Hearing on the form of contract for the grant of a franchise to the Fifth Avenue Coach Company to establish, maintain and operate additional omnibus lines for public use, in the Boroughs of Manhattan and The Bronx, in connection with an extension of the Company's present operation upon various streets and avenues.

The hearing was fixed for December 28, 1917, by resolution adopted November 30, 1917 (Cal. No. 1).

By an order of the Supreme Court, dated December 26, 1917, the Board was temporarily enjoined from holding the hearing fixed for December 28, 1917.

The Law Department advised that on January 4, 1918, the adjourned date, the motion was marked off the calendar, but the stay was not vacated.

On December 28, 1917, the hearing was continued until January 25, 1918 (Cal. No. 3), and, on the latter date, the Corporation Counsel was requested to see if the stay could not be vacated and the hearing was continued until this day.

An affidavit of publication of the notice of continued hearing was received from the CITY RECORD.

The hearing was fixed for November 2, 1917, by resolution adopted October 19, 1917 (Cal. No. 127), and was continued from time to time until this day.

On December 19, 1917, the receivers were made permanent, and on the same day a temporary injunction order was issued by the Federal Court, restraining the Board from passing any resolutions declaring the franchise forfeited or affecting the franchise in any way. This injunction was presented at the meeting of the Board on December 21, 1917 (Cal. No. 14), and referred to the Corporation Counsel.

The Corporation Counsel was requested to examine into the application for the issuance of the injunction and advise the Board by February 1, 1918, as to the status of the injunction proceedings. The hearing was then continued until this day.

APPROVAL OF MAPS AND PLANS.

Sewerage and Drainage Plans.

Borough of The Bronx.

Sewerage District No. 39-0-2, Borough of The Bronx—Modification in Drainage Plan (Cal. No. 14).

The Secretary presented a communication dated May 24, 1917, from the Commissioner of Public Works, Borough of The Bronx, transmitting for approval map showing proposed modification; and the following report of the Chief Engineer:

Report No. 17342. February 2, 1918.

Hon. JOHN F. Hylan, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a communication from the Commissioner of Public Works, Borough of The Bronx, bearing date of May 24, 1917, requesting approval of a modification in the drainage plan for Sewerage District No. 39-0-2.

This plan relates to the sewer in Sedgwick Avenue between Giles Place and Stevenson Place. It makes provision for readjusting the line of flow in such a way as to minimize the length of sewer required for the drainage of the abutting property.

The plan appears to be a proper one, and its approval is recommended.

Respectfully, NELSON P. LEWIS, Chief Engineer.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves modified drainage plan for Sewerage District No. 39-0-2, Borough of The Bronx, showing the location, sizes and grades of the sewer in Sedgwick Avenue from Giles Place to Stevenson Place, bearing the signature of the President of the Borough and dated March 27, 1917.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

Borough of Queens.

Sewerage Districts Nos. 24 and 27, Borough of Queens—Modification in Drainage Plan (Cal. No. 15).

The Secretary presented a communication dated September 13, 1917, from the Secretary to the President, Borough of Queens, transmitting for approval map showing proposed modification; and the following report of the Chief Engineer:

Report No. 17336. January 31, 1918.
Hon. JOHN F. HYLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a communication from the Secretary to the President of the Borough of Queens bearing date of September 13th, 1917, presenting for approval a map showing a modification in the drainage plan of Sewerage Districts Nos. 24 and 27.

The plan relates to the sewer in 51st Street, between Rodman Street and Lurting Street, designed to serve as the main trunk for the Elmhurst and Corona sections of the Borough. On January 12th, 1911, a tentative drainage plan comprising an area of about 8,000 acres, including the Corona, Elmhurst and Woodside sections, was approved by the Board, this making provision for outletting the sanitary flow from the portion of the district affected by the plan now under consideration through 51st Street, and for overflowing storm water into Flushing Creek, through Rodman Street and Zuni Street; that portion of the sanitary flow from the Elmhurst section was to be collected at the disposal plant now in use, which was to be converted into a pumping station discharging into a gravity sewer meeting the 51st Street trunk at Zuni Street.

In conformity with details subsequently prepared and formally adopted by the Board that portion of the 51st Street sewer, between Flushing Bay and Lurting Street, was authorized and has recently been completed. Preliminary authorization has also been given for the proposed extension from Lurting Street to Rodman Street.

Subsequent to the date of approving the tentative plan a large number of changes have been proposed in the scheme and have been made the subject of favorable action by the Board. The plan now presented is based upon a further modification involving the abandonment of the Elmhurst disposal plant and the concentration of the required pumping at a station to be erected at the junction of Rodman Street with 51st Street, which station is also to serve for pumping the dry weather flow from an area of about 860 acres of low-lying territory located at the head of and adjoining Flushing Creek on its westerly side.

From information which has been submitted in connection with a revised tentative plan clearly outlining the character of the modifications involved it would appear that a substantial saving can be effected through it and that at the same time advantage may be taken of an excess capacity now available in the 51st Street sewer by reason of the diversion from it of a portion of the drainage which it was originally designed to care for. The studies of the tentative plan have not yet advanced to the stage where its approval as a whole is recommended, but it has been sufficiently analyzed to justify the general project and in sufficient detail to establish the desirability of the modification shown on the plan now under discussion, such action being particularly desired at this time in order that construction work may be undertaken.

I would recommend that the plan be adopted.

Respectfully, NELSON P. LEWIS, Chief Engineer.
The matter was referred to the Committee on City Plan and Public Improvements.

Miscellaneous Maps and Plans.

Addison Place, Easterly Side, Between Laurel Hill Boulevard and a Line 546.48 Feet Northerly Therefrom, Borough of Queens—Map Showing Proposed Subdivision of Private Property (Cal. No. 16).

(On January 25, 1918 (Cal. No. 97), this matter was referred to the Chief Engineer.)

The Secretary presented a communication, dated January 21, 1918, from the Secretary to the President of the Borough of Queens forwarding for approval, in accordance with chapter 513 of the Laws of 1916, map of property situated in the Second Ward, Borough of Queens, section 8, block 1753, Land Map of the County of Queens; and the following report of the Chief Engineer:

Report No. 17335. January 28th, 1918.
Hon. JOHN F. HYLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—At the meeting of the Board held on January 25th, 1918, a communication from the Secretary to the President of the Borough of Queens, requesting, on behalf of the Borough President, approval of a map showing a proposed subdivision into lots of property located on the easterly side of Addison Place, between Laurel Hill Boulevard and a line 546.48 feet northerly therefrom and designated as "Map of property belonging to Henry J. O'Loughlin and others," was referred to your Engineer for investigation and report.

The map has been prepared pursuant to the provisions of chapter 513 of the Laws of 1916, which requires the Board to either approve or disapprove it within 21 days subsequent to its receipt by the Secretary, and, in case of its approval, also providing for filing it in the office where conveyances of real estate are recorded, as well as in the office of the Corporation Counsel, the Borough President and the Board of Estimate. Through the operation of chapter 592 of the Laws of 1917, the filing of the map is also required before any of the properties shown thereon can be offered for sale. The object of these laws is to insure that property development is carried out along lines consistent with the City plan.

From the information presented, it appears that the lines proposed for Addison Place and for Laurel Hill Boulevard are identical with those laid out upon the City map and that the subdivision proposed is properly adapted thereto. Under the requirements of the law, action will have to be taken by the Board before February 11th or the plan will have to be certified for filing.

I see no reason why the map should not be approved and would recommend such action. Respectfully, NELSON P. LEWIS, Chief Engineer.

The following resolution was offered:
Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 1540 of the Greater New York Charter, as amended by Chapter 513 of the Laws of 1916, hereby approves the map showing the subdivision into lots of property located on the easterly side of Addison Place between Laurel Hill Boulevard and a line 546.48 feet northerly therefrom and designated as "Map of Property belonging to Henry J. O'Loughlin and others, situated in the Second Ward, Borough of Queens, section 8, block 1753, Land Map of the County of Queens," said map having been approved in quadruplicate by the Acting President of the Borough of Queens on December 18, 1917, and having been transmitted by the Borough President to and received in the office of the Secretary of said Board on January 21, 1918.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

REPORTS.

From Standing Committees.

Committee on City Plan and Public Improvements.

Sewerage Districts Nos. 39-P-2 and 41-D, Borough of The Bronx—Modification in Drainage Plan (Cal. No. 17).

(On January 25, 1918 (Cal. No. 7), this matter was referred to the Committee on City Plan and Public Improvements.)

The Secretary presented a communication dated September 18, 1917, from the Commissioner of Public Works, Borough of The Bronx, transmitting for approval map showing proposed modification; a report of the Chief Engineer, recommending approval thereof (printed in minutes of meeting January 25, 1918 (Cal. No. 7); and the following report of the Committee on City Plan and Public Improvements:

January 30, 1918.

To the Board of Estimate and Apportionment:

Gentlemen—At the meeting of your Board held on January 25 there was referred to the Committee on City Plan and Public Improvements a modification of the Drainage Plan for Sewerage Districts Numbers 39-P-2 and 41-D, in the Borough of The Bronx.

Your Committee at a meeting held on January 29 has discussed this plan and finds that it consists of a slight modification which will make it possible to provide sewerage facilities for property along a portion of Netherland Avenue, West 239th Street and Spuyten Duyvil Parkway, which, under the present plan would not have such facilities until a sewer 42 inches in diameter in Johnson Avenue and a sewer 48 inches in diameter in West 236th Street shall have been constructed. There is no immediate need for the building of these large sewers, but by the construction of a

temporary connection less than 100 feet in length in the portion of West 238th Street immediately east of Johnson Avenue, the drainage from the property on Netherland Avenue, West 239th Street and Spuyten Duyvil Parkway, above referred to, could be accommodated in a lateral sewer to be built in West 238th Street between Johnson Avenue and Riverdale Avenue, and led thence to the same outlet provided under the existing plan. As a result of this modification in the drainage plan it will be possible at a trifling additional expense to afford property which is ripe for development and upon which the expense will be assessed facilities of which it would otherwise be deprived for some years.

Your Committee therefore recommends the approval of the plan for the modification of Sewerage Districts 39-P-2 and 41-D, signed by the President of the Borough of The Bronx, and dated April 12, 1917. Respectfully,

FRANK L. DOWLING, President, Borough of Manhattan, Chairman; CHARLES L. CRAIG, Comptroller; EDWARD RIEGELMANN, President, Borough of Brooklyn; HENRY BRUCKNER, President, Borough of The Bronx; MAURICE E. CONNOLLY, President, Borough of Queens; CALVIN D. VAN NAME, President, Borough of Richmond; Committee on City Plan and Public Improvements.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves modified drainage plan for Sewerage Districts No. 39-P2 and No. 41-D, Borough of The Bronx, showing the location, size and grades of the sewers at the intersection of Spuyten Duyvil Parkway and Johnson Avenue, and in West 238th Street from Johnson Avenue to Riverdale Avenue, bearing the signature of the President of the Borough and dated September 12, 1917.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

Vermilyea Avenue, from Dyckman Street to Broadway—Laying Out Extension. Sickles Street, from Broadway to Sherman Avenue, Borough of Manhattan—Closing and Discontinuing (Cal. No. 18).

(At the close of the public hearing on January 11, 1918, on this proposed map change (Cal. No. 2), the matter was referred to the Committee on City Plan and Public Improvements.)

The Secretary presented a report of the Chief Engineer (printed in minutes of meeting held November 16, 1917—Cal. No. 119) and the following report of the Committee on City Plan and Public Improvements:

January 23, 1918.

Board of Estimate and Apportionment:

Gentlemen—At the conclusion of a public hearing on January 11, 1918, the matter of changing the map or plan of The City of New York by laying out an extension of Vermilyea Avenue from Dyckman Street to Broadway, and closing and discontinuing Sickles Street from Broadway to Sherman Avenue, Borough of Manhattan, was referred to the Committee on City Plan and Public Improvements.

The Chief Engineer of the Board in a report, dated November 10, 1917, states that in 1916 the question of discontinuing Sickles Street between Sherman Avenue and Broadway and of substituting a new street approximately parallel with Sherman Avenue, was referred to the President of the Borough of Manhattan. As a result of said reference a plan providing for discontinuing Sickles Street in the block between Sherman Avenue and Broadway and laying out an unnamed street between Arden Street and Broadway approximately parallel with Sherman Avenue and distant about 210 feet northerly therefrom, was presented at the meeting of the Board on March 30, 1917. At this time objections were made by one of the property owners and the matter was thereupon referred back to the Borough President with the understanding that a substitute plan was being prepared and would be submitted to the Board. As a result of such further consideration the present plan was submitted bearing date of June 12, 1917. The map presented provides for the discontinuance of Sickles Street from Broadway to Sherman Avenue and the laying out of an extension of Vermilyea Avenue from Dyckman Street to Broadway. The proposed new street, which is to have a width of 60 feet, is to have a position generally distant 290 feet north of Sherman Avenue and will form a westwardly extension of Vermilyea Avenue as laid out and improved east of Dyckman Street.

At the public hearing held by the Board there was opposition to this plan from property owners who would be affected by the extension of Vermilyea Avenue between Arden Street and Dyckman Street.

Your Committee believes that the proposed extension of Vermilyea Avenue is not essential to the completion of an adequate street system for this section of the city, as it is already served by adequate main thoroughfares. In view of the objection of property owners, the Committee believes the portion of Vermilyea Avenue between Arden Street and Dyckman Street should be omitted from the proposed map change.

Your Committee recommends that the proposed map change be referred back to the President of the Borough of Manhattan with the suggestion that the map be amended by omitting therefrom the two block section of Vermilyea Avenue between Arden Street and Dyckman Street. Respectfully submitted,

FRANK L. DOWLING, President, Borough of Manhattan, Chairman; CHARLES L. CRAIG, Comptroller; EDWARD RIEGELMAN, President, Borough of Brooklyn; HENRY BRUCKNER, President, Borough of The Bronx; MAURICE E. CONNOLLY, President, Borough of Queens; President, Borough of Richmond, Committee on City Plan and Public Improvements.

The matter was referred back to the President of the Borough of Manhattan.

Committee on Salaries and Grades.

Board of Estimate and Apportionment—Modification of Schedule and Establishment of Additional Grades of Positions (Cal. No. 19).

(On January 25, 1918 (Cal. No. 123-C), the request herein was referred to the Committee on Salaries and Grades.)

The Secretary presented a communication dated January 16, 1918, from the Director, Bureau of Contract Supervision, requesting modification of schedule; and the following report of the Committee on Salaries and Grades recommending approval thereof and establishment of additional grades of positions:

February 4, 1918.

To the Board of Estimate and Apportionment:

Gentlemen—On January 16, 1918, the Director of the Bureau of Contract Supervision requested modification of salary schedule No. 24 for the year 1918. This was referred to the Committee on Salaries and Grades, Item No. 123 (c), Calendar of January 25, 1918. The Committee reports thereon as follows:

"Proposed Action—(1) To change a position of Clerk at \$3,060 to Examiner at \$3,060.

"(2) To change a position of Junior Chemist at \$1,020 to Junior Chemist (Asphalt) at \$1,020.

"(3) To change a position of Fuel Engineering Chemist at \$1,500 to Coal Sampler at \$1,200, scheduling \$300 in balance unassigned.

"Result of Investigation—(1) This change is requested in order that the title of Thomas J. Patterson may conform to the work he performs. The rate for Mr. Patterson was increased in the 1918 budget by the Main Committee on Tax Budget from \$2,100 to \$3,060, the Committee deciding that the grade of examining work performed entitled him to receive the minimum rate provided in the budget for such work. Under Civil Service rules Mr. Patterson is unable to receive this salary under the title of Clerk, but he may be paid at the \$3,060 rate under the title of Examiner. He recently passed a promotion examination for this title. The grade of position of Examiner at \$3,060 is established under section 56 of the Charter for two incumbents and the present schedules of the Board of Estimate and Apportionment provide for two positions, both of which are filled.

"(2) This change is requested in order that the schedule line may agree with the proper Civil Service title of Gustave M. Miller, the incumbent. The grade of position of Junior Chemist (Asphalt) at \$1,020 has not been established pursuant to section 56 of the Charter.

"(3) This change is requested in order to provide for Harry T. Newman as Coal Sampler. The 1918 budget intended to provide for Mr. Newman's promotion from Coal Sampler at \$1,200 to Junior Chemist at \$1,260, but on account of his standing on the Civil Service list for this position he cannot at present be appointed under this title. Instead of eliminating the position of Fuel Engineering

Chemist at \$1,500 to provide for Mr. Newman as a Coal Sampler, the position of Junior Chemist at \$1,200 provided for him should be changed to Coal Sampler at \$1,200 until such time as the requirements of Civil Service are met. The position of Coal Sampler at \$1,200 has been established pursuant to section 56 of the Charter."

Recommendation—In view of the above report the Committee recommends the adoption of the attached resolutions granting the request with the modification above noted and recommending to the Board of Aldermen the establishment of the positions of Examiner at \$3,060 and Junior Chemist (Asphalt) at \$1,020. Respectfully,

ALFRED E. SMITH, President, Board of Aldermen; FRANK L. DOWLING, President, Borough of Manhattan; EDWARD RIEGELMANN, President, Borough of Brooklyn; Committee on Salaries and Grades.

Law Department—Authority to Fill Vacancies and Modification of Schedule (Cal. No. 20).

(On February 1, 1918 (Cal. No. 82-B), the request herein, was referred to the Committee on Salaries and Grades.)

The Secretary presented a communication dated January 25, 1918, from the Corporation Counsel, requesting authority to fill two vacancies in the position of Assistant Corporation Counsel, and modification of schedule; and the following report of the Committee on Salaries and Grades recommending approval thereof:

February 4, 1918.

To the Board of Estimate and Apportionment:

Gentlemen—On January 25, 1918, the CORPORATION COUNSEL requested authority, as provided in resolution second (c) of the terms and conditions of the 1918 Budget, to fill three vacancies and for modification of the salary schedule. This was referred to the Committee on Salaries and Grades, Item 82B, Calendar of February 1, 1918. The Committee reports thereon as follows:

"Vacancies—(1) A position of Assistant Corporation Counsel at \$7,500.

"(2) A position of Assistant Corporation Counsel at \$5,000.

"(3) A position of Assistant Corporation Counsel at \$3,240.

"Result of Investigation—(1) A request for permission to fill the position at \$7,500 by the appointment of Mr. Edward G. Nelson at \$6,000 has already been granted by the Board of Estimate and Apportionment by resolution adopted on January 25, 1918.

"(2) It is proposed to fill the position of Mr. S. J. Quinn, former Assistant Corporation Counsel, at \$5,000 per annum by the appointment of Mr. William R. Wilson, who was formerly attached to the Law Department, the new appointee to receive \$5,500. The duties of the position are to prepare opinions and try actions.

"(3) A position of Assistant Corporation Counsel at \$3,240 is vacant by reason of the resignation of the former incumbent, Mr. Van Houten. The Corporation Counsel desires to fill the place by the appointment of Mr. David P. Goldstein at a salary of \$3,000 per annum. The duties of the position are to try actions, argue motions, prepare briefs and opinions.

"All of the foregoing positions are in the exempt class and are necessary ones. The rates of salaries for the new incumbents are not in excess of those provided for in the 1918 Budget for similar positions. The appointments at the salaries stated by the Corporation Counsel for the new incumbents will result in an annual saving of \$1,240 in the salary schedule for the office. In order to permit the audit of the payroll for the three positions at the changed rates it will be necessary to modify Code 120 for 1918."

Recommendation—The Committee recommends the adoption of the attached resolutions granting the requests of the Corporation Counsel and for modification of the salary schedule to include the new rates of salaries for the positions. Respectfully,

ALFRED E. SMITH, President, Board of Aldermen; FRANK L. DOWLING, President, Borough of Manhattan; EDWARD RIEGELMANN, President, Borough of Brooklyn; Committee on Salaries and Grades.

"Result of Investigation—On December 31, 1917, Thomas Lally, Deputy Chief in charge of Brooklyn and Queens retired from the department. On January 11, 1918, the Board of Estimate and Apportionment recommended to the Board of Aldermen the establishment of the position at \$6,500 for John O'Hara, who has been assigned to the duties formerly performed by Chief Lally. On January 15, 1918, the Board of Aldermen concurred in the resolution, which was approved by the Mayor on January 25, 1918. The modification of the schedule is requested to be effective as of this date."

Recommendation—The Committee recommends the adoption of the attached resolution granting the request. Respectfully,

ALFRED E. SMITH, President, Board of Aldermen; FRANK L. DOWLING, President, Borough of Manhattan; EDWARD RIEGELMANN, President, Borough of Brooklyn, Committee on Salaries and Grades.

Fire Department—Modification of Schedules (Cal. No. 25).

(On January 25, 1918 (Cal. No. 123-I), the request herein was referred to the Committee on Salaries and Grades.)

The Secretary presented a communication dated January 16, 1918, from the Fire Commissioner, requesting modification of schedules; and the following report of the Committee on Salaries and Grades recommending approval thereof:

February 4, 1918.

To the Board of Estimate and Apportionment:

Gentlemen—On January 16, 1918, the FIRE COMMISSIONER requested modification of two wage schedules for 1918. This was referred to the Committee on Salaries and Grades, Item No. 123 (i), Calendar of January 25, 1918. The Committee reports thereon as follows:

"Proposed Action (1)—In No. 1671 to change a position of Varnisher at \$5

per day (278½ days), \$1,392.50, to Wagon Painter at \$5 per day (277½ days) \$1,387.50, scheduling \$5 in Balance Unassigned.

"Result of Investigation—The 1918 Budget provides for a Foreman Painter. When this position was allowed a position of Wagon Painter was dropped upon the assumption that the incumbent would be designated as foreman. Instead, however, another employee has been designated. In place of eliminating a position of Painter to meet conditions as they now exist, it is thought better to eliminate a vacant position of Varnisher, which title is practically obsolete, in order to provide for the continuance in the service of the Wagon Painter.

"Proposed Action (2)—In No. 1673 to change a position of Painter at \$5 per day (277½ days), \$1,387.50, to Painter and Letterer at the same rate and number of days.

"Result of Investigation—After the adoption of the 1918 Budget, the 1917 schedule was modified by changing a position of Painter to Painter and Letterer. This change is necessary in order that the schedule line may conform to the title of the employee."

Recommendation—The Committee recommends the adoption of the attached resolution approving the request. Respectfully,

ALFRED E. SMITH, President, Board of Aldermen; FRANK L. DOWLING, President, Borough of Manhattan; EDWARD RIEGELMANN, President, Borough of Brooklyn, Committee on Salaries and Grades.

Monaghan, on January 31, 1918. The Committee reports as follows:

"Vacancy—Clerk at \$600 per annum in Code 1817 by the reinstatement of Anthony Fiore at \$540 per annum

"Result of Investigation—The position is necessary. The request is really to confirm action taken on November 28, 1917, in the reinstatement of this Clerk, who resigned from the service June 16, 1917. His duties since that date have been the keeping of stock card records in the storehouse at 16th Street, showing the quantity of each class of supplies received at the storehouse and distributed throughout the various divisions of Willard Parker Hospital and to the other hospitals of the Health Department. There is no other employee doing this work at this point. In other City departments the rate of compensation for similar work provided in the budget is from \$600 to \$720 per annum."

