FOR CHARITABLE INSTITUTIONS.

All such appropriations being made subject to the following conditions:

1. The accounts of all charitable institutions receiving public moneys shall be so kept as to show the receipts of and disbursements from public moneys separately from the other funds of such institutions, and all institutions shall keep an exact record, to be corrected from time to time, in a form to be approved by the Comptroller, showing the addresses of the parents, guardians, or nearest relatives of inmates, and other information designed to facilitate inquiry into their financial inability to provide for such inmates.

2. Moneys received from the City Treasury shall be used by such institutions only for recurring expenses of "care, support and maintenance."

3. All institutions receiving public moneys shall be at all reasonable times open to the visitation and inspection of duly authorized representatives of the Department of Public Charities and the Department of Finance.

4. Upon it appearing to the satisfaction of the Comptroller that it would be to the public interests to withhold payments to any charitable institution for which an appropriation has been made, he shall give written notice to such institution of his intention to apply to the Board of Estimate and Apportionment for authority to so withhold such payments, and upon the determination of said Board that such payments should terminate, the right of any such institution to receive payment for services rendered thereafter shall thereupon cease.

5. Except where appropriations are made in bulk and not upon a per capita basis, no payment shall be made for inmates of private charitable institutions unless the same shall have been accepted by the proper Commissioner of the Department of Public Charities as a proper charge against the City, and, except in emergency cases, Commissioner of Charities shall not accept as proper charges against the City inmates capable of paying for their own support or for whose care adequate provision can be made in public institutions. The City shall not become liable for any payment to a charitable institution in excess of the appropriation which may have been made to such institution, notwithstanding any per capita rates of payment that may have been fixed for the inmates thereof.

6. All institutions receiving money from the City are required to state specifically the amount so received, as from the City Treasury, in their printed annual reports.

7. "That no money be paid to any private charitable institution which pays any salary to or gives any consideration, financial or of any kind, for services to, or that has any business dealing with, or secures goods or merchandise, directly or indirectly, from any officer or trustee or member of its Board of Managers."

8. The rates of payments to private charitable institutions, unless otherwise specially provided for, are fixed for the various classes of inmates as follows:

For infants under two (2) years of age, and in infants' hospitals also between the ages of two and five, per day..... \$0 38
For dependent children, from two (2) to sixteen (16) years of age, per week..... 2 00
For delinquent children, per annum..... 110 00
For adult inmates of reformatories, committed by the Courts, per annum..... 110 00
For inmates in homes for fallen and friendless women, per annum..... 110 00
*For maternity cases, per case..... 18 00
*For homeless mothers, nursing infant, per month..... 12 00
To hospitals for medical treatment, per day..... 60
To hospitals for surgical treatment, per day..... 80
To hospitals for chronic, incurable or infirm patients, per day..... 30

* Institutions shall be paid \$18 for the care of the mother and child during fifteen days of her confinement, and for every day thereafter shall be paid at the rate of 38 cents per day for the support of the child, and also \$12 per month for the maintenance of the mother, if she remain in the institution nursing her own infant after the expiration of the fifteen days.

That charitable institutions for children now carried in the Budget and not sending their inmates to the Public Schools, and not sharing in the Corporate School Fund, and not receiving Teachers and school supplies from the Board of Education, but giving in their own buildings secular education to the children resident in the institutions, shall be paid a per capita of 25 cents per week for each child receiving such instruction of four years of age and over during ten months in the year. This money to be paid under the authorization of section 230 of the Charter, but under the general conditions relating to institutions receiving Corporate School money, as provided in section 1154.

AN ORDINANCE giving and granting to the Harlem Transfer Company permission to lay and maintain and operate railroad tracks on Railroad or Park avenue, south of One Hundred and Thirty-fifth street, Borough of The Bronx.

Be it Ordained, by the Board of Aldermen of The City of New York, as follows:

Section 1. The Board of Aldermen hereby approves and concurs in the following resolution adopted by the Board of Estimate and Apportionment the 10th day of June, 1904, giving and granting the Harlem Transfer Company permission to lay, maintain and operate railroad tracks on Railroad or Park avenue, south of One Hundred and Thirty-fifth street, Borough of The Bronx, upon the terms and conditions therein specified.

Resolved, That the consent of the Corporation of The City of New York be and the same is hereby given to the Harlem Transfer Company, a corporation, to lay, maintain and operate two (2) railroad tracks along Railroad avenue, East, beginning at the bulkhead line of the Harlem river and extending northerly along said avenue to a point south of East One Hundred and Thirty-fifth street, as shown and indicated upon the map marked "The Harlem Transfer Company, Map showing proposed tracks in Railway avenue, Borough of The Bronx, New York City. Proposed tracks shown in red. Scale, 1 inch, 20 feet. Dated May 6, 1904, made by Edward D. B. Brown, Engineer, and signed Harlem Transfer Company, per J. C. Watson, General Manager," copy of which is annexed hereto, and which is made a part hereof, upon the following terms and conditions:

First—Said consent shall be for a period of time coterminous with the lease now held by the said Harlem Transfer Company of the bulkhead at the foot of Railroad avenue, and the extensions or renewals of said lease, not exceeding twenty-five years from the granting of said consent.

Second—The Harlem Transfer Company, its successor or assigns shall pay into the Treasury of The City of New York, the following sums of money:

During the first five years the annual sum of.....	\$1,320 00
During the second five years the annual sum of.....	1,390 00
During the third five years the annual sum of.....	1,455 00
During the fourth five years the annual sum of.....	1,530 00
During the fifth five years the annual sum of.....	1,600 00

—after which the permission, unless sooner revoked, shall expire by limitation.

