Report No. 17333. January 21, 1918.

Hon. JOHN F. HYLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—At the meeting of the Board of Estimate and Apportionment held on January 18, 1918, a communication from the Secretary to the President of the Borough of Queens transmitting for approval the rule map and damage map prepared for the use of the court in the proceeding for acquiring title to the following streets was referred to the Chief Engineer for investigation and report: Foster Avenue, from Skillman Avenue to Greenpoint Avenue; Stone Street, from Greenpoint Avenue to Skillman Avenue; the unnamed street (Woodside Avenue), from Foster Avenue to Stone Street; Public Park bounded by Foster Avenue, Greenpoint Avenue and Stone Street; Public Park bounded by the unnamed street (Woodside Avenue), Stone Street and Foster Avenue.

This proceeding was instituted under the provisions of a resolution adopted by the Board of Estimate and Apportionment on February 4, 1916, and amended on November 24th following.

The property to be acquired, as shown on the maps now presented, appears to be identical with that needed for the streets and the Public parks as laid out upon the City Plan, and comprises an area of 436,212.2 square feet. Of this area 178,113.5 square feet has been ceded to the City by the property owners, leaving a net area of 258,098.7 square feet still to be acquired. With the exception of Woodside Avenue and of Foster Avenue, in the three westerly blocks, the streets are not in use and the

area traversed is generally unimproved. Four houses encroach upon the land to be acquired. Portions of Foster Avenue are shown on maps filed by the property owners between March 28, 1871, and April 6, 1912, and of Woodside Avenue upon a property map not filed.

It is recommended that the maps be approved and that after certification they be forwarded to the Corporation Counsel. Respectfully,

NELSON P. LEWIS, Chief Engineer.

The matter was referred to the Committee on City Plan and Public Improvements.

Sewerage and Drainage Plans.**Borough of The Bronx.**

Sewerage Districts Nos. 32, 33 and 35, Borough of The Bronx—Modification in Drainage Plan (Cal. No. 6).

The Secretary presented a communication dated December 5, 1917, from the Commissioner of Public Works, Borough of The Bronx, transmitting for approval map showing proposed modification; and the following report of the Chief Engineer: Report No. 17318. January 16, 1918.

Hon. JOHN F. HYLAN, Mayor, Chairman, Board of Estimate and Apportionment:

Sir—Herewith is transmitted a communication from the Commissioner of Public Works, Borough of The Bronx, bearing date of December 5, 1917, requesting approval of a modified drainage plan for Sewerage Districts Nos. 32, 33 and 35.

This plan relates to the interception of the sewage from an area of some 3,641 acres now discharged into the Harlem River, Bronx Kills and the East River, between Third Avenue and 138th Street. It is estimated that this area will contain a population of nearly 600,000 by the year 1960 and that it will then deliver an average of about 77 million gallons of sewage per day during dry weather. By far the greater part of this volume will be brought down by the existing Brook Avenue sewer.

The plan contemplates the construction of an intercepting sewer from Third Avenue on the west and East 138th Street on the north, joining at East 132d Street and Locust Avenue and leading to a temporary pumping station and treatment plant near the water front. The effluent from this plant will pass by three 48-inch submerged outlet pipes about 400 feet long, to outlets at a depth of about 44 feet below mean tide level.

During storms as much as 218 cubic feet per second, or about twice the mean dry weather flow of 1960, will be intercepted and brought to this point for disposal. The excess storm flow will pass by regulators placed at Lincoln Avenue, Brook Avenue, Cypress Avenue, East 134th Street and East 138th Street, directly to the water front by the existing sewers.

The Harlem River, in particular, calls for immediate relief. The most reliable warning that can be had of a condition where the stream will turn back and give off large volumes of foul odors is in the approach to a total depletion of dissolved oxygen. Tests made during the warm months for the past nine years show that such a general condition in the vicinity of Willis Avenue is imminent in summer and has already been reached locally. At Willis Avenue the average saturation between June 1 and October 1 was 26% in 1914, 22% in 1915, 15% in 1916 and 13% last year, while the lowest values reached were 0% in 1914, 6% in 1915, 1% in 1916 and 0% in 1917. This is believed to be sufficient reason for taking up remedial measures at this time.

The project presented constitutes the first step in a larger plan for the general cleaning up of the Harlem and lower East Rivers. It will remove an average of 5 million gallons each from the Harlem and East Rivers and 109 million gallons from Bronx Kills daily. As Bronx Kills forms a connecting link between the Harlem and East Rivers the latter will be benefited as well as the Kills itself. Sewage entering the Kills passes easterly on the flood current toward Riker's Island, in the East River, and westerly on the ebb current into and through the Harlem River. The volumes passing each way in Bronx Kills are about 56 or 57 million cubic feet during each tide. Of that passing out on the flood a part, after mixing with the currents passing easterly through Hell Gate and Little Hell Gate, passes southerly through the lower East River on the next ebb, while the rest returns through the Bronx Kills to the Harlem; but the total amount discharged into Bronx Kills on the ebb passes down the Harlem River to the Hudson, adding materially to the pollution of the former.

The mere shifting of the point of discharge to East 132d Street would not of itself be of sufficient benefit to warrant the cost of the interceptor. The benefit to be secured is, in part, to be sure, due to a more favorable point of disposal—further removed from the Harlem River and where deeply submerged outlets can be laid to obtain a prompt dilution with the river water; but it will be chiefly secured by the treatment to which it is subjected. This should remove the coarser floating material that is most offensive to sight and also about a fifth of the organic matter in suspension, which contributes to the foul character of the Harlem River. It is this organic matter in the sewage that uses up the dissolved oxygen in the water until finally the stream turns black and gives off foul odors.

The total benefit to be derived is sufficient to recommend the carrying out of the project, but it is probably not sufficient to serve for all time. For this reason the treatment plant has been designated as "temporary," although it is probable that it will be adequate for the next 20 or 25 years. When the time comes when further relief is required more thorough treatment by some other process will be necessary, and if this cannot be carried out at the site of the temporary plant the sewage can be taken to Ward's or Riker's Island or to Sunken Meadow, where a sufficient area can be had. Meanwhile the great cost of carrying out this ultimate plan can be safely postponed.

It is estimated that by 1960 there will be about 305 million gallons of sewage naturally tributary to the Harlem River and Bronx Kills, 135 of which probably will be diverted to the Hudson River at 155th Street, Dyckman Street and Spuyten Duyvil, 96 to the lower East River off Ward's Island and 74 concentrated (with a small amount from the east) at East 132d Street. It will be seen from this that the plan will remove and treat nearly one-quarter of the entire volume entering the Harlem River and Bronx Kills and eliminate about 5 per cent. of the organic matter brought to these streams in the sewage.

The plan is based on giving the new trunk sewers an elevation low enough to permit of regulating the flow to be intercepted from existing sewers by a method which would involve a loss of head substantially greater than would seem necessary, and also low enough to permit of passing under the Brook Avenue sewer at Southern Boulevard, without resort to an inverted siphon. The proposed method of interception, together with the omission of a siphon, renders it impracticable to base the design wholly upon hydraulic conditions. I am informally advised that a modification of the plan in these particulars would be strongly objected to by the Engineer of the Sewer Bureau, partly on the ground that experience in this Borough has led to the adoption of the treatment at the Brook Avenue crossing, as shown on the plan, partly in order to avoid the use of movable parts in controlling the interception of the sewage and partly on the ground of the decreased velocities which would obtain for the minimum flow.

The carrying out of the plan would unquestionably be of substantial benefit in ameliorating the foul condition of neighboring sections of the Harlem River and Bronx Kills, and under these conditions its approval is recommended.

Respectfully, NELSON P. LEWIS, Chief Engineer.

Sewerage Districts Nos. 39-P-2 and 41-D, Borough of The Bronx—Modification in Drainage Plan (Cal. No. 7).

The Secretary presented a communication dated September 18, 1917, from the Commissioner of Public Works, Borough of The Bronx, transmitting for approval map showing proposed modification; and the following report of the Chief Engineer: Report No. 17334. January 21st, 1918.

Hon. JOHN F. HYLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a communication from the Commissioner of Public Works, Borough of The Bronx, bearing date of September 18, 1917, submitting for approval a modification in the drainage plan for Sewerage Districts Nos. 39-P-2 and 41-D.

This plan provides for rearranging the design of the sewers at the intersection of Spuyten Duyvil Parkway with Johnson Avenue, and in West 238th Street, from Johnson Avenue to Riverdale Avenue, in such a way as to permit of a temporary connection between the sewer in West 238th Street and those proposed in the adjoining area to the north, thereby making it practicable to carry out sewer improvements at this time in advance of the construction of the trunk sewer which will ultimately be needed in Johnson Avenue.

In my judgment the plan is a proper one and its approval is recommended.
Respectfully,
NELSON P. LEWIS, Chief Engineer.

Appended hereto is a resolution in accordance with the recommendations herein previously made. Yours very truly,

The following resolution was offered:

This was referred to the Committee on Salaries and Grades, Item No. 28 (i), Calendar of January 15, 1918. The Bureau of Personal Service reports thereon as follows:

"Vacancy—Clerk at \$1,200 per annum. The position is in the exempt class. The duties of the incumbent will be to issue and record marriage licenses. For similar work performed in the office of the City Clerk a rate of \$1,200 is provided in the budget for 1918.

Board of Estimate and Apportionment (Committee on the City Plan)—Modification of Schedule (Cal. No. 10).

(On January 11, 1918 (Cal. No. 84), a communication from the Secretary of the Committee on the City Plan recommending that John P. Fox be granted a leave of absence, without pay, was referred to the Committee on Salaries and Grades for report as to whether there is any need for this position.)

(On January 15, 1918 (Cal. No. 3), the Board, upon the recommendation of the Committee on Salaries and Grades, adopted a resolution granting Mr. Fox one month's leave of absence, without pay. The report of the Committee on Salaries and Grades is printed in the Minutes of said meeting.)

Fox, Consultant on City Planning in the office of the Committee on the City Plan, for leave of absence without pay for a period of three months and recommending that the same be granted.

The Secretary also presented a communication, dated January 14, 1918, from the aforesaid Consultant on City Planning, requesting that the Board postpone action on the abolishment of his position until such time as the work upon which he is engaged in Washington for the Federal Government, with regard to the handling of traffic, has been completed, in view of the fact that the Board will probably realize the need of carrying on the traffic work begun by the Committee on the City Plan; and the following report of the Committee on Salaries and Grades relative thereto:

January 21, 1918.

To the Board of Estimate and Apportionment:

Gentlemen—On January 11, 1918, the Board of Estimate and Apportionment referred to the Committee on Salaries and Grades a communication from the Sec-

retary of the Committee on City Plan recommending that the request of John P. Fox, Consultant on City Planning, at \$4,140 per annum, for leave of absence without pay for a period of three months be granted.

On January 15, 1918, the Board, upon the recommendation of the Committee on Salaries and Grades, adopted a resolution granting Mr. Fox one month's leave of absence without pay.

Upon further inquiry the Committee has learned that there has apparently been no serious work performed since the completion of the layout of building zones. The Committee therefore recommends that the position be dropped from the schedule and the money placed in Balance Unassigned.

The adoption of the attached resolution modifying the schedule to this effect is recommended. Respectfully,

ALFRED E. SMITH, President, Board of Aldermen; FRANK L. DOWLING, President, Borough of Manhattan; EDWARD RIEGELMANN, President, Borough of Brooklyn; Committee on Salaries and Grades.

Department of Public Markets—Authority to Fill Vacancy (Cal. No. 18).

(On January 11, 1918 (Cal. No. 97), the request herein was referred to the Committee on Salaries and Grades.)

The Secretary presented a communication, dated January 7, 1918, from the Commissioner of Public Markets, requesting the issuance of a certificate to fill a vacancy in the position of Bookkeeper at \$1,320 per annum by an appointment at \$1,140; and the following report of the Committee on Salaries and Grades recommending approval thereof:

January 16, 1918.

To the Committee on Salaries and Grades:

Gentlemen—On January 7, 1918, the Commissioner of the Department of Public Markets requested authority, as provided in paragraph Second (c) of the terms and conditions of the budget, to fill a vacancy. This was referred to the Committee on Salaries and Grades, Item No. 97, Calendar of January 11. The Bureau of Personal Service reports thereon as follows:

"Vacancy—Bookkeeper at \$1,320, by transfer of Edna E. Lohmann, now employed in the Municipal Civil Service Commission as a Tabulator at \$1,020. The work to be performed is the keeping of the financial records of the department. In other city departments the rate of compensation for similar work provided in the budget for 1918 is from \$1,320 to \$1,800.

"Result of Investigation—The position is necessary. At the time of the establishment of the department only those employees directly engaged in existing public market activities in other departments were transferred to the new department. This position, together with several others, was allowed for 1918 in order to provide for a force to take care of its financial and other clerical work. Miss Lohmann was originally appointed on January 18, 1915, as Tabulator at \$900 in the office of the Municipal Civil Service Commission from a list for Bookkeeper. On January 1, 1917, she was increased to \$960 and on January 1, 1918, to \$1,020. Under Civil Service rules her title may be changed to that of Bookkeeper. The Commissioner of Public Markets proposes to fill the vacancy at \$1,140 instead of the provided rate of \$1,320, as Miss Lohmann is at present ineligible, under Civil Service rules, for any higher salary.

"Respectfully,
GEORGE L. TIRRELL, Director."

Action by Committee—The Committee on Salaries and Grades hereby approves the filling of the above vacancy at \$1,140 per annum.

ALFRED E. SMITH, President, Board of Aldermen; FRANK L. DOWLING, President, Borough of Manhattan; EDWARD RIEGELMANN, President, Borough of Brooklyn; Committee on Salaries and Grades.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of the action of the Committee on Salaries and Grades in granting the request of the Commissioner of Public Markets to fill a vacancy of Bookkeeper at \$1,320 per annum, in Code No. 275 for 1918, by appointment at \$1,140 per annum.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx Queens and Richmond—16.

President, Borough of Manhattan—Transfer of Appropriation and Modification of Schedules (Cal. No. 19).

(On January 15, 1918 (Cal. No. 27—F), the request herein was referred to the Committee on Salaries and Grades.)

The Secretary presented a communication dated January 8, 1918, from the President, Borough of Manhattan, requesting modification of schedules, involving transfer of funds within appropriation; and the following report of the Committee on Salaries and Grades recommending approval thereof:

January 21, 1918.

To the Board of Estimate and Apportionment:

Gentlemen—On January 8, 1918, the President of the Borough of Manhattan requested modification of certain salary schedules in his office for 1918. This was referred to the Committee on Salaries and Grades, item No. 27(F), Calendar of January 15, 1918. The Bureau of Personal Service reports thereon as follows:

"Proposed Action—(1) In Code 350 to increase line Stenographer and Typewriter at \$1,020 to \$1,200 by transfer of \$180 from Code 358.

"Result of Investigation—This change is for the purpose of having Budget line agree with an existing payroll condition. The rate of \$1,200 was fixed in December, 1917, for the incumbent, through modification of the 1917 Budget.

"Proposed Action—(2) In Code 359 to change the line 'Inspector at \$1,740' to Assistant Engineer at the same rate.

"Result of Investigation—Since the 1918 Budget was prepared the employee involved has had his title changed from Inspector to Assistant Engineer. No increase in compensation is involved.

"Proposed Action—(3) In Code 358 to eliminate a vacant position of Secretary at \$2,000, to transfer \$180 to Code 350 and \$300 to Code 366 and set up an unassigned balance of \$1,520.

"Result of Investigation—The above position has become vacant through death.

"Proposed Action—(4) In Code 366 to substitute a line 'Stenographer and Typewriter at \$1,500' for the present line 'Stenographer and Typewriter at \$1,200' and transfer into this code \$300 from Code 358.

"Result of Investigation—The object of the change is to increase the salary from \$1,200 to \$1,500 of Miss Nora Kelly, whose duties have been changed and increased to such extent as to put her work into a higher grade."

Recommendation—In view of the above report, the Committee recommends the adoption of the attached resolution approving the request. Respectfully,

ALFRED E. SMITH, President, Board of Aldermen; FRANK L. DOWLING, President, Borough of Manhattan; EDWARD RIEGELMANN, President, Borough of Brooklyn; Committee on Salaries and Grades.

President, Borough of Richmond—Establishment of Additional Grade of Position; and Modification of Schedule (Cal. No. 23).

(On January 11, 1918 (Cal. No. 76), the request herein was referred to the Committee on Salaries and Grades.)

The Secretary presented a communication, dated January 3, 1918, from the President of the Borough of Richmond requesting modification of schedule; and the following report of the Committee on Salaries and Grades relative thereto:

January 21, 1918.

To the Board of Estimate and Apportionment:

Gentlemen—On January 3, 1918, the President of the Borough of Richmond requested modification of Code 750 for his office for 1918. This was referred to the Committee on Salaries and Grades, item No. 76, Calendar of January 11, 1918. The Bureau of Personal Service reports thereon as follows:

“Proposed Action—To increase the line, ‘Telephone Operator, \$840,’ to \$1,020, and reduce the line ‘Telephone Operator, \$900,’ to \$720.

“Result of Investigation—There is a vacant position, through death, of a Telephone Operator at \$900. It is now proposed to increase the rate for the

remaining Operator from \$840 to \$1,020 and employ a new Operator at \$720. The President of the Borough states that he desires to promote Mr. Eric Jackson as Chief Operator as he is affable, painstaking and willing. The rate for Mr. Jackson was increased in the 1918 Budget from \$780 to \$840. There has been no position of Telephone Operator established in this office above \$900 under section 56 of the Charter. The requested rate of \$1,020 is not in excess of the maximum rate paid in other City offices."

Recommendation—In view of the above report the Committee recommends the adoption of the attached resolutions, recommending that a rate of \$1,020 be established for Telephone Operator and approval of a modified schedule for this rate to be effective when same is legally fixed by the Board of Aldermen. Respectfully,

ALFRED E. SMITH, President Board of Aldermen; FRANK L. DOWLING, President, Borough of Manhattan; EDWARD RIEGELMANN, President, Borough of Brooklyn; Committee on Salaries and Grades.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the Office of the President of the Borough of Richmond of the grade of position, in addition to those heretofore established, as follows:

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented a communication dated January 12, 1918, from the President, Borough of Richmond, requesting modification of schedule; and the following report of the Committee on Salaries and Grades recommending approval thereof:

To the Board of Estimate and Apportionment:

Department of Parks, Borough of Brooklyn—Authority to Fill Vacancy (Cal. No. 25).

(On January 15, 1918 (Cal. No. 28-H), the request herein was referred to the Committee on Salaries and Grades.)

The Secretary presented a communication dated January 11, 1918, from the Commissioner of Parks, Borough of Brooklyn, requesting authority to fill a vacant position of Secretary to the Commissioner; and the following report of the Committee on Salaries and Grades recommending approval thereof:

January 19, 1918.

To the Committee on Salaries and Grades:

Gentlemen—On January 12, 1918, the COMMISSIONER OF PARKS, BROOKLYN, requested authority, as provided in second (c) of the terms and conditions of the budget, to fill a vacancy. This was referred to the Committee on Salaries and Grades, Item No. 28-H, Calendar of January 15. The Bureau of Personal Service reports thereon as follows:

"Vacancy—Secretary to Commissioner, at \$2,500 per annum, Code 1275, by appointment of William H. Muldoon.

"The work to be performed is that of attention to the correspondence and activities of the department as assigned, and acting as Commissioner in the latter's absence.

"Result of Investigation—The position is necessary. It is in the 'Exempt Class' and \$2,500 has been the salary paid for several years.

"Respectfully, GEORGE L. TIRRELL, Director."

Action by Committee—The Committee on Salaries and Grades hereby approves the filling of the above vacancy at \$2,500 per annum.

ALFRED E. SMITH, President, Board of Aldermen; FRANK L. DOWLING, President, Borough of Manhattan; EDWARD RIEGELMANN, President, Borough of Brooklyn; Committee on Salaries and Grades.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of the action of the Committee on Salaries and Grades in granting the request of the Commissioner of Parks, Borough of Brooklyn, to fill a vacancy of Secretary to the Commissioner at \$2,500 per annum, in Code 1275 for 1918.

Which was adopted by the following vote:

Fire Department—Establishment of Corporate Stock Schedule (Cal. No. 26).

(On January 15, 1918 (Cal. No. 27-I), the request herein was referred to the Committee on Salaries and Grades.)

The Secretary presented a communication dated January 3, 1918, from the Fire Commissioner, requesting the establishment of a temporary wage schedule for 1918, payable from Corporate Stock funds; and the following report of the Committee on Salaries and Grades:

January 21, 1918.

To the Board of Estimate and Apportionment:

Gentlemen—On January 3, 1918, the FIRE COMMISSIONER requested establishment of a temporary wage schedule, payable from corporate stock funds, for 1918. This was referred to the Committee on Salaries and Grades, Item No. 27 (i), Calendar of January 15, 1918. The Bureau of Personal Service reports thereon as follows:

"Proposed Action—To provide for two Laborers at \$3 per day for 138½ days each.

"Result of Investigation—When the 1918 budget was under consideration, the matter of providing for employees engaged on work in connection with the new fire alarm system was deferred. At that time it was thought that the greater part of the work would be completed by the end of the year 1917, and that it would be advisable to defer action until later in that year. Delays in manufacture and delivery of boxes, cables, etc., prevented completion. As a new administration was to be in office on January 1, 1918, the former Board of Estimate and Apportionment, by resolution adopted on December 21, 1917, made provision for the employment of a force to take care of the uncompleted work and bring it to a finish. Through an oversight, no request or provision was made for two Laborers engaged on this work."

