CHANGE OF GRADE OF AVENUE G, ETC., BROOKLYN.

In the matter of the proposed change of grade of Avenue G, between East Twenty-fourth street and Amersfort place, East Twenty-fifth street, between Avenues F and H, and East Twenty-sixth street, between Avenues F and H, affidavits of publication were presented showing that the matter had been duly advertised.

Nobody appearing in opposition to the proposed changes, the following resolution was adopted:

Whereas, At a meeting of this Board held on the 3d day of February, 1905, resolutions were adopted proposing to change the map or plan of The City of New York so as to change the grade of Avenue G, between East Twenty-fourth street and Amersfort place, East Twenty-fifth street, between Avenue F and Avenue H, and East Twenty-sixth street, between Avenue F and Avenue H, in the Borough of Brooklyn, City of New York, and appointing a hearing at a meeting of this Board to be held on the 3d day of March, 1905, at 10.30 o'clock A. M., at which meeting such proposed action would be considered by this Board, and requesting a notice to all persons affected thereby, of the aforesaid time and place at which such proposed action would be considered, to be published in the CITY RECORD and in the corporation newspapers for ten days prior to the 3d day of March, 1905; and

Whereas, It appears from the affidavits of the Supervisor of the City Record and the publishers of the corporation newspapers that the aforesaid resolutions and notice have been published in the CITY RECORD and in the corporation newspapers for ten days prior to the 3d day of March, 1905; and

Whereas, At the aforesaid time and place a public hearing was given to all persons interested in such proposed change who have appeared, and such proposed change was duly considered by this Board; now therefore be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, as amended, deeming it for the public interest to change the map or plan of The City of New York by changing the grade of Avenue G, between East Twenty-fourth street and Amersfort place, East Twenty-fifth street, between Avenue F and Avenue H, and East Twenty-sixth street, between Avenue F and Avenue H, in the Borough of Brooklyn, City of New York, does hereby favor the same so as to change the grade of the aforesaid streets as follows:

Avenue G.

Beginning at the intersection of Avenue G and East Twenty-fourth street, the elevation to be 22.82 feet, as heretofore; thence easterly to the intersection of Avenue G and East Twenty-fifth street, the elevation to be 22.20 feet; thence easterly to the intersection of Avenue G and East Twenty-sixth street, the elevation to be 21.40 feet, and thence easterly to the intersection of Avenue G and Amersfort place, the elevation to be 20.40 feet, as heretofore.

East Twenty-fifth Street.

Beginning at the intersection of East Twenty-fifth street and Avenue F, the elevation to be 22.50 feet, as heretofore; thence southerly 380 feet from the southerly curb line of Avenue F to a crown, the elevation to be 24.00 feet; thence southerly to the intersection of East Twenty-fifth street and Avenue G, the elevation to be 22.20 feet; thence southerly to the intersection of East Twenty-fifth street and Avenue H, the elevation to be 27.22 feet, as heretofore.

East Twenty-sixth Street.

Beginning at the intersection of East Twenty-sixth street and Avenue F, the elevation to be 24.50 feet, as heretofore; thence southerly to the intersection of East Twenty-sixth street and Avenue G, the elevation to be 21.40 feet; thence southerly to the intersection of East Twenty-sixth street and Avenue H, the elevation to be 26.68 feet, as heretofore.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx and the President of the Borough of Queens—15.

CHANGE OF GRADE AT SPUYTEN DUYVIL, THE BRONX.

In the matter of the proposed changes of the street system along the lines of the Spuyten Duyvil and Port Morris Railroad, at the Spuyten Duyvil station, affidavit of publication was presented, showing that the matter had been duly advertised.

Mr. Luce, representing the railroad company, asked for an adjournment, and the hearing was laid over for two weeks.

The following reports were placed on file:

REPORT No. 2639.

FEBRUARY 25, 1905.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—At the meeting of the Board of Estimate and Apportionment, held on February 17, 1905, there was submitted by the President of the Borough of The Bronx a plan and technical description for certain changes in the map of the Borough of The Bronx, along and adjacent to the line of the Spuyten Duyvil and Port Morris Railroad at the Spuyten Duyvil station, and south of the same. The Board fixed a date for a public hearing.

This plan is a modification of one submitted by the New York Central and Hudson River Railroad Company in connection with a proposed change in the location of their road south of the Spuyten Duyvil station, by which they would substitute for the open cut now crossing the Spuyten Duyvil road at two points a short distance apart, a tunnel under the hill. The railroad plan was considered objectionable in that it involved a change in the lines of Spuyten Duyvil road, as well as a change of grade,

such change in the lines being designed simply to prevent a deflection in the street at the northwesterly portal of the proposed tunnel. The plan has been amended so that the changes in Spuyten Duyvil road are confined only to changes of grade. Further changes consist in moving the street already laid out on the map, but not physically open, bounding the railroad right of way on the southeast, to a corresponding position for the new right of way; moving the narrow street connecting Johnson avenue and Spuyten Duyvil road several hundred feet northwardly; laying out a new street 50 feet in width and about 150 feet in length, near the Spuyten Duyvil station, and discontinuing about 200 feet of the street adjacent to the railroad right of way, within which street, as now laid out, is located the Spuyten Duyvil station; and a slight shifting of the lines of the Spuyten Duyvil road, or parkway, near the station.

I regard the change in the railroad line as very desirable. For a distance of about 630 feet, the railroad, instead of being in open cut, with two overhead bridges, will be in tunnel. The compensation to be paid the City for occupying the space within the surface of streets already open has been covered by a report made by Assistant Engineer Nichols, of the Department of Finance. The proposed changes in the grade of Spuyten Duyvil road are not objectionable; in fact, the rates of grade could be made more uniform than they are at present. This change in the map of the City has been made a condition of the right to the change of line desired by the railroad company.

It is recommended that the plan submitted be approved, technical description describing the changes being herewith submitted.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

CITY OF NEW YORK,
DEPARTMENT OF FINANCE—COMPTROLLER'S OFFICE,
January 31, 1905.

Hon. EDWARD M. GROUT, Comptroller:

SIR—The Board of Aldermen at a meeting held January 10, 1905, adopted a resolution approving of the alteration or change of part of the route of the Spuyten Duyvil and Port Morris Railroad, in the Borough of The Bronx, as shown upon a certain map accompanying said resolution, with a provision that the approval should not take effect until the terms and conditions of making such alteration or change shall be fixed by the Board of Estimate and Apportionment, acting for the City, nor until such terms and conditions shall be accepted, and agreed upon by the said Spuyten Duyvil and Port Morris Railroad Company. This resolution was approved by the Mayor on January 17, 1905, and has now been transmitted to the Board of Estimate and Apportionment.

The change of line as shown upon the map eliminates to a certain extent a rather sharp curve on the line of the route just west of the Spuyten Duyvil creek, and removes the line from a surface grade to a line through a tunnel, for a distance about 600 feet.

The change as proposed will cross under Johnson avenue and the north and south branches of the Spuyten Duyvil road, if the plan as shown on the map is carried out, but will necessitate the raising of the grade of the south branch of the Spuyten Duyvil road from 30.2 feet to 35 feet, and of the north branch of the road from 26 feet to 33.5 feet.

It will also completely cut off the connection between an unopened street running along the northerly side of the present line of the railroad and connecting with the north branch of the Spuyten Duyvil road. It will also prevent the connection with it was proposed to make between the old right of way of the Spuyten Duyvil and Port Morris Railroad and the south branch of the Spuyten Duyvil road.

As this matter was referred to the Comptroller and the President of the Borough of The Bronx, at the meeting of the Board of Estimate and Apportionment, held January 20, 1905, I have held a conference with Chief Engineer Briggs of the Borough of The Bronx, and Chief Engineer Lewis of the Board of Estimate and Apportionment, and it was the opinion of all that before the terms and conditions be fixed for the consent applied for, the Spuyten Duyvil and Port Morris Railroad should make application to the Board of Estimate and Apportionment for the necessary changes in the map or plan of the City, including the changes required in the lines of streets and also of grades, and deal with the matter as a whole rather than to make terms and conditions for the change of line, which will subsequently require changes in the map or plan of the City.

It will then be possible for the Board of Estimate and Apportionment to enter into an agreement with the company, which will cover all of the changes, proposed to be made in exactly the same manner as in the case of the New York, New Haven and Hartford Railroad Company, and its lessee the Harlem River and Port Chester Railroad Company.

I would therefore advise you that the railroad company be requested to confer with the President of the Borough of The Bronx, and prepare a map or plan showing the changes in lines of streets and grades proposed to be submitted to the Board of Estimate and Apportionment.

Respectfully,

HARRY P. NICHOLS, Assistant Engineer.

CITY OF NEW YORK,
DEPARTMENT OF FINANCE—COMPTROLLER'S OFFICE,
February 24, 1905.

Hon. EDWARD M. GROUT, Comptroller:

SIR—Supplementing my report of January 31, 1905, upon the proposed change of route of the Spuyten Duyvil and Port Morris Railroad Company, now under consideration by the Board of Estimate and Apportionment, I would state:

At a meeting of the Board held February 17 there was presented by the railroad company a tentative map showing the proposed changes in the lines and grades of the several streets necessitated by the change of route, with a memorandum from the Principal Assistant Topographical Engineer of the Borough of The Bronx, stating that a new map showing dimensions and grades, in accordance with tentative map, was in preparation for adoption. The Board thereupon passed the following resolutions:

"Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by changing the location and grades of certain streets necessitated by the change of line of the Spuyten Duyvil and Port Morris Railroad, in the Borough of The Bronx, City of New York, more particularly shown upon map and profile on file in the office of the Assistant Secretary of the Board of Estimate and Apportionment, dated February 9, 1905.

"Resolved, That this Board consider the proposed change at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on the 3d day of March, 1905, at 10.30 o'clock A. M.

"Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the CITY RECORD for ten days continuously, Sundays and legal holidays excepted, prior to the 3d day of March, 1905."

More changes are now proposed than noted in my former report, to wit:

1st. A new drainage street, 30 feet in width, is to be laid out between Johnson avenue and the Spuyten Duyvil road, to take the place of the present street shown on the map.

2d. The line of the unopened and unnamed street lying north of the existing railroad line is to be altered so as to run along the northerly boundary line of the proposed route of the railroad until it connects with Spuyten Duyvil road.

3d. A new street, 50 feet in width, is proposed to be laid out immediately to the east of the present passenger station, connecting the unnamed street previously mentioned and the Spuyten Duyvil parkway.

4th. The lines of Spuyten Duyvil parkway immediately north of the station are to be changed slightly, necessitating the acquisition by the City of a triangular strip about 180 feet long and 20 feet wide at the westerly end on the northerly side of the present Spuyten Duyvil parkway (legally opened), and the closing and sale of a similar sized strip of the present street to the railroad company.

If Spuyten Duyvil parkway is to be considered as a street or highway, the sale can be made pursuant to section 205 of the Charter, but if the same is considered as a park, I am of the opinion that the City cannot dispose of any part of it.

The terms which the City should in my opinion exact from the Spuyten Duyvil and Port Morris Railroad Company for the City's consent to the change of route as proposed and the changing of the lines and grades of the streets, necessitated by such change of route are as follows:

I.—The railroad company shall pay to The City of New York annually for a period of twenty-five years the sum of \$1,000 for the privilege of crossing Johnson avenue, and the north and south branches of Spuyten Duyvil road, which sum is an equivalent to the charge of \$1 per linear foot of single track per annum within the lines of said streets, it being understood that a four-track road is to be built. Such payments to be made annually in advance to the Comptroller and to commence from the date of the acceptance of the agreement by the Board of Estimate and Apportionment. At the end of such period and each succeeding 25 years, the Board of Estimate and Apportionment shall fix the annual sum to be paid for the ensuing 25 years, which sum shall not be less than that previously fixed.

II.—The railroad company shall convey to the City on or before July 1, 1905, for the sum of \$1 the following parcels of land:

(a) That necessary for the proposed 50-foot street, which is located immediately east of the company's passenger station; and

(b) That necessary for the proposed widening of the Spuyten Duyvil parkway immediately to the north of the passenger station.

III.—That the railroad company shall construct and maintain at its own expense the necessary suitable structure to support a roadway over its tracks, where the same cross the north and south branches of the Spuyten Duyvil road. Plans for such structure to be approved by the Board of Estimate and Apportionment.

IV.—The railroad company shall construct, at its own expense, a retaining wall along the northerly boundary line of its present right of way and of its proposed right of way, between the passenger station on the west and the westerly branch of the Spuyten Duyvil road on the east. Such retaining wall shall be constructed on the property of the company and shall be carried to a height equal to the proposed grade of the unnamed street lying to the north of said right of way. The said work to be completed on or before July 1, 1906.

V.—The railroad company shall regulate and grade both the east and west branches of the Spuyten Duyvil road, so as to bring the said streets to the now established width and grade, for a distance of 400 feet on either side of said crossings, there making easy approach to the existing roads. Said work to be completed before the commencement and operation of the railroad upon the new route as proposed.

VI.—The railroad company will indemnify the City against any legal liability for damages, if any shall accrue, to lands, tenements and hereditaments abutting on any of the streets, the grade of which shall have been raised at the request of the railroad company, and as a consequence of such change of grade.

VII.—The railroad company shall assume all liability by reason of the construction and operation of the railroad and shall save the City harmless from any liability whatsoever to either persons or property by reason of its construction or operation.

VIII.—The railroad shall indemnify the City against and pay all damages for which the City may be held liable, by reason of the changes in the street system hereby made on account of the change of route of the railway.

IX.—Any alterations which may be required to the sewerage or drainage system, or to any subsurface structures, pipes, etc., laid in the streets on account of the construction or operation of the railroad, shall be made at the sole cost of the railroad company, and in such manner as the proper City officials may prescribe.

X.—That all work within, upon or over the public streets and avenues shall be subject to the supervision and inspection of the proper municipal officer or officers and under such regulations and conditions as he or they may determine and be authorized by law to impose.

XI.—The work of the construction of the road upon the new route shall commence within six months from the date of the agreement and shall be completed within two years, otherwise the consent of the City shall be void, and any bond given for the faithful performance of the work and the conditions of this agreement shall be forfeited.

XII.—The railroad company shall furnish a bond of a guarantee or surety company, duly authorized by law to act as surety, conditioned for the faithful performance of all the terms and conditions of this agreement in the sum of twenty-five thousand dollars (\$25,000) at the time of the signing of this agreement.

I would suggest that the Board of Estimate and Apportionment take tentative action on the proposed terms, and that the Corporation Counsel be then requested to prepare a form of agreement containing the conditions so determined upon, the agreement to be in substantially the same form as the agreement heretofore made between the Board of Estimate and Apportionment and the New York, New Haven and Hartford Railroad Company on December 21, 1904.

The railroad company should then cause the agreement to be executed and present the same to the Board of Estimate and Apportionment for acceptance on the day when said Board shall take action on the change in the street system.

Respectfully,

HARRY P. NICHOLS, Assistant Engineer.

STREET SYSTEM EAST OF BRONX RIVER.

In the matter of the proposed modification of the street system east of the Bronx river, in the territory bounded by Bear Swamp road, Bronx and Pelham parkway, Eastchester road and the Harlem and Port Chester Division of the New York, New Haven and Hartford Railroad, in the Borough of The Bronx, affidavit of publication was presented, showing that the matter had been duly advertised.

Nobody appearing in opposition to the proposed changes, the following resolution was adopted:

Whereas, At a meeting of this Board, held on the 3d day of February, 1905, resolutions were adopted proposing to change the map or plan of The City of New York so as to amend and modify the street system east of the Bronx river, within the area bounded by Bear Swamp road, Bronx and Pelham parkway, Eastchester road and the Harlem River and Port Chester Division of the New York, New Haven and Hartford Railroad, in the Borough of The Bronx, City of New York, and appointing a hearing at a meeting of this Board to be held on the 3d day of March, 1905, at 10.30 o'clock A. M., at which meeting such proposed action would be considered by this Board, and requesting a notice to all persons affected thereby, of the aforesaid time and place at which such proposed action would be considered, to be published in the CITY RECORD for ten days prior to the 3d day of March, 1905; and

Whereas, It appears from the affidavit of the Supervisor of the City Record that the aforesaid resolutions and notice have been published in the CITY RECORD for ten days prior to the 3d day of March, 1905; and

CLOSING BRADLEY AVENUE, QUEENS.

In the matter of the proposed closing of Bradley avenue, between Howard street and Review avenue, in the Borough of Queens, affidavit of publication was presented showing that the matter had been duly advertised.

The following communications were placed on file:

BOROUGH OF QUEENS, LONG ISLAND CITY, March 1, 1905.

To his Honor the Mayor, and the Members of City Government of The City of New York:

GENTLEMEN—The undersigned property owners and business men in the Blissville District, do recommend to your Honorable Board the closing of Bradley avenue, and the immediate opening, grading and making of Review avenue into a good public street.

HUGH HART, No. 150 Pearsall Street, Long Island City,
And 14 others.

BOROUGH OF QUEENS, N. Y., February 28, 1905.

To his Honor the Mayor, and the Members of the City Government of New York City:

GENTLEMEN—We, the undersigned, representing a large manufacturing and trucking business in this vicinity, do recommend the closing of Bradley avenue, and the immediate opening, grading and the making of Review avenue into a good public street.

GENERAL CHEMICAL COMPANY,
A. E. Rising, Superintendent,
And 6 others.

NEW YORK, March 1, 1905.

To Board of Trustees:

DEAR SIRS—Your letter received, and will say that I am very much in favor of opening of Review avenue, and also will be at the meeting on Friday next, and also can use my name as favoring the improvement.

Very respectfully,

F. HOFENER,
Corner River Avenue and Laurel Hill, Long Island.

THE UNITED CIVIC ASSOCIATIONS OF THE BOROUGH OF QUEENS,
NEW YORK CITY.
LONG ISLAND CITY, January 24, 1905.

To the Board of Estimate and Apportionment:

GENTLEMEN—Herewith is transmitted a resolution opposing the closing of Bradley avenue, First Ward, Borough of Queens.

Respectfully,

J. L. E. SCHUELER, Secretary.

Resolution.

Whereas, A certain resolution passed by the Taxpayers' Association of Long Island City on January 17, 1905, in the matter of closing Bradley avenue, reading as follows:

"Whereas, The Trustees of St. Patrick's Cathedral, representing the owners of Calvary Cemetery, did in September, 1904, petition the Board of Estimate and Apportionment to close Bradley avenue, from Howard street to Penny Bridge, in the Borough of Queens; and

"Whereas, The said petition was referred to the Local Board of the Newtown District for action; and

"Whereas, At a public hearing held by said Board at the Borough Hall, Long Island City, on January 11, 1905, said petition was approved by said Board, with a recommendation for the approval by the Board of Estimate and Apportionment, in the face of strenuous opposition on the part of the taxpayers and civic associations; and

"Whereas, Bradley avenue has been a public thoroughfare for more than a hundred years, and is the shortest and most convenient route of travel, via Penny Bridge, between the Borough of Brooklyn and all parts of Long Island City, and is in a direct line with the approach to Blackwell's Island Bridge; and

"Whereas, Bradley avenue was until within recent years kept in good repair throughout its entire length and extensively used as a highway of intercommunication between the points mentioned, one-half of which has since become impassable through the neglect of the local authorities to maintain said highway, and in failing to prevent, until a recent date, the Calvary Cemetery Corporation from unwarrantedly diverting the surface drainage from their cemetery grounds directly on to the roadbed of the said highway leading to Penny Bridge, thereby causing washouts and pitfalls, endangering the life of man and beast, and completing the destruction of this part of the highway, through the vandalism practiced by employees of the said Calvary Cemetery Corporation, and others, by making the roadway a dumping ground for cemetery refuse, all of which has been perpetrated despite the repeated protests of the taxpayers and citizens; the other half of Greenpoint avenue end is to-day in good order, but is used for trucking or wagon traffic exclusively by persons having business with the Calvary Cemetery Corporation—the whole matter, considered in all its bearings, must appear to a casual observer like a conspiracy to defraud the taxpayers and citizens of a valuable highway which they have owned and used for more than a century; and

"Whereas, The proposition to open, regulate and grade Review avenue, adjoining the cemetery property, which it is intended shall be a substitute highway for that section of Bradley avenue which is to be closed, will in no wise meet the requirements of present or future demands, Review avenue running parallel with and close to the Long Island Railroad tracks and Newtown creek, and being lined with a large number of manufacturing plants, such as Standard Oil refineries, fertilizer factories, chemical works, automobile works, etc., the traffic and trucking from which alone demands the immediate opening and improving of said Review avenue its full length; the said avenue, when so opened and improved, will not satisfactorily accommodate the mixed traffic of two highways; and

"Whereas, There is reason to believe that the Pennsylvania Railroad Company, as successor to the South Side Railroad Company, has a franchise to construct and operate a steam railway through and over Review avenue, which in itself would prohibit the closing of any avenue running parallel to the said Review avenue; and

"Whereas, The Calvary Cemetery Corporation, through its representative, Mr. J. D. Crimmins, at the hearing before the Local Board of the Newtown District, Borough of Queens, on January 11, 1905, did offer to grade Review avenue, between Penny Bridge and Howard street, at their own expense, which it is estimated would not cost more than a few thousand dollars, if the taxpayers, through their representatives, would allow them to close Bradley avenue, between Penny Bridge and Howard street, and allow said corporation to use said street so closed for burial purposes, particularly for the erection of vaults thereon, the acceptance of which would mean in substance the exchange of a public highway, which would be worth millions of dollars to the Calvary Cemetery Corporation, for the paltry outlay above set forth, not to mention the pecuniary benefits accruing to the said corporation through the enormously increased value of their adjoining property, at present separated from their main cemetery only by Bradley avenue; and

"Whereas, There exist grave doubts as to the Calvary Cemetery Corporation's legal right to extend the boundaries of their cemetery and using the adjoining lands for burial purposes; and

"Whereas, The taxpayers and citizens have previously, through similar tactics on the part of said corporation, lost that part of Bowery Bay road between Penny Bridge and Borden avenue; and

"Whereas, Repeated efforts have been made during the past thirty years by the said corporation to close Bradley avenue, as above mentioned, which have failed through the opposition of taxpayers and citizens generally, and specifically through the refusal of the then City officials to sanction the surrender of long established public rights; therefore be it

"Resolved, That we, the Taxpayers' Association of Long Island City, do hereby earnestly protest against the granting of the petition of the Calvary Cemetery Corporation to close Bradley avenue, and also against the approval of the recommendation of the Local Board of the Newtown District, Borough of Queens, with reference thereto; and be it further

"Resolved, That, in our opinion, the Comptroller of The City of New York should investigate the status of the Calvary Cemetery Corporation with reference to its legal right to use lands bounded by Bradley avenue, Review avenue and Howard street for burial purposes, and the exemption of said lands from taxation."

And Whereas, Said association has, under a separate resolution requested the United Civic Association to indorse above resolution; therefore be it

Resolved, That we, the United Civic Associations of the Borough of Queens, do hereby approve and indorse the resolution of the said Taxpayers' Association of Long Island City, as above set forth, and hereby instruct and direct the Committee on City Affairs of this association to appear before the Board of Estimate and Apportionment to protest against the granting of the petition of the Trustees of St. Patrick's Cathedral to close Bradley avenue, as set forth in above resolution, and also against the approval of the action and recommendation of the Local Board of Newtown District, Borough of Queens, with reference thereto.