Such sums shall be paid into the Treasury of The City of New York on November 1 in each year, provided, however, that the first payment shall be only that proportion of \$1,320 as the time between the approval of this consent and November 1, following, shall bear to the whole of one year.

Third—Upon the revocation or termination by limitation of this consent, the said company shall forthwith remove the plant and property, with its appurtenances, from the street, and the surface of the street shall be restored to a condition equal to that of the surrounding surface or pavement. In default of the performance of this condition by the said company, its successor or assigns, the proper local authorities may cause such tracks, property and plant to be removed from the street aforesaid, and the surface thereof to be restored in the manner above described, at the expense of the said company, its successor or assigns, and such expense shall be recovered by The City of New York by action or otherwise.

Fourth—The consent hereby given shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein pass to or vest in any other person or corporation whatsoever, either by the acts of the Harlem Transfer Company, its successor or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of The City of New York, acting by the Board of Estimate and Apportionment, or its successor in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in any wise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Fifth—The said railroad tracks may be used and operated by locomotive steam power or by any other motive power which may be approved by the Board of Railroad Commissioners, in accordance with the provisions of the Railroad Law, excepting overhead electrical power, provided, however, that the locomotive steam engines used shall be housed or boxed so as to conform to the type commonly known as the dummy engine.

The number of cars to be included in any train operated upon the railroad tracks shall be limited to ten, and the speed of the engine and cars shall never exceed six miles per hour.

Sixth—The railroad tracks constructed under this consent shall be maintained and operated solely for the purpose of transportation of goods, wares and merchandise, and for no other purpose, and especially for no purpose in connection with the passenger traffic as commonly understood.

Seventh—Such railroad tracks shall be constructed, maintained and operated in the latest improved manner of street railroad construction and operation, and solely upon the terms and according to the lines and surveys and of the character of the rails and other parts of the construction approved by the President of the Borough of The Bronx. Such railroad tracks of the said company, its successor or assigns, shall be maintained in good and safe condition throughout the terms of this consent.

Eighth—Such railroad tracks shall be constructed, maintained and operated subject to the supervision and control of all the authorities of The City of New York who have jurisdiction in such matters under the Charter of The City of New York.

Ninth—The Harlem Transfer Company, its successor or assigns, shall at the time of the laying of the tracks hereby authorized to be laid, pave with granite blocks or other material, as required by the proper City authorities, upon a good and sufficient foundation, a roadway of a width of twenty-four (24) feet in the centre of Railroad avenue, East, extending from the bulkhead platform to the southerly side of East One Hundred and Thirty-fifth street, under the supervision of the President of the Borough of The Bronx, and shall pay the cost thereof.

Tenth—The said company, its successor or assigns, shall keep in permanent repair the pavement of the roadway required to be laid by it, under the supervision of the proper local authorities, and whenever required by them to do so, and in such manner as they may prescribe.

Eleventh—The said company, its successor or assigns, shall at all times keep the street between the tracks free and clear from ice and snow.

Twelfth—Said company shall be liable for all damages to persons or property and to the street and the sewer therein by reason of the construction or operation of said railroad tracks, and it is a condition of this consent that The City of New York assumes no liability to either persons or property on account of this consent.

Thirteenth—This consent is upon the further and express condition that the provisions of the Railroad Law applicable thereto, and all laws or ordinances now in force or which may be adopted relating to surface railroads operating in The City of New York shall be strictly complied with.

Fourteenth—The said company, its successors or assigns, shall commence the construction of the railroad tracks under this consent and complete the same within one year from the date when it has obtained the necessary permits and resolutions of the City officials and departments and on or before June 1, 1905; otherwise this consent shall be forfeited forthwith and without any proceedings either at law or otherwise for that purpose; provided, however, that such time may be extended by the Board of Estimate and Apportionment for a period not exceeding six months.

Fifteenth—This consent is upon the express condition that the said company, within thirty days after it has been duly authorized to construct, maintain and operate its railroad tracks hereunder and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of The City of New York the sum of five hundred dollars (\$500), either in money or in securities, to be approved by him, which fund shall be security for the performance of the terms and conditions of this consent, especially those which relate to the payment of the annual charge for the consent, the repairs of the street pavement and the removal of snow and ice and the quality or construction of the railroad tracks. In case default in the performance by said company of such terms and conditions The City of New York shall have the right to cause the work to be done and the materials to be furnished for the performance thereof, after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings, or after default in the payment of the annual charges shall collect the same with interest from such fund after ten days' notice in writing to the said company.

In case of any drafts so made upon the security fund, the said company shall, upon thirty days' notice in writing, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of five hundred dollars (\$500), and in default thereof the consent hereby given may be canceled and annulled at the option of the Comptroller of The City of New York, acting on behalf of said City. No action or proceeding or rights under the provisions of this section shall affect any other legal rights, remedies or causes of action belonging to The City of New York.

Sixteenth—This consent shall not become operative until said company shall duly execute, under its corporate seal, an instrument in writing wherein said company shall promise, covenant and agree on its part and behalf to conform to and abide by and perform all the terms and conditions and requirements in this consent fixed and contained, and file the same in the office of the Comptroller of The City of New York within thirty days after the signing of this resolution by the Mayor.