Recommendation—The Committee on Salaries and Grades hereby approves of the filling of the above vacancy at \$540 per annum. Respectfully,
ALFRED E. SMITH, President, Board of Aldermen; FRANK L. DOWLING, President, Borough of Manhattan; EDWARD RIEGELMANN, President, Borough of Brooklyn, Committee on Salaries and Grades.

"Result of Investigation—The positions are necessary. These Clerks are to be assigned one to the Jamaica district office and the other to the Queens Plaza district office of the Department of Health. Department of Health—Authority to Fill Vacancy (Cal. No. 29).
(On January 15, 1918 (Cal. No. 28—B—7), the request herein was referred to the Committee on Salaries and Grades.)
The Secretary presented a communication dated January 10, 1918, from the Secretary, Department of Health, requesting permission to fill vacancy in position of Dentist at \$1,200 by appointment at \$1,020 per annum from the eligible list; and the following report of the Committee on Salaries and Grades recommending approval thereof:

February 4, 1918.

To the Board of Estimate and Apportionment:
Gentlemen—On January 10, 1918, the then Secretary of the Department of Health requested authority, as provided in Resolution Second (c) of the terms and conditions of the budget, to fill a vacancy. This was referred to the Committee on Salaries and Grades, Item 28b, Calendar of January 15, 1918. This request was renewed by the present Secretary of the Department, Dr. Frank J. Monaghan, on January 31, 1918. The Committee reports as follows:
"Vacancy—Dentist at \$1,200 per annum, in Code 1824, by an appointment at \$1,020 per annum from a Civil Service list.
"Result of Investigation—There are nine Dentists and a Supervising Dentist allowed in the Bureau of Child Hygiene. These nine Dentists are assigned to work in the eight school dental clinics of this Bureau. Each clinic has one Dentist working 3½ hours a day, six days a week, and a Nurse on full time, except the clinic at 449 E. 121st Street, which has two Dentists and a Nurse assigned. Whenever a clinic is closed down for any reason, the Dentist is temporarily assigned to the clinic at 372 Fulton Street, Jamaica. The work of these clinics is confined to school children needing dental attention, particularly children between six and eight years of age. The amount of work in these clinics in the year 1917 was as follows, the number registered and the number of revisits probably being the best guide to the quantity of work in each clinic:

The committee reports as follows:
"Proposed Action—To segregate an allowance of \$25,000, 'to be used to operate the new storehouse and continue in service the steamboats until the storehouse is completed,' and to schedule the necessary positions and salaries to comply with payroll requirements.
"Result of Investigation—The steamboat service between 26th Street and 53d street and 70th Street and Blackwell's Island will have to be continued until July 1, at which date it is stated the new storehouse and elevator connection with the Queensboro Bridge will be ready for use. On January 31, the excavating, grading and steel work contracts were completed. The plumbing contract was 75 per cent. completed. The heating contract and the general construction work were 50 per cent. completed. Fully 25 per cent. of the uncompleted general construction work can be charged to the installation of the elevator service. Any further delay in the completion of the new storehouse beyond July 1 will be due to the failure of the elevator contractors to finish the work by that time. No work has been done on the unfinished contract since January 1. The last extension of time granted the contractors expired on December 31, 1917. It is expected, however, that, weather permitting, and a further extension granted, work will be resumed within a short time. The total appropriations up to December 31 amount to \$566,123. The expenditures and liabilities total \$578,139.16, or \$12,016.16 in excess of the appropriation. It is estimated that an additional appropriation of at least \$200,000 will be required for equipment and other expenditures before the storehouse is fully completed for operation. The actual payments already made to contractors for work completed amount to \$325,177.40. Work was begun on the main construction work July 1, 1917. The time allowed for the completion of the contracts varied from 90 to 120 days, but extensions were granted because of unavoidable delays.
"The request does not involve any increases in salaries or positions over the 1917 budget except increase in wages of Stokers from \$3 to \$3.50 per day, the prevailing rate, and salaries of deck hands from \$720 to \$792 per annum, the rate now paid deck hands employed 6 days a week. These increases amount to \$1,465 and are met by saving that sum in not filling vacancies in position of hospital helpers.

"The proposed schedule of temporary positions to take the place of the unsegregated \$25,000 appropriation is as follows:

Pilot at \$1,920 (6 months).....	\$960 00
Pilot at \$1,500 (6 months).....	750 00
Pilot, 5 at \$1,400 (6 months).....	3,500 00
Mate at \$900 (6 months).....	450 00
Engineer at \$1,500 (6 months).....	750 00
Engineer, 6 at \$1,350 (6 months).....	4,050 00
Deck hand, 16 at \$792 (6 months).....	6,336 00
Stokers, 10 at \$3.50 per day (181 days).....	6,335 00
Hospital Helpers	1,869 00

\$25,000 00

"The positions above enumerated are all filled and their continuance until the storehouse is completed is necessary. The budget for 1918 provides for positions necessary to operate the boats that will be kept in commission for transportation service to Randall's and Hunt's Island. The schedules for these employees are as follows:

1890. Steamboats, Salaries Regular Employees:

To the Board of Estimate and Apportionment:

Gentlemen—On January 25, 1918, the Deputy and Acting Commissioner of Water Supply, Gas and Electricity requested modification of salary schedule No. 2157W for the year 1918. This was referred to the Committee on Salaries and Grades, Item 82(f2), Calendar of February 1, 1918. The Committee reports as follows:

"Proposed Action—It is proposed to change the line Axeman, 3 at \$900 per annum, to read Laborer, 3 at \$3 per day (300 days).

"Result of Investigation—At the time of the preparation of the budget for 1918, these positions were intended for three Laborers who were employed on Water Diversion Litigation and who were on a promotion list which has since expired. It is therefore necessary for them to take a new examination in order to qualify for the new title. The request is to care for the same employees under their old title until they can take an examination for promotion."

Department of Water Supply, Gas and Electricity—Modification of Schedule (Cal. No. 32).

(On February 1, 1918 (Cal. No. 82-F-1), the request herein was referred to the Committee on Salaries and Grades.)

The Secretary presented a communication dated January 23, 1918, from the Deputy and Acting Commissioner of Water Supply, Gas and Electricity, requesting modification of schedule for 1917; and the following report of the Committee on Salaries and Grades recommending approval thereof:

February 4, 1918.

To the Board of Estimate and Apportionment:

Gentlemen—On January 23, 1918, the Commissioner of Water Supply, Gas and Electricity requested modification of Code No. 2159 for the year 1917. This was referred to the Committee on Salaries and Grades, Item No. 82F-1, Calendar of February 1, 1918. The Committee reports as follows:

"Proposed Action—To increase the salary of Cornelius Curtin, Foreman, from \$1,500 to \$1,800 per annum from September 1, 1917 to December 31, 1917; the \$300 necessary being provided by reducing the Balance Unassigned.

Result of Investigation—Mr. Curtin, who is a Civil War Veteran, was employed for a number of years as Foreman in the Department of Water Supply, Gas and Electricity at the rate of \$5 per day on a 365 day basis. In the Budget for 1915 he was put on a per annum basis at \$1,500, which meant a reduction of approximately \$300 in his yearly compensation. He brought action against the City to recover the loss in his yearly salary and after investigation by the Comptroller's office, the claim was settled for the sum of \$800, which covered a period from January 1, 1915 to August 31, 1917. The present request is to pay Mr. Curtin the \$1,800 rate from September 1, to December 31, 1917.

Recommendation—The Committee recommends the adoption of the attached resolution granting the request.

Respectfully, ALFRED E. SMITH, President, Board of Aldermen; FRANK L. DOWLING, President, Borough of Manhattan; EDWARD RIEGELMANN, President, Borough of Brooklyn, Committee on Salaries and Grades.

"Result of Investigation—At the time of the preparation of the budget, Andrew Hudson was assigned to the Ferry Bureau at Whitehall Terminal as a

In other city departments, the rate of compensation for similar work provided in the budget for 1918 is from \$3,420 to \$4,560 per annum.

CHARLES L. CRAIG, Comptroller.

January 31, 1918.

Hon. CHARLES L. CRAIG, Comptroller, The City of New York:

Dear Sir—Relative to the suggested modification of the standard specification for turpentine, proposed by the Director of the Bureau of Contract Supervision, I have to submit the following statement:

It appears that the immediate occasion for the request was the fact that on December 27, 1917, bids were opened by the Central Purchase Committee for delivery of paints, oils and turpentine for use in several of the city departments. No bids whatever were received covering deliveries of turpentine, several of the dealers having stated that they could not undertake to guarantee to furnish turpentine in accordance with the existing standard specifications. It is most desirable that a new contract proposal for turpentine be advertised at an early date to meet urgent needs of certain of the city departments.

There is offered as a substitute for the existing specification one which the Director of the Bureau of Contract Supervision states has been made to conform with the good commercial turpentine now on the market, and, furthermore, that it is in accordance with the requirements of the United States Navy specification.

I have received from the Purchasing Department of the United States Navy, Brooklyn Navy Yard, a copy of the specification in use there and transmit the same with this communication. On examination I find that the modified specification, as proposed, conforms with the specification of the Navy Department except in minor particulars. Specific Gravity, minimum required is 0.862, rather than 0.861, as shown in the substitute offered for approval. Refractive Index, Navy Department, minimum requirement is 1.468, while in that proposed it is 1.467. The Polymerization in the Navy Department specification shall not exceed 2 per cent. in its refractive index; in the substitute offered the maximum is given as 2.4 per cent. I recommend therefore that the proposed modification be changed to conform exactly with the standard of the Navy Department and have in accordance with this recommendation caused the formal consent to be signed by the Comptroller to be changed in the particulars herein specified.

Inquiries have been made of a number of large paint concerns regarding turpentine and it has been learned that pure gum turpentine, if bought by the barrel, can be purchased for fifty cents a gallon, which is six cents lower in price than it was in January, 1917. None of the concerns visited employ chemists and they would not guarantee that the turpentine which they sell for pure gum turpentine would come up to the City's specification. Neither would any of them agree to submit bids for the sale of turpentine to the City. The statement is made generally that there is only a small profit in turpentine and that most dealers handle it for accommodation purposes only.

Mr. Robinson, of the Resin and Turpentine Export Co., states that the quality of the ordinary commercial grade of turpentine is just as good as it has ever been; that his company has on hand at the present time 150,000 barrels of pure gum turpentine which can be bought for fifty cents per gallon.

Mr. Robinson further states that his company does not make a practice of guaranteeing that pure gum turpentine sold by it will meet certain standard tests, because, he says, not one out of a thousand chemists can make a correct analysis of turpentine; that his company has sold thousands of barrels of turpentine to the United States naval authorities and that where tests have been made the turpentine has always been found satisfactory.

At the office of Devoe, Reynolds Co., it was stated that good commercial grade of turpentine could be had for fifty cents a gallon; that they make over one million pounds of paint a year and have never found it necessary to have an analysis made of turpentine. Moreover, they state that they neither buy nor sell turpentine based on specification.

Mr. Purcell is of the opinion that bids will be offered if the specifications for turpentine used by the Navy Department are adopted by the City.

Appended please find for your signature formal consent to modification as amended. Yours truly,

R. B. MCINTYRE, Supervising Statistician and Examiner.

THE CITY OF NEW YORK.

The Secretary presented a communication dated January 15, 1918, from the Acting President, Borough of Queens, requesting transfer from Fund for Salary and Wage Accruals for 1917; and the following report of the Comptroller recommending approval thereof:

February 4, 1918.

To the Board of Estimate and Apportionment:

Gentlemen—The President of the Borough of Queens, in a communication to your Board dated January 15, 1918, No. 100, Calendar of January 25, 1918, referred to the Comptroller, requested transfer of \$64.92 from 1917, Code No. 3039, City Fund for Salary and Wage Accruals, to 1917, Code No. 666, Wages, Regular Employees, Care of Sewers and Sewerage, Disposal of Sewage.

This transfer is necessary to provide funds to meet the payroll of employees of sewer disposal plants for the two days ended December 31, 1917. Transfers were made during 1917 from Code 666 to Code 3039 in excess of the amounts which should have been transferred and it is now necessary to return part of the amount so trans-

ferred to provide sufficient funds to meet the payroll referred to. The adoption of the attached resolution effecting the transfer is therefore recommended.

Respectfully, CHARLES L. CRAIG, Comptroller.

The following resolution was offered:

College of the City of New York—Transfer of Appropriation (Cal. No. 39).
(On January 11, 1918 (Cal. No. 96), the request herein was referred to the Comptroller.)

The Secretary presented a communication, dated January 2, 1918, from the Chairman of the Finance Committee, Board of Trustees, College of the City of New York, requesting transfer of funds within appropriation for 1917; and the following report of the Comptroller recommending approval thereof:

February 4, 1918.

To the Board of Estimate and Apportionment, The City of New York:
Gentlemen—In a communication to your Board dated January 2, 1918, No. 96, Calendar of January 11, 1918, referred to the Comptroller, the Chairman of the Finance Committee of the College of The City of New York requested a transfer of funds within the appropriations to that institution for 1917, as follows:

FROM	
1042 General Repairs	\$3,730 00
1025 Teaching Corps	2,900 00
	\$6,630 00

TO

1031 Fuel Supplies	\$6,600 00
1040 General Plant Equipment	30 00
	\$6,630 00

Mr. Robert V. Davis, Curator and Auditor of the College, states that the transfers requested are necessary to provide sufficient funds to meet outstanding bills for coal and for fire hose.

Mr. Davis further states that, on account of the high price of coal and because of its poor quality, which made it necessary to purchase a larger quantity than usual, the fuel account became exhausted in November, 1917, and that the general plant equipment account also became exhausted on account of the extreme cold weather, which made it necessary to purchase new fire hose, for which no allowance was made in the budget appropriations.

The adoption of the attached resolution, providing for the transfer, is, therefore recommended. Respectfully, CHARLES L. CRAIG, Comptroller.

The following resolution was offered:

Fund for Salary and Wage Accruals; College of the City of New York—Transfer of Appropriation (Cal. No. 40).

The Secretary presented the following report of the Comptroller:

February 2, 1918.

To the Board of Estimate and Apportionment, The City of New York:
Gentlemen—In a communication to the Comptroller, dated Jan. 29, 1918, the Curator of the College of the City of New York requested a transfer of \$24.84 from Code 3039, "City Fund for Salary and Wage Accruals," to Code 1028, "Care of Plant and Equipment."

The Curator states that on December 28, 1917, the Board of Estimate and Apportionment adopted a resolution transferring the sum of \$129.24 from Code 1028, "Care of Plant and Equipment," to Code 1028, "City Fund for Salary and Wage Accruals"; that on account of this transfer there is a deficit in Code 1028 of \$24.84, and that the transfer requested is necessary to offset the deficit in that account.

The adoption of the attached resolution providing for the transfer is therefore recommended. This resolution requires the unanimous vote of the Board.

Respectfully, CHARLES L. CRAIG, Comptroller.

Department of Parks, Borough of Brooklyn—Transfer of Appropriation (Cal. No. 41).

(On January 18, 1918 (Cal. No. 54), the request herein was referred to the Comptroller.)

The Secretary presented a communication dated January 11, 1918, from the Commissioner of Parks, Borough of Brooklyn, requesting transfer of funds within appropriations for 1917; and the following report of the Comptroller recommending approval thereof:

January 28, 1918.

To the Board of Estimate and Apportionment, The City of New York:
Gentlemen—The Commissioner of Parks, Borough of Brooklyn, in a communication dated January 11, 1918, requested transfer of \$2,027.89 within the appropriations to his department for the year 1917.

The request proposes the following transfers:

FROM	
1281 Wages, Temporary Employees, Operation and Current Maintenance of Park Properties, Including Minor Additions and Alterations..	\$700 00
1295 Fuel Supplies	471 89
1313 Hire of Horses and Vehicles with Drivers.....	836 00
1318 Music	20 00

TO

1303 Office Equipment	\$85 00
1304 Motor Vehicles and Equipment	200 12
1308 Other Materials	847 16
1309 Repairs and Replacements, Pavements and Walks.....	726 30
1311 Repairs and Replacements, General	19 31
1315 Shoeing and Boarding Horses, Including Veterinary Service.....	70 00
1316 Carfare	60 00
1317 Telephone Service	20 00

A detailed examination of the various accounts involved has been made. It is found that there are several outstanding liabilities at the present time for which funds will have to be provided.

Following is a statement showing the amount required to meet the deficit in each account and the expenditures for which provision is necessary:

Code No. 1303, Office Equipment, \$85 for the payment of two bills for atlases furnished in 1917.

Code No. 1304, Motor Vehicles and Equipment, \$213.98, to supplement a balance of \$5.45 for the payment of bills amounting to \$219.43 for auto tires and other auto equipment furnished in 1917.

Code No. 1308, Other Materials, \$847.16, to provide for the payment of outstanding bills for lumber delivered in the latter part of 1917 for use in erecting temporary skate house.

Code No. 1309, Repairs and Replacements, Pavements and Walks, \$726.30, to pay bill for repair work done and completed on Parkside Avenue in 1917.

Code No. 1311, Repairs and Replacements, General Repairs, \$19.31 is requested for the payment of a bill for auto equipment furnished by the Ford Service Station in 1917. This bill is a proper charge to equipment and is, therefore, included in the total amount of outstanding bills reported under Code No. 1304, Motor Vehicles and Equipment.

Code No. 1315, Shoeing and Boarding Horses, Including Veterinary Service, \$70 to meet unpaid 1917 bills for veterinary services rendered and for horseshoeing supplies furnished.

Code No. 1316, Carfare, \$52.49, to supplement a balance of \$146.30 for the payment of employees' bills amounting to \$198.79 for carfare expenses during the month of December, 1917.

Code No. 1317, Telephone Service, \$20, is requested to supplement a balance of \$112.32 to meet outstanding bills for telephone service rendered during the latter part of 1917. As the amount requested is not sufficient, \$77.41 will be required in addition to the balance now in the account.

The excess balances in the accounts from which the transfers are requested are sufficient to permit of the transfers.

In view of the foregoing, the adoption of the attached resolution providing for the necessary transfer is recommended. Respectfully,

CHARLES L. CRAIG, Comptroller.

Department of Parks, Borough of Queens—Transfer of Appropriation (Cal. No. 42).

(On January 25, 1918 (Cal. No. 103), the request herein was referred to the Comptroller.)

The Secretary presented a communication dated January 17, 1918, from the Commissioner of Parks, Borough of Queens, requesting transfer of funds within appropriation for 1917; and the following report of the Comptroller recommending approval thereof:

January 31, 1918.

To the Board of Estimate and Apportionment, The City of New York:
Gentlemen—The Commissioner of Parks, Borough of Queens, in a communication dated January 17, 1918, requested transfer of \$245 within the appropriations to his department for the year 1917.

The request proposes the following transfer:

FROM	
1377 Wages, Regular Employees	\$245 00
TO	
1381 Wages, Temporary Employees	\$245 00
Examination shows that \$221.34 should be transferred to Account No. 1381, Wages, Temporary Employees, to supplement a balance of \$1.30 for the payment of the following unpaid payrolls:	
1. Military Payroll for the last ten days of December, 1917.....	\$68 25
2. Supplementary Military Payroll	144 39
From July 15 to December 31 the pay of three men was figured on the assumption that their compensation from the U. S. Army was \$38.75 each per month; it has since been learned that they received \$30 each per month. A supplementary payroll amounting to \$144.39 is therefore necessary.	
3. Payroll	10 00
For painter's services rendered during the last week of December, 1917.	
Total Unpaid Payrolls	\$222 64

The excess balance in the account from which the transfer is requested is sufficient to permit of the transfer.

In view of the foregoing, the adoption of the attached resolution providing for the necessary transfer is recommended. Respectfully,
CHARLES L. CRAIG, Comptroller.

Police Department—Transfer of Appropriation (Cal. No. 43).
(On January 25, 1918 (Cal. No. 107), the request herein was referred to the Comptroller.)

The Secretary presented a communication dated January 18, 1918, from the Police Commissioner, requesting transfer of funds within appropriation for 1917; and the following report of the Comptroller recommending approval thereof:
February 4, 1918.

To the Board of Estimate and Apportionment:

Gentlemen—A communication to your Board from the Police Commissioner, under date of January 18, 1918 (No. 107, Calendar of January 25, 1918, referred to the Comptroller), requested the transfer of \$3,400 within the appropriations made to that Department for 1917, as follows:

1630 Carfare	\$500 00
1633 General Plant Service	2,900 00

Total.....\$3,400 00
The 1917 appropriation for carfares was \$5,000, the departmental request \$6,000. There are now on hand unpaid carfare charges for employees of the Department amounting to \$420, and the available balance in Account 1630 is but \$3.28. The 1917 budget contained an appropriation of \$8,000 under Code 1633, General Plant Service. This appropriation was intended to provide for charges sometimes grouped under the three following budgetary classifications: "General Repairs," "Motor Vehicle Repairs" and "General Plant Service." The appropriation provided in the 1917 budget was insufficient and there are now bills and charges unpaid properly chargeable against this fund as follows:

<i>General Plant Service—</i>	
Electric Current for December.....	300 00
Water Rent for December.....	50 00
Rental of Attachments.....	50 00
<i>Motor Vehicle Repairs—Chiefly for increases over the estimated amounts set up when open market orders were issued.....</i>	
	500 00
<i>General Repairs—</i>	
Repairs of various kinds, such as plumbers, typewriters, furniture, etc., amounting to about.....	842 00
Part of this charge is due to bills received amounting to more than the estimated amount on the orders. About 20 orders were issued in December, the estimated cost of which is \$758.	
Estimated cost of emergency repairs of various kinds, the charges for which have not reached the Auditor of the Department.....	
	1,158 00

Total estimated requirements of Code 1633.....	\$2,900 00
There are sufficient available balances in the accounts from which it is proposed to transfer the desired amount. These accounts are:	
1613 Medical and Surgical Supplies.....	\$200 00
1614 Laundry, Cleaning and Disinfecting Supplies.....	1,000 00
1615 Motor Vehicle Supplies.....	1,000 00
1618 Household Equipment	200 00
1622 General Plant Equipment.....	1,000 00

Total to be transferred.....\$3,400 00

In view of the fact that no more incumbrances against the accounts to which it is proposed to make the transfers referred to are being created and inasmuch as the Police Department consents to transfers from its own appropriations, it seems apparent that the most feasible method of liquidating the obligations incurred is by permitting the transfers requested. This would be accomplished by adopting the attached resolution. Respectfully,
CHARLES L. CRAIG, Comptroller.

Department of Health—Transfer of Appropriation (Cal. No. 44).
(On January 25, 1918 (Cal. No. 110), the request herein was referred to the Comptroller.)

