The Comptroller presented the following report and offered the following resolution, relative to a sale at public auction of property owned by the City, on the southerly side of the Brooklyn Bridge, just easterly of William street, in the Borough of Manhattan, turned over to the Commissioners of the Sinking Fund by the Commissioner of Bridges September 8, 1904; see communication following:

SEPTEMBER 15, 1904.

Hon. EDWARD M. GROUT, Comptroller:

SIR—The City of New York is the owner of a piece of property shown on the map hereto annexed, which is made part of this report, acquired with other property for the New York and Brooklyn Bridge. Application has been made to the Commissioners of the Sinking Fund by J. V. and H. V. D. Black, in which communication they desire to purchase the property, and offer \$2,500 for the same. Examination has shown that the property is worth at least \$4,000, and J. V. and H. V. D. Black have agreed to bid that sum therefor.

The Commissioner of the Department of Bridges, in a communication under date of September 8, 1904, turns over to the Commissioners of the Sinking Fund, under and by virtue of the provisions of section 205 of the Amended Greater New York Charter, the property as shown on said diagram, as "being no longer required for Departmental purposes," in order that the Commissioners, by appropriate resolution, may dispose of the same at public auction.

I would respectfully recommend that the Commissioners of the Sinking Fund adopt a resolution authorizing the sale of the following-described property at public auction, at an upset price of not less than \$4,000:

All that certain interior lot, piece or parcel of land, situate, lying and being in the Borough of Manhattan, County, City and State of New York, bounded and described as follows:

Beginning at a point in a line, which point is distant 15 feet 5 1/4 inches southeasterly from William street and which line when prolonged northwesterly would intersect (forming an angle of 91 degrees 7 minutes) the southerly side of William street at a

point 83 feet 9 $\frac{1}{4}$ inches northeasterly from the corner of William and Frankfort streets, and running thence southeasterly 36 feet 9 $\frac{3}{4}$ inches; thence northeasterly 11 feet 6 $\frac{3}{4}$ inches; thence northwesterly 38 feet 10 $\frac{1}{8}$ inches to the point or place of beginning, containing in area 212.9 square feet, upon the following

Terms and Conditions.

The highest bidder will be required to pay 25 per cent. of the amount of his bid, together with the auctioneer's fees at the time of sale; 75 per cent., the balance of the purchase money, thirty days after the date of sale, when the deed will be ready for delivery.