Seventeenth—The compensation herein reserved shall commence from the date of the approval of this resolution by the Mayor.

Eighteenth—The consent hereby granted is revocable at the pleasure of the Board of Aldermen.

Third—General: And such other streets, avenues, highways, public places, etc. (named and unnamed), as may be hereafter opened or encountered in such routes or amended routes; and also such other streets, avenues, highways, public places, etc. (named and unnamed), now open or in use, or as may be hereafter opened or put in use, which it may be necessary for said railway to cross in order to make connections with any other railway within one thousand (1,000) feet of said routes; provided that the Board of Estimate and Apportionment shall first have given permission for such connection or connections, and provided further that such connections shall be limited to two in number.

Sec. 2. The grant of this privilege is subject to the following conditions:

First—The provisions of section 6 of the Railroad Law shall be fully complied with, and in addition to the maps required to be filed with the Railroad Commissioners, it shall be incumbent upon the grantee to file with the Comptroller of The City of New York, and also with the President of the Borough of The Bronx, a map or maps showing the number of tracks and the length and direction of each crossing of all streets legally open, in use, or for which proceedings have been initiated to open, accurately determined by measurements to be taken after the commencement of the operation of any portion of the railway.

Second—The said right to cross the streets and the privilege to construct and operate said railway shall be held and enjoyed by said railway company, its lessee or successors, for the term of twenty-five years from the date when this ordinance is approved by the Mayor, with the privilege of renewal of said grant for a further period of twenty-five years upon a fair revaluation of said right and privilege. Such revaluation shall be of the right and privilege to maintain and operate said railway across the said streets by itself, and not to include any valuation derived from the ownership, operation or control of any other railroad by the grantee, its successor or assigns.

If the railway company shall determine to exercise its privilege of renewal, it shall make application to the Board of Estimate and Apportionment of The City of New York, or any authority which shall be authorized by law to act for the City in place of the said Board. Such application shall be made at any time not earlier than two years and not later than one year before the expiration of the original term of this grant. The determination of the revaluation shall be sufficient, if agreed to in writing by the railway company and the Board of Estimate and Apportionment or such other authority in its place. If the railway company and the Board, or such other authority in its place for the City, shall not reach such agreement on or before the day one year before the expiration of the original term of this grant, then the annual rate of compensation for such succeeding twenty-five years shall be reasonable; and either the City (by the Board, or such other authority in its place) or the railway company shall be bound upon request of the other to enter into a written agreement with such other authority fixing the rate of such compensation at such amount as shall be reasonable; and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board of Estimate and Apportionment or its successors in authority; one disinterested freeholder shall be chosen by the railway company; these two shall choose a third disinterested freeholder; and the three so chosen shall act as appraisers and shall make the revaluations aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of the grant, and their report shall be filed with the Comptroller or his successor in authority within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience, and upon such information as they may obtain by inquiries and investigations without the presence of either party. They shall have the right to examine the books of the railway company. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but shall not in any event be less than the minimum amount fixed as the sum to be paid annually for the last year of the original grant. If in any case the annual rate shall not be fixed prior to the termination of the original term of this grant, then the railway company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate.

Third—Upon the termination of this grant, whether original or renewal, all rights and privileges hereby granted to cross the said streets shall cease and determine, unless the said railway company, its successor or assigns, shall have previously procured a new grant for the same from The City of New York.

Fourth—The New York, Westchester and Boston Railway Company, its successor or assigns, shall pay for this privilege to The City of New York the following sums of money: During the first ten years, commencing upon the day when this ordinance shall be approved by the Mayor, an annual sum of eight thousand (8,000) dollars, and during the succeeding fifteen years an annual sum of sixteen thousand (16,000) dollars. From the date of the commencement of the operation of any portion of the railway until the end of the first ten years of this grant, an additional sum of forty (40) cents per linear foot per annum for each line of single track railway within the lines of all streets in use, legally opened streets, or streets for which proceedings to open have been initiated, and for the succeeding fifteen years an additional sum of eighty (80) cents per linear foot per annum, in lieu of said sum of forty (40) cents. Such payments shall likewise apply to all streets hereafter opened during the term of this grant, unless the land required for the opening of such street across the right of way of the railway company shall have been ceded free of cost to The City of New York. All such payments shall be made to the Comptroller of the City in equal payments at the end of each quarter year on the 1st day of January, April, July and October in each year. The terms hereafter to be fixed for any renewal term of this grant shall not in any event be less than the minimum amount fixed as the sum to be paid annually during the last year of the original grant, and no renewal of such grant shall provide for a further renewal.

Fifth—The said annual charge or payment shall continue throughout the whole term of the privilege hereby granted, whether original or renewal, as hereinbefore provided, notwithstanding any clause in any statute or in the charter of any other railway company providing for payments for railway rights or franchises at a different rate, and no assignment, lease or sub-lease of the rights or privileges hereby granted, whether original or renewal, or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sub-lease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this grant; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said condition as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise, exemption from liability to perform each and all of the conditions of this grant. Nothing herein contained shall apply to any mortgagee or mere lienor, but shall apply to any purchaser upon foreclosure or under or by virtue of any provision of a mortgage or lien.

Sixth—The rights and privileges granted hereby shall not be assigned either in whole or in part, or leased or sub-let in any manner, nor shall title thereto or right, interest or property therein pass to or vest in any other person or corporation whatsoever, either by the act of the New York, Westchester and Boston Railway Company, its successor or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations, or otherwise, without the consent of The City of New York, acting by the Board of Estimate and Apportionment, or its successor in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents. This provision, however, shall not apply to the making of a mortgage, but shall apply to a sale under foreclosure.

