The following opinion dated July 2 was presented from the Corporation Counsel:

"I am in receipt of a letter from President Gallagher of the Commission, dated June 27, 1913, a copy of which is as follows:

"'I desire to be advised whether under the following circumstances this Commission is obliged to give a special mental examination for Patrolman to one Henry Widder (Application No. 47198).

"'Mr. Widder filed the above application on March 7, 1913, for Patrolman, giving as his address 735 Knickerbocker ave., Brooklyn, New York City. Notice for the physical and medical examination was received by him at that address. He passed both examinations, and on April 21 when he delivered the Investigation Sheet of the Bureau of Investigation he stated on that sheet, in answer to question "Where do you reside?" "302 Stanhope st., formerly 735 Knickerbocker ave." In his application blank and in the sheet signed by him at the medical examination he gave his address as 735 Knickerbocker ave., and that address was entered in the physical examination book, from which candidates are notified to appear for mental examination. A notice for the mental examination was sent to him on June 6 to 735 Knickerbocker ave. and was returned to this office on June 11, marked "Returned to sender. Removed."

"'The candidate did not appear for the mental examination for Patrolman, which was held on Monday, June 23 last. His father-in-law, who called at this office, claims that Widder is entitled to a mental examination on the ground that he had already given notice of change of address in his investigation sheet, besides calling personally at this office and sending a written communication to this Commission notifying it of his change of address.

"'There is no record in our files of the receipt of a communication from Widder addressed to the Commission notifying it of any change of address. There is no knowledge on the part of any one in the Commission of a verbal notice from Widder of change of address. The only intimation of change of address that we have is in the investigation sheet of the Bureau of Investigation referred to heretofore.

"'The Commission has a form for change of address, which candidates are requested to fill out and file with the Commission when the change of address has been made.

"'The public advertisement for the examination for Patrolman stated clearly that the mental examination would be held on Monday, June 23, 1913, at ten o'clock a. m.

"'The publication of the date for the examination in the case of Patrolman is always necessary so as to govern the admission of candidates to the examination so far as the age question is concerned.

"'I do not find anything in the rules or regulations of this Commission governing the question of change of address of candidates. When Widder filed his investigation sheet with the Bureau of Investigation it was for a separate and distinct part of the work of the Commission, viz.: Investigation, and for that reason the change of address on the physical book, from which candidates are notified to appear for the mental examination, was not made. Notice of change of address is usually made through the Application Bureau, where the applications are received. Inasmuch as the Bureau of Investigation is only concerned with the question of the investigation of the character and employment record of this candidate, no notice was taken of the change of address. The question, therefore, is: Is this Commission, under the facts as stated, obliged to give a special mental examination to this candidate, and can a change of address in the Investigation Sheet of the Bureau of Investigation be considered as notice to the Commission?'

"Rule 7 of the Municipal Civil Service Rules relating to competitive examinations contains the following:

"'1. The Commission shall hold examinations for appointment to positions in the Competitive Class, and shall fix the dates therefor and the conditions thereof, whenever necessary, to meet or anticipate the needs of the City Service.

* * * * * * * *

"'2. All such examinations, whether previously scheduled or otherwise, shall be advertised for at least two weeks prior to the final date for the receipt of applications therefor, daily in the CITY RECORD, not less than twice a week in at least four of the principal daily newspapers and where the position to be filled is professional or technical, once or oftener in one or more technical journals devoted to such profession or trade. Such examinations shall also be announced at least two weeks prior to the date therefor in notices posted conspicuously at the offices of the Commission, and at such other places as the Commission may deem proper.

"'In each case such advertisement in the CITY RECORD, or notice so posted, shall set forth * * * (c) the time and place of examination; * * *

"'11. No candidate shall be granted a second or special examination or any second or special trial or test, either written or physical, preliminary to or in

connection with any examination held hereunder, unless it be shown to the satisfaction of the Commission that his failure to appear for, or to gain admission to, or to complete such examination or test, was due to a manifest error or mistake for which the Commission is responsible, the nature of which shall be set forth in its minutes, or that such failure was due to compulsory attendance before any Court or other public authority having the power to compel such attendance.'

"In reference to the last quoted paragraph, however, the Courts have held that the circumstances mentioned therein are not the only ones in which a special examination will be ordered where a candidate was prevented from taking part in the regular examination through no fault of his own. Matter of Torney vs. Polk, Supreme Court, Kings County, March 25, 1909; Mr. Justice Maddox; Aff'd. 134 App. Div., 939; Aff'd 198 N. Y., 505.