Adopted at a regular meeting of the United Civic Associations, held this 20th day of January, 1905.

Attest, a true copy:

J. L. E. SCHUELER, Secretary.

Resolution.

Whereas, The Citizens' Public Improvement Association of the First Ward, Borough of Queens, at its October meeting, passed a resolution opposing the proposed closing of Bradley avenue; and

Whereas, The Local Board of Newtown District, did on January 11, 1905, approve a petition of the Trustees of St. Patrick's Cathedral to close Bradley avenue, between Penny Bridge and Howard street, First Ward, Borough of Queens, and did initiate proceedings to close Bradley avenue between the points mentioned, with recommendation to the Board of Estimate and Apportionment for its approval; now therefore be it

Resolved, That we, the Citizens' Public Improvement Association, do earnestly protest against the action and recommendation of the Local Board as above set forth; and be it further

Resolved, That a copy of this resolution be forwarded to the Board of Estimate and Apportionment.

Adopted at a regular meeting held this 1st day of February, 1905.

LAYING OUT ALDEN PLACE, THE BRONX.

The matter of laying out Alden place, from Webster avenue to Park avenue, in the Borough of The Bronx, which was laid over on February 17, was taken up, and was again laid over.

OPENING GRAND STREET, BROOKLYN.

On motion of the President of the Borough of Brooklyn, the following resolution was adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 970 of the Greater New York Charter, deems it for the public interest that the title to the lands and premises required for the opening and extending of Grand street, from Hooper street to Havemeyer and South Fourth streets, in the Borough of Brooklyn, City of New York, should be acquired by The City of New York.

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to a Special Term of the Supreme Court for the appointment of Commissioners of Estimate and Assessment, and to take the necessary proceedings, in the name of The City of New York, to acquire title, wherever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending Grand street, from Hooper street to Havemeyer and South Fourth streets, in the Borough of Brooklyn, City of New York.

Resolved, That the cost and expense of said proceedings shall be borne and paid by The City of New York.

Resolved, That nothing in this resolution contained shall be construed as preventing the Comptroller of The City of New York from entering into contracts for the acquisition of any portion of the above described property at private sale, subject to the approval of this Board.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx and the President of the Borough of Richmond—15.

WIDENING ROEBLING STREET, BROOKLYN.

On motion of the President of the Borough of Brooklyn, the following resolutions were adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 970 of the Greater New York Charter, deems it for the public interest that the title to the lands and premises required for the widening of Roebbling street 20 feet on its westerly side, from the Bridge Plaza at South Fourth street, to Union avenue, in the Borough of Brooklyn, City of New York, should be acquired by The City of New York.

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to a Special Term of the Supreme Court for the appointment of Commissioners of Estimate and Assessment, and to take the necessary proceedings, in the name of The City of New York, to acquire title, wherever the same has not heretofore been

acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of widening Roebling street 20 feet on its westerly side, from the Bridge Plaza at South Fourth street, to Union avenue, in the Borough of Brooklyn, City of New York.

Resolved, That the cost and expense of said proceedings, shall be borne and paid by The City of New York.

Resolved, That nothing in this resolution contained shall be construed as preventing the Comptroller of The City of New York from entering into contracts for the acquisition of any portion of the above described property at private sale, subject to the approval of this Board.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx and the President of the Borough of Richmond—15.

EXTENDING ROEBLING STREET, BROOKLYN.

On motion of the President of the Borough of Brooklyn, the following resolutions were adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 970 of the Greater New York Charter, deems it for the public interest that the title to the lands and premises required for the widening and extending of Roebling street, from South Eighth street to Lee avenue, in the Borough of Brooklyn, City of New York, should be acquired by The City of New York.

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to a Special Term of the Supreme Court for the appointment of Commissioners of Estimate and Assessment, and to take the necessary proceedings in the name of The City of New York, to acquire title, wherever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of widening and extending of Roebling street, from South Eighth street to Lee avenue, in the Borough of Brooklyn, City of New York.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx and the President of the Borough of Richmond—15.

OPENING MONTROSE AVENUE, BROOKLYN.

On motion of the President of the Borough of Brooklyn, the following resolutions were adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 970 of the Greater New York Charter, deems it for the public interest that the title to the lands and premises required for the opening and extending of Montrose avenue, from Union avenue to Broadway, in the Borough of Brooklyn, City of New York, should be acquired by The City of New York.

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to a Special Term of the Supreme Court for the appointment of Commissioners of Estimate and Assessment, and to take the necessary proceedings in the name of The City of New York, to acquire title, wherever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending Montrose avenue, from Union avenue to Broadway, in the Borough of Brooklyn, City of New York.

Resolved, That the cost and expense of said proceedings shall be borne and paid by The City of New York.

Resolved, That nothing in this resolution contained shall be construed as preventing the Comptroller of The City of New York from entering into contracts for the acquisition of any portion of the above-described property at private sale, subject to the approval of this Board.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx and the President of the Borough of Richmond—15.

EXTENDING BEDFORD AVENUE, BROOKLYN.

A committee from the Eastern District Citizens' Association appeared and asked to be heard in opposition to the extension of Bedford avenue.

After hearing Dr. Castellane, Mr. Campbell and others, the matter was laid over.

The following communications were placed on file:

To the Honorable, the Board of Estimate and Apportionment:

GENTLEMEN—We, the undersigned business men, taxpayers and citizens of the Eastern District of the Borough of Brooklyn, do hereby enter our protest against the extension of Bedford avenue, as proposed, from Heyward street to the plaza of the Williamsburg Bridge.

First—Because it will destroy the finest residence section of the Eastern District.

Second—Because it will permanently remove over eight hundred thousand dollars' worth of taxable property.

Third—Because the reason designed, viz., the easy access from the Williamsburg Bridge to a boulevard extending to the ocean, will be better accomplished by a further extension of Roebling street (the widening of which already has your approval) through to Bedford avenue.

Therefore we consider the proposed expenditure unnecessary, undesirable and a waste of public funds.

We, therefore, most earnestly petition your Board to reconsider its action of approval of aforesaid extension.

J. V. MESEROLE (and others).

To the Honorable, the Board of Estimate and Apportionment:

GENTLEMEN—The Eastern District Citizens' Association, a civic non-partisan body concerned in the welfare of the Eastern District of Brooklyn and interested in public affairs, begs leave to present to your Honorable Board the following enumeration of reasons against the proposed extension of Bedford avenue:

On February 10, 1905, the Board of Estimate and Apportionment approved a resolution authorizing the extension of Bedford avenue, from the point of its intersection with Heyward street to the southeast corner of the Plaza of the Williamsburg Bridge (at the intersection of Broadway and Havemeyer street).

We most respectfully but earnestly and urgently petition your Board to reconsider such action of approval, and if in your opinion a route from Bedford avenue to the

roadways of the Williamsburg Bridge more direct than that afforded through Taylor street via the widened Roebling street is necessary, we ask you to adopt the substitute or alternative plan of the extension of Roebling street, from Lee avenue to Bedford avenue, in lieu of the aforesaid Bedford avenue extension.

The reasons for thus petitioning your Board are:

I. There exists no public demand for the extension as proposed.

II. Public sentiment of the Eastern District is strongly, distinctly and definitely opposed to the Bedford, Heyward and Plaza extension.

III. This extension will spoliage the finest residence section of the Eastern District of Brooklyn.

IV. There are no existing traffic conditions that make such an extension necessary.

V. This extension will fail to provide a convenient boulevard for vehicular traffic by reason of the congestion already existing at the point of the intersection of the proposed extension and Broadway at Havemeyer street, and from the fact that the roadways of the bridge cannot be reached except by a double turn, one into Broadway and another from Broadway to that part of the Bridge Plaza not completely occupied by the cars of those transportation companies having contracts with the Bridge Department.

VI. Direct access to the Williamsburg Bridge can be better provided by the Plaza-Bedford avenue extension via a widened Roebling street, at a very much less expense, with a far less destruction of property, and the same result attained, to the satisfaction of the residents, citizens and business men of the Eastern District, and with greater comfort and safety to those desiring to use such an approach, and therefore the proposed expenditure is unnecessary and entails an unwarranted burden upon the taxpayer.

Investigation has failed to disclose any public demand for the straightening of Bedford avenue.

There is, apparently, only the desire of your Board to provide an approach to the bridge. This desire, we believe, can be fully met by the alternative plan submitted.

While we recognize the principle that public sentiment must at times be sacrificed for the public good, yet so strong and universal a sentiment of opposition as that which exists to this proposed extension requires more than a passing statement of artistic reason or general benefit.

It demands proof of existing conditions requiring, necessitating the sacrifice of a community and the destruction of more than nine hundred thousand dollars' worth of property where the result can be otherwise accomplished.

The phrase "for the public good" is euphemistic and does not constitute a reason unless it be shown that there exists a public necessity or that the so-called improvement will serve as a public utility.

The petition submitted herewith and made a part of this protest contains the names of the most prominent men of our community, the indorsement and names of the official boards of the several churches.

It has the support of the clubs, partisan and non-partisan. Its origin is in the strong conviction in the minds of men thoroughly alive to public welfare as well as to private interest, that the purpose intended can be as well if not better served by another plan involving much less expenditure and little sacrifice.

No stronger memorial could be submitted to you than this petition, representing the wealth, brains, energy and industry of our community, and we ask you to pay heed to it.

The locality to be bisected by the Heyward-Plaza extension is the residence place of the east end of the Borough of Brooklyn. Accessible to all parts of New York and Long Island, it offers advantages second to none in the borough, and you propose to tear it down for what? Not for a boulevard, for a boulevard always exists; not to beautify the City, for an avenue of back yards, gore lots and gable ends cannot be attractive. It need not be for a road to and from Manhattan, for this can be provided either through Taylor street to the proposed widened Roebling street, or through the widened Roebling street continued from Lee avenue to the present Bedford avenue.

Objection to the route through Taylor street from the widened Roebling street could, in our estimation, be met by a slight curve cutting through Block 2178, as indicated on the map, into Lee avenue, thence directly through Taylor street to its intersection with Bedford avenue through the corner of Block 2177.

Those who have watched the traffic on the Williamsburg Bridge roadways have not been able to observe any concentration of that traffic in any special direction. While there may exist a preponderance of movement in one direction, it is never sufficient to suggest a congestion; therefore there is no urgent necessity for a special outlet, while the conveniences will be well served in the manner herein suggested.

The only advantage that can be truly claimed for the proposed extension is its directness. But the fact that the actual distance between the terminus of the bridge and Heyward street by this route and by the Roebling street and Bedford avenue route, presented by us, is about the same, that it will require a double turn to reach the entrance to the Boulevard, that one will be compelled to traverse that part of Broadway at which most of the trolley lines are diverted to the Plaza; that the centre to the entrance to the Boulevard will be occupied by elevated railroad pillars; that the Boulevard will cross at an acute angle the tracks of both the Nostrand and Tompkins avenue lines of cars; while Bedford avenue, as at present constituted, has no intersecting car tracks until Flushing avenue is reached; added to the large expenditure, and the destruction of a large amount of taxable property, wholly outweigh the single advantage of directness.

The plaza opposite Havemeyer street is an impossible roadway. Covered by track loops, with constantly passing cars, trolley and electric light poles, sign posts, "shanties," and the foundation for an elevated structure with projecting bolts, that plaza is a proposition which no sane driver or automobilist would attempt.

Opposite the part of the bridge plaza, where most drivers going uptown enter Broadway, is Roebling street. When widened it will be directly accessible. This widening of Roebling street will be undertaken to Lee avenue, whether Bedford avenue is or is not straightened. Therefore no additional expenditure is involved by the plan which we submit to your Board, and alternative plan, until Lee avenue is reached.

We believe that no additional expense is required, since Taylor street, even as now constituted, opposite the Lee avenue extremity of the widened Roebling street, would afford easy access to Bedford avenue. But if, in the opinion of your Board, a route in a direct line is necessary or desirable, we would suggest that Roebling street, from its intersection with Division avenue, be extended in a direct line to Bedford avenue at Rose street, in accordance with the maps and plans herewith submitted.

The assessed valuation of the property involved would be about 250,000 dollars, while the cost for grading and paving would not exceed 50,000 dollars.

The advantages of this plan are the comparatively small destruction of taxable property, the very much decreased expenditure, the preservation of our residence district, the practically unimpeded bridge approach, easy entrance to a splendid avenue, and its ready construction. No reasonable purpose designed by the Bedford-Heyward plaza extension cannot be as well or better served by the plan that we present, and if you would heed the protests of men of all shades of political belief, of all creeds, of all interests, of the citizens and taxpayers of our Eastern District, you will reconsider your early action, thoroughly investigate the needs of the situation as they are, let us keep our homes and our neighborhood intact, and, if you must have a direct approach, we feel assured you will adopt the alternative plan.

Respectfully, submitted,

THE EASTERN DISTRICT CITIZENS' ASSOCIATION,

John S. McKeon, President.

PARK AT HAMILTON AND MARKET STREETS,

The following communication was referred to the Committee on Small Parks for the Borough of Manhattan:

THE COMMITTEE ON THE PREVENTION OF TUBERCULOSIS OF THE CHARITY ORGANIZATION SOCIETY OF THE CITY OF NEW YORK,
February 3, 1905.

Hon. GEORGE B. McCLELLAN, Mayor of The City of New York, City Hall, New York City:

MY DEAR SIR—As the year just closed has shown an increased death rate from tuberculosis in this City and a greater number of deaths from this disease than in

any year since 1894, it seems important to this Committee that at once renewed efforts of a preventive nature should be made along lines which medical science and experience have demonstrated to be effective in eradicating this preventable disease.

The work of the Department of Health and of the Tenement House Department and other systematic effort have been of value no doubt in preventing a still wider increase of tuberculosis, but it is evident that so long as overcrowding in certain sections of this City continues and increases, and so long as buildings known to be infected with tuberculosis are permitted to be occupied, just so long will the effort and the money spent by this City and by private citizens fail to accomplish commensurate results. The present excellent Tenement House Law can have little effect upon the worst features of many of the old unsanitary tenements in this City. It has still less effect upon the tremendous overcrowding.

To meet these conditions parks must be established at accessible points in the tenement house sections, both as breathing places and playgrounds and as a means of ridding the City of the present fruitful sources for the spread of tuberculosis.

We desire now to bring to your attention not only the general need for small parks, but the particular fitness of establishing a park at Hamilton, Cherry, Catharine and Market streets, a project which has long been advocated and which a former Board of Estimate and Apportionment stated that it refused to approve because of its unwillingness to embarrass your administration with an expenditure not planned by you.

Mr. Robert W. de Forest, as Tenement House Commissioner, on September 29, 1903, addressed a letter to the Board of Estimate and Apportionment advocating the park site in question in the following terms:

"Board of Estimate and Apportionment, No. 280 Broadway, City:

"GENTLEMEN—I am advised that the Board of Estimate and Apportionment now has under consideration a plan for the establishment of a park and playground in the neighborhood of Hamilton, Monroe, Catharine and Market streets.

"There can be no question but that a park and playground is urgently needed in this district. The congestion of population is each year increasing in a greater degree in this part of the City, and the necessity for breathing places is very great.

The district in question is located in the Seventh Ward and touches upon the southerly-most boundary of this ward, thus affecting the Fourth Ward.

In order that you may better realize the necessity for more open space in this district I would call your attention to the fact that in the district between the proposed site and the nearest park in the Seventh Ward, namely, Corlears Hook Park, there is a population of 70,079 human beings, and in the other direction, between the proposed site and the nearest park to the south, namely, City Hall Park, there is a population of 19,649 human beings, while in the other direction, toward the north, between the site of the proposed park and Seward Park, the nearest park to the north, there is a population of 46,175 persons.

The necessity for a park in this district, which will be of use to the residents of the Fourth and Seventh Wards, is obvious. The only question to determine, therefore, is which is the most desirable site. In establishing such a park it is important that certain matters should be given careful consideration; in the first place, the park should be of sufficient size to serve the purpose for which it is intended. It has been thus far, I am informed, the practice of the City in establishing small parks in tenement districts to condemn at least two City blocks for such purpose. In the W. H. Seward Park three City blocks were condemned; in the Hamilton Fish Park two City blocks; in the Thomas Jefferson Park three City blocks; in the East River Park five City blocks; in the Corlears Hook Park three City blocks; in the Tompkins Square Park three City blocks.

It would seem important, therefore, in establishing this much-needed park in this district to make it of ample size, and certainly not less than one ordinary City block. The site which has thus far been discussed, namely, the block bounded by Hamilton, Monroe, Catharine and Market streets, is only about half the area of the ordinary City block and does not seem of sufficient size.

The adjoining block to the east, namely, that bounded by Hamilton, Cherry, Catharine and Market streets, is, in the opinion of the Tenement House Department, much better fitted for a park site in this district for reasons that will be hereafter stated.

The establishing of small parks in tenement districts in this City has always gone hand in hand with the demolition of unsanitary slums. The reason for the creation of Mulberry Bend Park was to destroy the notorious Mulberry Bend, which only a few years ago was the haunt of criminals and thieves, and a source of grave sanitary evils.

For similar reasons the Seward Park and the Hamilton Fish Park were established, the latter site having been largely chosen for the purpose of destroying Bone alley a notorious and disreputable slum. For similar reasons the site of the Thomas Jefferson Park in Little Italy was chosen.

The policy of the City in this regard seems to me a wise one and most judicious as distinguished from the European policy of having the municipality build model tenements, New York having elected rather to destroy slums and create small parks in their place.

In selecting the site, therefore, for this proposed park, great consideration should be given to this particular point. It is for this reason that I appear before the Board of Estimate and Apportionment to urge on behalf of the Tenement House Department, and therefore one-half of the City, that the site of the proposed park in this district be the block bounded by Hamilton, Catharine, Cherry and Market streets.

I know of no tenement house block in this City which is so bad from a sanitary point of view, from a moral point of view, or from a criminal point of view. Every consideration of public health, morals and decency require that the buildings on this block be destroyed at an early date. Many of the houses in the block are permanently infected with the germs of tubercular disease. Certain of these houses, namely, those at Nos. 140, 142 and 144 Cherry street, have had in the past five years as many as twenty-two cases of pulmonary tuberculosis in each house as far as the records of the Board of Health go. It is probable that the actual number of cases of tuberculosis in each house is double this amount, as it is well known that only half the cases are reported to the Department of Health.

These facts, I understand, will be fully presented by other persons who are interested in securing a park in the neighborhood and who will explain the dangers to the community of this hot-bed of tubercular disease.

The Tenement House Department has been contemplating now for some time a scheme looking toward the demolition and condemnation of those particular houses. In view, however, of the decision of the Court in the Dassori case, it is very probable that the Department would not be able to do more than have the buildings in question permanently vacated and no longer used as tenement houses.

This, however, does not satisfy the conditions. I understand that several of these houses are permanently infected with the germs of tubercular disease, and that the only remedy and method of preventing the further spread of this disease from these houses is the destruction of the buildings.

This block is occupied in large part by abandoned women, criminal, vicious and disreputable people. Unfortunately there are also many honest, decent and industrious working people whose poverty compels them to live in these houses.

Nearly one entire side of Hamilton street, which is known in the neighborhood as the "Gap," is occupied by people of the former kind.

The records of the Police Department will undoubtedly show an unusual number of arrests of persons claiming residence in this block.

In my judgment public health and morals require the destruction of these tenement houses at an early date. The easiest way in which to accomplish this is by the establishment of a small park, which is greatly needed in this district.

It should be borne in mind that the population of even the Fourth Ward, which is on the boundary lines touching the business districts at many points, is steadily on the increase, notwithstanding the popular impression to the contrary.

In this connection it is not inappropriate to call attention to the fact that the death rate in the Fourth Ward in 1896 was 36.31, being 15 points higher, or more than half as much again, as the general death rate of the City (21.52), while the death rate of children under five years was 123.5. That is, the death rate in this particular ward was the highest of any ward in the City in 1896, and, next to the Fourteenth Ward, had the highest infant death rate. (The 1896 figures are used because these are the latest accurate figures on population, being based on the Police census of 1895.)

The death rate in the particular block in question, which I have suggested as the site of the proposed park, was, in 1897, 37.5 per thousand, while the City death rate was 21.52.

The proposed site is within two blocks of five different public schools—a most important consideration.

The new cases of tuberculosis reported from this block to the Board of Health since January 1 of this year are 34, while there have been 58 cases of contagious disease other than tuberculosis reported.

The Tenement House Department has issued 197 orders or violations against the block.

If there is any doubt in the minds of the members of the Board of Estimate and Apportionment as to the necessity for a park in this section, and as to the desirability of the destruction of the particular block to which I have called attention, I would suggest that they personally inspect the district and the particular block.

(Signed) ROBERT W. DE FOREST, Tenement House Commissioner.

We will add but a word. In 1904 there were 28 cases of tuberculosis reported in this block, making a total of reported cases since 1894 of 291.

Respectfully yours,

PAUL KENNADAY, Secretary.

CLOSING BRIDGE STREET, BROOKLYN.

The following petition was presented, and the matter was referred to the Chief Engineer:

To the Board of Estimate and Apportionment of The City of New York:

The petition of Jay street terminal respectfully shows:

Your petitioner is the owner of all the land abutting Bridge street, on either side thereof, north of John street. Bridge street ends at the northerly line of Marshall street, and your petitioner owns the land north of Bridge street, between the northerly line of Marshall street and the East river. Bridge street, north of John street, is a cul de sac, and is not used excepting for access and egress to and from the lands of your petitioner. Marshall street, although it appears upon various maps of the City of Brooklyn, has never been opened or used. It has twice been decided that this is not a public street, and it is now, and for some years past has been, actually physically closed. The title to the land at the foot of Bridge street, between the northerly side of Bridge street and East river, has been examined by the Corporation Counsel of The City of New York, and in his opinion to the President of the Borough of Brooklyn has stated as his opinion that the title to these lands is not in The City of New York, but in private parties. The lands were granted to the predecessors in title of the petitioner over half a century ago, and have been occupied by your petitioner and such predecessors for upwards of half a century. That opinion was delivered in the course of an application to close Bridge street commenced by your petitioner by petition to the Local Board of the Heights District of Brooklyn. To all of the papers in the proceedings there had the petitioner begs leave to refer.

In that proceeding the Downtown Taxpayers' Association, composed of residents of this locality, appeared and presented a resolution adopted by them November 14, 1904, approving the granting of the application, and there was presented to the Board the petition of a great number of manufacturers and merchants likewise favoring the application. Your petitioner has constructed a railroad terminal at this point, and its purpose is to devote its lands on either side of Bridge street to the purposes of this terminal, and to lay its tracks upon such lands to connect them by tracks over lands which are now part of Bridge street. This railroad terminal will give to the manufacturers and merchants of this part of Brooklyn great advantages and economies, all of which is established by the petitions and statements of merchants and manufacturers. Although your petitioner has appeared several times before the Local Board, and the vote has been urged, your petitioner has never been able to bring the matter to a vote in the Local Board.