Seventh—No street shall be crossed by the railway at grade, and all streets now open or in use, or streets hereafter opened crossing the line of said railway shall be carried over or under said railway by the grantee, at the sole cost and expense of the grantee. The costs of all approaches to said crossings and any damages to property incurred by such change of grade shall likewise be borne and paid by the grantee.

Eighth—All viaducts over streets and all tunnels under streets and all bridges necessary to carry the streets over an open cut, shall be constructed at the expense of the grantee, and in such manner as shall not interfere with the ordinary use of the street as a public highway. All viaducts over streets shall have a height of at least sixteen feet in the clear throughout, and in the case of arch construction not less than sixteen feet in the clear at the centre and ten feet in the clear on the building or side line of said street. In the case of tunnel construction under a street, there shall be at least four feet between the grade of the street and the exterior surface of the arch of said tunnel.

Ninth—Any superstructure of the railway crossing a street and having a length of seventy-five (75) feet or less, shall be constructed in a single span; if more than seventy-five (75) feet in length, intermediate columns to support the structure may be

placed in the street in such manner as may be approved. The width of such superstructure of the railway shall not exceed sixty (60) feet when measured over all.

Tenth—The plans for all structures over or under any street must first be submitted to and approved by the Board of Estimate and Apportionment, and all such structures shall be constructed of either steel, concrete or masonry, or a combination of these materials.

Eleventh—The railway shall be constructed in the most modern and approved manner of railway construction. The roadbed shall be ballasted throughout its entire length within the limits of The City of New York, with a sufficient quantity of either blast furnace slag or broken trap rock of a hard and durable quality, and no dirt, sand, gravel or cinders shall be used in such ballast.

Twelfth—The roadbed within the limits of The City of New York shall be watered daily whenever the thermometer is above 35 degrees Fahrenheit. For any failure to comply herewith, the railway company shall be liable for a penalty of fifty dollars (\$50) per day.

Thirteenth—The entire right of way of the company within the City limits shall be fenced throughout.

Fourteenth—All abutments or foundations for bridges, viaducts and stations and the stations proper, except intermediate supports for viaducts, as hereinbefore provided, shall be placed on the land of the company. There shall be constructed along the line of the route of the main line of the railway as proposed, for the accommodation of local passenger traffic, at least six (6) stations between the Harlem river and the Bronx river, and at least four (4) stations between the Bronx river and the northerly line of The City of New York as now fixed; provided, however, that if the railway is constructed only as far south as the intersection of the Southern Boulevard and Westchester avenue, then there shall be at least three (3) stations west of the Bronx river. On the branch line there shall be constructed at least three (3) stations east of Westchester avenue.

Fifteenth—The said railway may be operated by electrical power, except the overhead trolley system, or by any other mechanical motive power which may be lawfully employed upon the same, except locomotive steam power; provided, however, that steam locomotive power may be used for switching and shunting trains when specifically authorized by the Board of Estimate and Apportionment; such permission to continue only during the pleasure of the said Board.

Sixteenth—No wires for the transmission of power shall be permitted except they be placed in conduits, and in any conduits laid by the company for the transmission of power for its own use, provision shall be made to carry three (3) cables for the use of the police, fire and ambulance service of the City without charge therefor.

Seventeenth—The railway company shall not carry power along its structure for any purpose except the operation of its railway, except as provided above.

Eighteenth—The railway company shall operate a train schedule on the main line of at least sixty (60) trains in either direction daily, stopping at all of the stations within the City limits, and at no time either day or night shall there be greater headway between such trains than thirty (30) minutes; provided, however, that said railway company during the first five years after the commencement of the operation of any portion of the railway shall not be required to operate its trains within the City limits between the hours of 1 o'clock and 4 o'clock A. M., each day, unless the Board of Estimate and Apportionment shall determine, after a hearing had thereon, that public convenience requires the operation of its cars during such hours.

Nineteenth—All cars on said railway shall be heated during the cold weather in conformity to such laws and ordinances as are now in force, or may hereafter be enacted or adopted by the State or City authorities, and any failure to keep the temperature of any of the cars of the company above 50 degrees Fahrenheit, shall make the company liable for a penalty of fifty (50) dollars per car per day for each offense.

Twentieth—All cars operated by the company shall be vestibuled and the system of lighting same shall be adequate and be made satisfactory to the Board of Estimate and Apportionment.

Twenty-first—During the first twenty-five (25) years of this grant the rate of fare upon said railway within the limits of The City of New York as now fixed shall not exceed five (5) cents for any passenger. The said company shall not charge any passenger more than such sum for one continuous ride from any point on said railway or a line or branch operated in connection therewith and controlled by it, to any point thereof or of any such connecting line or branch thereof, within the limits of The City of New York, as such limits now exist, during such term.

At the expiration of twenty-five years the Board of Estimate and Apportionment shall be entitled, after due hearing and determination of the reasonableness thereof, to require for the term of the renewal of said grant that the fare for each passenger within the City limits, as they may then be constituted, shall not exceed five (5) cents.

The rates for the carrying of property upon the routes of the grantee within the limits of The City of New York shall in all cases be reasonable in amount and shall be subject to the control of the Board of Estimate and Apportionment, or its successor in authority, and may be fixed by such Board after notice and hearing to the grantee, and when so fixed such rate shall be binding upon said grantee, its successor or assigns, and no greater sums shall be charged for such service than provided for by it.