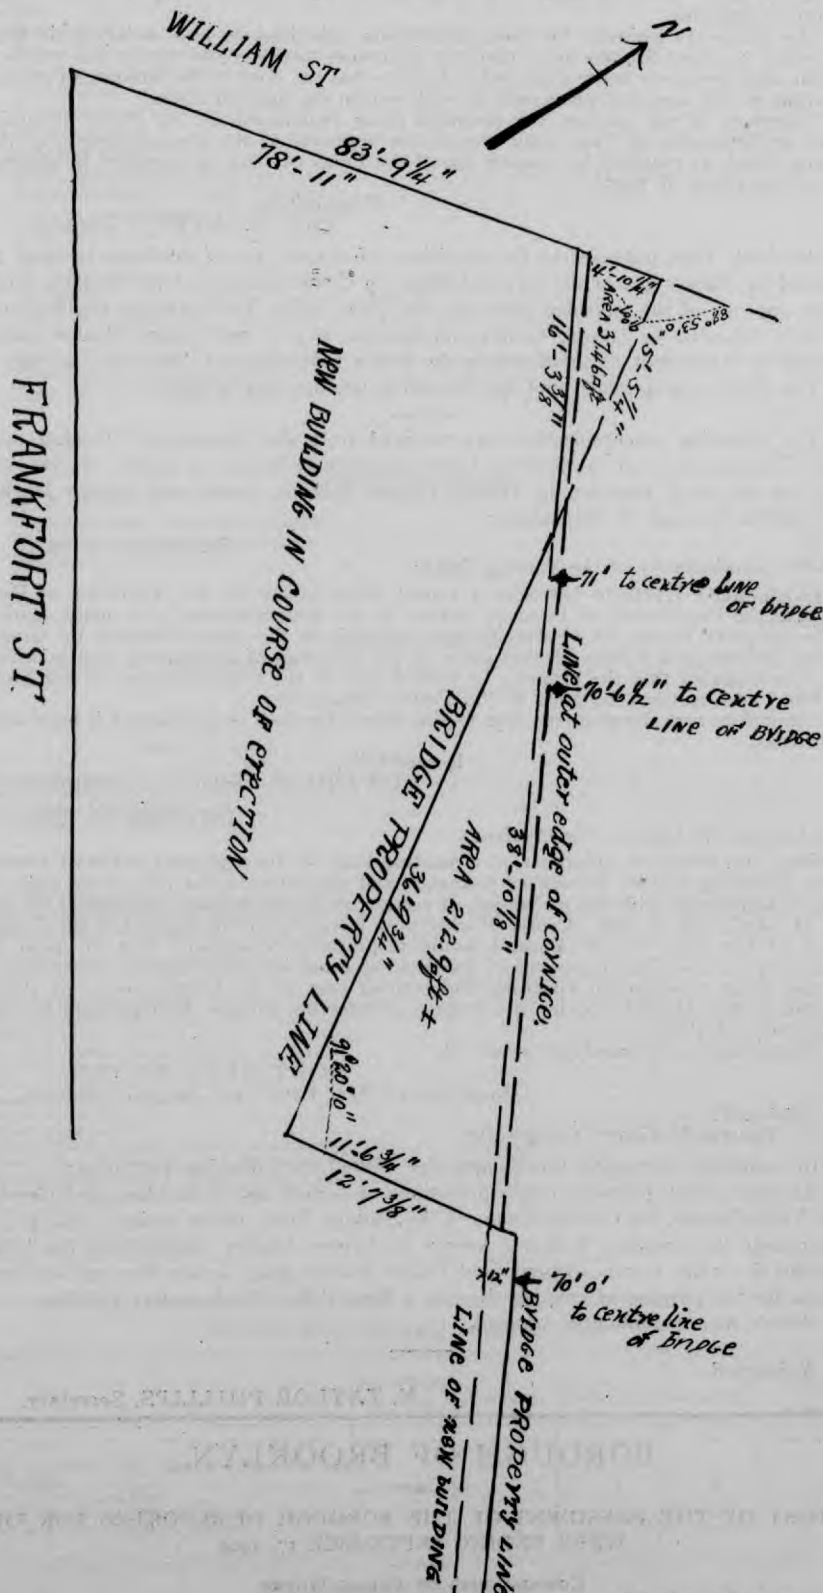

The Comptroller may, at his option, resell the property if the successful bidder shall fail to comply with the terms of sale, and the person failing to comply therewith will be held liable for any deficiency which may result from such sale.

The right is reserved to reject any and all bids.

Respectfully submitted for approval,

MORTIMER J. BROWN,
Appraiser of Real Estate in Charge of Bureau.

Approved:
EDWARD M. GROUT, Comptroller.

SEPTEMBER 8, 1904.

To the Board of Sinking Fund Commissioners, City of New York:

GENTLEMEN—I send you herewith prints showing a piece of property acquired for the Manhattan Bridge in the Borough of Brooklyn and located near the corner of Plymouth and Adams streets in that borough, and which is a part of a piece of property which was acquired from Messrs. Dodge & Olcott, and is adjacent to property now owned by the Robert Gair Company.

I also send you print showing a piece of property on the southerly side of the Brooklyn Bridge, just easterly of William street, and abutting the property now owned by J. V. & H. V. D. Black, who are now putting up a building which surrounds this piece of property on the southerly side.

I inclose herewith copy of letter received from Messrs. Black referring to this matter, in which they offer a specific price for the property.

Neither of these pieces of property are now required for the use of this Department, and both may be sold to the advantage of the City.

I beg leave herewith to turn these pieces of property over to the Sinking Fund Commissioners under and by virtue of the provisions of section 205 of the Amended Greater New York Charter, for the purpose of having a resolution adopted exposing the same for sale at public auction, under and by provisions of the said section.

