

Effective as of June 22, 2022

2022

Eric Adams

Mayor, City of New York

Daniel Steinberg

Director, Mayor's Office of Operations

Executive Summary

AP-05 Executive Summary - 24 CFR 91.200(c), 91.220(b)

1. Introduction

The 2022 Proposed Consolidated Plan One-Year Action Plan (the "Proposed Action Plan") is the City of New York's annual application to the United States Department of Housing and Urban Development (HUD) for the four Office of Community Planning and Development entitlement programs: Community Development Block Grant (CDBG), HOME Investment Partnerships (HOME), Emergency Solutions Grant (ESG) and Housing Opportunities for Persons with AIDS (HOPWA).

In addition, the Proposed Action Plan serves not only as the City's application for the Entitlement funds, but also as the HOPWA grant application for the New York HOPWA Eligible Metropolitan Statistical Area (EMSA). As a result of revisions to metropolitan statistical areas (OMB Bulletin No. 18-04) issued by the Office of Management and Budget, the composition of the Metropolitan Divisions within the New York-Newark-Jersey City, NY-NJ-PA Metropolitan Statistical Area (MSA) has changed affecting Federal Fiscal Year (FFY) 2022. Per OMB Bulletin No. 18-04 and 42 U.S.C. 12903(c)(2)(B), New York City's HOPWA EMSA jurisdiction for FFY 2022 and subsequent allocations includes the following counties: Bronx County, NY; Kings County, NY; New York County, NY; Putnam County, NY; Queens County, NY; Richmond County, NY; Rockland County, NY; and Westchester County, NY.

For the 2022 Program Year, the City received \$304,212,902 in entitlement funds for the four HUD formula grant programs: \$166,259,543 for CDBG; \$81,327,120 for HOME; \$41,777,058 for HOPWA; and \$14,849,181 for ESG.

2. Summarize the objectives and outcomes identified in the plan

HUD Strategic Objectives Table – CDBG Only	
DH-1: Accessibility for the purpose of providing Decent Affordable Housing	\$26,161,000
4 programs focused on accessible housing for persons with disabilities, providing safe housing f displaced by fires or other emergencies, and finding permanent affordable housing for homeless	•
DH-3: Sustainability for the purpose of providing Decent Affordable Housing	\$294,469,000
6 programs focused on improving housing quality by addressing violations of the Housing Code, emergency repairs, and/or performing moderate rehabilitation.	, perform
EO-1: Accessibility for the purpose of creating Economic Opportunities	\$2,603,000
1 program focused on revitalizing commercial districts in low- and moderate-income areas and capacity of local development corporations and merchant organizations.	building the
EO-2: Affordability for the purpose of creating Economic Opportunities	\$4,524,000
1 program that provides free educational services to low- and moderate-income households/pe	ersons.
SL-1: Accessibility for the purpose of creating Suitable Living Environments	
9 programs offering recreational activities, community gardens, services for homeless individua and equipment for public schools, renovation of senior centers, services for victims of domestic crimes, and operation of community centers.	•
SL-2: Affordability for the purpose of creating Suitable Living Environments	\$375,000
1 program offering free food to the food insecure.	
SL-3: Sustainability for the purpose of creating Suitable Living Environments	\$31,954,000
5 programs focused on correcting or preventing violations in City public facilities, demolishing h structures, and improving historic properties.	nazardous
Not Applicable - Planning / Administration	\$34,345,000
5 programs categorized as either Planning or Administration activities, which are not required to Strategic Objective, but offer benefits such as furthering fair housing, evaluating and designating historic status, studying housing vacancy and affordability, supporting area-wide planning studic CDBG funds are used in compliance with federal regulations.	g properties for
Total	\$429,883,000

HOME Investment Partnership (HOME)

To meet the objectives of expanding access to safe and sanitary affordable housing, the HOME program will fund the following programs in 2022:

• Two programs expect to receive a cumulative total of \$48,194,408 for the purpose of providing access to decent affordable housing.

- One program expects to receive a cumulative total of \$25,000,000 for the purpose of providing decent affordable housing.
- The remainder of HOME funds, approximately \$8,132,712, will be used for program administration and planning and, therefore, is not applicable to HUD defined outcome/objective statements.

Emergency Solutions Grant (ESG)

- One program expects to receive a cumulative total of \$7,663,794 for the purpose of providing emergency shelter services to single adults experiencing homelessness.
- One program expects to receive a total of \$900,500 for the purpose of providing street outreach and drop-in services for individuals experiencing unsheltered homelessness, in order to facilitate placement into temporary and permanent housing options.
- One program expects to receive a total of \$2,949,009 for the purpose of preventing homelessness through community-based prevention services.
- The remainder of ESG funds, approximately \$3,335,878, will be used for HMIS activities, including ongoing development of CAPS, NYC's Coordinated Entry system, for the purpose of assessing, connecting and placing homeless persons into permanent housing.

Housing Opportunities for Persons With AIDS (HOPWA)

To accomplish the goals of providing permanent supportive housing, tenant-based rental assistance, permanent housing placement, and homelessness prevention for low-income persons living with HIV/AIDS (PLWHA), the HOPWA program intends to serve close to 3,000 households across the New York City EMSA annually with the intention of meeting the priority need of delivering affordable housing to low income PLWHA.

Specifically, in 2022:

- Three project sponsors will focus on homelessness prevention among low-income PLWHA through the delivery of Tenant-Based Rental Assistance.
- One project sponsor will reduce homelessness among low-income PLWHA, increase housing stability among low-income PLWHA, and promote access to care among low-income PLWHA through the delivery Permanent Housing Placement.
- Thirteen project sponsors will increase housing stability among low-income PLWHA and promote access to care among through the delivery of Permanent Facility-Based Housing and Support Services.

3. Evaluation of past performance

The City's 2020 Consolidated Plan <u>Annual Performance Report (CAPER)</u> can be accessed at the Mayor's Office of Operations website.

For New York City's evaluation of past performance of HOPWA formula entitlement funds, please refer to the City's 2020 HOPWA CAPER, the most recent data available on HOPWA performance for the jurisdiction, found in the 2020 CAPER Appendices.

4. Summary of Citizen Participation Process and consultation process

The City uses diverse notification methods to inform the public. Over 500 notifications were emailed to New York City residents, organizations, and public officials inviting comments during the public review period for the 2022 Proposed Annual Action Plan.

In addition, notices regarding the public hearing were published in three local newspapers: an English-, a Spanish-, and a Chinese-language daily, each with citywide circulation.

Furthermore, the notice was posted on the Mayor's Office of Operations and New York City Office of Management and Budget websites. A PDF version of the 2022 Annual Action Plan is posted on Mayor's Office of Operations website for public review and download.

The Mayor's Office of Operations announced a 30-day Public Comment Period on the *Formulation* of the *Proposed 2022 Annual Action Plan* on Thursday, December 9th, 2021 – Tuesday, January 7th, 2022. A Virtual Hearing was held on Thursday, December 16th from 2:00-3:00pm for the *Formulation of the Proposed 2022 Annual Action Plan*.

The Mayor's Office of Operations announced a 30-day public comment period from July 1st, 2022 until July 30th, 2022 on the final submission of the *2022 Annual Action Plan*. A Virtual Hearing will be held on Wednesday, July 20th, 2022 from 2:00-3:00pm for the *Proposed 2022 Annual Action Plan*.

The public was instructed to submit their written comments on the 2022 Proposed Annual Action Plan by close of business, July 30th, 2022 to: Lisa Rambaran, New York City Consolidated Plan Program Manager, Mayor's Office of Operations, 253 Broadway 10th Floor, New York, New York 10007, email: conPlanNYC@cityhall.nyc.gov.

		Authority(NYCHA)

Table 1 – Responsible Agencies

Narrative

The Mayor's Office of Operations (OPS) is the lead agency in the City's Consolidated Plan application process and is responsible for the formulation, preparation, and development of each year's proposed Action Plan in conjunction with the Consolidated Plan Committee member agencies and HUD.

The City's CDBG, HOME, HOPWA, and ESG programs are administered by the Office of Management and Budget (OMB), the Department of Housing Preservation and Development (HPD), the Department of Health and Mental Hygiene (DOHMH), and the Departments of Social Services and of Homeless Services (DSS/DHS), respectively.

The New York City Consolidated Plan also serves as the HOPWA grant application for three (3) surrounding counties within the New York Eligible Metropolitan Statistical Area (EMSA): The New York counties of Putnam, Rockland and Westchester.

HPD promotes the construction and preservation of affordable housing for low- and moderate-income families in thriving and diverse neighborhoods throughout the five boroughs. Using federal, state, and local funds, HPD finances affordable housing development and preservation while also enforcing housing quality standards and endeavoring to ensure sound management of the city's affordable housing stock. In partnership with thirteen sister agencies, advocates, developers, tenants, community organizations, elected officials, and financial institutions, HPD is responsible for carrying out the Mayor's ten-year housing plan.

DHS and the Human Resources Administration (HRA) operate under an integrated management structure under the Department of Social Services (DSS), coordinating services to prevent and alleviate homelessness for families with children and individuals and households without children. HRA provides public benefits and services which assist including cash assistance, Medicaid and SNAP benefits; as well as homelessness prevention, diversion and the administration of rental assistance programs to move homeless families and adults into permanent housing. DHS is responsible for shelter operations and services to street homeless individuals. Programs for runaway and homeless youth and children aging out of foster care are administered by the Department of Youth and Community Development (DYCD), and Administration for Children's Services (ACS), respectively. HRA's HIV/AIDS Services Administration (HASA) provides emergency and supportive housing assistance and services for persons with HIV-related illness or AIDS.

New York City Department of Health & Mental Hygiene (DOHMH), along with the State's Office of Mental Health (OMH); Office for People with Developmental Disabilities (OPWDD); and, Office of Alcoholism and Substance Abuse Services (OASAS), plan, contract, and monitor services for these disability areas and provide planning support to OASAS in the field of substance abuse services. DOHMH's Bureau of Mental Health, through contracted agencies, provides an array of mental health recovery-oriented services and supportive housing programs to prevent homelessness and works collaboratively with Federal, City and State agencies to assure continuity of services.

The New York City Housing Authority (NYCHA), using primarily Public Housing Capital funds, administers public housing new construction, rehabilitation and modernization activities, and home ownership opportunity programs, along with a Section 8 rental certificate and voucher program.

The Department for the Aging, the Mayor's Office for People with Disabilities, and the Mayor's Office to Combat Domestic Violence address the concerns of targeted groups of citizens by providing housing information and supportive housing services assistance.

Consolidated Plan Public Contact Information

Any questions or comments regarding New York City's Consolidated Plan and the formula entitlement grant funded activities may be directed to:

Lisa Rambaran, New York City Consolidated Plan Program Manager, Mayor's Office of Operations, 253 Broadway 10th Floor, New York, New York 10007, email: <u>ConPlanNYC@cityhall.nyc.gov</u>.

- **CDBG:** Julie Freeman, Director of Community Development, Office of Management and Budget (212) 788-6130.
- **HOME:** Shana Wernow, Director of Grant Monitoring and Compliance, Department of HousingPreservation and Development, (212) 863-5084.
- **ESG:** Martha Kenton, Director of HUD Continuum of Care, Federal Homeless Policy & Reporting, Department of Social Services, (929) 221-6183.
- **HOPWA:** Deborah Noble, Director of Housing, Housing Services Unit, Department of Health and Mental Hygiene, (347) 396-7544.

AP-10 Consultation - 91.100, 91.200(b), 91.215(l)

1. Introduction

The City uses diverse notification methods to inform the public. Over 500 notifications were emailed to New York City residents, organizations, and public officials inviting comments during the public review period for the 2022 Proposed Annual Action Plan.

In addition, notices regarding the public hearing were published in three local newspapers: an English-, a Spanish-, and a Chinese-language daily, each with citywide circulation.

Furthermore, the notice was posted on the Mayor's Office of Operations and NYC Office of Management and Budget websites. A PDF version of the 2022 Action Plan is posted on Mayor's Office of Operations website for public review and download.

The City of New York provides a dedicated webpage that allow New York City residents to provide comments. Publication of amended, proposed, and approved plans are posted on the Consolidated Plan webpage and are available for download.

The City consults with City Agencies charged with administering programs.

Provide a concise summary of the jurisdiction's activities to enhance coordination between public and assisted housing providers and private and governmental health, mental health and service agencies (91.215(l))

The NYC HOPWA EMSA strives to improve the health and well-being of persons living with HIV/AIDS (PLWHA) who are unstably housed, homeless or chronically homeless. To accomplish this, DOHMH contracts with community-based organizations throughout the HOPWA EMSA to deliver targeted housing and supportive services to meet the unique needs of PLWHA.

The HOPWA program is designed to assist various sub-populations including, homeless/chronically singleadults and families; adults diagnosed with mental illness; adults diagnosed with a substance abuse disorder; young adults age 18-26; persons age 55 and over; and adults recently released from jail/institution.

DOHMH also collaborates with the HIV/AIDS Services Administration (HASA) of the New York City Human Resources Administration (HRA). Together, DOHMH and HASA leverage resources to meet the housing and supportive service needs of this community.

In addition to HASA, the DOHMH coordinates funding through Ryan White Part A Housing, which considerably expands the City's reach to provide housing assistance to PLWHA. Services include locating and securing apartments and obtaining rental assistance entitlements.

DSS/HRA/DHS work closely with many other City, State, and Federal agencies to address the needs of homeless families and individuals and those at risk of homelessness. These agencies include: the Department of Housing Preservation and Development (HPD), the New York City Housing Authority (NYCHA), the Department of Health and Mental Hygiene (DOHMH), the Administration for Children's Services (ACS), the Department of Education (DOE), the Department of Correction (DOC), the Department of Youth and Community Development (DYCD), Department of Veterans' Services (DVS), the Mayor's Office to End Domestic and Gender-Based Violence (ENDGBV), Mayor's Office for People with Disabilities (MOPD), New York State Office of Temporary and Disability Assistance (OTDA), New York State Office of Children and Family Services (OCFS), New York State Office of Mental Health (OMH), the NYS Office of Alcoholism and SubstanceAbuse Services (OASAS), and the US Department of Veterans Affairs (VA). The New York City Continuum of Care (NYC CoC), a broad coalition of homeless services non-profit providers, government agencies, and advocate organizations, also works closely with DHS and HRA on prioritizing funding for homeless services, prevention, and permanent housing.

Describe coordination with the Continuum of Care and efforts to address the needs of homeless persons (particularly chronically homeless individuals and families, families with children, veterans, and unaccompanied youth) and persons at risk of homelessness.

