MUNICIPAL CIVIL SERVICE COMMISSION, NEW YORK, March 23, 1914.

PUBLIC NOTICE IS HEREBY GIVEN of the following proposed amendments to the Civil Service Rules and Classification:

1. By changing paragraph 22 of Rule XV to read as follows:

The entries upon an efficiency record shall be made under the direction of a Board of Promotions to be established in each Department, which shall consist of not less than three superior officers or employees of such department, who shall be designated for such purpose by the appointing officer therein, subject to confirmation by the Commission.

Such entries shall be based upon reports submitted by the administrative officer most closely in touch with the work of the officer or employee to be rated, and shall be made quarterly on or about the first day of January, April, July and October of each year and shall be a record for the quarter immediately preceding.

Such reports shall be made on a form to be prescribed by the Commission. After the Board of Promotions has passed upon the terms to be used to indicate the degree of efficiency of the several employees, the original reports and the recommendations made in accordance shall be transmitted to the Commission for its approval before any entries are made upon the efficiency record.

Whenever, in the judgment of the Commission, more exact information is required than that given in such reports, the original records of the Department may be consulted or such other action taken as may be deemed advisable. The Commission shall have power to change or

amend any of the recommendations made by the Boards of Promotions, as to the terms to be used to indicate degrees of efficiency, where it shall find that such terms are not warranted by the reports submitted or that such reports do not contain a fair and true account of the comparative efficiency of the several employees whose names appear therein. Where such changes are made, the reasons shall be given in writing to the department concerned. When the Commission has considered the recommendations made in the reports, it shall transmit an account of its findings to the several departments, after which the entries shall be made upon the efficiency records. The following terms shall be employed to indicate the degree of efficiency: (a) Far above the average; (b) Above the average; (c) Average; (d) Below the average; (e) Far below the average.

For periods of service prior to the establishment, or in the absence of any such record, such ratings shall be based on such certificates, covering the several elements of service herein specified, in such forms as the Commission may require. The efficiency records shall be open to either the Chief Examiner or to any Examiner designated by him, and at reasonable times, to any officer or employee whose conduct is noted therein.

2. By including in the Exempt Class, under the heading "Department of Health," the title SANITARY SUPERINTENDENT.

#### INVITATION TO CONTRACTORS.

For the Supply of Track Materials for Use in the Construction of Rapid Transit Railroads.

THE PUBLIC SERVICE COMMISSION FOR the First District (hereinafter called the "Commission") invites proposals to supply track materials for use in the construction of rapid transit railroads, to wit: Tie Plates, Felt Pads and Ballast.

A fuller description of the materials and other requirements, provisions, details and specifications are stated in the form of contract, which is to be deemed a part of this Invitation. Copies of the form of contract, bond and contractor's proposal may be inspected and purchased at the office of the Commission, No. 154 Nassau street, Borough of Manhattan, New York City. Copies of contract drawings T-1016 and T-1002 for Felt Pads may be inspected and purchased at the same office. Copies of drawings T-1015 and T-1016, showing the general nature of the Tie Plates desired, may be inspected and purchased at the same office, but bidders for the supply of Tie Plates must submit with their proposals competitive drawings showing the details of the Tie Plates which they propose to furnish, and the drawings so submitted will, if the proposal be accepted, be made part of the contract.

The Ballast is to be bid upon in five separate lots. Four of these lots shall be for approximately ten thousand (10,000) cubic yards each and the fifth lot shall be for approximately twelve thousand (12,000) cubic yards. The first lot (of approximately ten thousand (10,000) cubic yards) is to be delivered between May 1, 1914, and July 1, 1914; the second lot (of approximately ten thousand (10,000) cubic yards) is to be delivered between May 15, 1914 and July 15, 1914; the third lot (of approximately ten thousand (10,000) cubic yards) is to be delivered between June 1, 1914, and August 1, 1914; the fourth lot (of approximately ten thousand (10,000) cubic yards) is to be delivered between July 1, 1914, and September 1, 1914; and the fifth lot (of approximately twelve thousand (12,000) cubic yards) is to be delivered between August 1, 1914, and October 1, 1914; except as provided in the form of contract.

