, specify the character of the alterations and improvements to be made in regard to said water front, affecting the property and rights hereby authorized to be demised, and upon receiving such notice the lessee may elect to terminate the lease of said ferry privilege or franchise by serving notice of such election upon the Commissioner of Docks within one month after receiving such notice from the Commissioner of Docks of his intention to improve the water front in the vicinity of the ferry landing; also that in case only a portion of said wharf property shall be required for the purposes aforesaid, then a reasonable reduction will be made from the rent reserved by said lease; that sworn returns of the amounts of ferry receipts shall be made to the Commissioner of Docks when required by said Commissioner, and that the books of accounts of the ferry shall be subject to the inspection of said Commissioner, or to any persons designated by him in writing.

The lease will contain a covenant providing that upon the expiration or sooner termination of the said term of ten years the lessee may, and upon demand in writing, by the Commissioner of Docks, or other proper officer or department of The City of New York thereto duly authorized, shall, at the cost and expense of the lessee, forthwith and at the utmost practicable speed, wholly remove from the premises herebefore described, buildings, platforms, floats, bridges, ferry racks, piling and fixtures which shall have been erected or placed by the lessee, its successors or assigns, upon or within the limits of the wharf property leased, so that there shall be in the slip adjacent to the hereinbefore described wharf property used for the purposes of said ferry, and in every part thereof, from the bulkhead out, at least ten feet of water at mean low water.

The rates of ferrage and charges for vehicles and freight shall not exceed the rates now charged on the present ferry.

The lessees shall provide such lifeboats, floats, rafts and life-preservers as may be directed by the Commissioner of Docks.

The form of the lease which the purchaser shall be required to execute can be seen at the office of the Commissioner of Docks.

The right to reject all bids is reserved, if deemed by the Commissioner of Docks to be for the best interests of the City so to do.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits, thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures. Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done.