The Secretary presented a communication dated January 17, 1918, from the Commissioner of Health, requesting transfer of funds within appropriation for 1917; and the following report of the Comptroller recommending approval thereof:
February 4, 1918.

To the Board of Estimate and Apportionment:

Gentlemen—On January 25, 1918, your Board referred to the Comptroller, No. 110, Calendar of January 25, 1918, a request from the Department of Health, dated January 17, 1918, for a transfer of \$9,000 within appropriations to that department for the year 1917. The Bureau of Municipal Investigation and Statistics of the Department of Finance reports thereon as follows:

"The accounts to be augmented, the amounts to be credited to each and the reasons for these credits are as follows:
"Code No. 1854, Fuel Supplies, \$5,300; unencumbered balance, \$188.74. This transfer with the present balance is required to cover numerous liabilities for which either no reserves or inadequate reserves have been set up. A large part of these liabilities was incurred during the month of December, 1917, when the severe cold weather necessitated consumption of larger quantities of coal than were usually required.

"Code No. 1868, Wearing Apparel, \$300; unencumbered balance, \$49.41, which, with the proposed transfer, is required to provide for deficiency in reserves set up for open market orders issued for worsted caps, wristlets and toques for River-

side Hospital and sundry knit goods for Otisville Sanatorium. The reserves set up amounted to \$45, whereas the invoices rendered amounted to \$303.88, which leaves a deficit of \$258.38 in the reserve. The balance of \$41.62 is requested to cover any other possible deficiency in the reserves.

"Code No. 1873, Carfare and Traveling Expenses, \$1,300; unencumbered balance, \$618.15. This transfer is requested for the purpose of paying the expenses of milk inspectors, for which no order was written and no reserve created. The bills on hand amount to \$1,376.37, and it is estimated that bills not yet rendered will amount approximately to \$350. The expenditures in 1917 for traveling expenses have considerably increased owing to an increase of 50 cents a day in livery charges, and the war tax of 8 per cent. on railroad fares. The balance of \$191.78 is requested to meet any possible deficiency in the open market order reserves set up as liabilities against this appropriation.

"Code No. 1878, Telephone Service, \$1,500. The balance in this account is \$1,276.80. The average expenditures for telephone calls during the first ten months were \$1,991.60 per month, and on this basis the needs of the department for the months of November and December would amount to \$3,983.20. Against this amount reserves amounting to \$1,984.76 exist in the account. The balance of \$778.36 is requested for the reason that during the last two months of the year the number of calls usually is about 20 per cent. higher than the average, chiefly due to the large increase in the activities of the department on account of climatic conditions. The appropriation in this account would have been sufficient for the year had not the Board of Estimate and Apportionment on August 14th last transferred \$1,000 from this account to Account No. 1852, Food Supplies, owing to a shortage then existing in that account.

"Code No. 1879, Telegraph, Cable and Messenger Service, \$100. Out of an appropriation of \$740, the sum of \$669.22 has been vouchered to date, covering expenditures for the first ten months of the year, leaving a balance of \$70.78 to meet the expenditures for November and December. The average expenditures during the first ten months of the year were \$66.92. This transfer is necessary to meet the November and December bills, which, as in the case of telephone charges, during these two months are usually higher than the average monthly expenditures.

"Code No. 1880, General Plant Service and General Repairs, \$500. The balance in this account is \$95.70. Reserves set up to meet the charges for sundry general repairs, made on open market order, for which no invoices have yet been rendered, amount to \$5,527.13. As the amounts reserved are only estimates, this transfer is requested for the purpose of providing for possible increases in charges over reserves.

"There are sufficient excess balances in the several accounts to be charged to permit of the transfer."

The adoption of the attached resolution granting the request is therefore recommended. Respectfully,
CHARLES L. CRAIG, Comptroller.

The following resolution was offered:

Bellevue and Allied Hospitals—Transfer of Appropriation (Cal. No. 45).
(On January 25, 1918 (Cal. No. 115), the request herein was referred to the Comptroller.)

The Secretary presented a communication dated January 16, 1918, from the Board of Trustees, Bellevue and Allied Hospitals, requesting transfer of funds within appropriation for 1917; and the following report of the Comptroller recommending approval thereof:
February 4, 1918.

To the Board of Estimate and Apportionment:
Gentlemen—A communication to your Board from the Department of the Bellevue and Allied Hospitals, dated January 16, 1918, No. 115, Calendar of January 25, 1918, referred to the Comptroller, requested a transfer of \$5,610 within appropriations to that department for the year 1917. This request has since been verbally amended.

The accounts to be augmented, the amounts to be credited to each and the reasons for these credits are as follows:

Code No. 2072, Fuel Supplies, Request for \$3,200, amended to \$3,400. On account of the extreme cold during the month of December, 1917, the department required more coal than under ordinary conditions, and the orders issued therefor amounted to \$3,366.02 more than the available balance in the account. In order to provide sufficient funds it is necessary to transfer \$3,400 to this account, instead of the \$3,200 originally requested by the department.

Code No. 2078, Motor Vehicle Supplies, \$350—This transfer is requested to provide sufficient funds to meet outstanding orders for gasoline and other supplies for sundry supplies. These orders exceed by \$473.26 the amount available in the account leaves a deficit of \$315.59. The increase in the expenditures in 1917 over the allowance to the department is chiefly due to the abolishment of ambulance service by the Polyclinic and Flower Hospitals and the increase in the cost of gasoline.

Code No. 2079, General Plant Supplies, Request for \$450, amended to \$500—This transfer is requested to provide sufficient funds to meet outstanding orders for sundry supplies. These orders exceed by \$473.26 the amount available in the account. This large increase is principally due to the increased cost of Christmas decorations, the appropriation for which was \$1,000 and the approximate cost \$1,500. The balance of \$26.74 is requested to meet any further deficiency in the open market order reserves set up as liabilities against this appropriation.

Code No. 2081, Household Equipment, \$300—In November, 1917, a truck load of crockery was broken by a cave-in in the storage room, and in order to replace this loss an additional supply had to be purchased. This encumbered the account \$287.64 in excess of the available balance. The transfer is requested to provide for this deficiency and to meet any further deficiency in the reserves set up as liabilities against this appropriation.

Code No. 2084, Wearing Apparel, \$400—This transfer is requested for the purpose of replenishing this account to meet outstanding open market liabilities to the extent of \$7,584.24, which is \$388.61 in excess of the amount available in the account. The account was overencumbered by a number of invoices for prison goods, which were in excess of the reserves set up for them. In addition thereto, during the latter part of the year an unusually large number of insane patients were transferred from the Bellevue and Allied Hospitals to insane asylums. All such patients are equipped with a complete outfit of wearing apparel when they are transferred, and the large increase in their number necessitated increased expenditures for suits, dresses and other outer apparel.

Code No. 2091, Carfare, \$50—The balance in this account is \$12.78. The department has bills for the month of December, 1917, for \$43.10 not yet vouchered. This transfer is necessary to meet these bills and to provide a small sum for any further obligations for which no bills were rendered.

Code No. 2094, Telegraph, Cable and Messenger Service, \$150—The balance in this account is \$10.58 and open market orders outstanding for which no invoices have been rendered to date amount to \$105.09, leaving a deficiency of \$94.51. This transfer is required to meet this deficiency and to provide a small sum (\$5.49) for any further charges in excess of the estimated amount of the orders.

Code No. 2095, General Plant Service, \$360—Water bills for the Neponsit Beach Hospital at Far Rockaway for the months of September, October, November and December, 1917, amounting to \$170, are still unpaid. This transfer is necessary to meet these bills and the estimated deficiency of \$88.54 in the reserve set up to meet outstanding open market orders. The balance of \$101.46 is provided to meet any further increase in the deficiency in the reserve.

Code No. 2096, Contingencies, \$350—There is a balance in this account of \$108.55, and the department holds invoices amounting to \$372.86 from the Minterm Hospital for hospital care of a number of nurses at that hospital during the six months ending December 31, 1917. This transfer is to meet these bills and to provide a small sum to pay any invoices which have not yet been rendered.

There is a sufficient excess balance in Account No. 2070, Food Supplies, to permit the transfer proposed therefrom.

The adoption of the attached resolution granting the request is hereby recommended. Respectfully, CHARLES L. CRAIG, Comptroller.

The following resolution was offered:

Department of Public Charities—Transfer of Appropriation (Cal. No. 46).

(On January 25, 1918 (Cal. No. 113), the request herein was referred to the Comptroller.)

The Secretary presented a communication dated January 17, 1918, from the Commissioner of Public Charities, requesting transfer of funds within appropriation for 1917; and the following report of the Comptroller recommending approval thereof: February 2, 1918.

To the Board of Estimate and Apportionment, The City of New York:

Gentlemen—In a communication to your Board dated January 17, 1918, No. 113, Calendar of January 25, 1918, referred to the Comptroller, the Department of Public Charities requested transfers within its appropriations for 1917, to provide for certain of its payrolls for the last half of December, 1917.

Adjustments of the salary and wage schedules of departments maintaining institutions, which employ large numbers of unskilled employees, are unavoidable, primarily because of the large number of changes in personnel which occur each month. The final payrolls are prepared about the 20th of December and changes which take place after that date must be provided for in supplementary payrolls. A number of such rolls are now held up, pending the transfers requested.

All the deficits now to be met are due to monthly transfers, made to the "Accrual Account No. 3039," code during the year 1917. The transfers requested are necessary, even though some of them violate the regulations for transfers within the accounts of 1917.

The accounts from which it is proposed to transfer funds have sufficient balances to allow these withdrawals. Accordingly, the adoption of the attached resolution, authorizing the following transfers, is recommended:

FROM		
1892 Metropolitan Hospital		\$1,300 00
1901 Sea View Hospital		775 00
		\$2,075 00
TO		
1886 Bureau of Social Investigations		\$40 00

1933 Sea View Hospital		60 00

Court of Special Sessions—Transfer of Appropriation (Cal. No. 47).

(On January 25, 1918 (Cal. No. 122), the request herein was referred to the Comptroller.)

The Secretary presented a communication dated January 21, 1918, from the Chief Justice, Court of Special Sessions, requesting transfer of funds within appropriation for 1917; and the following report of the Comptroller recommending approval thereof:

January 31, 1918.

To the Board of Estimate and Apportionment, The City of New York:

Gentlemen—On January 21, 1918, in a letter addressed to your Board, No. 122, Calendar of January 25, 1918, referred to the Comptroller, Chief Justice Kernochan of the Court of Special Sessions requested the transfer of funds within the 1917 appropriation to that court, to liquidate certain unforeseen liabilities which accrued during that year.

These liabilities, amounting to one hundred and nine dollars (\$109), were for the services of interpreters of the Slavonic and Finnish languages, rendered during the months of November and December, 1917, after the budget account, 2886, 1917, Wages, Temporary Employees, against which these services are chargeable, had become exhausted. There is at present an unexpended balance of \$2 in this account and it will, therefore, be necessary to transfer one hundred and seven dollars (\$107) to replenish it.

In addition to the foregoing liabilities, there are several items of contingent expenses, such as lock repairs and increased water bottle rentals, amounting to \$4.50, chargeable to Code 3891, 1917, Contingencies. There is an unexpended balance of \$1.36 in this account, so that it is necessary to transfer to this account \$3.14.

Funds are available for transfer in Code 2887, 1917, Office Supplies. As the liabilities aforementioned are just and reasonable, the adoption of the attached resolution, providing for the necessary transfers, is recommended. Respectfully,

CHARLES L. CRAIG, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 237 of the Greater New York Charter, hereby approves the transfer of funds within the appropriations to the Court of Special Sessions for 1917, as follows:

FROM

TO		
<i>Personal Service.</i>		
2886 Wages, Temporary Employees		\$107 00
<i>Other Than Personal Service.</i>		
2891 Contingencies		3 14

Which was adopted by the following vote:

Bronx County Fund for Salary and Wage Accruals; New York County Supreme Court, First Department; Bronx County Supreme Court, First Department—Transfers of Appropriation (Cal. No. 48).

(On February 1, 1918 (Cal. No. 76), the request herein was referred to the Comptroller.)

The Secretary presented a communication dated January 25, 1918, from the Librarian, Supreme Court, First Department, Appellate Division, requesting transfer of funds within appropriation for 1917; and the following report of the Comptroller relative thereto:

January 29, 1918.

To the Board of Estimate and Apportionment, The City of New York:

Gentlemen—Under date of January 25, 1918, Presiding Justice Clarke of the Appellate Division, Supreme Court, First Department, requested transfers within the appropriations of 1917, made for the maintenance of the Appellate Division Court House and the Supreme Court, as follows:

FROM		
3192 Equipment		\$462 02
3319 Salaries, Regular Employees (Accruals)		150 39
3327 Equipment		309 60
TO		
3191 Supplies		\$462 02
3326 Supplies		247 07
3329 Light, Heat and Power		162 49
3330 Communication		50 43

The proposed transfers affect both the New York County and the Bronx County appropriations.

In account No. 3191, Supplies, there is no unexpended balance. In account 3326, Supplies, there is a balance of 34 cents. The amounts requested for these accounts are \$462.02 and \$247.07, respectively, aggregating \$709.09. The bills against account 3191 amount to \$462.02. Against account 3326 are bills of \$247.41. Deducting from this sum the balance of 34 cents, just mentioned, leaves a deficit of \$247.07 to provide for. To cover this deficit it is proposed to transfer \$462.02 from account 3191, Supplies, and \$247.07 from account 3327, Equipment.

In account 3329, Light, Heat and Power, there is a balance of \$64.01, against which there are unpaid bills amounting to \$226.50, leaving a deficit of \$162.49. To meet this it is requested that \$12.10 be transferred from account 3327, Equipment, and \$150.39 from account 3319, Salaries, Regular Employees. As regards the \$150.39 Resolution "Second—(f)" provides that the accruals of Wages Regular Employees in Bronx County shall be transferred to "Account 3354—Miscellaneous, County of Bronx, Bronx County Fund for Salary and Wage Accruals from Schedule-Supported Appropriations to Be Expended as Provided in the Budget Resolutions Herewith," and transfers from this account can be made only by the unanimous vote of the Board for Bronx County purposes.

It is therefore necessary to transfer the \$150.39 accruals in Account 3319 to Account 3354 and thence to the account it is proposed to augment.

In Account 3330, Communication, there is no balance, and there are unpaid bills chargeable to it to the amount of \$50.43. It is proposed to provide for this deficit by a transfer of \$50.43 from Account 3327, Equipment.

Respectfully,

CHARLES L. CRAIG, Comptroller.

Queens County Fund for Salary and Wage Accruals; Contingencies, County of Queens—Transfer of Appropriation (Cal. No. 49).

The Secretary presented the following report of the Comptroller:
January 29, 1918.

To the Board of Estimate and Apportionment, The City of New York:
Gentlemen—There has been filed in the Department of Finance by the District Attorney of Queens County a voucher for \$133.98 in favor of Herman J. D. Grabau for expenses incurred as Acting Detective Sergeant in the extradition of a fugitive from justice.

In view of the fact that there were no specific funds provided in the 1917 Budget to meet expenditures of this nature, and as there is not a sufficient balance in the contingency appropriation of Queens County to permit of the payment of the voucher therefrom, it is necessary to provide the required funds by transfer.

It is, therefore, respectfully recommended that the attached resolution transferring \$133.98 from Code 3639, "Queens County Fund for Salary and Wage Accruals," to Code 3642, "Contingencies, Queens County," be adopted. This resolution requires the unanimous vote of the Board. Respectfully submitted,

CHARLES L. CRAIG, Comptroller.

The following resolution was offered:

The Secretary presented a communication, dated January 16, 1918, from the Sheriff of Bronx County, requesting a transfer within the appropriation for the year 1917; and the following report of the Comptroller recommending approval thereof:
January 30, 1918.

To the Board of Estimate and Apportionment:
Gentlemen—In a communication to your Board dated January 16, 1918, No. 94, Calendar of January 25, 1918, referred to the Comptroller, the Sheriff, Bronx County, requested transfer of funds within the appropriations for the year 1917, as follows:

	\$240 00
TO	
3296 Food Supplies	
	\$174 00
3305 Repairs and Replacements	
	66 00

The request for transfer is for the purpose of providing for a deficit in Account 3296 of \$174, there being an available balance in this account of \$24.03 and liabilities of \$194.90, making a deficit of \$170.87, and for a deficit in Account No. 3305 of \$60.04, there being an available balance in this account of \$13.17 and liability \$73.21, making a deficit of \$60.04. There remains a balance of \$244.80 in Account No. 3302, from which these transfers can be made.

I therefore recommend the adoption of the attached resolution.
Respectfully,
CHARLES L. CRAIG, Comptroller.

Sheriff, Bronx County—Appointment and Resignation of John J. Lyons, Assistant Deputy Sheriff (Cal. No. 52).

The Secretary presented a report, dated January 29, 1918, from the Comptroller, returning for filing communication dated January 8, 1918, from the Sheriff, Bronx County, notifying the Board of the appointment of John J. Lyons as Assistant Deputy Sheriff at \$1,500 per annum, and of his immediate resignation, as no action is required thereon.

(On January 18, 1918 (Cal. No. 65), this communication was referred to the Comptroller.)

The report was ordered filed.

Surrogate, Bronx County—Issue of Special Revenue Bonds (Cal. No. 53).

(On January 18, 1918 (Cal. No. 66), the request herein was referred to the Comptroller.)

The Secretary presented a communication from the Surrogate of Bronx County requesting an authorization of special revenue bonds to the amount of \$2,400 for the payment of the salaries of four recording clerks at \$100 each per month for a period of six months; and the following report of the Comptroller:

January 25, 1918.

To the Board of Estimate and Apportionment:

Gentlemen—In a communication dated January 8, 1918, No. 66, calendar, January 18, 1918, referred to the Comptroller, the Surrogate of Bronx County requested an appropriation of special revenue bonds to the amount of two thousand four hundred dollars (\$2,400) for the payment of the salaries of four Recording Clerks at \$100 each per month, for six months.

As the provision of funds for this purpose is not mandatory, special revenue bonds, if authorized should be provided, pursuant to subdivision 8 of section 188 of the Greater New York Charter. This subdivision requires that requests of this nature must first be presented to the Board of Aldermen. The Secretary of the Board of Estimate and Apportionment should therefore be instructed to return the request to the Surrogate of Bronx County and to advise him to make application to the Board of Aldermen for the appropriation desired. Respectfully,

CHARLES L. CRAIG, Comptroller.

The Secretary was directed to notify the Surrogate, Bronx County, to make application to the Board of Aldermen for the necessary appropriation.

Queens County Fund for Salary and Wage Accruals; District Attorney, Queens County—Transfer of Appropriation (Cal. No. 54).

The Secretary presented a communication, dated January 24, 1918, from the District Attorney, Queens County, requesting a transfer from the Queens County Fund for Salary and Wage Accruals for the year 1917, to accounts within the appropriation for his office for the same year; and the following report of the Comptroller recommending approval thereof:
February 2, 1918.

To the Board of Estimate and Apportionment, The City of New York:

Gentlemen—In a communication addressed to the Comptroller, under date of January 24, 1918, the District Attorney of Queens County requested an appropriation of \$1,598.05 to replenish the following accounts for 1917 in the sums set opposite to each:

3537 Fees and Commissions, Expert	\$133 00
3540 Transportation	1,268 78
3541 Telephone	87 49
3542 Contingencies, General	108 78

The District Attorney states that on account of several homicide cases in the year 1917, especially the case of the People vs. Comiskey, the budget appropriations to his office for 1917 have been found insufficient, and that he has outstanding bills amounting in the aggregate to \$1,598.05 which he is unable to meet because of insufficient funds.

According to section 240 of the County Law the expenses necessarily incurred by the District Attorney in performing the duties of his office are mandatory County charges and they must be paid either by an issue of Special Revenue Bonds or by the transfer of funds. There is a sufficient balance in the Queens County Fund for Salary and Wage Accruals to permit the transfer therefrom of the \$1,598.05 necessary to meet the outstanding bills referred to.

The adoption of the attached resolution providing for the transfer of funds requested is therefore recommended. This resolution requires the unanimous vote of the Board. Respectfully submitted,
CHARLES L. CRAIG, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 237 of the Greater New York Charter, hereby approves transfer of funds within the appropriations to Queens County for 1917, as follows:

FROM	
MISCELLANEOUS. 3639 Queens County Fund for Salary and Wage Accruals	
	\$1,598 05
TO	
DISTRICT ATTORNEY, QUEENS COUNTY.	
3537 Fees and Commissions, Expert	\$133 00
3540 Transportation	1,268 78
3541 Telephone	87 49
3542 Contingencies, General	108 78
	\$1,598 05

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

Public Service Commission for the First District—Issue of Corporate Stock (Cal. No. 55).

The Secretary presented a report of the Comptroller recommending an issue of \$5,000 corporate stock as a subauthorization to provide for the cost of maintenance of completed portions of subways built under contract No. 4 pending the beginning of operation thereof, and stating that Rapid Transit Contract No. 4 provides for including in the cost of construction all necessary costs on account of maintenance charges pending operation. After operation begins all such charges are to be paid out of the operating income; and the above appropriation is recommended in view of existing conditions and the apparent necessity of providing funds to cover the cost of maintenance at this time.

(On January 18, 1918 (Cal. No. 25), the requisition of the Public Service Commission for the First District for this appropriation was referred to the Comptroller.)

The matter was laid over one week (February 15, 1918), under Rule 19.

Public Service Commission for the First District—Approval of Agreement Modifying Contract for Construction of Route No. 61 of the Broadway-Fourth Avenue Rapid Transit Railroad and Issue of Corporate Stock Therefor (Cal. No. 56).

The Secretary presented a report of the Comptroller recommending an issue of \$600 corporate stock as a subauthorization against the appropriation of corporate stock for the construction of rapid transit railroads under contract No. 4 to provide for the work of constructing the niches for signal apparatus on Route No. 61 of the Broadway-Fourth Avenue Rapid Transit Railroad, and stating that this work consists in providing niches in tunnel lining into which the signal boxes will be set and bolted, thereby increasing the available width of the bench as a pathway in case of emergency; and that the price agreed upon is reasonable in view of the existing market conditions as to labor and material.

(On January 18, 1918 (Cal. No. 23), the requisition of the Public Service Commission for approval of an agreement with Patrick McGovern & Company, modifying the contract for the construction of the above route so as to provide for the above work; and also requesting an issue of corporate stock to meet the City's obligation thereunder, was referred to the Comptroller.)

The matter was laid over one week (February 15, 1918), under Rule 19.

Public Service Commission for the First District—Contract with the New York, New Haven and Hartford Railroad Company for Necessary Material and Performance of Work to Raise the Power and Other Wires of Said Railroad, Permitting Construction of Section No. 2 of Routes Nos. 19 and 22 of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad, Where the Same Cross the Right of Way of Said New York, New Haven and Hartford Railroad, and Issue of Corporate Stock Therefor (Cal. No. 57).