Recommendation—The Committee recommends that the Fire Commissioner be requested to call upon the different Borough Presidents or any other department head for the use of two Laborers until the completion of the work to be performed.

Respectfully,

ALFRED E. SMITH, President, Board of Aldermen; FRANK L. DOWLING, President, Borough of Manhattan; EDWARD RIEGELMANN, President, Borough of Brooklyn; Committee on Salaries and Grades.

The following resolution was offered:

Resolved, That the request of the Fire Commissioner, dated January 3, 1918, for establishment of a temporary wage schedule, payable from corporate stock funds for the purpose of providing for the employment of two Laborers at \$3 per day, for 138½ days each, be denied, and that the Fire Commissioner be requested to draw upon the different Borough Presidents or any other department head for the use of Laborers on the work to be performed.

Department of Health—Approval of Increases in Compensation (Cal. No. 27).

(On January 18, 1918 (Cal. No. 57), the request herein was referred to the Committee on Salaries and Grades.)

The Secretary presented a communication dated January 12, 1918, from the Secretary, Department of Health, requesting approval of the action of the Board of Promotions of said Department in substituting the names of thirty-three employees of that Department in place of a like number who were allowed increases in the Budget for 1918; and the following report of the Committee on Salaries and Grades recommending denial thereof:

January 21, 1918.

To the Board of Estimate and Apportionment:

Gentlemen—On January 12, 1918, the SECRETARY OF THE DEPARTMENT OF HEALTH requested approval of the action of the Board of Promotions of that department in substituting names of 33 employees of that department in place of a like number allowed increases in the budget for 1918.

The Committee on Salaries and Grades in denying the application of the Commissioner of Health, embodied in Calendar No. 57 on the Calendar of January 18, submits the following for the consideration of the Board of Estimate and Apportionment:

When the 1918 budget left the Board of Estimate and Apportionment it contained increases in salaries intended for certain individuals in the service of the City. The Board of Aldermen requested the Board of Estimate to supply its body with a printed list of the names and length of service of the employees for whom increases in salaries were intended. Acting upon that information, and after a study of the relative merits of each case, the Board of Aldermen concurred in the action of the Board of Estimate and Apportionment with a few exceptions. Since January 1 it has been brought to the attention of the Committee on Salaries and Grades that several of the department heads have diverted funds intended for a specified employee to others in the service of their departments, which action has not had the approval

of either the Board of Estimate and Apportionment or the Board of Aldermen. It is suggested by the Committee on Salaries and Grades that the Board of Estimate and Apportionment direct the Bureau of Personal Service to make the customary notation on the payrolls to the end that the salary increases intended for individuals either go to them or permission be given by this Board to divert it, if that be our policy. Respectfully,

ALFRED E. SMITH, President, Board of Aldermen; FRANK L. DOWLING, President, Borough of Manhattan; EDWARD RIEGELMANN, President, Borough of Brooklyn; Committee on Salaries and Grades.

Frank J. Monahan, representing the Department of Health, appeared and requested that the matter be referred back to the Department.

The matter was referred back to the Department of Health.

Department of Public Charities—Transfer of Appropriation and Modification of Schedules (Cal. No. 28).

(On January 11, 1918 (Cal. No. 92), the request herein was referred to the Committee on Salaries and Grades.)

The Secretary presented a communication dated January 3, 1918, from the Commissioner of Public Charities, requesting modification of Schedule; and the following report of the Committee on Salaries and Grades recommending approval thereof and transfer of funds within appropriation:

January 21, 1918.

To the Board of Estimate and Apportionment:

Gentlemen—On January 3, 1918, the Commissioner of Public Charities requested modification of Codes 1884 and 1909 for the year 1918. This was referred to the Committee on Salaries and Grades, Item No. 92, Calendar of January 11. The Bureau of Personal Service reports thereon as follows:

"Proposed Action—In Code 1884 to restore, as of January 1, 1918, the position of Clerk at \$1,320 per annum, and in Code 1909 to eliminate the position of Dentist at \$1,260 per annum; to reduce the unsegregated allowance for occupational work from \$4,775 to \$4,715 and to transfer the amounts so obtained to Code 1884 to provide the necessary funds for the restored position.

"Result of Investigation—The position of Clerk at \$1,320 in Code 1884 appeared in the text of the resolution of the Board of Aldermen of November 30, 1917, as one of the positions to be stricken out of the Budget for 1918. It was not included, however, in the printed summary of positions to be eliminated and was not included in the total sum recommended for deduction from the Budget. Its inclusion in the text was through an error in printing and the position should therefore not have been eliminated. The position of Dentist at \$1,260 per annum to be eliminated from Code 1909 and the \$60 to be deducted from the unsegregated allowance for occupational work in the same code are for new activities allowed for 1918, the initiation of which is a matter of policy subject to the determination of the present Commissioner. The Clerk in question has important duties in charge of the department files, correspondence and stationery."

Recommendation—In view of the foregoing report the Committee on Salaries and Grades recommends the adoption of the attached resolutions, (1) modifying the schedules as requested, (2) transferring the necessary \$1,320 from Salaries Temporary Employees to Salaries Regular Employees, Department of Public Charities.

Respectfully, ALFRED E. SMITH, President, Board of Aldermen; FRANK L. DOWLING, President, Borough of Manhattan; EDWARD RIEGELMANN, President, Borough of Brooklyn; Committee on Salaries and Grades.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 237 of the Greater New York Charter, hereby approves of the transfer of funds appropriated to the Department of Public Charities for the year 1918, as follows:

Department of Public Charities—Establishment of Corporate Stock Schedule (Cal. No. 29).

(On January 11, 1918 (Cal. No. 92), the request herein was referred to the Committee on Salaries and Grades.)

The Secretary presented a communication dated January 3, 1918, from the Commissioner of Public Charities, requesting the establishment of a Corporate Stock Schedule for that Department; and the following report of the Committee on Salaries and Grades recommending denial thereof:

January 21, 1918.

To the Board of Estimate and Apportionment:

Gentlemen—On January 3, 1918, the COMMISSIONER OF PUBLIC CHARITIES requested the establishment of a salary schedule for Inspectors, chargeable against certain corporate stock funds. This was referred to the Committee on Salaries and Grades, Item No. 92, Calendar of January 11th. The Bureau of Personal Service reports thereon as follows:

"Proposed Action—To include in Code 1909—Salaries Temporary Employees—

Central Office—the following positions:		
Inspector of Masonry		\$1,200 00
Inspector of Plumbing		1,500 00
Plan Examiner		1,500 00

\$4,200 00

—payable from the following corporate stock funds:

C. C. H.—55, Sea View Hospital Extension	\$700 00
C. C. H.—57E, Randall's Island, new buildings	700 00
C. C. H.—58, Storehouse, Blackwell's Island	700 00
C. C. H.—1D, New Cumberland St. Hospital	700 00
C. C. H.—391, Addition to Nurses' Home, Kings County Hospital	700 00
C. C. H.—26C, New female dormitory, Kings County Hospital	700 00

\$4,200 00

"Result of Investigation—At Sea View Hospital, the contracts let for building construction amount to \$786,199.92. Payments for completed work up to December 31, 1917, amount to \$340,272.32, leaving a balance outstanding for uncompleted work amounting to \$445,927.60. Twenty-three buildings are under construction at this institution. The general construction is about 50 per cent. completed, and the heating, plumbing and electrical work is only about 20 per cent. completed. Work on four of the five contracts in force was not begun until last September, and the time allowed under the contracts for completion of the work is 300 days. With extensions due to unavoidable delays, it is estimated that the work will not be completed before the end of this year.

"At Randall's Island twelve new buildings are now under construction. Contracts have been let for three other buildings, work upon which is expected to start about March 1st. The general construction of those now under way is from 40 per cent. to 50 per cent. completed; the heating, plumbing and electric work only 15 per cent. to 20 per cent. complete. The total amount of contracts let is \$1,391,220, against which there have been issued payments for completed work up to December 31, 1917, amounting to \$378,475.12, leaving a balance outstanding for uncompleted work of \$965,151.88. Work was begun on the new buildings under five contracts on dates varying from May 1st to September 15th, and the time allowed for completion of the work under each of these contracts is 365 days. Four contracts amounting to \$165,107, let recently, are not yet in operation. Work upon them is expected to be started about March 1st, and the time allowed for their completion is 365 days.

"The general construction of the Storehouse at Blackwell's Island is about 45 per cent. completed. The plumbing, heating, electrical work, etc., is about 65 per cent. completed. The total amount of contracts let is \$562,069.42. Payments to December 31, 1917, amount to \$325,177.45, leaving a balance for uncompleted work amounting to \$236,891.97. The time allowed for completion of the contracts varies from 90 to 120 days. Work was begun on the main construction contract about July 1, 1917, but unavoidable delays have necessitated the granting of extensions of time to the contractor. It is estimated that the building will not be completed until about July 1st, requiring 180 days' time for inspection.

"New Cumberland St. Hospital contracts for construction amount to \$807,652. Work was started in November last and one payment has been made to the contractor, amounting to \$13,819.50, for excavation work. Work has been temporarily suspended on account of the weather, but is expected to resume about February 15th. The time allowed by the contract for the completion of the work is 400 days.

"Contracts for Kings County Hospital—new female dormitory and addition to Nurses' Home—to cost approximately \$75,000 each, have not yet been awarded. Proceedings are under way, however, and it is expected that work will be started on both buildings in the Spring, about May 1st. The time allowed for completion of the work is 200 days for the Nurses' Home and 250 days for the female dormitory.

"An Inspector for the department is required on this class of work practically all the time, and the services of the three Inspectors requested will be required for the entire year. The work of these men is that of general building construction inspection and not that of the special branches of construction—masonry, plumbing, examination of plans, etc., as indicated by their titles.

"The following distribution of the charges against the various corporate stock funds is suggested instead of that proposed by the department, as it is based on the proportionate time required for inspection under each of the contracts.

C. C. H.—55, Sea View Hospital Extension	\$1,400 00
C. C. H.—57E, Randall's Island, new building	1,050 00
C. C. H.—58, Storehouse, Blackwell's Island	350 00
C. C. H.—1D, New Cumberland St. Hospital	800 00
C. C. H.—391, Addition to Nurses' Home, Kings County Hospital	300 00
C. C. H.—26C, New female dormitory, Kings County Hospital	300 00

Total \$4,200 00

"The rates requested are reasonable for the work to be performed. An increase in salary is involved from \$1,140 to \$1,500 for the Plan Examiner, who because of Civil Service ineligibility could not receive the rate—\$1,500—allowed for the position in 1917. The \$1,500 rate is not greater than that paid in other departments for similar work."

Recommendation—The Committee appreciates the necessity of inspection of the work outlined in the foregoing report, but feels that the present staff of inspectors in the employ of the Borough Presidents could be used for that purpose. It therefore recommends that the request be denied and the Commissioner of Public Charities be requested to draw upon the Borough Presidents of the various boroughs where the construction work is being carried on for the use of the necessary Inspectors for that purpose.

ALFRED E. SMITH, President, Board of Aldermen; FRANK L. DOWLING, President, Borough of Manhattan; EDWARD RIEGELMANN, President, Borough of Brooklyn; Committee on Salaries and Grades.

Henry Nordheim appeared in opposition to the request. Hon. Stephen Nugent, Deputy Commissioner of Public Charities, appeared in favor.

The following resolution was offered:

Resolved, That the request of the Commissioner of Public Charities, dated January 3d, 1918, for the establishment of a salary schedule for Inspector of Masonry

\$1,200, Inspector of Plumbing \$1,500 and Plan Examiner \$1,500, chargeable against certain specified corporate stock funds be and hereby is *denied* and that the Commissioner of Public Charities be and hereby is requested to draw upon the Borough Presidents of the various boroughs where the construction is being carried on, for the use of the necessary Inspectors from their forces for such inspection work.

To the Board of Estimate and Apportionment:

Gentlemen—On January 3, 1918, the Commissioner of Water Supply, Gas and Electricity requested modification of Code No. 2160TW for 1918. This was referred to the Committee on Salaries and Grades, Item No. 87D, Calendar of January 11, 1918. The Bureau of Personal Services reports thereon as follows:

"Proposed Action—To change the title of a position of Rodman at \$1,200 per annum to Transitman at the same rate.

"Result of Investigation—It is proposed to change the title of Arthur F. Fogarty from Rodman to Transitman, because he is now number one on the promotion list for the position. Department of Water Supply, Gas and Electricity—Modification of Schedules (Cal. No. 32).

(On January 11, 1918 (Cal. No. 87-C), the request herein was referred to the Committee on Salaries and Grades.)

The Secretary presented a communication, dated January 3, 1918, from the Commissioner of Water Supply, Gas and Electricity, requesting modification of schedules for the year 1917; and the following report of the Committee on Salaries and Grades recommending approval thereof:

January 21, 1918.

To the Board of Estimate and Apportionment:

Gentlemen—On January 3, 1918, the Commissioner of Water Supply, Gas and Electricity requested modification of Codes Nos. 2188W, 2199W and 2201W for 1917. This was referred to the Committee on Salaries and Grades, Item No. 87C, Calendar of January 11, 1918. The Bureau of Personal Service reports thereon as follows:

"Proposed Action—In Code No. 2188W to increase the rate of Plumber from \$5.50 to \$6 per day for 453 days. In Code No. 2199W to increase the rate of Pipefitter from \$5.50 to \$6 per day for 151 days. In Code No. 2201W to increase the rate of Plumber from \$5.50 to \$6 per day for 19 days.

"Result of Investigation—On September 28, 1917, the Board of Estimate and Apportionment recommended an increase in rate from \$5.50 to \$6 per day for Pipefitters in all City departments, to be effective as of July 1, 1917. On December 4, 1917, the Board of Aldermen established the position as requested. On October 19, 1917, the Board of Estimate and Apportionment took similar action regarding all Plumbers, and on December 4, 1917, the Board of Aldermen established the rate. No funds were available for the changes until the end of the year, when sufficient accruals in water revenues existed in each of the schedules. The present request is to modify the schedules so that employees may be paid the difference in rates which have been due them since last July. Consideration of the request is urgent as payrolls are involved."

Recommendation—In view of the above facts, the Committee on Salaries and Grades recommends the adoption of the attached resolution approving the request.

Respectfully, ALFRED E. SMITH, President, Board of Aldermen; FRANK L. DOWLING, President, Borough of Manhattan; EDWARD RIEGELMANN, President, Borough of Brooklyn; Committee on Salaries and Grades.

Department of Water Supply, Gas and Electricity—Transfer of Appropriation and Modification of Schedules (Cal. No. 33).

(On January 15, 1918 (Cal. No. 27-J), the request herein was referred to the Committee on Salaries and Grades.)

The Secretary presented a communication, dated January 11, 1918, from the Commissioner of Water Supply, Gas and Electricity requesting modification of schedules for 1917, involving a transfer within appropriation for said year; and the following report of the Committee on Salaries and Grades recommending approval thereof:

January 21, 1918.

To the Board of Estimate and Apportionment:

Gentlemen—On January 11, 1918, the COMMISSIONER OF WATER SUPPLY, GAS AND ELECTRICITY requested modification of Codes Nos. 2193 and 2200 for 1917, involving a cash transfer of \$105. This was referred to the Committee on Salaries and Grades, Item No. 27-J of the Calendar of January 15. The Bureau of Personal Service reports thereon as follows:

"Proposed Action—In Code No. 2193 to increase the time of Laborer, at \$2.50 per day, from 40 to 82 days, the funds to be provided by a transfer from Code No. 2200.

"In Code No. 2200 to increase the time for varying amounts from 1 to 13 days for Machinist, Blacksmith, Blacksmith's Helper, Machinist's Helper and Housesmith, the funds to be provided by a sufficient reduction in time of a line for Laborer in the same schedule.

"Result of Investigation—The work of the mechanical repair and maintenance force has been largely increased during the past year, especially during the latter part of December, when many of the auto trucks were disabled because of severe weather. As a result, mechanics have been employed beyond the regular hours for periods not contemplated at the time of the preparation of the budget. The change will involve no increase in appropriation in view of a surplus in the allotment for Laborer in the department."

Recommendation—In view of the above facts, the Committee on Salaries and Grades recommends the adoption of the attached resolutions, approving the request.

Respectfully, ALFRED E. SMITH, President, Board of Aldermen; FRANK L. DOWLING, President, Borough of Manhattan; EDWARD RIEGELMANN, President, Borough of Brooklyn; Committee on Salaries and Grades.

The following resolution was offered:

Department of Water Supply, Gas and Electricity—Authority to Fill Vacancy (Cal. No. 34).

(On January 11, 1918 (Cal. No. 86), the request herein was referred to the Committee on Salaries and Grades.)

The Secretary presented a communication, dated January 3, 1918, from the Commissioner of Water Supply, Gas and Electricity requesting authority to appoint a substitute for a Clerk now on military service; and a report of the Committee on Salaries and Grades recommending approval thereof.

The Secretary also presented a communication, dated January 24, 1918, from the Deputy and Acting Commissioner of Water Supply, Gas and Electricity, withdrawing said request.

The matter was withdrawn.

Department of Water Supply, Gas and Electricity—Authority to Fill Vacancy (Cal. No. 35).

(On January 11, 1918 (Cal. No. 86-B), the request herein was referred to the Committee on Salaries and Grades.)

The Secretary presented a communication, dated January 3, 1918, from the Commissioner of Water Supply, Gas and Electricity requesting permission to fill a vacant position of Inspector of Meters and Water Consumption in the Water Register's office; and the following report of the Committee on Salaries and Grades recommending approval thereof:

January 16, 1918.

To the Committee on Salaries and Grades:

Gentlemen—On January 3, 1918, the COMMISSIONER OF WATER SUPPLY, GAS AND ELECTRICITY requested authority, as provided in paragraph second (c) of the terms and conditions of the budget, to fill a vacancy in his office. This was referred to the Committee on Salaries and Grades, Item No. 86, of the Calendar of January 11, 1918. The Bureau of Personal Service reports thereon as follows:

"Vacancy—Inspector of Meters and Water Consumption at \$1,320 in the Water Register's Office, Code No. 2164, to be filled by appointment from a Civil Service eligible list at \$1,020 per annum.

"The work to be performed consists of the periodical reading of water meters, examination of buildings for the purpose of detecting and preventing waste of water and the preparation of reports in connection therewith. The Water Department is the only place where this type of work is performed. Provision was made in the 1918 budget at rates ranging from \$1,020 to \$1,200 for employees doing similar work.

"Result of Investigation—During the latter part of 1917 the Water Department requested authority to fill with substitutes 15 positions of Clerk and 6 positions of Inspector due to the absence of regular incumbents on military duty. At the time the Bureau of Personal Service attempted to reach an agreement with the department whereby the activities of the office could be so reapportioned that substitutes would not be required man for man for each one leaving for military service. The agreement was important in view of the very large number of men within draft age always employed by this office.

"No final decision was reached by the end of 1917 and today the number of employees away on military duty has been increased to 39—25 Clerks and 14 Inspectors—for which a total of only 10 substitutes have been provided. In view of this condition there appears to be no doubt of the necessity for filling the vacancy by a regular employee.

"Respectfully,

GEORGE L. TIRRELL, Director."

Action by Committee—The Committee on Salaries and Grades hereby approves of the filling of the above vacancy at \$1,020 per annum.

ALFRED E. SMITH, President, Board of Aldermen; FRANK L. DOWLING, President, Borough of Manhattan; EDWARD RIEGELMANN, President, Borough of Brooklyn; Committee on Salaries and Grades.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of the action of the Committee on Salaries and Grades in granting the request of the Commissioner of Water Supply, Gas and Electricity to fill a vacancy of Inspector of Meters and Water Consumption, at \$1,320 per annum, in Code No. 2164 for 1918, by appointment at \$1,020 per annum.

Department of Street Cleaning—Modification of Schedule (Cal. No. 36).

(On January 15, 1918 (Cal. No. 27-G), the request herein was referred to the Committee on Salaries and Grades.)

The Secretary presented a communication, dated January 10, 1918, from the Acting Commissioner of Street Cleaning, requesting modification of salary schedule; and the following report of the Committee on Salaries and Grades recommending denial thereof:

January 21, 1918.

To the Board of Estimate and Apportionment:

Gentlemen—On January 10, 1918, the Acting Commissioner of Street Cleaning requested modification of Code No. 2325 for the year 1918. This was referred to the Committee on Salaries and Grades, Item No. 27 (g), Calendar of January 15, 1918. The Bureau of Personal Service reports thereon as follows:

"Proposed Action—To increase the salary of four Stenographers and Typewriters from \$1,200 to \$1,320 per annum each by eliminating the position of Typewriting Copyist at \$600 per annum.

"Result of Investigation—In the departmental estimate for 1918, the Commissioner of Street Cleaning requested an increase in salary of seven Stenographers and Typewriters from \$1,200 to \$1,320 each, five of which are employed in the Borough of Manhattan, one in Brooklyn and one in The Bronx. After full discussion regarding the duties performed by these employees as compared with the duties performed by Stenographers and Typewriters in other City departments receiving a similar salary or less, it was agreed to assign one Stenographer in each Borough for important trial testimony and other work, such employee to receive the \$1,320 rate which is provided in the budget, the others to be assigned to general office work and minor trials and inquiries. The Acting Commissioner now desires to distribute the higher grade work equally among the Stenographic force and increase the salaries of the four now receiving \$1,200 per annum in the Manhattan office to \$1,320."