DSS/DHS, the ESG recipient, coordinates extensively with the NYC Continuum of Care (CoC). The following goals listed in NYC's five- year Consolidated Plan are consistent with the CoC's mission: investing in proven strategies to reduce the number of homeless individuals on the streets and in shelter; preventing at-risk households from entering shelter; ensuring that shelter is a short-term solution to a housing crisis; and tracking trends and adjusting priorities to meet the changing needs of homeless households. Efforts by DHS/DSS and the CoC focus on outreach to street homeless individuals; prevention and diversion services for those at risk of becoming homeless; transitional programs that emphasize mainstream resources; targeted placement into supportive housing for eligible individuals; and aftercare services to ensure stability in the community. The alignment of the Consolidated Plan goals and the CoC's mission has led to coordinated efforts within the jurisdiction to address the needs of homeless persons in the City, including the chronically homeless, families with children, veterans, survivors of domestic violence, and youth and young adults.

The City also coordinates with many other systems of care, including hospitals, prisons, and jails to develop policies and procedures to ensure systems of care minimize/eliminate the discharge of individuals into shelter and homelessness.

Describe consultation with the Continuum(s) of Care that serves the jurisdiction's area in determining how to allocate ESG funds, develop performance standards for and evaluate outcomes of projects and activities assisted by ESG funds, and develop funding, policies and procedures for the operation and administration of HMIS

DSS/DHS is the ESG recipient for the City of New York as well as the NYC Continuum of Care's (CoC's) Collaborative Applicant and CoC Steering Committee Co-Chair. These three complementary roles ensure the ongoing consultation with the CoC on ESG planning and on ESG program performance evaluation. DHS/DSS annually presents to the CoC Steering Committee on program activities and performance standards.

Homeless Management Information System (HMIS) related issues are discussed regularly at a variety of data and performance focused CoC committees and workgroups DHS/DSS is the NYC CoC HMIS Lead Agency and is responsible for ensuring HMIS is administered in compliance with the CoC & ESG Program Interim Rules, current HMIS Data Standards, and other HUD Notices. The CoC developed the NYC HMIS Policies & Procedures to fulfill the requirements of the HMIS Proposed Rule and updates them on an as-needed basis. ESG and CoC HMIS work is supported by the DSS/DHS HMIS team including a director and staff. The HMIS Directorcoordinates with the HMIS vendor to make certain the NYC HMIS can generate the required HUD reports as well as provide data to inform local decision-making and analysis.

Describe Agencies, groups, organizations and others who participated in the processand describe the jurisdiction's consultations with housing, social service agencies and other entities

The City uses diverse notification methods to inform the public. Over 500 notifications were emailed to New York City residents, organizations, and public officials inviting comments during the public review period for the 2022 Proposed Annual Action Plan.

In addition, notices regarding the public hearing were published in three local newspapers: an English-, a Spanish-, and a Chinese-language daily, each with citywide circulation.

Furthermore, the notice was posted on the Mayor's Office of Operations and NYC Office of Management and Budget websites. A PDF version of the 2022 Action Plan is posted on Mayor's Office of Operations website for public review and download.

The City of New York provides a dedicated webpage that allow New York City residents to provide comments. Publication of amended, proposed, and approved plans are posted on the Consolidated Plan webpage and are available for download.

Expected Resources

AP-15 Expected Resources – 91.220(c)(1,2)

Introduction

The Proposed 2022 Action Plan is the City of New York's annual application to the United States Department of Housing and Urban Development(HUD) for the four Office of Community Planning and Development entitlement programs: Community Development Block Grant (CDBG), HOME Investment Partnerships (HOME), Emergency Solutions Grant (ESG) and Housing Opportunities for Persons with AIDS (HOPWA).

In addition, the Proposed Action Plan serves not only as the City's application for the Entitlement funds, but also as the HOPWA grant application for the New York HOPWA Eligible Metropolitan Statistical Area (HOPWA EMSA). Effective FFY22 and subsequent allocations the NYC EMSA will include the following counties: Bronx County, NY; Kings County, NY; New York County, NY; Putnam County, NY; Queens County, NY; Richmond County, NY; Rockland County, NY; and Westchester County, NY.

The City received \$304,212,902 in entitlement funds for the four HUD formula grant programs: \$166,259,543 for CDBG; \$81,327,120 for HOME; \$41,777,058 for HOPWA; and \$14,849,181 for ESG.

Table 5 - Expected Resources – Priority Table

Explain how federal funds will leverage those additional resources (private, state and local funds), including a description of howmatching requirements will be satisfied

HPD City Funds -- Calendar 2022

HPD Capital Matching Federal Funds

HPD's total capital budget for calendar year 2022 from all funding sources (including HUD) is approximately \$1,474,093,000. Of that amount \$1,442,093,000 comes from the City. Of the City funds, \$350,778,000 is scheduled for programs that use City funds in conjunction with Federal funds (CDBG, HOME, Section 8, etc.). The remaining \$1,091,315,000 of City funds are used in programs that do not receive Federal funds. The City uses a portion of this \$350,778,000 figure to meet its 12.5% requirement to match HOME funds, in addition to using the appraised value of tax exemptions. The latest full year for which match data are available indicate that the City's match was \$11,654,253 as reported in the FY 2021 Match Report, to be published in the 2021 Consolidated Plan Annual Performance Report (APR). The City thus exceeded the 12.5% minimum. Estimates for next year's match amount and the portion constituting the cash value of Capital funds are not available at this time.

HPD Expense Matching Federal Funds

HPD's total expense budget for calendar year 2022 from all funding sources (including HUD) is approximately \$893,879,909. Of that amount approximately \$153,390,330 comes from the City (tax levy, Inter-Fund Agreement (IFA), and Intra-City). Of the City funds, approximately \$109,889,995 is scheduled for programs that use City funds in conjunction with Federal funds (CDBG, HOME, Section 8, etc.).

The remaining approximate \$43,500,335 of City funds are used in programs that do not receive Federal funds.

HPD Capital Without Federal Funds

In Calendar Year 2022, HPD expects to budget approximately \$1,091,315 in programs that receive no Federal funds.

HPD Expense Without Federal Funds

In Calendar Year 2022 HPD expects to budget approximately \$43,500,335 in programs that receive no Federal funds.

HPD Capital and Expense

As the primary housing agency in the City of New York, HPD has used both City capital and tax levy funds to develop housing programs to address the needs of low-and moderate-income households. Although the funds received from the federal government are an essential element in the City's housing policy, HPD has created over 20 housing programs with no direct federal funds for the purposes of increasing housing production and maintaining the existing housing stock.

HOPWA

On an annual basis, the City of New York actively identifies and secures Federal, State and City resources

Annual Action Plan

to leverage HOPWA dollars for the benefit of HOPWA consumers. In 2020, a total of \$583,414,491 were leveraged and combined with HOPWA dollars to support HIV/AIDS housing to fund rental assistance; permanent and transitional congregate housing; and permanent scattered-site housing for low-income individuals and families living with HIV/AIDS. In addition to providing housing subsidy assistance, eligible HOPWA consumers also received medical case management, homecare services, legal aid, transportation services, nutritional services, employment assistance training, mental health and substance use services funded with City, State and Federal dollars.

<u>ESG</u>

The City of New York invests significant tax levy and grant resources in services to prevent homelessness, support shelter and for families and individuals, and to provide permanent housing for homeless and atrisk households. In City Fiscal Year 2022, the DSS/DHS budget was \$2.8 billion, of which \$1.5 billion were City funds. The DSS/HRA budget included \$350 million for rental assistance, \$160 million for anti-eviction and tenant protection programs, \$40 million for homelessness prevention, \$130 million for domestic violence services and \$250 million on housing, shelter and service for individuals with HIV/AIDS.

If appropriate, describe publicly owned land or property located within the jurisdiction that may be used to address the needs identified in the plan

In Rem Properties

Through foreclosure for tax delinquency, the City assumed ownership and management responsibility of formerly privately-owned residential buildings. These buildings, known as in rem properties, are most often located within distressed neighborhoods and need various levels of renovation. The Maintenance, Operation, and Rehabilitation of Tax-Foreclosed Housing (MOTH) program primarily benefits the low- and moderate-income people who occupy these buildings. According to the 2017 HVS, over 80 percent of households in the occupied MOTH inventory have incomes at or below 80 percent of the Area Median Income, and more than two thirds of these households have incomes at or below 50 percent of the Area Median Income.

As of December 31, 2021, there were 161 buildings in the MOTH inventory. The breakout of these properties is as follows:

Occupancy Status	# of Buildings	# of Occupied Units	# of Vacant Units	Total Units
Occupied	128	1,124	735	1,859
Vacant	33	0	113	113
Total	161	1,124	848	1,972

CDBG funds the maintenance, operation, and repair of occupied buildings, while City tax levy supports the maintenance of the vacant properties. HPD plans to use these housing units to meet the City's affordable housing goals.

Discussion

For FFY22, the HOPWA program will also support \$570,615 in CARES-funded activities to ensure ongoing maintenance of HOPWA housing operations across three project sponsors. Activities will include delivery of tenant-based rental assistance, permanent housing placement, facility-based housing operations, and supportive services.

As a result of revisions to metropolitan statistical areas (OMB Bulletin No. 18-04) issued by the Office of Management and Budget, the composition of the Metropolitan Divisions within the New York-Newark-Jersey City, NY-NJ-PA Metropolitan Statistical Area (MSA) will change effective Federal Fiscal Year (FFY) 2022. Per OMB Bulletin No. 18-04 and 42 U.S.C. 12903(c)(2)(B), New York City's HOPWA EMSA jurisdiction for FFY 2022 and subsequent allocations includes the following counties: Bronx County, NY; Kings County, NY; New York County, NY; Putnam County, NY; Queens County, NY; Richmond County, NY; Rockland County, NY; and Westchester County, NY.

Middlesex County, NJ; Monmouth County, NJ; and Ocean County, NJ, which were previously part of New York City's EMSA jurisdiction, will now be part of the New Brunswick Lakewood, NJ Metropolitan Division for FFY 2022 and subsequent HOPWA allocations. The Township of Lakewood, NJ, as the city that is the most populous unit of general local government within the New Brunswick-Lakewood, NJ Metropolitan Division, is eligible to serve as the HOPWA grantee for this new EMSA. During FFY2022, NYC HOPWA will continue to support HOPWA TBRA activities to existing Middlesex, Monmouth and Ocean County HOPWA consumers through December 31, 2022 with prior year funding to ensure uninterrupted TBRA services.

Orange County, NY, which was previously part of New York City's EMSA jurisdiction, will now be covered under New York State's HOPWA balance of state service area for FFY 2022 and subsequent allocations. In addition, Putnam County, NY, which was previously part of New York State's HOPWA balance of state service area, is now part of New York City's EMSA jurisdiction for FFY 2022 and subsequent allocations. For HOPWA TBRA activities in Orange County, beginning in FY22, NYC HOPWA will partner with New York State's Office of Temporary and Disability Assistance (OTDA) to transition Orange County to New York State's HOPWA balance of state service area. Orange County will continue to be supported by NYC HOPWA through September 30, 2022, with prior year funding to ensure uninterrupted TBRA services to existing Orange County HOPWA consumers.

Table 6 – Goals Summary

Goal Descriptions

1	Goal Name	Permanent Supportive Housing for PLWHA (HOPWA)		
	Goal Description	HOPWA permanent supportive housing programs identify, secure, and provide appropriate, permane housing for the following target HIV/AIDS populations across the five boroughs of NYC: homeless sing adults and families; adults diagnosed with mental illness; adults diagnosed with a substance abu disorder; young adults age 18-26; persons age 55 and over; individuals recently released fro jail/institution; and homeless/chronically homeless. Other essential supportive service elements incluon-site case management, harm reduction, care coordination, mental health, substance abuse, and oth supportive services as needed to ensure PLWHA maintain stable housing and enjoy improved quality life outcomes.		
2	Goal Name	Tenant-Based Rental Assistance for PLWHA (HOPWA)		
	Goal Description	Tenant-based rental assistance (TBRA) programs support individuals living with HIV/AIDS and their families to secure and maintain appropriate and permanent housing by providing long-term rental subsidy assistance.		
3 Goal Name Permanent Housing Placements for PLWHA (HOPWA)		Permanent Housing Placements for PLWHA (HOPWA)		
	Goal Description	Permanent Housing Placement services assist PLWHA locate and secure independent or supportive permanent housing. Permanent Housing Placement providers deliver housing information services, referrals, and provide assistance with securing housing subsidies, as needed.		
4	Goal Name	Homelessness Prevention for PLWHA (HOPWA)		
	Goal Description	Short-Term Rental Subsidies, Mortgage and Utility assistance (STRMU) are provided as emergency assistance to prevent eviction and homelessness among low-income PLWHA acrossthe entire HOPWA EMSA, as needed.		
5	Goal Name	HOPWA Grant Administration (HOPWA)		
	Goal Description	Administration and compliance of NYC's HOPWA formula funds for the NYC EMSA.		
6	Goal Name	Outreach (ESG)		

	Goal Description	Funds will be used by DHS Street Solutions to combat street homelessness, in proven strategies to reduce the number of homeless individuals on the streets. There is specific focus on housing placement for homeless veterans and chronically homeless individuals. Funds will also be used by DHS Street Solutions drop-in centers.				
7	Goal Name	Emergency Shelter & Essential Services (ESG)				
	Goal Description	Funds will be used to support the essential services in emergency shelters. In addition to socialservices and case management services, funds will be used to provide substance abuse counseling, employment services, and client ombudsman. There are additionally, housing placement services targeted to chronically homeless persons.				
8	Goal Name	Homeless Prevention (ESG)				
	Goal Description	Funds will be used to prevent those persons at-risk of homelessness from entering shelter. Services will include household/family or tenant/landlord mediation, household budgeting, emergency rental assistance, and benefits advocacy.				
9	Goal Name	Administer the CDBG entitlement grant program				
	Goal Description	Ensure proper management and compliance of NYC's CDBG entitlement funds.				
10	Goal Name	Conduct housing market analysis and planning				
	Goal Description	Assist in housing preservation through comprehensive housing market analysis and planning.				
11	Goal Name	Further fair housing throughout the city				
	Goal Description	Prevent discrimination in housing by providing fair housing counseling, education, and assistance to ensure compliance in the public and private housing markets.				
12	Goal Name	Preserve and improve NYC's housing stock				
	Goal Description	Preserve and improve New York City's publicly- and privately-owned housing stock through avariety of rehabilitation and code enforcement activities.				
13	Goal Name	Make NYC more livable for people with disabilities				
	Goal Description	Remove architectural barriers in publicly- and privately-owned properties and assist people with disabilities, landlords, and advocates in the areas of housing and housing rights.				
14	Goal Name	Modernize and improve public facilities				
	Goal Description	Fund programs that improve, modernize, or rehabilitate public facilities with an emphasis onpublic health and safety, and accessibility.				