Bidders for Ballast may submit proposals in either or both of two ways. In the first place a bidder may submit a proposal for supplying any one or more of the separate lots to be delivered as above stated, specifying in his proposal by lot number or numbers the particular lot or lots which he proposes to furnish, in which event such proposal will be considered as for the particular lot or lots so specified and not for any other lot. In the second place a bidder may, without specifying any particular lot or lots, submit a proposal for supplying any one or more lots which the Commission may elect to award to him, in which event the Commission shall have the right to award any of the lots above stated to the successful bidder, and in which event, also, in case any bidder shall propose to furnish more than one lot, the Commission may award the full number of lots which such bidder offers to furnish or any lesser number. In case any bidder shall so submit a proposal for supplying any one or more lots without specifying any particular lot or lots to which he desires to restrict his bid, the Commission may award to him any of the lots above stated to be delivered within the periods above named. The award of the contract or contracts, if made, will be in any case, however, be made for the lots above described separately.

Ballast is to be either trap rock or hard limestone, and proposals will be received for either kind of Ballast. The award of the contract or contracts, if made, for each lot will be for one or the other kind of Ballast as the Commission may in its discretion elect. The Contractor will not have the option under the contract of furnishing either kind of Ballast, but must furnish the kind for which the proposal is submitted and the contract awarded.

Proposals may be submitted for any one or more of the different types of Tie Plates, and the award of the contract or contracts, if made, will be for each type separately.

Bidders for Tie Plates and Felt Pads shall specify in their proposals the rate of delivery and times of first and last delivery of the material. In view of the necessity for prompt deliveries, the times of delivery as set forth in the Contractor's Proposal as well as the prices contained therein will be considered in awarding the contract.

Proposals must be in the form prescribed by the Commission.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 26th day of March, 1914, at twelve fifteen (12:15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Every proposal must, when submitted, be enclosed in a sealed envelope endorsed "Proposal for Supplying Track Materials for use in the construction of Rapid Transit Railroads," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal it will be deposited in a sealed box, in which all proposals will be deposited.

Every proposal must be accompanied by a certified check in a sum not less than ten (10) per

centum of the amount of the bid, except that a minimum deposit of two hundred dollars (\$200) will be required with all bids and that a deposit of two thousand dollars (\$2,000) will be sufficient to entitle bidders to bid on any or all of the different materials. Certified checks submitted with proposals must be payable to the order of the Comptroller of The City of New York and must be drawn upon a National or State bank or trust company satisfactory to the Commission and having its principal office in New York City.

Deposits made by bidders whose proposals are not accepted will be returned within five (5) days after the contract is executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposal.

##### PUBLIC IMPROVEMENT MATTERS.

**PUBLIC NOTICE IS HEREBY GIVEN THAT** at the meeting of the Board of Estimate and Apportionment held this day the following communication was received:

To the Board of Estimate and Apportionment of The City of New York:

The Public Service Commission for the First District hereby transmits to your honorable Board for your approval and the approval of the Mayor of the City, as required by law, a certified copy of a resolution adopted by it on the 6th day of March, 1914, determining and establishing a route and general plan of construction for an additional rapid transit railroad in the Borough of Brooklyn, in The City of New York, to be known as the Ulica Avenue Route.

This route begins at a point in Eastern parkway, between Albany avenue and Troy avenue, where a connection can be made with the Eastern Parkway Line described in the contract dated March 19, 1913, between The City of New York and Interborough Rapid Transit Company, known as Contract No. 3, and thence extends under Eastern parkway, curving into Ulica avenue and thence under and along Ulica avenue to Flatbush avenue. From the point south of Eastern parkway this route is identical with the route heretofore approved by your honorable Board on September 30, 1910. That portion of the route heretofore approved by your honorable Board north of Eastern parkway is not desired by the abutting property owners, and their opposition led to the refusal of the Appellate Division in the Second Department to approve the former route. The route now adopted is desired by the abutting property owners, and it is probable that consents therefor can promptly be obtained.

Dated New York, March 19, 1914.

#### NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer

in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and on the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

The Comptroller of The City of New York serves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
