Present—Dr. Brannan, the President, in the chair; Messrs. O'Keefe, Wright and Stern, Trustees. Excused—Mr. Sachs, Mr. Paulding and Mr. Farley, Trustees, and Mr. Coler, Commissioner of the Department of Public Charities, ex-officio.

The Board adjourned to meet on Thursday, August 29, 1918, at 2.30 o'clock p. m., at the office of Mr. Sachs.

An adjourned regular meeting of the Board of Trustees of Bellevue and Allied Hospitals was held at the office of

Samuel Sachs, 60 Wall st., on Thursday, September 5th, at 2 p. m.

Present—Dr. Brannan, the President, in the chair; Messrs. O'Keefe, Mr. Stern and Mr. Sachs, Trustees. Excused—Messrs. Paulding, Wright and Farley, Trustees, and Mr. Coler, Commissioner of the Department of Public Charities, ex-officio.

The Board adjourned to meet on Monday, September 9, 1918, at 9.30 a. m., in the office of the General Medical Superintendent.

An adjourned regular meeting of the Board of Trustees of Bellevue and Allied Hospitals was held at the office of the General Medical Superintendent on Monday, September 9, at 9.30 a. m.

Present—Dr. Brannan, the President, in the chair; Messrs. O'Keefe, Sachs, Stern and Farley, Trustees. Excused—Messrs. Paulding and Wright, Trustees, and Mr. Coler, Commissioner of the Department of Public Charities, ex-officio.

The minutes of the meeting of July 18, 1918, a copy of which had been sent to each member, were held as read and approved.

Dr. O'Hanlon, the General Medical Superintendent, reported as follows:

Under date of July 17, Lieut.-Col. T. N. Salmon informs me of the sudden death of Major M. J. Karpas, who served

at Bellevue as Assistant Alienist for about four years.

We are continuing to experience great difficulty in properly caring for all the hospitals of the department, owing to the great shortage and inability to obtain employees, several points being entirely uncovered. At Neponsit they have no telephone operators, clerk or storekeepers. At Bellevue the telephone service is very badly crippled, and the service both here and at the information office is most unsatisfactory.

Miss Malmgren Assistant Superintendent at Fordham Hospital, has presented her resignation, to take effect September 1. She is to take charge of the Jewish Orphan Asylum in the Bronx, at an increased salary, with the privilege of having her mother with her.

Miss Hilliard, under date of July 29, states that in order to admit a large section of student nurses arranged for in September it will be necessary to provide at least 20 additional rooms. These rooms are available in Osborn Hall, at a rental of \$4,548; this includes service.

It is desirable to fill the vacancy of Director of Laboratories, caused by the resignation of Dr. Norris. Dr. Symmers, Assistant Director of Laboratories since December, 1916, has been doing the work satisfactorily in the absence of Dr. Nor-

ris, and should it be your pleasure to promote him the Civil Service Commission would undoubtedly give a promotion examination.

The daily average census at the various hospitals during the month of July was as follows: 1918—Bellevue, 1,196; Gouverneur, 168; Harlem, 249; Fordham, 227; Neponsit, 116. 1917—1,344; 172; 289; 214; 96.

Mr. Cowley, Engineer at Fordham Hospital, reports that he is having great difficulty with the boilers at the Fordham Hospital, and if the portable wards asked for are allowed an additional boiler will be needed. One of the Examiners for the Board of Estimate, at present making a survey at Fordham, advises Mr. Cowley to request the installation of four boilers at a cost of approximately \$45,000. This would involve a request for corporate stock.

I would urge that we renew our request to the Board of Estimate for additional laundry machinery, for which there is an appropriation of \$12,000. This request has been submitted two or three times during the last three years, but has been deferred, and recently was again placed on file by the Board of Estimate. Our present equipment, aside from being inadequate, is overloaded, and the linen returned to the wards is both insufficient and unsatisfactory.

On separate motion, duly seconded and carried in each instance, action was taken upon the report of the General Medical Superintendent as follows:

It was resolved to extend the sincere sympathy of the Trustees to the family of Major M. J. Karpas, who died in service in France.