15	Goal Name	Preserve historic buildings and areas					
	Goal Description	Promote the preservation of historic residential and non-residential buildings throughout NYC.					
16	Goal Name	Provide recreation and greenspace					
	Goal Description	Fund programs to preserve, expand, offer, or improve recreational activities, parks, andgreenspace for low- and moderate-income persons.					
17	Goal Name	Provide safe shelters and services					
	Goal Description	Provide New Yorkers requiring shelter with critical support services and safe space.					
18	Goal Name	Provide safety and independence for the elderly					
	Goal Description	Improve or maintain the quality of life for senior citizens by helping the elderly maintain their housing through the provision of supportive services and home repairs.					
19	Goal Name	Provide social & educational services					
	Goal Description	Provide educational and support services programs aimed at serving low- and moderate-income individuals and families throughout the city.					
20	Goal Name	Reduce threats to public health and safety					
	Goal Description	Improve neighborhood quality through the reduction of blighted properties or conditions that pose a public health and safety threat.					
21	Goal Name	Support community development through planning					
	Goal Description	Perform citywide and neighborhood focused community development planning to helpformulate long-term development and policy objectives for NYC.					
22	Goal Name	Support economic development					
	Goal Description	Assist business owners and revitalize commercial districts that benefit low/mod people and support the overall economic development of the city.					
23 Goal Name Recover and rebuild after Hurricane Sandy		Recover and rebuild after Hurricane Sandy					
	Goal Description	New York City continues its recovery through the Community Development Block Grant-DisasterRecovery (CDBG-DR).					
24	Goal Name	Increase resilience to future storms					
	Goal Description	New York City is working to increase its resiliency to flooding and future storm risk through the Community Development Block Grant-Disaster Recovery (CDBG-DR) and Community DevelopmentBlock Grant – National Disaster Resilience (CDBG-NDR).					

25	Goal Name	Create Affordable Housing - New Construction		
	Goal Description	Use HOME Program funds to increase supply of decent, affordable multi-family rental housingfor income- eligible New Yorkers, particularly for those with special needs.		
26	26 Goal Name Prevent Displacement and Reduce Cost Burdens – TBRA			
	Goal	Use HOME Program funds to ensure affordability for the purpose of providing high-qualityaffordable		
	Description	housing.		
27	Goal Name	Create New Homeownership Opportunities – Downpayment Assistance		
	Goal Use HOME Program funds to assist first-time homebuyers to afford downpayment expense.			
	Description			

Projects

AP-35 Projects - 91.220(d)

Introduction

The Office of Management and Budget has oversight responsibility for the Community Development Block Grant program.

The Department of Housing Preservation and Development administers the City's HOME Investment Partnership (HOME) Grant. Proposed projects funds affordable housing new construction, affordable housing rehabilitation, first-time homebuyer's homeownership assistance, and tenant-based rental assistance.

The Department of Homeless Services is the recipient of the City's Emergency Solutions Grant (ESG). These funds support efforts to serve homeless and at-risk of homelessness individuals and families.

The Department of Health and Mental Hygiene (DOHMH) administers the Housing Opportunities for Persons with AIDS (HOPWA) grant.

The City's Community Development Block Grant Disaster Recovery (CDBG-DR) Action Plan details how the City intends to use its CDBG-DR allocation to fulfill unmet funding needs as a result of the Hurricane Sandy. The programs outlined in the City's Action Plan cover housing, businesses, coastal resiliency, and infrastructure and other City services, with a focus on building resiliency to the challenges of climate change.

The City's Action Plan, all amendments, and its responses to public comments can be found on the City's CDBG-DR website.

Planned Activities

NYC Fair Housing advises building owners and project sponsors of their duty to comply with the Federal Fair Housing Act and the NYC Human Rights Law. The City's Human Rights Law is inclusive of the Federal Fair Housing Act and prohibits housing discrimination based on a person's race, color, religion, sex, disability, national origin, familial status, sexual orientation, age, alienage and citizenship status, marital status, partnership status, lawful occupation, gender, or lawful source of income. The City's law also prohibits bias-related harassment.

Through this program, HPD:

- Provides a Fair Housing website, Fair Housing NYC, which is coordinated by the New York City Commission on Human Rights (CCHR). The website promotes awareness and enforcement of fair housing practices and provides the public with a broad range of fair housing-related content and referral services. The site can be accessed at: https://www1.nyc.gov/site/fairhousing/index.page
- Holds regular workshops to educate partners and members of the public about fair housing rights and responsibilities, particularly involving the marketing process.
- Responds to, and coordinates with, CCHR regarding complaints and participates in various fair housing-related special projects.

CD funds are used to pay for staff that develops policies and tracks the progress of the City's efforts to comply with the U.S. Department of Housing and Urban Development's (HUD) requirement to affirmatively further fair housing. HPD's Fair Housing Policy and Investments (FHPI) unit helps to coordinate the City's comprehensive fair housing planning process, Where We Live NYC. As part of this process, FHPI engaged in extensive analysis and public participation to better understand how fair housing challenges like segregation, discrimination, and access to thriving neighborhoods impact New Yorkers' lives and how the City can eliminate barriers that currently impede fair housing.

Goals Supported Improve and preserve NYC's housing stock

Code Enforcement

Needs Addressed

Housing: Privately-Owned CDBG:

Funding Description

HPD uses CD funds for Housing Code Inspectors, clerical staff, attorneys, and other personnel who perform CD-eligible code-related activities

Target Date

Estimate the number and type of families that will benefit from the proposed activities

For 2022, the program anticipates that it will complete the following, for a total of 582,949 units benefitted:

- issue Housing Code violations affecting an estimated 364,809 units of rental housing; inspect 18,140 rental units for lead-based paint; and
- assist 200,000 units through housing litigation activities.

Location Description

CD funds are used in deteriorated and deteriorating neighborhoods, which are areas that meet all the following criteria:

- At least 51 percent of the population is at or below 80 percent of the Area Median Income;
- At least 50 percent of the area is residential in nature; and
- At least 15 percent of the occupied rental units have three or more maintenance deficiencies.

In most cases, the areas correspond with specific sub-borough areas, as defined by the U.S. Census Bureau for purposes of the New York City Housing and Vacancy Survey. City tax levy is used for code enforcement initiatives in areas that do not meet the stated criteria.

Planned Activities

Housing Code Inspections

Tenants use 311 to file complaints regarding violations of the New York City Housing Maintenance Code or the New York State Multiple Dwelling Law (Housing Codes). The 311 operators are CD-funded for the time they spend on CD-eligible housing complaint calls.

Code Inspectors promote quality housing by assuring owner compliance with the Housing Codes in privately-owned multiple dwellings and tenant-occupied apartments in one- and two-family houses. Staff is assigned to the following units:

- Borough Offices: Inspectors respond to complaints, issue violations where appropriate, and re-inspect violations certified as corrected by the owner. Staff may also conduct dismissal request inspections (for owners wishing to clear their record of existing violations), support the Housing Litigation Division (HLD) and the New York State Housing Court system in tenant-landlord actions, and issue vacate orders and respond to emergencies such as fires and structurally unsafe buildings.
- Clerical staff performs functions such as tenant callbacks (to verify a condition still exists), processing owner certifications and dismissal requests, and administrative tasks.

\$45,981,000

• The Registration Assistance Unit assists property owners with their annual registration as required by the NYC Housing Maintenance Code.

The Division of Neighborhood Preservation identifies deteriorating conditions in buildings and addresses them through a combination of assistance and enforcement. Outreach includes physical building inspections, working with owners to address issues that may hinder an owner's ability to correct the conditions, and referrals to other programs or resources when appropriate.

Lead-Based Paint Inspections

In addition to other violations, the Lead-Based Paint Hazard Inspection Unit tests for lead-based paint hazards with X-Ray florescence (XRF) machines, re-inspects lead-based paint violations certified as corrected by building owners, and inspects buildings where a child with lead-poisoning has been identified by the City.

<u>Litigation</u>

HPD's Housing Litigation Division (HLD) initiates actions in Housing Court against owners of privately-owned buildings to enforce compliance with the Housing Code. Attorneys also represent HPD when tenants initiate actions against private owners seeking the repair and correction of violations. The goal of these proceedings is to obtain Orders to Correct, civil penalties, or contempt sanctions to compel owner compliance.

HLD initiates a variety of cases including:

- Heat and/or hot water cases;
- Cases alleging the false certification that violations were corrected;
- False certifications that violations were corrected or failure to register a multiple dwelling;
- Seeking the appointment of 7A Administrators for buildings that have been abandoned by their owners and/or where conditions are dangerous to the tenants' health or safety;
- Seeking access warrants to inspect and, make emergency repairs in buildings where owners have denied access; and
- Collecting money judgments from owners.

Other HLD staff oversees administrative functions including paralegal services, investigations, litigation support, data operations, and office management.

Certification of No Harassment (CONH) Unit

Owners of certain multiple dwellings must obtain a "Certification of No Harassment" before applying for a permit to demolish or reconfigure the building. This requirement is intended to protect tenants by ensuring owners do not harass tenants into leaving before starting a demolition or construction project. A finding of harassment prevents the owner from obtaining a demolition or alteration permit for three years and/or means an alteration or demolition must include a set percentage of low-income housing.

Goals Supported	Improve and preserve NYC's housing stock

Housing: Privately-Owned - CDBG **Needs Addressed**

\$41,002,000

The Emergency Repair Program (ERP) works to correct immediately hazardous "C" violations. The goal is to secure voluntary corrective actions by landlords, Description eliminating the need for direct City involvement.

Target Date

Funding

Estimate the number and type of families that will benefit from the proposed activities

For 2022, the program anticipates that it will perform emergency repairs affecting 70,000 housing units and 1,250 lead-based paint reduction projects, for a total of 71,250 units.

Citywide **Location Description**

Planned Activities

The Emergency Repair Program (ERP) corrects immediately hazardous emergency conditions for which Housing Inspectors issue class "C" violations, or for which another City agency cites an emergency condition. CD-funded work consists of the following:

- Contacting owners or managing agents of buildings requiring emergency repair(s);
- Contacting tenants to determine if the owner complied. When HPD cannot certify the work was done, the violation is forwarded to the Emergency Repair and Environmental Hazards Unit (EREH);

Preparing work scopes, monitoring work in progress, and signing off on repair completion; Performing small lead-based paint repairs; Monitoring jobs awarded to outside vendors, ensuring that contractors start and complete work according to specifications; Re-inspecting lead-based paint violations. If a landlord fails to comply, EREH completes remediation and dust clearance Conducting asbestos investigations, preparing samples for laboratory analysis, and project monitoring; Working with utility companies to restore services to buildings where the owner has failed to provide them and arranging delivery of fuel or necessary CD revenue is generated when owners pay for the cost of the work done by the City. **Unit of Measure** Quantity **Goal Outcome Indicator** Public Facility or Infrastructure Activities other than Low/Moderate Income Housing Benefits **Persons Assisted** Public Facility or Infrastructure Activities for Low/Moderate Income Housing Benefits **Household Assisted** Public Service activities other than Low/Moderate Income Housing Benefits Persons Assisted Household Assisted Public Service activities for Low/Moderate Income Housing Benefits Facade treatment/business building rehabilitation **Business** Brownfield acres remediated Acre Rental units constructed **Household Housing Units** Rental units rehabilitated 71,250 Household Housing Units Homeowner Housing Added **Household Housing Units** Homeowner Housing Rehabilitated **Household Housing Units** Direct Financial Assistance to Homebuyers **Household Assisted** Tenant-based rental assistance / Rapid Rehousing **Household Assisted** Homeless Person Overnight Shelter **Persons Assisted** Overnight/Emergency Shelter/Transitional Housing Beds added Beds **Persons Assisted** Homelessness Prevention Jobs created/retained Jobs Businesses assisted **Business Assisted** Housing for Homeless added **Household Housing Units** Housing for People with HIV/AIDS added **Household Housing Units** HIV/AIDS Housing Operations **Household Housing Units Building Demolished Buildings** Housing Code Enforcement/Foreclosed Property Case **Household Housing Units** Other Other **Alternative Enforcement Program Project Name Target Area Goals Supported** Improve and preserve NYC's housing stock **Needs Addressed** Housing: Privately-Owned - CDBG **Funding** CDBG: \$10,343,000 The Alternative Enforcement Program (AEP) is intended to alleviate the serious physical deterioration of the most distressed buildings in NYC by forcing owners to Description make effective repairs. **Target Date** Estimate the number and type of For 2022, the program anticipates that it will complete projects affecting 150 units of rental housing. families that will benefit from the proposed activities **Location Description** Designated distressed residential buildings citywide. **Planned Activities** The Alternative Enforcement Program (AEP) is intended to address the serious physical deterioration of the most distressed buildings in New York City. Through AEP, the Department of Housing Preservation and Development (HPD) can order the property owner to repair or replace building systems as well as to address violations. If the owner fails to comply, AEP can address building systems and violations using CD funds. AEP staff is also supported by CD funds. Using criteria set forth in the City's Administrative Code, HPD designates 250 multiple dwellings that are high consumers of HPD's code enforcement services for participation in the program. HPD notifies owners that their buildings have been selected and the owner will have four months to do the following: Correct 100 percent of violations directly related to providing heat and hot water; Correct 100 percent of class "C" hazardous mold violations; Correct 80 percent of class "B" hazardous mold violations; Correct 80 percent of all vermin violations; Correct 80 percent of all other class "B" hazardous and class "C" immediately hazardous violations; Pay all outstanding HPD emergency repair charges and liens or enter into an agreement with the Department of Finance to pay such charges; and Submit a current and valid property registration statement. f the owner fails to meet all of the requirements for discharge within the first four months, HPD will perform a building-wide inspection and issue an Order to Correct, identifying the building systems that need to be replaced in order to address the underlying conditions (to minimize recurrence of those conditions). Once an Order is issued, fees will be charged to the property for being in the program and as a result of specific inspections. Should an owner fail to comply with the Order, HPD may perform the work. CD revenue is generated when owners pay for the cost of the work done by the City as well as for program inspection fees. 	Planned Activities	This program uses CD funds to conduct the following activities in City-owned, tax-foreclosed housing:		
		 Conduct necessary repairs and rehabilitation projects; 		
		Pay for fuel and utilities;		
		 Contract for the provision of superintendents to provide janitorial services; 		
		 Oversee maintenance, repair, and rehabilitation efforts, including: 		
		 Responding to emergency complaints and sealing vacant properties; 		
		 Processing work order requests; 		
		 Performing field inspections and holding technical interviews with potential contractors; 		
		 Inspecting, monitoring, and surveying projects; and 		
		 Procuring, monitoring, and issuing payment to contractors. 		
		Tenant Interim Lease (TIL)		
		City-owned buildings participating in TIL become independent housing cooperatives where tenants become hon		
		ensures compliance with applicable laws and regulations. Through CD-funded training contracts, nonprofit organ		
		(TAs) in becoming owners. The TAs are responsible for all building maintenance issues and rely on rent collection	n to support opera	iting expenses. For properties
		that do not generate sufficient revenues, CD will cover repairs and fuel and utility expenses.