The Secretary presented a report of the Comptroller recommending that the Public Service Commission be authorized to enter into a contract with the New York, New Haven and Hartford Railroad Company for supply of necessary materials and performance of work required to raise the power wires and other wires of the railroad company in order to permit of the construction of section No. 2, Routes Nos. 19 and 22, of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad where said railroad crosses the right-of-way of the New York, New Haven and Hartford Railroad Company in the Borough of The Bronx, at an estimated cost of \$6,871, provided that it be stipulated and agreed upon by and between the Commission and the Railroad Company that the latter shall abide by the decision of the Corporation Counsel in the matter and shall carry out the contract in all of its essential requirements without cost to the City should the Corporation Counsel's opinion so determine.

Pending the receipt of this opinion the Comptroller recommends an issue of \$6,871 in corporate stock to carry out the City's obligations in the performance of the work.

The Comptroller also reports that the cost of the work provided for in the proposed agreement was included in the contract for the construction of this section of the rapid transit railroad and will therefore be a charge against the remainder of the total amount authorized for the work.

From his Engineer's report, it would appear that there is some question as to whether the cost of moving and relocating these wires should not be borne by the railroad company, and it is suggested meanwhile that this question be submitted to the Corporation Counsel for an opinion as to where the cost properly lies.

(On January 25, 1918 (Cal. No. 74), the request of the Public Service Commission for the First District for the consent of the Board to this proposed contract and for an appropriation of \$6,871 for the purpose of providing means to meet the City's obligations thereunder was referred to the Comptroller.)

The matter was laid over one week (February 15, 1918) under Rule 19 and referred to the Corporation Counsel, for opinion, as to whether the cost of moving and relocating these wires should not be borne by the railroad company.

Public Service Commission for the First District—Contract with the Lorain Steel Company for Manufacture and Delivery of Rails and Fittings for Track Layouts to Reconstruct Surface Railroad Tracks of the Union Railway Company Across Westchester Avenue at 177th Street and Eastern Boulevard, Section No. 2 of Routes Nos. 19 and 22 of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad, and Issue of Corporate Stock Therefor (Cal. No. 58).

(On January 25, 1918 (Cal. No. 73), the requisition of the Public Service Commission for approval of this contract and for the appropriation to meet the City's obligations thereunder, was referred to the Comptroller.)

The Secretary presented the following requisition and resolution of the Public Service Commission for the First District; and report of the Comptroller relative thereto:

Subject—Proposed contract with Lorain Steel Company for manufacture and delivery of rails and fittings for reconstruction of surface railroad tracks of the Union Railway Co., in connection with Section 2, Routes 19 and 22, Seventh Avenue-Lexington Avenue Line.

To the Board of Estimate and Apportionment:

Gentlemen—The Public Service Commission for the First District on January 18, 1918, adopted a resolution approving a proposed contract by and between the City of New York, acting by the Commission, and the Lorain Steel Company, for the manufacture and delivery of rails and fittings complete for the track layouts necessary to reconstruct the surface railroad tracks of the Union Railway Company necessarily interfered with at points where 177th Street and Eastern Boulevard

intercept Westchester Avenue, by the construction of Section 2 of Routes 19 and 22 of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad, which section is along Westchester Avenue, Borough of The Bronx. The proposed agreement with the Lorain Steel Company was transmitted by the Public Service Commission for the consent and approval of the Board of Estimate and Apportionment and the authorization of the sum of \$11,600, the estimated cost of the contract for the delivery of the necessary rails and fittings.

Original contract for construction of this section with Flick-Manuell Construction Co. authorized Feb. 18, 1916.

The construction of Section 2 of Routes 19 and 22 of the rapid transit railroad was awarded to Flick-Manuell Construction Company and was authorized by the Board of Estimate and Apportionment on February 18, 1916, at a total estimated cost of \$2,063,877.50, of which the City assumed 80 per cent. and the Interborough Rapid Transit Company the remaining 20 per cent., the latter's liability, however, being limited to a sum not to exceed \$412,775.50.

On May 23, 1917, the Public Service Commission declared Flick-Manuell Construction Company to be in default in the carrying out of its contract and directed the Secretary to notify said Flick-Manuell Construction Company, pursuant to Article LXII of said contract, to discontinue all work under the contract, further providing, however, that such default should not be construed to apply to the work of furnishing or delivering structural steel under said contract, or requiring the discontinuance of such work; the obligation of the American Bridge Company, Inc., to furnish and deliver such structural steel, and the obligation of the sureties and of the Flick-Manuell Construction Company in respect thereto to remain unaffected. Subsequently, a contract was made with the American Bridge Company, Inc., for the delivery of structural steel under its contract with Flick-Manuell Construction Company for \$1,470,600.

Assignments of other contracts between the Pennsylvania Cement Company, Central Foundry Company and Shawmut Clay Manufacturing Company and Flick-Manuell Construction Company were subsequently approved by resolution of the Public Service Commission on June 8, 1917, and approved by the Board of Estimate on June 15, 1917. The Board has from time to time since the latter date authorized and approved the resolutions of the Commission directing the Chief Engineer to proceed with such work, coming within the requirements of the Flick-Manuell contract, as was necessary to make safe the pits excavated for column footings and to do such other work as was needed in carrying out the defaulted contract, except the furnishing of steel by the American Bridge Company and the materials included in the three assigned contracts hereinbefore referred to.

Mr. Chandler Withington, Chief Engineer of the Department of Finance, in a report to me anent this proposed agreement, says, in part:

"The furnishing of steel rails and fittings, etc., for the relocation of certain surface tracks of the Union Railway Company, as called for in the proposed agreement with the Lorain Steel Company, was included in the contract of the Flick-Manuell Construction Company (Section 269, page 160, of the specifications), and were to be paid for under Item 75N, for moving and relocating street surface railroads at \$2.50 per linear foot of single track, measured along centre line of track in its new position.

"Section 25 of the Rapid Transit Act provides for the moving and restoration of all surface tracks in any street or avenue interfered with by the construction of the new rapid transit railroad; it further provides that the City shall bear all costs for such removal and restoration, either in its original or in its new position.

"The changes in the surface car tracks in Westchester Avenue at 177th Street and at Eastern Boulevard are made necessary by the position of the columns for the new elevated railroad structure at 177th Street, also at Eastern Boulevard and stations which call for the use of added columns to support the increased width of overhead structure. The column footings in some cases will occupy positions within the present car tracks and for this reason the new tracks are desired as soon as possible so that the column footings may be constructed.

"Bids were requested for the furnishing and delivering of the steel necessary for the relocation of these tracks. The Public Service Commission requested six steel firms to submit bids, and in September, 1917, received and opened the following bids:

Company.	At 177th St.	At Eastern Boulevard.
Lorain Steel Co.	\$8,479 30	\$2,318 90
Wm. Wharton, Jr., Co.....	8,797 30	2,398 90
Bethlehem Steel Co.	8,687 00	2,783 00

"After the bids were received it was found that the Union Railway Company required certain additional parts at 177th Street, viz., length of rail, welds, braces and tie plates. These additional parts brought the price of the Lorain Steel Company up to \$9,208 for the work at 177th Street, making the total bid for the two locations \$11,526.90. The amount requested by the Public Service Commission is \$11,600."

In his report the Chief Engineer points out that the Lorain Steel Company submitted a bid to the Union Railway Company for the track and special work at 177th Street of \$5,026, and that the bid of the Company in September, 1917, which was the lowest of three bids, was \$3,453.30 higher than the bid submitted by it fourteen months before. He says:

"The rising prices of the steel market are plainly shown in these two bids and the failure of Flick-Manuell Construction Company to close a contract at the lower price makes it necessary for the City to accept the material at a higher price."

There is a balance of \$81,425.48 remaining unencumbered of the \$1,651,102 authorized by the Board of Estimate and Apportionment on February 18, 1916, for the purposes of the contract with the Flick-Manuell Construction Company and the \$11,600 estimated cost of the proposed contract with the Lorain Steel Company for the manufacture and delivery of the rails and fittings complete for the track layouts necessary to reconstruct the surface railroad tracks of the Union Railway Company at the points hereinbefore described will be a charge against said remaining balance of the amounts heretofore authorized by the Board of Estimate for the construction of Section 2 of Routes 19 and 22 of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad; and as seemingly this work must necessarily be done and Section 25 of the Rapid Transit Act, as well as the provisions of the original contract with the Flick-Manuell Construction Company provides that the City shall bear all costs for the removing and restoration of all surface railroad tracks in any street or avenue interfered with by the construction of the new rapid transit railroad, I submit the following resolution and ask its adoption, thereby authorizing the use of the necessary funds from the remaining balance available of the authorization of February 18, 1916, for the Flick-Manuell contract. Respectfully,

CHARLES L. CRAIG, Comptroller.

The following was offered:

Whereas, The Public Service Commission for the First District duly adopted a resolution on Jan. 18, 1918, requesting the Board of Estimate and Apportionment to authorize and consent to a contract with the Lorain Steel Company for the manufacture and delivery of rails and fittings complete for track layouts necessary to reconstruct the surface railroad tracks of the Union Railway Company at Westchester Avenue and 177th Street, and at Eastern Boulevard, necessary as a part of the work of construction of Section No. 2 of Routes Nos. 19 and 22 of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad, at an estimated cost of eleven thousand six hundred dollars (\$11,600), and to reserve and set aside the amount of eleven thousand six hundred dollars (\$11,600) from the sum of eighty-one thousand four hundred and twenty-five and forty-eight one-hundredths dollars (\$81,425.48), the remaining balance of the appropriation authorized by the Board on February 18, 1916, for the purpose of a contract with Lawrence C. Manuell for the construction of said Section No. 2 of Routes Nos. 19 and 22, which said contract with Lawrence C. Manuell was declared by the Public Service Commission on May 23, 1917, to be in default and the contractor was directed to discontinue all work under said contract; and

Whereas, The contract with Lawrence C. Manuell which was authorized by the Board on February 18, 1916, for the construction of said Section No. 2 included and contained therein provisions for the moving and relocating of street surface railroad tracks and such work incidental thereto necessary in the construction of said section of the rapid transit railroad, and the delivery of which rails and fittings, following

the defaulted Manuell contract, must now be provided for through other contracts; therefore be it

Resolved, That, pursuant to the provisions of section 37 of the Rapid Transit Act, being chapter 4 of the Laws of 1891, as amended; the provisions of section 45 of the Greater New York Charter, and the requisition of the Public Service Commission for the First District, duly made by said Commission on January 18, 1918, the Board of Estimate and Apportionment hereby authorizes and consents to the contract proposed to be entered into by and between the City of New York, acting by said Commission, and Lorain Steel Company for the manufacture and delivery of rails and fittings complete for track layouts necessary to reconstruct the surface railroad tracks of the Union Railway Company at points where 177th Street and Eastern Boulevard intersect Westchester Avenue on account of interference with same by the construction of Section No. 2 of Routes Nos. 19 and 22 of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad, at an estimated cost of eleven thousand six hundred dollars (\$11,600); and be it further

Resolved, That, pursuant to said requisition of the Public Service Commission, dated January 18, 1918, the Comptroller be and he hereby is authorized and requested to reserve and set aside the sum eleven thousand six hundred dollars (\$11,600) out of the amount of eighty-one thousand four hundred and twenty-five and forty-eight one-hundredths dollars (\$81,425.48), being the remaining balance of the appropriation authorized by the Board on February 18, 1916, for the purpose of a contract with Lawrence C. Manuell for the construction of said Section No. 2 of Routes Nos. 19 and 22, and which said balance is the remainder of the sum of one hundred and nineteen thousand four hundred and thirty-nine and thirty-five one-hundredths dollars (\$119,439.35) heretofore set aside by this Board pursuant to a requisition of the Public Service Commission for the purpose of meeting the City's obligations in the performance of the work by the Public Service Commission in connection with the completion of the construction of said Section No. 2 of Routes Nos. 19 and 22; the said sum of eleven thousand six hundred dollars (\$11,600) hereby authorized to be reserved and set aside to be applied to the purposes of the contract proposed to be entered into by and between the City of New York, acting by the Public Service Commission, and the Lorain Steel Company for the manufacture and delivery of rails and other work incidental thereto to be used in the construction of said Section No. 2, as more fully described in the requisition of the Public Service Commission dated January 18, 1918.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

Public Service Commission for the First District—Amendment of Resolution Relative to Construction of a Temporary Inspection Shed by the Interborough Rapid Transit Company Adjacent to Hunterspoint Avenue Station of the Queensboro Subway in Long Island City (Cal. No. 59).

The Secretary presented a report of the Comptroller recommending that the Board authorize the Public Service Commission to order the Interborough Rapid Transit Company to construct a temporary inspection shed adjacent to the Hunterspoint Avenue station of the Queensboro Subway in Long Island City, for the inspection of the car equipment on the Queens lines, provided that the cost for such work shall not exceed \$12,410, which is to be paid by the Interborough Rapid Transit Company out of its contribution towards the cost of the construction of rapid transit railroads provided for under contract No. 3, stating that the Board on June 22, 1917 (Cal. No. 67), limited the cost of this work to \$10,000 and that the Acting Chief Engineer of the Commission recommended that the Interborough Rapid Transit Company be directed to perform additional work in connection with the construction of this temporary shed at an additional estimated cost of \$2,850.

(On January 18, 1918 (Cal. No. 24), the communication from the Public Service Commission in this matter was referred to the Comptroller.)

The Secretary presented the following:

Bureau of Franchises, January 30, 1918.

Hon. JOHN F. HYLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—By resolution adopted by the Board of Estimate and Apportionment December 7, 1917, approved by the Acting Mayor December 13, 1917, the Trustees of Bellevue and Allied Hospitals were granted permission to construct, maintain and use an enclosed single span bridge over and across Gouverneur Slip, north of Front Street, Borough of Manhattan.

Section 14 of said consent provides as follows:

"This consent shall be null and void unless said grantee shall duly execute an instrument in writing, wherein said grantee shall accept this consent and shall promise, covenant and agree to conform to, abide by and perform all the terms, conditions and requirements in this consent fixed and contained, and file said instrument with the Board of Estimate and Apportionment of The City of New York within thirty (30) days after the approval of this consent by the Mayor; provided, however, that such time may be extended by the Board of Estimate and Apportionment.

Application of the Trustees of Bellevue and Allied Hospitals for permission to install, maintain and use a twelve-inch pipe under and across Gouverneur Slip, north of Front Street, Borough of Manhattan.

(This application was presented to the Board at the meeting of January 11, 1918 (Cal. No. 95), and was referred to the Bureau of Franchises.)

The Secretary presented the following:

Bellevue and Allied Hospitals, Office of the Board of Trustees, 1st Avenue and 26th Street, New York, December 27, 1917.

Hon. JOSEPH HAAG, Secretary, Board of Estimate and Apportionment, Municipal Building, New York:

Sir—The Trustees of Bellevue and Allied Hospitals have the honor to request the Board of Estimate and Apportionment to grant permission to lay a steam pipe line across Gouverneur Slip from Gouverneur Hospital to the new building for the Out Patient Department, located at the corner of Gouverneur Slip and Front Street, the details of which are set forth in the plans transmitted herewith.

The Board of Estimate and Apportionment approved the plans and specifications on July 31st, and the estimate of cost on November 16, 1917, for connecting the heating system of the Out Patient Department at Gouverneur Hospital with the boiler plant of the hospital located across the street, and the Trustees assumed that the approval of these plans carried with it permission to lay the pipes across the street. We have since been informed that it is necessary to obtain from your Board

permission for this purpose, which accounts for the request made at this late date. The contract for the work was awarded by the Trustees on November 22, 1917.

Respectfully,

A. M. ROBBINS, Secretary, Board of Trustees.

Bureau of Franchises, January 31, 1918.

Hon. JOHN F. HYLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—The Trustees of Bellevue and Allied Hospitals presented a petition dated December 27, 1917, to the Board of Estimate and Apportionment for permission to install, maintain and use a 12-inch pipe under and across Gouverneur Slip at a point about 66 feet 4 inches north of the northerly line of Front Street, Borough of Manhattan, connecting the Gouverneur Hospital Building on one side of the street with the Out Patient Department of that Hospital on the opposite side. The petition recites that the pipe is to contain pipes for the furnishing of steam from the main plant in the Hospital Building to the Out Patient Building.

At the meeting of the Board held January 11, 1918, the petition was referred to the Bureau of Franchises for investigation and report.

Copies of the petition, with accompanying plan, were forwarded to the President of the Borough of Manhattan and to the Commissioner of Water Supply, Gas and Electricity, with a request that examinations be made by the various bureaus of their departments having jurisdiction, with a view to ascertaining if there are any objections to the project or any particular conditions necessary to be incorporated in the form of consent heretofore used by the Board for similar privileges. In replies dated, respectively, January 30 and January 24, 1918, I have been informed there are no objections to the pipe and no particular conditions necessary to be inserted in the consent.

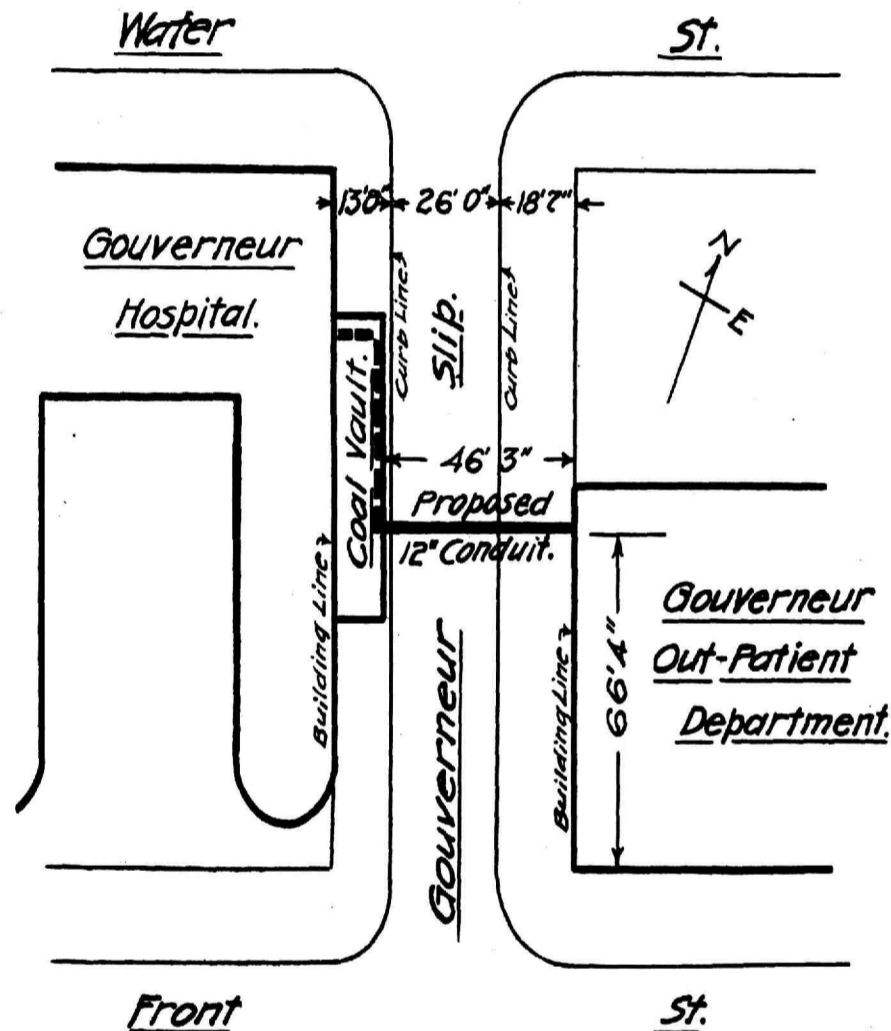

It appears that the plan, as first submitted, provided for the pipe to be four feet below the surface of the street, but it was found that City water mains would prevent its installation at such point and, after consultation with the departments, the plan was altered to provide for the pipe to be placed 2 feet 9 inches below the street surface, at which depth it will avoid interference with the water mains and sewer.

The customary examination by this Bureau disclosed no objection to the pipe, and as the administrative departments of the City Government having jurisdiction find none, I can see no good reason why the requested permission should not be given, should the Board see fit to do so. In such case I would suggest that consent be granted only during the pleasure of the Board, but in no event to extend beyond a period of ten (10) years from the date of the approval of the consent by the Mayor and revocable upon sixty (60) days' notice.

Gouverneur Hospital is a branch of a City department, and for that reason, in accordance with an opinion heretofore rendered by the Office of the Corporation Counsel, the compensation and security deposit should be waived.

The customary form of resolution granting consent is herewith submitted for adoption. Respectfully,

JOHN A. MCCOLLUM, Acting Chief of Bureau.

Department of Water Supply, Gas and Electricity—Purchase of the Plant of the Blythebourne Water Company, Brooklyn (Cal. No. 65).

The Secretary presented a report of the Commissioner of Water Supply, Gas and Electricity on the communication from his predecessor, dated December 31, 1917, relative to the purchase of the plant of the Blythebourne Water Company operating in the 30th Ward of the Borough of Brooklyn, stating that the situation, as outlined in the printed report by the then Deputy Commissioner of Water Supply, Gas and Electricity, Delos F. Wilcox, giving the history of this company, the description of its plant and the relation between the company and the City, has not materially changed since said report was submitted. That the only means the City apparently has to collect the amount already due it from the company, and that which will become due in the future, is through the purchase in whole or in part of the company's plant. The only portion of this plant which is of value to the City is the distribution system, and if the City's interest can be properly safeguarded, the paralleling of the mains of the company should be avoided and its distribution system acquired; if this cannot be accomplished on suitable terms, then an appropriation should be granted the department to permit the prompt installation of the necessary city mains, the determination of which being a financial matter, is submitted to the Board for consideration and appropriate action.

(On January 4, 1918 (Cal. No. 11), this matter was referred to the Commissioner of Water Supply, Gas and Electricity.)

The matter was referred to the Committee on Finance and Budget.

COMMUNICATIONS, PETITIONS, ETC.

From Citizens and Public Bodies.

Public Service Commission for the First District—Appropriation for Alterations and Repairs to "New York Life Annex Building" for Occupancy by Said Commission (Cal. No. 66).

The Secretary presented the following:

State of New York, Public Service Commission for the First District, No. 120 Broadway, New York, January 30, 1918.

Board of Estimate and Apportionment, City Hall, New York City:

Sirs—The Public Service Commission for the First District is at present occupying quarters in the Equitable Building under a lease, under the terms of which the owners have served notice of termination on May 1, 1918; and the space now occupied by the Commission has been let to the Federal Reserve Bank. The matter of the removal of the offices of the Commission to a building now owned by the City has been the subject of informal discussion with various City officials. A phase of the matter has arisen which causes the Commission to bring the matter to your immediate notice.

