TO CONTRACTORS.

SEALED PROPOSALS FOR FURNISHING THE materials and labor and doing the work required in repairing and altering the building of this Department, viz.: Quarters of Engine Company No. 12, at No. 261 William street, will be received by the Board of Commissioners at the head of the Fire Department, at the office of said Department, Nos. 157 and 159 East Sixty-seventh street, in the City of New York, until 10 o'clock A. M., Wednesday, May 20, 1891, at which time and place they will be publicly opened by the head of said Department and read.

No estimate will be received or considered after the hour named.

For information as to the amount and kind of work to be done, bidders are referred to the specifications, which form part of these proposals.

The form of the agreement and the specifications, showing the manner of payment for the work and forms of proposals, may be obtained at the office of the Department.

Bidders must write out the amount of their estimate in addition to inserting the same in figures.

The work is to be completed and delivered within the time specified in the contracts.

The damages to be paid by the contractor for each day that the contract may be unfulfilled after the time specified for the completion thereof shall have expired, are fixed and liquidated at ten (10) dollars.

The award of the contract will be made as soon as practicable after the opening of the bids.

Any person making an estimate for the work shall present the same in a sealed envelope to said Board, at said office, on or before the day and hour above named, which envelope shall be indorsed with the name or names of the person or persons presenting the same, the date of its presentation and a statement of the work to which it relates.

The Fire Department reserves the right to decline any and all bids or estimates, if deemed to be for the public interest. No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair, and without collusion or fraud; and that no member of the Common Council,

head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders of the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as sureties for its faithful performance in the sum of one thousand and nine hundred (1,900) dollars, and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion, and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York before the award is made and prior to the signing of the contract.

No estimate will be considered unless accompanied by either a certified check upon one of the banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of ninety-five (95) dollars. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York, as liquidated damages for such neglect or refusal, but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it, and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE,
NO. 31 CHAMBERS STREET,
NEW YORK, August 14, 1889.

TO OWNERS OF LANDS ORIGINALLY ACQUIRED BY WATER GRANTS.

ATTENTION IS CALLED TO THE RECENT act of the Legislature (chapter 449, Laws of 1889), which provides that whenever any streets or avenues in the city, described in any grant of land under water, from the Mayor, Aldermen and Commonalty containing covenants requiring the grantees and their successors to pave, repave, keep in repair or maintain such streets, shall be in need of repairs, pavement or repavement the Common Council may, by ordinance, require the same to be paved, repaved or repaired, and the expense thereof to be assessed on the property benefited; and whenever the owner of a lot so assessed shall have paid the assessment levied for such paving, repaving or repairing, such payment shall release and discharge such owner from any and every covenant and obligation as to paving, repaving and repairing, contained in the water grant under which the premises are held, and no further assessment shall be imposed on such lot for paving, repaving or repairing such street or avenue, unless it shall be petitioned for by a majority of the owners of the property (who shall also be the owners of a majority of the property in frontage) on the line of the proposed improvement.

The act further provides that the owner of any such lot may notify the Commissioner of Public Works, in writing, specifying the ward number and street number, of the lot that he desires, for himself, his heirs and assigns, to be released from the obligation of such covenants, and elects and agrees that said lot shall be thereupon liable to be assessed as above provided, and thereupon the owner of such lot, his heirs and assigns shall thenceforth be relieved from any obligation to pave, repair, uphold or maintain said street, and the lot in respect of which such notice was given shall be liable to assessment accordingly.

The Commissioner of Public Works desires to give the following explanation of the operation of this act: When notice, as above described, is given to the Commissioner of Public Works, the owner of the lot or lots therein described, and his heirs and assigns, are forever released from all obligation under the grant in respect to paving, repaving or repairing the street in front of or adjacent to said lot or lots, except one assessment for such paving, repaving or repairs, as the Common Council may, by ordinance direct to be made thereafter.

No street or avenue within the limits of such grants can be paved, repaved or repaired until said work is authorized by ordinance of the Common Council, and when the owners of such lots desire their streets to be paved, repaved or repaired, they should state their desire and make their application to the Board of Aldermen and not to the Commissioner of Public Works, who has no authority in the matter until directed by ordinance of the Common Council to proceed with the pavement, repavement or repairs.

N. B.—As the above-mentioned quantities, though stated with as much accuracy as is possible, in advance, are approximate only, bidders are required to submit their estimates upon the following express conditions, which shall apply to and become a part of every estimate received:

1. Bidders must satisfy themselves, by personal examination of the location of the proposed work and by such other means as they may prefer, as to the accuracy of the foregoing Engineer's estimate, and shall not, at any time after the submission of an estimate, dispute or complain of the above statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

2. Bidders will be required to complete the entire work to the satisfaction of the Department of Docks, and in substantial accordance with the specifications of the contract and the plans therein referred to. No extra compensation, beyond the amount payable for each class of the work before mentioned, which shall be actually performed, at the price therefore to be specified by the lowest bidder, shall be due or payable for the entire work.

The work to be done under the contract is to be commenced within five days after the date of the contract, and all the work to be done under the contract is to be fully completed on or before the 15th day of October, 1891, and the damages to be paid by the contractor for each day that the contract may be unfulfilled after the time fixed for the fulfillment thereof has expired, are, by a clause in the contract, determined, fixed and liquidated at Fifty Dollars per day.