It was further resolved to adopt appropriate resolutions in memory of the men from Bellevue and Allied Hospitals who died while serving their country.

The Trustees authorized the General Medical Superintendent to take appropriate steps to obtain a sufficient number of employees, and authorized such modification of salary schedules for presentation to the Board of Estimate as may be necessary with this end in view.

The resignation of Miss Malmgren, Assistant Superintendent of Fordham Hospital, was accepted, with regret, and the Secretary was requested to take this occasion to extend the sincere appreciation of the Trustees of the work that she has done while in charge of Fordham Hospital and her untiring devotion to its interests.

The Sinking Fund Commission was requested to authorize a lease for one year, with the privilege of renewal, of at least twenty additional rooms at an annual rental of \$4,548, in Osborn Hall.

The appointment of Dr. Symmers as Director of Laboratories, was considered. On motion, duly seconded and carried, action thereon was deferred until the next meeting, in order that the department may obtain a full record of his education, experience and report of the medical articles which he has written. In the meantime a request has been made of the Mayor for permission to fill the place.

After consideration, it was moved, seconded and carried to request the Board of Estimate and Apportionment to authorize an issue of corporate stock in the sum of \$45,000, for the installation of three new boilers at Fordham Hospital.

After discussion, it was resolved to renew the request to the Board of Estimate for the approval of the plans and specifications for the additional laundry machinery required at Bellevue Hospital and to call attention to the urgency of this request.

COMMITTEE REPORTS.

Dr. Brannan presented tabulations of bids received at the office of the Central Purchase Committee on August 1st, 5th and 13th for (a) paints, oils, etc., (b) milk and cream (August); (c) drugs and chemicals; (d) butter, cheese and eggs; (e) bread and rolls; (f) meat and poultry; (g) stock fruits and vegetables; (h) milk and cream (September). After consideration, on the recommendation of the Committee on Supplies, contracts were awarded to the low formal bidders on all lines, except as hereinafter noted. On line No. 24, linseed oil, and lines Nos. 29, 30, 31 and 32, turpentine, bids were rejected on account of the high prices; on white lead, line No. 54, bids were rejected as this item was included in error and the department has sufficient white lead for the remainder of the year. Drugs, chemicals, etc., item No. 2, was rejected, as the bid was on a different article than which the department needs. Crinoline, item No. 49, bids were rejected, on account of the prices. As no bids were received for milk and cream readvertisement was authorized.

Reference was made to a communication dated July 19, from the Board of Estimate and Apportionment, returning to the Trustees a report by the Committee on Finance and Budget relative to Bellevue's request for (a) an appropriation of \$1,000,000 for the construction of pavilions F and G, and (b) for the acquisition of additional property on the water-front be-

tween 29th and 30th sts., which reports were transmitted with a communication from the Commissioner of Health to the Mayor regarding this request. The subject was considered and discussed at length and it was moved, seconded and carried to take no further action, in view of the fact that the department has presented to the Board of Estimate a formal request, under date of May 15, 1918, for \$1,500,000 for pavilions F and G.

Attention was called to a communication dated July 19, from the Commissioner of the Department of Docks and Ferries, setting forth that he believes that the Trustees should apply for revenue bonds to meet the cost of a bill amounting to \$1,706.63 for providing a berth for the camp boat "Huddleston." After discussion it was moved, seconded and carried to request the Board of Aldermen to authorize an issue of special revenue bonds to meet this bill.

Dr. Brannan reported that under date of July 19, 1918, he wrote to Surgeon General Gorgas relative to providing a short course for the training of nurses' aides, to meet the war situation, and that he received a reply under date of July 26, 1918, from Brigadier General Robert E. Noble, and that subsequently he wrote to Mr. Davidson of the American Red Cross and that he received a reply signed by Miss Delano to the effect that they contemplated establishing a course of one month's duration for nurses' aides. After consideration and discussion, it was moved, seconded and carried to authorize the President to further negotiate with the proper authorities to establish a course of training for nurses and nurses' aides, to supply the needs of military and civil hospitals created by war conditions, the Trustees approving a three or six months' course.