Twenty-second—The said railway company shall carry free within the limits of The City of New York during the existence of this grant or its renewal, all letter carriers of the United States Government, and members of the Police and Fire Departments of The City of New York, when such employees are in full uniform.

Twenty-third—The said railway shall be constructed, maintained and operated subject to the supervision and control of all the authorities of The City of New York who have jurisdiction in such matters under the Charter of the City.

Sec. 3. In case of any violation or breach or failure to comply with any of the provisions herein contained this grant may be forfeited and avoided by The City of New York by a suit brought by the Corporation Counsel, provided, that in case of any such violation, breach or failure to comply with any of said provisions the said City shall cause notice in writing thereof to be served upon said company, and said company shall remedy such violation, breach or failure within ten (10) days thereafter, and in default thereof then, and not otherwise, said right of forfeiture shall accrue and may be enforced by the said City; provided, further, that if the said railway company, grantee hereunder, shall within said ten (10) days commence to remedy said violation, breach or failure and shall prosecute the work of completing such remedy with diligence and with the utmost practicable dispatch until the same shall be completed, then no right of forfeiture shall accrue.

Sec. 4. The grant of this privilege shall not affect in any way the right of The City of New York to grant a similar privilege upon the same or other terms and conditions to any other person or corporation.

Sec. 5. Said railway company shall commence actual construction within one year from the date of the signing of this ordinance by the Mayor, and shall complete a four-track railway upon the main line, from the northerly line of the City as far south as the intersection of the Southern Boulevard and Westchester avenue, within five years from such date, otherwise this grant shall cease and determine.

Said railway company shall expend the sum of at least one million dollars (\$1,000,000) for construction within the limits of The City of New York within two years from the date of the signing of this ordinance, which sum shall be exclusive of any moneys expended for right of way.

A statement of the moneys so expended for construction shall be submitted to the Comptroller of The City of New York, who shall, after investigation, report to the Board of Estimate and Apportionment his opinion as to whether such sums have been actually expended, and if in the opinion of the said Board the grantee has not proven an expenditure of the said sum within the time given, then said Board may declare that this grant has ceased and determined, and the said action of said Board shall be prima facie evidence of said forfeiture.

Any portion of the route covered by this grant which shall not be completed and in full operation within seven years from the date of the signing of this ordinance shall be deemed to have been abandoned, and all rights hereby granted in and to such portions of said railway shall cease and determine. And in the event that the said railway company shall not, within the said seven years, construct its main line south of the intersection of the Southern Boulevard and Westchester avenue and to the Harlem

river, the Board of Estimate and Apportionment, or its successors in office, may fix and finally determine such additional compensation as shall be imposed upon said railway company because of such failure.

A majority vote of the members of the Board of Estimate and Apportionment shall be prima facie evidence in regard to the forfeiture of any or all the rights under this grant, as provided for in this section. Before action is taken by the Board of Estimate and Apportionment, under the provisions of this section, the grantee shall have at least thirty (30) days' notice of the intention of said Board to take action, and at such time as is appointed, shall be allowed a hearing. In case any or all of the rights hereby granted are forfeited, it is a condition of this grant that all sums theretofore paid to The City of New York, together with the deposit of \$20,000, as provided for in section 14 of this ordinance, and all structures erected by said grantee, its successor or assigns, within the lines of any street, shall be forfeited to and become the property of The City of New York.

The Board of Estimate and Apportionment shall have power to extend the time provided for in this section for the completion of the railway and for the work to be performed and expenditure to be made, as above, for a period or periods not exceeding in the aggregate two years, but such extension shall not be made unless the reasons given by the grantee for non-fulfillment are, in the opinion of the Board of Estimate and Apportionment, for causes over which the grantee had no control and was in nowise responsible.

Sec. 6. The grantee shall assume all liability by reason of the construction and operation of the railway and the City shall assume no liability whatsoever to either persons or property by reason of its construction or operation.

As a condition of this grant, the grantee, its successor or assigns, hereby agrees to repay to the City any damages which the City shall be compelled to pay by reason of any acts or defaults of the railway company, its successor or assigns.

Sec. 7. Any portion of the right of way of the said railway company falling within the lines of a street now shown on the map of The City of New York, which it may be necessary for the City to subsequently acquire, shall be ceded to the City, without cost to it, subject to the company's easement therein.

Sec. 8. In case the City shall acquire the land necessary for a street across the grantee's right of way and such land for the street is not ceded by the said grantee, then the railway company shall pay the same rates for the privilege of crossing said street as are provided for in paragraph fourth of section 2 of this ordinance.

Sec. 9. In case any of the streets as now shown on the map of The City of New York and crossed by the said railway above grade are altered or widened after the grantee has completed its railway, and such widening requires the alteration of the superstructure of the railway, the grantee and The City of New York shall each pay one-half of the cost of such alteration as may be necessary.

Sec. 10. In case the route as laid out shall make it necessary in the opinion of the Board of Estimate and Apportionment to change the map of The City of New York, in order to avoid unnecessary or undesirable crossings or for other reasons purely on account of the location of the railway, and by such change or alteration additional streets bounding the grantee's right of way are determined upon, then the grantee shall acquire such streets at its own expense.