Target Date					
Estimate the number and type of families that will benefit from the proposed activities	For Calendar Year 2022, the City projects to serve 17,224,609 people through this program.				
Location Description	The Bronx River Corridor, Pelham Bay Park, and Van Cortlandt Park in the Bronx; Prospect Park in Brooklyn; Bronx Edenwald Houses Pool: Schieffelin Avenue & East 229th Street	; and Minipools at the	following locations:		
	Brooklyn Albert J. Parham Playground: DeKalb Avenue and Clermont Avenue Fox Playground: Avenue H and East 54th Street				
	 Glenwood Playground: Farragut Road and Ralph Avenue Manhattan 				
	 Frederick Douglass Playground: West 102nd Street and Amsterdam Avenue Tompkins Square Park: East 10th Street and Avenue A Staten Island 				
	 General Douglas MacArthur Park: Jefferson Street and Dongan Hills Avenue Rev. Dr. Maggie Howard Playground: Tompkins Avenue and Broad Street Old Town Playground: Kramer Street and Parkinson Avenue 				

Annual Action Plan

Planned Activities Bronx River The Bronx River Project works to restore the Bronx River and create a continuous greenway along its length. CD funds are used to purchase educational and outreach materials, office supplies, field equipment, and restoration supplies, as well as to support program consultants and ecological restoration personnel. The CD funding also pays for the Bronx River Conservation Manager and two Crew Leaders. NYC Parks coordinates closely with the Bronx River Alliance to implement programs along the river as follows: The Education Program provides hands-on outdoor learning opportunities for thousands of students and educators. The Outreach Program draws thousands of people to the river through dozens of public events, including the Amazing Bronx River Flotilla and the International Coastal Cleanup Day. The Ecological Restoration and Management Program works to protect, restore, and manage the Bronx River through field work and policy leadership. Guided by an Ecology Team of scientists and community and agency representatives, the program tackles the river corridor's most pressing ecological issues. The Conservation Crew has a full-time presence on the river, implementing, monitoring, and maintaining the river and upland restoration efforts. The Crew is recruited locally, with an emphasis on creating job opportunities for Bronx residents, who in turn train hundreds of youths each year and expose them to green career paths in their own neighborhoods. Pelham Bay Park, Prospect Park, and Van Cortlandt Park Administrators' Offices CD funds pay for staff in the Administrator's Office for each park. The Administrators' Offices are tasked with coordinating and implementing the following: Educational programs; Public programs; Volunteer programs; Special projects and events; Conservation and recreation activities; Natural area restoration and horticultural improvements; Administrative and liaison functions with community and user groups; Public relations and community outreach; Capital planning; and Delivery of services to ensure park safety and security. Equipment may also be purchased when funds are available. For more information on each park, please visit: www.nycgovparks.org/parks/pelhambaypark or www.pelhambaypark.org. www.nycgovparks.org/parks/prospectpark or www.prospectpark.org. www.nycgovparks.org/parks/vancortlandtpark or https://vancortlandt.org. **Minipools** The Minipools program offers safe swimming opportunities for children ages six to 11, as well as for toddlers accompanied by an adult. CD funds are used to pay for seasonal lifeguards, Parks Enforcement security personnel, and the staff that operate the filtration systems to maintain water quality and perform custodial services. The CD-funded Minipools operate during the summer months and are located near New York City Housing Authority developments. CD funds currently help pay for security services at homeless shelters and for outreach to homeless individuals throughout Staten Island. Target Date Estimate the number and type of For 2022, the program anticipates that it will benefit approximately 2,200 homeless individuals. families that will benefit from the proposed activities **Location Description** CD funds may be used for security at the 30th Street Men's Shelter and other shelters currently under consideration. Additionally, outreach services are provided to homeless individuals throughout Staten Island, particularly those who occupy the Staten Island Ferry Terminal. **Planned Activities Shelter Security Services**

The Barbara Kleinman Residence is located at 300 Skillman Ave in Brooklyn's East Williamsburg neighborhood. CD funds will be used to fund a portion of the contract with a private security firm at this site.

Barbara Kleiman Residence is a 200-bed employment shelter. Clients assigned to this facility receive robust programming including case management with an emphasis benefit application and/or entitlements, initiating referrals for supportive services in the community, developing independent living plans, and completing housing applications and/or other activities related to permanency. Regardless of housing status, community health services are available at this site to anyone in need.

Homeless Outreach and Housing Placement Services

Through a contract with the Department of Homeless Services, Project Hospitality provides homeless outreach and housing placement services to persons who also may have mental health and/or substance abuse problems and occupy the Staten Island Ferry Terminal or other locations throughout Staten Island.

The primary goals are to provide an array of services to homeless clients, reduce the number of homeless persons who live in places not meant for human habitation, and expeditiously place them in safe havens, transitional settings, or permanent housing, as appropriate to their needs. The overall long-term goal is permanent housing for all homeless persons on Staten Island.

Many clients face a multitude of issues including mental health challenges and substance use/dependence problems. Project Hospitality's trained staff provides support 24 hours/seven days a week to connect homeless individuals with appropriate and needed services. Outreach teams canvas the Staten Island Ferry and other known locations where homeless individuals often frequent. Individuals are offered services such as transportation, showers, food, and shelter. Additionally, they organize emergency services such as medical detoxification, psychiatric evaluation, stabilization, bed care, and emergency health care.

Needs Addressed Homelessness - Emergency Shelter and Outreach

Funding CDBG: Description HPD provides emergency relocation services to tenants displaced as a result of fires or vacate orders.

Target Date

Estimate the number and type of families that will benefit from the proposed activities

For 2022, the program anticipates that it will provide emergency shelter to 3,500 individuals.

Location Description Citywide

Planned Activities

HPD provides temporary emergency shelter and relocation services to residential tenants displaced as a result of fires or vacate orders issued by City agencies.

The American National Red Cross (ANRC) provides emergency response and sheltering services for displaced households and attempts to relocate households back to their units of origin or with friends and relatives. Households that are not relocated by ANRC and are eligible for services are referred to HPD.

HPD assesses eligibility and assigns shelter placements based primarily on unit availability and household size and, if available, matching school affiliation, other community support systems, and special needs. Households with children are placed in one of three Family Living Centers located in the Bronx, Brooklyn, and Manhattan. Adult-only households are placed in privately-owned hotels in the Bronx, Manhattan, and Queens.

The program also offers moving and storage services for registered clients and provides case management services such as rehousing assistance and coordination, benefits advocacy, employment support, counseling and case management, documentation replacement, and referrals for services outside the scope of the program.

The program is available on a citywide basis to persons 60 or older and who are at or below the Section 8 income limits. Condo and co-op clients must have their board's permission for work to be done. For more information, please call (212) 962-7655 or visit www.nyfsc.org/services/repair.html#safety. Elderly Safe-at-Home The Elderly Safe-at-Home program provides services geared to enhance the general quality of life of elderly residents and residents with disabilities who reside in several NYCHA developments by providing on-site social services. This program employs dedicated employees whose role is to help improve safety and security and enhance health and well-being, so residents can continue to live independently in their homes and prevent premature placement in nursing homes or other forms of institutionalization. This program provides support and crime prevention services, crisis intervention and crime victim assistance to address and prevent crimes perpetrated against this vulnerable population. This program also helps assist residents with maintaining their daily living skills, accessing public entitlements and coordination of services with outside providers. Residents can meet with their assigned worker in the social service office or in their homes. Workers are also expected to conduct regular home visits and telephone reassurance. This program also recruits and trains a cadre of resident volunteers who are organized into a floor captain/buddy system and maintains daily contact with residents in their respective developments. The floor captains are the eyes and ears of the program and are often the first to detect if something is wrong or identify an incident requiring immediate attention and are obligated to report back to program staff. This program also offers workshops on crime prevention, safety and security, and crime victims' rights and the criminal justice processes. Information on these and other topics are disseminated through distribution of pamphlets and regularly scheduled meetings at program sites. Residents who need more comprehensive crime victim services are referred to community-based organizations and/or City agencies that specialize in this field. **Goal Outcome Indicator Unit of Measure** Quantity **Persons Assisted** Public Facility or Infrastructure Activities other than Low/Moderate Income Housing Benefits **Household Assisted** Public Facility or Infrastructure Activities for Low/Moderate Income Housing Benefits Public Service activities other than Low/Moderate Income Housing Benefits **Persons Assisted** 5,752 Household Assisted Public Service activities for Low/Moderate Income Housing Benefits acade treatment/business building rehabilitation **Business** Brownfield acres remediated Acre **Household Housing Units** Rental units constructed Rental units rehabilitated **Household Housing Units** Homeowner Housing Added **Household Housing Units** Homeowner Housing Rehabilitated **Household Housing Units** Direct Financial Assistance to Homebuyers **Household Assisted** Tenant-based rental assistance / Rapid Rehousing Household Assisted Homeless Person Overnight Shelter **Persons Assisted** Overnight/Emergency Shelter/Transitional Housing Beds added **Beds** Homelessness Prevention Persons Assisted lobs created/retained Jobs Businesses assisted **Business Assisted** Housing for Homeless added **Household Housing Units** Housing for People with HIV/AIDS added **Household Housing Units** HIV/AIDS Housing Operations **Household Housing Units Building Demolished Buildings Household Housing Units** Housing Code Enforcement/Foreclosed Property Case Other Other 24 Project Name **Education Services Target Area Goals Supported** Provide social & educational services **Needs Addressed** Non-Housing Community Development/Public Services Funding CDBG: \$4,524,000

ocation Description	Citywide		
<u> </u>			
anned Activities	Comprehensive Planning		
	DCP addresses strategic objectives that support New Yorkers in low- and moderate-income areas:		
	Work with communities to plan for future needs.		
	Facilitate affordable housing through zoning actions and approval of City development projects.		
	 Provide opportunities for good-paying jobs through zoning changes. 		
	 Improve resiliency and sustainability by implementing best practices and reviewing projects in vulnerable 	e coastal zonos	
	- improve resiliency and sustainability by implementing best practices and reviewing projects in vulnerable	e coastal zones.	
	 Provide community boards the technical knowledge to review and comment on land use applications. 		
	 Provide technical data and tools to help the public analyze data. 		
	CD funds support the work of various teams including:		
	 Borough Offices, which provide technical assistance to community boards, civic organizations, and elected to ensure conformance with local needs and plans. 	ed officials. The offic	es review development actio
	 Strategic Planning, which oversees functional planning activities, land use policy, and long-term developed urban design, zoning, housing policy, economic studies and analyses, and capital, regional, and waterfrom supports community planning by gathering and analyzing Community District Needs Statements. 		
	The Population group conducts detailed demographic analyses and works to support the City's preparat	ion for the decennia	al Census.
	Information Technology, which provides an array of data and tools for research and planning work.		
	DCP also maintains the data and systems that process and validate NYC addresses and builds websites that vi ZoLA (NYC's Zoning & Land Use Map).	isualize and context	ualize important information, l
	LPC Planning		
	LPC Planning has three components:		
		ion for designation s	as landmarks ar historic distric
	 Research: Activities include surveys to identify buildings or neighborhoods that merit further considerati evaluating the significance of buildings and neighborhoods under consideration; researching, photographic detailed designation reports for proposed landmarks and historic districts. 	_	
	 Archaeology: Assess the potential archaeological impact of proposed projects and projects at existing lar that may be needed and manage the NYC Archaeological Repository: The Nan A. Rothschild Research Cent 		rsee any ensuing archaeology
	 Environmental Review: Assist with projects subject to environmental review by determining the presence and potential impacts to these resources. The Department issues comments, including findings of potential proposed project significantly impacts known or eligible resources, LPC works with the appropriate agencing possible. The Department also maintains and supports the ERGIS Historic Maps application. 	al impacts uncovere	d during the review process. If
	Scorecard Through this program, CD-funded service inspectors at the Mayor's Office of Operations produce monthly str neighborhood. A visual rating scale is used to determine the percent of acceptably clean streets and sidewalk website and provided to the Department of Sanitation (DSNY). Additionally, monthly reports are developed for (BIDs). The Scorecard Program helps DSNY develop and evaluate policies related to cleaning and enforcement. In additional public use the data to learn about conditions in their neighborhoods and participate in developing operations other organizations use monthly Scorecard ratings to evaluate and improve their self-funded cleaning efforts	cs. Results are publis or some of the City' dition, community b al and enforcement	shed on the Mayor's Office's s Business Improvement Distr poards and other members of

Needs Addressed	Non-Housing Community Development/Eco Development	
		40.000
Funding	CDBG:	\$2,603,000
Description	Avenue NYC promotes the economic viability of neighborhood retail areas by providing general technical ass	istance and marketing and promotion programs to
	small businesses.	
Target Date		
Estimate the number and type of	For 2022, the program anticipates that 80 organizations will complete capacity building projects, and 14 organizations	anizations will complete multi-year commercial
	revitalization projects.	
proposed activities		
Leasting Beautistics		aulations are estimated by the desired
Location Description	Targeted areas experience varying degrees of stagnation, deterioration, or disinvestment, and the areas' por	oulations are primarily low- to moderate-income.
	Bronx - Hunts Point, Longwood, Morris Park, Norwood, Soundview, and South Bronx	
	Brooklyn – Brownsville, Cypress Hills, East New York, Flatbush, and Prospect-Lefferts Gardens.	
	blooklyff – Blownsville, Cypress fills, East New York, Flatbush, and Prospect-Lefferts Gardens.	
	Manhattan – Central Harlem, Lower East Side, Two Bridges, and West Harlem.	
	<u>Queens</u> – Arverne/Edgemere, Downtown Jamaica, Far Rockaway, Jackson Heights/Elmhurst, Jamaica East	•
Planned Activities	Avenue NYC promotes the economic viability of neighborhood business districts. Programs are intended not	only to help local businesses directly engage local
	residents but to also preserve neighborhoods more broadly. Projects have a local community sponsor, frequ	ently a Community-Based Development Organizat
	(CBDO), that represents the needs of local merchants, property owners, and residents.	
	Commercial Revitalization	
	Avenue NYC will continue to fund multi-year grants aimed at building organizations' capacity to better under	rstand neighborhood needs, develop impactful
	programs, and sustain their work over a longer term. The grants support CBDOs in hiring a dedicated, full-tin	
	in cohort-based training, conduct an in-depth district assessment, and execute commercial revitalization pro

ocation Description	New York City, NY		
	Human Resources Administration: HIV/AIDS Services Administration (HASA) will serve as the administrative subsupportive housing vendors in New York City, NY. During Grant Year 2022, case management and supportive services will be delivered in conjunction with permanenel households. Since permanent supportive housing remains a significant and necessary component of the continuing with HIV/AIDS, this funding will support a combination of permanent congregate facilities and permanent	anent supportive ho	ousing to an estimated 1,700 oportunities for New Yorker
	Eligible housing subsidy activities include operating costs for housing including facility-based rental assistance, rutilities, furnishings, equipment, supplies and other incidental costs; and rental costs for permanent scattered-s	maintenance, secur	ity, operation, insurance,
	Eligible supportive services including, but not limited to case management, harm reduction, care coordination, entitlements assistance and other supportive services as needed to ensure long-term housing stability.	mental health, subs	stance abuse, referrals,

AP-50 Geographic Distribution – 91.220(f)

Description of the geographic areas of the entitlement (including areas of low-income and minority concentration) where assistance will be directed

The HOPWA EMSA includes the five boroughs of New York City, and three counties in the Lower Hudson Valley (Rockland, Westchester, and Putnam).