"The portions of paragraphs 1 and 2 of rule 7 above quoted are the only references I find in the Civil Service Law or rules on the subject of the giving of notice to candidates when an examination will be held. There is nothing contained therein which indicates that any duty rests upon the Commission to see that a candidate receives personal notice of the time set for the examination. On the contrary, it would seem that it is his duty to find out for himself when an examination is to be held, either by watching for the publication of the advertisement thereof in the CITY RECORD or by visiting the office of the Commission to see what notices are posted.

"I am of the opinion, therefore, that it was incumbent upon the candidate mentioned in Mr. Gallagher's letter to see to it that the Commission, through its Application Bureau, received notice of his change of address after the receipt of his application and prior to the holding of the mental examination for Patrolman. His casual reference to such change in the 'Investigation Sheet' returned to the Bureau of Investigation was, to my mind, wholly insufficient. The Commission had a right to consider that the address given in the application continued to be the applicant's address until notified, through its Application Bureau to the contrary, and the duty, if any, of the Commission was discharged by sending a notice of examination to the applicant at the address entered in the records of that Bureau. Had the applicant been duly diligent he would have left his new address at his former residence, and he would have then doubtless received the notice directed to him by the Commission. The claim made in his behalf by his father-in-law that he attempted to notify the Commission is unavailing if the Commission, through its proper representatives, did not receive such notice.

"Although I am convinced that no special examination should be allowed to the applicant in this case, I did not come to such conclusion without some hesitation because of a provision of one of your regulations concerning the holding of examinations. Such provision is found in regulation 10, paragraph 1 thereof, which states:

"'Applicants must present themselves promptly at the examination rooms at the hour and place specified in the notification from the Secretary's office, and none will be admitted to an examination except upon the production of such notification.'

"If the terms of this regulation are strictly enforced there might be strong grounds for arguing that the Commission actually did assume the responsibility of seeing that applicants received notice of examinations under ordinary circumstances. There is nothing about such regulation to indicate that the applicants personally are to obtain the notification therein mentioned from the Secretary, but, on the contrary, it would seem that they are justified in awaiting the receipt of such notification from the Secretary's office, either by mail or personal delivery. If the Commission makes it a condition precedent to the right of participation in a mental examination that an applicant should have a certain card from the Secretary's office, I think it is incumbent upon the Commission to see that he gets it, either by delivering it to him personally, or else giving him the opportuntiy to obtain it for himself at the office of the Commission. The wording of regulation 10 seems to indicate that the Commission has undertaken the obligation of notifying the applicant.

"I call this to your attention because the terms of this regulation appear to raise a different implication as to the corelative duties of the Commission and the applicant from that implied from the provisions of rule 7, paragraphs 1 and 2. In this case, however, in view of the fact that the applicant failed to properly notify the Application Bureau of his change of address, I am of the opinion that the Commission is not obliged to give him a special mental examination and that the notice given by the candidate of his changed address in the investigation sheet is not to be considered as notice of such change to the Commission."

In accordance with the foregoing opinion, the Commission denied the request of Henry Widder, 302 Stanhope st., Brooklyn, for a special examination for Patrolman, it appearing that his failure to attend the regular examination was not due to a manifest error or mistake for which the Commission was responsible.

A communication dated July 1 was presented from the Secretary to the Commissioner of Public Works, Borough of Manhattan, requesting authority to employ Laurette C. The following opinion, dated July 8, was presented from the Corporation Counsel in connection with the request of the attorneys for Joseph O'Connor that his name be restored to the eligible list for promotion to Captain in the Police Department in view of his reinstatement to the position of Lieutenant by order of the Appellate Division, from which position he had been dismissed by the Police Commissioner:

"I am in receipt of your letter of June 30, 1913, a copy of which is as follows:

"'The Commission is in receipt of a communication from the firm of Grant and Rouss, Counsellors-at-law, enclosing a copy of the order of the Appellate Division, reversing the determination of the Police Commissioner in the case of Lieutenant Joseph O'Connor. It is stated that, at the time of O'Connor's dismissal, he was a Lieutenant of Police and was nearly at the head of the eligible list for promotion to Captain. In view of his restoration to duty, it is requested that his name be restored to the promotion list for Captain in accordance with his rating.

"'According to the records of the Commission, Lieutenant O'Connor received a percentage of 86.80 in the examination for promotion to Captain. The Commission would like an opinion from you as to whether or not the request to restore his name to the list should be granted.'