Your petitioner offers to pay to The City of New York the value of the easement, or other right, title and interest in the bed of the street which The City of New York has.

Wherefore, your petitioner prays the Board of Estimate and Apportionment of The City of New York to close Bridge street, between the northerly line of John street and the lands of your petitioner at the northerly line of said Marshall street (so-called).

All of which is respectfully submitted.

Dated BROOKLYN, N. Y., February 14, 1905.

JAY STREET TERMINAL, by William A. Jamison.

PARK AT PROSPECT HEIGHTS, WASHINGTON AVENUE AND GRAND AVENUE, BROOKLYN.

The following report from the Finance Department was presented:

CITY OF NEW YORK,
DEPARTMENT OF FINANCE—COMPTROLLER'S OFFICE,
January 24, 1905.

Hon. EDWARD M. GROUT, Comptroller:

STR—The Assistant Secretary of the Board of Estimate and Apportionment (Public Improvements) transmitted to this office a resolution adopted by the Local Board of the Prospect Heights District, in the Borough of Brooklyn, June 30, 1904, together with a report of Chief Engineer Lewis, of the Board of Estimate and Apportionment, in the matter of the laying out of a small public park on a triangular plot of ground bounded by Prospect Heights, Washington avenue and Grand avenue, in the Borough of Brooklyn. The Chief Engineer in his report states that the area affected by the resolution is larger than would be required for a public place, and would undoubtedly lend itself either to treatment as a small park or playground or as a site for a small public building.

As to a site for a small public building, the only one that the City would be liable to erect upon this site is a police station or a Fire Department house. A police station now occupies premises on Grand avenue, directly across the street from this property. As to a site for Fire Department purposes, should it ever be required, a smaller site more suitable as to size could be acquired at a much less figure than this property would cost.

As to a location for a playground, the lands surrounding the reservoir are within five blocks of this property, and are much better adapted for playground purposes than the one under discussion. As to a small park, the same thing applies as applied to the playground. The acquisition of the ground, the removal of the buildings thereon, and putting the property in shape for park purposes, would cost a great deal of money. The continual maintenance thereof would cost the City at least \$1,500 per annum, and I am compelled to disagree with the Local Board that the laying out of a park or playground is, under present conditions, a necessity in this neighborhood.

The same Local Board laid out a park bounded by Eastern parkway, Classon avenue and Washington avenue, about five blocks further south, fronting the Institute. This small park should and undoubtedly will be acquired for the benefit of the Brooklyn Institute, and under the conditions I would respectfully recommend that the Board of Estimate and Apportionment refuse to take action on the laying out and the acquisition of the property described in the resolution adopted by the Local Board of the Prospect Heights District on the 30th day of June, 1904, bounded by Prospect place, Washington avenue and Grand avenue, in the Borough of Brooklyn.

Respectfully submitted for approval,

MORTIMER J. BROWN,
Appraiser of Real Estate in Charge of Bureau.

Approved:

EDWARD M. GROUT, Comptroller.

The following resolutions were then presented:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442, of the Greater New York Charter as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York, by laying out as a public park the property bounded by Prospect place, Washington avenue and Grand avenue, in the Borough of Brooklyn, City of New York.

Resolved, That this Board consider the proposed change at a meeting of the Board to be held in the City Hall, Borough of Manhattan, City of New York, on the 31st day of March, 1905, at 10.30 o'clock A. M.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the CITY RECORD and the corporation newspapers for ten days continuously, Sundays and legal holidays excepted, prior to the 31st day of March, 1905.

The resolutions were lost by the following vote:

Affirmative—None.

Negative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan and the President of the Borough of Brooklyn—13.

APPROACH TO BRIDGE OVER PROSPECT AVENUE AT SEELEY STREET, BROOKLYN.

The following report from the Finance Department was presented:

CITY OF NEW YORK,
DEPARTMENT OF FINANCE—COMPTROLLER'S OFFICE,
January 27, 1905.

Hon. EDWARD M. GROUT, Comptroller:

SIR—The Local Board for the Flatbush District in the Borough of Brooklyn on the 23d day of November, 1904, adopted the following resolution:

"To acquire title to the lands lying on the east and west sides of Prospect avenue, in the Borough of Brooklyn, known as Lot No. 1, Block 66, and Lots Nos. 3 and 6, Block 65, Twenty-ninth Ward Map, in accordance with the change of the map or plan of The City of New York, approved by the Board of Estimate and Apportionment June 17, 1904, and signed by the Mayor June 28, 1904."

—which said resolution was presented to the Board of Estimate and Apportionment on November 26, 1904.

Under date of December 1, 1904, in a communication addressed to the Chairman of the Board of Estimate and Apportionment, Chief Engineer Nelson P. Lewis, of the Board, recommends that the entire expense of the proceedings be borne and paid for by The City of New York, although when it was first proposed to lay out these approaches some of the petitioners expressed their willingness to pay a proportion of the expense, feeling that it would be a corresponding benefit to the surrounding property, and at a meeting of the Local Board of the Flatbush District on the 18th day of January, 1905, the following resolution was adopted:

"Recommending to the Board of Estimate and Apportionment that it assume, on behalf of The City of New York, the entire cost and expense of the proceedings initiated by this Local Board on November 23, 1904, to acquire title to the property lying on the east and west sides of Prospect avenue, known as Lot No. 1, Block 66, and Lots Nos. 3 and 6, Block 65, Twenty-ninth Ward Map, in accordance with the change in the map or plan of The City of New York, approved by the Board of Estimate and Apportionment June 17, 1904, and signed by the Mayor June 28, 1904."

The property which will have to be acquired for making this improvement is Lot No. 1, in Block 66, and Lots Nos. 3 and 6, in Block 65, in the Twenty-ninth Ward of the Borough of Brooklyn. Lot No. 1, in Block 66, is assessed in the name of Frederick Olmsted, for the purpose of taxation for the year 1904, at \$1,500; Lot No. 3, in Block 65, in the name of James Kerns, for \$1,100; and Lot No. 6, unknown owner, at \$100; and are shown on the diagram which is annexed hereto, forming part of this report.

Mr. Finnigan is the owner, I understand, of one of the parcels, and represents the estate of Mr. Olmsted, the owner of the other parcel. I note in Mr. Finnigan's communication under date of January 23 that:

"The property can now be purchased by the City for the sum of \$10,000, free and clear from all claim for damages, liens or incumbrances."

In my opinion the full market value of the property does not exceed \$3,000, and unless the City can acquire the property at that price I would respectfully recommend that action be taken by the Board of Estimate and Apportionment looking to the acquisition of the property by condemnation proceedings.

Respectfully submitted for approval,

MORTIMER J. BROWN,
Appraiser of Real Estate in Charge of Bureau.

Approved:

EDWARD M. GROUT, Comptroller.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 970 of the Greater New York Charter, deems it for the public interest that the title to the lands and premises required for the opening and extending of an approach to the bridge over Prospect avenue, on the line of Seeley street, in the Borough of Brooklyn, City of New York, should be acquired by The City of New York.

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to a Special Term of the Supreme Court, for the appointment of Commissioners of Estimate and Assessment, and to take the necessary proceedings, in the name of The City of New York, to acquire title, wherever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending an approach to the bridge over Prospect avenue, on the line of Seeley street, in the Borough of Brooklyn, City of New York.

Resolved, That the entire cost and expense of said proceeding shall be borne and paid by The City of New York.

Resolved, That nothing in this resolution contained shall be construed as preventing the Comptroller of The City of New York from entering into contracts for the acquisition of any portion of the hereinbefore described property at private sale, subject to the approval of this Board.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

VESTING TITLE TO LAND FOR BRIDGE OVER FLUSHING CREEK, BROOKLYN.

The following communication from the Commissioner of Bridges and report of the Chief Engineer were presented:

DEPARTMENT OF BRIDGES, CITY OF NEW YORK,
Nos. 13 TO 21 PARK ROW, MANHATTAN, N. Y.,
February 8, 1905.

To the Honorable, the Board of Estimate and Apportionment:

GENTLEMEN—It is desirable that title to the following-described property, required for the construction of a bridge "over Flushing creek, between Jackson avenue, in the former town of Newtown, and Broadway, in the former town of Flushing, in the Borough of Queens, The City of New York," vest in The City of New York at as early a date as possible:

Parcel "A."

Beginning at the intersection of the bulkhead line and the northerly line of Jackson avenue; thence one hundred and twenty-six feet (126') along said northerly line of Jackson avenue; thence northerly thirteen and twenty-eight-hundredths feet (13.28'); thence westerly one hundred and seventy feet (170') and thirty-five and thirteen-hundredths feet (35.13') along the northerly line of Jackson avenue; thence easterly three hundred and twenty-seven and fourteen-hundredths feet (327.14') to the bulkhead line; thence southerly along said bulkhead line thirty-four and sixteen-hundredths feet (34.16') to the point of beginning.

Parcel "B."

Beginning at a point in the southerly line of Jackson avenue distant forty-two and twenty-hundredths feet (42.20') westerly from the bulkhead line; thence northerly thirty-seven-hundredths feet (0.37'); thence westerly twenty-eight and ten-hundredths feet (28.10'); thence southerly two and eighty-hundredths feet (2.80'); thence easterly twenty-eight and twenty-hundredths feet (28.20') to the point of beginning.

Parcel "C."

Beginning at the intersection of the northerly line of Broadway and the bulkhead line; thence easterly one hundred and one and thirty-hundredths feet (101.30), thirty-one and fifteen-hundredths feet (31.15), and forty-eight and forty-eight-hundredths feet (48.48) along said northerly line of Broadway to the westerly line of Lawrence street; thence northerly fifteen and seven-hundredths feet (15.07) along the westerly line of Lawrence street; thence westwardly two hundred and three and nineteen-hundredths feet (203.19) to the bulkhead line; thence southeasterly twenty-five and three-hundredths feet (25.03), and southerly forty-four and seventy-hundredths feet (44.70) along said bulkhead line to the point of beginning, as shown on a map entitled "Map of Property Required for the Construction of Flushing Bridge."

The oaths of office of the Commissioners of Estimate and Appraisal, appointed by the Supreme Court January 16, 1905, in the condemnation proceedings for the acquisition of said property, were filed January 31, 1905, and I therefore request that your Honorable Board adopt a resolution that title to said property shall vest in The City of New York two months from the date thereof.

Respectfully yours,

GEORGE E. BEST, Commissioner of Bridges.

The following resolution was then adopted:

Whereas, The Board of Estimate and Apportionment did, heretofore and on the 26th day of February, 1904, adopt a resolution approving the selection of the lands hereinafter described, in the Borough of Queens, required for the construction of a bridge "Over Flushing creek between Jackson avenue, in the former town of Newtown, and Broadway, in the former town of Flushing, in the Borough of Queens. The City of New York," and authorized the Corporation Counsel to institute condemnation proceedings for the acquisition of the following described property, in the Borough of Queens, in The City of New York, bounded as follows:

Parcel "A."

Beginning at the intersection of the bulkhead line and the northerly line of Jackson avenue; thence 126 feet along said northerly line of Jackson avenue; thence northerly 13.28 feet; thence westerly 170 feet and 35.13 feet along the northerly line of Jackson avenue; thence easterly 327.14 feet to the bulkhead line; thence southerly along said bulkhead line 34.16 feet to the point of beginning.

Parcel "B."

Beginning at a point in the southerly line of Jackson avenue distant 42.20 feet westerly from the bulkhead line; thence northerly 0.37 feet; thence westerly 28.10 feet; thence southerly 2.80 feet; thence easterly 28.20 feet to the point of beginning.

Parcel "C."

Beginning at the intersection of the northerly line of Broadway and the bulkhead line; thence easterly 101.30 feet, 31.15 feet and 48.48 feet along said northerly line of Broadway to the westerly line of Lawrence street; thence northerly 15.07 feet along the westerly line of Lawrence street; thence westwardly 203.19 feet to the bulkhead line; thence southeasterly 25.03 feet and southerly 44.70 feet along said bulkhead line to the point of beginning, as shown on a map entitled "Map of Property Required for the Construction of Flushing Bridge," and

Whereas, By an order of the Supreme Court entered in the office of the Clerk of the County of Queens on the 16th day of January, 1905, Commissioners of Estimate and Appraisal were appointed in proceedings brought to acquire the premises above referred to; and

Whereas, The oaths of said Commissioners were filed in the office of the Clerk of the County of Queens on the 31st day of January, 1905;

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest that the title to the lands and premises above referred to, and all interest therein, should be acquired by The City of New York at a fixed or specified time, does hereby direct that on the 6th day of May, 1905, the title to the said lands and premises and all interest therein, shall vest in The City of New York, except where the same have been acquired by purchase.

REPORT No. 2643.

FEBRUARY 27, 1905.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—There is submitted herewith a communication dated January 28, 1905, from Mr. Worthington Whitehouse, petitioning the Board of Estimate and Apportionment to pass resolutions providing that title should immediately be vested in the City to the land lying within the lines of West One Hundred and Sixty-third and West One Hundred and Sixty-fourth streets, between Broadway and Fort Washington avenue, Borough of Manhattan.

This action is asked for the reason that Mr. Whitehouse has petitioned the Local Board of the Washington Heights District, asking them to initiate proceedings to regulate and grade both of these streets, and that action on his petition has been deferred and he has been advised to request the Board of Estimate and Apportionment to provide for the vesting of title to these streets before the initiation of such proceedings.

On February 7, 1905, the Local Board of the Washington Heights District adopted two resolutions recommending, respectively, that the Board vest title in West One Hundred and Sixty-third and West One Hundred and Sixty-fourth streets, between Broadway and Fort Washington avenue. To comply with the petition of Mr. Whitehouse and with the recommendations of the Local Board would be inconsistent with the policy which your Board has heretofore followed—namely, that title should not be taken to any street until it is actually necessary to do so in order to enable the President of the Borough to enter upon the street for the purpose of carrying out improvements already authorized. There is nothing to prevent the Local Board from initiating a proceeding for regulating and grading these two streets and transmitting their resolution to the Board of Estimate and Apportionment. It will be promptly reported by your Engineer, and at the same time the necessary recommendations will be made for the vesting of title to both streets on such date as it may be reasonably expected that the Borough President will be prepared to enter upon the property for the purpose of carrying out the improvements. There seems no reason why the interest charges on the awards which may be made should begin before occupancy of the street is necessary.

It is recommended, therefore, that action upon this resolution be deferred until proceedings for the physical improvement of the streets shall have been initiated.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

WIDENING THE EXTENSION OF DELANCEY STREET, MANHATTAN.

The following report of the Chief Engineer was presented:

REPORT No. 2640.

FEBRUARY 25, 1905.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—At the meeting of the Board of Estimate and Apportionment held on February 24, 1905, the President of the Borough of Manhattan submitted a resolution adopted by the Local Board of the Bowery District on February 21, 1905, recommending to the Board of Estimate and Apportionment that its action in laying out an 80-foot street between Broome and Spring streets and extending from the Bowery to Elm street be rescinded, and that instead of this street there be laid out a street 150 feet in width, as shown by a plan submitted with the resolution. The resolution and plan were referred to your Engineer for report.

The present extension of Delancey street west of the Bowery at a width of 80 feet was adopted by the former Board of Estimate and Apportionment on May 29, 1903, and the plans have been filed in the offices of record required by the Charter. On February 17, 1905, the Board of Estimate and Apportionment authorized proceedings to acquire title to the land required for this street. The new plan submitted by the President of the Borough shows a street 150 feet in width so laid out that its centre would be practically coincident with the centre of the 80-foot street at the westerly side of the Bowery, and its southerly side would be coincident with the southerly side of the 80-foot street at the easterly side of Elm street, the result of the change being to add to the southerly side of the present 80-foot street a triangle, having a width of 35 feet at the westerly side of the Bowery and running to 0 at the easterly side of Elm street; while on the northerly side of the present 80-foot street there would be added a strip having a width of 35 feet at the westerly side of the Bowery and a width of 70 feet at the easterly side of Elm street. It is proposed to take the remainder of the triangle at the intersection of Marion and Elm streets as in the present plan. The result of this change would be to provide a continuous street 150 feet in width, leading from Elm street to the Williamsburg Bridge, with a deflection at the Bowery. As to the necessity for this increase in width it is difficult to make a statement until it shall have been determined where the elevated and surface railroads crossing the Williamsburg Bridge are to have their termini. If these railroads are to stop at the end of the bridge it is doubtful if even the widened Delancey street will ever be of sufficient value to justify the expense of its creation. If they are to stop at the Bowery it is probable that the extension of Delancey street west of the Bowery at a width of 80 feet will be ample to accommodate the vehicular traffic. If, however, these railroads are to be carried across the Bowery to Elm street in order that they may afford convenient access to the station of the Rapid Transit Railroad at Spring street and come as near to Broadway as possible, and especially if these railroads, either as elevated or surface lines or in subway, are to be extended southwardly, the additional width now proposed for this extension of Delancey street would probably be wise. In advance of a solution of these transit problems it is difficult, if not impossible, to form a satisfactory opinion as to the merits of the change provided for in this resolution. If the Williamsburg Bridge is to be considered as an objective point in the crosstown travel we have now a street beginning at Elm street and running a little over four blocks at a width of 80 feet until it intersects the Bowery, which is about 112 feet in width, then widening to 150 feet to accommodate the additional traffic brought to it by the Bowery, and extending for ten blocks, when it again widens to 200 feet within one short block of the bridge. This is probably a logical gradation of dimensions for a street which is to gather up traffic from both sides and convey it to the bridge. If, however, Delancey street is to be considered simply as an extension of the highway for vehicles and railroads, of which the Williamsburg Bridge forms a part, and that extension is to be carried to Elm street, where the railroads would have their termini, or would deflect southwardly to the Brooklyn Bridge, it might be wise to give this great highway a uniform width of 150 feet. In this case, however, it would add dignity to the street if it were extended across the Bowery in an absolutely straight line to its intersection with Elm street. This would destroy the building on the northerly side of Broome street, between Elm and Marion streets, a building which it was sought to leave intact in the location of the 80-foot street, but I believe that in case the Board should conclude to carry the 150-foot street all the way through to Elm street, it would be advisable to throw out this deflection at the Bowery and make the street perfectly straight for its entire length, notwithstanding the increase in cost which would follow the taking of the building above referred to.

I have carefully gone over the assessments for 1904 on both land and buildings which would be taken in whole or in part by the extension of Delancey street at a width of 150 feet, as proposed by the Borough President. Where portions of lots have been taken I have allowed the entire assessed value of the buildings and a liberal proportion of that of the lots, and I find that the assessed value of the land needed is \$1,237,600. I have also applied the same values to the property which would be required for the 80-foot street as now laid out, and find that in this case the assessed value of the land taken in whole or in part would be \$702,600. Should the street be extended across the Bowery without deflection and carried to Elm street at a width of 150 feet, the assessed value of the property required would be \$1,504,100.

In my opinion, a satisfactory and intelligent conclusion as to the dimensions of this street cannot be reached until the transportation problem, as it relates to the surface and elevated railroads crossing the Williamsburg Bridge, shall have been finally determined.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by laying out an extension of Delancey street, one hundred and fifty feet in width, extending from the Bowery to Elm street, in place of the eighty-foot street now laid out, in the Borough of Manhattan, City of New York, in accordance with a map or plan submitted by the President of the Borough of Manhattan, dated February 23, 1905.

Resolved, That this Board consider the proposed change at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on the 31st day of March, 1905, at 10.30 o'clock A. M.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the CITY RECORD for ten days continuously, Sundays and legal holidays excepted, prior to the 31st day of March, 1905.

REPORT No. 2638.

FEBRUARY 23, 1905.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Washington Heights District, Borough of Manhattan, adopted on January 31, 1905, recommending a change in the map or plan of The City of New York by laying out West One Hundred and Seventy-seventh street, between Amsterdam avenue and Avenue St. Nicholas.

The proposed street will have a width of 60 feet and will be a continuation of the lines of West One Hundred and Seventy-seventh street, as laid out last year west of St. Nicholas avenue. The street crosses land occupied by the New York Juvenile Asylum, several buildings of which fall within its lines. I am advised that the institution is to remove to a point outside the City limits, and that its land has been sold.

The proposed change appears to be a proper one, and its approval is recommended after a public hearing.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York, by laying out West One Hundred and Seventy-seventh street, between Amsterdam avenue and Avenue St. Nicholas, in the Borough of Manhattan, City of New York, more particularly described as follows:

Beginning at a point in the westerly line of Amsterdam avenue distant 189.84 feet southerly from the southerly line of West One Hundred and Seventy-eighth street; thence westerly and parallel to West One Hundred and Seventy-eighth street, distance 370 feet to the easterly line of Audubon avenue; thence southerly along the easterly line of Audubon avenue, distance 60 feet; thence easterly and parallel to the first course, distance 370 feet to the westerly line of Amsterdam avenue; thence northerly along the westerly line of Amsterdam avenue, distance 60 feet to the point of beginning.

Beginning at a point in the westerly line of Audubon avenue distant 189.84 feet southerly from the southerly line of West One Hundred and Seventy-eighth street; thence westerly and parallel to West One Hundred and Seventy-eighth street, distance 350 feet to the easterly line of St. Nicholas avenue; thence southerly along the easterly line of St. Nicholas avenue, distance 60 feet; thence easterly and parallel to the first course, distance 350 feet to the westerly line of Audubon avenue; thence northerly along the westerly line of Audubon avenue, distance 60 feet to the point or place of beginning.

The land to be acquired is found in Section 8, Blocks 2132 and 2133 of the Land Map of the Borough of Manhattan, City of New York.

Resolved, That this Board consider the proposed change at a meeting of the Board to be held in the City Hall, Borough of Manhattan, City of New York, on the 31st day of March, 1905, at 10.30 o'clock A. M.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the CITY RECORD for ten days continuously, Sundays and legal holidays excepted, prior to the 31st day of March, 1905.

In the Local Board of the Bay Ridge District.

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Brooklyn; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is Resolved, by the Local Board of the Bay Ridge District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That the Local Board of the Bay Ridge District, Borough of Brooklyn, after hearing had this 25th day of February, 1903, deeming it for the public interest so to do, hereby recommends to the Board of Estimate and Apportionment that the proceedings be initiated to alter the map or plan of The City of New York by locating and laying out Jerome avenue (Voorhies lane), from the Manhattan Beach Railroad to East Twenty-fourth street, in the Thirty-first Ward, in the Borough of Brooklyn, as shown on the accompanying map, and more particularly described as follows:

A.

The southern line of Jerome avenue (Voorhies lane) to be 1 foot north of the northwest corner of the building now standing at the southeast corner of the avenue, or right of way, now known as Jerome avenue, and the land of the New York and Manhattan Beach Railroad Company.

1. Thence to extend easterly in a straight line to Ocean avenue, so as to clear all buildings now standing on the southerly side of the said Jerome avenue.

2. Thence to extend easterly and to clear all buildings to the eastern line of East Twenty-fourth street.

B.

The northern line of Jerome avenue (Voorhies lane) to be parallel to and 50 feet northerly of the southern line.

And it is hereby further

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

REPORT NO. 2414.