Dr. Brannan reported that he was in conference with Commissioner Coler in regard to the Trustees' request for permission to use as much of the \$40,000 appropriated for the additional roof ward of Fordham Hospital as may be required for the construction of portable ward buildings at Fordham Hospital, pending the issue of corporate stock for the construction of additional wards.

Dr. Brannan also referred to the need of obtaining a competent employee for the storeroom at the Neponsit Beach Hospital for Children. After discussion, it was moved, seconded and carried, to authorize the General Medical Superintendent to revise the salary schedules in order to obtain higher salaries so that a competent employee may be secured for the position of storekeeper at the Neponsit Beach Hospital.

COMMUNICATIONS.

The minutes of the Executive Committee of the Medical Board of Bellevue Hospital for July 24 were presented. On motion, duly seconded and carried, the following nominations were approved: First Division—Bedford P. Hardin, as Intern for one year from July 1, 1918; Herman Ballon, as Assistant Physician to Out Patients, Tuberculosis service. Third Division—Benjamin Breakstone, as Intern for six months from July 1, 1918. Fourth Division—William B. Noyes, as Physician to Out Patients and Adjunct Assistant Visiting Physician.

The minutes of the Executive Committee of the Medical Board of Bellevue Hospital for August 14 were also presented. On motion, duly seconded and carried, the following nominations were approved: First Division—Anna Walsh, as Resident Physician, Children's Medical Service, from August 1 to September 30, 1918. Third Division—Louise Townsend, as Resident on the Obstetrical service, to date from July 1, 1918; R. E. Songstacken, as House Surgeon, from July 1, 1918, to Jan. 1, 1919, the appointment as Anaesthetist to be withdrawn; Joseph Heyman, for six months' service as Intern on the gynaecological division, from July 1, 1918; John L. Dies, 6 months' Intern, gynaecological service, from July 1, 1918; Irving F. Wallace, as substitute on the gynaecological service.

Reference was made to a letter from the Mayor's office, under date of July 22, in regard to furnishing a statement of the number of men and women in the department receiving more than \$1,200 a year. The information for this letter is now in course of preparation, and the President was requested to formulate a reply.

Reference was also made to a letter dated August 6, from the Mayor, requesting that punctuality and regularity in attendance be considered in making up the tentative estimate, and if the budget has already been filed, which is the case at Bellevue and Allied Hospitals, that the information be sent to his office relative to this recommendation. The information is now being compiled to be forwarded to the Mayor as soon as completed.

Dr. Brannan also referred to a letter from the Mayor, under date of August 2, regarding a complaint against Captain McHale, Night Superintendent. Dr. Brannan reported that he had made a thorough investigation of the matter and believes the

complaint is without foundation and has sent a report to the Mayor.

A communication, dated July 25, was presented from the Commissioners of the Sinking Fund, transmitting a certified copy of a resolution adopted on July 28, assigning to the Department of Public Charities one photograph burnisher, which communication was ordered placed on file.

A letter dated July 18 was presented from the Board of Estimate and Apportionment, enclosing a certified copy of a resolution adopted on July 12, approving transfer of funds to the City Fund for Salary and Wage Accruals, which communication was ordered placed on file.

A letter dated July 26 was presented from the Board of Estimate and Apportionment, transmitting certified copies of resolutions adopted on July 19, approving (a) issue of special revenue bonds in the deficits and (b) plans and specifications and estimate of cost for furnishing screens for pavilions I, K, L and M, which communication was ordered placed on file.

Dr. O'Hanlon, the General Medical Superintendent, reported as follows:

Miss Malmgren, Assistant Superintendent at Fordham Hospital, left the service on August 31.

We continue to experience increasing difficulties in the matter of employees, particularly at Bellevue. The dining room in the nurses' residence has only four remaining of a staff of fourteen, so it has been necessary to introduce the cafeteria system. In pavilions A and B there are twenty-eight employees short; the census being rather light just now we have closed three of the wards.

The boat "Southfield" at Bellevue is very much out of repair. The engineer reports that the entire roof would have to be replaced and that in his opinion the repairs needed to make the boat habitable and safe are so extensive and would be so expensive it would be better to replace the boat if possible to do so.