The Federal Reserve Bank now stated to the Commission that the next National loan will be announced within a very short time and that it is absolutely essential for it to have enlarged quarters immediately. It has, accordingly, asked the Commission to be in the position to release a portion of its space to the Bank by February 15. Although the Bank realizes that the Commission has until the first of May to remove, it places its request on the basis of National necessities to such a convincing extent that the Commission is glad of the opportunity to be of any service that it can in respect to the matter. It cannot, however, remove its employees until the building into which it is to go is vacated and certain very necessary repairs and changes are made. These may progress from floor to floor and the employees removed as the space is made available, thus freeing more and more of the Equitable Building space to the Federal Reserve Bank.

In order that such improvements may be made in such a way as to allow an immediate commencement of the removal of the employees of the Commission from the Equitable Building to that building it is necessary that an appropriation be made available as soon as may be practicable on account of such improvements. The proposed expenditures for the Commission for the year 1918 call for an item of about \$100,000 for rent in the Equitable Building. The appropriations made for the account of the Commission cover its expenditures for January and there are now pending before your honorable body the proposed appropriations for February, March and April. As the Commission will be entirely removed from the Equitable Building to a City owned building by May 1, the balance of the item for rent for the portion from May 1 to December 31 will not be necessary for the actual expenditure of rent.

The Commission, therefore, asks that there be made available at the present time, for the improvement and reconstruction of this building, an appropriation of \$50,000, to be later treated as an offset to what would otherwise be an appropriation for rent for the period of May 1 to December 31, 1918. Such an appropriation should be deemed a continuing account for the purpose of incurring expenses incident to the changes and repairs deemed necessary in the so-called New York Life Annex Building.

As a portion of the space in this building is now, or within a few days will be, available for the purposes of the Commission, it is of importance that an appropriation be made at the earliest moment in order that the work may proceed sufficiently to allow the removal of various divisions of the employees of the Commission.

Respectfully submitted,

OSCAR S. STRAUS, Chairman.

The Comptroller moved that \$25,000 be authorized on account of the requisition, and offered the following resolution:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 10, chapter 4 of the Laws of 1891, and section 14, chapter 429 of the Laws of 1907, as amended, hereby approves of an issue of special revenue bonds of The City of New York to an amount not exceeding twenty-five thousand dollars (\$25,000), the proceeds thereof to be used to provide for alterations of and equipment for certain parts of the building known as 49 Lafayette Street, for the use and occupancy of the Public Service Commission, First District, the said amount to be made a part of and included in and allowed on account of the rental to be paid by the said Public Service Commission for the use and occupancy of said premises, and that the Comptroller be and he is hereby authorized, pursuant to the provisions of section 10, chapter 4 of the Laws of 1891, and section 14, chapter 429 of the Laws of 1907, as amended, to issue special revenue bonds of The City of New York to an amount not exceeding twenty-five thousand dollars (\$25,000), redeemable from the tax levy of the year succeeding the year of their issue, the proceeds to be applied to the purposes aforesaid; provided, however, that no portion of said sum of twenty-five thousand dollars (\$25,000) shall be used by said Public Service Commission for regulatory expenses.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

Sir—Herewith is transmitted a communication from the Secretary of the Borough of Manhattan, bearing date of October 25th, 1917, presenting for consideration a map showing a change proposed in the grade of East 43rd Street from Madison Avenue to 5th Avenue and of West 43rd Street from 5th Avenue to Times Square.

On March 9th, 1917, a resolution was adopted by the Board providing for the removal of sidewalk encroachments, and for increasing the width of the roadway of 43rd Street between the limits described from 30 to 34 feet.

In carrying out this improvement it has been found desirable to improve the grade by the elimination of a number of slight irregularities and as shown upon the plan now presented, in anticipation of approval of which a considerable portion of the curbing has already been set.

The grade proposed conforms very closely with the elevation of the sidewalk and I see no reason why it should not be approved, such action being recommended after a public hearing. Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by changing the grades of 43rd Street from Madison Avenue to Times Square, in the Borough of Manhattan, which proposed change is more particularly shown upon a map or plan bearing the signature of the Secretary of the Board of Estimate and Apportionment and dated September 27, 1917.

Resolved, That this Board consider the proposed change at a meeting of the Board to be held in the City Hall, Borough of Manhattan, City of New York, on Friday, March 15, 1918, at 10.30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions, and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board to be held at the aforesaid time and place, to be published in the CITY RECORD for ten days continuously, Sundays and legal holidays excepted, prior to the 15th day of March, 1918.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

Byron Avenue, Between Nereid Avenue and Bissel Avenue, Borough of The Bronx—Decreasing Width (Cal. No. 130).

The Secretary presented a communication dated November 22, 1917, from the Commissioner of Public Works, Borough of The Bronx, transmitting map showing proposed change; and the following report of the Chief Engineer:

Report No. 17337.

January 31st, 1918.

Hon. JOHN F. HYLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a communication from the Commissioner of Public Works, Borough of The Bronx, bearing date of November 22nd, 1917, advising that the Local Board of the Chester District at its meeting of June 19th, 1917, has recommended a change in the City Plan by decreasing the width of Byron Avenue between Nereid Avenue and Bissel Avenue.

The change which is shown upon the map submitted with the communication relates to two blocks at the extreme northerly end of Byron Avenue, affecting a length of about 800 feet, here providing for decreasing the street width from 60 feet to 50 feet.

As originally laid out Byron Avenue extended from East 233rd Street to Baychester Avenue, a distance of about 4,000 feet. At the meeting of the Board held on July 27th, 1916, a change was made in the street plan of the territory south of Baychester Avenue to permit of the construction of a large railroad yard at the terminal of the White Plains Road branch of the new Rapid Transit System, as a result of which Byron Avenue was given its northerly terminal at Bissel Avenue, the width of which latter street was fixed at 50 feet.

From the information at hand it would appear that the portion of Byron Avenue now in use, this comprising the section between Bissel Avenue and a line about 175 feet south of East 239th Street, has been subdivided and partially improved on the basis of a street width of 50 feet, the recognition of which is proposed under the present plan.

As a result of the construction of the railroad yard the portion of Byron Avenue to which the change relates has become of a distinctly local character, in view of which as well as of the adequate provision which has been made for arterial streets in this vicinity and of the fact that the width of the outlet street has been fixed at 50 feet it would appear that the change now proposed might properly be approved, and such action is recommended after a public hearing. Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by decreasing the width of Byron Avenue from Nereid Avenue to Bissel Avenue and by adjusting the grades of the intersecting streets affected thereby, in the Borough of The Bronx, which proposed change is more particularly shown upon a map or plan bearing the signature of the Secretary of the Board of Estimate and Apportionment and dated November 17, 1917.

Resolved, That this Board consider the proposed change at a meeting of the Board to be held in the City Hall, Borough of Manhattan, City of New York, on Friday, March 15, 1918, at 10.30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions, and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board to be held at the aforesaid time and place, to be published in the CITY RECORD for ten days continuously, Sundays and legal holidays excepted, prior to the 15th day of March, 1918.

Street System Within the Territory Bounded Approximately by Grand Street, Van Horn (Adams) Street, Lewis Avenue (Valentine Street) and Division Avenue, Borough of Queens—Changing Lines (Cal. No. 131).

The Secretary presented a communication, dated July 31, 1917, from the Secretary of the Borough of Queens transmitting map showing proposed change; and the following report of the Chief Engineer:

Report No. 17346.

February 2, 1918.

Hon. JOHN F. HYLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a communication from the Secretary of the Borough of Queens, bearing date of July 31, 1917, presenting for approval a map showing a change in the lines of the street system within the territory bounded approximately by Grand Street, Van Horn (Adams) Street, Lewis Avenue (Valentine Street), and Division Avenue.

The changes shown on this plan consist of a minor modification in the position

of Grand Street from the Main Line Division of the Long Island Railroad to Van Horn Street, and of Wool Street from Grand Street to Lewis Avenue, designed to conform as far as practicable with the lines of Grand Street and of old Jefferson Street as heretofore recognized by the property owners. The changes also include provision for decreasing the width of Koerner Street and of Manheim Street through the two blocks between Van Horn Street and Weimar Street from 60 feet to 50 feet, as well as for a similar decrease in the width of that portion of Weimar Street between Van Horn Street and the angle point south of Wool Street. Through the greater portion of the length affected the three streets last described are in use at a width which it is now proposed to legalize, this including the entire length of Koerner Street or about 800 feet, and the greater portion of Manheim Street which has a total length of about 1,300 feet.

Weimar Street as mapped has a length of about 2,000 feet, but by reason of its broken alignment it may be considered as consisting of three disconnected streets. No one of the streets for which a decreased width is proposed can be considered as of an important character, for which reason it would seem that the change might properly be approved and particularly since the widening originally contemplated would have the effect of seriously decreasing the depth of the adjoining blocks.

I would recommend the adoption of the plan after a public hearing.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by changing the lines of the street system heretofore laid out within the territory bounded approximately by Grand Street, Van Horn (Adams) Street, Lewis Avenue (Valentine Street), and Division Avenue, in the Borough of Queens, which proposed change is more particularly shown upon a map or plan bearing the signature of the President of the Borough and dated June 29, 1917.

Resolved, That this Board consider the proposed change at a meeting of the Board to be held in the City Hall, Borough of Manhattan, City of New York, on Friday, March 15, 1918, at 10.30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions, and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board to be held at the aforesaid time and place, to be published in the CITY RECORD for ten days continuously, Sundays and legal holidays excepted, prior to the 15th day of March, 1918.

Public Park in 18th (Inman-4th) Avenue, Between 126th (17th-Quinlan) Street and 127th (18th-Rockville) Street, Borough of Queens—Laying Out (Cal. No. 132).

The Secretary presented a communication, dated May 19, 1917, from the Secretary to the President, Borough of Queens, transmitting map showing proposed change; and the following report of the Chief Engineer:

Report No. 17345.

February 2, 1918.

Hon. JOHN F. HYLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a communication from the Secretary to the President of the Borough of Queens, bearing date of May 19, 1917, presenting for approval a map showing a proposed Public Park within the lines of 18th (Inman-4th) Avenue between 126th (17th-Quinlan) Street and 127th (18th-Rockville) Street.

This Park, which is to have a width of 19 feet and a length of about 200 feet with an area of about 0.09 acre, is to be centrally located in the block of 18th Avenue which, as now in use and improved, has a width of 109.90 feet and forms the extreme easterly terminal of 18th Avenue which here meets the College Point station of the Long Island Railroad. As shown upon the previously approved tentative plan of the territory the continuing portion of the street to the west is to have a width of 60 feet, which width the plan now presented indicates is to be decreased to 59.94 feet, the change it is understood being desired in order to harmonize with the lines to which the street is in use.

The map also shows that the widths of the streets intersecting 18th Avenue are in each case to be made 49.95 feet, the propriety of which is subject to considerable question since each of them may be construed as of sufficient importance to justify provision for a greater width.

An inspection shows that the proposed Park has already been improved as a mall, and it is understood that adoption of the plan is desired in order that steps may be taken to place jurisdiction over it in the Park Department.

I see no reason why the plan should not be approved providing that formal advice is first received from the Park Commissioner to show that he is prepared to accept jurisdiction over the Park, and with the further understanding that the approval of the plan will be followed by action on the part of the Sinking Fund Commissioners providing for a transfer of jurisdiction from the President of the Borough to the Park Department. It should also be understood that the approval of the plan will not be construed as in any way indicating a concurrence on the part of the Board in the width shown on the map for streets intersecting 18th Avenue. Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York, by laying out a Public Park in 18th (Inman-4th) Avenue, between 126th (17th-Quinlan) Street and 127th (18th-Rockville) Street, in the Borough of Queens, which proposed change is more particularly shown upon a map or plan bearing the signature of the President of the Borough and dated May 1, 1917.

Resolved, That this Board consider the proposed change at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on Friday, March 15, 1918, at 10.30 o'clock a. m.

Street System Within the Territory Bounded by 51st (Jefferson) Street, Astoria (Flushing) Avenue, Jackson Avenue and Hayes Avenue, Borough of Queens—Changing Lines and Grades (Cal. No. 133).

The Secretary presented a communication, dated November 24, 1916, from the Secretary to the President, Borough of Queens, transmitting map showing proposed change; and the following report of the Chief Engineer:

Report No. 17343.

February, 2, 1918.

Hon. JOHN F. HYLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a communication from the Secretary to the President of the Borough of Queens, bearing date of November 24, 1916, requesting approval of a map showing a change proposed in the lines and grades of the street system within the territory bounded by 51st (Jefferson) Street, Astoria (Flushing) Avenue, Jackson Avenue, and Hayes Avenue.

The object more particularly sought under this plan is the discontinuance of Burnside Avenue from 51st Street to Astoria Avenue, and of 52nd Street from Jackson Avenue to Astoria Avenue, in order to create a block having a length ranging from about 650 feet to about 760 feet and a depth of about 510 feet, all of which is stated to be in one ownership and which it is understood will be devoted to the carrying out of a moving picture enterprise. The plan also shows an adjustment in the lines of Jackson Avenue between 51st Street and Astoria Avenue, designed

to make them harmonize with the lines of Jackson Avenue as now in use, and an adjustment in the grade of Astoria Avenue in the block between 51st Street and 53rd Street, where the elevation is to be raised 3.25 feet as required in order to legalize the grade to which the street is here in use.

52nd Street as heretofore laid out, has a length of only one block and it can be discontinued without prejudicial effect upon the street plan of the locality. Burnside Avenue has a width of 60 feet, for which reason it could only be construed as of minor importance notwithstanding that it has the position of an arterial street; as a substitute for the direct connection heretofore planned between this street and Astoria Avenue, it is proposed to flare the intersection of 51st Street and Astoria Avenue immediately opposite its intersection with the former street.

I see no reason why the plan should not be approved, and would recommend such action after a public hearing. Respectfully

NELSON P. LEWIS, Chief Engineer.

Ayr Avenue (Frederick Court), Between Laurel Hill Boulevard and Betts Avenue, Borough of Queens—Changing Lines (Cal. No. 134).

Report No. 17344.

February 2, 1918.

Hon. JOHN F. HYLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a communication from the Secretary to the President of the Borough of Queens, bearing date of April 2, 1917, requesting approval of a map showing a change proposed in the lines of Ayr Avenue (Frederick Court) between Betts Avenue and Laurel Hill Boulevard.

This map relates to a length of one block of Ayr Avenue which, as heretofore laid out, is to have a width of 50 feet. The street is in use through the greater portion of its length and serves as frontage for two buildings. The change now proposed consists of a slight adjustment in its position, which it is understood is designed to make it more closely conform with the lines of the existing street than did the plan heretofore adopted.

I see no reason why the map should not be approved, and would recommend such action after a public hearing. Respectfully,

NELSON P. LEWIS, Chief Engineer.

Territory Adjoining Hillside Avenue on the North and Van Duser Street on the West, Borough of Richmond—Modification of Tentative Plan (Cal. No. 135).

The Secretary presented a communication, dated December 13, 1917, from the President, Borough of Richmond, transmitting map showing proposed change; and the following report of the Chief Engineer:

Report No. 17341.

February 5, 1918.

Hon. JOHN F. HYLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a communication from the President of the Borough of Richmond, bearing date of December 13, 1917, presenting for approval a tentative map showing a proposed modification in the tentative plan heretofore adopted for the territory adjoining Hillside Avenue on the north and Van Duser Street on the west.

Under this plan it is proposed to extend recognition to Baring Place; Terrace Avenue, Center Avenue and Woodside Avenue located at the foot of the precipitous slope of Grimes Hill. As now in use, these streets have widths ranging from 25 feet to 40 feet and serve as frontage for a large number of buildings; to each of them it is proposed to assign a width of 50 feet. None of them is shown on the tentative plan of the territory in which they are located which was approved by the Board on November 4, 1912, this providing a partial street plan for the easterly slope of Grimes Hill, the top of which is traversed by Ocean View Avenue with an elevation of over 300 feet, while Van Duser Street, with an elevation of less than 100 feet and distant upwards of about 800 feet away, skirts the foot.

The necessity of steep grades for such streets as may be provided in this area is evident, but the plan as adopted was designed in so far as seemed practicable to follow the contours in such a way as to make the streets serviceable. It is assumed that failure to include in the plan the four streets shown on the map now presented was due to the fact that the grades to which they are in use and in conformity with which buildings have been erected were deemed unsuited to recognition as now proposed. Notwithstanding such changes as are proposed in the present grade, these ranging up to a maximum of nearly 9 feet, Baring Place and Center Avenue, both of which abruptly ascend the slope, will have grades of approximately 20 per cent., while in the cases of Terrace Avenue and a portion of Woodside Avenue, which traverse the slope longitudinally, it is proposed to fix street grades ranging upwards to a maximum of 12 per cent.

In placing these streets upon the plan it has been found necessary to discontinue Overcliff Terrace between Outlook Terrace and Bellevue Terrace and a portion of the latter street, neither of which is in use, and no provision is made for the extension which will later be required for Woodside Avenue to the north in order to provide an outlet for it. It is understood that the approval of the plan is desired in order to clear the way for the construction of sewers which seem to be needed in order to properly meet the sanitary requirements.

The unsuitability of the steep grades proposed on the plan, both by reason of the impracticability of furnishing adequate fire protection or of properly safeguarding both vehicular and pedestrian users of the street, is obvious. At the same time it seems clear that the introduction of the sanitary facilities desired should be encouraged and that the City must assume some measure of responsibility for the condition of the streets so long as they are used by the public.

Under these conditions I believe that the plan may properly be approved and would recommend such action, but with the understanding that relief should at some future time be provided through such other connections with the arterial system now in use as will permit of the substitution of steps on Baring Place and on Center Avenue in place of the uniform gradient now proposed.

The carrying out of such further modifications in the plan would make it practicable to decrease the width of Baring Place and Center Avenue to conform with the widths to which they are now in use and I would suggest that the propriety of doing this be called to the attention of the Borough President for consideration when the final street plan of the territory is prepared. I would also point out at this time that the probable great expense which would have to be incurred in order to provide an adequate street plan for the precipitous slope of Grimes Hill would be much greater than the property value of the territory would warrant for a long time to come, and that for this reason the final mapping of the territory might properly be deferred until such future time as the probable character of its development may be more clearly ascertained than is possible now, this treatment being one which can now be resorted to with safety by reason of the recent legislation under which property owners are prevented from laying out and improving private streets until after the plan to be used as the basis has been made the subject of consideration by the Board of Estimate and Apportionment. Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby fixes Friday, March 15, 1918, at 10.30 o'clock A. M., and Room 16, City Hall, Borough of Manhattan, as the time and place for a public hearing on a tentative plan showing a change in the proposed street system heretofore tentatively approved, within the territory adjoining Hillside Avenue on the north and Van Duser Street on the west, in the Borough of Richmond, City of New York, the said tentative plan bearing the signature of the President of the Borough and dated December 12, 1917.

Resolved, That the Secretary of this Board cause these resolutions, and a notice to all persons affected thereby that the said plan will be considered at a meeting of the Board to be held at the aforesaid time and place, to be published in the City Record for ten days continuously, Sundays and Legal Holidays excepted, prior to the 15th day of March, 1918.

Borough of Queens.

Cooper Avenue (Suburban Street-Copeland Avenue), from Epsilon Place to Proctor Street, and Central Avenue, from Edsall Avenue to Woodhaven Avenue, Excluding Cemetery Lands, Borough of Queens—Amending Proceeding for Acquiring Title (Cal. No. 136).

The Secretary presented the following report of the Chief Engineer:

Report No. 17340.

February 2, 1918.

Hon. JOHN F. HYLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Under the provisions of a resolution adopted by the Board of Estimate and Apportionment on October 19, 1911, a proceeding was instituted for acquiring

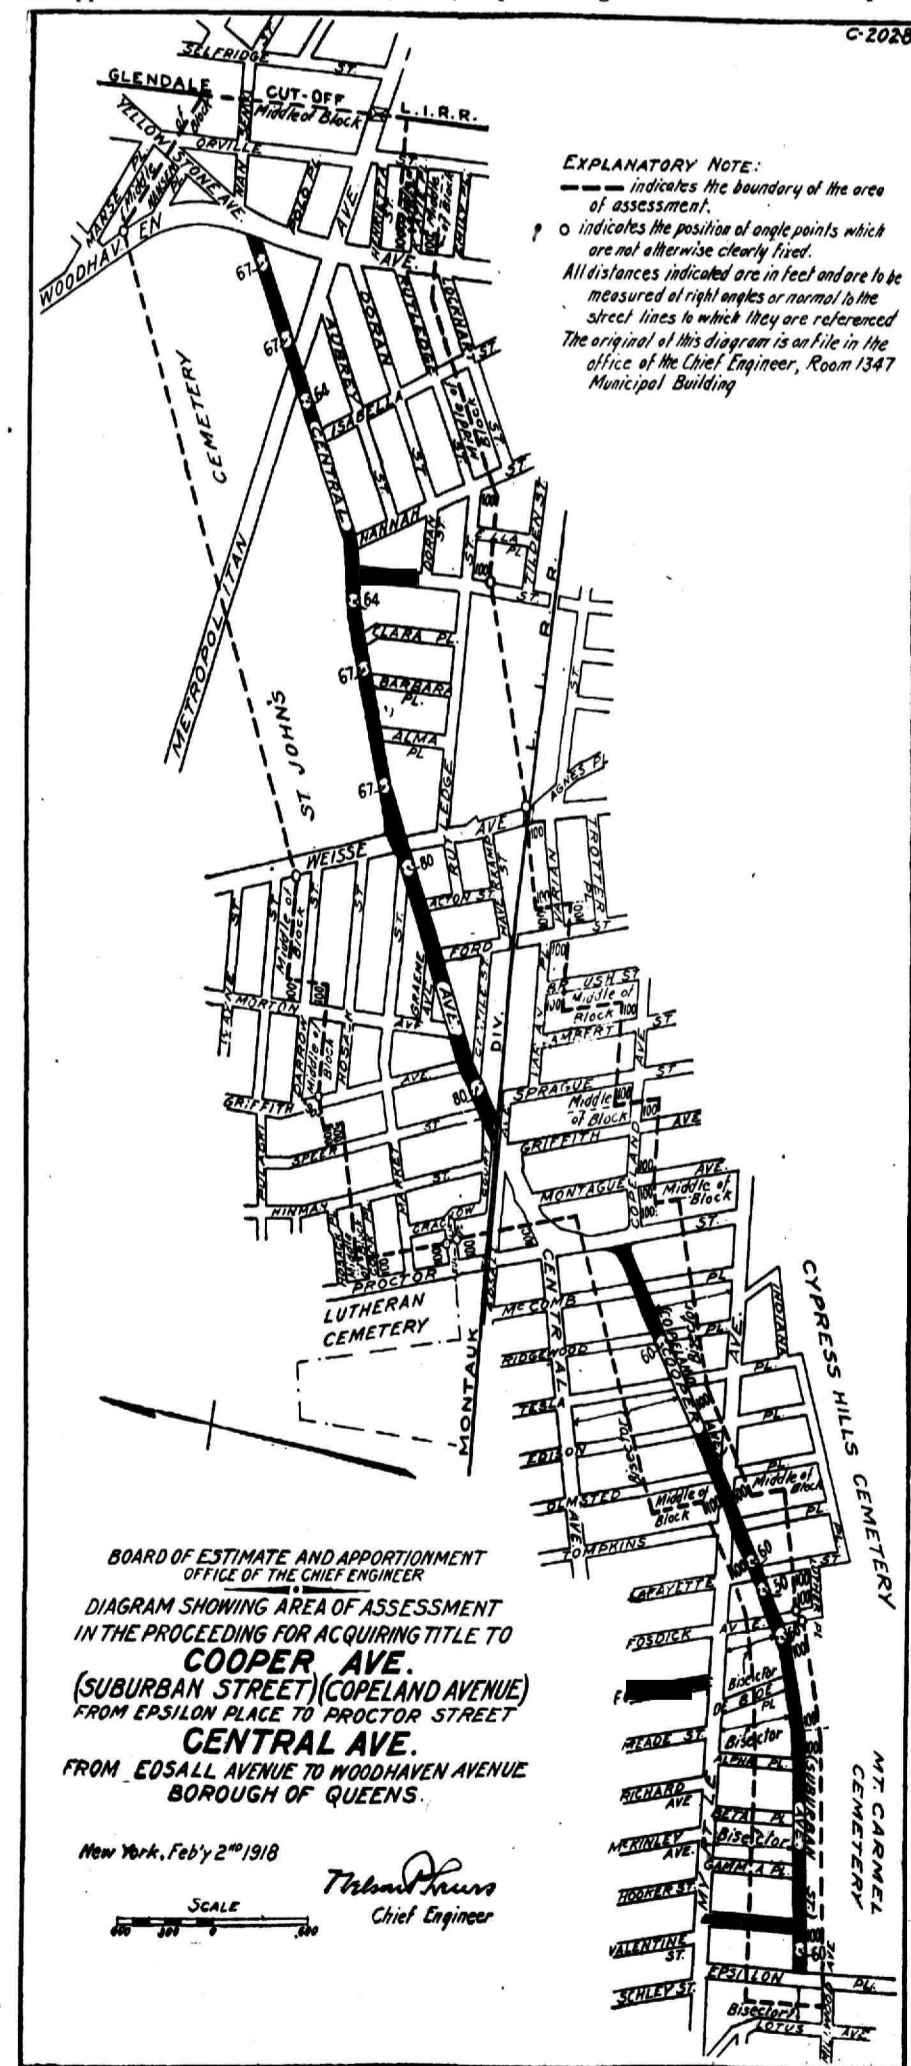

Diagram A.

title to the following streets in the Borough of Queens: Cooper Avenue (Suburban Street-Copeland Avenue) from Epsilon Place to Proctor Street; Central Avenue from Edsall Avenue to Woodhaven Avenue, excluding cemetery lands.