NOVEMBER 14, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution adopted by the Local Board of the Bay Ridge District, Borough of Brooklyn, on February 25, 1903. It is one of the resolutions which were returned to the President of the Borough of Brooklyn early in the present year, and was by him resubmitted without comment.

The resolution provides for the laying out of Jerome avenue, between the lines of the Manhattan Beach Railroad and Avenue Z, in the Thirty-first Ward of the Borough of Brooklyn. The resolution as originally adopted contained what was intended to be a technical description of the street which it was proposed to lay out. This description, however, was so vague as to be almost meaningless, and the borough authorities have prepared a new and accurate description which will definitely locate the street.

The avenue will be only 50 feet in width, but inasmuch as the local needs are not extensive, and as a greater width would involve the partial destruction of a number of buildings, I believe that it is proper to place upon the map a street of the dimensions suggested.

It is recommended, therefore, that the plan be approved after the public hearing required by the Charter.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by locating and laying out Jerome avenue, from the Manhattan Beach Railroad to East Twenty-fourth street, in the Borough of Brooklyn, City of New York, more particularly described as follows:

I.—Jerome Avenue Westerly of Ocean Avenue.

The southern line of Jerome avenue to begin at a point in the western line of Ocean avenue 586.65 feet northerly of the northern line of Voorhies avenue as the same are laid down on the map of the City.

1. Thence westerly in a straight line through a point in the western line of East Seventeenth street distant 434.92 feet northerly of the northern line of said Voorhies avenue to the land of the Long Island Railroad.

The northern line of Jerome avenue is 50 feet distant from and parallel to the southern line aforesaid from Ocean avenue to the land of the Long Island Railroad.

II.—Jerome Avenue Easterly of Ocean Avenue.

The southern line of Jerome avenue to begin at a point in the eastern line of Ocean avenue distant 600.98 feet northerly of the northern line of Voorhies avenue as the same are laid down on the map of the City.

1. Thence easterly in a straight line to the southern line of Avenue Z in such manner that the prolongation of this line of Jerome avenue easterly will intersect

the northern prolongation of the western line of East Twenty-fourth street at a distance of 789.83 feet northerly of the northern line of said Voorhies avenue.

The northern line of Jerome avenue is 50 feet distant from and parallel to the southern line aforesaid from Ocean avenue to East Twenty-fourth street.

Resolved, That this Board consider the proposed change at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on the 31st day of March, 1905, at 10.30 o'clock A. M.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the CITY RECORD and the corporation newspapers for ten days continuously, Sundays and legal holidays excepted, prior to the 31st day of March, 1905.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

LAYING OUT WATERLOO PLACE, THE BRONX.

The following resolution of the Local Board of Morrisania, Borough of The Bronx, and report of the Chief Engineer were presented:

In the Local Board of Morrisania, Twenty-fourth District, Borough of The Bronx.

Whereas, A petition for a local improvement described below has been received by the President of the Borough of The Bronx; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board, at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same, and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of Morrisania, Twenty-fourth District, Borough of The Bronx, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

For laying out on the map of The City of New York Waterloo place, from East One Hundred and Seventy-fifth street to East One Hundred and Seventy-sixth street, in accordance with existing lines, in the Borough of The Bronx, City of New York.

And it is hereby further

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Adopted by the Local Board of Morrisania, Twenty-fourth District, on the 8th day of December, 1904.

Alderman Dougherty, Alderman Murphy, Alderman Stumpf, Alderman Morris and the President of the Borough of The Bronx voting in favor thereof.

Attest:

Henry A. Gumbleton,

Secretary to Local Board of Morrisania, Twenty-fourth District.

Approved and certified this 12th day of December, 1904.

LOUIS F. HAFFEN,
President of the Borough of The Bronx.

REPORT NO. 2630.

FEBRUARY 20, 1905.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Morrisania District, Borough of The Bronx, adopted on December 8, 1904, recommending a change in the map or plan of The City of New York by laying out Waterloo place, between East One Hundred and Seventy-fifth and East One Hundred and Seventy-sixth streets.

The block which it is proposed to subdivide by this street has a length of about 800 feet and a width ranging from about 270 to about 385 feet. From information accompanying the resolution it appears that this street was laid out upon a property map filed in 1885, but it was not recognized on the final maps of the borough. The width originally proposed of 50 feet is to be retained. The street is in use, and about ten houses have been erected upon the abutting property.

I believe that the change proposed is a proper one, and would recommend the approval of the resolution after a public hearing.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by laying out Waterloo place, from East One Hundred and Seventy-fifth street to East One Hundred and Seventy-sixth street, in the Borough of The Bronx, City of New York, more particularly described as follows:

I.—Locating and Laying Out.

Waterloo place is to be laid out from East One Hundred and Seventy-fifth street to East One Hundred and Seventy-sixth street, on the same lines as shown on the property map entitled "Map of certain property of Sarah S. S. Sturges, in the Twenty-fourth Ward, City of New York, filed in the Register's office, New York City, November 25, 1885," and has a width of fifty (50) feet.

II.—Grades.

1. The grade at the intersection of Waterloo place and East One Hundred and Seventy-fifth street to be the same as heretofore.

2. The grade at a point fifty (50) feet northerly of the intersection of the west curb line of Waterloo place and the north curb line of East One Hundred and Seventy-fifth street to be 101.7 feet above mean high-water datum.

3. The grade at a point 200 feet northerly of the intersection of the west curb line of Waterloo place and the north curb line of East One Hundred and Seventy-fifth street to be 98.0 feet above mean high-water datum.

4. The grade at the intersection of Waterloo place and East One Hundred and Seventy-sixth street to be 85.5 feet above mean high-water datum.

Resolved, That this Board consider the proposed change at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on the 31st day of March, 1905, at 10.30 o'clock A. M.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the CITY

RECORD for ten days continuously, Sundays and legal holidays excepted, prior to the 31st day of March, 1905.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

CHANGE OF GRADES IN TERRITORY BOUNDED BY BORDEN, REVIEW AND RAPALJE AVENUES, HOWARD STREET, DUTCH KILLS CANAL, LONG ISLAND RAILROAD AND CITY LINE, QUEENS.

The following resolution of the Local Board of Newtown, Borough of Queens, and report of the Chief Engineer were presented:

Whereas, At a meeting of the Newtown Local Board of Improvements of the Borough of Queens held on January 11, 1905, the Topographical Engineer submitted a map showing change of grades of streets within the territory bounded by Borden avenue, Howard street, Review avenue, Dutch Kills canal, Rapelje avenue, the Long Island Railroad and the Long Island City boundary line, prepared in accordance with section 442 of the Laws of 1901, as amended; and

Whereas, The Newtown Local Board of Improvements of the Borough of Queens, deeming it for the best interests of the City that said change of grades as proposed be made; therefore be it

Resolved, That recommendation be and hereby is made to the Board of Estimate and Apportionment of The City of New York that proceedings be initiated to change the map or plan of The City of New York by changing the grades of the streets within the territory bounded by Borden avenue, Howard street, Review avenue, Dutch Kills canal, Rapelje avenue, the Long Island Railroad and the Long Island City boundary line, in the First Ward of the Borough of Queens; and be it further

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Aldermen Koch and McCarthy, and Joseph Cassidy, President of the Borough of Queens, voting in favor thereof.

This is to certify that the above is a true copy of a resolution as adopted by the Newtown Local Board of Improvements of the Borough of Queens at its meeting held on January 11, 1905.

GEO. S. JERVIS, Secretary, Newtown Local Board.

REPORT No. 2633.

FEBRUARY 20, 1905.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Newtown District, Borough of Queens, adopted on January 11, 1905, recommending a change in the map or plan of The City of New York by changing the grades of streets within the territory bounded by Borden avenue, Howard street, Review avenue, Dutch Kills canal, Rapelje avenue, the Long Island Railroad and the boundary line of Long Island City.

This change affects a very large territory lying within the limits of what was formerly Long Island City, and includes approximately three-quarters of the section lying to the east of Jackson avenue. The grades which have been heretofore fixed for this section were laid out by the Long Island City Improvement Commission under the Laws of 1871, and I am advised that they were so designed as to secure the filling of the low ground within the section by excavating material from the higher sections. The development of the area has not progressed as originally anticipated, and a large portion of the low ground has been filled by material from outside sources, the same having been used as a general dumping place. The conditions which the established grades were designed to meet have, therefore, ceased to exist, and in the report of the Topographical Engineer of the Borough which accompanies the resolution it is stated that the expense of grading the streets, if the present grade chart is adhered to, "would practically confiscate all of the property." To remedy this condition a resolution was adopted by the Board of Public Improvements in 1901, establishing new grades for the territory, but the same failed to secure the approval of the Municipal Assembly.

In 1902 a request was made by the President of the Borough for the adoption of a revised grade map, but the request was not accompanied by sufficient information to permit of action on the application. An examination of the map herewith submitted shows that the cut required for grading the street to the grades now established ranges up to about 50 feet as a maximum, while the grades proposed conform much more closely with the existing surface, the maximum cut being about 38 feet.

It is possible that further amendments will be found necessary when the improvement of streets within this area is begun, but it is my belief that the present map meets the needs in at least a general way, and its approval after a public hearing is recommended.

On September 16, 1904, a hearing was given in the matter of changing the grade of Hulst street, between Greenpoint avenue and the Long Island Railroad, which street is within the limits of the change now proposed. No action was taken upon the change, and since it is included in the map now submitted, I would recommend that the resolution be disapproved.

Respectfully,
NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by changing the grades of the streets within the territory bounded by Borden avenue, Howard street, Review avenue, Dutch Kills canal, Rapelje avenue, Long Island Railroad and the Long Island City boundary line, in the Borough of Queens, City of New York, in accordance with a map or plan submitted by the President of the Borough of Queens, dated October 17, 1904.

Resolved, That this Board consider the proposed change at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on the 31st day of March, 1905, at 10.30 o'clock A. M.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the CITY RECORD for ten days continuously, Sundays and legal holidays excepted, prior to the 31st day of March, 1905.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

OPENING WOLCOTT STREET, BROOKLYN.

The following resolution of the Local Board of Red Hook, Borough of Brooklyn, and report of the Chief Engineer were presented:

In the Local Board of the Red Hook District.

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Brooklyn; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is Resolved, by the Local Board of the Red Hook District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That the Local Board of the Red Hook District, Borough of Brooklyn, after hearing had this 7th day of December, 1903, deeming it for the public interest so to do, hereby determines to initiate proceedings to open Wolcott street, between Dwight street and Otsego street, in the Borough of Brooklyn.

And it is hereby further

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Adopted by the Local Board of the Red Hook District on the 7th day of December, 1903.

Commissioner Redfield and Aldermen Kenney and Gillen voting in favor thereof.

Commissioner of Public Works and
Acting President of the Borough of Brooklyn.

REPORT No. 2378.

OCTOBER 6, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Red Hook District, Borough of Brooklyn, adopted on December 7, 1903, initiating proceedings for opening Wolcott street, between Dwight and Otsego streets.

Wolcott street as now laid out has its easterly terminal at Otsego street, but title to the block between Otsego and Dwight streets has never been acquired, although the sewer has been constructed in the same. After this street has been opened, an almost continuous thoroughfare will be established across Otsego street easterly into Loraine street. At the present time a narrow, unshaped roadway is in use on the line of this street, and the abutting property is unimproved. The street is laid out on the map of the City to have a width of 60 feet.

The approval of this resolution is recommended, the cost of the proceeding to be assessed upon the property benefited.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 970 of the Greater New York Charter, deems it for the public interest that the title to the lands and premises required for the opening and extending of Wolcott street, between Dwight street and Otsego street, in the Borough of Brooklyn, City of New York, should be acquired by The City of New York.

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to a Special Term of the Supreme Court for the appointment of Commissioners of Estimate and Assessment, and to take the necessary proceedings, in the name of The City of New York, to acquire title, wherever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending Wolcott street, between Dwight street and Otsego street, in the Borough of Brooklyn, City of New York.

Resolved, That the cost and expense of said proceedings shall be assessed upon the property deemed to be benefited thereby.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

OPENING FORTY-FIRST STREET, BROOKLYN.

The following resolution of the Local Board of Bay Ridge, Borough of Brooklyn, and report of the Chief Engineer were presented:

In the Local Board of the Bay Ridge District.

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Brooklyn; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board, at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same, and give a full hearing thereon; now therefore it is Resolved, by the Local Board of the Bay Ridge District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

To open Forty-first (41st) street, from New Utrecht avenue, in the Borough of Brooklyn, to the old City line of Brooklyn.

And it is hereby further

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Adopted by the Local Board of the Bay Ridge District on the 28th day of December, 1904.

Commissioner Brackenridge and Aldermen Malone and Lundy voting in favor thereof.

Attest:

John A. Heffernan, Secretary.

Approved this 19th day of January, 1905.

MARTIN W. LITTLETON,
President of the Borough of Brooklyn.

REPORT No. 2636.

FEBRUARY 23, 1905.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Bay Ridge District, Borough of Brooklyn, adopted on December 28, 1904, initiating proceedings for acquiring title to Forty-first street, between New Utrecht avenue and the old City line.

This resolution affects about a block and a half of Forty-first street, which has been laid out upon the map of the City to have a width of 60 feet. Title to the portion west of the old City line has already been acquired. This proceeding has evidently been instituted as being necessary prior to the laying of a sewer, a resolution for which has been adopted by the Local Board. Through the block between New Utrecht and Eighth avenues a narrow wagon trail is in use, but there is insufficient evidence to show any dedication. Through the remaining half block the roadway is in use and several houses have been erected upon the abutting property.

The approval of the resolution is recommended, the cost of the proceeding to be assessed upon the property benefited.

There are no buildings upon the land to be acquired.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 970 of the Greater New York Charter, deems it for the public interest that the title to the lands and premises required for the opening and extending of Forty-first street, from New Utrecht avenue to the old City line, in the Borough of Brooklyn, City of New York, should be acquired by The City of New York.

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to a Special Term of the Supreme Court for the appointment of Commissioners of Estimate and Assessment, and to take the necessary proceedings, in the name of The City of New York, to acquire title, wherever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending Forty-first street, from New Utrecht avenue to the old City line, in the Borough of Brooklyn, City of New York.

Resolved, That the cost and expense of said proceedings shall be assessed upon the property deemed to be benefited thereby.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

OPENING OAK STREET, BROOKLYN.

The following resolution of the Local Board of Williamsburg, Borough of Brooklyn, and report of the Chief Engineer were presented:

In the Local Board of the Williamsburg District.

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Brooklyn; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice, and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, By the Local Board of the Williamsburg District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, that the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit: To acquire title to Oak street, as widened, on the south side immediately adjoining Guernsey street, in the Borough of Brooklyn, as shown on the accompanying map, and more particularly described as follows:

1. Beginning at a point in the western line of Guernsey street distant 108 feet from the intersection of the northern line of Calyer street with the western line of Guernsey street, as the same are laid down on the map of the City;

2. Thence northerly along the western line of Guernsey street 17 feet to the southern line of Oak street as legally opened;

3. Thence westerly along the southern line of Oak street 97.23 feet to an angle point in the southern line of Oak street;

4. Thence easterly in the eastern prolongation of the southern line of Oak street westerly of this angle point 60.44 feet;

5. Thence easterly and parallel with Calyer street 39.23 feet to the point of beginning.

And it is hereby further

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Adopted by the Local Board of the Williamsburg District on the 22d day of September, 1904.

Commissioner Brackenridge and Alderman Brenner voting in favor thereof.

Attest:

John A. Heffernan, Secretary.

Approved this 10th day of October, 1904.

MARTIN W. LITTLETON,
President of the Borough of Brooklyn.

REPORT No. 2418.

NOVEMBER 14, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Williamsburg District, Borough of Brooklyn, adopted on September 22, 1904, initiating proceedings for acquiring title to Oak street, as widened on the south side, immediately adjoining Guernsey street.

On September 16, 1903, a resolution was approved by the Board of Estimate and Apportionment providing for widening Oak street at its intersection with Guernsey street, from a width of about 43 feet to 60 feet, the widening affecting a length of about 100 feet of the street, and thereby securing a uniform width of 60 feet throughout the block. The resolution now presented naturally follows the action already taken by the Board, and its approval is recommended, the cost of the proceeding to be assessed upon the property benefited.

An old frame dwelling is located on the land to be acquired.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 970 of the Greater New York Charter, deems it for the public interest that the title to the lands and premises required for the widening of Oak street on the south side immediately adjoining Guernsey street, in the Borough of Brooklyn, City of New York, should be acquired by The City of New York.

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to a Special Term of the Supreme Court for the appointment of Commissioners of Estimate and Assessment, and to take the necessary proceedings, in the name of The City of New York, to acquire title, wherever the same has not heretofore been acquired for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of widening Oak street on the south side immediately adjoining Guernsey street, in the Borough of Brooklyn, City of New York.

Resolved, That the cost and expense of said proceedings shall be assessed upon the property deemed to be benefited thereby.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

OPENING RAILROAD AVENUE, THE BRONX.

The following resolution of the Local Board of Chester, Borough of The Bronx, and report of the Chief Engineer were presented:

In the Local Board of Chester, Twenty-fifth District, Borough of The Bronx.

Whereas, A petition for a local improvement described below has been received by the President of the Borough of The Bronx; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of Chester, Twenty-fifth District, Borough of The Bronx, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

For acquiring title to the lands necessary for Railroad avenue, between the Unionport road and Glebe avenue, in the Borough of The Bronx, City of New York.

And it is hereby further

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Adopted by the Local Board of Chester, Twenty-fifth District, on the 27th day of October, 1904.

Alderman Gass and the President of the Borough of The Bronx voting in favor thereof.

Negative—None.

President of the Borough of The Bronx.

REPORT No. 2626.

FEBRUARY 16, 1905.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Chester District, Borough of The Bronx, adopted on October 27, 1904, initiating proceedings for acquiring title to Railroad avenue, between Unionport road and Glebe avenue.

This street, between the limits named in the resolution was laid out upon the map of the City on December 23, 1904. The street, as laid out, has a length of five blocks. The width provided through the four westerly blocks, the same comprising the portion between Unionport road and Castlehill avenue, is 90 feet, while through the remaining block the width is 60 feet. The street is in use between Unionport road and Castlehill avenue, and the roadway has been roughly shaped. It is probable that a partial dedication exists through this portion of the street, but insufficient evidence is at hand to establish the same. Between Castlehill avenue and Glebe avenue no street system is in use, and a frame building has been erected within the lines of the street.

The approval of this resolution is recommended, 9 per cent. of the costs of the proceeding to be assessed upon the City at large, this relief being based upon the rule adopted by the Board of Estimate and Apportionment on July 25, 1902, the street being treated as having a width of 82.7 feet, this being the average width of the land to be acquired.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 970 of the Greater New York Charter, deems it for the public interest that the title to the lands and premises required for the opening and extending of Railroad avenue, between Unionport road and Glebe avenue, in the Borough of The Bronx, City of New York, should be acquired by The City of New York.

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to a Special Term of the Supreme Court for the appointment of Commissioners of Estimate and Assessment, and to take the necessary proceedings, in the name of The City of New York, to acquire title, wherever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending Railroad avenue, between Unionport road and Glebe avenue, in the Borough of The Bronx, City of New York.

Resolved, That nine per cent. of the cost and expense of said proceedings shall be borne and paid by The City of New York, and that the remainder shall be assessed upon the property deemed to be benefited thereby.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

OPENING HIGH STREET, QUEENS.

The following resolution of the Local Board of Newtown, Borough of Queens, and report of the Chief Engineer were presented:

In the Local Board of the Newtown District.

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Queens; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board, at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of the Newtown District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

To legally open High street, from Bielby street to Maspeth avenue, in the Second Ward of the Borough of Queens, in accordance with the map as adopted by the Board of Estimate and Apportionment on November 13, 1903.

And it is hereby further

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Adopted by the Local Board of the Newtown District on the 28th day of January, 1904.

President of the Borough of Queens.

REPORT No. 2624.

FEBRUARY 16, 1905.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Newtown District, Borough of Queens, adopted on January 28, 1904, initiating proceedings for acquiring title to High street, between Bielby street and Maspeth avenue, in the Second Ward.

This street was laid out upon the map of the City on November 13, 1903, to have a width of 60 feet. The resolution affects the entire length of the street, the same being four blocks. The street is in use, the roadway has been approximately shaped and graded, and several buildings have been erected upon the abutting property. I believe that the cost of this proceeding will be nominal, the street having already been very largely dedicated to public use.

The approval of the resolution is recommended, the cost of the proceedings to be assessed upon the property benefited.

There are no buildings upon the land to be acquired.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 970 of the Greater New York Charter, deems it for the public interest that the title to the lands and premises required for the opening and extending of High street, from Bielby street to Maspeth avenue, in the Borough of Queens, City of New York, should be acquired by The City of New York.

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to a Special Term of the Supreme Court for the appointment of Commissioners of Estimate and Assessment, and to take the necessary proceedings, in the name of The City of New York, to acquire title, wherever the same has not heretofore been acquired for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending High street, from Bielby street to Maspeth avenue, in the Borough of Queens, City of New York.

Resolved, That the cost and expense of said proceedings shall be assessed upon the property deemed to be benefited thereby.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

OPENING TRAUTMAN STREET, QUEENS.

REPORT No. 2623.

FEBRUARY 16, 1905.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Newtown District, Borough of Queens, adopted on January 28, 1904, initiating proceedings to acquire title to Trautman street, between the Borough line and Metropolitan avenue, in the Second Ward.

This resolution affects the entire length of Trautman street within the limits of the Borough of Queens, the same being about two and one-half blocks, or approximately 1,500 feet. The street was placed upon the map of the City on November 13, 1903, and has a width of 60 feet. Between Woodward and Metropolitan (or Flushing) avenues, the street is not in use, and several buildings will have to be acquired, the same probably including two sheds, a greenhouse, a portion of a dwelling and one of the buildings in Metropolitan Park. Through the remaining block and a half a roughly-shaped roadway is in use, and a very few dwellings have been erected upon the abutting property. The map which has been adopted for laying out this street does not establish the length of the blocks or the angles made with intersecting streets, and before the Commissioners of Estimate and Assessment can be appointed, a map supplying these omissions will have to be prepared.

The approval of the resolution is recommended, the cost of the proceeding to be assessed upon the property benefited.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 970 of the Greater New York Charter, deems it for the public interest that the title to the lands and premises required for the opening and extending of Trautman street, from Brooklyn Borough line to Metropolitan avenue, in the Borough of Queens, City of New York, should be acquired by The City of New York.

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to a Special Term of the Supreme Court, for the appointment of Commissioners of Estimate and Assessment, and to take the necessary proceedings, in the name of The

City of New York, to acquire title, wherever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending Trautman street, from Brooklyn Borough line to Metropolitan avenue, in the Borough of Queens, City of New York.

Resolved, That the cost and expense of said proceedings shall be assessed upon the property deemed to be benefited thereby.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

REDUCTION OF ASSESSMENT ON LEGGETT AVENUE, THE BRONX.