After discussion, the General Medical Superintendent was instructed to obtain estimates of the cost of repairs required on the boat "Southfield" and present them at the next meeting.

COMMITTEE REPORTS.

Dr. Brannan presented a tabulation of bids received at the office of the Central Purchase Committee on Tuesday, September 3, for furnishing and delivering milk and cream to Bellevue and Allied Hospitals. After consideration, on the recommendation of the Committee on Supplies, contracts were awarded to the low formal bidders on each class. As no bids were received for milk and cream for delivery at the Neponsit Beach Hospital the Trustees authorized the purchase of these supplies for September for this hospital in the open market. In considering the above mentioned bids for milk and cream the Trustees resolved to request the General Medical Superintendent that they would like to know, if it is possible to find out, why the larger milk dealers do not bid on supplies of milk and cream to the hospitals of the department.

Dr. Brannan reported that since the last meeting he had been at Washington in conference with representatives from the office of Surgeon General Gorgas regarding establishing a three or six months' course for the training of nurses' aides and found that the Army surgeons, particularly Colonel Kiefer, while conceding that the plan is a good one, do not consider it necessary for furnishing the required personnel for the nursing service in the hospitals of that department. After discussion, the report from the President was accepted.

Dr. Brannan also reported that he had conferred with representatives from the office of Provost Marshal Crowder in regard to the classification of employees under the new man-power regulation so that the hospitals of the City of New York would be able to retain employees in their service, free from military obligation, and reported that he was assured that the hospitals would be classified as among essential occupations, and that it was necessary for the individual subject to the Selective Service Law to make his claim for exemption or deferred classification. After consideration and discussion, it was moved, seconded and carried, to instruct the President to send a letter to each Draft Board in the city setting forth the vital necessity for the health of the community to continue the maintenance and operation of the hospitals and exempt from military service the employees required in the hospital. It was also resolved to call attention to the work done by the hospitals of the department in instructing army surgeons in military surgery and reontology.

Dr. Brannan referred to a letter received from the Mayor, under date of August 30, in regard to alleged delays on the part of Bellevue and Allied Hospitals in the matter of executing contracts, and that the hospitals are receiving an inferior quality of meat. Dr. Brannan presented a tabulation showing the time contracts are received and returned, and that there are no

delays on the part of the department, and also reported that the meat received in the hospitals is uniformly of excellent quality, and presented a draft of a letter to be sent to the Mayor. After consideration, it was moved, seconded and carried, to approve the transmission to the Mayor of the letter presented by the President.

The President presented a letter from the Mayor, dated August 22, requesting the department to transmit to the Central Purchase Committee requisitions of supplies required and the taking of an inventory on Jan. 1, 1919, which letter was answered under date of September 6, a copy of which was given to each Trustee, and approved.

A letter, dated August 6, was presented from the Mayor in regard to a suggestion from the Tenement House Commission relative to the punctuality and attendance of employees who are recommended for increases in the budget for 1919, which was answered by the President under date of August 27, and copy sent to each Trustee, and approved.

Reference was made to the following letters from the Mayor, dated August 21, requesting that employees of the department pay no attention to blanks and communications sent out by the Bureau of Municipal Research, asking for information regarding salaries and salary increases. This was referred to the General Medical Superintendent for compliance.

A letter, dated August 17, transmitting a communication from the Department of the Interior, regarding correspondence from Switzerland relative to a patient on which a report was sent to the Mayor by Dr. Brannan on August 21. Reference was made to a letter received from Commissioner Coler, dated August 19, stating that in the hospitals of the Department of Public Charities the rate charged for medical cases is \$1.50 a day and for surgical cases \$2.25 a day, in so far as relates to cases under the Workmen's Compensation Law, and suggesting, for the sake of uniformity, that the charge for treating patients in Bellevue and Allied Hospitals be made the same. After consideration, the General Medical Superintendent was instructed to adopt the new rates at once.