In order to make it conform with the requirements of the new Street Opening Law the proceeding was reinstituted on December 22, 1916, at which time advantage was also taken of bringing the matter into harmony with certain modifications made in the street lines at a date subsequent to the institution of the proceeding. The rule map was approved on October 5, 1917, and the Commissioners of Estimate and Assessment filed their oaths on January 24, 1918.

On November 16, 1917, a further change was made in the alignment of Central Avenue in the section between Edsall Avenue and Griffith Avenue as was required in order to fully absorb old Cooper Avenue, and it will be necessary to amend the proceeding in order to bring it into harmony with the present City Map.

I would recommend that after a new public hearing has been given concerning a district of assessment practically identical with the one heretofore fixed, although advantage is taken of referring the boundary lines to the street system laid out on the map of November 16th to which reference has been made, the opening proceeding be amended in such a way as to relate to Cooper Avenue and to Central Avenue between the limits named as now laid out, excluding cemetery lands.

A diagram showing the suggested amended district of assessment is herewith presented. Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following was offered:

Whereas, The Board of Estimate and Apportionment under resolution adopted December 22, 1916, authorized a proceeding for acquiring title to Cooper Avenue (Suburban Street-Copeland Avenue), from Epsilon Place to Proctor Street; and Central Avenue, from Edsall Avenue to Woodhaven Avenue, excluding cemetery lands, Borough of Queens; and

Whereas, The Board of Estimate and Apportionment on November 16, 1917, adopted a resolution changing the map or plan of The City of New York by changing the street system heretofore laid out within the territory bounded by Proctor Street (Barnum Avenue), Metropolitan Avenue, Weiss Avenue (Dry Harbor Road), Central Avenue (Cooper Avenue), Acton Street, Haverkamp Street, Ford Street, Varian Place, Sprague Street, Edsall Avenue and Central Avenue (Cooper Avenue), Borough of Queens, under which change a slight modification was made in the alignment of Central Avenue in the section between Edsall Avenue and Griffith Avenue, required to fully absorb old Cooper Avenue;

Resolved, That the Board of Estimate and Apportionment consider the advisability of requesting the Corporation Counsel to apply to the Supreme Court for an amendment of the proceeding herein so as to make it relate to Cooper Avenue and to Central Avenue between the limits named as now laid out, excluding cemetery lands, as said streets are now shown on the map or plan of The City of New York.

Resolved, That the Board of Estimate and Apportionment, in pursuance of the provisions of the Greater New York Charter, as amended, hereby gives notice of a proposed area of assessment for benefit in this proceeding as proposed to be amended, which area is shown on the following diagram:

See Diagram A on page 1058.

Resolved, That this Board consider the proposed area of assessment, at a meeting of the Board to be held in The City of New York, Borough of Manhattan, Room 16, City Hall, on the 15th day of March, 1918, at 10.30 o'clock A. M.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby to be published in the City Record for ten days continuously, Sundays and legal holidays excepted, prior to Friday, March 15, 1918.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

1st Street, from Jackson Avenue to 21st Avenue, Borough of Queens—Acquiring Title (Cal. No. 137).

The Secretary presented a resolution adopted October 19, 1916, by the Local Board of the Newtown District, Borough of Queens, initiating proceedings for this improvement; and the following report of the Chief Engineer:

Report No. 17339.

February 1st, 1918.

Hon. JOHN F. Hylan, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a resolution of the Local Board of the Newtown District, Borough of Queens, adopted on October 19th, 1916, initiating proceedings for acquiring title to 1st Street, from Jackson Avenue to 21st Avenue.

This resolution affects three blocks, or about 1,700 feet at the northerly end of 1st Street, which has been laid out upon the City Map to have a width of 60 feet. The street is not in use in the northerly block, but through the remaining distance a narrow roadway falls within its lines. There is a building at the northwesterly corner of Burnside Avenue, but this apparently falls wholly outside of the street area. A private cemetery fronting on Bowery Bay Road extends slightly within the lines of 1st Street, but from such information as is available it appears that there are no graves on the land needed for 1st Street; that the Cemetery never was incorporated under the Rural Cemetery Act, and that there is no restriction against its acquisition for street purposes.

In a communication, bearing date of July 18th, 1917, the Acting Borough President has requested that this proceeding be instituted at as early a date as practicable in order to place the owners of the abutting property in a position to permit of developing their holdings.

I would recommend the approval of the resolution; that title to the land be acquired in fee; that all of the cost and expense of the proceeding be assessed upon the property benefited, and that a district of assessment be laid out to include the area shown on the accompanying diagram. Respectfully,

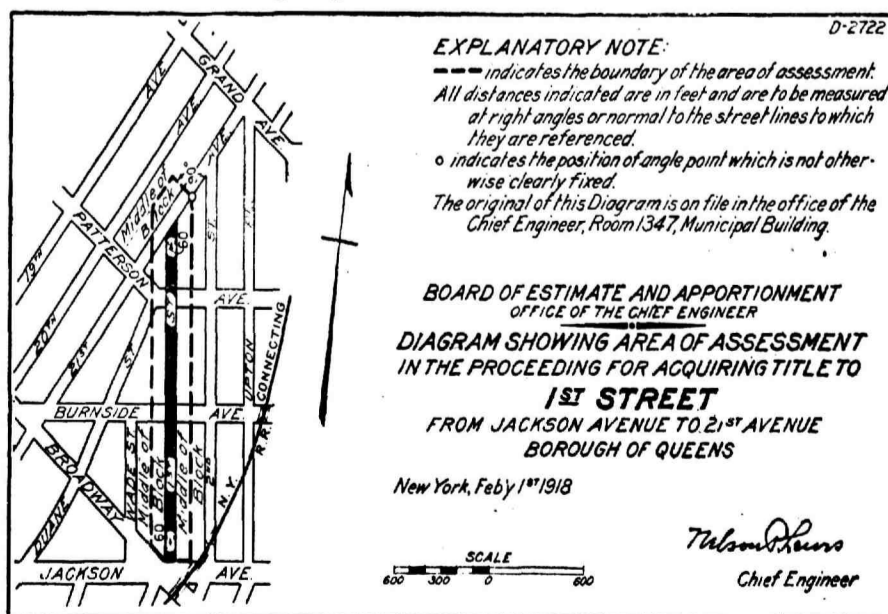

NELSON P. LEWIS, Chief Engineer.

The following was offered:

Whereas, The Board of Estimate and Apportionment of The City of New York is considering the advisability of instituting proceedings to acquire title to the real property required for the opening and extending of First street, from Jackson Avenue to 21st Avenue, in the Borough of Queens, City of New York; and

Whereas, The Board of Estimate and Apportionment is authorized and required at the time of the adoption of the resolution directing the institution of proceedings to acquire title to the real property required for the foregoing improvement to fix and determine upon an area or areas of assessment for benefit for said proceedings,

Resolved, That the Board of Estimate and Apportionment, in pursuance of the provisions of section 973 of the Greater New York Charter, as amended, hereby gives notice that the proposed area of assessment for benefit in these proceedings is as shown on the following diagram:

Resolved, That this Board consider the proposed area of assessment at a meeting of the Board to be held in The City of New York, Borough of Manhattan, in the City Hall, on Friday, March 15, 1918, at 10.30 o'clock a. m., and that at the same time and place a public hearing thereon will then and there be had.

The Secretary presented a resolution adopted December 5, 1917, by the Local Board of the Flatbush District, Borough of Brooklyn, initiating proceedings for this improvement; and the following report of the Chief Engineer:

Report No. 17322.

January 19, 1918.

Hon. JOHN F. Hylan, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a resolution of the Local Board of the Flatbush District, Borough of Brooklyn, adopted on December 5, 1917, recommending that the roadway width of Avenue I, from East 4th Street to Ocean Parkway, be fixed at 42 feet.

This street has been laid out upon the City Map to have a width of 80 feet and between the limits described has a length of two blocks, or about 500 feet. Under the general rule, the roadway should be 44 feet wide.

An inspection of the ground shows that the street is graded and flagged and that the curbing has been set in harmony with the legal requirements. Subsequent to the installation of these improvements, a number of shade trees have attained a considerable growth, with the effect of forcing the curbing out of alignment. A paving improvement is now awaiting the consideration of the Board, in connection with which it is proposed to install new curbing, and, in order to avoid the destruction of the shade trees, it is desired that provision be made for decreasing the roadway by taking one foot from each side.

I can see no reason why the change should not be favored and would recommend the adoption of a resolution fixing the roadway width of Avenue I, between the limits named, at 42 feet, the roadway to be centrally located. Respectfully,

NELSON P. LEWIS, Chief Engineer.

The matter was withdrawn by the President, Borough of Brooklyn.

Map Y, District 45, Borough of Brooklyn—Modification in Drainage Plan (Cal. No. 140).

(On January 11, 1918 (Cal. No. 5), the matter was laid over until this meeting. Report of the Chief Engineer is printed in the minutes of meeting of January 11, 1918.)

The Secretary presented a communication dated November 27, 1917, from the Commissioner of Public Works and Acting President, Borough of Brooklyn, transmitting for approval map showing proposed modification; and a report, dated January 5, 1918, from the Chief Engineer relative thereto.

The matter was laid over three weeks (March 1, 1918).

Fulton Street, from Fiske Avenue to Kolyer Street, and Finch Place, from Kolyer Street to Plover Place, Borough of Queens—Acquiring Title (Cal. No. 141).

(On September 15, 1916 (Cal. No. 15), the Board instituted a proceeding for acquiring title in this matter.)

(On November 16, 1917 (Cal. No. 142), on motion of the Acting President of the Borough of Queens, the Secretary was directed to request the Corporation Counsel to refrain from incurring any further expense in this proceeding, in so far as the portion of Finch place between Decker street and Plover place is concerned, pending the result of studies of the street system of the locality now in progress, having for their purpose the devising of a street system more economical than the one the City Plan at present provides.)

(On January 25, 1918 (Cal. No. 95), the matter was laid over until this meeting.)

The Secretary presented the following:

Long Island City, January 14, 1918.

JOSEPH HAAG, Esq., Secretary, Board of Estimate and Apportionment, New York City:
 Dear Sir—At the meeting of the Board of Estimate and Apportionment held November 16, 1917, the Secretary of the Board was directed to request the Corporation Counsel to refrain from incurring any further expense in the proceeding to acquire title to Fulton Street and Finch Place, in so far as the portion of Finch Place between Decker Street and Plover Place was concerned, pending the result of a study for a change of street plan in this locality. Pursuant to this action, the Commissioners have postponed the taking of testimony for claims on that portion of Finch Place.

The chief reason for this was to save expense. The property owners, however, refuse either to waive claims under section 1000 of the Charter, or to reimburse the City for expense already incurred. I desire, therefore, to suggest that the Corporation Counsel be requested to continue the taking of testimony and complete the proceeding as contemplated prior to November 16, 1917. Very truly yours,

RICHARD S. NEWCOMBE, Acting President of the Borough of Queens.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby rescinds the motion adopted by the Board on November 16, 1917, requesting the Corporation Counsel to refrain from incurring any further expense in the proceeding for acquiring title to Fulton street from Fiske Avenue to Kolyer street and to Finch place from Kolyer street to Plover place, Borough of Queens, in so far as the portion of Finch place between Decker street and Plover place is concerned; and be it further

Resolved, That the Corporation Counsel be and he hereby is requested to take the necessary steps to advance the said proceeding for acquiring title to Fulton street, from Fiske Avenue to Kolyer street, and to Finch place from Kolyer street to Plover place, Borough of Queens.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

Department of Public Charities—Approval of Expenditure of Funds (Cal. No. 142).

(On February 1, 1918 (Cal. No. 26), a report of the Bureau of Contract Supervision was presented; the matter was laid over for one week and referred to the Committee on Finance and Budget for report in the meantime.)

The Secretary presented a communication, dated December 22, 1917, from the Commissioner of Public Charities, requesting permission to expend a sum not exceeding \$350, in connection with the construction of the Central Storehouse and Elevator on Blackwell's Island; and the following report of the Comptroller, as Chairman, Committee on Finance and Budget, recommending approval thereof:

February 5, 1918.

To the Board of Estimate and Apportionment, The City of New York:

Gentlemen—The attached report of the Bureau of Contract Supervision, dated January 24, 1918, on the request of the Department of Public Charities for permission to expend the sum of \$350 for cutting cantilever girders and furnishing and installing

a 15-inch "I" beam at the north side of the passenger elevator opening in the concourse floor of the Central Storehouse on Blackwell's Island was referred to the Committee on Finance and Budget.

The Committee at its meeting held February 3, 1918, gave consideration to the request and recommends that favorable action be taken thereon in accordance with the resolution attached hereto. Respectfully,

CHARLES L. CRAIG, Comptroller, Chairman, Committee on Finance and Budget.

January 24, 1918.

To the Board of Estimate and Apportionment:

Gentlemen—On December 31, 1917, you referred to the Bureau of Contract Supervision a communication dated December 22, 1917, from the Department of Public Charities, requesting permission to expend the sum of \$350, of which \$250 is to pay for cutting cantilever girders and \$100 for furnishing and installing a 15-inch "I" beam at the north side of the passenger elevator opening in the concourse floor.

The erection of the structural steel work of the building was done under the supervision of Mr. Benjamin W. Levitan, Architect, by the Snare & Triest Co., Contractors.

The cantilever girders project from the storehouse building toward the Queensboro Bridge, to furnish support for the floor connecting the building and the bridge, at the level of the bridge roadway. When erected, in accordance with the plans, the ends of the cantilever girders came too close to the bridge fascia to allow for temperature expansion to be expected at this point, and, after conference with representatives of the Department of Plant and Structures, the cantilever girders were cut back by order of the architect, so that a sufficient expansion space was left between the bridge and the connecting floor of the building.

As to the furnishing and installing of the 15-inch I beam, two of the four passenger elevators originally provided for in the plans are to be omitted, and the beam was required in order to carry the upper or concourse floor over these shaft openings. It was put in by order of the architect.

Neither the cutting of the cantilever girders nor the furnishing and installing of the 15-inch beam was provided for in the plans for the structural steel work of the building.

The cost is to be charged against the fund entitled "CCH-58, Construction of a Central Storehouse and Elevators on Blackwells Island," in which there is a sufficient unencumbered balance.

I recommend the adoption of the attached resolution approving the expenditure of a sum not exceeding \$350, the actual amount to be finally determined by audit in the Department of Finance. Respectfully, FRANCIS P. BENT, Director.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to its resolution of July 11, 1913, hereby approves of the expenditure of a sum not exceeding three hundred and fifty dollars (\$350) for cutting cantilever girders and furnishing and installing a 15-inch "I" beam at the north side of the passenger elevator opening in the concourse floor of the storehouse building on Blackwells Island, under the jurisdiction of the Department of Public Charities, to be charged against the fund entitled "C-CH-58, Construction of a Central Storehouse and Elevators on Blackwells Island"; the actual amount to be finally determined by audit of the Department of Finance.

Hon. JOHN F. HYLAN, Mayor, and Chairman of the Commissioners of the Sinking Fund:

Dear Sir—There is an unencumbered balance in Code CDD-2D for the "Acquisition of property between West 44th and West 48th Streets" of \$1,296.26 and this Department has bills of costs taxed by the Supreme Court for expert services and office expenses aggregating \$9,300.39, leaving a balance required to liquidate these bills of costs of \$8,004.13.

February 2, 1918.

To the Commissioners of the Sinking Fund:

Gentlemen—On January 11, 1918, the Commissioner of Docks requested your Commission to recommend to the Board of Estimate and Apportionment that a further sum of \$25,000 be provided to meet the preliminary expenses of the condemnation proceedings now in progress for the acquisition of property between West 44th and West 48th Streets, North River. This request having been referred to the Comptroller for examination I have to report thereon as follows:

On November 4, 1914, your Commission recommended an authorization of \$25,000 in corporate stock, the proceeds to be applied to the payments of awards, costs and expenses in the above-mentioned proceeding and the Board of Estimate and Apportionment authorized the funds requested at a meeting held November 25, 1914. On September 7, 1917, in compliance with a request from the First Deputy and Acting Commissioner of Docks, your Commission recommended a further authorization of \$5,000, in pursuance of which the Board of Estimate and Apportionment authorized the additional funds so requested at a meeting held October 26, 1917.

Out of the funds provided to date, namely, \$30,000, there has been expended for the particular purposes indicated hereunder the sum of \$28,703.74, as follows:

For expert services.....	\$22,966 25
For the expenses of the Commissioners of Estimate and Appraisal.....	5,667 49
For photographs	70 00

Total	\$28,703 74
-------------	-------------

—leaving at present an available balance of \$1,296 26.

On January 7, 1918, the Acting Corporation Counsel transmitted to the Commissioner of Docks a certified copy of an order of the Supreme Court dated January 2, 1918, a copy of which has been filed and entered in the office of the County Clerk of New York County, taxing a bill of costs, charges and expenses in the sum of \$9,300.39, comprising \$7,648.75 for expert services in connection with the appraisal of real estate and the interests therein, and \$1,651.64 for reimbursement to the Fund for the Expenses of the Commissioners of Estimate and Appraisal for expenses of clerks, employees, office rent, etc., all incurred on behalf of The City of New York in connection with the acquisition of the property referred to.

These taxed costs, charges and expenses are payable as follows:

H. deB. Parsons, for expert services.....	\$4,800 00
D. A. Breen, for expert services.....	2,848 75
City of New York, for reimbursement of Fund for Expenses of Commissioners of Estimate and Appraisal.....	1,651 64

Total	\$9,300 39
-------------	------------

The immediate needs may be met by an authorization of \$10,000.

The adoption of the attached resolution granting the request to the extent of \$10,000, to permit the payment of the expenses taxed by the court is recommended.

Very truly yours,

CHARLES L. CRAIG, Comptroller.

Resolved, That pursuant to the provisions of section 180 of the Greater New York Charter, the Commissioners of the Sinking Fund hereby recommend to the Board of Estimate and Apportionment that the Comptroller be authorized to issue from time to time as may be required, corporate stock of the City of New York to an amount not exceeding ten thousand dollars (\$10,000), the proceeds to the amount of the par value thereof to be applied to the payment of costs and expenses in the proceeding to acquire title to property between West 44th and West 48th Streets, North River, for the uses and purposes of the Department of Docks and Ferries.

The report was accepted and the resolution unanimously adopted.

Pier A, North River, January 26, 1918.

Hon. JOHN F. HYLAN, Mayor, and Chairman of the Commissioners of the Sinking Fund:

Sir—I am in receipt of your communication of the 17th inst., transmitting communication from this Department, dated September 6, 1917, requesting the adoption of a resolution recommending to the Board of Estimate and Apportionment that the Comptroller be authorized to issue corporate stock in the sum of \$1,239,000 for the construction of the new shed on the pier at West 44th Street, which was referred back to the present Commissioner of Docks for his recommendation.

MURRAY HULBERT, Commissioner of Docks.

Street Cleaning Department—Renewal of Lease for, of Plot of Land on the North Side of W. 19th St., East of 11th Ave., Manhattan.

The Comptroller presented the following report and offered the following resolution:

January 24, 1918.

The Honorable the Commissioners of the Sinking Fund:

Gentlemen—The Commissioner of the Department of Street Cleaning, in a communication to your Board, requests the renewal of the lease of the vacant plot of land 100 feet front by 75 feet deep on the north side of West 19th Street, 18 feet east of 11th Avenue, Borough of Manhattan, occupied as a storage yard, in connection with Stable "E," at 408 W. 15th Street, for a period of one year from February 1, 1918, at the same rental as now paid.

The Comptroller, in a communication to your Board under date of January 31, 1917, recommended a renewal of this lease for a period of one year from February 1, 1917, at an annual rental of \$1,200, the same as now asked, and said report was approved and renewal authorized at a meeting of your Board held February 8, 1917. These premises are used as a storage yard in connection with Stable "E," at 408 W. 15th Street, for the storage of carts, trucks and machines. These premises, 100 feet by 75 feet, are part of a larger plot (assessed at \$212,000), with frontage on the easterly side of 11th Avenue, and running from 19th Street to 20th Street, and are not assessed separately. The proportionate value of the premises covered by this lease, based on front foot values on 19th Street; is \$46,800. The rental of \$1,200 is therefore about 2½ per cent. on this value.