Recommendation—In view of the above facts the Committee recommends the adoption of the attached resolution denying the request. Respectfully,

ALFRED E. SMITH, President, Board of Aldermen; FRANK L. DOWLING, President, Borough of Manhattan; EDWARD RIEGELMANN, President, Borough of Brooklyn; Committee on Salaries and Grades.

The matter was referred back to the Committee on Salaries and Grades.

Department of Street Cleaning—Transfer of Appropriation and Modification of Schedules (Cal. No. 37).

The Secretary presented a communication, dated December 28, 1918, from the Commissioner of Street Cleaning, requesting modification of schedules effective January 1, 1918, involving transfer of funds within appropriation; and the following report of the Committee on Salaries and Grades recommending approval thereof:

January 21, 1918.

To the Board of Estimate and Apportionment:

Gentlemen—On December 28, 1917, the COMMISSIONER OF STREET CLEANING requested modification of three personal service schedules for the year 1918, involving a cash transfer of \$1,550. This was referred to the Committee on Salaries and Grades, Item No. 22, Calendar of January 15, 1918. The Bureau of Personal Service reports thereon as follows:

"Proposed Change—(1) To reduce the line Loader (Refuse Collector) by \$21,051.60 and to add the following lines: Driver, 129 at \$936 (January 1 to March 2), \$20,442.63; Hostler, 3 at \$912 (January 1 to March 2), \$462.69; and Stableman, 1 at \$864 (January 1 to March 2), \$146.28. In Code No. 2341.

"Reason Given—(1) To continue the services of the present employees.

"Result of Investigation—(1) It was expected that a motor system for collection and flushing would be in operation in the 9th and 11th districts, Manhattan, by January 1, 1918, to replace the present horse-drawn system. In view of this proposed change a number of drivers, hostlers and stablemen were eliminated from the 1918 budget, and a number of loaders (refuse collectors) were allowed

to replace these employees, in order to operate the proposed new system. On account of delay in the installation of the equipment for the proposed motorized districts it will be necessary to carry the present horse-drawn system force until such time as the motor equipment is installed. The funds to provide for the salaries of these employees are to be taken from the line 'Loader (Refuse Collector)' in the same code. The position of loader will be unnecessary until the proposed motor system is employed.

"Proposed Change—(2) To transfer \$2,180 from Code No. 2348, Emergency Appropriation, to Salaries, Regular Employees, Borough Administration, 2334, District, Section, Stable, Dump and Garage Supervision.

"Reason Given—(2) To provide for the services of two Section Foremen, at \$1,320 per annum each; three Stable Foremen, at \$1,620 per annum each; three Assistant Stable Foremen, at \$1,140 per annum each; and two Assistant Stable Foremen, at \$1,080 per annum each, from January 1st to March 1st, 1918.

"Result of Investigation—(2) In the departmental estimate for 1918 the Commissioner requested seven Assistant District Superintendents for the Borough of Manhattan and two for the Borough of Brooklyn. Two of these positions in Manhattan were to replace in each of the two proposed model districts a Stable Foreman and two Assistants, and two in the present model district to replace a Stable Foreman and one Assistant; also to provide for an Assistant to the District Superintendent in the first district, Manhattan, for day work, the District Superintendent being employed at night. The two positions for the Borough of Brooklyn were requested to supervise a motor flushing and collection system in that Borough. These nine positions of Assistant District Superintendents were eliminated from the 1918 budget by the Board of Aldermen, which was under the impression that these were all new positions. On account of the delay in motorizing the ninth and eleventh districts, Manhattan, it will be necessary to employ the present force of officers in these two districts and also a Stable Foreman in the 6th (Model) district now employed on the late tour. It will be therefore necessary to provide only for three Stable Foremen, at \$1,620 each, two Assistant Stable Foremen, at \$1,140 each, and two Assistant Foremen, at \$1,080 each. The transfer of \$1,550 will be sufficient to provide for these employees for the period requested.

"Consideration of the request is urgent, as payrolls are involved."

Recommendation—In view of the above report, the Committee recommends that the request be granted by the adoption of the attached resolutions. Respectfully,

ALFRED E. SMITH, President, Board of Aldermen; FRANK L. DOWLING, President, Borough of Manhattan; EDWARD RIEGELMANN, President, Borough of Brooklyn; Committee on Salaries and Grades.

The following resolution was offered:

Department of Street Cleaning—Authority to Fill Vacancy (Cal. No. 38).

(On January 15, 1918 (Cal. No. 28-E), the request herein was referred to the Committee on Salaries and Grades.)

The Secretary presented a communication, dated January 8, 1918, from the Acting Commissioner of Street Cleaning, requesting permission to fill a vacancy in his department; and the following report of the Committee on Salaries and Grades recommending approval thereof:

January 19, 1918.

To the Committee on Salaries and Grades:

Gentlemen—On January 8, 1918, the ACTING COMMISSIONER OF STREET CLEANING requested authority to fill a vacancy caused by the absence of a Clerk on military duty. This matter was referred to the Committee on Salaries and Grades, Item No. 28E, Calendar of January 15, 1918. The Bureau of Personal Service reports thereon as follows:

Vacancy—In Code 2325, Clerk, at \$840 per annum, by appointment of an eligible from the Civil Service list. The work to be performed is to check payrolls of the labor force of the uniformed force for the purpose of detecting errors and to segregate these payrolls into function classification for expense accounting and statistical purposes. In other City departments the rate of compensation for similar work provided in the Budget for 1918 is from \$840 to \$1,200 per annum.

"Result of Investigation—This work is performed by four Clerks who work in teams, and it is therefore necessary that the vacancy be filled.

"Respectfully, GEORGE L. TIRRELL, Director."

Action by Committee—The Committee on Salaries and Grades hereby approves the filling of the above vacancy as requested.

ALFRED E. SMITH, President, Board of Aldermen; FRANK L. DOWLING, President, Borough of Manhattan; EDWARD RIEGELMANN, President, Borough of Brooklyn; Committee on Salaries and Grades.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of the action of the Committee on Salaries and Grades in granting the request of the Commissioner of Street Cleaning to fill a vacancy of Clerk at \$840 per annum, in Code 2325 for 1918.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

Department of Plant and Structures—Modification of Schedule (Cal. No. 39).

(On January 15, 1918 (Cal. No. 27-A), the request herein was referred to the Committee on Salaries and Grades.)

The Secretary presented a communication dated January 8, 1918, from the Commissioner of Plant and Structures requesting modification of schedule effective January 1, 1918; and the following report of the Committee on Salaries and Grades recommending approval thereof:

January 21, 1918.

To the Board of Estimate and Apportionment:

Gentlemen—On January 8, 1918, the COMMISSIONER OF PLANT AND STRUCTURES requested modification of Code 2746 for 1918. This was referred to the Committee on Salaries and Grades, Item No. 27A, Calendar of January 15, 1918. The Bureau of Personal Service reports thereon as follows:

"Proposed Action—To change the line 'Assistant Engineer, \$3,660,' to read 'Assistant Engineer, \$3,420.'"

Result of Investigation—In the budget for 1918, as adopted by the Board of Estimate and Apportionment, the salary of the above position was fixed at \$3,660, and in a modification of this schedule, approved by the Board of Estimate and Apportionment on December 21, 1917, this line was included as 'Assistant Engineer, \$3,660.' In the approval of the budget by the Board of Aldermen the salary for this position was fixed at \$3,420, therefore the modification cited above, retaining the rate of \$3,660, is incorrect. The change, as requested by the Department, setting up this line at \$3,420, is proper and in accordance with the action of the Board of Aldermen and the actual budget conditions. Department payrolls are being held pending action on this request."

Recommendation—In view of the above report the Committee recommends the adoption of the attached resolution granting the request. Respectfully,

ALFRED E. SMITH, President, Board of Aldermen; FRANK L. DOWLING, President, Borough of Manhattan; EDWARD RIEGELMANN, President, Borough of Brooklyn; Committee on Salaries and Grades.

The following resolution was offered:

January 21, 1918.

To the Board of Estimate and Apportionment:

Gentlemen—On December 29, 1917, the Commissioner of Plant and Structures requested modification of Codes 2751-C and 2758-C for the year 1918. This request was renewed by the present Commissioner on January 12, 1918. This was referred to the Committee on Salaries and Grades, Item No. 27a, Calendar of January 15, 1918. The Bureau of Personal Service reports thereon as follows:

"Proposed Action—To include in the budget schedules for 1918 the employees working under and paid from certain corporate stock authorizations.

"Result of Investigation—On December 28, 1916, corporate stock was authorized in the sum of \$200,000 for the construction of a bridge over the Bronx River at 174th Street. On the same date, corporate stock in the sum of \$150,000 was authorized for the construction of a bridge over Sheepshead Bay at the foot of Ocean Avenue, Brooklyn; and on June 26, 1913, corporate stock in the sum of \$280,000 was authorized for the construction of a new bridge over Westchester Creek to Unionport, Borough of The Bronx. On March 2, 1917, \$50,000 of this authorization was rescinded, making a net authorization of \$230,000. Provision was made in these authorizations for the use of departmental employees in accordance with schedules to be approved by the Board of Estimate and Apportionment. In March, 1917, such schedules were approved and employment under them began.

"The following employees are requested to be scheduled under Code 2751-C:

On June 9, 1916, corporate stock in the sum of \$60,000 was authorized for repaving the approaches of the Williamsburg Bridge.

"On December 29, 1916, and November 30, 1917, corporate stock in the sums of \$80,000 and \$540, respectively, was authorized for repaving and reconstructing the roadway of the Brooklyn Bridge.

"On March 17, 1916, corporate stock in the sum of \$144,000 was authorized for the repaving of the roadway of the Queensboro Bridge.

"Provision was made in these authorizations for the use of departmental employees in accordance with the schedules to be approved by the Board of Estimate and Apportionment. At various times, such schedules were approved. The number of employees included in these schedules has been somewhat reduced from the original force as the work on all these bridges has rapidly progressed, and in some instances is about completed. Departmental payrolls are being held pending the approval of this request."

Recommendation—In view of the above facts, the Committee on Salaries and Grades recommends that the request be approved by the adoption of the attached resolution. Respectfully,

ALFRED E. SMITH, President, Board of Aldermen; FRANK L. DOWLING, President, Borough of Manhattan; EDWARD RIEGELMANN, President, Borough of Brooklyn; Committee on Salaries and Grades.

January 19, 1918.

To the Committee on Salaries and Grades:

Gentlemen—On January 9, 1918, the Children's Court requested authority, as provided in paragraph second (c) of the terms and conditions of the budget, to fill two vacancies. This was referred to the Committee on Salaries and Grades, Item No. 28-d, Calendar of January 15, 1918. The Bureau of Personal Service reports thereon as follows:

"Vacancy—(1) Probation Officer, \$1,560 per annum. To be filled by temporary appointment of Mr. William Buss from an eligible list, at \$1,200 per annum. The work to be performed is investigation and supervision of probation cases. In other city departments the rate of compensation for similar work provided in the budget for 1918 is from \$1,200 to \$1,560.

"Result of Investigation—The position is necessary. Mr. Buss will substitute for Mr. Wix, who is absent on war service and who was the only Protestant male probation officer assigned to Borough of Manhattan. The Children's Court is the only Court in which the assignment and appointment of probation officers is governed by the religion of the incumbent.

"Vacancy—(2) Court Attendant, at \$1,080 per annum. To be filled by the appointment of Louis J. Schery from an eligible list. The work to be performed is routine Court Attendant's work. In other Courts in the City the rate of compensation for similar work provided in the budget for 1918 is from \$1,080 to \$1,380.

"Result of Investigation—The position is necessary. Mr. Schery is to take the place of Mr. Jones, resigned. Mr. Schery will be the only Attendant employed on the Circuit Courts in the Boroughs of Bronx, Queens and Richmond, which Courts are not continually in session. He will rotate with the Judges assigned to the Circuit. Respectfully, GEORGE L. TIRRELL, Director."

The Secretary presented a communication dated January 4, 1918, from the General Clerk of the Supreme Court, Second Department, requesting modification of schedule; and the following report of the Committee on Salaries and Grades relative thereto:

January 21, 1918.

To the Board of Estimate and Apportionment:

Gentlemen—On January 4, 1918, the GENERAL CLERK OF THE SUPREME COURT, SECOND DEPARTMENT, requested modification of Code No. 3465 for 1918. This was referred to the Committee on Salaries and Grades, Item No. 27E, Calendar of January 15, 1918. The Bureau of Personal Service reports thereon as follows:

"Proposed Action—To modify the salary schedule for the Court to provide for increases in salaries of certain Clerks, Assistant Clerks and Attendants and to provide funds to meet increases.

"Result of Investigation—On December 13, 1917, the Justices of the Supreme Court adopted resolutions increasing the salaries of the following employees of the Court:

"George C. Manning, Clerk, from \$3,500 to \$4,000; Richard E. Jackson and Louis A. Cohen, Clerks, from \$3,000 to \$3,500 each; Lorenzo H. Washburn, Daniel S. Murphy, John J. Rush, Thomas E. Holt, Andrew J. Higgins, Jos. Gilbert, William S. Gibbs and William Roesch, Assistant Clerks, from \$2,200 to \$2,500 each; James Flaherty, Edward W. Grant, John G. Soden, Philip A. Bird, William J. Sargent, Edward S. Wilson, Bert E. Odell, John McMullan, John J. McBride, Leon N. Solomon, Thomas Devine, Charles H. McAuley, John J. Flaherty, Albert J. Hendricks, Edward R. Parris, Charles J. Ledwith, William H. Murphy, James P. Boyle, Daniel O'Shea, Joseph Rourke, Daniel O'C. Gillespie and William W. Gulluly, Attendants, from \$1,800 to \$2,000 each. All of the foregoing increases were to take effect January 1, 1918.

"Chapter 826 of the Laws of 1913, amending section 168 of the Judiciary Law, provides, in part, as follows:

"The Justices of the Supreme Court for the Second Judicial District residing in Kings County, or a majority of them; * * * may appoint and at pleasure remove all Clerks, Attendants, Messengers and Court Officers in the Supreme Court in said Counties and fix their compensation, except where such compensation is fixed by law."

"The Board of Justices also authorized the transfer of Joseph H. Strong from the County Court, Kings County, to the position of Attendant at the Supreme Court, Kings County, at a compensation of \$2,000 per annum. By reason of the assignment on January 1, 1918, of Justice Putnam to the Appellate Division, Second Department, his personal Clerk, Harry E. Sullivan, terminated his services in the Trial term of the Supreme Court on December 31, 1917. On January 1, 1918, Frederick E. Haskin, a Court Attendant, was transferred from the Supreme Court, Kings County, to the Appellate Division, Second Department. On December 26, 1917, Justice Manning appointed Edward F. Gordon his personal clerk at an annual salary of \$3,000. On January 1, 1918, Justice Lazansky appointed as his personal clerk James J. Fox, at an annual salary of \$3,000, and on the same date Justice Fawcett appointed Harry W. Smith his personal clerk at an annual salary of \$3,000. In order to provide for the proper audit of the Court's payroll modification of the regular salary schedule is necessary. The increases in salaries for the various employees being mandatory county charges funds to meet them may be provided by the Comptroller in the necessary sum of \$8,500, pursuant to the provisions of subdivision 7 of section 188 of the Greater New York Charter."

Recommendation—The Committee recommends the adoption of the attached resolution providing that the Board of Estimate and Apportionment direct a letter to the Justices of the Supreme Court, 2nd Department, asking them to rearrange their salary schedules so as to keep within budgetary allowances and not to make necessary the issuance of special revenue bonds to meet salary increases. Respectfully,

The following resolution was offered:

These changes are necessary to provide for the payment of the salaries of the employees of that office existing on January 1, 1918.

"Result of Investigation—Section 1, chapter 602, of the Laws of 1901, reads in part as follows:

"He may (Commissioner of Jurors) with the consent in writing of the Justices (Appellate Division) or a majority of them, from time to time, appoint and remove an Assistant Commissioner and such Clerks, Stenographers and Messengers as shall be necessary for the proper discharge of the duties of the office. The salaries or compensation of such Assistant Commissioner, Clerks, Stenographers and Messengers shall be fixed by the Justices of the Appellate Division or a majority of them."

Oats as Messengers as Notice Servers at the rate of \$1,300 each per annum from and after the first day of January, 1918. This is a mandatory county charge. No additional appropriation or transfer of funds is necessary, inasmuch as sufficient funds remain in the appropriation allotted to that office to provide funds to effect these necessary changes."

Recommendation—In view of the mandatory provisions of law, the Committee recommends granting the request by adoption of the attached resolution.

Respectfully, ALFRED E. SMITH, President, Board of Aldermen; FRANK L. DOWLING, President, Borough of Manhattan; EDWARD RIEGELMANN, President, Borough of Brooklyn; Committee on Salaries and Grades.

District Attorney, Queens County—Authority to Fill Vacancies (Cal. No. 48).

(On January 11, 1918 (Cal. No. 102), the request herein was referred to the Committee on Salaries and Grades.)

The Secretary presented a communication, dated January 1, 1918, from the District Attorney of Queens County, advising the Board of certain appointments made by him; and the following report of the Committee on Salaries and Grades relative thereto:

January 17, 1918.

To the Committee on Salaries and Grades:

Gentlemen—On January 1, 1918, the DISTRICT ATTORNEY OF QUEENS COUNTY advised the Board of Estimate and Apportionment of certain appointments made by him in his office. The communication indicates a request for authority, as provided in paragraph second (c) of the terms and conditions of the 1918 budget, to fill the vacancies. The Bureau of Personal Service reports thereon as follows:

"Vacancies—Assistant District Attorney at \$4,000; three Assistant District Attorneys at \$3,000 each; Chief Clerk at \$2,400 and Deputy Assistant District Attorney at \$2,100; Investigator at \$1,500; Stenographer at \$1,680.

"Result of Investigation—On January 1, 1918, the District Attorney entered on a new term of office and made the following changes in his staff: Edgar F. Hazelton appointed as Assistant District Attorney at \$4,000, vice Fred G. DeWitt, resigned; William J. Morris, Jr., and Theodore J. Groh, reappointed as Assistant District Attorneys at \$3,000 each; James F. Barry, promoted from Chief Clerk at \$2,400 to Assistant District Attorney at \$3,000; William F. Ryan, formerly Deputy Assistant District Attorney, at \$2,100; Charles F. Golden, as Deputy Assistant District Attorney, at \$2,100; William F. E. Borges, reappointed Investigator at \$1,500; and William Meyer, reappointed as Stenographer at \$1,680. All of the positions are in the exempt class of the State Civil Service. All of the rates of salary at which the appointments have been made are provided for in the 1918 budget. The rates of salary of the Assistant District Attorneys, the Chief Clerk and the Investigator have been the same for years. An increase of \$120 for the position of Deputy Assistant District Attorney and one of \$180 for the position of Stenographer were allowed in the 1918 budget. Prior to consolidation the number and salaries of these employees were fixed by the Board of Supervisors of Queens County. Section 1586 of the Greater New York Charter now vests this power in the Board of Aldermen of the City of New York. All of the positions are necessary and the rates of salary are not in excess of the compensation provided for similar positions in other offices in the budget for 1918. Consideration of this request is urgent, as payrolls are involved.

Respectfully, GEORGE L. TIRRELL, Director."

Action by Committee—The Committee on Salaries and Grades hereby approves the filling of the above vacancies in the office of the District Attorney of Queens County as requested.

ALFRED E. SMITH, President, Board of Aldermen; FRANK L. DOWLING, President, Borough of Manhattan; EDWARD RIEGELMANN, President, Borough of Brooklyn; Committee on Salaries and Grades.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of the action of the Committee on Salaries and Grades in granting the request of the District Attorney of Queens County to fill vacancies of Assistant District Attorney at \$4,000; Assistant District Attorney, 3 at \$3,000 each; Chief Clerk at \$2,400; Deputy Assistant District Attorney at \$2,100; Investigator at \$1,500 and Stenographer at \$1,680 per annum, in Code No. 3537 for 1918.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

Police Department; Fire Department—Establishment of Additional Grades of Positions and Modification of Schedules.**City Departments—Compensation of Compositors (Cal. No. 49).**

(On January 15, 1918 (Cal. No. 26), this matter was referred to the Committee on Salaries and Grades.)

The Secretary presented a report of the Bureau of Personal Service, dated January 2, 1918, relative to a communication dated December 5, 1917, from the New York Typographical Union No. 6, requesting that the rate for Compositor in City departments be fixed at \$28 per week, beginning January 1, 1918; and the following report of the Committee on Salaries and Grades recommending approval thereof by modification of schedules and that provision for compensation be made by heads of departments affected:

January 21, 1918.

To the Board of Estimate and Apportionment:

Gentlemen—On December 6, 1917, NEW YORK TYPOGRAPHICAL UNION NO. 6 requested increase in rate for Compositors in City departments from \$26 per week and \$4.50 per diem to \$28 per week. This was referred to the Committee on Salaries and Grades, Item No. 26, Calendar of January 15, 1918. The Bureau of Personal Service reports thereon as follows:

"A representative of the Typographical Union submitted copy of an agreement entered into between the employing printers and the Union for the payment of a rate of \$28 per week to "hand men," beginning January 1, 1918. The agreement is signed by a committee representing the employers and the Union.

"A school of instruction for compositors is conducted jointly by the employers and the printers. Applicants are required to pass an examination before they are admitted to membership in the Union or are given employment.

"It is estimated that 90 per cent. of the qualified compositors in private employ in Greater New York are included in the agreement to pay a \$28 rate from January 1, 1918.

"The Secretary of the Association of Employing Printers submitted a list of 162 employers who have signed contracts with Union No. 6. He stated that this list did not include a number of other shops which are paying the scale, but were not under contract. A list is also submitted of 283 organized printers' chapels,

each employing three or more men. Eliminating duplications where there are night forces, this list represents about 260 employers in Greater New York who pay the Union rate.