After Consideration and discussion, it was moved, seconded and carried to authorize the appointment of Douglas Symmers as Director of Laboratories, which appointment is made subject to the rules of the Civil Service Commission and the Board of Estimate. On the recommendation of the Building Committee the plans and specifications for the installation of wood shelving, lockers, etc., in the storeroom of the laundry extension at Bellevue Hospital, at an estimated cost of \$3,000, for which provision was made in the budget in 1918, was approved, and their presentation to the Board of Estimate and Apportionment was authorized. The plans and specifications for the alterations to the electric equipment in the X-ray department of Fordham Hospital, for which there is an allowance in the budget for 1918 in the sum of \$1,000, was accepted and transmission to the Board of Estimate for approval was authorized. On the recommendation of the Building Committee payment was authorized of the retained 5 per cent. on the contract of the E. Rutzler Company for the installation of steam hoisting work and ventilating work in the Out Patient Department of Gouverneur Hospital. After consideration, on the recommendation of the Building Committee, it was moved, seconded and carried, to accept the work under the contract of the Eclipse Light Company for the installation of lighting fixtures in the new building for the Out Patient Department of Gouverneur Hospital, the work on which was substantially completed on March 4, 1918. As the contract expired on August 25, 1917, the Building Committee was requested to investigate and present a report on the overtime and liquidated damages assessable against this contract.

A letter, dated August 6, was presented from Joseph H. Freedlander, reporting that the work under open market order No. 2331-H, issued to the Worner-Huberty Company, was finished, and presenting a request for payment. On the recommendation of the Building Committee the work was accepted and payment authorized. A letter, dated July 18, was presented from the Rangeley Construction Company, contractor for the alterations to Harlem Hospital, requesting an extension of sixty days' time, on account of freight congestion, shortage of labor and inability to obtain a priority order from the Government to insure early delivery of steel. On the recommendation of the Building Committee, dated August 20, this request was approved. On the recommendation of the Building Committee the General Medical Superintendent was authorized to proceed with the alterations to the nursery and sun parlor at Harlem Hospital, the cost of which work not to exceed \$1,000. On the recommendation of the Building Committee the work under the contract of Jennings & John, for

the installation of screens at Fordham Hospital, was accepted and final payment authorized. A letter, dated August 27, was presented from the American Hospital Association stating that the Twentieth Annual Convention of that association will be held on September 24 to September 28, 1918, and suggesting that the Trustees send a representative from the hospitals of the department. On motion, duly seconded and carried, the General Medical Superintendent was requested to represent the hospitals of the department. A letter, dated August 30, was presented from William P. Strain, asking that a yearly salary be awarded to him for his services at the hospital, and suggesting a salary of \$1,500 a year as compensation for the time, effort and service given to the hospital. After consideration, it was moved, seconded and carried, to inform Dr. Strain that the Trustees regret their inability to comply with his suggestion at this time, as no provision was made in the annual appropriation to the hospital for the place, but that an application will be made to the Board of Estimate and Apportionment to provide a salary for the place in the budget for 1919.

September 9, 1918.

On Thursday, September 5, the Trustees instructed the President to write to the various draft boards in regard to the classification of employees of Bellevue and Allied Hospitals. As the Chairman of the War Industries Board, as published in the newspapers on Monday, September 9, classified the maintenance and operation of public institutions and buildings, such as hospitals and sanatoriums, in Class I regarded as deferred classification under the terms of the Selective Service Law for men between 18 and 45, which class includes, among other occupations, the production of munitions, air craft, civil employees of the Army and Navy arsenals, etc., and such other essential occupations bearing on the military needs of the nation, the Trustees reconsidered their request of September 5, and, after discussion, instructed the General Medical Superintendent to certify to the various draft boards the need of the individual employees in the hospitals of the department when those employees are required to fill out their questionnaires. The General Medical Superintendent was also authorized to take such steps as may be necessary to retain a sufficient number of employees in the department for the proper maintenance of the hospitals. Reference was made to the need of a salaried Resident Physician for the Neponsit Beach Hospital. After discussion, it was moved, seconded and carried, to supplement the departmental estimate for 1919 and ask for a salaried place of Resident Physician at \$900 a year. The General Medical Superintendent reported that he had received an estimate of \$600 as the cost for repairs to the furniture in the Nurses' Residence, and the Trustees authorized a request to the Board of Aldermen for an issue of revenue bonds for this purpose.