Respectfully,

GEO. E. BEST, Commissioner of Bridges.

Resolved, That pursuant to the provisions of section 205 of the Amended Greater New York Charter, the real estate belonging to the City, bounded and described as follows:

"All that certain interior lot, piece or parcel of land, situate, lying and being in the Borough of Manhattan, County, City and State of New York,

"Beginning at a point in a line, which point is distant 15 feet 5 $\frac{1}{4}$ inches southeasterly from William street and which line when prolonged northwesterly would intersect (forming an angle of 91 degrees and 7 minutes) the southerly side of William street at a point 83 feet 9 $\frac{1}{4}$ inches northeasterly from the corner of William and Frankfort streets, and running thence southeasterly 36 feet 9 $\frac{3}{4}$ inches; thence northeasterly 11 feet 6 $\frac{3}{4}$ inches; thence northwesterly 38 feet 10 $\frac{1}{8}$ inches to the point or place of beginning," containing an area of 212.9 square feet.

—be sold for the highest marketable price, at public auction after public advertisement, at a minimum or upset price, which is hereby fixed at four thousand dollars (\$4,000) and the Comptroller is hereby authorized to take the necessary steps for making such sale upon the following

Terms and Conditions.

The highest bidder will be required to pay 25 per cent. of the amount of his bid, together with the auctioneer's fees, at the time of sale; 75 per cent., the balance of the purchase money, thirty days after the date of sale, when the deed will be ready for delivery.

The Comptroller may at his option resell the property if the successful bidder shall fail to comply with the terms of sale, and the person failing to comply therewith will be held liable for any deficiency which may result from such sale.

The right is reserved to reject any and all bids.

The report was accepted and the resolution unanimously adopted.

The Comptroller presented the following report, and offered the following resolution relative to a sale at public auction of property owned by the City, located near the corner of Plymouth and Adams streets, Borough of Brooklyn:

(Turned over to the Commissioners of the Sinking Fund by the Commissioner of Bridges September 8, 1904. See communication with foregoing matter.)

SEPTEMBER 15, 1904.

Hon. EDWARD M. GROUT, Comptroller:

SIR—On or about December 1, 1903, The City of New York acquired for the Department of Bridges, as part of the street and anchorage site for the Manhattan Bridge in the Borough of Brooklyn, a piece of property formerly owned by Messrs. Dodge & Olcott, located on the corners of Plymouth, Adams and Water streets. A small tract of land containing 2,900 square feet lying outside of the street line, as laid out by the Department of Bridges, was included in the purchase, for the reason that there was partly erected thereon a three-story brick and one-story brick buildings used by Messrs. Dodge & Olcott for factory purposes.

Mr. Robert Gair, owner of the adjoining property on the west, in a communication addressed to the Commissioners of the Sinking Fund, has made application for the sale to him of the small piece of property as shown on the map hereto annexed, which is made part of this report, and requests that it be exposed at auction to the highest bidder, and agrees to pay therefor the sum of \$6,500, and as an evidence of good faith, he has transmitted with his communication a check drawn to the order of the Comptroller for the sum of \$250 to cover any expenses that the City may be subject to by reason of the non-sale of the property in case the same is put up at auction.

The Commissioner of Bridges in a communication under date of September 8, 1904, states that the property desired by Mr. Gair, as shown on the map, is no longer required for departmental purposes, and turns the same over to the Commissioners of the Sinking Fund, under the provisions of section 205 of the Amended Greater New York Charter, for such purpose as they may deem necessary and proper.

I would respectfully recommend that the Commissioners of the Sinking Fund adopt a resolution authorizing the sale at public auction, at an upset price of \$6,500, of the following-described premises:

All that certain piece or parcel of land, situate, lying and being in the Borough of Brooklyn, County of Kings, City and State of New York, bounded and described as follows:

Beginning at a point on the southerly side of Plymouth street distant 115 feet westerly from the southwesterly corner of Plymouth and Adams street, and running thence southerly and parallel with Adams street 100 feet; thence easterly parallel with Plymouth street 45.18 feet; thence northerly parallel with Adams street 16.66 feet; thence northwesterly 92.32 feet to a point in the southerly line of Plymouth street distant 109.61 feet westerly from the southwesterly corner of Plymouth and Adams streets; thence running westerly 5.39 feet to the point or place of beginning, —upon the following

Terms and Conditions.