The following communication from the President of the Borough of The Bronx was presented:

THE CITY OF NEW YORK,
OFFICE OF THE PRESIDENT OF THE BOROUGH OF THE BRONX,
NEW YORK, February 14, 1905.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman, Board of Estimate and Apportionment:

DEAR SIR—Under date of January 11, 1905, I received from the Assistant Secretary of the Board of Estimate and Apportionment the petition of the property-owners requesting the City to assume a portion of the expense for opening Leggett avenue, from Prospect avenue to Randall avenue, in the Borough of The Bronx; together with a copy of the report of the Chief Engineer of the Board of Estimate and Apportionment.

I transmit herewith for the consideration of the Board of Estimate and Apportionment the report made to me on this matter by the Principal Assistant Topographical Engineer of this borough, duly approved on February 8, 1905, by Chief Engineer Briggs.

Yours truly,

LOUIS F. HAFFEN,

President of the Borough of The Bronx.

NEW YORK, February 7, 1905.

In the matter of the petition of the East Bay Land and Improvement Company for reduction of assessment for the legal opening of Leggett avenue, from Prospect avenue to Randall avenue, Borough of The Bronx.

The East Bay Land and Improvement Company, by John C. Shaw, attorney, applied to the Board of Estimate and Apportionment for reduction of assessment in the matter of opening Leggett avenue, from Prospect avenue to Randall avenue, giving various reasons for the same, and the Chief Engineer of the Board of Estimate and Apportionment reported on December 29, 1904, recommending that, should the Board deem it advisable to relieve the property from assessment due to street opening proceedings under the rule of July 25, 1902, when the proceedings were instituted prior to that date, that the portion of the cost to be assumed by the City be limited to seventeen per cent. of the cost.

The method by which the Chief Engineer of the Board arrived at these figures was examined, and I beg to report that I differ only slightly in the result and consider the reduction of assessment of seventeen (17) per cent. perfectly fair and adequate.

Respectfully,

F. GREIFFENBERG,

Principal Assistant Topographical Engineer.

Approved February 8, 1905.

Josiah A. Briggs,

Chief Engineer of the Borough of The Bronx.

Mr. John C. Shaw appeared for the petitioners.

The following resolution was adopted:

Whereas, The Board of Street Opening and Improvement of the Corporation known as the Mayor, Aldermen and Commonalty of The City of New York did, on August 18, 1893, institute proceedings for the opening and extending of Leggett avenue, from Prospect avenue to Randall avenue, in the Twenty-third Ward of said City, and determined that the entire cost and expense of said proceedings should be assessed upon the property deemed to be benefited thereby; and

Whereas, The Board of Estimate and Apportionment of The City of New York believes it to be fair and equitable that the property benefited by such street opening should bear eighty-three per cent. of the cost and expense thereof; therefore

Resolved, That, in accordance with the provisions of law, the Board of Estimate and Apportionment hereby determines that seventeen per cent. of the cost and expense of opening and extending Leggett avenue, from Prospect avenue to Randall avenue, in the Twenty-third Ward, Borough of The Bronx, City of New York, shall be borne and paid by The City of New York, and that the remainder of such cost and expense shall be assessed upon the property deemed to be benefited by the said improvement.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

PUBLIC PLACE AT ONE HUNDRED AND SIXTY-SIXTH STREET AND BROADWAY, MANHATTAN.

The following resolution of the Local Board of Washington Heights was presented:

In the Local Board of the Washington Heights District.

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Manhattan; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of the Washington Heights District, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby recommend to the Board of Estimate and Apportionment that the map or plan of The City of New York be altered and changed by laying out on same for use as a public place the land bounded by West One Hundred and Sixty-sixth street and St. Nicholas avenue and Broadway.

And it is hereby further

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Adopted by the Local Board of the Washington Heights District on the 10th day of January, 1905, all members present voting in favor thereof.

Attest:

B. Downing, Secretary.

Approved this 11th day of January, 1905.

JOHN F. AHEARN,

President of the Borough of Manhattan.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Char-

ter, as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by laying out a public place bounded by West One Hundred and Sixty-sixth street, St. Nicholas avenue and Broadway, in the Borough of Manhattan, City of New York.

Resolved, That this Board consider the proposed change at a meeting of the Board to be held in the City Hall, Borough of Manhattan, City of New York, on the 31st day of March, 1905, at 10.30 o'clock A. M.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the CITY RECORD for ten days continuously, Sundays and legal holidays excepted, prior to the 31st day of March, 1905.

ELIMINATION OF GRADE CROSSINGS OVER NEW YORK AND PUTNAM RAILROAD, THE BRONX.

The following communication from the President of the Borough of The Bronx was presented, and the matter was referred to the Chief Engineer:

THE CITY OF NEW YORK,
OFFICE OF THE PRESIDENT OF THE BOROUGH OF THE BRONX,
March 2, 1905.

Hon. GEORGE B. MCCLELLAN, Mayor, and Chairman of the Board of Estimate and Apportionment:

DEAR SIR—I beg to call your attention to the importance of providing for the elimination of grade crossings on the New York and Putnam Railroad, and for providing for street crossings which have been laid out but not yet constructed. This is a matter of very great importance, in view of the developments brought about by the construction of the Rapid Transit Railroad on Broadway, Kingsbridge, and the numerous improvements which will no doubt be urged in that section. The existing grade crossings at Kingsbridge road, West Two Hundred and Thirtieth street and West Two Hundred and Thirty-first street are exceedingly dangerous, and as most of the other grade crossings there have been abolished, or steps taken to that end, it seems to me that something should be done to complete the work of eliminating these grade crossings.

I have been informed that the New York Central Railroad officials have the matter under consideration, but as yet I have no information that a definite proposition has been arrived at as to whether it would be preferable to elevate the railroad above the streets or carry the streets under the railroad.

The importance of the existing situation as to these grade crossings demands immediate attention, and I therefore call the attention, through you, of the Board of Estimate and Apportionment to the matter.

Yours truly,
LOUIS F. HAFFEN,
President of the Borough of The Bronx.

CHANGE OF GRADES OF STREETS, ETC., FIRST WARD, RICHMOND.

The following communication from the President of the Borough of Richmond was presented:

OFFICE OF THE PRESIDENT OF THE BOROUGH OF RICHMOND,
NEW BRIGHTON, N. Y., January 17, 1905.

Board of Estimate and Apportionment, No. 280 Broadway, New York City:

GENTLEMEN—I send you herewith map showing the layout, grades and changes of grade of streets and avenues in the First Ward, bounded by Westervelt avenue, First avenue, Richmond turnpike, Arrietta street and New York Bay, Borough of Richmond, City of New York, dated September 30, 1904.

Will you kindly have same placed upon the calendar so that a public hearing may be accorded and the map as presented formally adopted upon the map of The City of New York?

Respectfully,
GEORGE CROMWELL,
President of the Borough.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by laying out, establishing grades and changing the grades of streets in the territory bounded by Westervelt avenue, First avenue, Richmond turnpike, Arrietta street and New York Bay, in the Borough of Richmond, City of New York, as shown on a map or plan submitted by the President of the Borough of Richmond, dated September 30, 1904.

Resolved, That this Board consider the proposed change at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on the 31st day of March, 1905, at 10.30 o'clock A. M.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the CITY RECORD for ten days continuously, Sundays and legal holidays excepted, prior to the 31st day of March, 1905.

CHANGE OF GRADES OF STREETS, ETC., THIRD WARD, RICHMOND.

The following communication from the President of the Borough of Richmond and report of the Chief Engineer were presented:

OFFICE OF THE PRESIDENT OF THE BOROUGH OF RICHMOND,
NEW BRIGHTON, N. Y., February 15, 1905.

Board of Estimate and Apportionment, J. W. STEVENSON, Esq., Secretary, No. 280 Broadway, New York City:

GENTLEMEN—I send you herewith print of part of the map or plan of The City of New York, Borough of Richmond, showing "layout, grades and changes of grades of streets and avenues bounded by Kill von Kull, Nicholas avenue, Grant street, Villa avenue, Richmond avenue, Morningstar road, Washington and Van Pelt avenues, Third Ward."

This map is sent for the purpose of according a public hearing and to be adopted as part of the map of The City of New York.

It is our intention to file, as soon as requisite studies can be prepared, a map of the same district, covering suitable extension and some changes in existing lines; but from our studies to date, we do not anticipate the abolition of any important existing streets. Our object in filing the map at this time is to enable us to also present for adoption the plan of a sewer system for the locality in question, and present as soon as same can be adopted the requisite resolutions for initiating the construction of such portions of said sewer system as are necessary at the immediate present.

There will be no conflict between such design and the proposed later layout of the streets, so that we would urge immediate action on the present map to cover the legal requirements of the case.

Yours respectfully,
LOUIS L. TRIBUS,
Acting President of the Borough.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by laying out, establishing grades and changing grades of streets in the territory bounded by Kill von Kull, Nicholas avenue, Grant street, Villa avenue, Richmond avenue, Morningstar road, Washington avenue and Van Pelt avenue, in the Borough of Richmond, City of New York, as shown on a map or plan submitted by the President of the Borough of Richmond, dated February 25, 1905.

Resolved, That this Board consider the proposed change at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on the 31st day of March, 1905, at 10.30 o'clock A. M.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the CITY RECORD for ten days continuously, Sundays and legal holidays excepted, prior to the 31st day of March, 1905.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

LAND FOR BRIDGE OVER RAILROAD, THE BRONX.

The following communication from the President of the Borough of The Bronx and report of the Chief Engineer were presented:

THE CITY OF NEW YORK,
OFFICE OF THE PRESIDENT OF THE BOROUGH OF THE BRONX,
February 23, 1905.

Board of Estimate and Apportionment, Hon. GEORGE B. MCCLELLAN, Chairman:

DEAR SIR—The Board of Estimate and Apportionment, pursuant to chapter 423 of the Laws of 1903, having approved on December 4, 1903, plans and profiles for abolishing, discontinuing and avoiding the grade crossings of the Spuyten Duyvil and Port Morris Railroad at Kingsbridge road, East Two Hundred and Thirtieth street, Broadway, Corlear street, Tibbett avenue, West Two Hundred and Thirtieth street and West Two Hundred and Twenty-seventh street, and the grade crossings of the Spuyten Duyvil and Port Morris Railroad at Depot place, Fordham road and East One Hundred and Seventy-seventh street, it becomes necessary before the construction of the same that additional land be acquired.

The maps approved December 4, 1903, do not show requisite information for acquiring title for additional land, and a map was therefore prepared to supply this information, which map must be filed before actual proceedings for acquiring title can be commenced.

A map or plan showing the land required for an approach to the bridge over the railroads at West One Hundred and Seventy-seventh street was forwarded in December, 1904, and I now transmit a map or plan showing land required for an approach to the bridge over the leased lines of the New York Central and Hudson River Railroad Company at Depot place, extending from West One Hundred and Sixty-seventh street to Depot place, in the Twenty-third Ward, Borough of The Bronx.

Respectfully,
LOUIS F. HAFFEN,
President of the Borough of The Bronx.

REPORT No. 2645.

NEW YORK, March 2, 1905.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—In the accompanying letter from the President of the Borough of The Bronx, dated February 23, 1905, he asks that the necessary steps be taken to acquire the land needed for the building of the approaches to the bridge across the Spuyten Duyvil and Port Morris Railroad on the line of Depot place, at High Bridge.

This crossing and the approach were shown on a plan approved by the former Board of Estimate and Apportionment on December 4, 1903, in accordance with the provisions of chapter 423 of the Laws of 1903, which act definitely provided that any changes in street lines or grades shown upon these plans should be considered to have been made without any further action. This case is identical with that of the approach needed for the bridge at West One Hundred and Seventy-seventh street, the acquisition of which was authorized by the Board of Estimate and Apportionment on February 3, 1905. The Railroad Company is about to make a contract for their bridge across the railroad tracks. The President of the Borough of The Bronx has his plans prepared for the approaches to this bridge, and it is necessary that the land be acquired as soon as possible. Inasmuch as there would be no assessment for the acquisition of this property, no action of the Local Board is necessary, and it is therefore recommended that proceedings to acquire title to the land required for an approach to the bridge across the Spuyten Duyvil and Port Morris Railroad on the line of Depot place be authorized, the entire expense of such proceeding to be borne by The City of New York.

The land which it is desired to secure is described by metes and bounds as follows: Beginning at a point on the southerly side of Depot place distant 54.06 feet eastwardly from the United States Pier and bulkhead line running thence southwardly 464.67 feet to a point on the northerly side of West One Hundred and Sixty-seventh street distant 101.39 feet from the United States Pier and bulkhead line; thence running eastwardly along the northerly side of West One Hundred and Sixty-seventh street a distance of 30.02 feet to the westerly line of the right of way of the Spuyten Duyvil and Port Morris Railroad; thence northwardly along the right of way of the Spuyten Duyvil and Port Morris Railroad a distance of 464.97 feet to the southerly side of Depot place; thence westwardly along the southerly side of Depot place 30.01 feet to the point or place of beginning.

Respectfully,
NELSON P. LEWIS, Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of chapter 423 of the Laws of 1903, deems it for the public interest, that the title to the lands and premises required for the opening and extending of the approaches to the bridge across the Spuyten Duyvil and Port Morris Railroad, on the line of Depot place, at High Bridge, in the Borough of The Bronx, City of New York, should be acquired by The City of New York.

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to a Special Term of the Supreme Court for the appointment of Commissioners of Estimate and Assessment, and to take the necessary proceedings, in the name of The City of New York, to acquire title, wherever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purposes of opening and extending the aforesaid bridge approaches; more particularly described as follows:

Beginning at a point on the southerly side of Depot place distant 54.06 feet eastwardly from the United States pier and bulkhead line and running thence southwardly 464.67 feet to a point on the northerly side of West One Hundred and Sixty-seventh street distant 101.39 feet from the United States pier and bulkhead line; thence running eastwardly along the northerly side of West One Hundred and Sixty-seventh street a distance of 30.02 feet to the westerly line of the right of way of the Spuyten Duyvil and Port Morris Railroad; thence northwardly along the right of way of the Spuyten Duyvil and Port Morris Railroad a distance of 464.97 feet to the southerly side of Depot place; thence westwardly along the southerly side of Depot place 30.01 feet to the point or place of beginning.

Resolved, That the cost and expense of said proceedings shall be borne and paid by The City of New York.

Resolved, That nothing in this resolution contained shall be construed as preventing the Comptroller of The City of New York from entering into contracts for the acquisition of any portion of the above-described property at private sale, subject to the approval of this Board.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

LAYING OUT WEST ONE HUNDRED AND SIXTY-EIGHTH STREET, MANHATTAN.

The following resolution of the Local Board of Washington Heights, Borough of Manhattan, and report of the Chief Engineer were presented:

In the Local Board of the Washington Heights District.

Whereas, A petition for a local improvement, described below, has been received by the President of the Borough of Manhattan; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board, at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of the Washington Heights District, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby recommend to the Board of Estimate and Apportionment the laying out on the map or plan of The City of New York, West One Hundred and Sixty-eighth street, from Broadway to Fort Washington avenue, as an 80-foot street

And it is hereby further

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Adopted by the Local Board of the Washington Heights District on the 24th day of January, 1905, all the members present voting in favor thereof.

Attest:

B. Downing, Secretary.

Approved this 25th day of January, 1905.

JOHN F. AHEARN,
President of the Borough of Manhattan.

REPORT No. 2646.

NEW YORK, March 3, 1905.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Washington Heights District, Borough of Manhattan, adopted on January 24, 1905, initiating proceedings for changing the map or plan of The City of New York by laying out West One Hundred and Sixty-eighth street, between Broadway and Fort Washington avenue.

The street proposed adjoins on the north the grounds of the Greater New York Baseball Association, the use of which property will, I believe, not be interfered with by it. The owners of the land have already begun to carry out the necessary work of grading, but the street is fenced off from public use. In my judgment the placing of the street upon the map of the City is desirable.

The street is a prolongation of West One Hundred and Sixty-eighth street as already laid out east of Broadway, and it will have a width of 80 feet and a length of one block, or about 690 feet. There are no buildings within its lines.

The approval of the change is recommended after a public hearing.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by laying out West One Hundred and Sixty-eighth street, from Broadway to Fort Washington avenue, in the Borough of Manhattan, City of New York, more particularly described as follows:

Beginning at a point in the westerly side of Broadway distant 180.04 feet southerly from the southerly line of West One Hundred and Sixty-ninth street; thence westerly and parallel to said street, distance 692.41 feet, to the easterly line of Fort Washington avenue; thence southerly along said line, distance 81.84 feet; thence easterly and parallel to One Hundred and Sixty-ninth street, distance 675.14 feet, to the westerly line of Broadway; thence northerly along Broadway, distance 80 feet, to the point or place of beginning.

Resolved, That this Board consider the proposed change at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on the 31st day of March, 1905, at 10.30 o'clock A. M.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the CITY RECORD for ten days continuously, Sundays and legal holidays excepted, prior to the 31st day of March, 1905.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

GRADING BAY FIFTEENTH STREET, BROOKLYN.

The following communication from the Secretary of the Borough of Brooklyn was presented:

THE CITY OF NEW YORK,
OFFICE OF THE PRESIDENT OF THE BOROUGH OF BROOKLYN,
BROOKLYN, February 20, 1905.

Hon. J. W. STEVENSON, Secretary, Board of Estimate and Apportionment:

DEAR SIR—The President of the Borough, to whom was referred on February 3, 1905, a resolution for grading and macadamizing Bay Fifteenth street, from Benson avenue to Gravesend Bay, begs to report that the part of Bay Fifteenth street which it is proposed to improve under this resolution is being improved under a resolution adopted by the Board of Estimate and Apportionment on July 15, 1904. He would therefore recommend that, in order to keep the records clear and avoid confusion, the resolution of 1903, which is now pending before the Board, be rejected by a vote of the Board.

Yours very truly,

JOHN A. HEFFERNAN, Secretary.

The following resolution was then submitted:

In the Board of Estimate and Apportionment.

A copy of a resolution of the Local Board of the Bay Ridge District, duly adopted by the said Board on the 9th day of November, 1903, and approved by the President of the Borough of Brooklyn on the 12th day of November, 1903, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

"Resolved, That the Local Board of the Bay Ridge District, Borough of Brooklyn, after hearing had this 9th day of November, 1903, hereby determines to initiate proceedings to regulate, grade and pave with macadam Bay Fifteenth street, between Benson avenue and Gravesend Bay, in the Borough of Brooklyn, and to set or reset curb and pave gutters with brick where not already done."

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$12,100; and a statement of the assessed value, according to the last preceding tax-roll, of the real estate included within the probable area of assessment, to wit, the sum of \$78,800, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized. And this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

The resolution was lost by the following vote:

Affirmative—The President of the Borough of Richmond—1.

Negative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx and the President of the Borough of Queens—15.

PLANTING TREES, THE BRONX.

The following communications from the Park Department were presented and the matters were referred to the President of the Borough of The Bronx:

On Washington avenue, from One Hundred and Sixtieth street to Pelham avenue.
On Park avenue, from One Hundred and Seventy-second street to One Hundred and Seventy-seventh street.

On Prospect avenue, from Crotona Park, South, to One Hundred and Forty-ninth street.
On Prospect avenue, from Crotona Park to One Hundred and Seventy-seventh street.

Respectfully,

WILLIS HOLLY, Secretary, Park Board.

THE CITY OF NEW YORK,
DEPARTMENT OF PARKS, THE ARSENAL, CENTRAL PARK,
February 17, 1905.

To the Board of Estimate and Apportionment, City of New York:

GENTLEMEN—At a meeting of the Park Board, held on the 16th inst., the following resolution was adopted:

"Whereas, The Park Board has been petitioned by property-owners to plant trees, pursuant to the provisions of chapter 253 of the Laws of 1903, on the street and avenue of the Borough of The Bronx hereinafter named, and a reasonable opportunity to be heard has this day been afforded all persons interested, after due advertisement of the proposed improvement, as required by the act cited; therefore

"Resolved, That the consent of the Board of Estimate and Apportionment be and the same hereby is respectfully requested to the planting of trees where required on said street and avenue, the work to be done and paid for by assessment and in the manner prescribed by said law:

"Hughes avenue, from Pelham avenue to Tremont avenue.

"One Hundred and Seventy-seventh street, between Jerome avenue and the Concourse."

Respectfully,

WILLIS HOLLY, Secretary, Park Board.

PAVING CATHARINE SLIP, MANHATTAN.

The following report of the Chief Engineer was presented and the matter was referred back to the Local Board:

REPORT No. 2641.

FEBRUARY 27, 1905.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—At the meeting of the Board of Estimate and Apportionment held on February 17, 1905, there was presented a resolution adopted by the Local Board of the Bowling Green District, Borough of Manhattan, on October 4, 1904, providing for laying a granite block pavement in Catharine slip, or that portion of Catharine slip formerly occupied by Catharine Market. A question was raised as to whether or not, after the discontinuance of Catharine Market, it would be necessary to place this area upon the map of the City as a public street before authorizing its improvement, and the matter was referred to your Engineer for further investigation and report.

I find that under date of November 16, 1904, the Corporation Counsel addressed a letter to the President of the Borough of Manhattan, advising him as to the proper procedure for paving the area formerly occupied by the market, in which he says:

"At a meeting of the Commissioners of the Sinking Fund, held July 20, 1904, the resolution referred to in your communication was adopted, by which the property formerly occupied by the Catharine Market was assigned to the Borough President. It does not appear that any action has been taken by the Board of Aldermen discontinuing the use of such property as a market. I am therefore of the opinion and advise that a recommendation should be presented to the Board of Aldermen requesting the passage and adoption of an ordinance similar to that adopted in June, 1903, by which Centre and Union Markets were discontinued. Upon the passage of such ordinance and its approval by the Mayor, the assignment of such premises by the Commissioners of the Sinking Fund to the President of the Borough would become operative. Thereafter a new resolution providing for the paving of that portion of Catharine slip should be passed by the Board of Local Improvement of the Bowling Green District and transmitted to the Board of Estimate and Apportionment for its action, as provided in the Greater New York Charter."

The ordinance advised by the Corporation Counsel was adopted by the Board of Aldermen on January 24, 1905, and was approved by the Mayor on February 1. In accordance with the opinion above quoted, the resolution of the Commissioners of the Sinking Fund assigning the property formerly occupied by the market became operative on February 1. The opinion of the Corporation Counsel, however, says: "Thereafter, a new resolution providing for the paving of that portion of Catharine slip should be passed by the Board of Local Improvement of the Bowling Green District." It does not appear that this portion of the advice has been followed, as the resolution presented to the Board of Estimate and Apportionment was adopted on October 4, 1904, or nearly four months before the approval by the Mayor of the ordinance discontinuing the market. In view of this fact it might be safer to have a new resolution initiating the improvement adopted by the Local Board. I am advised that the reason for making the resolution apply to Catharine slip instead of simply to the area occupied by the old market, was to enable the Borough President to include in the improvement the area covered by the sidewalks which surrounded the old building.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

AMENDING SEWERAGE DISTRICT 12DO, MANHATTAN.

The following communication and report of the Chief Engineer were presented:

CITY OF NEW YORK,
OFFICE OF THE PRESIDENT OF THE BOROUGH OF MANHATTAN,
CITY HALL, January 12, 1905.