All the old material taken from the said existing platform, to be removed under this contract, will be relinquished to the Contractor, and bidders must estimate the value of such material when considering the price for which they will do the work under the contract.

Bidders will state in their estimates a price for the whole of the work to be done in each class, in conformity with the approved form of agreement and the specifications therein set forth, by which price the bids will be tested. These prices are to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay from any cause in the performing of the work thereunder. The award of the contract, if awarded, will be made to the bidder who is the lowest for doing the whole of the work comprised in both classes, and whose estimate is regular in all respects.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing each class of the work.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect; and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence; the names of all persons interested with them therein; and if no other person be so interested, the estimate shall distinctly state the fact; also, that the estimate is made without any connection with any other person making an estimate for the same work, and that it is in all respects fair, and without collusion or fraud; and also, that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies of work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. *Where more than one person is interested, it is requisite that the verification be made and subscribed to by all the parties interested.*

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, on its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled upon its completion, and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work to be done in each class, by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

THE RIGHT TO DECLINE ALL THE ESTIMATES IS RESERVED, IF DEEMED FOR THE INTEREST OF THE CORPORATION OF THE CITY OF NEW YORK.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

THE BOARD OF PUBLIC CHARITIES AND CORRECTION RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 64, CHAPTER 410, LAWS OF 1882.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, each in the penal amount of **ONE THOUSAND (1,000) DOLLARS.**

The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the VERIFICATION be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, 1880, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of this security shall, in addition to the justification and acknowledgment, be approved by the Comptroller of the City of New York.

No bid or estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept, but do not execute the contract and provide such proper security, as has been heretofore stated to be requisite, he or they shall be considered as having abandoned it, and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, or from time to time, as the Commissioners may determine.

The form of the contract, including specifications showing the manner of payment, will be furnished at the office of the Department; and bidders are cautioned to examine each and all of its provisions carefully, as the Board of Public Charities and Correction will insist upon its absolute enforcement in every particular.

SCHEDULE "A."

Accident Cases.

In addition to the foregoing schedules a further table is presented, marked Schedule "A," showing the accident cases disposed of during the year.

The number of cases disposed of was.....	49
The total damages claimed were.....	\$394,425 00
The total damages recovered were.....	5,126 02

Of which amount \$199.65 was a personal judgment against a patrolman.

The percentage of recovery was only 1 25-100 per cent., the most favorable showing the City has ever made.

The following is a comparative table of accident cases for the six years covered by the annual reports of the Law Department :

GENERAL REMARKS—MISCELLANEOUS.

A comparison of the foregoing schedules and tables with the corresponding summaries for 1889 shows a marked and gratifying advance during the year just ended.

The number of actions and proceedings pending on December 31, 1890, is less by one hundred than a year ago, notwithstanding the fact that 1,389 actions and proceedings were begun during 1890 as against 722 in 1889.

Schedules 5, 6, 9 and "A" severally indicate improvement upon the work of the previous year. The percentage of recovery in accident cases has been reduced to the lowest point yet reached.

Payments made from appropriations for this Department, exclusive of salaries and payments for bureaus, aggregated nearly \$20,000 less than in 1889.

The statement of moneys received by the Counsel to the Corporation during 1890 (Schedule 8) shows that the amount was less than for several years previous. This is due to the fact that the payments made under settlements of old claims or as a result of old litigations had been substantially completed. The reports from the several bureaus, however, show increased returns; and the collections made by the Attorney for Collection of Arrears of Personal Taxes are unprecedented.

In addition to these general remarks it is proper that particular mention be made of certain features of the year's work.

ASSESSMENT LITIGATION IN THE YEAR 1890.

The results of litigation in 1890 relating to assessments for local improvements are worthy of special mention in several respects.

First—A larger number of proceedings were terminated than in any year since 1886.

They may be tabulated as follows :

Number of orders vacating assessments.....	2
Number of orders reducing assessments.....	96
Number of proceedings disposed of favorably to the City either by motion to dismiss for lack of prosecution, or because of favorable decisions in test cases in the courts.....	1,362
Total.....	<u>1,460</u>

One of the orders of vacation was under a decision made several years ago.

The orders of reduction reduced assessments to the fair value of the improvement, except in a very few cases where orders were entered under compromises made by my predecessors.

Second—The decisions not included in the above which have terminated the bulk of proceedings begun prior to 1880.

It was claimed that many proceedings were pending which had been begun in the years between 1869 and 1874. In eighty of these old cases, involving assessments for sewers and pavings, confirmed previous to 1874, references were ordered. In four cases the referee found in favor of the petitioners and ordered the assessments reduced. This decision, if sustained, would have involved the repayment of large sums of money in those and similar cases. But upon exceptions filed on behalf of the City the Court refused to confirm the reports of the referee.

The principles on which the decision rested are fatal to the contentions of the petitioners, not only in the eighty cases, but in nearly all of the proceedings instituted prior to 1880, which were claimed to be still pending.

Third—The decisions of the Court of Appeals in the matter of the New York Institution for the Instruction of the Deaf and Dumb.

This was one of the most important decisions in favor of the City that has been rendered for many years.

