DEPARTMENT OF DOCKS AND FERRIES, PIER "A," FOOT OF BATTERY PLACE, NORTH RIVER, BOROUGH OF MANHATTAN, THE CITY OF NEW YORK.

## FILLING PRIVILEGE.

**SEALED BIDS OR ESTIMATES WILL BE** received by the Commissioner of Docks, at Pier "A," foot of Battery place, in the City of New York, until 12 o'clock noon on

**MONDAY, MARCH 7, 1910,**

**FOR THE RIGHT TO DUMP AND FILL IN BEHIND THE BULKHEAD WALL NOW BUILT, OR TO BE BUILT, ON THE GOWANUS SECTION, BETWEEN THIRTY-SECOND AND THIRTY-SIXTH STREETS, SOUTH BROOKLYN, BOROUGH OF BROOKLYN.**

## TERMS AND CONDITIONS OF SALE.

The work to be done is to fill in with suitable material, as hereinafter described, the area behind the bulkhead wall now built, or to be built, on the Gowanus section, between the retaining structure built on about the south line of Thirty-sixth street and the fill now in place near the foot of Thirty-second street, from the face of the crib bulkhead now existing along the west side of Second avenue to the rip-rap proposed to be placed in the rear of the bulkhead wall; the exact limits being shown on a map at Pier "A," entitled "Filling Privilege, Twenty-eighth to Thirty-sixth Street, South Brooklyn," together with soundings and other data used in making the estimate, said map being part of this agreement. It is estimated that within the above described limits there exists a net void space to be filled in of about 165,000 cubic yards.

This estimate is arrived at by computing the void space within the boundary of the above described to a uniform grade from the top of the crib bulkhead along Second avenue to the top of the coping of the proposed bulkhead wall, no allowance being made for shrinkage, settlement, expansion or compression of the material or its penetration into the mud.

Bidders are warned that the Department is not bound in any way by the above estimate and must satisfy themselves of the actual quantity required to fill in the above described area by examination of the premises, or such other means as they may prefer, as all of the above work is to be done at the lump sum bid. Bidders will state in writing a lump sum price, which they agree to pay for the privilege of filling, as described above. The purchaser will be required to place the filling in accordance with the following specifications:

All material must be dumped and filled in only in such manner, at such points and in such order of procedure, and at such times and seasons as may, from time to time, be directed, and the work of filling in may be entirely suspended for such periods of time as may be directed by the Engineer. The purchaser shall have no claim for damage or for any allowance from the purchase money on account of such suspension of the work.

All directions shall be given by the Engineer, and wherever the word "Engineer" is used in these specifications it refers to and designates the Chief Engineer of the Department of Docks and Ferries, or such officer or employee as may be designated by him.

Rip-rap stone coming directly on or against the bulkhead wall must be deposited carefully in such manner as will not injure the same.

The filling shall consist of any material satisfactory to the Engineer, and may include ashes, earth, street sweepings or clean rubbish, and not considered objectionable by the Board of Health. Garbage, or other perishable material, will not be considered satisfactory.

The filling shall be commenced in the rear of one of the proposed piers, as directed by the Engineer, and carried directly outshore to the rear of the bulkhead wall, care being taken in approaching the wall to keep the centre of the fill well in advance of the sides; after the wall is reached the filling shall be carried north and south along the wall and thence inshore.

The filling shall be commenced within five days after the date of the receipt of a notification from the Engineer that the work, or any part of it, is ready to be begun, and the work shall proceed to completion at a rate satisfactory to the Engineer, but after April 1, 1910, the purchaser shall deposit not less than ten thousand (10,000) cubic yards in any one calendar month, and the whole amount of the filling called for to bring the above described basin up to grade shall be completed within one year from the date of the receipt of said notification. At the expiration of this time this agreement shall be considered closed, unless a further extension of time shall be given by the Commissioner of Docks. If at any time during the progress of the work it shall be deemed necessary to order the suspension of the whole or any part of the filling, the time for completing said filling shall be extended as much as it may have been delayed by such suspension.

In case the purchaser at any time does not proceed with the work of filling in to the satisfaction of the Commissioner of Docks, the Commissioner may at once terminate the privilege of filling and proceed to have the remainder of the work done by other parties, in such way and manner as he deems proper, and any loss which may result therefrom shall be charged against the purchaser and his surety, and the right is also reserved by the Commissioner of Docks to terminate the filling-in privilege after the hereinafter specified periods, to wit: After 25 per cent. of the void space is filled in, or after 50 per cent. is filled in, or after 75 per cent. of the void space is filled in, and the amount of void space so filled in at the time of the termination of this privilege shall be estimated by the Engineer, and the purchaser herein agrees to accept the statement of the Engineer as to the amount of void space filled in up to the time of the termination of this privilege.

The purchaser shall provide all the labor, plank, tools and appliances necessary for the purpose, and shall keep the dump at all times at an even grade to the satisfaction of the Engineer.

The purchaser shall during the work of filling in, and at all times until the completion thereof, take all necessary precautions and place proper guards for the prevention of accidents, and put up and maintain at night sufficient lights, and he shall indemnify and save harmless The City of New York from all damages and costs to which it may be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work of guarding the same, to which the surety is also bound.

No bid or estimate will be considered unless accompanied by a certified check drawn to the order of the Commissioner of Docks, or money to the amount of 25 per centum of the amount of the bid, which amount shall be applied in the case of the successful bidder to the first one-quarter of the amount of the filling to be deposited; 25 per centum to be paid when the first one-quarter of the filling has been completed; 25 per centum additional when one-half the filling has been completed; and the balance, 25 per centum, when three-quarters of said filling has been completed.

