All the materials of every class and description composing the buildings and their foundations, including machinery found therein within the hereinbefore described area, are to be torn down to the level of the existing curb, and entirely removed from the premises, excepting any coal which may be left on the premises, or any of the personal property of the Consolidated Gas Company. If the purchaser fails to commence the said removal as specified, and to diligently prosecute the same with a sufficient force, and to complete the same within the time specified, the money paid on the day of sale will be forfeited, and all claim of ownership in said materials is waived by the purchaser.

Then the Commissioner of Docks may, at his option, complete the said removal and charge the expense of the same to the said purchaser, who shall sign the present terms of sale and agree to be bound thereby.

The work of removing the materials composing the various buildings herein enumerated shall be carried on in such manner and at such times as may be directed by the Engineer-in-Chief of the Department of Docks and Ferries. The time elapsed during such suspension shall not be counted against the purchaser, but a like number of days will be given him which may have elapsed during such suspension.

And for the further securing of the removal of the said materials, etc., hereinbefore mentioned, the purchaser will be required at the time of sale and the award of said property to him, to execute a bond in such form and with such sureties as may be approved by the Commissioner of Docks of The City of New York, and in a penalty of One Thousand Dollars (\$1,000) for each lot, that he will in all things carry out the terms of sale and comply with the conditions thereof, and remove all of said property within the time required by the said terms of sale.

FOR THE RIGHT TO DUMP AND FILL IN BEHIND THE BULKHEAD WALL RECENTLY BUILT AT THE NORTHERLY END OF THE CHELSEA SECTION ON THE NORTH RIVER, BOROUGH OF MANHATTAN.

TERMS AND CONDITIONS OF SALE.

The work to be done is to fill in with suitable material, as hereinafter described, the area behind the new bulkhead wall extending from a point 100 feet south of the southerly side of West Twenty-third street extended, southerly, a distance of about 1,035 feet, measured along the bulkhead wall, to a point on the northerly line of West Twenty-second street extended.

The northerly limiting line of this contract will run parallel with West Twenty-third street, while the southerly limiting line will run at right angles to the bulkhead wall.

The filling will extend from the rear of the bulkhead wall or coping westerly a distance of about 70 to 120 feet to the face or bank, which has been excavated in the recent dredging. For the length of wall extending along the southerly side of West Twenty-second street, and for a distance of about 400 feet, the filling will extend from the rear of the bulkhead wall northerly to the face or bank excavated in the recent dredging thereat.

The filling will be brought to a grade level with the top of the coping of the bulkhead wall and will extend inshore on a regular grade to the top of the ground at the adjacent or inshore bank.

It is estimated that the area outlining the above-described limits will create a basin to be filled in, under this agreement, whose cubical contents in net void space is equal to 50,000 cubic yards.

Bidders will state in writing a lump sum price, which they agree to pay for the privilege of filling in the area between about West Twenty-second and West Twenty-third streets, as above more fully described, and being the basin calling for the filling of a void space estimated at about 50,000 cubic yards.

Should the Commissioner of Docks deem it to be the best interest of the City, he may extend the southerly limit of this fill southerly a distance of about 400 feet to a point about 105 north of the northerly side of West Eighteenth street, the southerly line or limit to be at right angles to the bulkhead wall. Should the limits of the fill be extended southerly to this new line, a basin will be created in addition to the above-described basin, whose cubical contents in net void space will be equal to about 27,000 cubic yards. In the event of this extra filling being ordered by the Commissioner of Docks, it will be estimated at the same proportional rate as is received for the void space in the first section, whose southerly limit is about the northerly line of West Twenty-second street, the prices on which the bids are to be tested.

In each of the estimated amounts given the amount in cubic yards is arrived at without placing any allowance for shrinkage, settlement, swelling of the material or penetration into the mud.

The Department is not bound in any way by such estimate, and bidders must satisfy themselves of the actual quantity required to fill in the above-described area by examination of the premises or such other means as they may prefer, the intention of the Department being to fill in the whole of the said premises behind the bulkhead wall within the above-described limits, and no allowance will be made to the purchaser from the purchase price on account of any discrepancy which may be found between the above-estimated quantity and the actual amount of filling required. The purchaser will be required to place the filling in accordance with the following specifications:

All the filling shall, unless otherwise directed, be placed directly in the rear of the bulkhead wall and carried from the bulkhead wall toward the shore until the bank of same has been carried out at the finished grade for a distance of about 40 feet from the face of the bulkhead wall, at which time, if so directed by the Engineer, the filling may be commenced from the shore toward the crib.

All material must be dumped and filled in only in such manner, at such points and in such order of procedure and at such times and seasons as may, from time to time, be directed, and the work of filling in may be entirely suspended for such periods of time as may be directed. The purchaser shall have no claim for damage or for any allowance from the purchase money on account of such suspension of the work.

All directions shall be given by the Engineer, and wherever the word "Engineer" is used in these specifications it refers to and designates the Engineer-in-Chief of the Department of Docks and Ferries, or such officer or employee as may be designated by him.

Rip-rap stone coming directly on or against the bulkhead wall must be deposited carefully in such manner as will not injure the same.

All the filling, except as otherwise specified herein, shall be of ashes, cellar dirt, broken stone, etc., entirely free from garbage or any organic matter objectionable in the opinion of the Engineer.

At any section of the bulkhead wall the filling shall be brought up level with the under side of the backing log of the bulkhead wall at such section, and no higher, unless otherwise directed.

The filling shall be commenced within five days after the date of the receipt of a notification from the Engineer that the work, or any part of it, is ready to be begun, after which not less than 300 cubic yards per day shall be placed, and the whole amount of the filling called for to bring the above-described basin up to grade shall be completed within one hundred and seventy days from the date of the receipt of said notification. At the expiration of this time this agreement shall be considered closed unless a further extension of time shall be given by the Commissioner of Docks. If at any time during the progress of the work it shall be deemed necessary to order the suspension of the whole or any part of the filling the time for completing said filling shall be extended so much as may have been delayed by such suspension.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