"The annual cost of the proposed increase in rate for Compositors in the Police Department would be \$520, and in the Fire Department, \$621.75.

"Five Compositors are employed in the Police Department and three in the Fire Department. A rate of \$26 a week is provided in the Budget for 1918 in the Police Department, and \$4.50 per diem for 277½ days in the Fire Department. The per diem rate of \$4.50 was fixed for Compositors in the Fire Department in 1911, and the same rate has been provided in the Budget for 1918. A weekly rate of \$24 was allowed in the Police Department in 1912; which was proportionally a lower per diem rate than paid in the Fire Department, where funds for only 277 days in the year were provided. Conditions are similar in both departments.

"In private employment Compositors, by mutual arrangement with employers, work additional time over eight hours a day to make up for Saturday half holiday, and in order to justify the weekly rate for 48 hours' work. In City employ Compositors in emergency are required to work overtime without extra pay.

"The agreement between the Association of Employing Printers and the Union provides for a weekly rate. There is no per diem rate. The Typographical Union requests that the weekly rate paid by private employers be uniformly applied to City departments. The request is proper."

In view of the above facts the Committee on Salaries and Grades recommends that the request be granted by the adoption of the attached resolutions.

ALFRED E. SMITH, President, Board of Aldermen; FRANK L. DOWLING, President, Borough of Manhattan; EDWARD RIEGELMANN, President, Borough of Brooklyn; Committee on Salaries and Grades.

From the Department of Finance.

Department of Finance; President, Borough of Queens—Transfer of Appropriation (Cal. No. 50).

The Secretary presented the following report of the Comptroller:

January 9, 1918.

The Board of Estimate and Apportionment, The City of New York:

Gentlemen—In his letter of January 3, 1918, the Commissioner of Public Works of the Borough of Queens requested that provision be made for the payment of \$292.30, representing expenses incurred in connection with preliminary authorizations for house connecting drains in the Borough of Queens. This amount was charged to account C. F. M. 25, Street Improvement Fund, but, inasmuch as the authorizations referred to were afterward rescinded, it will be impossible to assess these expenses, and they must therefore be transferred to some other account.

The preliminary authorizations under consideration were:

Date of Authorization.	Date of Rescindment.	Location and Purpose of Work.	Pay Roll Charges.
Apr. 17, 1914	Apr. 1, 1915	Lay 6-inch pipe for house connection drains in Edison Place, from Myrtle Avenue to Cypress Hills Cemetery, etc., Second Ward	\$82 90
Apr. 17, 1914	Apr. 1, 1915	Lay 6-inch pipe for house connection drains in Sunswick Street, from Wilbur Avenue to Paynter Avenue, First Ward.....	34 01
June 12, 1914	Apr. 1, 1915	House connection drains in Stephen Street, from Wyckoff Avenue to Cypress Avenue, Second Ward	71 36
June 12, 1914	Apr. 1, 1915	House connection drains in Lefferts Avenue, from Rockaway Road to Liberty Avenue, Fourth Ward	104 03
Total			\$292 30

I am informed that the preliminary authorizations were rescinded because the Board of Estimate and Apportionment later determined it to be inadvisable to install house connecting drains in front of vacant property, thereby subjecting the owners to unnecessary assessments.

It is requested by the President, Borough of Queens, that the \$292.30 be charged to:

Code 661TCS, 1914, Salaries, Regular Employees, Engineering Construction, etc.	\$277 30
---	----------

Code 677TCS, 1914, Wages, Regular Employees, Engineering Construction, etc.	15 00
--	-------

Total \$292 30

As there are no balances in these accounts to meet the charges specified, it is proposed to provide the necessary funds by a transfer from Account 1914-93, Department of Finance, Contract or Open Order Service, General Repairs. The resolution herewith to that end is recommended for adoption.

Respectfully,

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 237 of the Greater New York Charter, hereby approves of the transfer of funds appropriated for the year 1914, as follows:

FROM

DEPARTMENT OF FINANCE.

Street Improvement Fund and Fund for Street and Park Openings—Amendment of Resolution Authorizing Application from Surplus in Fund (Cal. No. 51).

(On December 11, 1914 (Cal. No. 105), the Board adopted a resolution authorizing the Comptroller to apply \$1,500,000 of the surplus in the Street Improvement Fund and \$278,307.12 of the surplus in the Fund for Street and Park Openings to the liquidation of the indebtedness of The City of New York to the Street Improvement Fund for the City's share of the cost of sundry improvements authorized under section 247 of the Charter, commonly referred to as the Gerhardt Law.)

(On January 4, 1918 (Cal. No. 2) a report dated December 27, 1917, was presented from the former Comptroller, recommending amendment of said resolution and referred to the Comptroller.)

The Secretary presented the following reports of the Comptroller:

January 15, 1918.

To the Board of Estimate and Apportionment, The City of New York:

Gentlemen—The attached report of December 27, 1917, from former Comptroller William A. Prendergast, was on the calendar for action January 4, 1918, but was referred to me in order that I might have time to consider it. The report recommends that a resolution adopted by the Board December 11, 1914, authorizing the Comptroller, pursuant to the provisions of section 176 of the Greater New York Charter, to apply a part of the surplus in the fund for Street and Park Openings, \$278,307.12, to the liquidation of a part of the City's indebtedness to the Street Improvement Fund, be amended to permit the Comptroller to liquidate the indebtedness referred to from the Street Improvement Fund.

It is much to be preferred that the surplus in one fund be not applied to the liquidation of the City's indebtedness to the other, and I find that the only reason for such action was that it did not appear at the time the action was taken that the surplus in the Street Improvement Fund was sufficient for the purpose of liquidating all of the City's indebtedness to that fund. The surplus of the Fund for Street and Park Openings was therefore drawn upon.

Until such time as cash can be transferred from the fund for Street and Park Openings to cover—and it will probably be a long time before that amount of cash in the fund can be spared for such purpose—that fund stands in the position of being indebted to the Street Improvement Fund to the extent of the surplus applied in the manner indicated (\$278,307.12), a condition which should be corrected now that the latter fund has a back surplus more than ample for the purpose. The resolution submitted with the attached report will permit the Comptroller to make a book-keeping adjustment, cancelling the application of surplus from the fund for Street and Park Openings and applying in its stead an equivalent amount of the surplus in the Street Improvement Fund.

I therefore concur in the recommendation contained in the attached report.

Respectfully,

CHARLES L. CRAIG, Comptroller.

December 27, 1917.

The Board of Estimate and Apportionment, The City of New York:

Gentlemen—On December 11, 1914, the Board of Estimate and Apportionment, pursuant to the provisions of section 176 of the Greater New York Charter, adopted a resolution authorizing the Comptroller to apply \$1,500,000 of the surplus in the Street Improvement Fund and \$278,307.12 of the surplus in the Fund for Street and Park openings to the liquidation of the indebtedness of The City of New York to the Street Improvement Fund for the city's share of the cost of sundry improvements authorized under section 247 of the Charter, commonly referred to as the "Gerhardt Law." The reason for applying some of the surplus in the Fund for Street and Park Openings to the liquidation of part of the city's indebtedness to the Street Improvement Fund was that the surplus in the latter fund did not, as of December 31, 1913, appear sufficient to liquidate the indebtedness in full.

Since that time, however, the Street Improvement Fund has accumulated a considerable surplus from interest charged on advances to contractors and on assessments made payable in instalments. It has also been determined that the fund profited to a greater extent than had developed at the end of 1913, through the transfer of assets from the old street improvement fund.

Under date of December 18, 1917, I furnished your board with a statement of the condition of the Street Improvement Fund, as at December 31, 1916. That statement showed assets amounting to \$24,130,562.56, liabilities of \$21,201,434.19 and a surplus available for further liquidation of the City's indebtedness amounting to \$2,929,128.37. Upon my recommendation your board on December 21, 1917, pursuant to the provisions of section 176 of the Greater New York Charter, authorized the application of \$109,506.62 from that surplus to the liquidation of the city's indebtedness to the Street Improvement Fund on account of assessments imposed on city owned property. Deducting the amount authorized to be applied, there remains a free surplus of \$2,819,621.75.

It is much to be preferred that the Street Improvement Fund and the Fund for Street and Park Openings should operate entirely independent of each other, and that the city's indebtedness to either fund should be liquidated (if the indebtedness is to be disposed of in that manner) from the surplus existing in that particular fund. Since the surplus in the Street Improvement Fund is now in excess of the amount required to provide for the liquidation of that part of the city's indebtedness to it which was authorized, by resolution of December 11, 1914, to be liquidated from the surplus in the Fund for Street and Park Openings (\$278,307.12), I would recommend that said resolution be amended to permit of the application of that amount from the surplus in the Street Improvement Fund.

A form of resolution which, if adopted by your board, will carry this recommendation into effect, is herewith submitted. Yours very truly,

WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Whereas, The Board of Estimate and Apportionment, by resolution adopted December 11, 1914, authorized the Comptroller to apply one million five hundred thousand dollars (\$1,500,000) of the surplus existing in the Street Improvement Fund and two hundred and seventy-eight thousand three hundred and seven dollars and twelve cents (\$278,307.12) of the surplus existing in the Fund for Street and Park Openings to the liquidation of the indebtedness of the City of New York to the Street Improvement Fund for its share of the cost of sundry improvements authorized under section 247 of the Greater New York Charter, as set forth in a schedule thereto attached, and

Whereas, It now appears that the surplus in the Street Improvement Fund, as shown in a statement furnished the Board of Estimate and Apportionment by the Comptroller under date of December 18, 1917, and as further certified by the

Comptroller to said board December 27, 1917, is more than sufficient to liquidate the indebtedness above referred to, for the liquidation of which authority was given to apply a part of the surplus existing in the Fund for Street and Park Openings, therefore, be it

Resolved, That the following resolution, which was adopted by the Board of Estimate and Apportionment December 11, 1914, be and hereby is amended by inserting after the words "and two hundred and seventy-eight thousand three hundred and seven dollars and twelve cents (\$278,307.12) of the surplus existing in the fund for street and park openings" the words "or of the surplus existing in the street improvement fund":

"Resolved, That, pursuant to the provisions of section 176 of the Greater New York Charter, as amended by chapter 446 of the Laws of 1914, the Comptroller be and hereby is authorized to apply one million five hundred thousand dollars (\$1,500,000) of the surplus existing in the Street Improvement Fund and two hundred and seventy-eight thousand three hundred and seven dollars and twelve cents (\$278,307.12) of the surplus existing in the fund for street and park openings, to the liquidation of the indebtedness of the City of New York to the street improvement fund for its share of the cost of sundry improvements authorized under section 247 of the Greater New York Charter, as set forth in the following schedule:

Pursuant to the direction contained in such resolution, I transmit herewith a certified copy of the resolution adopted by the Commission on December 27, 1917, requesting your Honorable Board to consent to a proposed contract herewith transmitted between The City of New York, acting by the Commission, and D. Donegan Company, providing for constructing a basin connection from an existing catch basin between Broadway and Fifth Avenue at the north side of West Twenty-fourth Street, in the Borough of Manhattan, to the existing sewer manhole about seventy-five (75) feet south of said catch basin and adjacent to Section 1, Routes Nos. 4 and 36, a part of the Broadway-Fourth Avenue Rapid Transit Railroad, and requesting your Honorable Board to appropriate the sum of one thousand five hundred dollars (\$1,500) for the purpose of providing the necessary means for meeting the City's obligations under such contract.

(Seal.)

Resolved, That this Commission do and hereby does accept the proposal of D. Donegan Company, dated December 10, 1917, for constructing a basin connection from an existing catch basin between Broadway and Fifth Avenue at the north side of West Twenty-fourth Street, Borough of Manhattan, to an existing sewer manhole about seventy-five (75) feet south of said catch basin and adjacent to Section 1, Routes Nos. 4 and 36, a part of the Broadway-Fourth Avenue Rapid Transit Railroad, and that the Chairman and the Secretary of this Commission be and hereby are authorized and directed, on behalf of the Commission, to execute a contract in the form now submitted for said work and to deliver the same if and when consented to by the Board of Estimate and Apportionment of The City of New York, and that the Secretary of this Commission be and hereby is directed to give notice to said D. Subject: Proposed Contract for Constructing Catch Basin at North Side of West 24th St., Manhattan, Between Broadway and Fifth Avenue.

To the Board of Estimate and Apportionment:

Gentlemen—The Public Service Commission for the First District forwarded on

December 27, 1917, a communication addressed to the Board of Estimate and Apportionment requesting the consent of the Board to a proposed contract between The City of New York, acting by the Commission, and D. Donegan Company, for constructing a basin connection from an existing catch basin between Broadway and Fifth Avenue at the north side of West 24th Street, Manhattan, to the existing sewer manhole about 75 feet south of said catch basin and adjacent to Section No. 1 of Routes 4 and 36 of the Broadway-Fourth Avenue Rapid Transit Railroad, and for the construction of which catch basin the Commission requests an appropriation of \$1,500 to cover the estimated contract cost.

It appears that the surface drainage on the west side of Fifth Avenue between 24th and 25th Streets enters a catch basin at the southeast end of the small area in which the Worth monument stands, from which a drain leads westerly to the east side of Broadway, where it intercepts a drain from another catch basin on the east side of Broadway, from which it extends northward to a manhole within the sidewalk line. From this manhole the water is led to a small sewer on the east side of Broadway.

The drainage from the subway shaft adjacent to this location is also conveyed into the manhole referred to and owing to the low gradient of the drain from the Water Board shaft to the manhole, and from the manhole to the Broadway sewer, the dirt from the street which is carried in during and after a rain storm dams up in the bottom of the manhole and entirely stops the drain from the Water Board shaft.

The work contemplated in the proposed contract with D. Donegan Company is to correct this condition by taking the drainage from the west side of Fifth Avenue at 24th Street, diagonally southeastward to an existing manhole in the Fifth Avenue sewer.

On July 31, 1913, the Board of Estimate consented, on the requisition duly made by the Public Service Commission, to the award of a contract by and between The City of New York, acting by the Public Service Commission, and the E. E. Smith Contracting Company, for the construction of Section No. 1 of Routes Nos. 4 and 36 of the Broadway-Fourth Avenue Rapid Transit Railroad, at an estimated cost of \$2,056,702.50, and on November 24, 1916, pursuant to an additional requisition of the Public Service Commission, dated September 28, 1916, the Board authorized a further sum of \$95,000 for the purposes of the said contract with E. E. Smith Contracting Company.

Under date of August 3, 1917, the Public Service Commission requisitioned the Board of Estimate and Apportionment in the sum of \$809.75 for the purpose of carrying out a proposed contract to be entered into by and between the City, acting by the Commission, and E. A. Mathews for the construction of a connection with the existing catch basins at the northerly side of 24th Street, Manhattan, between Broadway and Fifth Avenue, which is contemplated and provided for in the proposed contract with D. Donegan Company. The requisition of August 3, 1917, of the Public Service Commission provided that the estimated cost of making the proposed connection with existing catch basins, viz., \$809.75, was to be reserved and set aside out of the appropriations theretofore made by the Board of Estimate for the purposes of the contract with the E. E. Smith Contracting Company. That requisition was agreed to and the consent of the Board of Estimate to the awarding of the contract with E. A. Mathews was formally given.

It seems, however, that the low bidder, E. A. Mathews, subsequently refused to enter into or execute the contract, apparently necessitating the obtaining of new bids by the Commission. These new bids, it appears, range from \$1,500 to \$2,000, the low bidder being the D. Donegan Company at \$1,500.

In the requisition of the Public Service Commission of December 27, 1917, they ask for a subauthorization of \$1,500 from the general appropriation of corporate stock heretofore made by the Board of Estimate and Apportionment for the purposes of Rapid Transit Contract No. 4, but in accordance with the procedure set forth in the requisition of the Commission of August 3, 1917, this \$1,500 should be charged against the remaining balance of the authorizations made on July 31, 1913, and November 24, 1916, of corporate stock appropriated for the purposes of the contract with E. E. Smith Contracting Company, and should not be made a charge directly against the appropriation of \$60,000,000 made by the Board on March 18, 1913, and the supplemental appropriations thereto for the purposes of Contract No. 4. In other words, following the same principle laid down by the Commission in its requisition of August 3, 1917, this \$1,500 is payable by the contractor under his contract for that section of the subway and not by The City of New York.

I therefore submit and ask the adoption of the attached resolution which will authorize the awarding of the contract to D. Donegan Company and the reserving, transferring and setting aside for the purposes thereof the sum of \$1,500 from the balance remaining of the authorizations heretofore made by the Board on July 31, 1913, and November 24, 1916, for the purposes of the contract with the E. E. Smith Contracting Company for the construction of Section No. 1 of Routes Nos. 4 and 36 of the Broadway-Fourth Avenue Rapid Transit Railroad, and will authorize the rescindment of the resolution of August 14, 1917, with respect to the awarding of a contract to E. A. Mathews at an estimated cost of \$809.75.

Respectfully,

CHARLES L. CRAIG, Comptroller.

The Secretary also presented the following:

State of New York, Public Service Commission for the First District, 120 Broadway, New York, January 18, 1918.

To the Board of Estimate and Apportionment of The City of New York:

The Public Service Commission for the First District, at its meeting January 18, 1918, adopted a resolution, a certified copy of which is herewith transmitted, requesting your Honorable Board to rescind the appropriation of eight hundred nine dollars and seventy-five cents (\$809.75) heretofore made by your Honorable Board on or about the fourteenth day of August, 1917, for the purpose of providing the necessary means to carry out a proposed contract with E. A. Mathews for the construction of a connection between an existing catch basin, located between Broadway and Fifth Avenue at the northerly side of Twenty-fourth Street, Borough of Manhattan, City of New York, with an existing manhole approximately seventy-five feet south of said basin, adjacent to and necessitated by the construction of a portion of the Broadway-Fourth Avenue Rapid Transit Railroad known as Section No. 1 of Routes Nos. 4 and 36, which said proposed contract E. A. Mathews refused to execute, and also rescinding its requisition in the sum of one thousand five hundred dollars made by resolution of the Commission adopted on the 27th day of December, 1917, in connection with the award of a substitute agreement for the performance of the above described work to D. Donegan & Co. and requesting that the charge of the said sum of one thousand five hundred dollars (\$1,500) for the purpose of providing means to carry out the contract with D. Donegan & Company be made a charge against the unexpended balance of the appropriation made by your Honorable Board for the construction of said Section No. 1 of Routes 4 and 36 aforesaid.

PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT, by JAMES B. WALKER, Secretary.

Whereas, The Board of Estimate and Apportionment of The City of New York, by resolution adopted on the fourteenth day of August, 1917, consented to a proposed agreement between The City of New York, acting by this Commission, and E. A. Mathews, for the construction of a connection between an existing catch basin located between Broadway and Fifth Avenue at the northerly side of Twenty-fourth Street, Borough of Manhattan, City of New York, with an existing manhole approximately 75 feet south of said catch basin adjacent to and necessitated by the construction of that portion of the Broadway-Fourth Avenue Rapid Transit Railroad known as Section No. 1 of Routes Nos. 4 and 36, and appropriated the sum of eight hundred and nine dollars and seventy-five cents (\$809.75) for the purpose of carrying out said proposed agreement, and made said appropriation a charge against the appropriations theretofore made by the Board of Estimate and Apportionment for the purpose of carrying out the contract for the construction of said Section No. 1 of Routes Nos. 4 and 36; and

Whereas, Thereafter, because of the failure of said E. A. Mathews to execute said proposed agreement so consented to, this Commission by resolution adopted on the twenty-seventh day of December, 1917, awarded a substitute agreement for the performance of said work to D. Donegan & Co., and submitted the same to said Board of Estimate and Apportionment for its consent, together with a requisition upon said Board for the appropriation of the sum of fifteen hundred dollars (\$1,500), the amount of the proposal of said D. Donegan & Co. for the performance of such

work, and this Commission in and by said requisition requested said Board of Estimate and Apportionment to make said requisition a charge against the appropriation of sixty million dollars (\$60,000,000) and subsequent authorizations made by said Board of Estimate and Apportionment for the purpose of carrying out the contract dated March 19, 1913, known as Contract No. 4, between The City of New York, acting by this Commission, and the New York Municipal Railway Corporation, Section No. 1 of Routes Nos. 4 and 36, constituting a part of the Railroad described in said Contract No. 4;

Resolved, That the said requisition for the sum of \$1,500 transmitted to the Board of Estimate and Apportionment, together with the proposed contract with D. Donegan & Co., be made a charge against the unexpended balance of the appropriation made by said Board of Estimate and Apportionment for the construction of said Section No. 1 of Routes Nos. 4 and 36 as aforesaid, and that this Commission do and hereby does request the said Board of Estimate and Apportionment to rescind the appropriation of \$809.75 heretofore made by said Board to carry out the proposed contract with E. A. Mathews, and that the Secretary of this Commission be and hereby is authorized and directed to transmit a communication to the said Board of Estimate and Apportionment requesting the said Board to comply with the provisions of this resolution.

State of New York, County of New York, ss.:

I, James B. Walker, Secretary of the Public Service Commission for the First District, do hereby certify that I have compared the above with the original adopted by said Commission on January 18, 1918, and that it is a correct transcript therefrom and of the whole of the original.

In Testimony Whereof, I have hereunto subscribed my hand and affixed the seal of the Commission this 18th day of January, 1918.

JAMES B. WALKER, Secretary.