A letter, dated September 4, was presented from the Corporation Counsel, requesting that all applications for changes in the law be presented to the Law Department on or before October 15. After consideration, it was moved, seconded and carried, to request the President to inform the Corporation Counsel that it would be desirable to amend the Workmen's Compensation Law, whereby the hospitals of the department would be permitted to make a charge for operations, use of X-ray, operating rooms, etc., in accordance with the schedule of rates allowed under the law, and Dr. O'Hanlon, the General Medical Superintendent, was instructed to confer with the Law Department on the subject.

A motion to adjourn the meeting was moved, seconded and carried.

JNO. G. O'KEEFE, Secretary, Board of Trustees.

STATE INDUSTRIAL COMMISSION—DEPARTMENT OF LABOR.

Resolutions Adopted.

Whereas, the Kar Engineering Co., of New York City, has made application to this Commission for a continuation of the variation from section 8-a of the Labor Law, granted said Company on July 3, 1918, permitting certain employees at its plant at No. 79 E. 130th st., Manhattan, to work seven days per week until Sept. 30, 1918; and

Whereas, it has been shown that this Company has contracted with the United States Government to supply material for the use of said Government, and that the work necessary to comply with the terms of said contract will cover a period of time until at least December 31, 1918; and

It appearing that Benedict Crowell, Acting Secretary of War, has certified to this Commission that an emergency existed warranting the granting of such variation, therefore be it

Resolved, by the State Industrial Commission, That the Kar Engineering Co., of 79 E. 130th st., New York City, be and it hereby is granted a continuation of the variation from the provisions of section 8-a of the Labor Law heretofore accorded said company to permit certain male adults engaged in work for the United States Government at its said plant to work seven days per week until Dec. 31, 1918. If at the expiration of said period the emergency still exists, further certificate to be furnished and action taken thereon.

STATE OF NEW YORK, OFFICE OF THE STATE INDUSTRIAL COMMISSION, ss.:

I, WILLIAM S. COFFEY, Secretary of the State Industrial Commission of the State of New York, DO HEREBY CERTIFY that I have compared the foregoing copy of a resolution with the original thereof, duly adopted by the State Industrial Commission on the 9th day of October, 1918, and duly filed in the office of said Commission, and that the same is a true and correct copy and transcript of said resolution and of the whole thereof.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of the State Industrial Commission this 9th day of October, 1918.

WILLIAM S. COFFEY, Secretary.

Whereas, the Boston & Maine Railroad, through Mr. A. H. Smith, Regional Director of Railroads (Eastern Territory), has made application to this Commission for a variation from the provisions of section 8-a of the Labor Law, to permit the men employed in its "Mechanical and Stores Departments" at Mechanicsville, N. Y., to work seven days per week; and

Whereas, it has been shown that the work being done is not necessarily continuous; and

It appearing that the United States Railroad Administration, through its counsel, John Barton Payne, has advised this Commission that the need of labor in the repair shops in connection with the operation of railroads is imperative and has requested that such variation be granted, therefore be it

Resolved, by the State Industrial Commission, That the Boston & Maine Railroad be and it hereby is granted variation from the provisions of section 8-a of the Labor Law in so far as the same applies to the male adults employed in its "Mechanical and Stores Departments" at Mechanicsville, N. Y., as follows:

Mechanical Department—40 machinists, 13 boiler-makers, 2 boiler-washers, 1 painter, 1 tin-smith, 1 flue welder, 5 blacksmith's helpers, 1 gang leader, 1 mill room man, 35 machinist's helpers, 15 boiler-maker's helpers, 20 engine-house men (watchmen, inspectors and shop laborers), 1 carpenter, 5 blacksmiths, 5 apprentices and 50 car repairmen. Stores Department—2 oil room men, 3 storeroom helpers, 1 assistant storeroom man, 14 laborers.

This variation to become effective immediately and to permit the employment of said men seven days per week for the duration of the war.