I therefore respectfully recommend, the rent being reasonable and just and the same as previously paid, that the Commissioners of the Sinking Fund adopt a resolution authorizing a renewal of the lease of the vacant plot of land (100 feet front by 75 feet deep) on the northerly side of West 19th Street, 18 feet easterly from the easterly side of 11th Avenue, Borough of Manhattan, for use of the Department of Street Cleaning, for a period of one year from February 1, 1918, at an annual rental of \$1,200, payable quarterly, the lessor to pay taxes and assessments, the lessee to keep the present fence in repair and supply any additional fences it may require, furnish water if necessary, either party to have the right to cancel the lease upon 60 days written notice to the other party. Lessor, The City Real Estate Company, 176 Broadway, Manhattan. Respectfully.

LOUIS H. HAHLO, Deputy and Acting Comptroller.

Resolved. That the Commissioners of the Sinking Fund hereby approve of and consent to the execution, by the Commissioner of Street Cleaning, of a renewal of the lease to the City, of the vacant plot of land 100 feet front by 75 feet deep, on the northerly side of West 19th Street, 18 feet easterly from the easterly side of 11th Avenue, Borough of Manhattan, for use of the Department of Street Cleaning, for a period of one year from February 1, 1918, at an annual rental of twelve hundred dollars (\$1,200), payable quarterly; the lessor to pay taxes and assessments; the lessee to keep the present fence in repair and supply any additional fences it may require, and furnish water if necessary; either party to have the right to cancel the lease upon sixty days written notice to the other party. Lessor, The City Real Estate Company; the Commissioners of the Sinking Fund deeming the said rent fair and reasonable, and that it would be for the interests of the City that such lease be made.

The report was accepted and the resolution unanimously adopted.

Street Cleaning Department—Renewal of Lease for, of Premises 403 Butler St., Brooklyn.

The Comptroller brought the matter of the proposed lease to the Department of Street Cleaning of premises No. 403 Butler Street, Borough of Brooklyn, occupied as a stable, for a period of three years from January 10, 1918, at an annual rental of \$6,000, payable quarterly, which was on the calendar of meeting held January 31, 1918, and laid over.

Which was again laid over.

Police Department—Renewal of Lease for, of Premises at 36 E. 9th St., Manhattan.

The Comptroller presented the following report and offered the following resolution:

January 31, 1918.

To the Honorable the Commissioners of the Sinking Fund:

Gentlemen—The Commissioner of the Police Department, in a communication to your Board, requests a renewal of the lease of the premises at 36 East 9th Street, Borough of Manhattan, occupied by the Traffic Division, for a period of one year from February 1, 1918, at a rental of \$1,350 a year.

The Comptroller in a communication to your Board under date of December 16, 1916, recommended a renewal of this lease for a period of one year from February 1, 1917, at a rental of \$1,350 a year, the same as now asked, and said report was approved and renewal authorized at a meeting of your Board held December 21, 1916.

These premises have changed owners and it is necessary to execute a new lease with the present owner, who has agreed to lease to the City at the same rate and upon the same terms and conditions.

On January 17, 1918, the matter of the renewal of this lease was inadvertently placed upon the calendar of the Commission by the Secretary, without any report having been made by me in relation thereto. In the informal discussion which resulted from this circumstance it was suggested by the President of the Board of Aldermen, and concurred in by the Mayor, that the matter be referred back to the Police Commissioner for the purpose of ascertaining the necessity of having a lease of the premises in question, and also to inquire whether other space was not available at 300 Mulberry Street so that the rental could be saved.

I took this matter up by telephone with Commissioner Enright on January 30, 1918, and he informed me at that time that the premises were urgently required for the use of the Department. Shortly thereafter, and on the same date, I received from him a communication in which, after referring to the letter received by him from the Examiner of the Board of Aldermen, the Police Commissioner states:

"It is impossible for us to discontinue the use of these premises without seriously interfering with our work.

"I beg to state that I have made a personal investigation of this matter with the Inspector of the Traffic Division, together with the Lieutenant in Charge of the Division of Buildings, and there is nothing else we can do but ask for the renewal of this lease."

I therefore respectfully recommend, the rent being reasonable and just, that the Commissioners of the Sinking Fund adopt a resolution authorizing the execution of a lease of the store and basement in the premises, No. 36 East 9th Street, Borough of Manhattan, for use of the Police Department, for a period of one year from February 1, 1918, with the privilege of renewal for an additional year upon the same terms and conditions, at an annual rental of \$1,350, payable quarterly; the lessor to pay taxes and water rates, furnish steam heat and make outside repairs; the lessee to furnish light and janitor service. Lessor, Harry B. Raffel, 74 Broadway, Manhattan. Respectfully, CHARLES L. CRAIG, Comptroller.

Resolved, That the Corporation Counsel be and is hereby requested to prepare a lease to the City from Harry B. Raffel of the store and basement in the premises No. 36 East 9th Street, Borough of Manhattan, for use of the Police Department, for a period of one year from February 1, 1918, with the privilege of renewal for an additional year upon the same terms and conditions, at an annual rental of one thousand three hundred and fifty dollars (\$1,350), payable quarterly; the lessor to pay taxes and water rates, furnish steam heat and make outside repairs; the lessee to furnish light and janitor service.

—and the Commissioners of the Sinking Fund deeming the said rent fair and reasonable, and that it would be for the interest of the City that such lease be made, the Comptroller be and is hereby authorized and directed to execute the same when prepared and approved by the Corporation Counsel as provided by sections 149 and 217 of the Greater New York Charter.

The report was accepted and the resolution unanimously adopted.

Appellate Term, Supreme Court—Renewal of Lease for, of Premises at 236 Duffield St., Brooklyn.

The Comptroller presented the following report and offered the following resolution:

February 7, 1918.

To the Honorable the Commissioners of the Sinking Fund:

Gentlemen—The Chief Clerk of the Appellate Term of the Supreme Court, in a communication to your Board, under date of January 17, 1918, states that it is the intention to remove the Court now occupied under lease expiring March 1, 1918, at 503 Fulton Street (236 Duffield Street) to the Kings County Court House upon the completion of the repairs to said Court House. As these repairs will not be completed before the expiration of the lease on March 1, 1918, he suggests a month to month arrangement be entered into until such time as the Court House is ready for occupancy.

The Commissioners of the Sinking Fund, at a meeting held January 25, 1917, authorized a renewal of this lease for a term of one year from March 1, 1918, with the privilege of renewal for a further period of one year on the same terms and conditions at an annual rental of \$5,000.

The premises leased consist of 5,960 sq. ft. on the fourth floor at a rental at the rate of \$5,000 a year, which is at the rate of 84 cents per sq. ft. per year. This rental includes heat, electric light, elevator and janitor service and water. While space for some City departments is leased in this building for 80 cents per sq. ft., as against 84 cents in this case, the difference is accounted for by the larger outlay to the owners in fitting up the quarters for this Court. The rental to other than City departments is \$1.00 per sq. ft. There are no vacant City-owned buildings in the locality which could be utilized for this purpose. The only property under lease to the City which is not in use for the purpose leased, is a building at 145 Lawrence Street—with a less floor space, which was originally leased for the Health Department but abandoned owing to lack of funds. This building is rented by the City at \$70.00 per month.

The request from the Court does not state any definite period for the renewal requested, and while the Court House may be completed in April or May next, the leasing has been made for a period not to exceed one year, on a month to month basis, which may be terminated by the City any month.

I therefore respectfully recommend, the rent being reasonable and just and the same as previously paid, that the Commissioners of the Sinking Fund authorize a renewal of lease of a portion of the fourth floor (containing approximately 5,960 sq. ft.) in the Offerman Building—said portion of the building having a frontage on Duffield Street, being known as 236 Duffield Street, Borough of Brooklyn, for use of the Appellate Term of the Supreme Court, Second Judicial Department, for a period of one year from March 1, 1918, at an annual rental of \$5,000, payable monthly. The lease to contain a clause whereby the City may cancel the same on the first day of any month by giving 30 days' notice in writing to the lessors—the lessors have orally agreed to this condition, and will confirm said agreement by letter; the lessors to pay taxes and water rates, furnish heat, electric light, elevator and janitor, and agree that none of the floors of said building will be used for any purpose that will cause noise or vibration in said Court room; also that no merchandise under any circumstances will be carried into the building between the hours of 8.45 and 11 a. m. Lessors—C. Henry Offerman, Lena Maria Rasch, Anna C. Schmidt, John Offerman and Theodore Offerman. Respectfully, CHARLES L. CRAIG, Comptroller.

Resolved, That the Comptroller be and is hereby authorized and directed to execute a renewal of the lease to the City, of a portion of the fourth floor (containing approximately 5,960 square feet) in the Offerman Building, said portion of the building having a frontage on Duffield Street and known as 236 Duffield Street, Borough of Brooklyn, for use of the Appellate Term of the Supreme Court, Second

Judicial Department, for a period of one year from March 1, 1918, at an annual rental of five thousand dollars (\$5,000) payable monthly; the lease to contain a clause whereby the City may cancel the same on the first day of any month by giving thirty days' notice in writing to the lessors; the lessors to pay taxes and water rates, furnish heat, electric light, elevator and janitor service and agree that none of the floors of said building will be used for any purpose that will cause noise or vibration in said Court Room; also that no merchandise under any circumstances will be carried into the building between the hours of 8.45 and 11 A. M.; lessors, C. Henry Offerman, Lena Maria Rasch, Anna C. Schmidt, John Offerman and Theodore Offerman; the Commissioners of the Sinking Fund deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made.

The report was accepted and the resolution unanimously adopted.

Children's Court, Kings County—Renewals of Leases for, of Premises at 98 Court St. and at 100-104 Court St., Brooklyn.

The Comptroller presented the following report and offered the following resolutions:

February 7, 1918.

To the Honorable, the Commissioners of the Sinking Fund:

Gentlemen—Justice Robert J. Wilkin, Resident Justice of the Children's Court, Borough of Brooklyn, in a communication to your Board under date of December 7, 1917, requests a renewal of the two leases of the premises occupied by the Children's Court at Nos. 98-100-102-104 Court Street, Brooklyn, for a period of one year from February 15, 1918, with privilege of brief periods of renewal thereafter.

The premises in question are rented under two leases made at different times, one for the second floor, containing 1,200 square feet, of No. 98 Court Street, at a rental of \$693 a year, for a period ending February 15, 1918, with privilege of renewal for a further term of one year or more, at a rental of \$400 a year. The other lease is for space on the second, third and fourth floors of No. 100 Court Street, and the second and third floors of Nos. 102-104 Court Street. These premises contain 7381 square feet of space and are rented for \$4,000 a year for a term ending February 15, 1918.

The lessors demanded an increased rental of \$4,428 a year, but after negotiations by the Division of Real Estate of this Department, they have consented to renew this lease at the same rental as now paid. The present rental is at the rate of 54c. a square foot. Similar space on the second and third floors of premises at the southwest corner of Schermerhorn and Court Streets on the same block, rents for 66 2/3c. a square foot, the lessee to make all repairs.

The City's lease provides that the lessor shall make all repairs. The owners have also agreed to cancel this lease upon sixty days' notice in the event of the new Children's Court building being ready for occupancy.

The nearest City property is at the southeast corner of Court and Joralemon Streets, acquired for park purposes, and while containing ample square foot floor area, the cost to put same in condition for Court purposes would be very expensive. There is also a 3-story brick stable building at 146-148 Pierrepont Street (under the jurisdiction of the Brooklyn Public Library), which is in a very dilapidated condition and would require extensive repairs before it could be used by this Court. The City has a lease on Room 803, 50 Court Street, which expires on March 15, 1921. This room contains 666 square feet and is inadequate for the needs of said Court.

Considering that similar quarters cannot be obtained in this vicinity at a less rental, and that a new building will be erected for this Court, I think the City's interest will be best served by renewing this lease at the rental asked.

I therefore respectfully recommend, the rent being reasonable and just, that the Commissioners of the Sinking Fund adopt a resolution authorizing a renewal of the lease of the second floor of the premises at 98 Court Street, Borough of Brooklyn, for use of the Children's Court of the County of Kings, for a period of five years from February 15, 1918, at an annual rental of \$400, payable quarterly, the lessor to pay taxes and water rates and make all inside and outside repairs; the lessee to furnish heat, light and janitor service. The lease to contain a clause whereby the City shall have the right to cancel the same at any time, in the event that the new Children's Court building, to be erected on Schermerhorn Street, between Smith Street and Boerum Place, Borough of Brooklyn, is ready for occupation, upon giving sixty days' notice in writing to the lessor of its intention so to do. Lessor, State Court Holding Corporation, 44 Court Street, Brooklyn. Respectfully, CHARLES L. CRAIG, Comptroller.

Also, that the Commissioners of the Sinking Fund, the rent being reasonable, adopt a further resolution authorizing a renewal of the lease of the rooms occupied by the Children's Court at Nos. 100-102-104 Court Street, Borough of Brooklyn, consisting of the second, third and fourth floors of 100 Court Street, and the second and third floors of Nos. 102-104 Court Street, for a period of five years from February 15, 1918, at a rental of \$4,000 a year, payable quarterly, for use of the Children's Court of the County of Kings; the lessor to pay taxes and water rates and make all outside and inside repairs; the lessee to furnish heat, light and janitor service. The lease to contain a clause whereby the City shall have the right to cancel the same at any time, in the event that the new Children's Court building, to be erected on Schermerhorn Street, between Smith Street and Boerum Place, Borough of Brooklyn, is ready for occupancy, upon giving sixty days' notice in writing to the lessor of its intention so to do; Lessor, State Court Holding Corporation, 44 Court Street, Brooklyn. Respectfully, CHARLES L. CRAIG, Comptroller.

Resolved, That the Comptroller be and is hereby authorized and directed to execute a renewal of the lease to the City, of the second floor of premises at 98 Court Street, Borough of Brooklyn, for use of the Children's Court of the County of Kings, for a period of five years from February 15, 1918, at an annual rental of four hundred dollars (\$400), payable quarterly; the lessor to pay taxes and water rates and make all inside and outside repairs; the lessee to furnish heat; light and janitor service. The lease to contain a clause whereby the City shall have the right to cancel the same at any time, in the event that the new Children's Court building to be erected on Schermerhorn Street, between Smith Street and Boerum Place, Borough of Brooklyn, is ready for occupancy, upon giving sixty days' notice in writing to the lessor of its intention so to do; Lessor, State Court Holding Corporation; the Commissioners of the Sinking Fund deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made.

Resolved, That the Comptroller be and is hereby authorized and directed to execute a renewal of the lease to the City, of the rooms occupied by the Children's Court at Nos. 100-102-104 Court Street, Borough of Brooklyn, consisting of the second, third and fourth floors of 100 Court Street, and the second and third floors of 102-104 Court Street, for a period of five years from February 15, 1918, at a rental of four thousand dollars (\$4,000) a year, payable quarterly, for use of the Children's Court of the County of Kings; the lessor to pay taxes and water rates and make all outside and inside repairs; the lessee to furnish heat, light and janitor service. The lease to contain a clause whereby the City shall have the right to cancel the same at any time in the event that the new Children's Court Building, to be erected on Schermerhorn Street, between Smith Street and Boerum Place, Borough of Brooklyn, is ready for occupancy, upon giving sixty days' notice in writing to the lessor of its intention so to do; Lessor, State Court Holding Corporation; the Commissioners of the Sinking Fund deeming the said rent fair and reasonable, and that it would be for the interest of the City that such lease be made.

The report was accepted and the resolutions severally unanimously adopted.

First District Municipal Court—Lease for, of Premises at 106-110 Court St., Brooklyn.

The Comptroller presented a report recommending a lease of the entire second floor and five rooms on the third floor in the building, 106-110 Court st., Borough of Brooklyn, and the store-floor of 104-106 Court St., Brooklyn, together with 1778 square feet in the basement under said store, for a term of five years from February 15, 1918, at an annual rental of \$5,600, payable quarterly; the lessor to pay taxes and water rates, make all inside and outside repairs in the premises herein demised and furnish and install a radiator in the store-floor of the premises and cover the steam pipes with asbestos to the satisfaction of the justices of this Court; the lessee to furnish heat, light and janitor service.

These premises are now occupied by the Court under a lease which expires February 15, 1918.

Which was laid over.

Bellevue and Allied Hospitals—Renewal of Lease for, of Premises at No. 426 E. 26th St., Manhattan.

The Comptroller presented the following report and offered the following resolution:

February 2, 1918.

To the Honorable, the Commissioners of the Sinking Fund:

Gentlemen—The Secretary of the Board of Trustees of Bellevue and Allied Hospitals, in a communication to your Board, requests a renewal of the lease of Rooms 226 to 238 inclusive, in the premises 426 East 26th Street, Borough of Manhattan, occupied as dormitories for the nurses at Bellevue Hospital, for a period of one year from March 1, 1918, at the same rental as now paid.

The Commissioners of the Sinking Fund at a meeting of their Board held February 8, 1917, authorized a renewal of this lease for a period of one year from March 1, 1917, at a rental of \$2,700 a year, the same as now asked.

The premises covered by this lease consist of thirteen rooms, with an average size of 7 feet 6 inches by 16 feet with a total floor area of 1,484 square feet, exclusive of toilets, baths and halls.

At the rental of \$2,700 a year, including steam heat, elevator and janitor service, electric lights and water rates, the rate per square foot per year is about \$1.81, or at the rate per room per year of about \$207.70.

Rooms on the third floor, identical with the rooms leased by the City, rent for \$216 to \$240 per year per room to outside nurses. At the minimum rate of \$216 per year per room, the thirteen rooms occupied by the City would rent for \$2,808 per year. This comparison shows the rent paid by the City to be reasonable.

I therefore respectfully recommend, the rent being reasonable and just and the same as previously paid, that the Commissioners of the Sinking Fund adopt a resolution authorizing a renewal of the lease of Rooms 226 to 238 inclusive, with baths and toilets, on the second floor of the East 25th Street wing or extension of the six and seven story and basement brick building, known as Osborn Hall, No. 426 East 26th Street, Borough of Manhattan, for use of the Board of Trustees of Bellevue and Allied Hospitals, for a period of one year from March 1, 1918, at an annual rental of \$2,700, payable quarterly; the lessor to pay taxes and water rates and furnish electric light, steam heat, elevator and janitor service. Lessor, Alumnae Association of the Bellevue Training School for Nurses, 426 East 26th Street, Manhattan.

Respectfully,

CHARLES L. CRAIG, Comptroller.

Resolved, That the Comptroller be and is hereby authorized and directed to execute a renewal of the lease to the City of Rooms 226 to 238, inclusive, with baths and toilets, on the second floor of the East 25th Street wing or extension of the building known as Osborn Hall, No. 426 East 26th Street, Borough of Manhattan, for use of the Trustees of Bellevue and Allied Hospitals, for a period of one year from March 1, 1918, at an annual rental of Twenty-seven hundred dollars (\$2,700), payable quarterly; the lessor to pay taxes and water rates and furnish electric light, steam heat, elevator and janitor service; lessor, Alumnae Association of the Bellevue Training School for Nurses; the Commissioners of the Sinking Fund deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made.

The report was accepted and the resolution unanimously adopted.

Munsey, for Rooms 123 to 129 inclusive, in the Stewart Building, 280 Broadway, Manhattan, occupied by the Commissioner of Jurors for the months of December, 1917, and January, 1918, at the rate of \$5,183.64 per annum, without the necessity of entering into a lease therefor, or the sum of \$863.94.

The report was accepted and the resolutions severally unanimously adopted.

Health Department—Renewal of Lease for, of Premises at 114 Fulton Ave., Astoria, Queens.

The Comptroller presented the following report and offered the following resolution:

The Comptroller presented the following report and offered the following resolution:

January 14, 1918.

To the Honorable the Commissioners of the Sinking Fund:

Gentlemen—The Secretary of the Department of Health in a communication to your Board requests a renewal of the lease of the premises occupied by the Department of Health as a Baby Health Station, at 167 Hopkins Street, Borough of Brooklyn, for a period of one year from January 15, 1918, at the same rental as now paid.

These premises consist of a store 13 feet 6 inches by 36 feet with rear room 15 feet by 16 feet and storage space 10 feet by 5 feet in cellar, and have been rented by the City since 1912, at an annual rental of \$300, with \$54 added for heat and light, or a total of \$354 a year.

The cost to the owner for gas for heat and light is greatly in excess of the amount allowed, and the owner refuses to renew the lease on the old basis of \$354 a year, but has consented to renew the lease at a rental of \$300 a year, provided the City furnish its own heat and light.

I therefore respectfully recommend, the rent being reasonable and just, that the Commissioners of the Sinking Fund adopt a resolution authorizing a renewal of the lease of the store 13 feet 6 inches by 36 feet with rear room on ground floor and store room in cellar, in the three-story frame building at 167 Hopkins Street, Borough of Brooklyn, for use of the Department of Health, for a period of one year from January 15, 1918, at an annual rental of \$300, payable quarterly; the lessor to pay taxes and water rates and make outside repairs, the lessee to furnish heat, light and janitor service and make such interior alterations and repairs during occupancy as it may deem necessary. President, Borough of Queens—Hiring by, of Lands Upon Which Triangulation Towers Are Erected.

The Comptroller presented the following report and offered the following resolution:

February 8, 1918.

To the Honorable the Commissioners of the Sinking Fund:

Gentlemen—The Acting President of the Borough of Queens, in a communication to your Board under date of December 21, 1917, requests that authority be given to continue the payment of rent for land upon which the triangulation towers are erected, and occupied by the President of the Borough of Queens, for the purpose of making the final map surveys of said Borough, without the necessity of entering into a lease therefor.

The rent asked per annum in each case is the same as heretofore paid.

The Comptroller in a communication to your Board under date of December 16, 1916, recommended that authority be given for the payment of these rents without the necessity of entering into a lease, and said report was approved and such authority given the Comptroller at a meeting of your Board held December 21, 1916.

The President of the Borough of Queens, replying to a communication addressed to him under date of January 17, 1918, relative to the necessity of renting lands upon which triangulation towers are erected throughout the Borough of Queens, and whether it would be the best policy for the City to enter into a lease with the various owners, states that the erection of these towers was contemplated by the Topographical Bureau, the Engineer in charge having consulted the various owners of land on which said towers were to be erected, the sites being the highest points in the Borough.

The sites in question were in the majority of cases in the midst of farms whose acreage averaged approximately 25 to 100 acres. The owners agreed verbally to permit the City to erect the triangulation towers on their property, but would not enter into an agreement in writing, for the reason that a lease might be detrimental to the sale of their land and cause considerable depreciation of same on account of there being a restriction on said lands due to their entering into a lease with the City for a given number of years.

Due to the urgent necessity for these towers to the accuracy of the final mapping of the Borough, it was deemed to the best interests of the City to accept a verbal agreement for the erection of the towers from year to year at a rental which was deemed to be fair and reasonable, on account of the area covered by each tower.