"Although not specifically so stated, I presume that the removal of O'Connor's name from the eligible list for promotion to Captain in the Police Department was made under the provisions of subdivision 14 of rule 7 of the Municipal Civil Service Rules, which provides that:

"'The Commission may refuse to examine, or, after examination, to certify an applicant * * * who has within two years been dismissed from the public service for delinquency or misconduct.'

"This rule is based upon practically similar provisions to be found in section 14 of the Civil Service Law.

"The order of the Appellate Division, Second Department, setting aside the dismissal of the relator from the Police Department, reads in part:

"'That the determination of the said Police Commissioner be and the same hereby is annulled, with $50 costs and disbursements, and relator restored to his position.'

"Thereby O'Connor was entitled to be restored to the office of Lieutenant of Police, with all the rights incidental thereto, of which one was upon the facts stated in your communication, the right to have his name continued upon the eligible list for promotion to the office of Captain of Police.

"Consequently, you should take steps to restore his name to such eligible list at the earliest possible date."

The request of Messrs. Grant & Rouss, attorneys, that Joseph O'Connor's name be restored to the eligible list for promotion to Captain was granted, in accordance with the terms of the foregoing opinion.

Notices of Public Hearings.

FRANCHISE MATTERS.

PUBLIC NOTICE IS HEREBY GIVEN THAT at a meeting of the Board of Estimate and Apportionment, held July 10, 1913, the following petition was received:

To the Board of Estimate and Apportionment of The City of New York:

The petition of Manhattan Bridge Three Cent Line respectfully shows as follows:
On the 10th day of July, 1912, The City of New York, pursuant to resolution of this Board, entered into a contract with petitioner whereby said City granted to petitioner a franchise to construct and operate a street surface railroad from the Desbrosses Street Ferry, in Manhattan, to the Long Island Railroad Station, in Brooklyn, via the Manhattan Bridge and certain streets in the Boroughs of Manhattan and Brooklyn.
Paragraph first of section 2 of said contract provides that the rights granted by the contract shall cease unless petitioner shall obtain and file with the Board, within six months from the date of the contract, consents in writing of the owners of one-half in value of the property bounded on said streets and avenues to the construction and operation of said railway, or, in the event that such consents cannot be obtained within such time, shall, within said six months or within one month thereafter, make application to the Appellate Division of the

Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law to determine whether said railway ought to be constructed.

Paragraph fourth of section 2 of said contract provides that the rights granted by said contract shall cease unless petitioner shall commence construction of its railway within three months from the date upon which the consents of property owners are filed with the Board, or from the date of the order of the Appellate Division confirming the determination of Commissioners appointed pursuant to section 174 of the Railroad Law, and shall complete the construction and place the same in full operation within six months from the date of filing such consents or the date of such order, provided, however, that the Board may grant an extension, not to exceed six months, of either of such periods.

Prior to the execution of said contract petitioner had obtained from the Public Service Commission for the First District a certificate of public convenience and necessity under section 9 of the Railroad Law, and immediately on the execution of said contract petitioner applied to the Public Service Commission, pursuant to section 53 of the Public Service Commissions Law, for an order permitting it to exercise its said franchise. Said application was opposed by the existing surface railroads of Manhattan and Brooklyn, but was granted by an order made on the 14th day of August, 1912.

Petitioner immediately began the construction of the tracks and equipment necessary to operation on the Manhattan Bridge. Said work was delayed by two temporary injunctions obtained by the existing railroads in Manhattan and Brooklyn, acting in concert, both of which were vacated, and such work was completed and operation commenced on the Manhattan Bridge on the 4th day of September, 1912.

Immediately on the execution of said contract petitioner set about obtaining consents of owners of property abutting on the streets in which it was authorized to operate its railroad, and prior to the 1st day of September, 1912, obtained the necessary consents as to Flatbush Avenue Extension, in the Borough of Brooklyn, and began the construction of its road from Manhattan Bridge to Fulton street. This construction was delayed by the refusal of the roads constituting the Brooklyn Rapid Transit system to consent to the installation of crossings over their tracks in Concord and Willoughby streets and Myrtle avenue, and by an injunction obtained by them to prevent such installation. This action on their part made it necessary for petitioner to commence a proceeding under section 22 of the Railroad Law to obtain the right to install such crossings. Said proceeding was commenced on the 10th day of September, 1912, was tried on the 12th day of September, 1912, and decided on the 9th day of November, 1912, such decision being in favor of the contention of petitioner, and on the 16th day of November, 1912, Commissioners were appointed in said proceedings, who made their report as to the manner of said crossings on the 26th day of November, 1912, and the same was confirmed on the 27th day of November, 1912.

Said railroad was put in operation to Fulton street in December, 1912, and is still in operation.