It was contended by certain property-owners that in streets and avenues on Manhattan Island more than a mile in length, north of One Hundred and Fifty-fifth street, not more than half the cost of local improvements could be assessed upon property-owners, and that the remainder must be assessed upon the City and raised by general taxation. Under the decision of the Court of Appeals the whole expense of local improvements in that part of the island may be assessed upon the property-owners, as is the case elsewhere. As very few local improvements have been made in that locality the importance to the City of this decision is obvious.

The case also establishes a principle of wide application, that statutes within the general scope of the Consolidation Act, but passed previously thereto, were superseded or impliedly repealed by the latter act, which was intended to include all the special and local laws relating to New York City.

Fourth—The decision of the Court of Appeals sustaining the assessment for regulating Lexington avenue, from One Hundred and Second street to the Harlem river.

Under this decision many of the proceedings to vacate or reduce the assessment have been already dismissed.

Fifth—The decisions that the structure of a horse railroad in a street is assessable for the paving thereof.

The two test cases on this subject were The People ex rel. John Davidson and others vs. The Board of Assessors, and The People ex rel. D. Willis James and others vs. The Board of Assessors.

The General Term decided that in each case the company was benefited by the paving, and that it could be assessed for a part of the expense thereof.

If the decision is affirmed by the Court of Appeals, it will become the duty of the Assessors to put a part of the expense for paving in the future upon the railroad companies, and thus lighten the burden upon the property-owners.

STATE TAXES.

In the proceeding brought by the State authorities to enforce the payment of the balance of the State taxes for the year 1887, the referee decided in favor of the State, basing the decision primarily upon a point not affecting in any way the merits of the case. Appeal was taken from the judgment entered upon the report of the referee, and argument has been heard at the General Term. Whatever the final outcome of the proceeding, I am satisfied that the interests of the City require radical changes in the method of equalizing the State taxes. It is manifestly unfair that the City should be called upon to pay nearly half the expenses of the State, without any representation on the Board of State Assessors, or any right to be heard before the Board of Equalization.

SCHOOL SITES.

The three condemnation proceedings unfinished at the time of my last annual report have been concluded. The report of the Commissioners of Estimate in each case has been confirmed by the Court, and title has been acquired by the City.

Only one condemnation proceeding has been instituted during the past year, owing to the fact that under the amendment effected by chapter 35, Laws of 1890, the Board of Education was empowered to purchase property subject to the approval of the Board of Estimate and Apportionment. During the year the Board has purchased eight school sites, aggregating \$373,523.64, the titles to which have been examined by this Department. The examination of the titles to eight other sites has been commenced, and it is expected that the City will acquire the several properties during the ensuing year.

STREET OPENING PROCEEDINGS.

A comparison of the work performed during the past year with that accomplished in 1889 shows a very substantial increase in almost every particular. Title has been acquired to 68,389 lineal feet of streets as against 26,436 in the preceding year. The number of proceedings confirmed and finally disposed of was more than doubled.

One of the most important proceedings which has occupied the attention of Commissioners during the past year is the proceeding to acquire title to Melrose avenue, from Third avenue to East One Hundred and Sixty-third street. On account of the great sanitary necessity for its early completion, the matter was rapidly progressed, and the final report, by which the Commissioners award \$362,717.40, was completed, after the taking of voluminous testimony, and was presented to the Court for confirmation in October. Objections were interposed by various parties, and after protracted argument the motion was submitted. As yet no decision has been rendered.

The College place widening and extension proceeding has been vigorously pushed. Proof of title has been taken, more than one hundred sessions of the Commissioners have been held, property-owners have been heard, and the evidence on the part of City is closed. Benefit maps

are now being prepared by the Department of Public Works. Considering the magnitude and variety of the interests affected the proceeding has progressed with unusual rapidity.

MANDAMUS—CERTIORARI.

During the year a large number of writs of certiorari and mandamus have been issued, directed to the heads of the various city departments. The form of the return to these writs has been materially changed, and the City has been uniformly successful. A natural and gratifying result of these favorable decisions of the courts has been the increased efficiency and superior discipline attainable in the several departments. The benefits are especially perceptible in the Police, Fire and Park Departments of the city, where dismissed employees are rarely ever reinstated by the courts.

NUMBER OF OPINIONS GIVEN.

The reports of my predecessors show that the preparation of opinions at the request of the heads of the various departments is a very important and rapidly increasing branch of the office work, which covers an immense field and range of subjects and which frequently involves prolonged study.

During 1890 written opinions were given as follows :

Comptroller	234
Public Works Department.....	49
Dock Department.....	20
Park Department.....	26
The Mayor.....	37
Police Department.....	13
Fire Department.....	5
Street Cleaning Department.....	3
Aqueduct Commission	8
Board of Street Openings.....	9
Department of Charities and Correction	9
Common Council.....	7
Board of Assessors.....	7
Taxes and Assessments.....	2
Board of Estimate.....	4
Armory Board.....	1
Miscellaneous.....	51
	485

There were received from the Police Department 241 reports of accidents, which were examined into and filed.

There were received from the Finance Department 377 requests for the examination of claimants, in 237 of which oral examinations, under oath, were conducted. The circumstance that only 237 claimants were examined, when 377 requests for examination were received, is principally explained by the fact that a large number of the claims filed were in assessment matters, where, all the facts being already within the knowledge of the City officers, examinations were not necessary.