Sec. 11. Any alterations which may be required to the sewerage or drainage system, or to any subsurface structures, pipes, etc., laid in the streets, on account of the construction or operation of the railway, shall be made at the sole cost of the railway company, and in such manner as the proper City officials may prescribe.

Sec. 12. All construction of railway crossings shall be done in such manner as shall not substantially interfere with the ordinary use of any street as a public highway, and all streets in any way disturbed by such construction shall be restored to their original condition. In case of failure on the part of the grantee to restore such streets within a reasonable length of time, The City of New York shall have the right, under resolution of the Board of Estimate and Apportionment, to cause the work to be done and the materials to be furnished after due notice and shall collect the reasonable cost thereof from the fund herein provided.

Sec. 13. The company's property and structures shall not be used for advertising purposes in any way, under a penalty of fifty (50) dollars per day for each offense. Such restriction shall not apply to the interior of stations or cars.

Sec. 14. This grant is upon the express condition that the New York, Westchester and Boston Railway Company, within thirty days after the said company has been duly authorized to operate its railway and before anything is done in exercise of the rights conferred thereby, shall deposit with the Comptroller of The City of New York the sum of twenty thousand dollars (\$20,000), either in money or in securities, to be approved by him, which fund shall be security for the performance by such company of the terms and conditions of this grant, especially those which relate to the payment of the annual charge for the privilege and the penalties herein provided, and in case of default in the performance by said company of such terms and conditions, The City of New York shall have the right, after due notice, to collect the same from the said fund without legal proceedings, or after default in the payment of the annual charges shall collect the same, with interest, from such fund after ten days' notice in writing to the said company. In case of any drafts so made upon this security fund, the said company shall, upon thirty days' notice in writing, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of twenty thousand dollars, and in default thereof the grant hereby made may be canceled and annulled at the option of the Comptroller of The City of New York, acting on behalf of said City. No action or proceeding or rights under the provisions of this section shall affect other legal rights, remedies or causes of action belonging to The City of New York.

Sec. 15. That if the said New York, Westchester and Boston Railway Company, its successor and assigns, shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures and all street crossings in good condition throughout the full term of its occupancy of said streets, the Board of Estimate and Apportionment of the City may give written notice to said company, specifying any default on the part of said company and requiring said company to remedy the same within a reasonable time, and upon the failure of said company to remedy its said default within a reasonable time, said company shall, for each day thereafter during which the default or defect remains, pay to The City of New York the sum of two hundred and fifty dollars (\$250) as fixed and liquidated damages, or the said City in case said structures over or under streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the company, in which case the said company shall pay to the City the amount of the cost of such repairs, with legal interest thereon; all of which sums may be deducted from the fund hereinbefore provided.

Sec. 16. This grant shall not become operative until said railway company shall duly execute, under its corporate seal, an instrument in writing wherein said company shall promise, covenant and agree on its part and behalf to conform to and abide by and perform all the terms and conditions and requirements in this ordinance fixed and contained, and file the same in the office of the Comptroller of The City of New York, within ten days after the adoption of this ordinance.

Sec. 17. This ordinance shall take effect immediately.

BOARD OF EXAMINERS.

August 2, 1904.

Present—Messrs. Walter Cook, Warren A. Conover, William C. Smith, Charles G. Smith, Edward F. Croker, Charles Brendon and William J. Fryer (Chairman).

Meeting called to order at 2 P. M.

On motion, minutes approved as read.

Appeal No. 84—470 N. B. of 1904, premises, Nos. 306 to 316 East Sixty-first street, Borough of Manhattan. Thomas H. Styles, appellant.

"That owing to height of building, present walls of which exceed 75 feet, the same should be made fireproof, and that said walls are of unlawful thickness.

"As the walls already exist, and are constructed of best quality hard brick, laid in cement, and as the total height of same will remain unchanged, and as the buildings were formerly used and occupied as a malt house, we would therefore ask that permission be granted to maintain present walls and to alter floor levels to suit plans as filed.

"The former building were eight and a half stories, and the intention being to make building but seven stories in height.

"That permission be granted to allow use of present walls as existing, and to arrange stories, height of same, etc., as shown on plans.

"This being an alteration of an existing eight and a half-story building without increasing height of same.

"By reason of making building semi-fireproof, or of slow-burning construction; floors to be three inches thick; stairway inclosed within brick walls from cellar to top, and by reason whereof no changes are to be made in height of present walls, thus converting the existing building into one that is better than the law required when the building was erected, and better than the law now requires for a new non-fireproof building, we therefore ask that the application be approved."

Mr. Thomas H. Styles appeared before the Board.

On motion, approved, as in the opinion of the Board, the building is in effect an alteration.

Appeal No. 85—581 B. N. B. of 1904, premises, northeast corner of One Hundred and Thirty-eighth street and Locust avenue, Borough of The Bronx. A. F. A. Schmitt, appellant.

"Construction unlawful, as it does not conform with section 27 of Building Laws. The owners think the mode of construction as shown by the plans more desirable for a boiler house, and therefore prefer the same.

"To allow the boiler house building to be erected with steel frame throughout, and all then covered with corrugated, galvanized steel or iron, as shown by the plans, instead of brick and stone walls.

"The doors, door frame and window frames will be covered with metal.

"The owners prefer the said mode of construction for boiler house, thinking the same more desirable than any other.

"Also because their large furnace building being constructed or rather had been constructed in same manner."

Mr. A. F. A. Schmitt appeared before the Board.

On motion, appeal denied.