The Brooklyn Rapid Transit Company thereupon appealed from the judgment and various orders made in said proceeding, and said appeal was argued at the June, 1913, Term of the Appellate Division, Second Department, but has not yet been decided.

The petitioner proceeded diligently in obtaining consents of abutting owners, and did obtain a majority on Bridge street, Fulton street, 4th avenue, Atlantic avenue and 3d avenue, in the Borough of Brooklyn, in addition to those obtained on Flatbush Avenue Extension, and filed copies of the same with this Board on the 9th day of January, 1913.

On the 30th day of January, 1913, this Board by resolution accepted said consents, and directed the attention of petitioner to the fact that construction of its road on said streets should be commenced on or before April 9, 1913, and completed on or before July 9, 1913.

On February 10, 1913, petitioner commenced a proceeding in the Appellate Division, First Department, under section 174 of the Railroad Law, for the appointment of Commissioners to determine whether its road ought to be constructed and operated in the streets in Manhattan in which it was authorized by its franchise to construct and operate, and on February 8, 1913, commenced a similar proceeding in the Appellate Division, Second Department, in regard to the streets in the Borough of Brooklyn as to which it had not obtained the necessary consents, to wit, through and along Rockwell place, between Fulton street and Flatbush avenue; Flatbush avenue, between Rockwell place and 4th avenue, and also between 3d avenue and Livingston street; Livingston street, between Flatbush avenue and Hoyt street; Hoyt street, between Livingston street and Fulton street, and diagonally across Fulton street, between Hoyt street and Bridge street.

In the Manhattan proceeding Commissioners were appointed on the 14th day of March, 1913 and made their report in favor of the construction of petitioner's road on the 8th day of May, 1913, and the same was confirmed on the 23d day of May, 1913.

In the Brooklyn proceeding Commissioners were appointed on the 7th day of March, 1913, and made their report in favor of the construction of petitioner's road on the 23d day of June, 1913, and a motion for the confirmation of the same was submitted to the Appellate Division on the 26th day of June, 1913, but has not yet been decided.

This Board by resolution adopted on the 10th day of April, 1913, extended the time of petitioner to commence the construction of its railway on Bridge street, 3d, Atlantic and 4th avenues, and Fulton st., between Flatbush Avenue Extension and Rockwell place, Borough of Brooklyn, the same being the streets as to which petitioner had obtained the consents of abutting owners, up to and including October 9, 1913, and the time of petitioner to complete such construction and place the railway in operation in said streets to the 9th day of January, 1914.

In the construction and operation of its road in Brooklyn it will be necessary for petitioner to cross the tracks of the Brooklyn Rapid Transit Companies in several places and to use their tracks in several streets. Said companies have stated openly that they will not consent to such operation, and, consequently, it will be necessary for petitioner to acquire such right in the manner provided in section 183 of the Railroad Law.

The streets in Brooklyn other than Flatbush Avenue Extension, as to which petitioner has procured the necessary consents, namely, Fulton street, between Flatbush Avenue Extension and Rockwell place; 4th avenue, between Flatbush avenue and Atlantic avenue; Atlantic avenue, between 4th avenue and 3d avenue; 3d avenue, between Atlantic avenue and Flatbush avenue, and Bridge street, between Fulton street and Flatbush Avenue Extension, are isolated, and it would be futile to attempt to construct and operate a railroad in them, except in connection with the streets as to which consents have not been obtained.

In view of the attitude of the Brooklyn Rapid Transit Companies, it is obvious that a long litigation will ensue before petitioner can obtain the necessary trackage and crossing rights to enable it to construct and operate its road from its present terminus at Flatbush Avenue Extension and Fulton street to the Long Island Railroad Station.

Similar conditions exist in regard to Canal street and the other streets in Manhattan in which petitioner is authorized to operate its railroad, and which are occupied by tracks of the Third Avenue Railway Company and the New York Railways Company, or their subsidiaries.

The questions which will be involved in this litigation have never been passed upon by the Courts of this State, and for this reason the litigation will in all probability be carried to the Court of Appeals, making it impossible to foresee how much time will be consumed before a final adjudication can be had.

The determination of the Courts on these questions will be of vast importance not only to petitioner, but also to The City of New York and this Board, by ascertaining and fixing the power of the Board with reference to existing railroad franchises throughout this municipality, and construing the limitations contained in the Railroad Law with reference to the use of tracks and equipment of existing railways.

Petitioner is ready and anxious to complete the construction of its entire road and put the same in operation at the earliest possible moment.