CONTRACTS.

There were contracts examined or drafted and approved, as to form, as follows :

Department of Public Works.....	807
Department of Public Parks.....	120
Department of Charities and Correction.....	30
Department of Docks.....	80
Fire Department.....	36
Armory Board.....	4
Aqueduct Commission.....	22
Police Department.....	5
Health Department.....	7

Six Junior Law Clerks.

One Chief Clerk.

One Deputy Chief Clerk.

One Register Clerk.

RESUMÉ OF COURT WORK.

The amount of work done in court by the office is well exhibited in the following table, in which what has been accomplished during 1890 is contrasted with similar work performed in recent years :

	1885.	1886.	1887.	1888.	1889.	1890.
Total actions and special proceedings pending, undisposed of December 31.....	5,646	4,960	4,600	4,192	3,775	3,675
Total separate cases appearing on trial calendars during the year	245	265	245	321	275	408
Total cases tried—Circuit, Trial and Special Terms.....	88	117	116	191	136	122
Total appeals argued.....	69	109	107	151	112	134
Total motions argued.....	280	313	331	695	601	1,425
Total lineal feet of streets opened.....	7,794	850	23,935	41,065	26,436.83	68,389
Total number of cases and proceedings disposed of.....	1,052	2,369	2,062	1,267	1,083	2,230

It is hardly necessary to add that the vast amount of business transacted by the Law Department during the year, and with the satisfactory results above outlined, could not have been accomplished without the constant, hearty and intelligent co-operation of the office staff, to whom my public acknowledgments are cheerfully given.

I have the honor to remain,

Very respectfully yours,

WM. H. CLARK, Counsel to the Corporation.

Schedule 9.

REPORT OF STREET OPENING PROCEEDINGS FOR YEAR 1890.

OFFICE OF THE CLERK OF STREET OPENINGS, NO. 220 BROADWAY,
NEW YORK, December 31, 1890.

WILLIAM H. CLARK, Esq., Counsel to the Corporation :

SIR—I have the honor to transmit herewith report of street opening proceedings for the year terminating December 31, 1890.

In preparing this report I have followed the plan adopted by me in the annual reports for several years past, omitting, however, from the statistics of work performed two schedules, one a list of proceedings in which appeals have been determined, and the other a list of proceedings instituted, as no appeals have been determined and no proceedings instituted by me during the past year.

The statistics of work performed during the year are, therefore, embraced in seven schedules, as follows :

SCHEDULE 1.

This schedule is divided into two heads, "A" and "B."

"A" is a complete list of proceedings considered during the year terminating December 31, 1890, showing the length of the street or avenue, or portion thereof, to which title is sought to be acquired, and, where reports have been confirmed during the year or abstracts of estimate and assessment completed, the amount of awards, total assessment, number of parcels assessed and number of city lots assessed.

"B" is a statement showing the condition of each proceeding considered under "A" on December 31, 1890.

This schedule shows that there have been under consideration during the year seventy-three proceedings.

SCHEDULE 2.

This is a list of proceedings confirmed during the year, with the date of the entry of each respective order of confirmation.

It appears from this schedule that there have been twenty-nine proceedings confirmed during the year.

SCHEDULE 3.

This is a list of proceedings discontinued during the year, with the date of the entry of each respective order of discontinuance.

As shown by this schedule, two proceedings have been discontinued during the year.

SCHEDULE 4.

This is a list of proceedings finally disposed of during the year.

The number of proceedings finally disposed of is shown by this schedule to be thirty.

SCHEDULE 5.

This is a list of proceedings in which appeals have been taken to the General Term or Court of Appeals, either on the part of the city or on the part of property-owners.

There was one such proceeding, in which seven appeals have been taken, as shown by this schedule.

SCHEDULE 6.

This is a list of proceedings in which abstracts of estimate and assessment have been completed during the year.

This schedule shows that such abstracts have been completed in twenty-two proceedings.

SCHEDULE 7.

This is a list of proceedings pending on the 31st day of December, 1890.

Forty-three proceedings are pending, as shown by this schedule.

These schedules are followed by a summary of the work performed during the year.

The aggregate of the awards in proceedings in which reports have been confirmed during the year is \$299,037.81, to cover which and the costs of the proceedings, assessments aggregating \$315,250.37 were levied, 7,221 parcels, comprising 9,465 city lots, being assessed for benefit. The abstract of estimate and assessment in the matter of opening East One Hundred and Thirty-seventh street, from Rider to Locust avenue, had been completed and filed, the testimony upon the hearing of objections closed and the Commissioners had about completed their report when the proceeding was discontinued by resolution of the Board of Street Opening and Improvement. Costs to the amount of \$1,456.40 were taxed in this proceeding.

One of the most important proceedings, from a sanitary standpoint, which has occupied the attention of the Commissioners during the past year is the proceeding to acquire title to Melrose avenue, from Third avenue to East One Hundred and Sixty-third street. On account of the great sanitary necessity for its early completion this matter was progressed with all possible speed and the final report, by which the Commissioners award \$362,717.40 for 116 parcels of land with the

improvements thereon and assess for benefit 3,362 parcels, comprising over 5,500 city lots, an aggregate of \$363,979.47, was completed, after the taking of very voluminous testimony and presented to the Court for confirmation in October. Opposition was interposed on the part of various interests and after lengthy argument the motion was submitted. No decision has yet been rendered.