Hon. JAMES W. STEVENSON, Secretary, Board of Estimate and Apportionment:

DEAR SIR—There is sent you herewith plan in quadruplicate of "amendment to Sewerage District No. 12DO, showing sewers in One Hundred and Thirty-fifth street, north and south sides, between Riverside Drive and Broadway."

Respectfully,

B. DOWNING, Secretary.

REPORT No. 2614.

FEBRUARY 10, 1905.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a communication from the President of the Borough of Manhattan, bearing date of January 12, 1905, requesting the approval of a map amending the map of Sewerage District 12-D-O.

The change proposed consists of laying out sewers for the block of West One Hundred and Thirty-fifth street, between Broadway and Riverside Drive. The street has a width of 100 feet, and two sewers are to be provided, one on each side of the street, the same being located within the sidewalk space. The construction of these

sewers was authorized on July 1, 1904, it being then understood that a map would be presented providing for incorporating them upon the drainage map of the City.

The approval of the map is recommended.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

Resolved, That the Board of Estimate and Apportionment, in pursuance of the provisions of section 445 of the Greater New York Charter, hereby approves the map submitted by the President of the Borough of Manhattan, entitled "Amendment to Sewerage District No. 12DO, showing sewers in One Hundred and Thirty-fifth street, north and south sides, between Riverside Drive and Broadway," and dated January 6, 1905.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

GRADING WEST ONE HUNDRED AND FORTIETH STREET, MANHATTAN.

The following resolution of the Local Board of Washington Heights, Borough of Manhattan, and report of the Chief Engineer were presented:

In the Local Board of the Washington Heights District.

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Manhattan; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of the Washington Heights District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, that the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

To regulate and grade West One Hundred and Fortieth street, between Edgecombe avenue and St. Nicholas avenue, and curb and flag the same.

And it is hereby further

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Adopted by the Local Board of the Washington Heights District on the 24th day of January, 1905.

President of the Borough of Manhattan.

Estimated cost, \$1,183; assessed value of the property affected, \$188,700.

REPORT No. 2644.

FEBRUARY 27, 1905.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Washington Heights District, Borough of Manhattan, adopted on January 24, 1905, initiating proceedings for grading, curbing and flagging West One Hundred and Fortieth street, between Edgecombe and St. Nicholas avenues.

This block has a length of only about 165 feet, and title to it has been acquired under opening proceedings confirmed on December 12 last.

I see no reason why the improvement should not be authorized, and would recommend such action, the work to be done comprising the following:

200 cubic yards earth and rock excavation.

320 linear feet curbing.

1,290 square feet flagging.

The estimated cost of construction is \$1,200, and the assessed valuation of the property to be benefited is \$188,700.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

REPORT No. 2637.

FEBRUARY 23, 1905.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Washington Heights District, Borough of Manhattan, adopted on December 27, 1904, initiating proceedings for grading, curbing and flagging West One Hundred and Seventy-seventh street, between St. Nicholas avenue and Broadway.

West One Hundred and Seventy-seventh street, through the two blocks included within the limits named by the resolution, was laid out upon the map of the City on October 7, 1904, and a deed of cession of all the land within the street to the City has been accepted. The street is not in use, but the improvement is requested by the owners of all of the abutting property.

The approval of the resolution is recommended, the work to be done comprising the following:

3,870 cubic yards filling.

1,290 linear feet new and old curbing.

5,020 square feet new and old flagging.

The estimated cost of construction is \$5,800, and the assessed valuation of the property to be benefited is \$170,000.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

In the Board of Estimate and Apportionment.

A copy of a resolution of the Local Board of the Washington Heights District, duly adopted by said Board on the 27th day of December, 1904, and approved by the President of the Borough of Manhattan on the 28th day of December, 1904, having been transmitted to the Board of Estimate and Apportionment as follows:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

The following resolution of the Local Board of Washington Heights, Borough of Manhattan, and report of the Chief Engineer were presented:

In the Local Board of the Washington Heights District.

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Manhattan; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board, at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of the Washington Heights District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

To regulate, grade, curb and flag Jumel place, from West One Hundred and Sixty-seventh street to Edgecombe road.

And it is hereby further

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

REPORT No. 2613.

FEBRUARY 10, 1905.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Washington Heights District, Borough of Manhattan, adopted January 31, 1905, initiating proceedings for grading, curbing and flagging Jumel place, between West One Hundred and Sixty-seventh street and Edgcombe road.

Title to this block has been acquired under proceedings which were confirmed in 1902. A rough, unshaped roadway is in use, and a few buildings have been erected upon the abutting property.

On November 11, 1904, the grade of this street was changed at its intersection with West One Hundred and Sixty-seventh street. The grading of the latter street has recently been authorized, and will result in a fill of about three feet at Jumel place, cutting off the southerly outlet of the street until after the work has been carried out, which is provided for in this resolution.

The authorization of the work proposed is hereby recommended, the same comprising the following:

- 4,440 cubic yards filling.
- 1,330 linear feet curbing.
- 5,300 square feet flagging.

The estimated cost of construction is \$5,500, and the assessed valuation of the property to be benefited is \$79,300.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

In the Board of Estimate and Apportionment.

A copy of a resolution of the Local Board of the Washington Heights District, duly adopted by said Board on the 31st day of January, 1905, and approved by the President of the Borough of Manhattan on the 1st day of February, 1905, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"To regulate, grade, curb and flag Jumel place, from West One Hundred and Sixty-seventh street to Edgcombe road,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$5,500, and a statement of the assessed value, according to the last preceding tax-roll, of the real estate included within the probable area of assessment, to wit, the sum of \$79,300, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized, and this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

The following communication and report of the Chief Engineer were presented, and the matter was referred to the Corporation Counsel:

THE CITY OF NEW YORK,
OFFICE OF THE PRESIDENT OF THE BOROUGH OF BROOKLYN,
BROOKLYN, February 15, 1905.

JAMES W. STEVENSON, Esq., Secretary, Board of Estimate and Apportionment:

DEAR SIR—There was referred to the President of the Borough on January 20 a resolution which was on the calendar of the Board of Estimate and Apportionment for that date, regarding the regulating and grading of Ninety-fifth street, between Fourth avenue and Marine avenue, in this borough, the Chief Engineer of the Board of Estimate and Apportionment having raised a point as to the advisability of having the grade of the street changed to conform to its present surface. The matter was considered by George W. Tillson, Chief Engineer of the Bureau of Highways, a copy of whose report I forward to you herewith. In view of the facts as stated by Mr. Tillson, I am directed by the President of the Borough to say that he would recommend that the resolution mentioned herein, which provides for the regulating and grading of Ninety-fifth street, between Fourth avenue and Marine avenue, be approved by the Board of Estimate and Apportionment.

Yours very truly,

JOHN A. HEFFERNAN, Secretary.

REPORT No. 2634.

FEBRUARY 21, 1905.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—On January 20, 1905, the Board of Estimate and Apportionment referred back to the President of the Borough of Brooklyn a resolution providing for regulating and grading Ninety-fifth street, between Fourth and Marine avenues. This action was taken in view of the report submitted by your Engineer calling attention to the fact that the street which it was proposed to improve had been graded, macadamized and guttered in 1894, under a Special Act of the Legislature, in accordance with the terms of which the improvement was to be paid for in forty annual installments. The assessment has been levied, and only one or two of the installments have been paid. The point raised in the report was as to the ability of the City to collect assessments for an improvement which would be entirely destroyed by the proposed regulating and grading of the street.

Under date of February 15, 1905, the Secretary to the President of the Borough has forwarded a report from the Chief Engineer of Highways in which he refers to the difference between the existing grades and the legal grades, and concludes that it would be wise to authorize the improvement as planned, in which recommendation the President of the Borough concurs. No reference is made to the fact that the present improvement on this street is now being paid for in installments. It appears that the Engineer employed by the Commission under the Act referred to, and who gave the grades for the improvement, did not follow the legal grades, as it is proposed to do in the contemplated regulating and grading. This disturbance of an improvement not yet paid for is what I consider the objectionable feature of the project. This has not been referred to in the report of the Engineer of Highways or the letter from the Borough President's office, and the question to be determined by the Board is whether or not the fact that the present improvement is now in process of being paid for should prevent the authorization of the new regulating and grading, although that in itself may be desirable.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

REPORT No. 2642.

FEBRUARY 27, 1905.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Flatbush District, Borough of Brooklyn, adopted on June 30, 1904, initiating proceedings for grading, curbing and flagging East Eleventh street, between Beverley and Cortelyou roads.

Title to this street has never been acquired under formal proceedings, but the resolution is accompanied by a certificate of the Topographical Engineer of the Borough showing that the street has been dedicated to public use. The roadway is in use and has been neatly shaped. Most of the sidewalks have been laid, and the abutting property is very largely occupied by detached frame houses. Water and gas-mains have been provided.

I believe the evidences of dedication are sufficient to warrant the authorization of the improvement, such action being recommended.

The work to be done comprises the following:

- 4,000 cubic yards grading.
- 3,020 linear feet curbing.
- 12,000 square feet cement walk.

The estimated cost of construction is \$6,400, and the assessed valuation of the property to be benefited is \$80,600.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

In the Board of Estimate and Apportionment.

A copy of a resolution of the Local Board of the Flatbush District, duly adopted by said Board on the 30th day of June, 1904, and approved by the President of the Borough of Brooklyn on the 19th day of July, 1904, having been transmitted to the Board of Estimate and Apportionment as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"To regulate, grade, curb and lay cement sidewalks on East Eleventh street, between Beverley and Cortelyou roads, in the Borough of Brooklyn";

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$6,400; and a statement of the assessed value, according to the last preceding tax-roll, of the real estate included within the probable area of assessment, to wit, the sum of \$80,600, having also been presented; it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized. And this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

REPORT No. 2631.

FEBRUARY 20, 1905.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Bay Ridge District, Borough of Brooklyn, adopted on December 28, 1904, initiating proceedings for grading, curbing and flagging Narrows avenue, between Seventy-first and Seventy-ninth streets.

Title to Narrows avenue has been acquired under formal opening proceedings. The street is not in use between the limits named in the resolution, although the adjoining sections on the north and south have been graded.

I see no reason why the resolution should not be approved, and would recommend such action, the work to be done comprising the following:

25,000 cubic yards grading.

4,080 linear feet curbing.

18,000 square feet cement walk.

The estimated cost of construction is \$17,200, and the assessed valuation of the property to be benefited is \$230,100.

OCTOBER 6, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Bay Ridge District, Borough of Brooklyn, adopted on June 8, 1904, initiating proceedings for the construction of a sewer in Seventy-first street, between Tenth and Eleventh avenues.

Title to this block has never been acquired under formal proceedings, but the resolution is accompanied by a report of the Engineer in Charge of the Topographical Bureau of the Borough, certifying that, in his judgment, the City has "probably" acquired an easement in the street. Two dwellings have been erected upon the block, and one of the corners at Tenth avenue has been improved. The roadway and sidewalks have been shaped, shade trees have been planted, and the street is lit by gas. While a complete dedication of the street to public use has not been established, the evidences appear to be sufficient to permit of the occupation of the portion of the street required for carrying out the improvement, and the outlet sewer having been constructed, favorable action upon the resolution is recommended.

The work to be done comprises the following:

50 linear feet 15-inch pipe sewer.

718 linear feet 12-inch pipe sewer.

8 manholes.

The estimated cost of construction is \$3,900, and the assessed valuation of the property to be benefited is \$22,050.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

REPORT No. 2453.

NOVEMBER 15, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Bay Ridge District, Borough of Brooklyn, adopted September 28, 1904, initiating proceedings for the construction of a sewer in Sixth avenue, between Seventy-third and Seventy-fourth streets, and between Seventy-sixth street and Fort Hamilton avenue, with sewer basins at all four corners of Sixty-fifth street, at the north and east corners of Sixty-sixth street, at the south and west corners of Sixty-seventh street, at all four corners of Sixty-eighth street, at all four corners of Ovington avenue, at the south and east corners of Seventy-first street, at the south and east corners of Seventy-second street, and at the east corner of Seventy-third street. There is also presented a resolution of the same Local Board of October 26, 1904, amending the resolution of September 28 by including an outlet sewer in Seventy-seventh street, between Fifth and Sixth avenues.

Title to Sixth avenue and to Seventy-seventh street has been acquired under formal opening proceedings. On June 12, 1903, the grading and curbing of Sixth avenue, between Sixty-fifth street and Fort Hamilton avenue, was authorized by the Board of Estimate and Apportionment, and the work is now being carried out. A resolution providing for laying an asphalt pavement has been adopted by the Local Board, and is now before the Board of Estimate and Apportionment, but before the same can be approved, the sewer will have to be completed, and this is provided for under the resolution now submitted. An outlet sewer is also required in Seventy-sixth street, between Fifth and Sixth avenues, but the same has been made the subject of a separate resolution of the Local Board, and a report recommending the approval of the same has already been presented, but the work has not yet been authorized.

The approval of the resolution, as amended, is recommended, the work to be done comprising the following:

- 820 linear feet 36-inch brick sewer.
- 280 linear feet 30-inch brick sewer.
- 558 linear feet 24-inch pipe sewer.
- 280 linear feet 18-inch pipe sewer.
- 330 linear feet 15-inch pipe sewer.
- 1,080 linear feet 12-inch pipe sewer.
- 27 manholes.
- 47 sewer basins.

The estimated cost of construction is \$33,700, and the assessed valuation of the property to be benefited is \$504,875.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

In the Board of Estimate and Apportionment.

A copy of a resolution of the Local Board of the Bay Ridge District, duly adopted by said Board on the 26th day of October, 1904, and approved by the President of the Borough of Brooklyn on the 10th day of November, 1904, having been transmitted to the Board of Estimate and Apportionment as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"To amend resolution of September 28, 1904, providing for the construction of sewers in Sixth avenue, from Seventy-third to Seventy-fourth street; from Seventy-sixth street to Fort Hamilton avenue, with sewer basins at all four corners of Sixth avenue and Sixty-fifth street; north and east corners of Sixty-sixth street and Sixth avenue; south and west corners of Sixth avenue and Sixty-seventh street; all four corners of Sixth avenue and Sixty-eighth street; all four corner of Sixth and Ovington avenues; south and east corners of Sixth avenue and Seventy-first street; south and east corners of Sixth avenue and Seventy-second street, and the east corner of Sixth avenue and Seventy-third street, including therein an outlet sewer in Seventy-seventh street, between Fifth and Sixth avenues, in the Borough of Brooklyn,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$33,700, and a statement of the assessed value, according to the last preceding tax-roll, of the real estate included within the probable area of assessment, to wit, the sum of \$504,875, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized. And this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such

cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

GRADING SIXTIETH STREET, BROOKLYN.

The following resolution of the Local Board of Bay Ridge, Borough of Brooklyn, and report from the Chief Engineer were presented:

Board of Estimate and Apportionment:

GENTLEMEN—You are hereby notified that at a meeting of the Local Board of the Bay Ridge District, held April 18, 1902, a resolution, of which the annexed is a copy, was adopted, and that it is duly approved by me according to law:

"Resolved, That the Local Board of the Bay Ridge District, Borough of Brooklyn, after hearing had this 18th day of April, 1902, hereby determines to initiate proceedings to regulate and grade Sixtieth street, between Second avenue and Third avenue, in the Borough of Brooklyn, and to set or reset curb and pave sidewalks of said street with cement where not already done."

Resolved, That this resolution be forwarded to the Board of Estimate and Apportionment for its approval.

Inclures:

(1) Copy of petition.

(2) Copy of report from the Bureau of Highways.

The paving of the street was omitted on account of there being no sewer in the street, and also because the estimated cost, including the paving, would be considerably over one-half the assessed valuation of the property.

Estimated cost, \$3,100; assessed value of land, \$19,200.

Approved by me this 1st day of May, 1902.

J. EDW. SWANSTROM,

President of the Borough of Brooklyn.

The above resolution was, on the 1st day of May, 1902, approved by the President of the Borough of Brooklyn.

REPORT No. 2420.

NOVEMBER 14, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Bay Ridge District, Borough of Brooklyn, adopted on April 18, 1902, initiating proceedings for grading, curbing and flagging Sixtieth street, between Second and Third avenues.

Owing to lack of title to this block, favorable report upon the resolution now submitted had to be deferred. The opening of Sixtieth street, between Third avenue and the bulkhead line, was authorized March 6, 1903, and on October 7 last the resolution was amended, limiting the proceeding to include that portion of the street between Third avenue and the westerly side of First avenue. The oaths of the Commissioners of Estimate and Assessment were filed on September 14 last. There are no buildings within the lines of the street.

A roadway is in use through the block between Second and Third avenues, and a few houses have been erected.

The approval of the resolution is hereby recommended, the work to be done comprising the following:

- 1,200 cubic yards grading.
- 1,440 linear feet cement curb.
- 6,500 square feet cement walk.

The estimated cost of construction is \$3,100, and the assessed valuation of the property to be benefited is \$19,200.

I would recommend that title to Sixtieth street, between the limits named in the resolution for acquiring title, be vested in the City April 1, 1905.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Whereas, The Board of Estimate and Apportionment on the 6th day of March, 1903, adopted a resolution requesting the Corporation Counsel to acquire title, wherever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending Sixtieth street, between the bulkhead line and Third avenue, which resolution was amended on October 7, 1904, so as to limit the proceeding to the portion of the street between Third avenue and the westerly side of First avenue, in the Borough of Brooklyn, City of New York; and

Whereas, Commissioners of Estimate and Assessment have been appointed by the Supreme Court in proceedings to acquire title to said Sixtieth street, and the oaths of said Commissioners of Estimate and Assessment were duly filed as required by law on the 14th day of September, 1904; therefore be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 990 of the Greater New York Charter, directs that upon the 1st day of April, 1905, the title to each and every piece or parcel of land lying within the lines of said Sixtieth street, between Third avenue and the westerly side of First avenue, in the Borough of Brooklyn, City of New York, so required, shall be vested in The City of New York.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

In the Board of Estimate and Apportionment.

A copy of a resolution of the Local Board of the Bay Ridge District, duly adopted by said Board on the 18th day of April, 1902, and approved by the President of the Borough of Brooklyn on the 1st day of May, 1902, having been transmitted to the Board of Estimate and Apportionment as follows, to wit:

"Resolved, That the Local Board of the Bay Ridge District, Borough of Brooklyn, after hearing had this 18th day of April, 1902, hereby determines to initiate proceedings to regulate and grade Sixtieth street, between Second avenue and Third avenue, in the Borough of Brooklyn, and to set or reset curb and pave sidewalks of said street with cement where not already done,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$3,100, and a statement of the assessed value, according to the last preceding tax-roll, of the real estate included within the probable area of assessment, to wit, the sum of \$19,200, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized, and this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and

expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

GRADING WEST NINTH STREET, BROOKLYN.

The following resolution of the Local Board of Red Hook, Borough of Brooklyn, and report of the Chief Engineer were presented:

In the Local Board of the Red Hook District.

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Brooklyn; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the City Record that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is Resolved, by the Local Board of the Red Hook District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

To regulate, grade, curb and lay cement sidewalks on West Ninth street, between Clinton and Henry streets, in the Borough of Brooklyn.

And it is hereby further

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Adopted by the Local Board of the Red Hook District on the 22d day of September, 1904.

President of the Borough of Brooklyn.

REPORT No. 2417.

NOVEMBER 14, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Red Hook District, Borough of Brooklyn, adopted on September 22, 1904, initiating proceedings for grading, curbing and flagging West Ninth street, between Clinton and Henry streets.

Title to this block has been legally acquired. An unshaped roadway is in use, and a small portion of the flagging has been laid. The abutting property has been partially improved by the erection of buildings. On May 20 last the construction of a sewer was authorized through this block.

The improvement now proposed is, in my judgment, a desirable one, and its authorization is recommended, the work to be done comprising the following:

1,000 cubic yards grading.

1,000 linear feet curbing.

4,600 square feet cement walk.

The estimated cost of construction is \$2,400, and the assessed valuation of the property to be benefited is \$37,750.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

In the Board of Estimate and Apportionment.

The following resolution was then adopted:

A copy of a resolution of the Local Board of the Red Hook District, duly adopted by said Board on the 22d day of September, 1904, and approved by the President of the Borough of Brooklyn on the 10th day of October, 1904, having been transmitted to the Board of Estimate and Apportionment as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"To regulate, grade, curb and lay cement sidewalks on West Ninth street, between Clinton and Henry streets, in the Borough of Brooklyn";

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$2,400; and a statement of the assessed value, according to the last preceding tax-roll, of the real estate included within the probable area of assessment, to wit, the sum of \$37,750, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized. Resolved, by the Local Board of the Bay Ridge District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, that the said petition be and the same hereby is granted; and it is hereby

Resolved, That the Local Board of the Bay Ridge District, Borough of Brooklyn, after hearing had this 9th day of November, 1903, hereby determines to initiate proceedings to regulate and grade Eightieth street, between Third avenue and Fifth avenue, in the Borough of Brooklyn, and to set or reset curb, lay crosswalks, pave gutters and sidewalks of said street with cement where not already done.

And it is hereby further

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

REPORT No. 2384.

OCTOBER 6, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Bay Ridge District, Borough of Brooklyn, adopted on November 9, 1903, initiating proceedings for grading, curbing and flagging Eightieth street, between Third and Fifth avenues.

Title to Eightieth street through the three blocks covered by the proceeding was vested in the City on July 8, 1902, under opening proceedings which were then in progress.

The roadway is in use through the entire distance affected by this improvement, although the same is unshaped between Third and Fourth avenues. In the last-mentioned block a few houses have been erected, while the property abutting on the two remaining blocks has been well built up.

I see no reason why this improvement should not be authorized, and would recommend such action, the work to be done comprising the following:

2,000 cubic yards grading.

3,060 linear feet curbing.

15,300 square feet cement walk.

The estimated cost of construction is \$7,300, and the assessed valuation of the property to be benefited is \$53,050.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

REPORT No. 2383.

OCTOBER 6, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Bay Ridge District, Borough of Brooklyn, adopted on November 9, 1903, initiating proceedings for grading, curbing and flagging Seventy-third street, between Third and Narrows avenues.

Title to Seventy-third street through the three blocks which it is proposed to improve has been acquired under formal opening proceedings. The roadway has been macadamized, and several houses have been erected upon the abutting property on the easterly and westerly blocks. The grading proposed is evidently for the purpose of constructing the sidewalks.

The authorization of the work proposed is hereby recommended, the same comprising the following:

- 800 cubic yards grading.
- 4,600 linear feet curbing.
- 1,530 square yards brick gutter.
- 17,500 square feet cement walk.

The estimated cost of construction is \$12,200, and the assessed valuation of the property to be benefited is \$99,500.

Respectfully,
NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

In the Board of Estimate and Apportionment.

A copy of a resolution of the Local Board of the Bay Ridge District, duly adopted by said Board on the 9th day of November, 1903, and approved by the President of the Borough of Brooklyn, on the 12th day of November, 1903, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

Resolved, That the Local Board of the Bushwick District, after hearing had this 30th day of November, 1903, hereby determines to amend the following resolution:

"Resolved, That the Local Board of the Bushwick District, Borough of Brooklyn, after hearing had this 16th day of April, 1903, hereby determines to initiate proceedings to grade and pave Norman place with asphalt pavement, between Truxton street and Manhattan Junction, in the Borough of Brooklyn, and to set or reset curb of said street where not already done."