Wherefore, petitioner prays that paragraph fourth of section 2 of the said agreement between The City of New York and petitioner, dated the 10th day of July, 1912, be amended to read as follows:

The Company shall commence construction of the railway herein authorized on or before the 9th day of October, 1914, and shall complete the construction and place the same in full operation on or before the 9th day of January, 1915; otherwise this right shall cease and determine, and all sums paid, or which may be deposited with the Comptroller of the City, as hereinafter provided, shall thereupon be forfeited to the City; provided that the period for commencement and the period for completion and placing the railway in full operation may be extended by the Board; and provided further, that when the commencement or completion of said construction shall be prevented by legal proceedings in any court or by works of public improvement, or from other causes not within control of the Company, the time for the commencement or completion of such construction may be extended for the period of such prevention, but no delay shall be allowed for unless the court proceedings shall be diligently prosecuted by the Company; and provided further, that in no case shall such delay be deemed to begin until the Company shall have given written notice to the Board of any such court proceedings or other occasion of delay, and deliver to the Board copies of any injunction or other orders, and the papers upon which the same shall have been granted, and unless upon the request of the Board the Company shall, in writing, consent that the Board, either in its own name as a party, or in the name of the City as a party, may intervene in any such proceedings.

State of New York, County of New York, ss.:

Frederick W. Rowe, being duly sworn, deposes and says, that he is the president and an officer of Manhattan Bridge Three Cent Line, the corporation petitioner in the above entitled matter; that the foregoing petition is true to the knowledge of this deponent, except as to matters therein stated to be alleged upon information and belief, and that as to those matters he believes it to be true.

That the reason why this verification is not made by the petitioner is because the petitioner is a corporation, and that the grounds of deponent's belief as to all matters in said petition not stated upon his knowledge are investigations which deponent has caused to be made concerning the subject matter of this proceeding and information acquired by deponent in the course of his duties as an officer of the corporation petitioner. —and the following resolutions were thereupon adopted:

Whereas, The foregoing petition from the Manhattan Bridge Three Cent Line, dated July 9, 1913, was presented to the Board of Estimate and Apportionment at a meeting held July 10, 1913,

Resolved, That, in pursuance of law, this Board sets Thursday, the 18th day of September, 1913, at 10.30 o'clock in the forenoon, and Room 16, in the City Hall, Borough of Manhattan, as the time and place when and where such petition shall be first considered, and a public hearing be had thereon, at which citizens shall be entitled to appear and be heard; and be it further

JOSEPH HAAG, Secretary.

New York, July 10, 1913. s6,18

PUBLIC NOTICE IS HEREBY GIVEN THAT at a meeting of the Board of Estimate and Apportionment held July 10, 1913, the following petition was received:

To the Honorable the Board of Estimate and Apportionment of The City of New York:

The petition of the New York and North Shore Traction Company respectfully shows:

First—That by two several contracts dated respectively February 1 and April 14, 1909, The City of New York granted to your petitioner a franchise to build and operate an electric street surface railroad, with its appurtenances, on certain streets and avenues in the 3d Ward of Queens Borough, New York City, N. Y.

Second—That in each of said contracts it is provided among other conditions that your petitioner is to pay the City, for the privilege of the franchise, certain annual payments divided into periods of five years at an increased ratio. In the contract of February 1, 1909, during the first term of five years, the annual sum to be paid is to be at least $2,200, and is to be equal to 3 per cent. of its gross annual receipts if such percentage shall exceed that amount. In the contract of April 14, 1909, during the first term of five years, the annual amount to be paid is to be at least $1,575, and is to be equal to 3 per cent. of its gross annual receipts if such percentage shall exceed that amount.

Third—That on account of the arrested development of that section of Queens Borough in which its railroad is operated, 3 per cent. of its gross annual receipts has been less than minimum payment required, and so much less than was anticipated by the parties to the contracts that the minimum payments called for by the contracts have been a hardship on petitioner.

Now, therefore, your petitioner respectfully asks that the said contract be modified so that, in each, the term during which petitioner is obligated to pay 3 per cent. of its gross annual receipts or a minimum amount as fixed, shall be extended to a date which shall be five years after the beginning of the operation of its railroad, to wit, to August 12, 1915; and that the dates of the commencement of the other terms of five years, in which the said annual payments are fixed, be changed so as to be computed from the commencement of operation instead of from the dates of said contracts, and that the minimum amount to be paid during the second term of five years be lessened so as to conform more equitably to its gross annual receipts during that period.

Dated July 1, 1913.

THE NEW YORK AND NORTH SHORE TRACTION COMPANY,
By GEORGE A. STANLEY, President.