Geographic Distribution

Target Area	Percentage of Funds
Rockland County	.05%
Westchester County	2%
NYC HOPWA	97.05%

Table 8 - Geographic Distribution

Rationale for the priorities for allocating investments geographically

New York City, as the city that is the most populous unit of general local government within the New York-Jersey City-White Plains, NY-NJ Metropolitan Division, is responsible for identifying and addressing the supportive housing needs of low-income people living with HIV/AIDS and their families throughout the Eligible Metropolitan Statistical Area (EMSA).

As a result of revisions to metropolitan statistical areas (OMB Bulletin No. 18-04) issued by the Office of Management and Budget, the composition of the Metropolitan Divisions within the New York-Newark-Jersey City, NY-NJ-PA Metropolitan Statistical Area (MSA) will change effective Federal Fiscal Year (FFY) 2022. Per OMB Bulletin No. 18-04 and 42 U.S.C. 12903(c)(2)(B), New York City's HOPWA EMSA jurisdiction for FFY 2022 and subsequent allocations includes the following counties: Bronx County, NY; Kings County, NY; New York County, NY; Putnam County, NY; Queens County, NY; Richmond County, NY; Rockland County, NY; and Westchester County, NY.

Discussion

CD funds are used by HPD for Code Enforcement initiatives in the following residential neighborhoods:

Local Target Area Name:	t Area Name: Sub-borough Area Characteristics (time of plan):	
Highbridge/South Concourse Bx	26.9 percent of occupied units with three or more maintenance	
	deficiencies; 84.95 percent of residents are of low- and moderate-	
	income; and 68.20 percent residential.	
Kingsbridge Heights/Mosholu Bx	31.5 percent of occupied units with three or more maintenance	
	deficiencies; 80.37 percent of residents are of low- and moderate-

Discussion

During the upcoming 2022 Consolidated Plan Action Plan Program Year HPD will allocate HOME funds across three initiatives: new construction of affordable housing units, tenant-based rental assistance and providing homeownership opportunity through our HomeFirst Down Payment Assistance program.

AP-60 Public Housing - 91.220(h)

Introduction

As of January 2022, the New York City Housing Authority ("NYCHA" or the "Authority") provides affordable housing to 530,460 authorized residents in over 177,585 apartments within 335 developments through public housing, Section 8, and PACT/RAD programs. NYCHA serves 342,447 authorized residents in 162,849 apartments within 279 housing developments through the conventional public housing program (Section 9).

NYCHA also serves 20,201 authorized residents in 9,511 units within 50 developments that have been converted under the Permanent Affordability Commitment Together (PACT) / Rental Assistance Demonstration (RAD) programs. Through federal rent subsidies (Section 8 Leased Housing Program), NYCHA also assists approximately 194,170 authorized residents (88,308 families) in locating and renting units. NYCHA employs a service coordination model and partners with community-based organizations citywide to connect residents to a variety of social and economic programs designed to promote independence and well-being.

Actions planned during the next year to address the needs to public housing

NYCHA is working to preserve its apartments and provide safe, affordable housing and access to social and community services. As part of its Permanent Affordability Commitment Together (PACT) initiative, NYCHA is addressing \$12.8 billion in overdue repairs in 62,000 apartments, which are home to approximately 140,000 New Yorkers. PACT relies on partnerships with private and non-profit development partners and converts developments to a more stable, federally funded program called Project-Based Section 8. These conversions are delivering comprehensive repairs for residents, placing the properties on a more stable financial footing, and improving day-to-day operations and social service delivery. PACT renovations will be completed on a rolling basis by the year 2028.

Approximately \$579 million in renovations have already been completed, and \$2.8 billion in major upgrades are underway or will begin early this year. An additional 19,700 households are part of active development projects in the process of resident engagement or pre-development. In sum, NYCHA has more than 35,000 apartments completed, in construction, or in a stage of resident engagement or pre-development. The extensive capital improvements include upgrades to roofs, elevators, boilers, security systems, and grounds, as well as apartment interiors, including new kitchens and bathrooms.

Activities planned for 2022 include:

Engaging residents at all active developments;

86

Selection of development partners for approximately 12,720 units at the following developments: Eagle Avenue-East 163rd Street, Claremont Parkway-Franklin Avenue, Davidson, South Bronx Area (Site 402), Stebbins Avenue-Hewitt Place, Union Avenue-East 163rd Street, Union Avenue-East 166th Street, Ocean Hill Apartments, Saratoga Village, Stuyvesant Garden I, Stuyvesant Garden II, Bedford-Stuyvesant Rehab, Metro North Plaza, White, Wilson, Clason Point Gardens, Sack Wern, Boston Secor, Boston Road Plaza, Middletown Plaza, Bryant Avenue-East 174th Street, East 165th Street-Bryant Avenue, East 173rd Street-Vyse Avenue, Hoe Avenue-East 173rd Street, Hunts Point Avenue Rehab, Longfellow Avenue Rehab, West Farms Road Rehab, West Farms Square Conventional, 1010 East 178th Street, East 180th Street-Monterey Avenue, Twin Parks East (Site 9), Bailey Avenue-West 193rd Street, Independence Street-Heath Avenue, Harrison Avenue Rehab (Group A), Harrison Avenue Rehab (Group B), University Avenue Rehab, West Tremont Avenue-Sedgwick Avenue Area, Morris Park Senior Citizens Home, Robinson, UPACA (Site 5), UPACA (Site 6), Corsi Houses, Rehab Program (Taft Rehabs), 131 Saint Nicholas Avenue, Manhattanville, Eastchester Gardens, East 152nd Street-Courtlandt Avenue, Moore, Rangel, West Brighton I, and West Brighton II.

- Converting approximately 557 units at the following developments: Audubon, Bethune Gardens, and Marshall Plaza;
- Monitoring PACT projects under construction at the following developments: Franklin Ave Conventional II, Franklin Ave Conventional III, Highbridge Rehabs (Anderson Ave), Franklin Ave Conventional II, Highbridge Rehabs (Nelson Ave), Twin Parks West, Hope Gardens, Palmetto Gardens, Bushwick II (Groups B & D), Bushwick II (Groups A & C), and Bushwick II CDA (Group E).; Armstrong I & II, 572 Warren St, Weeksville Gardens, Berry Street-South 9th, Marcy Avenue- Greene Avenue, Sites A & B, Independence Towers, Williams Plaza, 335 East 11th Street, Park Avenue-East 122nd, 123rd Streets, Manhattanville Rehab (Group 2), Public School 139 (Conversion), Samuel (MHOP) III, Fort Washington Avenue Rehab, Grampion, Manhattanville Rehab (Group 3), Washington Heights Rehab, Groups 1 & 2, Phase 3, Phase 4 (C), Phase 5 (D), Samuel (MHOP) 1 & 2, 344 East 28th St, Wise Towers, Williamsburg, Linden, Pennsylvania Avenue-Wortman Avenue, Belmont-Sutter Area, Boulevard, Fiorentino Plaza, Harlem River I, and Harlem River II; and
- Asset management of 3,205 units at Ocean Bay Bayside, Betances, Baychester, and Murphy.

Actions to encourage public housing residents to become more involved in management and participate in homeownership

NYCHA has offered residents of its single-family FHA Repossessed Houses the opportunity to qualify and purchase the home they rent. Primarily located in Southeast Queens, the homes are part of the U.S. Department of Housing and Urban Development ("HUD") approved 5(h) Project HOME Homeownership Plan. In accordance with the plan, NYCHA is repairing the homes to ensure that they

meet HUD standards. Residents with incomes sufficient to pay real estate taxes, assessments, utilities, and maintenance on the homes will receive homeownership and financial counseling to prepare them to assume responsibility for owning their homes. Prospective buyers were offered contracts of sale in 2014; closings commenced in the summer of 2015.

Activities planned for 2022 include:

- Conveyance of single-family homes to NYCHA residents at properties approved via HUD's Section 5(H) program;
- Monitoring construction of 72 new affordable homeownership units at Soundview Houses in the Bronx, rehabilitation of 16 vacant units conveyed to Restored Homes for re-sale to low- and moderate-income families, and the rehabilitation/re-development of 13 homes conveyed to Habitat for Humanity for the re-sale to low- and moderate-income families.

If the PHA is designated as troubled, describe the manner in which financial assistance will be provided or other assistance

The New York City Housing Authority is currently not designated as troubled.

AP-65 Homeless and Other Special Needs Activities – 91.220(i)

Introduction

New York City continues to implement broad-reaching strategies to prevent homelessness, provide services to unsheltered individuals on the streets and subways to move them into transitional and permanent settings, and support emergency shelter programs with the goal of successful permanent housing placements.

The City continues to utilize city-funded rental assistance programs, support innovative permanent housing models, and expand supportive housing development through the NYC 15/15 Initiative. The City will continue rehousing initiatives focused on special populations, including chronically homeless and veterans. Additionally, for as long as the public health emergency remains, the City will continue to utilize COVID-19 safety protocols and measures in all services provided to the homeless.

The use of ESG funds augments the robust local City investment in addressing homelessness, with particular activities and one-year goals detailed below.

Describe the jurisdictions one-year goals and actions for reducing and ending homelessness including reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

ESG and City tax levy funds support outreach activities to unsheltered individuals experiencing street homelessness to engage and connect them to services and help them move into transitional and permanent housing. In recent years, these funds supported three outreach programs that provide coordinated services and make placements in drop-in centers, safe havens, stabilization beds, shelters, and permanent housing settings. Many of these placements also provide homeless individuals with meals, counseling, medical/psychiatric services, showers, laundry facilities, recreation space, referrals for employment, assistance in applying for benefits, and other social services. Additionally, case managers and housing specialists work with clients to obtain any needed services, medical care, mental health treatment, benefits, and permanent housing.

HOME-STAT was launched in New York City in March 2016 and is the most comprehensive street homeless outreach initiative in any major city in the United States. The launch of HOME-STAT doubled the number of street homeless outreach staff working to regularly meet each homeless individual, gain trust and convince individuals to accept services, and then connect people to the resources they need to be placed into housing. The DSS/DHS overall resources devoted to street homelessness outreach efforts and transitional low-barrier beds is \$300 million in City Fiscal 2023, the largest investment historical DHS investment in street services. DHS street outreach provides daily outreach in order to identify individuals living on the street, as well as 24/7 coverage on subway trains and stations.

New York City has set a one-year 2022 goal of placing 700 unsheltered homeless persons into temporary or permanent housing through ESG-funded Drop-In Centers and Street Outreach programs.

Addressing the emergency shelter and transitional housing needs of homeless persons

The NYC Department of Social Services/Homeless Services (DSS/DHS) provides safe and appropriate emergency shelter when remaining in housing is not an option. DHS and social services agency partners provide emergency shelter serving persons experiencing homelessness in a network of general and specialized facilities. DHS provides shelter and services with an overall goal of housing stability.

Within the emergency shelter system, 26 DHS shelter programs serving adults without children receive ESG funding for operations and services. These shelter programs serve a wide range of discrete subpopulations and include services such as substance use and mental health services, medical shelter services, employment services, and housing placement assistance. ESG also funds specialized program beds for individuals experiencing unsheltered homelessness. These low-threshold, low-demand service models focus on those who have lived unsheltered for some time. These beds provide an immediate housing alternative with private or semi-private rooms and flexible program requirements. Clients can be placed directly from the street with few administrative barriers. In addition, the model allows for more intensive work with each client by offering a higher case manager to client ratio.

In 2022, the City has set a one-year goal to assist 14,000 individuals through ESG funded emergency shelter services.

Community Development Block Grant funds, overseen by the NYC Office of Management and Budget, are also used to support homeless outreach in Staten Island and shelter maintenance efforts.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

One of the primary tools to assist in assessing, connecting, and placing homeless households into appropriate, safe, and stable housing is the NYC Coordinated Assessment and Placement System (CAPS). CAPS is a web-based system to assess individuals and families experiencing homelessness for available supportive housing and rental subsidies; an application and determination system for

supportive housing; and a vacancy control system to track supportive housing placements for almost 30,000 units in NYC. Supportive housing serves individuals, families with children, young adults, survivors of domestic and gender-based violence, veterans and more. CAPS provides a standardized and accessible system for people experiencing homelessness to identify and access permanent housing options.

Implementing a system like this in a city as large as NYC requires significant investment, and ESG-HMIS funds support three dedicated system programmers and one business analyst. This support has been invaluable in the design and launch of CAPS and have been making system improvements monthly. Creating one system that serves multiple shelter systems, multiple types of supportive and affordable housing, and includes four distinct referral agencies presents challenges, and the ESG-funded HMIS technical support allows NYC to enhance and refine the system continuously to increase efficiency and to create reporting and monitoring functions in CAPS to enhance management of the process.

With the allocation of 7,788 federal Emergency Housing Vouchers (EHV) to NYC Public Housing Authorities (NYCHA and HPD), the City was able to utilize and substantially broaden the user base for CAPS to screen for potential EHV eligibility and prioritization. This effort is allowing NYC to facilitate coordination with both NYC PHA's and multiple EHV referring agencies, through an open and accessible system.

This year, CAPS will add enhancements to the re-rental referral process, create staff-specific queues to make and track referrals; enhance the Clients Awaiting Placement list; add Rapid Rehousing as a housing type result in the survey; enhance the survey to include DV-specific resources; and develop monitoring tools for distinct contract agencies and housing providers while eliminating redundant reporting outside of CAPS.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); or, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs.

The Homebase program, a network of not-for-profit providers managed by DSS/HRA remains at the center of New York City's homeless prevention efforts. Homebase's community-based prevention continues to advance its programming to ensure that Homebase is the first point of entry for those at risk of homelessness and that people can be served in their home borough. ESG funds for prevention services are allocated to sixteen HomeBase contracts covering all five boroughs.

Comprised of community-based programs in areas of high-need, Homebase assists families and individuals to overcome immediate housing issues that could result in them becoming homeless and

helps them stay housed in their community. DSS/HRA works with the not-for-profit providers to use data analytics to proactively target prevention services for the most at-risk and assistance is individualized to meet the needs of each household. Services include tenant/landlord mediation; household budgeting; emergency rental assistance; rental subsidy application; legal services; job training and placement; and benefits advocacy (childcare, food stamps, tax credits, public health insurance). Also, by co-locating HRA staff at Homebase sites, HRA has advanced onsite processing and triage for public benefits, including cash assistance and rental assistance. Homebase programs have deepened their case management services to include family mediation, educational advancement, employment and financial literacy services.