"Resolved, That this resolution be forwarded to the Board of Estimate and Apportionment for its approval."

—by having the easterly limit read: "the property occupied by the tracks of the Manhattan Beach Division of the Long Island Railroad Company." The amended resolution to read as follows:

"Resolved, That the Local Board of the Bushwick District, Borough of Brooklyn, after hearing had this 30th day of November, 1903, hereby determines to initiate proceedings to grade and pave Norman place with asphalt pavement, between Truxton street and the property occupied by the tracks of the Manhattan Beach Division of the Long Island Railroad, in the Borough of Brooklyn, and to set or reset curb of said street, where not already done."

REPORT No. 2377.

OCTOBER 6, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Bushwick District, Borough of Brooklyn, adopted on November 30, 1903, initiating proceedings for grading and curbing Norman place, between Truxton street and the tracks of the Manhattan Beach Division of the Long Island Railroad Company.

On July 28, 1903, a resolution providing for a similar improvement, but improperly defining the limits proposed, was referred back to the President of the Borough for correction in this particular. At that time evidences were presented to show that the street had been dedicated to public use. The resolution now submitted corrects the defect noted in the original resolution.

The sewer has been constructed and the water-main has been placed under contract. The abutting property is partially improved.

I see no reason why the resolution should not be approved at this time, and would recommend such action, with the understanding, however, that before the work is undertaken, the gas-main be provided.

The work to be done comprises the following:

- 800 cubic yards grading.
- 1,100 linear feet curbing.
- 2,080 square yards asphalt pavement.

The estimated cost of construction is \$6,300, and the assessed valuation of the property to be benefited is \$38,300.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

In the Board of Estimate and Apportionment.

A copy of a resolution of the Local Board of the Bushwick District, duly adopted by said Board on the 30th day of November, 1903, and approved by the President of the Borough of Brooklyn on the 5th day of December, 1903, having been transmitted to the Board of Estimate and Apportionment as follows, to wit:

"Resolved, That the Local Board of the Bushwick District, Borough of Brooklyn, after hearing had this 30th day of November, 1903, hereby determines to initiate proceedings to grade and pave Norman place with asphalt pavement, between Truxton street, and the property occupied by the tracks of the Manhattan Beach Division of the Long Island Railroad, in the Borough of Brooklyn, and to set or reset curb of said street where not already done,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$6,300; and a statement of the assessed value, according to the last preceding tax-roll, of the real estate included within the probable area of assessment, to wit, the sum of \$38,300, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized. And this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

Approved this 11th day of July, 1903.

President of the Borough of Brooklyn.

REPORT No. 2617.

FEBRUARY 15, 1905.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The accompanying resolution adopted by the Local Board of the Bushwick District, Borough of Brooklyn, on June 29, 1903, provides for grading and paving Conway street, between Broadway and Norman place, with asphalt pavement.

The street is laid down upon the map of The City of New York, and has been in use for many years; on May 27, 1889, the Common Council of the former City of Brooklyn adopted a resolution declaring the street open. Certificate has been prepared by the Topographical Bureau stating that the street is in use, that there are some signs of an old cobblestone pavement, that a sewer has been built, and that part of the sidewalks are flagged. It is stated, further, that at the southeast corner of Conway street and Broadway a one-story frame building encroaches about five feet on the street. The attention of the borough authorities has been called to this fact, which it was thought nullified any evidence showing a complete dedication of the street and indicated that the resolution of the Common Council of the City of Brooklyn was not justified, and that the safest plan would be to institute opening proceedings to acquire an unquestioned title to the street. The Chief Engineer of Highways of the Borough, in a letter addressed to the Secretary to the President on February 1, 1905, says that the encroachment of this building would not be beyond the court-yard line, and that consequently the street would be free and clear for improvements between the fences, and he does not think it necessary to have opening proceedings started before the paving can be carried out; but that, if at any time in future it became necessary or desirable to have this building removed, opening proceedings for that portion of the street could be begun.

This is one of the cases where the policy of accepting a dedication of a street as equivalent to an opening proceeding has been carried to an extreme. The attention of the Board has recently been drawn to the fact that the City is spending large sums of money to acquire streets of a certain width, and is then deliberately permitting the private use of substantial parts of the area so acquired. In this case it is not a stoop or a fence, but a building itself, which encroaches about five feet upon the street. If the roadway were to be paved and the sidewalks flagged under an assessment proceeding, it would be extremely difficult to levy an assessment upon any of the adjoining property for the removal of this house. If the owner of the premises should bear

the entire expense of buying and removing a portion of his own house, it would seem wiser to have it so removed before paving the street. I cannot but believe that it would be a dangerous precedent to authorize an assessable improvement on this street where a building projects five feet beyond the street line. The matter is submitted to the Board, however, at the request of the borough authorities.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution of the Local Board of Morrisania, Borough of The Bronx, and report of the Chief Engineer were presented:

In the Local Board of Morrisania, Twenty-fourth District, Borough of The Bronx.

Whereas, A petition for a local improvement described below has been received by the President of the Borough of The Bronx; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of Morrisania, Twenty-fourth District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

For regulating and grading, setting curbstones and flagging sidewalks a space four feet wide, laying crosswalks, building approaches and erecting fences where necessary in Townsend avenue, from East One Hundred and Seventieth street to East One Hundred and Seventy-sixth street, in the Borough of The Bronx, City of New York.

And it is hereby

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Adopted by the Local Board of Morrisania, Twenty-fourth District, on the 22d day of December, 1904.

REPORT No. 2629.

FEBRUARY 16, 1905.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Morrisania District, Borough of The Bronx, adopted on December 22, 1904, initiating proceedings for grading, curbing and flagging Townsend avenue, between East One Hundred and Seventieth and East One Hundred and Seventy-sixth streets.

This resolution affects the entire length of Townsend avenue, or seven blocks. Title to the street has been legally acquired. A roadway is in use only for a short distance south of One Hundred and Seventy-sixth street, and in this vicinity one house has been erected upon the abutting property. The sewer has been authorized through either a large portion or the entire length of the street.

I see no reason to prevent the authorization of the improvement, and would recommend the approval of the resolution, the work to be done comprising the following:

49,000 cubic yards filling,
6,800 linear feet curbing,
26,350 square feet flagging.

The estimated cost of construction is \$46,300, and the assessed valuation of the property to be benefited is \$234,800.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

A copy of a resolution of the Local Board of the Morrisania District, duly adopted by said Board on the 22d day of December, 1904, and approved by the President of the Borough of The Bronx on the 28th day of December, 1904, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"For regulating and grading, setting curbstones and flagging sidewalks a space four feet wide, laying crosswalks, building approaches and erecting fences where necessary in Townsend avenue, from East One Hundred and Seventieth street to East One Hundred and Seventy-sixth street, in the Borough of The Bronx, City of New York."

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$46,300, and a statement of the assessed value, according to the last preceding tax-roll, of the real estate included within the probable area of assessment, to wit, the sum of \$234,800, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized. And this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

FEBRUARY 16, 1905.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Morrisania District, Borough of The Bronx, adopted on January 12, 1905, initiating proceedings for grading, curbing and flagging West Two Hundred and Fifty-ninth street, between Broadway and Riverdale avenue.

This resolution affects a length of eight blocks of West Two Hundred and Fifty-ninth street, title to which has been acquired under opening proceedings. A lane or country road is in use through the five blocks between Huxley avenue and Avenue Von Humboldt, and a few houses have been erected upon the abutting property.

Riverdale avenue has been macadamized and the grading of Broadway was authorized last year. Aside from these two streets, very few of the streets in the vicinity, as laid out on the final maps, have yet been put into service. I see no legal reason to prevent the authorization of this work, which will open up a large area for improvement, and would recommend the approval of the resolution, the work to be done comprising the following:

28,000 cubic yards filling.
4,125 linear feet curbing.
15,500 square feet flagging.

The estimated cost of construction is \$46,000, and the assessed valuation of the property to be benefited is \$144,200.

Respectfully,

FEBRUARY 16, 1905.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Morrisania District, Borough of The Bronx, adopted on January 12, 1905, initiating proceedings for grading, curbing and flagging East Two Hundred and Fortieth street, between Webster and Verio avenues.

East Two Hundred and Fortieth street, which is also known as McLean avenue, through the block affected by the resolution, is partly within the limits of Yonkers and partly in The City of New York. Title to the street has been legally acquired. Under the resolution it is proposed to improve that portion of it lying within the limits of the City. The street is occupied by a double-track trolley line, and five dwellings have been erected upon the abutting property.

The approval of the resolution is recommended, the work to be done comprising the following:

250 cubic yards excavation.
265 linear feet curbing.
1,100 square feet flagging.

The estimated cost of construction is \$800, and the assessed valuation of the property to be benefited is \$16,600.

REPORT No. 2622.

FEBRUARY 16, 1905.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Newtown District, Borough of Queens, adopted on January 11, 1905, initiating proceedings for the construction of a sewer in Fifteenth avenue, between Broadway and Jackson avenue, in the First Ward.

This resolution affects a length of two blocks of Fifteenth avenue, proceedings to acquire title to which, between Jackson avenue and the East river, were authorized by the Board of Public Improvements on July 31, 1901, the same now being in progress. The oaths of the Commissioners of Estimate and Assessment were filed on November 14, 1903. On March 25, 1904, the grading of the northerly block between Broadway and Graham avenue was authorized, and a resolution was adopted providing for the vesting of title to that block and an adjoining block on the north in the City on May

14, 1904. About a dozen frame houses have been erected on this block, while the property abutting on the block between Graham avenue and Jackson avenue is unimproved. The proposed sewer through the southerly block is required as an outlet for the sewer in the block between Graham avenue and Broadway.

The remaining outlet sewers have been built, and the approval of this resolution is recommended, the work to be done comprising the following:

1,355 linear feet 12-inch pipe sewer.
9 manholes.

The estimated cost of construction is \$5,100, while the assessed valuation of the property to be benefited is \$46,275.

I would recommend that title to that portion of Fifteenth avenue, between Jackson avenue and the southerly side of Graham avenue, be vested in the City on April 15, 1905.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Whereas, The Board of Public Improvements, on the 31st day of July, 1901, adopted a resolution requesting the Corporation Counsel to acquire title, wherever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending Luyster street (now Fifteenth avenue), from Jackson avenue to the bulkhead line in the East river, in the Borough of Queens, City of New York; and

Whereas, Commissioners of Estimate and Assessment have been appointed by the Supreme Court in proceedings to acquire title to said Luyster street, and the oaths of said Commissioners of Estimate and Assessment were duly filed as required by law on the 14th day of November, 1903; therefore be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 990 of the Greater New York Charter, directs that upon the 15th day of April, 1905, the title to each and every piece or parcel of land lying within the lines of said Fifteenth avenue (formerly Luyster street), between Jackson avenue and the southerly side of Graham avenue, in the Borough of Queens, City of New York, so required, shall be vested in The City of New York.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Newtown District, Borough of Queens, adopted on January 28, 1904, initiating proceedings for the construction of a sewer in Hallett street, between Flushing and Hoyt avenues, in the First Ward.

Title to Hallett street through the block affected by this resolution has never been acquired under formal proceedings, but the resolution is accompanied by a report from

the Topographical Engineer of the Borough stating that "to all appearances it has been dedicated to public use." A roadway is in use through the block and a large number of brick and frame dwellings have been erected upon the abutting property. While it is not shown that the street has been dedicated to public use for its full width, I believe there can be no question as to the existence of a sufficient easement to permit of the construction of the proposed sewer.

The outlet sewer has been built, and the approval of the resolution is recommended, the work to be done comprising the following:

805 linear feet 12-inch pipe sewer.
6 manholes.

The estimated cost of construction is \$2,900, and the assessed valuation of the property to be benefited is \$85,100.

SIR—Herewith is transmitted a resolution of the Local Board of the Newtown District, Borough of Queens, adopted on June 8, 1904, initiating proceedings for the construction of a sewer in Prospect street, between Jane street and Payntar avenue.

This resolution affects a length of two blocks of Prospect street, the dedication of which to public use was established on January 20 last, on which date the work of grading, curbing and flagging this street between the same limits was authorized. There are a large number of buildings upon each of the blocks affected by the resolution.

The outlet sewer has been built, and the authorization of the improvement is recommended, the work to be done comprising the following:

1,060 linear feet 12-inch pipe sewer.

9 manholes.

The estimated cost of construction is \$4,000, and the assessed valuation of the property to be benefited is \$64,150.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

In the Board of Estimate and Apportionment.

A copy of a resolution of the Local Board of the Newtown District, duly adopted by said Board on the 8th day of June, 1904, and approved by the President of the Borough of Queens, on the 8th day of June, 1904, having been transmitted to the Board of Estimate and Apportionment as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"To construct a sewer and appurtenances in Prospect street, from Jane street to Payntar avenue, in the First Ward of the Borough of Queens,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$4,000; and a statement of the assessed value, according to the last preceding tax-roll, of the real estate included within the probable area of assessment, to wit, the sum of \$64,150, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized. And this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

SEWER IN WILLOW STREET, QUEENS.

The following resolution of the Local Board of Newtown, Borough of Queens, and report of the Chief Engineer were presented:

In the Local Board of the Newtown District.

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Queens; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same, and give a full hearing thereon; now therefore it is Resolved, by the Local Board of the Newtown District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

To construct a sewer and appurtenances in Willow street, between North William street and Trowbridge street, northerly 200 feet, in the First Ward of the Borough of Queens.

And it is hereby further

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Adopted by the Local Board of the Newtown District on the 8th day of June, 1904, Aldermen Koch and McCarthy, and Joseph Cassidy, President of the Borough, voting in favor thereof.

Attest:

Geo. S. Jervis, Secretary.

Approved this 8th day of June, 1904.

JOS. CASSIDY,

President of the Borough of Queens.

REPORT No. 2618.

FEBRUARY 16, 1905.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Newtown District, Borough of Queens, adopted on June 8, 1904, initiating proceedings for the construction of a sewer in "Willow street, between North William and Trowbridge streets, northerly 200 feet."

The evident intent of this resolution is to provide for the completion of the sewer in this block. Title to the street has never been acquired under formal proceedings, but on August 7, 1902, on which date the laying of flagging was authorized, the dedication of the street to public use was established. There are several small frame houses on the block.

The outlet sewer has been built, and the approval of the resolution is recommended, amending the same, however, to provide for the construction of a sewer between North William and Trowbridge streets and omitting the words "northerly 200 feet."

The work to be done comprises the following:

200 linear feet 12-inch pipe sewer.

2 manholes.

The estimated cost of construction is \$1,000, and the assessed valuation of the property to be benefited is \$30,100.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

In the Board of Estimate and Apportionment.

A copy of a resolution of the Local Board of the Newtown District, duly adopted by said Board on the 8th day of June, 1904, and approved by the President of the Borough of Queens on the 8th day of June, 1904, having been transmitted to the Board of Estimate and Apportionment as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"To construct a sewer and appurtenances in Willow street, between North William street and Trowbridge street, northerly 200 feet, in the First Ward of the Borough of Queens,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$1,000; and a statement of the assessed value, according to the last preceding tax-roll, of the real estate included within the probable area of assessment, to wit, the sum of \$30,100, having also been presented it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized. And this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

REGULATING AND GRADING DELANCEY STREET, MANHATTAN.

The following communication from the President of the Borough of Manhattan was presented, and the matter was referred to the Chief Engineer:

CITY OF NEW YORK,
OFFICE OF THE PRESIDENT OF THE BOROUGH OF MANHATTAN,
CITY HALL, March 3, 1905.

JAMES W. STEVENSON, Esq., Secretary, Board of Estimate and Apportionment:

DEAR SIR—I would request that the question as to what portion of the cost of regulating, grading and paving of Delancey street, as widened, from Suffolk street to the Bowery, shall be assessed upon the abutting property-owners, be brought before the Board of Estimate and Apportionment, as in the Board's resolutions providing for this work no mention is made as to how the assessment is to be distributed.

I would call the Board's attention to the fact that 30 per cent. of the cost of acquiring the additional land on the south side of Delancey street, made necessary so as to obtain a suitable bridge approach to the Williamsburg Bridge, will be paid for by the people in this vicinity, and in view of the fact that the Board has decided that the approach to the Williamsburg Bridge, between Spring and Broome streets, and extending from the Bowery west to Elm street, shall be paid for by the City at large without a local assessment, I think that this matter of the cost of regulating, grading and paving should be equitably dealt with by providing that the charge made for this work shall be paid for out of the general funds, and not by local assessment.

Yours truly,

JOHN F. AHEARN, President.

APPROVED PAPERS.

The following communication from the Assistant Secretary was placed on file:

BOARD OF ESTIMATE AND APPORTIONMENT,

DEPARTMENT OF DOCKS AND FERRIES.

TRANSACTIONS.

OF THE

DEPARTMENT OF DOCKS AND FERRIES DURING THE WEEK ENDING FEBRUARY 9, 1905.

The following permits were granted:

February 3. Tchoupitaulas Yacht Club—

To use and occupy a plot of ground at Broad Channel, Jamaica Bay, Borough of Queens, containing an area of 2,500 square feet, with the privilege of maintaining a house thereon, rental to be at the rate of \$30 per annum, payable in advance, the permit to commence May 1, 1905, and to terminate April 30, 1906, unless sooner revoked.

February 7. Old Dominion Steamship Company—

To substitute the steamship "Monroe" in berth heretofore occupied by the steamer "Jamestown," at the East Nineteenth Street Pier, rental to be at the same rate as heretofore charged, namely, \$5 per day, payable at the end of each week to the Dock Master; permit for the berthing of the steamer "Jamestown" being revoked to take effect as of February 5, the date upon which the steamer was removed from the pier.

February 7. Requa & Duell—

To berth the propeller "A. Brearley" on the north side of the Canal Street Pier 33, North river, during the steamboat season of 1905, rental to be at the rate of \$5 per day, payable at the end of each week to the Dock Master of the district, the permit being revocable at the pleasure of the Commissioner.

February 8. Pennsylvania, New York and Long Island Railroad Company—

To construct an extension to the East Thirty-third Street Pier, East river, out to the present pierhead-line, in accordance with plans to be first submitted to and approved by the Engineer-in-Chief, upon condition that the extension will be constructed by the company at its sole cost and expense, and that the same will revert to and become the property of the City free from all incumbrances upon the expiration or sooner termination of the lease of the existing pier, and that the company will pay as rental for the use of the extension and for the use of the land under water covered thereby the sum of \$400 per annum over and above the rental of \$3,600 per annum now charged, the additional rental to commence as soon as the extension is completed and ready for occupancy, and to be payable quarterly in advance to the Cashier.

February 8. New York and Cuba Mail Steamship Company—

To remain in occupation of Pier, old 18, East river, until the work of removing the said pier is commenced, rental to be at the rate of \$12,000 per annum, to commence as of February 1, 1905, the company having been in possession of the premises since that date, said rental to be payable at the end of each month to the Cashier, and the permit being revocable at the pleasure of the Commissioner.

February 8. C. H. Mallory & Co., agents for the New York and Texas Steamship Company—

To remain in occupation of Piers, old 19 and old 20, East river, with bulkhead between said piers, until such time as the same are to be removed, rental for the easterly half of Pier, old 19, the westerly half of Pier, old 20, and the bulkhead between said piers, to be at the rate of \$15,500 per annum, to commence as of February 1, 1905, the date on which title to the property vested in the City, and to continue until such time as the Department commences the removal of Pier, old 19; the use of Pier, old 19, the westerly side of Pier, old 20, and of the bulkhead between Piers, old 19 and old 20, to be discontinued as soon as it becomes necessary to remove Pier, old 19, in connection with the work of constructing new Pier 15, a rental of \$10,000 per annum to be charged for the use of the easterly side and surface of Pier, old 20, to commence as soon as the permittees are deprived of the use of the remainder of the property, such reduced rental to continue until the entire premises are vacated; the rentals fixed to be payable to the Cashier of this Department monthly at the end of each month.

On February 4 the permit held by the O'Rourke Engineering Company for the landing of a launch at the foot of One Hundred and Thirty-eighth street, East river, Port Morris, Borough of The Bronx, was revoked, to take effect as of January 1, 1905, the landings having been discontinued on that date, as per report of the Dock Superintendent.

On February 7 the Commissioner directed that the advertising of Contract No. 879 for repairing asphalt pavement on the North and East rivers, be withdrawn and that no bids be received for the work under said contract pending the preparation of amended specifications for the work.

On February 8 the Commissioner directed that Contract No. 878 for repairing and extending the Pier foot of Thirty-fifth street, East river, be advertised for bids.

On February 8 an extension of time was granted Cooney, Eckstein & Co. to and including January 24, 1905, within which to complete the delivery of timber under Classes I. and II. of Contract No. 839.

The following amounts were ordered collected, as reported by the Engineer-in-Chief on Bureau Orders:

February 3. No. 1207—\$6.50, cost of supervising the relaying of pavement taken up to permit the location of service pipes at the approach to Pier 25, North river, and between Piers 21 and 22, North river, to be collected from the Department of Water Supply, Gas and Electricity.

February 3. No. 2856—\$5.50, cost of supervising the relaying of asphalt pavement taken up to permit the laying of electric light connection at the foot of East One Hundred and Sixteenth street, Harlem river, to be collected from the Consolidated Telegraph and Electrical Subway Company.

February 3. No. 2861—\$12.10, cost of relaying pavement taken up to permit the laying of electric light service to Pier 4, East river, to be collected from the Empire City Subway Company (Limited).

February 3. No. 2870—\$14.30, cost of relaying granite pavement taken up to permit the laying of gas service pipe at the foot of One Hundred and Thirtieth street, North river, to be collected from the Consolidated Gas Company.

February 3. No. 2942—\$93.92, cost of driving piles on the south side of the Pier foot of Eightieth street, North river, to be collected from the Catskill and New York Steamboat Company.

February 6. No. 2855—\$1,578.04, cost of making borings at the foot of Thirty-fifth street, East river, to be collected from the Pennsylvania, New York and Long Island Railroad Company.

February 6. No. 2925—\$86.58, cost of driving an additional fender pile on the north side of the West Fiftieth Street Pier, to be collected from the People's Evening Line of Steamers.

The following communications were received, action being taken thereon as noted:

From the Commissioners of the Sinking Fund—

Transmitting certified copies of resolutions adopted January 31, 1905, as follows:

(a) Approving of the acceptance of the offer of the Staten Island Rapid Transit Railway Company to sell to the City land and improvements at St. George, in the Borough of Richmond, for the sum of \$540,000, and recommending the acceptance of the offer by the Board of Estimate and Apportionment. Filed February 6.

(b) Authorizing the Commissioner of Docks to enter into an agreement with the Rapid Transit Ferry Company for the continuation of the present ferry service between the boroughs of Manhattan and Richmond, to begin as of June 1, 1904, and to terminate June 1, 1906, or sooner, at the option of the City on thirty days' notice, at an annual rental of \$12,500, the agreement to provide for the right of the City to enter upon the terminals in order to make alterations necessary for the operation of the ferry by the City. Corporation Counsel requested, February 6, to prepare necessary form of agreement.