The following was offered:

Whereas, The Board of Estimate and Apportionment on July 31, 1913, consented to the award of a contract, on the requisition of the Public Service Commission for the First District, between the City of New York, acting by said Commission, and the E. E. Smith Contracting Company for the construction of Section No. 1 of Routes Nos. 4 and 36, being a part of the Broadway-Fourth Avenue Rapid Transit Railroad, at an estimated cost of two million and fifty-six thousand seven hundred and two dollars and fifty cents (\$2,056,702.50), and on November 24, 1916, pursuant to a requisition of the said Public Service Commission, dated September 28, 1916, authorized the further sum of ninety-five thousand dollars (\$95,000) for the purposes of the said contract; and

Whereas, The said Public Service Commission, under date of December 27, 1917, made requisition upon the Board of Estimate and Apportionment for the sum of one thousand five hundred dollars (\$1,500) for the purpose of carrying out the terms and provisions of a proposed agreement to be entered into by and between the City of New York, acting by said Commission, and D. Donegan Company, for the construction of a connection between an existing catch basin located between Broadway and Fifth Avenue on the northerly side of 24th Street, Manhattan, with an existing manhole approximately seventy-five (75) feet south of said catch basin, adjacent to the Broadway-Fourth Avenue Rapid Transit Railroad, which said sum of one thousand five hundred dollars (\$1,500) is to be reserved, transferred and set aside from the remaining balance of the combined appropriations heretofore made by this Board, viz., two million and fifty-six thousand seven hundred and two dollars and fifty cents (\$2,056,702.50) on July 31, 1913, and ninety-five thousand dollars (\$95,000) on November 24, 1916, for the purpose of carrying out the terms and provisions of the contract with the E. E. Smith Contracting Company, for the construction of Section No. 1 of Routes Nos. 4 and 36, a part of the Broadway-Fourth Avenue Rapid Transit Railroad; therefore be it

Resolved, That, pursuant to the requisition of the Public Service Commission for the First District, dated December 27, 1917, the Board of Estimate and Apportionment hereby authorizes and requests the Comptroller to reserve, transfer and set aside the sum of one thousand five hundred dollars (\$1,500), to be applied to the purposes of the said proposed agreement with D. Donegan Company, as set forth in this resolution and described in the requisition of the Public Service Commission submitted to this Board under date of December 27, 1917; and be it further

Resolved, That the resolution adopted by this Board on August 14, 1917, to reserve and set aside the sum of eight hundred and nine dollars and seventy-five cents (\$809.75) from the appropriations heretofore made for the purposes of the contract with E. E. Smith Contracting Company, which said eight hundred and nine dollars and seventy-five cents (\$809.75) was to be applied towards meeting the estimated cost of an agreement proposed to be entered into by and between the City of New York, acting by the Public Service Commission, and E. A. Mathews, be and it is hereby rescinded and the related contract liability is hereby declared *annulled*.

Municipal Civil Service Commission—Transfer of Appropriation (Cal. No. 56).

The Secretary presented a communication, dated December 15, 1917, from the Municipal Civil Service Commission, requesting transfer of funds within appropriation for 1917; and the following report of the Comptroller recommending approval thereof:

January 22, 1918.

To the Board of Estimate and Apportionment:

Gentlemen—In a communication dated December 15, 1917, the Municipal Civil Service Commission requested a transfer of funds within its 1917 appropriation, on which it is reported as follows:

It is proposed to transfer \$1,200 from Code No. 191, Wages Temporary Employees, Examiner or Expert not to exceed \$10 per day, to Code No. 199, Contract or Open Order Service, General Plant Service.

Out of an appropriation of \$4,400 in Account No. 199 there is at present an unexpended balance of \$83.86. There are unpaid bills amounting to \$993.63 chargeable to this account, which were incurred in the conduct of practical tests at trade schools for positions such as cable tester or for the preparation of questions, rating of papers and the conduct of oral examinations in connection with examinations for such positions as medical inspector, radiographer and assistant superintendent.

In connection with examinations such as those referred to the Commission employs persons of high and recognized attainments in special lines, and also makes use of the facilities of the New York Trade School and Pratt Institute for practical tests and trade examinations.

In actual practice it has been found to be impossible to estimate with any degree of accuracy the amount which will be charged for the preparation of questions and for the rating of papers.

If the transfer is allowed as requested it is estimated there will be sufficient funds in the account to provide for bills which have not been rendered, in addition to those now being held by the department.

The adoption of the attached resolution providing for the desired transfer is therefore recommended. Respectfully,

CHARLES L. CRAIG, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 237 of the Greater New York Charter, hereby approves transfer of funds within appropriations to the Municipal Civil Service Commission for the year 1917, as follows:

In order to obviate the necessity of issuing special revenue bonds and to avoid a transfer from the salary and wage accrual account, the Department of Street Cleaning deferred requesting the transfer of funds to provide for the current expenses, until such time as it could be determined that the balances, within their own appropriations, were available.

The excess balances in the accounts from which the transfers are requested are sufficient to permit of the transfers.

I recommend the adoption of the attached resolution. Respectfully,

CHARLES L. CRAIG, Comptroller.

Department of Docks and Ferries—Approval of Increased Estimate of Cost (Cal. No. 58).

(On December 21, 1917 (Cal. No. 111), the Board approved the estimate of cost for this work at \$6,205.)

(On January 18, 1918 (Cal. No. 61), the request in this matter was referred to the Bureau of Contract Supervision.)

The Secretary presented a communication, dated January 11, 1918, from the Commissioner of Docks, requesting approval of increased estimate of cost for the work of receiving and removing ashes by scows at the municipal ferry terminals in the Boroughs of Brooklyn and Richmond; and the following report of the Bureau of Contract Supervision recommending approval thereof:

January 22, 1918.

To the Board of Estimate and Apportionment:

Gentlemen—On January 11, 1918, the Commissioner of Docks requested approval of a new estimate of cost in the sum of \$6,458.40 for Contract No. 1591 for receiving and removing ashes by scows at the Municipal Ferry Terminals in the Boroughs of Brooklyn and Richmond during the year 1918.

On December 21, 1917, your Board adopted a resolution approving the form of contract and specifications for this contract at an estimated cost of \$6,205.

The contract was divided into two classes, Class 1, for receiving and removing ashes by scows from the ferry terminal at St. George, Richmond, and Class 2, for receiving and removing ashes by scows from the ferry terminals at 39th Street, Borough of Brooklyn.

Bids were opened for the work on January 2, 1918, as follows:

Class 1—	
Moran Towing and Transportation Company	\$3,600 00
Model Contracting Company	3,229 20
Class 2—	
Moran Towing and Transportation Company	\$3,600 00
Model Contracting Company	3,229 20

The sum of the two low bids is \$6,458.40, or but \$253.40 more than the original estimate.

Scows for the removal of ashes must be continuously in service and as the amount of the low bids so closely approximates the estimate approved on December 21, 1917, I recommend the adoption of the attached resolution granting the request.

Respectfully, FRANCIS P. BENT, Director.

The following resolution was offered:

Resolved, That the resolution adopted by the Board of Estimate and Apportionment on December 21, 1917, approving the form of contract, No. 1591, specifications and estimate of cost in the sum of six thousand two hundred and five dollars (\$6,205), for receiving and removing ashes by scows from the Municipal Ferry Terminals in the Boroughs of Brooklyn and Richmond during the year 1918, under the jurisdiction of the Department of Docks and Ferries, be and the same is hereby amended to make the estimate of cost read *six thousand four hundred and fifty-eight dollars and forty cents* (\$6,458.40).

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

Department of Docks and Ferries—Approval of Increased Estimate of Cost (Cal. No. 59).

(On December 21, 1917 (Cal. No. 110), the Board approved the estimate of cost for this work at \$13,140.)

(On January 18, 1918 (Cal. No. 61), the request in this matter was referred to the Bureau of Contract Supervision.)

The Secretary presented a communication, dated January 11, 1918, from the Commissioner of Docks, requesting approval of increased estimate of cost for carting coal to and removing ashes from the municipal ferryboats and ferry terminals, Boroughs of Manhattan and Richmond, for the year 1918; and the following report of the Bureau of Contract Supervision recommending approval thereof:

January 22, 1918.

To the Board of Estimate and Apportionment:

Gentlemen—On January 11, 1918, the Commissioner of Docks requested approval of a new estimate of cost of \$16,030.80 for Class 2 of Contract No. 1590 for furnishing horses with harness and drivers for carting coal to and removing ashes, etc., from the municipal ferryboats and ferry terminals in the Boroughs of Manhattan and Richmond.

On December 21, 1917, your Board approved the form of contract, No. 1590, at a total estimate of cost, \$18,478.13, for such services in connection with both the Manhattan and St. George and the 39th Street, Brooklyn, ferries.

The contract was divided into two classes at estimates of cost as follows:

Class 1 (39th Street Ferry)—1,642½ cart days at \$3.25 per day	\$5,338 13
Class 2 (St. George Ferry)—4,380 cart days at \$3 per day	13,140 00
	\$18,478 13

Bids were received for the separate classes of work on January 2, 1918, as follows:

Class 1—	
P. H. Nannery, per cart day	\$3 40
James McGuire, Inc., per cart day	4 25
Class 2—	
James McGuire, Inc., per cart day	4 25
Frank Volpe, per cart day	3 66
Wacker & Flannigan, per cart day	3 90

The bid of P. H. Nannery for Class 1 was informal and both bids for this class were rejected by the Commissioner.

The estimate of cost approved in December for Class 2, \$3 per cart day, was based on the price paid under contract during the latter part of 1917, which was extremely low.

In view of prevailing high prices for labor, it is not believed that a lower bid for Class 2 than \$3.66 per day would result if contract for this class were again advertised.

The cost is to be paid from the 1918 Budget Code No. 2852, "Hire of Horses and Vehicles with Drivers," in which code the sum of \$19,446 was requested by the Department and included for said services on both the 39th Street and St. George ferries during the year 1918.

It is evident that the amount provided in the budget for the year will be insufficient and that the account will have to be augmented in some manner before a contract for Class 1 can be made.

It is the opinion of the Bureau of Contract Supervision, however, that it will be in the best interest of the City to award the contract for Class 2 at the low price bid.

I recommend the adoption of the attached resolution, granting the request.

Respectfully, FRANCIS B. BENT, Director.

New York Ice Company of Maine, Inc. (Cal. No. 60).

Amendment of consent granted New York Ice Company of Maine, Inc., to install, maintain and use a ten-inch pipe from its plant on the easterly side of Washington Street, south of Globe Square, northerly along Washington Street to Globe Square, and thence westerly to the Hudson River, by authorizing the installation of the pipe as laid, 10 feet 8 inches north of the south curb of Globe Square.

The Secretary presented the following:

New York Ice Company of Maine, Inc., 280 Madison Avenue, New York, January 4th, 1918.

Board of Estimate and Apportionment, Bureau of Franchises, Municipal Building, New York City:

Dear Sirs—Due to the nature of subsurface structures in Washington Street south of Globe Square, we found it necessary, when installing our 10-inch suction line from our Blue Star ice plant to the Hudson River, to deviate from our preliminary plan as submitted with our petition for franchise.

In place of crossing Washington Street to the west at 42 feet south of the south curb of Globe Square, we continued straight to ten feet eight inches north of the south curb of Globe Square, thence west in Globe Square, as shown on our preliminary drawing. This change is noted on our attached tracing, together with lithoprints, which we are submitting for your approval, authorizing such change and any amendment which may be necessary of Resolution No. 32, authorized by the Board of Estimate and Apportionment April 20th, 1917, approved by the Mayor April 27th, 1917.

Very truly yours, NEW YORK ICE COMPANY OF MAINE, INC., CHAS. C. UPHAM, President.

Bureau of Franchises, January 18, 1918.

Hon. JOHN F. Hylan, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—By resolution adopted by the Board of Estimate and Apportionment April 20, 1917, and approved by the Mayor April 27, 1917, consent was granted to the New York Ice Company of Maine, Inc., to install, maintain and use a 10-inch pipe from a point in its artificial ice plant on the easterly side of Washington Street, Borough of Manhattan, 52 feet south of Globe Square, northerly along Washington Street to Globe Square and thence westerly to the Hudson River, in order to obtain salt water for condensing purposes. The grantee duly accepted the consent and complied with the terms and conditions thereof.

The Company presented a petition dated January 4, 1918, to the Board of Estimate and Apportionment, reciting that on opening the streets it was found impossible, due to existing subsurface structures to install the pipe at the precise location authorized in Washington Street and at the intersection of that street with Globe Square, and requesting that the maintenance of the pipe in the location in which it was actually installed be legalized. A plan was submitted with such petition showing the pipe as actually installed.

Copies of the petition, with accompanying plan, were forwarded to the President of the Borough of Manhattan and to the Commissioner of Water Supply, Gas and Electricity, with a request that examinations be made by the various bureaus of their departments having jurisdiction with a view to ascertaining if there are any objections to the maintenance of the pipe as installed, or any particular conditions necessary to be inserted in the consent. Replies have been received stating there are no objections to the change.

As the administrative departments having jurisdiction have no objection, I can see no good reason why the consent should not be amended so as to provide for the pipe in the position in which it has been laid, and a resolution to that effect is herewith submitted for adoption. Respectfully,

JOHN A. MCCOLLUM, Acting Chief of Bureau.

The matter was referred to the Committee on Franchises.

Long Island Railroad Company (Cal. No. 61).

Application of the Long Island Railroad Company for permission to construct, maintain and operate railroad tracks across and on the surface of Orton, Manley, Mount and School Streets, between Borden and Hunters Point Avenues, Long Island City, Borough of Queens.

(This application was presented to the Board at the meeting of October 26, 1917 (Cal. No. 66), and was referred to the Bureau of Franchises.)

The Secretary presented the following:

BOARD OF ESTIMATE AND APPORTIONMENT OF THE CITY OF NEW YORK.

Petition—In the matter of the application of the Long Island Railroad Company for leave to construct and maintain a side track extension and branch or spur therefrom, across Orton Street, Manley Street, Mount Street and School Street, in the Borough of Queens, City of New York, for Henry Lockhart, Jr.

To the Board of Estimate and Apportionment of The City of New York:

The Long Island Railroad Company, the petitioner herein, alleges:

I. That it is a domestic railroad corporation, organized and existing under and by virtue of the provisions of chapter 178 of the Laws of 1834 and the acts amendatory thereof and supplementary thereto.

II. That it maintains and operates by steam and electricity a railroad and railroad system on Long Island, in the State of New York and through the Borough of Queens, in the City of New York. That it maintains a passenger and freight terminal at Long Island City, in the said Borough of Queens, together with sidings for the accommodation of enterprises located in the vicinity of its railroad and that one of its sidings, from which branch spurs and extensions, crosses Borden Avenue just west of Orton Street, where it leads into the property of Henry Lockhart, Jr., on the north side of said avenue.

III. That in 1914 your petitioner applied for leave to construct and maintain said side track across Borden Avenue for the use of said Henry Lockhart, Jr., and such consent was granted your petitioner by resolution of your Board adopted July 2d, 1914, and approved by his Honor, the Mayor, July 10th, 1914.

IV. Upon information and belief that the said Henry Lockhart, Jr., has sold or contracted to sell a portion of his property on the north side of Borden Avenue, between School Street and Van Dam Street, to the Patterson-Sargent Company, which company contemplates the location and establishment of an industry requiring side track facilities upon the property so purchased, and that the said Henry Lockhart, Jr., contemplates the sale of other properties owned by him in this vicinity for industrial uses. That his plans for the development and sale of his property include a plan for the extension of the side track now crossing Borden Avenue, west of Orton Street, in an easterly direction, across Orton Street, Manley Street, Mount Street and School Street, with a branch or spur therefrom, leading southerly across Mount Street, all as shown in red upon the plan accompanying this application.

V. That your petitioner has entered into a contract with the said Henry Lockhart, Jr., for the construction of said side track, as shown in red upon said plan, upon certain terms and conditions, and has agreed therein to apply to your Board for its consent to construct and maintain the track across Orton Street, Manley Street, Mount Street and School Street in the locations and upon the grades shown on said plan.

VI. That your petitioner believes that the construction of the side track, as planned, is desirable for the proper development and use of the large tract of property owned by the said Henry Lockhart, Jr., and that the construction and use thereof will be for the best interests of The City of New York.

Wherefore, your petitioner prays that it be accorded the right and privilege of constructing and maintaining a side track, with the necessary appurtenances thereunto belonging, across Orton Street, Manley Street, Mount Street and School Street, with a branch or spur therefrom across Mount Street, in the Borough of Queens, in the City of New York, as shown upon the plan accompanying this application.

Dated October 13th, 1917.

THE LONG ISLAND RAILROAD COMPANY, by RALPH PETERS, President.

JOSEPH F. KEANY, Attorney for Petitioner, Pennsylvania Station, New York City.

State of New York, County of New York, ss.:

Ralph Peters, being duly sworn, deposes and says: That the petitioner above named is a domestic corporation and that he is an officer thereof, to wit, President, and, therefore, makes this verification. The foregoing petition is true to the knowledge of deponent, except as to the matters therein stated to be alleged upon information and belief, as to which matters he believes it to be true.

RALPH PETERS.

Sworn to before me this 15th day of October, 1917. HARRY K. HOWLAND, Notary Public, Queens County, No. 226; certificate filed, New York County No. 84; commission expires March 30th, 1918.

Bureau of Franchises, January 21, 1918.

Hon. JOHN F. HYLAN, Mayor, Chairman of the Board of Estimate and Apportionment: Sir—The Long Island Railroad Company presented a petition dated October 13, 1917, to the Board of Estimate and Apportionment for permission to construct, maintain and operate standard gauge railroad tracks across and on the surface of Orton Street, Manley Street, Mount Street and School Street, between Borden Avenue and Hunters Point Avenue, Long Island City, Borough of Queens, with a spur leaving the said track between Manley and Mount Streets and crossing Mount Street at another point, thus making two tracks across the latter street. The petition recites that by resolution adopted by the Board of Estimate and Apportionment July 2, 1914, and approved by the Mayor July 10, 1914, consent was granted to the Company to construct, maintain and operate a track across Borden Avenue west of Orton Street, and the tracks now proposed are an extension of the track so authorized in 1914 and are for the purpose of furnishing direct railroad connection to property owned by Henry Lockhart, Jr. it is added that a portion of the said property is to be sold to the Patterson-Sargent Company, which contemplates the establishment of an industry requiring side track facilities.

At the meeting of the Board held October 26, 1917, the petition was referred to the Bureau of Franchises for investigation and report.

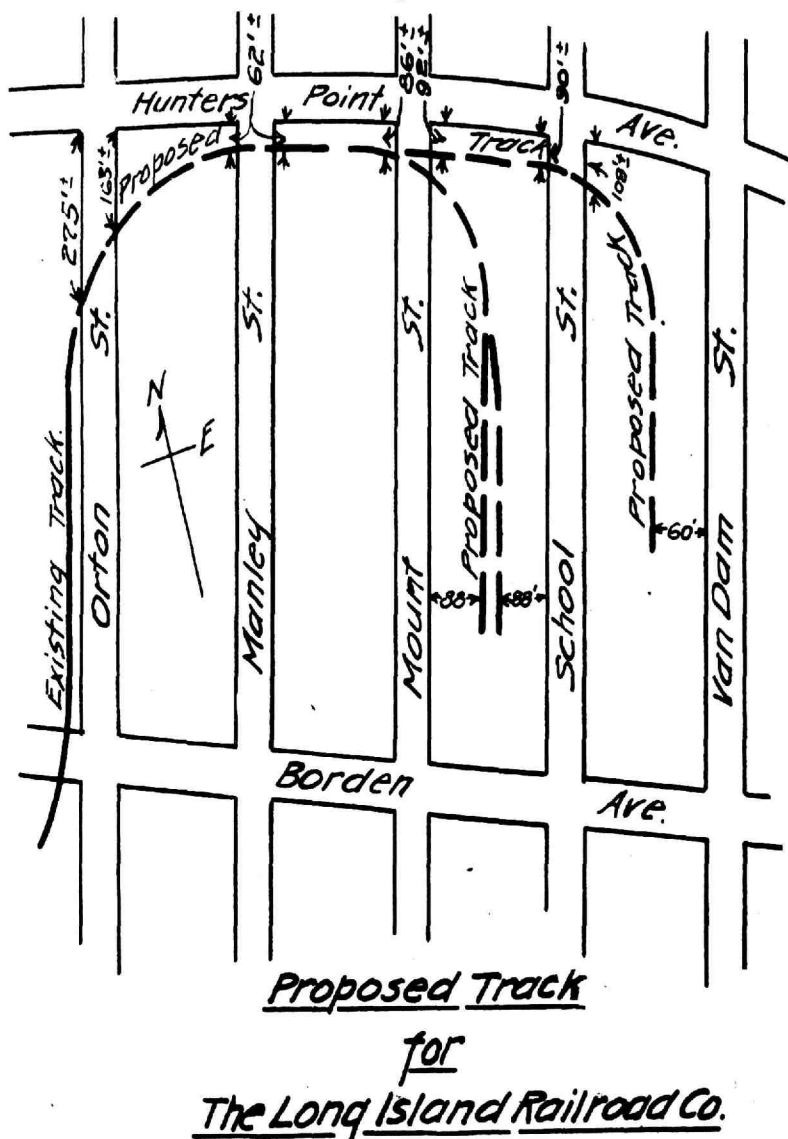

Copies of the petition with accompanying plan were forwarded to the President of the Borough of Queens and to the Commissioner of Water Supply, Gas and Electricity, with the request that examinations be made by the various bureaus of their departments having jurisdiction, with a view to ascertaining if there are any objections to the project or any particular conditions necessary to be incorporated in the form of consent heretofore used by the Board for similar privileges. In replies dated, respectively, December 3 and November 2, 1917, I have been informed there are no objections to the tracks. The reply from the Department of Water Supply, Gas and Electricity requests that it be stipulated that the Railroad Company reimburse the City for any expense incurred by that Department in the repair or relocation of water mains made necessary by the installation or maintenance of the tracks, and that during the installation of new mains or repair of existing mains the Railroad Company shall shore up the tracks where they cross the mains. The customary form of consent contains provisions protecting the City's interests in those respects.