Awards to the amount of \$262,387.94 have been computed in 22 proceedings in which draft abstracts of estimate and assessment have been finished and assessments aggregating \$285,143.04 completed. These assessments are levied on 3,312 parcels, comprising 6,109 city lots.

Title has been acquired to 54,190 lineal feet of streets as against 26,436 in 1889. 463 meetings of Commissioners of Estimate and Assessment have been held in this office, in addition to meetings for the purpose of inspecting the various properties to which title is sought to be acquired. There were 15 attendances on my part before Referees, 67 motions and 1 appeal argued, 520 orders entered and 1,907 communications to Commissioners, property-owners and various municipal departments and boards written during the year.

A comparison of the work performed during the past year with that completed in 1889 shows a very substantial increase in almost every particular.

Respectfully yours,

CARROLL BERRY, Clerk of Street Openings.

SCHEDULE "B."—II.

Statement Showing the Condition of each Proceeding Considered under Schedule "B" on the 31st day of December, 1890.

1. Albany Road—
The Commissioners have not been appointed as the necessary rule map and technical description have not been received from the Department of Public Parks.
2. Audubon Avenue—
The Commissioners of Estimate and Assessment in this proceeding have duly qualified by taking the oath of office, organized by the election of James P. Campbell as Chairman, and have viewed the premises to be taken. The awards to be made for the lands and building to be condemned have been determined. A preliminary area of assessment for benefit has been decided upon, as well as the principle upon which the assessment for benefit shall be distributed. The necessary draft damage and benefit maps have been received from the Department of Public Works.
3. Bailey Avenue—
In this proceeding, after all of the papers had been prepared and the motion for the appointment of Commissioners of Estimate and Assessment granted, the Board of Street Opening and Improvement laid over the signing of the petition.
4. Bethune Street—
The Commissioners have duly qualified and organized by the selection of William J. Lacey as Chairman. The requisite draft damage map has been received from the Department of Public Works. They have viewed the premises to be acquired and have taken testimony in reference to the value of the land and buildings to be condemned. A preliminary area of assessment for benefit has been determined and the Commissioner of Public Works requested to furnish the requisite draft benefit maps in accordance therewith.
5. Brookline Street—
The Commissioners in this proceeding have taken the oath of office and organized by the election of Thomas Nolan as Chairman. They have visited the premises to be acquired and have fixed the awards for land and buildings. The requisite draft damage map has been received. Considerable difficulty has been experienced in the selection of a fair area of assessment for benefit, and the Commissioners have that matter still under advisement.
6. Beach Avenue—
The work of the Commissioners in this proceeding, from the time of organization to the filing of their abstract of estimate and assessment, has been completed. The abstract will shortly be deposited in the Department of Public Works for the inspection of property-owners.
7. Boston Avenue—
The motion for the appointment of Commissioners of Estimate and Assessment has been made and granted, but the papers have not yet been submitted, as the petition has not been signed by the members of the Board of Street Opening and Improvement.
8. Cedar Avenue—
In this proceeding all the work preliminary to the filing of the abstract of estimate and assessment has been completed, but owing to the limited area of assessment and the low taxable valuations of the property to be assessed for benefit, the awards largely exceed the amount that should be assessed upon the property benefited. It has, therefore, been deemed advisable to defer filing the abstract of estimate and assessment until after the valuations of property for the purpose of taxation by the Deputy Tax Commissioners for the year 1891 have been made and confirmed.
9. Cammann Street—
All the work of the Commissioners preliminary to the filing of the abstract of estimate and assessment has been completed, but the hearings given to the property-owners developed opposition on the part of some of them to the plan of the street. The Department of Public Parks has been petitioned to change the lines and width of the street and to discontinue a portion of it. This application is still pending and the proceedings have been stayed in the meantime.
10. Cauldwell Avenue—
The present Commissioners of Estimate and Assessment duly qualified and organized by the election of Edward Jacobs as Chairman. One of the original Commissioners declined to serve and the proceeding was necessarily delayed until his successor could be appointed. Charles T. Burrill was appointed by the Court to fill his place. The requisite draft damage and benefit maps have been received. The awards for land and buildings have been officially determined. Considerable difficulty has been had in distributing the assessments for benefit. The area of assessment for benefit is very large and the proceeding is a costly one. This matter has not yet been worked out to the satisfaction of the Commissioners.
11. Cedar Place—
The Commissioners in this proceeding have duly qualified. They have not yet viewed the premises, as the requisite draft damage map showing the property to be condemned has not been furnished by the Department of Public Parks.
12. College Place—