(c) Authorizing the payment of \$125,000 for the terminal improvements at the foot of Whitehall street in the Borough of Manhattan, and the payment of \$75,000 for the terminal improvements at St. George, in the Borough of Richmond, the payments to be made at the time of the execution of the agreement. Corporation Counsel requested, February 6, to prepare the necessary forms of agreement for the purchase of the property.

(d) Authorizing the purchase of the ferryboats "Garrett" and "Castleton" for the sum of \$245,000, the purchase of the ferryboat "Southfield" for the sum of \$30,000, the purchase of the ferryboat "Westfield" for \$23,000, and the purchase of the ferryboat "Middletown" for \$22,000, said sums to be paid at the expiration or termination of the agreement for the continued operation of the ferry. Corporation Counsel

requested, February 6, to prepare the necessary agreement for the purchase of the boats.

(e) Directing that title to Pier, old 19, or Maiden Lane Pier East, to Pier, old 20, or Burling Slip Pier, West, and to the bulkhead between said piers, on the East river, and all interest therein, shall vest in The City of New York on February 1, 1905. Filed February 7.

From the Board of Estimate and Apportionment—

Transmitting certified copy of resolution adopted January 31, 1905, authorizing the Comptroller to enter into contracts for the acquisition of the land required by the City at St. George, in the Borough of Richmond, at a price not exceeding \$540,000. Corporation Counsel requested, February 6, to prepare the necessary form of agreements for the purchase of the properties.

From the Board of Aldermen—

Transmitting copy of resolution adopted January 24, 1905, authorizing the issue of Corporate Stock to the amount of \$3,000,000 for the uses and purposes of the Department of Docks and Ferries. Filed February 4.

From the Comptroller—

1. Advising that his certificate has been indorsed on Contract No. 886 for laying asphalt pavement over the decks of Piers 60 and 61, and of the Bloomfield Street Pier, North river. Filed February 3.

2. Advising that on January 31, 1905, the sum of \$100,000 was deposited in the City Treasury to the credit of the Dock Fund. Filed February 6.

3. Submitting substitution of the Empire State Surety Company as surety in the place of H. J. Rolf and L. H. Robinson on the estimate of Bernard Rolf for building a Pier at the foot of East One Hundred and Second street, Harlem river, under Contract No. 888. Consent granted for substitution February 7.

From the Corporation Counsel—

1st. Stating that in his opinion it would not be advisable to institute suit for the collection of claim of \$27.87 against Robert Rogers for repairs made to the Pier at the foot of West Twentieth street, North river, where damaged by tug "Arrow," nor for the collection of the claim against the Rogers Towing Company, amounting to \$34.70, for repairs made to the backing log on the bulkhead between Piers 57 and 58, North river, damaged by scow owned by said company. Claims ordered canceled and charged off February 4.

2d. Requesting maps of property to be acquired by the City between Twenty-second and Twenty-third street, Eleventh and Thirteenth avenues, on the North river. Furnished February 7.

From the President of the Borough of The Bronx—

Requesting copies of surveys showing the depth of water of Long Island Sound in the vicinity of City Island. Furnished February 6.

From the President of the Borough of Brooklyn—

Requesting plan of work required by the Department at the bulkhead foot of Degraw street, Gowanus canal, Borough of Brooklyn, in order to place the said bulkhead in proper condition. Plan forwarded February 8, and Michael J. Dady, contractor for the construction of the sewer at that bulkhead, so notified.

From the Department of Bridges—

1st. Requesting that the work of building the platform extension to Pier, new 32, East river, be pushed to completion as rapidly as possible. Notified, February 8, that contract for the work is now being printed.

2d. Submitting plan showing the location and construction of pier to be used by the contractor in connection with the construction of the Manhattan Bridge anchorage at the foot of Washington street, Borough of Brooklyn. Plan approved February 9.

From the Pennsylvania Railroad Company—

Requesting release of bond furnished on lease of bulkhead north of Pier, new 28, North river, which expired September 1, 1904. Notified, February 3, that all rental due under said lease was paid up to the date of expiration thereof.

From John N. Briggs—

Requesting permission to use the bulkhead between West One Hundred and Twenty-ninth and One Hundred and Thirtieth streets, North river, for ice bridge purposes as soon as the construction work thereat is completed. Filed February 3.

From the Long Island Railroad Company—

Advising that on the morning of February 2 they picked up one of the Department's scows loaded with cement and broken stone, found adrift, and towed same to the dock foot of Third street, Long Island City. Acknowledged, with thanks, February 7.

From the New York Edison Company—

Requesting permission to construct a bulkhead between the northerly side of East One Hundred and Thirty-ninth street and the southerly side of East One Hundred and Fortieth street, East river, to maintain intake and discharge tunnels through said bulkhead, to connect with its power station, and to erect and maintain coal and ash handling appliances thereat. Commissioners of the Sinking Fund requested, February 8, to authorize the granting of the permit asked for.

From the Aetna National Bank—

Requesting to be furnished with maps showing the City's ownership of water front property in the Borough of Manhattan, on the North, East and Harlem rivers, south of One Hundred and Twenty-fifth street. Maps furnished February 8, the sum of \$10 being charged therefor.

From the Engineer-in-Chief—

1. Report on Bureau Order No. 3,000, submitting plans, specifications and form of contract for building an extension to the westerly side of Pier, new 32, East river, near the foot of Pike slip. Approved February 4 and ordered printed as Contract No. 898.

2. Submitting specifications and form of contract for supplies required by the Department in connection with construction work. Approved February 6 and ordered printed as Contract No. 899.

3d. Report on Bureau Order No. 2821, submitting plans, specifications and form of contract for building Pier, new 17, on the easterly side of Fulton Ferry, East river. Approved February 7 and ordered printed as Contract No. 900.

4th. Stating that it is impracticable to construct a new Pier at the foot of One Hundred and Twenty-first street, Harlem river. Order for the preparation of plans and contract for the pier at that point canceled, February 8.

From the Superintendent of Docks—

Reporting that Pier, old 18, East river, was used for general wharfage purposes during the month of January, 1905. Filed February 9.

From the Auditor—

Recommending that a rental of \$16,000 per annum be charged the Montauk Steamboat Company for the use of Pier, old 13, the bulkhead between Piers, old 12 and old 13, and the westerly half of the bulkhead between Piers, old 13 and old 14, East river, the said rental to include the amount heretofore charged by the Department—\$764—for the use of the land under water covered by extension to Pier, old 13, East river. Recommendation adopted February 4 and rental fixed at the rate of \$16,000 per annum, to commence as of January 22, 1905, the date on which title to the property vested in the City.

The following orders were issued to the Engineer-in-Chief:

February 6. To repair boathouse at Blackwell's Island, as requested by the Department of Public Charities.

February 8. To repair sheathing on Pier 30, East river, in accordance with recommendation.

FILLING-IN PRIVILEGE.

DEPARTMENT OF DOCKS AND FERRIES, FOOT OF BATTERY PLACE, BOROUGH OF MANHATTAN, THE CITY OF NEW YORK.

SEALED BIDS OR ESTIMATES WILL BE received by the Commissioner of Docks at Pier "A," foot of Battery place, in The City of New York, until 12 o'clock noon on

SATURDAY, APRIL 15, 1905.

FOR THE RIGHT TO DUMP AND FILL IN BEHIND THE BULKHEAD WALL RECENTLY BUILT AT THE SOUTHERLY END OF THE CHELSEA SECTION AND ALSO BEHIND THE CLOSE ROW OF PILES ALONG THE NORTHERLY SIDE OF BLOOMFIELD STREET, ON THE NORTH RIVER, BOROUGH OF MANHATTAN.

TERMS AND CONDITIONS OF SALE.

The work to be done is to fill in with suitable material, as hereinafter described, the area behind the new bulkhead wall extending from the southerly side of West Fourteenth street extended southerly along the bulkhead line to the northerly side of Bloomfield street, and extending along the northerly side of Bloomfield street westerly to about the westerly side of Thirteenth avenue.

The filling will extend from the rear of the bulkhead wall or coping easterly a distance of about from 50 to 100 feet to the face or bank, as excavated in the recent dredging, or from the inshore close row of piles easterly a distance of about from 15 to 60 feet to the face or bank before mentioned. Along the northerly side of Bloomfield street the filling will extend from the close row of piles southerly a distance of about from 5 to 25 feet to the bank, as excavated in the recent dredging.

The filling will be brought to a grade level with the top of the coping of the bulkhead wall and will extend inshore on a regular grade to the top of the ground at the adjacent or inshore bank.

It is estimated that the area outlining the above-described limits will create a basin to be filled in, under this agreement, whose cubical contents in net void space is equal to 29,500 cubic yards.

Bidders will state in writing a lump sum price, which they agree to pay for the privilege of filling in the area between the southerly side of West Fourteenth street extended and Bloomfield street, and along the northerly side of Bloomfield street, as above described.

In the estimated amount given, the amount in cubic yards is arrived at without placing any allowance for shrinkage, settlement, swelling of the material or penetration into the mud.

The Department is not bound in any way by such estimate, and bidders must satisfy themselves of the actual quantity required to fill in the above-described area by examination of the premises or such other means as they may prefer, the intention of the Department being to fill in the whole of the said premises behind the bulkhead wall within the above-described limits, and no allowance will be made to the purchaser from the purchase price on account of any discrepancy which may be found between the above-estimated quantity and the actual amount of filling required. The purchaser will be required to place the filling in accordance with the following specifications:

All the filling shall, unless otherwise directed, be placed directly in the rear of the bulkhead wall and carried from the bulkhead wall toward the shore until the bank of same has been carried out at the finished grade for a distance of about 40 feet from the face of the bulkhead wall, at which time, if so directed by the Engineer, the filling shall be started at the bank and carried outshore toward the bulkhead wall or close row of piles.

All material must be dumped and filled in only in such manner, at such points and in such order of procedure and at such times and seasons as may, from time to time, be directed, and the work of filling in may be entirely suspended for such periods of time as may be directed by the Engineer. The purchaser shall have no claim for damage or for any allowance from the purchase money on account of such suspension of the work.

All directions shall be given by the Engineer, and wherever the word "Engineer" is used in these specifications it refers to and designates the Engineer-in-Chief of the Department of Docks and Ferries, or such officer or employee as may be designated by him.

Rip-rap stone coming directly on or against the bulkhead wall must be deposited carefully in such manner as will not injure the same.

All the filling, except as otherwise specified herein, shall be of ashes, cellar dirt, broken stone, etc., entirely free from garbage or any organic matter objectionable in the opinion of the Engineer.

At any section of the bulkhead wall the filling shall be brought up level with the under side of the backing log of the bulkhead wall at such section, and no higher, unless otherwise directed.

The filling shall be commenced within five days after the date of the receipt of a notification from the Engineer that the work, or any part of it, is ready to be begun, after which not less than 300 cubic yards per day shall be placed, and the whole amount of the filling called for to bring the above-described basin up to grade shall be completed within one hundred days from the date of the receipt of said notification. At the expiration of this time this agreement shall be considered closed unless a further extension of time shall be given by the Commissioner of Docks. If at any time during the progress of the work it shall be deemed necessary to order the suspension of the whole or any part of the filling, the time for completing said filling shall be extended as much as it may have been delayed by such suspension.

In case the purchaser at any time does not proceed with the work of filling in to the satisfaction of the Commissioner of Docks, the said Commissioner will at once terminate the privilege of filling in and proceed to have the remainder of the filling in done by other parties in such way and manner as he deems proper, and any loss which may result therefrom shall be charged against the principal and his surety. The purchaser shall, during the work of filling in, and at all times until the completion thereof, take all necessary precautions and place proper guards for the prevention of accidents, and put up and maintain at night sufficient lights, and he shall indemnify and save harmless The City of New York from all damages and costs to which it may be put by reason of injury to the person or property of another resulting from negligence or carelessness in the performance of the work or guarding the same, to which the surety is also bound.

No bid or estimate will be considered unless accompanied by a certified check drawn to the order of the Commissioner of Docks, or money to the amount of twenty-five per centum of the amount of the bid, which amount shall be applied in the case of the successful bidder to the first one-quarter of the amount of the filling to be deposited; twenty-five per centum to be paid when the first one-quarter of filling has been completed; twenty-five per centum additional when one-half the filling has been completed, and the balance, twenty-five per centum, when three-quarters of said filling has been completed.

A surety or guarantee company, duly authorized by law to act as surety, to be approved by the Commissioner of Docks, will be required to enter into a bond or obligation jointly and severally with the purchaser in the sum of double the amount of the purchase price as security for the satisfactory performance of said work, in accordance with the terms and conditions hereof.

The time for the delivery of the coal, wood and supplies and the performance of the contract is by or before May 1, 1906.

The bidder will state the price of item or article contained in the specifications or schedules herein contained or hereto annexed, per ton, per cord, by which the bids will be tested.

Bidders will be required to specify the mine from which they propose to supply the coal called for.

Bids must be submitted for each District and each Borough, and separately for coal and wood.

Contracts will be awarded to the lowest bidder.

The Board of Education reserves the right to award contracts for coal and wood by Districts or by Boroughs, if deemed for the best interests of the City.

Delivery will be required to be made at the time and in the manner and in such quantities as may be directed.

Blank forms and further information may be obtained at the office of the Superintendent of School Supplies, Board of Education, the Borough of Manhattan, southwest corner of Park avenue and Fifty-ninth street.

PATRICK JONES,

Superintendent of School Supplies.

NOTICE OF ASSESSMENTS FOR OPENING STREETS AND PARKS.

IN PURSUANCE OF SECTION 1005 OF the Greater New York Charter, the Comptroller of The City of New York hereby gives public notice of the confirmation by the Supreme Court, and the entering in the Bureau for the Collection of Assessments and Arrears, of the assessment for **ACQUIRING TITLE** to the following-named public place or square in the **BOROUGH OF THE BRONX**:

TWENTY-THIRD WARD, SECTION 9.
ACQUIRING TITLE TO PUBLIC PLACE OR SQUARE lying southerly of East One Hundred and Thirty-eighth street, bounded by **EAST ONE HUNDRED AND THIRTY-EIGHTH STREET, MOTT AVENUE AND RAILROAD AVENUE, EAST.** Confirmed January 30, 1903, and August 3, 1904; entered March 27, 1905. Area of assessment includes all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point formed by the intersection of a line drawn parallel to the southerly line of that portion of East One Hundred and Thirty-eighth street, lying east of Mott avenue and distant 100 feet southerly from the southerly apex of the Public Place at East One Hundred and Thirty-eighth street and Park avenue with a line drawn parallel to and distant 100 feet westerly from the westerly line of Mott avenue; thence northerly along said parallel line to its intersection with the southerly line of East One Hundred and Thirty-eighth street; thence on a straight line to a point 100 feet north of the southerly line of East One Hundred and Thirty-eighth street and midway between Walton and Mott avenues; thence easterly along a line parallel to and distant 100 feet northerly from the northerly line of East One Hundred and Thirty-eighth street to its intersection with the northerly prolongation of the westerly line of Canal street west; thence southerly along said prolongation and line of Canal street west to its intersection with a line drawn parallel to and distant 100 feet easterly from the easterly line of that portion of Park avenue (Railroad avenue, East) lying west of East One Hundred and Thirty-eighth street; thence southerly along said parallel line to its intersection with aforesaid line parallel to that portion of East One Hundred and Thirty-eighth street lying east of Mott avenue; thence westerly along said parallel line to the point or place of beginning.

The above-entitled assessment was entered on the date hereinafter given in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents. Unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment, interest will be collected thereon, as provided in section 1006 of the Greater New York Charter.

Said section provides that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears, at the Bureau for the Collection of Assessments and Arrears of

Taxes and Assessments and of Water Rents, in the Municipal Building, corner of One Hundred and Seventy-seventh street and Third avenue, Borough of The Bronx, between the hours of 9 A. M. and 2 P. M., and on Saturdays from 9 A. M. to 12 M., and all payments made thereon on or before May 26, 1905, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessment became a lien to the date of payment.

CONDITIONS OF SALE.

As provided for by the Greater New York Charter.

1. Proposals containing conditions other than those herein set forth will not be received or considered.

2. No proposal for bonds or stock shall be accepted for less than the par value of the same.

3. Every bidder, as a condition precedent to the reception or consideration of his proposal, shall deposit with the Comptroller in money, or by a certified check drawn to the order of said Comptroller upon a solvent banking corporation, two per cent. of the par value of the bonds or stock bid for in said proposal.

No proposal will be received or considered which is not accompanied by such deposit.

All such deposits shall be returned by the Comptroller to the persons making the same within three days after the decision has been rendered as to who is or are the highest bidder or bidders, except the deposit made by the highest bidder or bidders.

4. If said highest bidder or bidders shall refuse or neglect, within five days after service of written notice of the award to him or them, to pay to the City Chamberlain the amount of the bids or stock awarded to him or them at its par value, together with the premium thereon, less the amount deposited by him or them, the amount or amounts of deposit thus made shall be forfeited to and retained by said City as liquidated damages for such neglect or refusal, and shall thereafter be paid into the Sinking Fund of The City of New York for the Redemption of the City Debt.

5. Upon the payment into the City Treasury by the persons whose bids are accepted of the amounts due for the bonds or stock awarded to them respectively, certificates thereof shall be issued to them in such denominations provided for by the Charter as they may desire.

6. It is required by the Charter of the City that "every bidder may be required to accept a portion of the whole amount of bonds or stock bid for by him at the same rate or proportional price as may be specified in his bid; and any bid which conflicts with this condition shall be rejected, provided, however, that any bidder offering to purchase all or any part of the bonds offered for sale at a price at par or higher may also offer to purchase all or none of said bonds at a different price, and if the Comptroller deems it to be in the interests of the City so to do, he may award the bonds to the bidder offering the highest price for all or none of said bonds; provided, however, that if the Comptroller deems it to be in the interests of the City so to do, he may reject all bids." Under this provision, the condition that the bidder will accept only the whole amount of bonds or stock bid for by him, and not any part thereof, cannot be inserted in any bids, except those for "all or none" offered by bidders who have also bid for "all or any part" of the bonds or stock offered for sale.

7. It is also provided by the Charter that these bonds and stock, if issued in registered form, may be issued in denominations of ten dollars or any multiple thereof; and that "preference shall so far as practicable, and without pecuniary disadvantage to the City, be given to applicants for the smallest amounts and smallest denominations of said bonds and stock in issuing the same."

8. Bonds or stock issued in Coupon form can be converted at any time into Registered Bonds or Stock, and Bonds or Stock issued in Registered form can be converted at any time into Coupon Bonds or Stock in denominations of \$1,000.

9. The proposals, together with the security deposits, should be inclosed in a sealed envelope, indorsed "Proposals for Bonds of The City of New York," and said envelope inclosed in another sealed envelope, addressed to the Comptroller of The City of New York.

SUPREME COURT.

FIRST DEPARTMENT.

In the matter of the application of the Mayor, Aldermen and Commonalty of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the purpose of opening AUDUBON AVENUE (although not yet named by proper authority), from One Hundred and Seventy-fifth street to Fort George avenue, in the Twelfth Ward of The City of New York.

WE, THE UNDERSIGNED, COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants, of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our supplemental and amended estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 2d day of May, 1905, and that we the said Commissioners will hear parties so objecting, and for that purpose will be in attendance at our said office on the 4th day of May, 1905, at 2 o'clock P. M.

Second—That the abstract of our said supplemental and amended estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making our report, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan in said City, there to remain until the 13th day of May, 1905.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Manhattan, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point formed by the intersection of the northwesterly prolongation of the middle line of the blocks between West One Hundred and Sixty-fourth street and West One Hundred and Sixty-fifth street with a line parallel to and 100 feet northwesterly from the northwesterly line of Eleventh avenue (Boulevard); running thence northeasterly along said parallel line to its intersection with the westerly line of Kingsbridge road; thence, continuing northeasterly along a straight line to the point formed by the intersection of the easterly line of Kingsbridge road with a line parallel to and 100 feet northwesterly from the northwesterly line of Eleventh avenue; thence continuing northeasterly along said parallel line to its intersection with the middle line of the block between West One Hundred and Eighty-ninth street and West One Hundred and Ninetieth street; thence northwesterly along said middle line of the block and its prolongation to its intersection with a line parallel to and 100 feet northwesterly from the northwesterly line of Wadsworth avenue; thence northeasterly along said parallel line to its intersection with a line parallel to and 100 feet southeasterly from the southeasterly line of Fairview avenue; thence southwesterly, westerly and northwesterly along said line parallel to Fairview avenue to its intersection with the southeasterly line of Kingsbridge road; thence northeasterly along said southeasterly line of Kingsbridge road to its intersection with a line parallel to and 100 feet northeasterly from the northwesterly line of Fairview avenue; thence southeasterly, easterly, northeasterly and again southeasterly along said line parallel to Fairview avenue and its prolongation to its intersection with a line parallel to and 100 feet northerly from the northerly line of Fort George avenue; thence easterly, northeasterly, easterly, southeasterly and southerly following the windings of Fort George avenue along said last mentioned parallel line and southwesterly along a line parallel to and 100 feet southeasterly from the southeasterly line of Amsterdam avenue to its intersection with the middle line of the block between West One Hundred and Sixty-fourth street and West One Hundred and Sixty-fifth street; thence northwesterly along said middle line of the block to the point or place of beginning; excepting from said area all streets, avenues and roads or portions thereof heretofore legally opened, as such area is shown upon our benefit maps deposited as aforesaid.

Fourth—That our report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III., to be held in the County Court-house, in the Borough of Manhattan, in The City of New York, on the 22d day of June, 1905, at the opening of the Court on that day.

FIRST DEPARTMENT.

In the matter of acquiring title by The City of New York to certain lands and premises situated on JACKSON AVENUE, HOME STREET AND BOSTON ROAD, in the Borough of The Bronx, duly selected as a site for school purposes, according to law.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Appraisal in the above-entitled matter, hereby give notice to the owner or owners, lessee or lessees, parties or persons respectively entitled to or interested in the lands, tenements, hereditaments and premises, title to which is sought to be acquired in this proceeding, and to all others whom it may concern, to wit:

First—That we have completed our estimate of the loss and damage to the respective owners, lessees, parties and persons respectively entitled to or interested in the lands and premises affected by this proceeding, or having any interest therein, and have filed a true report or transcript of such estimate in the office of the Board of Education of The City of New York, at their office, situated at the southwest corner of Fifty-ninth street and Park avenue, in the Borough of Manhattan, in said City, for the inspection of whomsoever it may concern.

Second—That all parties or persons whose rights may be affected by the said estimate, or who may object to the same, or any part thereof, may, within ten days after the first publication of this notice, April 6, 1905, file their objections, in writing, with us, the said Commissioners, at our office, Room 401, No. 258 Broadway, in the Borough of Manhattan, in The City of New York, and we, the said Commissioners, will hear parties so objecting at our said office on the 18th day of April, 1905, at 11 o'clock in the forenoon of that day, and upon such subsequent days as may be found necessary.

Dated New York, April 4, 1905.
T. CHANNON PRESS,
FRANKLIN QUINBY,
ALBERT ELTERICH,
Commissioners.

JOSEPH M. SCHENCK,
Clerk.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