Deeming the rent reasonable and just and it being the same as heretofore paid, I respectfully recommend that the Commissioners of the Sinking Fund adopt a resolution authorizing the Comptroller to pay the following rentals without the necessity of entering into a lease therefor, for the lands upon which the triangulation towers are erected in the Borough of Queens, for the use of the President of the Borough of Queens:

Land on New York Avenue and Rockaway Road, from May 1, 1917, to May 1, 1918, lessor, Lear Jager.....	\$50 00
Land at Little Neck and Hyde Park Roads, Third Ward, from October 30, 1917, to October 30, 1918, lessor, Mrs. E. L. Schenck.....	75 00
Land on Cedar Grove Cemetery, Third Ward, from November 27, 1917, to November 27, 1918, lessor, Forest Hill Estate, Inc.....	75 00
Land south of Mill Road and west of Jamaica Avenue, Third Ward, from November 29, 1917, to November 29, 1918, lessor, Maurice B. Blumenthal.....	50 00

Respectfully, CHARLES L. CRAIG, Comptroller.

Resolved, That the Comptroller be and is hereby authorized to pay the following rentals for the lands upon which triangulation towers are erected in the Borough of Queens and occupied by the President of the Borough of Queens, without the necessity of entering into a lease therefor:

Land on New York Avenue and Rockaway Road, from May 1, 1917, to May 1, 1918; lessor, Lear Jager.....	\$50 00
Land at Little Neck and Hyde Park Roads, Third Ward, from October 30, 1917, to October 30, 1918; lessor, Mrs. E. L. Schenck.....	75 00
Land on Cedar Grove Cemetery, Third Ward, from November 27, 1917, to November 27, 1918; lessor, Forest Hills Estate, Inc.....	75 00
Land south of Mill Road and west of Jamaica Avenue, Third Ward, from November 29, 1917, to November 29, 1918; lessor, Maurice B. Blumenthal.....	50 00

The report was accepted and the resolution unanimously adopted.

Chief Medical Examiner—Assignment to, of Two Rooms in the Masonic Temple Building, Corner of Bay and Sands Sts., Stapleton, Richmond.

The Comptroller presented the following report and offered the following resolution:

January 28, 1918.

To the Honorable the Commissioners of the Sinking Fund:

Gentlemen—At a meeting of the Commissioners of the Sinking Fund held January 17, 1918, there was referred to the Comptroller a communication from the Chief Medical Examiner requesting the assignment to him of two rooms vacant, in the building occupied by the Department of Health in the Borough of Richmond, which would be suitable for his purposes.

The premises now occupied by the Chief Medical Examiner are located at 175 Second Street, New Brighton, Borough of Richmond, the lease of which expired January 1, 1918. The rental was at the rate of \$600 per annum, the City supplying heat, light and janitor service.

The Department of Health is occupying the second floor in the Masonic Temple Building, located at the northwest corner of Bay and Sands Streets, Stapleton, Borough of Richmond, under a lease for a period of five years from November 1, 1913, the owner paying taxes and water rates and supplying heat, light and janitor service.

An investigation of these offices shows that two of the rooms in the premises occupied by the Department of Health can, without inconvenience to that Department, be used by the Chief Medical Examiner until the new Court House building at St. George, Staten Island, is ready for occupancy. The Commissioner of Public Works in the Borough of Richmond has stated that this building will be ready for occupancy shortly after April 1, 1918, and that space therein will be assigned to the Chief Medical Examiner.

I therefore respectfully recommend that the Commissioners of the Sinking Fund assign to the Chief Medical Examiner two rooms in the northeast portion of the second floor of the Masonic Temple Building, now occupied by the Department of Health, located at the northwest corner of Bay and Sands Streets, Stapleton, Borough of Richmond. Respectfully,

LOUIS H. HAHLO, Deputy and Acting Comptroller.

Whereas, The Department of Health having consented to the following assignment, it is

Resolved, That the Commissioners of the Sinking Fund hereby assign to the Chief Medical Examiner two rooms in the northeast portion of the second floor of the Masonic Temple Building, located at the northwest corner of Bay and Sands Streets, Stapleton, Borough of Richmond, now occupied by the Department of Health. The report was accepted and the resolution unanimously adopted.

Release of the City's Interest in Portions of Riker Ave., Between 7th Ave. and Steinway Ave., Queens, to the Huddleston Marsh Mahogany Company, F. W. Kirsch, Inc. and the Astoria Veneer Mills and Dock Company.

The Comptroller presented the following report and offered the following resolutions:

February 11, 1918.

To the Honorable the Commissioners of the Sinking Fund:

Gentlemen—By deed dated May 29, 1906, Messrs. Steinway & Sons conveyed to the City all that piece or parcel of land lying in the Borough of Queens, City of New York, known and designated on a certain map known as the Commissioners' Map of Long Island City, filed in the office of the Clerk of the County of Queens, as Steinway Avenue, for the full width thereof, from the northeasterly side of Winthrop Avenue, as shown on said map, to the northeasterly side of Riker Avenue, shown on said map. Also all that lot, piece or parcel of land lying and being in the Borough of Queens, City of New York, and designated on said map as Riker Avenue, from the northwesterly side of Steinway Avenue, as shown on said map, to the northeasterly line of Blackwell Street, as shown on said map, for the full width thereof.

The recital in this deed refers to the map above mentioned as the Commissioners' Map of Long Island City, filed in the office of the Clerk of the County of Queens, on the 25th day of April, 1873. This map shows the width of Riker Avenue at 130 feet. Chapter 414 of the Laws of 1880 fixes the width of Riker Avenue at 80 feet.

I am in receipt of a communication to the Commissioners of the Sinking Fund from Edgar P. Foster, attorney for Messrs. Steinway & Sons, in which he states that the reference to the Commissioners' Map in the deed carries back to the Commissioners' Map of Long Island City, filed in the office of the Clerk of the County of Queens on the 25th day of April, 1873, which fixed the width of Riker Avenue at 130 feet. Chapter 414 of the Laws of 1880 fixed the width of Riker Avenue at 80 feet. Mr. Foster states that it was the intention to cede Riker Avenue as it was laid out in 1906, and he requests a release from the City of that portion of the premises lying between the original southerly line of Riker Avenue and the present southerly line of Riker Avenue, as vested in the City for street purposes.

The Corporation Counsel, in a communication dated November 27, 1917, states that he sees no reason why the City cannot convey its interest in the land which lies within the old, but outside the new, lines of Riker Avenue.

I requested the Corporation Counsel to further advise me of the nature and extent of the City's interest and the interest of the property owners in that portion of the property ceded for street purposes, which was not incorporated in, and which does not form part of, Riker Avenue.

In a communication dated February 8, 1918, the Corporation Counsel stated that Steinway & Sons ceded land within the lines of Riker Avenue, in pursuance to the provisions of section 992 of the Greater New York Charter, and that, under the authority of said statute, all that the City could receive under this deed was the land within the lines of Riker Avenue, as laid down on the final City map.

Riker Avenue, as shown on the final City map at that time, was 80 feet wide and not 130 feet wide, as shown on the map of the Commissioners of Long Island City, which was the map referred to in the deed of cession.

He further states that, in view of the foregoing, he is of the opinion that the conveyance by Steinway & Sons of Riker Avenue, as shown on the Commissioners' Map, was not sufficient to vest the legal title of that portion of the land which lay outside of the lines of Riker Avenue, as shown on the final map of the City of New York, as it existed May 29, 1906, and, therefore, the interest that the City has in said premises is merely nominal and a cloud on the title of the owners of said strip of land.

The attorney for Steinway & Sons states that the abutting owners are the Astoria Veneer Mills and Dock Company of that portion of Riker Avenue lying between Seventh and Ninth Avenues, and the Huddleston Marsh Mahogany Company is the owner of one-half, and the F. W. Kirsch, Inc., of the other half, between 9th and Steinway Avenues.

I, therefore, respectfully recommend that the Commissioners of the Sinking Fund authorize a release to the Astoria Veneer Mills and Dock Company of the City's interest in and to all those certain pieces or parcels of land situate, lying and

being in the Borough of Queens, City and State of New York, more particularly bounded and described as follows:

And that they adopt a further resolution authorizing a release of the City's interest to the Huddleston Marsh Mahogany Company in and to all that piece or parcel of land situate, lying and being in the Borough of Queens, City and State of New York, more particularly bounded and described as follows:

And that they adopt a further resolution authorizing a release to F. W. Kirsch, Inc., of the City's interest in and to all that piece or parcel of land situate, lying and being in the Borough of Queens, City and State of New York, more particularly bounded and described as follows:

Park Department, Bronx—Application of the National Naval Reservists for Permission to Occupy Additional Land in Pelham Bay Park.

The following was received from the Commissioner of Parks:

January 31, 1918.

Sinking Fund Commission:

Gentlemen—I submit to you herewith a copy of application made to this department by Commander W. B. Franklin, of the National Naval Reservists, asking for permission to occupy additional land in Pelham Bay Park, at the instance of the Navy Department, to accommodate 10,000 Reservists.

I informed His Honor the Mayor that I would make application to your Honorable body for approval of this request, and I am ready to grant permit on such approval.

The following is a description of the land requested under this application, as prepared by the Engineer of this department:

"Beginning at a point on the northerly high water line of Eastchester Bay, distant 100 feet east of Eastern Boulevard, running thence northerly parallel to Eastern Boulevard, and distant 100 feet east therefrom, to the southerly side of City Island Road; thence easterly along the southerly side of City Island Road, to the westerly boundary of the plot now occupied by the Navy Department; thence southerly and westerly along said old boundary line to the high water

line of Eastchester Bay; thence along said high water line to the point or place of beginning."

I should inform you that in the reservation proposed to be taken are two leased buildings belonging to the City. One of these is rented for One Dollar per year to the Society for Crippled Children.

This building is not in use at the present time; it is used only in the summer months.

The other building consists of a small lodge house, and is leased for a nominal consideration.

The fact of these leases should not, in my judgment, affect the granting of a permit, because they are revocable by the Park Commissioner in any event, and, in the second place, if necessary, some other equally as good provision perhaps could be made for a home for the Crippled Children for the summer.

I think the permits could be granted subject to these two leases, and leave the question of cancellation of them to be determined afterwards.

Awaiting the action of your Honorable Board, I remain, very truly yours,
JOSEPH T. HENNESSY, Commissioner of Parks, Borough of The Bronx.

Naval Training Camp, Pelham Bay Park, New York, N. Y., January 31, 1918.
Hon. J. P. HENNESSY, Park Commissioner, Borough of Bronx, New York, New York:

Dear Sir—The Navy Department is anxious to secure from The City of New York a site for the establishment of a temporary training station for the Naval Reservists, to be sufficiently large to accommodate 10,000 men and desires to extend the Camp now occupied in Pelham Bay Park.

Knowing your interest in this matter, I am, on behalf of the Navy Department, asking the loan of the land lying between that now occupied by the Camp, and the Pelham Boulevard, and lying westward of the road between the City Island Station and City Island.

It is the Commandant's intention, upon receipt of official confirmation by the Mayor of New York City, to proceed with the work of erecting a training station on this land.

The Navy Department will undertake to restore the parkway to you in as nearly as possible its present condition at the end of the war and the Commandant will greatly appreciate any advice that you may be able to give him so that improvements he makes will coincide with the developments that The City of New York has contemplated for the improvement of this property.

Sincerely trusting that you will be able to secure the approval of the Mayor and the Sinking Fund Commission to this loan and the authorization by them for the use of the property by the Government, I remain, yours very truly,
(Signed) W. B. FRANKLIN, Commander, N. N. V.

The Comptroller called the attention of the Board to the fact that as a matter of law the Commissioners of the Sinking Fund have no power in the matter; that at the meeting held June 28, 1917 (See Min. Page 710), the Commissioners of the Sinking Fund endorsed the action of His Honor the Mayor in requesting the Commissioner of Parks for the Borough of The Bronx to grant a permit to the Navy Department for the use of Rodman's Neck in Pelham Bay Park in the Borough of The Bronx as a site for a camp during the period of the war. The Mayor then requested similar action in regard to this application.

The following resolution was then offered for adoption:

Resolved, That the Commissioners of the Sinking Fund hereby endorse the action of His Honor the Mayor in requesting the Commissioner of Parks for the Borough of The Bronx to issue a permit to the Navy Department to occupy additional land in Pelham Bay Park, Borough of The Bronx, to accommodate 10,000 reservists.

Which resolution was unanimously adopted.

Application of Deacon Murphy, First Lieutenant, S. C., U. S. N. A., on Behalf of the Surgeon General, for Permission to Occupy Certain City Property.

Laid over and the Secretary directed to request Mr. Murphy to be present at the next meeting.

Note—At this point the Chamberlain was excused, and withdrew from the meeting.

Investment of \$27,000,000 in General Fund Bonds.

The Comptroller presented the following report and offered the following resolution:

February 11, 1918.

To the Commissioners of the Sinking Fund:

Gentlemen—Chapter 103 of the Laws of 1903, as amended, entitled "An Act to amend the Greater New York Charter relative to the Sinking Fund of The City of New York for the Redemption of the City Debt, by adding a new section to be known as section Two Hundred and Twenty-two, providing for the issue of additional bonds of The City of New York, to be called General Fund Bonds, and by amending section One Hundred and Sixty-nine of said Charter," provides:

General Fund Bonds, New York.

First: "The Board of Commissioners of the Sinking Fund, in the year 1903, and in each year thereafter until all of the bonds and stock which are redeemable from the fund known as the 'Sinking Fund of The City of New York for the Redemption of the City Debt' shall have matured, shall set apart out of the revenues and income of said Sinking Fund, except the income and accumulation thereof derived from assets held by said Sinking Fund on January 1, 1903, and except also the income and accumulation thereof derived from the amount to be thus annually set apart, a sum, which, with the accumulation of interest thereon, together with the said assets of said Sinking Fund and the earnings and accumulation thereof, shall be sufficient to redeem at maturity all the bonds and stock of The City of New York which are redeemable from said Sinking Fund."

Second: "At least two weeks before the meeting of the Board of Aldermen, in each and every year, for the purpose of receiving the Assessment Rolls required to be delivered by the Board of Taxes and Assessments to the Board of Aldermen, the Board of Commissioners of the Sinking Fund may, in its discretion, certify to the Board of Aldermen the amount, as estimated by said Board of Commissioners, of revenue or income from all sources of 'the Sinking Fund of The City of New York for the Redemption of the City Debt' during the then calendar year, and also the amount required by this section to be set apart for such calendar year out of such revenues and income for the redemption of bonds and stock."

Investment of Surplus Revenues in General Fund Bonds.

Third: "If in any year the said estimated amount of revenues or income of said Sinking Fund, excepting the income and accumulation thereof derived from the assets held by said Sinking Fund on January first, nineteen hundred and three, and from the amounts annually set apart for the redemption of bonds and stock as by this section required shall exceed the amount required to be set apart in such year as in this section provided, the Board of Commissioners of the Sinking Fund may, in its discretion, at the time of making said certificates to the Board of Aldermen, determine to invest the whole or any part of the amount of such excess in General Fund Bonds of The City of New York for the account of the 'Sinking Fund of The City of New York for the Redemption of the City Debt,' but such investments shall not be made in any year until the amount required by this section to be set apart for such year, as provided herein, shall have been so set apart."

Fourth: "The Board of Commissioners of the Sinking Fund shall then notify the Board of Aldermen and the Comptroller of the amount it has determined to invest in General Fund Bonds during the current year, and the Comptroller shall include said amount in the certificate of estimated revenues of the General Fund required to be by him made to the Board of Aldermen pursuant to section Nine Hundred of this Act."

As a result of an actuarial examination of the accrued amortization or reserve requirement of the Sinking Fund for the Redemption of the City Debt (No. 1), which was embodied in a report of the Comptroller dated December 10, 1913, to the Commissioners of the Sinking Fund, said Commission, at a meeting held on December 17, 1913, adopted the following resolution:

"Resolved, That there shall be set aside and retained in the 'Sinking Fund for the Redemption of the City Debt,' No. 1, the sum of \$77,999,066.26, consisting of (1) the amount of the balance held on January 1, 1913, of the accumulation

of the assets held by the said Sinking Fund on January 1, 1903, viz.: \$77,894,497 08, and (2) the sum of \$104,569.18 required to be retained out of the revenues of the said Sinking Fund, other than the revenues derived from the investment of the assets held by the said Sinking Fund on January 1, 1903, to provide for the redemption of the obligations of said Sinking Fund outstanding on January 1, 1913, said amount, \$77,999,066.26, so set aside to be invested at a rate of interest not less than 3 per cent, per annum, said sum and its accumulations to the extent of 3 per cent, per annum to be applied solely to the purposes of the redemption at their several maturity dates of said obligations, amounting to \$97,782,459.05, outstanding on January 1, 1913, as provided in Chapter 103 of the Laws of 1903." At a meeting of the Commissioners of the Sinking Fund held on January 21, 1914, a supplemental communication from the Comptroller, dated January 13, 1914, with regard to the surplus accumulations of the Sinking Fund for the Redemption of the City Debt (No. 1) was ordered printed in the minutes. Said communication stated that the reserves at January 1, 1914, necessary, with compound interest at three per cent, (3%) per annum, to retire at maturity the bonds secured by Sinking Fund No. 1, amounted to \$72,797,222.87.

The following statement summarizes the actuarial computations and redemption of maturing bonds which have been redeemed and cancelled by the Sinking Fund for the Redemption of the City Debt, No. 1, from January 1, 1914, to December 31, 1917, and establishes that the actuarial reserve required by the fund as at January 1, 1918, amounts to \$57,223,824.52.

January 1, 1914. Accrued Amortization or Reserves necessary to redeem at maturity the bonds secured by Sinking Fund, No. 1..... \$72,797,222 87
Interest accruing thereon to December 31, 1914..... 2,163,951 58

November 1, 1914. Bonds redeemed by Fund and cancelled..... \$74,961,174 45
4,074,394 80

January 1, 1915. Actuarial Reserve required by Fund reduced to..... \$70,886,779 65
Interest accruing thereon to December 31, 1915..... 2,102,729 56

November 1, 1915. Bonds redeemed by Fund and cancelled..... \$72,989,509 21
4,875,686 98

January 1, 1916. Actuarial Reserve required by Fund reduced to..... \$68,113,822 23
Interest accruing thereon to December 31, 1916..... 1,985,779 69

November 1, 1916. Bonds redeemed by Fund and cancelled..... \$70,099,601 92
11,783,714 32

January 1, 1917. Actuarial Reserve required by Fund reduced to..... \$8,315,887 60
Interest accruing thereon to December 31, 1917..... 1,744,069 83

November 1, 1917. Bonds redeemed by Fund and cancelled..... \$60,059,957 43
2,836,132 91

January 1, 1918. Actuarial Reserve required by Fund reduced to..... \$57,223,824 52

To meet this actuarial reserve the actual assets of the fund, consisting of securities and cash, together with the proportional amount of interest accrued to December 31, 1917, on the securities held by the fund, aggregate \$60,874,450.43, which gives a surplus of \$3,650,625.91 over and above the amortization or actuarial reserve of the fund accrued to January 1, 1918. The total funded debt redeemable by Sinking Fund, No. 1, is \$66,723,414.97, and the annual revenue from the investments now held by the fund will be sufficient, in the next five or six years, to increase the actual holdings of this sinking fund in investment securities and cash to a sum fully equal to the total amount of bonds which the fund will have to redeem between this and 1929, when all of its debts having matured the fund will then cease and determine.

Estimated Revenues Sinking Fund, No. 1.

I submit herewith for the information of the Commissioners of the Sinking Fund the following statement of the estimated amount of receipts on account of the revenues and income from all sources of the "Sinking Fund of The City of New York for the Redemption of the City Debt," No. 1, for the year 1918, viz.:

Total Surplus Revenue of Sinking Fund, No. 1, as thus estimated..... \$27,200,000 00

*The Estimated Income during the year 1918 from the Investment Securities of \$60,462,859.73 held by the Fund for redemption purposes (the actuarial reserve as of January 1, 1918, is \$57,223,824.52), computed at 3 per cent, per annum, will aggregate..... (b) 1,813,885 79

Total Estimated Receipts of Revenue and Income from all sources to Sinking Fund, No. 1, during the year 1918..... \$29,013,885 79

The Estimated Amount of Receipts or Surplus Revenues of this Sinking Fund—not including the income (b) and accumulations thereof which will be derived during 1918 from the assets, consisting of \$60,462,859.73 of investment securities held for redemption purposes by said Sinking Fund and set aside for said purposes—is, as above stated..... \$27,200,000 00

\$27,000,000 General Fund Bonds.

I herewith present a certificate to be made by the Commissioners of the Sinking Fund to the Board of Aldermen, pursuant to the provisions of the Greater New York Charter as amended by Chapter 103 of the Laws of 1903, stating the estimated amount of revenue or income from all sources of the Sinking Fund for the Redemption of the City Debt and that the Commissioners of the Sinking Fund have determined to invest Twenty-seven Million Dollars (\$27,000,000) of said estimated surplus or excess of such revenue in General Fund Bonds of The City of New York for account of the "Sinking Fund of The City of New York for the Redemption of the City Debt" (No. 1). Respectfully,

CHARLES L. CRAIG, Comptroller.

The investment thus determined in General Fund bonds is out of the revenues or income of the year 1918 of the said Sinking Fund of the City of New York for the Redemption of the City Debt in excess of the income and accumulations thereof which will be derived from the assets, consisting of sixty million four hundred and sixty-two thousand eight hundred and fifty-nine dollars and seventy-three cents (\$60,462,859.73) of investment securities held for redemption purposes by said Sinking Fund on January 1, 1918, and which assets and accumulations thereon are set apart to redeem at maturity the bonds secured by said Sinking Fund; and be it further

Whereas, at the meeting of the Board held on April 27, 1917, a communication was presented from the Corporation Counsel advising that the motion for the appointment of Commissioners in the proceeding had been opposed by the Coney Island and Brooklyn Railroad Company, which owned all of the real property to be acquired in the three blocks between Willoughby avenue and DeKalb avenue, and that a decision had been

Resolved, That this Board consider the proposed modified area of assessment at a meeting of the Board to be held in the City of New York, Borough of Manhattan, in the City Hall, on Friday, March 1, 1918, at 10.30 o'clock a. m., and that at the same time and place a public hearing thereon will then and there be had; and

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 will be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the condition of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, exceeding the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances, between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations, and the sidewalks and curb in front of said buildings, extending within the described area, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from the demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture

of ownership of such buildings, appurtenances or portions as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the date of possession, and the successful bidder will provide and furnish all materials and labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

"No buildings, parts of buildings, fixtures or machinery sold for removal under these terms and conditions shall in any case be relocated or re-erected within the lines of any proposed street or other public improvement, and if any such buildings, parts of buildings, fixtures or machinery, etc., shall be relocated or re-erected within the lines of any proposed street or other public improvement, title thereto shall thereupon become vested in The City of New York and a resale at public or private sale may be made in the same manner as if no prior sale thereof had been made."

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids, and be it further

Resolved, That while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