State of New York, County of New York, ss.:

George A. Stanley, being duly sworn, deposes and says that he is the President of the New York and North Shore Traction Company, the petitioner above named, that he has read the foregoing petition and knows the contents thereof; and that the same is true to the knowledge of deponent, except as to the matters therein stated to be alleged upon information and belief and as to those matters he believes it to be true. GEORGE A. STANLEY.

Sworn to before me this 1st day of July, 1913.

BENJAMIN R. DUFF, Notary Public, Queens County (Certificate filed in New York County, No. 48).

—and the following resolutions were thereupon adopted:

Whereas, The foregoing petition from the New York and North Shore Traction Company, dated July 1, 1913, was presented to the Board of Estimate and Apportionment at a meeting held July 10, 1913.

Resolved, That in pursuance of law this Board sets Thursday, the 18th day of September, 1913, at 10.30 o'clock in the forenoon, and Room 16 in the City Hall, Borough of Manhattan, as the time and place when and where such petition shall be first considered, and a public hearing be had thereon, at which citizens shall be entitled to appear and be heard; and be it further

Resolved, That the Secretary is directed to cause such petition and these resolutions to be published for at least two (2) days in two daily newspapers in The City of New York, to be designated by the Mayor, and for at least ten (10) days in the CITY RECORD immediately prior to such date of public hearing. The expense of such publication to be borne by the petitioner.

Sec. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The consent in writing of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of said railway shall be obtained by the Company within three (3) months from the signing of this contract by the Mayor, and a copy of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained within such time, the Company shall, within said three (3) months, within one (1) months thereafter, make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law to determine if said railway ought to be constructed; otherwise this grant shall cease and determine.

Second—The said right to construct, maintain and operate said railway shall be held and enjoyed by the Company from the date upon which this contract is signed by the Mayor, until January 1, 1924.

Third — The Company shall pay to the City for the privilege hereby granted the following sums of money:

(a) The sum of one hundred dollars ($100) in cash within three (3) months after the date on which this contract is signed by the Mayor, and before anything is done in exercise of the privilege hereby granted.

(b) During the first term of five (5) years an annual sum which shall in no case be less than one hundred and ten dollars ($110), and which shall be equal to three (3) per cent. of its gross annual receipts if such percentage shall exceed the sum of one hundred and ten dollars ($110).

During the remaining term expiring January 1, 1924, an annual sum which shall in no case be less than one hundred and seventy-five dollars ($175), and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of one hundred and seventy-five dollars ($175).

The gross annual receipts mentioned above shall be that portion of the gross receipts of the Company as shall bear the same proportion to its whole gross receipts as the length of the extension hereby authorized shall bear to the entire length of the railway of the Company in operation within the limits of the City.

The annual charges shall commence from the date upon which this contract is signed by the Mayor.

All annual charges as above shall be paid into the treasury of the City on November 1 of each year and shall be for the amount due to September 30 next preceding. Provided that the first annual payment shall be only for that proportion of the first annual charge as the time between the date upon which this contract is signed by the Mayor and September 30 following shall bear to the whole of one year.

Whenever the percentage required to be paid shall exceed the minimum amount as above, then such sum over and above such minimum shall be paid on or before November 1 in each year for the year ending September 30 next preceding.

The annual charges herein provided are intended to include the percentages of gross receipts now required to be paid by railway companies to the City pursuant to the Railroad Law as amended.

Any and all payments to be made by the terms of this contract to the City by the Company, shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Fourth—The annual charges or payments shall continue throughout the whole term of this contract, notwithstanding any clause in any statute or in the charter of any other railway or railroad company providing for payment for railway or railroad rights or franchises at a different rate, and no assignment, lease or sub-lease of the rights or privileges hereby granted, or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Fifth—Nothing in this consent shall be deemed to affect in any way the right of the City to grant to any other corporation or to any individual a similar right or privilege upon the same or other terms and conditions over the route hereinbefore described, and the Company shall not at any time oppose, but shall consent to the constuction and operation of any street surface railway by any such other corporation or individual which may receive a franchise therefor from the City, and which may necessitate the use of any portion of the railway which shall be constructed or operated by the Company pursuant to this contract.

Should the City at any time during the term of this contract grant to any other corporation or to any individual the right or privilege to operate a railway upon the tracks of the Company on the route herein described, or any portion thereof, then the City shall, within thirty (30) days thereafter, give notice to the Company that such right has been granted, and of the name of the corporation or individual to which such right has been granted.