STATE OF NEW YORK, OFFICE OF THE STATE INDUSTRIAL COMMISSION, ss.:

I, WILLIAM S. COFFEY, Secretary of the State Industrial Commission of the State of New York, DO HEREBY CERTIFY that I have compared the foregoing copy of a resolution with the original thereof, duly adopted by the State Industrial Commission on the 9th day

of October, 1918, and duly filed in the office of said Commission, and that the same is a true and correct copy and transcript of said resolution and of the whole thereof.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of the State Industrial Commission this 9th day of October, 1918.

Whereas, the International Paper Co., through Allen Curtis, the manager of said company, has made application to this Commission for a variation from the provisions of section 8-a of the Labor Law, in so far as the same applies to the mechanics and mechanic's helpers employed at its plants at Glens Falls, Fort Edward, Palmer, Ticonderoga, Cadyville, Pierceland, Watertown and Woods Falls; and

Whereas, it has been shown by the reports of the Supervising Inspectors in charge of the districts wherein these plants are located that the process of manufacture is not necessarily continuous, but that said plants are being operated twenty-four hours per day, in three shifts of eight hours each, for six days per week, and that said company is furnishing material to the United States Government, and in order to maintain the necessary output of these plants it is necessary to make repairs on Sunday; and

It appearing that the Chairman of the War Industries Board, B. M. Baruch, has approved of the certificate of emergency issued by Thomas E. Donnelly, Chief of the pulp and paper section of said War Industries Board, requesting that variation be granted said company; therefore be it

Resolved, by the State Industrial Commission, That the International Paper Company be and it hereby is granted a variation from the provisions of section 8-a of the Labor Law in so far as the same applies to the following male adults employed at its plants, viz.:

Not to exceed 33 employees (mechanics and mechanic's helpers) at work at its plant at Glens Falls.

Not to exceed 72 employees (mechanics and mechanic's helpers) at work at its plant at Fort Edward.

Not to exceed 91 employees (mechanics and mechanic's helpers) at work at its plant at Palmer.

Not to exceed 13 employees (mechanics and mechanic's helpers) at work at its plant at Ticonderoga.

Not to exceed 8 employees (mechanics and mechanic's helpers) at work at its plant at Cadyville.

Not to exceed 26 employees (mechanics and mechanic's helpers) at work at its plant at Pierceland.

Not to exceed 8 employees (mechanics and mechanic's helpers) at work at its plant at Watertown; and

Not to exceed 32 employees (mechanics and mechanic's helpers) at work in its three mills at Woods Falls.

This variation to take effect immediately and to continue until March 31, 1919. If at the expiration of said period the emergency still exists, further certificate to be furnished and action taken thereon.

STATE OF NEW YORK, OFFICE OF THE STATE INDUSTRIAL COMMISSION, ss.:

I, WILLIAM S. COFFEY, Secretary of the State Industrial Commission of the State of New York, DO HEREBY CERTIFY that I have compared the foregoing copy of a resolution with the original thereof, duly adopted by the State Industrial Commission on the 9th day of October, 1918, and duly filed in the office of said Commission, and that the same is a true and correct copy and transcript of said resolution and of the whole thereof.

Whereas, application has been filed with the State Industrial Commission by the Mohawk Condensed Milk Co. for a variation from the provisions of section 8-a of the Labor Law; and

Whereas, a review of the situation now existing discloses that there is in its industry in its localities an extreme shortage of labor; and

Whereas, it appears that upon the representation of said company that a strict enforcement of the provisions of section 8-a of the Labor Law would result in the loss of large quantities of dairy products through inability of said company to take care of the products owing to said shortage of labor and that the products dealt in in this industry are perishable foods, the saving of which is especially essential at this time owing to the national emergency, a variation from said section 8-a was granted said company by this Commission, which variation terminated on Sept. 1, 1918; and

It appearing that such shortage of labor still exists and the loss of food products under the unusual circumstances existing would be detrimental and disastrous, therefore be it

Resolved, by the State Industrial Commission that the Mohawk Condensed Milk Co. be and it hereby is granted a continuation from the exemption from section 8-a heretofore accorded said company, said variation shall apply to male adults only employed at its plants at St. Johnsville, Deansboro, Sherman, Clymer and Mayville. This variation to take effect immediately and to continue until January 15, 1919.