Development of the property will result in some increase in the number of car operations across Borden Avenue, at grade, on the track authorized in 1914. However, the operation of said track is limited to between the hours of 7 A. M. and 7 P. M., when street traffic is at a minimum. At the time the petition for that track was before the Board, the Franchise Committee did not consider such operation as detrimental to any great extent to the use of Borden Avenue, particularly since the consent is revocable upon sixty days' notice.

The attorneys for Henry Lockhart, Jr., have stated that it was originally their intention to develop this property by a freight terminal railroad, for which they proposed to make application for a franchise. It was found, however, that it was impracticable to lay out a system of track in advance, upon which to base the application for a franchise, for the reason that at this time the need of future occupants of the property could not be anticipated. The attorneys state that it is still their intention to develop this property by a freight terminal railroad and, when it becomes practicable so to do, application will be made for such a franchise, which will undoubtedly include the trackage now requested.

The property of the Degnon Realty and Terminal Improvement Company, situated in the Dutch Kills Creek section, to the north of this property and separated from it only by Hunters Point Avenue, is being developed by means of a terminal railroad, for which it has received a franchise from this Board. Under the terms of the Degnon franchise, that company must receive and deliver freight from and to any property adjacent to its development, and, therefore, it is possible that the development of the Lockhart property by a terminal railroad will involve a connection with the railroad of the Degnon Realty and Terminal Improvement Company. The Lockhart property is the only remaining area of considerable size available for such development in this location.

The customary examination by this Bureau disclosed no objection to the tracks now desired, and, as the administrative departments of the City government having jurisdiction find none, and, further, in view of the restrictions imposed upon the operations across Borden Avenue, as hereinabove stated, I can see no good reason why the requested permission should not be given, should the Board see fit to do so. In such case I would suggest that consent be granted only during the pleasure of the Board, and coterminous with the consent for the track across Borden Avenue, i. e., July 10, 1924, and revocable upon sixty (60) days' notice, and that it be made a condition of the consent that security in the sum of Fifteen hundred dollars (\$1,500) be furnished, such sum to be in the form of either cash or securities to be approved by and deposited with the Comptroller, for the faithful performance of the terms and conditions of the consent, and that the security of One thousand dollars (\$1,000) now on deposit with the Comptroller under the consent for the Borden Avenue track be also held as security under this consent.

Bureau of Franchises.

Five track crossings are proposed, one each across Orton, Manley and School Streets and two across Mount Street, some distance apart. At the rate heretofore fixed by the Board for tracks in the City streets under revocable consents, viz., four per cent. of the assessed valuation of the area of street occupied, estimating a track to occupy a width of ten feet, the charge for each of the said tracks would be less than the minimum of one hundred dollars (\$100). The compensation for the privilege should, therefore, be the sum of One hundred dollars (\$100) per annum for each track, or five hundred dollars (\$500) for all, during the first term

of five years, and, with the customary increase of five per cent. for the second term, five hundred and twenty-five dollars (\$525) per annum during the remaining term of the contract.

The customary form of resolution granting consent and providing for the complete installation of the trackage by October 1, 1919, is herewith submitted for adoption. Respectfully, JOHN A. McCOLLUM, Acting Chief of Bureau.

M. J. Griffin, Engineer for the Trustees of St. Patrick's Cathedral, appeared and stated his client held title to some of the streets involved in the proposed grant and wished to have this appear on the record.

The Secretary also presented a communication and map from William J. Stewart, Managing Director, Calvary and Allied Cemeteries.

The matter was referred to the Committee on Franchises.

(This consent was granted by resolution adopted December 21, 1917 (Cal. No. 115), approved by the Mayor December 28, 1917.)

The Secretary presented the following:

Bureau of Franchises, January 19, 1918.

Hon. JOHN F. HYLAN, Mayor, Chairman of the Board of Estimate and Apportionment: Sir—By resolution adopted by the Board of Estimate and Apportionment December 21, 1917, approved by the Mayor December 28, 1917, consent was granted to the United Dressed Beef Company of New York to continue to maintain and use an existing enclosed single span bridge over and across East 44th Street, east of First Avenue, Borough of Manhattan.

Section 14 of said consent provides as follows:

"This consent shall be null and void unless said grantee shall duly execute an instrument in writing, wherein said grantee shall accept this consent and shall promise, covenant and agree to conform to, abide by and perform all the terms, conditions and requirements in this consent fixed and contained and file said instrument with the Board of Estimate and Apportionment of The City of New York within thirty (30) days after the approval of this consent by the Mayor; provided, however, that such time may be extended by the Board of Estimate and Apportionment."

"And said grantee shall promise, covenant and agree in said instrument to hold The City of New York harmless from all damages to persons or property which may result from the construction, use, maintenance or operation of the structure hereby authorized."

Under and pursuant to the above quoted section, the Company presented an agreement dated January 7, 1918. This agreement has been approved by the Corporation Counsel and is now on file in this office.

Certified copies of the approved resolution have been forwarded to the Company and to the officials interested for their information and guidance.

It is recommended that the papers be filed. Respectfully,

JOHN A. McCOLLUM, Acting Chief of Bureau.

Mercantile Burglar Alarm Company (Cal. No. 63).

Annual report and financial statement of the Mercantile Burglar Alarm Company for the year ending September 30, 1917, under and pursuant to contract dated October 29, 1912, granting said Company a franchise.

(This report was presented to the Board at the meeting of November 9, 1917 (Cal. No. 65), and was referred to the Bureau of Franchises.)

The Secretary presented the following:

Bureau of Franchises, January 17, 1918.

Hon. JOHN F. HYLAN, Mayor, Chairman of the Board of Estimate and Apportionment: Sir—In accordance with the terms of its franchise contract with the City, dated October 29, 1912, the Mercantile Burglar Alarm Company filed with the Board its annual report for the year ending September 30, 1917, and the same was presented at the meeting of the Board held November 9, 1917. In addition there has been filed a map showing the various lines of wires located in the streets within the territory in which the Company is authorized to operate under its contract.

From the report it appears that the Company's capital stock has remained at \$5,000 during the year and that while it has no funded debt it has a floating debt of \$15,100, which is an increase of more than \$6,851.88 over the floating debt of the previous year.

Dividends at the rate of six per cent., amounting to \$300, are stated to have been paid.

The list of subscribers and their location, furnished by the Company, shows that it now supplies service to 87 subscribers, an increase of 21 over the previous year, and a total increase of 51, or over 140 per cent., since it obtained its franchise from the City.

The receipts of the Company for the year ending September 30, 1917, are stated to have been \$42,605.95, an increase of \$9,077.26 over 1916, and the expense amounted to \$30,494.49, an increase of \$6,185.23, leaving a net gain of \$2,892. On the gross receipts reported the Company, which is required to pay three per cent., on October 26, 1917, paid the sum of \$1,278.18.

It may be stated in connection with the percentages paid by the Company to the City that this is considerably in excess of the minimum, which is fixed at \$1,000 in the contract.

The map filed by the Company shows an increase in the number of its conductors in Cedar Street, between William and Broadway; in Broadway, between Cedar and John Streets, and in Maiden Lane, between William and Broadway; Trinity Place and Church Street, between Cedar and Cortlandt Streets. An examination of the map also indicates that the Company is well within the limits of the territory to which it is confined by the terms of its contract.

As the report and map appear to be in compliance with the provisions of the contract it is recommended that the same be filed. Respectfully,

JOHN A. McCOLLUM, Acting Chief of Bureau.

Which was ordered filed.

Morse Dry Dock and Repair Company (Cal. No. 64).

Acceptance of consent granted Morse Dry Dock and Repair Company to install, maintain and use a conduit under and diagonally across First Avenue at 56th Street, Borough of Brooklyn, for the purpose of conveying electric current between its properties.

(This consent was granted by resolution adopted November 23, 1917 (Cal. No. 60); approved by the Mayor November 30, 1917.)

Brooklyn, Queens County and Suburban Railroad Company (Cal. No. 65).

Annual report and financial statement of the Brooklyn, Queens County and Suburban Railroad Company for the year ending September 30, 1917, under and pursuant to contract dated April 3, 1916, granting said Company a franchise to construct, maintain and operate a street surface railway extension upon and along Metropolitan Avenue, from Dry Harbor Road to Jamaica Plank Road, Borough of Queens.

(This report was presented to the Board at the meeting of November 9, 1917 (Cal. No. 72), and was referred to the Bureau of Franchises.)

The Secretary presented the following:

Bureau of Franchises, January 16, 1918.

Hon. JOHN F. HYLAN, Mayor, Chairman of the Board of Estimate and Apportionment: Sir—The contract dated April 3, 1916, authorizing the Brooklyn, Queens County and Suburban Railroad Company to construct, maintain and operate a street surface railway extension upon and along Metropolitan Avenue, from Dry Harbor Road to Jamaica Plank Road, Borough of Queens, provides for the filing by the Company, on or before November 1 of each year, of a report containing certain detailed information relative to stock issue, funded and floating debts, receipts, expenses, etc. Pursuant to this provision, the Comptroller of the Company, under date of October 30, 1917, transmitted to the Board a report for the year ended September 30, 1917. Such report was presented to the Board at its meeting of November 9, 1917, and referred to this Bureau.

From an examination of the report submitted and a comparison with the report for the previous year, the following facts appear:

Capital stock issued and paid in, \$2,000,000, the same as in 1916. The funded debt is \$6,616,000, the same as in 1916. The floating debt is \$2,442,374.44, an increase of \$340,535.67. Dividends were paid during the year of 2 1/2 per cent. on capital stock amounting to \$50,000, a decrease of \$50,000. The number of passengers carried was 52,350,425, a decrease of 183,676. The Company paid during the year for damages to persons and property on account of construction and operation, \$39,612.41, a decrease of \$809.02. The total expenses for operation, including salaries, were \$1,082,866.81, an increase of \$10,112.13. The total single track mileage of the Company's system is 65.012, an increase of 5.096 miles. The length of the Metropolitan Avenue extension is given as six miles. The gross receipts from passenger revenue, advertising, rent of buildings, equipment and terminals is \$1,621,674.95, an increase of \$4,610.49.

The contract provides for payment by the Company, as compensation for the privilege, during the first term of five years three per cent. of the gross annual receipts in the proportion that the length of the extension bears to the entire length of the railway of the Company in operation within the limits of the City, with a minimum annual payment of \$3,200. The Company commenced operation of the Metropolitan Avenue extension on September 25, 1917; therefore the compensation due the City is the proportional part of the minimum of \$3,200 from October 1, 1916, to September 25, 1917, plus the proportional part of the gross receipts from September 25 to 30, 1917, a total of \$3,217.67.

The Company having complied with the provisions of its contract relative to the submission of an annual report, it is recommended that the papers in the matter be filed.

Respectfully, JOHN A. McCOLLUM, Acting Chief of Bureau.

Which was ordered filed.

LOCAL IMPROVEMENTS.

Preliminary Authorization.

Borough of Queens.

Ely Avenue, from Broadway to Washington Avenue, Borough of Queens—Grading (Cal. No. 66).

The Secretary presented a resolution adopted March 6, 1914, by the Local Board of the Newtown District, Borough of Queens, initiating proceedings for this improvement; and the following report of the Chief Engineer:

Report No. 17324.

January 19, 1918.

Hon. JOHN F. HYLAN, Mayor, Chairman of the Board of Estimate and Apportionment: Sir—Herewith is transmitted a resolution of the Local Board of the Newtown District, Borough of Queens, adopted on March 6, 1914, initiating proceedings for grading for a width of 30 feet, centrally located, Ely Avenue, from Broadway to Washington Avenue.

This resolution affects six blocks or about 2,300 feet of Ely Avenue, title to which, under an opening proceeding now in progress, can be vested in the City at any time. The street is roughly in use only in the northerly block and the area traversed is almost entirely undeveloped.

With the papers is presented information showing that the improvement is estimated to cost about \$40,000, and that the land to be benefited has an assessed valuation of \$121,000. The average cost of the improvement if it is carried out will be about \$8.70 per linear foot of frontage, requiring a minimum assessed valuation of over \$400 per city lot of 25 by 100 feet to permit of collecting the entire cost through assessment against the frontage. From the records of the Tax Department it appears that the value of the abutting property ranges from \$250 upwards per lot, making it evident that a considerable part of the cost of the improvement as proposed would have to be borne by the City at large.

The street has been given a width of 60 feet in the four northerly blocks and of 75 feet in the two southerly blocks, and as it would appear inadvisable to further reduce the width of the embankment it would seem necessary to limit its height to some definite distance below the legal grade in order to keep the expense within such limits that it can be fully assessed.

It is recommended that the resolution be returned to the Local Board without approval, but with the suggestion that in case this improvement is deemed to be of an urgent character, its scope be curtailed along the lines suggested.

Respectfully, NELSON P. LEWIS, Chief Engineer.

The matter was referred back to the President, Borough of Queens.

CHARLES POPE CALDWELL, M. C.

Director General of Railroads, Interstate Commerce Building, Washington, D. C., January 17, 1918.

Hon. Charles Pope Caldwell, M. C., Washington, D. C.

My Dear Mr. Caldwell—On behalf of the Director General I am acknowledging your favor of the 13th instant, enclosing one from Mr. Joseph Haag, Secretary of the Board of Estimate and Apportionment, City of New York.

The Director General fully appreciates the seriousness of the coal situation in New York, and Mr. A. H. Smith, his representative, in full charge, has been giving almost his exclusive attention to this condition. As you know, of course, the past weather has exceeded all records for severity, and, in addition to the railroad troubles, the ice in the harbor has presented a continuing, and often insurmountable, difficulty. A few days' good weather will make a great change in this situation, and I am glad to see that there seems to be a reasonable prospect of this. The unloading of coal through the piers in New York was more effective yesterday and today than it has been for a week. Cordially yours,

HALE HOLDEN.

(On September 15, 1916 (Cal. No. 15), the Board instituted a proceeding for acquiring title to these streets.)

(On November 16, 1917 (Cal. No. 142), on motion of the Acting President of the Borough of Queens, the Secretary was directed to request the Corporation Counsel to refrain from incurring any further expense in this proceeding, in so far as the portion of Finch place, between Decker street and Plover place is concerned, pending the result of studies of the street system of the locality now in progress, having for their purpose the devising of a street system more economical than the one the City Plan at present provides.)

The Acting Borough President now states that the property owners refuse either to waive claims under section 1000 of the Charter or to reimburse the City for expenses already incurred, and suggests that the Corporation Counsel be requested to advance the proceeding.

The matter was laid over two weeks (February 8, 1918).

FIXING DATES FOR FUTURE HEARINGS.

On Changes in the City Map.

Borough of Manhattan.

4th Avenue, from East 32d Street to East 34th Street, and East 33d Street, from 4th Avenue to Lexington Avenue, Borough of Manhattan—Changing Grades (Cal. No. 125).

The Secretary presented a communication dated December 17, 1917, from the President, Borough of Manhattan, transmitting map showing proposed change; and the following report of the Chief Engineer:

January 19, 1918.

Hon. JOHN F. HYLAN, Mayor, Chairman of the Board of Estimate and Apportionment:
Sir—Herewith is transmitted a communication from the President of the Borough of Manhattan, bearing date of December 17th, 1917, presenting for consideration a map showing a change proposed in the grade of 4th Avenue, from East 32d Street to East 34th Street; and in East 33d Street from 4th Avenue to Lexington Avenue.

On June 23d, 1916, the Board approved a plan changing the grades of these streets primarily for the purpose of bringing the grade of the easterly roadway and sidewalk in 4th Avenue up to meet the existing grade of East 34th Street, thereby conforming with the grade of the westerly portion of the street as now improved. This change involved a fill reaching a maximum of about 14 feet at East 34th Street and of about 6 feet at East 33d Street, meeting the grade of East 32d Street where the present surface was retained. Provision was also made for carrying the grade of the street railroad tracks which occupy the central portion of 4th Avenue down to the existing tunnel grade at East 34th Street, which remained unchanged, as well as for extending the grade change eastwardly along East 33d Street for a distance of 280 feet to meet the present surface.

On December 7th, 1917, in conformity with a resolution of the Local Board of the Murray Hill District adopted on March 13th, 1917, the Borough President was authorized to carry out the physical work in accordance with the new established grades.

In connection with the preparation of the contract drawings in the office of the Borough President it has been found desirable to make certain minor modifications in the grades heretofore established, which have been incorporated on the plan now submitted. These changes in so far as they relate to 4th Avenue are based on the substitution of an elliptical arch at the portal of the tunnel instead of the flat arch originally contemplated, this necessitating raising the grade of the safety aisle platform over the arch 14 inches and lowering the existing grade of the street car tracks in the tunnel at this point about 18 inches. The opportunity is also availed of to increase the width of the coping of the easterly retaining wall from one foot to two feet to conform with similar construction on the westerly side, this resulting in decreasing the width of the easterly sidewalk from 16 feet to 15 feet and requiring a corresponding modification in the ordinance heretofore adopted relating to the width of the easterly sidewalk.

Further studies have also been made of the grade of East 33d Street beyond the limits of the map heretofore adopted, which indicate that a more uniform grade can be obtained through this block if the change is extended eastwardly to Lexington Avenue as now contemplated. It is believed that this change can be carried out without any additional building damage over that necessitated by following the original plan, but it will be necessary to replace the street surfaces for a net additional distance of about 100 feet.

The slight modifications proposed in 4th Avenue are necessitated by the details of construction and will have no effect on the abutting property. The changes relating to East 33d Street will avoid an unsightly break in the street grade, thereby resulting in a marked improvement in the appearance of the street which it is believed will more than offset the comparatively slight additional expense involved.

It is therefore recommended that after a public hearing has been given the plan submitted by the Borough President be approved.

If the plan is approved it is also recommended that the resolution, adopted on June 23d, 1916, relating to the apportionment of the roadway and sidewalk space in 4th Avenue be amended in such a way as to make provision for giving the easterly sidewalk of 4th Avenue in the block between East 33d Street and East 34th Street a width of 15 feet, and for giving the westerly sidewalk in the same block a width of 22 feet, the remaining space within the street lines being apportioned for the use of the street railroad and for a vehicular roadway on either side thereof as indicated on the map now presented. Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York, by changing the grade of 4th Avenue, from East 32d Street to East 34th Street; and of East 33d Street, from 4th Avenue to Lexington

Avenue, in the Borough of Manhattan, which proposed change is more particularly shown upon a map or plan bearing the signature of the Secretary of the Board of Estimate and Apportionment and dated December 10, 1917.

Resolved, That this Board consider the proposed change at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on Friday, March 1, 1918, at 10.30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions, and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board to be held at the aforesaid time and place, to be published in the City Record for ten days continuously, Sunday and legal holidays excepted, prior to the 1st day of March, 1918.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

Borough of The Bronx.

Tudor Place, from Grand Boulevard and Concourse to Walton Avenue; East 167th Street, from Sheridan Avenue to Walton Avenue, and Grand View Place, from East 167th Street to East 168th Street, Borough of The Bronx—Changing Grades (Cal. No. 126).

The Secretary presented a communication dated July 14, 1917, from the Commissioner of Public Works, Borough of The Bronx, transmitting map showing proposed change; and the following report of the Chief Engineer:

Report No. 17330.

January 21, 1918.

Hon. JOHN F. HYLAN, Mayor, Chairman of the Board of Estimate and Apportionment: Sir—Herewith is transmitted a communication from the Commissioner of Public Works, Borough of The Bronx, bearing date of July 14th, 1917, presenting for consideration a map showing changes proposed in the grade of Tudor Place, from Grand Boulevard and Concourse to Walton Avenue; of East 167th Street, from Sheridan Avenue to Walton Avenue; and of Grand View Place, from East 167th Street to East 168th Street.

East 167th Street between the limits named crosses the Boulevard and Concourse in tunnel with a ramp on each side to connect with the Concourse. The grade changes now proposed consist of the fixing and adjustment of platform grades of such a character as to legalize the improvements which have already been carried out.

I see no reason why the plan should not be approved and would recommend such action after a public hearing. Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York, by changing the grades of Tudor Place, from Grand Boulevard and Concourse to Walton Avenue; of East 167th Street, from Sheridan Avenue to Walton Avenue; and of Grand View Place, from East 167th Street to East 168th Street, in the Borough of The Bronx, which proposed change is more particularly shown upon a map or plan bearing the signature of the Secretary of the Board of Estimate and Apportionment and dated June 18, 1917.

Resolved, That this Board consider the proposed change at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on Friday, March 1, 1918, at 10.30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions, and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board to be held at the aforesaid time and place, to be published in the City Record for ten days continuously, Sunday and legal holidays excepted, prior to the 1st day of March, 1918.

155th (Cozine-Dengler-Fairfield) Avenue, from Centreville Avenue to Peconic Avenue, Borough of Queens—Changing Lines (Cal. No. 127).

The Secretary presented a communication dated October 11, 1916, from the Secretary to the President, Borough of Queens, transmitting map showing proposed change; and the following report of the Chief Engineer:

Report No. 17331.

January 21, 1918.