Appeal No. 86—Fireproof Shutter Case No. 25 of 1904, premises, Nos. 518-520 West Twenty-second street, Borough of Manhattan. James W. McElhinney, appellant.

On motion, appeal referred to Chief Croker.

Appeal No. 87—1245 Alt. of 1904, premises, No. 572 Fifth avenue, Borough of Manhattan. Robert L. Morrell, appellant.

"Walls of extension should be lined to make them conform to the provisions of section 32 of the Code.

"The law relating to the thickness of warehouse walls does not strictly apply to the building under consideration.

"Whether the present walls of the extension can be raised to the height shown on the plans without lining the walls of the lower story.

"The additional stories being used for the purposes of a photographic studio, the building should not be treated strictly as coming under the warehouse classification.

"That the present walls are in good condition and of sufficient strength for the additional stories.

"That the lining that may be provided would not materially strengthen the existing walls.

"That the extension which is being raised is only 17 feet in width and 25 feet in length, so that the walls are thoroughly braced."

On motion, appeal approved.

Adjourned.

Two wooden tanks on wood and concrete bases; one about 17 feet in diameter, the westerly side of which is about 150 feet east of the easterly side of Eleventh avenue and its southerly side about 50 feet north of the northerly side of West Seventeenth street, and one about 23.5 feet in diameter whose westerly side is about 213 feet east of the easterly side of Eleventh avenue and whose southerly side is about 5 feet north of the northerly side of West Seventeenth street.

Lot No. 5. The line on which this building is to be cut off is not at right angles to the structure, but on a diagonal line between trusses. Arrangements must therefore be made by the buyer to properly support this building where it is cut off, so as to leave the balance of the building inshore, at the cut-off, in a secure condition, all to the satisfaction of the Engineer-in-Chief. The portion to be removed has a frontage on West Eighteenth street of about 150 feet, and a length in the rear of about 195 feet. Its length along the marginal street is about 122 feet.

Lot No. 7. A brick wall about 12 feet high and 230 feet long running along the northerly line of West Seventeenth street, whose westerly end is about 190 feet easterly from the easterly side of Eleventh avenue.

TERMS AND CONDITIONS OF SALE.

The sale will commence at 10 o'clock A. M. Each of the above lots will be sold separately and for a sum in gross.

The purchaser of the property will immediately take the necessary steps to protect his property, so that no claim or demand may hereafter be made that any of the items have been removed from the premises by others after he has purchased them.

The estimated dimensions given for the several lots are believed to be correct; but the Commissioner will not make any allowance from the purchase money for variations in any lot, and bidders must judge for themselves as to the correctness of the estimate when making their bids.

The purchase money must be paid in funds current, to Peter F. Meyer, Auctioneer, at the time and place of sale.

All the materials of every class and description composing the buildings and their foundations, including machinery found therein within the hereinbefore described area, are to be torn down to the level of the existing curb, and entirely removed from the premises, excepting any coal which may be left on the premises, or any of the personal property of the Consolidated Gas Company. Any pipes, valves, or other appurtenances, which may be found within a depth of three feet below the level of the sidewalk, may be removed, and in that case become the property of the purchaser.

The removal of said materials composing the buildings and their foundations must be begun by the purchaser within three days from the date of the receipt of a notification from the Engineer-in-Chief to begin work, and all the material of every class and description composing the buildings and their foundations is to be torn down to the level of the existing curb and entirely removed from the premises within ten days after the receipt of the said notice to begin work. If the purchaser fails to commence the said removal as specified, and to diligently prosecute the same with a sufficient force, and to complete the same within the time specified, the money paid on the day of sale will be forfeited, and all claim of ownership in said materials is waived by the purchaser.

Then the Commissioner of Docks may, at his option, complete the said removal and charge the expense of the same to the said purchaser, who shall sign the present terms of sale and agree to be bound thereby.

The work of removing the materials composing the various buildings herein enumerated shall be carried on in such manner and at such times as may be directed by the Engineer-in-Chief of the Department of Docks and Ferries. The work of removal may be suspended and shall not be resumed until written notice is given by said Engineer-in-Chief so to do. The time elapsed during such suspension shall not be counted against the purchaser, but a like number of days will be given him which may have elapsed during such suspension.

And for the further securing of the removal of the said materials, etc., hereinafter mentioned, the purchaser will be required at the time of sale and the award of said property to him, to execute a bond in such form and with such sureties as may be approved by the Commissioner of Docks of The City of New York, and in a penalty of One Thousand Dollars (\$1,000) for each lot, that he will in all things carry out the terms of sale and comply with the conditions thereof, and remove all of said property within the time required by the said terms of sale.

The form of bond to be executed by the purchaser may be seen at the office of the said Department at Pier "A," Battery place, New York.

FOR THE RIGHT TO DUMP AND FILL IN BEHIND THE BULKHEAD WALL RECENTLY BUILT AT THE NORTHERLY END OF THE CHELSEA SECTION ON THE NORTH RIVER, BOROUGH OF MANHATTAN.

TERMS AND CONDITIONS OF SALE.

The work to be done is to fill in with suitable material, as hereinafter described, the area behind the new bulkhead wall extending from a point 100 feet south of the southerly side of West Twenty-third street extended, southerly, a distance of about 1,035 feet, measured along the bulkhead wall, to a point on the northerly line of West Twentieth street extended.

The northerly limiting line of this contract will run parallel with West Twenty-third street, while the southerly limiting line will run at right angles to the bulkhead wall.