In 2022, the City has set a one-year goal of assisting 3,500 households through Homebase ESG funded programs.

AP-70 HOPWA Goals-91.220 (I)(3)

One year goals for the number of households to be provided housing through the use of HOPWA for:	
Short-term rent, mortgage, and utility assistance to prevent homelessness of the individual or family	40
Tenant-based rental assistance	280
Units provided in permanent housing facilities developed, leased, or operated with HOPWA funds	2,332
Units provided in transitional short-term housing facilities developed, leased, or operated with HOPWA funds	
Total	2,652

AP-75 Barriers to affordable housing – 91.220(j)

Introduction:

Between 2018 and 2020, the City engaged in a comprehensive fair housing planning process, Where We Live NYC, which – among other things – identified current impediments to the development of affordable housing. This process sought to study, understand, and address patterns of residential segregation and how these patterns impact New Yorkers' access to opportunity — including jobs, education, safety, public transit, and positive health outcomes — and safe, affordable housing. Where We Live NYC included extensive community participation, as well as data and policy analysis, and culminated in the release of a draft plan in January 2020 and a final plan in October 2020, including numerous strategies to remove or ameliorate identified impediments.

Actions it planned to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment

A range of factors influence where new construction – and particularly new affordable housing – is built, including zoning, the cost and availability of land, and community opposition to or support for affordable housing. The following actions are focus items for 2022 that will address ongoing barriers to affordable housing development:

- Maria Torres-Springer, the City's Deputy Mayor for Economic and Workforce Development, and Melanie La Rocca, the City's Chief Efficiency Officer, have launched the Building and Land use Approval Streamlining Taskforce (BLAST), a coordinated effort of over a dozen agencies involved in the planning and building process. BLAST will release a set of short-term and long-term recommendations in summer 2022 to find efficiencies in all parts of the approval processes through which new housing development must undergo, including a large portion of the affordable housing that HPD finances each year.
- In coordination and alignment with BLAST, the Chief Housing Officer and HPD will also convene industry experts and practitioners to gather information on and develop proposals to address obstacles in the City's zoning, building, construction, and maintenance codes that unnecessarily increase the cost and time of housing development. The City will use this process to propose and pursue legislative, regulatory, and process reforms to speed up development and lower the cost of housing production.
- The Department of City Planning (DCP) is working to identify strategies to create a wider range of housing types for all New Yorkers, including those with the lowest incomes, in neighborhoods throughout the city, from high-density areas to lower-scale neighborhoods.

Strategies include allowing a wider range of unit sizes to meet different household needs, broadening existing density allowances for affordable housing, easing alterations or the addition of accessory units, and reevaluating existing parking requirements. This effort builds on past planning and outreach for fair housing and equitable growth and will lead to proposals for a range of zoning changes to further advance these goals.

• The City is also launching a variety of tools to improve the public conversation around housing development and particularly affordable housing development. These tools include the Equitable Development Data Explorer (EDDE), the Displacement Risk Index (DRI), and the requirement for certain applicants undergoing the land use review process to complete Racial Equity Reports on Housing and Opportunity (RER). HPD also plans to hire a full-time fair housing outreach coordinator to engage with the public about these tools and the City's requirement and commitment to affirmatively further fair housing.

AP-85 Other Actions - 91.220(k)

Introduction:

The City of New York will outline strategies and other actions to foster and maintain affordable housing; evaluate and reduce lead-based paint hazards; reduce the number of families; develop institutional structure; enhance coordination between public and private housing and social service agencies; identify obstacles to meeting underserved needs and propose actions to overcome those obstacles.

Actions planned to address obstacles to meeting underserved needs

Supportive Housing: Supportive housing is one of the most effective and cost-efficient way to end homelessness for people who are experiencing chronic homelessness, have mental illnesses and/or substance use disorders. As indicated in the City's Consolidated Plan Strategic Plan, the City recognizes the need for more supportive housing and, in partnership with the NYC Continuum of Care (CoC), will expand the supply of available supportive housing.

In November 2015, the City announced the NYC 15/15 initiative, which provides service and operating funding for new scattered-site and congregate supportive housing, and committed to the development of 15,000 units of supportive housing by 2030. Since then, over 7,800 units of supportive housing have been financed, including more than 2,800 units that have been funded through NYC 15/15. Over 700 units of supportive housing are expected to be financed in 2022.

This year, the City strengthened its previous commitment by announcing the acceleration of the creation of supportive housing to achieve the 15,000-unit production target by 2028 – two years faster than previously expected. Additional city funds will be allocated to supportive housing projects to achieve this goal. The City will also implement policy and process changes to help more households benefit from supportive housing faster. These strategies are outlined in the Mayor's "Housing Our Neighbors: A Blueprint for Housing and Homelessness."

Affordable Senior Housing: Seniors represent the fastest-growing age group within New York City. In 2022, the City will continue using HOME dollars to build new affordable housing for low- and moderate-income seniors to help meet the growing housing needs of older New Yorkers. The City has also committed additional local resources to expand the development of safe, affordable housing and services for our older residents, and will continue this work in 2022.

This year, we will work towards the full implementation of *Seniors First*, a three-pronged strategy to make more homes accessible to seniors and people with disabilities; build new 100 percent affordable senior developments on underused NYCHA land, as well as other public and private sites; and preserve existing senior housing developments such as those created through HUD's 202 program. The City will also do targeted outreach and offer financial support to stabilize HUD-assisted properties with expiring benefits that are a critical source of housing for very low-income and

formerly homeless households, including many senior New Yorkers.

Permanent Housing for Individuals with Service Needs: In addition to senior and supportive housing, Mayor Adams' Housing Blueprint prioritizes the innovative use of social service dollars to create of permanent housing for formerly homeless and underserved New Yorkers including homeless youth, individuals living with physical disabilities or ongoing medical service needs, and people with criminal justice backgrounds. The City will explore new housing service models that can better serve the needs of these communities and, to the greatest extent possible, tap into social service funding streams to produce them.

Zoning and Regulatory Reform: The City will pursue zoning changes to complement its housing investments and increase the supply of much-needed affordable and supportive housing citywide. We will seek to remove obstacles to the creation of supportive and affordable housing in the Zoning Resolution and allow greater square footage for affordable housing for everyone who needs it – including senior, supportive, and other affordable housing. The City will also pursue changes to encourage the creation of smaller, more economical homes, Accessory Dwelling Units (ADUs), and other housing typologies that can better meet the needs of single New Yorkers (including seniors and young adults), new migrants, intergenerational families, and other communities that are underserved in the general housing market.

The full Housing Blueprint report can be viewed at: Housing-Blueprint.pdf (nyc.gov)

Actions planned to foster and maintain affordable housing

The housing-related activities within the Consolidated Plan support the strategies to foster and maintain affordable housing articulated in "Housing Our Neighbors". In 2022, the various New York City agencies that administer the City's federally-funded Consolidated Plan housing and supportive housing programs will implement the goals of Mayor Adam's Housing Blueprint. These include increasing access to homeownership for low- and moderate-income households; preserving the quality and affordability of existing low-cost and affordable housing; improving the sustainability and resiliency of affordable housing; and redeveloping underutilized government land with upgraded neighborhood amenities alongside affordable housing for very and extremely low-income households.

New Construction and Preservation: During the 2022 funding grant year, we will utilize approximately \$1,442,093,000 in local capital funds, along with our HOME allocation and tax credit and bond authority to support the construction of new permanent supportive housing, senior housing, multifamily rental housing serving a wide variety of income levels, and 1-4 family rental buildings, as well as to provide down payment assistance for qualified low-and-moderate income homebuyers. The City will also advance preservation strategies including enforcement of the Housing Maintenance Code to ensure healthy and safe living conditions; outreach to owners about how to proactively address physical and financial challenges; facilitating the acquisition and stabilization of

distressed buildings; and providing local financing and tax exemptions to help owners rehabilitate properties, in return for a regulatory agreement that guarantees long-term affordability.

Infill Development at NYCHA: Since 2003, NYCHA has collaborated with HPD to construct new affordable housing on NYCHA properties. In 2021, construction was completed at Van Dyke III, totaling 179 affordable, renovated public amenities, a community health clinic, and supportive services to residents living in the Brownsville section of Brooklyn. Construction of more than 700 affordable units continued at five additional NYCHA developments. NYCHA also closed on construction financing and began construction of a 205-unit affordable building at Sotomayor, 190-unit affordable building at Sumner Houses, and 101-unit affordable building at Betances.

Activities planned for 2022 include:

- Ground lease of a site for construction of 100% affordable senior housing at Bushwick II –
 Group E in Brooklyn;
- Developer selection of a site for construction of 100% affordable senior housing at Morris Houses;
- Developer selection of a site for construction of 100% affordable senior housing at Kingsborough; and
- Developer selection of a site for construction of 100% affordable housing at West Brighton II.

Actions planned to reduce lead-based paint hazards

Lead-Based Paint at HPD

For a full discussion on New York City's lead-based paint abatement activities please refer to the 2021 Consolidated Plan Strategic Plan (SP-) module SP-65., Lead based Paint Hazards, except as modified below. The module outlines the policies and procedures for the elimination and treatment of lead-based paint hazards for the respective City agencies (HPD and DHS), and NYCHA.

Additionally, HPD's Primary Prevention Program (PPP) offers forgivable loans to owners of private residential buildings constructed prior to 1960 for the reduction of lead-based paint (LBP) hazards, as well as healthy homes interventions for eligible projects. The program seeks to target neighborhoods where there are concentrations of children whose blood lead levels have tested high. Designed to serve low-income homeowners and renters, the program leverages CDBG monies as well as federally funded grants via HPD's Lead Hazard Control and Healthy Homes initiatives to ensure residents in the city's older housing stock can live safely and eligible owners have access to much needed funds for necessary improvements.

In 2021, the Centers for Community Disease and Control (CDC) updated the blood lead reference value from 5 micrograms of lead per deciliter of blood ($\mu g/dL$) to 3.5 $\mu g/dL$, and the New York City's Department of Health and Mental Hygiene lowered its action level to conduct investigations and provide care coordination for children accordingly. As a result, the number of Commissioner's Order to Abate (COTA) referrals received by HPD from the Department of Health and Mental Hygiene will

substantially increase, allowing for additional enforcement and inspections work to reduce lead-based paint hazards through the Lead Hazard Control and Healthy Homes programs.

Lead-Based Paint at NYCHA

The first major overall action planned to reduce lead-based paint ("LBP") hazards is to continue to work to fulfill the LBP requirements set forth in the January 31, 2019 settlement agreement with HUD, the U.S. Attorney's Office for the Southern District of New York ("SDNY") and the City of New York to fix the physical conditions in NYCHA properties, including LBP, mold, heat, elevators and pests ("HUD Agreement").

The HUD Agreement aims to ensure that NYCHA provides decent, safe and sanitary housing for all NYCHA residents. Bart Schwartz was appointed to serve as the Monitor (Section IV.A paragraph 16). The purpose of the Agreement is to ensure that NYCHA complies with its obligations under federal law, reform the management structure of NYCHA, and enable cooperation and coordination between HUD, NYCHA and the City during the term of this agreement (Section I paragraph 8).

Exhibit A of the HUD Agreement sets forth NYCHA's responsibilities with respect to LBP. Exhibit A includes the following requirements:

- Continuous, ongoing compliance with HUD's Lead Safe Housing Rule, EPA's Renovation Repair and Painting (RRP) Rule, and EPA's Abatement Rule, and twice-yearly certifications describing NYCHA's compliance with these rules;
- Performance of certain lead hazard remediation work in specific priority apartments (apartments with children under age six);
- Abatement of NYCHA apartments with LBP and associated interior common areas by 2039 (with specified interim deadlines);
- Performance of biennial risk assessment reevaluations by January 31, 2021;
- Establishment of a Memorandum of Agreement with the New York City Department of Health and Mental Hygiene (DOHMH) regarding elevated blood lead level (EBLL) cases to facilitate ongoing reporting of EBLL cases to HUD;
- Specific obligations to enhance compliance with EPA's RRP Rule;
- Disclosure of LBP information in accordance with HUD's Lead Disclosure Rule.

On January 20, 2021, the Federal Monitor approved NYCHA's Initial Lead Paint Action Plan ("Initial LBP Action Plan"), which sets forth 11 specific Actions. The Initial LBP Action Plan sets forth the steps that NYCHA will take to meet key obligations under Exhibit A of the Agreement. The Initial LBP Action Plan is currently in the implementation phase and will be updated and revised in 2022. While NYCHA has had some challenges implementing certain actions, it has also been able to make significant progress on others, such as the development of the TEMPO Repair and TEMPO Visual Assessment Programs.

The HUD Agreement also requires NYCHA to establish a Compliance Department ("Compliance")

Annual Action Plan

99

and an Environmental Health and Safety Department ("EH&S"), both of which are currently operational. Together, Compliance and EH&S will provide oversight of NYCHA's LBP programs and identify areas of non-compliance.

To date, NYCHA has not been able to certify under the HUD Agreement full compliance with the Lead Safe Housing Rule or the RRP and Abatement Rules. However, NYCHA has taken specific steps to provide LBP-related training to its work force, improve its compliance with lead safe work practices, implement IT controls geared towards better and more reliable lead compliance, and devote resources to field and documentary monitoring and oversight. NYCHA still has much work to do to meet its compliance obligations, and NYCHA will continue to work with the Federal Monitor to address compliance shortfalls and craft a proactive and protective Initial LBP Action Plan.

NYCHA XRF Initiative

The second major overall action planned to reduce LBP was NYCHA's initiative to perform LBP inspections in approximately 134,000 apartments using XRF analyzer devices at the federal standard for lead-based paint of 1.0mg/cm². The goal of this project was to definitively identify which apartments do and do not contain LBP and, if the apartments do contain LBP, which specific components in each apartment contain LBP. These testing results are shared with residents and uploaded into an online portal. The results are also be integrated into NYCHA's Maximo work order system, further improving NYCHA's ability to implement lead safe work practices.

As of February 18, 2022, NYCHA has completed LBP inspections in 106,960 apartments and, of these, received the testing results for 83,783 apartments. Of the 83,763apartments, 24,324 have tested positive for LBP components and 59,439have tested negative.