The highest bidder will be required to pay 25 per cent. of the amount of his bid, together with the auctioneer's fees, at the time of the sale, and 75 per cent., the balance of the purchase money, thirty days after the date of the sale, when the deed will be ready for delivery.

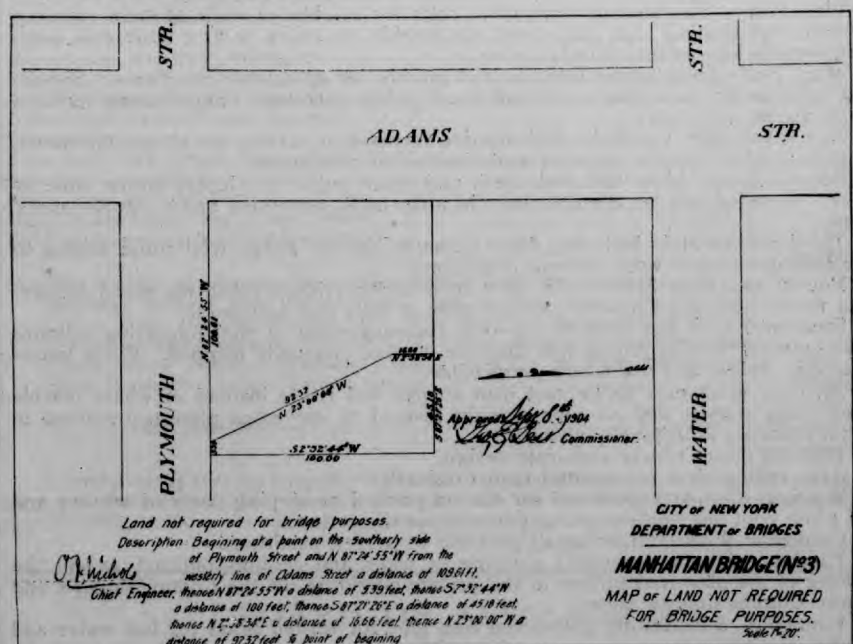

The Comptroller may, at his option, resell the property, if the successful bidder shall fail to comply with the terms of the sale, and the person failing to comply therewith will be held liable for any deficiency which may result from such resale.

The right is reserved to reject any and all bids.

Respectfully submitted for approval,

MORTIMER J. BROWN,
Appraiser of Real Estate in Charge of Bureau.

Approved:
EDWARD M. GROUT, Comptroller.

Resolved, That, pursuant to the provisions of section 205 of the Amended Greater New York Charter, the following real estate belonging to the City:

The Comptroller presented the following report of the Engineer of the Department of Finance and offered the following resolution, relative to amended plans and specifications for the construction of the new Police Headquarters Building (see Minutes, 1903, pages 785, 796):

SEPTEMBER 15, 1904.

Hon. EDWARD M. GROUT, Comptroller:

SIR—On September 9, 1904, the Police Commissioner "Ordered, That the amended plans and specifications for the construction of the "new Police Headquarters on the site of Centre Market be respectfully transmitted to "the Commissioners of the Sinking Fund for approval."

I would report that upon request of the Police Commissioner, in communication under date of July 29, 1903, at meeting of August 10, 1903, the Commissioners of the Sinking Fund approved plans for the Headquarters Building; upon these plans bids were received by the Police Department, but the lowest bid received was more than the appropriation, the Board of Aldermen having refused to grant an additional appropriation to do the work according to the original plans. The Police Commissioner directed the architects to amend their plans so the building could be built for the appropriation. The plans and specifications now submitted for approval are such amended plans.