The filling will extend from the rear of the bulkhead wall or coping westerly a distance of about from 70 to 120 feet to the face or bank, which has been excavated in the recent dredging. For the length of wall extending along the southerly side of West Twenty-second street, and for a distance of about 400 feet, the filling will extend from the rear of the bulkhead wall northerly to the face or bank excavated in the recent dredging thereat.

The filling will be brought to a grade level with the top of the coping of the bulkhead wall and will extend inshore on a regular grade to the top of the ground at the adjacent or inshore bank.

It is estimated that the area outlining the above-described limits will create a basin to be filled in, under this agreement, whose cubical contents in net void space is equal to 50,000 cubic yards.

Bidders will state in writing a lump sum price, which they agree to pay for the privilege of filling in the area between about West Twentieth and West Twenty-third streets, as above more fully described, and being the basin calling for the filling of a void space estimated at about 50,000 cubic yards.

Should the Commissioner of Docks deem it to the best interest of the City, he may extend the southerly limit of this fill southerly a distance of about 400 feet to a point about 105 north of the northerly side of West Eighteenth street, the southerly line or limit to be at right angles to the bulkhead wall. Should the limits of the fill be extended southerly to this new line, a basin will be created in addition to the above-described basin, whose cubical contents in net void space will be equal to about 27,000 cubic yards. In the event of this extra filling being ordered by the Commissioner of Docks, it will be estimated at the same proportional rate as is received for the void space in the first section, whose southerly limit is about the northerly line of West Twentieth street, the prices on this first or northerly section being the prices on which the bids are to be tested.

In each of the estimated amounts given the amount in cubic yards is arrived at without placing any allowance for shrinkage, settlement, swelling of the material or penetration into the mud.

The Department is not bound in any way by such estimate, and bidders must satisfy themselves of the actual quantity required to fill in the above-described area by examination of the premises or such other means as they may prefer, the intention of the Department being to fill in the whole of the said premises behind the bulkhead wall within the above-described limits, and no allowance will be made to the purchaser from the purchase price on account of any discrepancy which may be found between the above-estimated quantity and the actual amount of filling required. The purchaser will be required to place the filling in accordance with the following specifications:

All the filling shall, unless otherwise directed, be placed directly in the rear of the bulkhead wall and carried from the bulkhead wall toward the shore until the bank of same has been carried out at the finished grade for a distance of about 40 feet from the face of the bulkhead wall, at which time, if so directed by the Engineer, the filling may be commenced from the shore toward the crib.

All material must be dumped and filled in only in such manner, at such points and in such order of procedure and at such times and seasons as may, from time to time, be directed, and the work of filling in may be entirely suspended for such periods of time as may be directed. The purchaser shall have no claim for damage or for any allowance from the purchase money on account of such suspension of the work.

All directions shall be given by the Engineer, and wherever the word "Engineer" is used in these specifications it refers to and designates the Engineer-in-Chief of the Department of Docks and Ferries, or such officer or employee as may be designated by him.

Rip-rap stone coming directly on or against the bulkhead wall must be deposited carefully in such manner as will not injure the same.

All the filling, except as otherwise specified herein, shall be of ashes, cellar dirt, broken stone, etc., entirely free from garbage or any organic matter objectionable in the opinion of the Engineer.

At any section of the bulkhead wall the filling shall be brought up level with the under side of the backing log of the bulkhead wall at such section, and no higher, unless otherwise directed.

The filling shall be commenced within five days after the date of the receipt of a notification from the Engineer that the work, or any part of it, is ready to be begun, after which not less than 300 cubic yards per day shall be placed, and the whole amount of the filling called for to bring the above-described basin up to grade shall be completed within one hundred and seventy days from the date of the receipt of said notification. At the expiration of this time this agreement shall be considered closed unless a further extension of time shall be given by the Commissioner of Docks. If at any time during the progress of the work it shall be deemed necessary to order the suspension of the whole or any part of the filling the time for completing said filling shall be extended so much as may have been delayed by such suspension.

In case the purchaser at any time does not proceed with the work of filling in to the satisfaction of the Commissioner of Docks, the said Commissioner will at once terminate the privilege of filling in and proceed to have the remainder of the filling in done by other parties in such way and manner as he deems proper, and any loss which may result therefrom shall be charged against the principal and his surety.

The purchaser shall, during the work of filling in and at all times until the completion thereof, take all necessary precautions and place proper guards for the prevention of accidents, and put up and maintain at night sufficient lights, and he shall indemnify and save harmless The City of New York from all damages and costs to which it may be put by reason of injury to the person or property of another resulting from negligence or carelessness in the performance of the work or guarding the same, to which the surety is also bound.

No bid or estimate will be considered unless accompanied by a certified check drawn to the order of the Commissioner of Docks, or money to the amount of twenty-five per centum of the amount of the bid, which amount shall be applied in the case of the successful bidder to the first one-quarter of the amount of the filling to be deposited; twenty-five per centum to be paid when the first one-quarter of filling has been completed; twenty-five per centum additional when one-half the filling has been completed, and the balance, twenty-five per centum, when three-quarters of said filling has been completed.

A surety or guarantee company duly authorized by law to act as surety, to be approved by the Commissioner of Docks, will be required to enter into a bond or obligation jointly and severally with the purchaser in the sum of double the amount of the purchase price as security for the satisfactory performance of the said work, in accordance with the terms and conditions hereof.

MAURICE FEATHERSON,
Commissioner of Docks.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