On December 1, 2021, the New York City Department of Housing Preservation and Development (HPD) issued a regulation changing the definition of lead-based paint from paint with lead content measured at 1.0 mg/cm² to paint with lead content measured at 0.5 mg/cm² for purposes of New York City's Local Law 1. The federal standard for lead-based paint remains 1.0 mg/cm². This significant change has prompted changes to NYCHA's lead programs, including:

- ➤ Presuming that all painted surfaces in apartments and common areas in pre-1978 buildings where a child under 6 lives or visits for 10 or more hours per week are positive until these apartments and common areas have been retested at the new 0.5 mg/cm² standard and, if applicable, receive an exemption from HPD.
- > Testing all NYCHA apartments in pre-1978 covered buildings at turnover at the 0.5 mg/cm² standard and abating all components above this standard.
- ➤ Proactively XRF testing all apartments where children under 6 live or visit for 10 or more hours per week at the 0.5 standard starting in January 2022.

Once NYCHA retests CU6 apartments at the 0.5 standard, it will begin developing plans to abate these apartments to this standard. NYCHA also continues to fully abate apartments during apartment turnover, also now at the 0.5 standard.

Lead-Based Paint at DHS

DHS, along with its partner Agencies, perform at least annually a visual inspection of all units. All DHS inspectors and HPD inspectors take and receive a HUD certification class that trains them in visual inspection. If during the RSRI an inspector sees a potential hazard, it is noted in the RSRI. If any conditions are identified that potentially compromise the integrity of painted surfaces, DHS notifies the operator of the facility so that they can further investigate and address as necessary. If violations or conditions are identified after these coordinated multi-agency inspections, they are sent directly to the provider and/or landlord by the agency that identified said violation or condition. In addition, DHS sends a multi-agency summary of the results of the coordinated inspections to the shelter provider.

Actions planned to reduce the number of poverty-level families

<u>Department of Housing Preservation and Development</u>

From 2014 through 2021 the City created and preserved more than 200,000 units of affordable housing. Associated with the affordable housing production was almost 180,000 temporary construction jobs and over 3,000 permanent construction jobs. As the City continues the invest in affordable housing production, we will work with communities and local stakeholders to ensure that these are quality jobs, encouraging local hiring and integrated with the City's broader workforce development initiatives. In 2022, the Office of Workforce Development will aim to identify resources and advance plans to achieve the following goals:

- Help ensure that affordable housing developers subject to HireNYC post their entry- and mid-level job opportunities with the Department of Small Business Services' Workforce1 program and consider any qualified candidates that Workforce1 refers for those positions.
- Provide guidance to make it as simple and desirable as possible for developers to implement community hiring practices and work in partnership with City agencies to connect individuals with job opportunities created by their development projects.
- Partner with local community-based providers that know their communities and can help outreach to, screen, and refer interested and qualified local jobseekers for participation in workforce programs and job opportunities related to affordable housing development.
- Increase efforts to centrally track jobseeker interest in jobs related to affordable housing construction and advertise job opportunities available across the city.

• Expand promising construction workforce programs and, where appropriate, leverage them to expand the talent pool for affordable housing construction.

The City is leveraging its investment in affordable housing to advance the participation of Minority and Women Owned Business Enterprises (M/WBEs) in the affordable housing industry. Through HPD's *Building Opportunity* initiative, the City expands access to capital for M/WBEs, builds their capacity, provides opportunities to compete for a targeted pipeline of development projects, and seeks to ensure all types of M/WBEs benefit from the affordable housing economic engine.

Targeted Development Opportunities: The City worked with partners to create pathways that prioritize M/WBEs in affordable housing development projects designated through RFPs. In 2014, the State enacted legislation which enables the City to designate a specific pipeline of development projects to be competitively solicited to pre-qualified M/WBEs. The M/WBE RFQ (Request for Qualifications) released by HPD in 2016 generated an initial pre-qualified roster of M/WBEs that were able to compete for a select set of six sites. In 2017, HPD designated M/WBEs for each of those sites, eventually creating approximately 440 units of affordable housing. The City announced the Equitable Ownership program in 2020, deeming that M/WBEs or non-profit organizations must hold 25% ownership for all future RFPs. The City continues to identify more opportunities to shift development opportunities to those firms that have traditionally not been represented.

Capacity Building: The City identifies ways to share best practices and resources to M/WBEs. While we've concentrated on capacity building for developers over the past several years, the City has recently delved into capacity building for other trades, like affordable housing marketing agents. The City will continue to expand its capacity building reach.

Access to Capital: M/WBEs face financial shortfalls when trying to succeed in the affordable housing industry and the City identifies methods to better support this population. The City has advocated for changes in the New York City Acquisition Loan Fund over time, most recently successfully advocated for M/WBEs and non-profit organizations to get sole use of the \$210 million fund. The City is identifying more ways to lower barriers to capital needs.

Expanding the Benefits to Various M/WBE Trades: In 2017, HPD launched the Build Up program, which require borrowers receiving more than \$2 million in City subsidy to set a minimum goal of spending 25% of certain cost on M/WBEs. Since the inception, borrowers committed to spending more than \$1.2 billion on M/WBEs during the design and construction of over 250 projects. To aid borrowers and their general contractors in finding qualified M/WBEs, HPD has held annual Build Out networking events since 2017. The City will seek to encourage more use of M/WBE partners and contractors in the future.

Creating Careers for Those in Affordable Housing: Through the Housing Career Pathways program, led by Enterprise, HPD, and NYCHA, a non-governmental entity, Brooklyn Workforce Initiative, will train and connect low-income New Yorkers living in affordable housing to a range of permanent jobs in affordable housing development, management, and preservation. Housing Career Pathways will symbiotically focus our efforts on those with some of the greatest needs and create

pathways to well-paying jobs while maximizing the benefits of affordable housing.

New York City Housing Authority

NYCHA's Office of Resident Economic Empowerment & Sustainability ("REES") supports residents with increasing income and assets through programs, policies and collaborations in four key areas:

- Employment and Advancement
- Adult Education and Training
- Financial Literacy and Asset Building
- Resident Business Development

Intake, Referrals, and Service Coordination: NYCHA's outcome-driven resident economic opportunity platform—the Zone Model —is focused on leveraging NYCHA resources to support residents in increasing their income and assets. REES continues to move forward with full implementation of the Zone Model across all of New York City, vetting and maintaining a network of 80+ high quality local and city-wide economic opportunity partnerships.

Information Sessions: Recruitment and information sessions are held on-site at various NYCHA developments throughout the city, providing NYCHA residents of all communities with access to services offered by REES partners. Information sessions are also conducted twice per week at REES' Central Office. In March 2020, REES temporarily paused in-person information sessions due to the COVID-19 pandemic and relaunched them in June 2020 as virtual events. REES continues to host virtual events with in-person REES information sessions conducted as requested.

REES Hotline: Residents can also find information about economic opportunity services, events and job opportunities available through REES and its partners through a dedicated hotline. The REES hotline facilitates over the phone referrals to partner programs and serves as a resource for residents to RSVP for upcoming events, testing and information sessions. At the start of the COVID-19 pandemic, the Hotline operated as a voice mail system where calls were returned the same day. As of May 2021, to coincide with NYC's Return to Work, the REES Hotline resumed normal operations with phone calls responded to in real time.

Opportunity Connect: Residents can be connected with economic opportunity service providers using a web-based referral system, Opportunity Connect. As of December 2021, Opportunity Connect has generated nearly 20,524 referrals from NYCHA staff and nearly 5,191 residents have made self-referrals. REES collaborated with NYCHA's Information Technology department to develop a provider platform which allows partners to respond to referrals and update resident connection outcomes. In 2019, REES received the 2019 Award of Merit for Opportunity Connect from the National Association of Housing and Redevelopment Officials (NAHRO). In 2022, REES will continue to partner with NYCHA's IT department to finalize an employer portal to receive job orders, refer

residents to employment opportunities and to obtain referral outcomes.

Employment and Advancement: REES facilitates direct job placement through the Section 3 mandate, the NYCHA REP policy, the NYCHA Resident Training Academy, and outside employers.

Jobs-Plus: REES collaborates with the Department of Social Services/Human Resources Administration (DSS/HRA), the Mayor's Office for Economic Opportunity (NYC Opportunity), and the NYC Department of Consumer and Worker Protection (DCWP) to implement the Jobs-Plus program at NYCHA developments throughout the city. The Jobs-Plus program seeks to raise the level of employment for the residents of selected developments through employment related services, coordinated access to rent incentives, such as the Earned Income Disallowance (EID), and facilitation of neighbor-to-neighbor support for work. In 2021 there was a large expansion of the Jobs-Plus program, growing to 13 sites across New York City, (one of which is funded by the HUD Jobs Plus Program initiative), and collectively serving residents at 44 NYCHA developments.

Resident Business Development: Food Business Pathways (FBP): 271 residents have graduated from FBP across 9 cohorts with 189 registered businesses. The program bridges the financial and educational gaps and provide access to affordable spaces for NYCHA public housing residents and NYCHA Section 8 voucher holders seeking to formally launch and grow their food businesses.

In 2019, NYCHA launched Catering Business Pathways, an iteration of FBP, focused on starting and growing resident catering businesses. In March 2020, 24 NYCHA residents graduated from Catering Business Pathways.

Child Care Business Pathways: 99 residents have graduated from Childcare Business Pathways across 6 cohorts with 39 receiving licenses. The program offers free training for childcare providers as required for licensing by New York State, free supplies to launch their childcare business, and technical assistance to complete the NYS childcare business application and to prepare their homes for the required Department of Health and Mental Hygiene inspections.

There were plans to launch a second cohort of Catering Business Pathways, and a new cohort of Childcare Business Pathways in 2020 but those plans had to be put on hold because of the COVID-19 pandemic and its effects on the food and childcare industries. NYCHA continues to support Food, Catering and Childcare Business Pathways alumni.

In 2021 NYCHA secured funding through the Fund for Public Housing from the JP Morgan Chase Foundation to launch Construction Business Pathways. Construction Business Pathways builds upon lessons learned from past Business Pathways programming and seeks to provide business education and mentorship services to NYCHA resident aspiring business owners. The first cohort launch in Q3 2021 and completed with 20 residents. The second cohort will launch in 2022.

Adult Education and Training

In 2019, NYCHA launched the Caretaker H training track of the NYCHA Resident Training Academy.

The pilot track provided residents with pre-employment training. Upon hire to NYCHA as Caretakers, residents receive incumbent training for 52 weeks to best prepare them to ascend to Heating Plant Technician positions. Unfortunately, due to the pandemic the incumbent training portion of the Caretaker H program has been put on pause. It will resume once the training partner, CUNY, New York City College of Technology, is authorized to resume in-person instruction. These workers continue to be employed by NYCHA.

By the end of the NYCHA Resident Training Academy's (NRTA) 11th program year (September 30, 2021), in collaboration with its training partners, Brooklyn Workforce Innovations (BWI) and CUNY-NYC College of Technology, NYCHA successfully administered 8 cohorts of janitorial based training, 1 cohort of construction training, and 1 Pest Control cohort. Overall, of the 329 that enrolled, 311 residents graduated and 247 have secured employment.

Over the 12th program year, the NRTA will conduct 10 cohorts of janitorial training and 2 cohorts of construction training for a total of 340 training slots across both tracks. Due to continued Covid-19 restrictions, the janitorial training continues to be a hybrid model (in-person and remote). The construction training will be held in-person following strict Covid-19 protocols put into place by the training partner, City University of New York (CUNY), that include full vaccination for all participants.

Financial Literacy and Asset Building

The Family Self Sufficiency program (FSS): The FSS grant allows REES to work with participating residents to increase their earned income by providing opportunities for education, job training, counseling, and other forms of social service assistance. A total of 959 NYCHA Section 8 voucher holders are currently enrolled in the FSS program as of December 31, 2021. Of those, 451 are earning escrows with account balances totaling \$3,179,300.

Homebuyer Education: REES continues to collaborate with homebuyer education partners to host homeownership workshops. Through these efforts, from 2018 to January 2020, nine residents successfully closed and purchased their own single-family homes (formally FHA homes). In 2021 NYCHA and its partners conducted 11 financial education workshops and 12 homebuyer education workshops for NYCHA residents.

REES is also exploring ways to help residents build positive credit history, which is essential in the home buying process, by exploring alternative means of credit. In 2020, REES organized an internal working group to explore an expansion of NYCHA's Rent as a Credit Building pilot. Under the expansion NYCHA would directly report to Experian credit bureau the positive rent payments of NYCHA residents who opt-into the program. NYCHA is continuing to work toward launching this pilot in 2021 and would start at select developments.

NYCHA also continued to implement online financial counseling e-referrals and Free Tax Preparation Services in NYCHA Communities.

The New York City Human Resources Administration/Department of Social Services (DSS/HRA) is dedicated to fighting poverty and income inequality by serving New Yorkers in need with care and

compassion, providing essential benefits such as cash assistance, SNAP benefits and other food assistance, rental assistance, homelessness prevention and anti-eviction legal services. As the largest local social services agency in the country, DSS/HRA helps more than three million New Yorkers annually through the administration of more than 12 major public assistance programs, with nearly 13,000 employees and an operating budget of \$10.6 billion in City Fiscal Year 2023.

Actions planned to develop institutional structure

New York City Housing Authority

The NYCHA Board is comprised of seven (7) members appointed by the mayor, to include three (3) resident members. The Mayor designates one of the members as the Chair. The Chair is the Chief Executive Officer of the Authority and is responsible for the supervision of the business and affairs of the Authority. Members' duties include voting on contracts, resolutions, policies, motions, rules and regulations at regularly scheduled meetings.

A majority of the departments within NYCHA are clustered into one of five groups, each headed by an Executive Vice President reporting to the Chair: Finance, Information Technology, Administration, Legal Affairs, and Strategy and Innovation. The Chief Asset & Capital Management Officer reports to the Chair and oversees the Real Estate Development, Capital Projects, and Comprehensive Modernization teams. The Chief Operating Officer (COO) also reports to the Chair and oversees property management operations and several other departments that support operations including Healthy Homes, Tenancy Operations and Quality Assurance. The Executive Vice-Presidents for Leased Housing and Community Engagement and Partnerships also report to the COO.

Several other departments comprising the Executive Group report directly to the Chair including the Chief Compliance Officer, Intergovernmental Affairs, Communications, Environmental Health and Safety, and Equal Opportunity.

Actions planned to enhance coordination between public and private housing and social service agencies

HPD Housing Ambassador Program

During 2022, HPD will continue to train and partner with a network of non-profit organizations in order to strengthen and expand its Housing Ambassador Program. Housing Ambassadors support New Yorkers in diverse communities across the city with the preparation, application, and eligibility processes of the affordable housing lottery. The program also has some funding available to help organizations defray the costs of providing these services through the *Ready to Rent* program (RtR). Ready to Rent is now in its sixth year of financial support from City Council, and, in collaboration with the Dept. of Consumer and Worker Protection's Office of Financial Empowerment, integrates free financial counseling into applicants' preparation for affordable housing.