The Commissioners in this proceeding are Eugene L. Bushe, James G. Janeway and Thomas F. Hayes. They qualified by taking the oath of office and organized by the election of Eugene L. Bushe as Chairman; Franklin Bartlett as special counsel. Proof of title has been taken and all the property-owners whose interests are affected were duly notified of the meetings of the Commissioners and afforded a hearing. The magnitude and variety of the interests affected make this proceeding an intricate one. It bristles with novel points of law and practice. Upwards of one hundred sessions have been held and the case on the part of the City is almost closed. The rapid manner in which this proceeding has been progressed is unprecedented in the history of proceedings of this kind, and a speedy conclusion of the labors of the Commissioners may be expected. The preliminary area of assessment is very large and the benefit maps are now being prepared by the Department of Public Works.
13. Depot Place—
The papers in this proceeding have been submitted to Justice Lawrence, but the Commissioners have not been appointed.
14. Decatur Avenue—
The Commissioners have duly qualified and organized by the election of William E. Stillings as Chairman. They have viewed the premises to be taken. The necessary draft damage and benefit maps have been received. The awards for land and buildings to be acquired have been made and the question of the distribution of the assessments for benefit is now under consideration.
15. East One Hundred and Thirty-second street,
16. East One Hundred and Thirty-third street,
17. East One Hundred and Thirty-fourth street,
18. East One Hundred and Thirty-fifth street,
19. East One Hundred and Thirty-sixth street—
The work of the Commissioners in these proceedings has been finished and it only remains to submit their reports to the courts for confirmation. Parties objecting have been heard and their testimony considered. Motions for the confirmation of the reports in the above matters will be made early in January.
20. East One Hundred and Sixty-seventh Street—
Commissioners have been appointed and have duly qualified by taking the oath of office. The requisite draft damage map has been requested from the Department of Public Parks, but has not yet been received.
21. East One Hundred and Seventy-fifth Street—
The Commissioners have taken the oath of office, organized by the election of Wanhope Lynn as Chairman and have viewed the premises to be condemned. The requisite draft damage and benefit maps have been received. The awards for land and buildings have been made. The principle to be followed in distributing the assessment for benefit has also been determined and a request has been made for the final maps to attach to their report.
22. East One Hundred and Seventy-sixth Street—
The Commissioners in this proceeding duly qualified and organized by the election of Richard D. Hamilton as Chairman. One of the original Commissioners declined to serve and it was necessary to apply to the Court for the appointment of a successor. Mitchell Levy was appointed to fill his place. After viewing the premises and making the awards for lands and buildings and fixing the assessments for benefit to be levied on the abutting property, the Commissioners were obliged to desist by request of the Board of Street Opening and Improvement. The Department of Public Parks having been petitioned by some of the property-owners to reduce the width of the street from 60 to 50 feet made the necessary change in lines, and, upon a resolution passed by the Board of Street Opening and Improvement, the proceeding was discontinued.
23. East One Hundred and Seventy-eighth Street—
A motion has been made and granted for the appointment of Commissioners of Estimate and Assessment. The papers have not been submitted, as they require the signatures of the members of the Board of Street Opening and Improvement.
24. East One Hundred and Seventy-eighth Street—
This proceeding from Vanderbilt avenue to La Fontaine avenue was discontinued by the Board of Street Opening and Improvement after the papers were prepared and submitted.
25. East One Hundred and Seventy-ninth Street—
An application for the appointment of Commissioners of Estimate and Assessment has been noticed for January 6, 1891, on which date the Court will be asked to appoint them.
26. Freeman Street—
The Commissioners have qualified but have not as yet viewed the premises, as the damage map showing the property to be taken has not been received from the Department of Public Parks.
27. Fort Independence Street—
A motion for the appointment of Commissioners of Estimate and Assessment has been made and granted. The papers have not been submitted, as the petition awaits the signatures of the members of the Board of Street Opening and Improvement; it will be signed at the next meeting of that Board.
28. Fort Washington Depot Road—
The property-owners whose land is to be acquired have all offered to cede so much of their lands as is necessary to be condemned for the opening of this street and have submitted abstracts of title and the requisite conveyances. An examination of title is now being made, and in case proof of title and of authority to cede is found satisfactory this proceeding will have to be discontinued and a cession of the street can be taken.
29. Featherbed Lane—
Commissioners have been appointed and have qualified by taking the oath of office. The requisite draft damage map has been requested but has not been received. Further steps in this proceeding cannot be taken until this map has been furnished by the Department of Public Parks.
30. Forest Avenue—
Commissioners have qualified, organized and have viewed the premises to be taken. The requisite draft damage map has been received and the awards to be made for land and buildings are now under consideration.
31. George Street—
All the work of the Commissioners from the time of organization to the preparation of the abstract of estimate and assessment has been completed. The abstract will shortly be deposited in the Department of Public Works for the inspection of the property-owners.
32. Hampden Street—