At the expiration of ninety (90) days after the giving of such notice, such individual or corporation shall have the right to begin the operation of cars upon the tracks of the Company upon the route, or any portion thereof, over which such corporation or individual may receive a right or privilege, and to use therefor the tracks, equipment, power and all other property of the Company which shall be necessary in the operation of the cars of such individual or corporation upon the tracks of the Company and shall have the right to continue such operation and to use such property until this contract or the right to use such property under the terms of the franchise or right granted said corporation or individual by the City, shall expire. Such corporation or individual shall pay to the Company for the right to use such tracks, equipment, power and other property above described, such sum or sums as may be agreed upon in writing by such corporation or individual and the Company within said ninety (90) days, or in the event that such agreement cannot be reached within said ninety (90) days, such sum or sums shall be determined in the manner herienafter provided for.

If the Company and such corporation or individual cannot, prior to the expiration of said ninety (90)) days agree upon the compensation for the use of such tracks, then such compensation shall be fixed by three arbitrators selected in the following manner:

One fit and impartial person shall be chosen by the Company; one fit and impartial person shall be chosen by such corporation or individ-

ual, and the two so chosen shall choose a third fit and impartial person. The decision under oath of any two of said persons who shall be so selected shall be final and conclusive.

The compensation and expenses of the persons selected as arbitrators in the determination of such sum or sums shall be borne by the individual or corporation to which such right may be granted.

Within thirty (30) days after an agreement shall have been reached between said parties, or in case said agreement cannot be reached before the time specified herein, then within thirty (30) days after the determination of the arbitrators, as herein provided, should two of such arbitrators agree, the Company shall file with the Board a duplicate copy of a written agreement which shall specify the sum or sums which shall have been agreed to by the said parties or determined by said arbitrators, as the sum or sums which such corporation or individual shall pay to the Company for said privilege. If the Company fails to file the same with the Board within said thirty (30) days, then the right herein granted shall cease and determine.

If either party fails to appoint an arbitrator, as herein provided, or should the first two arbitrators fail to agree on the selection of a third arbitrator within thirty (30) days after the expiration of said ninety (90) days, or if no two of said arbitrators so selected agree upon the sum or sums to be paid by such individual or corporation within sixty (60) days after they shall have been so selected, then such sum or sums shall be fixed by the Supreme Court upon the application of either party.

Sixth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall the title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by act of the Company, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Seventh—Upon the termination of this contract, or if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any cause, or upon the dissolution of the Company before such termination, the tracks and equipments of the Company constructed pursuant to this contract within the streets and avenues shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this contract as above, the Board shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of its tracks and other equipment constructed pursuant to this contract and the said streets and avenues shall be restored to their original condition at the sole cost and expense of the Company.

Eighth—The Company shall commence construction of the railway herein authorized within three (3) months from the date upon which the consents of the property owners are filed with the Board, or from the date of the order of the Appellate Division of the Supreme Court made pursuant to section 174 of the Railroad Law confirming the determination of the Commissioners appointed thereunder, that such railway ought to be constructed, and shall complete the construction and place the same in full operation within six (6) months from the date of filing such consents or the date of such order, otherwise this right shall cease and determine, and all sums paid, or which may be deposited with the Comptroller of the City, as hereinafter provided, shall thereupon be forfeited to the City; provided that the period for commencement and the period for completion and placing the railway in full operation may be extended by the Board, but the total extension of time for either of such periods shall not exceed in the aggregate six (6) months; and provided further, that when the commencement or completion of said construction shall be prevented by legal proceedings in any court or by works of public improvement, or from other causes not within control of the Company, the time for the commencement or completion of such construction may be extended for the period of such prevention, but no delay shall be allowed for unless the court proceedings shall be diligently prosecuted by the Company, and provided further, that in no case shall such delay be deemed to begin until the Company shall have given written notice to the Board of any such court proceedings or other occasion of delay, and deliver to the Board copies of any injunction or other orders, and the papers upon which the same shall have been granted, and unless upon the request of the Board the Company shall, in writing, consent that the Board either in its own name as a party, or in the name of the City as a party, may intervene in any such proceedings.

Ninth—Said railway shall be constructed and operated in the latest approved manner of street railway construction and operation, and it is hereby agreed that the Board may require the Company to improve or add to the railway equipment, including rolling stock and railway appurtenances, from time to time, as such additions and improvements are necessary, in the opinion of the Board. Upon failure on the part of the Company to comply with the direction of the Board within a reasonable time, the rights hereby granted shall cease and determine.

Tenth—Said railway shall be constructed, maintained and operated subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City.

No construction upon said railway shall be commencd until written permits have been obtained from the proper City officials.