Hon. JOHN F. HYLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a communication from the Secretary to the President of the Borough of Queens, bearing date of October 11, 1916, presenting for approval a map showing a proposed change in the lines of 155th (Cozine, Dengler, Fairfield) Avenue, between Centreville Avenue and Peconic Avenue.

This change relates to a length of eight blocks of 155th Avenue, which has been laid out to have a width of 80 feet, and makes provision for the adjustments required in order to conform with the old lines of Dengler Avenue as laid out by the property owners through a portion of the distance. The modification in position reaches a maximum of about three feet, the street width, however, remaining unchanged.

I see no reason why the plan should not be approved, and would recommend such action after a public hearing. Respectfully,

NELSON P. LEWIS, Chief Engineer.

Hon. JOHN F. HYLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a communication from the Secretary to the President of the Borough of Queens, bearing date of October 11, 1916, presenting for approval a map showing a change in the lines of Peconic (Lawn) Avenue, from Rockaway Boulevard (Road) to Sutter Avenue; and of Plattwood Avenue, from Peconic (Lawn) Avenue to 100th Street (Ocean Avenue).

These changes more particularly relate to Peconic (Lawn) Avenue, the position of which is to be slightly modified in order to make it fully include an old street known as Lawn Avenue, which change has occasioned a minor modification in the northerly line of Plattwood Avenue in the block between Peconic Avenue and 100th Street.

I see no reason why the plan should not be approved, and would recommend such action after a public hearing. Respectfully,

Report No. 17328.

January 21, 1918.

Hon. JOHN F. HYLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a communication from the Secretary to the President of the Borough of Queens, bearing date of May 21, 1917, presenting for approval a map showing the lines and grades proposed for North Conduit Avenue, from Baisley Boulevard to 132d Street (Atfield Avenue), and for 132nd Street (Atfield Avenue), from North Conduit Avenue to 150th (Stanley) Avenue.

Lines and grades for 132d Street (Atfield Avenue), in the block between South Conduit Avenue and 150th (Stanley) Avenue were fixed under the final map of Section No. 189, which was adopted by the Board on June 9, 1916, while North Conduit Avenue and the remaining block of 132d Street were included within the limits of the tentative plan of the Idlewild section, which was adopted on December 23, 1915.

The plan now submitted, which provides for giving each of these streets a width of 60 feet, ratifies both of these maps with the exception of a minor adjustment in the grade of portions of them shown upon the tentative plan. North Conduit Avenue is designed to have a position on the northerly side of lands acquired by the City for the Brooklyn Conduit, a portion of which fall within the street area. Neither of the streets is in use at the present time. Information is presented to show that they are intended to serve as the route for a sewer designed to drain the Jamaica section of the Borough, which route it would appear from studies which have been made of the drainage needs, is a rational one.

I see no reason why the plan should not be approved, and would recommend such action after a public hearing. Respectfully,

NELSON P. LEWIS, Chief Engineer.

Baisley Boulevard (Idaho Avenue), from Rockaway Boulevard (Rockaway Turnpike) to Byron Street, and Byron Street, from Baisley Boulevard (Idaho Avenue) to Cornell Basin, Borough of Queens—Fixing Lines and Grades (Cal. No. 130).

The Secretary presented a communication dated May 21, 1917, from the Secretary to the President, Borough of Queens, transmitting map showing proposed change; and the following report of the Chief Engineer:

Report No. 17329.

January 21, 1918.

Hon. JOHN F. HYLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a communication from the Secretary to the President of the Borough of Queens, bearing date of May 21, 1917, presenting for approval a map providing for fixing lines and grades for Baisley Boulevard (Idaho Avenue), from Rockaway Boulevard (Rockaway Turnpike) to Byron Street, and for Byron Street, from Baisley Boulevard (Idaho Avenue) to Cornell Basin.

Baisley Boulevard, with a width of 80 feet and Byron Street, with a width of 60 feet, are shown upon the tentative plan of the Idlewild section of the Borough, which was adopted on December 23, 1915. The treatment heretofore proposed for Baisley Boulevard is ratified by the plan now submitted with the exception of a minor grade change in the vicinity of North Conduit Avenue. In the case of Byron Street it is now proposed to modify the alignment originally planned in such a way as to permit of an extension southwardly to the center line of the proposed Cornell Basin and northwardly to connect with Baisley Boulevard. Neither of the streets is in use and it is understood that the plan has been prepared in order to clear the way for the construction of sewers for the drainage of the Jamaica section of the Borough.

I see no reason why the plan should not be approved, and would recommend such action after a public hearing.

It might be pointed out that the position indicated for Cornell Basin differs with that heretofore fixed by the Commissioner of Docks and by the Secretary of War, and that a similar discrepancy exists on the final maps which have been prepared for streets in the vicinity of other basins bordering on Jamaica Bay, which discrepancies it is evident will have to be removed before the street plans can be made effective.

I would therefore recommend that the Borough President be requested to submit a map showing the departures made or to be made from the plans heretofore legalized for all of the basins bordering on Jamaica Bay which fall within the limits of the Borough of Queens as compared with those heretofore proposed by the Secretary of War and the Commissioner of Docks, as well as such other changes as may be needed in order to conform with the general determination made by the Board under a resolution adopted on May 25, 1917, relative to the treatment of streets meeting or adjoining waterways, so that steps may be taken to bring about the action required in order to give the street plans legal standing. Respectfully,

NELSON P. LEWIS, Chief Engineer.

On Areas of Assessment for Benefit in Condemnation Proceedings.

Borough of Brooklyn.

Walsh Court, from East 3d Street to East 5th Street, Borough of Brooklyn—Acquiring Title (Cal. No. 131).

The Secretary presented a resolution adopted March 12, 1917, by the Local Board of the Flatbush District, Borough of Brooklyn, initiating proceedings for this improvement; and the following report of the Chief Engineer:

Report No. 17325. January 21, 1918.

Hon. JOHN F. HYLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a resolution of the Local Board of the Flatbush District, Borough of Brooklyn, adopted on March 12, 1917, initiating proceedings for acquiring title to Walsh Court, from East 3d Street to East 5th Street.

This resolution affects one block having a length of a little less than 500 feet comprising the entire length of Walsh Court, which was recently laid out upon the City Map to have a width of 50 feet. The street is not in use and the abutting property is unimproved with respect to its lines. Near East 5th Street a shed and a portion of a building fall within the street area.

The Commissioner of Public Works has requested that this proceeding be immediately instituted and the Board is further advised that this action is desired in order to clear the way for the development of the abutting property. The improvement is petitioned for by the owner of almost the entire frontage, who is stated to be willing to cede his holdings to the City. The remaining land comprises the section immediately adjoining East 5th Street, the acquisition of which is needed in order to provide adequate access.

I would recommend the approval of the resolution; that title to the land be acquired in fee; that all of the cost be assessed against the property benefited; and that a district of assessment be laid out to include the area a description for which is herewith presented. Respectfully, NELSON P. LEWIS, Chief Engineer.

The following was offered:

Whereas, The Board of Estimate and Apportionment of The City of New York is considering the advisability of instituting proceedings to acquire title to the real property required for the opening and extending of Walsh Court, from East 3d street to East 5th street, in the Borough of Brooklyn, City of New York; and

Whereas, The Board of Estimate and Apportionment is authorized and required at the time of the adoption of the resolution directing the institution of proceedings to acquire title to the real property required for the foregoing improvement to fix and determine upon an area or areas of assessment for benefit for said proceedings;

Resolved, That the Board of Estimate and Apportionment, in pursuance of the provisions of section 973 of the Greater New York Charter, as amended, hereby gives notice that the proposed area of assessment for benefit in these proceedings is as follows:

Beginning at a point on the southerly line of Foster Avenue where it is intersected by the prolongation of a line distant 100 feet northerly from and parallel with the northerly line of Walsh Court, the said distance being measured at right angles to Walsh Court, and running thence eastwardly along the said line parallel with Walsh Court and along the prolongations of the said line to the intersection with a line distant 100 feet easterly from and parallel with the easterly line of East 5th Street, the said distance being measured at right angles to East 5th Street; thence southwardly along the said line parallel with East 5th Street to the intersection with the northerly right-of-way line of the Manhattan Beach Division of the Long Island Railroad; thence generally westwardly along the said right-of-way line to the intersection with a line distant 100 feet westerly from and parallel with the westerly line of East 3d Street as this street is laid out where it adjoins Elmwood Avenue, the said distance being measured at right angles to East 3d Street; thence northwardly along the said line parallel with East 3d Street and along the prolongation of the said line to the intersection with the southerly line of Foster Avenue; thence eastwardly along the southerly line of Foster Avenue to the point or place of beginning.

Resolved, That this Board consider the proposed area of assessment at a meeting of the Board to be held in The City of New York, Borough of Manhattan, in the City Hall, on Friday, March 1, 1918, at 10:30 o'clock a. m., and that at the same time and place a public hearing thereon will then and there be had.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby to be published in The CITY RECORD and in the Corporation Newspapers for ten days, exclusive of Sundays and legal holidays, prior to Friday, March 1, 1918.

Borough of The Bronx.

Goble Place, from Inwood Avenue to Jerome Avenue, Borough of The Bronx—Acquiring Title (Cal. No. 132).

The Secretary presented a resolution adopted October 16, 1917, by the Local Board of the Van Courtlandt District, Borough of The Bronx, initiating proceedings for this improvement; and the following report of the Chief Engineer:

Report No. 17320. January 19, 1918.

Hon. JOHN F. HYLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a resolution of the Local Board of the Van Courtlandt District, Borough of The Bronx, adopted on October 16, 1917, initiating proceedings for acquiring title to Goble Place, from Inwood Avenue to Jerome Avenue.

This resolution affects one block or a little less than 300 feet at the easterly end of Goble Place, which has been laid out upon the City Map to have a width of 50 feet. The street is not in use and the abutting property is entirely unimproved with respect to its lines. Near Inwood Avenue a one-story stone stable encroaches.

In a communication bearing date of January 8, 1918, the Borough President has requested that this matter be placed upon an early calendar for the consideration of the Board. The Borough President advises that title to the land is needed in order to clear the way for the construction of a sewer that has been petitioned for, and also states that he is informed that substantial building development is contemplated by the owner of a considerable portion of the frontage. From information at hand it appears that the project is favored by two individuals and that their holdings comprise about 52 per cent. of the property abutting upon the street where it adjoins Jerome Avenue. I am informally advised at the Bureau of Street Openings that deeds have been tendered ceding the land needed for the remaining block of the street between Inwood Avenue and Macomb's Road, and, although the acceptance of

the deeds will have the effect of exempting the frontage from assessment for land damage, it is included in the district of benefit suggested in order that it may be charged with its proportional share of the cost of the building that will be destroyed.

I would recommend the approval of the resolution; that title to the land be acquired in fee; that all of the cost and expense of the proceeding be assessed against the property benefited; and that a district of assessment be laid out to include the area a description for which is herewith presented. Respectfully,

NELSON P. LEWIS, Chief Engineer.

Resolved, That this Board consider the proposed area of assessment at a meeting of the Board to be held in The City of New York, Borough of Manhattan, in the City Hall, on Friday, March 1, 1918, at 10:30 o'clock a. m., and that at the same time and place a public hearing thereon will then and there be had.

(On October 19, 1917 (Cal. No. 7), the Board approved the rule and damage maps in this proceeding, and the Secretary was directed to request the Commissioner of Docks to secure ratification of the plan by the Commissioners of the Sinking Fund.)

The Secretary presented the following report of the Chief Engineer:

Report No. 17323.

January 19th, 1918.

Hon. JOHN F. HYLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—At the meeting of the Board of Estimate and Apportionment held on June 25, 1915, a proceeding was instituted for acquiring title to the upland within the United States Bulkhead Line of Bronx River, from the East River to its northerly terminus near East 177th Street (East Tremont Avenue), and to Lacombe Avenue and Patterson Avenue, from the westerly limits of the land heretofore acquired for these streets to the bulkhead line of Bronx River, in the Borough of The Bronx, with provision for placing the entire cost and expense of the proceeding upon an area in the vicinity of the waterway.

The rule and damage maps prepared for the use of the court in this proceeding were subsequently presented, but their consideration was deferred by reason of advice rendered by the Corporation Counsel, who held that, before advancing the proceeding, provision should be made by the Legislature for the incorporation of navigable waterways upon the City plan. The desired legislation was enacted at the last Legislative session through an amendment of sections 439 and 442 of the Charter (chapter 632).

On June 27, 1917, the Secretary of War approved a plan showing a few minor changes in the harbor lines of Bronx River, these being conditional upon becoming effective as soon as the United States has been granted a right of way, free of cost, across any upland, and channels of navigable capacity equal to or greater than that of the present waterway have been provided. The harbor lines, as thus modified, are shown on a map, the approval of which was recommended by the Commissioner of Docks, as required by law, which was adopted by the Board on October 19, 1917. On December 20, 1917, the map was ratified by the Commissioners of the Sinking Fund. It would, therefore, appear that the way has been cleared for properly instituting the opening proceeding and for making it relate to the waterway as now mapped.

In the report originally presented concerning this proceeding, it was shown that the waterway will have a width between the bulkhead lines, ranging from about 100 feet at its northerly terminal to a little over 200 feet at a point somewhat south of Randall Avenue, below which the width is flared to upwards of 500 feet. The waterway has a length of about three miles and generally follows the course of the Bronx River, which irregularly traverses the area set aside by Federal action, so that the creation of the channel will involve the use of upland, as well as a portion of the existing water course. Prior to the institution of the proceeding the Corporation Counsel advised that the possibility of other than nominal awards being made for lands under water appeared to be remote, and that any question as to the propriety of limiting the proceeding to the upland which falls within the bulkhead lines or whether any public interest would be served by also including the land under water not owned by the City was one of policy to be determined by the Board of Estimate and Apportionment. Upon the recommendation of this office, all land under water was specifically excluded from the scope of the proceeding.

When the proceeding was instituted the matter was deemed to be exceptionally urgent for the reason that the War Department had allotted the sum of \$100,000 for the physical improvement of the waterway, which amount the Board was at that time informed would be withdrawn and allotted to some other locality unless the right of way was made available without delay.

I would recommend that, after a new public hearing has been given concerning a district of assessment, with an exterior boundary identical with the one originally fixed, a resolution be adopted reinitiating the proceeding for acquiring a fee title to the upland within the bulkhead lines of Bronx River, from the East River to its northerly terminus near East Tremont Avenue (East 177th Street) as now laid out on the City map, and to the short sections of Lacombe Avenue and Patterson Avenue, between the limits described, with provision for placing the entire cost and expense upon the benefited area.

A diagram showing the suggested district of assessment is herewith presented.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

Borough of Queens.

Lurting Street, from 51st Street to the Junction of Maple Avenue and Sanford Avenue, Borough of Queens—Acquiring Title (Cal. No. 134).

The Secretary presented a resolution adopted July 20, 1916, by the Local Board of the Newtown District, Borough of Queens, initiating proceedings for this improvement; and the following report of the Chief Engineer:

Report No. 17321.

January 19, 1918.

Hon. JOHN F. HYLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a resolution of the Local Board of the Newtown District, Borough of Queens, adopted on July 20, 1916, initiating proceedings for acquiring title to Lurting Street, from 51st Street to Wateredge Avenue.

In a communication bearing date of June 4, 1917, the Borough President has requested that this matter be presented for the consideration of the Board at an early date in order to clear the way for the construction of a sewer that has been made the subject of a Local Board resolution now awaiting action. While the sewer resolution relates only to the two blocks between 51st Street and Tiemann Avenue, the Local Board has recommended the institution of a comprehensive proceeding, which procedure seems to be justified, partly because the land can probably be now acquired at a minimum cost and partly to provide conditions that will permit of developing the abutting property. Through all the distance east of Tiemann Avenue the northerly frontage comprises large plots adjoining the Flushing and Northside Division of the Long Island Railroad and this property should be attractive for industrial development, particularly in the vicinity of Flushing River. No substantial development, however, can be realized unless the land is given a frontage on an acquired street.

Subsequent to the date upon which this matter was considered by the Local Board a map was adopted under which a radical modification of the street plan was made in the section adjoining Flushing River, this including the extension of the street to an intersection with Sanford Avenue. The change incidentally involved the discontinuing of Wateredge Avenue, which formerly constituted the easterly terminus of Lurting Street and is designated by the Local Board as the easterly limit of the proposed opening proceeding. There is no street on the ground at this point and no useful purpose will be accomplished as far as the section east of Flushing River is concerned, unless the proceeding is made to include the intervening section of the street between the former location of Wateredge Avenue and the present end of the street at its junction with Maple Avenue. At their common intersection Lurting Street and Maple Avenue merge into Sanford Avenue, for which Lurting Street will ultimately provide an outlet and through which communication with the former Village of Flushing will be established, although a bridge will have to be built at the Flushing River crossing before a through traffic artery can be provided.

The street has been given a width of 70 feet and if the proceeding is modified in the manner described it will affect eight blocks having a length of about 6,500 feet. The street is not in use excepting from 51st Street to a point about 200 feet east of Low Place, where it is approximately graded for a portion of its mapped width and the property abutting upon it is partially improved. It is believed that a few old buildings of minor importance encroach upon the land to be acquired.

In my judgment the proceeding might properly be instituted and I would recommend the adoption of a resolution for acquiring title to Lurting Street, from 51st Street to the junction of Maple Avenue and Sanford Avenue.

I would also recommend that title to the land be acquired in fee; that all of the cost and expense of the proceeding be assessed against the property benefited, and that a district of assessment be laid out to include the area shown on the diagram herewith presented. Respectfully,

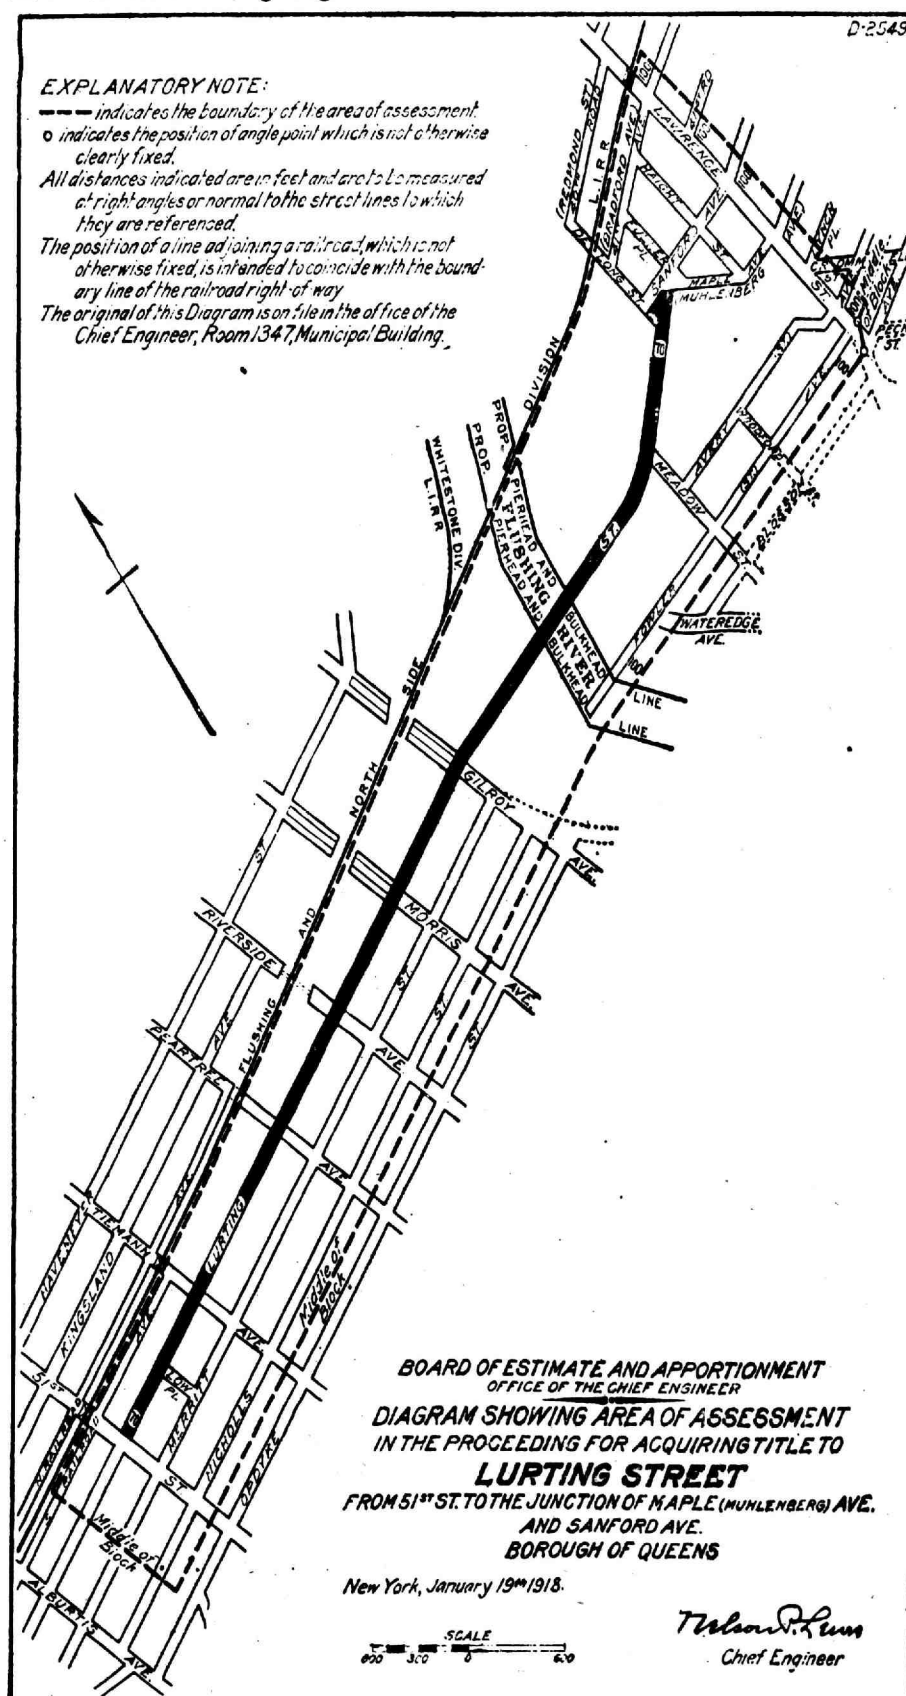

NELSON P. LEWIS, Chief Engineer.