The report of the Commissioners of Estimate and Assessment in this proceeding was submitted to the Court on October 26, 1890 (Justice O'Brien). On December 23 the motion was granted, report filed and order confirming report duly entered. Duplicate report, maps and abstracts of damage and benefit have been filed with the Commissioner of Public Works. Certified copies of the order taxing the costs of the Commissioners and of the order confirming the report have been served upon the Comptroller. The Department of Public Parks has been notified of the confirmation of the report.
33. Harlem River Terrace—
The abstract of estimate and assessment of the Commissioners has been deposited in the Department of Public Works for the inspection of the property-owners affected. Objections have been filed which will be heard as soon as the time during which the abstracts must remain on file, has expired.
34. Independence Avenue—
Commissioners have qualified but have not viewed premises, as the necessary draft damage map showing the property to be taken has not been furnished by the Department of Public Parks.
35. Locust Avenue—
This proceeding has been completed. The report of the Commissioners was submitted to the Court for confirmation on October 30, 1890. On the same day the motion was granted, report filed and order confirming same duly entered. Duplicate report, maps and abstracts of estimate and assessment were filed in the office of the Commissioner of Public Works, as required by law. Certified copies of orders confirming report and taxing costs of the Commissioners were served on the Comptroller. The Department of Public Parks was notified of the confirmation of the report.
36. Lind Avenue—
The abstract of estimate and assessment of the Commissioners in this proceeding has not been completed. Owing to the very limited area of assessment and the low tax valuations of the property to be assessed for benefit largely exceed the amount that can be imposed for benefit, it has been deemed advisable to defer filing the abstract of estimate and assessment until the valuations of the property to be assessed for benefit by the Deputy Tax Commissioners for the years 1890 and 1891 have been made and confirmed.
37. Marcher Avenue—
The Commissioners have duly qualified, but have not viewed the premises to be acquired. The necessary draft damage map showing the different parcels of property to be taken has not been received from the Department of Public Parks.
38. One Hundred and Sixteenth Street—
The Commissioners have taken the oath of office. The requisite draft damage map not having been received from the Department of Public Works, they have not been able to view the premises to be condemned.
39. One Hundred and Thirtieth Street—
A motion was made and granted for the appointment of Commissioners of Estimate and Assessment. The papers are now ready to be submitted to the Court.
40. One Hundred and Thirty-second Street—
The work of the Commissioners in this proceeding has been completed; their report was submitted to the Court for confirmation on September 2, 1890. On the same day the motion was granted, report filed and order confirming report duly entered. Duplicate report, abstract of estimate and assessment and maps were filed in the office of the Department of Public Works. Certified copies of the orders confirming report and taxing costs of Commissioners were served on the Comptroller. The Commissioner of Public Works was duly notified of the confirmation of the report.
41. One Hundred and Sixty-eighth Street—
The work of the Commissioners in this proceeding, preliminary to the filing of their abstract of estimate and assessment in the office of the Department of Public Works, has been completed. Objections have been filed to the awards and assessments by the property-owners affected and will be heard during the month of January.
42. One Hundred and Sixty-ninth Street—
The work of the Commissioners in this proceeding has been completed. Their report was submitted to the Court for confirmation on September 2, 1890. On the same day the motion was granted, report filed and order confirming same duly entered. Duplicate report, maps and abstract of estimate and assessment were filed in the office of the Commissioner of Public Works. Certified copies of the order confirming the report and of the order taxing the costs of the Commissioners were served upon the Comptroller. The Commissioner of Public Works was duly notified of the confirmation of the report.
43. One Hundred and Eighty-first Street—
The order confirming the report of the Commissioners of Estimate and Assessment in this proceeding was partially opened and the report was sent back to the Commissioners to make a proper award to the petitioner, Mrs. Fitzgerald, and to revise and correct their assessments for benefit accordingly. All the property-owners who will be affected have been heard. A great deal of testimony has been taken. The appeal from the order partially opening the order confirming the original report has been argued at General Term and this latter order modified, and, as modified, affirmed without costs. An appeal will probably be taken to the Court of Appeals from the order of the General Term, and a second report will probably not be made by the Commissioners until after that appeal be determined.
44. River Avenue—
The papers in this proceeding have been laid over by the Board of Street Opening and Improvement.
45. Railroad Avenue, West—
The Commissioners in this proceeding have duly qualified, organized by the election of Samuel W. Milbank as Chairman, and viewed the premises. All the work preliminary to the preparation of the abstract of estimate and assessment has been completed and it will shortly be deposited in the Department of Public Works for the inspection of the property-owners.
46. Robbins Avenue—
Commissioners have been appointed and have duly qualified and organized by election of William H. Willis as Chairman. The requisite draft, damage and benefit maps have been received from Department of Public Parks. Commissioners have viewed premises and taken testimony as to value of lands to be condemned. Questions of dedication have been raised and are now under consideration by them. Awards have been determined, except as to lands as to the dedication of which the Commissioners are in doubt.