STATE OF NEW YORK, OFFICE OF THE STATE INDUSTRIAL COMMISSION, ss.:

Whereas, Westinghouse, Church, Kerr & Co., of 37 Wall st., Manhattan, filed a petition dated Sept. 6, 1918, for a variation from the provisions of sections 79-a-1-2 and 79-f-9 of the Labor Law, re construction of exterior walls, stairway and stairway enclosure and horizontal exit in the proposed bag manufacturing building of the Federal Sugar Refining Co., Yonkers, N. Y.; and

Whereas, a public hearing was held on the 19th day of September, 1918, at 230 5th ave., Manhattan, at which an opportunity for all interested persons to be heard thereon was given; and

Whereas, an examination of the plans of the said proposed building was made and a report of such examination is on file in the office of the Commission, from which examination it appears that the said proposed building will be of nonfireproof construction, exterior walls approximately 7½ inches thick, of structural steel frames, 6-inch wood studs and galvanized iron siding outside, with ½-inch wood sheathing inside; two stories in height; approximately 130 feet by 50 feet, sprinklered throughout; will be used for the manufacture and repair of bags, with an occupancy of 35 women on the second floor. Exits will be one exterior wooden stair-

way extending from second floor to ground, enclosed with partitions of 2 x 4 wood studs lathed on each side with at least 24 U. S. standard gauge metal lath and plastered with Portland cement at least ¾-inch thick on each side, partitions conforming to rule 504-c of the Industrial Code; one horizontal exit by bridge 9 feet 6 inches wide extending from second floor to the second floor of a building approximately 16 feet distant, to be constructed with concrete floor, side walls not less than 6 feet 6 inches high, constructed of 2 by 4 studs lathed each side with at least No. 24 U. S. gauge metal lath and plastered with Portland cement mortar at least ¾-inch thick on each side; there will be 3 windows, metal covered sash with wired glass in wall on one side of enclosure, roof will have steel beams with 2-inch sheathing on top and three-ply Barrett roofing and metal lath plastered with Portland cement not less than ¾ inch thick underneath the steel beams; fire door at each end of the bridge. There will be an exterior unenclosed wood stairway 3 feet wide at southeast corner of building, leading from second floor to ground, to be used as an accommodation stairway. And there appearing from such examination and public hearing that there are practical difficulties and unnecessary hardship in carrying out the strict provisions of the law or the rules and regulations of the Industrial Code on the said proposed building, and that in the granting of a variation on said proposed building the spirit of the law and rules and regulations will be observed and public safety secured, be it

Resolved, by the State Industrial Commission that a variation be and it hereby is granted to

Westinghouse, Church, Kerr & Co., of 37 Wall st., Manhattan, on the proposed Bag Manufacturing Building of the Federal Sugar Refining Co., Yonkers, N. Y., upon the following terms: That the exterior walls approximately 7½ inches thick, constructed as above described, be permitted; that one enclosed stairway on exterior of building and one horizontal exit constructed as above described be permitted as required exits provided that the exposed soffit of the stairs of exterior stairway be covered with metal of not less than 20 gauge; be it further

Resolved, That one exterior unenclosed auxiliary stairway be not permitted; be it further

Resolved, That the said variations are granted only during the period that the conditions above set forth as to exits, number of occupants, nature of industry, etc., are maintained.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 will be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchman or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations, and the sidewalks and curb in front of said buildings, extending within the described area, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from the demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the openings of the main sewer in the street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all openings in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days

from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portions as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the date of possession, and the successful bidder will provide and furnish all materials or labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

No buildings, parts of buildings, fixtures or machinery sold for removal under these terms and conditions shall in any case be relocated or re-erected within the lines of any proposed street or other public improvement, and if any such buildings, parts of buildings, fixtures or machinery, etc., shall be relocated or re-erected within the lines of any proposed street or other public improvement, title thereto shall thereupon become vested in The City of New York and a resale at public or private sale may be made in the same manner as if no prior sale thereof had been made.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids, and be it further

Resolved, That while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids in addition to inserting the same in figures.