A surety or guarantee company, duly authorized by law to act as surety, to be approved by the Commissioner of Docks, will be required to enter

into a bond or obligation jointly and severally with the purchaser, in the sum of double the amount of the purchase price, as security for the satisfactory performance of said work, in accordance with the terms and conditions hereof.

FOR THE RIGHT TO DUMP AND FILL IN BEHIND THE BULKHEAD WALL NOW BUILT, OR TO BE BUILT, ON THE GOVANUS SECTION, BETWEEN TWENTY-EIGHTH AND THIRTY-FIRST STREETS, SOUTH BROOKLYN, BOROUGH OF BROOKLYN.

#### TERMS AND CONDITIONS OF SALE.

The work to be done is to fill in with suitable material, as hereinafter described, the area behind the bulkhead wall now built, or to be built, on the Gowanus Section, between the retaining structure to be built on about the center line of Twenty-eighth street and the fill now in place near the foot of Thirty-first street, from the face of the crib bulkhead now existing along the west side of Second avenue to the rip-rap proposed to be placed in the rear of the bulkhead wall; the exact limits being shown on a map at Pier "A," entitled "Filling Privilege, Twenty-eighth to Thirty-first street, South Brooklyn," together with soundings and other data used in making the estimate, said map being part of this agreement. It is estimated that within the above-described limits there exists a net void space to be filled of about 218,000 cubic yards.

This estimate is arrived at by computing the void space within the boundary of the above described to a uniform grade from the top of the crib bulkhead along Second avenue to the top of the coping of the proposed bulkhead wall, no allowance being made for shrinkage, settlement, expansion or compression of the material or its penetration into the mud.

Bidders are warned that the Department is not bound in any way by the above estimate, and must satisfy themselves of the actual quantity required to fill in the above-described area by examination of the premises, or such other means as they may prefer, as all of the above work is to be done at the lump sum bid. Bidders will state in writing a lump sum price which they agree to pay for the privilege of filling, as described above. The purchaser will be required to place the filling in accordance with the following specifications:

All material must be dumped and filled in only in such manner, at such points and in such order of procedure, and at such times and seasons as may, from time to time, be directed, and the work of filling in may be entirely suspended for such periods of time as may be directed by the Engineer. The purchaser shall have no claim for damage or for any allowance from the purchase money on account of such suspension of the work.

All directions shall be given by the Engineer, and wherever the word "Engineer" is used in these specifications it refers to and designates the Chief Engineer of the Department of Docks and Ferries, or such officer or employee as may be designated by him.

Rip-rap stone coming directly on or against the bulkhead wall must be deposited carefully in such manner as will not injure the same.

The filling shall consist of any material satisfactory to the Engineer, and may include ashes, earth, street sweepings or clean rubbish, and not considered objectionable by the Board of Health, garbage or other perishable material will not be considered satisfactory.

The filling shall be commenced in the rear of one of the proposed piers, as directed by the Engineer, and carried directly outshore to the rear of the bulkhead wall, care being taken in approaching the wall to keep the center of the fill well in advance of the sides; after the wall is reached the filling shall be carried north and south along the wall and thence inshore.

The filling shall be commenced within five days after the date of the receipt of a notification from the Engineer that the work, or any part of it, is ready to be begun and the work shall proceed to completion at a rate satisfactory to the Engineer; but after April 1, 1910, the purchaser shall deposit not less than ten thousand (10,000) cubic yards in any one calendar month, and the whole amount of the filling called for to bring the above-described basin up to grade shall be completed within one year from the date of the receipt of said notification. At the expiration of this time this agreement shall be considered closed, unless a further extension of time shall be given by the Commissioner of Docks. If at any time during the progress of the work it shall be deemed necessary to order the suspension of the whole or any part of the filling, the time for completing said filling shall be extended as much as it may have been delayed by such suspension.

In case the purchaser at any time does not proceed with the work of filling in to the satisfaction of the Commissioner of Docks, the Commissioner may at once terminate the privilege of filling and proceed to have the remainder of the work done by other parties, in such way and manner as he deems proper; and any loss which may result therefrom shall be charged against the principal and his surety, and the right is also reserved by the Commissioner of Docks to terminate the filling-in privilege after the hereinafter specified periods, to wit: After 25 per cent. of the void space is filled in, or after 50 per cent. is filled in, or after 75 per cent. of the void space is filled in, and the amount of void space so filled in at the time of the termination of this privilege shall be estimated by the Engineer, and the purchaser herein agrees to accept the statement of the Engineer as to the amount of void space filled in up to the time of the termination of this privilege.

The purchaser shall provide all the labor, plank, tools and appliances necessary for the purpose, and shall keep the dump at all times at an even grade to the satisfaction of the Engineer. The purchaser shall, during the work of filling in and at all times until the completion thereof, take all necessary precautions and place proper guards for the prevention of accidents, and put up and maintain at night sufficient lights, and he shall indemnify and save harmless The City of New York from all damages and costs to which it may be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or guarding the same, to which the surety is also bound.

No bid or estimate will be considered unless accompanied by a certified check drawn to the order of the Commissioner of Docks, or money to

the amount of twenty-five per centum of the amount of the bid, which amount shall be applied in the case of the successful bidder to the first one-quarter of the amount of the filling to be deposited; twenty-five per centum to be paid when the first one-quarter of the filling has been completed, twenty-five per centum additional when one-half the filling has been completed and the balance, twenty-five per centum, when three-quarters of said filling has been completed.

A surety or guarantee company, duly authorized by law to act as surety, to be approved by the Commissioner of Docks, will be required to enter into a bond or obligation jointly and severally with the purchaser in the sum of double the amount of the purchase price as security for the satisfactory performance of said work, in accordance with the terms and conditions hereof.

#### PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

##### NOTICE TO CONTRACTORS.

##### GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done.