47. St. John's Park—

The papers are being prepared for the application to the Court for the appointment of Commissioners of Estimate.

48. Spuyten Duyvil Parkway, Whiting Street, Kappock Street—

A request has been received from the Department of Public Parks to discontinue this proceeding. This will be done accordingly.

49. Undercliff Avenue—

The Commissioners have duly qualified and organized by the election of J. F. C. Blackhurst as Chairman. They have made the award for the lands to be taken and adopted the principle upon which the assessment for benefit will be distributed. The abstract of estimate and assessment is now in course of preparation; it will be deposited in the Department of Public Works for the inspection of property-owners as soon as completed.

50. Union Street—

The Commissioners have qualified but have not viewed the premises to be taken. The requisite draft damage map has not been furnished by the Department of Public Parks.

51. Walnut Avenue—

This proceeding has been completed. The report of the Commissioners of Estimate and Assessment was submitted to the Court for confirmation on October 30, 1890. On the same day the motion was granted, report filed, and order confirming same duly entered. Duplicate report, maps and abstracts of estimate and assessment have been filed in the Department of Public Works. The Comptroller has been served with certified copies of order taxing the costs of the Commissioners and of order confirming the report. The Department of Public Parks has been duly notified of the confirmation of the report.

52. Willow Avenue—

The Commissioners have duly qualified and organized by the election of James J. Phelan as Chairman. They have viewed the premises and have received from the Department of Public Parks the usual draft, damage and benefit maps. The awards for land and buildings to be taken have been made and the theory or principle on which the assessments for benefit will be distributed over the area of assessment has been adopted. The calculation of the assessment for benefit is now being made.

53. Willis Avenue—

The Commissioners have qualified and organized by the election of Thomas F. Grady as Chairman. The awards for land and buildings have been made and the assessments for benefit determined. All the work preliminary to the filing of the abstract of estimate and assessment in the Department of Public Works has been completed, and the abstract itself is in course of preparation.

54. West One Hundred and Sixty-seventh Street (strip of land for drainage)—

The requisite draft, damage and benefit maps have been received from the Department of Public Works. Owing to a change in the sewerage district upon which the petition for the appointment of Commissioners was based, and the conflicting provisions of law relating to this matter, this proceeding will have to be discontinued. Amendments to the provisions of the Consolidation Act under which this proceeding was instituted have been framed and will be submitted to the Legislature next year.

55. Wales Avenue—

Commissioners have qualified and organized by the election of William H. Willis as Chairman. All the work of the Commissioners, preliminary to the filing of their abstract of estimate and assessment in the Department of Public Works, has been completed. NEW YORK, December 31, 1890.

Hon. WILLIAM H. CLARK, Counsel to the Corporation:

DEAR SIR—This day closes the first year of my term of office, and herewith I transmit in detail the results accomplished.

The total amount collected, including costs and interest deposits, is.....	\$60,085 77
Of which amount was paid to Receiver of Taxes for arrears.....	\$58,234 04
Was paid to the City Chamberlain for costs.....	1,806 39
Was paid to the Comptroller as interest earned on deposits.....	45 34
	\$60,085 77
The report for 1889 shows total collections of.....	22,053 57

And my report shows an increase of..... \$38,032 20

The increase of collections is due to the fact that very many old claims dating as far back as 1879 have been paid, so that the coming year will not probably show so large a collection.

There have come under my supervision during the year 3,947 claims, of which number the Receiver of Taxes remitted to me 2,885, and there remained in the Bureau undisposed of when I assumed charge 1,062.

The summary hereto annexed shows that 736 papers issued for service on delinquents were returned by messengers as "not found"; 1,317 were dismissed by the court for various reasons; 209 resulted in orders for commitment, remaining yet unpaid; 67 delinquents died before service of papers and left no estate; 470 delinquents paid after service of papers on them, and 1,148 claims are pending and undisposed of, and of this number 576 were sent to me by the Receiver of Taxes on the 29th instant. The affairs of the office were in a deplorable condition when I assumed charge, as my predecessor had not been in possession long enough to effect a change, and I proceeded to systematize the work, and then familiarize myself with the papers and proceedings pending. In this work the clerk and assistants assigned to this Bureau rendered me material aid, and we have the satisfaction of knowing that it has made the office work more efficient and agreeable.

Very respectfully yours,

JOHN G. H. MEYERS.

Report of the Public Administrator.

BUREAU OF THE PUBLIC ADMINISTRATOR,
No. 49 BEEKMAN STREET,
NEW YORK CITY.

Hon. WILLIAM H. CLARK, Counsel to the Corporation:

SIR—In compliance with the regulation of your Department, requiring the Public Administrator to render to you annually a full and complete report of all the proceedings of this Bureau, I beg to submit the following report for the year ending December 31, 1890:

Number of estates reported and investigated.....	367

Number of estates upon which letters were granted upon application of the Public Administrator.....	82

There are three estates now in the Bureau held subject to trusts contained in wills, which trusts are duly executed.

The accounts of proceedings of the Public Administrator have been judicially settled and allowed by the Surrogate in eighty-seven estates, and the estates distributed pursuant to the decree of the Surrogate.

Under the Laws of 1887, providing for the settlement of estates under \$250 without judicial decree, ninety-three estates have been closed during the year.

Five hundred and eighty-three estates of little value were received from the Coroners' office, and from the Commissioners of Charities and Correction, and paid directly into the City Treasury.

In two estates objections were filed to accounts above mentioned, in one case they were subsequently withdrawn. One reference only is now pending involving any question as to the correctness of said accounts.

Three references are now pending before referees relating to the question of kinship, but involving no other question.

Eighteen actions were commenced in courts of record by and against the Public Administrator.

Two special proceedings are now pending to determine the validity of rejected claims.

In thirty-two cases citations were served on the Public Administrator to attend the probate of a last will and testament, and his appearance noted.

Nine hundred and forty-four notices were served on hotels, boarding-house keepers, undertakers and others, pursuant to law.

All reports and returns to the Comptroller, Common Council, Board of Aldermen, and to the Supervisor of the City Record have been rendered.

The amount disbursed to creditors, next of kin and for expenses of administration, since letters were issued, upon estates settled under decree of court and upon estates closed pursuant to law was three hundred and twenty thousand three hundred and twenty-one dollars and sixty-five cents.