The following description furnished me by the architects shows the changes made in reducing the cost of the building to the amount appropriated for the work:

In general the design is retained intact, and the reduction in cost is effected, in some instances, by a substitution of less expensive material than that originally considered, and in others by eliminating certain material entirely decorative in character, but in no way altering any essential feature of the design. In no case is the construction or plan at all changed.

Exterior.

Centre Street Facade—Substitute cast-iron newels for area railings instead of heavy granite posts and a consequent reduction in the granite coping for the areas on this front.

Substituting terra cotta of the same color as the stone for the lower base of the dome and which was originally stone, also using the same material instead of stone for the balustrade on the fourth story of the two sections between the central and end bays.

North Facade—Eliminating pilaster treatment of the inside of the walls of the port cochere, using plain ashlar instead. Substituting terra cotta (of the same color as the limestone) for stone on the fifth story, also using this material for facing the gable walls showing over and behind the roof of the end bay or pavilion.

South Facade—Substituting terra cotta for stone on the fifth story and in the facing of the gable wall of the drill room.

East Facade—Substituting terra cotta for stone above the second floor level and between the two end bays or pavilions, also using same material for the lower base of the central dome.

Miscellaneous—Substituting vault light construction for granite steps, platforms, etc., at all basement entrances, simplifying the ornamental wrought iron work in the lamps or marquise or canopy on the main facades.

Substituting plain pipe railing for ornamental iron work around areas on east facade.

Substituting copper for flat roofing tile on the sloping parts of roofs over the armory and drill room, etc.

Making stone ashlar six and twelve inches thick for granite, and six and ten inches and 5-inch and 8-inch thick for cut stone.

Interior.

Cellar—Omitting in rifle range passages top finish of cement, omitting plastering on cellar walls except in hall, lavatory, pistol range and storage.

Basement—Substituting cement for terrazzo floors in prison entrance, lobbies, male and female prisons.

First Story—Substituting white terra cotta for marble on walls of main entrance vestibule, substituting cast iron risers for marble on stairs to first floor and basement, simplifying ornamental plastering.

Main Hall—Substituting terrazzo and marble for all marble tile floors. Simplifying ornamental plastering north and south public corridors. Substituting terrazzo for all marble tile floors.

North Entrance Vestibule—Substituting terrazzo or marble for all marble floors, using plain white marble slabs for walls instead of caen stone.

Second Story—Main hall and north and south public corridors; floors same as above. Moulded pilaster cornices only in main halls, corridors, and Commissioners' rooms.

Third Story—Main hall, etc., floors same as above. Large trial room ceiling to have moulded plaster work without ornaments.

Fourth and Fifth Stories—In main halls and corridors substitute wood for terrazzo floors. Moulded plaster cornices only in halls and corridors.

Structural Iron and Steel Work—The rearrangement of the supporting columns in the exterior walls requiring less than the number originally planned. Floor beams reduced in weight and size where permissible.

All stair work now to be cast iron strings and risers instead of where marble before; rails simpler and all runs straight instead of curved in plan as occurred in several instances as originally planned.

Elevator doors of less elaborate design.

Area railings less ornamental than originally.

Roofing—Copper substituted for tile on pitched or sloping parts of armory and drill room roof and corresponding parts on north section.

Carpenter Work—Omitting all portable or screen partitions.

Painting—All the decorative painting of walls and ceilings omitted, except the painting of the plastered surface in the private corridors off the Commissioner's and Deputy Commissioners' rooms.

Plumbing—Substituting galvanized iron pipe for turned brass for hot water and circulation pipes.

Omitting two water filters.

A reduction of house tank to 10,600 gallon capacity. Omitting escutcheons on pipe lines and covering on exposed pipes. Reducing marble partition inclosures to 6 feet in height.

Omitting single wash basins in office, but retaining all pipes which would permit of their installation if deemed a necessity. Using "Class B" slop sinks. Substituting sewage ejector for pump.

Electric Work—Substituting marbleized slate for marble for main switchboard. Omitting ornamental switch on generator panels, each ammeter simply recording current on its respective dynamo.