Amity Street, from Wateredge Avenue to Main Street, and Roosevelt Avenue, from Wateredge Avenue to a Line Passing Through the Angle Points Distant Respectively 415.96 Feet and 420.50 Feet East of Hewitt Avenue, Borough of Queens—Amending Proceeding for Acquiring Title (Cal. No. 135).

(On October 13, 1916 (Cal. No. 14), a resolution was adopted authorizing proceedings for acquiring title to Amity Street, from Wateredge Avenue to Main Street, etc., Borough of Queens.)

(On December 7, 1917 (Cal. No. 6), the Board adopted a map modifying the lines of Amity Street, involving the closing of portions of Hewitt Avenue and Wateredge Avenue.)

The Secretary presented the following report of the Chief Engineer of the Board: Report No. 17326. January 19th, 1918.

Hon. JOHN F. HYLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—At the meeting of the Board of Estimate and Apportionment held on October 13, 1916, a resolution was adopted, in conformity with the requirements of the new Street Opening Law, re-instituting the proceeding authorized on October 23, 1913, for acquiring title to Amity Street, from Wateredge Avenue to Main Street, in the Borough of Queens, and at the same time provision was made for acquiring the section of Roosevelt Avenue, extending from Wateredge Avenue to a line passing through the angle points distant respectively 415.96 feet and 420.5 feet east of Hewitt Avenue.

When the proceeding was reinstituted the Corporation Counsel was authorized to base his application for the appointment of Commissioners of Estimate and Assessment upon the receipt of an approved rule map. The rule map was adopted on December 22, 1916, and the oaths of the Commissioners were filed on March 14, 1917. On December 7th a map was adopted under which a slight modification was made in the alignment of Amity Street in the block west of Lawrence Street, and which incidentally involved the discontinuing of Hewitt Avenue, south of Roosevelt Avenue, as well as of Wateredge Avenue south of Lawrence Street where it originally formed the westerly terminus of Amity Street and the easterly terminus of Roosevelt Avenue. It will accordingly be necessary not only to bring the proceeding into harmony with the present City Plan in so far as Amity Street is concerned, but also to so modify the description of the area to be acquired as to recognize the conditions resulting from the discontinuing of the two streets referred to.

I would recommend that after a new public hearing has been given concerning a district of assessment practically identical with the one heretofore fixed, the opening proceeding be amended in such a way as to relate to Amity Street (40th Avenue), and Roosevelt Avenue, from Main Street to a line passing through the angle points respectively 399.57 feet and 474.55 feet east of Willets Point Boulevard.

I would also recommend that the Corporation Counsel be then requested to apply to the Supreme Court to have a corresponding modification made in the jurisdiction of the Commissioners of Estimate and Assessment. Respectfully,

NELSON P. LEWIS, Chief Engineer.

Seneca Avenue, from the Brooklyn Borough Line to DeKalb Avenue, and from Summerfield Street to St. Felix Avenue, Borough of Queens—Amending Proceeding for Acquiring Title (Cal. No. 136).

(On October 1, 1915 (Cal. No. 26), the proceeding for acquiring title in this matter was authorized.)

(On May 11, 1917 (Cal. No. 225), the matter was referred to the Committee of the Whole, and the Secretary directed to request the Corporation Counsel to advise the Board as to the legality of placing upon the Borough of Queens the portion of the expense incurred in connection with the portion of the street proposed to be excluded from the proceeding.)

(On December 28, 1917 (Cal. No. 110-I) the entire matter was referred back to the Chief Engineer.)

The Secretary presented the following report of the Chief Engineer of the Board: Report No. 17327. January 19th, 1918.

Hon. JOHN F. HYLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—On October 1st, 1915, a proceeding was instituted for acquiring title to Seneca Avenue, from the Brooklyn Borough Line to DeKalb Avenue and from Summerfield Street to St. Felix Avenue, Borough of Queens, with provision for placing the entire expense upon a local area of benefit.

At the meeting of April 27th, 1917, a communication was presented from the Corporation Counsel advising that the motion for the appointment of Commissioners had been opposed by the Coney Island and Brooklyn Railroad Company, which owned all of the land to be acquired in the three blocks between Willoughby Avenue and DeKalb Avenue and that a decision had been rendered by the Court sustaining the position taken by the Railroad Company; the Board was also informed that the submission of the Court order to conform with this decision had been held in abeyance pending action in the matter of amending the proceeding in such a way as to make it relate to lands not in railroad ownership. In the report then presented by your Engineer it was stated that the expense which had been incurred in the proceeding up to March 17th, 1917, amounted to \$738.13, that the proportionate share of the expense chargeable against the land to be excluded from the proceeding was \$403.21, and that to conform with advice given by the Corporation Counsel in connection with the proposed amendment of another proceeding which contemplated the curtailment of its scope, the amending resolution should provide for excluding the expense incurred in acquiring the railroad property from the total amount to be assessed. It was also suggested that since "primary control and responsibility for the mapping of streets and the initiation of opening proceedings are vested in the various Boroughs, it would seem reasonable to adopt a general policy based on placing deficiencies in assessments arising from inability to maintain a street plan, upon the Borough in which the improvement is located." It was therefore suggested that in amending the proceeding provision be made for placing \$403.21 of the cost and expense upon the Borough of Queens to be collected in the first tax levy to be imposed subsequent to the date when the proceeding was confirmed and the remaining cost and expense upon a local area of benefit. Action in the matter was deferred from time to time and on May 11th following it was referred to the Committee of the Whole, as was also on July 19th, 1917, a communication from the Corporation Counsel in which it was held that the ultimate responsibility for the proceeding, notwithstanding that it had been initiated by the Borough authorities, must be assumed by the Board of Estimate and Apportionment, and that the course suggested by your Engineer as to placing the amount which could not be assessed locally upon the Borough of Queens could not be sustained. At the meeting of December 28th, 1917, the entire matter was referred back to this office.

The proceeding for acquiring title to Seneca Avenue as originally instituted related to an aggregate length of a little over five blocks or about 1,400 feet divided into two sections, title to the intervening area having already been established. When it was instituted it was believed that the area occupied by the tracks of the Coney Island and Brooklyn Railroad Company, between Willoughby Avenue and DeKalb Avenue could be acquired for street purposes in the same manner as has been observed in carrying out proceedings relating to other streets in similar occupation. The exclusion of these three blocks as required to conform with the Court decision will result in leaving only a small gored parcel to be taken in the westerly section, this being located between the Brooklyn Borough Line and Willoughby Avenue, and the area of assessment as heretofore fixed will have to be correspondingly curtailed. Since the date when the proceeding was originally authorized a bridge has been constructed by the Long Island Railroad Company across its lands in the block between Decatur Street and St. Felix Avenue and the street has here been incorporated upon the map; it would seem desirable in amending it to subject the title to be taken to the rights of the Railroad Company.

In order that the proceeding may be advanced and made to conform with the Court decision, I would recommend that, after giving a public hearing concerning an amended district of assessment, modified as required by the changed conditions and as shown upon the accompanying diagram, a resolution be adopted providing for amending the proceeding in such a way as to relate to the sections between the Borough Line and Willoughby Avenue and between Summerfield Street and St. Felix Avenue, subject to the easement of the Long Island Railroad Company, and that \$403.21 of the cost and expense of the proceeding be placed upon the City of New York and the remaining cost and expense of the proceeding be placed upon the local area of benefit. Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following was offered:

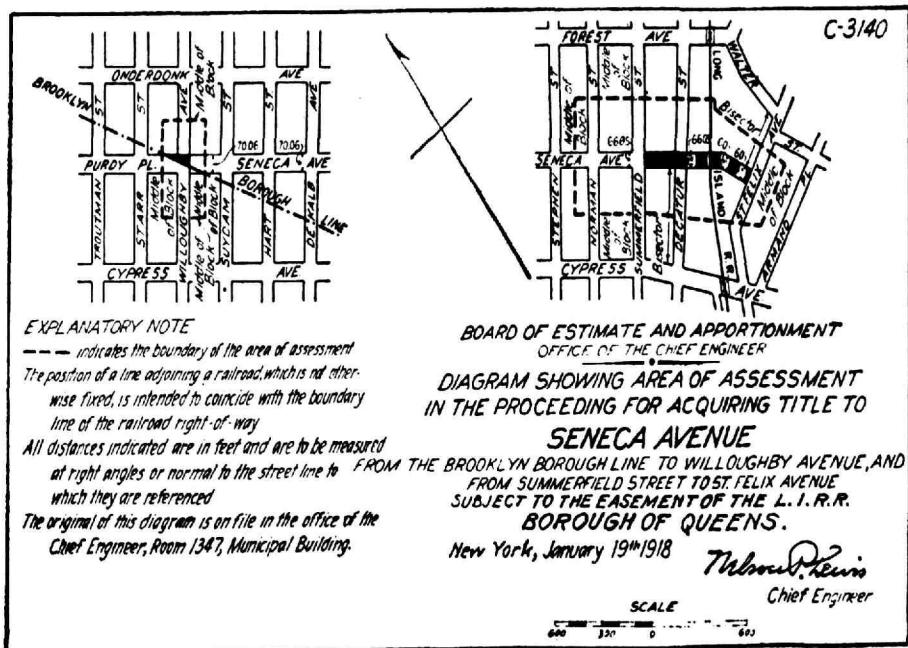

Whereas, The Board of Estimate and Apportionment, by resolution adopted on October 1, 1915, authorized a proceeding to acquire title to the real property required for the opening and extending of Seneca avenue, from the Brooklyn Borough Line to DeKalb avenue; and from Summerfield street to St. Felix avenue, Borough of Queens, in which it was determined that the entire cost and expense of the proceeding be borne by the property deemed to be benefited; and

Whereas, At the meeting of the Board held on April 27, 1917, a communication was presented from the Corporation Counsel advising that the motion for the appointment of Commissioners in the proceeding had been opposed by the Coney Island and Brooklyn Railroad Company, which owned all of the real property to be acquired in the three blocks between Willoughby avenue and DeKalb avenue, and that a decision had been rendered by the Court sustaining the position taken by the Railroad Company; and

Whereas, Since the date when the proceeding was authorized by the Board a bridge has been constructed by the Long Island Railroad Company across its lands in the block between Decatur street and St. Felix avenue and the street has here been incorporated upon the City map; and

Whereas, The Board of Estimate and Apportionment proposes to request the Corporation Counsel to apply to the Supreme Court to have the proceeding herein amended so as to relate to the sections of Seneca avenue, between the Borough Line and Willoughby avenue, and between Summerfield street and St. Felix avenue, subject to the easement of the Long Island Railroad Company;

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of the Greater New York Charter, as amended, hereby gives notice that the area of assessment shown on the following diagram is a proposed area of assessment for benefit for the proceeding as proposed to be amended:

Whereas, This Board in the resolution adopted on October 1, 1915, authorizing this proceeding, determined that the entire cost and expense thereof be borne by the property deemed to be benefited;

Resolved, That this Board, pursuant to the provisions of the Greater New York Charter, as amended, deeming it for the public interest so to do, proposes to reconsider its resolution adopted on October 1, 1915, whereby it determined that the entire cost and expense of the proceeding to acquire title to Seneca avenue, from the Brooklyn Borough Line to DeKalb avenue, and from Summerfield street to St. Felix avenue, in the Borough of Queens, be borne and paid by the property deemed to be benefited, and proposes to make a new determination concerning the distribution of the cost and expense of the proceeding so as to provide that the sum of \$403.21, being the cost and expense incurred in the proceeding chargeable to the sections of Seneca avenue omitted from the proceeding, be borne and paid by The City of New York, and that the remainder of the cost and expense of the Bureau of Street Openings, the cost and expense incurred by the President of the Borough of Queens in the preparation of rule, damage, benefit and profile maps for the use thereof, and of the awards, if any, for damages caused by intended regulation, and all other expenses and disbursements authorized by the Greater New York Charter, as amended, be borne and paid by the property within the proposed area of assessment for benefit as shown on the foregoing diagram.

Resolved, That this Board consider the proposed determination at a meeting of the Board to be held in the City Hall, Borough of Manhattan, City of New York, on Friday, March 1, 1918, at 10.30 o'clock a. m. and that at the same time and place a hearing thereon will then and there be had.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby, to be published in the CITY RECORD for ten days, exclusive of Sundays and legal holidays, prior to Friday, March 1, 1918.

To the Committee on Salaries and Grades:

Gentlemen—On January 7, 1918, the BOARD OF CHILD WELFARE requested authority, as provided under paragraph second (c) of the terms and conditions of the Budget for 1918, to fill a vacancy. This was referred to the Committee on Salaries and Grades, Item No. 28, Calendar of January 15, 1918. The Bureau of Personal Service reports thereon as follows:

Department of Plant and Structures—Appropriation from Bridge Revenues to Provide for Operation and Maintenance of Brooklyn Bridge (Cal. No. 170).

(On January 18, 1918 (Cal. No. 58), the request of the Commissioner of Plant and Structures for this appropriation was referred to the Comptroller.)

The Secretary presented a communication, dated January 12, 1918, from the Commissioner of Plant and Structures, renewing request of his predecessor, dated December 18, 1917, for an appropriation from the revenues of the Brooklyn Bridge to the amount of \$326,269.59, and from the revenues of the Williamsburg Bridge of \$108,206.25, to provide for the operation and maintenance of said bridges during the year 1918; and the following report of the Comptroller relative thereto:

January 24, 1918.

To the Board of Estimate and Apportionment, The City of New York:

Gentlemen—On January 18, 1918, your Board referred to the Comptroller for consideration and report a request from the Commissioner of Plant and Structures, dated December 18, 1917, for an appropriation of four hundred thirty-four thousand five hundred and thirty-seven dollars and eighty-four cents (\$434,537.84) from the revenues to be received from the Brooklyn Bridge and the Williamsburg Bridge. Of this amount \$324,709.59 was requested for the Brooklyn Bridge, and represents the budget allowance for 1918 for the Department of Plant and Structures, chargeable to bridge revenues, for the operation and maintenance of the Brooklyn Bridge in 1918. The balance of the amount requested was for the Williamsburg Bridge.

This report and the resolution in connection therewith will deal only with the appropriation for the Brooklyn Bridge, a separate report having been submitted on the appropriation for the Williamsburg Bridge.

The appropriation for the Brooklyn Bridge is made pursuant to subdivision 2 of section 242 of the Greater New York Charter, which provides that the Board of Estimate and Apportionment shall have power:

"To appropriate, from time to time, for the maintenance of the New York and Brooklyn Bridge the moneys received from the revenues of the said bridge."

Examination of the appropriation in 1917 for the Brooklyn Bridge, and the expenditures made against the appropriation, shows that the amount of revenues actually received was \$252,037.93, and that the expenditures amounted to \$310,488.89, leaving a deficit for the year of \$56,450.96.

In view of this condition, it is deemed advisable, pending the adjustment of the deficit created during the prior years, and the determination of the approximate amount of revenues from the Brooklyn Bridge for the year 1918, that only \$169,456.50, or approximately one-half, of the amount requested be appropriated to the Department of Plant and Structures for the purpose of defraying the expenditures on account of the operation and maintenance of the Brooklyn Bridge during the first six months of the year.

I recommend the adoption of the attached resolution granting the transfer of \$169,456.50 and apportioning the amounts appropriated for the purposes provided for in the 1918 Budget. Respectfully,

CHARLES L. CRAIG, Comptroller.

Hon. John H. Delaney, Commissioner, Plant and Structures, and Edward A. Byrne, Chief Engineer of Department of Plant and Structures, appeared in favor.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of subdivision 2 of section 242 of the Greater New York Charter, hereby appropriates from the revenues of the Brooklyn Bridge the sum of one hundred sixty-nine thousand four hundred and fifty-six dollars and fifty cents (\$169,456.50), to provide for the maintenance of said bridge during the year 1918, said appropriation to be administered in accordance with schedules duly approved by the Board of Estimate and Apportionment, to be apportioned as follows:

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

Department of Plant and Structures—Appropriation from Bridge Revenues to Provide for Operation and Maintenance of Williamsburg Bridge (Cal. No. 171).

(On January 18, 1918 (Cal. No. 58), the request of the Commissioner of Plant and Structures for this appropriation was referred to the Comptroller.)

The Secretary presented a communication, dated January 12, 1917, from the Commissioner of Plant and Structures (referred to in preceding item); and the following report of the Comptroller relative thereto:

January 24, 1918.

To the Board of Estimate and Apportionment, The City of New York:

Gentlemen—On December 18, 1917, the Commissioner of Plant and Structures requested an appropriation of four hundred thirty-four thousand five hundred and thirty-seven dollars and eighty-four cents (\$434,537.84) from the revenues to be received from the Brooklyn Bridge and the Williamsburg Bridge. On January 18, 1918, this request was referred to the Comptroller for consideration and report.

The appropriation is requested to provide for the operation and maintenance of the bridges named, during the year 1918. The amount represents the budget allowance for the Department of Plant and Structures chargeable to bridge revenue, details of which are shown in the following table:

Brooklyn Bridge.

Personal Service	\$319,564 59
Supplies	2,100 00
Materials	3,045 00

\$324,709 59

Williamsburg Bridge.

Personal Service	108,268 25
------------------	------------

Total Bridge Revenue Allowance..... \$432,977 84

A slight difference exists in the amount appropriated in the budget and the amount requested by the Department of Plant and Structures due to the fact that the request for the appropriation was made before the budget for the year 1918 was finally approved.

This report and the resolution in connection therewith will deal only with the appropriation requested for the Williamsburg Bridge. A separate report will be presented on the appropriation requested for the Brooklyn Bridge.

The appropriation for the Williamsburg Bridge is made pursuant to chapter 789, Laws of 1895, "An Act to authorize the construction of a bridge over the East River between the cities of New York and Brooklyn," of which section 7 provides in part:

"* * * The income of said bridge, after paying for the maintenance of the same, shall be paid monthly, in equal portions, to the sinking fund com-

missioners of the city of New York and city of Brooklyn, respectively, to be by them applied towards the payment of interest and principal of the bonds issued under the provisions of this act."

In order that accounts may be set up on the books of the Department of Finance and the Department of Plant and Structures to meet payrolls, etc., an appropriation of anticipated bridge revenues is necessary.

Investigation of the appropriation of bridge revenues in 1917 for the Williamsburg Bridge, and the expenditures made against this appropriation, shows that the amount of revenues actually received was \$100,460.33, and that the expenditures amounted to \$95,280.21, thereby showing an excess of \$5,180.12 of receipts over the expenditures. The revenues receivable from various sources have been constantly increasing and it is considered safe to anticipate that the revenues during the year will be sufficient to meet the expenditures of \$108,268.25, appropriated in the budget for 1918, for this bridge.

In view of the foregoing, I recommend the adoption of the attached resolution granting the sum requested and apportioning the amounts appropriated in accordance with the 1918 budget allowance. Respectfully,

CHARLES L. CRAIG, Comptroller.

Hon. John H. Delaney, Commissioner of Plant and Structures, and Edward A. Byrne, Chief Engineer, Department of Plant and Structures, appeared in favor.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 7 of chapter 789 of the Laws of 1895, hereby appropriates from the revenues of the Williamsburg Bridge the sum of one hundred and eight thousand two hundred and sixty-eight dollars and twenty-five cents (\$108,268.25) to provide for the maintenance of said bridge during the year 1918, said appropriation to be administered in accordance with schedules duly approved by the Board of Estimate and Apportionment, and apportioned as follows:

DEPARTMENT OF PLANT AND STRUCTURES.

Personal Service, Salaries Regular Employees, Care of Bridges.

2748TB	Tax Levy and Bridge Revenue Force	\$15,520 00
	Wages Regular Employees, Care of Bridges.	
2756B	Bridge Revenue Force	92,748 25

Which was adopted by the following vote:

Which was adopted by the following vote:

- Nurses in hospitals;

—shall be filled only after certificate by the Committee on Salaries and Grades of the Board of Estimate and Apportionment, etc.

Which was adopted by the following vote:

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn on the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 will be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, exceeding the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations, and the sidewalks and curb in front of said buildings, extending within the described area, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from the demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture

of ownership of such buildings, appurtenances or portions as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the date of possession, and the successful bidder will provide and furnish all materials or labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

No buildings, parts of buildings, fixtures or machinery sold for removal under these terms and conditions shall in any case be relocated or re-erected within the lines of any proposed street or other public improvement, and if any such buildings, parts of buildings, fixtures or machinery, etc., shall be relocated or re-erected within the lines of any proposed street or other public improvement, title thereto shall thereupon become vested in The City of New York and a resale at public or private sale may be made in the same manner as if no prior sale thereof had been made.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids, and be it further

Resolved, That while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

Bidders will write out the amount of their bids in addition to inserting the same in figures.

Bidders are requested to make their bids upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done or the supplies are to be furnished.