In any permits so issued such officials may also impose such conditions, as a condition of the granting of the same, as are necessary for the purpose of protecting any structures, in the streets and avenues, over which such officials have jurisdiction and the Company shall comply with such conditions.

The electrical equipment to be installed by the Company for the operation of the railway within the limits of the City, whether the same be upon streets and avenues or upon private property, shall be constructed and maintained under the supervision and control of the Commissioner of Water Supply, Gas and Electricity.

Eleventh—Said railway may be operated by overhead electric power substantially similar to the overhead electric system now in use by street surface railways in the Borough of Brooklyn, or by any other motive power, except locomotive steam power or horse power, which may be approved by the Board, and consented to by the abutting property owners, in accordance with the provisions of law, and by the Public Service Commission for the First District of the State of New York.

Twelfth—No wires for the transmission of power, except trolley wires, shall be permitted unless they be placed in conduits underneath or along the side of the railway. When such conduits are constructed the Company shall provide two (2) ducts not less than three (3) inches in diameter each for the exclusive use of the City. Such conduits shall be used only by the Company for the operation of its railway and by the City, as above.

Thirteenth—The rate of fare for any passenger upon said railway shall not exceed five (5) cents and the Company shall not charge any passenger more than five (5) cents for one continuous ride from any point on its road or on any road, line or branch operated by it or under its control, to any other point thereof, or any connecting branch thereof within the limits of the City unless a rate of fare in excess of five (5) cents may be lawfully charged therefor.

The Company shall carry free upon the railway hereby authorized during the term of this contract all members of the Police and Fire Departments of the City, when such employees are in full uniform.

Fourteenth—No cars shall be operated upon the railway hereby authorized, other than passenger cars and cars necessary for the repair or maintenance of the railway, and no freight cars shall be operated upon the tracks of said railway.

Fifteenth — The Company shall attach to each car run over the said railway proper fenders and wheel guards, in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities, or as may be required by resolution of the Board.

Sixteenth—All cars which are operated on said railway shall be heated during the cold weather in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities, or as may be required by resolution of the Board.

Twentieth—As long as said railway, or any portion thereof, remains in any street or avenue the Company shall pave and keep in permanent repair that portion of the surface of the street or avenue in which the said railway is constructed, between its tracks, the rails of its tracks and for a distance of two (2) feet beyond the rails on either side thereof, under the supervision of the local authorities, whenever required by them to do so, and in such manner as they may prescribe.

In case of the neglect of the Company to make pavement or repairs after the expiration of twenty (20) days' notice to do so from the President of the Borough of Brooklyn, said President may make the same at the expense of the Company. And the City shall have the right to change the material or character of the pavement of any street or avenue, and in that event the Company shall be bound to replace such pavement in the manner directed by the proper City official, at its own expense, and the provisions as to repairs herein contained shall apply to such renewed or altered pavement.

Twenty-first—Any alteration to the sewerage or drainage systems, or to any other subsurface or to any surface structures in the streets, required on account of the construction or operation of the railway, shall be made at the sole cost of the Company, and in such manner as the proper City officials may prescribe.

Twenty-second—It is agreed that the right hereby granted to operate a street surface railway shall not be in preference or in hindrance to public work of the City, and should the said railway in any way interfere with the construction of public works in the streets and avenues, whether the same is done by the City directly or by a contractor for the City, the Company shall, at its own expense, protect or move the tracks and appurtenances in the manner directed by the City officials having jurisdiction over such public work.

Twenty-third—Should the grades or lines of the streets and avenues in which the railway is hereby authorized be changed at any time after the railway has been constructed and during the term of this contract, the Company shall, at its own expense, change its tracks and appurtenances to conform with such new grades and lines, and during the construction of any public improvement upon said streets and avenues, the Company shall take care of and protect the tracks and appurtenances at its own expense, all to be done subject to the direction of the City official having jurisdiction over the construction of such change.

In case of any drafts made upon the security fund the Company shall, upon ten (10) days' notice, pay to the City a sum sufficient to restore said security fund to the original amount of five hundred dollars ($500), and in default thereof this contract shall be cancelled and annulled at the option of the Board, acting in behalf of the City. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Thirty-second—If at any time the powers of the Board or any other of the authorities herein mentioned or intended to be mentioned shall be transferred by law to any other board, authority, officer or officers, then and in such case such other board, authority, officer or officers shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Sec. 3. This grant is also upon the further and express condition that the provisions of article 5 and other provisions of the Railroad Law pertinent thereto shall be strictly complied with by the Company.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless, The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beamholes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