Program Specific Requirements

AP-90 Program Specific Requirements – 91.220(I)(1,2,4)

Community Development Block Grant Program (CDBG) Reference 24 CFR 91.220(I)(1)

Projects planned with all CDBG funds expected to be available during the year are identified in the Projects Table. The following identifies program income that is available for use that is included inprojects to be carried out.

- 1. The total amount of program income that will have been received before the start of the next program year and that has not yet been reprogrammed $\underline{\$0}$
- 2. The amount of proceeds from section 108 loan guarantees that will be used during the year to address the priority needs and specific objectives identified in the grantee's strategic plan $\underline{\$0}$
- 3. The amount of surplus funds from urban renewal settlements \$0
- 4. The amount of any grant funds returned to the line of credit for which the planned use has not been included in a prior statement or plan. <u>\$0</u>
- 5. The amount of income from float-funded activities Total Program Income <u>\$0</u>

Other CDBG Requirements

1. The amount of urgent need activities

2. The amount of urgent need activities	\$0
3. The estimated percentage of CDBG funds that will be used for activities	77.74
that benefit persons of low and moderate income	77,71
4. Overall Benefit - A consecutive period of one, two or three years may	
be used to determine that a minimum overall benefit of 70% of CDBG	2020-2022
funds is used to benefit persons of low and moderate income. Specify	2020-2022
the years covered that include this Annual Action Plan.	

For the purposes of CDBG, all program income reflected in AP-15 is program income expected to be received during the program year. The City does not currently plan to use any CDBG funds for Urgent Need activities. Finally, CDBG grantees may meet the 70 percent threshold benefit to low-and moderate-income (low/mod) persons on a one-, two-, or three-year basis. New York City uses a three-year period. The current three-year period is 2020-2022, during which time NYC expects to spend 77.74 percent of its CDBG funding to benefit low/mod persons. However, the City always strives to meet this threshold on an individual year basis as well.

HOME Investment Partnership Program (HOME) Reference 24 CFR 91.220(I)(2)

- 1. A description of other forms of investment being used beyond those identified in Section 92.205 isas follows:
- 2. The City of New York uses many, if not most, of the approved subsidy forms cited in the regulations and listed below:
 - Interest bearing loans or advances;
 - Non-interest-bearing loans or advances;
 - Deferred payment loans;
 - Grants;
 - Interest subsidies;
 - Equity investments;
 - Tenant-Based Rental Assistance; and
 - Down Payment Assistance.

It does not use any forms of investment that are not described in §92.205(b)

3. A description of the guidelines that will be used for resale or recapture of HOME funds when used for homebuyer activities as required in 92.254, is as follows:

HOME Recapture Provisions

Currently, the City is only utilizing HOME funds in one homeownership program, the HomeFirst Down Payment Assistance Program. The HomeFirst Down Payment Assistance Program provides a forgivable loan of up to \$100,000 for eligible homebuyers' use toward the down payment or closing costs on a 1-4 family home, condominium, or a cooperative unit within New York City. The HomeFirst Down Payment Assistance program utilizes the HOME affordable homeownership limits for our area as annually provided by HUD. The public subsidy is made in the form of a zero-interest forgivable loan requiring the homeowner to reside in their home as their primary residence for a minimum of 10 or 15 years, depending on the size of the loan. The down payment assistance loan is secured by a UCC-1 lien for the purchase of a cooperative unit and by a mortgage for the purchase of a 1-4 family home or a condominium.

Additionally, each purchaser executes a note, and HOME written agreement at closing. This program adheres to HUD's recapture requirements in the following manner:

a. Failure to comply with owner occupancy restrictions:

Annual Action Plan

If during the 10- or 15-year compliance period, the homeowner ceases to comply with the owner occupancy restrictions set forth in the note, mortgage and HOME Written Agreement, or otherwise defaults under the note or mortgage, the City will recapture the entire amount of the loan.

- b. Transfer of the home during the 10- or 15-year compliance period
 - I. If a 10-year compliance period applies:
 - Prior to the 6th anniversary of the purchase, the homeowner transfers the home, the City will recapture the entire amount of the loan.
 - If, on or subsequent to the 6th anniversary of the purchase until the end of the compliance period, the homeowner transfers the home, the City will recapture the lesser of (1) the net proceeds of such a transfer and (2) the loan amount, which amount shall have been reduced by one-fifth (1/5) on the 6th anniversary of the purchase and on each subsequent anniversary thereof. The net proceeds of a transfer are defined as the difference between the consideration received for the home and certain allowable closing fees.
 - II. If a 15-year compliance period applies:
 - Prior to the 6th anniversary of the purchase, the homeowner transfers the home, the City will recapture the entire amount of the loan.
 - If, on or subsequent to the 6th anniversary of the purchase until the end of the compliance period, the homeowner transfers the home, the City will recapture the lesser of (1) the net proceeds of such a transfer and (2) the loan amount, which amount shall have been reduced by one-fifth (1/10) on the 6th anniversary of the purchase and on each subsequent anniversary thereof. The net proceeds of a transfer are defined as the difference between the consideration received for the home and certain allowable closing fees
 - 4. A description of the guidelines for resale or recapture that ensures the affordability of units acquired with HOME funds? See 24 CFR 92.254(a)(4) are as follows:

The HOME Written Agreement used in HPD's HomeFirst Down Payment Assistance Program prescribes a minimum affordability period of 10 or 15 years, the standard required by HUD under 24 CFR 92.254(a)(4) for per unit investments depending on the size of the loan. HPD employs only the recapture option for the HomeFirst program, as described in question 2 above. HPD does not intend to utilize the resale option for any of its HOME-funded homeownership programs.

5. Plans for using HOME funds to refinance existing debt secured by multifamily housing that is rehabilitated with HOME funds along with a description of the refinancing guidelines required that will be used under 24 CFR 92.206(b), are as follows:

HPD does not intend to use HOME funds to refinance existing debt secured by housing for rehabilitation purposes.	multi-family

Emergency Solutions Grant (ESG) Reference 91.220(I)(4)

- 1. Include written standards for providing ESG assistance (may include as attachment).
- 2. If the Continuum of Care has established centralized or coordinated assessment system that meets HUD requirements, describe that centralized or coordinated assessment system.

The NYC Department of Social Services/Human Resources Administration (DSS/HRA) launched the new Coordinated Entry (CE) system, titled Coordinated Assessment & Placement System (CAPS), in October 2020. CAPS is the re-design of the former Placement Assistance and Client Tracking (PACT) system and was established to better incorporate the U.S. Department of Housing and Urban Development (HUD) requirements for Coordinated Entry in NYC in the Annual Action Plan {136 OMB Control No: 2506-0117 (exp. 09/30/2021)}. CAPS is a web-based platform that contains the Coordinated Assessment Survey and the NYC Supportive Housing Application and serves as the on-line portal for initial assessment for HUD Emergency Housing Vouchers (EHV).

The CE system of NYC uses multiple sites and site types covering all potential New York City referral entities. These include shelters, drop-in centers, street outreach teams, hospitals, jails, prisons, supportive housing providers, and independent mental health professionals. Given the size of NYC and the needs of a diverse population, various government and non-profit partners operate these sites and programs. Existing mainstream systems (e.g., behavioral health, health care, child welfare, corrections, senior services) conduct outreach to identify, engage, and refer homeless households using the coordinated assessment survey. Outreach teams operate 24/7 citywide to engage unsheltered persons and connect them to assessment and placement services. DHS operates five centralized emergency shelter intake centers and HRA operates HomeBase homeless prevention sites covering all communities across the city. Every program uses a standardized assessment to identify need and utilize data systems to track resources and direct household to services that meet their needs.

3. Identify the process for making sub-awards and describe how the ESG allocation is made available to private nonprofit organizations (including community and faith-based organizations).

Contractors who use ESG funds in NYC are selected through a competitive RFP process. Proposals are rated on the following factors: experience and qualifications, organizational capacity, and program approach. All contracts procured by the New York City DSS/HRA/DHS are governed by the New York City Procurement Policy Board (PPB). The PPB is authorized to promulgate rules governing the procurement of goods, services, and construction by the City of New York under Chapter 13 of the Charter of the City of New York. The process follows all applicable NYC, NYS and federal procurement rules. The description of the parameters and

policies used for the allocation of funding awards to not-for-profits is summarized in bulleted points as follows:

Experience:

- (For Homeless Prevention) The contractor would have at least three years of demonstrated experience in the last six years working with and providing homelessness prevention and related services to at-risk households (relevant references will be required).
- (For Emergency Shelter and Services) The contractor would have knowledge and experience at least three years in the last six years working with the targeted population, providing the proposed program services and operating under a performance-based contract.

Organizational Capacity:

- The contractor would be fiscally sound and capable of managing the proposed programs.
- The contractor would have the capacity to integrate the proposed program into its overall

operations.

• The contractor's internal monitoring system would be effectively used to identify program, personnel, and fiscal issues and provide corrective action procedures.

Program Approach:

- The contractor would provide outreach to at-risk individuals and families and conduct a screening to ensure that those who are most likely to enter, or re-enter shelter are served.
- The contractor would provide casework services to identify and address the factors that may cause an episode of homelessness.
- The contractor would provide a thorough assessment and the development of a case plan to address immediate client need(s).
- 4. If the jurisdiction is unable to meet the homeless participation requirement in 24 CFR 576.405(a), the jurisdiction must specify its plan for reaching out to and consulting with homeless or formerly homeless individuals in considering policies and funding decisions regarding facilities and services funded under ESG.
 - NYC meets the homeless participation requirement through its consultation with the NYC Continuum of Care (CoC). The CoC Steering Committee is a 17-member elected body with the responsibility to vote on and enact CoC policies and priorities. Four of the 17 members are persons with lived homeless experience (PWLEx). As active members of the Steering

Committee, the PWLEx members attend CoC meetings in which ESG funding goals and priorities are discussed. Additionally, the CoC has two standing committees titled PWLEx Committee and Youth Action Board (YAB), which are open to persons who are currently experiencing or have formerly experienced homelessness and elected members receive compensation/a stipend for their participation. In addition to the PWLEx Committee and YAB, PWLEx are active members of all CoC committees, sub-committees, and workgroups. In particular, PWLEx are active members of the CoC Performance Management Committee in which ESG performance is reviewed through the CAPER. The following regulations are from the NYC CoC Governing Documents and published on the CoC website:

Bylaws: Article IV, Section 3:

"There shall be four persons with lived experience on the Steering Committee. Persons with lived experience are a voice of representation and advocacy on behalf of currently or formerly homeless individuals in New York City. These members provide valuable input and perspective to the CoC to ensure the work is collaborative and meets the needs of those currently experiencing homelessness or who are receiving services. They communicate decisions made by the CoC to currently and formerly homeless persons and encourage others with lived experience to participate in the CoC and work to end homelessness.

- a. Two seats are reserved for youth representation (ages 18-24) and two seats will be open for any individual (no age requirement) who has experienced homelessness.
- b. Definition: Applicants must meet the following criteria: Be an individual who is currently or has formerly experienced homelessness in New York City.

Governance Charter: Part VI, Chapter I:

"Membership composition of all NYC CoC Committees shall remain balanced and include diverse representation across Continuum membership... Committee Co-Chairs shall conduct an annual review of committee membership to ensure a composition that represents persons from various constituencies is maintained."

5. Describe performance standards for evaluating ESG.

NYC Department of Homeless Services (DHS) uses an evaluation framework to assess performance of all ESG funded projects. This framework is shared with the Continuum of Care (CoC) Steering Committee and will be periodically reviewed with the NYC CoC Performance Management Committee. DHS will utilize HMIS to monitor performance through the following indicators:

- Length of time homeless
- Returns to homelessness within 6 to 12 months; returns within two years

Annual Action Plan

- Number of persons served
- Number of first-time homeless persons
- Placement from Street Outreach and retention of Permanent Housing

AP 90 HOPWA Procurement

Identify the method for selecting project sponsors and describe the one-year goals for HOPWA-funded projects.

All contracts procured by the New York City Department of Health and Mental Hygiene (DOHMH) are governed by the New York City Procurement Policy Board (PPB). The PPB is authorized to promulgate rules governing the procurement of goods, services, and construction by the City of New York under Chapter 13 of the Charter of the City of New York. The underlying purposes of the PPB rules are to:

- Simplify, clarify, and modernize the law governing procurement by the City of New York.
- Permit the continued development of procurement policies and practices.
- Make as consistent as possible the uniform application of these policies throughout New York
 City agencies.
- Provide for increased public confidence in New York City's public procurement procedures.
- Ensure the fair and equitable treatment of all persons who deal with the procurement system of the City of New York.
- Provide for increased efficiency, economy, and flexibility in City procurement activities and to maximize to the fullest extent the purchasing power of the City.
- Foster effective broad-based competition from all segments of the vendor community,
 including small businesses, and minority- and women-owned and operated enterprises.
- Safeguard the integrity of the procurement system and protect against corruption, waste, fraud, and abuse.
- Ensure appropriate public access to contracting information.
- Foster equal employment opportunities in the policies and practices of contractors and subcontractors wishing to do business with the City.

DOHMH and DSS/HRA adhere to PPB rules and processes HOPWA contracts internally through their respective Agency's Chief Contracting Officers (ACCO). In addition, the ACCO's Offices submit all DOHMH and DSS/HRA contracts, including HOPWA contracts, through various City oversight agencies, including the City Law Department, Mayor's Office of Contract Services (MOCS), and the City of New York Comptroller's Office. These agencies ensure that contracts are compliant with City, State, and Federal laws and guidelines pertaining to procurement.

Request for proposals (RFP) are released and competitively bid by the City of New York to all qualified community-based non-profit organizations (including faith-based organizations), so long as they provide 501(c)(3) proof from the Internal Revenue Service at the time of application and meet all of the proposal requirements. Submitted proposals are reviewed and rated to determine whether they are responsive to the requirements set forth in the RFP. Contracts are awarded to vendors whose proposals fulfill the RFP criteria and determined to be the most advantageous for the jurisdiction.

For the 2022 Grant Year, the HOPWA grant proposes to serve a total of 2,702 households* across the New York City EMSA. The households will benefit from various housing subsidy assistance services including, 40 households with Short-Term Rent, Mortgage, and Utility (STRMU) services, 280 households with Tenant-Based Rental Assistance (TBRA), 2,332 units of facility-based housing, and 50 permanent housing placements. For a detailed breakdown of the proposed HOPWA housing goals, please refer to the table below.

*Please note this figure differs slightly from the total presented in the AP-70 HOPWA Goals table since there is no field to capture the projected 50 *Permanent Housing Placements*.

Proposed 2022 HOPWA Goals

Proposed Housing Goals For 2022 Annual Action Plan (AP-90) for the HOPWA NYC EMSA	Proposed Households to be Served
Short-term Rent, Mortgage, and Utility Assistance (STRMU)	40
Tenant-Based Rental Assistance	280
Facility-Based Housing	2,332
Permanent Housing Placements	50
Grant Year 2022 Total Proposed Households	2,702