Substituting a three-pole single knife switch for circuit breakers for panels 1 to 12 and tower feeder. Installing three-pole circuit breaker, with independent operating arm of type similar to others specified, the rating of which to be 800 amperes. Omitting rubber mat. Reducing booster generator feed as the storage battery is reduced; the power feeds for elevators and fans and also the leads to the storage battery are reduced slightly.

Main switch omitted for regular light section on each board. As most of the locations for calls and push buttons are covered by the telephone system, this permits omitting the bell calls.

Time clock system omitted. Telephone conduit omitted. The cost of elevator cars reduced and position indicators omitted, the elevator for prison to be operated by rope instead of push button stop.

The capacity of the storage battery is reduced about one half.

Heating and Ventilating—Eliminate "potter" separator in boilers, also steam gauges on board in engine room and steam drum in engine room, omitting the non-conducting covering and air space on all vertical flue riser flues, omitting air space on horizontal ducts, covering same with magnesia blocks only, omitting automatic temperature regulation.

The architect's estimate for these alterations, substitutions and omissions is \$85,000, which is about \$20,000 more than the difference between the lowest bid received and the appropriation; hence I am led to believe that the cost of the building, if erected according to the amended plans, will be well within the appropriation.

Therefore, in my opinion, the amended plans (submitted by the Police Commissioner on September 9, 1904) may receive the approval of the Commissioners of the Sinking Fund, as required by chapter 350 of the Laws of 1892, as amended by chapter 495 of the Laws of 1895.

Respectfully,

EUG. E. McLEAN, Engineer.

Resolved, That, pursuant to the provisions of chapter 350 of the Laws of 1892, as amended by chapter 495 of the Laws of 1895, the Commissioners of the Sinking Fund hereby approve of the amended plans for the New Police Headquarters Building, on the block bounded by Grand, Centre and Broome streets and Centre Market place, Borough of Manhattan, as submitted by the Police Commissioner, September 9, 1904.

The report was accepted and the resolution unanimously adopted.

The following communication was received from the Comptroller, turning over to the Commissioners of the Sinking Fund the property known as Centre Market, situated on the block bounded by Grand, Centre, Broome streets and Centre Market place, in the Borough of Manhattan:

SEPTEMBER 15, 1904.

To the Commissioners of the Sinking Fund:

GENTLEMEN—I present herewith a report made to me by the Appraiser of Real Estate in the Department of Finance, relative to the discontinuance as a public market of the property known as Centre Market, situated on the block bounded by Grand, Centre, Broome and Centre Market place, in the Borough of Manhattan, and in which it is recommended that the property be turned over to the Commissioners of the Sinking Fund and by them assigned to the Police Department.

I therefore turn the property over to this Board for such disposition as it may seem fit to make.

Respectfully,

EDWARD M. GROUT, Comptroller.

SEPTEMBER 14, 1904.

Hon. EDWARD M. GROUT, Comptroller:

SIR—The Board of Aldermen, at a meeting held on June 30, 1903, adopted a resolution abolishing Centre Market as a market, and discontinued the use of the same as such, in accordance with the provisions of section 47 of the Revised Ordinances of The City of New York of 1897. Centre Market now being under the control of the Comptroller of The City of New York, I would respectfully recommend that the same be turned over to the Commissioners of the Sinking Fund in order that the Commissioners may adopt a resolution assigning and turning over to the Commissioner of Police the said Centre Market site for the purpose of erecting thereon headquarters for the Department of Police.

Respectfully submitted for approval,

MORTIMER J. BROWN,
Appraiser of Real Estate in Charge of Bureau.

Approved:

EDWARD M. GROUT, Comptroller.

In connection therewith, the Comptroller offered the following resolution:

Resolved, That, pursuant to the provisions of section 205 of the Amended Greater New York Charter, the Commissioners of the Sinking Fund hereby assign to the Police Department the premises formerly known as Centre Market, situated on the block bounded by Grand, Centre, Broome and Centre Market place, in the Borough of Manhattan, for the purpose of erecting thereon a New Police Headquarters Building.

Which was unanimously adopted.
